Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the University of Illinois. We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of the University of Illinois' compliance with the following assertions during the year ended June 30, 2020. Based on this evaluation, we assert that during the year ended June 30, 2020, the University of Illinois has materially complied with the specified requirements listed below.

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Yours truly,

University of Illinois

## INDEPENDENT ACCOUNTANTS' REPORT ON STATE COMPLIANCE AND ON INTERNAL CONTROL OVER COMPLIANCE FOR STATE COMPLIANCE PURPOSES

Honorable Frank J. Mautino  
Auditor General, State of Illinois  
and  
Board of Trustees  
University of Illinois

### Compliance

As Special Assistant Auditors for the Auditor General, we have examined compliance by the University of Illinois with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during the year ended June 30, 2020. Management of the University of Illinois is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the University of Illinois' compliance with the specified requirements based on our examination.

The specified requirements are:

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the University of Illinois complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the University of Illinois complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our modified opinion.

Our examination does not provide a legal determination on the University of Illinois' compliance with the specified requirements.

Our examination disclosed material noncompliance with the following specified requirement applicable to the University of Illinois during the year ended June 30, 2020.

Specified Requirement C

As described in the accompanying Schedule of Findings and Questioned Costs as item 2020-001, the University of Illinois had not complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.

In our opinion, except for the material deviation from the specified requirement described in the preceding paragraph, the University of Illinois complied with the specified requirements during the year ended June 30, 2020, in all material respects. However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings and Questioned Costs as items 2020-002, 2020-003, and 2020-012 through 2020-019.

The University of Illinois' responses to the compliance findings identified in our examination are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the responses.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

### **Internal Control Over Compliance**

Management of the University of Illinois is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the University of Illinois' internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the University of Illinois' compliance with the specified requirements and to test and report on the University of Illinois' internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we did identify certain deficiencies in internal control that we consider to be a material weakness and significant deficiencies.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2020-001 to be a material weakness.

*A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as items 2020-002, 2020-003, and 2020-012 through 2020-019 to be significant deficiencies.

As required by the *Audit Guide*, immaterial findings excluded from this report have been reported in a separate letter.

The University of Illinois' responses to the internal control findings identified in our examination are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the responses.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**CliftonLarsonAllen LLP**

Peoria, Illinois  
May 13, 2021

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Frank J. Mautino  
Auditor General, State of Illinois  
and  
Board of Trustees  
University of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of the University of Illinois, collectively a component unit of the State of Illinois, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements, and have issued our report thereon dated May 11, 2021. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the University of Illinois' financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the University of Illinois Foundation; University of Illinois Alumni Association; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University Research Park, LLC; and UI Singapore Research, LLC, component units of the University, were not audited in accordance with *Government Auditing Standards* and, accordingly, this report does not include reporting on internal control or compliance and other matters associated with these component units.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University of Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as item 2020-001.

**Internal Control Over Financial Reporting**

Management of the University of Illinois is responsible for establishing and maintaining effective internal control over financial reporting (internal control).

In planning and performing our audit of the financial statements, we considered the University of Illinois' internal control as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we did identify certain deficiencies in internal control that we consider to be a material weakness and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2020-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as items 2020-002 and 2020-003 to be significant deficiencies.

#### **University of Illinois' Response to Findings**

The University of Illinois' responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University of Illinois' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University of Illinois' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**CliftonLarsonAllen LLP**

Peoria, Illinois  
May 11, 2021

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE, AND  
ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Frank J. Mautino  
Auditor General, State of Illinois  
and  
Board of Trustees  
University of Illinois

**Report on Compliance for Each Major Federal Program**

As Special Assistant Auditors for the Auditor General, we have audited compliance by the University of Illinois' with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of University of Illinois' major federal programs for the year ended June 30, 2020. The University of Illinois' major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs.

The schedule of expenditures of federal awards and our audit described below does not include expenditures of federal awards for those agencies determined to be component units of the University of Illinois for financial statement purposes.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of the University of Illinois' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about University of Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University of Illinois' compliance.

### **Opinion on Each Major Federal Program**

In our opinion, the University of Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

### **Other Matters**

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2020-004 through 2020-011. Our opinion on each major federal program is not modified with respect to these matters.

The University of Illinois' responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

### **Report on Internal Control Over Compliance**

Management of the University of Illinois' is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University of Illinois' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying Schedule of Findings and Questioned Costs as items 2020-004 through 2020-011 that we consider to be significant deficiencies.

The University of Illinois' responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of, the business-type activities, the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements. We issued our report thereon dated May 11, 2021, which contained unmodified opinions on those financial statements. Our report was modified to include a reference to other auditors. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

**2020-001. Finding: Inadequate Internal Controls over Census Data**

The University of Illinois (University) did not have adequate internal control over reporting its census data and did not have a reconciliation process to provide assurance census data submitted to its pension and other postemployment benefits (OPEB) plans was complete and accurate.

Census data is demographic data (date of birth, gender, years of service, etc.) of the active, inactive, or retired members of a pension or OPEB plan. The accumulation of inactive or retired members' census data occurs before the current accumulation period of census data used in the plan's actuarial valuation (which eventually flows into each employer's financial statements), meaning the plan is solely responsible for establishing internal controls over these records and transmitting this data to the plan's actuary. In contrast, responsibility for active members' census data during the current accumulation period is split among the plan and each member's current employer(s). Initially, employers must accurately transmit census data elements of their employees to the plan. Then, the plan must record and retain these records for active employees and then transmit this census data to the plan's actuary.

We noted the University's employees are members of both the State Universities Retirement System (SURS) for their pensions and the State Employees Group Insurance Program sponsored by the State of Illinois, Department of Central Management Services (CMS) for their OPEB. In addition, we noted these plans have characteristics of different types of pension and OPEB plans, including single employer plans and cost-sharing multiple-employer plans.

During testing, we noted the following:

- The University had not performed an initial complete reconciliation of its census data recorded by SURS and CMS to its internal records to establish a base year of complete and accurate census data.
- After establishing a base year, the University had not developed a process to annually obtain from SURS and CMS the incremental changes recorded by SURS and CMS in their census data records and reconcile these changes back to the University's internal supporting records.

Upon due consideration and based upon the significance of these issues alone, we concluded a material weakness exists within the University's internal controls related to ensuring both SURS and CMS can provide their respective actuaries with complete and accurate census data related to the University. Even given these two exceptions, we performed detail testing and certain data analysis tests and noted the following additional exceptions:

- 1) We conducted data matches of (1) individuals pulled from the University's records whom the University believed should have been participating in SURS during the census data accumulation period throughout Fiscal Year 2018 and (2) the University's faculty members teaching a class during the census data accumulation period throughout Fiscal Year 2018 to SURS' records. As a result of this testing, we identified 18 individuals who had been improperly excluded from participating in SURS, which resulted in these people not having any employee contributions collected by the University and reported to SURS during the census data accumulation period throughout Fiscal Year 2018. Additionally, we identified one individual who did not qualify to participate in SURS. As this person had been deemed SURS-eligible, the University collected and reported employee contributions to SURS during the census data accumulation period throughout Fiscal Year 2018.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

- 2) We performed an analysis of transactions reported by the University to SURS during the census data accumulation period throughout Fiscal Year 2018, noting the following problems:
- Seventy-two of 792 (9%) employees reported as hired had actually been hired in other fiscal years. SURS determined the total potential impact to each employee's total service credit was it could be off by one-quarter to 2.25 years.
  - Two of six (33%) employees reported as laid off by the University were untimely reported to SURS by the University. SURS determined the total potential impact to each former employee's total service credit was it could be off by 1 to 1.75 years.
  - Forty-four of 467 (9%) employees with a departure on a leave of absence had the start date of the leave of absence untimely reported to SURS by the University. SURS determined the total potential impact to each of these employee's total service credit was it could be off by one-quarter to 9.75 years.
  - Thirty-seven of 362 (10%) employees with a return from a leave of absence had the end date of the leave of absence untimely reported to SURS by the University. SURS determined the total potential impact to each of these employee's total service credit was it could be off by one-quarter to 8.5 years.
- 3) As of the end of the census data accumulation year on June 30, 2018, we identified 25 employees where each employee's associated termination or rehire date(s) had been untimely reported to SURS. While these employees were all associated with the University at June 30, 2018, some or all of these untimely reports may have occurred at other public universities and community colleges across the State. SURS determined these errors resulted in the employees being misclassified between the active, retired, and inactive member categories within SURS. The total potential impact to each former employee's total service credit was it could be off between 0.0 and 1.75 years.

