The State 7 Board of Education shall establish a common month in each school year for which State testing shall occur to meet the 8 9 objectives of this Section. However, if the schools of a district are closed and classes are not scheduled during any 10 11 week that is established by the State Board of Education as 12 the week of the month when State testing under this Section shall occur, the school district may administer the required 13 State testing at any time up to 2 weeks following the week 14 established by the State Board of Education for the testing, 15 16 so long as the school district gives the State Board of Education written notice of its intention to deviate from the 17 established schedule by December 1 of the school year in 18 19 which falls the week established by the State Board of Education for the testing. The maximum time allowed for all 20 21 actual testing required under this subsection during the school year shall not exceed 25 hours as allocated among the 22 23 required tests by the State Board of Education.

In the first year that such questions are used, 13 scores on the short answer questions shall not be reported on 14 an individual student basis but shall be aggregated for each 15 16 school building in which the tests are given. State-level, school, and district scores shall be reported both with and 17 without the results of the short answer questions so that the 18 19 effect of short answer questions is clearly discernible. Beginning in the second year of this pilot program, scores on 20 21 the short answer questions shall be reported both on an individual student basis and on a school building basis in 22 23 order to monitor the effects of teacher training and curriculum improvements on score results. 24

25 The State Board of Education shall not continue the use short answer questions in the math and reading 26 of assessments, or extend the use of such questions to other 27 State assessments, unless this pilot project demonstrates 28 29 that the use of short answer questions results in а 30 statistically significant improvement in student achievement as measured on the State assessments for math and reading and 31 32 is justifiable in terms of cost and student performance.

Each district's 7 improvement plan must address specific activities the school 8 district intends to implement to assist pupils who by teacher 9 judgment and test results as prescribed in subsection (a) of this Section demonstrate that they are not meeting State 10 11 standards or local objectives. Such activities may include, but shall not be limited to, summer school, extended school 12 day, 13 special homework, tutorial sessions, modified instructional materials, other modifications 14 in the 15 instructional program, reduced class size or retention in 16 grade. Districts that administer reading the 21 inventories may develop remediation programs for students who 22 perform in the bottom half of the student population. Those 23 remediation programs may be funded by moneys provided under the School Safety and Educational Improvement Block Grant 24 25 Program established under Section 2-3.51.5. Nothing in this Section shall prevent school districts from implementing 26 testing and remediation policies for grades not required 27 under this Section. 28
