WHEREAS, In the 2019-2020 academic year, Lincoln College had an enrollment of 1,234 students and an average tuition and fees of \$19,400; the average cost for room and board and extra expenses was estimated to be \$11,361 in the years of 2020-2021; and

### HOUSE BILL RECALLED

On motion of Senator Fine, **House Bill No. 836** was recalled from the order of third reading to the order of second reading.

Senator Fine offered the following amendment and moved its adoption:

**AMENDMENT NO. 1 TO HOUSE BILL 836**

AMENDMENT NO. 1. Amend House Bill 836 by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Health Insurance Coverage Premium Misalignment Study Act.

Section 5. Purpose. This Act is intended to enable the State to study possible misalignment in the Illinois health insurance marketplace that would produce increased premium or cost sharing for some consumers and drive some consumers into lower value qualified health plans or out of the marketplace altogether.

Section 10. Findings. The General Assembly finds that:

(1) Section 1402 of the Patient Protection and Affordable Care Act requires health insurance issuers to provide cost-sharing reductions to low-income marketplace consumers below the 250% federal poverty level who choose a silver level plan; it also requires the United States Department of Health and Human Services to reimburse issuers for cost-sharing reductions. Cost-sharing reductions are important because they help low-income marketplace consumers afford out-of-pocket costs, including deductibles and copayments, and therefore keep them in the marketplace.

(2) On October 12, 2017, the federal government, through executive action, announced that it would be discontinuing cost-sharing reduction payments to issuers in the Patient Protection and Affordable Care Act marketplace. Illinois, like the majority of other states, took action to mitigate the losses that Illinois issuers would endure without the federal cost-sharing reduction payments by adopting a practice called "silver loading" or "cost-sharing reduction uncertainty cost" beginning in the 2018 plan year. Silver loading allows issuers to increase their silver plan baseline premiums to make up the costs lost from the missing federal cost-sharing reduction payments. Most of these premium increases are offset by higher advanced premium tax credits from the federal government.

(3) However, due to silver loading and resulting pricing of silver plans in the Illinois marketplace, it appears that the current metal-level premiums in the Illinois marketplace are misaligned and do not reflect coverage generosity of the plans. The fact that silver plans are now overpriced for enrollees ineligible for generous cost-sharing reductions has driven some of those enrollees into non-silver (mostly bronze) plans with levels of cost sharing that are a worse match for their needs. In other words, Illinois marketplace consumers could be currently paying more than they should for low value plans and less than they should for high value plans.

Section 15. Premium misalignment study.

(a) The Department of Insurance shall oversee a study to explore rate setting approaches that may yield a misalignment of premiums across different tiers of coverage in Illinois' individual health insurance market. The study shall examine these approaches with a view to attempts to make coverage more affordable for low-income and middle-income residents. The study shall follow the best practices of other states targeted at addressing metal-level premium misalignment and include an Illinois-specific analysis of:

(1) the number of consumers who are eligible for a premium subsidy under the Patient Protection and Affordable Care Act (Pub. L. 111-148) and the relative affordability of the plans;

(2) if the plan is in the silver level, as described by 42 U.S.C. 18022(d), the relation of the premium amount compared to premiums charged for qualified health plans offering different levels of coverage, taking into account any funding or lack of funding for cost-sharing reductions and the covered benefits for each level of coverage; and

(3) whether the plan issuer utilized the induced demand factors developed by the Centers for Medicare and Medicaid Services for the risk adjustment program established under 42 U.S.C. 18063 for the level of coverage offered by the plan or any State-specific induced demand factors established by Department rules.

(b) The study shall produce cost estimates for Illinois residents addressing metal-level premium misalignment policy as studied in subsection (a) along with the impact of the policy on health insurance affordability and access and the uninsured rates for low-income and middle-income residents, with break-out data by geography, race, ethnicity, and income level. The study shall evaluate how premium realignment, if implemented, would affect costs and outcomes for Illinoisans.

[April 8, 2022]

(c) The Department of Insurance shall develop and submit, no later than January 1, 2024, a report to the General Assembly and the Governor concerning the design, costs, benefits, and implementation of premium realignment to increase affordability and access to health care coverage that leverages existing State infrastructure."

The motion prevailed.

And the amendment was adopted and ordered printed.

There being no further amendments, the bill, as amended, was ordered to a third reading.

Allegations of misconduct under the State Officials and Employees Ethics Act shall be referred to the Office of the Governor's Executive Inspector General for investigation.

The Inspector General shall not conduct an investigation within an agency or facility if that investigation would be redundant to or interfere with an investigation conducted by another State agency. The Inspector General shall have no supervision over, or involvement in, the routine programmatic, licensing, funding, or certification operations of the Department. Nothing in this subsection limits investigations by the Department that may otherwise be required by law or that may be necessary in the Department's capacity as central administrative authority responsible for the operation of the State's mental health and developmental disabilities facilities.

(g) Rulemaking authority. The Inspector General shall promulgate rules establishing minimum requirements for reporting allegations as well as for initiating, conducting, and completing investigations based upon the nature of the allegation or allegations. The rules shall clearly establish that if 2 or more State agencies could investigate an allegation, the Inspector General shall not conduct an investigation that would be redundant to, or interfere with, an investigation conducted by another State agency. The rules shall further clarify the method and circumstances under which the Office of Inspector General may interact with the licensing, funding, or certification units of the Department in preventing further occurrences of mental abuse, physical abuse, sexual abuse, neglect, egregious neglect, and financial exploitation.

(h) Training programs. The Inspector General shall (i) establish a comprehensive program to ensure that every person authorized to conduct investigations receives ongoing training relative to investigation techniques, communication skills, and the appropriate means of interacting with persons receiving treatment for mental illness, developmental disability, or both mental illness and developmental disability, and (ii) establish and conduct periodic training programs for facility and agency employees concerning the prevention and reporting of any one or more of the following: mental abuse, physical abuse, sexual abuse, neglect, egregious neglect, or financial exploitation. Nothing in this Section shall be deemed to prevent the Office of Inspector General from conducting any other training as determined by the Inspector General to be necessary or helpful.

(i) Duty to cooperate.

(1) The Inspector General shall at all times be granted access to any facility or agency for the purpose of investigating any allegation, conducting unannounced site visits, monitoring compliance with a written response, or completing any other statutorily assigned duty. The Inspector General shall

(j) Subpoena powers. The Inspector General shall have the power to subpoena witnesses and compel the production of all documents and physical evidence relating to his or her investigations and any hearings authorized by this Act. This subpoena power shall not extend to persons or documents of a labor organization or its representatives insofar as the persons are acting in a representative capacity to an employee whose conduct is the subject of an investigation or the documents relate to that representation. Any person who otherwise fails to respond to a subpoena or who knowingly provides false information to the Office of the Inspector General by subpoena during an investigation is guilty of a Class A misdemeanor.

(k) Reporting allegations and deaths.

(1) Allegations. If an employee witnesses, is told of, or has reason to believe an incident of mental abuse, physical abuse, sexual abuse, neglect, or financial exploitation has occurred, the employee, agency, or facility shall report the allegation by phone to the Office of the Inspector General hotline according to the agency's or facility's procedures, but in no event later than 4 hours after the initial discovery of the incident, allegation, or suspicion of any one or more of the following: mental abuse, physical abuse, sexual abuse, neglect, or financial exploitation. A required reporter as defined in subsection (b) of this Section who knowingly or intentionally fails to comply with these reporting requirements is guilty of a Class A misdemeanor.

(l) Reporting to law enforcement. (H) Reporting criminal acts. Within 24 hours after determining that there is credible evidence indicating that a criminal act may have been committed or that special expertise may be required in an investigation, the Inspector General shall notify the Illinois State Police or other appropriate law enforcement authority, or ensure that such notification is made. The Illinois State Police shall investigate any report from a State-operated facility indicating a possible murder, sexual assault, or other felony by an employee. All investigations conducted by the Inspector General shall be conducted in a manner designed to ensure the preservation of evidence for possible use in a criminal prosecution.

~~(2) Reporting allegations of adult students with disabilities. Upon receipt of a reportable allegation regarding an adult student with a disability, the Department's Office of the Inspector General shall determine whether the allegation meets the criteria for the Domestic Abuse Program under the Abuse of Adults with Disabilities Intervention Act. If the allegation is reportable to that program, the Office of the Inspector General shall initiate an investigation. If the allegation is not reportable to the Domestic Abuse Program, the Office of the Inspector General shall make an expeditious referral to the respective law enforcement entity. If the alleged victim is already receiving~~

~~services from the Department, the Office of the Inspector General shall also make a referral to the respective Department of Human Services' Division or Bureau.~~

(m) Investigative reports. Upon completion of an investigation, the Office of Inspector General shall issue an investigative report identifying whether the allegations are substantiated, unsubstantiated, or unfounded. Within 10 business days after the transmittal of a completed investigative report substantiating an allegation, finding an allegation is unsubstantiated, or if a recommendation is made, the Inspector General shall provide the investigative report on the case to the Secretary and to the director of the facility or agency where any one or more of the following occurred: mental abuse, physical abuse, sexual abuse, neglect, egregious neglect, or financial exploitation. The director of the facility or agency shall be responsible for maintaining the confidentiality of the investigative report consistent with State and federal law. In a substantiated case, the investigative report shall include any mitigating or aggravating circumstances that were identified during the investigation. If the case involves substantiated neglect, the investigative report shall also state whether egregious neglect was found. An investigative report may also set forth recommendations. All investigative reports prepared by the Office of the Inspector General shall be considered confidential and shall not be released except as provided by the law of this State or as required under applicable federal law. Unsubstantiated and unfounded reports shall not be disclosed except as allowed under Section 6 of the Abused and Neglected Long Term Care Facility Residents Reporting Act. Raw data used to compile the investigative report shall not be subject to release unless required by law or a court order. "Raw data used to compile the investigative report" includes, but is not limited to, any one or more of the following: the initial complaint, witness statements, photographs, investigator's notes, police reports, or incident reports. If the allegations are substantiated, the victim, the victim's guardian, and the accused shall be provided with a redacted copy of the investigative report. Death reports where there was no allegation of abuse or neglect shall only be released pursuant to applicable State or federal law or a valid court order. Unredacted investigative reports, as well as raw data, may be shared with a local law enforcement entity, a State's Attorney's office, or a county coroner's office upon written request.

(n) Written responses, clarification requests, and reconsideration requests.

(1) Written responses. Within 30 calendar days from receipt of a substantiated investigative report or an investigative report which contains recommendations, absent a reconsideration request, the facility or agency shall file a written response that addresses, in a concise and reasoned manner, the actions taken to: (i) protect the individual; (ii) prevent recurrences; and (iii) eliminate the problems identified. The response shall include the implementation and completion dates of such actions. If the written response is not filed within the allotted 30 calendar day period, the Secretary shall determine the appropriate corrective action to be taken.

(2) Requests for clarification. The facility, agency, victim or guardian, or the subject employee may request that the Office of Inspector General clarify the finding or findings for which clarification is sought.

(3) Requests for reconsideration. The facility, agency, victim or guardian, or the subject employee may request that the Office of the Inspector General reconsider the finding or findings or the recommendations. A request for reconsideration shall be subject to a multi-layer review and shall include at least one reviewer who did not participate in the investigation or approval of the original investigative report. After the multi-layer review process has been completed, the Inspector General shall make the final determination on the reconsideration request. The investigation shall be reopened if the reconsideration determination finds that additional information is needed to complete the investigative record.

(o) Disclosure of the finding by the Inspector General. The Inspector General shall disclose the finding of an investigation to the following persons: (i) the Governor, (ii) the Secretary, (iii) the director of the facility or agency, (iv) the alleged victims and their guardians, (v) the complainant, and (vi) the accused. This information shall include whether the allegations were deemed substantiated, unsubstantiated, or unfounded.

(p) Secretary review. Upon review of the Inspector General's investigative report and any agency's or facility's written response, the Secretary shall accept or reject the written response and notify the Inspector General of that determination. The Secretary may further direct that other administrative action be taken, including, but not limited to, any one or more of the following: (i) additional site visits, (ii) training, (iii) provision of technical assistance relative to administrative needs, licensure, or certification, or (iv) the imposition of appropriate sanctions.

(q) Action by facility or agency. Within 30 days of the date the Secretary approves the written response or directs that further administrative action be taken, the facility or agency shall provide an implementation report to the Inspector General that provides the status of the action taken. The facility or agency shall be allowed an additional 30 days to send notice of completion of the action or to send an updated implementation report. If the action has not been completed within the additional 30-day period, the facility or agency shall send updated implementation reports every 60 days until completion. The Inspector General shall conduct a review of any implementation plan that takes more than 120 days after approval to complete, and shall monitor compliance through a random review of approved written responses, which may include, but are not limited to: (i) site visits, (ii) telephone contact, and (iii) requests for additional documentation evidencing compliance.

(r) Sanctions. Sanctions, if imposed by the Secretary under Subdivision (p)(iv) of this Section, shall be designed to prevent further acts of mental abuse, physical abuse, sexual abuse, neglect, egregious neglect, or financial exploitation or some combination of one or more of those acts at a facility or agency, and may include any one or more of the following:

- (1) Appointment of on-site monitors.
- (2) Transfer or relocation of an individual or individuals.
- (3) Closure of units.
- (4) Termination of any one or more of the following: (i) Department licensing, (ii) funding, or (iii) certification.

The Inspector General may seek the assistance of the Illinois Attorney General or the office of any State's Attorney in implementing sanctions.

(s) Health Care Worker Registry.

(1) Reporting to the Registry. The Inspector General shall report to the Department of Public Health's Health Care Worker Registry, a public registry, the identity and finding of each employee of a facility or agency against whom there is a final investigative report containing a substantiated allegation of physical or sexual abuse, financial exploitation, or egregious neglect of an individual.

(2) Notice to employee. Prior to reporting the name of an employee, the employee shall be notified of the Department's obligation to report and shall be granted an opportunity to request an administrative hearing, the sole purpose of which is to determine if the substantiated finding warrants reporting to the Registry. Notice to the employee shall contain a clear and concise statement of the grounds on which the report to the Registry is based, offer the employee an opportunity for a hearing, and identify the process for requesting such a hearing. Notice is sufficient if provided by certified mail to the employee's last known address. If the employee fails to request a hearing within 30 days from the date of the notice, the Inspector General shall report the name of the employee to the Registry. Nothing in this subdivision (s)(2) shall diminish or impair the rights of a person who is a member of a collective bargaining unit under the Illinois Public Labor Relations Act or under any other federal labor statute.

(3) Registry hearings. If the employee requests an administrative hearing, the employee shall be granted an opportunity to appear before an administrative law judge to present reasons why the employee's name should not be reported to the Registry. The Department shall bear the burden of presenting evidence that establishes, by a preponderance of the evidence, that the substantiated finding warrants reporting to the Registry. After considering all the evidence presented, the administrative law judge shall make a recommendation to the Secretary as to whether the substantiated finding warrants reporting the name of the employee to the Registry. The Secretary shall render the final decision. The Department and the employee shall have the right to request that the administrative law judge consider a stipulated disposition of these proceedings.

(4) Testimony at Registry hearings. A person who makes a report or who investigates a report under this Act shall testify fully in any judicial proceeding resulting from such a report, as to any evidence of abuse or neglect, or the cause thereof. No evidence shall be excluded by reason of any common law or statutory privilege relating to communications between the alleged perpetrator of abuse or neglect, or the individual alleged as the victim in the report, and the person making or investigating the report. Testimony at hearings is exempt from the confidentiality requirements of subsection (f) of Section 10 of the Mental Health and Developmental Disabilities Confidentiality Act.

(5) Employee's rights to collateral action. No reporting to the Registry shall occur and no hearing shall be set or proceed if an employee notifies the Inspector General in writing, including any supporting documentation, that he or she is formally contesting an adverse employment action

resulting from a substantiated finding by complaint filed with the Illinois Civil Service Commission, or which otherwise seeks to enforce the employee's rights pursuant to any applicable collective bargaining agreement. If an action taken by an employer against an employee as a result of a finding of physical abuse, sexual abuse, or egregious neglect is overturned through an action filed with the Illinois Civil Service Commission or under any applicable collective bargaining agreement and if that employee's name has already been sent to the Registry, the employee's name shall be removed from the Registry.

(6) Removal from Registry. At any time after the report to the Registry, but no more than once in any 12-month period, an employee may petition the Department in writing to remove his or her name from the Registry. Upon receiving notice of such request, the Inspector General shall conduct an investigation into the petition. Upon receipt of such request, an administrative hearing will be set by the Department. At the hearing, the employee shall bear the burden of presenting evidence that establishes, by a preponderance of the evidence, that removal of the name from the Registry is in the public interest. The parties may jointly request that the administrative law judge consider a stipulated disposition of these proceedings.

(t) Review of Administrative Decisions. The Department shall preserve a record of all proceedings at any formal hearing conducted by the Department involving Health Care Worker Registry hearings. Final administrative decisions of the Department are subject to judicial review pursuant to provisions of the Administrative Review Law.

(u) Quality Care Board. There is created, within the Office of the Inspector General, a Quality Care Board to be composed of 7 members appointed by the Governor with the advice and consent of the Senate. One of the members shall be designated as chairman by the Governor. Of the initial appointments made by the Governor, 4 Board members shall each be appointed for a term of 4 years and 3 members shall each be appointed for a term of 2 years. Upon the expiration of each member's term, a successor shall be appointed for a term of 4 years. In the case of a vacancy in the office of any member, the Governor shall appoint a successor for the remainder of the unexpired term.

Members appointed by the Governor shall be qualified by professional knowledge or experience in the area of law, investigatory techniques, or in the area of care of the mentally ill or care of persons with developmental disabilities. Two members appointed by the Governor shall be persons with a disability or parents of persons with a disability. Members shall serve without compensation, but shall be reimbursed for expenses incurred in connection with the performance of their duties as members.

The Board shall meet quarterly, and may hold other meetings on the call of the chairman. Four members shall constitute a quorum allowing the Board to conduct its business. The Board may adopt rules and regulations it deems necessary to govern its own procedures.

The Board shall monitor and oversee the operations, policies, and procedures of the Inspector General to ensure the prompt and thorough investigation of allegations of neglect and abuse. In fulfilling these responsibilities, the Board may do the following:

(1) Provide independent, expert consultation to the Inspector General on policies and protocols for investigations of alleged abuse, neglect, or both abuse and neglect.

(2) Review existing regulations relating to the operation of facilities.

(3) Advise the Inspector General as to the content of training activities authorized under this Section.

(4) Recommend policies concerning methods for improving the intergovernmental relationships between the Office of the Inspector General and other State or federal offices.

(v) Annual report. The Inspector General shall provide to the General Assembly and the Governor, no later than January 1 of each year, a summary of reports and investigations made under this Act for the prior fiscal year with respect to individuals receiving mental health or developmental disabilities services. The report shall detail the imposition of sanctions, if any, and the final disposition of any corrective or administrative action directed by the Secretary. The summaries shall not contain any confidential or identifying information of any individual, but shall include objective data identifying any trends in the number of reported allegations, the timeliness of the Office of the Inspector General's investigations, and their disposition, for each facility and Department-wide, for the most recent 3-year time period. The report shall also identify, by facility, the staff-to-patient ratios taking account of direct care staff only. The report shall also include detailed recommended administrative actions and matters for consideration by the General Assembly.

(w) Program audit. The Auditor General shall conduct a program audit of the Office of the Inspector General on an as-needed basis, as determined by the Auditor General. The audit shall specifically include the Inspector General's compliance with the Act and effectiveness in investigating reports of allegations occurring in any facility or agency. The Auditor General shall conduct the program audit according to the provisions of the Illinois State Auditing Act and shall report its findings to the General Assembly no later than January 1 following the audit period.

(x) Nothing in this Section shall be construed to mean that an individual is a victim of abuse or neglect because of health care services appropriately provided or not provided by health care professionals.

(y) Nothing in this Section shall require a facility, including its employees, agents, medical staff members, and health care professionals, to provide a service to an individual in contravention of that individual's stated or implied objection to the provision of that service on the ground that that service conflicts with the individual's religious beliefs or practices, nor shall the failure to provide a service to an individual be considered abuse under this Section if the individual has objected to the provision of that service based on his or her religious beliefs or practices.

The Department shall utilize the following funding mechanisms for community services:

(1) Purchase of Care Contracts: services purchased on a predetermined fee per unit of service basis from private providers or governmental entities. (3) Other Funding Arrangements: funding mechanisms may be established on a pilot basis in order to examine the feasibility of alternative financing arrangements for the provision of community services.

The Department shall establish and maintain an equitable system of payment which allows providers to improve persons with disabilities' capabilities for independence and reduces their reliance on State-operated services.

For services classified as entitlement services under federal law or guidelines, caps may not be placed on the total amount of payment a provider may receive in a fiscal year and the Department shall not require that a portion of the payments due be made in a subsequent fiscal year based on a yearly payment cap.

~~(b) (Blank). The Governor shall create a commission by September 1, 2009, or as soon thereafter as possible, to review funding methodologies, identify gaps in funding, identify revenue, and prioritize use of that revenue for community developmental disability services, mental health services, alcohol and substance abuse services, rehabilitation services, and early intervention services. The Office of the Governor shall provide staff support for the commission.~~

~~(c) (Blank). The first meeting of the commission shall be held within the first month after the creation and appointment of the commission, and a final report summarizing the commission's recommendations must be issued within 12 months after the first meeting, and no later than September 1, 2010, to the Governor and the General Assembly.~~

## ARTICLE 15. SCHOOL CODE

Section 15-5. The School Code is amended by changing Sections 1B-8, 1F-25, 1F-90, 2-3.146, 10-21.9, and 34-18.5 as follows:

(105 ILCS 5/1B-8) (from Ch. 122, par. 1B-8)

Sec. 1B-8. There is created in the State Treasury a special fund to be known as the School District Emergency Financial Assistance Fund (the "Fund"). The School District Emergency Financial Assistance Fund shall consist of appropriations, loan repayments, grants from the federal government, and donations from any public or private source. Moneys in the Fund may be appropriated only to the Illinois Finance Authority and the State Board for those purposes authorized under this Article and Articles 1F and 1H of this Code. The appropriation may be allocated and expended by the State Board for contractual services to provide technical assistance or consultation to school districts to assess their financial condition and to Financial Oversight Panels that petition for emergency financial assistance grants. The Illinois Finance Authority may provide loans to school districts which are the subject of an approved petition for emergency financial assistance under Section 1B-4, ~~1F-62~~, or 1H-65 of this Code. Neither the State Board of Education nor the Illinois Finance Authority may collect any fees for providing these services.

From the amount allocated to each such school district under this Article the State Board shall identify a sum sufficient to cover all approved costs of the Financial Oversight Panel established for the respective school district. If the State Board and State Superintendent of Education have not approved emergency financial assistance in conjunction with the appointment of a Financial Oversight Panel, the Panel's approved costs shall be paid from deductions from the district's general State aid or evidence-based funding.

The Financial Oversight Panel may prepare and file with the State Superintendent a proposal for emergency financial assistance for the school district and for its operations budget. No expenditures from the Fund shall be authorized by the State Superintendent until he or she has approved the request of the Panel, either as submitted or in such lesser amount determined by the State Superintendent.

The maximum amount of an emergency financial assistance loan which may be allocated to any school district under this Article, including moneys necessary for the operations of the Panel, shall not exceed \$4,000 times the number of pupils enrolled in the school district during the school year ending June 30 prior to the date of approval by the State Board of the petition for emergency financial assistance, as certified to the local board and the Panel by the State Superintendent. An emergency financial assistance grant shall not exceed \$1,000 times the number of such pupils. A district may receive both a loan and a grant.

The payment of an emergency State financial assistance grant or loan shall be subject to appropriation by the General Assembly. Payment of the emergency State financial assistance loan is subject to the applicable provisions of the Illinois Finance Authority Act. Emergency State financial assistance allocated and paid to a school district under this Article may be applied to any fund or funds from which the local board of education of that district is authorized to make expenditures by law.

Any emergency financial assistance grant proposed by the Financial Oversight Panel and approved by the State Superintendent may be paid in its entirety during the initial year of the Panel's existence or spread in equal or declining amounts over a period of years not to exceed the period of the Panel's existence. An emergency financial assistance loan proposed by the Financial Oversight Panel and approved by the Illinois Finance Authority may be paid in its entirety during the initial year of the Panel's existence or spread in equal or declining amounts over a period of years not to exceed the period of the Panel's existence. All loans made by the Illinois Finance Authority for a school district shall be required to be repaid, with simple interest over the term of the loan at a rate equal to 50% of the one-year Constant Maturity Treasury (CMT) yield as last published by the Board of Governors of the Federal Reserve System before the date on which the district's loan is approved by the Illinois Finance Authority, not later than the date the Financial Oversight Panel ceases to exist. The Panel shall establish and the Illinois Finance Authority shall approve the terms and conditions, including the schedule, of repayments. The schedule shall provide for repayments commencing July 1 of each year or upon each fiscal year's receipt of moneys from a tax levy for emergency financial assistance. Repayment shall be incorporated into the annual budget of the school district and may be made from any fund or funds of the district in which there are moneys available. An emergency financial assistance loan to the Panel or district shall not be considered part of the calculation of a district's debt for purposes of the limitation specified in Section 19-1 of this Code. Default on repayment is subject to the Illinois Grant Funds Recovery Act. When moneys are repaid as provided herein they shall not be made available to the local board for further use as emergency financial assistance under this Article at any time thereafter. All repayments required to be made by a school district shall be received by the State Board and deposited in the School District Emergency Financial Assistance Fund.

In establishing the terms and conditions for the repayment obligation of the school district the Panel shall annually determine whether a separate local property tax levy is required. The board of any school district with a tax rate for educational purposes for the prior year of less than 120% of the maximum rate for educational purposes authorized by Section 17-2 shall provide for a separate tax levy for emergency financial assistance repayment purposes. Such tax levy shall not be subject to referendum approval. The amount of the levy shall be equal to the amount necessary to meet the annual repayment obligations of the district as established by the Panel, or 20% of the amount levied for educational purposes for the prior year, whichever is less. However, no district shall be required to levy the tax if the district's operating tax rate as determined under Section 18-8, 18-8.05, or 18-8.15 exceeds 200% of the district's tax rate for educational purposes for the prior year.

(3) To purchase real or personal property necessary or convenient for its purposes; to execute and deliver deeds for real property held in its own name; and to sell, lease, or otherwise dispose of such of its property as, in the judgment of the Authority, is no longer necessary for its purposes.

(10) To recommend annexation, consolidation, dissolution, or reorganization of the district, in whole or in part, to the State Board if in the Authority's judgment the circumstances so require. No such proposal for annexation, consolidation, dissolution, or reorganization shall occur unless the Authority and the school boards of all other districts directly affected by the annexation, consolidation, dissolution, or reorganization have each approved by majority vote the annexation, consolidation, dissolution, or reorganization. Notwithstanding any other law to the contrary, upon approval of the proposal by the State Board, the State Board and all other affected entities shall forthwith implement the proposal. When a dissolution and annexation becomes effective for purposes of administration and attendance, the positions of teachers in contractual continued service in the district being dissolved shall be transferred to the annexing district or districts, pursuant to the provisions of Section 24-12 of this Code. In the event that the territory is added to 2 or more districts, the decision on which positions shall be transferred to which annexing districts shall be made by giving consideration to the proportionate percentage of pupils transferred and the annexing districts' staffing needs, and the transfer of teachers in contractual continued service into positions shall be based upon the request of those teachers in contractual continued service in order of seniority in the dissolving district. The status of all teachers in contractual continued service transferred to an annexing district shall not be lost, and the board of the annexing district is subject to this Code with respect to teachers in contractual continued service who are transferred in the same manner as if the person were the annexing district's employee and had been its employee during the time the person was actually employed by the board of the dissolving district from which the position was transferred.

Sec. 10-21.9. Criminal history records checks and checks of the Statewide Sex Offender Database and Statewide Murderer and Violent Offender Against Youth Database.

(a) Licensed and nonlicensed applicants for employment with a school district, except school bus driver applicants, are required as a condition of employment to authorize a fingerprint-based criminal history records check to determine if such applicants have been convicted of any disqualifying, enumerated criminal or drug offenses in subsection (c) of this Section or have been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State. Authorization for the check shall be furnished by the applicant to the school district, except that if the applicant is a substitute teacher seeking employment in more than one school district, a teacher seeking concurrent part-time employment positions with more than one school district (as a reading specialist, special education teacher or otherwise), or an educational support personnel employee seeking employment positions with more than one district, any such district may require the applicant to furnish authorization for the check to the regional superintendent of the educational service region in which are located the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee. Upon receipt of this authorization, the school district or the appropriate regional superintendent, as the case may be, shall submit the applicant's name, sex, race, date of birth, social security number, fingerprint images, and other identifiers, as prescribed by the Illinois State Police, to the Illinois State Police. The regional superintendent submitting the requisite information to the Illinois State Police shall promptly notify the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee that the check of the applicant has been requested. The Illinois State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the school board for the school district that requested the check, or to the regional superintendent who requested the check. The Illinois State Police shall charge the school district or the appropriate regional superintendent a fee for conducting such check, which fee shall be deposited in the State Police Services Fund and shall not exceed the cost of the inquiry; and the applicant shall not be charged a fee for such check by the school district or by the regional superintendent, except that those applicants seeking employment as a substitute teacher with a school district may be charged a fee not to exceed the cost of the inquiry. Subject to appropriations for these purposes, the State Superintendent of Education shall reimburse school districts and regional superintendents for fees paid to obtain criminal history records checks under this Section.

(a-5) The school district or regional superintendent shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, for each applicant. The check of the Statewide Sex Offender Database must be conducted by the school district or regional superintendent once for every 5 years that an applicant remains employed by the school district.

(a-6) The school district or regional superintendent shall further perform a check of the Statewide Murderer and Violent Offender Against Youth Database, as authorized by the Murderer and Violent Offender Against Youth Community Notification Law, for each applicant. The check of the Murderer and Violent Offender Against Youth Database must be conducted by the school district or regional superintendent once for every 5 years that an applicant remains employed by the school district.

(b) Any information concerning the record of convictions obtained by the president of the school board or the regional superintendent shall be confidential and may only be transmitted to the superintendent of the school district or his designee, the appropriate regional superintendent if the check was requested by the school district, the presidents of the appropriate school boards if the check was requested from the Illinois State Police by the regional superintendent, the State Board of Education and a school district as authorized under subsection (b-5), the State Superintendent of Education, the State Educator Preparation and Licensure Board, any other person necessary to the decision of hiring the applicant for employment, or for clarification purposes the Illinois State Police or Statewide Sex Offender Database, or both. A copy of the record of convictions obtained from the Illinois State Police shall be provided to the applicant for employment. Upon the check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database, the school district or regional superintendent shall notify an applicant as to whether or not the applicant has been identified in the Database. If a check of an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one school district was requested by the regional superintendent, and the Illinois State Police upon a check ascertains that the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and so notifies the regional superintendent and if the regional superintendent upon a check ascertains that the applicant has not been identified in the Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database, then the regional superintendent shall issue to the applicant a certificate evidencing that as of the date specified by the Illinois State Police the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and evidencing that as of the date that the regional superintendent conducted a check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database, the applicant has not been identified in the Database. The school board of any school district may rely on the certificate issued by any regional superintendent to that substitute teacher, concurrent part-time teacher, or concurrent educational support personnel employee or may initiate its own criminal history records check of the applicant through the Illinois State Police and its own check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database as provided in this Section. Any unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

(b-5) If a criminal history records check or check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database is performed by a regional superintendent for an applicant seeking employment as a substitute teacher with a school district, the regional superintendent may disclose to the State Board of Education whether the applicant has been issued a certificate under subsection (b) based on those checks. If the State Board receives information on an applicant under this subsection, then it must indicate in the Educator Licensure Information System for a 90-day period that the applicant has been issued or has not been issued a certificate.

(c) No school board shall knowingly employ a person who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to Section 21B-80 of this Code, except as provided under subsection (b) of Section 21B-80. Further, no school board shall knowingly employ a person who has been found to be the perpetrator of sexual or physical abuse of any minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. As a condition of employment, each school board must consider the status of a person who has been issued an indicated finding of abuse or neglect of a child by the Department of Children and Family Services under the Abused and Neglected Child Reporting Act or by a child welfare agency of another jurisdiction.

(d) No school board shall knowingly employ a person for whom a criminal history records check and a Statewide Sex Offender Database check have not been initiated.

(e) Within 10 days after a superintendent, regional office of education, or entity that provides background checks of license holders to public schools receives information of a pending criminal charge against a license holder for an offense set forth in Section 21B-80 of this Code, the superintendent, regional

office of education, or entity must notify the State Superintendent of Education of the pending criminal charge.

If permissible by federal or State law, no later than 15 business days after receipt of a record of conviction or of checking the Statewide Murderer and Violent Offender Against Youth Database or the Statewide Sex Offender Database and finding a registration, the superintendent of the employing school board or the applicable regional superintendent shall, in writing, notify the State Superintendent of Education of any license holder who has been convicted of a crime set forth in Section 21B-80 of this Code. Upon receipt of the record of a conviction of or a finding of child abuse by a holder of any license issued pursuant to Article 21B or Section 34-8.1 ~~or 34-83~~ of this ~~the School~~ Code, the State Superintendent of Education may initiate licensure suspension and revocation proceedings as authorized by law. If the receipt of the record of conviction or finding of child abuse is received within 6 months after the initial grant of or renewal of a license, the State Superintendent of Education may rescind the license holder's license.

(e-5) The superintendent of the employing school board shall, in writing, notify the State Superintendent of Education and the applicable regional superintendent of schools of any license holder whom he or she has reasonable cause to believe has committed an intentional act of abuse or neglect with the result of making a child an abused child or a neglected child, as defined in Section 3 of the Abused and Neglected Child Reporting Act, and that act resulted in the license holder's dismissal or resignation from the school district. This notification must be submitted within 30 days after the dismissal or resignation and must include the Illinois Educator Identification Number (IEIN) of the license holder and a brief description of the misconduct alleged. The license holder must also be contemporaneously sent a copy of the notice by the superintendent. All correspondence, documentation, and other information so received by the regional superintendent of schools, the State Superintendent of Education, the State Board of Education, or the State Educator Preparation and Licensure Board under this subsection (e-5) is confidential and must not be disclosed to third parties, except (i) as necessary for the State Superintendent of Education or his or her designee to investigate and prosecute pursuant to Article 21B of this Code, (ii) pursuant to a court order, (iii) for disclosure to the license holder or his or her representative, or (iv) as otherwise provided in this Article and provided that any such information admitted into evidence in a hearing is exempt from this confidentiality and non-disclosure requirement. Except for an act of willful or wanton misconduct, any superintendent who provides notification as required in this subsection (e-5) shall have immunity from any liability, whether civil or criminal or that otherwise might result by reason of such action.

(f) After January 1, 1990 the provisions of this Section shall apply to all employees of persons or firms holding contracts with any school district including, but not limited to, food service workers, school bus drivers and other transportation employees, who have direct, daily contact with the pupils of any school in such district. For purposes of criminal history records checks and checks of the Statewide Sex Offender Database on employees of persons or firms holding contracts with more than one school district and assigned to more than one school district, the regional superintendent of the educational service region in which the contracting school districts are located may, at the request of any such school district, be responsible for receiving the authorization for a criminal history records check prepared by each such employee and submitting the same to the Illinois State Police and for conducting a check of the Statewide Sex Offender Database for each employee. Any information concerning the record of conviction and identification as a sex offender of any such employee obtained by the regional superintendent shall be promptly reported to the president of the appropriate school board or school boards.

(f-5) Upon request of a school or school district, any information obtained by a school district pursuant to subsection (f) of this Section within the last year must be made available to the requesting school or school district.

(g) Prior to the commencement of any student teaching experience or required internship (which is referred to as student teaching in this Section) in the public schools, a student teacher is required to authorize a fingerprint-based criminal history records check. Authorization for and payment of the costs of the check must be furnished by the student teacher to the school district where the student teaching is to be completed. Upon receipt of this authorization and payment, the school district shall submit the student teacher's name, sex, race, date of birth, social security number, fingerprint images, and other identifiers, as prescribed by the Illinois State Police, to the Illinois State Police. The Illinois State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the school board for the school district that requested the check. The Illinois State Police shall charge the school district a fee for conducting the check, which fee must not exceed the cost of the inquiry and must be deposited into the State Police

Services Fund. The school district shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, and of the Statewide Murderer and Violent Offender Against Youth Database, as authorized by the Murderer and Violent Offender Against Youth Registration Act, for each student teacher. No school board may knowingly allow a person to student teach for whom a criminal history records check, a Statewide Sex Offender Database check, and a Statewide Murderer and Violent Offender Against Youth Database check have not been completed and reviewed by the district.

A copy of the record of convictions obtained from the Illinois State Police must be provided to the student teacher. Any information concerning the record of convictions obtained by the president of the school board is confidential and may only be transmitted to the superintendent of the school district or his or her designee, the State Superintendent of Education, the State Educator Preparation and Licensure Board, or, for clarification purposes, the Illinois State Police or the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database. Any unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

No school board shall knowingly allow a person to student teach who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to subsection (c) of Section 21B-80 of this Code, except as provided under subsection (b) of Section 21B-80. Further, no school board shall allow a person to student teach if he or she has been found to be the perpetrator of sexual or physical abuse of a minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. Each school board must consider the status of a person to student teach who has been issued an indicated finding of abuse or neglect of a child by the Department of Children and Family Services under the Abused and Neglected Child Reporting Act or by a child welfare agency of another jurisdiction.

Sec. 34-18.5. Criminal history records checks and checks of the Statewide Sex Offender Database and Statewide Murderer and Violent Offender Against Youth Database.

(a) Licensed and nonlicensed applicants for employment with the school district are required as a condition of employment to authorize a fingerprint-based criminal history records check to determine if such applicants have been convicted of any disqualifying, enumerated criminal or drug offense in subsection (c) of this Section or have been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State. Authorization for the check shall be furnished by the applicant to the school district, except that if the applicant is a substitute teacher seeking employment in more than one school district, or a teacher seeking concurrent part-time employment positions with more than one school district (as a reading specialist, special education teacher or otherwise), or an educational support personnel employee seeking employment positions with more than one district, any such district may require the applicant to furnish authorization for the check to the regional superintendent of the educational service region in which are located the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee. Upon receipt of this authorization, the school district or the appropriate regional superintendent, as the case may be, shall submit the applicant's name, sex, race, date of birth, social security number, fingerprint images, and other identifiers, as prescribed by the Illinois State Police, to the Illinois State Police. The regional superintendent submitting the requisite information to the Illinois State Police shall promptly notify the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee that the check of the applicant has been requested. The Illinois State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the school board for the school district that requested the check, or to the regional superintendent who requested the check. The Illinois State Police shall charge the school district or the appropriate regional superintendent a fee for conducting such check, which fee shall be deposited in the State Police Services Fund and shall not exceed the cost of the inquiry; and the applicant shall not be charged a fee for such check by the school district or by the regional superintendent. Subject to

appropriations for these purposes, the State Superintendent of Education shall reimburse the school district and regional superintendent for fees paid to obtain criminal history records checks under this Section.

(a-5) The school district or regional superintendent shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, for each applicant. The check of the Statewide Sex Offender Database must be conducted by the school district or regional superintendent once for every 5 years that an applicant remains employed by the school district.

(a-6) The school district or regional superintendent shall further perform a check of the Statewide Murderer and Violent Offender Against Youth Database, as authorized by the Murderer and Violent Offender Against Youth Community Notification Law, for each applicant. The check of the Murderer and Violent Offender Against Youth Database must be conducted by the school district or regional superintendent once for every 5 years that an applicant remains employed by the school district.

(b) Any information concerning the record of convictions obtained by the president of the board of education or the regional superintendent shall be confidential and may only be transmitted to the general superintendent of the school district or his designee, the appropriate regional superintendent if the check was requested by the board of education for the school district, the presidents of the appropriate board of education or school boards if the check was requested from the Illinois State Police by the regional superintendent, the State Board of Education and the school district as authorized under subsection (b-5), the State Superintendent of Education, the State Educator Preparation and Licensure Board or any other person necessary to the decision of hiring the applicant for employment. A copy of the record of convictions obtained from the Illinois State Police shall be provided to the applicant for employment. Upon the check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database, the school district or regional superintendent shall notify an applicant as to whether or not the applicant has been identified in the Database. If a check of an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one school district was requested by the regional superintendent, and the Illinois State Police upon a check ascertains that the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and so notifies the regional superintendent and if the regional superintendent upon a check ascertains that the applicant has not been identified in the Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database, then the regional superintendent shall issue to the applicant a certificate evidencing that as of the date specified by the Illinois State Police the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and evidencing that as of the date that the regional superintendent conducted a check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database, the applicant has not been identified in the Database. The school board of any school district may rely on the certificate issued by any regional superintendent to that substitute teacher, concurrent part-time teacher, or concurrent educational support personnel employee or may initiate its own criminal history records check of the applicant through the Illinois State Police and its own check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database as provided in this Section. Any unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

(b-5) If a criminal history records check or check of the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database is performed by a regional superintendent for an applicant seeking employment as a substitute teacher with the school district, the regional superintendent may disclose to the State Board of Education whether the applicant has been issued a certificate under subsection (b) based on those checks. If the State Board receives information on an applicant under this subsection, then it must indicate in the Educator Licensure Information System for a 90-day period that the applicant has been issued or has not been issued a certificate.

(c) The board of education shall not knowingly employ a person who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to Section 21B-80 of this Code, except as provided under subsection (b) of 21B-80. Further, the board of education shall not

knowingly employ a person who has been found to be the perpetrator of sexual or physical abuse of any minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. As a condition of employment, the board of education must consider the status of a person who has been issued an indicated finding of abuse or neglect of a child by the Department of Children and Family Services under the Abused and Neglected Child Reporting Act or by a child welfare agency of another jurisdiction.

(d) The board of education shall not knowingly employ a person for whom a criminal history records check and a Statewide Sex Offender Database check have not been initiated.

(e) Within 10 days after the general superintendent of schools, a regional office of education, or an entity that provides background checks of license holders to public schools receives information of a pending criminal charge against a license holder for an offense set forth in Section 21B-80 of this Code, the superintendent, regional office of education, or entity must notify the State Superintendent of Education of the pending criminal charge.

No later than 15 business days after receipt of a record of conviction or of checking the Statewide Murderer and Violent Offender Against Youth Database or the Statewide Sex Offender Database and finding a registration, the general superintendent of schools or the applicable regional superintendent shall, in writing, notify the State Superintendent of Education of any license holder who has been convicted of a crime set forth in Section 21B-80 of this Code. Upon receipt of the record of a conviction of or a finding of child abuse by a holder of any license issued pursuant to Article 21B or Section 34-8.1 ~~or 34-83~~ of this Code, the State Superintendent of Education may initiate licensure suspension and revocation proceedings as authorized by law. If the receipt of the record of conviction or finding of child abuse is received within 6 months after the initial grant of or renewal of a license, the State Superintendent of Education may rescind the license holder's license.

(e-5) The general superintendent of schools shall, in writing, notify the State Superintendent of Education of any license holder whom he or she has reasonable cause to believe has committed an intentional act of abuse or neglect with the result of making a child an abused child or a neglected child, as defined in Section 3 of the Abused and Neglected Child Reporting Act, and that act resulted in the license holder's dismissal or resignation from the school district and must include the Illinois Educator Identification Number (IEIN) of the license holder and a brief description of the misconduct alleged. This notification must be submitted within 30 days after the dismissal or resignation. The license holder must also be contemporaneously sent a copy of the notice by the superintendent. All correspondence, documentation, and other information so received by the State Superintendent of Education, the State Board of Education, or the State Educator Preparation and Licensure Board under this subsection (e-5) is confidential and must not be disclosed to third parties, except (i) as necessary for the State Superintendent of Education or his or her designee to investigate and prosecute pursuant to Article 21B of this Code, (ii) pursuant to a court order, (iii) for disclosure to the license holder or his or her representative, or (iv) as otherwise provided in this Article and provided that any such information admitted into evidence in a hearing is exempt from this confidentiality and non-disclosure requirement. Except for an act of willful or wanton misconduct, any superintendent who provides notification as required in this subsection (e-5) shall have immunity from any liability, whether civil or criminal or that otherwise might result by reason of such action.

(f) After March 19, 1990, the provisions of this Section shall apply to all employees of persons or firms holding contracts with any school district including, but not limited to, food service workers, school bus drivers and other transportation employees, who have direct, daily contact with the pupils of any school in such district. For purposes of criminal history records checks and checks of the Statewide Sex Offender Database on employees of persons or firms holding contracts with more than one school district and assigned to more than one school district, the regional superintendent of the educational service region in which the contracting school districts are located may, at the request of any such school district, be responsible for receiving the authorization for a criminal history records check prepared by each such employee and submitting the same to the Illinois State Police and for conducting a check of the Statewide Sex Offender Database for each employee. Any information concerning the record of conviction and identification as a sex offender of any such employee obtained by the regional superintendent shall be promptly reported to the president of the appropriate school board or school boards.

(f-5) Upon request of a school or school district, any information obtained by the school district pursuant to subsection (f) of this Section within the last year must be made available to the requesting school or school district.

(g) Prior to the commencement of any student teaching experience or required internship (which is referred to as student teaching in this Section) in the public schools, a student teacher is required to authorize a fingerprint-based criminal history records check. Authorization for and payment of the costs of the check must be furnished by the student teacher to the school district. Upon receipt of this authorization and payment, the school district shall submit the student teacher's name, sex, race, date of birth, social security number, fingerprint images, and other identifiers, as prescribed by the Illinois State Police, to the Illinois State Police. The Illinois State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the board. The Illinois State Police shall charge the school district a fee for conducting the check, which fee must not exceed the cost of the inquiry and must be deposited into the State Police Services Fund. The school district shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, and of the Statewide Murderer and Violent Offender Against Youth Database, as authorized by the Murderer and Violent Offender Against Youth Registration Act, for each student teacher. The board may not knowingly allow a person to student teach for whom a criminal history records check, a Statewide Sex Offender Database check, and a Statewide Murderer and Violent Offender Against Youth Database check have not been completed and reviewed by the district.

A copy of the record of convictions obtained from the Illinois State Police must be provided to the student teacher. Any information concerning the record of convictions obtained by the president of the board is confidential and may only be transmitted to the general superintendent of schools or his or her designee, the State Superintendent of Education, the State Educator Preparation and Licensure Board, or, for clarification purposes, the Illinois State Police or the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database. Any unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

The board may not knowingly allow a person to student teach who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to subsection (c) of Section 21B-80 of this Code, except as provided under subsection (b) of Section 21B-80. Further, the board may not allow a person to student teach if he or she has been found to be the perpetrator of sexual or physical abuse of a minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. The board must consider the status of a person to student teach who has been issued an indicated finding of abuse or neglect of a child by the Department of Children and Family Services under the Abused and Neglected Child Reporting Act or by a child welfare agency of another jurisdiction.

(l) A recipient who fails to fulfill the teaching obligations of the agreement entered into pursuant to subsection (i) of this Section shall repay the amount of scholarship assistance awarded to them under this Section within 10 years.

(m) Annually, at a time determined by the Commission in consultation with the Foundation, the Foundation shall submit a report to assist the Commission in monitoring the Foundation's performance of grant activities. The report shall describe the following:

The Agency is hereby authorized to take all action necessary or appropriate to secure to the State the benefits of such federal Acts, provided that the Agency shall transmit to the United States without change any standards adopted by the Pollution Control Board pursuant to Section 5(c) of this Act. This subsection (l) of Section 4 shall not be construed to bar or prohibit the Environmental Protection Trust Fund Commission from accepting, receiving, and administering on behalf of the State any grants, gifts, loans or other funds for which the Commission is eligible pursuant to the Environmental Protection Trust Fund Act. The Agency is hereby designated as the State agency for all purposes of administering the requirements of Section 313 of the federal Emergency Planning and Community Right-to-Know Act of 1986.

Any municipality, sanitary district, or other political subdivision, or any Agency of the State or interstate Agency, which makes application for loans or grants under such federal Acts shall notify the Agency of such application; the Agency may participate in proceedings under such federal Acts.

(m) The Agency shall have authority, consistent with Section 5(c) and other provisions of this Act, and for purposes of Section 303(e) of the Federal Water Pollution Control Act, as now or hereafter amended, to engage in planning processes and activities and to develop plans in cooperation with units of local government, state agencies and officers, and other appropriate persons in connection with the jurisdiction or duties of each such unit, agency, officer or person. Public hearings shall be held on the planning process, at which any person shall be permitted to appear and be heard, pursuant to procedural regulations promulgated by the Agency.

The Agency may enter into formal working agreements with other departments or agencies of state government under which all or portions of this authority may be delegated to the cooperating department or agency.

(p) Except as provided in Section 17.7, the Agency shall have the duty to analyze samples as required from each public water supply to determine compliance with the contaminant levels specified by the Pollution Control Board. The maximum number of samples which the Agency shall be required to analyze for microbiological quality shall be 6 per month, but the Agency may, at its option, analyze a larger number each month for any supply. Results of sample analyses for additional required bacteriological testing, turbidity, residual chlorine and radionuclides are to be provided to the Agency in accordance with Section 19. Owners of water supplies may enter into agreements with the Agency to provide for reduced Agency participation in sample analyses.

(q) The Agency shall have the authority to provide notice to any person who may be liable pursuant to Section 22.2(f) of this Act for a release or a substantial threat of a release of a hazardous substance or pesticide. Such notice shall include the identified response action and an opportunity for such person to perform the response action.

(r) The Agency may enter into written delegation agreements with any unit of local government under which it may delegate all or portions of its inspecting, investigating and enforcement functions. Such delegation agreements shall require that work performed thereunder be in accordance with Agency criteria and subject to Agency review. Notwithstanding any other provision of law to the contrary, no unit of local government shall be liable for any injury resulting from the exercise of its authority pursuant to such a delegation agreement unless the injury is proximately caused by the willful and wanton negligence of an agent or employee of the unit of local government, and any policy of insurance coverage issued to a unit of local government may provide for the denial of liability and the nonpayment of claims based upon injuries for which the unit of local government is not liable pursuant to this subsection (r).

(s) The Agency shall have authority to take whatever preventive or corrective action is necessary or appropriate, including but not limited to expenditure of monies appropriated from the Build Illinois Bond Fund ~~and the Build Illinois Purposes Fund~~ for removal or remedial action, whenever any hazardous substance or pesticide is released or there is a substantial threat of such a release into the environment. The State, the Director, and any State employee shall be indemnified for any damages or injury arising out of or resulting from any action taken under this subsection. The Director of the Agency is authorized to enter into such contracts and agreements as are necessary to carry out the Agency's duties under this subsection.

(x)(1) The Agency shall have authority to distribute grants, subject to appropriation by the General Assembly, to units of local government for financing and construction of public water supply facilities. With respect to all monies appropriated from the Build Illinois Bond Fund ~~or the Build Illinois Purposes Fund~~ for public water supply grants, such grants shall be made in accordance with rules promulgated by the Agency. Such rules shall include a requirement for a local match of 30% of the total project cost for projects funded through such grants.

(2) The Agency shall not terminate a grant to a unit of local government for the financing and construction of public water supply facilities unless and until the Agency adopts rules that set forth precise and complete standards, pursuant to Section 5-20 of the Illinois Administrative Procedure Act, for the termination of such grants. The Agency shall not make determinations on whether specific grant conditions are necessary to ensure the integrity of a project or on whether subagreements shall be awarded, with respect to grants for the financing and construction of public water supply facilities, unless and until the Agency adopts rules that set forth precise and complete standards, pursuant to Section 5-20 of the Illinois Administrative Procedure Act, for making such determinations. The Agency shall not issue a stop-work order in relation to such grants unless and until the Agency adopts precise and complete standards, pursuant to Section 5-20 of the Illinois Administrative Procedure Act, for determining whether to issue a stop-work order.

(y) The Agency shall have authority to release any person from further responsibility for preventive or corrective action under this Act following successful completion of preventive or corrective action undertaken by such person upon written request by the person.

(z) To the extent permitted by any applicable federal law or regulation, for all work performed for State construction projects which are funded in whole or in part by a capital infrastructure bill enacted by the 96th General Assembly by sums appropriated to the Environmental Protection Agency, at least 50% of the total labor hours must be performed by actual residents of the State of Illinois. For purposes of this

subsection, "actual residents of the State of Illinois" means persons domiciled in the State of Illinois. The Department of Labor shall promulgate rules providing for the enforcement of this subsection.

(aa) The Agency may adopt rules requiring the electronic submission of any information required to be submitted to the Agency pursuant to any State or federal law or regulation or any court or Board order. Any rules adopted under this subsection (aa) must include, but are not limited to, identification of the information to be submitted electronically.

(415 ILCS 5/9.9)

Sec. 9.9. Nitrogen oxides trading system.

(a) The General Assembly finds:

(1) That USEPA has issued a Final Rule published in the Federal Register on October 27, 1998, entitled "Finding of Significant Contribution and Rulemaking for Certain States in the Ozone Transport Assessment Group Region for Purposes of Reducing Regional Transport of Ozone", hereinafter referred to as the "NOx SIP Call", compliance with which will require reducing emissions of nitrogen oxides ("NOx");

(2) That reducing emissions of NOx in the State helps the State to meet the national ambient air quality standard for ozone;

(3) That emissions trading is a cost-effective means of obtaining reductions of NOx emissions.

(b) The Agency shall propose and the Board shall adopt regulations to implement an interstate NOx trading program (hereinafter referred to as the "NOx Trading Program") as provided for in 40 CFR Part 96, including incorporation by reference of appropriate provisions of 40 CFR Part 96 and regulations to address 40 CFR Section 96.4(b), Section 96.55(c), Subpart E, and Subpart I. In addition, the Agency shall propose and the Board shall adopt regulations to implement NOx emission reduction programs for cement kilns and stationary internal combustion engines.

(c) Allocations of NOx allowances to large electric generating units ("EGUs") and large non-electric generating units ("non-EGUs"), as defined by 40 CFR Part 96.4(a), shall not exceed the State's trading budget for those source categories to be included in the State Implementation Plan for NOx.

(d) In adopting regulations to implement the NOx Trading Program, the Board shall:

(1) assure that the economic impact and technical feasibility of NOx emissions reductions under the NOx Trading Program are considered relative to the traditional regulatory control requirements in the State for EGUs and non-EGUs;

(2) provide that emission units, as defined in Section 39.5(1) of this Act, may opt into the NOx Trading Program;

(3) provide for voluntary reductions of NOx emissions from emission units, as defined in Section 39.5(1) of this Act, not otherwise included under paragraph (c) or (d)(2) of this Section to provide additional allowances to EGUs and non-EGUs to be allocated by the Agency. The regulations shall further provide that such voluntary reductions are verifiable, quantifiable, permanent, and federally enforceable;

(4) provide that the Agency allocate to non-EGUs allowances that are designated in the rule, unless the Agency has been directed to transfer the allocations to another unit subject to the requirements of the NOx Trading Program, and that upon shutdown of a non-EGU, the unit may transfer or sell the NOx allowances that are allocated to such unit;

(5) provide that the Agency shall set aside annually a number of allowances, not to exceed 5% of the total EGU trading budget, to be made available to new EGUs; and

(6) provide that those EGUs that commence commercial operation, as defined in 40 CFR Section 96.2, at a time that is more than half way through the control period in 2003 shall return to the Agency any allowances that were issued to it by the Agency and were not used for compliance in 2004.

(d-5) The Agency may sell NOx allowances to sources in Illinois that are subject to 35 Ill. Adm. Code 217, either Subpart U or W, as follows:

(1) any unearned Early Reduction Credits set aside for non-EGUs under 35 Ill. Adm. Code 217, Subpart U, but only to those sources that make qualifying early reductions of NOx in 2003 pursuant to 35 Ill. Adm. Code 217 for which the source did not receive an allocation thereunder. If the Agency receives requests to purchase more ERCs than are available for sale, allowances shall be offered for sale to qualifying sources on a pro-rata basis;

(2) any remaining Early Reduction Credits allocated under 35 Ill. Adm. Code 217, Subpart U or W, that could not be allocated on a pro-rata, whole allowance basis, but only to those sources that made qualifying early reductions of NOx in 2003 pursuant to 35 Ill. Adm. Code 217 for which the source did not receive an allocation;

(3) any allowances under 35 Ill. Adm. Code 217, Subpart W, that remain after each 3-year allocation period that could not be allocated on a pro-rata, whole allowance basis pursuant to the provisions of Subpart W; and

(4) any allowances requested from the New Source Set Aside for those sources that commenced operation, as defined in 40 CFR Section 96.2, on or after January 1, 2004.

(d-10) The selling price for ERC allowances shall be 70% of the market price index for 2005 NOx allowances, determined by the Agency as follows:

(1) using the mean of 2 or more published market price indexes for the 2005 NOx allowances as of October 6, 2003; or

(2) if there are not 2 published market price indexes for 2005 NOx allowances as of October 6, 2003, the Agency may use any reasonable indication of market price.

(e) The Agency may adopt procedural rules, as necessary, to implement the regulations promulgated by the Board pursuant to subsections (b) and (d) and to implement subsections (d-5), (d-10), (i), and (j) of this Section.

(f) Notwithstanding any provisions in subparts T, U, and W of Section 217 of Title 35 of the Illinois Administrative Code to the contrary, compliance with the regulations promulgated by the Board pursuant to subsections (b) and (d) of this Section is required by May 31, 2004.

(g) To the extent that a court of competent jurisdiction finds a provision of 40 CFR Part 96 invalid, the corresponding Illinois provision shall be stayed until such provision of 40 CFR Part 96 is found to be valid or is re-promulgated. To the extent that USEPA or any court of competent jurisdiction stays the applicability of any provision of the NOx SIP Call to any person or circumstance relating to Illinois, during the period of that stay, the effectiveness of the corresponding Illinois provision shall be stayed. To the extent that the invalidity of the particular requirement or application does not affect other provisions or applications of the NOx SIP Call pursuant to 40 CFR 51.121 or the NOx trading program pursuant to 40 CFR Part 96 or 40 CFR Part 97, this Section, and rules or regulations promulgated hereunder, will be given effect without the invalid provisions or applications.

(h) Notwithstanding any other provision of this Act, any source or other authorized person that participates in the NOx Trading Program shall be eligible to exchange NOx allowances with other sources in accordance with this Section and with regulations promulgated by the Board or the Agency.

(i) ~~(Blank). There is hereby created within the State Treasury an interest bearing special fund to be known as the NOx Trading System Fund. Moneys generated from the sale of NOx allowances from the New Source Set Aside or the sale of allowances pursuant to subsection (d-5) of this Section shall be deposited into the Fund. This Fund shall be used and administered by the Agency for the purposes stated below:~~

~~(1) To accept funds from persons who purchase NOx allowances from the New Source Set Aside from the Agency;~~

~~(2) To disburse the proceeds of the sale of the NOx allowances from the New Source Set Aside, to the extent that proceeds remain after the Agency has recouped the reasonable costs incurred by the Agency in the administration of the NOx SIP Call Program, pro rata to the owners or operators of the EGUs that received allowances from the Agency but not from the Agency's New Source Set Aside, in accordance with regulations that may be promulgated by the Agency; and~~

~~(3) To finance the reasonable costs incurred by the Agency in the administration of the NOx SIP Call Program.~~

(j) Moneys generated from the sale of early reduction credits shall be deposited into the Clean Air Act Permit Fund created pursuant to Section 39.5(18)(d) of this Act, and the proceeds shall be used and administered by the Agency to finance the costs associated with the Clean Air Act Permit Program.

(h) Fines; distribution. All fines and all penalties collected under this Section shall be deposited in the State Treasury and shall be distributed as follows: (i) \$50 for the first conviction and \$150 for a second or subsequent conviction within any 12 month period under this Section shall be deposited into the State's General Revenue Fund; (ii) \$20 for the first conviction and \$262.50 for a second or subsequent conviction within any 12 month period under this Section shall be distributed to the law enforcement agency that issued the citation; and (iii) \$20 for the first conviction and \$87.50 for a second or subsequent conviction within any 12 month period under this Section shall be deposited into the Vehicle Inspection Trucking Environmental and Education Fund.

~~(i) (Blank). The Trucking Environmental and Education Fund is created as a special fund in the State Treasury. All money deposited into the Trucking Environmental and Education Fund shall be paid, subject to appropriation by the General Assembly, to the Illinois Environmental Protection Agency for the purpose of educating the trucking industry on air pollution and preventative measures specifically related to idling. Any interest earned on deposits into the Fund shall remain in the Fund and be used for the purposes set forth in this subsection. Notwithstanding any other law to the contrary, the Fund is not subject to administrative charges or charge backs that would in any way transfer moneys from the Fund into any other fund of the State.~~

(j) Notwithstanding any other provision of this Section, a person who operates a motor vehicle with a gross vehicle weight rating of 8,000 pounds or more operating on diesel fuel on property that (i) offers paid parking services to vehicle owners, (ii) does not involve fuel dispensing, and (iii) is located in an affected area within a county of over 3 million residents but outside of a municipality of over 2 million residents may not cause or allow the motor vehicle, when it is not in motion, to idle for more than a total of 10 minutes

within any 60-minute period under any circumstances if the vehicle is within 200 feet of a residential area. This Section may be enforced by either the law enforcement agency having jurisdiction over the residential area or the law enforcement agency having jurisdiction over the property on which the violation took place. This subsection does not apply to:

- (1) school buses;
- (2) waste hauling vehicles;
- (3) facilities operated by the Department of Transportation;
- (4) vehicles owned by a public utility and operated to power equipment necessary in the restoration, repair, modification, or installation of a utility service; or
- (5) ambulances.

Section 20-90. The Unified Code of Corrections is amended by changing Section 5-9-1.8 as follows:  
(730 ILCS 5/5-9-1.8)

Sec. 5-9-1.8. Child pornography fines. Beginning July 1, 2006, 100% of the fines in excess of \$10,000 collected for violations of Section 11-20.1 of the Criminal Code of 1961 or the Criminal Code of 2012 shall be deposited into the Child Abuse Prevention Fund ~~that is created in the State Treasury~~. Moneys in the Fund resulting from the fines shall be for the use of the Department of Children and Family Services for grants to private entities giving treatment and counseling to victims of child sexual abuse.

~~Notwithstanding any other provision of law, in addition to any other transfers that may be provided by law, on July 1, 2006, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer the remaining balance from the Child Sexual Abuse Fund into the Child Abuse Prevention Fund. Upon completion of the transfer, the Child Sexual Abuse Fund is dissolved, and any future deposits due to that Fund and any outstanding obligations or liabilities of the Fund pass to the Child Abuse Prevention Fund.~~

Section 20-95. The Franchise Tax and License Fee Amnesty Act of 2007 is amended by changing Section 5-10 as follows:

(805 ILCS 8/5-10)

Sec. 5-10. Amnesty program. The Secretary shall establish an amnesty program for all taxpayers owing any franchise tax or license fee imposed by Article XV of the Business Corporation Act of 1983. The amnesty program shall be for a period from February 1, 2008 through March 15, 2008. The amnesty program shall also be for a period between October 1, 2019 and November 15, 2019, and shall apply to franchise tax or license fee liabilities for any tax period ending after March 15, 2008 and on or before June 30, 2019. The amnesty program shall provide that, upon payment by a taxpayer of all franchise taxes and license fees due from that taxpayer to the State of Illinois for any taxable period, the Secretary shall abate and not seek to collect any interest or penalties that may be applicable, and the Secretary shall not seek civil or criminal prosecution for any taxpayer for the period of time for which amnesty has been granted to the taxpayer. Failure to pay all taxes due to the State for a taxable period shall not invalidate any amnesty granted under this Act with respect to the taxes paid pursuant to the amnesty program. Amnesty shall be granted only if all amnesty conditions are satisfied by the taxpayer. Amnesty shall not be granted to taxpayers who are a party to any criminal investigation or to any civil or criminal litigation that is pending in any circuit court or appellate court or the Supreme Court of this State for nonpayment, delinquency, or fraud in relation to any franchise tax or license fee imposed by Article XV of the Business Corporation Act of 1983. Voluntary payments made under this Act shall be made by check, guaranteed remittance, or ACH debit. The Secretary shall adopt rules as necessary to implement the provisions of this Act. Except as otherwise provided in this Section, all money collected under this Act that would otherwise be deposited into the General Revenue Fund shall be deposited into the General Revenue Fund. Two percent of all money collected under this Act shall be deposited by the State Treasurer into the Department of Business Services Special Operations Fund and, subject to appropriation, shall be used by the Secretary to cover costs associated with the administration of this Act.

Section 20-100. The Consumer Fraud and Deceptive Business Practices Act is amended by changing Section 7 as follows:

[April 8, 2022]

(815 ILCS 505/7) (from Ch. 121 1/2, par. 267)

Sec. 7. Injunctive relief; restitution; and civil penalties.

(a) Whenever the Attorney General or a State's Attorney has reason to believe that any person is using, has used, or is about to use any method, act or practice declared by this Act to be unlawful, and that proceedings would be in the public interest, he or she may bring an action in the name of the People of the State against such person to restrain by preliminary or permanent injunction the use of such method, act or practice. The Court, in its discretion, may exercise all powers necessary, including but not limited to: injunction; revocation, forfeiture or suspension of any license, charter, franchise, certificate or other evidence of authority of any person to do business in this State; appointment of a receiver; dissolution of domestic corporations or association suspension or termination of the right of foreign corporations or associations to do business in this State; and restitution.

(b) In addition to the remedies provided herein, the Attorney General or State's Attorney may request and the Court may impose a civil penalty in a sum not to exceed \$50,000 against any person found by the Court to have engaged in any method, act or practice declared unlawful under this Act. In the event the court finds the method, act or practice to have been entered into with the intent to defraud, the court has the authority to impose a civil penalty in a sum not to exceed \$50,000 per violation.

(c) In addition to any other civil penalty provided in this Section, if a person is found by the court to have engaged in any method, act, or practice declared unlawful under this Act, and the violation was committed against a person 65 years of age or older, the court may impose an additional civil penalty not to exceed \$10,000 for each violation.

A civil penalty imposed under this subsection (c) shall be paid to the State Treasurer who shall deposit the money in the State treasury in a special fund designated the Department on Aging State Projects Elderly Victim Fund. The Treasurer shall deposit such moneys into the Fund monthly. All of the moneys deposited into the Fund shall be appropriated to the Department on Aging for grants to senior centers in Illinois.

An award of restitution under subsection (a) has priority over a civil penalty imposed by the court under this subsection.

In determining whether to impose a civil penalty under this subsection and the amount of any penalty, the court shall consider the following:

(1) Whether the defendant's conduct was in willful disregard of the rights of the person 65 years of age or older.

(2) Whether the defendant knew or should have known that the defendant's conduct was directed to a person 65 years of age or older.

(3) Whether the person 65 years of age or older was substantially more vulnerable to the defendant's conduct because of age, poor health, infirmity, impaired understanding, restricted mobility, or disability, than other persons.

(4) Any other factors the court deems appropriate.

(d) This Section applies if: (i) a court orders a party to make payments to the Attorney General and the payments are to be used for the operations of the Office of the Attorney General or (ii) a party agrees, in an Assurance of Voluntary Compliance under this Act, to make payments to the Attorney General for the operations of the Office of the Attorney General.

(e) Moneys paid under any of the conditions described in subsection (d) shall be deposited into the Attorney General Court Ordered and Voluntary Compliance Payment Projects Fund, which is created as a special fund in the State Treasury. Moneys in the Fund shall be used, subject to appropriation, for the performance of any function pertaining to the exercise of the duties of the Attorney General including but not limited to enforcement of any law of this State and conducting public education programs; however, any moneys in the Fund that are required by the court or by an agreement to be used for a particular purpose shall be used for that purpose.

#### ARTICLE 30. COMMUNITY CARE PROGRAM

Section 30-5. The Illinois Act on the Aging is amended by changing Section 4.02 as follows:

(20 ILCS 105/4.02) (from Ch. 23, par. 6104.02)

Sec. 4.02. Community Care Program. The Department shall establish a program of services to prevent unnecessary institutionalization of persons age 60 and older in need of long term care or who are established as persons who suffer from Alzheimer's disease or a related disorder under the Alzheimer's Disease Assistance Act, thereby enabling them to remain in their own homes or in other living arrangements. Such preventive services, which may be coordinated with other programs for the aged and monitored by area agencies on aging in cooperation with the Department, may include, but are not limited to, any or all of the following:

- (a) (blank);
- (b) (blank);
- (c) home care aide services;
- (d) personal assistant services;
- (e) adult day services;
- (f) home-delivered meals;
- (g) education in self-care;
- (h) personal care services;
- (i) adult day health services;
- (j) habilitation services;
- (k) respite care;
- (k-5) community reintegration services;
- (k-6) flexible senior services;
- (k-7) medication management;
- (k-8) emergency home response;
- (l) other nonmedical social services that may enable the person to become self-supporting; or
- (m) clearinghouse for information provided by senior citizen home owners who want to rent rooms to or share living space with other senior citizens.

The Department shall establish eligibility standards for such services. In determining the amount and nature of services for which a person may qualify, consideration shall not be given to the value of cash, property or other assets held in the name of the person's spouse pursuant to a written agreement dividing marital property into equal but separate shares or pursuant to a transfer of the person's interest in a home to his spouse, provided that the spouse's share of the marital property is not made available to the person seeking such services.

Beginning January 1, 2008, the Department shall require as a condition of eligibility that all new financially eligible applicants apply for and enroll in medical assistance under Article V of the Illinois Public Aid Code in accordance with rules promulgated by the Department.

The Department shall, in conjunction with the Department of Public Aid (now Department of Healthcare and Family Services), seek appropriate amendments under Sections 1915 and 1924 of the Social Security Act. The purpose of the amendments shall be to extend eligibility for home and community based services under Sections 1915 and 1924 of the Social Security Act to persons who transfer to or for the benefit of a spouse those amounts of income and resources allowed under Section 1924 of the Social Security Act. Subject to the approval of such amendments, the Department shall extend the provisions of Section 5-4 of the Illinois Public Aid Code to persons who, but for the provision of home or community-based services, would require the level of care provided in an institution, as is provided for in federal law. Those persons no longer found to be eligible for receiving noninstitutional services due to changes in the eligibility criteria shall be given 45 days notice prior to actual termination. Those persons receiving notice of termination may contact the Department and request the determination be appealed at any time during the 45 day notice period. The target population identified for the purposes of this Section are persons age 60 and older with an identified service need. Priority shall be given to those who are at imminent risk of institutionalization. The services shall be provided to eligible persons age 60 and older to the extent that the cost of the services together with the other personal maintenance expenses of the persons are reasonably related to the standards established for care in a group facility appropriate to the person's condition. These non-institutional services, pilot projects or experimental facilities may be provided as part of or in addition to those authorized by federal law or those funded and administered by the Department of Human Services. The Departments of Human Services, Healthcare and Family Services, Public Health, Veterans' Affairs, and Commerce and Economic Opportunity and other appropriate agencies of State, federal and local governments shall cooperate with the Department on Aging in the establishment and development of the non-institutional services. The Department shall require an annual audit from all personal assistant and home care aide vendors contracting with the Department under this Section. The annual audit shall assure that each audited vendor's procedures are in compliance with Department's financial reporting guidelines requiring an administrative and employee wage and benefits cost split as defined in administrative rules. The audit is a public record under the Freedom of Information Act. The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department of Healthcare and Family Services, to effect the following: (1) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (2) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped. On and after July 1, 1996, all nursing home prescreenings for individuals 60 years of age or older shall be conducted by the Department.

As part of the Department on Aging's routine training of case managers and case manager supervisors, the Department may include information on family futures planning for persons who are age 60 or older and who are caregivers of their adult children with developmental disabilities. The content of the training shall be at the Department's discretion.

The Department is authorized to establish a system of recipient copayment for services provided under this Section, such copayment to be based upon the recipient's ability to pay but in no case to exceed the actual cost of the services provided. Additionally, any portion of a person's income which is equal to or less than the federal poverty standard shall not be considered by the Department in determining the copayment. The level of such copayment shall be adjusted whenever necessary to reflect any change in the officially designated federal poverty standard.

The Department, or the Department's authorized representative, may recover the amount of moneys expended for services provided to or in behalf of a person under this Section by a claim against the person's estate or against the estate of the person's surviving spouse, but no recovery may be had until after the death of the surviving spouse, if any, and then only at such time when there is no surviving child who is under age 21 or blind or who has a permanent and total disability. This paragraph, however, shall not bar recovery, at the death of the person, of moneys for services provided to the person or in behalf of the person under this Section to which the person was not entitled; provided that such recovery shall not be enforced against any real estate while it is occupied as a homestead by the surviving spouse or other dependent, if no claims by other creditors have been filed against the estate, or, if such claims have been filed, they remain dormant for failure of prosecution or failure of the claimant to compel administration of the estate for the purpose of payment. This paragraph shall not bar recovery from the estate of a spouse, under Sections 1915 and 1924

of the Social Security Act and Section 5-4 of the Illinois Public Aid Code, who precedes a person receiving services under this Section in death. All moneys for services paid to or in behalf of the person under this Section shall be claimed for recovery from the deceased spouse's estate. "Homestead", as used in this paragraph, means the dwelling house and contiguous real estate occupied by a surviving spouse or relative, as defined by the rules and regulations of the Department of Healthcare and Family Services, regardless of the value of the property.

