The Legislative Research Unit is the central general research agency for the General Assembly. A board of 12 legislators, appointed by the Joint Committee on Legislative Support Services, supervises its operations.

A staff of researchers handles inquiries from legislators, legislative committees, and partisan staff. The staff's areas of expertise include law generally, science and technology, taxation, education, local government, economics and fiscal affairs, and the political and social history of Illinois.

Federal Funds to State Agencies
FY 2013–FY 2015
Annual Report to the Illinois General Assembly
TWENTY-FOURTH EDITION

Publication No. 388

JULY 2015

Prepared by

Kathleen M. Hazelwood, Federal Aid Tracking Coordinator

Proofing

Tara Burke, Proofreader/Office Associate

The Legislative Research Unit compiled the information in this volume from a comprehensive survey of all Illinois state agencies. The publication of *Federal Funds to State Agencies, FY 2013-FY 2015* would not have been possible without the cooperation and support of many program managers, budget analysts, and state agency directors. Although it is not possible to list every individual's name, we are grateful to all for their contribution.

Foreword

The *Illinois Compiled Statutes* require the Legislative Research Unit to compile and maintain information on federal aid programs administered by Illinois state agencies, and to report to the Illinois General Assembly on those programs. *Federal Funds to State Agencies, FY 2013-FY 2015*, the twenty-fourth edition of this report, is submitted by the Legislative Research Unit to fulfill this responsibility.

This edition includes program descriptions and outlay information, as well as sections to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table indicates which State programs are supported and what areas and populations of Illinois are served by the federal grants.

It is the hope of the Legislative Research Unit that this handbook will be a useful resource for legislators in enhancing their understanding of federal assistance.

Alan R. Kroner
Executive Director

INTRODUCTION

The Legislative Research Unit, a bipartisan support services agency of the Illinois General Assembly, has a responsibility of serving as the “. . . information center for the General Assembly in the field of federal-state relations, . . . and compiling and maintaining current information on available and pending federal aid programs.” [25 ILCS 130/4-2.1] In meeting this responsibility, the Legislative Research Unit records and tracks applications for, and awards of, federal grants to State agencies. In addition, the Legislative Research Unit conducts an annual survey designed to identify federal funds received by Illinois State agencies.

This *Federal Funds to State Agencies* report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that are received by State agencies. It augments the information provided in the Legislative Research Unit’s weekly reports of federal fund transactions by listing federal aid awards on a State or federal fiscal year basis and including descriptive program information. Weekly reports are available on the Legislative Research Unit Website. This report is designed to help legislators and legislative staff develop a clearer understanding of the federal programs used by Illinois State agencies, and of the levels at which those programs are funded.

The Legislative Research Unit is also required to report annually to the General Assembly on the adequacy of State agency participation in programs financed by federal aid and the nature of federal aid programs in which State agencies or local governments did not participate, and to make recommendations. [25 ILCS 130/4-2.1(c)]

Adequacy of Participation in Federal Aid Programs

Each State agency, in its budgetary process with the General Assembly, reports evaluation and funding data as required. Through this process, the General Assembly receives information on the adequacy of programs financed by federal aid in the State. The Legislative Research Unit, as requested or assigned by members of the General Assembly, produces special reports relative to federal funds.

Identification of New Federal Funds (Types and Nature of Programs Not Applied for)

The Legislative Research Unit works with the Illinois Federal Clearinghouse in the Governor’s Office to identify and make information available on federal aid programs that may provide resources for State agencies and local governments. Extensive Clearinghouse information, including referrals to the Legislative Research Unit’s publications, such as *Grant Alerts*, is available on the Legislative Research Unit Website. *Grant Alerts* is also published monthly and e-mailed to potential grant users throughout the State.

Recommendations

The Legislative Research Unit will make recommendations as deemed appropriate.

