I have a doctor's appt on 8/24 in the afternoon, but if your schedule is tight I can reschedule the doctor.

The victim services group sets goals, objectives and priorities for the two victim grant funds that we administer. Federally established purpose areas for neither grant allow for spending on prevention but rather are aimed entirely at providing services to victims. It is the other side of the coin therefore from violence prevention but in that sense, it is wrap-around.

The summit that we are holding 9/22&23 will be addressing violence prevention among many other things. Who has been working on the Governor's violence prevention plan? Has it just been IVPA? ICJIA probably should be, or have been, part of it.

We need to reschedule the update meeting that was canceled. Are you available on the afternoon of 8/24?

Also, the Gov is working on a wrap around plan for violence prevention to release in the next couple of weeks. Please let me know to what extent the victim services agenda overlaps with programs and activities that would fit in the anti violence plan.

Thanks,

I will be in Chicago Wednesday but that is the first day of 1 1/2 days of meetings of our Ad Hoc Victim Services Committee meeting at which we are developing a multi-year plan for victim services and funding.