The Department shall increase the effectiveness of the existing Community Care Program by:

(1) ensuring that in-home services included in the care plan are available on evenings and weekends;

(2) ensuring that care plans contain the services that eligible participants need based on the number of days in a month, not limited to specific blocks of time, as identified by the comprehensive assessment tool selected by the Department for use statewide, not to exceed the total monthly service cost maximum allowed for each service; the Department shall develop administrative rules to implement this item (2);

(3) ensuring that the participants have the right to choose the services contained in their care plan and to direct how those services are provided, based on administrative rules established by the Department;

(4) ensuring that the determination of need tool is accurate in determining the participants' level of need; to achieve this, the Department, in conjunction with the Older Adult Services Advisory Committee, shall institute a study of the relationship between the Determination of Need scores, level of need, service cost maximums, and the development and utilization of service plans no later than May 1, 2008; findings and recommendations shall be presented to the Governor and the General Assembly no later than January 1, 2009; recommendations shall include all needed changes to the service cost maximums schedule and additional covered services;

(5) ensuring that homemakers can provide personal care services that may or may not involve contact with clients, including but not limited to:

- (A) bathing;
- (B) grooming;
- (C) toileting;
- (D) nail care;
- (E) transferring;
- (F) respiratory services;
- (G) exercise; or
- (H) positioning;

(6) ensuring that homemaker program vendors are not restricted from hiring homemakers who are family members of clients or recommended by clients; the Department may not, by rule or policy, require homemakers who are family members of clients or recommended by clients to accept assignments in homes other than the client;

(7) ensuring that the State may access maximum federal matching funds by seeking approval for the Centers for Medicare and Medicaid Services for modifications to the State's home and community based services waiver and additional waiver opportunities, including applying for enrollment in the Balance Incentive Payment Program by May 1, 2013, in order to maximize federal matching funds; this shall include, but not be limited to, modification that reflects all changes in the Community Care Program services and all increases in the services cost maximum;

(8) ensuring that the determination of need tool accurately reflects the service needs of individuals with Alzheimer's disease and related dementia disorders;

(9) ensuring that services are authorized accurately and consistently for the Community Care Program (CCP); the Department shall implement a Service Authorization policy directive; the purpose shall be to ensure that eligibility and services are authorized accurately and consistently in the CCP program; the policy directive shall clarify service authorization guidelines to Care Coordination Units and Community Care Program providers no later than May 1, 2013;

(10) working in conjunction with Care Coordination Units, the Department of Healthcare and Family Services, the Department of Human Services, Community Care Program providers, and other stakeholders to make improvements to the Medicaid claiming processes and the Medicaid enrollment procedures or requirements as needed, including, but not limited to, specific policy changes or rules to improve the up-front enrollment of participants in the Medicaid program and specific policy changes

or rules to insure more prompt submission of bills to the federal government to secure maximum federal matching dollars as promptly as possible; the Department on Aging shall have at least 3 meetings with stakeholders by January 1, 2014 in order to address these improvements;

(11) requiring home care service providers to comply with the rounding of hours worked provisions under the federal Fair Labor Standards Act (FLSA) and as set forth in 29 CFR 785.48(b) by May 1, 2013;

(12) implementing any necessary policy changes or promulgating any rules, no later than January 1, 2014, to assist the Department of Healthcare and Family Services in moving as many participants as possible, consistent with federal regulations, into coordinated care plans if a care coordination plan that covers long term care is available in the recipient's area; and

(13) maintaining fiscal year 2014 rates at the same level established on January 1, 2013.

By January 1, 2009 or as soon after the end of the Cash and Counseling Demonstration Project as is practicable, the Department may, based on its evaluation of the demonstration project, promulgate rules concerning personal assistant services, to include, but need not be limited to, qualifications, employment screening, rights under fair labor standards, training, fiduciary agent, and supervision requirements. All applicants shall be subject to the provisions of the Health Care Worker Background Check Act.

The Department shall develop procedures to enhance availability of services on evenings, weekends, and on an emergency basis to meet the respite needs of caregivers. Procedures shall be developed to permit the utilization of services in successive blocks of 24 hours up to the monthly maximum established by the Department. Workers providing these services shall be appropriately trained.

Beginning on the effective date of this amendatory Act of 1991, no person may perform chore/housekeeping and home care aide services under a program authorized by this Section unless that person has been issued a certificate of pre-service to do so by his or her employing agency. Information gathered to effect such certification shall include (i) the person's name, (ii) the date the person was hired by his or her current employer, and (iii) the training, including dates and levels. Persons engaged in the program authorized by this Section before the effective date of this amendatory Act of 1991 shall be issued a certificate of all pre- and in-service training from his or her employer upon submitting the necessary information. The employing agency shall be required to retain records of all staff pre- and in-service training, and shall provide such records to the Department upon request and upon termination of the employer's contract with the Department. In addition, the employing agency is responsible for the issuance of certifications of in-service training completed to their employees.

The Department is required to develop a system to ensure that persons working as home care aides and personal assistants receive increases in their wages when the federal minimum wage is increased by requiring vendors to certify that they are meeting the federal minimum wage statute for home care aides and personal assistants. An employer that cannot ensure that the minimum wage increase is being given to home care aides and personal assistants shall be denied any increase in reimbursement costs.

The Community Care Program Advisory Committee is created in the Department on Aging. The Director shall appoint individuals to serve in the Committee, who shall serve at their own expense. Members of the Committee must abide by all applicable ethics laws. The Committee shall advise the Department on issues related to the Department's program of services to prevent unnecessary institutionalization. The Committee shall meet on a bi-monthly basis and shall serve to identify and advise the Department on present and potential issues affecting the service delivery network, the program's clients, and the Department and to recommend solution strategies. Persons appointed to the Committee shall be appointed on, but not limited to, their own and their agency's experience with the program, geographic representation, and willingness to serve. The Director shall appoint members to the Committee to represent provider, advocacy, policy research, and other constituencies committed to the delivery of high quality home and community-based services to older adults. Representatives shall be appointed to ensure representation from community care providers including, but not limited to, adult day service providers, homemaker providers, case coordination and case management units, emergency home response providers, statewide trade or labor unions that represent home care aides and direct care staff, area agencies on aging, adults over age 60, membership organizations representing older adults, and other organizational entities, providers of care, or individuals with demonstrated interest and expertise in the field of home and community care as determined by the Director.

Nominations may be presented from any agency or State association with interest in the program. The Director, or his or her designee, shall serve as the permanent co-chair of the advisory committee. One other co-chair shall be nominated and approved by the members of the committee on an annual basis. Committee

members' terms of appointment shall be for 4 years with one-quarter of the appointees' terms expiring each year. A member shall continue to serve until his or her replacement is named. The Department shall fill vacancies that have a remaining term of over one year, and this replacement shall occur through the annual replacement of expiring terms. The Director shall designate Department staff to provide technical assistance and staff support to the committee. Department representation shall not constitute membership of the committee. All Committee papers, issues, recommendations, reports, and meeting memoranda are advisory only. The Director, or his or her designee, shall make a written report, as requested by the Committee, regarding issues before the Committee.

The Department on Aging and the Department of Human Services shall cooperate in the development and submission of an annual report on programs and services provided under this Section. Such joint report shall be filed with the Governor and the General Assembly on or before September 30 each year.

The requirement for reporting to the General Assembly shall be satisfied by filing copies of the report as required by Section 3.1 of the General Assembly Organization Act and filing such additional copies with the State Government Report Distribution Center for the General Assembly as is required under paragraph (t) of Section 7 of the State Library Act.

Those persons previously found eligible for receiving non-institutional services whose services were discontinued under the Emergency Budget Act of Fiscal Year 1992, and who do not meet the eligibility standards in effect on or after July 1, 1992, shall remain ineligible on and after July 1, 1992. Those persons previously not required to cost-share and who were required to cost-share effective March 1, 1992, shall continue to meet cost-share requirements on and after July 1, 1992. Beginning July 1, 1992, all clients will be required to meet eligibility, cost-share, and other requirements and will have services discontinued or altered when they fail to meet these requirements.

For the purposes of this Section, "flexible senior services" refers to services that require one-time or periodic expenditures including, but not limited to, respite care, home modification, assistive technology, housing assistance, and transportation.

Sec. 2. Circuit judges. Circuit judges shall be elected at the general elections and for terms as provided in Article VI of the Illinois Constitution. Ninety-four circuit judges shall be elected in the Circuit of Cook County, and 3 circuit judges shall be elected in each of the other circuits except as provided in this Section. In circuits other than Cook County containing a population of 230,000 or more inhabitants and in which there is included a county containing a population of 200,000 or more inhabitants, or in circuits other than Cook County containing a population of 270,000 or more inhabitants, according to the last preceding federal census and in the circuit where the seat of State government is situated at the time fixed by law for the nomination of judges of the Circuit Court in such circuit and in any circuit which meets the requirements set out in Section 2a of this Act, 4 circuit judges shall be elected in the manner provided by law. In circuits other than Cook County in which each county in the circuit has a population of 475,000 or more, 4 circuit judges shall be elected in addition to the 4 circuit judges provided for in this Section. In any circuit composed of 2 counties having a total population of 350,000 or more, one circuit judge shall be elected in addition to the 4 circuit judges provided for in this Section.

In the 3rd judicial circuit, there shall be no at-large circuit judgeships, and only resident circuit judges shall be elected as provided in Section 2f-13.

Any additional circuit judgeships in the 19th and 22nd judicial circuits resulting by operation of this Section shall be filled, if at all, at the general election in 2006 only as provided in Section 2f-1. Thereafter, however, this Section shall not apply to the determination of the number of circuit judgeships in the 19th and 22nd judicial circuits. The number of circuit judgeships in the 19th judicial circuit shall be determined thereafter in accordance with Section 2f-1 and Section 2f-2 and shall be reduced in accordance with those Sections. The number of circuit judgeships in the 22nd judicial circuit shall be determined thereafter in accordance with Section 2f-1 and Section 2f-5 and shall be reduced in accordance with those Sections. In the 19th judicial circuit, there shall be no at-large circuit judgeships, and only resident circuit judges shall be elected as provided in Sections 2f-2.

Notwithstanding the provisions of this Section or any other law, the number of at-large judgeships of the 12th judicial circuit may be reduced as provided in subsections (a-10) and (a-15) of Section 2f-4.

In the 23rd judicial circuit, there shall be no at-large circuit judgeships, and only resident circuit judges shall be elected as provided in Sections 2f-10 and 2f-11.

(705 ILCS 35/2f) (from Ch. 37, par. 72.2f)

Sec. 2f. Circuit of Cook County.

(a) Until December 2, 2024, the Circuit of Cook County shall be divided into 15 units to be known as subcircuits. On and after December 2, 2024, the Circuit of Cook County is divided into 20 subcircuits as

drawn by the General Assembly. The subcircuits shall be compact, contiguous, and substantially equal in population. Beginning in 2031, the General Assembly shall, in the year following each federal decennial census, redraw the boundaries of the subcircuits to reflect the results of the most recent federal decennial census.

In accordance with subsection (d), a resident judgeship assigned to a subcircuit shall continue to be assigned to that subcircuit. Any vacancy in a resident judgeship existing on or occurring after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit.

(b) The 165 resident judges to be elected from the Circuit of Cook County shall be determined under paragraph (4) of subsection (a) of Section 2 of the Judicial Vacancies Act.

(c) ~~For resident judgeships to be filled by election on or before the 2022 general election~~ Until December 2, 2024, the Supreme Court shall allot (i) the additional resident judgeships provided by paragraph (4) of subsection (a) of Section 2 of the Judicial Vacancies Act and (ii) all vacancies in resident judgeships existing on or occurring on or after the effective date of this amendatory Act of 1990, with respect to the other resident judgeships of the Circuit of Cook County, for election from the various subcircuits until there are 11 resident judges to be elected from each of the 15 subcircuits (for a total of 165). A resident judgeship authorized before the effective date of this amendatory Act of 1990 that became vacant and was filled by appointment by the Supreme Court before that effective date shall be filled by election at the general election in November of 1992 from the unit of the Circuit of Cook County within Chicago or the unit of that Circuit outside Chicago, as the case may be, in which the vacancy occurred.

(d) As soon as practicable after the subcircuits are created by law, the Supreme Court shall determine by lot a numerical order for the 15 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. After the first round of assignments, the second and all later rounds shall be based on the same numerical order. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at large in the circuit in accordance with Article VI, Section 12(d) of the Illinois Constitution. No elected judge of the Circuit of Cook County serving on January 7, 2022 shall be required to change his or her residency in order to continue serving in office or to seek retention in office as resident judgeships are allotted by the Supreme Court in accordance with this Section.

(d-5) For resident judgeships to be filled by election on or after the 2024 general election, a vacancy of a resident judgeship to be elected from a subcircuit shall be allotted by the Supreme Court to the subcircuit created under the Judicial Circuits Districting Act of 2022 that numerically corresponds to the subcircuit from which the resident judgeship was previously allotted. For any resident judgeship to be elected from a subcircuit that was not previously allotted to a subcircuit, vacancies shall be allotted in numerical order to subcircuits created under the Judicial Circuits Districting Act of 2022 which numerically correspond to subcircuits that had less than 11 resident judges on January 7, 2022 until there are 11 resident judges to be elected from each of the respective subcircuits. Any newly authorized associate judgeships converted to resident circuit judgeships under subsection (a) of Section 2 of the Associate Judges Act and any vacancies in formerly associate judgeships converted to resident circuit judgeships in the Circuit of Cook County occurring on or after June 1, 2022 shall be allotted in numerical order to Judicial Subcircuits 16, 17, 18, 19, and 20 until there are 11 resident judges to be elected from each of those subcircuits (for a total of 55). The maximum number of formerly associate judgeships converted to resident circuit judgeships which may be allotted to Judicial Subcircuits 16, 17, 18, 19, and 20 in an election cycle shall be 2 judgeships per subcircuit. All vacancies in circuit judgeships in the Circuit of Cook County, which are not allotted to Judicial Subcircuits 1 through 15 pursuant to subsection (c) of this Section, existing on or occurring on or after June 1, 2022 shall be allotted in numerical order to Judicial Subcircuits 16, 17, 18, 19 and 20 until there are 11 resident judges to be elected from each of those subcircuits (for a total of 55).

(e) A resident judge elected from a subcircuit shall continue to reside in that subcircuit as long as he or she holds that office. A resident judge elected from a subcircuit after January 1, 2008, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at large thereafter. (Source: P.A. 101-477, eff. 6-1-20; 102-668, eff. 11-15-21; 102-693, eff. 1-7-22.)

Sec. 2f-2. 19th judicial circuit; subcircuits; additional judges.

(a) Prior to December 5, 2022, the 19th circuit shall be divided into 6 subcircuits. The subcircuits shall be compact, contiguous, and substantially equal in population. The General Assembly by law shall

create the subcircuits, using population data as determined by the 2000 federal census, and shall determine a numerical order for the 6 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. The 6 resident judgeships to be assigned that are not added by or converted from at-large judgeships as provided in this amendatory Act of the 96th General Assembly shall be assigned to the 1st, 2nd, 3rd, 4th, 5th, and 6th subcircuits, in that order. The 6 resident judgeships to be assigned that are added by or converted from at-large judgeships as provided in this amendatory Act of the 96th General Assembly shall be assigned to the 6th, 5th, 4th, 3rd, 2nd, and 1st subcircuits, in that order. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at large in the circuit in accordance with Article VI, Section 12(d) of the Illinois Constitution.

(a-3) On and after December 5, 2022, the 19th circuit is divided into 12 subcircuits. Beginning in 2031, the General Assembly shall, in the year following each federal decennial census, redraw the boundaries of the subcircuits to reflect the results of the most recent federal decennial census. ~~In 2022, the General Assembly shall redraw the boundaries of the subcircuits to reflect the results of the 2020 federal decennial census and divide the 19th circuit into at least 10 subcircuits. The General Assembly shall redraw the subcircuit boundaries after every federal decennial census.~~ The subcircuits shall be compact, contiguous, and substantially equal in population. Once a judgeship is assigned to a subcircuit or an at-large judgeship is converted to a resident judgeship and assigned to a subcircuit, it shall be assigned to that subcircuit for all purposes; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at large in the circuit in accordance with Article VI, Section 12(d) of the Illinois Constitution. Any vacancy in a resident judgeship existing on or occurring after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit. When a vacancy occurs in a resident judgeship, the resident judgeship shall be allotted by the Supreme Court under subsection (c) and filled by election.

(a-5) Of the at-large judgeships of the 19th judicial circuit, the first 3 that are or become vacant on or after the effective date of this amendatory Act of the 96th General Assembly shall become resident judgeships of the 19th judicial circuit to be allotted by the Supreme Court under subsection (c) and filled by election, except that the Supreme Court may fill those judgeships by appointment for any remainder of a vacated term until the resident judgeships are filled initially by election. As used in this subsection, a vacancy does not include the expiration of a term of an at-large judge who seeks retention in that office at the next term.

(a-10) The 19th judicial circuit shall have 3 additional resident judgeships to be allotted by the Supreme Court under subsection (c). One of the additional resident judgeships shall be filled by election beginning at the 2010 general election. Two of the additional resident judgeships shall be filled by election beginning at the 2012 general election.

(a-15) On and after January 7, 2022, each at-large judgeship of the 19th judicial circuit existing on January 7, 2022 shall be converted to a resident judgeship as it is or becomes vacant and shall be allotted by the Supreme Court according to subsection (c) of this Section. It is the intent of the General Assembly not to create any additional judgeships in the 19th judicial circuit by this amendatory Act of the 102nd General Assembly. Notwithstanding any other provision of law to the contrary, the conversion of at-large judgeships to resident judgeships under this subsection shall not entitle the 19th judicial circuit to any additional circuit judgeships elected at-large. ~~The 19th judicial circuit shall have additional resident judgeships as provided by subsection (a-3) to be allotted by the Supreme Court under subsection (c). The resident judgeships shall be allotted by the Supreme Court in numerical order as provided by the General Assembly upon the redrawing of boundaries and the division of subcircuits pursuant to subsection (a-3). Two additional resident judgeships allotted by the Supreme Court pursuant to this subsection, in numerical order as provided by the General Assembly, shall be filled by election beginning at the 2022 general election. The remainder of the additional resident judgeships shall be filled by election at the 2024 election.~~

(a-20) ~~Any~~ In addition to the 2 judgeships filled by election at the 2022 election as provided by subsection (a-15), any judgeship that became vacant after January 1, 2020 and on June 1, 2020 (the effective date of Public Act 102-380) this amendatory Act of the 102nd General Assembly is held by an individual appointed by the Supreme Court also shall be filled by election at the 2022 general election.

(b) Prior to December 5, 2022, the 19th circuit shall have a total of 12 resident judgeships (6 resident judgeships existing on the effective date of this amendatory Act of the 96th General Assembly, 3 formerly at-large judgeships as provided in subsection (a-5), and 3 resident judgeships added by subsection (a-10)).

The number of resident judgeships allotted to subcircuits of the 19th judicial circuit pursuant to this Section shall constitute all the resident judgeships of the 19th judicial circuit.

(c) Prior to January 7, 2022 (the effective date of Public Act 102-693) ~~this amendatory Act of the 102nd General Assembly~~, the Supreme Court shall allot (i) all vacancies in resident judgeships of the 19th circuit existing on or occurring on or after the effective date of this amendatory Act of the 93rd General Assembly and not filled at the 2004 general election, (ii) the resident judgeships of the 19th circuit filled at the 2004 general election as those judgeships thereafter become vacant, (iii) the 3 formerly at-large judgeships described in subsection (a-5) as they become available, (iv) the 3 resident judgeships added by subsection (a-10), and (v) the additional resident judgeships provided for by subsection (a-3), for election from the various subcircuits until there are 2 resident judges to be elected from each subcircuit. On and after January 7, 2022 ~~the effective date of this amendatory Act of the 102nd General Assembly~~, the Supreme Court shall allot all vacancies in the 15 resident judgeships of the 19th circuit (the 12 resident judgeships existing on January 7, 2022 and the 3 formerly at-large judgeships converted under subsection (a-15) ~~the effective date of this amendatory Act of the 102nd General Assembly~~) for election from the various subcircuits created by Public Act 102-693 ~~this amendatory Act of the 102nd General Assembly~~ in numerical order until there is one resident judge to be elected from each subcircuit, except the 1st, 2nd, and 3rd subcircuits which shall have 2 resident judges each; provided that the first vacancy shall be allotted to the 12th subcircuit, that the second vacancy shall be allotted to the 3rd subcircuit, that the third vacancy shall be allotted to the 4th subcircuit, that the fourth vacancy shall be allotted to the 2nd subcircuit, that the fifth vacancy shall be allotted to the 1st subcircuit. No resident judge of the 19th circuit serving on January 7, 2022 ~~the effective date of this amendatory Act of the 102nd General Assembly~~ shall be required to change his or her residency in order to continue serving in office or to seek retention in office as resident judgeships are allotted by the Supreme Court in accordance with this Section.

(c-5) If 2 or more judgeships in the same subcircuit are to be filled at the same election under this Section, the State Board of Elections shall designate those vacancies alphabetically.

(d) A resident judge elected from a subcircuit shall continue to reside in that subcircuit as long as he or she holds that office. A resident judge elected from a subcircuit after January 1, 2008, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at-large thereafter.

(e) Vacancies in resident judgeships of the 19th circuit shall be filled in the manner provided in Article VI of the Illinois Constitution.

Sec. 2f-4. 12th circuit; subcircuits; additional judges.

(a) The 12th circuit shall be divided into 5 subcircuits. The subcircuits shall be compact, contiguous, and substantially equal in population. The General Assembly by law shall create the subcircuits, using population data as determined by the 2000 federal census, and shall determine a numerical order for the 5 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. The 5 resident judgeships to be assigned after the effective date of this amendatory Act of the 96th General Assembly shall be assigned to the 3rd, 4th, 5th, 1st, and 2nd subcircuits, in that order. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at large in the circuit in accordance with Article VI, Section 12(d) of the Illinois Constitution.

(a-5) In 2022, the General Assembly shall redraw the boundaries of the subcircuits to reflect the results of the 2020 federal decennial census. The General Assembly shall redraw the subcircuit boundaries after every federal decennial census. The subcircuits shall be compact, contiguous, and substantially equal in population. In accordance with subsection (a), a resident judgeship assigned to a subcircuit shall continue to be assigned to that subcircuit; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at large in the circuit in accordance with Article VI, Section 12(d) of the Illinois Constitution. Any vacancy in a resident judgeship existing on or occurring after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit.

(a-10) The first vacancy in the 12th judicial circuit's 10 existing circuit judgeships (8 at large and 2 resident), but not in the additional judgeships described in subsections (b) and (b-5), that exists on or after the effective date of this amendatory Act of the 94th General Assembly shall not be filled, by appointment or election, and that judgeship is eliminated. Of the 12th judicial circuit's 10 existing circuit judgeships (8 at large and 2 resident), but not the additional judgeships described in subsections (b) and (b-5), the second to

be vacant or become vacant on or after the effective date of this amendatory Act of the 94th General Assembly shall be allotted as a 12th circuit resident judgeship under subsection (c).

(a-15) Of the at large judgeships of the 12th judicial circuit not affected by subsection (a-10), the first 2 that are or become vacant on or after the effective date of this amendatory Act of the 96th General Assembly shall become resident judgeships of the 12th judicial circuit to be allotted by the Supreme Court under subsection (c) and filled by election, except that the Supreme Court may fill those judgeships by appointment for any remainder of a vacated term until the resident judgeships are filled initially by election.

(a-20) As used in subsections (a-10) and (a-15), a vacancy does not include the expiration of a term of an at large or resident judge who seeks retention in that office at the next term.

(b) The 12th circuit shall have 6 additional resident judgeships, as well as its existing resident judgeship as established in subsection (a-10), and existing at large judgeships, for a total of 15 judgeships available to be allotted under subsection (c) to the 10 subcircuit resident judgeships. The additional resident judgeship created by Public Act 93-541 shall be filled by election beginning at the general election in 2006. The 2 additional resident judgeships created by this amendatory Act of 2004 shall be filled by election beginning at the general election in 2008. The additional resident judgeships created by this amendatory Act of the 96th General Assembly shall be filled by election beginning at the general election in 2010. After the subcircuits are created by law, the Supreme Court may fill by appointment the additional resident judgeships created by Public Act 93-541, this amendatory Act of 2004, and this amendatory Act of the 96th General Assembly until the 2006, 2008, or 2010 general election, as the case may be.

(b-5) In addition to the number of circuit judges and resident judges otherwise authorized by law, and notwithstanding any other provision of law, beginning on April 1, 2006 there shall be one additional resident judge who is a resident of and elected from the fourth judicial subcircuit of the 12th judicial circuit. That additional resident judgeship may be filled by appointment by the Supreme Court until filled by election at the general election in 2008, regardless of whether the judgeships for subcircuits 1, 2, and 3 have been filled.

(c) The Supreme Court shall allot (i) the additional resident judgeships of the 12th circuit created by Public Act 93-541, this amendatory Act of 2004, and this amendatory Act of the 96th General Assembly, (ii) the second vacancy in the at large and resident judgeships of the 12th circuit as provided in subsection (a-10), and (iii) the 2 formerly at large judgeships described in subsection (a-15) as they become available, for election from the various subcircuits until, with the additional judge of the fourth subcircuit described in subsection (b-5), there are 2 resident judges to be elected from each subcircuit. No at large or resident judge of the 12th circuit serving on August 18, 2003 shall be required to change his or her residency in order to continue serving in office or to seek retention in office as at large or resident judgeships are allotted by the Supreme Court in accordance with this Section.

(d) A resident judge elected from a subcircuit shall continue to reside in that subcircuit as long as he or she holds that office. A resident judge elected from a subcircuit after January 1, 2008, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at large thereafter.

(e) Vacancies in resident judgeships of the 12th circuit shall be filled in the manner provided in Article VI of the Illinois Constitution, except as otherwise provided in this Section.

(705 ILCS 35/2f-5)

Sec. 2f-5. 22nd circuit; subcircuits; additional resident judgeship.

(a) The 22nd circuit shall be divided into 4 subcircuits. The subcircuits shall be compact, contiguous, and substantially equal in population. The General Assembly by law shall create the subcircuits, using population data as determined by the 2000 federal census, and shall determine a numerical order for the 4 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at large in the circuit in accordance with Article VI, Section 12(d) of the Illinois Constitution.

(a-5) In 2022, the General Assembly shall redraw the boundaries of the subcircuits to reflect the results of the 2020 federal decennial census. The General Assembly shall redraw the subcircuit boundaries after every federal decennial census. The subcircuits shall be compact, contiguous, and substantially equal in population. In accordance with subsection (a), a resident judgeship assigned to a subcircuit shall continue to be assigned to that subcircuit; provided that a resident judge elected from a subcircuit seeking retention shall run for retention at-large in the circuit in accordance with Article VI, Section 12(d) of the Illinois

Constitution. Any vacancy in a resident judgeship existing on or occurring after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit.

(b) Other than the resident judgeship added by this amendatory Act of the 96th General Assembly, the 22nd circuit shall have one additional resident judgeship, as well as its 3 existing resident judgeships, for a total of 4 resident judgeships to be allotted to the 4 subcircuit resident judgeships. The additional resident judgeship created by this amendatory Act of the 93rd General Assembly shall be filled by election beginning at the general election in 2006 and shall not be filled by appointment before the general election in 2006. The number of resident judgeships allotted to subcircuits of the 22nd judicial circuit pursuant to this Section, and the resident judgeship added by this amendatory Act of the 96th General Assembly, shall constitute all the resident judgeships of the 22nd judicial circuit.

(b) Make and enter into all contracts with property owners, developers, tenants, overlapping taxing bodies, and others necessary or incidental to the implementation and furtherance of its redevelopment plan and project. Contract provisions concerning loan repayment obligations in contracts entered into on or after the effective date of this amendatory Act of the 93rd General Assembly shall terminate no later than the last to occur of the estimated dates of completion of the redevelopment project and retirement of the obligations issued to finance redevelopment project costs as required by item (3) of subsection (n) of Section 11-74.4-3. Payments received under contracts entered into by the municipality prior to the effective date of this amendatory Act of the 93rd General Assembly that are received after the redevelopment project area has been terminated by municipal ordinance shall be deposited into a special fund of the municipality to be used for other community redevelopment needs within the redevelopment project area.

(c) Within a redevelopment project area, acquire by purchase, donation, lease or eminent domain; own, convey, lease, mortgage or dispose of land and other property, real or personal, or rights or interests therein, and grant or acquire licenses, easements and options with respect thereto, all in the manner and at such price the municipality determines is reasonably necessary to achieve the objectives of the redevelopment plan and project. No conveyance, lease, mortgage, disposition of land or other property owned by a municipality, or agreement relating to the development of such municipal property shall be made except upon the adoption of an ordinance by the corporate authorities of the municipality. Furthermore, no conveyance, lease, mortgage, or other disposition of land owned by a municipality or agreement relating to the development of such municipal property shall be made without making public disclosure of the terms of the disposition and all bids and proposals made in response to the municipality's request. The procedures for obtaining such bids and proposals shall provide reasonable opportunity for any person to submit alternative proposals or bids.

(d) Within a redevelopment project area, clear any area by demolition or removal of any existing buildings and structures.

(e) Within a redevelopment project area, renovate or rehabilitate or construct any structure or building, as permitted under this Act.

(f) Install, repair, construct, reconstruct or relocate streets, utilities and site improvements essential to the preparation of the redevelopment area for use in accordance with a redevelopment plan.

(g) Within a redevelopment project area, fix, charge and collect fees, rents and charges for the use of any building or property owned or leased by it or any part thereof, or facility therein.

(h) Accept grants, guarantees and donations of property, labor, or other things of value from a public or private source for use within a project redevelopment area.

(i) Acquire and construct public facilities within a redevelopment project area, as permitted under this Act.

(j) Incur project redevelopment costs and reimburse developers who incur redevelopment project costs authorized by a redevelopment agreement; provided, however, that on and after the effective date of this amendatory Act of the 91st General Assembly, no municipality shall incur redevelopment project costs (except for planning costs and any other eligible costs authorized by municipal ordinance or resolution that are subsequently included in the redevelopment plan for the area and are incurred by the municipality after the ordinance or resolution is adopted) that are not consistent with the program for accomplishing the objectives of the redevelopment plan as included in that plan and approved by the municipality until the municipality has amended the redevelopment plan as provided elsewhere in this Act.

(k) Create a commission of not less than 5 or more than 15 persons to be appointed by the mayor or president of the municipality with the consent of the majority of the governing board of the municipality. Members of a commission appointed after the effective date of this amendatory Act of 1987 shall be appointed for initial terms of 1, 2, 3, 4 and 5 years, respectively, in such numbers as to provide that the terms of not more than 1/3 of all such members shall expire in any one year. Their successors shall be appointed for a term of 5 years. The commission, subject to approval of the corporate authorities may exercise the powers enumerated in this Section. The commission shall also have the power to hold the public hearings required by this division and make recommendations to the corporate authorities concerning the adoption of redevelopment plans, redevelopment projects and designation of redevelopment project areas.

(l) Make payment in lieu of taxes or a portion thereof to taxing districts. If payments in lieu of taxes or a portion thereof are made to taxing districts, those payments shall be made to all districts within a project redevelopment area on a basis which is proportional to the current collections of revenue which each taxing district receives from real property in the redevelopment project area.

(m) Exercise any and all other powers necessary to effectuate the purposes of this Act.

(n) If any member of the corporate authority, a member of a commission established pursuant to Section 11-74.4-4(k) of this Act, or an employee or consultant of the municipality involved in the planning and preparation of a redevelopment plan, or project for a redevelopment project area or proposed redevelopment project area, as defined in Sections 11-74.4-3(i) through (k) of this Act, owns or controls an interest, direct or indirect, in any property included in any redevelopment area, or proposed redevelopment area, he or she shall disclose the same in writing to the clerk of the municipality, and shall also so disclose the dates and terms and conditions of any disposition of any such interest, which disclosures shall be acknowledged by the corporate authorities and entered upon the minute books of the corporate authorities. If an individual holds such an interest then that individual shall refrain from any further official involvement in regard to such redevelopment plan, project or area, from voting on any matter pertaining to such redevelopment plan, project or area, or communicating with other members concerning corporate authorities, commission or employees concerning any matter pertaining to said redevelopment plan, project or area. Furthermore, no such member or employee shall acquire of any interest direct, or indirect, in any property in a redevelopment area or proposed redevelopment area after either (a) such individual obtains knowledge of such plan, project or area or (b) first public notice of such plan, project or area pursuant to Section 11-74.4-6 of this Division, whichever occurs first. For the purposes of this subsection, a property interest acquired in a single parcel of property by a member of the corporate authority, which property is used exclusively as the member's primary residence, shall not be deemed to constitute an interest in any property included in a redevelopment area or proposed redevelopment area that was established before December 31, 1989, but the member must disclose the acquisition to the municipal clerk under the provisions of this subsection. A single property interest acquired within one year after the effective date of this amendatory Act of the 94th General Assembly or 2 years after the effective date of this amendatory Act of the 95th General Assembly by a member of the corporate authority does not constitute an interest in any property included in any redevelopment area or proposed redevelopment area, regardless of when the redevelopment area was established, if (i) the property is used exclusively as the member's primary residence, (ii) the member discloses the acquisition to the municipal clerk under the provisions of this subsection, (iii) the acquisition is for fair market value, (iv) the member acquires the property as a result of the property being publicly advertised for sale, and (v) the member refrains from voting on, and communicating with other members concerning, any

matter when the benefits to the redevelopment project or area would be significantly greater than the benefits to the municipality as a whole. For the purposes of this subsection, a month-to-month leasehold interest in a single parcel of property by a member of the corporate authority shall not be deemed to constitute an interest in any property included in any redevelopment area or proposed redevelopment area, but the member must disclose the interest to the municipal clerk under the provisions of this subsection.

(o) Create a Tax Increment Economic Development Advisory Committee to be appointed by the Mayor or President of the municipality with the consent of the majority of the governing board of the municipality, the members of which Committee shall be appointed for initial terms of 1, 2, 3, 4 and 5 years respectively, in such numbers as to provide that the terms of not more than 1/3 of all such members shall expire in any one year. Their successors shall be appointed for a term of 5 years. The Committee shall have none of the powers enumerated in this Section. The Committee shall serve in an advisory capacity only. The Committee may advise the governing Board of the municipality and other municipal officials regarding development issues and opportunities within the redevelopment project area or the area within the State Sales Tax Boundary. The Committee may also promote and publicize development opportunities in the redevelopment project area or the area within the State Sales Tax Boundary.

(p) Municipalities may jointly undertake and perform redevelopment plans and projects and utilize the provisions of the Act wherever they have contiguous redevelopment project areas or they determine to adopt tax increment financing with respect to a redevelopment project area which includes contiguous real property within the boundaries of the municipalities, and in doing so, they may, by agreement between municipalities, issue obligations, separately or jointly, and expend revenues received under the Act for eligible expenses anywhere within contiguous redevelopment project areas or as otherwise permitted in the Act. With respect to redevelopment project areas that are established within a transit facility improvement area, the provisions of this subsection apply only with respect to such redevelopment project areas that are contiguous to each other.

(q) Utilize revenues, other than State sales tax increment revenues, received under this Act from one redevelopment project area for eligible costs in another redevelopment project area that is:

(i) contiguous to the redevelopment project area from which the revenues are received;

(ii) separated only by a public right of way from the redevelopment project area from which the revenues are received; or

(iii) separated only by forest preserve property from the redevelopment project area from which the revenues are received if the closest boundaries of the redevelopment project areas that are separated by the forest preserve property are less than one mile apart.

Utilize tax increment revenues for eligible costs that are received from a redevelopment project area created under the Industrial Jobs Recovery Law that is either contiguous to, or is separated only by a public right of way from, the redevelopment project area created under this Act which initially receives these revenues. Utilize revenues, other than State sales tax increment revenues, by transferring or loaning such revenues to a redevelopment project area created under the Industrial Jobs Recovery Law that is either contiguous to, or separated only by a public right of way from the redevelopment project area that initially produced and received those revenues; and, if the redevelopment project area (i) was established before the effective date of this amendatory Act of the 91st General Assembly and (ii) is located within a municipality with a population of more than 100,000, utilize revenues or proceeds of obligations authorized by Section 11-74.4-7 of this Act, other than use or occupation tax revenues, to pay for any redevelopment project costs as defined by subsection (q) of Section 11-74.4-3 to the extent that the redevelopment project costs involve public property that is either contiguous to, or separated only by a public right of way from, a redevelopment project area whether or not redevelopment project costs or the source of payment for the costs are specifically set forth in the redevelopment plan for the redevelopment project area.

(r) If no redevelopment project has been initiated in a redevelopment project area within 7 years after the area was designated by ordinance under subsection (a), the municipality shall adopt an ordinance repealing the area's designation as a redevelopment project area; provided, however, that if an area received its designation more than 3 years before the effective date of this amendatory Act of 1994 and no redevelopment project has been initiated within 4 years after the effective date of this amendatory Act of 1994, the municipality shall adopt an ordinance repealing its designation as a redevelopment project area. Initiation of a redevelopment project shall be evidenced by either a signed

redevelopment agreement or expenditures on eligible redevelopment project costs associated with a redevelopment project.

Notwithstanding any other provision of this Section to the contrary, with respect to a redevelopment project area designated by an ordinance that was adopted on July 29, 1998 by the City of Chicago, the City of Chicago shall adopt an ordinance repealing the area's designation as a redevelopment project area if no redevelopment project has been initiated in the redevelopment project area within 15 years after the designation of the area. The City of Chicago may retroactively repeal any ordinance adopted by the City of Chicago, pursuant to this subsection (r), that repealed the designation of a redevelopment project area designated by an ordinance that was adopted by the City of Chicago on July 29, 1998. The City of Chicago has 90 days after the effective date of this amendatory Act to repeal the ordinance. The changes to this Section made by this amendatory Act of the 96th General Assembly apply retroactively to July 27, 2005.

(s) The various powers and duties described in this Section that apply to a redevelopment project area shall also apply to a transit facility improvement area established prior to, on, or after the effective date of this amendatory Act of the 102nd General Assembly.

An industrial park may contain space for commercial and other use as long as the expected principal use of the park is industrial and is reasonably expected to result in the creation of a significant number of new permanent full time jobs. An industrial park may also contain related operations and facilities including, but not limited to, business and office support services such as centralized computers, telecommunications, publishing, accounting, photocopying and similar activities and employee services such as child care, health care, food service and similar activities. (e) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the corporate limits of a municipality or within 1 1/2 miles of the corporate limits of a municipality if the area is to be annexed to the municipality, if the area is zoned as industrial no later than the date on which the municipality by ordinance designates the redevelopment project area, and if the area includes improved or vacant land suitable for use as an industrial park or a research park, or both. To be designated as an industrial park conservation area, the area shall also satisfy one of the following standards:

(1) Standard One: The municipality must be a labor surplus municipality and the area must be served by adequate public and or road transportation for access by the unemployed and for the

movement of goods or materials and the redevelopment project area shall contain no more than 2% of the most recently ascertained equalized assessed value of all taxable real properties within the corporate limits of the municipality after adjustment for all annexations associated with the establishment of the redevelopment project area or be located in the vicinity of a waste disposal site or other waste facility. The project plan shall include a plan for and shall establish a marketing program to attract appropriate businesses to the proposed industrial park conservation area and shall include an adequate plan for financing and construction of the necessary infrastructure. No redevelopment projects may be authorized by the municipality under Standard One of subsection (e) of this Section unless the project plan also provides for an employment training project that would prepare unemployed workers for work in the industrial park conservation area, and the project has been approved by official action of or is to be operated by the local community college district, public school district or state or locally designated private industry council or successor agency, or

(2) Standard Two: The municipality must be a substantial labor surplus municipality and the area must be served by adequate public and or road transportation for access by the unemployed and for the movement of goods or materials and the redevelopment project area shall contain no more than 2% of the most recently ascertained equalized assessed value of all taxable real properties within the corporate limits of the municipality after adjustment for all annexations associated with the establishment of the redevelopment project area. No redevelopment projects may be authorized by the municipality under Standard Two of subsection (e) of this Section unless the project plan also provides for an employment training project that would prepare unemployed workers for work in the industrial park conservation area, and the project has been approved by official action of or is to be operated by the local community college district, public school district or state or locally designated private industry council or successor agency.

(f) "Vacant industrial buildings conservation area" means an area containing one or more industrial buildings located within the corporate limits of the municipality that has been zoned industrial for at least 5 years before the designation of that area as a redevelopment project area by the municipality and is planned for reuse principally for industrial purposes. For the area to be designated as a vacant industrial buildings conservation area, the area shall also satisfy one of the following standards:

(1) Standard One: The area shall consist of one or more industrial buildings totaling at least 50,000 net square feet of industrial space, with a majority of the total area of all the buildings having been vacant for at least 18 months; and (A) the area is located in a labor surplus municipality or a substantial labor surplus municipality, or (B) the equalized assessed value of the properties within the area during the last 2 years is at least 25% lower than the maximum equalized assessed value of those properties during the immediately preceding 10 years.

(2) Standard Two: The area exclusively consists of industrial buildings or a building complex operated by a user or related users (A) that has within the immediately preceding 5 years either (i) employed 200 or more employees at that location, or (ii) if the area is located in a municipality with a population of 12,000 or less, employed more than 50 employees at that location and (B) either is currently vacant, or the owner has: (i) directly notified the municipality of the user's intention to terminate operations at the facility or (ii) filed a notice of closure under the Worker Adjustment and Retraining Notification Act.

For the purpose of this subsection (g), if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be: (i) for a municipality that is not in an urban county, the same as the unemployment rate in the principal county where the municipality is located or (ii) for a municipality in an urban county at that municipality's option, either the unemployment rate certified for the municipality by the Department after consultation with the Illinois Department of Labor or the federal Bureau of Labor Statistics, or the unemployment rate of the municipality as determined by the most recent federal census if that census was not dated more than 5 years prior to the date on which the determination is made.

(h) "Substantial labor surplus municipality" means a municipality in which, during the 5 calendar years immediately preceding the date the municipality by ordinance designates an industrial park conservation area, the average unemployment rate was 2% or more over the State average unemployment

For the purpose of this subsection (h), if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be: (i) for a municipality that is not in an urban county, the same as the unemployment rate in the principal county in which the municipality is located; or (ii) for a municipality in an urban county, at that municipality's option, either the unemployment rate certified for the municipality by the Department after consultation with the Illinois Department of Labor or the federal Bureau of Labor Statistics, or the unemployment rate of the municipality as determined by the most recent federal census if that census was not dated more than 5 years prior to the date on which the determination is made.

(k) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality, which according to the redevelopment project or plan are to be used for a private use, that taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and that would result from levies made after the time of the adoption of tax increment allocation financing until the time the current equalized assessed value of real property in the redevelopment project area exceeds the total initial equalized assessed value of real property in that area.

(l) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate the conditions that qualified the redevelopment project area or redevelopment planning area, or both, as an environmentally contaminated area or industrial park conservation area, or vacant industrial buildings conservation area, or combination thereof, and thereby to enhance the tax bases of the taxing districts that extend into the redevelopment project area or redevelopment planning area. On and after the effective date of this amendatory Act of the 91st General Assembly, no redevelopment plan may be approved or amended to include the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan must set forth in writing the bases for the municipal findings required in this subsection, the program to be undertaken to accomplish the objectives, including but not limited to: (1) an itemized list of estimated redevelopment project costs, (2) evidence indicating that the redevelopment project area or the redevelopment planning area, or both, on the whole has not been subject to growth and development through investment by private enterprise, (3) (i) in the case of an environmentally contaminated area, industrial park conservation area, or a vacant industrial buildings conservation area classified under either Standard One, or Standard Two of subsection (f) where the building is currently vacant, evidence that implementation of the redevelopment plan is reasonably expected to create a significant number of permanent full time jobs, (ii) in the case of a vacant industrial buildings conservation area classified under Standard Two (B)(i) or (ii) of subsection (f), evidence that implementation of the redevelopment plan is reasonably expected to retain a significant number of existing permanent full time jobs, and (iii) in the case of a combination of an environmentally contaminated area, industrial park conservation area, or vacant industrial buildings conservation area, evidence that the standards concerning the creation or retention of jobs for each area set forth in (i) or (ii) above are met, (4) an assessment of the financial impact of the redevelopment project area or the redevelopment planning area, or both, on the overlapping taxing bodies or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand, (5) the sources of funds to pay costs, (6) the nature and term of the obligations to be issued, (7) the most recent equalized assessed valuation of the redevelopment project area or the redevelopment planning area, or both, (8) an estimate of the equalized assessed valuation after redevelopment and the general land uses that are applied in the redevelopment project area or the redevelopment planning area, or both, (9) a commitment to fair employment practices and an affirmative action plan, (10) if it includes an industrial park conservation area, the following: (i) a general description of any proposed developer, (ii) user and tenant of any property, (iii) a description of the type, structure and general character of the facilities to be developed, and (iv) a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed, (11) if it

includes an environmentally contaminated area, the following: either (i) a determination of release or substantial threat of release of a hazardous substance or pesticide or of petroleum by the United States Environmental Protection Agency or the Illinois Environmental Protection Agency, or the Illinois Pollution Control Board or any court; or (ii) both an environmental audit report by a nationally recognized independent environmental auditor having a reputation for expertise in these matters and a copy of the signed Review and Evaluation Services Agreement indicating acceptance of the site by the Illinois Environmental Protection Agency into the Pre-Notice Site Cleanup Program, (12) if it includes a vacant industrial buildings conservation area, the following: (i) a general description of any proposed developer, (ii) user and tenant of any building or buildings, (iii) a description of the type, structure and general character of the building or buildings to be developed, and (iv) a description of the type, class and number of new employees to be employed or existing employees to be retained in the operation of the building or buildings to be redeveloped, and (13) if property is to be annexed to the municipality, the terms of the annexation agreement.

No redevelopment plan shall be adopted by a municipality without findings that:

(1) the redevelopment project area or redevelopment planning area, or both, on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed in accordance with public goals stated in the redevelopment plan without the adoption of the redevelopment plan;

(2) the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality or (ii) includes land uses that have been approved by the planning commission of the municipality;

(3) that the redevelopment plan is reasonably expected to create or retain a significant number of permanent full time jobs as set forth in paragraph (3) of subsection (1) above;

(4) the estimated date of completion of the redevelopment project and retirement of obligations incurred to finance redevelopment project costs is not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.6-35 is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted; a municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (4) as amended by this amendatory Act of the 91st General Assembly concerning ordinances adopted on or after January 15, 1981, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Law pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area;

(5) in the case of an industrial park conservation area, that the municipality is a labor surplus municipality or a substantial labor surplus municipality and that the implementation of the redevelopment plan is reasonably expected to create a significant number of permanent full time new jobs and, by the provision of new facilities, significantly enhance the tax base of the taxing districts that extend into the redevelopment project area;

(6) in the case of an environmentally contaminated area, that the area is subject to a release or substantial threat of release of a hazardous substance, pesticide or petroleum which presents an imminent and substantial danger to public health or welfare or presents a significant threat to public health or environment, that such release or threat of release will have a significant impact on the cost of redeveloping the area, that the implementation of the redevelopment plan is reasonably expected to result in the area being redeveloped, the tax base of the affected taxing districts being significantly enhanced thereby, and the creation of a significant number of permanent full time jobs; and

(7) in the case of a vacant industrial buildings conservation area, that the area is located within the corporate limits of a municipality that has been zoned industrial for at least 5 years before its designation as a project redeveloped area, that it contains one or more industrial buildings, and whether the area has been designated under Standard One or Standard Two of subsection (f) and the basis for that designation.

(m) "Redevelopment project" means any public or private development project in furtherance of the objectives of a redevelopment plan. On and after the effective date of this amendatory Act of the 91st General Assembly, no redevelopment plan may be approved or amended to include the development of

vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(n) "Redevelopment project area" means a contiguous area designated by the municipality that is not less in the aggregate than 1 1/2 acres, and for which the municipality has made a finding that there exist conditions that cause the area to be classified as an industrial park conservation area, a vacant industrial building conservation area, an environmentally contaminated area or a combination of these types of areas. For purposes of this Division, parcels are contiguous if they touch or join one another in a reasonably substantial physical sense or if they meet the criteria for annexation to a municipality under Section 7-1-1 of this Code.

The changes made by this amendatory Act of the 102nd General Assembly, are declarative of existing law and shall be applied retroactively when substantively applicable, including all pending actions without regard to when the cause of action accrued; however, this amendatory Act of the 102nd General Assembly does not affect the rights of any party that is subject to a final judgment entered pursuant to the opinion of the September 23, 2021 Illinois Supreme Court in Board of Education of Richland School District 88A v. City of Crest Hill, 2021 IL 126444.

(o) "Redevelopment project costs" means the sum total of all reasonable or necessary costs incurred or estimated to be incurred by the municipality, and any of those costs incidental to a redevelopment plan and a redevelopment project. These costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan, staff and professional service costs for architectural, engineering, legal, marketing, financial, planning, or other services, but no charges for professional services may be based on a percentage of the tax increment collected; except that on and after the effective date of this amendatory Act of the 91st General Assembly, no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors.

(2) Property assembly costs within a redevelopment project area, including but not limited to acquisition of land and other real or personal property or rights or interests therein.

(3) Site preparation costs, including but not limited to clearance of any area within a redevelopment project area by demolition or removal of any existing buildings, structures, fixtures, utilities and improvements and clearing and grading; and including installation, repair, construction, reconstruction, or relocation of public streets, public utilities, and other public site improvements within or without a redevelopment project area which are essential to the preparation of the redevelopment project area for use in accordance with a redevelopment plan.

(4) Costs of renovation, rehabilitation, reconstruction, relocation, repair or remodeling of any existing public or private buildings, improvements, and fixtures within a redevelopment project area; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment.

(5) Costs of construction within a redevelopment project area of public improvements, including but not limited to, buildings, structures, works, utilities or fixtures, except that on and after

the effective date of this amendatory Act of the 91st General Assembly, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (4) unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to the effective date of this amendatory Act of the 91st General Assembly or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan.

(6) Costs of eliminating or removing contaminants and other impediments required by federal or State environmental laws, rules, regulations, and guidelines, orders or other requirements or those imposed by private lending institutions as a condition for approval of their financial support, debt or equity, for the redevelopment projects, provided, however, that in the event (i) other federal or State funds have been certified by an administrative agency as adequate to pay these costs during the 18 months after the adoption of the redevelopment plan, or (ii) the municipality has been reimbursed for such costs by persons legally responsible for them, such federal, State, or private funds shall, insofar as possible, be fully expended prior to the use of any revenues deposited in the special tax allocation fund of the municipality and any other such federal, State or private funds received shall be deposited in the fund. The municipality shall seek reimbursement of these costs from persons legally responsible for these costs and the costs of obtaining this reimbursement.

(7) Costs of job training and retraining projects.

(8) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued under this Act including interest accruing during the estimated period of construction of any redevelopment project for which the obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related to those costs.

(9) All or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the redevelopment plan and project, to the extent the municipality by written agreement accepts and approves those costs.

(10) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law.

(11) Payments in lieu of taxes.

(12) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, if those costs are: (i) related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) are incurred by a taxing district or taxing districts other than the municipality and are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. These costs include, specifically, the payment by community college districts of costs under Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs under Sections 10-22.20a and 10-23.3a of the School Code.

(13) The interest costs incurred by redevelopers or other nongovernmental persons in connection with a redevelopment project, and specifically including payments to redevelopers or other nongovernmental persons as reimbursement for such costs incurred by such redeveloper or other nongovernmental person, provided that:

(A) interest costs shall be paid or reimbursed by a municipality only pursuant to the prior official action of the municipality evidencing an intent to pay or reimburse such interest costs;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) except as provided in subparagraph (E), the aggregate amount of such costs paid or reimbursed by a municipality shall not exceed 30% of the total (i) costs paid or incurred by the redeveloper or other nongovernmental person in that year plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act;

(D) interest costs shall be paid or reimbursed by a municipality solely from the special tax allocation fund established pursuant to this Act and shall not be paid or reimbursed from the proceeds of any obligations issued by a municipality;

(E) if there are not sufficient funds available in the special tax allocation fund in any year to make such payment or reimbursement in full, any amount of such interest cost remaining to be paid or reimbursed by a municipality shall accrue and be payable when funds are available in the special tax allocation fund to make such payment.

(14) The costs of construction of new privately owned buildings shall not be an eligible redevelopment project cost.

If a special service area has been established under the Special Service Area Tax Act, then any tax increment revenues derived from the tax imposed thereunder to the Special Service Area Tax Act may be used within the redevelopment project area for the purposes permitted by that Act as well as the purposes permitted by this Act.

(p) "Redevelopment Planning Area" means an area so designated by a municipality after the municipality has complied with all the findings and procedures required to establish a redevelopment project area, including the existence of conditions that qualify the area as an industrial park conservation area, or an environmentally contaminated area, or a vacant industrial buildings conservation area, or a combination of these types of areas, and adopted a redevelopment plan and project for the planning area and its included redevelopment project areas. The area shall not be designated as a redevelopment planning area for more than 5 years, or 10 years in the case of a redevelopment planning area in the City of Rockford. At any time in the 5 years, or 10 years in the case of the City of Rockford, following that designation of the redevelopment planning area, the municipality may designate the redevelopment planning area, or any portion of the redevelopment planning area, as a redevelopment project area without making additional findings or complying with additional procedures required for the creation of a redevelopment project area. An amendment of a redevelopment plan and project in accordance with the findings and procedures of this Act after the designation of a redevelopment planning area at any time within the 5 years after the designation of the redevelopment planning area, or 10 years after the designation of the redevelopment planning area in the City of Rockford, shall not require new qualification of findings for the redevelopment project area to be designated within the redevelopment planning area.

The terms "redevelopment plan", "redevelopment project", and "redevelopment project area" have the definitions set out in subsections (l), (m), and (n), respectively.

(q) "Taxing districts" means counties, townships, municipalities, and school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(r) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and a direct result of the redevelopment project.

(t) "Vacant area", as used in subsection (a) of this Section, means any parcel or combination of parcels of real property without industrial, commercial and residential buildings that has not been used for commercial agricultural purposes within 5 years before the designation of the redevelopment project area, unless that parcel is included in an industrial park conservation area.

JOHN W. HOLLMAN, Clerk of the House

**AMENDMENT NO. 3 TO SENATE BILL 1975**

AMENDMENT NO. 3. Amend Senate Bill 1975 by replacing everything after the enacting clause with the following:

"Section 5. The Department of Revenue Law of the Civil Administrative Code of Illinois is amended by adding Sections 2505-805 as follows:

(20 ILCS 2505/2505-805 new)

Sec. 2505-805. Veterans property tax study. The Department shall conduct a study of the impact of the homestead exemption for veterans with disabilities on the property tax base for St. Clair County, Lake County, Will County, Madison County, Rock Island County, and DuPage County. The study shall be completed no later than June 30, 2023. A report of the Department's findings shall be submitted to the Governor and the General Assembly as soon as possible after the study is complete.

Section 10. The Property Tax Code is amended by changing Sections 9-275, 15-10, 15-168, 15-169, 15-170, 15-172, 15-175, and 18-185 and by adding Section 18-190.7 as follows:

(35 ILCS 200/9-275)

Sec. 9-275. Erroneous homestead exemptions.

(a) For purposes of this Section:

"Erroneous homestead exemption" means a homestead exemption that was granted for real property in a taxable year if the property was not eligible for that exemption in that taxable year. If the taxpayer receives an erroneous homestead exemption under a single Section of this Code for the same property in multiple years, that exemption is considered a single erroneous homestead exemption for purposes of this Section. However, if the taxpayer receives erroneous homestead exemptions under multiple Sections of this Code for the same property, or if the taxpayer receives erroneous homestead exemptions under the same Section of this Code for multiple properties, then each of those exemptions is considered a separate erroneous homestead exemption for purposes of this Section.

"Homestead exemption" means an exemption under Section 15-165 (veterans with disabilities), 15-167 (returning veterans), 15-168 (persons with disabilities), 15-169 (standard homestead for veterans with disabilities), 15-170 (senior citizens), 15-172 (low-income senior citizens assessment freeze), 15-175 (general homestead), 15-176 (alternative general homestead), or 15-177 (long-time occupant).

"Erroneous exemption principal amount" means the total difference between the property taxes actually billed to a property index number and the amount of property taxes that would have been billed but for the erroneous exemption or exemptions.

"Taxpayer" means the property owner or leasehold owner that erroneously received a homestead exemption upon property.

(b) Notwithstanding any other provision of law, in counties with 3,000,000 or more inhabitants, the chief county assessment officer shall include the following information with each assessment notice sent in a general assessment year: (1) a list of each homestead exemption available under Article 15 of this Code and a description of the eligibility criteria for that exemption, including the number of assessment years of automatic renewal remaining on a current senior citizens homestead exemption if such an exemption has been applied to the property; (2) a list of each homestead exemption applied to the property in the current assessment year; (3) information regarding penalties and interest that may be incurred under this Section if the taxpayer received an erroneous homestead exemption in a previous taxable year; and (4) notice of the 60-day grace period available under this subsection. If, within 60 days after receiving his or her assessment notice, the taxpayer notifies the chief county assessment officer that he or she received an erroneous homestead exemption in a previous taxable year, and if the taxpayer pays the erroneous exemption principal

amount, plus interest as provided in subsection (f), then the taxpayer shall not be liable for the penalties provided in subsection (f) with respect to that exemption.

(c) In counties with 3,000,000 or more inhabitants, when the chief county assessment officer determines that one or more erroneous homestead exemptions was applied to the property, the erroneous exemption principal amount, together with all applicable interest and penalties as provided in subsections (f) and (j), shall constitute a lien in the name of the People of Cook County on the property receiving the erroneous homestead exemption. Upon becoming aware of the existence of one or more erroneous homestead exemptions, the chief county assessment officer shall cause to be served, by both regular mail and certified mail, a notice of discovery as set forth in subsection (c-5). The chief county assessment officer in a county with 3,000,000 or more inhabitants may cause a lien to be recorded against property that (1) is located in the county and (2) received one or more erroneous homestead exemptions if, upon determination of the chief county assessment officer, the taxpayer received: (A) one or 2 erroneous homestead exemptions for real property, including at least one erroneous homestead exemption granted for the property against which the lien is sought, during any of the 3 collection years immediately prior to the current collection year in which the notice of discovery is served; or (B) 3 or more erroneous homestead exemptions for real property, including at least one erroneous homestead exemption granted for the property against which the lien is sought, during any of the 6 collection years immediately prior to the current collection year in which the notice of discovery is served. Prior to recording the lien against the property, the chief county assessment officer shall cause to be served, by both regular mail and certified mail, return receipt requested, on the person to whom the most recent tax bill was mailed and the owner of record, a notice of intent to record a lien against the property. The chief county assessment officer shall cause the notice of intent to record a lien to be served within 3 years from the date on which the notice of discovery was served.

(c-5) The notice of discovery described in subsection (c) shall: (1) identify, by property index number, the property for which the chief county assessment officer has knowledge indicating the existence of an erroneous homestead exemption; (2) set forth the taxpayer's liability for principal, interest, penalties, and administrative costs including, but not limited to, recording fees described in subsection (f); (3) inform the taxpayer that he or she will be served with a notice of intent to record a lien within 3 years from the date of service of the notice of discovery; (4) inform the taxpayer that he or she may pay the outstanding amount, plus interest, penalties, and administrative costs at any time prior to being served with the notice of intent to record a lien or within 30 days after the notice of intent to record a lien is served; and (5) inform the taxpayer that, if the taxpayer provided notice to the chief county assessment officer as provided in subsection (d-1) of Section 15-175 of this Code, upon submission by the taxpayer of evidence of timely notice and receipt thereof by the chief county assessment officer, the chief county assessment officer will withdraw the notice of discovery and reissue a notice of discovery in compliance with this Section in which the taxpayer is not liable for interest and penalties for the current tax year in which the notice was received.

For the purposes of this subsection (c-5):

"Collection year" means the year in which the first and second installment of the current tax year is billed.

"Current tax year" means the year prior to the collection year.

(d) The notice of intent to record a lien described in subsection (c) shall: (1) identify, by property index number, the property against which the lien is being sought; (2) identify each specific homestead exemption that was erroneously granted and the year or years in which each exemption was granted; (3) set forth the erroneous exemption principal amount due and the interest amount and any penalty and administrative costs due; (4) inform the taxpayer that he or she may request a hearing within 30 days after service and may appeal the hearing officer's ruling to the circuit court; (5) inform the taxpayer that he or she may pay the erroneous exemption principal amount, plus interest and penalties, within 30 days after service; and (6) inform the taxpayer that, if the lien is recorded against the property, the amount of the lien will be adjusted to include the applicable recording fee and that fees for recording a release of the lien shall be incurred by the taxpayer. A lien shall not be filed pursuant to this Section if the taxpayer pays the erroneous exemption principal amount, plus penalties and interest, within 30 days of service of the notice of intent to record a lien.

(e) The notice of intent to record a lien shall also include a form that the taxpayer may return to the chief county assessment officer to request a hearing. The taxpayer may request a hearing by returning the form within 30 days after service. The hearing shall be held within 90 days after the taxpayer is served. The chief county assessment officer shall promulgate rules of service and procedure for the hearing. The chief county assessment officer must generally follow rules of evidence and practices that prevail in the county

circuit courts, but, because of the nature of these proceedings, the chief county assessment officer is not bound by those rules in all particulars. The chief county assessment officer shall appoint a hearing officer to oversee the hearing. The taxpayer shall be allowed to present evidence to the hearing officer at the hearing. After taking into consideration all the relevant testimony and evidence, the hearing officer shall make an administrative decision on whether the taxpayer was erroneously granted a homestead exemption for the taxable year in question. The taxpayer may appeal the hearing officer's ruling to the circuit court of the county where the property is located as a final administrative decision under the Administrative Review Law.

(f) A lien against the property imposed under this Section shall be filed with the county recorder of deeds, but may not be filed sooner than 60 days after the notice of intent to record a lien was delivered to the taxpayer if the taxpayer does not request a hearing, or until the conclusion of the hearing and all appeals if the taxpayer does request a hearing. If a lien is filed pursuant to this Section and the taxpayer received one or 2 erroneous homestead exemptions during any of the 3 collection years immediately prior to the current collection year in which the notice of discovery is served, then the erroneous exemption principal amount, plus 10% interest per annum or portion thereof from the date the erroneous exemption principal amount would have become due if properly included in the tax bill, shall be charged against the property by the chief county assessment officer. However, if a lien is filed pursuant to this Section and the taxpayer received 3 or more erroneous homestead exemptions during any of the 6 collection years immediately prior to the current collection year in which the notice of discovery is served, the erroneous exemption principal amount, plus a penalty of 50% of the total amount of the erroneous exemption principal amount for that property and 10% interest per annum or portion thereof from the date the erroneous exemption principal amount would have become due if properly included in the tax bill, shall be charged against the property by the chief county assessment officer. If a lien is filed pursuant to this Section, the taxpayer shall not be liable for interest that accrues between the date the notice of discovery is served and the date the lien is filed. Before recording the lien with the county recorder of deeds, the chief county assessment officer shall adjust the amount of the lien to add administrative costs, including but not limited to the applicable recording fee, to the total lien amount.

(g) If a person received an erroneous homestead exemption under Section 15-170 and: (1) the person was the spouse, child, grandchild, brother, sister, niece, or nephew of the previous taxpayer; and (2) the person received the property by bequest or inheritance; then the person is not liable for the penalties imposed under this Section for any year or years during which the chief county assessment officer did not require an annual application for the exemption or, in a county with 3,000,000 or more inhabitants, an application for renewal of a multi-year exemption pursuant to subsection (i) of Section 15-170, as the case may be. However, that person is responsible for any interest owed under subsection (f).

(h) If the erroneous homestead exemption was granted as a result of a clerical error or omission on the part of the chief county assessment officer, and if the taxpayer has paid the tax bills as received for the year in which the error occurred, then the interest and penalties authorized by this Section with respect to that homestead exemption shall not be chargeable to the taxpayer. However, nothing in this Section shall prevent the collection of the erroneous exemption principal amount due and owing.

(i) A lien under this Section is not valid as to (1) any bona fide purchaser for value without notice of the erroneous homestead exemption whose rights in and to the underlying parcel arose after the erroneous homestead exemption was granted but before the filing of the notice of lien; or (2) any mortgagee, judgment creditor, or other lienor whose rights in and to the underlying parcel arose before the filing of the notice of lien. A title insurance policy for the property that is issued by a title company licensed to do business in the State showing that the property is free and clear of any liens imposed under this Section shall be prima facie evidence that the taxpayer is without notice of the erroneous homestead exemption. Nothing in this Section shall be deemed to impair the rights of subsequent creditors and subsequent purchasers under Section 30 of the Conveyances Act.

(j) When a lien is filed against the property pursuant to this Section, the chief county assessment officer shall mail a copy of the lien to the person to whom the most recent tax bill was mailed and to the owner of record, and the outstanding liability created by such a lien is due and payable within 30 days after the mailing of the lien by the chief county assessment officer. This liability is deemed delinquent and shall bear interest beginning on the day after the due date at a rate of 1.5% per month or portion thereof. Payment shall be made to the county treasurer. Upon receipt of the full amount due, as determined by the chief county assessment officer, the county treasurer shall distribute the amount paid as provided in subsection (k). Upon presentment by the taxpayer to the chief county assessment officer of proof of payment of the total liability,

the chief county assessment officer shall provide in reasonable form a release of the lien. The release of the lien provided shall clearly inform the taxpayer that it is the responsibility of the taxpayer to record the lien release form with the county recorder of deeds and to pay any applicable recording fees.

(k) The county treasurer shall pay collected erroneous exemption principal amounts, pro rata, to the taxing districts, or their legal successors, that levied upon the subject property in the taxable year or years for which the erroneous homestead exemptions were granted, except as set forth in this Section. The county treasurer shall deposit collected penalties and interest into a special fund established by the county treasurer to offset the costs of administration of the provisions of this Section by the chief county assessment officer's office, as appropriated by the county board. If the costs of administration of this Section exceed the amount of interest and penalties collected in the special fund, the chief county assessor shall be reimbursed by each taxing district or their legal successors for those costs. Such costs shall be paid out of the funds collected by the county treasurer on behalf of each taxing district pursuant to this Section.

(l) The chief county assessment officer in a county with 3,000,000 or more inhabitants shall establish an amnesty period for all taxpayers owing any tax due to an erroneous homestead exemption granted in a tax year prior to the 2013 tax year. The amnesty period shall begin on the effective date of this amendatory Act of the 98th General Assembly and shall run through December 31, 2013. If, during the amnesty period, the taxpayer pays the entire arrearage of taxes due for tax years prior to 2013, the county clerk shall abate and not seek to collect any interest or penalties that may be applicable and shall not seek civil or criminal prosecution for any taxpayer for tax years prior to 2013. Failure to pay all such taxes due during the amnesty period established under this Section shall invalidate the amnesty period for that taxpayer.

The chief county assessment officer in a county with 3,000,000 or more inhabitants shall (i) mail notice of the amnesty period with the tax bills for the second installment of taxes for the 2012 assessment year and (ii) as soon as possible after the effective date of this amendatory Act of the 98th General Assembly, publish notice of the amnesty period in a newspaper of general circulation in the county. Notices shall include information on the amnesty period, its purpose, and the method by which to make payment.

Taxpayers who are a party to any criminal investigation or to any civil or criminal litigation that is pending in any circuit court or appellate court, or in the Supreme Court of this State, for nonpayment, delinquency, or fraud in relation to any property tax imposed by any taxing district located in the State on the effective date of this amendatory Act of the 98th General Assembly may not take advantage of the amnesty period.

A taxpayer who has claimed 3 or more homestead exemptions in error shall not be eligible for the amnesty period established under this subsection.

(m) Notwithstanding any other provision of law, for taxable years 2019 through 2023, in counties with 3,000,000 or more inhabitants, the chief county assessment officer shall, if he or she learns that a taxpayer who has been granted a senior citizens homestead exemption has died during the period to which the exemption applies, send a notice to the address on record for the owner of record of the property notifying the owner that the exemption will be terminated unless, within 90 days after the notice is sent, the chief county assessment officer is provided with a basis to continue the exemption. The notice shall be sent by first-class mail, in an envelope that bears on its front, in boldface red lettering that is at least one inch in size, the words "Notice of Exemption Termination"; however, if the taxpayer elects to receive the notice by email and provides an email address, then the notice shall be sent by email.

(35 ILCS 200/15-10)

Sec. 15-10. Exempt property; procedures for certification.

(a) All property granted an exemption by the Department pursuant to the requirements of Section 15-5 and described in the Sections following Section 15-30 and preceding Section 16-5, to the extent therein limited, is exempt from taxation. In order to maintain that exempt status, the titleholder or the owner of the beneficial interest of any property that is exempt must file with the chief county assessment officer, on or before January 31 of each year (May 31 in the case of property exempted by Section 15-170), an affidavit stating whether there has been any change in the ownership or use of the property, the status of the owner-resident, the satisfaction by a relevant hospital entity of the condition for an exemption under Section 15-86, or that a veteran with a disability who qualifies under Section 15-165 owned and used the property as of January 1 of that year. The nature of any change shall be stated in the affidavit. Failure to file an affidavit shall, in the discretion of the assessment officer, constitute cause to terminate the exemption of that property, notwithstanding any other provision of this Code. Owners of 5 or more such exempt parcels within a county may file a single annual affidavit in lieu of an affidavit for each parcel. The assessment officer, upon

request, shall furnish an affidavit form to the owners, in which the owner may state whether there has been any change in the ownership or use of the property or status of the owner or resident as of January 1 of that year. The owner of 5 or more exempt parcels shall list all the properties giving the same information for each parcel as required of owners who file individual affidavits.

(b) However, titleholders or owners of the beneficial interest in any property exempted under any of the following provisions are not required to submit an annual filing under this Section:

(1) Section 15-45 (burial grounds) in counties of less than 3,000,000 inhabitants and owned by a not-for-profit organization.

(2) Section 15-40.

(3) Section 15-50 (United States property).

(c) If there is a change in use or ownership, however, notice must be filed pursuant to Section 15-20.

(d) An application for homestead exemptions shall be filed as provided in Section 15-170 (senior citizens homestead exemption), Section 15-172 (low-income senior citizens assessment freeze homestead exemption), and Sections 15-175 (general homestead exemption), 15-176 (general alternative homestead exemption), and 15-177 (long-time occupant homestead exemption), respectively.

(e) For purposes of determining satisfaction of the condition for an exemption under Section 15-86:

(1) The "year for which exemption is sought" is the year prior to the year in which the affidavit is due.

(2) The "hospital year" is the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospitals in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year prior to the year in which the affidavit is due. However, if that fiscal year ends 3 months or less before the date on which the affidavit is due, the relevant hospital entity shall file an interim affidavit based on the currently available information, and shall file a supplemental affidavit within 90 days of date on which the application was due, if the information in the relevant hospital entity's audited financial statements changes the interim affidavit's statement concerning the entity's compliance with the calculation required by Section 15-86.

(3) The affidavit shall be accompanied by an exhibit prepared by the relevant hospital entity showing (A) the value of the relevant hospital entity's services and activities, if any, under items (1) through (7) of subsection (e) of Section 15-86, stated separately for each item, and (B) the value relating to the relevant hospital entity's estimated property tax liability under paragraphs (A), (B), and (C) of item (1) of subsection (g) of Section 15-86; under paragraphs (A), (B), and (C) of item (2) of subsection (g) of Section 15-86; and under item (3) of subsection (g) of Section 15-86.

(35 ILCS 200/15-168)

Sec. 15-168. Homestead exemption for persons with disabilities.

(a) Beginning with taxable year 2007, an annual homestead exemption is granted to persons with disabilities in the amount of \$2,000, except as provided in subsection (c), to be deducted from the property's value as equalized or assessed by the Department of Revenue. The person with a disability shall receive the homestead exemption upon meeting the following requirements:

(1) The property must be occupied as the primary residence by the person with a disability.

(2) The person with a disability must be liable for paying the real estate taxes on the property.

(3) The person with a disability must be an owner of record of the property or have a legal or equitable interest in the property as evidenced by a written instrument. In the case of a leasehold interest in property, the lease must be for a single family residence.

A person who has a disability during the taxable year is eligible to apply for this homestead exemption during that taxable year. Application must be made during the application period in effect for the county of residence. If a homestead exemption has been granted under this Section and the person awarded the exemption subsequently becomes a resident of a facility licensed under the Nursing Home Care Act, the Specialized Mental Health Rehabilitation Act of 2013, the ID/DD Community Care Act, or the MC/DD Act, then the exemption shall continue (i) so long as the residence continues to be occupied by the qualifying person's spouse or (ii) if the residence remains unoccupied but is still owned by the person qualified for the homestead exemption.