Overview

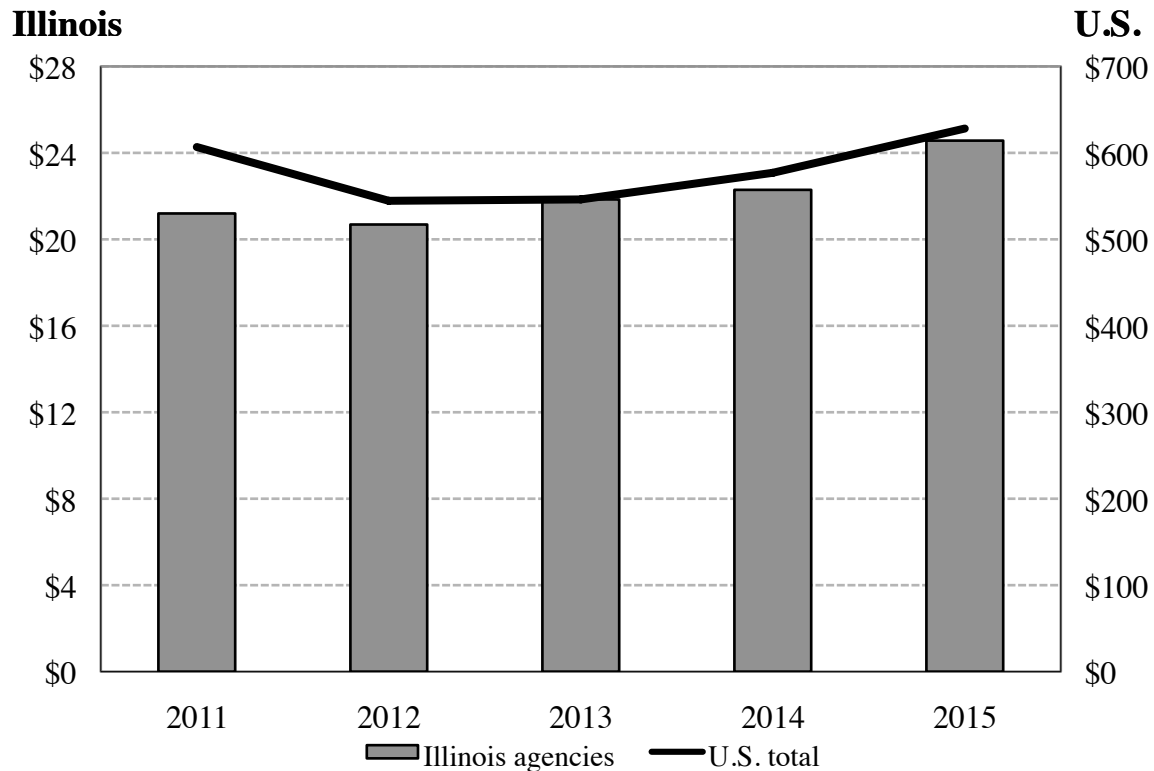

Illinois State agencies received federal funds from 337 programs in FY 2015, 3 of which are programs supported by American Recovery and Reinvestment Act of 2009 (ARRA) funds. (These totals may be duplicated, because more than one agency may report funds from a federal program.) State agency revenues from federal programs increased significantly in 2011 and decreased in 2012—largely due to ARRA funds—before increasing in 2013 as ARRA funding ends. There was a slight increase in 2014. The 2015 projection is above the amount received in FY 2011. Table 1 and Figure 1 below show the total amounts of federal funds that Illinois agencies reported in each year from 2011 to 2014, and the combined estimate for 2015. They also show the total federal outlays (payments) for grants to state and local governments for the same years, as reported in the President’s federal fiscal year 2016 budget.

Figure 1: Federal Funds Received by Illinois State Agencies and Total Federal Grants to State and Local Governments, 2011-2015 (billions)

In FY 2015, awards received by State agencies are estimated to be about \$1 billion 351 million above the FY 2014 awards. Program details are summarized in Appendix B.

Some of the major increases in federal funds from FY 2014 to FY 2015 include the Department of Healthcare and Family Services' Medical Assistance Program; the State Board of Education's Title I Grants to Local Educational Agencies; and the Department of Human Services' Temporary Assistance for Needy Families (TANF).

Programs with substantial reductions include the Department of Transportation's Highway Planning and Construction; the Department of Healthcare and Family Services' Children's Health Insurance Program; and the Student Assistance Commission's Federal Family Education Loan Program.

