We'd be requesting the quarterly earnings data from Unemployment Insurance records that IDES maintains.

What kind of data exactly?

Hey Toni-

Sorry to interrupt your 4th of July but a quick favor that can wait until tomorrow but I wanted to give you the background now if you will be seeing Jay. As you know we are working to evaluate the impact of One Summer Plus—which is a summer jobs program that also combines social/emotional learning supports for half the kids. A total of 700 youth from the schools/neighborhoods in the highest poverty/highest crime parts of the city were recruited into the jobs program. We will be looking at criminal justice and schooling outcomes but also hope to look at labor market outcomes. In order to do that we would need IDES data. DFSS has agreed to sponsor us to get the data (a letter from Commissioner Diaz will be forthcoming) but ideally we would like to have a letter from IDES saying that they are open to sharing these data with DFSS (contingent of course on successful completion of whatever application materials IDES would require). We had a fantastic conversation with the Assist Secretary for the US Dept of Labor yesterday and they are considering funding for our One Summer Plus evaluation but DOL want some sort of indication that we will actually be able to get IDES to provide the necessary UI data. Do you think we could get a letter from IDES to say that (again contingent on DFSS sponsoring the application and successful completion of the application/paperwork?) If you think it would be helpful I could draft such a letter for your/jay's consideration.

Yes—sorry—just completely underwater. Still at my desk if you are around and have a minute. By the way, I might need your help getting IDES data for the One Summer Plus Eval—though hopefully can do it all by myself!
By the way what ended up happening with NRI issue? People keep calling me. Like I have a clue!
