Subject: NRI

Good morning Toni. Please see email below that highlights the challenges with NRI. Several providers have spoken directly to us regarding their inability to get referrals. TASC most recently shared their concerns with Justin.

I am very concerned that the lack of service outcomes for youth and families not connected to IDJJ's Aftercare workers may jeopardize the continued funding of NRI or specifically the reentry piece.

As you know DJJ has limited funding to develop community-based resources and we are currently depending heavily on the NRI providers at this time. A total of 67 IDJJ youth have been referred with 21 paroled youth receiving services. Those that have been referred, but not yet receiving services, will do so once they are paroled.

Please confirm that we are meeting Monday, November 14th, at 2pm to discuss this.

"MINIMUM STANDARDS SHOULD NOT BE OUR STANDARDS"