Using This Handbook

The federal programs in this handbook were included if the federal funds were received directly from the federal government or a non-State agency (such as a consortium of states that receive federal monies for a particular project or a national study group that pays the State agency for research or services). Programs in which a State agency received funds from another State agency (subgrants) have been excluded to avoid "double counting," or falsely inflating the dollar totals. However, Appendix C on subgrants shows the flow of federal funds from some State agencies to others.

The table of contents lists the federal programs used by State agencies from FY 2013 through FY 2015. This table shows the location of the federal program descriptions, as well as which federal programs are used by each State agency. Tables showing federal aid award totals by State agency are appended. Each agency's programs are listed by the numbers assigned by the U.S. Office of Management and Budget in its *Catalog of Federal Domestic Assistance* (CFDA). Descriptions of each program include the proper name, program description (objectives and services provided or supported), formula description, matching requirements, account identification number (federal), and a table illustrating the outlays to Illinois for FY 2013 and FY 2014, and estimated receipts in FY 2015.

This *Federal Funds to State Agencies* handbook contains two sections of State information to assist legislators and staff in linking the federal program data to the State budget. A State Trust Fund section identifies the fund(s) used for depositing the federal grants, and tables show which State programs are supported and what areas and populations of Illinois are served by the federal grants. (See the example below.)

State Programs Supported	Pop. Served	Area
Economic Development	General	Statewide
Illinois State Resource Center	2,000,000	Statewide
Treatment Alternatives to Street Crime	4,080	Cook County

Descriptions of the federal programs include their proper names, common names (where appropriate), and five-digit identifying numbers (CFDA numbers). Each CFDA number identifies a federal program and the administering federal agency. In a few instances, where federal programs are not listed in the *Catalog of Federal Domestic Assistance*, LRU has assigned a unique identifying number. CFDA numbers are arranged in ascending order. The list on the following page shows the basic numbering scheme and the corresponding federal agencies.

Information Sources

The basic sources for the fiscal data included in the *Federal Funds to State Agencies* report are the Legislative Research Unit's annual federal aid surveys, which have examined the use of federal funds by Illinois State agencies from FY 1973 until the present. The fiscal information is supplied directly by the State agencies, and it is assumed the figures are supplied in good faith and are substantially correct. The primary source for the program descriptive information is the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*.

SUPREME COURT

93.586 STATE COURT IMPROVEMENT PROGRAM

Program Description: The program provides formula grants to assist state courts in carrying out their role in the continuum of care provided for families and children at risk. It offers support for the implementation of alternatives and improvements to, as well as the expansion of, successful court systems. It enables state courts to design assessments that identify barriers to effective decision-making, highlight practices that are not fully successful, examine areas in need of correction or added attention, and implement reforms that address the state court's specific needs.

Formula Description: Each state court with an approved application is allotted \$85,000 for each of the fiscal years 2013-2016. The remainder of the amount appropriated for all state courts will be divided among those courts with approved applications, according to each state's proportionate share of children under the age of 21. Twenty-five percent of the total cost must come from non-federal funds.

ATTORNEY GENERAL

16.543 MISSING CHILDREN'S ASSISTANCE

Program Description: The program provides grants to public agencies or private nonprofit organizations for research, demonstration projects, or service programs designed to: (1) educate parents, children, and community agencies and organizations in ways to prevent the abduction and sexual exploitation of children; (2) provide information to assist in the location and return of missing children; (3) aid communities in the collection of materials that would be useful to parents in assisting others in the identification of missing children; (4) develop effective treatment for the psychological consequences to both parents and children of (a) the abduction of a child, both during the period of disappearance and after the child is recovered, and (b) the sexual exploitation of a missing child; (5) collect detailed data on the actual investigative practices used by law enforcement agencies in missing children's cases; (6) address the particular needs of missing children by minimizing the negative impact of judicial and law enforcement procedures on children who are victims of abuse or sexual exploitation and by promoting the active participation of children and their families in cases involving abuse or sexual exploitation of children; (7) address

the needs of missing children and their families following the recovery of such children; (8) reduce the likelihood that individuals under 18 years of age will be abducted; and (9) establish or operate statewide clearinghouses to assist in recovering or locating missing children.

Formula Description: This program has no statutory formula or matching requirements.

