By statute she is hired by a board whose co-chairs are the Director of Public Health and the Attorney General.

What powers does the CJIA Director have versus the Board. What if the Board does not want to do an IGA? We do not necessarily control the Board. If the issue is Barbara, let's get someone new.

Fyi - for your consideration. Certainly not to be discussed with either our agencies or the legislature right now.

Yes, we could use an IGA where CJIA acts as the funding source and IVPA administers the program.

Please tell her I got her call. Don't tell her this but couldn't we resolve the question with an IGA?

FYI – it appears the House Public Safety Committee is proposing to move NRI out of IVPA and over to CJIA.

Barb Shaw believes this to be a personal issue with Rep Arroyo. She is very upset and wants to know what can be done.

It still has not been put in bill form yet so we don't know if this is final, but it sure appears that way.

So, the House is wanting to keep NRI at about $20M, but shift funding from IVPA over to CJIA and have CJIA run the program.

Barb had asked for an update on where we were with both Senate and House versions. She is ok with Senate, she did not take the news very well with respect to the House. Upset doesn't even come close to describing it. You may want to give folks on 16 a heads up that Barb will be calling.
