The Legislative Research Unit is the central general research agency for the General Assembly. A board of 12 legislators, appointed by the Joint Committee on Legislative Support Services, supervises its operations.

A staff of researchers handles inquiries from legislators, legislative committees, and partisan staff. The staff's areas of expertise include law generally, science and technology, taxation, education, local government, economics and fiscal affairs, and the political and social history of Illinois.

Federal Funds to State Agencies

FY 2005–FY 2007

Annual Report to the Illinois General Assembly
SIXTEENTH EDITION

May 2007

Publication No. 330

Prepared by

Dianna Jones, Graphic Artist

The Legislative Research Unit compiled the information in this volume from a comprehensive survey of all Illinois state agencies. The publication of *Federal Funds to State Agencies, FY 2005-FY 2007* would not have been possible without the cooperation and support of many program managers, budget analysts, and state agency directors. Although it is not possible to list every individual's name, we are grateful to all for their contribution.

Foreword

The *Illinois Compiled Statutes* require the Legislative Research Unit to compile and maintain information on federal aid programs administered by Illinois state agencies, and to report to the Illinois General Assembly on those programs. *Federal Funds to State Agencies, FY 2005-FY 2007*, the sixteenth edition of this report, is submitted by the Legislative Research Unit to fulfill this responsibility.

This edition includes program descriptions and outlay information, as well as sections to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table indicates which state programs are supported and what areas and populations of Illinois are served by the federal grants.

It is the hope of the Legislative Research Unit that this handbook will be a useful resource for legislators in enhancing their understanding of federal assistance.

Patrick D. O'Grady
Executive Director

INTRODUCTION

The Legislative Research Unit, a bipartisan support agency of the General Assembly, has the responsibility of serving as the “. . . information center for the General Assembly in the field of federal-state relations, . . . and compiling and maintaining current information on available and pending federal aid programs.” [25 ILCS 130/4-2] In meeting this responsibility, the Legislative Research Unit records and tracks applications for, and awards of, federal grants to state agencies. In addition, the Legislative Research Unit conducts an annual survey designed to identify federal aid funds received by Illinois state agencies.

This Federal Funds to State Agencies (FFSA) report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that are received by state agencies. The FFSA report augments the information provided in the Legislative Research Unit’s weekly reports of federal fund transactions by listing federal aid awards on a state or federal fiscal year basis and including descriptive program information. The weekly report goes only to the agencies that have submitted applications in that particular week. It is hoped that this information will help legislators and legislative staff develop a clearer understanding of the federal programs used by Illinois state agencies, and of the levels at which those programs are being funded.

The Legislative Research Unit is also required to report annually to the General Assembly on the adequacy of state agency participation in programs financed by federal aid and the nature of federal aid programs in which state agencies or local governments did not participate, and to make recommendations. [25 ILCS 130/4-2(i)(c)]

Adequacy of Participation in Federal Aid Programs

Each state agency, in its budgetary process with the General Assembly, reports evaluation and funding data as required. Through this process, the General Assembly receives information on the adequacy of programs financed by federal aid in the State. The Legislative Research Unit, as requested or assigned by members of the General Assembly, produces special reports relative to federal funds.

Identification of New Federal Funds (Types and Nature of Programs Not Applied For)

The Legislative Research Unit works closely with the Illinois Federal Clearinghouse in the Governor’s Office to identify and make information available on federal aid programs that may provide resources for state agencies and local governments. Extensive Clearinghouse information, including referrals to Legislative Research Unit’s publications, such as Grant Alerts, is available on the Internet at www.ilga.gov. Grant Alerts is also published monthly and mailed to potential grant users throughout the state.

Recommendations

The Legislative Research Unit will make recommendations as deemed appropriate.

Overview

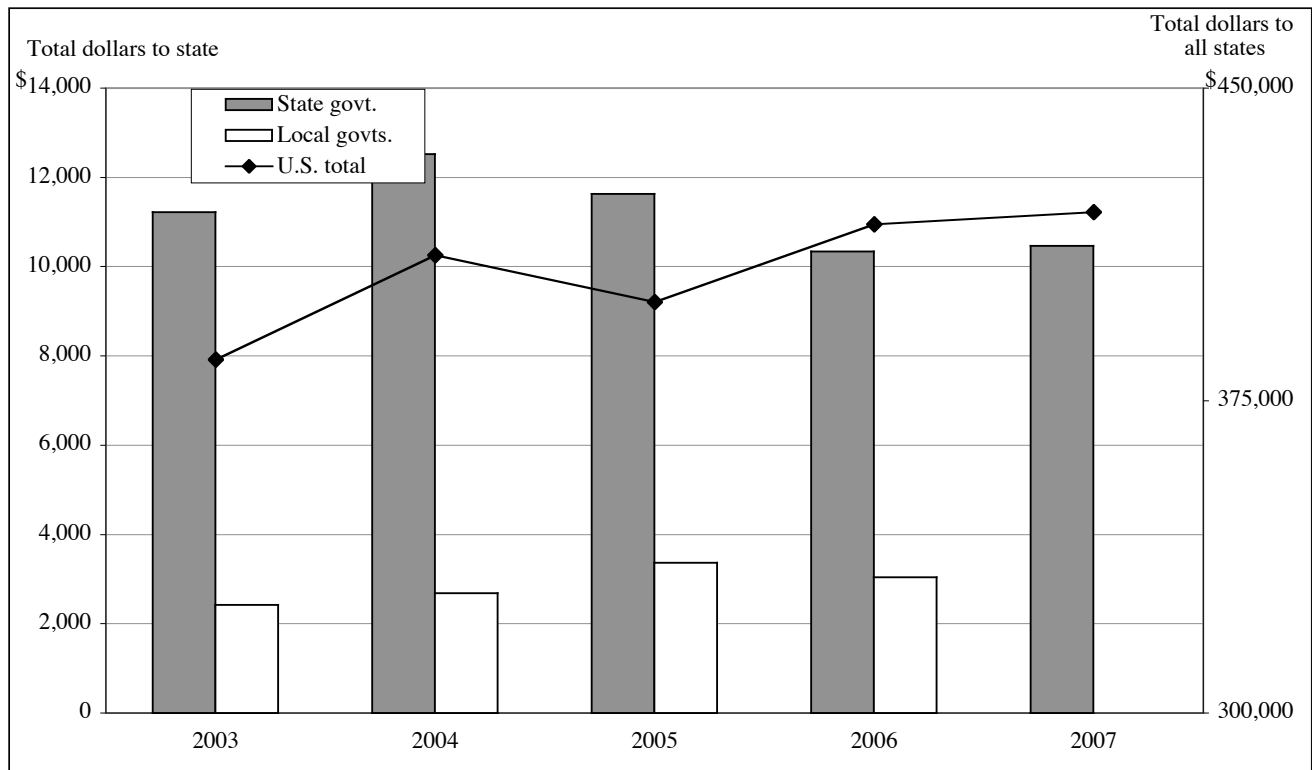

Illinois state agencies participate in approximately 355 federal programs per year. During the past few years, federal grant awards for the programs used by state agencies have continued to increase, following the trend in expenditures for total U.S. grants. (See Figure 1) In FY 2006, these awards totaled \$11.5 billion but were estimated to increase to \$11.7 billion in FY 2007. The figures in Table 1 below represent what is federally appropriated. The totals do not include any supplemental funds that might be added at the end of a fiscal year. A closer look at the federal aid table in Appendix B reveals that the net \$200 million difference from FY 2006 to FY 2007 is a mix of increases and decreases. Congress has increased some programs, while other programs have been reduced or eliminated.

Figure 1: Federal Grants to Illinois Governments, FY 2003-2007 (\$ in millions)

Some of the major increases in federal funds from FY 2006 to FY 2007 include the State Homeland Security program administered by the Illinois Emergency Management Agency; the Department of Healthcare & Family Services' Child Support Enforcement (Title IV-D) program; the Department of Transportation's Airport Improvement program; and the Environmental Protection Agency's Capitalization Grants for Clean Water State Revolving Funds program.

Programs with substantial reductions include the Low-Income Home Energy Assistance program, administered by the Department of Healthcare and Family Services; the Department of Transportation's Safety Belt Performance Grant; and the Department of Healthcare & Family Services' State Children's Insurance Program.

Using This Handbook

The federal programs in this handbook were included if the funds were received directly from the federal government or a non-state agency (such as a consortium of states that receive federal monies for a particular project or a national study group that pays the state agency for research or services). Programs in which a state agency received funds from another state agency (subgrants) have been excluded to avoid "double counting" or falsely inflating the dollar totals. However, Appendix C on subgrants has been added to indicate the flow of federal funds from some state agencies to others.

The program descriptions in FFSA are preceded by a table of contents that lists the federal programs used by state agencies from FY 2005 through FY 2007. This table will help finding the location of the federal program descriptions as well as indicate which groups of federal programs are used by each state agency. Tables showing federal aid award totals by state agency are appended. Programs within each agency are listed by the numbers assigned to them by the U.S. Office of Management and Budget (OMB) in their *Catalog of Federal Domestic Assistance*. Descriptions of each program include the proper name, program description (objectives and services provided or supported), formula description, matching requirements, account identification number (federal), and a table illustrating the outlays to Illinois for FY 2005, FY 2006, and FY 2007.

This FFSA handbook contains two sections of state information to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table identifies which state programs are supported and what areas and populations of Illinois are served by the federal grants. (See the example below.)