For employers where their employees participate in plans with multiple-employer and cost-sharing features, the American Institute of Certified Public Accountants' *Audit and Accounting Guide: State and Local Governments* (AAG-SLG) (§ 13.177 for pensions and § 14.184 for OPEB) notes the determination of net pension/OPEB liability, pension/OPEB expense, and the associated deferred inflows and deferred outflows of resources depends on employer-provided census data reported to the plan being complete and accurate along with the accumulation and maintenance of this data by the plan being complete and accurate. To help mitigate against the risk of a plan's actuary using incomplete or inaccurate census data within similar agent multiple-employer plans, the AAG-SLG (§ 13.181 (A-27) for pensions and § 14.141 for OPEB) recommends an employer annually reconcile its active members' census data to a report from the plan of census data submitted to the plan's actuary, by comparing the current year's census data file to both the prior year's census data file and its underlying records for changes occurring during the current year.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

Additionally, eligibility criteria for participation in SURS under the Illinois Pension Code (Code) (40 ILCS 5/15-134(a)) states any person who is an employee of the University becomes a participant in SURS. Under the Code (40 ILCS 5/15-107(a)), an employee is a person who works for the University in a secretarial, mechanical, labor, clerical, educational, administrative, or other staff position which is either (a) permanent and continuous or (b) for a period of four months or an academic term, whichever is less, who is:

- 1) not a student employed on a less than full-time temporary basis;
- 2) not receiving a retirement or disability annuity from SURS;
- 3) not on military leave;
- 4) not eligible to participate in the Federal Civil Service Retirement System;
- 5) not currently on a leave of absence without pay more than 60 days after the termination of SURS' disability benefits;
- 6) not paid from funds received under the Federal Comprehensive Employment and Training Act as a public service employment program participant hired on or after July 1, 1979;
- 7) not a patient in a hospital or home;
- 8) not an employee compensated solely on a fee basis where such income would net earnings from self-employment;
- 9) not providing military courses pursuant to a federally-funded contract where the University has filed a written notice with SURS electing to exclude these persons from the definition of an employee;
- 10) currently on lay-off status of not more than 120 days after the lay-off date;
- 11) not on an absence without pay of more than 30 days; and,
- 12) a nonresident alien on a visa defined under subparagraphs (F), (J), (M), or (Q) of Section 1101(a)(15) of Title 8 of the United States Code who (1) has met the Internal Revenue Service's substantial presence test and (2) became an employee on and after July 1, 1991.

Further, for CMS' OPEB plan, we noted participation in OPEB is derivative of an employee's eligibility to participate in SURS, as members of SURS participate in OPEB as annuitants under the State Employees Group Insurance Act of 1971 (Act) (5 ILCS 375/3(b)).

In addition, the Illinois Pension Code (40 ILCS 5/15-157) requires the University to, at a minimum, withhold contributions of each employee's total compensation of 8% (9.5% for firefighters or police officers) for their participation in SURS, unless further contributions by the employee would either exceed the maximum retirement annuity in the Code (40 ILCS 5/15-136(c)) or the Tier 2 earnings limitation within the Code (40 ILCS 5/15-111(b)), and remit these amounts to SURS. Further, the Code (40 ILCS 5/15-155(b)) requires the University remit employer contributions to SURS reflecting the accruing normal costs of an employee paid from federal or trust funds. Additionally, the Act (5 ILCS 375/10) requires active employees to make contributions as set by CMS and the Act (5 ILCS 375/11) requires employer contributions by the University for all employees not totally compensated from its Income Fund, local auxiliary funds, and the Agricultural Premium Fund.

Finally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial and statistical reports.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

University officials stated the census data reconciliations had not been completed because they believed their existing processes and controls would result in materially correct census data being provided to SURS and CMS. University officials also stated certain transactions reported by the University to SURS during the census data accumulation period throughout Fiscal Year 2018 were not reported in a timely manner for various reasons. Examples of such events included employees with certain visa types which are retroactively eligible for SURS after meeting the Internal Revenue Service's substantial presence test, which crossed fiscal years; employees with multiple temporary jobs resulting in four months or an academic term of continuous employment required retroactive SURS eligibility, which crossed fiscal years; and certain disputed workers compensation events were resolved through legal processes, which created significant delays and resulted in retroactive workers compensation leave that crossed multiple fiscal years. Other transactions impacting this census data accumulation period were not reported in a timely manner because of coding issues used in certain automated processes and because of significant workload at the unit level.

Failure to ensure complete and accurate census data was reported to SURS and CMS could have resulted in a material misstatement of the University's financial statements and reduced the overall accuracy of pension/OPEB-related liabilities, deferred inflows and outflows of resources, and expense recorded by the State, the State's agencies, and other public universities and community colleges across the State. In addition, failure to reconcile active members' census data reported to and held by SURS and CMS to the University's internal records could result in each plan's actuary relying on incomplete or inaccurate census data in the calculation of the University's pension and OPEB balances, which could result in a material misstatement of these amounts. (Finding Code No. 2020-001)

**Recommendation:**

We recommend the University implement controls to ensure census data events are timely and accurately reported to SURS and CMS.

Further, we recommend the University work with SURS and CMS to develop an annual reconciliation process of its active members' census data from its underlying records to a report from each plan of census data submitted to the plan's actuary. After completing an initial full reconciliation, the University may limit the annual reconciliations to focus on the incremental changes to the census data file from the prior actuarial valuation, provided no risks are identified that incomplete or inaccurate reporting of census data may have occurred during prior periods.

Additionally, we recommend the University work with SURS and CMS to identify and address any unremitted or erroneously remitted employee and, if applicable, employer contributions related to these events.

Finally, due to the interrelatedness of SURS, the mobility of employees to change their employers within SURS, and a specific noncompliance matter regarding whether a person is eligible to participate in SURS identified during testing at Governors State University (please see Governors State University's Fiscal Year 2020 financial audit report for more information), we recommend the University work with both SURS and Governors State University to identify employees initially hired by Governors State University with a visa defined under subparagraphs (F), (J), (M), or (Q) of Section 1101(a)(15) of Title 8 of the United States Code who had not met the Internal Revenue Service's substantial presence test and started employment on and after July 1, 1991.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

**University Response:**

Accepted. With over 70,000 employees, the University has numerous electronic and manual controls in place to ensure that employees who are eligible for SURS and OPEB are identified correctly. The University also has numerous controls over census data for the University's 30,000 employees eligible for SURS and OPEB benefits that the University believes would prevent a material misstatement of the University's pension and OPEB balances.

Certain transactions impacting employee service credit are not able to be reported to SURS in the fiscal year to which they were incurred due to legitimate reasons. For example, employees with certain visa types can be retroactively eligible for SURS after meeting the Internal Revenue Service's substantial presence test, which can cross fiscal years. Employees with multiple temporary jobs can result in four months of continuous employment that requires retroactive SURS eligibility, which can cross fiscal years. Additionally, disputed workers compensation events might be resolved through legal processes, which can create significant delays and result in retroactive workers compensation leave that crosses multiple fiscal years.

However, the University acknowledges its controls over census data did not always ensure timely reporting of other employee events to SURS and CMS. Additionally, controls for determining pension and OPEB eligibility did not always operate as intended. The University will work with SURS and CMS to develop census data reconciliation processes, will enhance controls to improve the timeliness of reporting certain employee events impacting pension and OPEB census data, and will strengthen processes for determining pension and OPEB eligibility.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

**2020-002. Finding: Inadequate Procedures over Expense Deferrals and Other Cut-off Related Issues**

The University of Illinois (the University) has not established adequate internal controls over accurately identifying and recording deferred expense transactions and reporting prepaid expenses at fiscal year-end for financial reporting purposes.

During our audit, we noted the University's procedures to identify and record prepaid expenses include a review of all cash disbursements by University Payables (UPAY). UPAY identifies expense transactions that pertain to multiple fiscal years and codes them for further review by University Accounting and Financial Reporting (UAFR). UAFR will then post year-end journal entries to appropriately defer the identified expense transactions. In addition to the review of all cash disbursements by UPAY, UAFR also requires individual units to identify and report known accrual and deferral transactions at fiscal year-end for certain fund types. We also noted the University's year-end accounts payable procedures include specifically reviewing cash disbursements made subsequent to year-end through the end of October to determine which accounting period the related expense transactions pertain.

In relation to our test work over expense transactions, we reviewed 197 cash disbursement transactions (totaling \$59,187,872), 60 P-Card expense transactions (totaling \$454,937), and 60 T-Card expense transactions (totaling \$383,536) recorded during the fiscal year. In relation to our test work over revenue transactions, we reviewed 60 cash receipt transactions recorded during the fiscal year (totaling \$83,225,778). We also reviewed 10 cash disbursements occurring subsequent to year-end (totaling \$112,741,739). Additionally, we separately reviewed 12 internal journal voucher transactions recorded during the fiscal year (totaling \$822,059,884).