(b) For the purposes of this Section, "person with a disability" means a person unable to engage in any substantial gainful activity by reason of a medically determinable physical or mental impairment which can be expected to result in death or has lasted or can be expected to last for a continuous period of not less than 12 months. Persons with disabilities filing claims under this Act shall submit proof of disability in such form

and manner as the Department shall by rule and regulation prescribe. Proof that a claimant is eligible to receive disability benefits under the Federal Social Security Act shall constitute proof of disability for purposes of this Act. Issuance of an Illinois Person with a Disability Identification Card stating that the claimant is under a Class 2 disability, as defined in Section 4A of the Illinois Identification Card Act, shall constitute proof that the person named thereon is a person with a disability for purposes of this Act. A person with a disability not covered under the Federal Social Security Act and not presenting an Illinois Person with a Disability Identification Card stating that the claimant is under a Class 2 disability shall be examined by a physician, optometrist (if the person qualifies because of a visual disability), advanced practice registered nurse, or physician assistant designated by the Department, and his status as a person with a disability determined using the same standards as used by the Social Security Administration. The costs of any required examination shall be borne by the claimant.

(c) For land improved with (i) an apartment building owned and operated as a cooperative or (ii) a life care facility as defined under Section 2 of the Life Care Facilities Act that is considered to be a cooperative, the maximum reduction from the value of the property, as equalized or assessed by the Department, shall be multiplied by the number of apartments or units occupied by a person with a disability. The person with a disability shall receive the homestead exemption upon meeting the following requirements:

(1) The property must be occupied as the primary residence by the person with a disability.

(2) The person with a disability must be liable by contract with the owner or owners of record for paying the apportioned property taxes on the property of the cooperative or life care facility. In the case of a life care facility, the person with a disability must be liable for paying the apportioned property taxes under a life care contract as defined in Section 2 of the Life Care Facilities Act.

(3) The person with a disability must be an owner of record of a legal or equitable interest in the cooperative apartment building. A leasehold interest does not meet this requirement.

If a homestead exemption is granted under this subsection, the cooperative association or management firm shall credit the savings resulting from the exemption to the apportioned tax liability of the qualifying person with a disability. The chief county assessment officer may request reasonable proof that the association or firm has properly credited the exemption. A person who willfully refuses to credit an exemption to the qualified person with a disability is guilty of a Class B misdemeanor.

(d) The chief county assessment officer shall determine the eligibility of property to receive the homestead exemption according to guidelines established by the Department. After a person has received an exemption under this Section, an annual verification of eligibility for the exemption shall be mailed to the taxpayer.

In counties with fewer than 3,000,000 inhabitants, the chief county assessment officer shall provide to each person granted a homestead exemption under this Section a form to designate any other person to receive a duplicate of any notice of delinquency in the payment of taxes assessed and levied under this Code on the person's qualifying property. The duplicate notice shall be in addition to the notice required to be provided to the person receiving the exemption and shall be given in the manner required by this Code. The person filing the request for the duplicate notice shall pay an administrative fee of \$5 to the chief county assessment officer. The assessment officer shall then file the executed designation with the county collector, who shall issue the duplicate notices as indicated by the designation. A designation may be rescinded by the person with a disability in the manner required by the chief county assessment officer.

(d-5) Notwithstanding any other provision of law, each chief county assessment officer may approve this exemption for the 2020 taxable year, without application, for any property that was approved for this exemption for the 2019 taxable year, provided that:

(1) the county board has declared a local disaster as provided in the Illinois Emergency Management Agency Act related to the COVID-19 public health emergency;

(2) the owner of record of the property as of January 1, 2020 is the same as the owner of record of the property as of January 1, 2019;

(3) the exemption for the 2019 taxable year has not been determined to be an erroneous exemption as defined by this Code; and

(4) the applicant for the 2019 taxable year has not asked for the exemption to be removed for the 2019 or 2020 taxable years.

(d-10) Notwithstanding any other provision of law, each chief county assessment officer may approve this exemption for the 2021 taxable year, without application, for any property that was approved for this exemption for the 2020 taxable year, if:

(1) the county board has declared a local disaster as provided in the Illinois Emergency Management Agency Act related to the COVID-19 public health emergency;

(2) the owner of record of the property as of January 1, 2021 is the same as the owner of record of the property as of January 1, 2020;

(3) the exemption for the 2020 taxable year has not been determined to be an erroneous exemption as defined by this Code; and

(4) the taxpayer for the 2020 taxable year has not asked for the exemption to be removed for the 2020 or 2021 taxable years.

(d-15) For taxable years 2022 through 2027, in any county of more than 3,000,000 residents, and in any other county where the county board has authorized such action by ordinance or resolution, a chief county assessment officer may renew this exemption for any person who applied for the exemption and presented proof of eligibility, as described in subsection (b) above, without an annual application as required under subsection (d) above. A chief county assessment officer shall not automatically renew an exemption under this subsection if: the physician, advanced practice registered nurse, optometrist, or physician assistant who examined the claimant determined that the disability is not expected to continue for 12 months or more; the exemption has been deemed erroneous since the last application; or the claimant has reported their ineligibility to receive the exemption. A chief county assessment officer who automatically renews an exemption under this subsection shall notify a person of a subsequent determination not to automatically renew that person's exemption and shall provide that person with an application to renew the exemption.

(e) A taxpayer who claims an exemption under Section 15-165 or 15-169 may not claim an exemption under this Section.

Sec. 15-169. Homestead exemption for veterans with disabilities.

(a) Beginning with taxable year 2007, an annual homestead exemption, limited to the amounts set forth in subsections (b) and (b-3), is granted for property that is used as a qualified residence by a veteran with a disability.

(b) For taxable years prior to 2015, the amount of the exemption under this Section is as follows:

(1) for veterans with a service-connected disability of at least (i) 75% for exemptions granted in taxable years 2007 through 2009 and (ii) 70% for exemptions granted in taxable year 2010 and each taxable year thereafter, as certified by the United States Department of Veterans Affairs, the annual exemption is \$5,000; and

(2) for veterans with a service-connected disability of at least 50%, but less than (i) 75% for exemptions granted in taxable years 2007 through 2009 and (ii) 70% for exemptions granted in taxable year 2010 and each taxable year thereafter, as certified by the United States Department of Veterans Affairs, the annual exemption is \$2,500.

(b-3) For taxable years 2015 and thereafter:

(1) if the veteran has a service connected disability of 30% or more but less than 50%, as certified by the United States Department of Veterans Affairs, then the annual exemption is \$2,500;

(2) if the veteran has a service connected disability of 50% or more but less than 70%, as certified by the United States Department of Veterans Affairs, then the annual exemption is \$5,000; ~~and~~

(3) if the veteran has a service connected disability of 70% or more, as certified by the United States Department of Veterans Affairs, then the property is exempt from taxation under this Code; and

(4) for taxable year 2023 and thereafter, if the taxpayer is the surviving spouse of a veteran whose death was determined to be service-connected and who is certified by the United States Department of Veterans Affairs as a recipient of dependency and indemnity compensation under federal law, then the property is also exempt from taxation under this Code.

(b-5) If a homestead exemption is granted under this Section and the person awarded the exemption subsequently becomes a resident of a facility licensed under the Nursing Home Care Act or a facility operated by the United States Department of Veterans Affairs, then the exemption shall continue (i) so long as the residence continues to be occupied by the qualifying person's spouse or (ii) if the residence remains unoccupied but is still owned by the person who qualified for the homestead exemption.

(c) The tax exemption under this Section carries over to the benefit of the veteran's surviving spouse as long as the spouse holds the legal or beneficial title to the homestead, permanently resides thereon, and

does not remarry. If the surviving spouse sells the property, an exemption not to exceed the amount granted from the most recent ad valorem tax roll may be transferred to his or her new residence as long as it is used as his or her primary residence and he or she does not remarry.

As used in this subsection (c):

(1) for taxable years prior to 2015, "surviving spouse" means the surviving spouse of a veteran who obtained an exemption under this Section prior to his or her death;

(2) for taxable years 2015 through 2022, "surviving spouse" means (i) the surviving spouse of a veteran who obtained an exemption under this Section prior to his or her death and (ii) the surviving spouse of a veteran who was killed in the line of duty at any time prior to the expiration of the application period in effect for the exemption for the taxable year for which the exemption is sought; and

(3) for taxable year 2023 and thereafter, "surviving spouse" means: (i) the surviving spouse of a veteran who obtained the exemption under this Section prior to his or her death; (ii) the surviving spouse of a veteran who was killed in the line of duty at any time prior to the expiration of the application period in effect for the exemption for the taxable year for which the exemption is sought; (iii) the surviving spouse of a veteran who did not obtain an exemption under this Section before death, but who would have qualified for the exemption under this Section in the taxable year for which the exemption is sought if he or she had survived, and whose surviving spouse has been a resident of Illinois from the time of the veteran's death through the taxable year for which the exemption is sought; and (iv) the surviving spouse of a veteran whose death was determined to be service-connected, but who would not otherwise qualify under items (i), (ii), or (iii), if the spouse (A) is certified by the United States Department of Veterans Affairs as a recipient of dependency and indemnity compensation under federal law at any time prior to the expiration of the application period in effect for the exemption for the taxable year for which the exemption is sought and (B) remains eligible for that dependency and indemnity compensation as of January 1 of the taxable year for which the exemption is sought.

(c-1) Beginning with taxable year 2015, nothing in this Section shall require the veteran to have qualified for or obtained the exemption before death if the veteran was killed in the line of duty.

(d) The exemption under this Section applies for taxable year 2007 and thereafter. A taxpayer who claims an exemption under Section 15-165 or 15-168 may not claim an exemption under this Section.

(e) Except as otherwise provided in this subsection (e), each ~~Each~~ taxpayer who has been granted an exemption under this Section must reapply on an annual basis. Application must be made during the application period in effect for the county of his or her residence. The assessor or chief county assessment officer may determine the eligibility of residential property to receive the homestead exemption provided by this Section by application, visual inspection, questionnaire, or other reasonable methods. The determination must be made in accordance with guidelines established by the Department.

On and after the effective date of this amendatory Act of the 102nd General Assembly, if a veteran has a combined service connected disability rating of 100% and is deemed to be permanently and totally disabled, as certified by the United States Department of Veterans Affairs, the taxpayer who has been granted an exemption under this Section shall no longer be required to reapply for the exemption on an annual basis, and the exemption shall be in effect for as long as the exemption would otherwise be permitted under this Section.

(e-1) If the person qualifying for the exemption does not occupy the qualified residence as of January 1 of the taxable year, the exemption granted under this Section shall be prorated on a monthly basis. The prorated exemption shall apply beginning with the first complete month in which the person occupies the qualified residence.

(e-5) Notwithstanding any other provision of law, each chief county assessment officer may approve this exemption for the 2020 taxable year, without application, for any property that was approved for this exemption for the 2019 taxable year, provided that:

(1) the county board has declared a local disaster as provided in the Illinois Emergency Management Agency Act related to the COVID-19 public health emergency;

(2) the owner of record of the property as of January 1, 2020 is the same as the owner of record of the property as of January 1, 2019;

(3) the exemption for the 2019 taxable year has not been determined to be an erroneous exemption as defined by this Code; and

(4) the applicant for the 2019 taxable year has not asked for the exemption to be removed for the 2019 or 2020 taxable years.

Nothing in this subsection shall preclude a veteran whose service connected disability rating has changed since the 2019 exemption was granted from applying for the exemption based on the subsequent service connected disability rating.

(e-10) Notwithstanding any other provision of law, each chief county assessment officer may approve this exemption for the 2021 taxable year, without application, for any property that was approved for this exemption for the 2020 taxable year, if:

(1) the county board has declared a local disaster as provided in the Illinois Emergency Management Agency Act related to the COVID-19 public health emergency;

(2) the owner of record of the property as of January 1, 2021 is the same as the owner of record of the property as of January 1, 2020;

(3) the exemption for the 2020 taxable year has not been determined to be an erroneous exemption as defined by this Code; and

(4) the taxpayer for the 2020 taxable year has not asked for the exemption to be removed for the 2020 or 2021 taxable years.

Nothing in this subsection shall preclude a veteran whose service connected disability rating has changed since the 2020 exemption was granted from applying for the exemption based on the subsequent service connected disability rating.

(f) For the purposes of this Section:

"Qualified residence" means real property, but less any portion of that property that is used for commercial purposes, with an equalized assessed value of less than \$250,000 that is the primary residence of a veteran with a disability. Property rented for more than 6 months is presumed to be used for commercial purposes.

"Veteran" means an Illinois resident who has served as a member of the United States Armed Forces on active duty or State active duty, a member of the Illinois National Guard, or a member of the United States Reserve Forces and who has received an honorable discharge.

Sec. 15-170. Senior citizens homestead exemption.

(a) An annual homestead exemption limited, except as described here with relation to cooperatives or life care facilities, to a maximum reduction set forth below from the property's value, as equalized or assessed by the Department, is granted for property that is occupied as a residence by a person 65 years of age or older who is liable for paying real estate taxes on the property and is an owner of record of the property or has a legal or equitable interest therein as evidenced by a written instrument, except for a leasehold interest, other than a leasehold interest of land on which a single family residence is located, which is occupied as a residence by a person 65 years or older who has an ownership interest therein, legal, equitable or as a lessee, and on which he or she is liable for the payment of property taxes. Before taxable year 2004, the maximum reduction shall be \$2,500 in counties with 3,000,000 or more inhabitants and \$2,000 in all other counties. For taxable years 2004 through 2005, the maximum reduction shall be \$3,000 in all counties. For taxable years 2006 and 2007, the maximum reduction shall be \$3,500. For taxable years 2008 through 2011, the maximum reduction is \$4,000 in all counties. For taxable year 2012, the maximum reduction is \$5,000 in counties with 3,000,000 or more inhabitants and \$4,000 in all other counties. For taxable years 2013 through 2016, the maximum reduction is \$5,000 in all counties. For taxable years 2017 through 2022 and thereafter, the maximum reduction is \$8,000 in counties with 3,000,000 or more inhabitants and \$5,000 in all other counties. For taxable years 2023 and thereafter, the maximum reduction is \$8,000 in counties with 3,000,000 or more inhabitants and counties that are contiguous to a county of 3,000,000 or more inhabitants and \$5,000 in all other counties.

(b) For land improved with an apartment building owned and operated as a cooperative, the maximum reduction from the value of the property, as equalized by the Department, shall be multiplied by the number of apartments or units occupied by a person 65 years of age or older who is liable, by contract with the owner or owners of record, for paying property taxes on the property and is an owner of record of a legal or equitable interest in the cooperative apartment building, other than a leasehold interest. For land improved with a life care facility, the maximum reduction from the value of the property, as equalized by the Department, shall be multiplied by the number of apartments or units occupied by persons 65 years of age or older, irrespective of any legal, equitable, or leasehold interest in the facility, who are liable, under a contract

with the owner or owners of record of the facility, for paying property taxes on the property. In a cooperative or a life care facility where a homestead exemption has been granted, the cooperative association or the management firm of the cooperative or facility shall credit the savings resulting from that exemption only to the apportioned tax liability of the owner or resident who qualified for the exemption. Any person who willfully refuses to so credit the savings shall be guilty of a Class B misdemeanor. Under this Section and Sections 15-175, 15-176, and 15-177, "life care facility" means a facility, as defined in Section 2 of the Life Care Facilities Act, with which the applicant for the homestead exemption has a life care contract as defined in that Act.

(c) When a homestead exemption has been granted under this Section and the person qualifying subsequently becomes a resident of a facility licensed under the Assisted Living and Shared Housing Act, the Nursing Home Care Act, the Specialized Mental Health Rehabilitation Act of 2013, the ID/DD Community Care Act, or the MC/DD Act, the exemption shall continue so long as the residence continues to be occupied by the qualifying person's spouse if the spouse is 65 years of age or older, or if the residence remains unoccupied but is still owned by the person qualified for the homestead exemption.

(d) A person who will be 65 years of age during the current assessment year shall be eligible to apply for the homestead exemption during that assessment year. Application shall be made during the application period in effect for the county of his residence.

(e) Beginning with assessment year 2003, for taxes payable in 2004, property that is first occupied as a residence after January 1 of any assessment year by a person who is eligible for the senior citizens homestead exemption under this Section must be granted a pro-rata exemption for the assessment year. The amount of the pro-rata exemption is the exemption allowed in the county under this Section divided by 365 and multiplied by the number of days during the assessment year the property is occupied as a residence by a person eligible for the exemption under this Section. The chief county assessment officer must adopt reasonable procedures to establish eligibility for this pro-rata exemption.

(f) The assessor or chief county assessment officer may determine the eligibility of a life care facility to receive the benefits provided by this Section, by affidavit, application, visual inspection, questionnaire or other reasonable methods in order to insure that the tax savings resulting from the exemption are credited by the management firm to the apportioned tax liability of each qualifying resident. The assessor may request reasonable proof that the management firm has so credited the exemption.

(g) The chief county assessment officer of each county with less than 3,000,000 inhabitants shall provide to each person allowed a homestead exemption under this Section a form to designate any other person to receive a duplicate of any notice of delinquency in the payment of taxes assessed and levied under this Code on the property of the person receiving the exemption. The duplicate notice shall be in addition to the notice required to be provided to the person receiving the exemption, and shall be given in the manner required by this Code. The person filing the request for the duplicate notice shall pay a fee of \$5 to cover administrative costs to the supervisor of assessments, who shall then file the executed designation with the county collector. Notwithstanding any other provision of this Code to the contrary, the filing of such an executed designation requires the county collector to provide duplicate notices as indicated by the designation. A designation may be rescinded by the person who executed such designation at any time, in the manner and form required by the chief county assessment officer.

(h) The assessor or chief county assessment officer may determine the eligibility of residential property to receive the homestead exemption provided by this Section by application, visual inspection, questionnaire or other reasonable methods. The determination shall be made in accordance with guidelines established by the Department.

(i) In counties with 3,000,000 or more inhabitants, for taxable years 2010 through 2018, and beginning again in taxable year 2024, each taxpayer who has been granted an exemption under this Section must reapply on an annual basis.

If a reapplication is required, then the chief county assessment officer shall mail the application to the taxpayer at least 60 days prior to the last day of the application period for the county.

For taxable years 2019 through 2023, in counties with 3,000,000 or more inhabitants, a taxpayer who has been granted an exemption under this Section need not reapply. However, if the property ceases to be qualified for the exemption under this Section in any year for which a reapplication is not required under this Section, then the owner of record of the property shall notify the chief county assessment officer that the property is no longer qualified. In addition, for taxable years 2019 through 2023, the chief county assessment officer of a county with 3,000,000 or more inhabitants shall enter into an intergovernmental agreement with the county clerk of that county and the Department of Public Health, as well as any other

appropriate governmental agency, to obtain information that documents the death of a taxpayer who has been granted an exemption under this Section. Notwithstanding any other provision of law, the county clerk and the Department of Public Health shall provide that information to the chief county assessment officer. The Department of Public Health shall supply this information no less frequently than every calendar quarter. Information concerning the death of a taxpayer may be shared with the county treasurer. The chief county assessment officer shall also enter into a data exchange agreement with the Social Security Administration or its agent to obtain access to the information regarding deaths in possession of the Social Security Administration. The chief county assessment officer shall, subject to the notice requirements under subsection (m) of Section 9-275, terminate the exemption under this Section if the information obtained indicates that the property is no longer qualified for the exemption. In counties with 3,000,000 or more inhabitants, the assessor and the county recorder of deeds shall establish policies and practices for the regular exchange of information for the purpose of alerting the assessor whenever the transfer of ownership of any property receiving an exemption under this Section has occurred. When such a transfer occurs, the assessor shall mail a notice to the new owner of the property (i) informing the new owner that the exemption will remain in place through the year of the transfer, after which it will be canceled, and (ii) providing information pertaining to the rules for reapplying for the exemption if the owner qualifies. In counties with 3,000,000 or more inhabitants, the chief county assessment official shall conduct audits of all exemptions granted under this Section no later than December 31, 2022 and no later than December 31, 2024. The audit shall be designed to ascertain whether any senior homestead exemptions have been granted erroneously. If it is determined that a senior homestead exemption has been erroneously applied to a property, the chief county assessment officer shall make use of the appropriate provisions of Section 9-275 in relation to the property that received the erroneous homestead exemption.

(j) In counties with less than 3,000,000 inhabitants, the county board may by resolution provide that if a person has been granted a homestead exemption under this Section, the person qualifying need not reapply for the exemption.

In counties with less than 3,000,000 inhabitants, if the assessor or chief county assessment officer requires annual application for verification of eligibility for an exemption once granted under this Section, the application shall be mailed to the taxpayer.

(l) The assessor or chief county assessment officer shall notify each person who qualifies for an exemption under this Section that the person may also qualify for deferral of real estate taxes under the Senior Citizens Real Estate Tax Deferral Act. The notice shall set forth the qualifications needed for deferral of real estate taxes, the address and telephone number of county collector, and a statement that applications for deferral of real estate taxes may be obtained from the county collector.

(m) Notwithstanding Sections 6 and 8 of the State Mandates Act, no reimbursement by the State is required for the implementation of any mandate created by this Section.

Sec. 15-172. Low-Income Senior Citizens Assessment Freeze Homestead Exemption.

(a) This Section may be cited as the Low-Income Senior Citizens Assessment Freeze Homestead Exemption.

(b) As used in this Section:

"Applicant" means an individual who has filed an application under this Section.

"Base amount" means the base year equalized assessed value of the residence plus the first year's equalized assessed value of any added improvements which increased the assessed value of the residence after the base year.

"Base year" means the taxable year prior to the taxable year for which the applicant first qualifies and applies for the exemption provided that in the prior taxable year the property was improved with a permanent structure that was occupied as a residence by the applicant who was liable for paying real property taxes on the property and who was either (i) an owner of record of the property or had legal or equitable interest in the property as evidenced by a written instrument or (ii) had a legal or equitable interest as a lessee in the parcel of property that was single family residence. If in any subsequent taxable year for which the applicant applies and qualifies for the exemption the equalized assessed value of the residence is less than the equalized assessed value in the existing base year (provided that such equalized assessed value is not based on an assessed value that results from a temporary irregularity in the property that reduces the assessed value for one or more taxable years), then that subsequent taxable year shall become the base year until a new base year is established under the terms of this paragraph. For taxable year 1999 only, the Chief

County Assessment Officer shall review (i) all taxable years for which the applicant applied and qualified for the exemption and (ii) the existing base year. The assessment officer shall select as the new base year the year with the lowest equalized assessed value. An equalized assessed value that is based on an assessed value that results from a temporary irregularity in the property that reduces the assessed value for one or more taxable years shall not be considered the lowest equalized assessed value. The selected year shall be the base year for taxable year 1999 and thereafter until a new base year is established under the terms of this paragraph.

"Chief County Assessment Officer" means the County Assessor or Supervisor of Assessments of the county in which the property is located.

"Equalized assessed value" means the assessed value as equalized by the Illinois Department of Revenue.

"Household" means the applicant, the spouse of the applicant, and all persons using the residence of the applicant as their principal place of residence.

"Household income" means the combined income of the members of a household for the calendar year preceding the taxable year.

"Income" has the same meaning as provided in Section 3.07 of the Senior Citizens and Persons with Disabilities Property Tax Relief Act, except that, beginning in assessment year 2001, "income" does not include veteran's benefits.

"Internal Revenue Code of 1986" means the United States Internal Revenue Code of 1986 or any successor law or laws relating to federal income taxes in effect for the year preceding the taxable year.

"Life care facility that qualifies as a cooperative" means a facility as defined in Section 2 of the Life Care Facilities Act.

"Maximum income limitation" means:

- (1) \$35,000 prior to taxable year 1999;
- (2) \$40,000 in taxable years 1999 through 2003;
- (3) \$45,000 in taxable years 2004 through 2005;
- (4) \$50,000 in taxable years 2006 and 2007;
- (5) \$55,000 in taxable years 2008 through 2016;
- (6) for taxable year 2017, (i) \$65,000 for qualified property located in a county with 3,000,000 or more inhabitants and (ii) \$55,000 for qualified property located in a county with fewer than 3,000,000 inhabitants; and
- (7) for taxable years 2018 and thereafter, \$65,000 for all qualified property.

As an alternative income valuation, a homeowner who is enrolled in any of the following programs may be presumed to have household income that does not exceed the maximum income limitation for that tax year as required by this Section: Aid to the Aged, Blind or Disabled (AABD) Program or the Supplemental Nutrition Assistance Program (SNAP), both of which are administered by the Department of Human Services; the Low Income Home Energy Assistance Program (LIHEAP), which is administered by the Department of Commerce and Economic Opportunity; The Benefit Access program, which is administered by the Department on Aging; and the Senior Citizens Real Estate Tax Deferral Program.

A chief county assessment officer may indicate that he or she has verified an applicant's income eligibility for this exemption but may not report which program or programs, if any, enroll the applicant. Release of personal information submitted pursuant to this Section shall be deemed an unwarranted invasion of personal privacy under the Freedom of Information Act.

"Residence" means the principal dwelling place and appurtenant structures used for residential purposes in this State occupied on January 1 of the taxable year by a household and so much of the surrounding land, constituting the parcel upon which the dwelling place is situated, as is used for residential purposes. If the Chief County Assessment Officer has established a specific legal description for a portion of property constituting the residence, then that portion of property shall be deemed the residence for the purposes of this Section.

"Taxable year" means the calendar year during which ad valorem property taxes payable in the next succeeding year are levied.

(c) Beginning in taxable year 1994, a low-income senior citizens assessment freeze homestead exemption is granted for real property that is improved with a permanent structure that is occupied as a residence by an applicant who (i) is 65 years of age or older during the taxable year, (ii) has a household income that does not exceed the maximum income limitation, (iii) is liable for paying real property taxes on the property, and (iv) is an owner of record of the property or has a legal or equitable interest in the property

as evidenced by a written instrument. This homestead exemption shall also apply to a leasehold interest in a parcel of property improved with a permanent structure that is a single family residence that is occupied as a residence by a person who (i) is 65 years of age or older during the taxable year, (ii) has a household income that does not exceed the maximum income limitation, (iii) has a legal or equitable ownership interest in the property as lessee, and (iv) is liable for the payment of real property taxes on that property.

In counties of 3,000,000 or more inhabitants, the amount of the exemption for all taxable years is the equalized assessed value of the residence in the taxable year for which application is made minus the base amount. In all other counties, the amount of the exemption is as follows: (i) through taxable year 2005 and for taxable year 2007 and thereafter, the amount of this exemption shall be the equalized assessed value of the residence in the taxable year for which application is made minus the base amount; and (ii) for taxable year 2006, the amount of the exemption is as follows:

(1) For an applicant who has a household income of \$45,000 or less, the amount of the exemption is the equalized assessed value of the residence in the taxable year for which application is made minus the base amount.

(2) For an applicant who has a household income exceeding \$45,000 but not exceeding \$46,250, the amount of the exemption is (i) the equalized assessed value of the residence in the taxable year for which application is made minus the base amount (ii) multiplied by 0.8.

(3) For an applicant who has a household income exceeding \$46,250 but not exceeding \$47,500, the amount of the exemption is (i) the equalized assessed value of the residence in the taxable year for which application is made minus the base amount (ii) multiplied by 0.6.

(4) For an applicant who has a household income exceeding \$47,500 but not exceeding \$48,750, the amount of the exemption is (i) the equalized assessed value of the residence in the taxable year for which application is made minus the base amount (ii) multiplied by 0.4.

(5) For an applicant who has a household income exceeding \$48,750 but not exceeding \$50,000, the amount of the exemption is (i) the equalized assessed value of the residence in the taxable year for which application is made minus the base amount (ii) multiplied by 0.2.

When the applicant is a surviving spouse of an applicant for a prior year for the same residence for which an exemption under this Section has been granted, the base year and base amount for that residence are the same as for the applicant for the prior year.

Each year at the time the assessment books are certified to the County Clerk, the Board of Review or Board of Appeals shall give to the County Clerk a list of the assessed values of improvements on each parcel qualifying for this exemption that were added after the base year for this parcel and that increased the assessed value of the property.

In the case of land improved with an apartment building owned and operated as a cooperative or a building that is a life care facility that qualifies as a cooperative, the maximum reduction from the equalized assessed value of the property is limited to the sum of the reductions calculated for each unit occupied as a residence by a person or persons (i) 65 years of age or older, (ii) with a household income that does not exceed the maximum income limitation, (iii) who is liable, by contract with the owner or owners of record, for paying real property taxes on the property, and (iv) who is an owner of record of a legal or equitable interest in the cooperative apartment building, other than a leasehold interest. In the instance of a cooperative where a homestead exemption has been granted under this Section, the cooperative association or its management firm shall credit the savings resulting from that exemption only to the apportioned tax liability of the owner who qualified for the exemption. Any person who willfully refuses to credit that savings to an owner who qualifies for the exemption is guilty of a Class B misdemeanor.

When a homestead exemption has been granted under this Section and an applicant then becomes a resident of a facility licensed under the Assisted Living and Shared Housing Act, the Nursing Home Care Act, the Specialized Mental Health Rehabilitation Act of 2013, the ID/DD Community Care Act, or the MC/DD Act, the exemption shall be granted in subsequent years so long as the residence (i) continues to be occupied by the qualified applicant's spouse or (ii) if remaining unoccupied, is still owned by the qualified applicant for the homestead exemption.

Beginning January 1, 1997, when an individual dies who would have qualified for an exemption under this Section, and the surviving spouse does not independently qualify for this exemption because of age, the exemption under this Section shall be granted to the surviving spouse for the taxable year preceding and the taxable year of the death, provided that, except for age, the surviving spouse meets all other qualifications for the granting of this exemption for those years.

When married persons maintain separate residences, the exemption provided for in this Section may be claimed by only one of such persons and for only one residence.

For taxable year 1994 only, in counties having less than 3,000,000 inhabitants, to receive the exemption, a person shall submit an application by February 15, 1995 to the Chief County Assessment Officer of the county in which the property is located. In counties having 3,000,000 or more inhabitants, for taxable year 1994 and all subsequent taxable years, to receive the exemption, a person may submit an application to the Chief County Assessment Officer of the county in which the property is located during such period as may be specified by the Chief County Assessment Officer. The Chief County Assessment Officer in counties of 3,000,000 or more inhabitants shall annually give notice of the application period by mail or by publication. In counties having less than 3,000,000 inhabitants, beginning with taxable year 1995 and thereafter, to receive the exemption, a person shall submit an application by July 1 of each taxable year to the Chief County Assessment Officer of the county in which the property is located. A county may, by ordinance, establish a date for submission of applications that is different than July 1. The applicant shall submit with the application an affidavit of the applicant's total household income, age, marital status (and if married the name and address of the applicant's spouse, if known), and principal dwelling place of members of the household on January 1 of the taxable year. The Department shall establish, by rule, a method for verifying the accuracy of affidavits filed by applicants under this Section, and the Chief County Assessment Officer may conduct audits of any taxpayer claiming an exemption under this Section to verify that the taxpayer is eligible to receive the exemption. Each application shall contain or be verified by a written declaration that it is made under the penalties of perjury. A taxpayer's signing a fraudulent application under this Act is perjury, as defined in Section 32-2 of the Criminal Code of 2012. The applications shall be clearly marked as applications for the Low-Income Senior Citizens Assessment Freeze Homestead Exemption and must contain a notice that any taxpayer who receives the exemption is subject to an audit by the Chief County Assessment Officer.

Notwithstanding any other provision to the contrary, in counties having fewer than 3,000,000 inhabitants, if an applicant fails to file the application required by this Section in a timely manner and this failure to file is due to a mental or physical condition sufficiently severe so as to render the applicant incapable of filing the application in a timely manner, the Chief County Assessment Officer may extend the filing deadline for a period of 30 days after the applicant regains the capability to file the application, but in no case may the filing deadline be extended beyond 3 months of the original filing deadline. In order to receive the extension provided in this paragraph, the applicant shall provide the Chief County Assessment Officer with a signed statement from the applicant's physician, advanced practice registered nurse, or physician assistant stating the nature and extent of the condition, that, in the physician's, advanced practice registered nurse's, or physician assistant's opinion, the condition was so severe that it rendered the applicant incapable of filing the application in a timely manner, and the date on which the applicant regained the capability to file the application.

Beginning January 1, 1998, notwithstanding any other provision to the contrary, in counties having fewer than 3,000,000 inhabitants, if an applicant fails to file the application required by this Section in a timely manner and this failure to file is due to a mental or physical condition sufficiently severe so as to render the applicant incapable of filing the application in a timely manner, the Chief County Assessment Officer may extend the filing deadline for a period of 3 months. In order to receive the extension provided in this paragraph, the applicant shall provide the Chief County Assessment Officer with a signed statement from the applicant's physician, advanced practice registered nurse, or physician assistant stating the nature and extent of the condition, and that, in the physician's, advanced practice registered nurse's, or physician assistant's opinion, the condition was so severe that it rendered the applicant incapable of filing the application in a timely manner.

In counties having less than 3,000,000 inhabitants, if an applicant was denied an exemption in taxable year 1994 and the denial occurred due to an error on the part of an assessment official, or his or her agent or employee, then beginning in taxable year 1997 the applicant's base year, for purposes of determining the amount of the exemption, shall be 1993 rather than 1994. In addition, in taxable year 1997, the applicant's exemption shall also include an amount equal to (i) the amount of any exemption denied to the applicant in taxable year 1995 as a result of using 1994, rather than 1993, as the base year, (ii) the amount of any exemption denied to the applicant in taxable year 1996 as a result of using 1994, rather than 1993, as the base year, and (iii) the amount of the exemption erroneously denied for taxable year 1994.

For purposes of this Section, a person who will be 65 years of age during the current taxable year shall be eligible to apply for the homestead exemption during that taxable year. Application shall be made during the application period in effect for the county of his or her residence.

The Chief County Assessment Officer may determine the eligibility of a life care facility that qualifies as a cooperative to receive the benefits provided by this Section by use of an affidavit, application, visual inspection, questionnaire, or other reasonable method in order to insure that the tax savings resulting from the exemption are credited by the management firm to the apportioned tax liability of each qualifying resident. The Chief County Assessment Officer may request reasonable proof that the management firm has so credited that exemption.

Except as provided in this Section, all information received by the chief county assessment officer or the Department from applications filed under this Section, or from any investigation conducted under the provisions of this Section, shall be confidential, except for official purposes or pursuant to official procedures for collection of any State or local tax or enforcement of any civil or criminal penalty or sanction imposed by this Act or by any statute or ordinance imposing a State or local tax. Any person who divulges any such information in any manner, except in accordance with a proper judicial order, is guilty of a Class A misdemeanor.

Nothing contained in this Section shall prevent the Director or chief county assessment officer from publishing or making available reasonable statistics concerning the operation of the exemption contained in this Section in which the contents of claims are grouped into aggregates in such a way that information contained in any individual claim shall not be disclosed.

Notwithstanding any other provision of law, for taxable year 2017 and thereafter, in counties of 3,000,000 or more inhabitants, the amount of the exemption shall be the greater of (i) the amount of the exemption otherwise calculated under this Section or (ii) \$2,000.

(c-5) Notwithstanding any other provision of law, each chief county assessment officer may approve this exemption for the 2020 taxable year, without application, for any property that was approved for this exemption for the 2019 taxable year, provided that:

- (1) the county board has declared a local disaster as provided in the Illinois Emergency Management Agency Act related to the COVID-19 public health emergency;
- (2) the owner of record of the property as of January 1, 2020 is the same as the owner of record of the property as of January 1, 2019;
- (3) the exemption for the 2019 taxable year has not been determined to be an erroneous exemption as defined by this Code; and
- (4) the applicant for the 2019 taxable year has not asked for the exemption to be removed for the 2019 or 2020 taxable years.

Nothing in this subsection shall preclude or impair the authority of a chief county assessment officer to conduct audits of any taxpayer claiming an exemption under this Section to verify that the taxpayer is eligible to receive the exemption as provided elsewhere in this Section.

(c-10) Notwithstanding any other provision of law, each chief county assessment officer may approve this exemption for the 2021 taxable year, without application, for any property that was approved for this exemption for the 2020 taxable year, if:

- (1) the county board has declared a local disaster as provided in the Illinois Emergency Management Agency Act related to the COVID-19 public health emergency;
- (2) the owner of record of the property as of January 1, 2021 is the same as the owner of record of the property as of January 1, 2020;
- (3) the exemption for the 2020 taxable year has not been determined to be an erroneous exemption as defined by this Code; and
- (4) the taxpayer for the 2020 taxable year has not asked for the exemption to be removed for the 2020 or 2021 taxable years.

Nothing in this subsection shall preclude or impair the authority of a chief county assessment officer to conduct audits of any taxpayer claiming an exemption under this Section to verify that the taxpayer is eligible to receive the exemption as provided elsewhere in this Section.

(d) Each Chief County Assessment Officer shall annually publish a notice of availability of the exemption provided under this Section. The notice shall be published at least 60 days but no more than 75 days prior to the date on which the application must be submitted to the Chief County Assessment Officer of the county in which the property is located. The notice shall appear in a newspaper of general circulation in the county.

Notwithstanding Sections 6 and 8 of the State Mandates Act, no reimbursement by the State is required for the implementation of any mandate created by this Section.

(35 ILCS 200/15-175)

Sec. 15-175. General homestead exemption.

(a) Except as provided in Sections 15-176 and 15-177, homestead property is entitled to an annual homestead exemption limited, except as described here with relation to cooperatives or life care facilities, to a reduction in the equalized assessed value of homestead property equal to the increase in equalized assessed value for the current assessment year above the equalized assessed value of the property for 1977, up to the maximum reduction set forth below. If however, the 1977 equalized assessed value upon which taxes were paid is subsequently determined by local assessing officials, the Property Tax Appeal Board, or a court to have been excessive, the equalized assessed value which should have been placed on the property for 1977 shall be used to determine the amount of the exemption.

(b) Except as provided in Section 15-176, the maximum reduction before taxable year 2004 shall be \$4,500 in counties with 3,000,000 or more inhabitants and \$3,500 in all other counties. Except as provided in Sections 15-176 and 15-177, for taxable years 2004 through 2007, the maximum reduction shall be \$5,000, for taxable year 2008, the maximum reduction is \$5,500, and, for taxable years 2009 through 2011, the maximum reduction is \$6,000 in all counties. For taxable years 2012 through 2016, the maximum reduction is \$7,000 in counties with 3,000,000 or more inhabitants and \$6,000 in all other counties. For taxable years 2017 through 2022 ~~and thereafter~~, the maximum reduction is \$10,000 in counties with 3,000,000 or more inhabitants and \$6,000 in all other counties. For taxable years 2023 and thereafter, the maximum reduction is \$10,000 in counties with 3,000,000 or more inhabitants and counties that are contiguous to a county of 3,000,000 or more inhabitants and \$6,000 in all other counties. If a county has elected to subject itself to the provisions of Section 15-176 as provided in subsection (k) of that Section, then, for the first taxable year only after the provisions of Section 15-176 no longer apply, for owners who, for the taxable year, have not been granted a senior citizens assessment freeze homestead exemption under Section 15-172 or a long-time occupant homestead exemption under Section 15-177, there shall be an additional exemption of \$5,000 for owners with a household income of \$30,000 or less.

(c) In counties with fewer than 3,000,000 inhabitants, if, based on the most recent assessment, the equalized assessed value of the homestead property for the current assessment year is greater than the equalized assessed value of the property for 1977, the owner of the property shall automatically receive the exemption granted under this Section in an amount equal to the increase over the 1977 assessment up to the maximum reduction set forth in this Section.

(d) If in any assessment year beginning with the 2000 assessment year, homestead property has a pro-rata valuation under Section 9-180 resulting in an increase in the assessed valuation, a reduction in equalized assessed valuation equal to the increase in equalized assessed value of the property for the year of the pro-rata valuation above the equalized assessed value of the property for 1977 shall be applied to the property on a proportionate basis for the period the property qualified as homestead property during the assessment year. The maximum proportionate homestead exemption shall not exceed the maximum homestead exemption allowed in the county under this Section divided by 365 and multiplied by the number of days the property qualified as homestead property.

(d-1) In counties with 3,000,000 or more inhabitants, where the chief county assessment officer provides a notice of discovery, if a property is not occupied by its owner as a principal residence as of January 1 of the current tax year, then the property owner shall notify the chief county assessment officer of that fact on a form prescribed by the chief county assessment officer. That notice must be received by the chief county assessment officer on or before March 1 of the collection year. If mailed, the form shall be sent by certified mail, return receipt requested. If the form is provided in person, the chief county assessment officer shall provide a date stamped copy of the notice. Failure to provide timely notice pursuant to this subsection (d-1) shall result in the exemption being treated as an erroneous exemption. Upon timely receipt of the notice for the current tax year, no exemption shall be applied to the property for the current tax year. If the exemption is not removed upon timely receipt of the notice by the chief assessment officer, then the error is considered granted as a result of a clerical error or omission on the part of the chief county assessment officer as described in subsection (h) of Section 9-275, and the property owner shall not be liable for the payment of interest and penalties due to the erroneous exemption for the current tax year for which the notice was filed after the date that notice was timely received pursuant to this subsection. Notice

provided under this subsection shall not constitute a defense or amnesty for prior year erroneous exemptions.

For the purposes of this subsection (d-1):

"Collection year" means the year in which the first and second installment of the current tax year is billed.

"Current tax year" means the year prior to the collection year.

(e) The chief county assessment officer may, when considering whether to grant a leasehold exemption under this Section, require the following conditions to be met:

(1) that a notarized application for the exemption, signed by both the owner and the lessee of the property, must be submitted each year during the application period in effect for the county in which the property is located;

(2) that a copy of the lease must be filed with the chief county assessment officer by the owner of the property at the time the notarized application is submitted;

(3) that the lease must expressly state that the lessee is liable for the payment of property taxes; and

(4) that the lease must include the following language in substantially the following form:

"Lessee shall be liable for the payment of real estate taxes with respect to the residence in accordance with the terms and conditions of Section 15-175 of the Property Tax Code (35 ILCS 200/15-175). The permanent real estate index number for the premises is (insert number), and, according to the most recent property tax bill, the current amount of real estate taxes associated with the premises is (insert amount) per year. The parties agree that the monthly rent set forth above shall be increased or decreased pro rata (effective January 1 of each calendar year) to reflect any increase or decrease in real estate taxes. Lessee shall be deemed to be satisfying Lessee's liability for the above mentioned real estate taxes with the monthly rent payments as set forth above (or increased or decreased as set forth herein)."

In addition, if there is a change in lessee, or if the lessee vacates the property, then the chief county assessment officer may require the owner of the property to notify the chief county assessment officer of that change.

This subsection (e) does not apply to leasehold interests in property owned by a municipality.

(f) "Homestead property" under this Section includes residential property that is occupied by its owner or owners as his or their principal dwelling place, or that is a leasehold interest on which a single family residence is situated, which is occupied as a residence by a person who has an ownership interest therein, legal or equitable or as a lessee, and on which the person is liable for the payment of property taxes. For land improved with an apartment building owned and operated as a cooperative, the maximum reduction from the equalized assessed value shall be limited to the increase in the value above the equalized assessed value of the property for 1977, up to the maximum reduction set forth above, multiplied by the number of apartments or units occupied by a person or persons who is liable, by contract with the owner or owners of record, for paying property taxes on the property and is an owner of record of a legal or equitable interest in the cooperative apartment building, other than a leasehold interest. For land improved with a life care facility, the maximum reduction from the value of the property, as equalized by the Department, shall be multiplied by the number of apartments or units occupied by a person or persons, irrespective of any legal, equitable, or leasehold interest in the facility, who are liable, under a life care contract with the owner or owners of record of the facility, for paying property taxes on the property. For purposes of this Section, the term "life care facility" has the meaning stated in Section 15-170.

"Household", as used in this Section, means the owner, the spouse of the owner, and all persons using the residence of the owner as their principal place of residence.

"Household income", as used in this Section, means the combined income of the members of a household for the calendar year preceding the taxable year.

"Income", as used in this Section, has the same meaning as provided in Section 3.07 of the Senior Citizens and Persons with Disabilities Property Tax Relief Act, except that "income" does not include veteran's benefits.

(g) In a cooperative or life care facility where a homestead exemption has been granted, the cooperative association or the management of the cooperative or life care facility shall credit the savings resulting from that exemption only to the apportioned tax liability of the owner or resident who qualified for the exemption. Any person who willfully refuses to so credit the savings shall be guilty of a Class B misdemeanor.

(h) Where married persons maintain and reside in separate residences qualifying as homestead property, each residence shall receive 50% of the total reduction in equalized assessed valuation provided by this Section.

(i) In all counties, the assessor or chief county assessment officer may determine the eligibility of residential property to receive the homestead exemption and the amount of the exemption by application, visual inspection, questionnaire or other reasonable methods. The determination shall be made in accordance with guidelines established by the Department, provided that the taxpayer applying for an additional general exemption under this Section shall submit to the chief county assessment officer an application with an affidavit of the applicant's total household income, age, marital status (and, if married, the name and address of the applicant's spouse, if known), and principal dwelling place of members of the household on January 1 of the taxable year. The Department shall issue guidelines establishing a method for verifying the accuracy of the affidavits filed by applicants under this paragraph. The applications shall be clearly marked as applications for the Additional General Homestead Exemption.

(i-5) This subsection (i-5) applies to counties with 3,000,000 or more inhabitants. In the event of a sale of homestead property, the homestead exemption shall remain in effect for the remainder of the assessment year of the sale. Upon receipt of a transfer declaration transmitted by the recorder pursuant to Section 31-30 of the Real Estate Transfer Tax Law for property receiving an exemption under this Section, the assessor shall mail a notice and forms to the new owner of the property providing information pertaining to the rules and applicable filing periods for applying or reapplying for homestead exemptions under this Code for which the property may be eligible. If the new owner fails to apply or reapply for a homestead exemption during the applicable filing period or the property no longer qualifies for an existing homestead exemption, the assessor shall cancel such exemption for any ensuing assessment year.

(j) In counties with fewer than 3,000,000 inhabitants, in the event of a sale of homestead property the homestead exemption shall remain in effect for the remainder of the assessment year of the sale. The assessor or chief county assessment officer may require the new owner of the property to apply for the homestead exemption for the following assessment year.

(k) Notwithstanding Sections 6 and 8 of the State Mandates Act, no reimbursement by the State is required for the implementation of any mandate created by this Section.

(l) The changes made to this Section by this amendatory Act of the 100th General Assembly are effective for the 2018 tax year and thereafter.

Sec. 18-185. Short title; definitions. This Division 5 may be cited as the Property Tax Extension Limitation Law. As used in this Division 5:

"Consumer Price Index" means the Consumer Price Index for All Urban Consumers for all items published by the United States Department of Labor.

"Extension limitation" means (a) the lesser of 5% or the percentage increase in the Consumer Price Index during the 12-month calendar year preceding the levy year or (b) the rate of increase approved by voters under Section 18-205.

"Affected county" means a county of 3,000,000 or more inhabitants or a county contiguous to a county of 3,000,000 or more inhabitants.

"Taxing district" has the same meaning provided in Section 1-150, except as otherwise provided in this Section. For the 1991 through 1994 levy years only, "taxing district" includes only each non-home rule taxing district having the majority of its 1990 equalized assessed value within any county or counties contiguous to a county with 3,000,000 or more inhabitants. Beginning with the 1995 levy year, "taxing district" includes only each non-home rule taxing district subject to this Law before the 1995 levy year and each non-home rule taxing district not subject to this Law before the 1995 levy year having the majority of its 1994 equalized assessed value in an affected county or counties. Beginning with the levy year in which this Law becomes applicable to a taxing district as provided in Section 18-213, "taxing district" also includes those taxing districts made subject to this Law as provided in Section 18-213.

"Aggregate extension" for taxing districts to which this Law applied before the 1995 levy year means the annual corporate extension for the taxing district and those special purpose extensions that are made annually for the taxing district, excluding special purpose extensions: (a) made for the taxing district to pay interest or principal on general obligation bonds that were approved by referendum; (b) made for any taxing district to pay interest or principal on general obligation bonds issued before October 1, 1991; (c) made for

any taxing district to pay interest or principal on bonds issued to refund or continue to refund those bonds issued before October 1, 1991; (d) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund bonds issued after October 1, 1991 that were approved by referendum; (e) made for any taxing district to pay interest or principal on revenue bonds issued before October 1, 1991 for payment of which a property tax levy or the full faith and credit of the unit of local government is pledged; however, a tax for the payment of interest or principal on those bonds shall be made only after the governing body of the unit of local government finds that all other sources for payment are insufficient to make those payments; (f) made for payments under a building commission lease when the lease payments are for the retirement of bonds issued by the commission before October 1, 1991, to pay for the building project; (g) made for payments due under installment contracts entered into before October 1, 1991; (h) made for payments of principal and interest on bonds issued under the Metropolitan Water Reclamation District Act to finance construction projects initiated before October 1, 1991; (i) made for payments of principal and interest on limited bonds, as defined in Section 3 of the Local Government Debt Reform Act, in an amount not to exceed the debt service extension base less the amount in items (b), (c), (e), and (h) of this definition for non-referendum obligations, except obligations initially issued pursuant to referendum; (j) made for payments of principal and interest on bonds issued under Section 15 of the Local Government Debt Reform Act; (k) made by a school district that participates in the Special Education District of Lake County, created by special education joint agreement under Section 10-22.31 of the School Code, for payment of the school district's share of the amounts required to be contributed by the Special Education District of Lake County to the Illinois Municipal Retirement Fund under Article 7 of the Illinois Pension Code; the amount of any extension under this item (k) shall be certified by the school district to the county clerk; (l) made to fund expenses of providing joint recreational programs for persons with disabilities under Section 5-8 of the Park District Code or Section 11-95-14 of the Illinois Municipal Code; (m) made for temporary relocation loan repayment purposes pursuant to Sections 2-3.77 and 17-2.2d of the School Code; (n) made for payment of principal and interest on any bonds issued under the authority of Section 17-2.2d of the School Code; (o) made for contributions to a firefighter's pension fund created under Article 4 of the Illinois Pension Code, to the extent of the amount certified under item (5) of Section 4-134 of the Illinois Pension Code; and (p) made for road purposes in the first year after a township assumes the rights, powers, duties, assets, property, liabilities, obligations, and responsibilities of a road district abolished under the provisions of Section 6-133 of the Illinois Highway Code.

"Aggregate extension" for the taxing districts to which this Law did not apply before the 1995 levy year (except taxing districts subject to this Law in accordance with Section 18-213) means the annual corporate extension for the taxing district and those special purpose extensions that are made annually for the taxing district, excluding special purpose extensions: (a) made for the taxing district to pay interest or principal on general obligation bonds that were approved by referendum; (b) made for any taxing district to pay interest or principal on general obligation bonds issued before March 1, 1995; (c) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund those bonds issued before March 1, 1995; (d) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund bonds issued after March 1, 1995 that were approved by referendum; (e) made for any taxing district to pay interest or principal on revenue bonds issued before March 1, 1995 for payment of which a property tax levy or the full faith and credit of the unit of local government is pledged; however, a tax for the payment of interest or principal on those bonds shall be made only after the governing body of the unit of local government finds that all other sources for payment are insufficient to make those payments; (f) made for payments under a building commission lease when the lease payments are for the retirement of bonds issued by the commission before March 1, 1995 to pay for the building project; (g) made for payments due under installment contracts entered into before March 1, 1995; (h) made for payments of principal and interest on bonds issued under the Metropolitan Water Reclamation District Act to finance construction projects initiated before October 1, 1991; (h-4) made for stormwater management purposes by the Metropolitan Water Reclamation District of Greater Chicago under Section 12 of the Metropolitan Water Reclamation District Act; (i) made for payments of principal and interest on limited bonds, as defined in Section 3 of the Local Government Debt Reform Act, in an amount not to exceed the debt service extension base less the amount in items (b), (c), and (e) of this definition for non-referendum obligations, except obligations initially issued pursuant to referendum and bonds described in subsection (h) of this definition; (j) made for payments of principal and interest on bonds issued under Section 15 of the Local Government Debt Reform Act; (k) made for payments of principal and interest on bonds authorized by Public Act 88-503 and issued under Section 20a of the Chicago Park District Act for aquarium or

museum projects and bonds issued under Section 20a of the Chicago Park District Act for the purpose of making contributions to the pension fund established under Article 12 of the Illinois Pension Code; (l) made for payments of principal and interest on bonds authorized by Public Act 87-1191 or 93-601 and (i) issued pursuant to Section 21.2 of the Cook County Forest Preserve District Act, (ii) issued under Section 42 of the Cook County Forest Preserve District Act for zoological park projects, or (iii) issued under Section 44.1 of the Cook County Forest Preserve District Act for botanical gardens projects; (m) made pursuant to Section 34-53.5 of the School Code, whether levied annually or not; (n) made to fund expenses of providing joint recreational programs for persons with disabilities under Section 5-8 of the Park District Code or Section 11-95-14 of the Illinois Municipal Code; (o) made by the Chicago Park District for recreational programs for persons with disabilities under subsection (c) of Section 7.06 of the Chicago Park District Act; (p) made for contributions to a firefighter's pension fund created under Article 4 of the Illinois Pension Code, to the extent of the amount certified under item (5) of Section 4-134 of the Illinois Pension Code; (q) made by Ford Heights School District 169 under Section 17-9.02 of the School Code; and (r) made for the purpose of making employer contributions to the Public School Teachers' Pension and Retirement Fund of Chicago under Section 34-53 of the School Code.

"Aggregate extension" for all taxing districts to which this Law applies in accordance with Section 18-213, except for those taxing districts subject to paragraph (2) of subsection (e) of Section 18-213, means the annual corporate extension for the taxing district and those special purpose extensions that are made annually for the taxing district, excluding special purpose extensions: (a) made for the taxing district to pay interest or principal on general obligation bonds that were approved by referendum; (b) made for any taxing district to pay interest or principal on general obligation bonds issued before the date on which the referendum making this Law applicable to the taxing district is held; (c) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund those bonds issued before the date on which the referendum making this Law applicable to the taxing district is held; (d) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund bonds issued after the date on which the referendum making this Law applicable to the taxing district is held if the bonds were approved by referendum after the date on which the referendum making this Law applicable to the taxing district is held; (e) made for any taxing district to pay interest or principal on revenue bonds issued before the date on which the referendum making this Law applicable to the taxing district is held for payment of which a property tax levy or the full faith and credit of the unit of local government is pledged; however, a tax for the payment of interest or principal on those bonds shall be made only after the governing body of the unit of local government finds that all other sources for payment are insufficient to make those payments; (f) made for payments under a building commission lease when the lease payments are for the retirement of bonds issued by the commission before the date on which the referendum making this Law applicable to the taxing district is held to pay for the building project; (g) made for payments due under installment contracts entered into before the date on which the referendum making this Law applicable to the taxing district is held; (h) made for payments of principal and interest on limited bonds, as defined in Section 3 of the Local Government Debt Reform Act, in an amount not to exceed the debt service extension base less the amount in items (b), (c), and (e) of this definition for non-referendum obligations, except obligations initially issued pursuant to referendum; (i) made for payments of principal and interest on bonds issued under Section 15 of the Local Government Debt Reform Act; (j) made for a qualified airport authority to pay interest or principal on general obligation bonds issued for the purpose of paying obligations due under, or financing airport facilities required to be acquired, constructed, installed or equipped pursuant to, contracts entered into before March 1, 1996 (but not including any amendments to such a contract taking effect on or after that date); (k) made to fund expenses of providing joint recreational programs for persons with disabilities under Section 5-8 of the Park District Code or Section 11-95-14 of the Illinois Municipal Code; (l) made for contributions to a firefighter's pension fund created under Article 4 of the Illinois Pension Code, to the extent of the amount certified under item (5) of Section 4-134 of the Illinois Pension Code; and (m) made for the taxing district to pay interest or principal on general obligation bonds issued pursuant to Section 19-3.10 of the School Code.

"Aggregate extension" for all taxing districts to which this Law applies in accordance with paragraph (2) of subsection (e) of Section 18-213 means the annual corporate extension for the taxing district and those special purpose extensions that are made annually for the taxing district, excluding special purpose extensions: (a) made for the taxing district to pay interest or principal on general obligation bonds that were approved by referendum; (b) made for any taxing district to pay interest or principal on general obligation bonds issued before March 7, 1997 (the effective date of Public Act 89-718); (c) made for any taxing district

to pay interest or principal on bonds issued to refund or continue to refund those bonds issued before March 7, 1997 (the effective date of Public Act 89-718); (d) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund bonds issued after March 7, 1997 (the effective date of Public Act 89-718) if the bonds were approved by referendum after March 7, 1997 (the effective date of Public Act 89-718); (e) made for any taxing district to pay interest or principal on revenue bonds issued before March 7, 1997 (the effective date of Public Act 89-718) for payment of which a property tax levy or the full faith and credit of the unit of local government is pledged; however, a tax for the payment of interest or principal on those bonds shall be made only after the governing body of the unit of local government finds that all other sources for payment are insufficient to make those payments; (f) made for payments under a building commission lease when the lease payments are for the retirement of bonds issued by the commission before March 7, 1997 (the effective date of Public Act 89-718) to pay for the building project; (g) made for payments due under installment contracts entered into before March 7, 1997 (the effective date of Public Act 89-718); (h) made for payments of principal and interest on limited bonds, as defined in Section 3 of the Local Government Debt Reform Act, in an amount not to exceed the debt service extension base less the amount in items (b), (c), and (e) of this definition for non-referendum obligations, except obligations initially issued pursuant to referendum; (i) made for payments of principal and interest on bonds issued under Section 15 of the Local Government Debt Reform Act; (j) made for a qualified airport authority to pay interest or principal on general obligation bonds issued for the purpose of paying obligations due under, or financing airport facilities required to be acquired, constructed, installed or equipped pursuant to, contracts entered into before March 1, 1996 (but not including any amendments to such a contract taking effect on or after that date); (k) made to fund expenses of providing joint recreational programs for persons with disabilities under Section 5-8 of the Park District Code or Section 11-95-14 of the Illinois Municipal Code; and (l) made for contributions to a firefighter's pension fund created under Article 4 of the Illinois Pension Code, to the extent of the amount certified under item (5) of Section 4-134 of the Illinois Pension Code.

"Debt service extension base" means an amount equal to that portion of the extension for a taxing district for the 1994 levy year, or for those taxing districts subject to this Law in accordance with Section 18-213, except for those subject to paragraph (2) of subsection (e) of Section 18-213, for the levy year in which the referendum making this Law applicable to the taxing district is held, or for those taxing districts subject to this Law in accordance with paragraph (2) of subsection (e) of Section 18-213 for the 1996 levy year, constituting an extension for payment of principal and interest on bonds issued by the taxing district without referendum, but not including excluded non-referendum bonds. For park districts (i) that were first subject to this Law in 1991 or 1995 and (ii) whose extension for the 1994 levy year for the payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds) was less than 51% of the amount for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds), "debt service extension base" means an amount equal to that portion of the extension for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds). A debt service extension base established or increased at any time pursuant to any provision of this Law, except Section 18-212, shall be increased each year commencing with the later of (i) the 2009 levy year or (ii) the first levy year in which this Law becomes applicable to the taxing district, by the lesser of 5% or the percentage increase in the Consumer Price Index during the 12-month calendar year preceding the levy year. The debt service extension base may be established or increased as provided under Section 18-212. "Excluded non-referendum bonds" means (i) bonds authorized by Public Act 88-503 and issued under Section 20a of the Chicago Park District Act for aquarium and museum projects; (ii) bonds issued under Section 15 of the Local Government Debt Reform Act; or (iii) refunding obligations issued to refund or to continue to refund obligations initially issued pursuant to referendum.

"Special purpose extensions" include, but are not limited to, extensions for levies made on an annual basis for unemployment and workers' compensation, self-insurance, contributions to pension plans, and extensions made pursuant to Section 6-601 of the Illinois Highway Code for a road district's permanent road fund whether levied annually or not. The extension for a special service area is not included in the aggregate extension.

"Aggregate extension base" means the taxing district's last preceding aggregate extension as adjusted under Sections 18-135, 18-215, 18-230, 18-206, and 18-233. Beginning with levy year 2022, for taxing districts that are specified in Section 18-190.7, the taxing district's aggregate extension base shall be

calculated as provided in Section 18-190.7. An adjustment under Section 18-135 shall be made for the 2007 levy year and all subsequent levy years whenever one or more counties within which a taxing district is located (i) used estimated valuations or rates when extending taxes in the taxing district for the last preceding levy year that resulted in the over or under extension of taxes, or (ii) increased or decreased the tax extension for the last preceding levy year as required by Section 18-135(c). Whenever an adjustment is required under Section 18-135, the aggregate extension base of the taxing district shall be equal to the amount that the aggregate extension of the taxing district would have been for the last preceding levy year if either or both (i) actual, rather than estimated, valuations or rates had been used to calculate the extension of taxes for the last levy year, or (ii) the tax extension for the last preceding levy year had not been adjusted as required by subsection (c) of Section 18-135.

Notwithstanding any other provision of law, for levy year 2012, the aggregate extension base for West Northfield School District No. 31 in Cook County shall be \$12,654,592.

Notwithstanding any other provision of law, for levy year 2022, the aggregate extension base of a home equity assurance program that levied at least \$1,000,000 in property taxes in levy year 2019 or 2020 under the Home Equity Assurance Act shall be the amount that the program's aggregate extension base for levy year 2021 would have been if the program had levied a property tax for levy year 2021.

"Levy year" has the same meaning as "year" under Section 1-155.

"New property" means (i) the assessed value, after final board of review or board of appeals action, of new improvements or additions to existing improvements on any parcel of real property that increase the assessed value of that real property during the levy year multiplied by the equalization factor issued by the Department under Section 17-30, (ii) the assessed value, after final board of review or board of appeals action, of real property not exempt from real estate taxation, which real property was exempt from real estate taxation for any portion of the immediately preceding levy year, multiplied by the equalization factor issued by the Department under Section 17-30, including the assessed value, upon final stabilization of occupancy after new construction is complete, of any real property located within the boundaries of an otherwise or previously exempt military reservation that is intended for residential use and owned by or leased to a private corporation or other entity, (iii) in counties that classify in accordance with Section 4 of Article IX of the Illinois Constitution, an incentive property's additional assessed value resulting from a scheduled increase in the level of assessment as applied to the first year final board of review market value, and (iv) any increase in assessed value due to oil or gas production from an oil or gas well required to be permitted under the Hydraulic Fracturing Regulatory Act that was not produced in or accounted for during the previous levy year. In addition, the county clerk in a county containing a population of 3,000,000 or more shall include in the 1997 recovered tax increment value for any school district, any recovered tax increment value that was applicable to the 1995 tax year calculations.

"Qualified airport authority" means an airport authority organized under the Airport Authorities Act and located in a county bordering on the State of Wisconsin and having a population in excess of 200,000 and not greater than 500,000.

"Recovered tax increment value" means, except as otherwise provided in this paragraph, the amount of the current year's equalized assessed value, in the first year after a municipality terminates the designation of an area as a redevelopment project area previously established under the Tax Increment Allocation Redevelopment Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, previously established under the Economic Development Project Area Tax Increment Act of 1995, or previously established under the Economic Development Area Tax Increment Allocation Act, of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. For the taxes which are extended for the 1997 levy year, the recovered tax increment value for a non-home rule taxing district that first became subject to this Law for the 1995 levy year because a majority of its 1994 equalized assessed value was in an affected county or counties shall be increased if a municipality terminated the designation of an area in 1993 as a redevelopment project area previously established under the Tax Increment Allocation Redevelopment Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, or previously established under the Economic Development Area Tax Increment Allocation Act, by an amount equal to the 1994 equalized assessed value of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. In the first year after a municipality removes a taxable lot, block, tract, or parcel of real property from a redevelopment project area established under the Tax Increment Allocation

Redevelopment Act in the Illinois Municipal Code, the Industrial Jobs Recovery Law in the Illinois Municipal Code, or the Economic Development Area Tax Increment Allocation Act, "recovered tax increment value" means the amount of the current year's equalized assessed value of each taxable lot, block, tract, or parcel of real property removed from the redevelopment project area over and above the initial equalized assessed value of that real property before removal from the redevelopment project area.

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, except for school districts that reduced their extension for educational purposes pursuant to Section 18-206, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property or the recovered tax increment value. If a new rate, a rate decrease, or a limiting rate increase has been approved at an election held after March 21, 2006, then (i) the otherwise applicable limiting rate shall be increased by the amount of the new rate or shall be reduced by the amount of the rate decrease, as the case may be, or (ii) in the case of a limiting rate increase, the limiting rate shall be equal to the rate set forth in the proposition approved by the voters for each of the years specified in the proposition, after which the limiting rate of the taxing district shall be calculated as otherwise provided. In the case of a taxing district that obtained referendum approval for an increased limiting rate on March 20, 2012, the limiting rate for tax year 2012 shall be the rate that generates the approximate total amount of taxes extendable for that tax year, as set forth in the proposition approved by the voters; this rate shall be the final rate applied by the county clerk for the aggregate of all capped funds of the district for tax year 2012.

Sec. 18-190.7. Alternative aggregate extension base for certain taxing districts; recapture.

(a) This Section applies to the following taxing districts that are subject to this Division 5:

(1) school districts that have a designation of recognition or review according to the State Board of Education's School District Financial Profile System as of the first day of the levy year for which the taxing district seeks to increase its aggregate extension under this Section;

(2) park districts;

(3) library districts; and

(4) community college districts.

(b) Subject to the limitations of subsection (c), beginning in levy year 2022, a taxing district specified in subsection (a) may recapture certain levy amounts that are otherwise unavailable to the taxing district as a result of the taxing district not extending the maximum amount permitted under this Division 5 in a previous levy year. For that purpose, the taxing district's aggregate extension base shall be the greater of: (1) the taxing district's aggregate extension limit; or (2) the taxing district's last preceding aggregate extension, as adjusted under Sections 18-135, 18-215, 18-230, 18-206, and 18-233.

(c) Notwithstanding the provisions of this Section, the aggregate extension of a taxing district that uses an aggregate extension limit under this Section for a particular levy year may not exceed the taxing district's aggregate extension for the immediately preceding levy year by more than 5% unless the increase is approved by the voters under Section 18-205; however, if a taxing district is unable to recapture the entire unrealized levy amount in a single levy year due to the limitations of this subsection (c), the taxing district may increase its aggregate extension in each immediately succeeding levy year until the entire levy amount is recaptured, except that the increase in each succeeding levy year may not exceed the greater of (i) 5% or (ii) the increase approved by the voters under Section 18-205.

In order to be eligible for recapture under this Section, the taxing district must certify to the county clerk that the taxing district did not extend the maximum amount permitted under this Division 5 for a particular levy year. That certification must be made not more than 60 days after the taxing district files its levy ordinance or resolution with the county clerk for the levy year for which the taxing district did not extend the maximum amount permitted under this Division 5.

(d) As used in this Section, "aggregate extension limit" means the taxing district's last preceding aggregate extension if the district had utilized the maximum limiting rate permitted without referendum for

each of the 3 immediately preceding levy years, as adjusted under Section 18-135, 18-215, 18-230, 18-206, and 18-233.

Section 15. The School Code is amended by changing Section 17-2A and by adding Section 17-1.3 as follows:

(105 ILCS 5/17-1.3 new)

Sec. 17-1.3. Disclosure of cash balance. Notwithstanding any other provision of law, each school district shall disclose to the public, at the public hearing at which the district certifies its budget and levy for the taxable year, the cash reserve balance of all funds held by the district related to its operational levy and, if applicable, any obligations secured by those funds.

(105 ILCS 5/17-2A) (from Ch. 122, par. 17-2A)

Sec. 17-2A. Interfund transfers.

(a) The school board of any district having a population of less than 500,000 inhabitants may, by proper resolution following a public hearing set by the school board or the president of the school board (that is preceded (i) by at least one published notice over the name of the clerk or secretary of the board, occurring at least 7 days and not more than 30 days prior to the hearing, in a newspaper of general circulation within the school district and (ii) by posted notice over the name of the clerk or secretary of the board, at least 48 hours before the hearing, at the principal office of the school board or at the building where the hearing is to be held if a principal office does not exist, with both notices setting forth the time, date, place, and subject matter of the hearing), transfer money from (1) the Educational Fund to the Operations and Maintenance Fund or the Transportation Fund, (2) the Operations and Maintenance Fund to the Educational Fund or the Transportation Fund, (3) the Transportation Fund to the Educational Fund or the Operations and Maintenance Fund, or (4) the Tort Immunity Fund to the Operations and Maintenance Fund of said district, provided that, except during the period from July 1, 2003 through June 30, 2024, such transfer is made solely for the purpose of meeting one-time, non-recurring expenses. Except during the period from July 1, 2003 through ~~June 30, 2026~~ ~~June 30, 2024~~ and except as otherwise provided in subsection (b) of this Section, any other permanent interfund transfers authorized by any provision or judicial interpretation of this Code for which the transferee fund is not precisely and specifically set forth in the provision of this Code authorizing such transfer shall be made to the fund of the school district most in need of the funds being transferred, as determined by resolution of the school board.

(b) (Blank).

(c) Notwithstanding subsection (a) of this Section or any other provision of this Code to the contrary, the school board of any school district (i) that is subject to the Property Tax Extension Limitation Law, (ii) that is an elementary district servicing students in grades K through 8, (iii) whose territory is in one county, (iv) that is eligible for Section 7002 Federal Impact Aid, and (v) that has no more than \$81,000 in funds remaining from refinancing bonds that were refinanced a minimum of 5 years prior to January 20, 2017 (the effective date of Public Act 99-926) may make a one-time transfer of the funds remaining from the refinancing bonds to the Operations and Maintenance Fund of the district by proper resolution following a public hearing set by the school board or the president of the school board, with notice as provided in subsection (a) of this Section, so long as the district meets the qualifications set forth in this subsection (c) on January 20, 2017 (the effective date of Public Act 99-926).

(d) Notwithstanding subsection (a) of this Section or any other provision of this Code to the contrary, the school board of any school district (i) that is subject to the Property Tax Extension Limitation Law, (ii) that is a community unit school district servicing students in grades K through 12, (iii) whose territory is in one county, (iv) that owns property designated by the United States as a Superfund site pursuant to the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. 9601 et seq.), and (v) that has an excess accumulation of funds in its bond fund, including funds accumulated prior to July 1, 2000, may make a one-time transfer of those excess funds accumulated prior to July 1, 2000 to the Operations and Maintenance Fund of the district by proper resolution following a public hearing set by the school board or the president of the school board, with notice as provided in subsection (a) of this Section, so long as the district meets the qualifications set forth in this subsection (d) on August 4, 2017 (the effective date of Public Act 100-32).

Section 20. The Senior Citizens Real Estate Tax Deferral Act is amended by changing Section 3 as follows:

[April 8, 2022]

(320 ILCS 30/3) (from Ch. 67 1/2, par. 453)

Sec. 3. A taxpayer may, on or before March 1 of each year, apply to the county collector of the county where his qualifying property is located, or to the official designated by a unit of local government to collect special assessments on the qualifying property, as the case may be, for a deferral of all or a part of real estate taxes payable during that year for the preceding year in the case of real estate taxes other than special assessments, or for a deferral of any installments payable during that year in the case of special assessments, on all or part of his qualifying property. The application shall be on a form prescribed by the Department and furnished by the collector, (a) showing that the applicant will be 65 years of age or older by June 1 of the year for which a tax deferral is claimed, (b) describing the property and verifying that the property is qualifying property as defined in Section 2, (c) certifying that the taxpayer has owned and occupied as his residence such property or other qualifying property in the State for at least the last 3 years except for any periods during which the taxpayer may have temporarily resided in a nursing or sheltered care home, and (d) specifying whether the deferral is for all or a part of the taxes, and, if for a part, the amount of deferral applied for. As to qualifying property not having a separate assessed valuation, the taxpayer shall also file with the county collector a written appraisal of the property prepared by a qualified real estate appraiser together with a certificate signed by the appraiser stating that he has personally examined the property and setting forth the value of the land and the value of the buildings thereon occupied by the taxpayer as his residence.

The collector shall grant the tax deferral provided such deferral does not exceed funds available in the Senior Citizens Real Estate Deferred Tax Revolving Fund and provided that the owner or owners of such real property have entered into a tax deferral and recovery agreement with the collector on behalf of the county or other unit of local government, which agreement expressly states:

(1) That the total amount of taxes deferred under this Act, plus interest, for the year for which a tax deferral is claimed as well as for those previous years for which taxes are not delinquent and for which such deferral has been claimed may not exceed 80% of the taxpayer's equity interest in the property for which taxes are to be deferred and that, if the total deferred taxes plus interest equals 80% of the taxpayer's equity interest in the property, the taxpayer shall thereafter pay the annual interest due on such deferred taxes plus interest so that total deferred taxes plus interest will not exceed such 80% of the taxpayer's equity interest in the property. Effective as of the January 1, 2011 assessment year or tax year 2012 and through the 2021 tax year, and beginning again with the 2026 tax year, the total amount of any such deferral shall not exceed \$5,000 per taxpayer in each tax year. For the 2022 tax year through the 2025 tax year, the total amount of any such deferral shall not exceed \$7,500 per taxpayer in each tax year.

(2) That any real estate taxes deferred under this Act and any interest accrued thereon ~~at the rate of 6% per year~~ are a lien on the real estate and improvements thereon until paid. If the taxes deferred are for a tax year prior to 2023, then interest shall accrue at the rate of 6% per year. If the taxes deferred are for the 2023 tax year or any tax year thereafter, then interest shall accrue at the rate of 3% per year. No sale or transfer of such real property may be legally closed and recorded until the taxes which would otherwise have been due on the property, plus accrued interest, have been paid unless the collector certifies in writing that an arrangement for prompt payment of the amount due has been made with his office. The same shall apply if the property is to be made the subject of a contract of sale.