State Programs Supported	Pop. Served	Area
Economic Development	General	Statewide
Illinois State Resource Center	2 million	Statewide
Treatment Alternatives to Street Crime	4,080	Cook

Descriptions of the federal programs include their proper names, common names (where appropriate), and five-digit identifying numbers (referred to as OMB catalog numbers) as listed in the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*. Each OMB catalog number serves to identify a federal program and the administering federal agency. In a few instances where federal programs are not listed in the *Catalog of Federal Domestic Assistance*, LRU has assigned a unique identifying number. The program descriptions are arranged in ascending order by OMB catalog number. For example, the list on the next page shows the basic numbering scheme and the corresponding federal agencies.

Information Sources

The basic sources for the fiscal data included in the FFSA report are the Legislative Research Unit's annual federal aid surveys which have examined the use of federal funds by Illinois state agencies from FY 1973 until the present. The LRU has combined its survey information with information compiled through its weekly federal aid tracking system to obtain actual and estimated totals for most federal programs. The fiscal information is supplied directly by the state agencies, and it is assumed the figures are supplied in good faith and are substantially correct. In a few cases where federal programs provide funds under several subcategories, the fiscal information was obtained from Federal Funds Information for States (FFIS), a project sponsored by the National Conference of State Legislatures and the National Governors Association. The primary source for the program descriptive information is the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*.

SUPREME COURT

93.586 STATE COURT IMPROVEMENT PROGRAM

Program Description: The program provides formula grants to assist state courts in carrying out their role in the continuum of care provided for families and children at risk. It offers support for the implementation of alternatives and improvements, as well as the expansion of successful court systems. It enables state courts to design assessments that identify barriers to effective decision-making, highlight practices that are not fully successful, examine areas in need of correction or added attention, and then implement reforms that address the state court's specific needs.

Formula Description: Each state court with an approved application is allotted \$85,000 for each of the fiscal years 2002-2007. In addition to this base amount, the remainder of the amount appropriated for all state courts will be divided among those courts with approved applications, according to each state's proportionate share of children under the age of 21. Twenty-five percent of the total cost must come from non-federal funds.

45.310 STATE LIBRARY PROGRAM

Program Description: The program consolidates federal library services programs designed to stimulate excellence and promote access to learning and information in all types of libraries. It also assists in providing linkages among libraries, and promotes targeted library services to people of diverse geographic, cultural, and socioeconomic backgrounds. Grants are available to state library administrative agencies, which may spend the money themselves or use it to make grants to other agencies. Subgrants may be made for the following purposes: (1) to establish or enhance electronic linkages among libraries; (2) to link libraries electronically with educational, school, or information services; (3) to assist libraries in accessing information through electronic networks; (4) to encourage different types of libraries to establish consortia and share resources; (5) to pay costs for libraries to acquire or share computer systems and telecommunications technologies; and (6) to target library and information services to persons having difficulty using a library and to underserved urban and rural communities, including children from birth through age 17 from families with incomes below the poverty line.

Formula Description: Grants to states are based on the most recent total population calculations from the Bureau of the Census, but with a \$340,000 minimum for the 50 states, District of Columbia, and Puerto Rico; and a \$40,000 minimum for the other outlying areas. The federal share is 66%.

DEPARTMENT ON AGING

17.235 SENIOR COMMUNITY SERVICE EMPLOYMENT PROGRAM (SCSEP) (OLDER WORKER PROGRAM)

Program Description: The program is designed to provide, foster, and promote part-time work opportunities (usually 20 hours per week) in community service activities for low-income persons who are 55 years old and older. The program assists and promotes the transition of program enrollees into unsubsidized employment. The individuals who are employed may be placed in work assignments at local service agencies (e.g., schools, hospitals, day care centers, park systems, etc.), or may be given work assignments in connection with community service projects. A portion of project funds may be used to provide participants with training, counseling, and other support services.

Formula Description: The allocation formula (Section 506 of the Act) is based on the number of persons aged 55 and over residing in each state and the per capita income (PCI) in each state. Project sponsors must contribute at least 10% of the costs of the project. The sponsor's share may be contributed in cash or in-kind. The program has a maintenance of effort requirement.

93.041 SPECIAL PROGRAMS FOR THE AGING — TITLE VII, CHAPTER 3 — PREVENTION OF ELDER ABUSE, NEGLECT, AND EXPLOITATION

Program Description: The program is designed to assist state and area agencies on aging in carrying out programs to prevent abuse, neglect, and exploitation of older individuals. Funds are awarded to states to develop or strengthen service systems through designated agencies on aging. A state plan covering two, three, or four years, with annual revisions as necessary, must be submitted for approval to the Commission on Aging.

Formula Description: No match is required. Allocations are based on the state population of persons 60 years of age and over relative to other states. The program has a maintenance of effort requirement.

Program Description: The program is designed to assist state and area agencies on aging in providing ombudsman services for older individuals in long-term care. Funds are awarded to states to develop or strengthen service systems through designated state and area agencies on aging. A state plan covering two, three, or four years, with annual revisions as necessary, must be submitted for approval to the Commission on Aging. The goal is to educate both consumers and providers about residents' rights and good care practices and to help prevent resident abuse and costly fraud against the Medicare and Medicaid programs.

Formula Description: No match is required. Allocations are based on the state population of persons 60 years of age and over relative to other states. This program has a maintenance of effort requirement.

93.048 SPECIAL PROGRAMS FOR THE AGING — TITLE IV — TRAINING, RESEARCH, AND DISCRETIONARY PROJECTS AND PROGRAMS

Program Description: The program is designed to provide adequately trained personnel in the field of aging, to improve knowledge of the problems and needs of the elderly, and to demonstrate better ways of enhancing the quality of life for them. Funds may be used for training people to work in the field of aging and to increase the availability and accessibility of training and education programs in the field. Funds may also be used for research designed to improve the circumstances of older people. Some of these activities may be conducted by centers of gerontology.

Formula Description: The program has no statutory formula. Grants are awarded on a discretionary basis. Grantees may be required to provide matching funds to the extent deemed appropriate by the Assistant Secretary on Aging. The required match is generally 25% of the total project cost.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS — STATE’S PROGRAM

Program Description: The block grant program (also called the “small cities” program) permits states to develop and administer their own programs and set funding priorities for communities within their borders. The goal is to develop viable urban communities by providing decent housing, a suitable living environment, and expanded economic opportunities—principally for those with low or moderate incomes. Permitted activities include, among others, acquisition of real property, relocation and demolition of residential and nonresidential structures, construction of public infrastructure, and measures to promote home ownership. In addition to federal grants, states may receive program income generated from CDBG funded activities. These include gross repayments of housing and business loans made with CDBG funds, gross sales proceeds from properties acquired or improved with CDBG funds, and gross proceeds resulting from the use of CDBG-assisted properties. States are authorized to require that recipients of state-distributed CDBG funds return to the state any program income generated as a result of the funding, except when such program income is used to continue the activity that

generated it (e.g., reissuance of loans). States may then redistribute the program income in the form of grants. Federal regulations require states to account for all program income resulting from state administered nonentitlement area grants and maintain records (with only minor exceptions) of all program income indefinitely. Because program income may grow when a state issues new income-generating grants or redistributes program income from earlier grants, this requirement places a considerable burden on states.

Formula Description: Non-entitlement cities receive 30% of CDBG funds. The statistical factors for each state reflect only the nonentitled areas of the state. The allocation is based on one of two formulas, whichever is greater. Formula one factors are population, extent of poverty, and extent of overcrowding, weighted 25%, 50%, and 25% respectively. The second formula factors are population, poverty, and age of housing (number of year-round housing units built before 1939 or earlier), weighted 20%, 30%, and 50% respectively. If the state elects to administer the program, the funds flow to the state, which redistributes them to localities. A state may retain up to \$100,000 plus 2% of its grant for administration, and must match each federal dollar in excess of \$100,000 used for administration. These block grants funds may be used for other federal grant-in-aid programs provided they meet the CDBG criteria.

14.231 EMERGENCY SHELTER GRANTS PROGRAM (ESG)

Program Description: The program is designed to help improve the quality of existing emergency shelters for the homeless, to make additional emergency shelters available, and to meet the costs of operating emergency shelters and of providing essential social services to homeless individuals. The program is also intended to help prevent homelessness.

Formula Description: The amount of each grant for formula grantees is determined by the Community Development Block Grant (CDBG) formula, which consists of several measures of community need, including poverty, population, housing overcrowding, age of housing, and growth lag. If, according to the formula, an eligible government receives less than .05% of each appropriation in any fiscal year, the funds are added to the state allocation. The state must then sub-grant it to local government or nonprofit organizations. The state may use up to 5% for administration costs. There is a 50% match for the sub-grantees.

17.258 WORKFORCE INVESTMENT ACT (WIA) — ADULT PROGRAM

Program Description: The program provides grants for job training services to adults facing serious barriers to employment. Services are provided through Local Service Delivery Areas (SDAs) that develop programs for the economically disadvantaged in order to increase their occupational skills and decrease welfare dependency.

Formula Description: Funds for adult services are provided to states on a formula basis with one-third dependent on the number of unemployed individuals in areas of substantial unemployment, one-third on the excess number of unemployed individuals, and one-third on the number of disadvantaged adults.

17.259 WORKFORCE INVESTMENT ACT (WIA) — YOUTH PROGRAM

Program Description: Designed for youths between the ages of 14 and 21, the program is intended to help those facing serious barriers to employment prepare for the workforce. Services may include job training, education, and skills training, all designed to promote long-term employment and decrease welfare dependency.