During our review of these transactions, we noted the following items were not recorded in the proper accounting period:

*University of Illinois transactions*

- Two general and service expense cash disbursements (totaling \$1,417,673) that were recorded as expenses for fiscal year ended June 30, 2020, should have been partially accrued as of June 30, 2019 at an amount of \$1,252,430;
- One operations of auto expense (totaling \$534) that was recorded as expense for fiscal year ended June 30, 2020, should have been fully accrued as of June 30, 2017;
- One general expense (totaling \$2,522) that was recorded as expense for fiscal year ended June 30, 2020, should have been fully accrued as of June 30, 2018;
- One general expense (totaling \$13,074) that was recorded as expense for fiscal year ended June 30, 2020, should have been fully accrued as of June 30, 2019; and
- One cash receipt (totaling \$931,999) that was recorded as operating revenue for the fiscal year ended June 30, 2020, should have been fully accrued as of June 30, 2019.

*University of Illinois P-card transactions*

- Two general expenses (totaling \$9,512) that were recorded as expenses for fiscal year ended June 30, 2020, should have been fully accrued as of June 30, 2019; and
- One general expense (totaling \$499) that was recorded as an expense for fiscal year ended June 30, 2020, should have been partially deferred as of June 30, 2020 at an amount of \$309, and then recognized as expenses for the subsequent fiscal years.

*University of Illinois T-card transactions*

- Two general cash disbursements (totaling \$10,364) that were recorded as expenses for fiscal year ended June 30, 2020, should have been fully deferred as of June 30, 2020.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

Generally accepted accounting principles require transactions to be reported in the period they are incurred. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources. The University's system of internal controls should include procedures to ensure expenses and revenues are recognized in the appropriate reporting period.

In discussing these conditions with University personnel, they stated that in many of these instances, the units associated with the exceptions did not adequately follow established procedures to record the transactions in the proper period.

Failure to accurately analyze and record cash receipts and disbursements within the proper fiscal year may result in the misstatement of the University's financial statements. (Finding Code No. 2020-002, 2019-001, 2018-001, 2017-001, 2016-001, 2015-001, 2014-001, 2013-001, 12-01, 11-01, 10-03, 09-03)

**Recommendation:**

We recommend the University continue to review its process to assess the existence of current period revenues and expenses and consider changes necessary to ensure they are accurately identified and recorded for presentation in the University's financial statements.

**University Response:**

**Accepted.** The University will continue to implement the necessary corrections to address the recommendation in this finding.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

**2020-003. Finding: Inadequate Controls over University Procurement Card Transactions**

The University of Illinois (the University) has not complied with University policies and internal controls over procurement card transactions.

The University operates a procurement card program which allows individuals throughout the University to make smaller purchases (defined as less than \$4,999) on a credit card which is directly paid by the University on a monthly basis. The University's policies require employees assigned a procurement card to complete training on policies and procedures, pass a test, and sign an agreement stipulating they will use the card in accordance with University policy. This agreement is also required to be authorized by the individual's supervisor or the department head. The University's policies require transactions incurred on the procurement card to be approved in the University's procurement card system by the individual cardholder and an assigned reviewer.

During our test work over 75 procurement card transactions totaling \$477,735, including 15 transactions noted for unusual activity, we noted the following:

- Three (4%) transactions (totaling \$21,358) were paid in two installments, circumventing the cardholder's single transaction limit of \$4,999.
- One (1%) transaction (totaling \$4,998) was not reconciled within 25 days of appearance on the P-Card software, as required. The reconciliation was completed 39 days late.
- Two (3%) transactions (totaling \$7,699) were made prior to completion of the required Electronic Services/Software Purchased Form.
- Eleven (15%) transactions (totaling \$6,621) were for charges such as business meals and refreshments and professional and artistic services, all of which were prohibited by the University's procurement card policies.

The University has approximately 4,220 active procurement cards, and the procurement card expenditures paid for the year ended June 30, 2020 totaled \$53,650,621.

The University policy states the reconciler must review and reconcile each transaction with the Order Log and with the original, detailed, itemized receipt within 25 business days of its appearance in the P-Card software, in order for the transaction to post in Banner for financial reporting.

In addition, the University policy states prior to using a P-Card to purchase allowable computer software and electronic services, the unit must complete and retain the Electronic Services/Software Purchased Form.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure procurement card transactions are in accordance with University policies and procedures.

University management indicated the bulleted exceptions largely resulted from human error at the individual and/or unit level by not following procurement card policies and procedures.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – GOVERNMENT AUDITING STANDARDS  
Year Ended June 30, 2020**

Failure to properly review and approve procurement card transactions in accordance with University policies could result in erroneous or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2020-003, 2019-002, 2018-003, 2017-004, 2016-002, 2015-002, 2014-002, 2013-002, 12-02, 11-03, 10-02, 09-02, 08-03)

**Recommendation:**

We recommend the University continue to review and improve its internal controls over procurement card transactions to ensure compliance with University policies so that erroneous or fraudulent transactions are not recorded in the general ledger system.

**University Response:**

**Accepted.** The University recognizes the importance of procurement card process controls, training, and transaction monitoring. Further corrective action will be taken in connection with the recommendation in this finding.

**Questioned Costs:** None

**2020-004. Finding: Failure to Document Risk Assessments for Student Information Security**

The University of Illinois System (University) did not properly document required risk assessments related to student information security.

As a requirement under the University's Program Participation Agreement with the Department of Education, the University must protect student financial aid information. However, during our testing, we noted the University had not properly conducted a risk assessment identifying all internal and external risks related to the security, confidentiality, and the integrity of the students' information.

The University of Illinois at Urbana-Champaign and at Chicago, did not complete a risk assessment for year ended June 30, 2020; therefore, risks have not been properly assessed to ensure adequate controls have been implemented for protecting student information.

The University of Illinois at Springfield, conducted a risk assessment for the year ended June 30, 2020; however, the risk assessment did not include all considerations of risk in each relevant area of operations; including the processing, storage, transmission and disposal of information, as well as detecting, preventing and responding to attacks, intrusions, or other system failures.

Additionally, the University did not have safeguards documented for each risk required to be identified.

The Standards for Safeguarding Customer Information, required by the Gramm-Leach-Bliley Act (GLBA) (16 CFR 314.4 (b)), requires customers to identify reasonable foreseeable internal and external risks to the security, confidentiality, and integrity of customer information that could result in the unauthorized disclosure, misuse, alteration, destruction or other compromise of such information, and assess the sufficiency of any safeguards in place to control these risks. At a minimum, such a risk assessment should include consideration of risk in each relevant area of operations, including:

- (1) Employee training and management; and
- (2) Information systems, including network and software design, as well as information processing, storage, transmission, and disposal; and
- (3) Detecting, preventing, and responding to attacks, intrusions, or other system failures.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures for timely review of the Information Security Program and proper documentation of the risk assessments.

According to University officials, the University maintains information security policies and standards that address the provisions of the GLBA although resources have not been allocated to document a risk assessment related to students' information.

Without documentation of a proper risk assessment, the University is at risk of noncompliance with the GLBA.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

In addition, there is a risk the University's information and systems could be vulnerable to attacks or intrusions, and these attacks may not be detected in a timely manner. (Finding Code No. 2020-004)

**Recommendation:**

We recommend the University perform and document a comprehensive risk assessment identifying internal and external risks to the security, confidentiality, and integrity of the students' information. In addition, the University should ensure proper safeguards are in place to ensure the security of student information.

**University Response:**

**Accepted.** The University will initiate a risk assessment encompassing student information associated with the functions of the student financial aid processes across the three universities.

**STATE OF ILLINOIS

**2020-005. Finding: Inadequate Review of Title IV Fund Calculation**

The University did not accurately complete Return of Title IV (R2T4) calculations for students.

During our testing of 35 students at the University of Illinois at Urbana-Champaign, from a statistically valid sample, we noted one (3%) student in which the University did not determine the student's withdrawal timely. The University determined the student's withdrawal on January 4, 2020, however; the student requested the withdrawal on October 16, 2019. Additionally, the University used a withdrawal date of October 19, 2019 for the R2T4 calculation instead of the date recorded on the withdrawal form of October 16, 2019, resulting in an error in the R2T4 calculation of \$263, which should have been returned to the US Department of Education.

During our testing of five students at the University of Illinois at Springfield, from a statistically valid sample, we noted two (40%) students for which the University did not properly calculate the correct number of days for the student's scheduled break in the R2T4 calculation. Due to the COVID-19 pandemic, the University implemented an extension to the scheduled spring break resulting in a break of 14 days, however; the University did not include weekends and used ten days when completing the student's R2T4 calculations. Although the calculations were incorrect, there were no federal funds to be returned to the US Department of Education because all financial aid awarded was earned by the students.

During our testing of five students at the University of Illinois at Springfield, from a statistically valid sample, we noted four (80%) students for which the University did not have a documented formal review for the R2T4 calculations. The University has indicated a review is happening; however, no formal review is being documented.