(3) That upon the death of the taxpayer claiming the deferral the heirs-at-law, assignees or legatees shall have first priority to the real property upon which taxes have been deferred by paying in full the total taxes which would otherwise have been due, plus interest. However, if such heir-at-law, assignee, or legatee is a surviving spouse, the tax deferred status of the property shall be continued during the life of that surviving spouse if the spouse is 55 years of age or older within 6 months of the date of death of the taxpayer and enters into a tax deferral and recovery agreement before the time when deferred taxes become due under this Section. Any additional taxes deferred, plus interest, on the real property under a tax deferral and recovery agreement signed by a surviving spouse shall be added to the taxes and interest which would otherwise have been due, and the payment of which has been postponed during the life of such surviving spouse, in determining the 80% equity requirement provided by this Section.

(4) That if the taxes due, plus interest, are not paid by the heir-at-law, assignee or legatee or if payment is not postponed during the life of a surviving spouse, the deferred taxes and interest shall be recovered from the estate of the taxpayer within one year of the date of his death. In addition, deferred real estate taxes and any interest accrued thereon are due within 90 days after any tax deferred property ceases to be qualifying property as defined in Section 2.

If payment is not made when required by this Section, foreclosure proceedings may be instituted under the Property Tax Code.

(5) That any joint owner has given written prior approval for such agreement, which written approval shall be made a part of such agreement.

(6) That a guardian for a person under legal disability appointed for a taxpayer who otherwise qualifies under this Act may act for the taxpayer in complying with this Act.

(7) That a taxpayer or his agent has provided to the satisfaction of the collector, sufficient evidence that the qualifying property on which the taxes are to be deferred is insured against fire or casualty loss for at least the total amount of taxes which have been deferred.

(1) This amendatory Act of the 100th General Assembly manifests the intention of the General Assembly to remove the repeal of this Section.

(2) This Section was originally enacted to protect, promote, and preserve the general welfare. Any construction of this Section that results in the repeal of this Section on December 31, 2016 would be inconsistent with the manifest intent of the General Assembly and repugnant to the context of this Code.

It is hereby declared to have been the intent of the General Assembly that this Section not be subject to repeal on December 31, 2016.

This Section shall be deemed to have been in continuous effect since August 3, 2012 (the effective date of Public Act 97-895), and it shall continue to be in effect henceforward until it is otherwise lawfully repealed. All previously enacted amendments to this Section taking effect on or after December 31, 2016, are hereby validated.

All actions taken in reliance on or pursuant to this Section in the procurement of artistic or musical services are hereby validated.

In order to ensure the continuing effectiveness of this Section, it is set forth in full and re-enacted by this amendatory Act of the 100th General Assembly. This re-enactment is intended as a continuation of this Section. It is not intended to supersede any amendment to this Section that is enacted by the 100th General Assembly.

In this amendatory Act of the 100th General Assembly, the base text of this Section is set forth as amended by Public Act 98-1076. Striking and underscoring is used only to show changes being made to the base text.

(a) This Code shall apply to public institutions of higher education, regardless of the source of the funds with which contracts are paid, except as provided in this Section.

(b) Except as provided in this Section, this Code shall not apply to procurements made by or on behalf of public institutions of higher education for any of the following:

(2) Procurement expenditures for events or activities paid for exclusively by revenues generated by the event or activity, gifts or donations for the event or activity, private grants, or any combination thereof.

(3) Procurement expenditures for events or activities for which the use of specific potential contractors is mandated or identified by the sponsor of the event or activity, provided that the sponsor is providing a majority of the funding for the event or activity.

(4) Procurement expenditures necessary to provide athletic, artistic or musical services, performances, events, or productions by or for a public institution of higher education.

(5) Procurement expenditures for periodicals, books, subscriptions, database licenses, and other publications procured for use by a university library or academic department, except for expenditures related to procuring textbooks for student use or materials for resale or rental.

(7) Contracts for programming and broadcast license rights for university-operated radio and television stations.

(8) Procurement expenditures necessary to perform sponsored research and other sponsored activities under grants and contracts funded by the sponsor or by sources other than State appropriations.

(9) Contracts with a foreign entity for research or educational activities, provided that the foreign entity either does not maintain an office in the United States or is the sole source of the service or product.

Notice of each contract with an annual value of more than \$100,000 entered into by a public institution of higher education that is related to the procurement of goods and services identified in items (1) through (9) of this subsection shall be published in the Procurement Bulletin within 14 calendar days after contract execution. The Chief Procurement Officer shall prescribe the form and content of the notice. Each public institution of higher education shall provide the Chief Procurement Officer, on a monthly basis, in the form and content prescribed by the Chief Procurement Officer, a report of contracts that are related to the procurement of goods and services identified in this subsection. At a minimum, this report shall include the name of the contractor, a description of the supply or service provided, the total amount of the contract, the term of the contract, and the exception to the Code utilized. A copy of any or all of these contracts shall be made available to the Chief Procurement Officer immediately upon request. The Chief Procurement Officer shall submit a report to the Governor and General Assembly no later than November 1 of each year that shall include, at a minimum, an annual summary of the monthly information reported to the Chief Procurement Officer.

(b-5) Except as provided in this subsection, the provisions of this Code shall not apply to contracts for medical supplies, and to contracts for medical services necessary for the delivery of care and treatment at medical, dental, or veterinary teaching facilities utilized by Southern Illinois University or the University of Illinois and at any university-operated health care center or dispensary that provides care, treatment, and medications for students, faculty and staff. All procurements made under this subsection shall be documented and may require publication in the Illinois Procurement Bulletin.

(b-10) Procurements made by or on behalf of the University of Illinois for investment services scheduled to expire June ~~2022~~ ~~2021~~ may be extended through June ~~2024~~ ~~2022~~ without being subject to the requirements of this Code. This subsection is inoperative on and after July 1, ~~2024~~ ~~2022~~.

(c) Procurements made by or on behalf of public institutions of higher education for the fulfillment of a grant shall be made in accordance with the requirements of this Code to the extent practical.

Upon the written request of a public institution of higher education, the Chief Procurement Officer may waive contract, registration, certification, and hearing requirements of this Code if, based on the item to be procured or the terms of a grant, compliance is impractical. The public institution of higher education shall provide the Chief Procurement Officer with specific reasons for the waiver, including the necessity of contracting with a particular potential contractor, and shall certify that an effort was made in good faith to comply with the provisions of this Code. The Chief Procurement Officer shall provide written justification for any waivers. By November 1 of each year, the Chief Procurement Officer shall file a report with the General Assembly identifying each contract approved with waivers and providing the justification given for any waivers for each of those contracts. Notice of each waiver made under this subsection shall be published in the Procurement Bulletin within 14 calendar days after contract execution. The Chief Procurement Officer shall prescribe the form and content of the notice.

(d) Notwithstanding this Section, a waiver of the registration requirements of Section 20-160 does not permit a business entity and any affiliated entities or affiliated persons to make campaign contributions if otherwise prohibited by Section 50-37. The total amount of contracts awarded in accordance with this Section shall be included in determining the aggregate amount of contracts or pending bids of a business entity and any affiliated entities or affiliated persons.

(e) Notwithstanding subsection (e) of Section 50-10.5 of this Code, the Chief Procurement Officer, with the approval of the Executive Ethics Commission, may permit a public institution of higher education to accept a bid or enter into a contract with a business that assisted the public institution of higher education in determining whether there is a need for a contract or assisted in reviewing, drafting, or preparing documents related to a bid or contract, provided that the bid or contract is essential to research administered by the public institution of higher education and it is in the best interest of the public institution of higher education to accept the bid or contract. For purposes of this subsection, "business" includes all individuals with whom a business is affiliated, including, but not limited to, any officer, agent, employee, consultant,

(g) (Blank).

(h) The General Assembly finds and declares that:

(1) Public Act 98-1076, which took effect on January 1, 2015, changed the repeal date set for this Section from December 31, 2014 to December 31, 2016.

(2) The Statute on Statutes sets forth general rules on the repeal of statutes and the construction of multiple amendments, but Section 1 of that Act also states that these rules will not be observed when the result would be "inconsistent with the manifest intent of the General Assembly or repugnant to the context of the statute".

(3) This amendatory Act of the 100th General Assembly manifests the intention of the General Assembly to remove the repeal of this Section.

(4) This Section was originally enacted to protect, promote, and preserve the general welfare. Any construction of this Section that results in the repeal of this Section on December 31, 2014 would be inconsistent with the manifest intent of the General Assembly and repugnant to the context of this Code.

It is hereby declared to have been the intent of the General Assembly that this Section not be subject to repeal on December 31, 2014.

This Section shall be deemed to have been in continuous effect since December 20, 2011 (the effective date of Public Act 97-643), and it shall continue to be in effect henceforward until it is otherwise lawfully repealed. All previously enacted amendments to this Section taking effect on or after December 31, 2014, are hereby validated.

All actions taken in reliance on or pursuant to this Section by any public institution of higher education, person, or entity are hereby validated.

In order to ensure the continuing effectiveness of this Section, it is set forth in full and re-enacted by this amendatory Act of the 100th General Assembly. This re-enactment is intended as a continuation of this Section. It is not intended to supersede any amendment to this Section that is enacted by the 100th General Assembly.

In this amendatory Act of the 100th General Assembly, the base text of the reenacted Section is set forth as amended by Public Act 98-1076. Striking and underscoring is used only to show changes being made to the base text.

This Section applies to all procurements made on or before the effective date of this amendatory Act of the 100th General Assembly.

Sec. 20-60. Duration of contracts.

(a) Maximum duration. A contract may be entered into for any period of time deemed to be in the best interests of the State but not exceeding 10 years inclusive, beginning January 1, 2010, of proposed contract renewals. Third parties may lease State-owned dark fiber networks for any period of time deemed to be in the best interest of the State, but not exceeding 20 years. The length of a lease for real property or capital improvements shall be in accordance with the provisions of Section 40-25. The length of energy conservation program contracts or energy savings contracts or leases shall be in accordance with the provisions of Section 25-45. (b) Subject to appropriation. All contracts made or entered into shall recite that they are subject to termination and cancellation in any year for which the General Assembly fails to make an appropriation to make payments under the terms of the contract.

(c) The chief procurement officer shall file a proposed extension or renewal of a contract with the Procurement Policy Board and the Commission on Equity and Inclusion prior to entering into any extension or renewal if the cost associated with the extension or renewal exceeds \$249,999. The Procurement Policy Board or the Commission on Equity and Inclusion may object to the proposed extension or renewal within 14 ~~30~~ calendar days and require a hearing before the Board or the Commission on Equity and Inclusion prior to entering into the extension or renewal. If the Procurement Policy Board or the Commission on Equity and Inclusion does not object within 14 ~~30~~ calendar days or takes affirmative action to recommend the extension or renewal, the chief procurement officer may enter into the extension or renewal of a contract. This subsection does not apply to any emergency procurement, any procurement under Article 40, or any procurement exempted by Section 1-10(b) of this Code. If any State agency contract is paid for in whole or in part with federal-aid funds, grants, or loans and the provisions of this subsection would result in

the loss of those federal-aid funds, grants, or loans, then the contract is exempt from the provisions of this subsection in order to remain eligible for those federal-aid funds, grants, or loans, and the State agency shall file notice of this exemption with the Procurement Policy Board or the Commission on Equity and Inclusion prior to entering into the proposed extension or renewal. Nothing in this subsection permits a chief procurement officer to enter into an extension or renewal in violation of subsection (a). By August 1 each year, the Procurement Policy Board and the Commission on Equity and Inclusion shall each file a report with the General Assembly identifying for the previous fiscal year (i) the proposed extensions or renewals that were filed and whether such extensions and renewals were objected to and (ii) the contracts exempt from this subsection.

If the State agency or public institution of higher education determines that the vendor made good faith efforts, the agency or public institution of higher education may issue a waiver after concurrence by the chief procurement officer, which shall not be unreasonably withheld or impair a State agency determination to execute the renewal. The form and content of the waiver shall be prescribed by each chief procurement officer, but shall not impair a State agency or public institution of higher education determination to execute the renewal. The chief procurement officer shall post the completed form on his or her official website within 5 business days after receipt from the State agency or public institution of higher education. At a minimum, the established procedures must include the requirement that the chief procurement officer resolve the protest by means of a written determination within 30 days of receiving all relevant requested information, unless an action concerning the protest has commenced in a court or administrative body, in which case, the chief procurement officer may defer resolution of the protest pending the judicial or administrative proceeding.

(b) If at any time during the term of a contract, a contractor adds or changes any subcontractors, he or she shall promptly notify, in writing, the chief procurement officer, State purchasing officer, or their designee of the names and addresses of each new or replaced subcontractor and the general type of work to be performed. (5) Appointive office; the holding of any appointive government office of the State of Illinois, the United States of America, or any unit of local government authorized by the Constitution of the State of Illinois or the statutes of the State of Illinois, which office entitles the holder to compensation in excess of expenses incurred in the discharge of that office currently or in the previous 3 years.

(7) Employment, currently or in the previous 3 years, as or by any registered lobbyist of the State government.

(b-1) The disclosure required under this Section must also include the name and address of each lobbyist required to register under the Lobbyist Registration Act and other agent of the bidder, offeror, potential contractor, contractor, or subcontractor who is not identified under subsections (a) and (b) and who has communicated, is communicating, or may communicate with any State officer or employee concerning the bid or offer. The disclosure under this subsection is a continuing obligation and must be promptly supplemented for accuracy throughout the process and throughout the term of the contract if the bid or offer is successful.

(b-2) The disclosure required under this Section must also include, for each of the persons identified in subsection (b) or (b-1), each of the following that occurred within the previous 10 years: suspension or debarment from contracting with any governmental entity; professional licensure discipline; bankruptcies; adverse civil judgments and administrative findings; and criminal felony convictions. The disclosure under this subsection is a continuing obligation and must be promptly supplemented for accuracy throughout the process and throughout the term of the contract if the bid or offer is successful.

(c) The disclosure in subsection (b) is not intended to prohibit or prevent any contract. The disclosure is meant to fully and publicly disclose any potential conflict to the chief procurement officers, State

purchasing officers, their designees, and executive officers so they may adequately discharge their duty to protect the State.

(d) When a potential for a conflict of interest is identified, discovered, or reasonably suspected, the chief procurement officer or State procurement officer shall send the contract to the Procurement Policy Board and the Commission on Equity and Inclusion. In accordance with the objectives of subsection (c), if the Procurement Policy Board or the Commission on Equity and Inclusion finds evidence of a potential conflict of interest not originally disclosed by the bidder, offeror, potential contractor, contractor, or subcontractor, the Board or the Commission on Equity and Inclusion shall provide written notice to the bidder, offeror, potential contractor, contractor, or subcontractor that is identified, discovered, or reasonably suspected of having a potential conflict of interest. The bidder, offeror, potential contractor, contractor, or subcontractor shall have 15 calendar days to respond in writing to the Board or the Commission on Equity and Inclusion, and a hearing before the Board or the Commission on Equity and Inclusion will be granted upon request by the bidder, offeror, potential contractor, contractor, or subcontractor, at a date and time to be determined by the Board or the Commission on Equity and Inclusion, but which in no event shall occur later than 15 calendar days after the date of the request. Upon consideration, the Board or the Commission on Equity and Inclusion shall recommend, in writing, whether to allow or void the contract, bid, offer, or subcontract weighing the best interest of the State of Illinois. All recommendations shall be submitted to the Executive Ethics Commission. The Executive Ethics Commission must hold a public hearing within 30 calendar days after receiving the Board's or the Commission on Equity and Inclusion's recommendation if the Procurement Policy Board or the Commission on Equity and Inclusion makes a recommendation to (i) void a contract or (ii) void a bid or offer and the chief procurement officer selected or intends to award the contract to the bidder, offeror, or potential contractor. A chief procurement officer is prohibited from awarding a contract before a hearing if the Board or the Commission on Equity and Inclusion recommendation does not support a bid or offer. The recommendation and proceedings of any hearing, if applicable, shall be available to the public.

(e) These thresholds and disclosure do not relieve the chief procurement officer, the State purchasing officer, or their designees from reasonable care and diligence for any contract, bid, offer, or submission to a vendor portal. The chief procurement officer, the State purchasing officer, or their designees shall be responsible for using any reasonably known and publicly available information to discover any undisclosed potential conflict of interest and act to protect the best interest of the State of Illinois.

(f) Inadvertent or accidental failure to fully disclose shall render the contract, bid, offer, proposal, subcontract, or relationship voidable by the chief procurement officer if he or she deems it in the best interest of the State of Illinois and, at his or her discretion, may be cause for barring from future contracts, bids, offers, proposals, subcontracts, or relationships with the State for a period of up to 2 years.

(g) Intentional, willful, or material failure to disclose shall render the contract, bid, offer, proposal, subcontract, or relationship voidable by the chief procurement officer if he or she deems it in the best interest of the State of Illinois and shall result in debarment from future contracts, bids, offers, proposals, subcontracts, or relationships for a period of not less than 2 years and not more than 10 years. Reinstatement after 2 years and before 10 years must be reviewed and commented on in writing by the Governor of the State of Illinois, or by an executive ethics board or commission he or she might designate. The comment shall be returned to the responsible chief procurement officer who must rule in writing whether and when to reinstate.

(h) In addition, all disclosures shall note any other current or pending contracts, bids, offers, proposals, subcontracts, leases, or other ongoing procurement relationships the bidder, offeror, potential contractor, contractor, or subcontractor has with any other unit of State government and shall clearly identify the unit and the contract, offer, proposal, lease, or other relationship.

(i) The bidder, offeror, potential contractor, or contractor has a continuing obligation to supplement the disclosure required by this Section throughout the bidding process during the term of any contract, and during the vendor portal registration process.

(j) If a bid or offer is received from a responsive bidder, offeror, vendor, contractor, or subcontractor with an annual value of more than \$100,000 and the bidder, offeror, vendor, contractor, or subcontractor has an active contract with that same entity and already has submitted their financial disclosures and potential conflicts of interest within the last 12 months, the bidder, offeror, vendor, contractor, or subcontractor may submit a signed affidavit attesting that the original submission of its financial disclosures and potential conflicts of interests has not been altered or changed. The form and content of the affidavit shall be prescribed by the applicable chief procurement officer.

(305 ILCS 5/5A-2) (from Ch. 23, par. 5A-2)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-2. Assessment.

(a)(1) Subject to Sections 5A-3 and 5A-10, for State fiscal years 2009 through 2018, or as long as continued under Section 5A-16, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to \$218.38 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided, however, that the amount of \$218.38 shall be increased by a uniform percentage to generate an amount equal to 75% of the State share of the payments authorized under Section 5A-12.5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period of April through June 2015, the amount of \$218.38 used to calculate the assessment under this paragraph shall, by emergency rule under subsection (s) of Section 5-45 of the Illinois Administrative Procedure Act, be increased by a uniform percentage to generate \$20,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(2) In addition to any other assessments imposed under this Article, effective July 1, 2016 and semi-annually thereafter through June 2018, or as provided in Section 5A-16, in addition to any federally required State share as authorized under paragraph (1), the amount of \$218.38 shall be increased by a uniform percentage to generate an amount equal to 75% of the ACA Assessment Adjustment, as defined in subsection (b-6) of this Section.

For State fiscal years 2009 through 2018, or as provided in Section 5A-16, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2005 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on December 31, 2006, without regard to any subsequent adjustments or changes to such data. If a hospital's 2005 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare

bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees.

(3) Subject to Sections 5A-3, 5A-10, and 5A-16, for State fiscal years 2019 and 2020, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to \$197.19 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days. For State fiscal years 2019 and 2020, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Notwithstanding any other provision in this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020.

(4) Subject to Sections 5A-3 and 5A-10 and to subsection (b-8), for the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 and 2022, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to \$221.50 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided however: for the period of July 1, 2020 through December 31, 2020, (i) the assessment shall be equal to 50% of the annual amount; and (ii) the amount of \$221.50 shall be retroactively adjusted by a uniform percentage to generate an amount equal to 50% of the Assessment Adjustment, as defined in subsection (b-7). For the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 and 2022, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Should the change in the assessment methodology for fiscal years 2021 through December 31, 2022 not be approved on or before June 30, 2020, the assessment and payments under this Article in effect for fiscal year 2020 shall remain in place until the new assessment is approved. If the assessment methodology for July 1, 2020 through December 31, 2022, is approved on or after July 1, 2020, it shall be retroactive to July 1, 2020, subject to federal approval and provided that the payments authorized under Section 5A-12.7 have the same effective date as the new assessment methodology. In giving retroactive effect to the assessment approved after June 30, 2020, credit toward the new assessment shall be given for any payments of the previous assessment for periods after June 30, 2020. Notwithstanding any other provision of this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State Fiscal Year 2020 on the basis of hypothetical data, the data that was the basis for the 2020 assessment shall be used to calculate the assessment under this paragraph until December 31, 2023. Beginning July 1, 2022 and through December 31, 2024, a safety-net hospital that had a change of ownership in calendar year 2021, and whose inpatient utilization had decreased by 90% from the prior year and prior to the change of ownership, may be eligible to pay a tax based on hypothetical data based on a determination of financial distress by the Department.

(b) (Blank).

(b-5)(1) Subject to Sections 5A-3 and 5A-10, for the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, or as provided in Section 5A-16, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .008766 multiplied by the hospital's outpatient gross revenue, provided, however, that the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the State share of the payments authorized under Section 5A-12.5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period beginning June 10, 2012 through June 30, 2012, the annual assessment on outpatient services shall be prorated by multiplying the assessment

amount by a fraction, the numerator of which is 21 days and the denominator of which is 365 days. For the period of April through June 2015, the amount of .008766 used to calculate the assessment under this paragraph shall, by emergency rule under subsection (s) of Section 5-45 of the Illinois Administrative Procedure Act, be increased by a uniform percentage to generate \$6,750,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(2) In addition to any other assessments imposed under this Article, effective July 1, 2016 and semi-annually thereafter through June 2018, in addition to any federally required State share as authorized under paragraph (1), the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the ACA Assessment Adjustment, as defined in subsection (b-6) of this Section.

For the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and State fiscal years 2013 through 2018, or as provided in Section 5A-16, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2009 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on June 30, 2011, without regard to any subsequent adjustments or changes to such data. If a hospital's 2009 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees.

(3) Subject to Sections 5A-3, 5A-10, and 5A-16, for State fiscal years 2019 and 2020, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .01358 multiplied by the hospital's outpatient gross revenue. For State fiscal years 2019 and 2020, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees. Notwithstanding any other provision in this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020.

(4) Subject to Sections 5A-3 and 5A-10 and to subsection (b-8), for the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 and ~~2022~~, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .01525 multiplied by the hospital's outpatient gross revenue, provided however: (i) for the period of July 1, 2020 through December 31, 2020, the assessment shall be equal to 50% of the annual amount; and (ii) the amount of .01525 shall be retroactively adjusted by a uniform percentage to generate an amount equal to 50% of the Assessment Adjustment, as defined in subsection (b-7). For the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 and ~~2022~~, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's outpatient revenue data from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Should the change in the assessment methodology above for fiscal years 2021 through calendar year 2022 not be approved prior to July 1, 2020, the assessment and payments under this Article in effect for fiscal year 2020 shall remain in place until the new assessment is approved. If the change in the assessment methodology above for July 1, 2020 through December 31, 2022, is approved after June 30, 2020, it shall have a retroactive effective date of July 1, 2020, subject to federal approval and provided that the payments authorized under Section 12A-7 have the same effective date as the new assessment methodology. In giving retroactive effect to the assessment approved after June 30, 2020, credit toward the new assessment shall be given for any payments of the previous assessment for periods after June 30, 2020. Notwithstanding any other provision of this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State Fiscal Year 2020 on the basis of hypothetical data, the data that was the basis for the 2020 assessment shall be used

to calculate the assessment under this paragraph until December 31, 2023. Beginning July 1, 2022 and through December 31, 2024, a safety-net hospital that had a change of ownership in calendar year 2021, and whose inpatient utilization had decreased by 90% from the prior year and prior to the change of ownership, may be eligible to pay a tax based on hypothetical data based on a determination of financial distress by the Department.

(b-6)(1) As used in this Section, "ACA Assessment Adjustment" means:

(A) For the period of July 1, 2016 through December 31, 2016, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of April 2016 multiplied by 6.

(B) For the period of January 1, 2017 through June 30, 2017, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of October 2016 multiplied by 6, except that the amount calculated under this subparagraph (B) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period beginning July 1, 2016 through December 31, 2016 and the estimated payments due and payable in the month of April 2016 multiplied by 6 as described in subparagraph (A).

(C) For the period of July 1, 2017 through December 31, 2017, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of April 2017 multiplied by 6, except that the amount calculated under this subparagraph (C) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period beginning January 1, 2017 through June 30, 2017 and the estimated payments due and payable in the month of October 2016 multiplied by 6 as described in subparagraph (B).

(D) For the period of January 1, 2018 through June 30, 2018, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of October 2017 multiplied by 6, except that:

(i) the amount calculated under this subparagraph (D) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period of July 1, 2017 through December 31, 2017 and the estimated payments due and payable in the month of April 2017 multiplied by 6 as described in subparagraph (C); and

(ii) the amount calculated under this subparagraph (D) shall be adjusted to include the product of .19125 multiplied by the sum of the fee-for-service payments, if any, estimated to be paid to hospitals under subsection (b) of Section 5A-12.5.

(2) The Department shall complete and apply a final reconciliation of the ACA Assessment Adjustment prior to June 30, 2018 to account for:

(A) any differences between the actual payments issued or scheduled to be issued prior to June 30, 2018 as authorized in Section 5A-12.5 for the period of January 1, 2018 through June 30, 2018 and the estimated payments due and payable in the month of October 2017 multiplied by 6 as described in subparagraph (D); and

(B) any difference between the estimated fee-for-service payments under subsection (b) of Section 5A-12.5 and the amount of such payments that are actually scheduled to be paid.

The Department shall notify hospitals of any additional amounts owed or reduction credits to be applied to the June 2018 ACA Assessment Adjustment. This is to be considered the final reconciliation for the ACA Assessment Adjustment.

(3) Notwithstanding any other provision of this Section, if for any reason the scheduled payments under subsection (b) of Section 5A-12.5 are not issued in full by the final day of the period authorized under subsection (b) of Section 5A-12.5, funds collected from each hospital pursuant to subparagraph (D) of paragraph (1) and pursuant to paragraph (2), attributable to the scheduled payments authorized under subsection (b) of Section 5A-12.5 that are not issued in full by the final day of the period attributable to each payment authorized under subsection (b) of Section 5A-12.5, shall be refunded.

(4) The increases authorized under paragraph (2) of subsection (a) and paragraph (2) of subsection (b-5) shall be limited to the federally required State share of the total payments authorized under Section 5A-12.5 if the sum of such payments yields an annualized amount equal to or less than \$450,000,000, or if the adjustments authorized under subsection (t) of Section 5A-12.2 are found not to be actuarially sound; however, this limitation shall not apply to the fee-for-service payments described in subsection (b) of Section 5A-12.5.

(b-7)(1) As used in this Section, "Assessment Adjustment" means:

(A) For the period of July 1, 2020 through December 31, 2020, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (k) of Section 5A-12.7 attributable to the period, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the period.

(B) For each calendar quarter beginning ~~on and after~~ January 1, 2021 through December 31, 2022, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (k) of Section 5A-12.7 attributable to the period, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the period.

(C) Beginning on January 1, 2023, and each subsequent July 1 and January 1, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (j) of Section 5A-12.7 attributable to the 6-month period immediately preceding the period to which the adjustment applies, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the 6-month period immediately preceding the period to which the adjustment applies.

(2) The Department shall calculate and notify each hospital of the total Assessment Adjustment and any additional assessment owed by the hospital or refund owed to the hospital on either a semi-annual or annual basis. Such notice shall be issued at least 30 days prior to any period in which the assessment will be adjusted. Any additional assessment owed by the hospital or refund owed to the hospital shall be uniformly applied to the assessment owed by the hospital in monthly installments for the subsequent semi-annual period or calendar year. If no assessment is owed in the subsequent year, any amount owed by the hospital or refund due to the hospital, shall be paid in a lump sum.

(3) The Department shall publish all details of the Assessment Adjustment calculation performed each year on its website within 30 days of completing the calculation, and also submit the details of the Assessment Adjustment calculation as part of the Department's annual report to the General Assembly.

(b-8) Notwithstanding any other provision of this Article, the Department shall reduce the assessments imposed on each hospital under subsections (a) and (b-5) by the uniform percentage necessary to reduce the total assessment imposed on all hospitals by an aggregate amount of \$240,000,000, with such reduction being applied by June 30, 2022. The assessment reduction required for each hospital under this subsection shall be forever waived, forgiven, and released by the Department.

(c) (Blank).

(d) Notwithstanding any of the other provisions of this Section, the Department is authorized to adopt rules to reduce the rate of any annual assessment imposed under this Section, as authorized by Section 5-46.2 of the Illinois Administrative Procedure Act.

(e) Notwithstanding any other provision of this Section, any plan providing for an assessment on a hospital provider as a permissible tax under Title XIX of the federal Social Security Act and Medicaid-eligible payments to hospital providers from the revenues derived from that assessment shall be reviewed by the Illinois Department of Healthcare and Family Services, as the Single State Medicaid Agency required by federal law, to determine whether those assessments and hospital provider payments meet federal Medicaid standards. If the Department determines that the elements of the plan may meet federal Medicaid standards and a related State Medicaid Plan Amendment is prepared in a manner and form suitable for submission, that State Plan Amendment shall be submitted in a timely manner for review by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services and subject to approval by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services. No such plan shall become effective without approval by the Illinois General Assembly by the enactment into law of related legislation. Notwithstanding any other provision of this Section, the Department is authorized to adopt rules to reduce the rate of any annual assessment imposed under this Section. Any such rules may be adopted by the Department under Section 5-50 of the Illinois Administrative Procedure Act.

The notice of assessment shall notify the hospital of its assessment and shall be sent after receipt by the Department of notification from the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services that the payment methodologies required under this Article and, if necessary, the waiver granted under 42 CFR 433.68 have been approved. The notice shall be on a form prepared by the Illinois Department and shall state the following:

(1) The name of the hospital provider.

(2) The address of the hospital provider's principal place of business from which the provider engages in the occupation of hospital provider in this State, and the name and address of each hospital operated, conducted, or maintained by the provider in this State.

(3) The occupied bed days, the unoccupied bed days less Medicare days, adjusted gross hospital revenue, or outpatient gross revenue of the hospital provider (whichever is applicable), the amount of assessment imposed under Section 5A-2 for the State fiscal year for which the notice is sent, and the amount of each installment to be paid during the State fiscal year.

(5) Other reasonable information as determined by the Illinois Department.

(b) If a hospital provider conducts, operates, or maintains more than one hospital licensed by the Illinois Department of Public Health, the provider shall pay the assessment for each hospital separately.

(c) Notwithstanding any other provision in this Article, in the case of a person who ceases to conduct, operate, or maintain a hospital in respect of which the person is subject to assessment under this Article as a hospital provider, the assessment for the State fiscal year in which the cessation occurs shall be adjusted by multiplying the assessment computed under Section 5A-2 by a fraction, the numerator of which is the number of days in the year during which the provider conducts, operates, or maintains the hospital and the denominator of which is 365. Immediately upon ceasing to conduct, operate, or maintain a hospital, the person shall pay the assessment for the year as so adjusted (to the extent not previously paid).

(d) Notwithstanding any other provision in this Article, a provider who commences conducting, operating, or maintaining a hospital, upon notice by the Illinois Department, shall pay the assessment computed under Section 5A-2 and subsection (e) in installments on the due dates stated in the notice and on the regular installment due dates for the State fiscal year occurring after the due dates of the initial notice.

(e) Notwithstanding any other provision in this Article, for State fiscal years 2009 through 2018, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in 2005, the assessment for that State fiscal year shall be computed on the basis of hypothetical occupied bed days for the full calendar year as determined by the Illinois Department. Notwithstanding any other provision in this Article, for the portion of State fiscal year 2012 beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in 2009, the assessment under subsection (b-5) of Section 5A-2 for that State fiscal year shall be computed on the basis of hypothetical gross outpatient revenue for the full calendar year as determined by the Illinois Department.

Notwithstanding any other provision in this Article, beginning July 1, 2018 through December 31, 2026 ~~for State fiscal years 2019 through 2024~~, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in the year that is the basis of the calculation of the assessment under this Article, the assessment under paragraph (3) of subsection (a) of Section 5A-2 for the State fiscal year shall be computed on the basis of hypothetical occupied bed days for the full calendar year as determined by the Illinois Department, except that for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020; however, for State fiscal year 2020, the assessment amount shall be increased by the proportion that it represents of the total annual assessment that is generated from all hospitals in order to generate \$6,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

Notwithstanding any other provision in this Article, beginning July 1, 2018 through December 31, 2026 ~~for State fiscal years 2019 through 2024~~, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in the year that is the basis of the calculation of the assessment under this Article, the assessment under subsection (b-5) of Section 5A-2 for that State fiscal year shall be computed on the basis of hypothetical gross outpatient revenue for the full calendar year as determined by the Illinois

Department, except that for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020; however, for State fiscal year 2020, the assessment amount shall be increased by the proportion that it represents of the total annual assessment that is generated from all hospitals in order to generate \$6,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(f) Every hospital provider subject to assessment under this Article shall keep sufficient records to permit the determination of adjusted gross hospital revenue for the hospital's fiscal year. All such records shall be kept in the English language and shall, at all times during regular business hours of the day, be subject to inspection by the Illinois Department or its duly authorized agents and employees.

(g) The Illinois Department may, by rule, provide a hospital provider a reasonable opportunity to request a clarification or correction of any clerical or computational errors contained in the calculation of its assessment, but such corrections shall not extend to updating the cost report information used to calculate the assessment.

(305 ILCS 5/5A-12.7)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-12.7. Continuation of hospital access payments on and after July 1, 2020.

(a) To preserve and improve access to hospital services, for hospital services rendered on and after July 1, 2020, the Department shall, except for hospitals described in subsection (b) of Section 5A-3, make payments to hospitals or require capitated managed care organizations to make payments as set forth in this Section. Payments under this Section are not due and payable, however, until: (i) the methodologies described in this Section are approved by the federal government in an appropriate State Plan amendment or directed payment preprint; and (ii) the assessment imposed under this Article is determined to be a permissible tax under Title XIX of the Social Security Act. In determining the hospital access payments authorized under subsection (g) of this Section, if a hospital ceases to qualify for payments from the pool, the payments for all hospitals continuing to qualify for payments from such pool shall be uniformly adjusted to fully expend the aggregate net amount of the pool, with such adjustment being effective on the first day of the second month following the date the hospital ceases to receive payments from such pool.

(b) Amounts moved into claims-based rates and distributed in accordance with Section 14-12 shall remain in those claims-based rates.

(c) Graduate medical education.

(1) The calculation of graduate medical education payments shall be based on the hospital's Medicare cost report ending in Calendar Year 2018, as reported in the Healthcare Cost Report Information System file, release date September 30, 2019. An Illinois hospital reporting intern and resident cost on its Medicare cost report shall be eligible for graduate medical education payments.

(2) Each hospital's annualized Medicaid Intern Resident Cost is calculated using annualized intern and resident total costs obtained from Worksheet B Part I, Columns 21 and 22 the sum of Lines 30-43, 50-76, 90-93, 96-98, and 105-112 multiplied by the percentage that the hospital's Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of the hospital's total days (Worksheet S3 Part I, Column 8, Lines 14, 16-18, and 32).

(3) An annualized Medicaid indirect medical education (IME) payment is calculated for each hospital using its IME payments (Worksheet E Part A, Line 29, Column 1) multiplied by the percentage that its Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of its Medicare days (Worksheet S3 Part I, Column 6, Lines 2, 3, 4, 14, and 16-18).

(4) For each hospital, its annualized Medicaid Intern Resident Cost and its annualized Medicaid IME payment are summed, and, except as capped at 120% of the average cost per intern and resident for all qualifying hospitals as calculated under this paragraph, is multiplied by the applicable reimbursement factor as described in this paragraph, ~~22.6%~~ to determine the hospital's final graduate medical education payment. Each hospital's average cost per intern and resident shall be calculated by summing its total annualized Medicaid Intern Resident Cost plus its annualized Medicaid IME payment and dividing that amount by the hospital's total Full Time Equivalent Residents and Interns. If the hospital's average per intern and resident cost is greater than 120% of the same calculation for all qualifying hospitals, the hospital's per intern and resident cost shall be capped at 120% of the average cost for all qualifying hospitals.

(A) For the period of July 1, 2020 through December 31, 2022, the applicable reimbursement factor shall be 22.6%.

(B) For the period of January 1, 2023 through December 31, 2026, the applicable reimbursement factor shall be 35% for all qualified safety-net hospitals, as defined in Section 5-5e.1 of this Code, and all hospitals with 100 or more Full Time Equivalent Residents and Interns, as reported on the hospital's Medicare cost report ending in Calendar Year 2018, and for all other qualified hospitals the applicable reimbursement factor shall be 30%.

(d) Fee-for-service supplemental payments. For the period of July 1, 2020 through December 31, 2022, each ~~Each~~ Illinois hospital shall receive an annual payment equal to the amounts below, to be paid in 12 equal installments on or before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable.

(1) For critical access hospitals, \$385 per covered inpatient day contained in paid fee-for-service claims and \$530 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(2) For safety-net hospitals, \$960 per covered inpatient day contained in paid fee-for-service claims and \$625 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(3) For long term acute care hospitals, \$295 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable. The Department may adjust the rates in paragraphs (1) through (7) to comply with the federal upper payment limits, with such adjustments being determined so that the total estimated spending by hospital class, under such adjusted rates, remains substantially similar to the total estimated spending under the original rates set forth in this subsection.

(1) For critical access hospitals, as defined in subsection (f), \$750 per covered inpatient day contained in paid fee-for-service claims and \$750 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(8) Alzheimer's treatment access payment. Each Illinois academic medical center or teaching hospital, as defined in Section 5-5e.2 of this Code, that is identified as the primary hospital affiliate of one of the Regional Alzheimer's Disease Assistance Centers, as designated by the Alzheimer's Disease Assistance Act and identified in the Department of Public Health's Alzheimer's Disease State Plan dated December 2016, shall be paid an Alzheimer's treatment access payment equal to the product of the qualifying hospital's Calendar Year 2019 total inpatient fee-for-service days, in the Department's Enterprise Data Warehouse as of August 6, 2021, multiplied by the applicable Alzheimer's treatment rate of \$244.37 for hospitals located in Cook County and \$312.03 for hospitals located outside Cook County.

(e) The Department shall require managed care organizations (MCOs) to make directed payments and pass-through payments according to this Section. Each calendar year, the Department shall require MCOs to pay the maximum amount out of these funds as allowed as pass-through payments under federal regulations. The Department shall require MCOs to make such pass-through payments as specified in this Section. The Department shall require the MCOs to pay the remaining amounts as directed Payments as specified in this Section. The Department shall issue payments to the Comptroller by the seventh business day of each month

for all MCOs that are sufficient for MCOs to make the directed payments and pass-through payments according to this Section. The Department shall require the MCOs to make pass-through payments and directed payments using electronic funds transfers (EFT), if the hospital provides the information necessary to process such EFTs, in accordance with directions provided monthly by the Department, within 7 business days of the date the funds are paid to the MCOs, as indicated by the "Paid Date" on the website of the Office of the Comptroller if the funds are paid by EFT and the MCOs have received directed payment instructions. If funds are not paid through the Comptroller by EFT, payment must be made within 7 business days of the date actually received by the MCO. The MCO will be considered to have paid the pass-through payments when the payment remittance number is generated or the date the MCO sends the check to the hospital, if EFT information is not supplied. If an MCO is late in paying a pass-through payment or directed payment as required under this Section (including any extensions granted by the Department), it shall pay a penalty, unless waived by the Department for reasonable cause, to the Department equal to 5% of the amount of the pass-through payment or directed payment not paid on or before the due date plus 5% of the portion thereof remaining unpaid on the last day of each 30-day period thereafter. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this Section shall not be reduced as a consequence of payments made under this subsection. The Department shall publish and maintain on its website for a period of no less than 8 calendar quarters, the quarterly calculation of directed payments and pass-through payments owed to each hospital from each MCO. All calculations and reports shall be posted no later than the first day of the quarter for which the payments are to be issued.

(f)(1) For purposes of allocating the funds included in capitation payments to MCOs, Illinois hospitals shall be divided into the following classes as defined in administrative rules:

(A) Beginning July 1, 2020 through December 31, 2022, critical ~~Critical~~ access hospitals. Beginning January 1, 2023, "critical access hospital" means a hospital designated by the Department of Public Health as a critical access hospital, excluding any hospital meeting the definition of a public hospital in subparagraph (F).

(B) Safety-net hospitals, except that stand-alone children's hospitals that are not specialty children's hospitals will not be included. For the calendar year beginning January 1, 2023, and each calendar year thereafter, assignment to the safety-net class shall be based on the annual safety-net rate year beginning 15 months before the beginning of the first Payout Quarter of the calendar year.

(C) Long term acute care hospitals.

(D) Freestanding psychiatric hospitals.

(E) Freestanding rehabilitation hospitals.

(F) Beginning January 1, 2023, "public hospital" means a hospital that is owned or operated by an Illinois Government body or municipality, excluding a hospital provider that is a State agency, a State university, or a county with a population of 3,000,000 or more.

(G) ~~(F)~~ High Medicaid hospitals.

(i) As used in this Section, "high Medicaid hospital" means a general acute care hospital that:

(I) For the payout periods July 1, 2020 through December 31, 2022, is not a safety-net hospital or critical access hospital and that has a Medicaid Inpatient Utilization Rate above 30% or a hospital that had over 35,000 inpatient Medicaid days during the applicable period. For the period July 1, 2020 through December 31, 2020, the applicable period for the Medicaid Inpatient Utilization Rate (MIUR) is the rate year 2020 MIUR and for the number of inpatient days it is State fiscal year 2018. Beginning in calendar year 2021, the Department shall use the most recently determined MIUR, as defined in subsection (h) of Section 5-5.02, and for the inpatient day threshold, the State fiscal year ending 18 months prior to the beginning of the calendar year. For purposes of calculating MIUR under this Section, children's hospitals and affiliated general acute care hospitals shall be considered a single hospital.

(II) For the calendar year beginning January 1, 2023, and each calendar year thereafter, is not a public hospital, safety-net hospital, or critical access hospital and that qualifies as a regional high volume hospital or is a hospital that has a Medicaid Inpatient Utilization Rate (MIUR) above 30%. As used in this item, "regional high volume hospital" means a hospital which ranks in the top 2 quartiles based on total hospital services volume, of all eligible general acute care hospitals, when ranked in descending

order based on total hospital services volume, within the same Medicaid managed care region, as designated by the Department, as of January 1, 2022. As used in this item, "total hospital services volume" means the total of all Medical Assistance hospital inpatient admissions plus all Medical Assistance hospital outpatient visits. For purposes of determining regional high volume hospital inpatient admissions and outpatient visits, the Department shall use dates of service provided during State Fiscal Year 2020 for the Payout Quarter beginning January 1, 2023. The Department shall use dates of service from the State fiscal year ending 18 months before the beginning of the first Payout Quarter of the subsequent annual determination period.

(ii) For the calendar year beginning January 1, 2023, the Department shall use the Rate Year 2022 Medicaid inpatient utilization rate (MIUR), as defined in subsection (h) of Section 5-5.02. For each subsequent annual determination, the Department shall use the MIUR applicable to the rate year ending September 30 of the year preceding the beginning of the calendar year.

(H) ~~(G)~~ General acute care hospitals. As used under this Section, "general acute care hospitals" means all other Illinois hospitals not identified in subparagraphs (A) through ~~(G)~~ ~~(F)~~.

(2) Hospitals' qualification for each class shall be assessed prior to the beginning of each calendar year and the new class designation shall be effective January 1 of the next year. The Department shall publish by rule the process for establishing class determination.

(g) Fixed pool directed payments. Beginning July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to qualified Illinois safety-net hospitals and critical access hospitals on a monthly basis in accordance with this subsection. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by safety-net hospitals and critical access hospitals to determine a quarterly uniform per unit add-on for each hospital class.

(1) Inpatient per unit add-on. A quarterly uniform per diem add-on shall be derived by dividing the quarterly Inpatient Directed Payments Pool amount allocated to the applicable hospital class by the total inpatient days contained on all encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly inpatient directed payment calculated that is equal to the product of the number of inpatient days attributable to the hospital used in the calculation of the quarterly uniform class per diem add-on, multiplied by the calculated applicable quarterly uniform class per diem add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly inpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(2) Outpatient per unit add-on. A quarterly uniform per claim add-on shall be derived by dividing the quarterly Outpatient Directed Payments Pool amount allocated to the applicable hospital class by the total outpatient encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly outpatient directed payment calculated that is equal to the product of the number of outpatient encounter claims attributable to the hospital used in the calculation of the quarterly uniform class per claim add-on, multiplied by the calculated applicable quarterly uniform class per claim add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(3) Each MCO shall pay each hospital the Monthly Directed Payment as identified by the Department on its quarterly determination report.

(4) Definitions. As used in this subsection:

(A) "Payout Quarter" means each 3 month calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each 3 month calendar quarter, which ends 3 months prior to the first day of each Payout Quarter.

(5) For the period July 1, 2020 through December 2020, the following amounts shall be allocated to the following hospital class directed payment pools for the quarterly development of a uniform per unit add-on:

- (A) \$2,894,500 for hospital inpatient services for critical access hospitals.
- (B) \$4,294,374 for hospital outpatient services for critical access hospitals.
- (C) \$29,109,330 for hospital inpatient services for safety-net hospitals.
- (D) \$35,041,218 for hospital outpatient services for safety-net hospitals.

(6) For the period January 1, 2023 through December 31, 2023, the Department shall establish the amounts that shall be allocated to the hospital class directed payment fixed pools identified in this paragraph for the quarterly development of a uniform per unit add-on. The Department shall establish such amounts so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the directed payment fixed pool amounts to be established under this paragraph on its website by November 15, 2022.

- (A) Hospital inpatient services for critical access hospitals.
- (B) Hospital outpatient services for critical access hospitals.
- (C) Hospital inpatient services for public hospitals.
- (D) Hospital outpatient services for public hospitals.
- (E) Hospital inpatient services for safety-net hospitals.
- (F) Hospital outpatient services for safety-net hospitals.

(7) Semi-annual rate maintenance review. The Department shall ensure that hospitals assigned to the fixed pools in paragraph (6) are paid no less than 95% of the annual initial rate for each 6-month period of each annual payout period. For each calendar year, the Department shall calculate the annual initial rate per day and per visit for each fixed pool hospital class listed in paragraph (6), by dividing the total of all applicable inpatient or outpatient directed payments issued in the preceding calendar year to the hospitals in each fixed pool class for the calendar year, plus any increase resulting from the annual adjustments described in subsection (i), by the actual applicable total service units for the preceding calendar year which were the basis of the total applicable inpatient or outpatient directed payments issued to the hospitals in each fixed pool class in the calendar year, except that for calendar year 2023, the service units from calendar year 2021 shall be used.

(A) The Department shall calculate the effective rate, per day and per visit, for the payout periods of January to June and July to December of each year, for each fixed pool listed in paragraph (6), by dividing 50% of the annual pool by the total applicable reported service units for the 2 applicable determination quarters.

(B) If the effective rate calculated in subparagraph (A) is less than 95% of the annual initial rate assigned to the class for each pool under paragraph (6), the Department shall adjust the payment for each hospital to a level equal to no less than 95% of the annual initial rate, by issuing a retroactive adjustment payment for the 6-month period under review as identified in subparagraph (A).

(h) Fixed rate directed payments. Effective July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to Illinois hospitals not identified in paragraph (g) on a monthly basis. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by hospitals in each hospital class identified in paragraph (f) and not identified in paragraph (g). For the period July 1, 2020 through December 2020, the Department shall direct MCOs to make payments as follows:

(1) For general acute care hospitals an amount equal to \$1,750 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(2) For general acute care hospitals an amount equal to \$160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(4) For general acute care hospitals an amount equal to \$375 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG (EAPGs) for the determination quarter.

(5) For general acute care hospitals an amount equal to \$240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(6) For general acute care hospitals an amount equal to \$290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(7) For high Medicaid hospitals an amount equal to \$1,800 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(8) For high Medicaid hospitals an amount equal to \$160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(9) For high Medicaid hospitals an amount equal to \$80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(10) For high Medicaid hospitals an amount equal to \$400 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG outpatient claims for the determination quarter.

(11) For high Medicaid hospitals an amount equal to \$240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(12) For high Medicaid hospitals an amount equal to \$290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(13) For long term acute care hospitals the amount of \$495 multiplied by the hospital's total number of inpatient days for the determination quarter.

(14) For psychiatric hospitals the amount of \$210 multiplied by the hospital's total number of inpatient days for category of service 21 for the determination quarter.

(15) For psychiatric hospitals the amount of \$250 multiplied by the hospital's total number of outpatient claims for category of service 27 and 28 for the determination quarter.

(18) Effective for the Payout Quarter beginning January 1, 2023, for the directed payments to hospitals required under this subsection, the Department shall establish the amounts that shall be used to calculate such directed payments using the methodologies specified in this paragraph. The Department shall use a single, uniform rate, adjusted for acuity as specified in paragraphs (1) through (12), for all categories of inpatient services provided by each class of hospitals and a single uniform rate, adjusted for acuity as specified in paragraphs (1) through (12), for all categories of outpatient services provided by each class of hospitals. The Department shall establish such amounts so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the directed payment amounts to be established under this subsection on its website by November 15, 2022.

(19) ~~(18)~~ Each hospital shall be paid 1/3 of their quarterly inpatient and outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

20 ~~(19)~~ Each MCO shall pay each hospital the Monthly Directed Payment amount as identified by the Department on its quarterly determination report.

Notwithstanding any other provision of this subsection, if the Department determines that the actual total hospital utilization data that is used to calculate the fixed rate directed payments is substantially different than anticipated when the rates in this subsection were initially determined (for unforeseeable circumstances such as the COVID-19 pandemic or some other public health emergency), the Department may adjust the rates specified in this subsection so that the total directed payments approximate the total spending amount anticipated when the rates were initially established.

Definitions. As used in this subsection:

(A) "Payout Quarter" means each calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each calendar quarter which ends 3 months prior to the first day of each Payout Quarter.

(C) "Case mix index" means a hospital specific calculation. For inpatient claims the case mix index is calculated each quarter by summing the relative weight of all inpatient Diagnosis-Related Group (DRG) claims for a category of service in the applicable Determination Quarter and dividing the sum by the number of sum total of all inpatient DRG admissions for the category of service for the associated claims. The case mix index for outpatient claims is calculated each quarter by summing the relative weight of all paid EAPGs in the applicable Determination Quarter and dividing the sum by the sum total of paid EAPGs for the associated claims.

(i) Beginning January 1, 2021, the rates for directed payments shall be recalculated in order to spend the additional funds for directed payments that result from reduction in the amount of pass-through payments allowed under federal regulations. The additional funds for directed payments shall be allocated proportionally to each class of hospitals based on that class' proportion of services.

(1) Beginning January 1, 2024, the fixed pool directed payment amounts and the associated annual initial rates referenced in paragraph (6) of subsection (f) for each hospital class shall be uniformly increased by a ratio of not less than, the ratio of the total pass-through reduction amount pursuant to paragraph (4) of subsection (j), for the hospitals comprising the hospital fixed pool directed payment class for the next calendar year, to the total inpatient and outpatient directed payments for the hospitals comprising the hospital fixed pool directed payment class paid during the preceding calendar year.

(2) Beginning January 1, 2024, the fixed rates for the directed payments referenced in paragraph (18) of subsection (h) for each hospital class shall be uniformly increased by a ratio of not less than, the ratio of the total pass-through reduction amount pursuant to paragraph (4) of subsection (j), for the hospitals comprising the hospital directed payment class for the next calendar year, to the total inpatient and outpatient directed payments for the hospitals comprising the hospital fixed rate directed payment class paid during the preceding calendar year.

(j) Pass-through payments.

(1) For the period July 1, 2020 through December 31, 2020, the Department shall assign quarterly pass-through payments to each class of hospitals equal to one-fourth of the following annual allocations:

(3) For the calendar year beginning January 1, 2023, the Department shall establish the annual pass-through allocation to each class of hospitals and the pass-through payments to each hospital so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital

under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the pass-through allocation to each class and the pass-through payments to each hospital to be established under this subsection on its website by November 15, 2022.

(4) ~~(3)~~ For the calendar years ~~year~~ beginning January 1, 2021, January 1, 2022, and January 1, 2024, and each calendar year thereafter, each hospital's pass-through payment amount shall be reduced proportionally to the reduction of all pass-through payments required by federal regulations.

(k) At least 30 days prior to each calendar year, the Department shall notify each hospital of changes to the payment methodologies in this Section, including, but not limited to, changes in the fixed rate directed payment rates, the aggregate pass-through payment amount for all hospitals, and the hospital's pass-through payment amount for the upcoming calendar year.

(l) Notwithstanding any other provisions of this Section, the Department may adopt rules to change the methodology for directed and pass-through payments as set forth in this Section, but only to the extent necessary to obtain federal approval of a necessary State Plan amendment or Directed Payment Preprint or to otherwise conform to federal law or federal regulation.

(m) As used in this subsection, "managed care organization" or "MCO" means an entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis, excluding contracted entities for dual eligible or Department of Children and Family Services youth populations.

(n) In order to address the escalating infant mortality rates among minority communities in Illinois, the State shall, subject to appropriation, create a pool of funding of at least \$50,000,000 annually to be disbursed among safety-net hospitals that maintain perinatal designation from the Department of Public Health. The funding shall be used to preserve or enhance OB/GYN services or other specialty services at the receiving hospital, with the distribution of funding to be established by rule and with consideration to perinatal hospitals with safe birthing levels and quality metrics for healthy mothers and babies.

(o) In order to address the growing challenges of providing stable access to healthcare in rural Illinois, including perinatal services, behavioral healthcare including substance use disorder services (SUDs) and other specialty services, and to expand access to telehealth services among rural communities in Illinois, the Department of Healthcare and Family Services, subject to appropriation, shall administer a program to provide at least \$10,000,000 in financial support annually to critical access hospitals for delivery of perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services and telehealth services. The funding shall be used to preserve or enhance perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services, as well as the explanation of telehealth services by the receiving hospital, with the distribution of funding to be established by rule.

(p) For calendar year 2023, the final amounts, rates, and payments under subsections (c), (d-2), (g), (h), and (j) shall be established by the Department, so that the sum of the total estimated annual payments under subsections (c), (d-2), (g), (h), and (j) for each hospital class for calendar year 2023, is no less than:

Section 20-5. The Department of Public Health Powers and Duties Law is amended by adding Section 2310-710 as follows:

(20 ILCS 2310/2310-710 new)

Sec. 2310-710. Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program.

(a) Findings. The General Assembly finds that there are communities in Illinois that experience significant health care disparities, as recently emphasized by the COVID-19 pandemic, aggravated by social determinants of health and a lack of sufficient access to high quality healthcare resources, particularly community-based services, preventive care, obstetric care, chronic disease management, and specialty care. Safety-net hospitals, as defined under the Illinois Public Aid Code, serve as the anchors of the health care system for many of these communities. Safety-net hospitals not only care for their patients, they also are rooted in their communities by providing jobs and partnering with local organizations to help address the social determinants of health, such as food, housing, and transportation needs.

However, safety-net hospitals serve a significant number of Medicare, Medicaid, and uninsured patients, and therefore, are heavily dependent on underfunded government payers, and are heavily burdened by uncompensated care. At the same time, the overall cost of providing care has increased substantially in recent years, driven by increasing costs for staffing, prescription drugs, technology, and infrastructure.

For all of these reasons, the General Assembly finds that the long term sustainability of safety-net hospitals is threatened. While the General Assembly is providing funding to the Department to be paid to support the expenses of specific safety-net hospitals in State Fiscal Year 2023, such annual, ad hoc funding is not a reliable and stable source of funding that will enable safety-net hospitals to develop strategies to achieve long term sustainability. Such annual, ad hoc funding also does not provide the State with

transparency and accountability to ensure that such funding is being used effectively and efficiently to maximize the benefit to members of the community.

Therefore, it is the intent of the General Assembly that the Department of Public Health and the Department of Healthcare and Family Services jointly provide options and recommendations to the General Assembly by February 1, 2023, for the establishment of a permanent Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program, in accordance with this Section. It is the intention of the General Assembly that during State fiscal years 2024 through 2029, the Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program shall be supported by an annual funding pool of up to \$100,000,000, subject to appropriation.

(b) By February 1, 2023, the Department of Public Health and the Department of Healthcare and Family Services shall provide a joint report to the General Assembly on options and recommendations for the establishment of a permanent Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program to be administered by the State. For this report, "safety-net hospital" means a hospital identified by the Department of Healthcare and Family Services under Section 5-5e.1 of the Illinois Public Aid Code. The Departments of Public Health and Healthcare and Family Services may consult with the statewide association representing a majority of hospitals and safety-net hospitals on the report. The report may include, but need not be limited to:

(1) Criteria for a safety-net hospital to be eligible for the program, such as:

(A) The hospital is a participating provider in at least one Medicaid managed care plan.

(B) The hospital is located in a medically underserved area.

(C) The hospital's Medicaid utilization rate (for both inpatient and outpatient services).

(D) The hospital's Medicare utilization rate (for both inpatient and outpatient services).

(E) The hospital's uncompensated care percentage.

(F) The hospital's role in providing access to services, reducing health disparities, and improving health equity in its service area.

(G) The hospital's performance on quality indicators.

(2) Potential projects eligible for grant funds which may include projects to reduce health disparities, advance health equity, or improve access to or the quality of healthcare services.

(3) Potential policies, standards, and procedures to ensure accountability for the use of grant funds.

(4) Potential strategies to generate federal Medicaid matching funds for expenditures under the program.

(5) Potential policies, processes, and procedures for the administration of the program.

#### ARTICLE 25.

Section 25-5. The Illinois Public Aid Code is amended by changing Section 5-5.02 as follows:

(305 ILCS 5/5-5.02) (from Ch. 23, par. 5-5.02)

Sec. 5-5.02. Hospital reimbursements.

(a) Reimbursement to hospitals; July 1, 1992 through September 30, 1992. Notwithstanding any other provisions of this Code or the Illinois Department's Rules promulgated under the Illinois Administrative Procedure Act, reimbursement to hospitals for services provided during the period July 1, 1992 through September 30, 1992, shall be as follows:

(1) For inpatient hospital services rendered, or if applicable, for inpatient hospital discharges occurring, on or after July 1, 1992 and on or before September 30, 1992, the Illinois Department shall reimburse hospitals for inpatient services under the reimbursement methodologies in effect for each hospital, and at the inpatient payment rate calculated for each hospital, as of June 30, 1992. For purposes of this paragraph, "reimbursement methodologies" means all reimbursement methodologies that pertain to the provision of inpatient hospital services, including, but not limited to, any adjustments for disproportionate share, targeted access, critical care access and uncompensated care, as defined by the Illinois Department on June 30, 1992.

(2) For the purpose of calculating the inpatient payment rate for each hospital eligible to receive quarterly adjustment payments for targeted access and critical care, as defined by the Illinois Department on June 30, 1992, the adjustment payment for the period July 1, 1992 through September 30, 1992, shall be 25% of the annual adjustment payments calculated for each eligible hospital, as of

June 30, 1992. The Illinois Department shall determine by rule the adjustment payments for targeted access and critical care beginning October 1, 1992.

(3) For the purpose of calculating the inpatient payment rate for each hospital eligible to receive quarterly adjustment payments for uncompensated care, as defined by the Illinois Department on June 30, 1992, the adjustment payment for the period August 1, 1992 through September 30, 1992, shall be one-sixth of the total uncompensated care adjustment payments calculated for each eligible hospital for the uncompensated care rate year, as defined by the Illinois Department, ending on July 31, 1992. The Illinois Department shall determine by rule the adjustment payments for uncompensated care beginning October 1, 1992.

(b) Inpatient payments. For inpatient services provided on or after October 1, 1993, in addition to rates paid for hospital inpatient services pursuant to the Illinois Health Finance Reform Act, as now or hereafter amended, or the Illinois Department's prospective reimbursement methodology, or any other methodology used by the Illinois Department for inpatient services, the Illinois Department shall make adjustment payments, in an amount calculated pursuant to the methodology described in paragraph (c) of this Section, to hospitals that the Illinois Department determines satisfy any one of the following requirements:

(1) Hospitals that are described in Section 1923 of the federal Social Security Act, as now or hereafter amended, except that for rate year 2015 and after a hospital described in Section 1923(b)(1)(B) of the federal Social Security Act and qualified for the payments described in subsection (c) of this Section for rate year 2014 provided the hospital continues to meet the description in Section 1923(b)(1)(B) in the current determination year; or

(2) Illinois hospitals that have a Medicaid inpatient utilization rate which is at least one-half a standard deviation above the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Illinois Department; or

(3) Illinois hospitals that on July 1, 1991 had a Medicaid inpatient utilization rate, as defined in paragraph (h) of this Section, that was at least the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Illinois Department and which were located in a planning area with one-third or fewer excess beds as determined by the Health Facilities and Services Review Board, and that, as of June 30, 1992, were located in a federally designated Health Manpower Shortage Area; or

(4) Illinois hospitals that:

(A) have a Medicaid inpatient utilization rate that is at least equal to the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Department; and

(B) also have a Medicaid obstetrical inpatient utilization rate that is at least one standard deviation above the mean Medicaid obstetrical inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Department for obstetrical services; or

(5) Any children's hospital, which means a hospital devoted exclusively to caring for children.

A hospital which includes a facility devoted exclusively to caring for children shall be considered a children's hospital to the degree that the hospital's Medicaid care is provided to children if either (i) the facility devoted exclusively to caring for children is separately licensed as a hospital by a municipality prior to February 28, 2013; (ii) the hospital has been designated by the State as a Level III perinatal care facility, has a Medicaid Inpatient Utilization rate greater than 55% for the rate year 2003 disproportionate share determination, and has more than 10,000 qualified children days as defined by the Department in rulemaking; (iii) the hospital has been designated as a Perinatal Level III center by the State as of December 1, 2017, is a Pediatric Critical Care Center designated by the State as of December 1, 2017 and has a 2017 Medicaid inpatient utilization rate equal to or greater than 45%; or (iv) the hospital has been designated as a Perinatal Level II center by the State as of December 1, 2017, has a 2017 Medicaid Inpatient Utilization Rate greater than 70%, and has at least 10 pediatric beds as listed on the IDPH 2015 calendar year hospital profile; or

(6) A hospital that reopens a previously closed hospital facility within 4  $\frac{3}{4}$  calendar years of the hospital facility's closure, if the previously closed hospital facility qualified for payments under paragraph (c) at the time of closure, until utilization data for the new facility is available for the Medicaid inpatient utilization rate calculation. For purposes of this clause, a "closed hospital facility" shall include hospitals that have been terminated from participation in the medical assistance program in accordance with Section 12-4.25 of this Code.

(c) Inpatient adjustment payments. The adjustment payments required by paragraph (b) shall be calculated based upon the hospital's Medicaid inpatient utilization rate as follows:

(1) hospitals with a Medicaid inpatient utilization rate below the mean shall receive a per day adjustment payment equal to \$25;

(2) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than the mean Medicaid inpatient utilization rate but less than one standard deviation above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of \$25 plus \$1 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds the mean Medicaid inpatient utilization rate;

(3) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than one standard deviation above the mean Medicaid inpatient utilization rate but less than 1.5 standard deviations above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of \$40 plus \$7 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds one standard deviation above the mean Medicaid inpatient utilization rate;

(4) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than 1.5 standard deviations above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of \$90 plus \$2 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds 1.5 standard deviations above the mean Medicaid inpatient utilization rate; and

(5) hospitals qualifying under clause (6) of paragraph (b) shall have the rate assigned to the previously closed hospital facility at the date of closure, until utilization data for the new facility is available for the Medicaid inpatient utilization rate calculation.

(d) Supplemental adjustment payments. In addition to the adjustment payments described in paragraph (c), hospitals as defined in clauses (1) through (6) of paragraph (b), excluding county hospitals (as defined in subsection (c) of Section 15-1 of this Code) and a hospital organized under the University of Illinois Hospital Act, shall be paid supplemental inpatient adjustment payments of \$60 per day. For purposes of Title XIX of the federal Social Security Act, these supplemental adjustment payments shall not be classified as adjustment payments to disproportionate share hospitals.

(e) The inpatient adjustment payments described in paragraphs (c) and (d) shall be increased on October 1, 1993 and annually thereafter by a percentage equal to the lesser of (i) the increase in the DRI hospital cost index for the most recent 12 month period for which data are available, or (ii) the percentage increase in the statewide average hospital payment rate over the previous year's statewide average hospital payment rate. The sum of the inpatient adjustment payments under paragraphs (c) and (d) to a hospital, other than a county hospital (as defined in subsection (c) of Section 15-1 of this Code) or a hospital organized under the University of Illinois Hospital Act, however, shall not exceed \$275 per day; that limit shall be increased on October 1, 1993 and annually thereafter by a percentage equal to the lesser of (i) the increase in the DRI hospital cost index for the most recent 12-month period for which data are available or (ii) the percentage increase in the statewide average hospital payment rate over the previous year's statewide average hospital payment rate.

(f) Children's hospital inpatient adjustment payments. For children's hospitals, as defined in clause (5) of paragraph (b), the adjustment payments required pursuant to paragraphs (c) and (d) shall be multiplied by 2.0.

(g) County hospital inpatient adjustment payments. For county hospitals, as defined in subsection (c) of Section 15-1 of this Code, there shall be an adjustment payment as determined by rules issued by the Illinois Department.

(h) For the purposes of this Section the following terms shall be defined as follows:

(1) "Medicaid inpatient utilization rate" means a fraction, the numerator of which is the number of a hospital's inpatient days provided in a given 12-month period to patients who, for such days, were eligible for Medicaid under Title XIX of the federal Social Security Act, and the denominator of which is the total number of the hospital's inpatient days in that same period.

(2) "Mean Medicaid inpatient utilization rate" means the total number of Medicaid inpatient days provided by all Illinois Medicaid-participating hospitals divided by the total number of inpatient days provided by those same hospitals.

(3) "Medicaid obstetrical inpatient utilization rate" means the ratio of Medicaid obstetrical inpatient days to total Medicaid inpatient days for all Illinois hospitals receiving Medicaid payments from the Illinois Department.

(i) Inpatient adjustment payment limit. In order to meet the limits of Public Law 102-234 and Public Law 103-66, the Illinois Department shall by rule adjust disproportionate share adjustment payments.

(j) University of Illinois Hospital inpatient adjustment payments. For hospitals organized under the University of Illinois Hospital Act, there shall be an adjustment payment as determined by rules adopted by the Illinois Department.

(k) The Illinois Department may by rule establish criteria for and develop methodologies for adjustment payments to hospitals participating under this Article.

(l) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(m) The Department shall establish a cost-based reimbursement methodology for determining payments to hospitals for approved graduate medical education (GME) programs for dates of service on and after July 1, 2018.

(1) As used in this subsection, "hospitals" means the University of Illinois Hospital as defined in the University of Illinois Hospital Act and a county hospital in a county of over 3,000,000 inhabitants.

(2) An amendment to the Illinois Title XIX State Plan defining GME shall maximize reimbursement, shall not be limited to the education programs or special patient care payments allowed under Medicare, and shall include:

(A) inpatient days;

(B) outpatient days;

(C) direct costs;

(D) indirect costs;

(E) managed care days;

(F) all stages of medical training and education including students, interns, residents, and fellows with no caps on the number of persons who may qualify; and

(G) patient care payments related to the complexities of treating Medicaid enrollees including clinical and social determinants of health.

(3) The Department shall make all GME payments directly to hospitals including such costs in support of clients enrolled in Medicaid managed care entities.

(4) The Department shall promptly take all actions necessary for reimbursement to be effective for dates of service on and after July 1, 2018 including publishing all appropriate public notices, amendments to the Illinois Title XIX State Plan, and adoption of administrative rules if necessary.

(5) As used in this subsection, "managed care days" means costs associated with services rendered to enrollees of Medicaid managed care entities. "Medicaid managed care entities" means any entity which contracts with the Department to provide services paid for on a capitated basis. "Medicaid managed care entities" includes a managed care organization and a managed care community network.

(6) All payments under this Section are contingent upon federal approval of changes to the Illinois Title XIX State Plan, if that approval is required.

(7) The Department may adopt rules necessary to implement Public Act 100-581 through the use of emergency rulemaking in accordance with subsection (aa) of Section 5-45 of the Illinois Administrative Procedure Act. For purposes of that Act, the General Assembly finds that the adoption of rules to implement Public Act 100-581 is deemed an emergency and necessary for the public interest, safety, and welfare.

Section 30-5. The Illinois Income Tax Act is amended by changing Section 223 as follows:  
(35 ILCS 5/223)

Sec. 223. Hospital credit.

(a) For tax years ending on or after December 31, 2012 and ending on or before December 31, 2027 ~~December 31, 2022~~, a taxpayer that is the owner of a hospital licensed under the Hospital Licensing Act, but not including an organization that is exempt from federal income taxes under the Internal Revenue Code, is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of this Act in an

[April 8, 2022]

amount equal to the lesser of the amount of real property taxes paid during the tax year on real property used for hospital purposes during the prior tax year or the cost of free or discounted services provided during the tax year pursuant to the hospital's charitable financial assistance policy, measured at cost.

(b) If the taxpayer is a partnership or Subchapter S corporation, the credit is allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. A transfer of this credit may be made by the taxpayer earning the credit within one year after the credit is earned in accordance with rules adopted by the Department. The Department shall prescribe rules to enforce and administer provisions of this Section. If the amount of the credit exceeds the tax liability for the year, then the excess credit may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first. In no event shall a credit under this Section reduce the taxpayer's liability to less than zero.

(Source: P.A. 100-587, eff. 6-4-18.)

Section 30-10. The Use Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 105/3-8)

Sec. 3-8. Hospital exemption.

(a) ~~Tangible~~ ~~Until July 1, 2022, tangible~~ personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital

affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purpose of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently

being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

(k) This Section is exempt from the provisions of Section 3-90.

Section 30-15. The Service Use Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 110/3-8)

Sec. 3-8. Hospital exemption.

(a) ~~Tangible~~ Until July 1, 2022, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

(k) This Section is exempt from the provisions of Section 3-75.

Section 30-20. The Service Occupation Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 115/3-8)

Sec. 3-8. Hospital exemption.

(a) ~~Tangible~~ ~~Until July 1, 2022, tangible~~ personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or

unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

(k) This Section is exempt from the provisions of Section 3-55.

Section 30-25. The Retailers' Occupation Tax Act is amended by changing Section 2-9 as follows:

(35 ILCS 120/2-9)

Sec. 2-9. Hospital exemption.

(a) ~~Tangible~~ Until July 1, 2022, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be used for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(305 ILCS 5/5A-2) (from Ch. 23, par. 5A-2)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-2. Assessment.

(a)(1) Subject to Sections 5A-3 and 5A-10, for State fiscal years 2009 through 2018, or as long as continued under Section 5A-16, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to \$218.38 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided, however, that the amount of \$218.38 shall be increased by a uniform percentage to generate an amount equal to 75% of the State share of the payments authorized under Section 5A-12.5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period of April through June 2015, the amount of \$218.38 used to calculate the assessment under this paragraph shall, by emergency rule under subsection (s) of Section 5-45 of the Illinois Administrative Procedure Act, be increased by a uniform percentage to generate \$20,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(2) In addition to any other assessments imposed under this Article, effective July 1, 2016 and semi-annually thereafter through June 2018, or as provided in Section 5A-16, in addition to any federally required State share as authorized under paragraph (1), the amount of \$218.38 shall be increased by a

uniform percentage to generate an amount equal to 75% of the ACA Assessment Adjustment, as defined in subsection (b-6) of this Section.

For State fiscal years 2009 through 2018, or as provided in Section 5A-16, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2005 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on December 31, 2006, without regard to any subsequent adjustments or changes to such data. If a hospital's 2005 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees.

(3) Subject to Sections 5A-3, 5A-10, and 5A-16, for State fiscal years 2019 and 2020, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to \$197.19 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days. For State fiscal years 2019 and 2020, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Notwithstanding any other provision in this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020.