Formula Description: Funds are distributed to states by a formula based one-third on the number of unemployed individuals in areas of substantial unemployment, one-third on the excess number of unemployed individuals, and one-third on the number of economically disadvantaged youth. As with the adult and displaced worker funding, 15% of the total is earmarked for statewide programs. The balance is distributed on the local level according to the same formula used for state distributions.

17.260 WORKFORCE INVESTMENT ACT (WIA) — DISLOCATED WORKERS

Program Description: The program provides formula grants to help dislocated workers obtain unsubsidized employment. This may be done through classroom instruction, on-the-job and other kinds of training, as well as a variety of employment services. These may include job search, development and placement assistance, supportive services, needs-related payments, and relocation services. Dislocated workers are defined as those who are displaced from their jobs by technological and other changes in the economy. Program funds may also be used to provide reemployment assistance to long-term unemployed workers and displaced self-employed workers.

Formula Description: States are allocated 80% of the annual appropriation according to a formula based one-third on the number of unemployed individuals in areas of substantial unemployment, one-third on excess unemployed individuals and one-third on long-term (15 weeks or more) unemployment. The Department of Labor can reserve up to 20% of the appropriation for emergency grants and technical assistance.

81.041 STATE ENERGY PROGRAM

Program Description: The program helps fund the development and implementation of state energy conservation plans. Each state plan must contain the five program measures as required by the Energy Policy and Conservation Act. They are public building lighting efficiency standards; new and renovated building thermal efficiency standards; standards and policies designed to improve energy efficiency in procurement at state and local levels; traffic laws allowing drivers to turn right after stopping at a red light; and program measures promoting the availability and use of carpools, vanpools, and public transportation. The plan must also contain a proposed state energy conservation goal, consisting of a projected 10% reduction in the total amount of energy consumed in the state.

Formula Description: The program distributes 33.3% of the total annual appropriation equally among the states. The remaining funds are distributed on the basis of each state's relative share of population (33.3%) and projected energy savings (33.3%).

81.105 NATIONAL INDUSTRIAL COMPETITIVENESS THROUGH ENERGY, ENVIRONMENT, AND ECONOMICS (NICE3)

Program Description: The program offers project grants designed to encourage industrial competitiveness through energy efficiency, pollution control, and conservation. Preference will be given to projects demonstrating innovative methods of reducing waste and pollution, or that coordinate such efforts at federal, state, and local levels. Industries of special interest are those with high energy consumption that generate high levels of pollutants. These include, among others, chemicals and allied products, petroleum and coal products, paper and allied products, and primary metal industries. Excluded from the scope of the program are the following areas: (1) noise; (2) nuclear radiation/nuclear waste including waste disposal/remediation; (3) electromagnetic radiation; (4) waste heat recovery; (5) changes in toxicity of waste through treatment; (6) waste disposal; (7) remediation of hazardous waste sites; (8) end-of-pipe treatment; (9) cost-media containment shifts; and (10) municipal solid waste projects.

Formula Description: The program requires at least a dollar for dollar match with some combination of state and industrial partner monies. State agencies are required to manage the projects.

93.569 COMMUNITY SERVICES BLOCK GRANT

Program Description: The program provides grants to states to help communities facilitate a variety of services for the poor. Funds may be used to develop programs that attack the causes of poverty; educate and train the impoverished; provide for improving the health, housing, and nutrition of the poor; and coordinate and encourage efforts with governmental and private organizations to improve the quality of life for the underprivileged population in communities.

Formula Description: Each state receives the same share of funds as its local agencies previously received under the old programs of the Economic Opportunity Act of 1964, except that no state may receive less than 0.5% of the total. A portion of the state allocations goes directly to Indian tribes. The program has no matching requirement.

10.553 SCHOOL BREAKFAST PROGRAM

Program Description: The program assists states in providing a nutritious nonprofit breakfast service to students through cash grants and food donations. Paid, free, and reduced-price meals are provided.

Formula Description: Federal funds are made available for breakfast assistance in accordance with Section 4 of the Child Nutrition Act. Distribution is based on a number of factors including (1) the ratio of paid breakfasts provided in the state compared with the national average of free breakfasts served; (2) the ratio of free breakfasts compared to a National Average Payment (NAP) determined by the Secretary; and (3) the ratio of reduced price breakfasts served compared to a NAP determined by the Secretary. NAPs are determined by the Secretary and adjusted each July 1, based on the “food away from home” component of the Consumer Price Index for all urban consumers. There is no matching requirement.

10.555 NATIONAL SCHOOL LUNCH PROGRAM

Program Description: The program assists states in providing more nutritious school lunches through the donation of domestic agricultural commodities and cash grants. Schools meeting eligibility criteria may be reimbursed for meal supplements served to children enrolled in after school programs.

Formula Description: The funding formula for the general cash for food assistance phase of the program is set forth in Section 4 of the National School Lunch Act, as amended; the formula for special cash assistance is described in Section 11 of the Act. Both phases of the program are funded on a performance basis. For every lunch served during the applicable fiscal year, the state receives a payment from funds made available under Section 4. In addition, the state receives a payment from Section 11 funds for each lunch served to a student eligible for free or reduced price lunches. The amounts of such per-lunch payments are determined by “National Average Payment” (NAP) factors. The amount due the state under this program is obtained by (1) multiplying the total number of eligible lunches served during the fiscal year by the Section 4 NAP factor; (2) multiplying the number of free lunches served by the Section 11 NAP factor for free lunches; (3) multiplying the number of lunches served at reduced price by the Section 11 NAP factor for reduced price lunches; and (4) adding together those three products. The NAP factors are determined by the Secretary. NAP factors are adjusted annually, according to changes in the “food away from home” component of the Consumer Price Index for all urban consumers.

17.225 UNEMPLOYMENT INSURANCE

Program Description: The program provides funding for unemployment insurance to eligible workers through federal and state cooperation. Federal unemployment insurance tax collections are used to finance the administration of state unemployment laws, reimburse states for one-half of the benefits extended, and make repayable advances to states when needed to make benefit payments. Those eligible include all workers whose employers contribute to or make payments in lieu of contributions to state unemployment funds, federal civilian employees, ex-service members, workers who become unemployed as a result of product imports, and workers whose unemployment is caused by a disaster. Disaster unemployment assistance (DUA) is paid out of funds provided by the Federal Emergency Management Agency (FEMA). Benefits for former federal civilian employees are paid out of the Federal Employees Compensation Account (FECA) in the Unemployment Trust Fund, subject to reimbursement by the former employing agency. Under the Trade Adjustment Assistance (TAA) program, weekly trade readjustment allowances (TRA), TAA training costs (including subsistence and transportation), and the administration of TAA training are paid out of funds of the Federal Unemployment Benefits and Allowance Appropriation account (FUBA).

81.042 WEATHERIZATION ASSISTANCE FOR LOW-INCOME PERSONS

Program Description: The program funds energy-saving home improvements for low-income persons, particularly the elderly and handicapped. Funded activities include the installation of winterization materials, such as attic insulation, caulking, weather-stripping, and storm windows. It also includes modifications leading to greater furnace efficiency. Up to 10% of each local grant may be used for administrative expenses, but no more than 5% of a total state grant may be used for that purposes.

Formula Description: With the exception of Alaska which receives \$200,000, this program distributes \$100,000 to each state and the District of Columbia. The remaining funds are distributed on the basis of a state’s relative heating and cooling degree days (i.e., days during which heating or cooling is required) during the period 1951 to 1980, and its share of low-income population. Federal regulations allow the U.S. Department of Energy to reduce the allocation of a state that is unable to spend its available funds. These reductions are reallocated to other states. There is no matching requirement.

93.563 CHILD SUPPORT ENFORCEMENT

Program Description: The program provides grants to states to assist them in locating absentee parents, establishing paternity, and enforcing support obligations. Both TANF and non-TANF individuals are eligible, provided they have assigned support rights to the state.

Formula Description: The federal government pays 66% of the administrative costs incurred by the state under an approved Title IV-D state plan. This includes costs incurred by certain court and law enforcement officials pursuant to cooperative agreements with the administering agency. The federal government provides 90% of the developmental costs of a child support data processing system.

Program Description: The program provides grants to states and other jurisdictions to assist eligible low-income households in meeting the costs of home energy. States can provide regular heating assistance benefits or energy crisis assistance, which may include cooling costs or weatherization assistance. Supplemental leveraging incentive funds may be awarded to states that provide additional benefits and services to LIHEAP eligible households beyond federal funding. Funds are not allowed to be transferred to other Health & Human Services programs. Up to 10% of these funds can be used for state and local planning.

Formula Description: There is no matching requirement. Program allocations are based on a state's proportion of the national total home energy consumption by low-income households, with hold-harmless and minimum provisions.

93.767 STATE CHILDREN'S INSURANCE PROGRAM (SCHIP)

Federal regulations require all Medicaid expansion SCHIP costs to be funded through the SCHIP appropriation rather than the Medicaid appropriation.

Program Description: The program provides formula grants to states to enable them to initiate and expand child health assistance to uninsured, low-income children. Assistance may be provided in one of two ways: (1) by obtaining qualified private health insurance coverage, or (2) by expanding eligibility for children under the state's Medicaid program.

Formula Description: The formula is based on two factors: (1) the number of children potentially eligible for CHIP, and (2) a state cost factor. These factors are multiplied to yield a final allotment product for each state. Once this product has been determined for all the states with approved CHIP plans, the products for each state are added to determine a national total. A state's product is then multiplied by the national total to determine the percentage it would be eligible to receive.

