The Illinois State Board of Education (ISBE) respectfully submits this report to the General Assembly in accordance with Illinois School Code {105 ILCS 5/2-3.25g} which states that the following duty shall be exercised: The General Assembly may disapprove any waiver request submitted to the General Assembly pursuant to this subsection (d) in whole or in part within 60 calendar days after each house of the General Assembly next convenes after the waiver request is submitted by adoption of a resolution by a record vote of the majority of members elected in each house. Per statute, the General Assembly must review the State Board's report and may approve or disapprove, by joint resolution, the State Board's denial of bond modifications. Illinois School Code {105 ILCS 5/2-3.25g} Report Regarding Denied Waivers

This report is being submitted in accordance with Illinois School Code {105 ILCS 5/2-3.25g}, which charges the State Board of Education (ISBE) to submit any waiver or modification request that has been denied by ISBE to the General Assembly for consideration.

The General Assembly may disapprove any waiver request submitted to the General Assembly pursuant to subsection (d) of Section 5/2-3.25g, in whole or in part within 60 calendar days after each house of the General Assembly next convenes after the waiver request is submitted by adoption of a resolution by a record vote of the majority of members elected in each house. If the General Assembly fails to disapprove any waiver request or appealed request within such 60-day period, the waiver or modification shall be deemed granted. Any resolution adopted by the General Assembly disapproving a report of the State Board in whole or in part shall be binding on the State Board.

EXECUTIVE SUMMARY

During the Fall 2021 Waiver cycle, ISBE received two requests for modification of Illinois School Code (105 ILCS 5/8-2), which states:

The penalty of the bond shall be 25% of the amount of all bonds, notes, mortgages, moneys and effects of which he is to have the custody, whether individuals act as sureties or whether the surety given is by a surety company authorized to do business in this State, and shall be increased or decreased from time to time, as the increase or decrease of the amount of notes, bonds, mortgages, moneys and effects may require, and whenever in the judgment of the regional superintendent of schools, or whenever in the judgment of the township trustees or the school board of the district by which the school treasurer was appointed or elected, the penalty of the bond should be increased or decreased;

Two districts requested to modify the penalty percentage from 25 percent to 10 percent of all bonds, notes, mortgages, moneys and effects under the Treasurer's custody. On April 19, 2021, ISBE denied the requests based on the following reasons (Appendices A and B):

Granting this modification request has significant consequences and reduces the amount of taxpayers' dollars that are insured. A decision such as this should be made after public debate in the Illinois General Assembly.

Pursuant to Administrative Code (23 Admin Code 1.100(j)), an applicant wishing to appeal the denial of a request may do so within 30 calendar days after receipt of the denial letter. Indian Prairie CUSD 204 filed a joint appeal letter with Naperville CUSD 203 dated May 19, 2021 (Appendix C). Appeals and denials shall be submitted to the General Assembly in the semiannual report under Section 5/ 2-3.25g of the School Code.

On September 15, 2021, the State Board took action to submit the Fall 2021 Waiver Report to the General Assembly (Appendix D). Once transmitted to the General Assembly on September 27, 2021, the report is reviewed by a panel of four members consisting of the Speaker of the House of Representatives; the Minority Leader of the House of Representatives; the President of the Senate; and the Minority Leader of the Senate. The members of the panel submit to the State Board of Education any notice of further consideration to any waiver request within

14 days after the member receives the report (October 11, 2021). If three or more of the panel members submit a notice of further consideration to any waiver request contained within the report, the State Board of Education shall submit the waiver request to the General Assembly for consideration. If fewer than three panel members submit a notice of further consideration to a waiver request, the waiver may be approved, denied, or modified by the State Board. If the State Board does not act on a waiver request within 10 days, then the waiver request is approved. If the waiver request is denied by the State Board, it shall submit the waiver request to the General Assembly for consideration.