(4) Subject to Sections 5A-3 and 5A-10 and to subsection (b-8), for the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 and 2022, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to \$221.50 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided however: for the period of July 1, 2020 through December 31, 2020, (i) the assessment shall be equal to 50% of the annual amount; and (ii) the amount of \$221.50 shall be retroactively adjusted by a uniform percentage to generate an amount equal to 50% of the Assessment Adjustment, as defined in subsection (b-7). For the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 and 2022, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Should the change in the assessment methodology for fiscal years 2021 through December 31, 2022 not be approved on or before June 30, 2020, the assessment and payments under this Article in effect for fiscal year 2020 shall remain in place until the new assessment is approved. If the assessment methodology for July 1, 2020 through December 31, 2022, is approved on or after July 1, 2020, it shall be retroactive to July 1, 2020, subject to federal approval and provided that the payments authorized under Section 5A-12.7 have the same effective date as the new assessment methodology. In giving retroactive effect to the assessment approved after June 30, 2020, credit toward the new assessment shall be given for any payments of the previous assessment for periods after June 30, 2020. Notwithstanding any other provision of this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State Fiscal Year 2020 on the basis of hypothetical data, the data that was the basis for the 2020 assessment shall be used to calculate the assessment under this paragraph until December 31, 2023. Beginning July 1, 2022 and through December 31, 2024, a safety-net hospital that had a change of ownership in calendar year 2021, and whose inpatient utilization had decreased by 90% from the prior year and prior to the change of ownership, may be eligible to pay a tax based on hypothetical data based on a determination of financial distress by the Department.

(b) (Blank).

(b-5)(1) Subject to Sections 5A-3 and 5A-10, for the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, or as provided in Section 5A-16, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .008766 multiplied by the hospital's outpatient gross revenue, provided, however, that the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the State share of the payments authorized under Section 5A-12.5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period beginning June 10, 2012 through June 30, 2012, the annual assessment on outpatient services shall be prorated by multiplying the assessment amount by a fraction, the numerator of which is 21 days and the denominator of which is 365 days. For the period of April through June 2015, the amount of .008766 used to calculate the assessment under this paragraph shall, by emergency rule under subsection (s) of Section 5-45 of the Illinois Administrative Procedure Act, be increased by a uniform percentage to generate \$6,750,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(2) In addition to any other assessments imposed under this Article, effective July 1, 2016 and semi-annually thereafter through June 2018, in addition to any federally required State share as authorized under paragraph (1), the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the ACA Assessment Adjustment, as defined in subsection (b-6) of this Section.

For the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and State fiscal years 2013 through 2018, or as provided in Section 5A-16, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2009 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on June 30, 2011, without regard to any subsequent adjustments or changes to such data. If a hospital's 2009 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees.

(3) Subject to Sections 5A-3, 5A-10, and 5A-16, for State fiscal years 2019 and 2020, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .01358 multiplied by the hospital's outpatient gross revenue. For State fiscal years 2019 and 2020, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees. Notwithstanding any other provision in this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020.

(4) Subject to Sections 5A-3 and 5A-10 and to subsection (b-8), for the period of July 1, 2020 through December 31, 2020 and calendar years 2021 ~~through 2026 and 2022~~, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .01525 multiplied by the hospital's outpatient gross revenue, provided however: (i) for the period of July 1, 2020 through December 31, 2020, the assessment shall be equal to 50% of the annual amount; and (ii) the amount of .01525 shall be retroactively adjusted by a uniform percentage to generate an amount equal to 50% of the Assessment Adjustment, as defined in subsection (b-7). For the period of July 1, 2020 through December 31, 2020 and calendar years 2021 ~~through 2026 and 2022~~, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's outpatient revenue data from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Should the change in the assessment methodology above for fiscal years 2021 through calendar year 2022 not be approved prior to July 1, 2020, the assessment and payments under this Article in effect for fiscal year 2020 shall remain in place until the

new assessment is approved. If the change in the assessment methodology above for July 1, 2020 through December 31, 2022, is approved after June 30, 2020, it shall have a retroactive effective date of July 1, 2020, subject to federal approval and provided that the payments authorized under Section 12A-7 have the same effective date as the new assessment methodology. In giving retroactive effect to the assessment approved after June 30, 2020, credit toward the new assessment shall be given for any payments of the previous assessment for periods after June 30, 2020. Notwithstanding any other provision of this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State Fiscal Year 2020 on the basis of hypothetical data, the data that was the basis for the 2020 assessment shall be used to calculate the assessment under this paragraph until December 31, 2023. Beginning July 1, 2022 and through December 31, 2024, a safety-net hospital that had a change of ownership in calendar year 2021, and whose inpatient utilization had decreased by 90% from the prior year and prior to the change of ownership, may be eligible to pay a tax based on hypothetical data based on a determination of financial distress by the Department.

(b-6)(1) As used in this Section, "ACA Assessment Adjustment" means:

(A) For the period of July 1, 2016 through December 31, 2016, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of April 2016 multiplied by 6.

(B) For the period of January 1, 2017 through June 30, 2017, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of October 2016 multiplied by 6, except that the amount calculated under this subparagraph (B) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period beginning July 1, 2016 through December 31, 2016 and the estimated payments due and payable in the month of April 2016 multiplied by 6 as described in subparagraph (A).

(C) For the period of July 1, 2017 through December 31, 2017, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of April 2017 multiplied by 6, except that the amount calculated under this subparagraph (C) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period beginning January 1, 2017 through June 30, 2017 and the estimated payments due and payable in the month of October 2016 multiplied by 6 as described in subparagraph (B).

(D) For the period of January 1, 2018 through June 30, 2018, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of October 2017 multiplied by 6, except that:

(i) the amount calculated under this subparagraph (D) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period of July 1, 2017 through December 31, 2017 and the estimated payments due and payable in the month of April 2017 multiplied by 6 as described in subparagraph (C); and

(ii) the amount calculated under this subparagraph (D) shall be adjusted to include the product of .19125 multiplied by the sum of the fee-for-service payments, if any, estimated to be paid to hospitals under subsection (b) of Section 5A-12.5.

(2) The Department shall complete and apply a final reconciliation of the ACA Assessment Adjustment prior to June 30, 2018 to account for:

(A) any differences between the actual payments issued or scheduled to be issued prior to June 30, 2018 as authorized in Section 5A-12.5 for the period of January 1, 2018 through June 30, 2018 and the estimated payments due and payable in the month of October 2017 multiplied by 6 as described in subparagraph (D); and

(B) any difference between the estimated fee-for-service payments under subsection (b) of Section 5A-12.5 and the amount of such payments that are actually scheduled to be paid.

The Department shall notify hospitals of any additional amounts owed or reduction credits to be applied to the June 2018 ACA Assessment Adjustment. This is to be considered the final reconciliation for the ACA Assessment Adjustment.

(3) Notwithstanding any other provision of this Section, if for any reason the scheduled payments under subsection (b) of Section 5A-12.5 are not issued in full by the final day of the period authorized under subsection (b) of Section 5A-12.5, funds collected from each hospital pursuant to subparagraph (D) of paragraph (1) and pursuant to paragraph (2), attributable to the scheduled payments authorized under subsection (b) of Section 5A-12.5 that are not issued in full by the final day of the period attributable to each payment authorized under subsection (b) of Section 5A-12.5, shall be refunded.

(4) The increases authorized under paragraph (2) of subsection (a) and paragraph (2) of subsection (b-5) shall be limited to the federally required State share of the total payments authorized under Section 5A-12.5 if the sum of such payments yields an annualized amount equal to or less than \$450,000,000, or if the adjustments authorized under subsection (t) of Section 5A-12.2 are found not to be actuarially sound; however, this limitation shall not apply to the fee-for-service payments described in subsection (b) of Section 5A-12.5.

(b-7)(1) As used in this Section, "Assessment Adjustment" means:

(A) For the period of July 1, 2020 through December 31, 2020, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (k) of Section 5A-12.7 attributable to the period, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the period.

(B) For each calendar quarter beginning ~~on and after~~ January 1, 2021 through December 31, 2022, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (k) of Section 5A-12.7 attributable to the period, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the period.

(C) Beginning on January 1, 2023, and each subsequent July 1 and January 1, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (j) of Section 5A-12.7 attributable to the 6-month period immediately preceding the period to which the adjustment applies, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the 6-month period immediately preceding the period to which the adjustment applies.

(2) The Department shall calculate and notify each hospital of the total Assessment Adjustment and any additional assessment owed by the hospital or refund owed to the hospital on either a semi-annual or annual basis. Such notice shall be issued at least 30 days prior to any period in which the assessment will be adjusted. Any additional assessment owed by the hospital or refund owed to the hospital shall be uniformly applied to the assessment owed by the hospital in monthly installments for the subsequent semi-annual period or calendar year. If no assessment is owed in the subsequent year, any amount owed by the hospital or refund due to the hospital, shall be paid in a lump sum.

(3) The Department shall publish all details of the Assessment Adjustment calculation performed each year on its website within 30 days of completing the calculation, and also submit the details of the Assessment Adjustment calculation as part of the Department's annual report to the General Assembly.

(b-8) Notwithstanding any other provision of this Article, the Department shall reduce the assessments imposed on each hospital under subsections (a) and (b-5) by the uniform percentage necessary to reduce the total assessment imposed on all hospitals by an aggregate amount of \$240,000,000, with such reduction being applied by June 30, 2022. The assessment reduction required for each hospital under this subsection shall be forever waived, forgiven, and released by the Department.

(c) (Blank).

(d) Notwithstanding any of the other provisions of this Section, the Department is authorized to adopt rules to reduce the rate of any annual assessment imposed under this Section, as authorized by Section 5-46.2 of the Illinois Administrative Procedure Act.

If the Department determines that the elements of the plan may meet federal Medicaid standards and a related State Medicaid Plan Amendment is prepared in a manner and form suitable for submission, that State Plan Amendment shall be submitted in a timely manner for review by the

Sec. 5A-5. Notice; penalty; maintenance of records.

(a) The Illinois Department shall send a notice of assessment to every hospital provider subject to assessment under this Article. The notice of assessment shall notify the hospital of its assessment and shall be sent after receipt by the Department of notification from the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services that the payment methodologies required under this Article and, if necessary, the waiver granted under 42 CFR 433.68 have been approved. The notice shall be on a form prepared by the Illinois Department and shall state the following:

(1) The name of the hospital provider.

(2) The address of the hospital provider's principal place of business from which the provider engages in the occupation of hospital provider in this State, and the name and address of each hospital operated, conducted, or maintained by the provider in this State.

(3) The occupied bed days, occupied bed days less Medicare days, adjusted gross hospital revenue, or outpatient gross revenue of the hospital provider (whichever is applicable), the amount of assessment imposed under Section 5A-2 for the State fiscal year for which the notice is sent, and the amount of each installment to be paid during the State fiscal year.

(4) (Blank).

(5) Other reasonable information as determined by the Illinois Department.

(b) If a hospital provider conducts, operates, or maintains more than one hospital licensed by the Illinois Department of Public Health, the provider shall pay the assessment for each hospital separately.

(c) Notwithstanding any other provision in this Article, in the case of a person who ceases to conduct, operate, or maintain a hospital in respect of which the person is subject to assessment under this Article as a hospital provider, the assessment for the State fiscal year in which the cessation occurs shall be adjusted by multiplying the assessment computed under Section 5A-2 by a fraction, the numerator of which is the number of days in the year during which the provider conducts, operates, or maintains the hospital and the denominator of which is 365. Immediately upon ceasing to conduct, operate, or maintain a hospital, the person shall pay the assessment for the year as so adjusted (to the extent not previously paid).

(d) Notwithstanding any other provision in this Article, a provider who commences conducting, operating, or maintaining a hospital, upon notice by the Illinois Department, shall pay the assessment computed under Section 5A-2 and subsection (c) in installments on the due dates stated in the notice and on the regular installment due dates for the State fiscal year occurring after the due dates of the initial notice.

(e) Notwithstanding any other provision in this Article, for State fiscal years 2009 through 2018, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in 2005, the assessment for that State fiscal year shall be computed on the basis of hypothetical occupied bed days for the full calendar year as determined by the Illinois Department. Notwithstanding any other provision in this Article, for the portion of State fiscal year 2012 beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in 2009, the assessment under subsection (b-5) of Section 5A-2 for that State fiscal year shall be computed on the basis of hypothetical gross outpatient revenue for the full calendar year as determined by the Illinois Department.

Notwithstanding any other provision in this Article, beginning July 1, 2018 through December 31, 2026 for State fiscal years 2019 through 2024, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in the year that is the basis of the calculation of the assessment under this Article, the assessment under paragraph (3) of subsection (a) of Section 5A-2 for the State fiscal year shall be computed on the basis of hypothetical occupied bed days for the full calendar year as determined by the Illinois Department, except that for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall

be used for State fiscal years 2019 and 2020; however, for State fiscal year 2020, the assessment amount shall be increased by the proportion that it represents of the total annual assessment that is generated from all hospitals in order to generate \$6,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

Notwithstanding any other provision in this Article, beginning July 1, 2018 through December 31, 2026 for State fiscal years 2019 through 2024, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in the year that is the basis of the calculation of the assessment under this Article, the assessment under subsection (b-5) of Section 5A-2 for that State fiscal year shall be computed on the basis of hypothetical gross outpatient revenue for the full calendar year as determined by the Illinois Department, except that for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020; however, for State fiscal year 2020, the assessment amount shall be increased by the proportion that it represents of the total annual assessment that is generated from all hospitals in order to generate \$6,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(f) Every hospital provider subject to assessment under this Article shall keep sufficient records to permit the determination of adjusted gross hospital revenue for the hospital's fiscal year. All such records shall be kept in the English language and shall, at all times during regular business hours of the day, be subject to inspection by the Illinois Department or its duly authorized agents and employees.

(g) The Illinois Department may, by rule, provide a hospital provider a reasonable opportunity to request a clarification or correction of any clerical or computational errors contained in the calculation of its assessment, but such corrections shall not extend to updating the cost report information used to calculate the assessment.

(305 ILCS 5/5A-12.7)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-12.7. Continuation of hospital access payments on and after July 1, 2020.

(a) To preserve and improve access to hospital services, for hospital services rendered on and after July 1, 2020, the Department shall, except for hospitals described in subsection (b) of Section 5A-3, make payments to hospitals or require capitated managed care organizations to make payments as set forth in this Section. Payments under this Section are not due and payable, however, until: (i) the methodologies described in this Section are approved by the federal government in an appropriate State Plan amendment or directed payment preprint; and (ii) the assessment imposed under this Article is determined to be a permissible tax under Title XIX of the Social Security Act. In determining the hospital access payments authorized under subsection (g) of this Section, if a hospital ceases to qualify for payments from the pool, the payments for all hospitals continuing to qualify for payments from such pool shall be uniformly adjusted to fully expend the aggregate net amount of the pool, with such adjustment being effective on the first day of the second month following the date the hospital ceases to receive payments from such pool.

(b) Amounts moved into claims-based rates and distributed in accordance with Section 14-12 shall remain in those claims-based rates.

(c) Graduate medical education.

(1) The calculation of graduate medical education payments shall be based on the hospital's Medicare cost report ending in Calendar Year 2018, as reported in the Healthcare Cost Report Information System file, release date September 30, 2019. An Illinois hospital reporting intern and resident cost on its Medicare cost report shall be eligible for graduate medical education payments.

(2) Each hospital's annualized Medicaid Intern Resident Cost is calculated using annualized intern and resident total costs obtained from Worksheet B Part I, Columns 21 and 22 the sum of Lines 30-43, 50-76, 90-93, 96-98, and 105-112 multiplied by the percentage that the hospital's Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of the hospital's total days (Worksheet S3 Part I, Column 8, Lines 14, 16-18, and 32).

(3) An annualized Medicaid indirect medical education (IME) payment is calculated for each hospital using its IME payments (Worksheet E Part A, Line 29, Column 1) multiplied by the percentage that its Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of its Medicare days (Worksheet S3 Part I, Column 6, Lines 2, 3, 4, 14, and 16-18).

(4) For each hospital, its annualized Medicaid Intern Resident Cost and its annualized Medicaid IME payment are summed, and, except as capped at 120% of the average cost per intern and resident for all qualifying hospitals as calculated under this paragraph, is multiplied by the applicable reimbursement factor as described in this paragraph, ~~22.6%~~ to determine the hospital's final graduate medical education payment. Each hospital's average cost per intern and resident shall be calculated by summing its total annualized Medicaid Intern Resident Cost plus its annualized Medicaid IME payment and dividing that amount by the hospital's total Full Time Equivalent Residents and Interns. If the hospital's average per intern and resident cost is greater than 120% of the same calculation for all qualifying hospitals, the hospital's per intern and resident cost shall be capped at 120% of the average cost for all qualifying hospitals.

(A) For the period of July 1, 2020 through December 31, 2022, the applicable reimbursement factor shall be 22.6%.

(B) For the period of January 1, 2023 through December 31, 2026, the applicable reimbursement factor shall be 35% for all qualified safety-net hospitals, as defined in Section 5-5e.1 of this Code, and all hospitals with 100 or more Full Time Equivalent Residents and Interns, as reported on the hospital's Medicare cost report ending in Calendar Year 2018, and for all other qualified hospitals the applicable reimbursement factor shall be 30%.

For the period of July 1, 2020 through December 31, 2022, each ~~Each~~ Illinois hospital shall receive an annual payment equal to the amounts below, to be paid in 12 equal installments on or before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable.

(2) For safety-net hospitals, \$960 per covered inpatient day contained in paid fee-for-service claims and \$625 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(3) For long term acute care hospitals, \$295 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(e) The Department shall require managed care organizations (MCOs) to make directed payments and pass-through payments according to this Section. Each calendar year, the Department shall require MCOs to pay the maximum amount out of these funds as allowed as pass-through payments under federal regulations. The Department shall require MCOs to make such pass-through payments as specified in this Section. The Department shall require the MCOs to pay the remaining amounts as directed Payments as specified in this Section. The Department shall issue payments to the Comptroller by the seventh business day of each month for all MCOs that are sufficient for MCOs to make the directed payments and pass-through payments according to this Section. The Department shall require the MCOs to make pass-through payments and directed payments using electronic funds transfers (EFT), if the hospital provides the information necessary to process such EFTs, in accordance with directions provided monthly by the Department, within 7 business days of the date the funds are paid to the MCOs, as indicated by the "Paid Date" on the website of the Office of the Comptroller if the funds are paid by EFT and the MCOs have received directed payment instructions. If funds are not paid through the Comptroller by EFT, payment must be made within 7 business days of the date actually received by the MCO. The MCO will be considered to have paid the pass-through payments when the payment remittance number is generated or the date the MCO sends the check to the hospital, if EFT information is not supplied. If an MCO is late in paying a pass-through payment or directed payment as required under this Section (including any extensions granted by the Department), it shall pay a penalty, unless waived by the Department for reasonable cause, to the Department equal to 5% of the amount of the pass-through payment or directed payment not paid on or before the due date plus 5% of the portion thereof remaining unpaid on the last day of each 30-day period thereafter. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this Section shall not be reduced as a consequence of payments made under this subsection. The Department shall publish and maintain on its website for a period of no less than 8 calendar quarters, the quarterly calculation of directed payments and pass-through payments owed to each hospital from each MCO. All calculations and reports shall be posted no later than the first day of the quarter for which the payments are to be issued.

(f)(1) For purposes of allocating the funds included in capitation payments to MCOs, Illinois hospitals shall be divided into the following classes as defined in administrative rules:

(A) Beginning July 1, 2020 through December 31, 2022, critical ~~Critical~~ access hospitals. Beginning January 1, 2023, "critical access hospital" means a hospital designated by the Department of Public Health as a critical access hospital, excluding any hospital meeting the definition of a public hospital in subparagraph (F).

(B) Safety-net hospitals, except that stand-alone children's hospitals that are not specialty children's hospitals will not be included. For the calendar year beginning January 1, 2023, and each calendar year thereafter, assignment to the safety-net class shall be based on the annual safety-net rate year beginning 15 months before the beginning of the first Payout Quarter of the calendar year.

(C) Long term acute care hospitals.

(D) Freestanding psychiatric hospitals.

(E) Freestanding rehabilitation hospitals.

(F) Beginning January 1, 2023, "public hospital" means a hospital that is owned or operated by an Illinois Government body or municipality, excluding a hospital provider that is a State agency, a State university, or a county with a population of 3,000,000 or more.

(G) ~~(F)~~ High Medicaid hospitals.

(i) As used in this Section, "high Medicaid hospital" means a general acute care hospital that:

(I) For the payout periods July 1, 2020 through December 31, 2022, is not a safety-net hospital or critical access hospital and that has a Medicaid Inpatient Utilization Rate above 30% or a hospital that had over 35,000 inpatient Medicaid days during the applicable period. For the period July 1, 2020 through December 31, 2020, the applicable period for the Medicaid Inpatient Utilization Rate (MIUR) is the rate year 2020 MIUR and for the number of inpatient days it is State fiscal year 2018. Beginning in calendar

year 2021, the Department shall use the most recently determined MIUR, as defined in subsection (h) of Section 5-5.02, and for the inpatient day threshold, the State fiscal year ending 18 months prior to the beginning of the calendar year. For purposes of calculating MIUR under this Section, children's hospitals and affiliated general acute care hospitals shall be considered a single hospital.

(II) For the calendar year beginning January 1, 2023, and each calendar year thereafter, is not a public hospital, safety-net hospital, or critical access hospital and that qualifies as a regional high volume hospital or is a hospital that has a Medicaid Inpatient Utilization Rate (MIUR) above 30%. As used in this item, "regional high volume hospital" means a hospital which ranks in the top 2 quartiles based on total hospital services volume, of all eligible general acute care hospitals, when ranked in descending order based on total hospital services volume, within the same Medicaid managed care region, as designated by the Department, as of January 1, 2022. As used in this item, "total hospital services volume" means the total of all Medical Assistance hospital inpatient admissions plus all Medical Assistance hospital outpatient visits. For purposes of determining regional high volume hospital inpatient admissions and outpatient visits, the Department shall use dates of service provided during State Fiscal Year 2020 for the Payout Quarter beginning January 1, 2023. The Department shall use dates of service from the State fiscal year ending 18 month before the beginning of the first Payout Quarter of the subsequent annual determination period.

(ii) For the calendar year beginning January 1, 2023, the Department shall use the Rate Year 2022 Medicaid inpatient utilization rate (MIUR), as defined in subsection (h) of Section 5-5.02. For each subsequent annual determination, the Department shall use the MIUR applicable to the rate year ending September 30 of the year preceding the beginning of the calendar year.

(H) ~~(G)~~ General acute care hospitals. As used under this Section, "general acute care hospitals" means all other Illinois hospitals not identified in subparagraphs (A) through ~~(G)~~ ~~(F)~~.

(2) Hospitals' qualification for each class shall be assessed prior to the beginning of each calendar year and the new class designation shall be effective January 1 of the next year. The Department shall publish by rule the process for establishing class determination.

(g) Fixed pool directed payments. Beginning July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to qualified Illinois safety-net hospitals and critical access hospitals on a monthly basis in accordance with this subsection. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by safety-net hospitals and critical access hospitals to determine a quarterly uniform per unit add-on for each hospital class.

(1) Inpatient per unit add-on. A quarterly uniform per diem add-on shall be derived by dividing the quarterly Inpatient Directed Payments Pool amount allocated to the applicable hospital class by the total inpatient days contained on all encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly inpatient directed payment calculated that is equal to the product of the number of inpatient days attributable to the hospital used in the calculation of the quarterly uniform class per diem add-on, multiplied by the calculated applicable quarterly uniform class per diem add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly inpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(2) Outpatient per unit add-on. A quarterly uniform per claim add-on shall be derived by dividing the quarterly Outpatient Directed Payments Pool amount allocated to the applicable hospital class by the total outpatient encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly outpatient directed payment calculated that is equal to the product of the number of outpatient encounter claims attributable to the hospital used in the calculation of the quarterly uniform class per claim add-on,

multiplied by the calculated applicable quarterly uniform class per claim add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(3) Each MCO shall pay each hospital the Monthly Directed Payment as identified by the Department on its quarterly determination report.

(4) Definitions. As used in this subsection:

(A) "Payout Quarter" means each 3 month calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each 3 month calendar quarter, which ends 3 months prior to the first day of each Payout Quarter.

(5) For the period July 1, 2020 through December 2020, the following amounts shall be allocated to the following hospital class directed payment pools for the quarterly development of a uniform per unit add-on:

(A) \$2,894,500 for hospital inpatient services for critical access hospitals.

(B) \$4,294,374 for hospital outpatient services for critical access hospitals.

(C) \$29,109,330 for hospital inpatient services for safety-net hospitals.

(D) \$35,041,218 for hospital outpatient services for safety-net hospitals.

(6) For the period January 1, 2023 through December 31, 2023, the Department shall establish the amounts that shall be allocated to the hospital class directed payment fixed pools identified in this paragraph for the quarterly development of a uniform per unit add-on. The Department shall establish such amounts so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the directed payment fixed pool amounts to be established under this paragraph on its website by November 15, 2022.

(A) Hospital inpatient services for critical access hospitals.

(B) Hospital outpatient services for critical access hospitals.

(C) Hospital inpatient services for public hospitals.

(D) Hospital outpatient services for public hospitals.

(E) Hospital inpatient services for safety-net hospitals.

(F) Hospital outpatient services for safety-net hospitals.

(7) Semi-annual rate maintenance review. The Department shall ensure that hospitals assigned to the fixed pools in paragraph (6) are paid no less than 95% of the annual initial rate for each 6-month period of each annual payout period. For each calendar year, the Department shall calculate the annual initial rate per day and per visit for each fixed pool hospital class listed in paragraph (6), by dividing the total of all applicable inpatient or outpatient directed payments issued in the preceding calendar year to the hospitals in each fixed pool class for the calendar year, plus any increase resulting from the annual adjustments described in subsection (i), by the actual applicable total service units for the preceding calendar year which were the basis of the total applicable inpatient or outpatient directed payments issued to the hospitals in each fixed pool class in the calendar year, except that for calendar year 2023, the service units from calendar year 2021 shall be used.

(A) The Department shall calculate the effective rate, per day and per visit, for the payout periods of January to June and July to December of each year, for each fixed pool listed in paragraph (6), by dividing 50% of the annual pool by the total applicable reported service units for the 2 applicable determination quarters.

(B) If the effective rate calculated in subparagraph (A) is less than 95% of the annual initial rate assigned to the class for each pool under paragraph (6), the Department shall adjust the payment for each hospital to a level equal to no less than 95% of the annual initial rate, by issuing a retroactive adjustment payment for the 6-month period under review as identified in subparagraph (A).

(h) Fixed rate directed payments. Effective July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to Illinois hospitals not identified in paragraph (g) on a monthly basis. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid

Management Information System for inpatient and outpatient services rendered by hospitals in each hospital class identified in paragraph (f) and not identified in paragraph (g). For the period July 1, 2020 through December 2020, the Department shall direct MCOs to make payments as follows:

(1) For general acute care hospitals an amount equal to \$1,750 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(2) For general acute care hospitals an amount equal to \$160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(4) For general acute care hospitals an amount equal to \$375 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG (EAPGs) for the determination quarter.

(5) For general acute care hospitals an amount equal to \$240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(6) For general acute care hospitals an amount equal to \$290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(7) For high Medicaid hospitals an amount equal to \$1,800 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(8) For high Medicaid hospitals an amount equal to \$160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(9) For high Medicaid hospitals an amount equal to \$80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(10) For high Medicaid hospitals an amount equal to \$400 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG outpatient claims for the determination quarter.

(11) For high Medicaid hospitals an amount equal to \$240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(12) For high Medicaid hospitals an amount equal to \$290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(13) For long term acute care hospitals the amount of \$495 multiplied by the hospital's total number of inpatient days for the determination quarter.

(18) Effective for the Payout Quarter beginning January 1, 2023, for the directed payments to hospitals required under this subsection, the Department shall establish the amounts that shall be used to calculate such directed payments using the methodologies specified in this paragraph. The Department shall use a single, uniform rate, adjusted for acuity as specified in paragraphs (1) through (12), for all categories of inpatient services provided by each class of hospitals and a single uniform rate, adjusted for acuity as specified in paragraphs (1) through (12), for all categories of outpatient services provided by each class of hospitals. The Department shall establish such amounts so that the

total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the directed payment amounts to be established under this subsection on its website by November 15, 2022.

~~(19) (48)~~ Each hospital shall be paid 1/3 of their quarterly inpatient and outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

~~20 (49)~~ Each MCO shall pay each hospital the Monthly Directed Payment amount as identified by the Department on its quarterly determination report.

Notwithstanding any other provision of this subsection, if the Department determines that the actual total hospital utilization data that is used to calculate the fixed rate directed payments is substantially different than anticipated when the rates in this subsection were initially determined ~~(for unforeseeable circumstances (such as the COVID-19 pandemic or some other public health emergency),~~ the Department may adjust the rates specified in this subsection so that the total directed payments approximate the total spending amount anticipated when the rates were initially established.

Definitions. As used in this subsection:

(A) "Payout Quarter" means each calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each calendar quarter which ends 3 months prior to the first day of each Payout Quarter.

(C) "Case mix index" means a hospital specific calculation. For inpatient claims the case mix index is calculated each quarter by summing the relative weight of all inpatient Diagnosis-Related Group (DRG) claims for a category of service in the applicable Determination Quarter and dividing the sum by the number of sum total of all inpatient DRG admissions for the category of service for the associated claims. The case mix index for outpatient claims is calculated each quarter by summing the relative weight of all paid EAPGs in the applicable Determination Quarter and dividing the sum by the sum total of paid EAPGs for the associated claims.

(i) Beginning January 1, 2021, the rates for directed payments shall be recalculated in order to spend the additional funds for directed payments that result from reduction in the amount of pass-through payments allowed under federal regulations. The additional funds for directed payments shall be allocated proportionally to each class of hospitals based on that class' proportion of services.

(1) Beginning January 1, 2024, the fixed pool directed payment amounts and the associated annual initial rates referenced in paragraph (6) of subsection (f) for each hospital class shall be uniformly increased by a ratio of not less than, the ratio of the total pass-through reduction amount pursuant to paragraph (4) of subsection (j), for the hospitals comprising the hospital fixed pool directed payment class for the next calendar year, to the total inpatient and outpatient directed payments for the hospitals comprising the hospital fixed pool directed payment class paid during the preceding calendar year.

(2) Beginning January 1, 2024, the fixed rates for the directed payments referenced in paragraph (18) of subsection (h) for each hospital class shall be uniformly increased by a ratio of not less than, the ratio of the total pass-through reduction amount pursuant to paragraph (4) of subsection (j), for the hospitals comprising the hospital directed payment class for the next calendar year, to the total inpatient and outpatient directed payments for the hospitals comprising the hospital fixed rate directed payment class paid during the preceding calendar year.

(j) Pass-through payments.

(3) For the calendar year beginning January 1, 2023, the Department shall establish the annual pass-through allocation to each class of hospitals and the pass-through payments to each hospital so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the pass-through allocation to each class and the pass-through payments to each hospital to be established under this subsection on its website by November 15, 2022.

(4) (3) For the calendar years year beginning January 1, 2021, January 1, 2022, and January 1, 2024, and each calendar year thereafter, each hospital's pass-through payment amount shall be reduced proportionally to the reduction of all pass-through payments required by federal regulations.

(k) At least 30 days prior to each calendar year, the Department shall notify each hospital of changes to the payment methodologies in this Section, including, but not limited to, changes in the fixed rate directed payment rates, the aggregate pass-through payment amount for all hospitals, and the hospital's pass-through payment amount for the upcoming calendar year.

The funding shall be used to preserve or enhance OB/GYN services or other specialty services at the receiving hospital, with the distribution of funding to be established by rule and with consideration to perinatal hospitals with safe birthing levels and quality metrics for healthy mothers and babies.

(o) In order to address the growing challenges of providing stable access to healthcare in rural Illinois, including perinatal services, behavioral healthcare including substance use disorder services (SUDs) and other specialty services, and to expand access to telehealth services among rural communities in Illinois, the Department of Healthcare and Family Services, subject to appropriation, shall administer a program to provide at least \$10,000,000 in financial support annually to critical access hospitals for delivery of perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services and telehealth services. The funding shall be used to preserve or enhance perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services, as well as the explanation of telehealth services by the receiving hospital, with the distribution of funding to be established by rule.

(p) For calendar year 2023, the final amounts, rates, and payments under subsections (c), (d-2), (g), (h), and (j) shall be established by the Department, so that the sum of the total estimated annual payments under subsections (c), (d-2), (g), (h), and (j) for each hospital class for calendar year 2023, is no less than:

Sec. 2310-710. Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program.

(a) Findings. The General Assembly finds that there are communities in Illinois that experience significant health care disparities, as recently emphasized by the COVID-19 pandemic, aggravated by social determinants of health and a lack of sufficient access to high quality healthcare resources, particularly community-based services, preventive care, obstetric care, chronic disease management, and specialty care. Safety-net hospitals, as defined under the Illinois Public Aid Code, serve as the anchors of the health care system for many of these communities. Safety-net hospitals not only care for their patients, they also are rooted in their communities by providing jobs and partnering with local organizations to help address the social determinants of health, such as food, housing, and transportation needs.

However, safety-net hospitals serve a significant number of Medicare, Medicaid, and uninsured patients, and therefore, are heavily dependent on underfunded government payers, and are heavily burdened by uncompensated care. At the same time, the overall cost of providing care has increased substantially in recent years, driven by increasing costs for staffing, prescription drugs, technology, and infrastructure.

For all of these reasons, the General Assembly finds that the long term sustainability of safety-net hospitals is threatened. While the General Assembly is providing funding to the Department to be paid to support the expenses of specific safety-net hospitals in State Fiscal Year 2023, such annual, ad hoc funding is not a reliable and stable source of funding that will enable safety-net hospitals to develop strategies to achieve long term sustainability. Such annual, ad hoc funding also does not provide the State with transparency and accountability to ensure that such funding is being used effectively and efficiently to maximize the benefit to members of the community.

Therefore, it is the intent of the General Assembly that the Department of Public Health and the Department of Healthcare and Family Services jointly provide options and recommendations to the General Assembly by February 1, 2023, for the establishment of a permanent Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program, in accordance with this Section. It is the intention of the General Assembly that during State fiscal years 2024 through 2029, the Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program shall be supported by an annual funding pool of up to \$100,000,000, subject to appropriation.

(b) By February 1, 2023, the Department of Public Health and the Department of Healthcare and Family Services shall provide a joint report to the General Assembly on options and recommendations for the establishment of a permanent Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program to be administered by the State. For this report, "safety-net hospital" means a hospital identified by the Department of Healthcare and Family Services under Section 5-5e.1 of the Illinois Public Aid Code. The Departments of Public Health and Healthcare and Family Services may consult with the statewide association representing a majority of hospitals and safety-net hospitals on the report. The report may include, but need not be limited to:

(1) Criteria for a safety-net hospital to be eligible for the program, such as:

(A) The hospital is a participating provider in at least one Medicaid managed care plan.

(B) The hospital is located in a medically underserved area.

(C) The hospital's Medicaid utilization rate (for both inpatient and outpatient services).

(D) The hospital's Medicare utilization rate (for both inpatient and outpatient services).

(E) The hospital's uncompensated care percentage.

(F) The hospital's role in providing access to services, reducing health disparities, and improving health equity in its service area.

(G) The hospital's performance on quality indicators.

(2) Potential projects eligible for grant funds which may include projects to reduce health disparities, advance health equity, or improve access to or the quality of healthcare services.

(3) Potential policies, standards, and procedures to ensure accountability for the use of grant funds.

(4) Potential strategies to generate federal Medicaid matching funds for expenditures under the program.

(5) Potential policies, processes, and procedures for the administration of the program.

## ARTICLE 25.

Section 25-5. The Illinois Public Aid Code is amended by changing Section 5-5.02 as follows:

(305 ILCS 5/5-5.02) (from Ch. 23, par. 5-5.02)

Sec. 5-5.02. Hospital reimbursements.

(a) Reimbursement to hospitals; July 1, 1992 through September 30, 1992. Notwithstanding any other provisions of this Code or the Illinois Department's Rules promulgated under the Illinois Administrative Procedure Act, reimbursement to hospitals for services provided during the period July 1, 1992 through September 30, 1992, shall be as follows:

(1) For inpatient hospital services rendered, or if applicable, for inpatient hospital discharges occurring, on or after July 1, 1992 and on or before September 30, 1992, the Illinois Department shall reimburse hospitals for inpatient services under the reimbursement methodologies in effect for each hospital, and at the inpatient payment rate calculated for each hospital, as of June 30, 1992. For

purposes of this paragraph, "reimbursement methodologies" means all reimbursement methodologies that pertain to the provision of inpatient hospital services, including, but not limited to, any adjustments for disproportionate share, targeted access, critical care access and uncompensated care, as defined by the Illinois Department on June 30, 1992.

(2) For the purpose of calculating the inpatient payment rate for each hospital eligible to receive quarterly adjustment payments for targeted access and critical care, as defined by the Illinois Department on June 30, 1992, the adjustment payment for the period July 1, 1992 through September 30, 1992, shall be 25% of the annual adjustment payments calculated for each eligible hospital, as of June 30, 1992. The Illinois Department shall determine by rule the adjustment payments for targeted access and critical care beginning October 1, 1992.

(3) For the purpose of calculating the inpatient payment rate for each hospital eligible to receive quarterly adjustment payments for uncompensated care, as defined by the Illinois Department on June 30, 1992, the adjustment payment for the period August 1, 1992 through September 30, 1992, shall be one-sixth of the total uncompensated care adjustment payments calculated for each eligible hospital for the uncompensated care rate year, as defined by the Illinois Department, ending on July 31, 1992. The Illinois Department shall determine by rule the adjustment payments for uncompensated care beginning October 1, 1992.

(b) Inpatient payments. For inpatient services provided on or after October 1, 1993, in addition to rates paid for hospital inpatient services pursuant to the Illinois Health Finance Reform Act, as now or hereafter amended, or the Illinois Department's prospective reimbursement methodology, or any other methodology used by the Illinois Department for inpatient services, the Illinois Department shall make adjustment payments, in an amount calculated pursuant to the methodology described in paragraph (c) of this Section, to hospitals that the Illinois Department determines satisfy any one of the following requirements:

(1) Hospitals that are described in Section 1923 of the federal Social Security Act, as now or hereafter amended, except that for rate year 2015 and after a hospital described in Section 1923(b)(1)(B) of the federal Social Security Act and qualified for the payments described in subsection (c) of this Section for rate year 2014 provided the hospital continues to meet the description in Section 1923(b)(1)(B) in the current determination year; or

(2) Illinois hospitals that have a Medicaid inpatient utilization rate which is at least one-half a standard deviation above the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Illinois Department; or

(3) Illinois hospitals that on July 1, 1991 had a Medicaid inpatient utilization rate, as defined in paragraph (h) of this Section, that was at least the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Illinois Department and which were located in a planning area with one-third or fewer excess beds as determined by the Health Facilities and Services Review Board, and that, as of June 30, 1992, were located in a federally designated Health Manpower Shortage Area; or

(4) Illinois hospitals that:

(A) have a Medicaid inpatient utilization rate that is at least equal to the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Department; and

(B) also have a Medicaid obstetrical inpatient utilization rate that is at least one standard deviation above the mean Medicaid obstetrical inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Department for obstetrical services; or

(5) Any children's hospital, which means a hospital devoted exclusively to caring for children.

A hospital which includes a facility devoted exclusively to caring for children shall be considered a children's hospital to the degree that the hospital's Medicaid care is provided to children if either (i) the facility devoted exclusively to caring for children is separately licensed as a hospital by a municipality prior to February 28, 2013; (ii) the hospital has been designated by the State as a Level III perinatal care facility, has a Medicaid Inpatient Utilization rate greater than 55% for the rate year 2003 disproportionate share determination, and has more than 10,000 qualified children days as defined by the Department in rulemaking; (iii) the hospital has been designated as a Perinatal Level III center by the State as of December 1, 2017, is a Pediatric Critical Care Center designated by the State as of December 1, 2017 and has a 2017 Medicaid inpatient utilization rate equal to or greater than 45%; or (iv) the hospital has been designated as a Perinatal Level II center by the State as of

December 1, 2017, has a 2017 Medicaid Inpatient Utilization Rate greater than 70%, and has at least 10 pediatric beds as listed on the IDPH 2015 calendar year hospital profile; or

(6) A hospital that reopens a previously closed hospital facility within 4 ½ calendar years of the hospital facility's closure, if the previously closed hospital facility qualified for payments under paragraph (c) at the time of closure, until utilization data for the new facility is available for the Medicaid inpatient utilization rate calculation. For purposes of this clause, a "closed hospital facility" shall include hospitals that have been terminated from participation in the medical assistance program in accordance with Section 12-4.25 of this Code.

(c) Inpatient adjustment payments. The adjustment payments required by paragraph (b) shall be calculated based upon the hospital's Medicaid inpatient utilization rate as follows:

(1) hospitals with a Medicaid inpatient utilization rate below the mean shall receive a per day adjustment payment equal to \$25;

(2) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than the mean Medicaid inpatient utilization rate but less than one standard deviation above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of \$25 plus \$1 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds the mean Medicaid inpatient utilization rate;

(3) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than one standard deviation above the mean Medicaid inpatient utilization rate but less than 1.5 standard deviations above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of \$40 plus \$7 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds one standard deviation above the mean Medicaid inpatient utilization rate;

(4) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than 1.5 standard deviations above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of \$90 plus \$2 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds 1.5 standard deviations above the mean Medicaid inpatient utilization rate; and

(5) hospitals qualifying under clause (6) of paragraph (b) shall have the rate assigned to the previously closed hospital facility at the date of closure, until utilization data for the new facility is available for the Medicaid inpatient utilization rate calculation.

(d) Supplemental adjustment payments. In addition to the adjustment payments described in paragraph (c), hospitals as defined in clauses (1) through (6) of paragraph (b), excluding county hospitals (as defined in subsection (c) of Section 15-1 of this Code) and a hospital organized under the University of Illinois Hospital Act, shall be paid supplemental inpatient adjustment payments of \$60 per day. For purposes of Title XIX of the federal Social Security Act, these supplemental adjustment payments shall not be classified as adjustment payments to disproportionate share hospitals.

(e) The inpatient adjustment payments described in paragraphs (c) and (d) shall be increased on October 1, 1993 and annually thereafter by a percentage equal to the lesser of (i) the increase in the DRI hospital cost index for the most recent 12 month period for which data are available, or (ii) the percentage increase in the statewide average hospital payment rate over the previous year's statewide average hospital payment rate. The sum of the inpatient adjustment payments under paragraphs (c) and (d) to a hospital, other than a county hospital (as defined in subsection (c) of Section 15-1 of this Code) or a hospital organized under the University of Illinois Hospital Act, however, shall not exceed \$275 per day; that limit shall be increased on October 1, 1993 and annually thereafter by a percentage equal to the lesser of (i) the increase in the DRI hospital cost index for the most recent 12-month period for which data are available or (ii) the percentage increase in the statewide average hospital payment rate over the previous year's statewide average hospital payment rate.

(f) Children's hospital inpatient adjustment payments. For children's hospitals, as defined in clause (5) of paragraph (b), the adjustment payments required pursuant to paragraphs (c) and (d) shall be multiplied by 2.0.

(g) County hospital inpatient adjustment payments. For county hospitals, as defined in subsection (c) of Section 15-1 of this Code, there shall be an adjustment payment as determined by rules issued by the Illinois Department.

(h) For the purposes of this Section the following terms shall be defined as follows:

(1) "Medicaid inpatient utilization rate" means a fraction, the numerator of which is the number of a hospital's inpatient days provided in a given 12-month period to patients who, for such days, were

eligible for Medicaid under Title XIX of the federal Social Security Act, and the denominator of which is the total number of the hospital's inpatient days in that same period.

(2) "Mean Medicaid inpatient utilization rate" means the total number of Medicaid inpatient days provided by all Illinois Medicaid-participating hospitals divided by the total number of inpatient days provided by those same hospitals.

(3) "Medicaid obstetrical inpatient utilization rate" means the ratio of Medicaid obstetrical inpatient days to total Medicaid inpatient days for all Illinois hospitals receiving Medicaid payments from the Illinois Department.

(i) Inpatient adjustment payment limit. In order to meet the limits of Public Law 102-234 and Public Law 103-66, the Illinois Department shall by rule adjust disproportionate share adjustment payments.

(j) University of Illinois Hospital inpatient adjustment payments. For hospitals organized under the University of Illinois Hospital Act, there shall be an adjustment payment as determined by rules adopted by the Illinois Department.

(k) The Illinois Department may by rule establish criteria for and develop methodologies for adjustment payments to hospitals participating under this Article.

(l) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(m) The Department shall establish a cost-based reimbursement methodology for determining payments to hospitals for approved graduate medical education (GME) programs for dates of service on and after July 1, 2018.

(1) As used in this subsection, "hospitals" means the University of Illinois Hospital as defined in the University of Illinois Hospital Act and a county hospital in a county of over 3,000,000 inhabitants.

(2) An amendment to the Illinois Title XIX State Plan defining GME shall maximize reimbursement, shall not be limited to the education programs or special patient care payments allowed under Medicare, and shall include:

(A) inpatient days;

(B) outpatient days;

(C) direct costs;

(D) indirect costs;

(E) managed care days;

(F) all stages of medical training and education including students, interns, residents, and fellows with no caps on the number of persons who may qualify; and

(G) patient care payments related to the complexities of treating Medicaid enrollees including clinical and social determinants of health.

(3) The Department shall make all GME payments directly to hospitals including such costs in support of clients enrolled in Medicaid managed care entities.

(4) The Department shall promptly take all actions necessary for reimbursement to be effective for dates of service on and after July 1, 2018 including publishing all appropriate public notices, amendments to the Illinois Title XIX State Plan, and adoption of administrative rules if necessary.

(5) As used in this subsection, "managed care days" means costs associated with services rendered to enrollees of Medicaid managed care entities. "Medicaid managed care entities" means any entity which contracts with the Department to provide services paid for on a capitated basis. "Medicaid managed care entities" includes a managed care organization and a managed care community network.

(6) All payments under this Section are contingent upon federal approval of changes to the Illinois Title XIX State Plan, if that approval is required.

(7) The Department may adopt rules necessary to implement Public Act 100-581 through the use of emergency rulemaking in accordance with subsection (aa) of Section 5-45 of the Illinois Administrative Procedure Act. For purposes of that Act, the General Assembly finds that the adoption of rules to implement Public Act 100-581 is deemed an emergency and necessary for the public interest, safety, and welfare.

[April 8, 2022]

Section 30-5. The Illinois Income Tax Act is amended by changing Section 223 as follows:  
(35 ILCS 5/223)

Sec. 223. Hospital credit.

(a) For tax years ending on or after December 31, 2012 and ending on or before December 31, 2027 ~~December 31, 2022~~, a taxpayer that is the owner of a hospital licensed under the Hospital Licensing Act, but not including an organization that is exempt from federal income taxes under the Internal Revenue Code, is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of this Act in an amount equal to the lesser of the amount of real property taxes paid during the tax year on real property used for hospital purposes during the prior tax year or the cost of free or discounted services provided during the tax year pursuant to the hospital's charitable financial assistance policy, measured at cost.

(b) If the taxpayer is a partnership or Subchapter S corporation, the credit is allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. A transfer of this credit may be made by the taxpayer earning the credit within one year after the credit is earned in accordance with rules adopted by the Department. The Department shall prescribe rules to enforce and administer provisions of this Section. If the amount of the credit exceeds the tax liability for the year, then the excess credit may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first. In no event shall a credit under this Section reduce the taxpayer's liability to less than zero.

Section 30-10. The Use Tax Act is amended by changing Section 3-8 as follows:  
(35 ILCS 105/3-8)

Sec. 3-8. Hospital exemption.

(a) Until July 1, 2027 ~~2022~~, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods,

supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purpose of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly

or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

Section 30-15. The Service Use Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 110/3-8)

Sec. 3-8. Hospital exemption.

(a) Until July 1, ~~2022~~ 2027, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or

services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (c) for the hospital year or (2) the average value of those services or activities for the 3

fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

Section 30-20. The Service Occupation Tax Act is amended by changing Section 3-8 as follows:  
(35 ILCS 115/3-8)

Sec. 3-8. Hospital exemption.

(a) Until July 1, 2027 ~~2022~~, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (c) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

Section 30-25. The Retailers' Occupation Tax Act is amended by changing Section 2-9 as follows:

(35 ILCS 120/2-9)

Sec. 2-9. Hospital exemption.

(a) Until July 1, ~~2022~~ 2027, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the

case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. (6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet,

Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (c) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

"ARTICLE 1.

"Section 1-1. Short title. This Article may be cited as the Wellness Checks in Schools Program Act. References in this Article to "this Act" mean this Article.

Section 1-5. Findings. The General Assembly finds that:

(1) Depression is the most common mental health disorder among American teens and adults, with over 2,800,000 young people between the ages of 12 and 17 experiencing at least one major depressive episode each year, approximately 10-15% of teenagers exhibiting at least one symptom of depression at any time, and roughly 5% of teenagers suffering from major depression at any time. Teenage depression is 2 to 3 times more common in females than in males.

(2) Various biological, psychological, and environmental risk factors may contribute to teenage depression, which can lead to substance and alcohol abuse, social isolation, poor academic and workplace performance, unnecessary risk taking, early pregnancy, and suicide, which is the second leading cause of death among teenagers. Approximately 20% of teens with depression seriously consider suicide, and one in 12 attempt suicide. Untreated teenage depression can also result in adverse consequences throughout adulthood.

(3) Most teens who experience depression suffer from more than one episode. It is estimated that, although teenage depression is highly treatable through combinations of therapy, individual and group counseling, and certain medications, fewer than one-third of teenagers experiencing depression seek help or treatment.

(4) The proper detection and diagnosis of mental health conditions, including depression, is a key element in reducing the risk of teenage suicide and improving physical and mental health outcomes for young people. It is therefore fitting and appropriate to establish school-based mental health screenings to help identify the symptoms of mental health conditions and facilitate access to appropriate treatment.

#### Section 1-10. Wellness Checks in Schools Collaborative.

(a) Subject to appropriation, the Department of Healthcare and Family Services shall establish the Wellness Checks in Schools Collaborative for school districts that wish to implement wellness checks to identify students in grades 7 through 12 who are at risk of mental health conditions, including depression or other mental health issues. The Department shall work with school districts that have a high percentage of students enrolled in Medicaid and a high number of referrals to the State's Crisis and Referral Entry Services (CARES) hotline.

(b) The Collaborative shall focus on the identification of research-based screening tools validated to screen for mental health conditions in adolescents and identification of staff who will be responsible for completion of the screening tool. Nothing in this Act prohibits a school district from using a self-administered screening tool as part of the wellness check. To assist school districts in selecting research-based screening tools to use in their wellness check programs, the Department of Healthcare and Family Services may develop a list of preapproved research-based screening tools that are validated to screen adolescents for mental health concerns and are appropriate for use in a school setting. The list shall be posted on the websites of the Department of Healthcare and Family Services and the State Board of Education.

(c) The Collaborative shall also focus on assisting participating school districts in establishing a referral process for immediate intervention for students who are identified as having a behavioral health issue that requires intervention.

(d) The Department shall publish a public notice regarding the establishment of the Collaborative with school districts and shall conduct regular meetings with interested school districts.

(e) Subject to appropriation, the Department shall establish and implement a program to provide wellness checks in public schools in accordance with this Section.

#### ARTICLE 5.

Section 5-5. The Illinois Public Aid Code is amended by changing Section 14-12 as follows:

(305 ILCS 5/14-12)

Sec. 14-12. Hospital rate reform payment system. The hospital payment system pursuant to Section 14-11 of this Article shall be as follows:

(a) Inpatient hospital services. Effective for discharges on and after July 1, 2014, reimbursement for inpatient general acute care services shall utilize the All Patient Refined Diagnosis Related Grouping (APR-DRG) software, version 30, distributed by 3M<sup>TM</sup> Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. Initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 30.0 adjusted for the Illinois experience.

(2) The Department shall establish a statewide-standardized amount to be used in the inpatient reimbursement system. The Department shall publish these amounts on its website no later than 10 calendar days prior to their effective date.

(3) In addition to the statewide-standardized amount, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid providers or services for trauma, transplantation services, perinatal care, and Graduate Medical Education (GME).

(4) The Department shall develop add-on payments to account for exceptionally costly inpatient stays, consistent with Medicare outlier principles. Outlier fixed loss thresholds may be updated to control for excessive growth in outlier payments no more frequently than on an annual basis, but at least once every 4 years. Upon updating the fixed loss thresholds, the Department shall be required to update base rates within 12 months.

(5) The Department shall define those hospitals or distinct parts of hospitals that shall be exempt from the APR-DRG reimbursement system established under this Section. The Department shall publish these hospitals' inpatient rates on its website no later than 10 calendar days prior to their effective date.

(6) Beginning July 1, 2014 and ending on June 30, 2024, in addition to the statewide-standardized amount, the Department shall develop an adjuster to adjust the rate of reimbursement for safety-net hospitals defined in Section 5-5e.1 of this Code excluding pediatric hospitals.

(7) Beginning July 1, 2014, in addition to the statewide-standardized amount, the Department shall develop an adjuster to adjust the rate of reimbursement for Illinois freestanding inpatient psychiatric hospitals that are not designated as children's hospitals by the Department but are primarily treating patients under the age of 21.

(7.5) (Blank).

(8) Beginning July 1, 2018, in addition to the statewide-standardized amount, the Department shall adjust the rate of reimbursement for hospitals designated by the Department of Public Health as a Perinatal Level II or II+ center by applying the same adjuster that is applied to Perinatal and Obstetrical care cases for Perinatal Level III centers, as of December 31, 2017.

(9) Beginning July 1, 2018, in addition to the statewide-standardized amount, the Department shall apply the same adjuster that is applied to trauma cases as of December 31, 2017 to inpatient claims to treat patients with burns, including, but not limited to, APR-DRGs 841, 842, 843, and 844.

(10) Beginning July 1, 2018, the statewide-standardized amount for inpatient general acute care services shall be uniformly increased so that base claims projected reimbursement is increased by an amount equal to the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of this subsection and paragraphs (3) and (4) of subsection (b) multiplied by 40%.

(11) Beginning July 1, 2018, the reimbursement for inpatient rehabilitation services shall be increased by the addition of a \$96 per day add-on.

(b) Outpatient hospital services. Effective for dates of service on and after July 1, 2014, reimbursement for outpatient services shall utilize the Enhanced Ambulatory Procedure Grouping (EAPG) software, version 3.7 distributed by 3M™ Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. The initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 3.7.

(2) The Department shall establish service specific statewide-standardized amounts to be used in the reimbursement system.

(A) The initial statewide standardized amounts, with the labor portion adjusted by the Calendar Year 2013 Medicare Outpatient Prospective Payment System wage index with reclassifications, shall be published by the Department on its website no later than 10 calendar days prior to their effective date.

(B) The Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health in accordance with 42 CFR 485, Subpart F. For outpatient services provided on or before June 30, 2018, the EAPG standardized amounts are determined separately for each critical access hospital such that simulated EAPG payments using outpatient base period paid claim data plus payments under Section 5A-12.4 of this Code net of the associated tax costs are equal to the estimated costs of outpatient base period claims data with a rate year cost inflation factor applied.

(3) In addition to the statewide-standardized amounts, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid hospital outpatient providers or services,

including outpatient high volume or safety-net hospitals. Beginning July 1, 2018, the outpatient high volume adjustor shall be increased to increase annual expenditures associated with this adjustor by \$79,200,000, based on the State Fiscal Year 2015 base year data and this adjustor shall apply to public hospitals, except for large public hospitals, as defined under 89 Ill. Adm. Code 148.25(a).

(4) Beginning July 1, 2018, in addition to the statewide standardized amounts, the Department shall make an add-on payment for outpatient expensive devices and drugs. This add-on payment shall at least apply to claim lines that: (i) are assigned with one of the following EAPGs: 490, 1001 to 1020, and coded with one of the following revenue codes: 0274 to 0276, 0278; or (ii) are assigned with one of the following EAPGs: 430 to 441, 443, 444, 460 to 465, 495, 496, 1090. The add-on payment shall be calculated as follows: the claim line's covered charges multiplied by the hospital's total acute cost to charge ratio, less the claim line's EAPG payment plus \$1,000, multiplied by 0.8.

(5) Beginning July 1, 2018, the statewide-standardized amounts for outpatient services shall be increased by a uniform percentage so that base claims projected reimbursement is increased by an amount equal to no less than the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of subsection (a) and paragraphs (3) and (4) of this subsection multiplied by 46%.

(6) Effective for dates of service on or after July 1, 2018, the Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health in accordance with 42 CFR 485, Subpart F, such that each Critical Access Hospital's standardized amount for outpatient services shall be increased by the applicable uniform percentage determined pursuant to paragraph (5) of this subsection. It is the intent of the General Assembly that the adjustments required under this paragraph (6) by Public Act 100-1181 shall be applied retroactively to claims for dates of service provided on or after July 1, 2018.

(7) Effective for dates of service on or after March 8, 2019 (the effective date of Public Act 100-1181), the Department shall recalculate and implement an updated statewide-standardized amount for outpatient services provided by hospitals that are not Critical Access Hospitals to reflect the applicable uniform percentage determined pursuant to paragraph (5).

(1) Any recalculation to the statewide-standardized amounts for outpatient services provided by hospitals that are not Critical Access Hospitals shall be the amount necessary to achieve the increase in the statewide-standardized amounts for outpatient services increased by a uniform percentage, so that base claims projected reimbursement is increased by an amount equal to no less than the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of subsection (a) and paragraphs (3) and (4) of this subsection, for all hospitals that are not Critical Access Hospitals, multiplied by 46%.

(2) It is the intent of the General Assembly that the recalculations required under this paragraph (7) by Public Act 100-1181 shall be applied prospectively to claims for dates of service provided on or after March 8, 2019 (the effective date of Public Act 100-1181) and that no recoupment or repayment by the Department or an MCO of payments attributable to recalculation under this paragraph (7), issued to the hospital for dates of service on or after July 1, 2018 and before March 8, 2019 (the effective date of Public Act 100-1181), shall be permitted.

(8) The Department shall ensure that all necessary adjustments to the managed care organization capitation base rates necessitated by the adjustments under subparagraph (6) or (7) of this subsection are completed and applied retroactively in accordance with Section 5-30.8 of this Code within 90 days of March 8, 2019 (the effective date of Public Act 100-1181).

(9) Within 60 days after federal approval of the change made to the assessment in Section 5A-2 by this amendatory Act of the 101st General Assembly, the Department shall incorporate into the EAPG system for outpatient services those services performed by hospitals currently billed through the Non-Institutional Provider billing system.

(b-5) Notwithstanding any other provision of this Section, beginning with dates of service on and after January 1, 2023, any general acute care hospital with more than 500 outpatient psychiatric Medicaid services to persons under 19 years of age in any calendar year shall be paid the outpatient add-on payment of no less than \$113.

(c) In consultation with the hospital community, the Department is authorized to replace 89 Ill. Admin. Code 152.150 as published in 38 Ill. Reg. 4980 through 4986 within 12 months of June 16, 2014 (the effective date of Public Act 98-651). If the Department does not replace these rules within 12 months of

June 16, 2014 (the effective date of Public Act 98-651), the rules in effect for 152.150 as published in 38 Ill. Reg. 4980 through 4986 shall remain in effect until modified by rule by the Department. Nothing in this subsection shall be construed to mandate that the Department file a replacement rule.

(d) Transition period. There shall be a transition period to the reimbursement systems authorized under this Section that shall begin on the effective date of these systems and continue until June 30, 2018, unless extended by rule by the Department. To help provide an orderly and predictable transition to the new reimbursement systems and to preserve and enhance access to the hospital services during this transition, the Department shall allocate a transitional hospital access pool of at least \$290,000,000 annually so that transitional hospital access payments are made to hospitals.

(1) After the transition period, the Department may begin incorporating the transitional hospital access pool into the base rate structure; however, the transitional hospital access payments in effect on June 30, 2018 shall continue to be paid, if continued under Section 5A-16.

(2) After the transition period, if the Department reduces payments from the transitional hospital access pool, it shall increase base rates, develop new adjustors, adjust current adjustors, develop new hospital access payments based on updated information, or any combination thereof by an amount equal to the decreases proposed in the transitional hospital access pool payments, ensuring that the entire transitional hospital access pool amount shall continue to be used for hospital payments.

(d-5) Hospital and health care transformation program. The Department shall develop a hospital and health care transformation program to provide financial assistance to hospitals in transforming their services and care models to better align with the needs of the communities they serve. The payments authorized in this Section shall be subject to approval by the federal government.

(1) Phase 1. In State fiscal years 2019 through 2020, the Department shall allocate funds from the transitional access hospital pool to create a hospital transformation pool of at least \$262,906,870 annually and make hospital transformation payments to hospitals. Subject to Section 5A-16, in State fiscal years 2019 and 2020, an Illinois hospital that received either a transitional hospital access payment under subsection (d) or a supplemental payment under subsection (f) of this Section in State fiscal year 2018, shall receive a hospital transformation payment as follows:

(A) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is equal to or greater than 45%, the hospital transformation payment shall be equal to 100% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(B) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is equal to or greater than 25% but less than 45%, the hospital transformation payment shall be equal to 75% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(C) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is less than 25%, the hospital transformation payment shall be equal to 50% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(2) Phase 2.

(A) The funding amount from phase one shall be incorporated into directed payment and pass-through payment methodologies described in Section 5A-12.7.

(B) Because there are communities in Illinois that experience significant health care disparities due to systemic racism, as recently emphasized by the COVID-19 pandemic, aggravated by social determinants of health and a lack of sufficiently allocated healthcare resources, particularly community-based services, preventive care, obstetric care, chronic disease management, and specialty care, the Department shall establish a health care transformation program that shall be supported by the transformation funding pool. It is the intention of the General Assembly that innovative partnerships funded by the pool must be designed to establish or improve integrated health care delivery systems that will provide significant access to the Medicaid and uninsured populations in their communities, as well as improve health care equity. It is also the intention of the General Assembly that partnerships recognize and address the disparities revealed by the COVID-19 pandemic, as well as the need for post-COVID care. During State fiscal years 2021 through 2027, the hospital and health care transformation program shall be supported by an annual transformation funding pool of up to

\$150,000,000, pending federal matching funds, to be allocated during the specified fiscal years for the purpose of facilitating hospital and health care transformation. No disbursement of moneys for transformation projects from the transformation funding pool described under this Section shall be considered an award, a grant, or an expenditure of grant funds. Funding agreements made in accordance with the transformation program shall be considered purchases of care under the Illinois Procurement Code, and funds shall be expended by the Department in a manner that maximizes federal funding to expend the entire allocated amount.

The Department shall convene, within 30 days after the effective date of this amendatory Act of the 101st General Assembly, a workgroup that includes subject matter experts on healthcare disparities and stakeholders from distressed communities, which could be a subcommittee of the Medicaid Advisory Committee, to review and provide recommendations on how Department policy, including health care transformation, can improve health disparities and the impact on communities disproportionately affected by COVID-19. The workgroup shall consider and make recommendations on the following issues: a community safety-net designation of certain hospitals, racial equity, and a regional partnership to bring additional specialty services to communities.

(C) As provided in paragraph (9) of Section 3 of the Illinois Health Facilities Planning Act, any hospital participating in the transformation program may be excluded from the requirements of the Illinois Health Facilities Planning Act for those projects related to the hospital's transformation. To be eligible, the hospital must submit to the Health Facilities and Services Review Board approval from the Department that the project is a part of the hospital's transformation.

(D) As provided in subsection (a-20) of Section 32.5 of the Emergency Medical Services (EMS) Systems Act, a hospital that received hospital transformation payments under this Section may convert to a freestanding emergency center. To be eligible for such a conversion, the hospital must submit to the Department of Public Health approval from the Department that the project is a part of the hospital's transformation.

(E) Criteria for proposals. To be eligible for funding under this Section, a transformation proposal shall meet all of the following criteria:

(i) the proposal shall be designed based on community needs assessment completed by either a University partner or other qualified entity with significant community input;

(ii) the proposal shall be a collaboration among providers across the care and community spectrum, including preventative care, primary care specialty care, hospital services, mental health and substance abuse services, as well as community-based entities that address the social determinants of health;

(iii) the proposal shall be specifically designed to improve healthcare outcomes and reduce healthcare disparities, and improve the coordination, effectiveness, and efficiency of care delivery;

(iv) the proposal shall have specific measurable metrics related to disparities that will be tracked by the Department and made public by the Department;

(v) the proposal shall include a commitment to include Business Enterprise Program certified vendors or other entities controlled and managed by minorities or women; and

(vi) the proposal shall specifically increase access to primary, preventive, or specialty care.

(F) Entities eligible to be funded.

(i) Proposals for funding should come from collaborations operating in one of the most distressed communities in Illinois as determined by the U.S. Centers for Disease Control and Prevention's Social Vulnerability Index for Illinois and areas disproportionately impacted by COVID-19 or from rural areas of Illinois.

(ii) The Department shall prioritize partnerships from distressed communities, which include Business Enterprise Program certified vendors or other entities controlled and managed by minorities or women and also include one or more of the following: safety-net hospitals, critical access hospitals, the campuses of hospitals that have closed since January 1, 2018, or other healthcare providers designed to address specific healthcare disparities, including the impact of COVID-19 on individuals and the

community and the need for post-COVID care. All funded proposals must include specific measurable goals and metrics related to improved outcomes and reduced disparities which shall be tracked by the Department.

(iii) The Department should target the funding in the following ways: \$30,000,000 of transformation funds to projects that are a collaboration between a safety-net hospital, particularly community safety-net hospitals, and other providers and designed to address specific healthcare disparities, \$20,000,000 of transformation funds to collaborations between safety-net hospitals and a larger hospital partner that increases specialty care in distressed communities, \$30,000,000 of transformation funds to projects that are a collaboration between hospitals and other providers in distressed areas of the State designed to address specific healthcare disparities, \$15,000,000 to collaborations between critical access hospitals and other providers designed to address specific healthcare disparities, and \$15,000,000 to cross-provider collaborations designed to address specific healthcare disparities, and \$5,000,000 to collaborations that focus on workforce development.

(iv) The Department may allocate up to \$5,000,000 for planning, racial equity analysis, or consulting resources for the Department or entities without the resources to develop a plan to meet the criteria of this Section. Any contract for consulting services issued by the Department under this subparagraph shall comply with the provisions of Section 5-45 of the State Officials and Employees Ethics Act. Based on availability of federal funding, the Department may directly procure consulting services or provide funding to the collaboration. The provision of resources under this subparagraph is not a guarantee that a project will be approved.

(v) The Department shall take steps to ensure that safety-net hospitals operating in under-resourced communities receive priority access to hospital and healthcare transformation funds, including consulting funds, as provided under this Section.

(G) Process for submitting and approving projects for distressed communities. The Department shall issue a template for application. The Department shall post any proposal received on the Department's website for at least 2 weeks for public comment, and any such public comment shall also be considered in the review process. Applicants may request that proprietary financial information be redacted from publicly posted proposals and the Department in its discretion may agree. Proposals for each distressed community must include all of the following:

(i) A detailed description of how the project intends to affect the goals outlined in this subsection, describing new interventions, new technology, new structures, and other changes to the healthcare delivery system planned.

(ii) A detailed description of the racial and ethnic makeup of the entities' board and leadership positions and the salaries of the executive staff of entities in the partnership that is seeking to obtain funding under this Section.

(iii) A complete budget, including an overall timeline and a detailed pathway to sustainability within a 5-year period, specifying other sources of funding, such as in-kind, cost-sharing, or private donations, particularly for capital needs. There is an expectation that parties to the transformation project dedicate resources to the extent they are able and that these expectations are delineated separately for each entity in the proposal.

(iv) A description of any new entities formed or other legal relationships between collaborating entities and how funds will be allocated among participants.

(v) A timeline showing the evolution of sites and specific services of the project over a 5-year period, including services available to the community by site.

(vi) Clear milestones indicating progress toward the proposed goals of the proposal as checkpoints along the way to continue receiving funding. The Department is authorized to refine these milestones in agreements, and is authorized to impose reasonable penalties, including repayment of funds, for substantial lack of progress.

(vii) A clear statement of the level of commitment the project will include for minorities and women in contracting opportunities, including as equity partners where applicable, or as subcontractors and suppliers in all phases of the project.

(viii) If the community study utilized is not the study commissioned and published by the Department, the applicant must define the methodology used, including documentation of clear community participation.

(ix) A description of the process used in collaborating with all levels of government in the community served in the development of the project, including, but not limited to, legislators and officials of other units of local government.

(x) Documentation of a community input process in the community served, including links to proposal materials on public websites.

(xi) Verifiable project milestones and quality metrics that will be impacted by transformation. These project milestones and quality metrics must be identified with improvement targets that must be met.

(xii) Data on the number of existing employees by various job categories and wage levels by the zip code of the employees' residence and benchmarks for the continued maintenance and improvement of these levels. The proposal must also describe any retraining or other workforce development planned for the new project.

(xiii) If a new entity is created by the project, a description of how the board will be reflective of the community served by the proposal.

(xiv) An explanation of how the proposal will address the existing disparities that exacerbated the impact of COVID-19 and the need for post-COVID care in the community, if applicable.

(xv) An explanation of how the proposal is designed to increase access to care, including specialty care based upon the community's needs.

(H) The Department shall evaluate proposals for compliance with the criteria listed under subparagraph (G). Proposals meeting all of the criteria may be eligible for funding with the areas of focus prioritized as described in item (ii) of subparagraph (F). Based on the funds available, the Department may negotiate funding agreements with approved applicants to maximize federal funding. Nothing in this subsection requires that an approved project be funded to the level requested. Agreements shall specify the amount of funding anticipated annually, the methodology of payments, the limit on the number of years such funding may be provided, and the milestones and quality metrics that must be met by the projects in order to continue to receive funding during each year of the program. Agreements shall specify the terms and conditions under which a health care facility that receives funds under a purchase of care agreement and closes in violation of the terms of the agreement must pay an early closure fee no greater than 50% of the funds it received under the agreement, prior to the Health Facilities and Services Review Board considering an application for closure of the facility. Any project that is funded shall be required to provide quarterly written progress reports, in a form prescribed by the Department, and at a minimum shall include the progress made in achieving any milestones or metrics or Business Enterprise Program commitments in its plan. The Department may reduce or end payments, as set forth in transformation plans, if milestones or metrics or Business Enterprise Program commitments are not achieved. The Department shall seek to make payments from the transformation fund in a manner that is eligible for federal matching funds.

In reviewing the proposals, the Department shall take into account the needs of the community, data from the study commissioned by the Department from the University of Illinois-Chicago if applicable, feedback from public comment on the Department's website, as well as how the proposal meets the criteria listed under subparagraph (G). Alignment with the Department's overall strategic initiatives shall be an important factor. To the extent that fiscal year funding is not adequate to fund all eligible projects that apply, the Department shall prioritize applications that most comprehensively and effectively address the criteria listed under subparagraph (G).

(3) (Blank).

(4) Hospital Transformation Review Committee. There is created the Hospital Transformation Review Committee. The Committee shall consist of 14 members. No later than 30 days after March 12, 2018 (the effective date of Public Act 100-581), the 4 legislative leaders shall each appoint 3 members; the Governor shall appoint the Director of Healthcare and Family Services, or his or her designee, as a member; and the Director of Healthcare and Family Services shall appoint one member.

Any vacancy shall be filled by the applicable appointing authority within 15 calendar days. The members of the Committee shall select a Chair and a Vice-Chair from among its members, provided that the Chair and Vice-Chair cannot be appointed by the same appointing authority and must be from different political parties. The Chair shall have the authority to establish a meeting schedule and convene meetings of the Committee, and the Vice-Chair shall have the authority to convene meetings in the absence of the Chair. The Committee may establish its own rules with respect to meeting schedule, notice of meetings, and the disclosure of documents; however, the Committee shall not have the power to subpoena individuals or documents and any rules must be approved by 9 of the 14 members. The Committee shall perform the functions described in this Section and advise and consult with the Director in the administration of this Section. In addition to reviewing and approving the policies, procedures, and rules for the hospital and health care transformation program, the Committee shall consider and make recommendations related to qualifying criteria and payment methodologies related to safety-net hospitals and children's hospitals. Members of the Committee appointed by the legislative leaders shall be subject to the jurisdiction of the Legislative Ethics Commission, not the Executive Ethics Commission, and all requests under the Freedom of Information Act shall be directed to the applicable Freedom of Information officer for the General Assembly. The Department shall provide operational support to the Committee as necessary. The Committee is dissolved on April 1, 2019.

(e) Beginning 36 months after initial implementation, the Department shall update the reimbursement components in subsections (a) and (b), including standardized amounts and weighting factors, and at least once every 4 years and no more frequently than annually thereafter. The Department shall publish these updates on its website no later than 30 calendar days prior to their effective date.

(f) Continuation of supplemental payments. Any supplemental payments authorized under Illinois Administrative Code 148 effective January 1, 2014 and that continue during the period of July 1, 2014 through December 31, 2014 shall remain in effect as long as the assessment imposed by Section 5A-2 that is in effect on December 31, 2017 remains in effect.

(g) Notwithstanding subsections (a) through (f) of this Section and notwithstanding the changes authorized under Section 5-5b.1, any updates to the system shall not result in any diminishment of the overall effective rates of reimbursement as of the implementation date of the new system (July 1, 2014). These updates shall not preclude variations in any individual component of the system or hospital rate variations. Nothing in this Section shall prohibit the Department from increasing the rates of reimbursement or developing payments to ensure access to hospital services. Nothing in this Section shall be construed to guarantee a minimum amount of spending in the aggregate or per hospital as spending may be impacted by factors, including, but not limited to, the number of individuals in the medical assistance program and the severity of illness of the individuals.

