We also need to check on some issues with the FHA. This was a possibility if the Neighborhood Recovery Initiative is not a go.

We moved it from this week, but hadn't heard Monday as proposed date. I would advise pushing back - not only for outreach reasons (there are 70+ mayors interested in this) but also since he is announcing the western access the next day and this could overlap

The gov called me and thought that this event was a go for monday. I wasn't sure of its status.

Told him the western access was going to be in bensonville.
