I think he would like to see CJA use some of that 15 mil to give to his organization. I'm not saying they should, and I think they need to understand that with more limited resources that introduced, that means less flexibility.

To problem with that approach though, is they will do with NRI what they did with DCEO, and eliminate the whole thing and just appropriate funds to their friends.

Considering the House's role in the budget cuts I find these inquiries frustrating. I'm not sure what response to give. Rep Acevedo knows that the House significantly cut funding to NRI from the Governor's introduced. The Representative should have been lobbying members in advance of the budget rather than the Governor's office now that its already been cut.

The handwritten numbers are correct and will be reflected in the amendments, but in some cases the amount actually disbursed exceeds the amount in the amendment, resulting in a small overpayment to the Lead Agencies affected (\$1,225 in the case of the attached example).

When we send the amendments to the Lead Agencies, we will explain both the revisions and the overpayment and indicate that the overpayment will be reconciled at close-out of the grant, i.e. the Lead Agency will be expected to refund the overpayment in addition to any other unspent funds under the contract.

Please let me know if you have any questions about this.

Hello NRI Grantee:

We recently found that we made errors in the lead agency amendment to extend and fund your grant through October 31, 2012. Considering the House's role in the budget cuts I find these inquiries frustrating. I'm not sure what response to give. Rep Acevedo knows that the House significantly cut funding to NRI from the Governor's introduced. The Representative should have been lobbying members in advance of the budget rather than the Governor's office now that its already been cut.

The handwritten numbers are correct and will be reflected in the amendments, but in some cases the amount actually disbursed exceeds the amount in the amendment, resulting in a small overpayment to the Lead Agencies affected (\$1,225 in the case of the attached example).

When we send the amendments to the Lead Agencies, we will explain both the revisions and the overpayment and indicate that the overpayment will be reconciled at close-out of the grant, i.e. the Lead Agency will be expected to refund the overpayment in addition to any other unspent funds under the contract.

Please let me know if you have any questions about this.

All,

See my edits (highlighted in yellow). I want to remind the group that I spent 5 years working in the area of violence prevention at the CDC and have a solid background in violence prevention, speaking, publishing, programs, and research (see select list of my publications below). More important than that, I still have several contacts at CDC in the Division of Violence Prevention. I am willing to circulate the finalized Job Announcement to my CDC colleagues who can then disseminate to all their grantees/contacts that work in this area. As you know, CDC supports many states and Centers of Excellence in this area.

That said, we have an opportunity to recruit a regional or national leader for this position!

Thanks,
LaMar

We understand that you are moving forward with an inter-agency agreement with IVPA and think that makes the most sense. We would like to discuss finding a new director.

Please let me know if either of those days work for you. Thanks so much (especially for your patience!)

Considering the House's role in the budget cuts I find these inquiries frustrating. I'm not sure what response to give. Rep Acevedo knows that the House significantly cut funding to NRI from the Governor's introduced. The Representative should have been lobbying members in advance of the budget rather than the Governor's office now that its already been cut.

23 ~~community. The School Crisis Assistance Team Steering~~
24 ~~Committee shall determine the qualifications for volunteers.~~

25 (c) School boards may also employ students holding a
26 bachelor's degree from a recognized institution of higher

1 learning as teaching interns when such students are enrolled in
2 a college or university internship program, which has prior

The Illinois General Assembly recognized this growing epidemic, and on October 29, 2009, adopted the Interstate Gun Trafficking Task Force within the Illinois State Police (ISP). Several different law enforcement agencies and state's attorneys throughout Illinois are members of this task force, developed to produce plans and recommendations on preventing and eliminating future interstate firearms trafficking in Illinois. The task force is currently holding monthly meetings and will provide a report of findings/recommendations to the General Assembly and Governor Pat Quinn by December 31, 2010.</p>	\$0

ISP	Firearm Owners Identification Program (FOID)	<p>The existence of the FOID card allows ISP to maintain FOID files. The hourly correlation of criminal backgrounds with the current FOID database identifies prohibitors that occurred after a FOID card was approved. Daily mental health checks determine if current FOID applications need to be denied due to a mental health prohibitor, or if a card needs to be revoked due to a prohibitor that occurred after a card was approved. The FOID database makes notifications by checking Hot Files for warrants and Orders of Protection (OOP) on current FOID card holders. The FOID program also allows Clear and Present (C&P) Danger determinations to be made in a timely manner. FOID also forwards prohibited adjudicated mental defective information to the FBI National Instant Criminal Background Check System (NICS) Prohibited Persons database, and prohibited involuntary mental health admission information to the FBI NICS Prohibited Persons database.</p>	\$700,000
ISP	Firearm Transfer Inquiry Program (FTIP)	<p>The primary function of FTIP is to conduct a point-of-purchase, real-time background check. Ammunition purchasers are required to present a FOID card to make the purchase. Persons making private sales of firearms are required to check for a FOID card, and have the additional assurance that the person they are selling the gun to is eligible. The relationship the Firearms Services Bureau (FSB) has built with federally licensed gun dealers has resulted in their appreciation of what goes on behind the scenes at FSB, and they are less likely to release a gun even if they do not receive an answer from FTIP within the 24 or 72-hour waiting period. Gun dealers routinely call FSB if they are uneasy about a particular customer and are more likely to walk away from a sale (even if there is no prohibitor), than they would have been without that knowledge. FSB works with State's Attorneys, Probation Officers and Circuit Clerks' Offices to educate them provide adequate and timely information in regard to court dispositions, and information to FSB including adequate personal identifiers so that prohibited persons can be accurately identified resulting in improved reporting that ultimately reduces or prevents violence.</p>	\$555,000

