Updated word document, large agency sheets (one file with a tab per agency) and TableTrack

There are still a few agencies missing, highlighted in yellow for Table IA. We are looking through the bills again but it is likely that the Senate missed them.

Is there a more updated version today? Can you send me the current updated table track?

Here's the Word doc we have so far. It's not finished, but you can start with this. As for the line items, our analysts will need to put the agency budgets in a standardized format. That will be ready tomorrow morning.

Can you send us the Senate Appropriations bills so we can see the line items? We have a lot of analysis to do as we go into our next round of discussions. Thanks.