Board Determination

Notice of further consideration was received by fewer than three panel members (Appendices E, F, G and H), therefore the State Board of Education acted upon the requests at the October 19, 2021 Board meeting, denying the two bond requests. The State Board of Education is then required to submit any requests that have been denied by ISBE to the General Assembly for consideration.

Per statute, the General Assembly must review the State Board's report and may approve or disapprove, by joint resolution, the State Board's denial of bond modifications. If the General Assembly fails to act on the report within 60 calendar days after each house of the General Assembly next convenes, the denial of modification of Illinois School Code {105 ILCS 5/8-2} is upheld.

Bond Requests

Indian Prairie CUSD 204 – DuPage (SD42/HD84) – Expiration 2025-26 school year / M-300- 6892 – Modification of School Code (Section 5/8-2) requests to modify the penalty percentage from 25 percent to 10 percent of all bonds, notes, mortgages, moneys and effects under the Treasurer's custody.

On April 19, 2021, ISBE denied the request (Appendix A). As stated in the denial letter:

After thorough review of the documentation submitted to support the request and pursuant to Section 2-3.25g of the School Code and 23 Ill Admin Code 1.100(i), I hereby declare the request denied for the following reason:

On April 19, 2021, ISBE denied the request (Appendix C). As stated in the denial letter:

After thorough review of the documentation submitted to support the request and pursuant to Section 2-3.25g of the School Code and 23 Ill Admin Code 1.100(i), I hereby declare the request denied for the following reason:

**Re: Joint Appeal of Denial of Request for Modification of Treasurer’s Bond
Penalty Percentage from 25% to 10%**

Dear Dr. Ayala and Ms. Elliott:

On behalf of Indian Prairie Community Unit School District No. 204 (‘IPSD’) and Naperville Community Unit School District No. 203 (‘District 203’) (together, the ‘School Districts’) I am writing to submit a joint appeal of ISBE’s decisions dated March 10, 2021 for IPSD and March 24, 2021 for District 203, and communicated by separate letters both dated April 21, 2021 denying the School Districts’ requests for a modification of the penalty percentage requirement of Section 8-2 of the Illinois School Code, 105 ILCS 5/8-2.

The School Districts have reviewed your correspondence of April 21st and respectfully disagree with the conclusion. We are requesting that ISBE reconsider and allow the School Districts to secure Treasurer’s bonds with a 10% penalty amount, rather than the 25% provided for in Section 8-2.

The purpose of this appeal letter is to review the relevant statutory language, help you understand the School Districts’ positions, and arrive at a mutually satisfactory resolution.

Section 8-2 of the School Code provides in relevant part as follows:

Before entering upon his duties, each school treasurer shall execute a bond... payable to the school board of each district for which he or she is treasurer... and conditioned upon the faithful discharge of his or her duties.... The penalty of the

bond shall be 25% of the amount of all bonds, notes, mortgages, moneys and effects of which he is to have the custody... and shall be increased or decreased from time to time... whenever in the judgment of the school board... the penalty of the bond should be increased or decreased.... The bond shall be approved by at least a majority of the members of the school board; and in all cases the bond shall be filed with the regional superintendent of school who shall file with the State Board of Education... .

105 ILCS 5/8-2 (underlining added).

The plain language of Section 8-2 provides local school boards with the discretion to adjust the 25% penalty amount. Here, both School Districts have a history of approving resolutions directing their treasurers to secure bonds at 10% rather than 25%. For many years both School Districts obtained bonds at the 10% penalty amount without objection from the DuPage Regional Office of Education. Recently the DuPage ROE has taken the position that the treasurer's bond must be at 25%. There is no basis for this change in position which creates a hardship for the School Districts. That history has proven that a 10% is sufficient and the best use of the School Districts' resources.

