Springfield, IL 62703

Ms. Wooldridge,

The University of Illinois Police Department at Urbana-Champaign (UIPD) has compiled its required data for 2019. The Body Worn Camera program began at UIPD in August of 2018. We have 76 cameras, 9 are spare cameras and 71 cameras are assigned to sworn officers. Supervisors review cameras on a monthly basis, as well as conduct reviews after arrests and officers' use of force. We had no major technical issues with our camera system in 2019. We had a few cameras fail, but officers were issued a replacement camera for their shift.

In addition to this memo, I have attached the required Excel spreadsheet documenting the data, time, location, offense and charging data in which a body camera was used in an arrest and prosecution.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Clark', written over a light blue horizontal line.

Jim Clark

Cc: Chief Matt Myrick
