Senator Lightford has expressed concern regarding NRI and the money going to the Village of Maywood. She says they have no youth programs and have been fighting with the Park District. I know there is some local politics that we are dealing with in Maywood, but we should look into this. What is the Village's plan for NRI. Also, Bishop Claude Porter, who runs the local community action agency, has been discussing this with Senator Lightford. Please keep me updated. Thanks.
