IN-CAR CAMERA REPORT to ILETSB 07/2020-04/22/2021

The Number of Cameras Received:

The Mt. Olive Police Department received three (3) Pro-Vision In-Car Video camera kits, including a rear seat camera.

The Number of Cameras Installed:

All three (3) cameras were installed, in all three (3) squad cars and are currently in use. We are waiting for a replacement microphone dock for squad 3. Squad 1 was deployed on 07/22/2020, squad 2 was deployed on 07/16/2020, and squad 3 was deployed on 07/14/2020.

Review Process:

Currently, video from the squad cars is downloaded to a service called SecureMax®. I, the Chief of Police am the only person at this time with access to the video. All traffic stops etc are reviewed by me, and if some type of interaction is made, the video is marked not to be deleted.

Please see the attached list where In-Car camera footage has been used or requested for prosecution purposes.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'Joe D. Berry'.

Joe D. Berry, CFI
