13	The multi-company training project(s) will enable participating companies to expand their business enterprise in Illinois, expand their business into new markets and introduce more efficient technologies/continuous improvement systems into their operations in order to remain competitive. In addition, training will enable participating employees to upgrade their skills and knowledge.
14	Training for company/facility owners in the Kinzie Industrial Corridor and Greater Chicagoland on essentials of energy efficiency practices and products.
15	Instituto del Progreso Latino is a non profit organization serving low-income residents in metropolitan Chicago. Grant funds will support computer access and technology training programs that support workforce development and education outcomes.
16	Grant funds will be used for the purchase costs of a building and land located at 2518-2534 South Western Avenue, and for the purchase costs of adjacent land located at 2501 South Artesian Avenue, in Chicago. The Grantee will further utilize Grant funds to renovate the existing building on the 2518-2534 South Western Avenue property and for additional construction at this site, all for the Instituto Health Sciences Career Academy (IHSCA) and parking area.
17	The main purpose of the project is to build capacity in the health care industry, through the piloting and implementation of a first year orientation to health-science careers course. It is the intent of this course to introduce students to the wide-range of opportunities that exist in the healthcare industry and to motivate them (through the use of contextualized instruction) to enhance their reading and math skills and puruse their use in a career in the health-sciences.
18	Design and plan the implementation of career awareness content in the health-science cluster, career orientation content at the 9th and 10th grade level in health sciences, and pre-requisite courses for postsecondary health-science programs.