SECRETARY OF STATE

45.310 GRANTS TO STATES

Program Description: The Institute of Museum and Library Services program consolidates federal library services programs designed to improve services, facilitate access to resources, and encourage resource sharing among all types of libraries. Grants are available to state library administrative agencies, which may spend the funds themselves or make them available to other agencies. Subgrants may be made available for several listed purposes.

Formula Description: Grants to states are based on the most recent total population calculations from the Bureau of the Census. The federal share is 66% and the state matching requirement is 34%.

45.312 NATIONAL LEADERSHIP GRANTS*

Program Description: The program provides support projects that address current and future needs of the library fields and museums that have the potential to advance practice in the profession so that museums and libraries can improve services for the American public. Successful proposals will generate results such as models, new tools, research, findings, services, practices, and/or alliances that can be widely used, scaled, adapted, or replicated to extend and leverage the benefits of federal investment.

Formula Description: This program has no statutory formula. Awards will not exceed \$500,000, and must be matched one-to-one (with the exception of research projects), but the match may include in-kind contributions. Award amounts are to be determined and one-to-one matching is required for requests over \$250,000 (with the exception of research projects). Sparks! DEPARTMENT ON AGING

10.555 NATIONAL SCHOOL LUNCH PROGRAM

Program Description: The program provides funds for states to reimburse schools for providing more nutritious school lunches through the donation of domestic agricultural commodities and cash grants.

Formula Description: The program is funded on a performance basis. For every lunch or snack served, the state receives a payment from funds made available under the School Lunch Act. The state also receives a payment for each lunch served to a student eligible for free or reduced-price lunches. The amounts of such payments are determined by National Average Payment (NAP) factors. NAP factors are adjusted annually according to changes in the “Food Away From Home” component of the Consumer Price Index for All Urban Consumers.

Program Description: The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that conduct Child Nutrition Programs. State agencies that administer the distribution of USDA-donated commodities to schools, or child or adult care institutions, are also eligible for funding.

Formula Description: For the National School Lunch Program, School Breakfast Program, and

Special Milk Program, states receive 1% of the total funds used in the state during the second preceding year, with a minimum of \$200,000 or the amount received in federal FY 1981. For the Child and Adult Care Food Program, a sliding grant is based on program and fiscal data. (The Secretary of Agriculture may provide additional funds.) Program Description: The block grant program provides funds for states to develop viable urban communities by providing decent housing, a suitable living environment, and expanded economic opportunities – principally for those with low or moderate incomes. Activities must support one of the national objectives by: benefiting low- and moderate-income families; aiding in the prevention or elimination of blight or slums; or meeting other community development needs.

Formula Description: Funds are allocated to states based on data from metropolitan cities and urban counties in each state, using one of two formulas comparing each area to all metropolitan areas, whichever results a greater award. One formula is based on population, extent of poverty, and extent of overcrowding; the other on the extent of growth lag, extent of poverty, and age of housing. States distribute funds to localities, and may use \$100,000 plus up to 3% of its total allocation for program administration, but must provide a dollar-for-dollar match for all such costs over \$100,000.

93.778 MEDICAL ASSISTANCE PROGRAM

The program (referred to as Medicaid) provides funds under two categories. Each is presented separately below to provide as much detail as possible concerning the purpose, formula, and funding for the various units of this program.

(1) MEDICAID VENDOR PAYMENTS

Program Description: Authorized under Title XIX of the Social Security Act, Medicaid provides financial assistance to states for the provision of medical care to low-income individuals and others who may be eligible (pregnant women, infants, children, or the elderly), as defined by age and poverty criteria. Certain services must be provided by states for the categorically needy or the medically needy. Federal funds are awarded to a designated state Medicaid agency, and recipients must meet state requirements.

Formula Description: Funds are awarded based on a state's Federal Medical Assistance Percentage, which ranges from 50% to 83%. The percentage is determined by a state's medical expenditures and personal income relative to the national average for the three preceding years. There is a maintenance of effort requirement.

93.791 MONEY FOLLOWS THE PERSON REBALANCING DEMONSTRATION*

Program Description: The program is designed to assist states in balancing their long-term care systems and help Medicaid enrollees transition from institutions to the community. Congress initially authorized up to \$1.75 billion in federal funds through fiscal year 2011. With the subsequent passage of the Patient Protection and Affordable Care Act in 2010, Section 2403 extended the program through September 30, 2016. Demonstration grants will be awarded to states through March 31, 2016.