(h) The Department shall have the authority to modify by rulemaking any changes to the rates or methodologies in this Section as required by the federal government to obtain federal financial participation for expenditures made under this Section.

(i) Except for subsections (g) and (h) of this Section, the Department shall, pursuant to subsection (c) of Section 5-40 of the Illinois Administrative Procedure Act, provide for presentation at the June 2014 hearing of the Joint Committee on Administrative Rules (JCAR) additional written notice to JCAR of the following rules in order to commence the second notice period for the following rules: rules published in the Illinois Register, rule dated February 21, 2014 at 38 Ill. Reg. 4559 (Medical Payment), 4628 (Specialized Health Care Delivery Systems), 4640 (Hospital Services), 4932 (Diagnostic Related Grouping (DRG) Prospective Payment System (PPS)), and 4977 (Hospital Reimbursement Changes), and published in the Illinois Register dated March 21, 2014 at 38 Ill. Reg. 6499 (Specialized Health Care Delivery Systems) and 6505 (Hospital Services).

(j) Out-of-state hospitals. Beginning July 1, 2018, for purposes of determining for State fiscal years 2019 and 2020 and subsequent fiscal years the hospitals eligible for the payments authorized under subsections (a) and (b) of this Section, the Department shall include out-of-state hospitals that are designated a Level I pediatric trauma center or a Level I trauma center by the Department of Public Health as of December 1, 2017.

(k) The Department shall notify each hospital and managed care organization, in writing, of the impact of the updates under this Section at least 30 calendar days prior to their effective date.

(305 ILCS 5/5-18.5)

Sec. 5-18.5. Perinatal doula and evidence-based home visiting services.

(a) As used in this Section:

"Home visiting" means a voluntary, evidence-based strategy used to support pregnant people, infants, and young children and their caregivers to promote infant, child, and maternal health, to foster educational development and school readiness, and to help prevent child abuse and neglect. Home visitors are trained professionals whose visits and activities focus on promoting strong parent-child attachment to foster healthy child development.

"Perinatal doula" means a trained provider who provides regular, voluntary physical, emotional, and educational support, but not medical or midwife care, to pregnant and birthing persons before, during, and after childbirth, otherwise known as the perinatal period.

"Perinatal doula training" means any doula training that focuses on providing support throughout the prenatal, labor and delivery, or postpartum period, and reflects the type of doula care that the doula seeks to provide.

(b) Notwithstanding any other provision of this Article, perinatal doula services and evidence-based home visiting services shall be covered under the medical assistance program, subject to appropriation, for persons who are otherwise eligible for medical assistance under this Article. Perinatal doula services include regular visits beginning in the prenatal period and continuing into the postnatal period, inclusive of continuous support during labor and delivery, that support healthy pregnancies and positive birth outcomes. Perinatal doula services may be embedded in an existing program, such as evidence-based home visiting. Perinatal doula services provided during the prenatal period may be provided weekly, services provided during the labor and delivery period may be provided for the entire duration of labor and the time immediately following birth, and services provided during the postpartum period may be provided up to 12 months postpartum.

(b-5) Notwithstanding any other provision of this Article, beginning January 1, 2023, licensed certified professional midwife services shall be covered under the medical assistance program, subject to appropriation, for persons who are otherwise eligible for medical assistance under this Article. The Department shall consult with midwives on reimbursement rates for midwifery services.

(c) The Department of Healthcare and Family Services shall adopt rules to administer this Section. In this rulemaking, the Department shall consider the expertise of and consult with doula program experts, doula training providers, practicing doulas, and home visiting experts, along with State agencies implementing perinatal doula services and relevant bodies under the Illinois Early Learning Council. This body of experts shall inform the Department on the credentials necessary for perinatal doula and home visiting services to be eligible for Medicaid reimbursement and the rate of reimbursement for home visiting and perinatal doula services in the prenatal, labor and delivery, and postpartum periods. Every 2 years, the Department shall assess the rates of reimbursement for perinatal doula and home visiting services and adjust rates accordingly.

(d) The Department shall seek such State plan amendments or waivers as may be necessary to implement this Section and shall secure federal financial participation for expenditures made by the Department in accordance with this Section.

## ARTICLE 15.

Section 15-5. The Illinois Public Aid Code is amended by changing Section 5-4 as follows:

(305 ILCS 5/5-4) (from Ch. 23, par. 5-4)

Sec. 5-4. Amount and nature of medical assistance.

(a) The amount and nature of medical assistance shall be determined in accordance with the standards, rules, and regulations of the Department of Healthcare and Family Services, with due regard to the requirements and conditions in each case, including contributions available from legally responsible relatives. However, the amount and nature of such medical assistance shall not be affected by the payment of any grant under the Senior Citizens and Persons with Disabilities Property Tax Relief Act or any distributions or items of income described under subparagraph (X) of paragraph (2) of subsection (a) of

Section 203 of the Illinois Income Tax Act. The amount and nature of medical assistance shall not be affected by the receipt of donations or benefits from fundraisers in cases of serious illness, as long as neither the person nor members of the person's family have actual control over the donations or benefits or the disbursement of the donations or benefits.

In determining the income and resources available to the institutionalized spouse and to the community spouse, the Department of Healthcare and Family Services shall follow the procedures established by federal law. If an institutionalized spouse or community spouse refuses to comply with the requirements of Title XIX of the federal Social Security Act and the regulations duly promulgated thereunder by failing to provide the total value of assets, including income and resources, to the extent either the institutionalized spouse or community spouse has an ownership interest in them pursuant to 42 U.S.C. 1396r-5, such refusal may result in the institutionalized spouse being denied eligibility and continuing to remain ineligible for the medical assistance program based on failure to cooperate.

Subject to federal approval, beginning January 1, 2023, the community spouse resource allowance shall be established and maintained as follows: a base amount of \$109,560 plus an additional amount of \$2,784 added to the base amount each year for a period of 10 years commencing with calendar year 2024 through calendar year 2034. In addition to the base amount and the additional amount shall be any increase each year from the prior year to the maximum resource allowance permitted under Section 1924(f)(2)(A)(ii)(I) of the Social Security Act. Subject to federal approval, beginning January 1, 2034 the community spouse resource allowance shall be established and maintained at the maximum amount permitted under Section 1924(f)(2)(A)(ii)(I) of the Social Security Act, as now or hereafter amended, or an amount set after a fair hearing. Subject to federal approval, beginning January 1, 2023 the community spouse resource allowance shall be established and maintained at the higher of \$109,560 or the minimum level permitted pursuant to Section 1924(f)(2) of the Social Security Act, as now or hereafter amended, or an amount set after a fair hearing, whichever is greater. The monthly maintenance allowance for the community spouse shall be established and maintained at the maximum amount higher of \$2,739 per month or the minimum level permitted pursuant to Section 1924(d)(3)(C) of the Social Security Act, as now or hereafter amended, or an amount set after a fair hearing, whichever is greater. Subject to the approval of the Secretary of the United States Department of Health and Human Services, the provisions of this Section shall be extended to persons who but for the provision of home or community-based services under Section 4.02 of the Illinois Act on the Aging, would require the level of care provided in an institution, as is provided for in federal law.

(b) Spousal support for institutionalized spouses receiving medical assistance.

(i) The Department may seek support for an institutionalized spouse, who has assigned his or her right of support from his or her spouse to the State, from the resources and income available to the community spouse.

(ii) The Department may bring an action in the circuit court to establish support orders or itself establish administrative support orders by any means and procedures authorized in this Code, as applicable, except that the standard and regulations for determining ability to support in Section 10-3 shall not limit the amount of support that may be ordered.

(iii) Proceedings may be initiated to obtain support, or for the recovery of aid granted during the period such support was not provided, or both, for the obtainment of support and the recovery of the aid provided. Proceedings for the recovery of aid may be taken separately or they may be consolidated with actions to obtain support. Such proceedings may be brought in the name of the person or persons requiring support or may be brought in the name of the Department, as the case requires.

(iv) The orders for the payment of moneys for the support of the person shall be just and equitable and may direct payment thereof for such period or periods of time as the circumstances require, including support for a period before the date the order for support is entered. In no event shall the orders reduce the community spouse resource allowance below the level established in subsection (a) of this Section or an amount set after a fair hearing, whichever is greater, or reduce the monthly maintenance allowance for the community spouse below the level permitted pursuant to subsection (a) of this Section.

Sec. 5-5.06c. Access to prenatal and postpartum care. Section 30-5. The Illinois Public Aid Code is amended by changing Section 5-5 as follows:  
(305 ILCS 5/5-5) (from Ch. 23, par. 5-5)

Sec. 5-5. Medical services. The Illinois Department, by rule, shall determine the quantity and quality of and the rate of reimbursement for the medical assistance for which payment will be authorized, and the medical services to be provided, which may include all or part of the following: (1) inpatient hospital services; (2) outpatient hospital services; (3) other laboratory and X-ray services; (4) skilled nursing home services; (5) physicians' services whether furnished in the office, the patient's home, a hospital, a skilled nursing home, or elsewhere; (6) medical care, or any other type of remedial care furnished by licensed practitioners; (7) home health care services; (8) private duty nursing service; (9) clinic services; (10) dental services, including prevention and treatment of periodontal disease and dental caries disease for pregnant individuals, provided by an individual licensed to practice dentistry or dental surgery; for purposes of this item (10), "dental services" means diagnostic, preventive, or corrective procedures provided by or under the supervision of a dentist in the practice of his or her profession; (11) physical therapy and related services; (12) prescribed drugs, dentures, and prosthetic devices; and eyeglasses prescribed by a physician skilled in the diseases of the eye, or by an optometrist, whichever the person may select; (13) other diagnostic, screening, preventive, and rehabilitative services, including to ensure that the individual's need for intervention or treatment of mental disorders or substance use disorders or co-occurring mental health and substance use disorders is determined using a uniform screening, assessment, and evaluation process inclusive of criteria, for children and adults; for purposes of this item (13), a uniform screening, assessment, and evaluation process refers to a process that includes an appropriate evaluation and, as warranted, a referral; "uniform" does not mean the use of a singular instrument, tool, or process that all must utilize; (14) transportation and such other expenses as may be necessary; (15) medical treatment of sexual assault survivors, as defined in Section 1a of the Sexual Assault Survivors Emergency Treatment Act, for injuries sustained as a result of the sexual assault, including examinations and laboratory tests to discover evidence which may be used in criminal proceedings arising from the sexual assault; (16) the diagnosis and treatment of sickle cell anemia; (16.5) services performed by a chiropractic physician licensed under the Medical Practice Act of 1987 and acting within the scope of his or her license, including, but not limited to, chiropractic manipulative treatment; and (17) any other medical care, and any other type of remedial care recognized under the laws of this State. The term "any other type of remedial care" shall include nursing care and nursing home service for persons who rely on treatment by spiritual means alone through prayer for healing.

Notwithstanding any other provision of this Section, a comprehensive tobacco use cessation program that includes purchasing prescription drugs or prescription medical devices approved by the Food and Drug Administration shall be covered under the medical assistance program under this Article for persons who are otherwise eligible for assistance under this Article.

Notwithstanding any other provision of this Code, reproductive health care that is otherwise legal in Illinois shall be covered under the medical assistance program for persons who are otherwise eligible for medical assistance under this Article.

Notwithstanding any other provision of this Section, all tobacco cessation medications approved by the United States Food and Drug Administration and all individual and group tobacco cessation counseling services and telephone-based counseling services and tobacco cessation medications provided through the Illinois Tobacco Quitline shall be covered under the medical assistance program for persons who are otherwise eligible for assistance under this Article. The Department shall comply with all federal requirements necessary to obtain federal financial participation, as specified in 42 CFR 433.15(b)(7), for telephone-based counseling services provided through the Illinois Tobacco Quitline, including, but not limited to: (i) entering into a memorandum of understanding or interagency agreement with the Department of Public Health, as administrator of the Illinois Tobacco Quitline; and (ii) developing a cost allocation plan for Medicaid-allowable Illinois Tobacco Quitline services in accordance with 45 CFR 95.507. The Department shall submit the memorandum of understanding or interagency agreement, the cost allocation

plan, and all other necessary documentation to the Centers for Medicare and Medicaid Services for review and approval. Coverage under this paragraph shall be contingent upon federal approval.

Notwithstanding any other provision of this Code, the Illinois Department may not require, as a condition of payment for any laboratory test authorized under this Article, that a physician's handwritten signature appear on the laboratory test order form. The Illinois Department may, however, impose other appropriate requirements regarding laboratory test order documentation.

Upon receipt of federal approval of an amendment to the Illinois Title XIX State Plan for this purpose, the Department shall authorize the Chicago Public Schools (CPS) to procure a vendor or vendors to manufacture eyeglasses for individuals enrolled in a school within the CPS system. CPS shall ensure that its vendor or vendors are enrolled as providers in the medical assistance program and in any capitated Medicaid managed care entity (MCE) serving individuals enrolled in a school within the CPS system. Under any contract procured under this provision, the vendor or vendors must serve only individuals enrolled in a school within the CPS system. Claims for services provided by CPS's vendor or vendors to recipients of benefits in the medical assistance program under this Code, the Children's Health Insurance Program, or the Covering ALL KIDS Health Insurance Program shall be submitted to the Department or the MCE in which the individual is enrolled for payment and shall be reimbursed at the Department's or the MCE's established rates or rate methodologies for eyeglasses.

On and after July 1, 2012, the Department of Healthcare and Family Services may provide the following services to persons eligible for assistance under this Article who are participating in education, training or employment programs operated by the Department of Human Services as successor to the Department of Public Aid:

(1) dental services provided by or under the supervision of a dentist; and

(2) eyeglasses prescribed by a physician skilled in the diseases of the eye, or by an optometrist,

whichever the person may select.

On and after July 1, 2018, the Department of Healthcare and Family Services shall provide dental services to any adult who is otherwise eligible for assistance under the medical assistance program. As used in this paragraph, "dental services" means diagnostic, preventative, restorative, or corrective procedures, including procedures and services for the prevention and treatment of periodontal disease and dental caries disease, provided by an individual who is licensed to practice dentistry or dental surgery or who is under the supervision of a dentist in the practice of his or her profession.

On and after July 1, 2018, targeted dental services, as set forth in Exhibit D of the Consent Decree entered by the United States District Court for the Northern District of Illinois, Eastern Division, in the matter of *Memisovski v. Maram*, Case No. 92 C 1982, that are provided to adults under the medical assistance program shall be established at no less than the rates set forth in the "New Rate" column in Exhibit D of the Consent Decree for targeted dental services that are provided to persons under the age of 18 under the medical assistance program.

Notwithstanding any other provision of this Code and subject to federal approval, the Department may adopt rules to allow a dentist who is volunteering his or her service at no cost to render dental services through an enrolled not-for-profit health clinic without the dentist personally enrolling as a participating provider in the medical assistance program. A not-for-profit health clinic shall include a public health clinic or Federally Qualified Health Center or other enrolled provider, as determined by the Department, through which dental services covered under this Section are performed. The Department shall establish a process for payment of claims for reimbursement for covered dental services rendered under this provision.

On and after January 1, 2022, the Department of Healthcare and Family Services shall administer and regulate a school-based dental program that allows for the out-of-office delivery of preventative dental services in a school setting to children under 19 years of age. The Department shall establish, by rule, guidelines for participation by providers and set requirements for follow-up referral care based on the requirements established in the Dental Office Reference Manual published by the Department that establishes the requirements for dentists participating in the All Kids Dental School Program. Every effort shall be made by the Department when developing the program requirements to consider the different geographic differences of both urban and rural areas of the State for initial treatment and necessary follow-up care. No provider shall be charged a fee by any unit of local government to participate in the school-based dental program administered by the Department. Nothing in this paragraph shall be construed to limit or preempt a home rule unit's or school district's authority to establish, change, or administer a school-based dental program in addition to, or independent of, the school-based dental program administered by the Department.

The Illinois Department, by rule, may distinguish and classify the medical services to be provided only in accordance with the classes of persons designated in Section 5-2.

The Department of Healthcare and Family Services must provide coverage and reimbursement for amino acid-based elemental formulas, regardless of delivery method, for the diagnosis and treatment of (i) eosinophilic disorders and (ii) short bowel syndrome when the prescribing physician has issued a written order stating that the amino acid-based elemental formula is medically necessary.

The Illinois Department shall authorize the provision of, and shall authorize payment for, screening by low-dose mammography for the presence of occult breast cancer for individuals 35 years of age or older who are eligible for medical assistance under this Article, as follows:

(A) A baseline mammogram for individuals 35 to 39 years of age.

(B) An annual mammogram for individuals 40 years of age or older.

(C) A mammogram at the age and intervals considered medically necessary by the individual's health care provider for individuals under 40 years of age and having a family history of breast cancer, prior personal history of breast cancer, positive genetic testing, or other risk factors.

(D) A comprehensive ultrasound screening and MRI of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or when medically necessary as determined by a physician licensed to practice medicine in all of its branches.

(E) A screening MRI when medically necessary, as determined by a physician licensed to practice medicine in all of its branches.

(F) A diagnostic mammogram when medically necessary, as determined by a physician licensed to practice medicine in all its branches, advanced practice registered nurse, or physician assistant.

The Department shall not impose a deductible, coinsurance, copayment, or any other cost-sharing requirement on the coverage provided under this paragraph; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

All screenings shall include a physical breast exam, instruction on self-examination and information regarding the frequency of self-examination and its value as a preventative tool.

For purposes of this Section:

"Diagnostic mammogram" means a mammogram obtained using diagnostic mammography.

"Diagnostic mammography" means a method of screening that is designed to evaluate an abnormality in a breast, including an abnormality seen or suspected on a screening mammogram or a subjective or objective abnormality otherwise detected in the breast.

"Low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with an average radiation exposure delivery of less than one rad per breast for 2 views of an average size breast. The term also includes digital mammography and includes breast tomosynthesis.

"Breast tomosynthesis" means a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this paragraph, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this paragraph.

On and after January 1, 2016, the Department shall ensure that all networks of care for adult clients of the Department include access to at least one breast imaging Center of Imaging Excellence as certified by the American College of Radiology.

On and after January 1, 2012, providers participating in a quality improvement program approved by the Department shall be reimbursed for screening and diagnostic mammography at the same rate as the Medicare program's rates, including the increased reimbursement for digital mammography.

The Department shall convene an expert panel including representatives of hospitals, free-standing mammography facilities, and doctors, including radiologists, to establish quality standards for mammography.

On and after January 1, 2017, providers participating in a breast cancer treatment quality improvement program approved by the Department shall be reimbursed for breast cancer treatment at a rate that is no lower than 95% of the Medicare program's rates for the data elements included in the breast cancer treatment quality program.

The Department shall convene an expert panel, including representatives of hospitals, free-standing breast cancer treatment centers, breast cancer quality organizations, and doctors, including breast surgeons, reconstructive breast surgeons, oncologists, and primary care providers to establish quality standards for breast cancer treatment.

Subject to federal approval, the Department shall establish a rate methodology for mammography at federally qualified health centers and other encounter-rate clinics. These clinics or centers may also collaborate with other hospital-based mammography facilities. By January 1, 2016, the Department shall report to the General Assembly on the status of the provision set forth in this paragraph.

The Department shall establish a methodology to remind individuals who are age-appropriate for screening mammography, but who have not received a mammogram within the previous 18 months, of the importance and benefit of screening mammography. The Department shall work with experts in breast cancer outreach and patient navigation to optimize these reminders and shall establish a methodology for evaluating their effectiveness and modifying the methodology based on the evaluation.

The Department shall establish a performance goal for primary care providers with respect to their female patients over age 40 receiving an annual mammogram. This performance goal shall be used to provide additional reimbursement in the form of a quality performance bonus to primary care providers who meet that goal.

The Department shall devise a means of case-managing or patient navigation for beneficiaries diagnosed with breast cancer. This program shall initially operate as a pilot program in areas of the State with the highest incidence of mortality related to breast cancer. At least one pilot program site shall be in the metropolitan Chicago area and at least one site shall be outside the metropolitan Chicago area. On or after July 1, 2016, the pilot program shall be expanded to include one site in western Illinois, one site in southern Illinois, one site in central Illinois, and 4 sites within metropolitan Chicago. An evaluation of the pilot program shall be carried out measuring health outcomes and cost of care for those served by the pilot program compared to similarly situated patients who are not served by the pilot program.

The Department shall require all networks of care to develop a means either internally or by contract with experts in navigation and community outreach to navigate cancer patients to comprehensive care in a timely fashion. The Department shall require all networks of care to include access for patients diagnosed with cancer to at least one academic commission on cancer-accredited cancer program as an in-network covered benefit.

On or after July 1, 2022, individuals who are otherwise eligible for medical assistance under this Article shall receive coverage for perinatal depression screenings for the 12-month period beginning on the last day of their pregnancy. Medical assistance coverage under this paragraph shall be conditioned on the use of a screening instrument approved by the Department.

Any medical or health care provider shall immediately recommend, to any pregnant individual who is being provided prenatal services and is suspected of having a substance use disorder as defined in the Substance Use Disorder Act, referral to a local substance use disorder treatment program licensed by the Department of Human Services or to a licensed hospital which provides substance abuse treatment services. The Department of Healthcare and Family Services shall assure coverage for the cost of treatment of the drug abuse or addiction for pregnant recipients in accordance with the Illinois Medicaid Program in conjunction with the Department of Human Services.

All medical providers providing medical assistance to pregnant individuals under this Code shall receive information from the Department on the availability of services under any program providing case management services for addicted individuals, including information on appropriate referrals for other social services that may be needed by addicted individuals in addition to treatment for addiction.

The Illinois Department, in cooperation with the Departments of Human Services (as successor to the Department of Alcoholism and Substance Abuse) and Public Health, through a public awareness campaign, may provide information concerning treatment for alcoholism and drug abuse and addiction, prenatal health

care, and other pertinent programs directed at reducing the number of drug-affected infants born to recipients of medical assistance.

Neither the Department of Healthcare and Family Services nor the Department of Human Services shall sanction the recipient solely on the basis of the recipient's substance abuse.

The Illinois Department shall establish such regulations governing the dispensing of health services under this Article as it shall deem appropriate. The Department should seek the advice of formal professional advisory committees appointed by the Director of the Illinois Department for the purpose of providing regular advice on policy and administrative matters, information dissemination and educational activities for medical and health care providers, and consistency in procedures to the Illinois Department.

The Illinois Department may develop and contract with Partnerships of medical providers to arrange medical services for persons eligible under Section 5-2 of this Code. Implementation of this Section may be by demonstration projects in certain geographic areas. The Partnership shall be represented by a sponsor organization. The Department, by rule, shall develop qualifications for sponsors of Partnerships. Nothing in this Section shall be construed to require that the sponsor organization be a medical organization.

The sponsor must negotiate formal written contracts with medical providers for physician services, inpatient and outpatient hospital care, home health services, treatment for alcoholism and substance abuse, and other services determined necessary by the Illinois Department by rule for delivery by Partnerships. Physician services must include prenatal and obstetrical care. The Illinois Department shall reimburse medical services delivered by Partnership providers to clients in target areas according to provisions of this Article and the Illinois Health Finance Reform Act, except that:

(1) Physicians participating in a Partnership and providing certain services, which shall be determined by the Illinois Department, to persons in areas covered by the Partnership may receive an additional surcharge for such services.

(2) The Department may elect to consider and negotiate financial incentives to encourage the development of Partnerships and the efficient delivery of medical care.

(3) Persons receiving medical services through Partnerships may receive medical and case management services above the level usually offered through the medical assistance program.

Medical providers shall be required to meet certain qualifications to participate in Partnerships to ensure the delivery of high quality medical services. These qualifications shall be determined by rule of the Illinois Department and may be higher than qualifications for participation in the medical assistance program. Partnership sponsors may prescribe reasonable additional qualifications for participation by medical providers, only with the prior written approval of the Illinois Department.

Nothing in this Section shall limit the free choice of practitioners, hospitals, and other providers of medical services by clients. In order to ensure patient freedom of choice, the Illinois Department shall immediately promulgate all rules and take all other necessary actions so that provided services may be accessed from therapeutically certified optometrists to the full extent of the Illinois Optometric Practice Act of 1987 without discriminating between service providers.

The Department shall apply for a waiver from the United States Health Care Financing Administration to allow for the implementation of Partnerships under this Section.

The Illinois Department shall require health care providers to maintain records that document the medical care and services provided to recipients of Medical Assistance under this Article. Such records must be retained for a period of not less than 6 years from the date of service or as provided by applicable State law, whichever period is longer, except that if an audit is initiated within the required retention period then the records must be retained until the audit is completed and every exception is resolved. The Illinois Department shall require health care providers to make available, when authorized by the patient, in writing, the medical records in a timely fashion to other health care providers who are treating or serving persons eligible for Medical Assistance under this Article. All dispensers of medical services shall be required to maintain and retain business and professional records sufficient to fully and accurately document the nature, scope, details and receipt of the health care provided to persons eligible for medical assistance under this Code, in accordance with regulations promulgated by the Illinois Department. The rules and regulations shall require that proof of the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses by eligible persons under this Section accompany each claim for reimbursement submitted by the dispenser of such medical services. No such claims for reimbursement shall be approved for payment by the Illinois Department without such proof of receipt, unless the Illinois Department shall have put into effect and shall be operating a system of post-payment audit and review which shall, on a sampling basis, be deemed adequate by the Illinois Department to assure that such drugs, dentures, prosthetic devices and eyeglasses

for which payment is being made are actually being received by eligible recipients. Within 90 days after September 16, 1984 (the effective date of Public Act 83-1439), the Illinois Department shall establish a current list of acquisition costs for all prosthetic devices and any other items recognized as medical equipment and supplies reimbursable under this Article and shall update such list on a quarterly basis, except that the acquisition costs of all prescription drugs shall be updated no less frequently than every 30 days as required by Section 5-5.12.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after July 22, 2013 (the effective date of Public Act 98-104), establish procedures to permit skilled care facilities licensed under the Nursing Home Care Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall, by July 1, 2016, test the viability of the new system and implement any necessary operational or structural changes to its information technology platforms in order to allow for the direct acceptance and payment of nursing home claims.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after August 15, 2014 (the effective date of Public Act 98-963), establish procedures to permit ID/DD facilities licensed under the ID/DD Community Care Act and MC/DD facilities licensed under the MC/DD Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall have an additional 365 days to test the viability of the new system and to ensure that any necessary operational or structural changes to its information technology platforms are implemented.

The Illinois Department shall require all dispensers of medical services, other than an individual practitioner or group of practitioners, desiring to participate in the Medical Assistance program established under this Article to disclose all financial, beneficial, ownership, equity, surety or other interests in any and all firms, corporations, partnerships, associations, business enterprises, joint ventures, agencies, institutions or other legal entities providing any form of health care services in this State under this Article.

The Illinois Department may require that all dispensers of medical services desiring to participate in the medical assistance program established under this Article disclose, under such terms and conditions as the Illinois Department may by rule establish, all inquiries from clients and attorneys regarding medical bills paid by the Illinois Department, which inquiries could indicate potential existence of claims or liens for the Illinois Department.

Enrollment of a vendor shall be subject to a provisional period and shall be conditional for one year. During the period of conditional enrollment, the Department may terminate the vendor's eligibility to participate in, or may disenroll the vendor from, the medical assistance program without cause. Unless otherwise specified, such termination of eligibility or disenrollment is not subject to the Department's hearing process. However, a disenrolled vendor may reapply without penalty.

The Department has the discretion to limit the conditional enrollment period for vendors based upon category of risk of the vendor.

Prior to enrollment and during the conditional enrollment period in the medical assistance program, all vendors shall be subject to enhanced oversight, screening, and review based on the risk of fraud, waste, and abuse that is posed by the category of risk of the vendor. The Illinois Department shall establish the procedures for oversight, screening, and review, which may include, but need not be limited to: criminal and financial background checks; fingerprinting; license, certification, and authorization verifications; unscheduled or unannounced site visits; database checks; prepayment audit reviews; audits; payment caps; payment suspensions; and other screening as required by federal or State law.

The Department shall define or specify the following: (i) by provider notice, the "category of risk of the vendor" for each type of vendor, which shall take into account the level of screening applicable to a particular category of vendor under federal law and regulations; (ii) by rule or provider notice, the maximum length of the conditional enrollment period for each category of risk of the vendor; and (iii) by rule, the hearing rights, if any, afforded to a vendor in each category of risk of the vendor that is terminated or disenrolled during the conditional enrollment period.

To be eligible for payment consideration, a vendor's payment claim or bill, either as an initial claim or as a resubmitted claim following prior rejection, must be received by the Illinois Department, or its fiscal intermediary, no later than 180 days after the latest date on the claim on which medical goods or services were provided, with the following exceptions:

- (1) In the case of a provider whose enrollment is in process by the Illinois Department, the 180-day period shall not begin until the date on the written notice from the Illinois Department that the provider enrollment is complete.

(2) In the case of errors attributable to the Illinois Department or any of its claims processing intermediaries which result in an inability to receive, process, or adjudicate a claim, the 180-day period shall not begin until the provider has been notified of the error.

(3) In the case of a provider for whom the Illinois Department initiates the monthly billing process.

(4) In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments.

For claims for services rendered during a period for which a recipient received retroactive eligibility, claims must be filed within 180 days after the Department determines the applicant is eligible. For claims for which the Illinois Department is not the primary payer, claims must be submitted to the Illinois Department within 180 days after the final adjudication by the primary payer.

In the case of long term care facilities, within 120 calendar days of receipt by the facility of required prescreening information, new admissions with associated admission documents shall be submitted through the Medical Electronic Data Interchange (MEDI) or the Recipient Eligibility Verification (REV) System or shall be submitted directly to the Department of Human Services using required admission forms. Effective September 1, 2014, admission documents, including all prescreening information, must be submitted through MEDI or REV. Confirmation numbers assigned to an accepted transaction shall be retained by a facility to verify timely submittal. Once an admission transaction has been completed, all resubmitted claims following prior rejection are subject to receipt no later than 180 days after the admission transaction has been completed.

Claims that are not submitted and received in compliance with the foregoing requirements shall not be eligible for payment under the medical assistance program, and the State shall have no liability for payment of those claims.

To the extent consistent with applicable information and privacy, security, and disclosure laws, State and federal agencies and departments shall provide the Illinois Department access to confidential and other information and data necessary to perform eligibility and payment verifications and other Illinois Department functions. This includes, but is not limited to: information pertaining to licensure; certification; earnings; immigration status; citizenship; wage reporting; unearned and earned income; pension income; employment; supplemental security income; social security numbers; National Provider Identifier (NPI) numbers; the National Practitioner Data Bank (NPDB); program and agency exclusions; taxpayer identification numbers; tax delinquency; corporate information; and death records.

The Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, under which such agencies and departments shall share data necessary for medical assistance program integrity functions and oversight. The Illinois Department shall develop, in cooperation with other State departments and agencies, and in compliance with applicable federal laws and regulations, appropriate and effective methods to share such data. At a minimum, and to the extent necessary to provide data sharing, the Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, including, but not limited to: the Secretary of State; the Department of Revenue; the Department of Public Health; the Department of Human Services; and the Department of Financial and Professional Regulation.

Beginning in fiscal year 2013, the Illinois Department shall set forth a request for information to identify the benefits of a pre-payment, post-adjudication, and post-edit claims system with the goals of streamlining claims processing and provider reimbursement, reducing the number of pending or rejected claims, and helping to ensure a more transparent adjudication process through the utilization of: (i) provider data verification and provider screening technology; and (ii) clinical code editing; and (iii) pre-pay, pre- or post-adjudicated predictive modeling with an integrated case management system with link analysis. Such a request for information shall not be considered as a request for proposal or as an obligation on the part of the Illinois Department to take any action or acquire any products or services.

The Illinois Department shall establish policies, procedures, standards and criteria by rule for the acquisition, repair and replacement of orthotic and prosthetic devices and durable medical equipment. Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. Subject to prior approval, such rules shall enable a recipient to temporarily acquire and use alternative or substitute devices or

equipment pending repairs or replacements of any device or equipment previously authorized for such recipient by the Department. Notwithstanding any provision of Section 5-5f to the contrary, the Department may, by rule, exempt certain replacement wheelchair parts from prior approval and, for wheelchairs, wheelchair parts, wheelchair accessories, and related seating and positioning items, determine the wholesale price by methods other than actual acquisition costs.

The Department shall require, by rule, all providers of durable medical equipment to be accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services and recognized by the Department in order to bill the Department for providing durable medical equipment to recipients. No later than 15 months after the effective date of the rule adopted pursuant to this paragraph, all providers must meet the accreditation requirement.

In order to promote environmental responsibility, meet the needs of recipients and enrollees, and achieve significant cost savings, the Department, or a managed care organization under contract with the Department, may provide recipients or managed care enrollees who have a prescription or Certificate of Medical Necessity access to refurbished durable medical equipment under this Section (excluding prosthetic and orthotic devices as defined in the Orthotics, Prosthetics, and Pedorthics Practice Act and complex rehabilitation technology products and associated services) through the State's assistive technology program's reutilization program, using staff with the Assistive Technology Professional (ATP) Certification if the refurbished durable medical equipment: (i) is available; (ii) is less expensive, including shipping costs, than new durable medical equipment of the same type; (iii) is able to withstand at least 3 years of use; (iv) is cleaned, disinfected, sterilized, and safe in accordance with federal Food and Drug Administration regulations and guidance governing the reprocessing of medical devices in health care settings; and (v) equally meets the needs of the recipient or enrollee. The reutilization program shall confirm that the recipient or enrollee is not already in receipt of the same or similar equipment from another service provider, and that the refurbished durable medical equipment equally meets the needs of the recipient or enrollee. Nothing in this paragraph shall be construed to limit recipient or enrollee choice to obtain new durable medical equipment or place any additional prior authorization conditions on enrollees of managed care organizations.

The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department on Aging, to effect the following: (i) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (ii) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped; and (iii) notwithstanding any other provision of law, subject to federal approval, on and after July 1, 2012, an increase in the determination of need (DON) scores from 29 to 37 for applicants for institutional and home and community-based long term care; if and only if federal approval is not granted, the Department may, in conjunction with other affected agencies, implement utilization controls or changes in benefit packages to effectuate a similar savings amount for this population; and (iv) no later than July 1, 2013, minimum level of care eligibility criteria for institutional and home and community-based long term care; and (v) no later than October 1, 2013, establish procedures to permit long term care providers access to eligibility scores for individuals with an admission date who are seeking or receiving services from the long term care provider. In order to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

The Illinois Department shall develop and operate, in cooperation with other State Departments and agencies and in compliance with applicable federal laws and regulations, appropriate and effective systems of health care evaluation and programs for monitoring of utilization of health care services and facilities, as it affects persons eligible for medical assistance under this Code.

The Illinois Department shall report annually to the General Assembly, no later than the second Friday in April of 1979 and each year thereafter, in regard to:

- (a) actual statistics and trends in utilization of medical services by public aid recipients;
- (b) actual statistics and trends in the provision of the various medical services by medical vendors;
- (c) current rate structures and proposed changes in those rate structures for the various medical vendors; and
- (d) efforts at utilization review and control by the Illinois Department.

The requirement for reporting to the General Assembly shall be satisfied by filing copies of the report as required by Section 3.1 of the General Assembly Organization Act, and filing such additional copies with the State Government Report Distribution Center for the General Assembly as is required under paragraph (t) of Section 7 of the State Library Act.

Rulemaking authority to implement Public Act 95-1045, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

To qualify for coverage of kidney transplantation, such person must be receiving emergency renal dialysis services covered by the Department. Providers under this Section shall be prior approved and certified by the Department to perform kidney transplantation and the services under this Section shall be limited to services associated with kidney transplantation.

Notwithstanding any other provision of this Code to the contrary, on or after July 1, 2015, all FDA approved forms of medication assisted treatment prescribed for the treatment of alcohol dependence or treatment of opioid dependence shall be covered under both fee for service and managed care medical assistance programs for persons who are otherwise eligible for medical assistance under this Article and shall not be subject to any (1) utilization control, other than those established under the American Society of Addiction Medicine patient placement criteria, (2) prior authorization mandate, or (3) lifetime restriction limit mandate.

On or after July 1, 2015, opioid antagonists prescribed for the treatment of an opioid overdose, including the medication product, administration devices, and any pharmacy fees or hospital fees related to the dispensing, distribution, and administration of the opioid antagonist, shall be covered under the medical assistance program for persons who are otherwise eligible for medical assistance under this Article. As used in this Section, "opioid antagonist" means a drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration.

Upon federal approval, the Department shall provide coverage and reimbursement for all drugs that are approved for marketing by the federal Food and Drug Administration and that are recommended by the federal Public Health Service or the United States Centers for Disease Control and Prevention for pre-exposure prophylaxis and related pre-exposure prophylaxis services, including, but not limited to, HIV and sexually transmitted infection screening, treatment for sexually transmitted infections, medical monitoring, assorted labs, and counseling to reduce the likelihood of HIV infection among individuals who are not infected with HIV but who are at high risk of HIV infection.

Within 90 days after October 8, 2021 (the effective date of Public Act 102-665) ~~this amendatory Act of the 102nd General Assembly~~, the Department shall seek federal approval of a State Plan amendment to expand coverage for family planning services that includes presumptive eligibility to individuals whose income is at or below 208% of the federal poverty level. Coverage under this Section shall be effective beginning no later than December 1, 2022.

Subject to approval by the federal Centers for Medicare and Medicaid Services of a Title XIX State Plan amendment electing the Program of All-Inclusive Care for the Elderly (PACE) as a State Medicaid option, as provided for by Subtitle I (commencing with Section 4801) of Title IV of the Balanced Budget

#### ARTICLE 40.

Section 40-5. The Illinois Public Aid Code is amended by changing Section 11-5.1 and by adding Sections 5-1.6, 5-13.1 and 11-5.5 as follows:

(305 ILCS 5/5-1.6 new)

Sec. 5-1.6. Continuous eligibility; ex parte redeterminations.

(a) By July 1, 2022, the Department of Healthcare and Family Services shall seek a State Plan amendment or any federal waivers necessary to make changes to the medical assistance program. The Department shall apply for federal approval to implement 12 months of continuous eligibility for adults participating in the medical assistance program. The Department shall secure federal financial participation in accordance with this Section for expenditures made by the Department in State Fiscal Year 2023 and every State fiscal year thereafter.

(b) By July 1, 2022, the Department of Healthcare and Family Services shall seek a State Plan amendment or any federal waivers or approvals necessary to make changes to the medical assistance redetermination process for people without any income at the time of redetermination. These changes shall seek to allow all people without income to be considered for ex parte redetermination. If there is no non-income related disqualifying information for medical assistance recipients without any income, then a person without any income shall be redetermined ex parte. Within 60 days after receiving federal approval or guidance, the Department of Healthcare and Family Services and the Department of Human Services shall make necessary technical and rule changes to implement changes to the redetermination process. The percentage of medical assistance recipients whose eligibility is renewed through the ex parte redetermination process shall be reported monthly by the Department of Healthcare and Family Services on its website in accordance with subsection (d) of Section 11-5.1 of this Code as well as shared in all Medicaid Advisory Committee meetings and Medicaid Advisory Committee Public Education Subcommittee meetings.

(305 ILCS 5/5-13.1 new)

Sec. 5-13.1. Cost-effectiveness waiver, hardship waivers, and making information about waivers more accessible.

(a) It is the intent of the General Assembly to ease the burden of liens and estate recovery for correctly paid benefits for participants, applicants, and their families and heirs, and to make information about waivers more widely available.

(b) The Department shall waive estate recovery under Sections 3-9 and 5-13 where recovery would not be cost-effective, would work an undue hardship, or for any other just reason, and shall make information about waivers and estate recovery easily accessible.

(1) Cost-effectiveness waiver. Subject to federal approval, the Department shall waive any claim against the first \$25,000 of any estate to prevent substantial and unreasonable hardship. The Department shall consider the gross assets in the estate, including, but not limited to, the net value of real estate less mortgages or liens with priority over the Department's claims. The Department may increase the cost-effectiveness threshold in the future.

(2) Undue hardship waiver. The Department may develop additional hardship waiver standards in addition to those already employed, including, but not limited to, waivers aimed at preserving income-producing real property or a modest home as defined by rule.

(3) Accessible information. The Department shall make information about estate recovery and hardship waivers easily accessible. The Department shall maintain information about how to request a hardship waiver on its website in English, Spanish, and the next 4 most commonly used languages, including a short guide and simple form to facilitate requesting hardship exemptions in each language. On an annual basis, the Department shall publicly report on the number of estate recovery cases that are pursued and the number of undue hardship exemptions granted, including demographic data of the deceased beneficiaries where available.

(305 ILCS 5/11-5.1)

Sec. 11-5.1. Eligibility verification. Notwithstanding any other provision of this Code, with respect to applications for medical assistance provided under Article V of this Code, eligibility shall be determined in a manner that ensures program integrity and complies with federal laws and regulations while minimizing unnecessary barriers to enrollment. To this end, as soon as practicable, and unless the Department receives written denial from the federal government, this Section shall be implemented:

(a) The Department of Healthcare and Family Services or its designees shall:

(1) By no later than July 1, 2011, require verification of, at a minimum, one month's income from all sources required for determining the eligibility of applicants for medical assistance under this Code. Such verification shall take the form of pay stubs, business or income and expense records for self-employed persons, letters from employers, and any other valid documentation of income including data obtained electronically by the Department or its designees from other sources as described in subsection (b) of this Section. A month's income may be verified by a single pay stub with the monthly income extrapolated from the time period covered by the pay stub.

(2) By no later than October 1, 2011, require verification of, at a minimum, one month's income from all sources required for determining the continued eligibility of recipients at their annual review of eligibility for medical assistance under this Code. Information the Department receives prior to the annual review, including information available to the Department as a result of the recipient's application for other non-Medicaid benefits, that is sufficient to make a determination of continued Medicaid eligibility may be reviewed and verified, and subsequent action taken including client notification of continued Medicaid eligibility. The date of client notification establishes the date for subsequent annual Medicaid eligibility reviews. Such verification shall take the form of pay stubs, business or income and expense records for self-employed persons, letters from employers, and any other valid documentation of income including data obtained electronically by the Department or its designees from other sources as described in subsection (b) of this Section. A month's income may be verified by a single pay stub with the monthly income extrapolated from the time period covered by the pay stub. The Department shall send a notice to recipients at least 60 days prior to the end of their period of eligibility that informs them of the requirements for continued eligibility. If a recipient does not fulfill the requirements for continued eligibility by the deadline established in the notice a notice of cancellation shall be issued to the recipient and coverage shall end no later than the last day of the month following the last day of the eligibility period. A recipient's eligibility may be reinstated without requiring a new application if the recipient fulfills the requirements for continued eligibility prior to the end of the third month following the last date of coverage (or longer period if required by federal regulations). Nothing in this Section shall prevent an individual whose coverage has been cancelled from reapplying for health benefits at any time.

(3) By no later than July 1, 2011, require verification of Illinois residency.

The Department, with federal approval, may choose to adopt continuous financial eligibility for a full 12 months for adults on Medicaid.

(b) The Department shall establish or continue cooperative arrangements with the Social Security Administration, the Illinois Secretary of State, the Department of Human Services, the Department of Revenue, the Department of Employment Security, and any other appropriate entity to gain electronic access, to the extent allowed by law, to information available to those entities that may be appropriate for electronically verifying any factor of eligibility for benefits under the Program. Data relevant to eligibility shall be provided for no other purpose than to verify the eligibility of new applicants or current recipients of health benefits under the Program. Data shall be requested or provided for any new applicant or current recipient only insofar as that individual's circumstances are relevant to that individual's or another individual's eligibility.

(c) Within 90 days of the effective date of this amendatory Act of the 96th General Assembly, the Department of Healthcare and Family Services shall send notice to current recipients informing them of the changes regarding their eligibility verification.

(d) As soon as practical if the data is reasonably available, but no later than January 1, 2017, the Department shall compile on a monthly basis data on eligibility redeterminations of beneficiaries of medical assistance provided under Article V of this Code. In addition to the other data required under this subsection, the Department shall compile on a monthly basis data on the percentage of beneficiaries whose eligibility is renewed through ex parte redeterminations as described in subsection (b) of Section 5-1.6 of this Code, subject to federal approval of the changes made in subsection (b) of Section 5-1.6 by this amendatory Act of

the 102nd General Assembly. This data shall be posted on the Department's website, and data from prior months shall be retained and available on the Department's website. The data compiled and reported shall include the following:

(1) The total number of redetermination decisions made in a month and, of that total number, the number of decisions to continue or change benefits and the number of decisions to cancel benefits.

(2) A breakdown of enrollee language preference for the total number of redetermination decisions made in a month and, of that total number, a breakdown of enrollee language preference for the number of decisions to continue or change benefits, and a breakdown of enrollee language preference for the number of decisions to cancel benefits. The language breakdown shall include, at a minimum, English, Spanish, and the next 4 most commonly used languages.

(3) The percentage of cancellation decisions made in a month due to each of the following:

(A) The beneficiary's ineligibility due to excess income.

(B) The beneficiary's ineligibility due to not being an Illinois resident.

(C) The beneficiary's ineligibility due to being deceased.

(D) The beneficiary's request to cancel benefits.

(E) The beneficiary's lack of response after notices mailed to the beneficiary are returned to the Department as undeliverable by the United States Postal Service.

(F) The beneficiary's lack of response to a request for additional information when reliable information in the beneficiary's account, or other more current information, is unavailable to the Department to make a decision on whether to continue benefits.

(G) Other reasons tracked by the Department for the purpose of ensuring program integrity.

(4) If a vendor is utilized to provide services in support of the Department's redetermination decision process, the total number of redetermination decisions made in a month and, of that total number, the number of decisions to continue or change benefits, and the number of decisions to cancel benefits (i) with the involvement of the vendor and (ii) without the involvement of the vendor.

(5) Of the total number of benefit cancellations in a month, the number of beneficiaries who return from cancellation within one month, the number of beneficiaries who return from cancellation within 2 months, and the number of beneficiaries who return from cancellation within 3 months. Of the number of beneficiaries who return from cancellation within 3 months, the percentage of those cancellations due to each of the reasons listed under paragraph (3) of this subsection.

(e) The Department shall conduct a complete review of the Medicaid redetermination process in order to identify changes that can increase the use of ex parte redetermination processing. This review shall be completed within 90 days after the effective date of this amendatory Act of the 101st General Assembly. Within 90 days of completion of the review, the Department shall seek written federal approval of policy changes the review recommended and implement once approved. The review shall specifically include, but not be limited to, use of ex parte redeterminations of the following populations:

(1) Recipients of developmental disabilities services.

(2) Recipients of benefits under the State's Aid to the Aged, Blind, or Disabled program.

(3) Recipients of Medicaid long-term care services and supports, including waiver services.

(4) All Modified Adjusted Gross Income (MAGI) populations.

(5) Populations with no verifiable income.

(6) Self-employed people.

The report shall also outline populations and circumstances in which an ex parte redetermination is not a recommended option.

(f) The Department shall explore and implement, as practical and technologically possible, roles that stakeholders outside State agencies can play to assist in expediting eligibility determinations and redeterminations within 24 months after the effective date of this amendatory Act of the 101st General Assembly. Such practical roles to be explored to expedite the eligibility determination processes shall include the implementation of hospital presumptive eligibility, as authorized by the Patient Protection and Affordable Care Act.

(g) The Department or its designee shall seek federal approval to enhance the reasonable compatibility standard from 5% to 10%.

(h) Reporting. The Department of Healthcare and Family Services and the Department of Human Services shall publish quarterly reports on their progress in implementing policies and practices pursuant to this Section as modified by this amendatory Act of the 101st General Assembly.

(1) The reports shall include, but not be limited to, the following:

(A) Medical application processing, including a breakdown of the number of MAGI, non-MAGI, long-term care, and other medical cases pending for various incremental time frames between 0 to 181 or more days.

(B) Medical redeterminations completed, including: (i) a breakdown of the number of households that were redetermined ex parte and those that were not; (ii) the reasons households were not redetermined ex parte; and (iii) the relative percentages of these reasons.

(C) A narrative discussion on issues identified in the functioning of the State's Integrated Eligibility System and progress on addressing those issues, as well as progress on implementing strategies to address eligibility backlogs, including expanding ex parte determinations to ensure timely eligibility determinations and renewals.

(2) Initial reports shall be issued within 90 days after the effective date of this amendatory Act of the 101st General Assembly.

(3) All reports shall be published on the Department's website.

(i) It is the determination of the General Assembly that the Department must include seniors and persons with disabilities in ex parte renewals. It is the determination of the General Assembly that the Department must use its asset verification system to assist in the determination of whether an individual's coverage can be renewed using the ex parte process. If a State Plan amendment is required, the Department shall pursue such State Plan amendment by July 1, 2022. Within 60 days after receiving federal approval or guidance, the Department of Healthcare and Family Services and the Department of Human Services shall make necessary technical and rule changes to implement these changes to the redetermination process.

Section 45-5. The Illinois Public Aid Code is amended by changing Section 5-5.07 as follows:

(305 ILCS 5/5-5.07)

Sec. 5-5.07. Inpatient psychiatric stay; DCFS per diem rate. The Department of Children and Family Services shall pay the DCFS per diem rate for inpatient psychiatric stay at a free-standing psychiatric hospital or a hospital with a pediatric or adolescent inpatient psychiatric unit effective the 11th day when a

child is in the hospital beyond medical necessity, and the parent or caregiver has denied the child access to the home and has refused or failed to make provisions for another living arrangement for the child or the child's discharge is being delayed due to a pending inquiry or investigation by the Department of Children and Family Services. If any portion of a hospital stay is reimbursed under this Section, the hospital stay shall not be eligible for payment under the provisions of Section 14-13 of this Code. ~~This Section is inoperative on and after July 1, 2021. #### ARTICLE 50.

Section 50-5. The Illinois Public Aid Code is amended by changing Section 5-4.2 and by adding Section 5-30d as follows:

(305 ILCS 5/5-4.2)

Sec. 5-4.2. Ambulance services payments.

(a) For ambulance services provided to a recipient of aid under this Article on or after January 1, 1993, the Illinois Department shall reimburse ambulance service providers at rates calculated in accordance with this Section. It is the intent of the General Assembly to provide adequate reimbursement for ambulance services so as to ensure adequate access to services for recipients of aid under this Article and to provide appropriate incentives to ambulance service providers to provide services in an efficient and cost-effective manner. Thus, it is the intent of the General Assembly that the Illinois Department implement a reimbursement system for ambulance services that, to the extent practicable and subject to the availability of funds appropriated by the General Assembly for this purpose, is consistent with the payment principles of Medicare. To ensure uniformity between the payment principles of Medicare and Medicaid, the Illinois Department shall follow, to the extent necessary and practicable and subject to the availability of funds appropriated by the General Assembly for this purpose, the statutes, laws, regulations, policies, procedures, principles, definitions, guidelines, and manuals used to determine the amounts paid to ambulance service providers under Title XVIII of the Social Security Act (Medicare).

(b) For ambulance services provided to a recipient of aid under this Article on or after January 1, 1996, the Illinois Department shall reimburse ambulance service providers based upon the actual distance traveled if a natural disaster, weather conditions, road repairs, or traffic congestion necessitates the use of a route other than the most direct route.

(c) For purposes of this Section, "ambulance services" includes medical transportation services provided by means of an ambulance, medi-car, service car, or taxi.

(c-1) For purposes of this Section, "ground ambulance service" means medical transportation services that are described as ground ambulance services by the Centers for Medicare and Medicaid Services and provided in a vehicle that is licensed as an ambulance by the Illinois Department of Public Health pursuant to the Emergency Medical Services (EMS) Systems Act.

(c-2) For purposes of this Section, "ground ambulance service provider" means a vehicle service provider as described in the Emergency Medical Services (EMS) Systems Act that operates licensed ambulances for the purpose of providing emergency ambulance services, or non-emergency ambulance services, or both. For purposes of this Section, this includes both ambulance providers and ambulance suppliers as described by the Centers for Medicare and Medicaid Services.

(c-3) For purposes of this Section, "medi-car" means transportation services provided to a patient who is confined to a wheelchair and requires the use of a hydraulic or electric lift or ramp and wheelchair lockdown when the patient's condition does not require medical observation, medical supervision, medical equipment, the administration of medications, or the administration of oxygen.

(c-4) For purposes of this Section, "service car" means transportation services provided to a patient by a passenger vehicle where that patient does not require the specialized modes described in subsection (c-1) or (c-3).

(d) This Section does not prohibit separate billing by ambulance service providers for oxygen furnished while providing advanced life support services.

(e) Beginning with services rendered on or after July 1, 2008, all providers of non-emergency medi-car and service car transportation must certify that the driver and employee attendant, as applicable, have completed a safety program approved by the Department to protect both the patient and the driver,

prior to transporting a patient. The provider must maintain this certification in its records. The provider shall produce such documentation upon demand by the Department or its representative. Failure to produce documentation of such training shall result in recovery of any payments made by the Department for services rendered by a non-certified driver or employee attendant. Medi-car and service car providers must maintain legible documentation in their records of the driver and, as applicable, employee attendant that actually transported the patient. Providers must recertify all drivers and employee attendants every 3 years. If they meet the established training components set forth by the Department, providers of non-emergency medi-car and service car transportation that are either directly or through an affiliated company licensed by the Department of Public Health shall be approved by the Department to have in-house safety programs for training their own staff.

Notwithstanding the requirements above, any public transportation provider of medi-car and service car transportation that receives federal funding under 49 U.S.C. 5307 and 5311 need not certify its drivers and employee attendants under this Section, since safety training is already federally mandated.

(f) With respect to any policy or program administered by the Department or its agent regarding approval of non-emergency medical transportation by ground ambulance service providers, including, but not limited to, the Non-Emergency Transportation Services Prior Approval Program (NETSPAP), the Department shall establish by rule a process by which ground ambulance service providers of non-emergency medical transportation may appeal any decision by the Department or its agent for which no denial was received prior to the time of transport that either (i) denies a request for approval for payment of non-emergency transportation by means of ground ambulance service or (ii) grants a request for approval of non-emergency transportation by means of ground ambulance service at a level of service that entitles the ground ambulance service provider to a lower level of compensation from the Department than the ground ambulance service provider would have received as compensation for the level of service requested. The rule shall be filed by December 15, 2012 and shall provide that, for any decision rendered by the Department or its agent on or after the date the rule takes effect, the ground ambulance service provider shall have 60 days from the date the decision is received to file an appeal. The rule established by the Department shall be, insofar as is practical, consistent with the Illinois Administrative Procedure Act. The Director's decision on an appeal under this Section shall be a final administrative decision subject to review under the Administrative Review Law.

(f-5) Beginning 90 days after July 20, 2012 (the effective date of Public Act 97-842), (i) no denial of a request for approval for payment of non-emergency transportation by means of ground ambulance service, and (ii) no approval of non-emergency transportation by means of ground ambulance service at a level of service that entitles the ground ambulance service provider to a lower level of compensation from the Department than would have been received at the level of service submitted by the ground ambulance service provider, may be issued by the Department or its agent unless the Department has submitted the criteria for determining the appropriateness of the transport for first notice publication in the Illinois Register pursuant to Section 5-40 of the Illinois Administrative Procedure Act.

(f-6) Within 90 days after the effective date of this amendatory Act of the 102nd General Assembly and subject to federal approval, the Department shall file rules to allow for the approval of ground ambulance services when the sole purpose of the transport is for the navigation of stairs or the assisting or lifting of a patient at a medical facility or during a medical appointment in instances where the Department or a contracted Medicaid managed care organization or their transportation broker is unable to secure transportation through any other transportation provider.

(f-7) For non-emergency ground ambulance claims properly denied under Department policy at the time the claim is filed due to failure to submit a valid Medical Certification for Non-Emergency Ambulance on and after December 15, 2012 and prior to January 1, 2021, the Department shall allot \$2,000,000 to a pool to reimburse such claims if the provider proves medical necessity for the service by other means. Providers must submit any such denied claims for which they seek compensation to the Department no later than December 31, 2021 along with documentation of medical necessity. No later than May 31, 2022, the Department shall determine for which claims medical necessity was established. Such claims for which medical necessity was established shall be paid at the rate in effect at the time of the service, provided the \$2,000,000 is sufficient to pay at those rates. If the pool is not sufficient, claims shall be paid at a uniform percentage of the applicable rate such that the pool of \$2,000,000 is exhausted. The appeal process described in subsection (f) shall not be applicable to the Department's determinations made in accordance with this subsection.

(g) Whenever a patient covered by a medical assistance program under this Code or by another medical program administered by the Department, including a patient covered under the State's Medicaid managed care program, is being transported from a facility and requires non-emergency transportation including ground ambulance, medi-car, or service car transportation, a Physician Certification Statement as described in this Section shall be required for each patient. Facilities shall develop procedures for a licensed medical professional to provide a written and signed Physician Certification Statement. The Physician Certification Statement shall specify the level of transportation services needed and complete a medical certification establishing the criteria for approval of non-emergency ambulance transportation, as published by the Department of Healthcare and Family Services, that is met by the patient. This certification shall be completed prior to ordering the transportation service and prior to patient discharge. The Physician Certification Statement is not required prior to transport if a delay in transport can be expected to negatively affect the patient outcome. If the ground ambulance provider, medi-car provider, or service car provider is unable to obtain the required Physician Certification Statement within 10 calendar days following the date of the service, the ground ambulance provider, medi-car provider, or service car provider must document its attempt to obtain the requested certification and may then submit the claim for payment. Acceptable documentation includes a signed return receipt from the U.S. Postal Service, facsimile receipt, email receipt, or other similar service that evidences that the ground ambulance provider, medi-car provider, or service car provider attempted to obtain the required Physician Certification Statement.

The medical certification specifying the level and type of non-emergency transportation needed shall be in the form of the Physician Certification Statement on a standardized form prescribed by the Department of Healthcare and Family Services. Within 75 days after July 27, 2018 (the effective date of Public Act 100-646), the Department of Healthcare and Family Services shall develop a standardized form of the Physician Certification Statement specifying the level and type of transportation services needed in consultation with the Department of Public Health, Medicaid managed care organizations, a statewide association representing ambulance providers, a statewide association representing hospitals, 3 statewide associations representing nursing homes, and other stakeholders. The Physician Certification Statement shall include, but is not limited to, the criteria necessary to demonstrate medical necessity for the level of transport needed as required by (i) the Department of Healthcare and Family Services and (ii) the federal Centers for Medicare and Medicaid Services as outlined in the Centers for Medicare and Medicaid Services' Medicare Benefit Policy Manual, Pub. 100-02, Chap. 10, Sec. 10.2.1, et seq. The use of the Physician Certification Statement shall satisfy the obligations of hospitals under Section 6.22 of the Hospital Licensing Act and nursing homes under Section 2-217 of the Nursing Home Care Act. Implementation and acceptance of the Physician Certification Statement shall take place no later than 90 days after the issuance of the Physician Certification Statement by the Department of Healthcare and Family Services.

Pursuant to subsection (E) of Section 12-4.25 of this Code, the Department is entitled to recover overpayments paid to a provider or vendor, including, but not limited to, from the discharging physician, the discharging facility, and the ground ambulance service provider, in instances where a non-emergency ground ambulance service is rendered as the result of improper or false certification.

Beginning October 1, 2018, the Department of Healthcare and Family Services shall collect data from Medicaid managed care organizations and transportation brokers, including the Department's NETSPAP broker, regarding denials and appeals related to the missing or incomplete Physician Certification Statement forms and overall compliance with this subsection. The Department of Healthcare and Family Services shall publish quarterly results on its website within 15 days following the end of each quarter.

(h) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(i) On and after July 1, 2018, the Department shall increase the base rate of reimbursement for both base charges and mileage charges for ground ambulance service providers for medical transportation services provided by means of a ground ambulance to a level not lower than 112% of the base rate in effect as of June 30, 2018.

(305 ILCS 5/5-30d new)

Sec. 5-30d. Increased funding for transportation services. Beginning no later than January 1, 2023 and subject to federal approval, the amount allocated to fund rates for medi-car, service car, and attendant

services provided to adults and children under the medical assistance program shall be increased by an approximate amount of \$24,000,000.

ARTICLE 999.

Section 999-99. Effective date. This Act takes effect upon becoming law."

The motion prevailed.

And the amendment was adopted and ordered printed.

Senator Gillespie offered the following amendment and moved its adoption:

**AMENDMENT NO. 2 TO HOUSE BILL 4343**

AMENDMENT NO. 2 . Amend House Bill 4343 by replacing everything after the enacting clause with the following:

"ARTICLE 1.

"Section 1-1. Short title. This Article may be cited as the Wellness Checks in Schools Program Act. References in this Article to "this Act" mean this Article.

Section 1-5. Findings. The General Assembly finds that:

(1) Depression is the most common mental health disorder among American teens and adults, with over 2,800,000 young people between the ages of 12 and 17 experiencing at least one major depressive episode each year, approximately 10-15% of teenagers exhibiting at least one symptom of depression at any time, and roughly 5% of teenagers suffering from major depression at any time. Teenage depression is 2 to 3 times more common in females than in males.

(2) Various biological, psychological, and environmental risk factors may contribute to teenage depression, which can lead to substance and alcohol abuse, social isolation, poor academic and workplace performance, unnecessary risk taking, early pregnancy, and suicide, which is the second leading cause of death among teenagers. Approximately 20% of teens with depression seriously consider suicide, and one in 12 attempt suicide. Untreated teenage depression can also result in adverse consequences throughout adulthood.

(3) Most teens who experience depression suffer from more than one episode. It is estimated that, although teenage depression is highly treatable through combinations of therapy, individual and group counseling, and certain medications, fewer than one-third of teenagers experiencing depression seek help or treatment.

(4) The proper detection and diagnosis of mental health conditions, including depression, is a key element in reducing the risk of teenage suicide and improving physical and mental health outcomes for young people. It is therefore fitting and appropriate to establish school-based mental health screenings to help identify the symptoms of mental health conditions and facilitate access to appropriate treatment.

Section 1-10. Wellness Checks in Schools Collaborative.

(a) Subject to appropriation, the Department of Healthcare and Family Services shall establish the Wellness Checks in Schools Collaborative for school districts that wish to implement wellness checks to identify students in grades 7 through 12 who are at risk of mental health conditions, including depression or other mental health issues. The Department shall work with school districts that have a high percentage of students enrolled in Medicaid and a high number of referrals to the State's Crisis and Referral Entry Services (CARES) hotline.

(b) The Collaborative shall focus on the identification of research-based screening tools validated to screen for mental health conditions in adolescents and identification of staff who will be responsible for completion of the screening tool. Nothing in this Act prohibits a school district from using a self-administered screening tool as part of the wellness check. To assist school districts in selecting research-based screening tools to use in their wellness check programs, the Department of Healthcare and Family Services may develop a list of preapproved research-based screening tools that are validated to

screen adolescents for mental health concerns and are appropriate for use in a school setting. The list shall be posted on the websites of the Department of Healthcare and Family Services and the State Board of Education.

(c) The Collaborative shall also focus on assisting participating school districts in establishing a referral process for immediate intervention for students who are identified as having a behavioral health issue that requires intervention.

(d) The Department shall publish a public notice regarding the establishment of the Collaborative with school districts and shall conduct regular meetings with interested school districts.

(e) Subject to appropriation, the Department shall establish and implement a program to provide wellness checks in public schools in accordance with this Section.

#### ARTICLE 5.

Section 5-5. The Illinois Public Aid Code is amended by changing Section 14-12 as follows:

(305 ILCS 5/14-12)

Sec. 14-12. Hospital rate reform payment system. The hospital payment system pursuant to Section 14-11 of this Article shall be as follows:

(a) Inpatient hospital services. Effective for discharges on and after July 1, 2014, reimbursement for inpatient general acute care services shall utilize the All Patient Refined Diagnosis Related Grouping (APR-DRG) software, version 30, distributed by 3M™ Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. Initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 30.0 adjusted for the Illinois experience.

(2) The Department shall establish a statewide-standardized amount to be used in the inpatient reimbursement system. The Department shall publish these amounts on its website no later than 10 calendar days prior to their effective date.

(3) In addition to the statewide-standardized amount, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid providers or services for trauma, transplantation services, perinatal care, and Graduate Medical Education (GME).

(4) The Department shall develop add-on payments to account for exceptionally costly inpatient stays, consistent with Medicare outlier principles. Outlier fixed loss thresholds may be updated to control for excessive growth in outlier payments no more frequently than on an annual basis, but at least once every 4 years. Upon updating the fixed loss thresholds, the Department shall be required to update base rates within 12 months.

(5) The Department shall define those hospitals or distinct parts of hospitals that shall be exempt from the APR-DRG reimbursement system established under this Section. The Department shall publish these hospitals' inpatient rates on its website no later than 10 calendar days prior to their effective date.

(6) Beginning July 1, 2014 and ending on June 30, 2024, in addition to the statewide-standardized amount, the Department shall develop an adjustor to adjust the rate of reimbursement for safety-net hospitals defined in Section 5-5e.1 of this Code excluding pediatric hospitals.

(7) Beginning July 1, 2014, in addition to the statewide-standardized amount, the Department shall develop an adjustor to adjust the rate of reimbursement for Illinois freestanding inpatient psychiatric hospitals that are not designated as children's hospitals by the Department but are primarily treating patients under the age of 21.

(7.5) (Blank).

(8) Beginning July 1, 2018, in addition to the statewide-standardized amount, the Department shall adjust the rate of reimbursement for hospitals designated by the Department of Public Health as a Perinatal Level II or II+ center by applying the same adjustor that is applied to Perinatal and Obstetrical care cases for Perinatal Level III centers, as of December 31, 2017.

(9) Beginning July 1, 2018, in addition to the statewide-standardized amount, the Department shall apply the same adjustor that is applied to trauma cases as of December 31, 2017 to inpatient claims to treat patients with burns, including, but not limited to, APR-DRGs 841, 842, 843, and 844.

(10) Beginning July 1, 2018, the statewide-standardized amount for inpatient general acute care services shall be uniformly increased so that base claims projected reimbursement is increased by an amount equal to the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of this subsection and paragraphs (3) and (4) of subsection (b) multiplied by 40%.

(11) Beginning July 1, 2018, the reimbursement for inpatient rehabilitation services shall be increased by the addition of a \$96 per day add-on.

(b) Outpatient hospital services. Effective for dates of service on and after July 1, 2014, reimbursement for outpatient services shall utilize the Enhanced Ambulatory Procedure Grouping (EAPG) software, version 3.7 distributed by 3M™ Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. The initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 3.7.

(2) The Department shall establish service specific statewide-standardized amounts to be used in the reimbursement system.

(A) The initial statewide standardized amounts, with the labor portion adjusted by the Calendar Year 2013 Medicare Outpatient Prospective Payment System wage index with reclassifications, shall be published by the Department on its website no later than 10 calendar days prior to their effective date.

(B) The Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health in accordance with 42 CFR 485, Subpart F. For outpatient services provided on or before June 30, 2018, the EAPG standardized amounts are determined separately for each critical access hospital such that simulated EAPG payments using outpatient base period paid claim data plus payments under Section 5A-12.4 of this Code net of the associated tax costs are equal to the estimated costs of outpatient base period claims data with a rate year cost inflation factor applied.

(3) In addition to the statewide-standardized amounts, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid hospital outpatient providers or services, including outpatient high volume or safety-net hospitals. Beginning July 1, 2018, the outpatient high volume adjuster shall be increased to increase annual expenditures associated with this adjuster by \$79,200,000, based on the State Fiscal Year 2015 base year data and this adjuster shall apply to public hospitals, except for large public hospitals, as defined under 89 Ill. Adm. Code 148.25(a).

(4) Beginning July 1, 2018, in addition to the statewide standardized amounts, the Department shall make an add-on payment for outpatient expensive devices and drugs. This add-on payment shall at least apply to claim lines that: (i) are assigned with one of the following EAPGs: 490, 1001 to 1020, and coded with one of the following revenue codes: 0274 to 0276, 0278; or (ii) are assigned with one of the following EAPGs: 430 to 441, 443, 444, 460 to 465, 495, 496, 1090. The add-on payment shall be calculated as follows: the claim line's covered charges multiplied by the hospital's total acute cost to charge ratio, less the claim line's EAPG payment plus \$1,000, multiplied by 0.8.

(5) Beginning July 1, 2018, the statewide-standardized amounts for outpatient services shall be increased by a uniform percentage so that base claims projected reimbursement is increased by an amount equal to no less than the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of subsection (a) and paragraphs (3) and (4) of this subsection multiplied by 46%.

(6) Effective for dates of service on or after July 1, 2018, the Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health in accordance with 42 CFR 485, Subpart F, such that each Critical Access Hospital's standardized amount for outpatient services shall be increased by the applicable uniform percentage determined pursuant to paragraph (5) of this subsection. It is the intent of the General Assembly that the adjustments required under this paragraph (6) by Public Act 100-1181 shall be applied retroactively to claims for dates of service provided on or after July 1, 2018.

(7) Effective for dates of service on or after March 8, 2019 (the effective date of Public Act 100-1181), the Department shall recalculate and implement an updated statewide-standardized amount for outpatient services provided by hospitals that are not Critical Access Hospitals to reflect the applicable uniform percentage determined pursuant to paragraph (5).

(1) Any recalculation to the statewide-standardized amounts for outpatient services provided by hospitals that are not Critical Access Hospitals shall be the amount necessary to achieve the increase in the statewide-standardized amounts for outpatient services increased by a uniform percentage, so that base claims projected reimbursement is increased by an amount equal to no less than the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of subsection (a) and paragraphs (3) and (4) of this subsection, for all hospitals that are not Critical Access Hospitals, multiplied by 46%.

(2) It is the intent of the General Assembly that the recalculations required under this paragraph (7) by Public Act 100-1181 shall be applied prospectively to claims for dates of service provided on or after March 8, 2019 (the effective date of Public Act 100-1181) and that no recoupment or repayment by the Department or an MCO of payments attributable to recalculation under this paragraph (7), issued to the hospital for dates of service on or after July 1, 2018 and before March 8, 2019 (the effective date of Public Act 100-1181), shall be permitted.

(8) The Department shall ensure that all necessary adjustments to the managed care organization capitation base rates necessitated by the adjustments under subparagraph (6) or (7) of this subsection are completed and applied retroactively in accordance with Section 5-30.8 of this Code within 90 days of March 8, 2019 (the effective date of Public Act 100-1181).

(9) Within 60 days after federal approval of the change made to the assessment in Section 5A-2 by this amendatory Act of the 101st General Assembly, the Department shall incorporate into the EAPG system for outpatient services those services performed by hospitals currently billed through the Non-Institutional Provider billing system.

(b-5) Notwithstanding any other provision of this Section, beginning with dates of service on and after January 1, 2023, any general acute care hospital with more than 500 outpatient psychiatric Medicaid services to persons under 19 years of age in any calendar year shall be paid the outpatient add-on payment of no less than \$113.

(c) In consultation with the hospital community, the Department is authorized to replace 89 Ill. Admin. Code 152.150 as published in 38 Ill. Reg. 4980 through 4986 within 12 months of June 16, 2014 (the effective date of Public Act 98-651). If the Department does not replace these rules within 12 months of June 16, 2014 (the effective date of Public Act 98-651), the rules in effect for 152.150 as published in 38 Ill. Reg. 4980 through 4986 shall remain in effect until modified by rule by the Department. Nothing in this subsection shall be construed to mandate that the Department file a replacement rule.

(d) Transition period. There shall be a transition period to the reimbursement systems authorized under this Section that shall begin on the effective date of these systems and continue until June 30, 2018, unless extended by rule by the Department. To help provide an orderly and predictable transition to the new reimbursement systems and to preserve and enhance access to the hospital services during this transition, the Department shall allocate a transitional hospital access pool of at least \$290,000,000 annually so that transitional hospital access payments are made to hospitals.

(1) After the transition period, the Department may begin incorporating the transitional hospital access pool into the base rate structure; however, the transitional hospital access payments in effect on June 30, 2018 shall continue to be paid, if continued under Section 5A-16.

(2) After the transition period, if the Department reduces payments from the transitional hospital access pool, it shall increase base rates, develop new adjustors, adjust current adjustors, develop new hospital access payments based on updated information, or any combination thereof by an amount equal to the decreases proposed in the transitional hospital access pool payments, ensuring that the entire transitional hospital access pool amount shall continue to be used for hospital payments.

(d-5) Hospital and health care transformation program. The Department shall develop a hospital and health care transformation program to provide financial assistance to hospitals in transforming their services and care models to better align with the needs of the communities they serve. The payments authorized in this Section shall be subject to approval by the federal government.

(1) Phase 1. In State fiscal years 2019 through 2020, the Department shall allocate funds from the transitional access hospital pool to create a hospital transformation pool of at least \$262,906,870 annually and make hospital transformation payments to hospitals. Subject to Section 5A-16, in State fiscal years 2019 and 2020, an Illinois hospital that received either a transitional hospital access

payment under subsection (d) or a supplemental payment under subsection (f) of this Section in State fiscal year 2018, shall receive a hospital transformation payment as follows:

(A) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is equal to or greater than 45%, the hospital transformation payment shall be equal to 100% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(B) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is equal to or greater than 25% but less than 45%, the hospital transformation payment shall be equal to 75% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(C) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is less than 25%, the hospital transformation payment shall be equal to 50% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(2) Phase 2.

