Section 130. The Illinois Pesticide Act is amended by changing Sections 19.3 and 22.2 as follows:

17 (415 ILCS 60/19.3)

18 Sec. 19.3. Agrichemical Facility Response Action Program.

(a) It is the policy of the State of Illinois that an Agrichemical Facility Response Action Program be implemented to reduce potential agrichemical pollution and minimize environmental degradation risk potential at these sites. In this Section, "agrichemical facility" means a site where agrichemicals are stored or handled, or both, in preparation 09800SB3443ham006 -82- LRB098 15945 OMW 60425 a

for end use. "Agrichemical facility" does not include basic manufacturing or central distribution sites utilized only for wholesale purposes. As used in this Section, "agrichemical" means pesticides or commercial fertilizers at an agrichemical facility.

6 The program shall provide guidance for assessing the threat 7 of soil agrichemical contaminants to groundwater and 8 recommending which sites need to establish a voluntary 9 corrective action program.

10 The program shall establish appropriate site-specific soil 11 cleanup objectives, which shall be based on the potential for the agrichemical contaminants to move from the soil to 12 13 groundwater and the potential of the specific soil agrichemical contaminants to cause an exceedence of a Class I or Class III 14 15 groundwater quality standard or a health advisory level. The 16 Department shall use the information found and procedures developed in the Agrichemical Facility Site Contamination 17 18 Study or other appropriate physical evidence to establish the 19 soil agrichemical contaminant levels of concern to groundwater 20 in the various hydrological settings to establish 21 site-specific cleanup objectives.

No remediation of a site may be recommended unless (i) the agrichemical contamination level in the soil exceeds the site-specific cleanup objectives or (ii) the agrichemical contaminant level in the soil exceeds levels where physical evidence and risk evaluation indicates probability of the site

1 causing an exceedence of a groundwater guality standard. 2 When a remediation plan must be carried out over a number of years due to limited financial resources of the owner or 3 4 operator of the agrichemical facility, those soil agrichemical 5 contaminated areas that have the greatest potential to 6 adversely impact vulnerable Class I groundwater aquifers and adjacent potable water wells shall receive the highest priority 7 rating and be remediated first. 8 9 (b) (Blank). The Agrichemical Facility Response Action 10 Program Board ("the Board") is created. The Board members shall consist of the following: 11 (1) The Director or the Director's designee. 12 13 (2) One member who represents pesticide manufacturers. 14 (3) Two members who represent retail agrichemical 15 dealers. 16 (4) One member who represents agrichemical 17 distributors. 18 (5) One member who represents active farmers. 19 (6) One member at large. 20 The public members of the Board shall be appointed by the 21 Governor for terms of 2 years. Those persons on the Board who

represent pesticide manufacturers, agrichemical dealers, agrichemical distributors, and farmers shall be selected from 23 24 recommendations made by the associations whose membership 25 reflects those specific areas of interest. The members of 26 Board shall be appointed within 90 days after the effective

22

date of this amendatory Act of 1995. Vacancies on the Board
 shall be filled within 30 days. The Board may fill any
 membership position vacant for a period exceeding 30 days.

4 The members of the Board shall be paid no compensation, but 5 shall be reimbursed for their expenses incurred in performing their duties. If a civil proceeding is commenced against a 6 Board member arising out of an act or omission occurring within 7 the scope of the Board member's performance of his or her 8 duties under this Section, the State, as provided by rule, 9 10 shall indemnify the Board member for any damages awarded and court costs and attorney's fees assessed as part of a final and 11 unreversed judgement, or shall pay the judgment, unless the 12 13 court or jury finds that the conduct or inaction that gave rise to the claim or cause of action was intentional, wilful 14 15 wanton misconduct and was not intended to serve or benefit interests of the State. 16

The chairperson of the Board shall be selected by the Board from among the public members.

19 (c) (Blank). The Board has the authority to do the 20 following:

21 (1) Cooperate with the Department and review and 22 approve an agrichemical facility remediation program as 23 outlined in the handbook or manual as set forth in 24 subdivision (d) (8) of this Section.

25 (2) Review and give final approval to each agrichemical
 26 facility corrective action plan.

26

1 (3) Approve any changes to an agrichemical facility's 2 corrective action plan that may be necessary. 3 (4) Upon completion of the corrective action plan, recommend to the Department that the site-specific cleanup 4 5 objectives have been met and that a notice of closure be issued by the Department stating that no further remedial 6 action is required to remedy the past agrichemical 7 8 contamination. 9 (5) When a soil agrichemical contaminant assessment 10 confirms that remedial action is not required in accordance with the Agrichemical Facility Response Action Program, 11 recommend that a notice of closure be issued by the 12 13 Department stating that no further remedial action is 14 required to remedy the past agrichemical contamination. 15 Periodically review the Department's (6)16 administration of the Agrichemical Incident Response Trust Fund and actions taken with respect to the Fund. The Board 17 shall also provide advice to the Interagency Committee on 18 Pesticides regarding the proper handling of agrichemical 19 20 incidents at agrichemical facilities in Illinois. 21 (d) The Director has the authority to do the following: 22 (1) When requested by the owner or operator of an agrichemical facility, may investigate the agrichemical 23 24 facility site contamination. 25 (2) After completion of the investigation under item

subdivision (d) (1) of this subsection Section, recommend

to the owner or operator of an agrichemical facility that a voluntary assessment be made of the soil agrichemical contaminant when there is evidence that the evaluation of risk indicates that groundwater could be adversely impacted.

6 (3) Review and make recommendations on any corrective 7 action plan submitted by the owner or operator of an 8 agrichemical facility to the Board for final approval.

9 (4) On approval by the <u>Director</u> Board, issue an order 10 to the owner or operator of an agrichemical facility that 11 has filed a voluntary corrective action plan that the owner 12 or operator may proceed with that plan.

13 (5) Provide remedial project oversight <u>and</u> , monitor
