Toni –

Here is a spreadsheet showing our open grants. The first worksheet shows the source of the grant, most being federal grant programs. The second worksheet is the one that breaks out the grants by program focus which our monitors enter when putting a grant into the system and there is some discretion involved there since some of the grants might fall into more than one area. There is one major grant program, Adult Redeploy Illinois where a number of grants ended 12/31/12 and the new grant agreements are not yet signed so ARI is underrepresented on the report. The remaining worksheets are for individual grant funding programs and show individual grants from those programs.