(A) The funding amount from phase one shall be incorporated into directed payment and pass-through payment methodologies described in Section 5A-12.7.

(B) Because there are communities in Illinois that experience significant health care disparities due to systemic racism, as recently emphasized by the COVID-19 pandemic, aggravated by social determinants of health and a lack of sufficiently allocated healthcare resources, particularly community-based services, preventive care, obstetric care, chronic disease management, and specialty care, the Department shall establish a health care transformation program that shall be supported by the transformation funding pool. It is the intention of the General Assembly that innovative partnerships funded by the pool must be designed to establish or improve integrated health care delivery systems that will provide significant access to the Medicaid and uninsured populations in their communities, as well as improve health care equity. It is also the intention of the General Assembly that partnerships recognize and address the disparities revealed by the COVID-19 pandemic, as well as the need for post-COVID care. During State fiscal years 2021 through 2027, the hospital and health care transformation program shall be supported by an annual transformation funding pool of up to \$150,000,000, pending federal matching funds, to be allocated during the specified fiscal years for the purpose of facilitating hospital and health care transformation. No disbursement of moneys for transformation projects from the transformation funding pool described under this Section shall be considered an award, a grant, or an expenditure of grant funds. Funding agreements made in accordance with the transformation program shall be considered purchases of care under the Illinois Procurement Code, and funds shall be expended by the Department in a manner that maximizes federal funding to expend the entire allocated amount.

The Department shall convene, within 30 days after the effective date of this amendatory Act of the 101st General Assembly, a workgroup that includes subject matter experts on healthcare disparities and stakeholders from distressed communities, which could be a subcommittee of the Medicaid Advisory Committee, to review and provide recommendations on how Department policy, including health care transformation, can improve health disparities and the impact on communities disproportionately affected by COVID-19. The workgroup shall consider and make recommendations on the following issues: a community safety-net designation of certain hospitals, racial equity, and a regional partnership to bring additional specialty services to communities.

(C) As provided in paragraph (9) of Section 3 of the Illinois Health Facilities Planning Act, any hospital participating in the transformation program may be excluded from the requirements of the Illinois Health Facilities Planning Act for those projects related to the hospital's transformation. To be eligible, the hospital must submit to the Health Facilities and Services Review Board approval from the Department that the project is a part of the hospital's transformation.

(D) As provided in subsection (a-20) of Section 32.5 of the Emergency Medical Services (EMS) Systems Act, a hospital that received hospital transformation payments under this Section may convert to a freestanding emergency center. To be eligible for such a conversion,

the hospital must submit to the Department of Public Health approval from the Department that the project is a part of the hospital's transformation.

(E) Criteria for proposals. To be eligible for funding under this Section, a transformation proposal shall meet all of the following criteria:

(i) the proposal shall be designed based on community needs assessment completed by either a University partner or other qualified entity with significant community input;

(ii) the proposal shall be a collaboration among providers across the care and community spectrum, including preventative care, primary care specialty care, hospital services, mental health and substance abuse services, as well as community-based entities that address the social determinants of health;

(iii) the proposal shall be specifically designed to improve healthcare outcomes and reduce healthcare disparities, and improve the coordination, effectiveness, and efficiency of care delivery;

(iv) the proposal shall have specific measurable metrics related to disparities that will be tracked by the Department and made public by the Department;

(v) the proposal shall include a commitment to include Business Enterprise Program certified vendors or other entities controlled and managed by minorities or women; and

(vi) the proposal shall specifically increase access to primary, preventive, or specialty care.

(F) Entities eligible to be funded.

(i) Proposals for funding should come from collaborations operating in one of the most distressed communities in Illinois as determined by the U.S. Centers for Disease Control and Prevention's Social Vulnerability Index for Illinois and areas disproportionately impacted by COVID-19 or from rural areas of Illinois.

(ii) The Department shall prioritize partnerships from distressed communities, which include Business Enterprise Program certified vendors or other entities controlled and managed by minorities or women and also include one or more of the following: safety-net hospitals, critical access hospitals, the campuses of hospitals that have closed since January 1, 2018, or other healthcare providers designed to address specific healthcare disparities, including the impact of COVID-19 on individuals and the community and the need for post-COVID care. All funded proposals must include specific measurable goals and metrics related to improved outcomes and reduced disparities which shall be tracked by the Department.

(iii) The Department should target the funding in the following ways: \$30,000,000 of transformation funds to projects that are a collaboration between a safety-net hospital, particularly community safety-net hospitals, and other providers and designed to address specific healthcare disparities, \$20,000,000 of transformation funds to collaborations between safety-net hospitals and a larger hospital partner that increases specialty care in distressed communities, \$30,000,000 of transformation funds to projects that are a collaboration between hospitals and other providers in distressed areas of the State designed to address specific healthcare disparities, \$15,000,000 to collaborations between critical access hospitals and other providers designed to address specific healthcare disparities, and \$15,000,000 to cross-provider collaborations designed to address specific healthcare disparities, and \$5,000,000 to collaborations that focus on workforce development.

(iv) The Department may allocate up to \$5,000,000 for planning, racial equity analysis, or consulting resources for the Department or entities without the resources to develop a plan to meet the criteria of this Section. Any contract for consulting services issued by the Department under this subparagraph shall comply with the provisions of Section 5-45 of the State Officials and Employees Ethics Act. Based on availability of federal funding, the Department may directly procure consulting services or provide funding to the collaboration. The provision of resources under this subparagraph is not a guarantee that a project will be approved.

(v) The Department shall take steps to ensure that safety-net hospitals operating in under-resourced communities receive priority access to hospital and healthcare transformation funds, including consulting funds, as provided under this Section.

(G) Process for submitting and approving projects for distressed communities. The Department shall issue a template for application. The Department shall post any proposal received on the Department's website for at least 2 weeks for public comment, and any such public comment shall also be considered in the review process. Applicants may request that proprietary financial information be redacted from publicly posted proposals and the Department in its discretion may agree. Proposals for each distressed community must include all of the following:

(i) A detailed description of how the project intends to affect the goals outlined in this subsection, describing new interventions, new technology, new structures, and other changes to the healthcare delivery system planned.

(ii) A detailed description of the racial and ethnic makeup of the entities' board and leadership positions and the salaries of the executive staff of entities in the partnership that is seeking to obtain funding under this Section.

(iii) A complete budget, including an overall timeline and a detailed pathway to sustainability within a 5-year period, specifying other sources of funding, such as in-kind, cost-sharing, or private donations, particularly for capital needs. There is an expectation that parties to the transformation project dedicate resources to the extent they are able and that these expectations are delineated separately for each entity in the proposal.

(iv) A description of any new entities formed or other legal relationships between collaborating entities and how funds will be allocated among participants.

(v) A timeline showing the evolution of sites and specific services of the project over a 5-year period, including services available to the community by site.

(vi) Clear milestones indicating progress toward the proposed goals of the proposal as checkpoints along the way to continue receiving funding. The Department is authorized to refine these milestones in agreements, and is authorized to impose reasonable penalties, including repayment of funds, for substantial lack of progress.

(vii) A clear statement of the level of commitment the project will include for minorities and women in contracting opportunities, including as equity partners where applicable, or as subcontractors and suppliers in all phases of the project.

(viii) If the community study utilized is not the study commissioned and published by the Department, the applicant must define the methodology used, including documentation of clear community participation.

(ix) A description of the process used in collaborating with all levels of government in the community served in the development of the project, including, but not limited to, legislators and officials of other units of local government.

(x) Documentation of a community input process in the community served, including links to proposal materials on public websites.

(xi) Verifiable project milestones and quality metrics that will be impacted by transformation. These project milestones and quality metrics must be identified with improvement targets that must be met.

(xii) Data on the number of existing employees by various job categories and wage levels by the zip code of the employees' residence and benchmarks for the continued maintenance and improvement of these levels. The proposal must also describe any retraining or other workforce development planned for the new project.

(xiii) If a new entity is created by the project, a description of how the board will be reflective of the community served by the proposal.

(xiv) An explanation of how the proposal will address the existing disparities that exacerbated the impact of COVID-19 and the need for post-COVID care in the community, if applicable.

(xv) An explanation of how the proposal is designed to increase access to care, including specialty care based upon the community's needs.

(H) The Department shall evaluate proposals for compliance with the criteria listed under subparagraph (G). Proposals meeting all of the criteria may be eligible for funding with the

areas of focus prioritized as described in item (ii) of subparagraph (F). Based on the funds available, the Department may negotiate funding agreements with approved applicants to maximize federal funding. Nothing in this subsection requires that an approved project be funded to the level requested. Agreements shall specify the amount of funding anticipated annually, the methodology of payments, the limit on the number of years such funding may be provided, and the milestones and quality metrics that must be met by the projects in order to continue to receive funding during each year of the program. Agreements shall specify the terms and conditions under which a health care facility that receives funds under a purchase of care agreement and closes in violation of the terms of the agreement must pay an early closure fee no greater than 50% of the funds it received under the agreement, prior to the Health Facilities and Services Review Board considering an application for closure of the facility. Any project that is funded shall be required to provide quarterly written progress reports, in a form prescribed by the Department, and at a minimum shall include the progress made in achieving any milestones or metrics or Business Enterprise Program commitments in its plan. The Department may reduce or end payments, as set forth in transformation plans, if milestones or metrics or Business Enterprise Program commitments are not achieved. The Department shall seek to make payments from the transformation fund in a manner that is eligible for federal matching funds.

In reviewing the proposals, the Department shall take into account the needs of the community, data from the study commissioned by the Department from the University of Illinois-Chicago if applicable, feedback from public comment on the Department's website, as well as how the proposal meets the criteria listed under subparagraph (G). Alignment with the Department's overall strategic initiatives shall be an important factor. To the extent that fiscal year funding is not adequate to fund all eligible projects that apply, the Department shall prioritize applications that most comprehensively and effectively address the criteria listed under subparagraph (G).

(3) (Blank).

(4) Hospital Transformation Review Committee. There is created the Hospital Transformation Review Committee. The Committee shall consist of 14 members. No later than 30 days after March 12, 2018 (the effective date of Public Act 100-581), the 4 legislative leaders shall each appoint 3 members; the Governor shall appoint the Director of Healthcare and Family Services, or his or her designee, as a member; and the Director of Healthcare and Family Services shall appoint one member. Any vacancy shall be filled by the applicable appointing authority within 15 calendar days. The members of the Committee shall select a Chair and a Vice-Chair from among its members, provided that the Chair and Vice-Chair cannot be appointed by the same appointing authority and must be from different political parties. The Chair shall have the authority to establish a meeting schedule and convene meetings of the Committee, and the Vice-Chair shall have the authority to convene meetings in the absence of the Chair. The Committee may establish its own rules with respect to meeting schedule, notice of meetings, and the disclosure of documents; however, the Committee shall not have the power to subpoena individuals or documents and any rules must be approved by 9 of the 14 members. The Committee shall perform the functions described in this Section and advise and consult with the Director in the administration of this Section. In addition to reviewing and approving the policies, procedures, and rules for the hospital and health care transformation program, the Committee shall consider and make recommendations related to qualifying criteria and payment methodologies related to safety-net hospitals and children's hospitals. Members of the Committee appointed by the legislative leaders shall be subject to the jurisdiction of the Legislative Ethics Commission, not the Executive Ethics Commission, and all requests under the Freedom of Information Act shall be directed to the applicable Freedom of Information officer for the General Assembly. The Department shall provide operational support to the Committee as necessary. The Committee is dissolved on April 1, 2019.

(e) Beginning 36 months after initial implementation, the Department shall update the reimbursement components in subsections (a) and (b), including standardized amounts and weighting factors, and at least once every 4 years and no more frequently than annually thereafter. The Department shall publish these updates on its website no later than 30 calendar days prior to their effective date.

(f) Continuation of supplemental payments. Any supplemental payments authorized under Illinois Administrative Code 148 effective January 1, 2014 and that continue during the period of July 1, 2014

through December 31, 2014 shall remain in effect as long as the assessment imposed by Section 5A-2 that is in effect on December 31, 2017 remains in effect.

(g) Notwithstanding subsections (a) through (f) of this Section and notwithstanding the changes authorized under Section 5-5b.1, any updates to the system shall not result in any diminishment of the overall effective rates of reimbursement as of the implementation date of the new system (July 1, 2014). These updates shall not preclude variations in any individual component of the system or hospital rate variations. Nothing in this Section shall prohibit the Department from increasing the rates of reimbursement or developing payments to ensure access to hospital services. Nothing in this Section shall be construed to guarantee a minimum amount of spending in the aggregate or per hospital as spending may be impacted by factors, including, but not limited to, the number of individuals in the medical assistance program and the severity of illness of the individuals.

(h) The Department shall have the authority to modify by rulemaking any changes to the rates or methodologies in this Section as required by the federal government to obtain federal financial participation for expenditures made under this Section.

(i) Except for subsections (g) and (h) of this Section, the Department shall, pursuant to subsection (c) of Section 5-40 of the Illinois Administrative Procedure Act, provide for presentation at the June 2014 hearing of the Joint Committee on Administrative Rules (JCAR) additional written notice to JCAR of the following rules in order to commence the second notice period for the following rules: rules published in the Illinois Register, rule dated February 21, 2014 at 38 Ill. Reg. 4559 (Medical Payment), 4628 (Specialized Health Care Delivery Systems), 4640 (Hospital Services), 4932 (Diagnostic Related Grouping (DRG) Prospective Payment System (PPS)), and 4977 (Hospital Reimbursement Changes), and published in the Illinois Register dated March 21, 2014 at 38 Ill. Reg. 6499 (Specialized Health Care Delivery Systems) and 6505 (Hospital Services).

(j) Out-of-state hospitals. Beginning July 1, 2018, for purposes of determining for State fiscal years 2019 and 2020 and subsequent fiscal years the hospitals eligible for the payments authorized under subsections (a) and (b) of this Section, the Department shall include out-of-state hospitals that are designated a Level I pediatric trauma center or a Level I trauma center by the Department of Public Health as of December 1, 2017.

(k) The Department shall notify each hospital and managed care organization, in writing, of the impact of the updates under this Section at least 30 calendar days prior to their effective date.

(a) As used in this Section:

"Home visiting" means a voluntary, evidence-based strategy used to support pregnant people, infants, and young children and their caregivers to promote infant, child, and maternal health, to foster educational development and school readiness, and to help prevent child abuse and neglect. Home visitors are trained professionals whose visits and activities focus on promoting strong parent-child attachment to foster healthy child development.

"Perinatal doula" means a trained provider who provides regular, voluntary physical, emotional, and educational support, but not medical or midwife care, to pregnant and birthing persons before, during, and after childbirth, otherwise known as the perinatal period.

"Perinatal doula training" means any doula training that focuses on providing support throughout the prenatal, labor and delivery, or postpartum period, and reflects the type of doula care that the doula seeks to provide.

(b) Notwithstanding any other provision of this Article, perinatal doula services and evidence-based home visiting services shall be covered under the medical assistance program, subject to appropriation, for persons who are otherwise eligible for medical assistance under this Article. Perinatal doula services include regular visits beginning in the prenatal period and continuing into the postnatal period, inclusive of continuous support during labor and delivery, that support healthy pregnancies and positive birth outcomes. Perinatal doula services may be embedded in an existing program, such as evidence-based home visiting. Perinatal doula services provided during the prenatal period may be provided weekly, services provided

during the labor and delivery period may be provided for the entire duration of labor and the time immediately following birth, and services provided during the postpartum period may be provided up to 12 months postpartum.

(b-5) Notwithstanding any other provision of this Article, beginning January 1, 2023, licensed certified professional midwife services shall be covered under the medical assistance program, subject to appropriation, for persons who are otherwise eligible for medical assistance under this Article. The Department shall consult with midwives on reimbursement rates for midwifery services.

(c) The Department of Healthcare and Family Services shall adopt rules to administer this Section. In this rulemaking, the Department shall consider the expertise of and consult with doula program experts, doula training providers, practicing doulas, and home visiting experts, along with State agencies implementing perinatal doula services and relevant bodies under the Illinois Early Learning Council. This body of experts shall inform the Department on the credentials necessary for perinatal doula and home visiting services to be eligible for Medicaid reimbursement and the rate of reimbursement for home visiting and perinatal doula services in the prenatal, labor and delivery, and postpartum periods. Every 2 years, the Department shall assess the rates of reimbursement for perinatal doula and home visiting services and adjust rates accordingly.

(d) The Department shall seek such State plan amendments or waivers as may be necessary to implement this Section and shall secure federal financial participation for expenditures made by the Department in accordance with this Section.

(305 ILCS 5/5-4) (from Ch. 23, par. 5-4)

Sec. 5-4. Amount and nature of medical assistance.

(a) The amount and nature of medical assistance shall be determined in accordance with the standards, rules, and regulations of the Department of Healthcare and Family Services, with due regard to the requirements and conditions in each case, including contributions available from legally responsible relatives. However, the amount and nature of such medical assistance shall not be affected by the payment of any grant under the Senior Citizens and Persons with Disabilities Property Tax Relief Act or any distributions or items of income described under subparagraph (X) of paragraph (2) of subsection (a) of Section 203 of the Illinois Income Tax Act. The amount and nature of medical assistance shall not be affected by the receipt of donations or benefits from fundraisers in cases of serious illness, as long as neither the person nor members of the person's family have actual control over the donations or benefits or the disbursement of the donations or benefits.

In determining the income and resources available to the institutionalized spouse and to the community spouse, the Department of Healthcare and Family Services shall follow the procedures established by federal law. If an institutionalized spouse or community spouse refuses to comply with the requirements of Title XIX of the federal Social Security Act and the regulations duly promulgated thereunder by failing to provide the total value of assets, including income and resources, to the extent either the institutionalized spouse or community spouse has an ownership interest in them pursuant to 42 U.S.C. 1396r-5, such refusal may result in the institutionalized spouse being denied eligibility and continuing to remain ineligible for the medical assistance program based on failure to cooperate.

Subject to federal approval, beginning January 1, 2023, the community spouse resource allowance shall be established and maintained as follows: a base amount of \$109,560 plus an additional amount of \$2,784 added to the base amount each year for a period of 10 years commencing with calendar year 2024 through calendar year 2034. In addition to the base amount and the additional amount shall be any increase each year from the prior year to the maximum resource allowance permitted under Section 1924(f)(2)(A)(ii)(II) of the Social Security Act. Subject to federal approval, beginning January 1, 2034 the community spouse resource allowance shall be established and maintained at the maximum amount permitted under Section 1924(f)(2)(A)(ii)(II) of the Social Security Act, as now or hereafter amended, or an amount set after a fair hearing. Subject to federal approval, beginning January 1, 2023 the ~~the community spouse resource allowance shall be established and maintained at the higher of \$109,560 or the minimum level permitted pursuant to Section 1924(f)(2) of the Social Security Act, as now or hereafter amended, or an amount set after a fair hearing, whichever is greater.~~ The monthly maintenance allowance for the

community spouse shall be established and maintained at the ~~maximum amount~~ higher of \$2,739 per month or the minimum level permitted pursuant to Section 1924(d)(3)(C) of the Social Security Act, as now or hereafter amended, or an amount set after a fair hearing, whichever is greater. Subject to the approval of the Secretary of the United States Department of Health and Human Services, the provisions of this Section shall be extended to persons who but for the provision of home or community-based services under Section 4.02 of the Illinois Act on the Aging, would require the level of care provided in an institution, as is provided for in federal law.

(b) Spousal support for institutionalized spouses receiving medical assistance.

(i) The Department may seek support for an institutionalized spouse, who has assigned his or her right of support from his or her spouse to the State, from the resources and income available to the community spouse.

(ii) The Department may bring an action in the circuit court to establish support orders or itself establish administrative support orders by any means and procedures authorized in this Code, as applicable, except that the standard and regulations for determining ability to support in Section 10-3 shall not limit the amount of support that may be ordered.

(iii) Proceedings may be initiated to obtain support, or for the recovery of aid granted during the period such support was not provided, or both, for the obtainment of support and the recovery of the aid provided. Proceedings for the recovery of aid may be taken separately or they may be consolidated with actions to obtain support. Such proceedings may be brought in the name of the person or persons requiring support or may be brought in the name of the Department, as the case requires.

(iv) The orders for the payment of moneys for the support of the person shall be just and equitable and may direct payment thereof for such period or periods of time as the circumstances require, including support for a period before the date the order for support is entered. In no event shall the orders reduce the community spouse resource allowance below the level established in subsection (a) of this Section or an amount set after a fair hearing, whichever is greater, or reduce the monthly maintenance allowance for the community spouse below the level permitted pursuant to subsection (a) of this Section.

Notwithstanding any other provision of this Section, a comprehensive tobacco use cessation program that includes purchasing prescription drugs or prescription medical devices approved by the Food and Drug Administration shall be covered under the medical assistance program under this Article for persons who are otherwise eligible for assistance under this Article.

Notwithstanding any other provision of this Code, reproductive health care that is otherwise legal in Illinois shall be covered under the medical assistance program for persons who are otherwise eligible for medical assistance under this Article.

Notwithstanding any other provision of this Section, all tobacco cessation medications approved by the United States Food and Drug Administration and all individual and group tobacco cessation counseling services and telephone-based counseling services and tobacco cessation medications provided through the Illinois Tobacco Quitline shall be covered under the medical assistance program for persons who are otherwise eligible for assistance under this Article. The Department shall comply with all federal requirements necessary to obtain federal financial participation, as specified in 42 CFR 433.15(b)(7), for telephone-based counseling services provided through the Illinois Tobacco Quitline, including, but not limited to: (i) entering into a memorandum of understanding or interagency agreement with the Department of Public Health, as administrator of the Illinois Tobacco Quitline; and (ii) developing a cost allocation plan for Medicaid-allowable Illinois Tobacco Quitline services in accordance with 45 CFR 95.507. The Department shall submit the memorandum of understanding or interagency agreement, the cost allocation plan, and all other necessary documentation to the Centers for Medicare and Medicaid Services for review and approval. Coverage under this paragraph shall be contingent upon federal approval.

Notwithstanding any other provision of this Code, the Illinois Department may not require, as a condition of payment for any laboratory test authorized under this Article, that a physician's handwritten signature appear on the laboratory test order form. The Illinois Department may, however, impose other appropriate requirements regarding laboratory test order documentation.

Upon receipt of federal approval of an amendment to the Illinois Title XIX State Plan for this purpose, the Department shall authorize the Chicago Public Schools (CPS) to procure a vendor or vendors to manufacture eyeglasses for individuals enrolled in a school within the CPS system. CPS shall ensure that its vendor or vendors are enrolled as providers in the medical assistance program and in any capitated Medicaid managed care entity (MCE) serving individuals enrolled in a school within the CPS system. Under any contract procured under this provision, the vendor or vendors must serve only individuals enrolled in a school within the CPS system. Claims for services provided by CPS's vendor or vendors to recipients of benefits in the medical assistance program under this Code, the Children's Health Insurance Program, or the Covering ALL KIDS Health Insurance Program shall be submitted to the Department or the MCE in which the individual is enrolled for payment and shall be reimbursed at the Department's or the MCE's established rates or rate methodologies for eyeglasses.

On and after July 1, 2012, the Department of Healthcare and Family Services may provide the following services to persons eligible for assistance under this Article who are participating in education, training or employment programs operated by the Department of Human Services as successor to the Department of Public Aid:

- (1) dental services provided by or under the supervision of a dentist; and
- (2) eyeglasses prescribed by a physician skilled in the diseases of the eye, or by an optometrist, whichever the person may select.

On and after July 1, 2018, the Department of Healthcare and Family Services shall provide dental services to any adult who is otherwise eligible for assistance under the medical assistance program. As used in this paragraph, "dental services" means diagnostic, preventative, restorative, or corrective procedures, including procedures and services for the prevention and treatment of periodontal disease and dental caries disease, provided by an individual who is licensed to practice dentistry or dental surgery or who is under the supervision of a dentist in the practice of his or her profession.

On and after July 1, 2018, targeted dental services, as set forth in Exhibit D of the Consent Decree entered by the United States District Court for the Northern District of Illinois, Eastern Division, in the matter of *Memisovski v. Maram*, Case No. 92 C 1982, that are provided to adults under the medical assistance program shall be established at no less than the rates set forth in the "New Rate" column in Exhibit D of the Consent Decree for targeted dental services that are provided to persons under the age of 18 under the medical assistance program.

Notwithstanding any other provision of this Code and subject to federal approval, the Department may adopt rules to allow a dentist who is volunteering his or her service at no cost to render dental services through an enrolled not-for-profit health clinic without the dentist personally enrolling as a participating provider in the medical assistance program. A not-for-profit health clinic shall include a public health clinic or Federally Qualified Health Center or other enrolled provider, as determined by the Department, through which dental services covered under this Section are performed. The Department shall establish a process for payment of claims for reimbursement for covered dental services rendered under this provision.

On and after January 1, 2022, the Department of Healthcare and Family Services shall administer and regulate a school-based dental program that allows for the out-of-office delivery of preventative dental services in a school setting to children under 19 years of age. The Department shall establish, by rule, guidelines for participation by providers and set requirements for follow-up referral care based on the requirements established in the Dental Office Reference Manual published by the Department that establishes the requirements for dentists participating in the All Kids Dental School Program. Every effort shall be made by the Department when developing the program requirements to consider the different geographic differences of both urban and rural areas of the State for initial treatment and necessary follow-up care. No provider shall be charged a fee by any unit of local government to participate in the school-based dental program administered by the Department. Nothing in this paragraph shall be construed to limit or preempt a home rule unit's or school district's authority to establish, change, or administer a school-based dental program in addition to, or independent of, the school-based dental program administered by the Department.

The Illinois Department, by rule, may distinguish and classify the medical services to be provided only in accordance with the classes of persons designated in Section 5-2.

The Department of Healthcare and Family Services must provide coverage and reimbursement for amino acid-based elemental formulas, regardless of delivery method, for the diagnosis and treatment of (i) eosinophilic disorders and (ii) short bowel syndrome when the prescribing physician has issued a written order stating that the amino acid-based elemental formula is medically necessary.

The Illinois Department shall authorize the provision of, and shall authorize payment for, screening by low-dose mammography for the presence of occult breast cancer for individuals 35 years of age or older who are eligible for medical assistance under this Article, as follows:

(A) A baseline mammogram for individuals 35 to 39 years of age.

(B) An annual mammogram for individuals 40 years of age or older.

(C) A mammogram at the age and intervals considered medically necessary by the individual's health care provider for individuals under 40 years of age and having a family history of breast cancer, prior personal history of breast cancer, positive genetic testing, or other risk factors.

(D) A comprehensive ultrasound screening and MRI of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or when medically necessary as determined by a physician licensed to practice medicine in all of its branches.

(E) A screening MRI when medically necessary, as determined by a physician licensed to practice medicine in all of its branches.

(F) A diagnostic mammogram when medically necessary, as determined by a physician licensed to practice medicine in all its branches, advanced practice registered nurse, or physician assistant.

The Department shall not impose a deductible, coinsurance, copayment, or any other cost-sharing requirement on the coverage provided under this paragraph; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health

plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

All screenings shall include a physical breast exam, instruction on self-examination and information regarding the frequency of self-examination and its value as a preventative tool.

For purposes of this Section:

"Diagnostic mammogram" means a mammogram obtained using diagnostic mammography.

"Diagnostic mammography" means a method of screening that is designed to evaluate an abnormality in a breast, including an abnormality seen or suspected on a screening mammogram or a subjective or objective abnormality otherwise detected in the breast.

"Low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with an average radiation exposure delivery of less than one rad per breast for 2 views of an average size breast. The term also includes digital mammography and includes breast tomosynthesis.

"Breast tomosynthesis" means a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this paragraph, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this paragraph.

On and after January 1, 2016, the Department shall ensure that all networks of care for adult clients of the Department include access to at least one breast imaging Center of Imaging Excellence as certified by the American College of Radiology.

On and after January 1, 2012, providers participating in a quality improvement program approved by the Department shall be reimbursed for screening and diagnostic mammography at the same rate as the Medicare program's rates, including the increased reimbursement for digital mammography.

The Department shall convene an expert panel including representatives of hospitals, free-standing mammography facilities, and doctors, including radiologists, to establish quality standards for mammography.

On and after January 1, 2017, providers participating in a breast cancer treatment quality improvement program approved by the Department shall be reimbursed for breast cancer treatment at a rate that is no lower than 95% of the Medicare program's rates for the data elements included in the breast cancer treatment quality program.

The Department shall convene an expert panel, including representatives of hospitals, free-standing breast cancer treatment centers, breast cancer quality organizations, and doctors, including breast surgeons, reconstructive breast surgeons, oncologists, and primary care providers to establish quality standards for breast cancer treatment.

Subject to federal approval, the Department shall establish a rate methodology for mammography at federally qualified health centers and other encounter-rate clinics. These clinics or centers may also collaborate with other hospital-based mammography facilities. By January 1, 2016, the Department shall report to the General Assembly on the status of the provision set forth in this paragraph.

The Department shall establish a methodology to remind individuals who are age-appropriate for screening mammography, but who have not received a mammogram within the previous 18 months, of the importance and benefit of screening mammography. The Department shall work with experts in breast cancer outreach and patient navigation to optimize these reminders and shall establish a methodology for evaluating their effectiveness and modifying the methodology based on the evaluation.

The Department shall establish a performance goal for primary care providers with respect to their female patients over age 40 receiving an annual mammogram. This performance goal shall be used to provide additional reimbursement in the form of a quality performance bonus to primary care providers who meet that goal.

The Department shall devise a means of case-managing or patient navigation for beneficiaries diagnosed with breast cancer. This program shall initially operate as a pilot program in areas of the State

with the highest incidence of mortality related to breast cancer. At least one pilot program site shall be in the metropolitan Chicago area and at least one site shall be outside the metropolitan Chicago area. On or after July 1, 2016, the pilot program shall be expanded to include one site in western Illinois, one site in southern Illinois, one site in central Illinois, and 4 sites within metropolitan Chicago. An evaluation of the pilot program shall be carried out measuring health outcomes and cost of care for those served by the pilot program compared to similarly situated patients who are not served by the pilot program.

The Department shall require all networks of care to develop a means either internally or by contract with experts in navigation and community outreach to navigate cancer patients to comprehensive care in a timely fashion. The Department shall require all networks of care to include access for patients diagnosed with cancer to at least one academic commission on cancer-accredited cancer program as an in-network covered benefit.

On or after July 1, 2022, individuals who are otherwise eligible for medical assistance under this Article shall receive coverage for perinatal depression screenings for the 12-month period beginning on the last day of their pregnancy. Medical assistance coverage under this paragraph shall be conditioned on the use of a screening instrument approved by the Department.

Any medical or health care provider shall immediately recommend, to any pregnant individual who is being provided prenatal services and is suspected of having a substance use disorder as defined in the Substance Use Disorder Act, referral to a local substance use disorder treatment program licensed by the Department of Human Services or to a licensed hospital which provides substance abuse treatment services. The Department of Healthcare and Family Services shall assure coverage for the cost of treatment of the drug abuse or addiction for pregnant recipients in accordance with the Illinois Medicaid Program in conjunction with the Department of Human Services.

All medical providers providing medical assistance to pregnant individuals under this Code shall receive information from the Department on the availability of services under any program providing case management services for addicted individuals, including information on appropriate referrals for other social services that may be needed by addicted individuals in addition to treatment for addiction.

The Illinois Department, in cooperation with the Departments of Human Services (as successor to the Department of Alcoholism and Substance Abuse) and Public Health, through a public awareness campaign, may provide information concerning treatment for alcoholism and drug abuse and addiction, prenatal health care, and other pertinent programs directed at reducing the number of drug-affected infants born to recipients of medical assistance.

Neither the Department of Healthcare and Family Services nor the Department of Human Services shall sanction the recipient solely on the basis of the recipient's substance abuse.

The Illinois Department shall establish such regulations governing the dispensing of health services under this Article as it shall deem appropriate. The Department should seek the advice of formal professional advisory committees appointed by the Director of the Illinois Department for the purpose of providing regular advice on policy and administrative matters, information dissemination and educational activities for medical and health care providers, and consistency in procedures to the Illinois Department.

The Illinois Department may develop and contract with Partnerships of medical providers to arrange medical services for persons eligible under Section 5-2 of this Code. Implementation of this Section may be by demonstration projects in certain geographic areas. The Partnership shall be represented by a sponsor organization. The Department, by rule, shall develop qualifications for sponsors of Partnerships. Nothing in this Section shall be construed to require that the sponsor organization be a medical organization.

The sponsor must negotiate formal written contracts with medical providers for physician services, inpatient and outpatient hospital care, home health services, treatment for alcoholism and substance abuse, and other services determined necessary by the Illinois Department by rule for delivery by Partnerships. Physician services must include prenatal and obstetrical care. The Illinois Department shall reimburse medical services delivered by Partnership providers to clients in target areas according to provisions of this Article and the Illinois Health Finance Reform Act, except that:

(1) Physicians participating in a Partnership and providing certain services, which shall be determined by the Illinois Department, to persons in areas covered by the Partnership may receive an additional surcharge for such services.

(2) The Department may elect to consider and negotiate financial incentives to encourage the development of Partnerships and the efficient delivery of medical care.

(3) Persons receiving medical services through Partnerships may receive medical and case management services above the level usually offered through the medical assistance program.

Medical providers shall be required to meet certain qualifications to participate in Partnerships to ensure the delivery of high quality medical services. These qualifications shall be determined by rule of the Illinois Department and may be higher than qualifications for participation in the medical assistance program. Partnership sponsors may prescribe reasonable additional qualifications for participation by medical providers, only with the prior written approval of the Illinois Department.

Nothing in this Section shall limit the free choice of practitioners, hospitals, and other providers of medical services by clients. In order to ensure patient freedom of choice, the Illinois Department shall immediately promulgate all rules and take all other necessary actions so that provided services may be accessed from therapeutically certified optometrists to the full extent of the Illinois Optometric Practice Act of 1987 without discriminating between service providers.

The Department shall apply for a waiver from the United States Health Care Financing Administration to allow for the implementation of Partnerships under this Section.

The Illinois Department shall require health care providers to maintain records that document the medical care and services provided to recipients of Medical Assistance under this Article. Such records must be retained for a period of not less than 6 years from the date of service or as provided by applicable State law, whichever period is longer, except that if an audit is initiated within the required retention period then the records must be retained until the audit is completed and every exception is resolved. The Illinois Department shall require health care providers to make available, when authorized by the patient, in writing, the medical records in a timely fashion to other health care providers who are treating or serving persons eligible for Medical Assistance under this Article. All dispensers of medical services shall be required to maintain and retain business and professional records sufficient to fully and accurately document the nature, scope, details and receipt of the health care provided to persons eligible for medical assistance under this Code, in accordance with regulations promulgated by the Illinois Department. The rules and regulations shall require that proof of the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses by eligible persons under this Section accompany each claim for reimbursement submitted by the dispenser of such medical services. No such claims for reimbursement shall be approved for payment by the Illinois Department without such proof of receipt, unless the Illinois Department shall have put into effect and shall be operating a system of post-payment audit and review which shall, on a sampling basis, be deemed adequate by the Illinois Department to assure that such drugs, dentures, prosthetic devices and eyeglasses for which payment is being made are actually being received by eligible recipients. Within 90 days after September 16, 1984 (the effective date of Public Act 83-1439), the Illinois Department shall establish a current list of acquisition costs for all prosthetic devices and any other items recognized as medical equipment and supplies reimbursable under this Article and shall update such list on a quarterly basis, except that the acquisition costs of all prescription drugs shall be updated no less frequently than every 30 days as required by Section 5-5.12.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after July 22, 2013 (the effective date of Public Act 98-104), establish procedures to permit skilled care facilities licensed under the Nursing Home Care Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall, by July 1, 2016, test the viability of the new system and implement any necessary operational or structural changes to its information technology platforms in order to allow for the direct acceptance and payment of nursing home claims.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after August 15, 2014 (the effective date of Public Act 98-963), establish procedures to permit ID/DD facilities licensed under the ID/DD Community Care Act and MC/DD facilities licensed under the MC/DD Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall have an additional 365 days to test the viability of the new system and to ensure that any necessary operational or structural changes to its information technology platforms are implemented.

The Illinois Department shall require all dispensers of medical services, other than an individual practitioner or group of practitioners, desiring to participate in the Medical Assistance program established under this Article to disclose all financial, beneficial, ownership, equity, surety or other interests in any and all firms, corporations, partnerships, associations, business enterprises, joint ventures, agencies, institutions or other legal entities providing any form of health care services in this State under this Article.

The Illinois Department may require that all dispensers of medical services desiring to participate in the medical assistance program established under this Article disclose, under such terms and conditions as the Illinois Department may by rule establish, all inquiries from clients and attorneys regarding medical bills

paid by the Illinois Department, which inquiries could indicate potential existence of claims or liens for the Illinois Department.

Enrollment of a vendor shall be subject to a provisional period and shall be conditional for one year. During the period of conditional enrollment, the Department may terminate the vendor's eligibility to participate in, or may disenroll the vendor from, the medical assistance program without cause. Unless otherwise specified, such termination of eligibility or disenrollment is not subject to the Department's hearing process. However, a disenrolled vendor may reapply without penalty.

The Department has the discretion to limit the conditional enrollment period for vendors based upon category of risk of the vendor.

Prior to enrollment and during the conditional enrollment period in the medical assistance program, all vendors shall be subject to enhanced oversight, screening, and review based on the risk of fraud, waste, and abuse that is posed by the category of risk of the vendor. The Illinois Department shall establish the procedures for oversight, screening, and review, which may include, but need not be limited to: criminal and financial background checks; fingerprinting; license, certification, and authorization verifications; unscheduled or unannounced site visits; database checks; prepayment audit reviews; audits; payment caps; payment suspensions; and other screening as required by federal or State law.

The Department shall define or specify the following: (i) by provider notice, the "category of risk of the vendor" for each type of vendor, which shall take into account the level of screening applicable to a particular category of vendor under federal law and regulations; (ii) by rule or provider notice, the maximum length of the conditional enrollment period for each category of risk of the vendor; and (iii) by rule, the hearing rights, if any, afforded to a vendor in each category of risk of the vendor that is terminated or disenrolled during the conditional enrollment period.

To be eligible for payment consideration, a vendor's payment claim or bill, either as an initial claim or as a resubmitted claim following prior rejection, must be received by the Illinois Department, or its fiscal intermediary, no later than 180 days after the latest date on the claim on which medical goods or services were provided, with the following exceptions:

(1) In the case of a provider whose enrollment is in process by the Illinois Department, the 180-day period shall not begin until the date on the written notice from the Illinois Department that the provider enrollment is complete.

(2) In the case of errors attributable to the Illinois Department or any of its claims processing intermediaries which result in an inability to receive, process, or adjudicate a claim, the 180-day period shall not begin until the provider has been notified of the error.

(3) In the case of a provider for whom the Illinois Department initiates the monthly billing process.

(4) In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments.

For claims for services rendered during a period for which a recipient received retroactive eligibility, claims must be filed within 180 days after the Department determines the applicant is eligible. For claims for which the Illinois Department is not the primary payer, claims must be submitted to the Illinois Department within 180 days after the final adjudication by the primary payer.

In the case of long term care facilities, within 120 calendar days of receipt by the facility of required prescreening information, new admissions with associated admission documents shall be submitted through the Medical Electronic Data Interchange (MEDI) or the Recipient Eligibility Verification (REV) System or shall be submitted directly to the Department of Human Services using required admission forms. Effective September 1, 2014, admission documents, including all prescreening information, must be submitted through MEDI or REV. Confirmation numbers assigned to an accepted transaction shall be retained by a facility to verify timely submittal. Once an admission transaction has been completed, all resubmitted claims following prior rejection are subject to receipt no later than 180 days after the admission transaction has been completed.

Claims that are not submitted and received in compliance with the foregoing requirements shall not be eligible for payment under the medical assistance program, and the State shall have no liability for payment of those claims.

To the extent consistent with applicable information and privacy, security, and disclosure laws, State and federal agencies and departments shall provide the Illinois Department access to confidential and other information and data necessary to perform eligibility and payment verifications and other Illinois Department functions. This includes, but is not limited to: information pertaining to licensure; certification;

earnings; immigration status; citizenship; wage reporting; unearned and earned income; pension income; employment; supplemental security income; social security numbers; National Provider Identifier (NPI) numbers; the National Practitioner Data Bank (NPDB); program and agency exclusions; taxpayer identification numbers; tax delinquency; corporate information; and death records.

The Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, under which such agencies and departments shall share data necessary for medical assistance program integrity functions and oversight. The Illinois Department shall develop, in cooperation with other State departments and agencies, and in compliance with applicable federal laws and regulations, appropriate and effective methods to share such data. At a minimum, and to the extent necessary to provide data sharing, the Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, including, but not limited to: the Secretary of State; the Department of Revenue; the Department of Public Health; the Department of Human Services; and the Department of Financial and Professional Regulation.

Beginning in fiscal year 2013, the Illinois Department shall set forth a request for information to identify the benefits of a pre-payment, post-adjudication, and post-edit claims system with the goals of streamlining claims processing and provider reimbursement, reducing the number of pending or rejected claims, and helping to ensure a more transparent adjudication process through the utilization of: (i) provider data verification and provider screening technology; and (ii) clinical code editing; and (iii) pre-pay, pre- or post-adjudicated predictive modeling with an integrated case management system with link analysis. Such a request for information shall not be considered as a request for proposal or as an obligation on the part of the Illinois Department to take any action or acquire any products or services.

The Illinois Department shall establish policies, procedures, standards and criteria by rule for the acquisition, repair and replacement of orthotic and prosthetic devices and durable medical equipment. Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. Subject to prior approval, such rules shall enable a recipient to temporarily acquire and use alternative or substitute devices or equipment pending repairs or replacements of any device or equipment previously authorized for such recipient by the Department. Notwithstanding any provision of Section 5-5f to the contrary, the Department may, by rule, exempt certain replacement wheelchair parts from prior approval and, for wheelchairs, wheelchair parts, wheelchair accessories, and related seating and positioning items, determine the wholesale price by methods other than actual acquisition costs.

The Department shall require, by rule, all providers of durable medical equipment to be accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services and recognized by the Department in order to bill the Department for providing durable medical equipment to recipients. No later than 15 months after the effective date of the rule adopted pursuant to this paragraph, all providers must meet the accreditation requirement.

In order to promote environmental responsibility, meet the needs of recipients and enrollees, and achieve significant cost savings, the Department, or a managed care organization under contract with the Department, may provide recipients or managed care enrollees who have a prescription or Certificate of Medical Necessity access to refurbished durable medical equipment under this Section (excluding prosthetic and orthotic devices as defined in the Orthotics, Prosthetics, and Pedorthics Practice Act and complex rehabilitation technology products and associated services) through the State's assistive technology program's reutilization program, using staff with the Assistive Technology Professional (ATP) Certification if the refurbished durable medical equipment: (i) is available; (ii) is less expensive, including shipping costs, than new durable medical equipment of the same type; (iii) is able to withstand at least 3 years of use; (iv) is cleaned, disinfected, sterilized, and safe in accordance with federal Food and Drug Administration regulations and guidance governing the reprocessing of medical devices in health care settings; and (v) equally meets the needs of the recipient or enrollee. The reutilization program shall confirm that the recipient or enrollee is not already in receipt of the same or similar equipment from another service provider, and that the refurbished durable medical equipment equally meets the needs of the recipient or enrollee. Nothing in this paragraph shall be construed to limit recipient or enrollee choice to obtain new durable medical equipment or place any additional prior authorization conditions on enrollees of managed care organizations.

The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department on Aging, to effect the following: (i) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (ii) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped; and (iii) notwithstanding any other provision of law, subject to federal approval, on and after July 1, 2012, an increase in the determination of need (DON) scores from 29 to 37 for applicants for institutional and home and community-based long term care; if and only if federal approval is not granted, the Department may, in conjunction with other affected agencies, implement utilization controls or changes in benefit packages to effectuate a similar savings amount for this population; and (iv) no later than July 1, 2013, minimum level of care eligibility criteria for institutional and home and community-based long term care; and (v) no later than October 1, 2013, establish procedures to permit long term care providers access to eligibility scores for individuals with an admission date who are seeking or receiving services from the long term care provider. In order to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

The Illinois Department shall develop and operate, in cooperation with other State Departments and agencies and in compliance with applicable federal laws and regulations, appropriate and effective systems of health care evaluation and programs for monitoring of utilization of health care services and facilities, as it affects persons eligible for medical assistance under this Code.

The Illinois Department shall report annually to the General Assembly, no later than the second Friday in April of 1979 and each year thereafter, in regard to:

- (a) actual statistics and trends in utilization of medical services by public aid recipients;
- (b) actual statistics and trends in the provision of the various medical services by medical vendors;
- (c) current rate structures and proposed changes in those rate structures for the various medical vendors; and
- (d) efforts at utilization review and control by the Illinois Department.

The period covered by each report shall be the 3 years ending on the June 30 prior to the report. The report shall include suggested legislation for consideration by the General Assembly. The requirement for reporting to the General Assembly shall be satisfied by filing copies of the report as required by Section 3.1 of the General Assembly Organization Act, and filing such additional copies with the State Government Report Distribution Center for the General Assembly as is required under paragraph (t) of Section 7 of the State Library Act.

Rulemaking authority to implement Public Act 95-1045, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

Because kidney transplantation can be an appropriate, cost-effective alternative to renal dialysis when medically necessary and notwithstanding the provisions of Section 1-11 of this Code, beginning October 1, 2014, the Department shall cover kidney transplantation for noncitizens with end-stage renal disease who are not eligible for comprehensive medical benefits, who meet the residency requirements of Section 5-3 of this Code, and who would otherwise meet the financial requirements of the appropriate class of eligible persons under Section 5-2 of this Code. To qualify for coverage of kidney transplantation, such person must be receiving emergency renal dialysis services covered by the Department. Providers under this Section shall be prior approved and certified by the Department to perform kidney transplantation and the services under this Section shall be limited to services associated with kidney transplantation.

Notwithstanding any other provision of this Code to the contrary, on or after July 1, 2015, all FDA approved forms of medication assisted treatment prescribed for the treatment of alcohol dependence or treatment of opioid dependence shall be covered under both fee for service and managed care medical assistance programs for persons who are otherwise eligible for medical assistance under this Article and shall not be subject to any (1) utilization control, other than those established under the American Society of

Addiction Medicine patient placement criteria, (2) prior authorization mandate, or (3) lifetime restriction limit mandate.

On or after July 1, 2015, opioid antagonists prescribed for the treatment of an opioid overdose, including the medication product, administration devices, and any pharmacy fees or hospital fees related to the dispensing, distribution, and administration of the opioid antagonist, shall be covered under the medical assistance program for persons who are otherwise eligible for medical assistance under this Article. As used in this Section, "opioid antagonist" means a drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration.

Upon federal approval, the Department shall provide coverage and reimbursement for all drugs that are approved for marketing by the federal Food and Drug Administration and that are recommended by the federal Public Health Service or the United States Centers for Disease Control and Prevention for pre-exposure prophylaxis and related pre-exposure prophylaxis services, including, but not limited to, HIV and sexually transmitted infection screening, treatment for sexually transmitted infections, medical monitoring, assorted labs, and counseling to reduce the likelihood of HIV infection among individuals who are not infected with HIV but who are at high risk of HIV infection.

A federally qualified health center, as defined in Section 1905(l)(2)(B) of the federal Social Security Act, shall be reimbursed by the Department in accordance with the federally qualified health center's encounter rate for services provided to medical assistance recipients that are performed by a dental hygienist, as defined under the Illinois Dental Practice Act, working under the general supervision of a dentist and employed by a federally qualified health center.

Within 90 days after October 8, 2021 (the effective date of Public Act 102-665) ~~this amendatory Act of the 102nd General Assembly~~, the Department shall seek federal approval of a State Plan amendment to expand coverage for family planning services that includes presumptive eligibility to individuals whose income is at or below 208% of the federal poverty level. (3) Accessible information. The Department shall make information about estate recovery and hardship waivers easily accessible. The Department shall maintain information about how to request a hardship waiver on its website in English, Spanish, and the next 4 most commonly used languages, including a short guide and simple form to facilitate requesting hardship exemptions in each language. On an annual basis, the Department shall publicly report on the number of estate recovery cases that are pursued and the number of undue hardship exemptions granted, including demographic data of the deceased beneficiaries where available.

(305 ILCS 5/11-5.1)

Sec. 11-5.1. Eligibility verification. Notwithstanding any other provision of this Code, with respect to applications for medical assistance provided under Article V of this Code, eligibility shall be determined in a manner that ensures program integrity and complies with federal laws and regulations while minimizing unnecessary barriers to enrollment. To this end, as soon as practicable, and unless the Department receives written denial from the federal government, this Section shall be implemented:

(a) The Department of Healthcare and Family Services or its designees shall:

(1) By no later than July 1, 2011, require verification of, at a minimum, one month's income from all sources required for determining the eligibility of applicants for medical assistance under this Code. Such verification shall take the form of pay stubs, business or income and expense records for self-employed persons, letters from employers, and any other valid documentation of income including data obtained electronically by the Department or its designees from other sources as described in subsection (b) of this Section. A month's income may be verified by a single pay stub with the monthly income extrapolated from the time period covered by the pay stub.

(2) By no later than October 1, 2011, require verification of, at a minimum, one month's income from all sources required for determining the continued eligibility of recipients at their annual review of eligibility for medical assistance under this Code. Information the Department receives prior to the annual review, including information available to the Department as a result of the recipient's application for other non-Medicaid benefits, that is sufficient to make a determination of continued Medicaid eligibility may be reviewed and verified, and subsequent action taken including client notification of continued Medicaid eligibility. The date of client notification establishes the date for subsequent annual Medicaid eligibility reviews. Such verification shall take the form of pay stubs, business or income and expense records for self-employed persons, letters from employers, and any other valid documentation of income including data obtained electronically by the Department or its designees from other sources as described in subsection (b) of this Section. A month's income may be verified by a single pay stub with the monthly income extrapolated from the time period covered by the pay stub. The Department shall send a notice to recipients at least 60 days prior to the end of their

period of eligibility that informs them of the requirements for continued eligibility. If a recipient does not fulfill the requirements for continued eligibility by the deadline established in the notice a notice of cancellation shall be issued to the recipient and coverage shall end no later than the last day of the month following the last day of the eligibility period. A recipient's eligibility may be reinstated without requiring a new application if the recipient fulfills the requirements for continued eligibility prior to the end of the third month following the last date of coverage (or longer period if required by federal regulations). Nothing in this Section shall prevent an individual whose coverage has been cancelled from reapplying for health benefits at any time.

(3) By no later than July 1, 2011, require verification of Illinois residency.

The Department, with federal approval, may choose to adopt continuous financial eligibility for a full 12 months for adults on Medicaid.

(b) The Department shall establish or continue cooperative arrangements with the Social Security Administration, the Illinois Secretary of State, the Department of Human Services, the Department of Revenue, the Department of Employment Security, and any other appropriate entity to gain electronic access, to the extent allowed by law, to information available to those entities that may be appropriate for electronically verifying any factor of eligibility for benefits under the Program. Data relevant to eligibility shall be provided for no other purpose than to verify the eligibility of new applicants or current recipients of health benefits under the Program. Data shall be requested or provided for any new applicant or current recipient only insofar as that individual's circumstances are relevant to that individual's or another individual's eligibility.

(c) Within 90 days of the effective date of this amendatory Act of the 96th General Assembly, the Department of Healthcare and Family Services shall send notice to current recipients informing them of the changes regarding their eligibility verification.

(d) As soon as practical if the data is reasonably available, but no later than January 1, 2017, the Department shall compile on a monthly basis data on eligibility redeterminations of beneficiaries of medical assistance provided under Article V of this Code. In addition to the other data required under this subsection, the Department shall compile on a monthly basis data on the percentage of beneficiaries whose eligibility is renewed through ex parte redeterminations as described in subsection (b) of Section 5-1.6 of this Code, subject to federal approval of the changes made in subsection (b) of Section 5-1.6 by this amendatory Act of the 102nd General Assembly. This data shall be posted on the Department's website, and data from prior months shall be retained and available on the Department's website. The data compiled and reported shall include the following:

(1) The total number of redetermination decisions made in a month and, of that total number, the number of decisions to continue or change benefits and the number of decisions to cancel benefits.

(2) A breakdown of enrollee language preference for the total number of redetermination decisions made in a month and, of that total number, a breakdown of enrollee language preference for the number of decisions to continue or change benefits, and a breakdown of enrollee language preference for the number of decisions to cancel benefits. The language breakdown shall include, at a minimum, English, Spanish, and the next 4 most commonly used languages.

(3) The percentage of cancellation decisions made in a month due to each of the following:

(A) The beneficiary's ineligibility due to excess income.

(B) The beneficiary's ineligibility due to not being an Illinois resident.

(C) The beneficiary's ineligibility due to being deceased.

(D) The beneficiary's request to cancel benefits.

(E) The beneficiary's lack of response after notices mailed to the beneficiary are returned to the Department as undeliverable by the United States Postal Service.

(F) The beneficiary's lack of response to a request for additional information when reliable information in the beneficiary's account, or other more current information, is unavailable to the Department to make a decision on whether to continue benefits.

(G) Other reasons tracked by the Department for the purpose of ensuring program integrity.

(4) If a vendor is utilized to provide services in support of the Department's redetermination decision process, the total number of redetermination decisions made in a month and, of that total number, the number of decisions to continue or change benefits, and the number of decisions to cancel benefits (i) with the involvement of the vendor and (ii) without the involvement of the vendor.

(5) Of the total number of benefit cancellations in a month, the number of beneficiaries who return from cancellation within one month, the number of beneficiaries who return from cancellation within 2 months, and the number of beneficiaries who return from cancellation within 3 months. Of the number of beneficiaries who return from cancellation within 3 months, the percentage of those cancellations due to each of the reasons listed under paragraph (3) of this subsection.

(e) The Department shall conduct a complete review of the Medicaid redetermination process in order to identify changes that can increase the use of ex parte redetermination processing. This review shall be completed within 90 days after the effective date of this amendatory Act of the 101st General Assembly. Within 90 days of completion of the review, the Department shall seek written federal approval of policy changes the review recommended and implement once approved. The review shall specifically include, but not be limited to, use of ex parte redeterminations of the following populations:

- (1) Recipients of developmental disabilities services.
- (2) Recipients of benefits under the State's Aid to the Aged, Blind, or Disabled program.
- (3) Recipients of Medicaid long-term care services and supports, including waiver services.
- (4) All Modified Adjusted Gross Income (MAGI) populations.
- (5) Populations with no verifiable income.
- (6) Self-employed people.

The report shall also outline populations and circumstances in which an ex parte redetermination is not a recommended option.

(f) The Department shall explore and implement, as practical and technologically possible, roles that stakeholders outside State agencies can play to assist in expediting eligibility determinations and redeterminations within 24 months after the effective date of this amendatory Act of the 101st General Assembly. Such practical roles to be explored to expedite the eligibility determination processes shall include the implementation of hospital presumptive eligibility, as authorized by the Patient Protection and Affordable Care Act.

(g) The Department or its designee shall seek federal approval to enhance the reasonable compatibility standard from 5% to 10%.

(h) Reporting. The Department of Healthcare and Family Services and the Department of Human Services shall publish quarterly reports on their progress in implementing policies and practices pursuant to this Section as modified by this amendatory Act of the 101st General Assembly.

(1) The reports shall include, but not be limited to, the following:

(A) Medical application processing, including a breakdown of the number of MAGI, non-MAGI, long-term care, and other medical cases pending for various incremental time frames between 0 to 181 or more days.

(B) Medical redeterminations completed, including: (i) a breakdown of the number of households that were redetermined ex parte and those that were not; (ii) the reasons households were not redetermined ex parte; and (iii) the relative percentages of these reasons.

(C) A narrative discussion on issues identified in the functioning of the State's Integrated Eligibility System and progress on addressing those issues, as well as progress on implementing strategies to address eligibility backlogs, including expanding ex parte determinations to ensure timely eligibility determinations and renewals.

(2) Initial reports shall be issued within 90 days after the effective date of this amendatory Act of the 101st General Assembly.

(3) All reports shall be published on the Department's website.

(i) It is the determination of the General Assembly that the Department must include seniors and persons with disabilities in ex parte renewals. It is the determination of the General Assembly that the Department must use its asset verification system to assist in the determination of whether an individual's coverage can be renewed using the ex parte process. If a State Plan amendment is required, the Department shall pursue such State Plan amendment by July 1, 2022. Within 60 days after receiving federal approval or guidance, the Department of Healthcare and Family Services and the Department of Human Services shall make necessary technical and rule changes to implement these changes to the redetermination process.

#### ARTICLE 50.

Section 50-5. The Illinois Public Aid Code is amended by changing Section 5-4.2 and by adding Section 5-30d as follows:

(305 ILCS 5/5-4.2)

Sec. 5-4.2. Ambulance services payments.

(a) For ambulance services provided to a recipient of aid under this Article on or after January 1, 1993, the Illinois Department shall reimburse ambulance service providers at rates calculated in accordance with this Section. It is the intent of the General Assembly to provide adequate reimbursement for ambulance services so as to ensure adequate access to services for recipients of aid under this Article and to provide appropriate incentives to ambulance service providers to provide services in an efficient and cost-effective manner. Thus, it is the intent of the General Assembly that the Illinois Department implement a reimbursement system for ambulance services that, to the extent practicable and subject to the availability of funds appropriated by the General Assembly for this purpose, is consistent with the payment principles of Medicare. To ensure uniformity between the payment principles of Medicare and Medicaid, the Illinois Department shall follow, to the extent necessary and practicable and subject to the availability of funds

appropriated by the General Assembly for this purpose, the statutes, laws, regulations, policies, procedures, principles, definitions, guidelines, and manuals used to determine the amounts paid to ambulance service providers under Title XVIII of the Social Security Act (Medicare).

(b) For ambulance services provided to a recipient of aid under this Article on or after January 1, 1996, the Illinois Department shall reimburse ambulance service providers based upon the actual distance traveled if a natural disaster, weather conditions, road repairs, or traffic congestion necessitates the use of a route other than the most direct route.

(c) For purposes of this Section, "ambulance services" includes medical transportation services provided by means of an ambulance, medi-car, service car, or taxi.

(c-1) For purposes of this Section, "ground ambulance service" means medical transportation services that are described as ground ambulance services by the Centers for Medicare and Medicaid Services and provided in a vehicle that is licensed as an ambulance by the Illinois Department of Public Health pursuant to the Emergency Medical Services (EMS) Systems Act.

(c-2) For purposes of this Section, "ground ambulance service provider" means a vehicle service provider as described in the Emergency Medical Services (EMS) Systems Act that operates licensed ambulances for the purpose of providing emergency ambulance services, or non-emergency ambulance services, or both. For purposes of this Section, this includes both ambulance providers and ambulance suppliers as described by the Centers for Medicare and Medicaid Services.

(c-3) For purposes of this Section, "medi-car" means transportation services provided to a patient who is confined to a wheelchair and requires the use of a hydraulic or electric lift or ramp and wheelchair lockdown when the patient's condition does not require medical observation, medical supervision, medical equipment, the administration of medications, or the administration of oxygen.

(c-4) For purposes of this Section, "service car" means transportation services provided to a patient by a passenger vehicle where that patient does not require the specialized modes described in subsection (c-1) or (c-3).

(d) This Section does not prohibit separate billing by ambulance service providers for oxygen furnished while providing advanced life support services.

(e) Beginning with services rendered on or after July 1, 2008, all providers of non-emergency medi-car and service car transportation must certify that the driver and employee attendant, as applicable, have completed a safety program approved by the Department to protect both the patient and the driver, prior to transporting a patient. The provider must maintain this certification in its records. The provider shall produce such documentation upon demand by the Department or its representative. Failure to produce documentation of such training shall result in recovery of any payments made by the Department for services rendered by a non-certified driver or employee attendant. Medi-car and service car providers must maintain legible documentation in their records of the driver and, as applicable, employee attendant that actually transported the patient. Providers must recertify all drivers and employee attendants every 3 years. If they meet the established training components set forth by the Department, providers of non-emergency medi-car and service car transportation that are either directly or through an affiliated company licensed by the Department of Public Health shall be approved by the Department to have in-house safety programs for training their own staff.

Notwithstanding the requirements above, any public transportation provider of medi-car and service car transportation that receives federal funding under 49 U.S.C. 5307 and 5311 need not certify its drivers and employee attendants under this Section, since safety training is already federally mandated.

(f) With respect to any policy or program administered by the Department or its agent regarding approval of non-emergency medical transportation by ground ambulance service providers, including, but not limited to, the Non-Emergency Transportation Services Prior Approval Program (NETSPAP), the Department shall establish by rule a process by which ground ambulance service providers of non-emergency medical transportation may appeal any decision by the Department or its agent for which no denial was received prior to the time of transport that either (i) denies a request for approval for payment of non-emergency transportation by means of ground ambulance service or (ii) grants a request for approval of non-emergency transportation by means of ground ambulance service at a level of service that entitles the ground ambulance service provider to a lower level of compensation from the Department than the ground ambulance service provider would have received as compensation for the level of service requested. The rule shall be filed by December 15, 2012 and shall provide that, for any decision rendered by the Department or its agent on or after the date the rule takes effect, the ground ambulance service provider shall have 60 days from the date the decision is received to file an appeal. The rule established by the

Department shall be, insofar as is practical, consistent with the Illinois Administrative Procedure Act. The Director's decision on an appeal under this Section shall be a final administrative decision subject to review under the Administrative Review Law.

(f-5) Beginning 90 days after July 20, 2012 (the effective date of Public Act 97-842), (i) no denial of a request for approval for payment of non-emergency transportation by means of ground ambulance service, and (ii) no approval of non-emergency transportation by means of ground ambulance service at a level of service that entitles the ground ambulance service provider to a lower level of compensation from the Department than would have been received at the level of service submitted by the ground ambulance service provider, may be issued by the Department or its agent unless the Department has submitted the criteria for determining the appropriateness of the transport for first notice publication in the Illinois Register pursuant to Section 5-40 of the Illinois Administrative Procedure Act.

(f-6) Within 90 days after the effective date of this amendatory Act of the 102nd General Assembly and subject to federal approval, the Department shall file rules to allow for the approval of ground ambulance services when the sole purpose of the transport is for the navigation of stairs or the assisting or lifting of a patient at a medical facility or during a medical appointment in instances where the Department or a contracted Medicaid managed care organization or their transportation broker is unable to secure transportation through any other transportation provider.

(f-7) For non-emergency ground ambulance claims properly denied under Department policy at the time the claim is filed due to failure to submit a valid Medical Certification for Non-Emergency Ambulance on and after December 15, 2012 and prior to January 1, 2021, the Department shall allot \$2,000,000 to a pool to reimburse such claims if the provider proves medical necessity for the service by other means. Providers must submit any such denied claims for which they seek compensation to the Department no later than December 31, 2021 along with documentation of medical necessity. No later than May 31, 2022, the Department shall determine for which claims medical necessity was established. Such claims for which medical necessity was established shall be paid at the rate in effect at the time of the service, provided the \$2,000,000 is sufficient to pay at those rates. If the pool is not sufficient, claims shall be paid at a uniform percentage of the applicable rate such that the pool of \$2,000,000 is exhausted. The appeal process described in subsection (f) shall not be applicable to the Department's determinations made in accordance with this subsection.

(g) Whenever a patient covered by a medical assistance program under this Code or by another medical program administered by the Department, including a patient covered under the State's Medicaid managed care program, is being transported from a facility and requires non-emergency transportation including ground ambulance, medi-car, or service car transportation, a Physician Certification Statement as described in this Section shall be required for each patient. Facilities shall develop procedures for a licensed medical professional to provide a written and signed Physician Certification Statement. The Physician Certification Statement shall specify the level of transportation services needed and complete a medical certification establishing the criteria for approval of non-emergency ambulance transportation, as published by the Department of Healthcare and Family Services, that is met by the patient. This certification shall be completed prior to ordering the transportation service and prior to patient discharge. The Physician Certification Statement is not required prior to transport if a delay in transport can be expected to negatively affect the patient outcome. If the ground ambulance provider, medi-car provider, or service car provider is unable to obtain the required Physician Certification Statement within 10 calendar days following the date of the service, the ground ambulance provider, medi-car provider, or service car provider must document its attempt to obtain the requested certification and may then submit the claim for payment. Acceptable documentation includes a signed return receipt from the U.S. Postal Service, facsimile receipt, email receipt, or other similar service that evidences that the ground ambulance provider, medi-car provider, or service car provider attempted to obtain the required Physician Certification Statement.

The medical certification specifying the level and type of non-emergency transportation needed shall be in the form of the Physician Certification Statement on a standardized form prescribed by the Department of Healthcare and Family Services. Within 75 days after July 27, 2018 (the effective date of Public Act 100-646), the Department of Healthcare and Family Services shall develop a standardized form of the Physician Certification Statement specifying the level and type of transportation services needed in consultation with the Department of Public Health, Medicaid managed care organizations, a statewide association representing ambulance providers, a statewide association representing hospitals, 3 statewide associations representing nursing homes, and other stakeholders. The Physician Certification Statement shall include, but is not limited to, the criteria necessary to demonstrate medical necessity for the level of

transport needed as required by (i) the Department of Healthcare and Family Services and (ii) the federal Centers for Medicare and Medicaid Services as outlined in the Centers for Medicare and Medicaid Services' Medicare Benefit Policy Manual, Pub. 100-02, Chap. 10, Sec. 10.2.1, et seq. The use of the Physician Certification Statement shall satisfy the obligations of hospitals under Section 6.22 of the Hospital Licensing Act and nursing homes under Section 2-217 of the Nursing Home Care Act. Implementation and acceptance of the Physician Certification Statement shall take place no later than 90 days after the issuance of the Physician Certification Statement by the Department of Healthcare and Family Services.

Pursuant to subsection (E) of Section 12-4.25 of this Code, the Department is entitled to recover overpayments paid to a provider or vendor, including, but not limited to, from the discharging physician, the discharging facility, and the ground ambulance service provider, in instances where a non-emergency ground ambulance service is rendered as the result of improper or false certification.

Beginning October 1, 2018, the Department of Healthcare and Family Services shall collect data from Medicaid managed care organizations and transportation brokers, including the Department's NETSPAP broker, regarding denials and appeals related to the missing or incomplete Physician Certification Statement forms and overall compliance with this subsection. The Department of Healthcare and Family Services shall publish quarterly results on its website within 15 days following the end of each quarter.

(h) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(i) On and after July 1, 2018, the Department shall increase the base rate of reimbursement for both base charges and mileage charges for ground ambulance service providers for medical transportation services provided by means of a ground ambulance to a level not lower than 112% of the base rate in effect as of June 30, 2018.

(305 ILCS 5/5-30d new)

Sec. 5-30d. Increased funding for transportation services. Beginning no later than January 1, 2023 and subject to federal approval, the amount allocated to fund rates for medi-car, service car, and attendant services provided to adults and children under the medical assistance program shall be increased by an approximate amount of \$24,000,000.

The adoption of emergency rules authorized by Section 5-45 and this Section is deemed to be necessary for the public interest, safety, and welfare.

This Section is repealed one year after the effective date of this amendatory Act of the 102nd General Assembly.

Section 55-10. The Illinois Public Aid Code is amended by changing Section 12-4.35 as follows:

Sec. 12-4.35. Medical services for certain noncitizens.

(a) Notwithstanding Section 1-11 of this Code or Section 20(a) of the Children's Health Insurance Program Act, the Department of Healthcare and Family Services may provide medical services to noncitizens who have not yet attained 19 years of age and who are not eligible for medical assistance under Article V of this Code or under the Children's Health Insurance Program created by the Children's Health Insurance Program Act due to their not meeting the otherwise applicable provisions of Section 1-11 of this Code or Section 20(a) of the Children's Health Insurance Program Act. The medical services available, standards for eligibility, and other conditions of participation under this Section shall be established by rule

by the Department; however, any such rule shall be at least as restrictive as the rules for medical assistance under Article V of this Code or the Children's Health Insurance Program created by the Children's Health Insurance Program Act.

(a-5) Notwithstanding Section 1-11 of this Code, the Department of Healthcare and Family Services may provide medical assistance in accordance with Article V of this Code to noncitizens over the age of 65 years of age who are not eligible for medical assistance under Article V of this Code due to their not meeting the otherwise applicable provisions of Section 1-11 of this Code, whose income is at or below 100% of the federal poverty level after deducting the costs of medical or other remedial care, and who would otherwise meet the eligibility requirements in Section 5-2 of this Code. The medical services available, standards for eligibility, and other conditions of participation under this Section shall be established by rule by the Department; however, any such rule shall be at least as restrictive as the rules for medical assistance under Article V of this Code.

(a-6) By May 30, 2022, notwithstanding Section 1-11 of this Code, the Department of Healthcare and Family Services may provide medical services to noncitizens 55 years of age through 64 years of age who (i) are not eligible for medical assistance under Article V of this Code due to their not meeting the otherwise applicable provisions of Section 1-11 of this Code and (ii) have income at or below 133% of the federal poverty level plus 5% for the applicable family size as determined under applicable federal law and regulations. Persons eligible for medical services under Public Act 102-16 ~~this amendatory Act of the 102nd General Assembly~~ shall receive benefits identical to the benefits provided under the Health Benefits Service Package as that term is defined in subsection (m) of Section 5-1.1 of this Code.

(b) The Department is authorized to take any action that would not otherwise be prohibited by applicable law, including, without limitation, cessation or limitation of enrollment, reduction of available medical services, and changing standards for eligibility, that is deemed necessary by the Department during a State fiscal year to assure that payments under this Section do not exceed available funds.

## Section 1-5. Definitions. In this Act:

"Consumer product" means any tangible personal property that is distributed in commerce and that is normally used for personal, family, or household purposes (including any such property intended to be attached to or installed in any real property without regard to whether it is so attached or installed).

"High-volume third-party seller" means a participant in an online marketplace who is a third-party seller and who, in any continuous 12-month period during the previous 24 months, has entered into 200 or more discrete sales or transactions of new or unused consumer products and has an aggregate total of \$5,000 or more in gross revenue. For purposes of calculating the number of discrete sales or transactions or the aggregate gross revenues under subsection (a) of Section 1-10, an online marketplace shall only be required to count sales or transactions made through the online marketplace and for which payment was processed by the online marketplace, either directly or through its payment processor.

"Online marketplace" means any person or entity that:

(2) is used by one or more online third-party sellers for such purposes; and

(3) has a contractual or similar relationship with consumers governing their use of the platform to purchase consumer product.

"Seller" means a person who sells, offers to sell, or contracts to sell consumer products through an online marketplace's platform.

"Third-party seller" means any seller, independent of an online marketplace, who sells, offers to sell, or contracts to sell a consumer product in this State through an online marketplace. "Third-party seller" does not include, with respect to an online marketplace:

"Verify" means to confirm information provided to an online marketplace, including, but not limited to, by the use of one or more methods that enable the online marketplace to reliably determine that any information and documents provided are valid, corresponding to the seller or an individual acting on the seller's behalf, not misappropriated, and not falsified.

The bank account or payee information required may be provided by the seller to the online marketplace or other third parties contracted by the online marketplace to maintain the

information, so long as the online marketplace ensures that it can obtain the information on demand from the other third parties.

(2) The contact information for the high-volume third-party seller. If the high-volume third-party seller is an individual, the individual's name shall be provided. If the high-volume third-party seller is not an individual, a copy of a valid government-issued identification for an individual acting on behalf of the seller that includes the individual's name or a copy of a valid government-issued record or tax document that includes the business name and physical address of the seller shall be provided.

(1) the high-volume third-party seller has provided any changes to the information to the online marketplace, if such changes have occurred;

(2) there have been no changes to the high-volume third-party seller's information; or

(3) the high-volume third-party seller has provided any changes to such information to the online marketplace.

(c) If a high-volume third-party seller does not provide the information or certification required under this Section, the online marketplace, after providing the seller with written or electronic notice and an opportunity to provide the information or certification not later than 10 days after the issuance of the notice, shall suspend any future sales activity of the seller until the seller provides the information or certification.

(d) An online marketplace shall verify the information collected under subsection (a) no later than 10 days after the collection and shall verify any change to the information not later than 10 days after being notified of the change by a high-volume third-party seller under subsection (b). (e) An online marketplace shall require any high-volume third-party seller with an aggregate total of \$20,000 or more in annual gross revenues on the online marketplace, and that uses the online marketplace's platform, to provide information to the online marketplace that includes the identity of the high-volume third-party seller, including:

(f) An online marketplace shall provide to consumers the information in subsection (e) in a conspicuous manner: (i) in the order confirmation message or other document or communication made to a consumer after a purchase is finalized; and (ii) in the consumer's account transaction history.

(g) Upon the request of a high-volume third-party seller, an online marketplace may provide for partial disclosure of the identity information required under subsection (e) as follows:

(1) If the high-volume third-party seller certifies to the online marketplace that the seller does not have a business address and only has a residential street address, or has a combined business and residential address, the online marketplace may disclose only the country and, if applicable, the state in which the high-volume third-party seller resides; and inform consumers that there is no business

address available for the seller and that consumer inquiries should be submitted to the seller by phone, email, or other means of electronic messaging provided to the seller by the online marketplace.