According to 34 CFR 668.22(c)(1)(ii), institutions are required to complete accurate Return of Title IV calculations as defined in the regulations. A student that provides official notification of his or her intent to withdrawal, for the purposes of calculation of the Return of Title IV funds, the date the student began the institution's withdrawal process is the withdrawal date for Title IV purposes.

According to the Federal Student Aid Handbook, institutions where classes end on a Friday and do not resume until Monday following a one-week break, both weekends (four days) and the five weekdays would be excluded from the R2T4 calculations. If classes were taught on either weekend for the programs that were subject to the scheduled break, those days would be included rather than excluded. Students that attend more than 60% of the payment period or period of enrollment earn all financial aid awarded and therefore are not required to return the funds to the US Department of Education.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure students are awarded aid within the prescribed limits and include a documented formal review to ensure the accuracy of all Return of Title IV calculations.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

According to University officials at the University of Illinois at Urbana-Champaign, based on available information at the time, the student was processed as an unofficial withdraw in January 2020. In May 2020, the college office submitted documentation to the Registrar indicating the student had been in contact with their office to complete an official withdraw. At that time, it was recognized the student had officially withdrawn and the student was reprocessed. The incorrect October 2019 date used in the R2T4 calculation is attributed to human error.

According to University officials at the University of Illinois at Springfield, due to the loss of staff responsible for performing the R2T4 calculations, remaining staff were not properly trained. The lack of training lead to issues with the R2T4 formula, specifically counting the number of days associated with a scheduled break.

The Return of Title IV calculation determines the amount of federal financial assistance the student is entitled to and is based on the number of days they completed in the period. Using the incorrect number of days in the term in the R2T4 calculations may result in incorrect return calculations and additional funds needing to be returned to the US Department of Education.

The lack of independent documented reviews of the R2T4 calculations being performed by the student financial aid staff could result in errors going undetected by the University. (Finding Code No. 2020-005)

**Recommendation:**

We recommend the University review its current procedures for Title IV funds and implement additional procedures to ensure withdrawals are determined timely. We also recommend the University implement formal review procedures to document the Return of Title IV calculations are being performed to minimize the likelihood that errors may go undetected and not be corrected in a timely manner.

**University Response:**

**Accepted.** The University of Illinois Urbana-Champaign has corrected the calculation and returned to the Department of Education the \$263 in questioned costs. The University will work to address the recommendations in this finding.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS

**CFDA # and Program Expenditures:** 84.007/84.033/84.038/84.063/84.268/84.379/  
93.264/93.342/93.364 (\$600,122,289)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2020-006. Finding: Errors in Reporting for NSLDS**

The University did not properly report the student enrollment changes for students who received federal student aid to the National Student Loan Data System (NSLDS).

Out of the five students, from a statistically valid sample, tested at the University of Illinois at Springfield, we noted two (40%) students' status changes were reported after the 60-day reporting requirement. We also noted for the same two students, the University had improper reporting which resulted in errors of the enrollment effective dates to NSLDS.

Out of the 15 students, from a statistically valid sample, tested at the University of Illinois at Chicago, we noted five (33%) students with improper reporting which resulted in errors of the enrollment effective dates to NSLDS. For three students, the student's enrollment status was not properly updated at the Program-Level in NSLDS. For the remaining two students, the University did not report the correct enrollment effective date to NSLDS.

Out of 23 students, from a statistically valid sample, testing at the University of Illinois at Urbana-Champaign, we noted four (17%) students with improper reporting which resulted in errors of the enrollment effective dates to NSLDS. For one student, the status change was reported after the 60-day reporting requirement and the University did not report the correct enrollment effective date to NSLDS. For the second student, the student's enrollment status was not properly updated at the Campus-Level or Program-Level in NSLDS. For the remaining two students, the University did not report the correct enrollment effective date to NSLDS.

The Code of Federal Regulations (34 CFR 685.309) requires enrollment status changes for students be reported to NSLDS within 30 days or within 60 days if the student with the status change will be reported on a scheduled transmission within 60 days of the change in status. Regulations require the status include an accurate effective date.

According to the NSLDS Enrollment Reporting Guide, a student's Program-Level enrollment status should be reported with the same enrollment status as that student's campus-level enrollment status for all programs the student is enrolled in at that location, even if the student is not currently taking coursework that applies to a particular program. If the student has withdrawn or graduated from an academic program, a "terminal enrollment status" of 'W' or 'G,' as appropriate, should be reported for that program, even if the student is still taking coursework applicable to other programs in which the student is enrolled.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure enrollment reporting is completed properly.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

According to University officials, at the University of Illinois at Springfield, the loss of personnel and an interim financial aid director exposed areas that required attention. Remaining staff were unaware of the program code issues in NSLDS.

According to University officials, at the University of Illinois at Chicago, processing errors occurred with the third-party vendor it uses for enrollment reporting that resulted in withdrawal information being overridden and reported in NSLDS.

According to University officials, at the University of Illinois at Urbana-Champaign, the identified students were determined to be unofficial withdrawals for the spring 2020 semester. In two situations the manual entry to NSLDS was not submitted due to human error. In the remaining two cases, processing errors occurred with the third-party vendor it uses for enrollment reporting that resulted in withdrawal information being overridden and reported in NSLDS.

If the NSLDS system is not updated with the student information, overawards could occur should the student transfer to another institution and the student may not properly enter the repayment period. (Finding Code No. 2020-006)

**Recommendation:**

We recommend the University review current processes for reporting to NSLDS and implement procedures to ensure submissions are reported timely and accurately.

**University Response:**

**Accepted.** The University will work to address the recommendations in this finding.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

**Federal Agency:** US Health & Human Services (HHS)

**Program Name:** Heath Center Program

**CFDA # and Program Expenditures:** 93.224/93.527 (\$4,114,237)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2020-007. Finding: Inadequate Support for Procurement**

The University did not maintain adequate records for a procurement vendor for the Health Care Program Cluster.

During our testing of three procurements, from a statistically valid sample, with expenditures totaling \$127,280, we noted one expenditure of \$15,500 from a vendor procurement did not contain proper supporting documentation for a small purchase procurement. Additionally, the University did not complete the Small Purchase Quote Waiver Form.

Uniform Grant Guidance 2 CFR 200.320(b) states if small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources as determined appropriate by the non-Federal entity. The University must also maintain records sufficient to detail the history of the procurement. These records will include but are not necessarily limited to the following: the rationale for the method of procurement, the selection of contract type, the contractor selection or rejection, and the basis for the contract price.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure procurement procedures are properly followed and support is maintained.

According to University officials, the requisition incorrectly contained a reference to an existing contract. An existing contract would have exempted the transaction from requiring additional documentation of price/rate quotes, Small Purchase Quote Waiver, or an explanation for why multiple quotes weren't obtained because such documentation would have already been obtained prior to contract execution.

If the procurement procedures are not properly followed and documented, the University could approve payments of federal funds to vendors that do not meet federal regulations. (Finding Code No. 2020-007)

**Recommendation:**

We recommend the University retain proper supporting documentation within their procurement files.

**University Response:**

**Accepted.** This purchase was for a one-of-a-kind training program where a University faculty member applied and was accepted. The University has since obtained documentation supporting the selection of this vendor.

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2020-008. Finding: Failure to Send Exit Counseling Notification to Students**

The University did not send out the required exit counseling notification for students.

During our testing of 72 students, from a statistically valid sample, we noted two students (3%) did not receive a notice for exit counseling. The University of Illinois at Springfield did not properly send out the required notification for exit counseling for the noted two students.

The Code of Federal Regulations (34 CFR 674.42(b)(1)) requires an institution to ensure exit counseling is conducted with each borrower either in person, by audiovisual presentation, or by interactive electronic means. The institution must ensure exit counseling is conducted shortly before the borrower ceases at least half-time study at the institution. As an alternative, in the case of a student enrolled in a correspondence program or a study abroad program that the institution approves for credit, the borrower may be provided with written counseling material by mail within 30 days after the borrower completes the program. If a borrower withdraws from the institution without the institution's prior knowledge or fails to complete an exit counseling session as required, the institution must ensure exit counseling is provided through either interactive electronic means or by mailing counseling materials to the borrower at the borrower's last known address within 30 days after learning the borrower has withdrawn from the institution or failed to complete exit counseling as required.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure each student that drops below half-time enrollment, graduates, or leaves school receives exit counseling.

According to University officials, two students were inadvertently missed during the exit counseling notification process due to human error.

Exit counseling helps federal student loan borrowers understand how to repay their loans and reviews deferment and repayment plans options. Exit counseling also addresses the borrowers' rights and responsibilities and provides a process to collect updated student contact information. Failure to complete exit counseling may increase the likelihood of default of student loans. (Finding Code No. 2020-008)

**Recommendation:**

We recommend the University review reporting processes to ensure all students that require exit counseling receive it in a timely manner.