93.768 MEDICAID INFRASTRUCTURE GRANTS TO SUPPORT THE COMPETITIVE EMPLOYMENT OF PEOPLE WITH DISABILITIES (TICKET-TO-WORK INFRASTRUCTURE GRANTS)

Program Description: The program provides project grants to states to enable them to enhance employment options for people with disabilities. Grants may be used to remove employment barriers for persons with disabilities by augmenting the Medicaid program. Developing or enhancing core elements of the Medicaid program permits employed people with disabilities to move from state to state without losing health care benefits, and thus helps them sustain employment. An adequate personal assistance services benefit and a Medicaid buy-in, for example, are considered significant components of the Ticket-to-Work program and the Work Incentives Improvement Act. The infrastructure grants provide money to the states to develop these core elements. Funds may not be used for the direct provision of services to people with disabilities, except on a one-time, emergency basis, for the purpose of sustaining the individual's competitive employment.

Program Description: The program provides financial assistance to states that are willing to determine, through state health agency or other appropriate state agency that providers and suppliers of health care services are in compliance with federal regulatory health and safety standards and conditions of participation. Funds are made available to states for the purpose of inspecting providers and suppliers of health care services to ensure adherence to Medicare/Medicaid mandatory health and safety standards and conditions.

Formula Description: There is no state matching requirement. Awards are subject to states certifying the availability of their funds as prescribed by Section 1903 (a), (2), and (7).

93.778 MEDICAL ASSISTANCE PROGRAM (MEDICAID, TITLE XIX)

The program provides funds under two categories. Each is presented separately below in order to provide as much detail as possible concerning the purpose, formula, and funding for the various units of this program.

(1) MEDICAID VENDOR PAYMENTS

Program Description: Funded under Title XIX of the Social Security Act, Medicaid provides financial assistance to states for the provision of medical care to TANF and SSI cash assistance recipients and others who may be eligible (pregnant women, infants, children, the elderly), defined by age and poverty criteria. Funding is also available for unemployed parents in two-parent households and for the medically needy, which, except for income and resources, would be eligible for cash assistance. States are required to perform early, periodic screening, detection, and treatment (EPSDT) activities for persons under the age of 21.

Formula Description: The state/federal match is determined by a state's personal income relative to the national average for the three preceding years. The minimum match is 50% and the maximum is 83%. Matching rates change annually. Illinois' rate has remained at 50% over the course of the program. There is a maintenance of effort requirement.

(2) MEDICAID STATE ADMINISTRATION AND TRAINING

Program Description: The federal government pays 50% of most state administrative costs for Medicaid. For smaller segments of the program, including family planning and the Medicaid Management Information System, the federal match is 90%. For federally encouraged segments of the program, such as the employment of skilled medical professionals, the match is 75%.

10.557 SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC PROGRAM)

Program Description: WIC is funded and administered by the U.S. Department of Agriculture through state-run health departments and locally by public or nonprofit health facilities and organizations. WIC provides supplemental food and nutrition information to help safeguard the health of pregnant, postpartum, and breast-feeding women, and infants and children to age five who are at nutritional risk and have inadequate incomes. The federal government supports both program activities and state administration.

Formula Description: The distribution of funds is aimed primarily at maintaining participation levels. The initial stability grants ensure that each state receives no less than its prior year level adjusted for inflation. Any appropriated funds remaining after those amounts are distributed are allocated in the following manner: one-half through a growth formula (which distributes funds to states with the lowest percentage of income eligible individuals served); and one-half by a targeting formula that depends on a state's success in serving the top three priority groups (set by the Department of Agriculture) for allocation. No matching funds are required.

10.561 STATE ADMINISTRATIVE MATCHING GRANTS FOR THE FOOD STAMP PROGRAM

The program provides funds in several categories, each of which is presented separately below in order to provide as much detail as possible concerning the purpose, formula, and funding for each unit of the program.

(1) *FOOD STAMP ADMINISTRATIVE COSTS*

Program Description: The food stamp program provides Link cards through state and local welfare agencies to needy persons to increase their food purchasing power. The cards are used by program recipients to buy food in any retail store that has been approved by the Food and Nutrition Service. The federal government shares the costs of state administration.

Formula Description: The federal government reimburses 50% of direct and indirect state administrative costs. States may receive a maximum of 60% federal funding if their error rates are below 6%. In addition, funds are matched at 75% for data processing or system set-up for fraud and abuse prevention.

84.173 SPECIAL EDUCATION — PRESCHOOL GRANTS

Program Description: The program provides funding to states to assist them in offering a free, appropriate public education to children with disabilities, ages 3 to 5 years. At the state’s discretion, two-year old children with disabilities, who will reach age 3 during the school year, may also be included.

Formula Description: States receive the same allocation they received in FY 1997. In the case of excess funds, 85% will be awarded based on the number of children 3 to 5 years of age, and 15% will be based on the number of children 3 to 5 years of age living in poverty.

84.186 SAFE AND DRUG-FREE SCHOOLS AND COMMUNITIES — STATE GRANTS

Program Description: The program establishes state and local programs of alcohol and drug abuse education and prevention that are coordinated with related community efforts and resources.

Formula Description: Funding is based on the state’s school age population and Chapter 1 allocation. State education agencies (SEAs) administer the bulk of the grant, which is used for drug and alcohol abuse education and prevention programs in local school systems. Eighty percent of the grant must go to local educational agencies (LEAs). The remainder is administered by the Governor’s office. It may be used for grants and contracts with community-based organizations for the development and implementation of broadly-based programs of alcohol and drug abuse education and prevention. The Governor’s office must reserve 10% of funds for law enforcement education projects.

93.217 FAMILY PLANNING — SERVICES

Program Description: The program is designed to provide education, counseling, and comprehensive medical and social services necessary to enable individuals to freely determine the number and spacing of their children. The goal is to help to reduce maternal and infant mortality and to promote the health of mothers and children. Family planning services include information on all medically approved methods of contraception including natural family planning

methods, counseling services, physical examinations including cancer detection and laboratory tests, contraceptive supplies, and periodic follow-up examinations. Infertility services include diagnostic workup, information, education and counseling, and arrangements for referral if necessary. Special services to adolescents include in-depth information, education counseling, and referral to and from other social and medical service agencies, and such ancillary services as necessary to facilitate clinic attendance for adolescents. These family planning services must be available without coercion and with respect for the privacy, dignity, and social and religious beliefs of the individuals being served. To the extent possible, entities that receive grants should encourage family participation. Funds may not be used in programs where abortion is a method of family planning.

Formula Description: The program has no statutory formula. Grants are awarded on a discretionary basis. The matching rate is 10% or less, and there is a maintenance of effort requirement.

93.230 CONSOLIDATED KNOWLEDGE DEVELOPMENT AND APPLICATION PROGRAM

Program Description: The program is designed to provide immediately usable knowledge to improve substance abuse and mental health services in selected areas. The Knowledge Development and Application (KDA) program is aimed at answering practical questions that arise from consumers and their families, providers, state officials, constituency organizations, national advisory councils, services researchers, and Congress. The program emphasizes knowledge development and application, with emphasis on knowledge that is relevant and timely. Specific KDA topics are announced annually in the *Federal Register*. Topics should take into account the importance of controlling health care costs and preventing the disruption of productive lives. Dissemination of results through multiple channels, including the latest available technology to inform service providers, is an integral part of the KDA program.

93.234 TRAUMATIC BRAIN INJURY (TBI) STATE DEMONSTRATION GRANT PROGRAM

Program Description: The program makes grants available to conduct expanded studies and establish innovative programs pertaining to traumatic brain injury (TBI). Funding is approved on an annual basis. There are two categories of project grants: (1) state planning grants and (2) state implementation grants. The state planning grants are intended to support the development of four state-level core capacity components to provide TBI services. State implementation grants are intended for states that have the four core capacity components in place. The grants support activities that represent the next logical step(s) in building a statewide system to assure access to comprehensive and coordinated TBI services. Implementation grants can address a wide range of activities and should reflect gaps or needed system enhancements identified through the statewide TBI needs assessment.

Formula Description: There is a matching requirement of not less than \$1 in state funding for every \$2 of federal funding.

93.235 ABSTINENCE EDUCATION

Program Description: The program is designed to enable states to provide abstinence education and, when appropriate, mentoring, counseling, and adult supervision to promote abstinence from sexual activity. States may use abstinence education funds for educational or motivational programs which (a) have as their exclusive purpose, teaching the social, psychological, and health gains to be realized by abstaining from sexual activity; (b) teach abstinence from sexual activity outside marriage as the expected standard for all school age children; (c) teach that abstinence from sexual activity is the only certain way to avoid out-of-wedlock pregnancy, sexually transmitted diseases, and other associated health problems; (d) teach that a mutually faithful monogamous relationship in context of marriage is the expected standard of human sexual activity; (e) teach that sexual activity outside of the context of marriage is likely to have harmful psychological and physical effects; (f) teach that bearing children out of wedlock is likely to have harmful consequences for the child, the child's parents, and society; (g) teach

young people how to reject sexual advances and how alcohol and drug use increases vulnerability to sexual advances; and (h) teach the importance of attaining self-sufficiency before engaging in sexual activity.

Formula Description: Funds are allocated among the states and jurisdictions in proportion to their relative shares of the funds received under appropriations for abstinence education. A matching requirement of \$3 for every \$4 of federal money is required.