Formula Description: This program has no statutory formula. When receiving an award, the solicitation will receive reimbursement for home- and community-based services provided under the demonstration on a quarterly basis at Federal Medical Assistance Percentage (FMAP) rates.

84.177 REHABILITATION SERVICES—INDEPENDENT LIVING SERVICES FOR OLDER INDIVIDUALS WHO ARE BLIND

Program Description: The program is designed to provide independent living services to blind individuals aged 55 or older whose severe visual impairments make gainful employment extremely difficult, but for whom independent living in their own homes and communities is feasible. Funds may be used for vision correction or modification, training, and other supportive services.

Formula Description: If total funds are at least \$13 million, funds are allocated to states based on populations over 55 years old, with each state receiving at least \$225,000, or 1/3 of 1% of the total; if not, funds are awarded on a competitive basis. The state match is 10%.

93.505 AFFORDABLE CARE ACT (ACA) MATERNAL, INFANT, AND EARLY CHILDHOOD HOME VISITING PROGRAM*

Program Description: The program is designed to (1) strengthen and improve the program and activities carried out under Title V; (2) improve coordination of services for at-risk communities; and (3) identify and provide comprehensive services to improve outcomes for families who reside in at-risk communities. Voluntary evidence-based home visiting is the primary strategy to deliver services. A nurse, social worker, parent educator, or other paraprofessional regularly visits an expectant mother or father, new parent, or primary caregiver of a young child from birth to kindergarten entry to support and strengthen the parent-child relationship to improve the health, development, and well-being of the child and family.

Formula Description: The statutory funding is determined by (1) the number of children under age five in families at or below 100% of the federal poverty line in each state (obtained by using the 2011 U.S. Census Bureau’s Small Area Income Poverty Estimate (SAIPE) data); (2) the percentage of children under age five in families at or below 100% of the federal poverty line in the state, as compared to the number of such children nationally; and (3) for each state, the percentage of children under age five in families at or below 100% of the federal poverty line multiplied by the total amount of funding available - excluding the funding allocated for Puerto Rico, Guam, the Virgin Islands, the Northern Mariana Islands, and American Samoa. Because SAIPE

data is not available for these jurisdictions, each was allocated a base amount of \$1,000,000. This initial distribution, based on the percentage of children in poverty, was reviewed and proportionally modified to ensure a floor of the allocation provided in federal FY 2012 (excluding the funding provided for the Supporting Evidence Based Home Visiting Program). This program has no matching requirements.

93.558 TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF)

Program Description: The program provides funds for states to provide cash grants, work opportunities, and other services to needy families with children so that the children can be cared for in their own homes. The goal is to promote job preparation, work, and marriage, thus reducing out-of-wedlock pregnancy and encouraging the formation of two-parent families. States have broad flexibility to use grant funds in any manner that meets the purposes of the program and in ways authorized under the previous assistance programs. States may also transfer a portion of their assistance grant funds to the Child Care and Development Block Grant and Social Services Block Grant Programs. Not more than 15% of any grant may be spent on administrative costs, not including some computerization and information technology expenses.

Formula Description: Funds are allocated based mostly on previous allocations. A state match and maintenance of effort are required.

93.596 CHILD CARE MANDATORY AND MATCHING FUNDS OF THE CHILD CARE AND DEVELOPMENT FUND

The program provides funds under two categories. Each of these categories is presented separately below in order to show the different funding formula for each part.

(1) CHILD CARE MANDATORY

Program Description: Along with related programs, the program makes grants to states to assist low-income families with child care. It is designed to: (1) allow maximum state flexibility; (2) promote parental choice in child care; (3) encourage states to provide consumer education for parents; (4) help states provide child care to parents trying to gain independence from public assistance; and (5) help states implement related standards. Not more than 5% of funds may be for administration; and funds must supplement, not supplant, any state funds. In addition, 4% of the money must be used to improve parental choice and the quality and availability of child care.