**University Response:**

**Accepted.** The University will work to address the recommendation in this finding.

**STATE OF ILLINOIS

93.264/93.342/93.364 (\$600,122,289)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2020-009. Finding: Underpayment of Title IV Funds**

The University of Illinois at Chicago underpaid Title IV funds to one student.

During our student file testing, we noted 1 of 72 (1%) students, from a statistically valid sample, was disbursed less Title IV funds than awarded based on the 2019-20 Pell payment schedules. The Pell payment schedules take into account the cost of attendance, the student's Expected Family Contribution and the enrollment status of the student. The University of Illinois at Chicago did not properly update the student's cost of attendance and disbursed Pell funds of \$1,275 instead of \$1,293, resulting in an underpayment to the student of \$18.

The Code of Federal Regulations (34 CFR 690.80(b)(1)) states if the student's enrollment status changes from one academic term to another within the same award year, the institution shall recalculate the Federal Pell Grant award for the new payment period taking into account any changes in the cost of attendance.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure students are awarded and disbursed the proper federal fund amounts.

According to University officials, there was an issue related to system reconfiguration for new year awarding that affected this student.

Failure to properly determine and disburse Title IV funds based on eligibility for each type of aid in accordance with federal regulations may result in students receiving incorrect funds. (Finding Code No. 2020-009)

**Recommendation:**

We recommend the University review its current procedures for awarding Title IV funds and implement any changes necessary to ensure federal funds are awarded and disbursed in accordance with federal regulations.

**University Response:**

**Accepted.** The issue related to system reconfiguration has now been resolved.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

**Federal Agency:** Department of Education

**Program Name:** Higher Education Emergency Relief Fund

**CFDA # and Program Expenditures:** 84.425E, 84.425F, 84.425L (\$58,584,282)

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2020-010. Finding: Untimely Submission of HEERF Reporting**

The University did not have adequate procedures in place to ensure the proper Higher Education Emergency Relief Fund (HEERF) reporting requirements were submitted accurately and timely.

During our testing of reporting requirements for HEERF programs at the University, we noted the University of Illinois at Springfield and the University of Illinois at Chicago, the John Marshall Law School (JMLS) did not submit the initial Section 18004(a)(1) Student Portion Public Report within the 30-day requirement.

Additionally, the University of Illinois at Springfield, did not accurately report one of the required criteria which includes the total number of students who have received an Emergency Financial Aid Grant to students under 18004(a)(1) of the CARES Act at the time of reporting. The University of Illinois at Springfield reported the total number of students to date who had received Emergency Financial Aid Grants as 619 when the actual total was 669 students.

According to the Information for Financial Aid Professionals (IFAP), revised May 6th, 2020 electronic announcement by the Department of Education, encouraged institutions are to report as soon as possible, but no later than 30 days after the publication of the electronic announcement or 30 days after the date the Department of Education obligated funds to the institution for Emergency Financial Aid Grants to Students, whichever comes later.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure reporting requirements are completed timely and with accurate information.

According to University officials at the University of Illinois at Springfield, due to the loss of leadership within the financial aid office, remaining staff were unaware of the 30-day reporting requirement and human error caused an incorrect number to be posted in the total students receiving emergency grants data field.

According to the University officials at the University of Illinois at Chicago, JMLS reported separately from University of Illinois at Chicago as funds were received under the JMLS Office of Postsecondary Education Identifier and JMLS misinterpreted the Section 18004(a)(1) Student Portion reporting requirements.

Without proper program reporting policies and procedures, the University is at risk of noncompliance with the funding agency requirements and submitting reports with errors. (Finding Code No. 2020-010)

**Recommendation:**

We recommend the University review and update current policies and procedures to ensure HEERF program reporting requirements are completed accurately and timely.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

**University Response:**

**Accepted.** The John Marshall Law School (JMLS) used all HEERF funding awarded in FY20 under the JMLS OPEID, thus, this was the last and final report. The JMLS OPEID has since been closed and any future JMLS and University of Illinois at Chicago (UIC) HEERF Student Portion reporting is being managed by the UIC Student Financial Aid Office as of July 1, 2020 and all reports have been posted in the required timeframe.

**STATE OF ILLINOIS

**Award Numbers:** See Table of Award Numbers

**Questioned Costs:** None

**2020-011. Finding: Inadequate Documentation of Direct Loan Reconciliations**

The University's student financial aid department did not perform a documented independent review of the monthly Direct Loan Reconciliations.

The University of Illinois at Springfield indicated an independent review of the Direct Loan Reconciliation is being performed; however there is no documentation supporting the review, such as a signature or email from the independent reviewer, or that it is being completed timely.

The Code of Federal Regulations (34 CFR 685.300(b)(5)) and the Federal Student Aid Handbook, Volume 4, Chapter 6, states loan reconciliation is a mandatory monthly process requiring the comparison of both internal and external records to be completed by a University participating in the Direct Loan Program. Reconciliation is conducted to identify and resolve differences between net draws and disbursements reported to the Common Origination and Disbursement for a specific award year. A University must document the reasons and resolve the discrepancies identified during the reconciliation process and that a review had been performed.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure the direct loan reconciliations are being performed and reviewed timely.

According to University officials, although reconciliations were completed, proper documentation was not retained.

The lack of independent documented review of the direct loan reconciliations being performed by student financial aid department could result in errors in the reconciliation going undetected by student financial aid management. (Finding Code No. 2020-011)

**Recommendation:**

We recommend the University of Illinois at Springfield implement a formal review procedure to document that the direct loan reconciliations are performed on a timely basis each month.

**University Response:**

**Accepted.** UIS will work to address the recommendation in this finding.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-012. Finding: Failure to Maintain Adequate Records Substantiating Written Notices**

The University of Illinois Hospital (University) was unable to provide adequate records substantiating written notices were provided to patients within 24 hours after their admittance into the University Hospital indicating the patients were under observation status in accordance with the University of Illinois Hospital Act (Act) and University policies and procedures.

The University's Patient Admissions Policy and Procedure (Policy) requires the University to issue Notice of Observation Status (Form UI-5010) to patients after their admittance into the University Hospital notifying they have been placed under outpatient observation status and have not been admitted as an inpatient. In addition, the University requires patients or their legal representative to sign the Form UI-5010 to acknowledge the receipt and understanding of their outpatient observation status.

During testing, we requested Form UI-5010s for 25 patients selected to test the University's compliance with the Act and the Policy. The University was unable to provide Form UI-5010s for 6 (24%) patients. As a result, we were unable to determine the University's compliance with the Act and the Policy.

The Act (110 ILCS 330/8a) requires within 24 hours after a patient's placement into observation status, the University of Illinois Hospital to provide that patient with an oral and written notice that the patient is not admitted to the hospital and is under observation status. The written notice shall be signed by the patient or the patient's legal representative to acknowledge receipt of the written notice and shall include, but not be limited to, the following information: (1) a statement that observation status may affect coverage under the federal Medicare program, the medical assistance program under Article V of the Illinois Public Aid Code, or the patient's insurance policy for the current hospital services, including medications and other pharmaceutical supplies, as well as coverage for any subsequent discharge to a skilled nursing facility or for home and community based care; and (2) a statement that the patient should contact his or her insurance provider to better understand the implications of being placed into observation status.

In addition, the University's Patient Admissions Policy and Procedure requires the Notice of Observation Status form be presented to patients under observation status for their signatures.

Furthermore, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls. Effective internal controls should include procedures to ensure supporting documentation for each patient placed under observation status is maintained.

This finding was first noted during the examination of the year ended June 30, 2017. In the subsequent years, the University of Illinois Hospital has been unsuccessful in implementing a corrective action plan.

University officials stated the process involving level of care assignment is complex and involves many areas and clinicians within the health system through the use of various systems and technology. The University of Illinois Hospital ("Hospital") has identified ongoing process opportunities in the workflow of level of care assignment and changes between outpatient, inpatient and observation status that occur during the course of patient encounter. While these workflows are properly managed in terms of final correct level of care assignment, the process to obtain signature on the observation notice on level of care changes post admission were not properly executed in all cases. In addition, certain deficiencies in processes exist driven by inadequate information systems technology workflows in the Hospital's electronic health record (EHR) used in fiscal year 2020.

Failure to maintain supporting documentation inhibits the auditors' ability to test the University's compliance with applicable laws and regulations. Further, failure to comply with the Act could subject the University to litigation risk. (Finding Code No. 2020-012, 2019-007, 2018-013, 2017-015)

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**Recommendation:**

We recommend the University strengthen its controls to ensure Notice of Observation Status forms are retained for all patients not admitted into the University Hospital, but who are under observation status.