93.558 TEMPORARY ASSISTANCE FOR NEEDY FAMILIES

Program Description: The program is designed to provide assistance to needy families with children in order that the children can be cared for in their own homes. The goal is to reduce dependency by promoting job preparation, work, and marriage, thus reducing out-of-wedlock pregnancy and encouraging the formation of two-parent families. Cash grants, work opportunities, and other services are provided directly to needy families with children. States have broad flexibility to use grant funds in any manner that meets the purposes of the program (including providing low-income households with assistance in meeting home heating and cooling costs) and in ways authorized under the previous assistance programs, Aid to Families with Dependent Children (AFDC), Job Opportunities and Basic Skills Training (JOBS), and Emergency Assistance (EA) programs. States may also transfer a limited portion of their assistance grant funds to the Child Care and Development Block Grant (CCDBG) and Social Services Block Grant (SSBG) Programs. Not more than 15% of any grant may be spent on administrative costs, exclusive of certain computerization and information technology expenses.

Formula Description: The program has a Maintenance of Effort (MOE) requirement. To receive their full allocation, states must demonstrate that they are allocating to TANF-related activities 80% of the amount of nonfederal funds they spent in FY 1994 on AFDC and related programs. If they meet minimum work requirements, their mandatory state effort is reduced to 75%. For contingency funds, states must sustain maintenance of effort and provide a state match at the fiscal year 1995 federal Medical Assistance Percentage rate (Illinois' rate is 50%). The assistance grant may be reduced for failure to meet any of 11 different program and fiscal requirements. Penalties may be waived for reasonable cause or upon implementation of an approved corrective action plan.

93.584 REFUGEE AND ENTRANT ASSISTANCE — TARGETED ASSISTANCE

Program Description: The program provides state grants to make employment-related and other social services available to refugees, Amerasians, and entrants in areas of high refugee concentration or high welfare use. State agencies that are responsible for the Refugee

Resettlement Program are eligible to receive funding for assistance to counties and similar areas where there is a need to supplement available resources due to high numbers or concentrations of refugees. States with qualifying counties must submit a single application on behalf of all those counties.

Formula Description: The formula is based on the number of refugee arrivals in the state in the past five fiscal years. Targeted assistance funds must supplement, rather than supplant, existing state and local resources.

93.596 **CHILD CARE AND DEVELOPMENT BLOCK GRANT**

The program provides funds under several categories. Each of these categories is presented separately below in order to provide as much detail as possible concerning the purpose, formula, and funding for each unit.

(1) **CHILD CARE AND DEVELOPMENT BLOCK GRANT — MANDATORY/GUARANTEED**

Program Description: The program makes grants to states to assist low-income families with child care. The goals are to (1) allow maximum state flexibility; (2) promote parental choice in child care; (3) encourage states to provide consumer education and information to help parents make informed choices; and (4) make child care available for low income families thus enabling individuals to participate in approved education and training activities which will diminish their risk of needing welfare. The mandatory part of the block grant replaces the AFDC/JOBS-Child Care Title IV-A of the Social Security Act and must be administered by a single agency. Services must maintain current law, health, and safety standards. In addition, 4% of the money is to be set aside to provide comprehensive consumer education to parents and the public, as well as for activities that increase parental choice and improve the quality and availability of child care.

Formula Description: Mandatory funds are allocated based on the federal share of expenditures for Title IV-A child care in FY 1994, FY 1995, or the average of FY 1992-1994, whichever is greater. There is no state match required but the program does have a maintenance of effort requirement. There is a 5% cap on administrative funds.

(2) *CHILD CARE AND DEVELOPMENT BLOCK GRANT — MANDATORY/MATCHING*

Program Description: The mandatory/matching funds have the same program requirements as the guaranteed program. Matching money is not available to the state until a state has expended all of its guaranteed child care grant plus an amount equal to what was spent from its own funds on the Title IV-A child care in FY 1994 or FY 1995, whichever is higher.

Formula Description: Mandatory/matching funds are allocated according to the proportion of children under age 13, and are capped based on a share of available funds. The state's match is determined by its state Medicaid match. The Illinois rate is 50%. There is a 5% cap on administrative funds.

93.667 SOCIAL SERVICES BLOCK GRANT

Program Description: The program is funded under Title XX of the Social Security Act. It distributes moneys to states for one of the following five purposes specified in the law: (1) to prevent, reduce, or eliminate dependency; (2) to achieve or maintain self-sufficiency; (3) to prevent neglect, abuse, or exploitation of children and adults; (4) to prevent or reduce inappropriate institutional care; and (5) to secure admission or referral for institutional care when other forms of care are not appropriate. A state may transfer up to 10% of its allotment for any fiscal year to the Preventive Health and Health Services, Alcohol and Drug Abuse, Mental Health Services, Maternal and Child Health Services, and Low-Income Home Energy Assistance Block Grants.

Formula Description: Funds are allocated among the states on the basis of state population as a proportion of total U.S. population. Allotments for Title XX are subject to a limitation of \$2.8 billion (estimated). Prior to 1982, Puerto Rico and the territories were only allowed to use re-allocated funds not used by states. These jurisdictions now receive the same share of the funds that they received in 1981. Allocations are published in the fall for the fiscal year beginning the following October. There is no matching requirement.

Program Description: The program is designed to comply with the Ticket-to-Work and Work Incentives Investment Act that requires the SSA to establish a community-based work incentives planning and assistance program. The program provides statewide benefits planning and assistance, along with information on the availability of protection and advocacy services, to all Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) beneficiaries with disabilities. Another component of the program provides funds to conduct ongoing outreach to those beneficiaries with disabilities and to their families who may be eligible to participate in state or federal work incentives programs. The program also disseminates accurate information to beneficiaries with disabilities about work incentive programs and issues related to such programs.

Formula Description: The formula is based on the amount appropriated and the percentage of beneficiaries with disabilities. There is a maximum award of \$300,000 and minimum of \$50,000. Awardees are required to share the cost of projects. The match ranges from 5% to 25% of total project costs.

09.385 STATE PLANNING GRANT

Program Description: The program supports state grants for the development of a plan to provide access to health insurance coverage for all state residents. It calls for a one-year in-depth analysis to develop effective methods for providing access to affordable health insurance coverage based on the Federal Employees Health Benefit Plan, Medicaid, coverage offered to state employees, or other similar quality benchmarks. States receiving this grant must submit the study and analysis results in the form of a report that identifies the characteristics of the uninsured within the state and proposals for providing them with access to health insurance coverage. These reports will also be used to provide additional data about the characteristics of the uninsured.

Program Description: The program provides assistance for nonfederal forest and rural lands for the following: pest suppression; fire protection; forest utilization and management, including recycling of wood fiber; improvement and maintenance of fish and wildlife habitats; and planning and conducting urban and community forestry programs. The goal is to protect non-federal wild lands from fire, damaging insects, and diseases; to assist state agencies and others in increasing timber growth and harvests; and to manage rural and urban forest resources for multiple uses.

Formula Description: Most of the funds are distributed according to suggested state minimums contained in the law. Allocation of the remainder is based on merit. The Forest Service and states negotiate funding levels and priorities annually. Cost-sharing for management assistance and technology implementation programs is negotiated. Forest resource planning requires a 20% state match.

Program Description: This program is designed to assist states in research and enforcement of multi-jurisdictional fishery resources, the development of multi-jurisdictional fishery management plans, and restoration of resources damaged by a natural resource disaster.

Formula Description: Funding is based on the average value and volume of raw fish landed by domestic commercial fishermen. No state that receives funding may get less than one-half of one percent of the total or more than 6% of all available funds. Federal funding may not exceed 75% unless it is part of a designated interstate federal fishery management plan, in which case it may receive up to 90% federal funds.

11.419 COASTAL ZONE MANAGEMENT ADMINISTRATION AWARDS

Program Description: The Coastal Zone Management Fund is designed to advance national coastal management objectives through regional initiatives. The fund provides grants for the following purposes: addressing unforeseen disasters, improving coastal zone management, recognizing excellence in coastal zone management, and authorizing program development grants for states to implement state management programs. It supports states through financial assistance mediation; technical services and information; and through participation in state, regional, and local forums. Ten to twenty percent of funds are available annually to develop new program requirements in areas of coastal wetlands management and protection, natural hazards management, and special area management planning for coastal growth; and siting coastal energy. Cooperative agreements may be used to assist States after the Secretary of Commerce has approved them, but only to enhance the states' approved Coastal Management programs. This includes salaries, travel, and other related costs required to support the administration of the program.

Formula Description: A percentage of the total project cost, which varies by fiscal year, must be provided by the applicant. Federal funds from other sources cannot be used as match. Awards must be not less than 1% of the amount appropriated each fiscal year. Eighty to ninety percent of awards are allocated by formula.

12.112 PAYMENTS TO STATES IN LIEU OF REAL ESTATE TAXES

Program Description: The program is designed to compensate local taxing units for the loss of taxes from federally acquired lands. Seventy-five percent of all monies received or deposited in the U.S. Treasury during any fiscal year for the leasing of lands acquired by the U.S. for flood control, navigation, and allied purposes, including the development of hydroelectric power, are paid at the end of each year to the states in which such property is located.

Formula Description: When property is located in more than one state or county, the share to each is proportional to the area lost to the federal government. There is no matching requirement.

15.250 REGULATION OF SURFACE COAL MINING AND SURFACE EFFECTS OF UNDERGROUND COAL MINING

Program Description: The program is designed to protect society and the environment from the adverse effects of surface coal mining operations. It includes administrative and enforcement grants to fund staff and related costs in connection with preparing state legislative proposals, state regulations, and permanent program applications to the Office of Surface Mining, Reclamation and Enforcement. Operational grants are available to states or eligible individuals to contract with laboratories to provide hydrologic and geologic data.

