New Act

Creates the Public University Uniform Admission Act. Requires each public university in this State to admit first-time freshman applicants as undergraduate students if the applicant graduated with a grade point average in the top 10% of the student's high school graduating class in one of the 2 school years preceding the academic year for which the applicant is applying for admission and (1) the applicant graduated from an accredited public or private high school in this State or from a high school operated by the United States Department of Defense; (2) the applicant successfully completed the minimum college preparatory curriculum requirements for admission to the university or satisfied the ACT's College Readiness Benchmarks on the ACT college admission assessment applicable to the applicant or earned on the SAT college admission assessment a score of at least 1,500 out of 2,400; and (3) if the applicant graduated from a high school operated by the United States Department of Defense, the applicant is a State resident or is entitled to pay tuition fees at the rate provided for State residents. Provides that the University of Illinois at Urbana-Champaign is not required to offer admission to applicants who qualify for automatic admission in excess of the number required to fill 75% of the university's enrollment capacity designated for first-time resident undergraduate students in an academic year. Sets forth other provisions concerning the University of Illinois at Urbana-Champaign. Sets forth other provisions concerning admissions. Provides for additional preparation for college, student outreach, and rulemaking.

Fiscal Note (Illinois Board of Higher Education)

Assuming the provisions of HB 230 would operate under existing capacity levels, it appears that the increased number of mandated entering freshmen students would off-set other eligible entering freshmen and the cost of instruction would generally remain the same. However, depending on the financial profile of the freshmen included under the guidelines presented in HB 230, financial aid costs could increase, although specific estimates are undeterminable at this time. The Illinois Board of Higher Education's FY2016 Weighted Average Tuition Report indicated an entering freshman class of 34,760 for the current academic year.

Creates the Underrepresented Groups in Academia Task Force within the Board of Higher Education to examine strategies to grow underrepresented groups in institutions of higher education and to ascertain the viability of increasing the number of laboratory schools in the State and creating State-owned and operated trade schools.

Fiscal Note (Illinois Board of Higher Education)

According to House Joint Resolution 2, members of the Underrepresented Groups in Academia Task Force shall serve without compensation. Although some costs might be incurred to the Illinois Board of Higher Education in order to provide support for the Task Force, such costs would most likely be minimal. Expanding services and programs for underrepresented students can provide opportunities for a more marketable skill set that lends itself to enhancing the growth and economic viability of the State of Illinois. The Illinois Board of Higher Education has also been in discussions about developing a conference specifically focused on assisting underrepresented student populations at both public and private institutions. The Underrepresented Groups in Academia Task Force could help to promote this cause as well and/or connect its work to such a forum.

State Debt Impact Note (Government Forecasting & Accountability)

Fiscal Note (Dept. of Commerce & Economic Opportunity)

The bill does not indicate a funding source for the Trade Policy Task Force other than specifying that expenses shall be the responsibility of the Department of Commerce and Economic Opportunity. Unless a special task force appropriation was provided, the expenses below would be classified as General Revenue Fund for one agency: (1) Cost for 28 members of the task force to spend 2 nights in Chicago for 1 meeting = $17,500; (2) Cost for 28 members of the task force to spend 4 nights for 2 meetings in Springfield = 20,944; (3) Estimated cost for a consultant to assist the Task Force = $50,000; (4) Estimated final report printing costs (50 or more copies) = $2,500; Total Estimate based on assumptions and available information = $90,944