**University Response:**

**Accepted.** The University will continue to monitor internal processes and continue to work on improving compliance with this requirement noting the form completion compliance rate improved from 68% for the fiscal year 2019 audit to 76% for the current audit period. Additionally, implementation of a new electronic health record (EHR) for the Hospital occurred subsequent to the audit period in September 2020 which is expected to improve data capture and efficiency of process. Finally, there are occurrences where payer driven level of care changes can occur post discharge (i.e. after a patient has left the facility). The Statute did not contemplate such an occurrence which is being driven by insurance companies on a retrospective basis. Accordingly, there is no immediate action the Hospital can take for this portion of the activity. The University is working to seek a legislative remedy. Legislation to correct the audit finding was filed as Senate Bill 3775 on 2/14/20. Unfortunately, due to the COVID-19 pandemic and resulting shelter-in-place order, the Illinois General Assembly did not convene for most of session. The bill was reassigned to the Senate Assignments committee and did not receive a hearing this session. The Hospital is working to advance legislation in the Spring 2021 Session that will amend the Patient Notice of Observation Status Article of the University of Illinois Hospital Act to ensure the Hospital shall not be out of compliance.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-013. Finding: Failure to Follow Time Reporting Requirements**

The University of Illinois (University) does not require all employees to submit time reports as required by the State Officials and Employees Ethics Act and does not have adequate procedures to ensure accurate employee time reporting.

During testing of payroll, we selected 40 employees across all three campuses and noted the following:

- Nine (22.5%) employees (six from the Urbana-Champaign campus and three from the Springfield campus) did not file time reports as required by the State Officials and Employees Ethics Act. University management stated faculty, postdoctoral employees, instructors, and lecturers continue to track their time using a “negative” timekeeping system whereby the employee is assumed to be working, unless noted otherwise.
- Two (5%) employees from the Urbana-Champaign campus, under the Academic Professional employee class, did not properly submit time reports, as required by the University policy.

The State Officials and Employees Ethics Act (Act) (5 ILCS 430/1-5) defines “State agency” to include “public institutions of higher learning...” and defines “State employee” to be “any employee of a State agency”. The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The Act (5 ILCS 430/5-5(c)) also states, “The policies shall require State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour; contractual State employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement.” The IBHE adopted personnel policies for public universities on February 3, 2004 in accordance with the Act. The University has not incorporated these policies into the University’s policies.

The University Reporting Policy for the State Officials and Employees Ethics Act (SOEEA) requires all Academic Professional and Civil Service employees to document all hours worked, using the University’s Online Reporting tool, while conducting official University business.

This finding was first noted during the examination of the year ended June 30, 2005. In the subsequent years, the University has been unsuccessful in implementing a corrective action plan.

University officials stated they have not incorporated policies regarding time reporting for all employees as they are having continued dialogue with the academic leadership on this matter. In the meantime, the System has implemented several mechanisms to comply with the requirement for the majority of their employees such as training and weekly reminder emails; however, trying this has proven difficult to achieve full compliance due to the thousands of employees with competing priorities.

Failure to follow and ensure all employees comply with the time reporting requirements of the Act results in noncompliance with the Act. (Finding Code No. 2020-013, 2019-008, 2018-014, 2017-016, 2016-016, 2015-021, 2014-023, 2013-016, 12-19, 11-33, 10-37, 09-40, 08-11, 07-11, 06-06, 05-06)

**Recommendation:**

We recommend the University implement procedures to ensure all employees submit time sheets as required by the Act.

**University Response:**

**Accepted.** University of Illinois System leadership continues to initiate discussions related to regulatory relief in this area.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-014. Finding: Inadequate Controls over University Travel Card Transactions**

The University of Illinois (University) has not established adequate internal controls over travel card (T-card) transactions.

The University operates a travel card program allowing individuals traveling for University business to pay for qualified travel expenses and business meals, which are then directly reimbursed by the University on a monthly basis. The University's policies require employees assigned a travel card to complete training on University travel card policies and sign an agreement stipulating they will use the card in accordance with the University policy. The University's policies also require transactions incurred on a travel card to be approved in the University's travel card system by the individual cardholder and an assigned reviewer. However, during our test work over 60 travel card transactions (totaling \$383,536), we noted the following:

- Four transactions (totaling \$26,780) for a purchase (totaling \$33,423) exceeded the cardholders' single transaction limit amount. The required T-Card Exception Request Form were not properly approved by the Department Head prior to using the T-Card as required by the University travel card policies;
- One transaction (totaling \$18,937) was paid in multiple installments, exceeding the cardholder's single transaction limit of \$15,000. The required T-Card Exception Request Form was not filed prior to using the T-Cards for this purchase;
- One transaction (totaling \$31,207) was paid in multiple installments, exceeding the cardholder's single transaction limit of \$25,000. The required T-Card Exception Request Form was not filed prior to using the T-Cards for this purchase;
- One transaction (totaling \$5,084) was paid in multiple installments, exceeding the cardholder's single transaction limit of \$4,999. The required T-Card Exception Request Form was not filed prior to using the T-Cards for this purchase; and
- One transaction (totaling \$8,393) was made prior to completion of the required T-Card Authorization Form.

The University has approximately 3,539 active travel cards, and the travel card expenditures paid for the year ended June 30, 2020 totaled \$29,152,382.

The University's policies and procedures state that use of the Travel Card for an expense that is normally prohibited by a policy or is above a Cardholder's limit must be approved prior to using the T-Card for the purchase. Exceptions to University policies or procedures regarding T-Card use must be documented on a T-Card Exception Request Form. These requests may be approved when necessary to meet special circumstances or when in the best interest of the University and the State.

In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure travel card transactions are properly reviewed and approved to avoid prohibited transactions from being paid and recorded.

This finding was first noted during the examination of the year ended June 30, 2016. In the subsequent years, the University has been unsuccessful in implementing a corrective action plan.

University officials stated the exceptions listed above are the result of human error at the individual and/or unit level not following established policies and procedures.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

Failure to properly review and approve travel card transactions in accordance with University policies and procedures could result in prohibited or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2020-014, 2019-009, 2018-015, 2017-017, 2016-018)

**Recommendation:**

We recommend the University review its current process for reviewing and approving travel card transactions and consider any changes necessary to ensure charges are made in accordance with University policies and procedures.

**University Response:**

**Accepted.** The University will continue to enhance travel card monitoring and training efforts.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-015. Finding: Noncompliance with the Illinois Health Policy Center Act**

The University of Illinois (University) did not comply with the requirements of the Illinois Health Policy Center Act (Act).

As of June 30, 2020, the University had not created the Illinois Health Policy Center (Center) as required by the Act. The purpose of the Center is to develop and implement policies to improve the health and healthcare of the people of Illinois.

The Illinois Health Policy Center Act (110 ILCS 430/10) requires the Illinois Health Policy Center to be created within the University of Illinois, to be sponsored by the University of Illinois at Chicago College of Medicine and the University of Illinois Institute of Government and Public Affairs.

This finding was first noted during the examination of the year ended June 30, 2017. In the subsequent years, the University has been unsuccessful in implementing a corrective action plan.

University officials stated HB 3286 was passed by the Illinois General Assembly and signed into law by the Governor as Public Act 095-0986, the Illinois Health Policy Center Act. The companion legislation (HB 6299) that would have funded the proposed Health Policy Center was never passed by the General Assembly. Similarly, the Advisory Panel envisioned in Section 20 of the Act was never created by the General Assembly.

Failure to create the Center results in noncompliance with the Act. (Finding Code No. 2020-015, 2019-010, 2018-016, 2017-018)

**Recommendation:**

We recommend the University comply with the requirements of the Illinois Health Policy Center Act or seek legislative remedy.

**University Response:**

**Accepted.** The University is working to seek a legislative remedy. SB1499 was introduced to request repeal of Illinois Health Policy Center Act (110 ILCS 430/10). However, the onset of the COVID-19 pandemic has impeded consideration of the bill. When the state legislature reconvened for four days at the end of May 2020, they only considered a specific handful of time-sensitive agenda items, including the state budget, coronavirus relief, and legislative acts that were scheduled to sunset. Since this measure did not fall into one of those categories, it was not considered. We will seek an alternative legislative remedy this legislative session.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-016. Finding: Noncompliance with the Filings and Administrative Requirements of State Publications with the Illinois State Library, Government Documents Section**

The University of Illinois (University) did not fully comply with the Illinois Administrative Code (Code) filing requirements for its publications that are to be deposited with the Illinois State Library, Government Documents Section and did not identify in writing the person or persons responsible for providing the information as is required by the Code.

During our examination, we inquired with University Officials as to the individual(s) at the University that were the responsible person or persons for their filings of publications with the Government Documents Section of the Illinois State Library. The University informed us they had not identified a person or persons in writing with the Illinois State Library, Government Documents Section.