The Boards of Education of both School Districts have made the determination, in their sound judgment, that a bond with a 25% penalty is not necessary or in the best interests of the School Districts and a bond at a 10% penalty is sufficient. There are several factors that inform this decision. First, both School Districts are subject to an annual audit by outside accounting firms specializing in local government and school district accounting. Second, on a monthly basis the School Districts' internal controls call for regular reconciliations and reviews of their financial information. Third, the School Districts' banking relationships are with highly reputable national banks that demand careful controls and tight financial compliance. Fourth, both School Districts are subject to annual scrutiny by the ratings firms which carefully evaluate the financial condition of the School Districts and impact their cost of borrowing based upon those ratings. And, fifth both School Districts have consistently received the State Board's 'recognition' financial status and IPSD has also received the Association of School Business Officials International 'Certificate of Excellence in Financial Reporting'. These factors are significant and reflect both School Districts' commitment to transparency and high-quality financial reporting.

Further informing the Board's action is the high cost of a treasurer's bond at a 25% penalty. School Board members are elected by and accountable to the taxpayers and voters in their community. The IPSD Board has determined in its sound discretion that spending over \$70,000 for a bond with a 25% penalty amount is not a good use of the District's resources. Historically IPSD has provided a bond with a 10% penalty which costs around \$10,000. Likewise, the District 203 Board has spent approximately \$20,000 for a bond with a 10% penalty, rather than approximately \$50,000 for a bond at the 25% penalty amount. These elected Boards have determined that a bond with a 10% penalty is appropriate and the best use of District resources, allowing funds to be dedicated to the classroom and student achievement.

Section 8-2 of the School Code dates to a very different era in school finance. The statutory section is over 100 years old and does not reflect the realities of a modern school business office and the requirements imposed by annual audits, banking relationships, bond rating firms, sureties, and the conditions imposed upon the chief school business officials charged with running these offices.

The statute is abundantly clear that the penalty amount maybe increased or decreased 'whenever in the judgment of the school board.' Accordingly, the School Districts' request that the State Board reconsider its denial of the modification requests and allow the use of the 10% penalty amount for the treasurer's bonds.

Please feel free to contact me directly if you would like to discuss this matter further.

Very truly yours,

Ares Dalianis

Administrative Cost Cap Limitation

Carbon Cliff Barstow District 36 – Rock Island (SD36/HD71) – **Expiration 2019-20 school year / W-100-6969** – **Waiver of School Code** (Section 17-1.5) requests to waive the five percent administrative cost limitation due to adding administrative assistant salary to the line item. The district's FY 2021 budgeted administrative costs exceed the FY 2020 actual administrative costs by 10%.

Prior to FY 2021, the administrative secretary's salary and benefits were paid out of the Office of Principal account and the Pupil Transportation account, areas not reported on the Limitation of Administrative Costs Worksheet. An analysis completed by the current district superintendent showed that the administrative secretary's job duties are related to the superintendent's office. Starting with FY 2021, an accounting change was made to budget and pay the administrative secretary's salary and benefits out of the Superintendent account, an area reported on the Limitation worksheet. The accounting change resulted in \$34,755 salary and \$12,039 benefits being reported on the Limitation worksheet, a total of \$46,794 additional budgeted administrative expenditures in FY 2021. The accounting change helps to align the district's records with the ISBE Accounting Rules.

The accounting change for the administrative secretary's salary and benefits caused the district to exceed the statutory allowable 5 percent increase. Without these additional costs, Carbon Cliff-Barstow SD 36 would have been in compliance with the FY 2021 Limitation of Administrative Costs, experiencing a decrease in administrative costs of 17 percent.

Elverado CUSD 196 – Jackson (SD58/HD115) – **Expiration 2019-20 school year / W-100-6957** – **Waiver of School Code** (Section 17-1.5) requests to waive the 5 percent administrative cost limitation due to employing a full-time superintendent in lieu of a part-time superintendent. The district's FY 2020 budgeted administrative costs exceed the FY 2019 actual administrative costs by 17 percent.

