SENATE RESOLUTION

2

WHEREAS, The Mahomet Aquifer system is an underground layer of water-bearing sand and gravel that fills a wide bedrock valley in all or parts of 14 east-central Illinois counties; the aquifer system is the source of approximately 53 million gallons of water every year for 120 public water systems and thousands of rural wells that serve about 500,000 people; and

8

WHEREAS, More than half of the population in east-central Illinois relies on the Mahomet Aquifer system as a source of their drinking water; and

10

11

WHEREAS, There are complex pathways between the surface and overlying aquifers to the principal aquifer in the eastern portion and no confining layer between the surface and the principal aquifer in the western portion, making the petitioned aquifer vulnerable to contamination; and

15

16

WHEREAS, The Safe Drinking Water Act gives the United States Environmental Protection Agency the authority to designate an aquifer as a sole or principal source of drinking water for a specified area; this designation allows the Environmental Protection Agency to review all federally-funded projects within the designated area to ensure they will not contaminate the aquifer; therefore, be it

1 RESOLVED, BY THE SENATE OF THE NINETY-NINTH GENERAL
2 ASSEMBLY OF THE STATE OF ILLINOIS, that we urge the United
3 States Environmental Protection Agency to classify the Mahomet
4 Aquifer as a Sole Source Aquifer in order protect the residents
5 of east-central Illinois and ensure they have clean drinking
6 water for future generations; and be it further

7 RESOLVED, That suitable copies of this resolution be
8 presented to United States Environmental Protection Agency
9 Region 5 Coordinator William Spaulding, the members of the
10 Illinois congressional delegation, and the Governor.