Formula Description: Funding is subject to appropriations. The federal government matches state funds, and all participating states have had a 50% match since 1984.

15.252 ABANDONED MINE LAND RECLAMATION (AMLR) PROGRAM

Program Description: The program collects tonnage fees from mining companies to assist states in planning, programming, and reclaiming water or land affected by mining processes on or before August 3, 1977. Eligible lands are first defined, and include primarily those devoted to coal mining and related processes. However, a governor may specifically request funds for non-coal related reclamation. States and Indian tribes are both eligible to receive grants. Participation is limited to those states with approved regulatory programs.

Formula Description: In general, states are eligible to receive 50% of the coal reclamation fees paid in their states under the AML program. Only those states where such fees are paid are eligible recipients.

15.608 FISH AND WILDLIFE MANAGEMENT ASSISTANCE

Program Description: The program provides technical information, advice, and assistance to other federal agencies, other nations, states, and Native Americans on the conservation and management of fish and wildlife resources. This may include biological, chemical, and physical advice regarding land and water management, as well as specific recommendations and plans based on local conditions. It also includes stocking fish from national fish hatcheries and advising on wildlife management techniques. The program does not provide financial assistance for construction of ponds, lakes, wood duck boxes, or for other purposes.

Formula Description: This program has no formula or matching requirement, however, assistance is provided only on a cost recoverable basis.

15.916 OUTDOOR RECREATION — ACQUISITION, DEVELOPMENT, AND PLANNING (LAND AND WATER CONSERVATION FUND GRANT)

Program Description: The program, funded by offshore oil receipts and other revenues, helps states finance up to 50% of the cost of preparing recreation plans, acquiring land and water areas, and developing sites for public outdoor recreation. Funds awarded to the states may also be passed through to local governments for acquisition and development of public outdoor recreation areas.

Formula Description: Funds are distributed as follows: 40% of the first \$225 million, 30% of the next \$275 million, and 20% of everything over \$500 million are distributed equally among the states. The balance is distributed on a discretionary basis, according to need. The amounts allocated to the states are determined by an apportionment formula: 40% is divided equally among the states, 30% is distributed based on population (each jurisdiction is guaranteed a minimum of at least \$25,000), and the remaining 30% is distributed based on urban population in order to provide recreational opportunities in or near urban areas.

16.564 CRIME LABORATORY IMPROVEMENT COMBINED OFFENDER DNA INDEX SYSTEM BACKLOG REDUCTION

Program Description: The program provides project grants to increase the capabilities and capacity of state and local crime laboratories to conduct state-of-the-art forensic evidence testing and to reduce the backlog of convicted offender DNA samples. Acceptable uses may include the following: laboratory equipment and supplies and other expenses directly attributable to conducting forensic analysis, outside training and related travel expenses for applicable graduate-level coursework or training courses in specific methodologies as recommended by the Federal Bureau of Investigation (FBI) for DNA Quality Control/Quality Assurance, modifications to existing laboratory space only where necessary to accommodate required laboratory equipment and activities related to forensic analysis, contractor-provided services to conduct forensic testing of evidence, and Combined Offender DNA Index System (CODIS) equipment.

Formula Description: The federal share may not exceed 75%. Grant funds may not be used to pay for state or local personnel costs. Applicants may, however, include the cost of laboratory personnel directly associated with the project as a credit toward the 25% state or local match requirement.

20.106 AIRPORT IMPROVEMENT PROGRAM

Program Description: The program, which is financed through the Airport and Airways Trust Fund, assists public agencies in construction, improvement, or repair of major airports. Funds are available for planning, land acquisition, site preparation, construction, alteration or repair, and terminal development. Funds may also be used for the purchase of snow removal equipment, de-icing and other needed safety equipment, and required security equipment.

Formula Description: The larger airport portion of this program is distributed according to the number of air carrier “enplanements” at the primary airports. A state’s allotment is based 50% on relative population and 50% on land area. In addition to the formula portion, the Secretary of Transportation allocates discretionary funds to worthwhile projects. Matching requirements vary from 10% at small airports to 25% at medium or large hub airports.

20.214 HIGHWAY PLANNING AND CONSTRUCTION

The program provides funds under several categories designed to aid in the construction, rehabilitation, traffic management and safety of the nation's highways. Each of these categories is presented separately below in order to provide as much detail as possible concerning the purpose, formula, and funding for each unit of this program.

The Transportation Equity Act for the 21st Century (TEA21) made a number of changes in programs available for highway assistance. Two main grant programs were continued, the National Highway System (NHS) and the Surface Transportation Program (STP). In addition, TEA21 authorized the Interstate Maintenance Program, the Highway Bridge Program, the Congestion Mitigation and Air Quality Improvement Program, the Recreational Trails Program, High Priority Projects, and a state minimum guarantee allocation.

(1) NATIONAL HIGHWAY SYSTEM (NHS)

Program Description: The program is designed to serve major population centers, facilitate interstate and interregional travel, and improve public transportation facilities. Funds are available for new construction; resurfacing, restoring, rehabilitating, and reconstructing roads; highway safety improvement, research, and planning; traffic management; carpools; and bicycle and pedestrian pathways.

Formula Description: Funds for the NHS and STP are apportioned to the states using the same distribution formula, which is based on the state's "historical share." This is determined by the state's percentage share of all highway funds for the FFY 1987-1991 period less interstate construction and substitution, federal lands, emergency relief, demonstration project funds, and the portion of minimum allocation funds attributable to the interstate construction and substitute programs. The state matching rate is 10% for interstate projects and 20% for non-interstate projects.

(2) SURFACE TRANSPORTATION PROGRAM (STP)

Program Description: The STP is designed to give state and local governments the flexibility to meet their needs. Projects eligible for assistance include construction and maintenance of bridges; transit capital expenditures; planning; safety improvements; and wetlands, wildlife, and ecosystem mitigation. Ten percent of a state's STP funds must be spent for transportation enhancement activities, and 10% for safety programs.

After the above set-asides, a state must obligate 62.5% of its apportionment to areas within the state based on their relative share of state population (areas with over 200,000 population must be given direct pass-through funds), and 37.5% may be obligated anywhere within the state.

Formula Description: Funds for the NHS and STP are apportioned to the states using the same distribution formula, which is based on a state’s “historical share.” This is determined by the state’s share of all highway funds for the FFY 1987-1991 period less interstate construction and substitution, federal lands, emergency relief, demonstration project funds and the portion of minimum allocation funds attributable to the interstate construction and substitute programs. The state matching rate is 10% for interstate system projects and 20% for non- interstate projects.

(3) INTERSTATE MAINTENANCE

Program Description: These funds provide assistance in the reconstruction, restoration, rehabilitation, and resurfacing of the Interstate system. New high occupancy vehicle lanes may also be built with these funds. States have the discretion to transfer up to 20% of these funds to the NHS or STP.

Formula Description: Funds are distributed on the basis of interstate lane miles (55%) and vehicle miles traveled (45%). In the past the federal share was 90% of total program costs with a maximum rate of 95% for states with a large proportion of public lands. Under the new Interstate Maintenance Program the federal share is 90%.

(4) BRIDGE REPLACEMENT AND REHABILITATION

Program Description: The program provides funds to help states replace or rehabilitate bridges that are hazardous to the safety of motorists. Funds may be used for bridge

replacement, repair, painting, coating, and seismic retrofitting. A state may transfer up to 40% of its apportionment under the bridge program to the NHS or STP.

Formula Description: Funds are distributed on the basis of each state's share of the total cost of repairing deficient bridges. The normal federal share of approved projects is 80%.

(5) *METROPOLITAN PLANNING*

Program Description: The program provides funds to assist in planning urban transportation systems. A metropolitan planning program was included under the ISTEA of 1991, and the new NHS and STP now provide funding for highway research and planning.

Formula Description: Funds are allocated among states on the basis of urbanized population, usually in areas of at least 50,000 population. The minimum state apportionment was 0.5%. The recipient of a Metropolitan Planning Grant must provide 20% or more of total project costs.

(6) *CONGESTION MITIGATION AND AIR QUALITY*

Program Description: The program provides funding to help states and municipalities comply with the Clean Air Amendments of 1990. Funds may be spent on projects contributing to the attainment of air quality standards, but the projects must be sanctioned by the U.S. EPA or the U.S. Secretary of Transportation in consultation with the EPA.

Formula Description: Funds are apportioned to states on the basis of each state's relative share of the total non-attainment areas. Adjustments are made for the severity of each area's non-attainment problems. Each state is guaranteed a minimum of 0.5% of the total annual apportionments for the program. The state match is 20%.

(8) HIGH PRIORITY PROJECTS

Program Description: TEA21 listed 1,850 specific construction projects that Congress considered to be high priority. The Secretary of the U.S. Department of Transportation is authorized to make funds available to all states for the projects within their borders. The law includes 102 high priority projects for Illinois.

(9) *MINIMUM GUARANTEE*

Program Description: In response to complaints that some states received less in highway assistance grants than they contributed in highway taxes (so-called donor states), Congress inserted a provision in TEA21 that no state's return from the Highway Trust Fund could be less than 90.5%. In addition the law includes a provision that the Secretary ensure that a state's percentage of the total apportionments for the federal highway grant programs included above equal the percentage shown in a table that lists a minimum guarantee percentage for each state. Illinois' percentage is 3.3819%.

20.218 NATIONAL MOTOR CARRIER SAFETY

Program Description: The program is designed to reduce the number and severity of accidents and hazardous material incidents involving commercial motor vehicles. This may be done by increasing the level of enforcement, and the likelihood that safety defects, driver deficiencies, and unsafe carrier practices will be detected and corrected.