Additionally, the University provided reports of printing expenditures made from their appropriated funds in order for us to determine whether the publications were sent to the Illinois State Library, Government Document Section as is required by the Code. Based on our testing, we noted 16 printing expenditures related to publications from appropriated funds totaling \$4,082, were not deposited with the Illinois State Library, Government Documents Section.

The Illinois Administrative Code (Code) (23 Ill. Admin. Code 3020.100) identifies “publications” as being all formats of media and other printed material paid for in whole or in part by funds appropriated by the General Assembly or issued at the request of a State agency.

The Code (23 Ill. Admin. Code 3020.120) states that within one week after a State university receives publications it intends to issue, the University shall deposit two physical copies and one electronic copy of all publications with the Government Documents Section.

The Code (23 Ill. Admin. Code 3020.150) requires each State agency to inform the Government Documents Section in writing of the person, persons, or positions responsible for the distribution of publications of that agency.

University officials stated the exceptions are due to decentralized publication activities and a lack of understanding of the requirements.

Failure to submit copies of publications and communicate the persons responsible for distribution of publications to the Government Documents Section results in noncompliance with the Code. (Finding Code No. 2020-016)

**Recommendation:**

We recommend the University implement controls to ensure publications paid for from appropriated funds are timely deposited with the Illinois State Library, Government Documents and communicate in writing the individual(s) at the University that are responsible for the deposit of their publications in accordance with the Code.

**University Response:**

**Accepted.** The University will take steps to address the recommendations in this finding.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-017. Finding: Noncompliance with the Illinois Articulation Initiative**

The University of Illinois (University) did not submit a minimum of one course per major under the Illinois Articulation Initiative (Initiative) for some majors offered by the University.

The Initiative, through its [itransfer.org](http://itransfer.org) website, exists to ease the transfer of students among the State's associate and baccalaureate degree granting institutions. The Initiative consists of both a General Education Core Curriculum package, where completion of the entire package at one institution is fully accepted by 111 institutions across the State, and an Initiative major, which are common courses at the lower-division level that can be used to ensure students are prepared for upper-division work at 79 institutions across the State.

During testing, we noted the University did not have a minimum of one course included within the related Initiative major for its:

- art, business, early childhood education, physics, and psychology degree programs at the Urbana-Champaign campus;
- art, chemistry, early childhood education, mathematics, and political science degree programs at the Chicago campus;
- art, biology, chemistry, political science, and psychology degree programs at the Springfield campus.

The Illinois Articulation Initiative Act (IAI) (110 ILCS 152/15) requires the University participate in the Initiative by maintaining a minimum of one course in the related Initiative major, if the University has an equivalent major and courses.

University officials stated the statute sets a maximum. It does not set or speak to a minimum. IAI contacts operate under the premise that participation in IAI majors is not required.

Failure to fully participate in the Initiative by submitting, at least, one course per Initiative major could hinder students looking to transfer to other institutions and represents noncompliance with State law. (Finding Code No.2020-017)

**Recommendation:**

We recommend the University comply with the requirements of the Illinois Articulation Initiative Act or seek legislative remedy.

**University Response:**

**Accepted.** The University will initiate discussions related to possible regulatory relief in this area.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-018. Finding: Weaknesses in Cybersecurity Programs and Practices**

The University of Illinois (University) had not implemented adequate internal controls related to cybersecurity programs and practices.

As a result of the University's mission to provide higher educational opportunities, the University maintains computer systems that contain large volumes of confidential or personal information such as names, addresses, educational records, Social Security numbers, and health records.

The Illinois State Auditing Act (30 ILCS 5/3-2.4) requires the Auditor General to review State agencies and their cybersecurity programs and practices. During our examination of the University's cybersecurity program, practices, and control of confidential information, we noted the University:

- Had not completed vulnerability scans and penetration testing of the entire environment. Additionally, of the vulnerability scans completed, the University did not maintain documentation of such for the period of July 2019 through October 2019.
- Seven of 25 (28%) employees tested did not complete security awareness training.
- 19 of 41 (46%) new employees tested did not complete security awareness training.
- One of 41 (2.5%) new employees tested did not complete security awareness training timely.
- One of 41 (2.5%) new employees had not completed the Information Security Compliance Form acknowledgement affirming they had read the University of Illinois Information Security Policy for Administrative Information. Additionally, the University did not require employees to review the Information Security Policy for Administrative Information on an annual basis.
- Two of 25 (8%) terminated users tested did not have their access removed. Access was terminated 78 and 82 days after employment termination.

The National Institute of Standards and Technology (NIST), Information Security Testing and Assessment, sanctions completion of vulnerability scans and penetration testing to identify vulnerabilities. Additionally, NIST's Security and Privacy Controls for Information Systems and Organizations, Access Control section, sanctions the timely terminations of user access when no longer required.

The University's Campus Administrative Manual, Information Security states:

- University Community Members must complete the appropriate privacy and information security training.
- Organizations must perform security assessments annually to ensure that security controls meet the control objectives specified in the University's Information Security Standard.
- Penetration testing must be performed to verify the effectiveness of the control that have been implemented on systems that access, process, store, or transmit high-risk data as required by regulations.
- Organizations must conduct vulnerability scans for vulnerabilities monthly.
- Vulnerability scanning reports must be reviewed and approved by management monthly.
- Organizations must ensure that all users of University networks or data participate in University-approved information security awareness training annually. Additionally, information security awareness training attendance must be recorded.

Further, the University's System Access Policy states a user's access is to be removed within 30 days of termination.

University management indicated the weaknesses were due to processes being distributed across campuses, lack of resources, and oversight.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

The lack of adequate cybersecurity programs and practices could result in unidentified risk and vulnerabilities and ultimately lead to the University's volumes of personal information being susceptible to cyber-attacks and unauthorized disclosure. (Finding Code No. 2020-018)

**Recommendation:**

We recommend the University:

- Ensure vulnerability scans and penetration testing are conducted over the entire environment and documentation is maintained.
- Ensure all employees complete security awareness training and in a timely manner.
- Ensure all employees complete the Information Security Compliance Form acknowledgement affirming they had read the University of Illinois Information Security Policy for Administrative Information upon hiring and annually thereafter.
- Ensure all terminated users have their access removed within 30 business days.

**University Response:**

**Accepted.** The University conducts and reviews vulnerability scans monthly, although penetration testing is only performed when required by regulations as additional resources are required for that type of engagement. Security awareness training has consistently been conducted at a central level but expansion to the universities is in progress. Access to enterprise systems is removed per standards when termination information is available in human resource IT systems.

The University will continue to expand the administration of security awareness training and communicate the importance of entering separation information into human resources systems in a timely manner.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**2020-019. Finding: Weaknesses in Computer Security**

The University of Illinois (University) did not maintain adequate security controls over computer resources.

The University maintains computer resources across five campuses for users to conduct University functions. During testing, we selected a sample of workstations, servers, and network devices from each campus to determine endpoint security had been properly implemented to protect information assets and resources from unauthorized access and/or compromise of system integrity. Our testing noted:

Workstations

- Workstations were running unsupported operating systems or missing critical patches.
- Host based firewalls were not always utilized.
- Users were granted local administrative privileges to workstations.
- Laptops did not always have encryption software installed and active.
- Non-business-related applications had been installed.
- Antivirus had not been installed or was not up to date.
- A login banner did not always display prior to login.
- Universal Serial Bus (USB) drives were not disabled.
- Strict password standards had not been implemented.

Servers

- Logs were not reviewed or monitored.
- Capacity and/or performance was not monitoring was not completed for all servers.
- Antivirus software had not been installed.
- Strict security settings had not been configured for all servers.

In addition, we noted:

- The University did not enforce rules regarding personal devices accessing the network.
- Domain administration accounts and wireless network configurations do not have stringent password standards.
- Web content filtering is not enforced.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use and misappropriation and maintain accountability over the State's resources.

Additionally, generally accepted information technology guidance endorses the development of well-designed and well-managed controls to protect computer systems and data. Effective computer security controls provide for safeguarding, securing, and controlling access to hardware, software, and the information stored in the computer system.

University management indicated a distributed environment and resource constraints create challenges in implementing consistent controls across all campuses.

Failure to implement adequate controls over computing resources exposes the University to increased danger of unauthorized access and the loss or corruption of critical and confidential data. (Finding Code No. 2020-019)

**Recommendation:**

We recommend the University implement adequate security controls across the University's computing resources.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
CURRENT FINDINGS – STATE COMPLIANCE  
Year Ended June 30, 2020**

**University Response:**

**Accepted.** The University uses a risk-based approach to computer security due to limited resources and a distributed environment. Additionally, controls designed to reduce the risk of exceptions to security standards have been implemented at the central universities to monitor and react to issues that arise. The exceptions noted above for unsupported operating systems, laptop encryption, and antivirus software were a small percentage of the sampled machines. The University has made improvements in some of the noted areas over the past few years and will continue to evaluate and remediate risk for workstations, servers, and network devices.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
PRIOR FINDINGS NOT REPEATED – FEDERAL COMPLIANCE  
Year Ended June 30, 2020**

**A. Finding: Failure to Meet Community Service Requirement**

The University did not use at least 7% of its Federal Work Study (FWS) funds for students employed in community service activities. (Finding Code No. 2019-003, 2018-005, 2017-010)

In the current year, similar exceptions were not identified in the samples selected.

