She calls Malcolm too. What she knows and what she does have no correlation. There is no need for you to call her back, I will reiterate that this is not your role.

But the question is, have you actually spoken with her and does she understand that I am not handling it and that I have a dozen other assignments and that I will not be able to call her? Thanks.

Any progress on this? I really do not want to work on this but it has to be taken care of. Someone has to actually speak

with her. Thanks.