Formula Description: Most funds are distributed according to a formula based on the following: roadway mileage, special fuel sales, truck registrations, vehicle miles traveled, and population. The federal share may not exceed 80% of the approved incremental increase over the average for the 2 years prior to December 18, 1991. The state's share is at least 20%. Program Description: The program provides funding for the development of cost-effective transportation improvement programs that include planning, engineering, and designing of urban mass transportation projects. Approved activities include: (1) planning; (2) studies related to management, operations, capital requirements, and economic feasibility; (3) preparation of engineering and architectural surveys, plans, and specifications; and (4) evaluation of previously funded projects and other related activities in preparation for the construction, acquisition, or improved operation of mass transportation systems, facilities, and equipment.

Formula Description: This is a discretionary program. Preliminary allocation of funds is based on a weighted population distribution that takes into account the increased complexity of the planning process in larger metropolitan areas. 20.601 ALCOHOL TRAFFIC SAFETY AND DRUNK DRIVING PREVENTION INCENTIVE GRANT

Program Description: Alcohol Traffic Safety and Drunk Driving Prevention Incentive grants encourage states to adopt effective programs to reduce accidents resulting from driving under the influence of alcohol or other controlled substances. To be eligible for basic grants, states must enact laws to establish provisions such as expedited driver's license suspension or revocation systems for persons who operate motor vehicles while under the influence of alcohol; statewide vehicle stopping programs to identify persons driving under the influence; self-sustaining drunk driving prevention programs to fund comprehensive community programs; effective systems for preventing operators of motor vehicles under the age of 21 from obtaining alcoholic beverages; mandatory sentences, not subject to probation, for persons convicted of driving while intoxicated more than once in a five-year period; and a blood alcohol concentration level of .08 for the last two fiscal years of a five-year grant period.

Formula Description: Grants are based on funding received under Section 402 (State and Community Highway Safety). States are eligible for funding for up to six years. The federal match is 75% the first and second years, 50% the third and fourth years, and 25% the fifth and sixth years.

64.124 ALL-VOLUNTEER FORCE EDUCATIONAL ASSISTANCE

Program Description: The program is designed to assist servicepersons in readjusting to civilian life by providing them with education and training. A State Approving Agency (SAA) must approve college and non-college degree programs, apprenticeship, and other on-the-job training programs to ensure that they are eligible for reimbursement under the several programs administered by the U. S. Department of Veterans Affairs. All courses and training must lead to an educational, professional, or vocational objective. The SAA must specifically approve each program individually. If an institution operates branch or extension facilities, courses and training offered at those sites must be approved separately.

Formula Description: There is no statutory formula or matching requirement.

ILLINOIS ARTS COUNCIL

45.025 PROMOTION OF THE ARTS — PARTNERSHIP AGREEMENTS

Program Description: The program is designed to foster excellence, diversity, and vitality in the arts of the U.S. This may be done by broadening public access to the arts through basic support for a state arts plan, with particular support for those elements of the plan that address arts education and those that foster art in underserved communities.

Formula Description: The formula specifies the following: state activities receive a \$200,000 minimum; the distribution of arts in education funds is based 50% on equal state shares and 50% on school age population; the distribution of underserved funds is based 75% on equal shares and 25% on population.

20.700 PIPELINE SAFETY

Program Description: The program is designed to develop and maintain state natural gas, liquefied natural gas, and hazardous liquid pipeline safety programs. Eligible activities include inspection and testing of gas pipelines, as well as related travel, training, and research.

Formula Description: The federal reimbursement may be up to 50% of a state's annual expenditure for personnel, equipment, and activities reasonably required by the state agency for the conduct of its pipeline safety program. State expenditures in any given year, minus federal assistance, may not be less than the average amount expended by the state for gas pipeline safety during FY 1967 and 1968 and for the last two fiscal years preceding the date of enactment of the Hazardous Liquid Pipeline Safety Act of 1979. In 2000 federal allocations represented 40% of the estimated state request in the natural gas program (range: 21% to 50%) and 40% in the hazardous liquid program (range: 18% to 50%).

84.002 ADULT EDUCATION — STATE GRANT PROGRAM

Program Description: The program is designed to improve educational opportunities for adults by encouraging the establishment of adult education programs that provide basic educational skills necessary for literate functioning. Such programs should enable adults to complete secondary school, or benefit from job training and retraining in order to obtain productive employment.

Formula Description: The sum of \$250,000 is made available to each state. From the balance, distribution is based on the proportion of individuals aged 16 or over without a high school diploma as compared with the proportion in the country as a whole. Within the state, no less than 10% may be used for correctional and other educational programs for institutionalized adults, no less than 15% for demonstration pilots, and no less than 15% for teacher training. States must establish a fund for competitive grants to public housing authorities for literacy programs. No more than 20% may be used for high school equivalency programs. A 25% match is required. The program also has a maintenance of effort requirement.

COURT OF CLAIMS

16.576 CRIME VICTIM COMPENSATION

Program Description: The program provides compensation to victims and survivors of criminal violence, including drunk driving and domestic violence. Areas of compensation are medical expenses attributable to a physical injury resulting from a compensable crime, including expenses for mental health counseling and care; loss of wages attributable to a physical injury resulting from a compensable crime; and funeral expenses attributable to a death resulting from a compensable crime.

Formula Description: Allocations are based on 60% of the amounts awarded by the state during the preceding fiscal year, other than amounts awarded for property damage. The state must certify that the federal funds received under the program will not supplant state funds otherwise available for victim compensation. Fund availability may require a base change.

CRIMINAL JUSTICE INFORMATION AUTHORITY

16.523 JUVENILE ACCOUNTABILITY INCENTIVE BLOCK GRANTS

Program Description: The program makes project grants available to provide training and technical assistance to states and units of local government to develop programs to promote greater accountability in the juvenile justice system. Formula grants are available in the following areas: (1) building, expanding, renovating, or operating temporary or permanent juvenile correction or detention facilities, including training for correctional personnel; (2) developing and administering accountability-based sanctions for juvenile offenders; (3) hiring additional juvenile judges, probation officers, and court-appointed defenders; and funding pretrial services for juveniles; (4) hiring additional prosecutors so that more cases involving violent juvenile offenders can be prosecuted and backlogs can be reduced; (5) providing funding to enable prosecutors to address drug, gang, and youth violence problems more effectively; (6) providing funding for technology, equipment, and training to assist prosecutors in identifying and expediting the prosecution of violent juvenile offenders; (7) enabling juvenile courts and

juvenile probation offices to be more effective and efficient in holding juvenile offenders accountable and reducing recidivism; (8) establishing juvenile gun courts for the adjudication and prosecution of juvenile firearms offenders; (9) establishing drug court programs for juveniles so as to provide continuing judicial supervision over juvenile offenders with substance abuse problems; (10) establishing and maintaining interagency information-sharing programs that enable the juvenile and criminal justice systems, schools, and social services agencies to make more informed decisions regarding the early identification, control supervision and treatment of juveniles who repeatedly commit serious delinquent or criminal acts; (11) establishing and maintaining accountability-based programs that work with juvenile offenders who are referred by law enforcement agencies, to protect students and school personnel from drug, gang, and youth violence; and (12) implementing a policy of controlled substance testing for appropriate categories of juveniles within the juvenile justice system.

Formula Description: Funds are allocated to each state based on its relative share of people under the age of 18. The program requires a cash match of 10% of total program costs. Federal funds may not exceed 90% of total program costs.

COUNCIL ON DEVELOPMENTAL DISABILITIES

93.630 DEVELOPMENTAL DISABILITIES BASIC SUPPORT AND ADVOCACY GRANTS

Program Description: The program provides formula grants that may be used by states for priority area activities, as well as other activities. These may include administrative costs, capacity building, and actions that refocus existing services to better meet the needs of persons with developmental disabilities. A designated agency in each state receives, accounts for, and disburses funds, and provides for required assurances and other administrative support services on behalf of the state planning council, which carries out the priority area and other activities under an approved triennial state plan. This plan is developed and monitored by the state

planning council. Funds may be expended for up to 50% of the cost of the functions of the designated state agency under this program, but may not exceed 5% of a state's allotment or \$50,000, whichever is less. Secondly, allotments under the protection and advocacy program may be used to assist states in supporting a system that will have authority to pursue legal and other remedies to protect the rights of persons with developmental disabilities.

Formula Description: Two-thirds of the total appropriation is allotted to the states based on a formula that takes into account population and per capita income. One-third of the appropriated amount is allotted to each state based upon the number of state beneficiaries in the Childhood Disabilities Beneficiary Program, the age 18-65 population of the state, and the total state population. The data used to compute allotments are supplied annually by the Social Security Administration and the U.S Department of Commerce, for the three most recent consecutive years for which satisfactory data are available. The federal share of projects supported under the state plan may not exceed 75% except for activities in urban or rural private areas, which may not exceed 90% of the total project cost. Also, no match is required for Protection and Advocacy allotments.

10.560 STATE ADMINISTRATIVE EXPENSES FOR CHILD NUTRITION

Program Description: The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that conduct child nutrition programs. State agencies that administer the distribution of USDA donated commodities to schools or child or adult care institutions are also eligible for funding.