**B. Finding: Inadequate Procedures for Reporting and Closing out Federal Projects**

The University did not have adequate procedures in place to ensure federal projects were closed in a timely manner and did not ensure the expenditures reported on the Schedule of Expenditures of Federal Awards contained the proper award information. (Finding Code No. 2019-004, 2018-006, 2017-007, 2016-005, 2015-005, 2014-005, 2013-005, 12-04, 11-07, 10-11, 09-13)

In the current year, the Department of Education issued a letter providing additional guidance regarding the University's error rate for reporting and closing out federal projects. The communication from the Department of Education on March 25, 2021 noted that through the review of the exceptions noted in the reporting and closing out of federal projects in the fiscal year 2020 Schedule of Federal Expenditures, the Department of Education considers the error de minimis and should not result in an audit finding, so long as the University does not exceed a maximum threshold of 2 percent of the total number of either sponsored projects or transactions in regards to late award closeouts. In the current year, exceptions identified were under the 2 percent threshold for sponsored projects and transactions related to late award closeouts. Based on the current corrective action plan implemented by the University, it is the Department of Education's determination that this issue has been resolved and closed.

**C. Finding: Inadequate Procedures for Correctly Calculating Co-Payments**

The University did not have proper procedures in place to correctly calculate co-payments for the State's Child Care Assistance Program at the Illinois Child Care Resource Services (CCRS). (Finding Code No. 2019-005, 2018-007, 2017-008, 2016-006, 2015-010)

In the current year, similar exceptions were not identified in the samples selected.

**D. Finding: Inadequate Review and Application of Indirect Costs Rate**

The University did not have proper review and apply indirect cost rates for the Research and Development Cluster and Cooperative Extension Services Cluster program awards. (Finding Code No. 2019-006)

In the current year, similar exceptions were not identified in the samples selected.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
PRIOR FINDINGS NOT REPEATED – STATE COMPLIANCE  
Year Ended June 30, 2020**

**E. Finding: Noncompliance with University Guidelines of the Illinois Legislative Audit Commission**

During the prior year engagement, the University of Illinois (University) had not adhered to the University Guidelines (1982) of the Illinois Legislative Audit Commission (LAC). (Finding Code No. 2019-011, 2018-018)

During the current year engagement, our testing indicated the University adhered to the University Guidelines.

**F. Finding: Lack of Adequate Controls over the Review of Internal Controls over Service Providers**

During the prior examination, the University of Illinois (University) did not obtain or conduct timely independent internal control reviews over its external service providers. (Finding Code No. 2019-012, 2018-004)

During the current examination, the University controls over service providers had improved; however, we continued to note immaterial weaknesses. As such, this matter was reported in the University's *Report of Immaterial Findings*.

FINANCIAL RELATED INFORMATION SUMMARY  
Year Ended June 30, 2020**

Financial related information presented in this section of the report includes the following:

- Financial Related Schedules:
  - Schedule of Expenditures of Federal Awards
  - Attachments to Schedule of Expenditures of Federal Awards
  - Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards presented in this section has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditors' opinion, it is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The findings and auditors' reports on compliance testing and questioned costs and internal control related to federal awards are presented in the Compliance Report section of this report.

**Schedule of Expenditures of Federal Awards presentation:**

See also the notes to the Schedule of Expenditures of Federal Awards; these notes are an integral part of this Schedule.

**STATE OF ILLINOIS  
UNIVERSITY OF ILLINOIS  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
June 30, 2020**

***Note 1. Basis of Presentation***

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the University of Illinois (University) under programs of the federal government for the fiscal year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the University.

The Schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal agency, pass-through awards are federal awards passed through a non-federal entity. Pass-through identifying information is presented when available and when applicable.

***Note 2. Summary of Significant Accounting Policies***

Expenditures reported on the Schedule are presented on a modified cash basis of accounting. The methodology for determining federal awards expended is:

Direct costs are reported as federal expenditures on a cash basis, with the following exceptions:

1. Academic Year (nine-month) faculty salaries charged to sponsored projects are earned over nine months and paid over twelve months.
2. Salaries and wages earned between the last payroll date in June and June 30 are accrued and included as a current year federal expenditure.
3. Payroll related fringe benefits costs that are charged on an actuarial basis are included as a current year federal expenditure.

Indirect costs are assessed as a percentage of direct costs and are included as a current year federal expenditure.

Expenditures reported on the Schedule meet the cost principles contained in the Uniform Guidance, wherein certaintypes of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The University of Illinois has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. The University has approved federally recognized indirect cost rates negotiated between the University and the Federal Government.

**Note 3. Federal Student Loan Programs**

As disclosed in the Schedule of Expenditures of Federal Awards, the Federal Direct Student Loans Program (ALN/CFDA 84.268) administered by the University of Illinois awarded approximately \$206.36 million at Urbana, \$229.57 million at Chicago, and \$16.27 million at Springfield.

In addition, the University of Illinois administers a series of loan programs as part of the Student Financial Assistance Cluster program. Loan balances subject to continuing compliance requirements during the year ended June 30, 2020 under the Federal Perkins Loan Program (Perkins), Health Professional Student Loans (HPSL), Nursing Faculty Loan Program (NFLP), Nursing Student Loan Program (Nursing), and Loans for Disadvantaged Students (LDS) programs were as follows:

	<b>Perkins (84.038)</b>	<b>HPSL (93.342)</b>	<b>NFLP (93.264)</b>	<b>Nursing (93.364)</b>	<b>LDS (93.342)</b>
Beginning loan balances	25,333,278	9,286,994	165,959	737,822	814,826
New loans issued	-	1,468,367	-	174,582	125,900
Federal capital contributions	-	-	-	-	-
Administrative cost allowance	-	-	-	-	-
<b>Total</b>	<b>25,333,278</b>	<b>10,755,361</b>	<b>165,959</b>	<b>912,404</b>	<b>940,726</b>

The total loan balances outstanding on June 30, 2020 were approximately \$20.63 million for Perkins, \$9.29 million for HPSL, \$60 thousand for NFLP, \$730 thousand for Nursing, and \$794 thousand for LDS.

*Perkins = Federal Perkins Loan Program*  
*HPSL = Health Professions Student Loans*  
*NFLP = Nurse Faculty Loan Program*  
*Nursing = Nursing Student Loans Program*  
*LDS = Loans to Disadvantaged Students*

**Note 4. Non-Cash Federal Assistance**

The University of Illinois received a pass-through grant from Illinois Department of Human Services (IDHS) to review the applications of families seeking subsidized day care under the Temporary Assistance Needy Families program, the Child Care Development Funds cluster, and the Social Service Block Grant programs. The applications were reviewed according to guidelines set by IDHS, the prime recipient of the federal funds.

As a result of the University’s application review, the Illinois State Comptroller distributed federal funds to day care providers as follows:

<u>Program</u>	<u>Number</u>	<u>Assistance</u>
Temporary Assistance Needy Families	93.558	4,381,724
<i>Child Care Development Funds Cluster:</i>		
Child Care Development Block Grant	93.575	10,743,445
Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	2,253,559
Social Service Block Grant	93.667	51,351
Total non-cash federal assistance:		\$17,430,079

These federal funds, which are paid directly by the State of Illinois to the day care providers, are considered to be non-cash federal assistance to the University of Illinois. The amounts are reported on the Schedule and have been included for purposes of determination of major programs.

**Note 5. Federal Insurance Disclosure**

Federally funded medical malpractice insurance was in effect under the Federal Tort Claims Act for Health Resources and Services Administration Deeming Notice Number 1-F00000300-18-01 from July 1, 2019 to December 31, 2019 and Deeming Notice Number 1-F00000300-19-01 from January 1, 2020 through June 30, 2020.

**Note 6. Federal Depository Library**

The University’s “Government Information” library (Urbana), “Albert E. Jenner Jr. Memorial Law Library” (Urbana), “Richard J. Daley Library” (Chicago), “Louis L. Biro Law Library” (Chicago) and “Norris L. Brookens Library” (Springfield) serve as depository libraries in the U.S. Government Publishing Office’s Federal Depository Library. The Federal Depository Library Program gives the public free access to government information. The University is the legal custodian of government publications received under this program; however, these publications remain the property of the federal government.
