Per my phone call last evening, I just wanted to make sure that the Committee is aware that in addition to the community grants outlined in the documents I sent yesterday, there is approximately $2.5 million of the NRI annual budget (7.5%) that supports the training and technical assistance center, data system and evaluation efforts, and staff/operations.

Brian, would you please either send me Sean Flynn's email address or forward this to him and cc me? I can't locate his email address.

Thanks,
Barbara