During the 2018-19 school year, the superintendent also served as the primary school principal. The combined superintendent/principal salary and benefits were divided between superintendent duties, an area reported on the Limitation of Administrative Costs Worksheet, and principal duties an area not reported on the Limitation worksheet. Due to increasing responsibilities for both positions, the district separated the combined role and hired a full-time primary school principal starting with the 2019-20 school year. The district reported that the change will afford each position increased time to devote to improvement of instruction and the support of the learning environment to benefit all district students.

The change from a combined superintendent/principal to a separate superintendent and principal resulted in all of the superintendent's salary and benefits being reported on the Limitation

worksheet. The actual FY 2019 superintendent salary and benefits reported on the Limitation worksheet were \$119,332, and the budgeted FY 2020 superintendent salary and benefits reported on the Limitation worksheet were \$140,217. The administrative change resulted in \$20,885 additional budgeted administrative expenditures in FY 2020.

The change from a combined superintendent/principal to a separate superintendent and principal caused the district to exceed the statutory allowable 5 percent increase. Without these additional costs, Elverado CUSD 196 would have been in compliance with the FY 2020 Limitation of Administrative Costs, experiencing a 0 percent increase.

Frankfort CUSD 168 – Franklin (SD59/HD117) – **Expiration 2020-21 school year / W-100-6976 – Waiver of School Code** (Section 17-1.5) requests to waive the 5 percent limitation of administrative costs. The district experienced a 14.9 percent increase during the 2021-21 school year due to PA 101-0515 unfunded mandate. The district’s FY 2021 budgeted administrative costs exceed the FY 2020 actual administrative costs by 23 percent.

Recent changes to special education law increased requirements for the IEP process. This mandate resulted in additional meetings, notifications, paperwork, and dissemination of information in preparation for IEP meetings. The district is not a member of a special education cooperative, and all of the new requirements became the responsibility of district personnel. In order to complete the increased workload and still provide special education services to the district’s students, additional costs were incurred within the district’s special education department. A second Special Education Coordinator/Supervisor was hired at a cost of \$67,385. A part-time secretary was hired to assist the current Administrative Assistant at a cost of \$20,675 (placed in Function 2610 at direction of ISBE grant consultant). Increases in salary were given to the Special Education Director and the other Special Education Coordinator/Supervisor at a combined cost of \$11,082. The hours of the Administrative Assistant were expanded at a cost of \$1,776. The additions to the special education department to respond to the increased workload resulted in \$100,918 additional budgeted administrative expenditures in FY 2021.

The additional special education costs in response to the special education law changes caused the district to exceed the statutory allowable 5 percent increase. Without these additional costs, Frankfort CUSD 168 would have been in compliance with the FY 2021 Limitation of Administrative Costs, experiencing a 3 percent increase.

Galena USD 120 – JoDaviess (SD45/HD89) – **Expiration 2020-21 school year / W-100-6888 – Waiver of School Code** (Section 17-1.5) requests to waive the 5 percent limitation of administrative costs. The district’s FY 2021 budgeted administrative costs exceed the FY 2020 actual administrative costs by 29 percent.

The full-time superintendent employed for the 2019-20 school year resigned from the district in November 2019. The cost for the partial year of the full-time superintendent was \$62,463. The district hired two interim superintendents as administrators for the remainder of the year. Each interim superintendent received \$550 per day as compensation, for a total payment of \$73,150. The total FY 2020 costs for the full-time superintendent and the two interim superintendents were

\$135,613. The district hired a new full-time superintendent starting with the 2020-21 school year. The full-time superintendent receives a salary of \$140,000 and benefits (TRS, health insurance, and life insurance) of \$24,270, for a total FY 2021 budgeted costs of \$164,270. The administrative change resulted in \$28,657 additional budgeted administrative expenditures in FY 2021.

