Mr. Ocasio,
Attached are files with the lists of service providers you requested, as well as a map of each community with the providers labeled. As you will see on the spreadsheet, we have included both contracted and non-contracted providers. The field "DCFS Contract" reflects the provider's response that they do or don't have a current DCFS contract as of the last time we spoke with them. This has not been cross-checked with our contracts database (the two are not related) so the DCFS contract status of these providers may have changed in the last budget cycle and not yet have been captured in SPD.

Please let me know if you have any questions about the attached documents.
Thanks
Dana

That sounds great I also like the maps, but need the list first. I need a list of all organizations servicing those areas.

Thank you

Sure. The maps I sent were intended to be examples of the way we can visually display the information you requested. If you prefer lists to maps, we'll get started on that right away. So, you'd like lists of the providers in Roseland, North Lawndale, Humboldt Park, and Englewood and the types of programs offered at each location?

Mr. Ocasio

Dana was on vacation all last and i will check with her to see if she has sent you the list.

Thank you for providing the maps on community assets, it is very helpful. I understand that you don't have the funding, but can you provide us a list of the providers by community area.

Mr. Ocasio,
We have done quite a bit of work with community asset mapping using the database that Director McEwen mentions. While we don't have the amount of funding for these providers, we can display them along with the local schools, health centers, libraries, etc to give a good picture of the resources available in given communities. I've attached examples of

maps we've prepared for previous requests. Please feel free to give me a call to discuss how we might tailor your maps to your needs.
Thanks
Dana

Mr. Ocasio

We at DCFS have a statewide provider data base that can identify resources by community. I am having Dr. Weiner who oversees this project to have her staff run the providers for you by area.

Can you run the statewide provider data base for a listing of services in these communities.

Importance: High

Directors,

We are working on the Governor's Anti-violence plan. In formulating our plan, it would be beneficial if we knew what not-for-profits agencies our being funded in the following communities:

1. Roseland
2. North Lawndale
3. Humboldt Park
4. Englewood

We would need the names of the organizations, amount of funding and to address what issues. We want to show that there is capacity/assets within these communities. Feel free to call me on my cell [redacted]

Thank you,