ISP	Gang Suppression	<p>The Statewide Gang Coordinator, assigned to the Statewide Terrorism and Intelligence Center (STIC), interacts with local agencies and ensures they are familiar with and participating in the LEADS Gang File, a database available to all local law enforcement. The system is designed to share information across jurisdictions for officer safety, as well as track the movement of identified street gang members. The Coordinator also offers training to community groups as well as law enforcement, and regularly teams up with state and local correctional agencies to interview and gain information from identified gang members.</p> <p>The ISP also employs gang analysts who are assigned to the STIC. These analysts track gang activity to include members, leaders, locations and known activity and movement. The analysts also enter any known gang intelligence into LEADS system for further identification and tracking.</p>	Funded through State Police GRF; no separate allocation
ISP	CRIMPAT	<p>Criminal Patrol (CRIMPAT) efforts are aimed at removing illegal drugs and weapons from our communities, deterring criminal activity and increasing homeland security efforts. Several Illinois State Police (ISP) officers have been trained in criminal interdiction with more training being scheduled. The Division of Operation's goal is to train more ISP officers within the districts and zones on the concept of "Looking Beyond the Traffic Stop".</p>	Funded through State Police GRF; no separate allocation
ISP	Sex Offender Registration and Child Murderer and Violent Offender Against Youth Registration	<p>This requires individuals who have been convicted or adjudicated of various sex crimes and crimes against children to register as an offender in Illinois for either ten years or for lifetime. The ISP is required by law to place convicted offenders on a public website. The intention of the website is to prevent future acts of violence against innocent victims by informing the general public of who are registered offenders and to educate the general public on the laws associated with offenders.</p>	Funded through State Police GRF; no separate allocation

ISP	NetSmartz	<p>The NetSmartz Workshop was established to extend the safety awareness of children to prevent victimization and increase self-confidence whenever they go online. The ISP Safety Education Officers present this to middle and high school students throughout the state of Illinois. The goals of NetSmartz include how to enhance the ability of children to recognize dangers on the internet, enhance the ability of children to understand that people they first "meet" on the internet should never be considered their friend, encourage children to report victimization to a trusted adult, support and enhance community education efforts and increase communication between adults and children about online safety.</p>	Funded through State Police GRF; no separate allocation
ISP	National Precursor Log Exchange	<p>The National Precursor Log Exchange (NPLeX), is an investigative tool which is a real-time pseudoephedrine tracking program. NPLeX allows officers to identify persons attempting to purchase pseudoephedrine for the purpose of meth manufacturing. The tool also allows officers to obtain pseudoephedrine logs in a centralized location as opposed of having to travel from store to store in order to obtain paper logs. This program is instrumental in our ability to detect and arrest dangerous meth cooks before they injure themselves or others in the community. It also assists the ISP by giving us another tool to protect children living in dangerous methamphetamine laboratories according to ISP's Drug Endangered Children Protocol. The name, address and date of birth of the purchaser are obtained at pharmacies as the pseudoephedrine is purchased, and instantly checked against the nationwide database to ensure the buyer has not purchased an excess of the state's legal limit, which is 7.5 grams in a 30 day period.</p>	Funded through State Police GRF; no separate allocation

ISP	Meth Manufacture Registry	<p>The Meth Manufacture Registry is a program which provides the public information on persons convicted of methamphetamine manufacturing.</p> <p>The information contained in the Methamphetamine Manufacturer Database is provided to the ISP by the Office of the Clerks of the Court in each county and by the Illinois Department of Corrections. The information provided in the Methamphetamine Manufacturer Database is the offender's name, date of birth, offense or offenses requiring inclusion in the Methamphetamine Manufacturer Database, and the conviction date and county of each such offense. This information is useful because it educates the public about people living in their community who have been involved in meth manufacturing. With this information, members of the public can report any suspicious activity to law enforcement. This partnership is useful to preventing additional methamphetamine laboratories in communities across Illinois.</p>	Funded through State Police GRF; no separate allocation
ISP	Statewide Terrorism and Intelligence Center	<p>The STIC serves as a multi-functional fusion center used by local, state, and federal agencies to assist with gathering information related to critical terrorism and criminal intelligence, and then sharing the found data with all necessary law enforcement agencies.</p>	Funded through State Police GRF; no separate allocation
ISP	South Suburban Major Crimes Task Force	<p>The South Suburban Major Crimes Task Force (SSMCTF) is made up of the Illinois State Police (ISP), Cook County Sheriff's Office and 58 local municipalities. The U.S. Secret Service, the U.S. Marshal's Office, the Federal Bureau of Investigation (FBI) and the Illinois Department of Corrections (IDOC) are also involved on a needed basis. The SSMCTF works in the south suburbs of Chicago. The SSMCTF handles major crimes, namely homicides, throughout the 58 plus communities that are located within Cook and Will Counties. The purpose of the task force is to supplement the smaller towns that only have one or two detectives who handle major crimes such as homicides.</p>	Funded through State Police GRF; no separate allocation