School year 2020-21 was the first year in a superintendency position for the new full-time superintendent. The district hired one of the prior-year interim superintendents as a consultant/mentor for the new superintendent. The consultant/mentor was paid the previous \$550 daily rate, capped at \$25,000 for the year. The additional of a consultant/mentor resulted in \$25,000 additional budgeted administrative expenditures in FY 2021.

The change from a part-year full-time superintendent and two interim superintendents to a full-time superintendent, along with hiring a consultant/mentor to work with the new superintendent, caused the district to exceed the statutory allowable 5 percent increase. Without these additional costs, Galena USD 120 would have been in compliance with the FY 2021 Limitation of Administrative Costs, experiencing a 4 percent increase.

Iroquois West CUSD 10 – Iroquois (SD53/HD106) – **Expiration 2020-21 school year / W-100-6938 – Waiver of School Code** (Section 17-1.5) requests to waive the five percent administrative cost for the 2020-21 school year due to hiring a full-time superintendent after having a part-time interim. The district's FY 2021 budgeted administrative costs exceed the FY 2020 actual administrative costs by 100 percent.

The district employed an interim superintendent for the 2019-20 school year, who was limited in the number of days allowed to work. The interim superintendent was paid a salary of \$70,200 but did not receive TRS or other benefits. In order to have a superintendent on-site daily, the district hired a full-time superintendent starting with the 2020-21 school year. The full-time superintendent receives a salary comparable to the full-time status, TRS and THIS benefits, and a cash payment in-lieu-of district-paid health insurance. The full-time superintendent's budgeted salary and benefits were \$145,777, resulting in \$75,577 additional budgeted administrative expenditures.

With an interim superintendent only in the district on a part-time basis, the district did not have as much spending in purchased services, supplies, and other expenditures as would have occurred with a full-time superintendent. In order to have the budget authority to pay for items such as travel expenses, meeting costs, dues and fees, and equipment, the district budgeted for these other superintendent costs in a similar manner as they budgeted in FY 2019, the year prior to the interim superintendent. This resulted in \$6,745 additional budgeted administrative expenditures.

The change from an interim to a full-time superintendent caused the district to exceed the statutory allowable 5 percent increase. Without these additional costs, Iroquois West CUSD 10 would have been in compliance with the FY 2021 Limitation of Administrative Costs, experiencing a 4 percent increase.

Rantoul City SD 137 – Champaign (SD52/HD104) – **Expiration 2020-21 school year / W-100-6955 – Waiver of School Code** (Section 17-1.5) requests to waive the 5 percent limitation of

administrative costs. The district's FY 2021 budgeted administrative costs exceed the FY 2020 actual administrative costs by 15 percent.

The district employed a part-time Pre-K Director during the 2019-20 school year and prior school years. The part-time Pre-K Director received salary and TRS of \$45,032 but did not receive health insurance benefits due to the part-time status. The district has a goal to increase the enrollment in their pre-kindergarten program and is working to expand and improve the program in order to reach as many pre-kindergarten students as possible within their district. In order to reach this goal, the district needed a Pre-K Director working within the program on a full-time basis, and a full-time Pre-K Director was employed starting with the 2020-21 school year. As a full-time employee, the Pre-K Director received health insurance benefits in the same manner as other full-time employees of the district. The FY 2021 budgeted salary, TRS, and health insurance benefits for the full-time Pre-K Director were \$111,877. The change from a part-time to a full-time Pre-K Director resulted in \$66,845 additional budgeted administrative expenditures in FY 2021.

In FY 2021, the Special Programs Administrative Assistant was granted a raise along with other district personnel in the same category. There was also an increase in benefit costs tied to salary amounts. This raise resulted in \$4,709 additional budgeted administrative expenditures in FY 2021.

New furniture and equipment were needed for the superintendent's office and the special education department. Costs for the new furniture for the superintendent's office was \$5,960. Costs for the new furniture, filing cabinets, and a scanner for the special education department was \$5,266. The new furniture and equipment resulted in \$11,226 additional budgeted administrative expenditures in FY 2021.

