Subject:	Re: Call

Safety Networks was a pre-existing program that was in most of the NRI sites providing a variety of services. When NRI began IVPA put SNW in the rest of the NRI sites. The SNW funding was eliminated. As of now Barbara is not aware that SNW has not been any part of the discussion about NRI's new incarnation. She wanted to know whether any of the current funding would be used for SNW. I did not feel at liberty to comment. She is concerned about her staff working on SNW and would like to be able to let them know whether they will be out of a job. Can I tell her that SNW will not be funded?

Also any idea when I will get the final numbers?

Jack