Formula Description: For the National School Lunch Program, the School Breakfast Program, and the Special Milk Program recipients receive 1% of the total funds used in the state for these programs during the second preceding year based on FNS program and fiscal data. No state receives less than \$100,000 or the amount it received in FFY 1981, whichever is larger. For the Child Care Food Program a sliding grant is based on FNS program and fiscal data. In addition, the Secretary has discretionary authority to provide funds to states for program improvement, based on FNS program and fiscal data. Funding is authorized through the Child Nutrition Act of 1966, as amended, Section 7. There is a maintenance of effort requirement. Any reduction of funds from state sources below the FFY 1977 level will result in a withdrawal of federal funds.

84.010 TITLE I GRANTS TO LOCAL EDUCATIONAL AGENCIES

Program Description: The program is designed to provide financial assistance to local educational agencies (LEAs) through state educational agencies (SEAs) to meet the special needs of educationally deprived children by helping them succeed in the regular school program. This includes attaining grade level proficiency, and improving achievement in both basic and more advanced skills.

Formula Description: The formula for allocating basic grants is in Section 1005 and for concentration grants in Section 1006 of the Elementary and Secondary Education Act of 1965. Basic grants are allocated to counties by formula, based on a state’s per pupil expenditure for education and the number of school-aged children from low-income families. States in turn make sub-county allocations to school districts using the best available data on the number of low-income children. Concentration grants are allocated to counties and LEAs having at least 6,500 children from low-income families or a poverty rate of at least 15%. In cases where counties and LEAs qualify under the 15% poverty rate threshold, the statute requires all children from low-income families to be counted for allocation purposes; in counties and LEAs that qualify only under the 6,500 children threshold, only low-income children in excess of that number are counted. The law also provides a minimum state allocation for basic and concentration grants. Within LEAs, school officials target funds to schools with the greatest numbers of poor children. Although basic grants and concentration grants are allocated to LEAs through different formulas, school districts combine these funds for use as a single program and services must supplement, not supplant, those provided by state and local educational agencies. Each state is allowed to use up to 1% of their LEA grant allocation for fund administration. There is no matching requirement.

84.011 MIGRANT EDUCATION — STATE GRANT PROGRAM

Program Description: The program funds projects designed to establish and improve programs that meet the special educational needs of children of migratory agricultural workers or migratory fishers.

Formula Description: Funds are allocated through a statutory formula based on each state's per pupil expenditure and the number of eligible full-time and part-time equivalent migrant students aged 3 to 21 residing within the state. The Secretary of Education is required to adjust the number to take into account the special needs of those children who are present for summer programs which entail additional operating costs. State per pupil expenditure rates are determined by the National Center for Education Statistics (NCES). The program has a maintenance of effort requirement, but does not require a state match.

84.013 TITLE I PROGRAM FOR NEGLECTED AND DELINQUENT CHILDREN

Program Description: The program provides financial assistance to state agencies to meet the special needs of institutionalized, neglected, or delinquent children; children in community day programs for whom the state has an educational responsibility; and children under the age of 21 in adult correctional institutions. Funds may be used to supplement, but not supplant, services normally provided with state money. Up to 10% of funds may be used to aid participants in the transition to regular or special education programs operated by a local education agency (LEA).

Formula Description: Allocations are based on the average daily attendance in the state agencies' schools for neglected and delinquent children, the state's average per pupil expenditure, and the amount of the federal appropriation. There is a maintenance of effort requirement, but a state match is not required.

84.048 VOCATIONAL EDUCATION — BASIC GRANTS TO STATES

Program Description: The program provides funds and other educational resources to enhance U.S. competitiveness in the world economy by developing the academic and occupational skills of all segments of the population. Grantees are expected to establish specific percentages to be spent for each of the following groups: handicapped, disadvantaged, adults in

need of training or retraining, single parents and homemakers, single pregnant women, participants in programs designed to eliminate sex bias, and stereotyping and inmates in correctional institutions.

Formula Description: Fund allocation is based on the relative number of state residents who fall into the following age groups: 15 to 19, 20 to 24, and 25 to 65, with more weight given to the 15 to 19 age group. These populations are multiplied by an allotment factor based on state personal income. The program has a 50% state matching requirement for administration only, and also has a maintenance of effort requirement.

Program Description: The program funds state and local efforts to provide alcohol and drug abuse education and prevention. These programs are expected to be coordinated with related community efforts and resources.

Formula Description: Allocations are based on a state's school-age population and its Chapter 1 funding. Most of the funds are administered by state education agencies (SEAs), but 20% of the funds must be sub-granted to local educational agencies (LEAs). The remaining funds may be used by the Governor's office for grants and contracts to community-based organizations for the development and implementation of broadly-based alcohol and drug abuse education and prevention programs. Governors must award 10% of funds to law enforcement education partnerships.

84.243 TECH-PREP EDUCATION

Program Description: The program provides funds to states for the following purposes: (1) planning and demonstration grants to consortia of local educational agencies and postsecondary educational agencies for the development and operation of four-year programs designed to

provide a tech-prep education program leading to a two-year associate degree or a two-year certificate; and (2) grants to develop in a systematic manner, strong, comprehensive links between secondary schools and postsecondary education institutions. Each funded program must be carried out under an articulation agreement between the participants in a consortium. It includes the two years of secondary school preceding graduation and two years of higher education, or an apprenticeship program of at least two years. The secondary instruction should have a common core that requires proficiency in mathematics, science, communications, and technologies designed to lead to an associate degree or certificate in a specific career field. It should also include the development of a tech-prep education program curricula and in-service training for teachers and counselors designed to meet consortium need.

Formula Description: Formula funding is based on states' populations in three age groups, and their per capita income averaged for the three most recent consecutive fiscal years. The formula gives more weight to the 15 to 19 year-old population, the youngest of the three age groups. It also favors states with lower per capita incomes. State per capita income determines share allotment ratios. Generally, the allotment ratio for a state is 1.00 minus the product of 0.50 and the quotient obtained by dividing the per capita income for the state by the per capita income for all the states. The age groups are 15 to 19, 20 to 24, and 25 to 65. They are weighted 50%, 20%, and 15% respectively. A fourth distribution, weighted 15%, is based on the sums of the amounts resulting from the three age group distributions.

93.576 REFUGEE AND ENTRANT ASSISTANCE — DISCRETIONARY GRANTS

Program Description: The program is designed to introduce changes in the services and related resettlement systems of states where refugees have a history of extended welfare utilization. The changes are to: (1) decrease the numbers of refugees on public assistance and the length of time they require such assistance; (2) promote refugee community and family stability; (3) encourage placement of refugee families in locations with good job opportunities and lower costs of living; (4) increase service dollars in areas with good resettlement records; (5) enhance services to disadvantaged refugee groups; and (6) respond to national needs which are not the purview of any particular state services program. The discretionary grant program allocates a portion of program social service and targeted assistance funds to conduct demonstration projects that promote refugee self-sufficiency or address their special needs.

Formula Description: Some activities under this program have matching requirements.

Changed from 83.548 in 2003.

Program Description: The program provides grants to promote safer building practices, improve existing structures, and shore up supporting infrastructure. The goal is to eliminate damage and loss from future natural disasters.

Formula Description: FEMA can fund up to 75% of the eligible costs of each project. The state or project applicant must provide the remaining 25%, which may be a combination of cash, in-kind services, or materials. The amount of funding for the program is based on 15% of all other disaster grants. States that meet planning requirements, which will be published as a result of the Disaster Mitigation Act of 2000, may receive 20% of all other disaster grants if, at the time of the declaration of a major disaster, they have in effect an approved Enhanced State Mitigation Plan.

66.458 CAPITALIZATION GRANTS FOR CLEAN WATER STATE REVOLVING FUNDS

Program Description: The program funds capitalization grants for the creation of state revolving funds (SRFs) in order to provide a feasible transition to state and local financing of municipal wastewater treatment facilities. Capitalization grants are available to states for establishing water pollution control revolving funds. These funds may be used for: (1) construction of publicly-owned wastewater treatment works; (2) implementing a non-point source management program under Section 319; and (3) developing and implementing an estuary

conservation and management plan under Section 320. The capitalization grant is deposited in the SRF, which is used to provide loans and other types of financial assistance, but not grants, to local communities and inter-municipal and interstate agencies. Up to 4% of the grant may be used for administration.

Formula Description: The Regional Administrator may award capitalization grants to the states by the formula located in Section 205(c)(3) of the Clean Water Act. The required state match is 20%.

LAW ENFORCEMENT TRAINING AND STANDARDS BOARD

16.712 POLICE CORPS

Program Description: The program provides assistance to students who have an interest in public service through law enforcement, and law enforcement personnel. The goal is to increase the number of police with advanced education who are assigned to community patrol in areas of great need. Police Corps participants seeking educational assistance must successfully complete the 16-24 week Police Corps training program and serve for four years on community patrol with a state or local police force in a participating state. Undergraduate participants first must attend college on a full-time basis and earn a baccalaureate degree. Participants who pursue graduate study must complete their service and training obligations in advance. Educational assistance is based on participants' actual educational expenses; no participant may receive more than \$30,000 under the program. State and local police and sheriffs' departments may receive cash assistance to employ Police Corps participants. Departments receive \$10,000 for each of a participant's first four years of service. No department may receive a cash payment for any year in which its average size has declined by more than 2% since January 1, 1993, or in which it has laid off officers. No more than 10% of a State's Police Corps participants may be assigned to a statewide police force. Training cost reimbursements are paid only to state training facilities approved to offer the Police Corps training program or its substantial equivalent. Educational assistance to dependents of officers killed in the line of duty is based on actual expenses for college education and the four year service obligation is waived; no dependent may receive more than \$30,000 under the program.