The change from a part-time to full-time Pre-K Director, administrative assistant raise, and new furniture and equipment purchases caused the district to exceed the statutory allowable 5 percent increase. Without these additional costs, Rantoul City SD 137 would have been in compliance with the FY 2021 Limitation of Administrative Costs, experiencing a 5 percent increase.

Treasurer's Bond Modification
Indian Prairie CUSD 204
February 22, 2021

Illinois School Code 105 ILCS 5/8-2

3) Indian Prairie Community Unit School District #204 (Indian Prairie or the District) is requesting the following modification of the Illinois School Code, 105 ILCS 5/8-2, whereby the school code is modified from "The penalty of the bond shall be 25% of all bonds, notes, mortgages, moneys and effects of which he is to have the custody" to "the penalty of the bond shall be 10% of all bonds, notes, mortgages, moneys and effects of which he is to have the custody".

4) Prior to fiscal year 2018, the District historically passed a Board Resolution reducing the penalty of the Treasurer's Bond to 10% of the total cash and investments held by the District at one time. The Board of Education determined that this amount of coverage was sufficient to protect taxpayer funds, and recognized the District had in place, and continues to have in place, additional internal controls and practices. These internal controls and practices include annual external audits, appropriate segregation of duties within the District's business office, and the use of independent and reputable investment advisors and financial institutions. The District's further demonstrates a commitment to sound financial management through a history of clean audits, by receiving the Association of School Business Official's "Certificate of Excellence" award thirteen years in a row, and a through long history of receiving the State Board of Education's "Recognition" or "Review" financial status.

To meet a 25% penalty requirement, the District paid over \$70,000 for the fiscal year 2021 Bond. The required bond amount was over \$66 million. The District has found many insurance carriers do not offer coverage in this amount and the few carriers that do are very costly. A 10% coverage requirement would still provide the District approximately \$27 million in coverage, and Indian Prairie estimates the annual cost of this coverage level is approximately \$50,000. This represents a significant savings for the District while still providing a sufficient Treasurer's Bond. Indian Prairie has a history of proactively managing administrative costs to ensure as many resources as possible are dedicated to our classrooms and student achievement, and this modification will allow the District to continue that practice.

5) Public Testimony. No Public Comment was shared prior, during, or after the hearing.

INSTRUCTIONS: Please use the following as a checklist in assembling your application package. Incomplete applications will not be considered until all required documentation is received. All applicants must hold a public hearing prior to submission of the application.

- A. **Public Hearing:** Each eligible applicant (see item 2 below) must hold a public hearing, providing for a time to take testimony about the request that is separate from the time when any other business is being conducted or testimony on other matters is being heard. The public hearing may be held during a regular board meeting.
- B. **Required Notices of Public Hearing:** Provide the following notices to inform the public and others of the hearing date. Each must state the time, date, location and general subject matter of the hearing.
 - **All applicants:** Publish a notice on the applicant's website at least 14 days in advance of the hearing. Applicants requesting an **increased fee for driver's education (105 ILCS 5/27-24.2)** must also publish the proposed amount of the fee as part of the website notice and as part of the notice placed in a newspaper of general circulation.
 - **School districts:** Publish a notice in a newspaper of general circulation within the applicant's area at least 7 days in advance of the hearing.
 - **Joint agreements, ISCs or regional superintendents:** Publish a notice in a newspaper of general circulation in each school district that is a member of the joint agreement or that is served by the educational service region or intermediate service center, provided that a notice in a newspaper generally circulated in more than one school district shall be considered sufficient notice to all of the affected districts.
 - **All applicants:** Provide a written notice to the applicant's exclusive bargaining agent(s) affected by the request at least 7 days in advance of the hearing; this notice must also state that testimony will be taken from staff.
 - **All applicants:** Provide a written advance notice to the applicant's state legislators affected by the request.