Formula Description: Mandatory funds are allocated based on the federal share of expenditures for the now-repealed Aid to Families with Dependent Children (AFDC)-linked child care programs in 1994, 1995, or the average of 1992-1994, whichever is greater. There is no state match required.

10.680 FOREST HEALTH PROTECTION

Program Description: The program is designed to: (1) protect non-federal forest and tree resources from damaging forest insects, disease-causing agents, and invasive plants; (2) develop and improve forest health protection technologies; and (3) monitor the health of forests. Part of the goal is to help support a base level of professional forest health expertise for non-federal forest land managers. A variety of monitoring, research, development, recommendation, and assistance activities are supported.

Formula Description: Grants are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states and other factors. Applicant matching is required and is usually about 50% of project costs, but federal funds will cover all costs if federal lands will be treated as part of a cooperative project or program. Matching rates may be adjusted in emergency or extraordinary situations.

11.407 INTERJURISDICTIONAL FISHERIES ACT OF 1986*

Program Description: The program provides grants used for research and enforcement of inter-jurisdictional fishery resources, for the development of fishery management plans, and for restoration of resources damaged by a natural resource disaster.

Formula Description: This program has no statutory formula. Apportionment to states is based on average value and volume of raw fish landed by domestic commercial fishermen. No state that qualified for funding may receive less than ½ of 1% or more than 6% of funds appropriated in any fiscal year based on conditions of the act. Federal funding is not to exceed 75% of approved project costs, except where a project supports an approved interstate or federal fishery management plan, up to 90% federal funding may apply. The statistical factors used for fund allocation are (1) the three-year average of the value of commercial fish landed (according to “Fishery Statistics of the U.S.”) and (2) the volume of fish landed (according to “Fishery Statistics of the U.S.”). There are no matching requirements for commission grants.

10.560 STATE ADMINISTRATIVE EXPENSES FOR CHILD NUTRITION

Program Description: The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that

conduct child nutrition programs. State agencies that administer the distribution of USDA-donated commodities to schools, or child or adult care institutions, are also eligible for funding.

Formula Description: For the National School Lunch Program, School Breakfast Program, and Special Milk Program, states receive 1% of the total funds used in the state during the second preceding year, with a minimum of \$200,000 or the amount received in federal FY 1981. For the Child and Adult Care Food Program, a sliding grant is based on program and fiscal data. (The Secretary of Agriculture may provide additional funds.) 14.239 HOME INVESTMENT PARTNERSHIPS PROGRAM

Program Description: The program is designed to: (1) expand the supply of affordable housing, particularly rental housing, for low-income Americans; (2) strengthen the abilities of state and local governments to design and implement strategies for achieving adequate supplies of decent, affordable housing; (3) provide financial and technical assistance for developing affordable low-income housing; and (4) extend and strengthen partnerships among all levels of government and the private sector, including for-profit and nonprofit organizations, in the production and operation of affordable housing. At least 90% of the funding for rental housing must be for families below 60% of the area median income; remaining funds are for families below 80% of the median. Assistance for home buyers must be for families below 80% of the area median income. Up to 10% may be used for administrative costs.

Formula Description: Funding is based on several variables that show the need for an increased supply of affordable housing for low- and very low-income families. Grants require that 25% of project costs come from non-federal sources; areas in fiscal distress may get full or partial relief from this requirement.

STUDENT ASSISTANCE COMMISSION

16.816 JOHN R. JUSTICE PROSECUTORS AND DEFENDERS INCENTIVE ACT

Program Description: The program provides funds to help state, local, and tribal governments prepare for, prevent, respond to, and recover from terrorist attacks and other disasters. It has three interconnected grant programs: (1) State Homeland Security Program, to support the implementation of state strategies; (2) Urban Areas Security Initiative, to help address the unique needs of high-threat, high-density urban areas; and (3) Operation Stonegarden, to support cooperation and coordination among local, state, and federal law enforcement agencies in a joint mission to secure U.S. borders with Mexico and Canada.

Formula Description: Funds are awarded based on three factors: minimum amounts required by law; U.S. Department of Homeland Security's risk methodology; and Investment Justification, a measure of anticipated effectiveness. At least 80% of funds for state strategies and urban areas must be passed through to local governments. No match is required.