Item 1. Indicate the type of action sought under this application:

- ISBE approval of waivers or modifications of ISBE rules and of modifications of School Code mandates to allow an applicant to meet the intent of the rule or mandate in a more effective, efficient or economical manner or when necessary to stimulate innovation or to improve student performance; or
- General Assembly approval of waivers of School Code mandates to allow an applicant to meet the intent of the rule or mandate in a more effective, efficient or economical manner or when necessary to stimulate innovation or to improve student performance.

Waivers are not permitted from ISBE rules or School Code mandates pertaining to special education, educator licensure, teacher tenure and seniority, compliance with the Every Student Succeeds Act, or township treasurers (Sections 5-1 and 5-2.1 of the School Code). Waivers of mandates pertaining to the use of student performance data and performance categories for teacher and principal evaluations are not permitted after September 1, 2014.

Item 2. Eligible applicants are school districts, independent authorities established pursuant to Section 2-3.25f of the School Code, joint agreements made up of school districts, and Regional Superintendents of Schools and Intermediate Service Centers on behalf of schools and programs operated by them.

Item 3. The exact language of, or citation to, the rule(s) or mandate(s) involved may be obtained by contacting the Legislative Affairs Department by mail at 100 North First Street, S-404, Springfield, Illinois, 62777-0001 or by telephone at (217) 782-6510.

Item 4. Identify the rationale for the specific waiver and/or modification sought.

(4)(a) For requests to meet the intent of the rule or mandate in a more effective, efficient, or economical manner, provide a narrative description which sets forth:

- i) the intent of the rule or mandate to be achieved;
- ii) the manner in which the applicant will meet that intent; and
- iii) how the manner proposed by the applicant will be more effective, efficient or economical.
- iv) In those instances where the applicant proposes a more economical manner, provide a fiscal analysis showing current expenditures related to the request and the projected savings that would result if the request is granted.

(4)(b) Requests necessary for stimulating innovation or improving student performance must include the specific plan for improved student performance and school improvement upon which the request is based that describes how the applicant will determine success.

(4)(c) Requests for waivers of the administrative expenditure limitation established in Section 17-1.5 of the School Code can be submitted only when circumstances for exceeding the cap are beyond the control of the district, and the district has exhausted all available and reasonable remedies to comply with the limitation. ISBE is required to recommend that the General Assembly disapprove any request for a waiver of the administrative expenditure limitation not meeting these requirements

Item 5. Describe the testimony provided, including:

- number of people attending the public hearing;
- number speaking in favor of and against the request;
- comments made during the hearing; and
- whether any written comments were provided.

Item 6. Waivers and modifications are limited to five years with the exception of waivers of the administrative expenditure limitation which are limited to the year in which emergency relief is needed (i.e., one year only).

Item 7. Attach copies of the following: (a) website posting, which must be dated in order to verify that it was posted at least 14 days in advance of the public hearing; (b) newspaper notice; and (c) written notice to the collective bargaining agent, each of which must be dated in order to verify that each was provided at least 7 days in advance of the public hearing; and (d) written advance notice to the state legislators representing the applicant's territory.

Item 8. Indicate the date of the public hearing. Applicants with governing boards must hold a public hearing and provide for a separate time to take testimony about the request. The superintendent's/executive director's/ regional superintendent's signature on this application attests to the applicant's compliance with all hearing and notice requirements.

Submission. Applications must be postmarked not later than 15 calendar days following approval by the local board in the case of districts, joint agreements and ISCs, or by the regional superintendent of schools and be submitted by certified mail, return receipt requested, to:

Illinois State Board of Education
Legislative Affairs Department

Treasurer's Bond Modification
Naperville CUSD 203
March 16, 2021

Illinois School Code 105 ILCS 5/8-2

3) Naperville Community Unit School District 203 (Naperville 203) is requesting the following modification of the Illinois School Code, 105 ILCS 5/8-2, whereby the school code is modified from: "The penalty of the bond shall be 25% of all bonds, notes, mortgages, moneys and effects of which he is to have the custody" to "the penalty of the bond shall be 10% of all bonds, notes, mortgages, moneys and effects of which he is to have the custody".

§ 8-2. Bond of treasurer. Before entering upon his duties, each school treasurer shall execute a bond with 2 or more persons having an interest in real estate who are not trustees, or a surety company authorized to do business in this State, as sureties, payable to the township trustees of schools in Class II county school units and to the school board of each district for which he or she is treasurer or its successors in office in Class I county school units and conditioned upon the faithful discharge of his or her duties, except that the bond required of the school treasurer of a school district which is located in a Class II county school unit but which no longer is subject to the jurisdiction and authority of a township treasurer or trustees of schools of a township because the district has withdrawn from the jurisdiction and authority of the township treasurer and trustees of schools of the township or because those offices have been abolished as provided in subsection (b) or (c) of Section 5-1 shall be payable to the school board of each district for which he or she is treasurer or its successor in office and conditioned upon the faithful discharge of his or her duties. The penalty of the bond shall be ~~25~~10% of the amount of all bonds, notes, mortgages, moneys and effects of which he is to have the custody, whether individuals act as sureties or whether the surety given is by a surety company authorized to do business in this State, and shall be increased or decreased from time to time, as the increase or decrease of the amount of notes, bonds, mortgages, moneys and effects may require, and whenever in the judgment of the regional superintendent of schools, or whenever in the judgment of the township trustees or the school board of the district by which the school treasurer was appointed or elected, the penalty of the bond should be increased or decreased; provided that the penalty of the bond shall not be increased to more than ~~25~~10% of the amount of all bonds, notes, mortgages, moneys and effects of which the treasurer has custody at any time.

4)(a)

(i) The intent of the 25% mandate is to protect school districts and their taxpayers from misuse, fraud, negligence, or other loss that could be attributed to a school district's treasurer in discharging his or her duties.

(ii) The District will meet that intent by still obtaining a bond for its treasurer for 10% of assets in the Treasurer's custody which, given that the District regularly holds over \$200 million at any given time, should provide significant coverage to protect the District's taxpayers. The District will also meet the intent of this mandate by continuing to have internal controls and practices to protect the use of taxpayer funds. Prior to fiscal year 2018, the District historically passed a Board Resolution reducing the

penalty of the Treasurer's Bond to \$20 million, which was approximately 10% of the total cash and investments held by the District at one time. The Board of Education determined that this amount of coverage was sufficient to protect taxpayer funds, and recognized the District had in place, and continues to have in place, additional internal controls and practices. These internal controls and practices include annual external audits, appropriate segregation of duties within the District's business office, and the use of independent and reputable investment advisors and financial institutions. The District's further demonstrates a commitment to sound financial management through a history of clean audits and a through long history of receiving the State Board of Education's "Recognition" financial status.

(iii) The District's proposed modification will be more effective, efficient, and economical due to the significant cost savings associated with obtaining a treasurer's bond for 10% of the assets in custody compared to the difficulty and expense of obtaining a treasurer's bond for 25% of said assets. The financial analysis in Section 4(a)(iv) demonstrates how the modification will be more efficient and economical.

(iv) To meet a 25% penalty requirement, the District paid over \$48,000 for the fiscal year 2021 Bond. The required bond amount was over \$68 million. The District has found many insurance carriers do not offer coverage in this amount and the few carriers that do are very costly. A 10% coverage requirement would still provide the District approximately \$27 million in coverage, and Naperville 203 estimates the annual cost of this coverage level is approximately \$20,000. This represents a significant savings for the District while still providing a sufficient Treasurer's Bond. Naperville 203 has a history of proactively managing administrative costs to ensure as many resources as possible are dedicated to our classrooms and student achievement, and this modification will allow the District to continue that practice.