(i) If a high-volume third-party seller does not comply with the requirements to provide and disclose information under this Section, the online marketplace, after providing the seller with written or electronic notice and an opportunity to provide or disclose the information not later than 10 days after the issuance of the notice, shall suspend any future sales activity of the seller until the seller complies with the requirements.

(j) An online marketplace shall disclose to consumers in a clear and conspicuous manner on the product listing of any high-volume third-party seller a reporting mechanism that allows for electronic and telephonic reporting of suspicious marketplace activity to the online marketplace.

Section 2-10. The Statewide Grand Jury Act is amended by changing Sections 2, 3, and 4 as follows:

[April 8, 2022]

(725 ILCS 215/2) (from Ch. 38, par. 1702)

Sec. 2. (a) County grand juries and State's Attorneys have always had and shall continue to have primary responsibility for investigating, indicting, and prosecuting persons who violate the criminal laws of the State of Illinois. However, in recent years organized terrorist activity directed against innocent civilians and certain criminal enterprises have developed that require investigation, indictment, and prosecution on a statewide or multicounty level. The criminal enterprises exist as a result of the allure of profitability present in narcotic activity, the unlawful sale and transfer of firearms, and streetgang related felonies and organized terrorist activity is supported by the contribution of money and expert assistance from geographically diverse sources. In order to shut off the life blood of terrorism and weaken or eliminate the criminal enterprises, assets, and property used to further these offenses must be frozen, and any profit must be removed. State statutes exist that can accomplish that goal. Among them are the offense of money laundering, violations of Article 29D of the Criminal Code of 1961 or the Criminal Code of 2012, the Narcotics Profit Forfeiture Act, and gunrunning. Local prosecutors need investigative personnel and specialized training to attack and eliminate these profits. In light of the transitory and complex nature of conduct that constitutes these criminal activities, the many diverse property interests that may be used, acquired directly or indirectly as a result of these criminal activities, and the many places that illegally obtained property may be located, it is the purpose of this Act to create a limited, multicounty Statewide Grand Jury with authority to investigate, indict, and prosecute: narcotic activity, including cannabis and controlled substance trafficking, narcotics racketeering, money laundering, violations of the Cannabis and Controlled Substances Tax Act, and violations of Article 29D of the Criminal Code of 1961 or the Criminal Code of 2012; the unlawful sale and transfer of firearms; gunrunning; and streetgang related felonies.

(b) A Statewide Grand Jury may also investigate, indict, and prosecute violations facilitated by the use of a computer of any of the following offenses: indecent solicitation of a child, sexual exploitation of a child, soliciting for a juvenile prostitute, keeping a place of juvenile prostitution, juvenile pimping, child pornography, aggravated child pornography, or promoting juvenile prostitution except as described in subdivision (a)(4) of Section 11-14.4 of the Criminal Code of 1961 or the Criminal Code of 2012.

(c) A Statewide Grand Jury may also investigate, indict, and prosecute violations of organized retail crime.

(725 ILCS 215/3) (from Ch. 38, par. 1703)

Sec. 3. Written application for the appointment of a Circuit Judge to convene and preside over a Statewide Grand Jury, with jurisdiction extending throughout the State, shall be made to the Chief Justice of the Supreme Court. Upon such written application, the Chief Justice of the Supreme Court shall appoint a Circuit Judge from the circuit where the Statewide Grand Jury is being sought to be convened, who shall make a determination that the convening of a Statewide Grand Jury is necessary.

In such application the Attorney General shall state that the convening of a Statewide Grand Jury is necessary because of an alleged offense or offenses set forth in this Section involving more than one county of the State and identifying any such offense alleged; and

(a) that he or she believes that the grand jury function for the investigation and indictment of the offense or offenses cannot effectively be performed by a county grand jury together with the reasons for such belief, and

(b)(1) that each State's Attorney with jurisdiction over an offense or offenses to be investigated has consented to the impaneling of the Statewide Grand Jury, or

(2) if one or more of the State's Attorneys having jurisdiction over an offense or offenses to be investigated fails to consent to the impaneling of the Statewide Grand Jury, the Attorney General shall set forth good cause for impaneling the Statewide Grand Jury.

If the Circuit Judge determines that the convening of a Statewide Grand Jury is necessary, he or she shall convene and impanel the Statewide Grand Jury with jurisdiction extending throughout the State to investigate and return indictments:

(a) For violations of any of the following or for any other criminal offense committed in the course of violating any of the following: Article 29D of the Criminal Code of 1961 or the Criminal Code of 2012, the Illinois Controlled Substances Act, the Cannabis Control Act, the Methamphetamine Control and Community Protection Act, or the Narcotics Profit Forfeiture Act; a streetgang related felony offense; Section 16-25.1, 24-2.1, 24-2.2, 24-3, 24-3A, 24-3.1, 24-3.3, 24-3.4, 24-4, or 24-5 or subsection 24-1(a)(4), 24-1(a)(6), 24-1(a)(7), 24-1(a)(9), 24-1(a)(10), or 24-1(c) of

the Criminal Code of 1961 or the Criminal Code of 2012; or a money laundering offense; provided that the violation or offense involves acts occurring in more than one county of this State; and

(a-5) For violations facilitated by the use of a computer, including the use of the Internet, the World Wide Web, electronic mail, message board, newsgroup, or any other commercial or noncommercial on-line service, of any of the following offenses: indecent solicitation of a child, sexual exploitation of a child, soliciting for a juvenile prostitute, keeping a place of juvenile prostitution, juvenile pimping, child pornography, aggravated child pornography, or promoting juvenile prostitution except as described in subdivision (a)(4) of Section 11-14.4 of the Criminal Code of 1961 or the Criminal Code of 2012; and

(b) For the offenses of perjury, subornation of perjury, communicating with jurors and witnesses, and harassment of jurors and witnesses, as they relate to matters before the Statewide Grand Jury.

"Streetgang related" has the meaning ascribed to it in Section 10 of the Illinois Streetgang Terrorism Omnibus Prevention Act.

Upon written application by the Attorney General for the convening of an additional Statewide Grand Jury, the Chief Justice of the Supreme Court shall appoint a Circuit Judge from the circuit for which the additional Statewide Grand Jury is sought. The Circuit Judge shall determine the necessity for an additional Statewide Grand Jury in accordance with the provisions of this Section. No more than 2 Statewide Grand Juries may be empaneled at any time.

(725 ILCS 215/4) (from Ch. 38, par. 1704)

Sec. 4. (a) The presiding judge of the Statewide Grand Jury will receive recommendations from the Attorney General as to the county in which the Grand Jury will sit. Prior to making the recommendations, the Attorney General shall obtain the permission of the local State's Attorney to use his or her county for the site of the Statewide Grand Jury. Upon receiving the Attorney General's recommendations, the presiding judge will choose one of those recommended locations as the site where the Grand Jury shall sit.

Any indictment by a Statewide Grand Jury shall be returned to the Circuit Judge presiding over the Statewide Grand Jury and shall include a finding as to the county or counties in which the alleged offense was committed. Thereupon, the judge shall, by order, designate the county of venue for the purpose of trial. The judge may also, by order, direct the consolidation of an indictment returned by a county grand jury with an indictment returned by the Statewide Grand Jury and set venue for trial.

(b) Venue for purposes of trial for the offense of narcotics racketeering shall be proper in any county where:

(1) Cannabis or a controlled substance which is the basis for the charge of narcotics racketeering was used; acquired; transferred or distributed to, from or through; or any county where any act was performed to further the use; acquisition, transfer or distribution of said cannabis or controlled substance; or

(2) Any money, property, property interest, or any other asset generated by narcotics activities was acquired, used, sold, transferred or distributed to, from or through; or,

(3) Any enterprise interest obtained as a result of narcotics racketeering was acquired, used, transferred or distributed to, from or through, or where any activity was conducted by the enterprise or any conduct to further the interests of such an enterprise.

(c) Venue for purposes of trial for the offense of money laundering shall be proper in any county where any part of a financial transaction in criminally derived property took place, or in any county where any money or monetary interest which is the basis for the offense, was acquired, used, sold, transferred or distributed to, from, or through.

(d) A person who commits the offense of cannabis trafficking or controlled substance trafficking may be tried in any county.

(e) Venue for purposes of trial for any violation of Article 29D of the Criminal Code of 1961 or the Criminal Code of 2012 may be in the county in which an act of terrorism occurs, the county in which material support or resources are provided or solicited, the county in which criminal assistance is rendered, or any county in which any act in furtherance of any violation of Article 29D of the Criminal Code of 1961 or the Criminal Code of 2012 occurs.

(f) Venue for purposes of trial for the offense of organized retail crime shall be proper in any county where:

(1) any property, property interest, asset, money, or thing of value that is the basis for the charge of organized retail crime was used, acquired, transferred, or distributed to, from, or through; or any county where any act was performed to further the use, acquisition, transfer, or distribution of the property, property interest, asset, money, or thing or value; or

AMENDMENT NO. 2. Amend House Bill 4383 by replacing everything after the enacting clause with the following:

"Section 5. The Criminal Code of 2012 is amended by adding Section 24-5.1 as follows:  
(720 ILCS 5/24-5.1 new)

Sec. 24-5.1. Serialization of unfinished frames or receivers; prohibition on unserialized firearms; exceptions; penalties.

(a) In this Section:

"Bona fide supplier" means an established business entity engaged in the development and sale of firearms parts to one or more federal firearms manufacturers or federal firearms importers.

"Federal firearms dealer" means a licensed manufacturer pursuant to 18 U.S.C. 921(a)(11).

"Federal firearms importer" means a licensed importer pursuant to 18 U.S.C. 921(a)(9).

"Federal firearms manufacturer" means a licensed manufacturer pursuant to 18 U.S.C. 921(a)(10).

"Frame or receiver" means a part of a firearm that, when the complete weapon is assembled, is visible from the exterior and provides housing or a structure designed to hold or integrate one or more fire control components, even if pins or other attachments are required to connect those components to the housing or structure. For models of firearms in which multiple parts provide such housing or structure, the part or parts that the Director of the federal Bureau of Alcohol, Tobacco, Firearms and Explosives has determined are a frame or receiver constitute the frame or receiver. For purposes of this definition, "fire control component" means a component necessary for the firearm to initiate, complete, or continue the firing sequence, including any of the following: hammer, bolt, bolt carrier, breechblock, cylinder, trigger mechanism, firing pin, striker, or slide rails.

"Security exemplar" means an object to be fabricated at the direction of the United States Attorney General that is (1) constructed of 3.7 ounces of material type 17-4 PH stainless steel in a shape resembling a handgun and (2) suitable for testing and calibrating metal detectors.

"Three-dimensional printer" means a computer or computer-drive machine capable of producing a three-dimensional object from a digital model.

"Undetectable firearm" means (1) a firearm constructed entirely of non-metal substances; (2) a firearm that, after removal of all parts but the major components of the firearm, is not detectable by walk-through metal detectors calibrated and operated to detect the security exemplar; or (3) a firearm that includes a major component of a firearm, which, if subject to the types of detection devices commonly used at airports for security screening, would not generate an image that accurately depicts the shape of the component. "Undetectable firearm" does not include a firearm subject to the provisions of 18 U.S.C. 922(p)(3) through (6).

"Unfinished frame or receiver" means any forging, casting, printing, extrusion, machined body, or similar article that:

(1) has reached a stage in manufacture where it may readily be completed, assembled, or converted to be a functional firearm; or

(2) is marketed or sold to the public to become or be used as the frame or receiver of a functional firearm once completed, assembled, or converted.

"Unserialized" means lacking a serial number imprinted by:

(1) a federal firearms manufacturer, federal firearms importer, federal firearms dealer, or other federal licensee authorized to provide marking services, pursuant to a requirement under federal law; or

(2) a federal firearms dealer or other federal licensee authorized to provide marking services pursuant to subsection (f) of this Section.

(b) It is unlawful for any person to knowingly sell, offer to sell, or transfer an unserialized unfinished frame or receiver or unserialized firearm, including those produced using a three-dimensional printer, unless the party purchasing or receiving the unfinished frame or receiver or unserialized firearm is a federal firearms importer, federal firearms manufacturer, or federal firearms dealer.

(c) Beginning 180 days after the effective date of this amendatory Act of the 102nd General Assembly, it is unlawful for any person to knowingly possess, transport, or receive an unfinished frame or receiver, unless:

(1) the party possessing or receiving the unfinished frame or receiver is a federal firearms importer or federal firearms manufacturer;

(2) the unfinished frame or receiver is possessed or transported by a person for transfer to a federal firearms importer or federal firearms manufacturer; or

(3) the unfinished frame or receiver has been imprinted with a serial number issued by a federal firearms importer or federal firearms manufacturer in compliance with subsection (f) of this Section.

(d) Beginning 180 days after the effective date of this amendatory Act of the 102nd General Assembly, unless the party receiving the firearm is a federal firearms importer or federal firearms manufacturer, it is unlawful for any person to knowingly possess, purchase, transport, or receive a firearm that is not imprinted with a serial number by (1) a federal firearms importer or federal firearms manufacturer in compliance with all federal laws and regulations regulating the manufacture and import of firearms or (2) a federal firearms manufacturer, federal firearms dealer, or other federal licensee authorized to provide marking services in compliance with the unserialized firearm serialization process under subsection (f) of this Section.

(e) Any firearm or unfinished frame or receiver manufactured using a three-dimensional printer must also be serialized in accordance with the requirements of subsection (f) within 30 days after the effective date of this amendatory Act of the 102nd General Assembly, or prior to reaching a stage of manufacture where it may be readily completed, assembled, or converted to be a functional firearm.

(f) Unserialized unfinished frames or receivers and unserialized firearms serialized pursuant to this Section shall be serialized in compliance with all of the following:

(1) An unserialized unfinished frame or receiver and unserialized firearm shall be serialized by a federally licensed firearms dealer or other federal licensee authorized to provide marking services with the licensee's abbreviated federal firearms license number as a prefix (which is the first 3 and last 5 digits) followed by a hyphen, and then followed by a number as a suffix, such as 12345678-(number). The serial number or numbers must be placed in a manner that accords with the requirements under federal law for affixing serial numbers to firearms, including the requirements that the serial number or numbers be at the minimum size and depth, and not susceptible to being readily obliterated, altered, or removed, and the licensee must retain records that accord with the requirements under federal law in the case of the sale of a firearm. The imprinting of any serial number upon a undetectable firearm must be done on a steel plaque in compliance with 18 U.S.C. 922(p).

(2) Every federally licensed firearms dealer or other federal licensee that engraves, casts, stamps, or otherwise conspicuously and permanently places a unique serial number pursuant to this Section shall maintain a record of such indefinitely. Licensees subject to the Firearm Dealer License Certification Act shall make all records accessible for inspection upon the request of the Illinois State Police or a law enforcement agency in accordance with Section 5-35 of the Firearm Dealer License Certification Act.

(3) Every federally licensed firearms dealer or other federal licensee that engraves, casts, stamps, or otherwise conspicuously and permanently places a unique serial number pursuant to this Section shall record it at the time of every transaction involving the transfer of a firearm, rifle, shotgun, finished frame or receiver, or unfinished frame or receiver that has been so marked in compliance with the federal guidelines set forth in 27 CFR 478.124.

(4) Every federally licensed firearms dealer or other federal licensee that engraves, casts, stamps, or otherwise conspicuously and permanently places a unique serial number pursuant to this Section shall review and confirm the validity of the owner's Firearm Owner's Identification Card issued under the Firearm Owners Identification Card Act prior to returning the firearm to the owner.

(g) Within 30 days after the effective date of this amendatory Act of the 102nd General Assembly, the Director of the Illinois State Police shall issue a public notice regarding the provisions of this Section. The notice shall include posting on the Illinois State Police website and may include written notification or any other means of communication statewide to all Illinois-based federal firearms manufacturers, federal

firearms dealers, or other federal licensees authorized to provide marking services in compliance with the serialization process in subsection (f) in order to educate the public.

(h) Exceptions. This Section does not apply to an unserialized unfinished frame or receiver or an unserialized firearm that:

(1) has been rendered permanently inoperable;

(2) is an antique firearm, as defined in 18 U.S.C. 921(a)(16);

(3) was manufactured prior to October 22, 1968;

(4) is an unfinished frame or receiver and is possessed by a bona fide supplier exclusively for transfer to a federal firearms manufacturer or federal firearms importer, or is possessed by a federal firearms manufacturer or federal firearms importer in compliance with all federal laws and regulations regulating the manufacture and import of firearms; except this exemption does not apply if an unfinished frame or receiver is possessed for transfer or is transferred to a person other than a federal firearms manufacturer or federal firearms importer; or

(5) is possessed by a person who received the unserialized unfinished frame or receiver or unserialized firearm through inheritance, and is not otherwise prohibited from possessing the unserialized unfinished frame or receiver or unserialized firearm, for a period not exceeding 30 days after inheriting the unserialized unfinished frame or receiver or unserialized firearm.

### HOUSE BILL RECALLED

On motion of Senator Sims, **House Bill No. 4700** was recalled from the order of third reading to the order of second reading.

Senator Harmon offered the following amendment and moved its adoption:

#### AMENDMENT NO. 1 TO HOUSE BILL 4700

AMENDMENT NO. 1 . Amend House Bill 4700 by replacing everything after the enacting clause with the following:

#### "ARTICLE 1.

Section 1-1. Short Title. This Act may be cited as the FY2023 Budget Implementation Act.

Section 1-5. Purpose. It is the purpose of this Act to make changes in State programs that are necessary to implement the State budget for Fiscal Year 2023.

#### ARTICLE 3.

Section 3-1. This Article may be referred to as the Climate Jobs Institute Law. References in this Article to "this Act" mean this Article.

Section 3-5. Findings and intent. The General Assembly finds that:

(1) Public Act 102-662 places the State on a path toward 100% clean energy by 2050;

(2) the transition to a carbon-free energy economy will have a significant economic, ecological, and sociological impact on the State's residents;

(3) rigorous data collection and research are needed to help minimize job loss, maximize high-quality job creation and economic development, and facilitate just transitions, workforce development programs, and activities necessary to meet the increased labor demand in the State's clean-energy sector;

(4) the State finds that an equitable transition to a clean-energy economy must be guided by applied research that provides detailed, nuanced information about the labor, employment, and broader social and economic impacts of decarbonizing the State's economy;

(5) collecting and analyzing labor and employment data in the clean-energy sector is essential for creating a clean-energy economy that prioritizes local resources, improves resiliency, and promotes energy independence; and

(6) the State has a strong interest in ensuring that State residents, especially those from environmental justice and historically underserved communities, have access to safe, well-paying, clean-energy jobs, supporting displaced energy workers in the transition to a clean-energy economy; and creating workforce development programs to meet the labor demand in the clean-energy industry.

The General Assembly intends that, in order to promote those interests in the State's growing clean-energy sector, a Climate Jobs Institute should be created that will produce high-quality data, research, and educational opportunities to inform policymakers, industry partners, labor organizations, and other relevant stakeholders in the development and implementation of innovative and data-supported labor policies for the emerging clean-energy economy.

[April 8, 2022]

(e) Notwithstanding any other law to the contrary, the Department shall select a private manager through a competitive request for qualifications process consistent with Section 20-35 of the Illinois Procurement Code, which shall take into account:

(1) the offeror's ability to market the Lottery to those residents who are new, infrequent, or lapsed players of the Lottery, especially those who are most likely to make regular purchases on the Internet;

(2) the offeror's ability to address the State's concern with the social effects of gambling on those who can least afford to do so;

(3) the offeror's ability to provide the most successful management of the Lottery for the benefit of the people of the State based on current and past business practices or plans of the offeror; and

(4) the offeror's poor or inadequate past performance in servicing, equipping, operating or managing a lottery on behalf of Illinois, another State or foreign government and attracting persons who are not currently regular players of a lottery.

(f) The Department may retain the services of an advisor or advisors with significant experience in financial services or the management, operation, and procurement of goods, services, and equipment for a government-run lottery to assist in the preparation of the terms of the request for qualifications and selection of the private manager. Any prospective advisor seeking to provide services under this subsection (f) shall disclose any material business or financial relationship during the past 3 years with any potential offeror, or with a contractor or subcontractor presently providing goods, services, or equipment to the Department to support the Lottery. The Department shall evaluate the material business or financial relationship of each prospective advisor. The Department shall not select any prospective advisor with a substantial business or financial relationship that the Department deems to impair the objectivity of the services to be provided by the prospective advisor. During the course of the advisor's engagement by the Department, and for a period of one year thereafter, the advisor shall not enter into any business or financial relationship with any offeror or any vendor identified to assist an offeror in performing its obligations under the management agreement. Any advisor retained by the Department shall be disqualified from being an offeror. The Department shall not include terms in the request for qualifications that provide a material advantage whether directly or indirectly to any potential offeror, or any contractor or subcontractor presently providing goods, services, or equipment to the Department to support the Lottery, including terms contained in previous responses to requests for proposals or qualifications submitted to Illinois, another State or foreign government when those terms are uniquely associated with a particular potential offeror, contractor, or subcontractor. The request for proposals offered by the Department on December 22, 2008 as "LOT08GAMESYS" and reference number "22016176" is declared void.

(g) The Department shall select at least 2 offerors as finalists to potentially serve as the private manager no later than August 9, 2010. Upon making preliminary selections, the Department shall schedule a public hearing on the finalists' proposals and provide public notice of the hearing at least 7 calendar days before the hearing. The notice must include all of the following:

(1) The date, time, and place of the hearing.

(2) The subject matter of the hearing.

(3) A brief description of the management agreement to be awarded.

(4) The identity of the offerors that have been selected as finalists to serve as the private manager.

(5) The address and telephone number of the Department.

(h) At the public hearing, the Department shall (i) provide sufficient time for each finalist to present and explain its proposal to the Department and the Governor or the Governor's designee, including an opportunity to respond to questions posed by the Department, Governor, or designee and (ii) allow the public and non-selected offerors to comment on the presentations. The Governor or a designee shall attend the public hearing. After the public hearing, the Department shall have 14 calendar days to recommend to the Governor whether a management agreement should be entered into with a particular finalist. After reviewing the Department's recommendation, the Governor may accept or reject the Department's

recommendation, and shall select a final offeror as the private manager by publication of a notice in the Illinois Procurement Bulletin on or before September 15, 2010. The Governor shall include in the notice a detailed explanation and the reasons why the final offeror is superior to other offerors and will provide management services in a manner that best achieves the objectives of this Section. The Governor shall also sign the management agreement with the private manager.

(i) Any action to contest the private manager selected by the Governor under this Section must be brought within 7 calendar days after the publication of the notice of the designation of the private manager as provided in subsection (h) of this Section.

(j) The Lottery shall remain, for so long as a private manager manages the Lottery in accordance with provisions of this Act, a Lottery conducted by the State, and the State shall not be authorized to sell or transfer the Lottery to a third party.

(k) Any tangible personal property used exclusively in connection with the lottery that is owned by the Department and leased to the private manager shall be owned by the Department in the name of the State and shall be considered to be public property devoted to an essential public and governmental function.

(l) The Department may exercise any of its powers under this Section or any other law as necessary or desirable for the execution of the Department's powers under this Section.

(m) Neither this Section nor any management agreement entered into under this Section prohibits the General Assembly from authorizing forms of gambling that are not in direct competition with the Lottery. The forms of gambling authorized by Public Act 101-31 constitute authorized forms of gambling that are not in direct competition with the Lottery.

(n) The private manager shall be subject to a complete investigation in the third, seventh, and tenth years of the agreement (if the agreement is for a 10-year term) by the Department in cooperation with the Auditor General to determine whether the private manager has complied with this Section and the management agreement. The private manager shall bear the cost of an investigation or reinvestigation of the private manager under this subsection.

(o) The powers conferred by this Section are in addition and supplemental to the powers conferred by any other law. If any other law or rule is inconsistent with this Section, including, but not limited to, provisions of the Illinois Procurement Code, then this Section controls as to any management agreement entered into under this Section. This Section and any rules adopted under this Section contain full and complete authority for a management agreement between the Department and a private manager. No law, procedure, proceeding, publication, notice, consent, approval, order, or act by the Department or any other officer, Department, agency, or instrumentality of the State or any political subdivision is required for the Department to enter into a management agreement under this Section. This Section contains full and complete authority for the Department to approve any contracts entered into by a private manager with a vendor providing goods, services, or both goods and services to the private manager under the terms of the management agreement, including subcontractors of such vendors.

Upon receipt of a written request from the Chief Procurement Officer, the Department shall provide to the Chief Procurement Officer a complete and un-redacted copy of the management agreement or any contract that is subject to the Department's approval authority under this subsection (o). The Department shall provide a copy of the agreement or contract to the Chief Procurement Officer in the time specified by the Chief Procurement Officer in his or her written request, but no later than 5 business days after the request is received by the Department. The Chief Procurement Officer must retain any portions of the management agreement or of any contract designated by the Department as confidential, proprietary, or trade secret information in complete confidence pursuant to subsection (g) of Section 7 of the Freedom of Information Act. The Department shall also provide the Chief Procurement Officer with reasonable advance written notice of any contract that is pending Department approval.

Notwithstanding any other provision of this Section to the contrary, the Chief Procurement Officer shall adopt administrative rules, including emergency rules, to establish a procurement process to select a successor private manager if a private management agreement has been terminated. The selection process shall at a minimum take into account the criteria set forth in items (1) through (4) of subsection (e) of this Section and may include provisions consistent with subsections (f), (g), (h), and (i) of this Section. The Chief Procurement Officer shall also implement and administer the adopted selection process upon the termination of a private management agreement. The Department, after the Chief Procurement Officer certifies that the procurement process has been followed in accordance with the rules adopted under this subsection (o), shall select a final offeror as the private manager and sign the management agreement with the private manager.

Through June 30, 2022, except ~~Except~~ as provided in Sections 21.5, 21.6, 21.7, 21.8, 21.9, 21.10, 21.11, 21.12, and 21.13 of this Act and Section 25-70 of the Sports Wagering Act, the Department shall distribute all proceeds of lottery tickets and shares sold in the following priority and manner:

(2) The payment of costs incurred in the operation and administration of the Lottery, including the payment of sums due to the private manager under the management agreement with the Department.

(3) On the last day of each month or as soon thereafter as possible, the State Comptroller shall direct and the State Treasurer shall transfer from the State Lottery Fund to the Common School Fund an amount that is equal to the proceeds transferred in the corresponding month of fiscal year 2009, as adjusted for inflation, to the Common School Fund.

(4) On or before September 30 of each fiscal year, deposit any estimated remaining proceeds from the prior fiscal year, ~~subject to payments under items (1), (2), and (3), into the Capital Projects Fund.~~ Beginning in fiscal year 2019, the amount deposited shall be increased or decreased each year by the amount the estimated payment differs from the amount determined from each year-end financial audit. Only remaining net deficits from prior fiscal years may reduce the requirement to deposit these funds, as determined by the annual financial audit.

Beginning July 1, 2022, the Department shall distribute all proceeds of lottery tickets and shares sold in the manner and priority described in Section 9.3 of this Act.

(p) The Department shall be subject to the following reporting and information request requirements:

(1) the Department shall submit written quarterly reports to the Governor and the General Assembly on the activities and actions of the private manager selected under this Section;

(2) upon request of the Chief Procurement Officer, the Department shall promptly produce information related to the procurement activities of the Department and the private manager requested by the Chief Procurement Officer; the Chief Procurement Officer must retain confidential, proprietary, or trade secret information designated by the Department in complete confidence pursuant to subsection (g) of Section 7 of the Freedom of Information Act; and

Sec. 9.2. Reconciliation of Fiscal Year 2017 through Fiscal Year 2022 annual net lottery proceeds.

(a) The Office of the Auditor General concluded in the Department's annual fiscal year audits for Fiscal Year 2017, Fiscal Year 2018, Fiscal Year 2019, Fiscal Year 2020, and Fiscal Year 2021 that annual net lottery proceeds from the State Lottery Fund to the Common School Fund exceeded the annual net lottery proceeds available to transfer as described in subsection (o) of Section 9.1. The excess transfers to the Common School Fund during those fiscal years resulted in transfers of annual net lottery proceeds to the Capital Projects Fund as required by paragraph (4) of subsection (o) of Section 9.1 not being sent. The Department had no statutory authority to offset future transfers as described in paragraph (4) of subsection (a) of Section 9.3 during Fiscal Year 2017, Fiscal Year 2018, Fiscal Year 2019, Fiscal Year 2020, or Fiscal Year 2021 to reconcile the discrepancies.

(b) The Department is hereby authorized to reconcile the discrepancies occurring in Fiscal Year 2017, Fiscal Year 2018, Fiscal Year 2019, Fiscal Year 2020, and Fiscal Year 2021 as reported by the Office of the Auditor General. The Department shall accomplish this reconciliation by offsetting its monthly transfers to the Common School Fund to recover the resulting cash deficit in the State Lottery Fund and separately transferring the deficient amounts owed to the Capital Projects Fund. All offsets and transfers shall be done in accordance with Generally Accepted Accounting Principles for government entities. The Department shall determine, in coordination with the Governor's Office of Management and Budget, an appropriate schedule for the offsets and transfers. All offsets and transfers shall be completed no later than June 30, 2023.

(c) The Department is also authorized to reconcile any discrepancies that may occur in Fiscal Year 2022, if the annual net lottery proceeds transferred from the State Lottery Fund to the Common School Fund exceed the annual net lottery proceeds available to transfer. The Department shall determine whether there were any excess transfers by June 30, 2023. The Department shall reconcile any discrepancies by offsetting its monthly transfers to the Common School Fund to recover the resulting cash deficit in the State Lottery

Fund and separately transferring the deficient amounts owed to the Capital Projects Fund. All offsets and transfers shall be done in accordance with Generally Accepted Accounting principles. All offsets and transfers for Fiscal Year 2022 discrepancies shall be completed no later than June 30, 2024.

(d) This Section is repealed on January 1, 2025.

(20 ILCS 1605/9.3 new)

(1) The payment of prizes and retailer bonuses.

(2) The payment of costs incurred in the operation and administration of the Lottery, including the payment of sums due to the private manager under the management agreement with the Department and including costs of administering the Lottery sports wagering program pursuant to Section 25-70 of the Sports Wagering Act.

(3) On the last day of each month or as soon thereafter as possible, the State Comptroller shall direct and the State Treasurer shall transfer from the State Lottery Fund to the Common School Fund the Department's estimate of net lottery proceeds.

(4) If an amount in excess of the annual net lottery proceeds is transferred for a fiscal year, then the Department shall offset the monthly transfers of estimated net lottery proceeds during the following fiscal year by that excess amount. If an amount less than the annual net lottery proceeds is transferred for a fiscal year, then after the related annual fiscal year audit is completed following such fiscal year, the Department shall direct the deposit of any remaining annual net lottery proceeds from such fiscal year, subject to payments under paragraphs (1) and (2), into the Common School Fund as soon thereafter as possible.

(b) The net lottery proceeds shall be determined by deducting from total annual lottery proceeds the expenditures required by paragraphs (1) and (2) of subsection (a). The total annual lottery proceeds and annual net lottery proceeds shall be determined according to generally accepted accounting principles for governmental entities and verified by an annual fiscal year audit.

Each member of the General Assembly is authorized to employ one or more legislative assistants, who shall be solely under the direction and control of that member, for the purpose of assisting the member in the performance of his or her official duties. A legislative assistant may be employed pursuant to this Section as a full-time employee, part-time employee, or contractual employee, at the discretion of the member. If employed as a State employee, a legislative assistant shall receive employment benefits on the same terms and conditions that apply to other employees of the General Assembly. The policies shall also require legislative assistants to periodically submit time sheets documenting, in quarter-hour increments, the time spent each day on official State business. The policies shall require the time sheets to be submitted on paper, electronically, or both and to be maintained in either paper or electronic format by the applicable fiscal office for a period of at least 2 years. Contractual employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement. A member may satisfy the requirements of this paragraph by adopting and implementing the personnel policies promulgated by that member's legislative leader under the State Officials and Employees Ethics Act with respect to that member's legislative assistants.

Beginning July 1, 1989, as used in the Section, the term "travel" shall be limited to travel in connection with a member's legislative duties and not in connection with any political campaign. Beginning on the effective date of this amendatory Act of the 93rd General Assembly, as used in this Section, the term "printing" includes, but is not limited to, newsletters, brochures, certificates, congratulatory mailings, greeting or welcome messages, anniversary or birthday cards, and congratulations for prominent achievement cards. As used in this Section, the term "printing" includes fees for non-substantive resolutions charged by the Clerk of the House of Representatives under subsection (c-5) of Section 1 of the Legislative Materials Act. No newsletter or brochure that is paid for, in whole or in part, with funds provided under this Section may be printed or mailed during a period beginning February 1 of the year of a general primary election, except that in 2022 the period shall begin on May 15, 2022, and ending the day after the general primary election and during a period beginning September 1 of the year of a general election and ending the day after the general election, except that such a newsletter or brochure may be mailed during those times if it is mailed to a constituent in response to that constituent's inquiry concerning the needs of that constituent or questions raised by that constituent. The printing or mailing of any newsletter or brochure paid for, in whole or in part, with funds under this Section between February 1, 2022 and the effective date of this amendatory Act of the 102nd General Assembly shall not be considered a violation of this Section. Nothing in this Section shall be construed to authorize expenditures for lodging and meals while a member is in attendance at sessions of the General Assembly.

Any utility bill for service provided to a member's district office for a period including portions of 2 consecutive fiscal years may be paid from funds appropriated for such expenditure in either fiscal year.

If a vacancy occurs in the office of Senator or Representative in the General Assembly, any office equipment in the possession of the vacating member shall transfer to the member's successor; if the successor does not want such equipment, it shall be transferred to the Secretary of the Senate or Clerk of the House of Representatives, as the case may be, and if not wanted by other members of the General Assembly then to the Department of Central Management Services for treatment as surplus property under the State Property Control Act. Such inventory shall be filed with the Secretary of the Senate or the Clerk of the House, as the case may be. Whenever a vacancy occurs, the Secretary of the Senate or the Clerk of the House, as the case may be, shall conduct an inventory of equipment purchased.

In the event that a member leaves office during his or her term, any unexpended or unobligated portion of the allowance granted under this Section shall lapse. The vacating member's successor shall be granted an allowance in an amount, rounded to the nearest dollar, computed by dividing the annual allowance by 365 and multiplying the quotient by the number of days remaining in the fiscal year.

From any appropriation for the purposes of this Section for a fiscal year which overlaps 2 General Assemblies, no more than 1/2 of the annual allowance per member may be spent or encumbered by any member of either the outgoing or incoming General Assembly, except that any member of the incoming General Assembly who was a member of the outgoing General Assembly may encumber or spend any portion of his annual allowance within the fiscal year.

The appropriation for the annual allowances permitted by this Section shall be included in an appropriation to the President of the Senate and to the Speaker of the House of Representatives for their respective members. The President of the Senate and the Speaker of the House shall voucher for payment individual members' expenditures from their annual office allowances to the State Comptroller, subject to the authority of the Comptroller under Section 9 of the State Comptroller Act.

Notwithstanding any provision of the law to the contrary, the General Assembly hereby authorizes the use of such funds for the purposes set forth in this Section.

These provisions do not apply to funds classified by the Comptroller as federal trust funds or State trust funds. The Audit Expense Fund may receive transfers from those trust funds only as directed herein, except where prohibited by the terms of the trust fund agreement. The Auditor General shall notify the trustees of those funds of the estimated cost of the audit to be incurred under the Illinois State Auditing Act for the fund. The trustees of those funds shall direct the State Comptroller and Treasurer to transfer the estimated amount to the Audit Expense Fund.

The Auditor General may bill entities that are not subject to the above transfer provisions, including private entities, related organizations and entities whose funds are locally-held, for the cost of audits, studies, and investigations incurred on their behalf. Any revenues received under this provision shall be deposited into the Audit Expense Fund.

In the event that moneys on deposit in any fund are unavailable, by reason of deficiency or any other reason preventing their lawful transfer, the State Comptroller shall order transferred and the State Treasurer shall transfer the amount deficient or otherwise unavailable from the General Revenue Fund for deposit into the Audit Expense Fund.

On or before December 1, 1992, and each December 1 thereafter, the Auditor General shall notify the Governor's Office of Management and Budget (formerly Bureau of the Budget) of the amount estimated to be necessary to pay for audits, studies, and investigations in accordance with the Illinois State Auditing Act during the next succeeding fiscal year for each State fund for which a transfer or reimbursement is anticipated.

Beginning with fiscal year 1994 and during each fiscal year thereafter, the Auditor General may direct the State Comptroller and Treasurer to transfer moneys from funds authorized by the General Assembly for that fund. In the event funds, including federal and State trust funds but excluding the General Revenue Fund, are transferred, during fiscal year 1994 and during each fiscal year thereafter, in excess of the amount to pay actual costs attributable to audits, studies, and investigations as permitted or required by the Illinois State Auditing Act or specific action of the General Assembly, the Auditor General shall, on September 30, or as soon thereafter as is practicable, direct the State Comptroller and Treasurer to transfer the excess amount back to the fund from which it was originally transferred.

Sec. 8.12. State Pensions Fund.

(a) The moneys in the State Pensions Fund shall be used exclusively for the administration of the Revised Uniform Unclaimed Property Act and for the expenses incurred by the Auditor General for administering the provisions of Section 2-8.1 of the Illinois State Auditing Act and for operational expenses of the Office of the State Treasurer and for the funding of the unfunded liabilities of the designated retirement systems. For the purposes of this Section, "operational expenses of the Office of the State Treasurer" includes the acquisition of land and buildings in State fiscal years 2019 and 2020 for use by the Office of the State Treasurer, as well as construction, reconstruction, improvement, repair, and maintenance, in accordance with the provisions of laws relating thereto, of such lands and buildings beginning in State fiscal year 2019 and thereafter. Beginning in State fiscal year ~~2024~~ ~~2023~~, payments to the designated retirement systems under this Section shall be in addition to, and not in lieu of, any State contributions required under the Illinois Pension Code.

"Designated retirement systems" means:

- (1) the State Employees' Retirement System of Illinois;
- (2) the Teachers' Retirement System of the State of Illinois;
- (3) the State Universities Retirement System;
- (4) the Judges Retirement System of Illinois; and
- (5) the General Assembly Retirement System.

(b) Each year the General Assembly may make appropriations from the State Pensions Fund for the administration of the Revised Uniform Unclaimed Property Act.

(c) As soon as possible after July 30, 2004 (the effective date of Public Act 93-839), the General Assembly shall appropriate from the State Pensions Fund (1) to the State Universities Retirement System the amount certified under Section 15-165 during the prior year, (2) to the Judges Retirement System of Illinois the amount certified under Section 18-140 during the prior year, and (3) to the General Assembly Retirement System the amount certified under Section 2-134 during the prior year as part of the required State contributions to each of those designated retirement systems. If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least \$5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years 2006 through ~~2023~~ ~~2022~~, the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below \$5,000,000.

(c-6) For fiscal year ~~2024~~ ~~2023~~ and each fiscal year thereafter, as soon as may be practical after any money is deposited into the State Pensions Fund from the Unclaimed Property Trust Fund, the State Treasurer shall apportion the deposited amount among the designated retirement systems as defined in subsection (a) to reduce their actuarial reserve deficiencies. The State Comptroller and State Treasurer shall pay the apportioned amounts to the designated retirement systems to fund the unfunded liabilities of the designated retirement systems. The amount apportioned to each designated retirement system shall constitute a portion of the amount estimated to be available for appropriation from the State Pensions Fund that is the same as that retirement system's portion of the total actual reserve deficiency of the systems, as

determined annually by the Governor's Office of Management and Budget at the request of the State Treasurer. The amounts apportioned under this subsection shall not reduce the amount in the State Pensions Fund below \$5,000,000.

(d) The Governor's Office of Management and Budget shall determine the individual and total reserve deficiencies of the designated retirement systems. For this purpose, the Governor's Office of Management and Budget shall utilize the latest available audit and actuarial reports of each of the retirement systems and the relevant reports and statistics of the Public Employee Pension Fund Division of the Department of Insurance.

Sec. 13.2. Transfers among line item appropriations.

(a) Transfers among line item appropriations from the same treasury fund for the objects specified in this Section may be made in the manner provided in this Section when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made.

(a-1) No transfers may be made from one agency to another agency, nor may transfers be made from one institution of higher education to another institution of higher education except as provided by subsection (a-4).

(a-2) Except as otherwise provided in this Section, transfers may be made only among the objects of expenditure enumerated in this Section, except that no funds may be transferred from any appropriation for personal services, from any appropriation for State contributions to the State Employees' Retirement System, from any separate appropriation for employee retirement contributions paid by the employer, nor from any appropriation for State contribution for employee group insurance.

(a-2.5) (Blank).

(a-3) Further, if an agency receives a separate appropriation for employee retirement contributions paid by the employer, any transfer by that agency into an appropriation for personal services must be accompanied by a corresponding transfer into the appropriation for employee retirement contributions paid by the employer, in an amount sufficient to meet the employer share of the employee contributions required to be remitted to the retirement system.

(a-4) Long-Term Care Rebalancing. The Governor may designate amounts set aside for institutional services appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services to be transferred to all State agencies responsible for the administration of community-based long-term care programs, including, but not limited to, community-based long-term care programs administered by the Department of Healthcare and Family Services, the Department of Human Services, and the Department on Aging, provided that the Director of Healthcare and Family Services first certifies that the amounts being transferred are necessary for the purpose of assisting persons in or at risk of being in institutional care to transition to community-based settings, including the financial data needed to prove the need for the transfer of funds. The total amounts transferred shall not exceed 4% in total of the amounts appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services for each fiscal year. A notice of the fund transfer must be made to the General Assembly and posted at a minimum on the Department of Healthcare and Family Services website, the Governor's Office of Management and Budget website, and any other website the Governor sees fit. These postings shall serve as notice to the General Assembly of the amounts to be transferred. Notice shall be given at least 30 days prior to transfer.

(b-4) Medical payments and child care payments may be made by the Department of Human Services (as successor to the Department of Public Aid) from appropriations for those purposes for any fiscal year, without regard to the fact that the medical or child care services being compensated for by such payment may have been rendered in a prior fiscal year; and payments may be made at the direction of the Department of Healthcare and Family Services (or successor agency) from the Health Insurance Reserve Fund without regard to any fiscal year limitations, except as required by subsection (j) of this Section. Beginning on June 30, 2021, medical and child care payments made by the Department of Human Services and payments made at the discretion of the Department of Healthcare and Family Services (or successor agency) from the Health Insurance Reserve Fund and payable from appropriations that have otherwise expired may be paid out of the expiring appropriation during the 4-month period ending at the close of business on October 31.

(b-5) Medical payments may be made by the Department of Human Services from its appropriations relating to substance abuse treatment services for any fiscal year, without regard to the fact that the medical services being compensated for by such payment may have been rendered in a prior fiscal year, provided the payments are made on a fee-for-service basis consistent with requirements established for Medicaid reimbursement by the Department of Healthcare and Family Services, except as required by subsection (j) of this Section. Beginning on June 30, 2021, medical payments made by the Department of Human Services relating to substance abuse treatment services payable from appropriations that have otherwise expired may be paid out of the expiring appropriation during the 4-month period ending at the close of business on October 31.

(b-9) (Blank).

(c) Further, payments may be made by the Department of Public Health and the Department of Human Services (acting as successor to the Department of Public Health under the Department of Human

Services Act) from their respective appropriations for grants for medical care to or on behalf of premature and high-mortality risk infants and their mothers and for grants for supplemental food supplies provided under the United States Department of Agriculture Women, Infants and Children Nutrition Program, for any fiscal year without regard to the fact that the services being compensated for by such payment may have been rendered in a prior fiscal year, except as required by subsection (j) of this Section. Beginning on June 30, 2021, payments made by the Department of Public Health and the Department of Human Services from their respective appropriations for grants for medical care to or on behalf of premature and high-mortality risk infants and their mothers and for grants for supplemental food supplies provided under the United States Department of Agriculture Women, Infants and Children Nutrition Program payable from appropriations that have otherwise expired may be paid out of the expiring appropriations during the 4-month period ending at the close of business on October 31.

(d) The Department of Public Health and the Department of Human Services (acting as successor to the Department of Public Health under the Department of Human Services Act) shall each annually submit to the State Comptroller, Senate President, Senate Minority Leader, Speaker of the House, House Minority Leader, and the respective Chairmen and Minority Spokesmen of the Appropriations Committees of the Senate and the House, on or before December 31, a report of fiscal year funds used to pay for services provided in any prior fiscal year. This report shall document by program or service category those expenditures from the most recently completed fiscal year used to pay for services provided in prior fiscal years.

(e) The Department of Healthcare and Family Services, the Department of Human Services (acting as successor to the Department of Public Aid), and the Department of Human Services making fee-for-service payments relating to substance abuse treatment services provided during a previous fiscal year shall each annually submit to the State Comptroller, Senate President, Senate Minority Leader, Speaker of the House, House Minority Leader, the respective Chairmen and Minority Spokesmen of the Appropriations Committees of the Senate and the House, on or before November 30, a report that shall document by program or service category those expenditures from the most recently completed fiscal year used to pay for (i) services provided in prior fiscal years and (ii) services for which claims were received in prior fiscal years.

(f) The Department of Human Services (as successor to the Department of Public Aid) shall annually submit to the State Comptroller, Senate President, Senate Minority Leader, Speaker of the House, House Minority Leader, and the respective Chairmen and Minority Spokesmen of the Appropriations Committees of the Senate and the House, on or before December 31, a report of fiscal year funds used to pay for services (other than medical care) provided in any prior fiscal year. This report shall document by program or service category those expenditures from the most recently completed fiscal year used to pay for services provided in prior fiscal years.

(g) In addition, each annual report required to be submitted by the Department of Healthcare and Family Services under subsection (e) shall include the following information with respect to the State's Medicaid program:

(1) Explanations of the exact causes of the variance between the previous year's estimated and actual liabilities.

(i) An agency which administers a fund classified by the Comptroller as an internal service fund may issue rules for:

(1) billing user agencies in advance for payments or authorized inter-fund transfers based on estimated charges for goods or services;

(2) issuing credits, refunding through inter-fund transfers, or reducing future inter-fund transfers during the subsequent fiscal year for all user agency payments or authorized inter-fund transfers received during the prior fiscal year which were in excess of the final amounts owed by the user agency for that period; and

(3) issuing catch-up billings to user agencies during the subsequent fiscal year for amounts remaining due when payments or authorized inter-fund transfers received from the user agency during the prior fiscal year were less than the total amount owed for that period.

User agencies are authorized to reimburse internal service funds for catch-up billings by vouchers drawn against their respective appropriations for the fiscal year in which the catch-up billing was issued or by increasing an authorized inter-fund transfer during the current fiscal year. For the purposes of this Act, "inter-fund transfers" means transfers without the use of the voucher-warrant process, as authorized by Section 9.01 of the State Comptroller Act.

(i-1) Beginning on July 1, 2021, all outstanding liabilities, not payable during the 4-month lapse period as described in subsections (b-1), (b-3), (b-4), (b-5), and (c) of this Section, that are made from appropriations for that purpose for any fiscal year, without regard to the fact that the services being compensated for by those payments may have been rendered in a prior fiscal year, are limited to only those claims that have been incurred but for which a proper bill or invoice as defined by the State Prompt Payment Act has not been received by September 30th following the end of the fiscal year in which the service was rendered.

(j) Notwithstanding any other provision of this Act, the aggregate amount of payments to be made without regard for fiscal year limitations as contained in subsections (b-1), (b-3), (b-4), (b-5), and (c) of this Section, and determined by using Generally Accepted Accounting Principles, shall not exceed the following amounts:

- (6) \$2,600,000,000 for outstanding liabilities related to fiscal year 2017;
- (7) \$2,000,000,000 for outstanding liabilities related to fiscal year 2018;
- (8) \$1,300,000,000 for outstanding liabilities related to fiscal year 2019;
- (9) \$600,000,000 for outstanding liabilities related to fiscal year 2020; and
- (10) \$0 for outstanding liabilities related to fiscal year 2021 and fiscal years thereafter.

(2) Limitations on Medical Assistance payments that may be paid from future fiscal year appropriations.

(A) The maximum amounts of annual unpaid Medical Assistance bills received and recorded by the Department of Healthcare and Family Services on or before June 30th of a particular fiscal year attributable in aggregate to the General Revenue Fund, Healthcare Provider Relief Fund, Tobacco Settlement Recovery Fund, Long-Term Care Provider Fund, and the Drug Rebate Fund that may be paid in total by the Department from future fiscal year Medical Assistance appropriations to those funds are: \$700,000,000 for fiscal year 2013 and \$100,000,000 for fiscal year 2014 and each fiscal year thereafter.

(B) Bills for Medical Assistance services rendered in a particular fiscal year, but received and recorded by the Department of Healthcare and Family Services after June 30th of that fiscal year, may be paid from either appropriations for that fiscal year or future fiscal year appropriations for Medical Assistance. Such payments shall not be subject to the requirements of subparagraph (A).

(C) Medical Assistance bills received by the Department of Healthcare and Family Services in a particular fiscal year, but subject to payment amount adjustments in a future fiscal year may be paid from a future fiscal year's appropriation for Medical Assistance. Such payments shall not be subject to the requirements of subparagraph (A).

(D) Medical Assistance payments made by the Department of Healthcare and Family Services from funds other than those specifically referenced in subparagraph (A) may be made from appropriations for those purposes for any fiscal year without regard to the fact that the Medical Assistance services being compensated for by such payment may have been rendered in a prior fiscal year. Such payments shall not be subject to the requirements of subparagraph (A).

(3) Extended lapse period for Department of Healthcare and Family Services Medical Assistance payments. Notwithstanding any other State law to the contrary, outstanding Department of Healthcare and Family Services Medical Assistance liabilities, as of June 30th, payable from appropriations which have otherwise expired, may be paid out of the expiring appropriations during the 4-month period ending at the close of business on October 31st.

Section 5-40. The State Revenue Sharing Act is amended by changing Section 12 as follows:  
(30 ILCS 115/12) (from Ch. 85, par. 616)

Sec. 12. Personal Property Tax Replacement Fund. There is hereby created the Personal Property Tax Replacement Fund, a special fund in the State Treasury into which shall be paid all revenue realized:

(a) all amounts realized from the additional personal property tax replacement income tax imposed by subsections (c) and (d) of Section 201 of the Illinois Income Tax Act, except for those amounts deposited into the Income Tax Refund Fund pursuant to subsection (c) of Section 901 of the Illinois Income Tax Act; and

(b) all amounts realized from the additional personal property replacement invested capital taxes imposed by Section 2a.1 of the Messages Tax Act, Section 2a.1 of the Gas Revenue Tax Act, Section 2a.1 of the Public Utilities Revenue Act, and Section 3 of the Water Company Invested Capital Tax Act, and amounts payable to the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act.

As soon as may be after the end of each month, the Department of Revenue shall certify to the Treasurer and the Comptroller the amount of all refunds paid out of the General Revenue Fund through the preceding month on account of overpayment of liability on taxes paid into the Personal Property Tax Replacement Fund. Upon receipt of such certification, the Treasurer and the Comptroller shall transfer the amount so certified from the Personal Property Tax Replacement Fund into the General Revenue Fund.

The payments of revenue into the Personal Property Tax Replacement Fund shall be used exclusively for distribution to taxing districts, regional offices and officials, and local officials as provided in this Section and in the School Code, payment of the ordinary and contingent expenses of the Property Tax Appeal Board, payment of the expenses of the Department of Revenue incurred in administering the collection and distribution of monies paid into the Personal Property Tax Replacement Fund and transfers due to refunds to taxpayers for overpayment of liability for taxes paid into the Personal Property Tax Replacement Fund.

In addition, moneys in the Personal Property Tax Replacement Fund may be used to pay any of the following: (i) salary, stipends, and additional compensation as provided by law for chief election clerks, county clerks, and county recorders; (ii) costs associated with regional offices of education and educational service centers; (iii) reimbursements payable by the State Board of Elections under Section 4-25, 5-35, 6-71, 13-10, 13-10a, or 13-11 of the Election Code; (iv) expenses of the Illinois Educational Labor Relations Board; and (v) salary, personal services, and additional compensation as provided by law for court reporters under the Court Reporters Act.

As soon as may be after June 26, 1980 (the effective date of Public Act 81-1255), the Department of Revenue shall certify to the Treasurer the amount of net replacement revenue paid into the General Revenue

Fund prior to that effective date from the additional tax imposed by Section 2a.1 of the Messages Tax Act; Section 2a.1 of the Gas Revenue Tax Act; Section 2a.1 of the Public Utilities Revenue Act; Section 3 of the Water Company Invested Capital Tax Act; amounts collected by the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act; and the additional personal property tax replacement income tax imposed by the Illinois Income Tax Act, as amended by Public Act 81-1st Special Session-1. Net replacement revenue shall be defined as the total amount paid into and remaining in the General Revenue Fund as a result of those Acts minus the amount outstanding and obligated from the General Revenue Fund in state vouchers or warrants prior to June 26, 1980 (the effective date of Public Act 81-1255) as refunds to taxpayers for overpayment of liability under those Acts.

All interest earned by monies accumulated in the Personal Property Tax Replacement Fund shall be deposited in such Fund. All amounts allocated pursuant to this Section are appropriated on a continuing basis.

Prior to December 31, 1980, as soon as may be after the end of each quarter beginning with the quarter ending December 31, 1979, and on and after December 31, 1980, as soon as may be after January 1, March 1, April 1, May 1, July 1, August 1, October 1 and December 1 of each year, the Department of Revenue shall allocate to each taxing district as defined in Section 1-150 of the Property Tax Code, in accordance with the provisions of paragraph (2) of this Section the portion of the funds held in the Personal Property Tax Replacement Fund which is required to be distributed, as provided in paragraph (1), for each quarter. Provided, however, under no circumstances shall any taxing district during each of the first two years of distribution of the taxes imposed by Public Act 81-1st Special Session-1 be entitled to an annual allocation which is less than the funds such taxing district collected from the 1978 personal property tax. Provided further that under no circumstances shall any taxing district during the third year of distribution of the taxes imposed by Public Act 81-1st Special Session-1 receive less than 60% of the funds such taxing district collected from the 1978 personal property tax. In the event that the total of the allocations made as above provided for all taxing districts, during either of such 3 years, exceeds the amount available for distribution the allocation of each taxing district shall be proportionately reduced. Except as provided in Section 13 of this Act, the Department shall then certify, pursuant to appropriation, such allocations to the State Comptroller who shall pay over to the several taxing districts the respective amounts allocated to them.

Any township which receives an allocation based in whole or in part upon personal property taxes which it levied pursuant to Section 6-507 or 6-512 of the Illinois Highway Code and which was previously required to be paid over to a municipality shall immediately pay over to that municipality a proportionate share of the personal property replacement funds which such township receives.

Any municipality or township, other than a municipality with a population in excess of 500,000, which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Sections 3-1, 3-4 and 3-6 of the Illinois Local Library Act and which was previously required to be paid over to a public library shall immediately pay over to that library a proportionate share of the personal property tax replacement funds which such municipality or township receives; provided that if such a public library has converted to a library organized under the Illinois Public Library District Act, regardless of whether such conversion has occurred on, after or before January 1, 1988, such proportionate share shall be immediately paid over to the library district which maintains and operates the library. However, any library that has converted prior to January 1, 1988, and which hitherto has not received the personal property tax replacement funds, shall receive such funds commencing on January 1, 1988.

Any township which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Section 1c of the Public Graveyards Act and which taxes were previously required to be paid over to or used for such public cemetery or cemeteries shall immediately pay over to or use for such public cemetery or cemeteries a proportionate share of the personal property tax replacement funds which the township receives.

Any taxing district which receives an allocation based in whole or in part upon personal property taxes which it levied for another governmental body or school district in Cook County in 1976 or for another governmental body or school district in the remainder of the State in 1977 shall immediately pay over to that governmental body or school district the amount of personal property replacement funds which such governmental body or school district would receive directly under the provisions of paragraph (2) of this Section, had it levied its own taxes.

(1) The portion of the Personal Property Tax Replacement Fund required to be distributed as of the time allocation is required to be made shall be the amount available in such Fund as of the time allocation is required to be made.

The amount available for distribution shall be the total amount in the fund at such time minus the necessary administrative and other authorized expenses as limited by the appropriation and the amount determined by: (a) \$2.8 million for fiscal year 1981; (b) for fiscal year 1982, .54% of the funds distributed from the fund during the preceding fiscal year; (c) for fiscal year 1983 through fiscal year 1988, .54% of the funds distributed from the fund during the preceding fiscal year less .02% of such fund for fiscal year 1983 and less .02% of such funds for each fiscal year thereafter; (d) for fiscal year 1989 through fiscal year 2011 no more than 105% of the actual administrative expenses of the prior fiscal year; (e) for fiscal year 2012 and beyond, a sufficient amount to pay (i) stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for local officials as authorized or required by statute and (ii) the ordinary and contingent expenses of the Property Tax Appeal Board and the expenses of the Department of Revenue incurred in administering the collection and distribution of moneys paid into the Fund; (f) for fiscal years 2012 and 2013 only, a sufficient amount to pay stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for regional offices and officials as authorized or required by statute; or (g) for fiscal years 2018 through 2023 ~~2022~~ only, a sufficient amount to pay amounts directed to be paid out of this Fund for public community college base operating grants and local health protection grants to certified local health departments as authorized or required by appropriation or statute. Such portion of the fund shall be determined after the transfer into the General Revenue Fund due to refunds, if any, paid from the General Revenue Fund during the preceding quarter. If at any time, for any reason, there is insufficient amount in the Personal Property Tax Replacement Fund for payments for regional offices and officials or local officials or payment of costs of administration or for transfers due to refunds at the end of any particular month, the amount of such insufficiency shall be carried over for the purposes of payments for regional offices and officials, local officials, transfers into the General Revenue Fund, and costs of administration to the following month or months. Net replacement revenue held, and defined above, shall be transferred by the Treasurer and Comptroller to the Personal Property Tax Replacement Fund within 10 days of such certification.

(2) Each quarterly allocation shall first be apportioned in the following manner: 51.65% for taxing districts in Cook County and 48.35% for taxing districts in the remainder of the State.

The Personal Property Replacement Ratio of each taxing district outside Cook County shall be the ratio which the Tax Base of that taxing district bears to the Downstate Tax Base. The Tax Base of each taxing district outside of Cook County is the personal property tax collections for that taxing district for the 1977 tax year. The Downstate Tax Base is the personal property tax collections for all taxing districts in the State outside of Cook County for the 1977 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district outside Cook County for the 1977 tax year.

The Personal Property Replacement Ratio of each Cook County taxing district shall be the ratio which the Tax Base of that taxing district bears to the Cook County Tax Base. The Tax Base of each Cook County taxing district is the personal property tax collections for that taxing district for the 1976 tax year. The Cook County Tax Base is the personal property tax collections for all taxing districts in Cook County for the 1976 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district within Cook County for the 1976 tax year.

For all purposes of this Section 12, amounts paid to a taxing district for such tax years as may be applicable by a foreign corporation under the provisions of Section 7-202 of the Public Utilities Act, as amended, shall be deemed to be personal property taxes collected by such taxing district for such tax years as may be applicable. The Director shall determine from the Illinois Commerce Commission, for any tax year as may be applicable, the amounts so paid by any such foreign corporation to any and all taxing districts. The Illinois Commerce Commission shall furnish such information to the Director. For all purposes of this Section 12, the Director shall deem such amounts to be collected personal property taxes of each such taxing district for the applicable tax year or years.

Taxing districts located both in Cook County and in one or more other counties shall receive both a Cook County allocation and a Downstate allocation determined in the same way as all other taxing districts.

If any taxing district in existence on July 1, 1979 ceases to exist, or discontinues its operations, its Tax Base shall thereafter be deemed to be zero. If the powers, duties and obligations of the discontinued taxing district are assumed by another taxing district, the Tax Base of the discontinued taxing district shall be added to the Tax Base of the taxing district assuming such powers, duties and obligations.

If two or more taxing districts in existence on July 1, 1979, or a successor or successors thereto shall consolidate into one taxing district, the Tax Base of such consolidated taxing district shall be the sum of the Tax Bases of each of the taxing districts which have consolidated.

If a single taxing district in existence on July 1, 1979, or a successor or successors thereto shall be divided into two or more separate taxing districts, the tax base of the taxing district so divided shall be allocated to each of the resulting taxing districts in proportion to the then current equalized assessed value of each resulting taxing district.

If a portion of the territory of a taxing district is disconnected and annexed to another taxing district of the same type, the Tax Base of the taxing district from which disconnection was made shall be reduced in proportion to the then current equalized assessed value of the disconnected territory as compared with the then current equalized assessed value within the entire territory of the taxing district prior to disconnection, and the amount of such reduction shall be added to the Tax Base of the taxing district to which annexation is made.

If a community college district is created after July 1, 1979, beginning on January 1, 1996 (the effective date of Public Act 89-327), its Tax Base shall be 3.5% of the sum of the personal property tax collected for the 1977 tax year within the territorial jurisdiction of the district.

The amounts allocated and paid to taxing districts pursuant to the provisions of Public Act 81-1st Special Session-1 shall be deemed to be substitute revenues for the revenues derived from taxes imposed on personal property pursuant to the provisions of the "Revenue Act of 1939" or "An Act for the assessment and taxation of private car line companies", approved July 22, 1943, as amended, or Section 414 of the Illinois Insurance Code, prior to the abolition of such taxes and shall be used for the same purposes as the revenues derived from ad valorem taxes on real estate.

Monies received by any taxing districts from the Personal Property Tax Replacement Fund shall be first applied toward payment of the proportionate amount of debt service which was previously levied and collected from extensions against personal property on bonds outstanding as of December 31, 1978 and next applied toward payment of the proportionate share of the pension or retirement obligations of the taxing district which were previously levied and collected from extensions against personal property. For each such outstanding bond issue, the County Clerk shall determine the percentage of the debt service which was collected from extensions against real estate in the taxing district for 1978 taxes payable in 1979, as related to the total amount of such levies and collections from extensions against both real and personal property. For 1979 and subsequent years' taxes, the County Clerk shall levy and extend taxes against the real estate of each taxing district which will yield the said percentage or percentages of the debt service on such outstanding bonds. The balance of the amount necessary to fully pay such debt service shall constitute a first and prior lien upon the monies received by each such taxing district through the Personal Property Tax Replacement Fund and shall be first applied or set aside for such purpose. In counties having fewer than 3,000,000 inhabitants, the amendments to this paragraph as made by Public Act 81-1255 shall be first applicable to 1980 taxes to be collected in 1981.

Section 5-47. The Agricultural Fair Act is amended by changing Sections 5, 6, 10, and 13 as follows:  
(30 ILCS 120/5) (from Ch. 85, par. 655)

Sec. 5. To qualify for disbursements made by the Department from an appropriation made under provisions of this Act, each county fair should notify the Department in writing of its declaration of intent to participate by December 31 of the year preceding the year in which such distribution shall be made. The DeWitt County Fair shall qualify for disbursements made by the Department from an appropriation made under the provisions of this Act in fiscal years 2022 and 2023, subject to appropriation, and provided the DeWitt County Fair notifies the Department in writing of its declaration of intent to participate within 30 days after the effective date of this amendatory Act of the 102nd General Assembly. The notification shall state the following: facts of its organization, location, officers, dates of exhibitions and approximate amount of premiums to be offered.

(Source: P.A. 91-934, eff. 6-1-01.)

(30 ILCS 120/6) (from Ch. 85, par. 656)

Sec. 6. After August 20, 1971, the General Assembly and the Director shall approve the organization of new county fairs that shall be established for the purpose of holding annual fairs, provided that an element of such approval shall be an appropriation ~~in a separate bill~~ authorizing such fairs' participation in the disbursements provided for in this Act.

(Source: P.A. 81-159.)

(30 ILCS 120/10) (from Ch. 85, par. 660)

Sec. 10. (a) Effective with fiscal year 1987, each county fair's authorized base shall be set at 66 2/3% of the approved amount of premium paid in either fiscal year 1984 or 1985, whichever year has the largest approved amount. The authorized base of the Gallatin, Montgomery and Massac county fairs for fiscal years 1987 and 1988 shall be \$15,000 each. Subject to appropriation, the authorized base of the DeWitt County Fair for fiscal years 2022 and 2023 shall be \$20,000 each. If there is a change in the appropriation, the Director shall allocate to each fair the same percentages of that appropriation as it received of the authorized bases for all fairs.

(b) The Department shall reimburse each eligible county fair as follows:

100% of the first \$2,000 of approved premiums awarded at each eligible county fair;

85% of the next \$2,000;

75% of the next \$3,000;

65% of the next \$3,000;

55% of the next \$4,000; and

50% of the remaining premiums paid until the total reimbursement equals the authorized base amount for each fair.

(c) If, after all approved state aid claims are paid for the current year pursuant to subsection (b) of this Section, any amount remains in the appropriations for state aid, that remaining amount shall be distributed on a grant basis. If the total amount of excess approved state aid claims over the authorized base is equal to or less than the remaining amount appropriated for state aid, then each participating fair shall receive a grant equivalent to the excess of its approved claim over its authorized base. If the total amount of excess approved state aid claims exceeds the remaining monies appropriated for state aid, the grants shall be distributed to the participating fairs in proportion to the total amounts of their respective excess approved claims. If, after all approved claims are paid, any amount remains, that amount shall be distributed to all county fairs eligible under this Section in proportion to their total state aid claims. Fairs filing approved claims exceeding both their authorized base and the grant provided for in this subsection shall participate in the Growth Incentive Program set forth in Section 10.1.

Grant monies received by a county fair shall be used only for premiums, awards, judge's fees, and other expenses incurred by the fair which are directly related to the operation of the fair and approved by regulation of the Department. Each fair shall file with the Department a fiscal accounting of the expenditure of the grant monies received under this subsection each year at the same time it files its report under Section 12 in relation to the fair held in the next succeeding year.

Effective with fiscal year 1989 and each odd numbered fiscal year thereafter, the authorized base of all participating county fairs shall be adjusted by applying 66 2/3% to the amount of approved premiums paid in the highest of the previous 2 fiscal years.

(30 ILCS 120/13) (from Ch. 85, par. 663)

Sec. 13. Rehabilitation. Except as otherwise allowed by the Director, to qualify for disbursements made by the Department from an appropriation made under the provisions of this Section, the land on which the fair is held must be owned by the county fair board participating in this disbursement or by a State, city, village, or county government body, or be held under a lease that is at least 20 years in duration, the terms of which require the lessee to have continuous possession of the land during every day of the lease period. No county fair shall qualify for disbursements made by the Department from an appropriation made under the provisions of this Section unless it shall have notified the Department in writing of its intent to participate prior to obligating any funds for which reimbursement will be requested. Each county fair shall be reimbursed annually for that part of the amount expended by the fair during the year for liability and casualty insurance, as provided in this Section, and the rehabilitation of its grounds, including major construction projects and minor maintenance and repair projects; as follows:

100% of the first \$5,000 or any part thereof;

75% of the next \$20,000 or any part thereof;

50% of the next \$20,000 or any part thereof.

The lesser of either \$20,000 or 50% of the amount received by a county fair pursuant to this Section may be expended for liability and casualty insurance.

The maximum amount the DeWitt County Fair may be reimbursed in each of fiscal years 2022 and 2023, subject to appropriation, is \$13,250.

If a county fair expends more than is needed in any year for approved projects to maximize State reimbursement under this Section and provides itemized receipts and other evidence of expenditures for that year, any excess may be carried over to the succeeding year. The amount carried over shall constitute a claim for reimbursement for a subsequent period not to exceed 7 years as long as funds are available.

Before June 30 of each year, the president and secretary of each county fair which has participated in this program shall file with the Department a sworn statement of the amount expended during the period July 1 to June 30 of the State's fiscal year, accompanied by itemized receipts and other evidence of expenditures. Section 5-65. The Motor Fuel Tax Law is amended by changing Section 8 as follows:

(35 ILCS 505/8) (from Ch. 120, par. 424)

Sec. 8. Except as provided in subsection (a-1) of this Section, Section 8a, subdivision (h)(1) of Section 12a, Section 13a.6, and items 13, 14, 15, and 16 of Section 15, all money received by the Department under this Act, including payments made to the Department by member jurisdictions participating in the International Fuel Tax Agreement, shall be deposited in a special fund in the State treasury, to be known as the "Motor Fuel Tax Fund", and shall be used as follows:

(a) 2 1/2 cents per gallon of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be transferred to the State Construction Account Fund in the State Treasury; the remainder of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be deposited into the Road Fund;

(a-1) Beginning on July 1, 2019, an amount equal to the amount of tax collected under subsection (a) of Section 2 as a result of the increase in the tax rate under Public Act 101-32 shall be transferred each month into the Transportation Renewal Fund;

(b) \$420,000 shall be transferred each month to the State Boating Act Fund to be used by the Department of Natural Resources for the purposes specified in Article X of the Boat Registration and Safety Act;

(c) \$3,500,000 shall be transferred each month to the Grade Crossing Protection Fund to be used as follows: not less than \$12,000,000 each fiscal year shall be used for the construction or reconstruction of rail highway grade separation structures; ~~\$5,500,000 in fiscal year 2022 \$2,250,000 in fiscal years 2004 through 2009 and \$2,000,000 in fiscal year 2010~~ and each fiscal year thereafter shall be transferred to the Transportation Regulatory Fund ~~and shall be accounted for as part of the rail carrier portion of such funds~~ and shall be used to pay the cost of administration of the Illinois Commerce Commission's railroad safety program in connection with its duties under subsection (3) of Section 18c-7401 of the Illinois Vehicle Code, with the remainder to be used by the Department of Transportation upon order of the Illinois Commerce Commission, to pay that part of the cost apportioned by such Commission to the State to cover the interest of the public in the use of highways, roads, streets, or pedestrian walkways in the county highway system, township and district road system, or municipal street system as defined in the Illinois Highway Code, as the same may from time to time be amended, for separation of grades, for installation, construction or reconstruction of crossing protection or reconstruction, alteration, relocation including construction or improvement of any existing highway necessary for access to property or improvement of any grade crossing and grade crossing surface including the necessary highway approaches thereto of any railroad across the highway or public road, or for the installation, construction, reconstruction, or maintenance of safety treatments to deter trespassing or a pedestrian walkway over or under a railroad right-of-way, as provided for in and in accordance with Section 18c-7401 of the Illinois Vehicle Code. The Commission may order up to \$2,000,000 per year in Grade Crossing Protection Fund moneys for the improvement of grade crossing surfaces and up to \$300,000 per year for the maintenance and renewal of 4-quadrant gate vehicle detection systems located at non-high speed rail grade crossings. In entering orders for projects for which payments from the Grade Crossing Protection Fund will be made, the Commission shall account for expenditures authorized by the orders on a cash rather than an accrual basis. For purposes of this requirement an "accrual basis" assumes that the total cost of the project is expended in the fiscal year in which the order is entered, while a "cash basis" allocates the cost of the project among fiscal years as expenditures are actually made. To meet the requirements of this subsection, the Illinois Commerce Commission shall develop annual and 5-year project plans of rail crossing capital improvements that will be paid for with moneys from the Grade Crossing Protection Fund. The annual project plan shall identify projects for the succeeding fiscal year and the 5-year project plan shall identify projects for the 5 directly succeeding fiscal years. The Commission shall submit the annual and 5-year project plans for this Fund to the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives on the first Wednesday in April of each year;

[April 8, 2022]

(d) of the amount remaining after allocations provided for in subsections (a), (a-1), (b), and (c), a sufficient amount shall be reserved to pay all of the following:

(1) the costs of the Department of Revenue in administering this Act;

(2) the costs of the Department of Transportation in performing its duties imposed by the Illinois Highway Code for supervising the use of motor fuel tax funds apportioned to municipalities, counties and road districts;

(3) refunds provided for in Section 13, refunds for overpayment of decal fees paid under Section 13a.4 of this Act, and refunds provided for under the terms of the International Fuel Tax Agreement referenced in Section 14a;

(4) from October 1, 1985 until June 30, 1994, the administration of the Vehicle Emissions Inspection Law, which amount shall be certified monthly by the Environmental Protection Agency to the State Comptroller and shall promptly be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund to the Vehicle Inspection Fund, and for the period July 1, 1994 through June 30, 2000, one-twelfth of \$25,000,000 each month, for the period July 1, 2000 through June 30, 2003, one-twelfth of \$30,000,000 each month, and \$15,000,000 on July 1, 2003, and \$15,000,000 on January 1, 2004, and \$15,000,000 on each July 1 and October 1, or as soon thereafter as may be practical, during the period July 1, 2004 through June 30, 2012, and \$30,000,000 on June 1, 2013, or as soon thereafter as may be practical, and \$15,000,000 on July 1 and October 1, or as soon thereafter as may be practical, during the period of July 1, 2013 through June 30, 2015, for the administration of the Vehicle Emissions Inspection Law of 2005, to be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund into the Vehicle Inspection Fund;

(4.5) beginning on July 1, 2019, the costs of the Environmental Protection Agency for the administration of the Vehicle Emissions Inspection Law of 2005 shall be paid, subject to appropriation, from the Motor Fuel Tax Fund into the Vehicle Inspection Fund; beginning in 2019, no later than December 31 of each year, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer from the Vehicle Inspection Fund to the Motor Fuel Tax Fund any balance remaining in the Vehicle Inspection Fund in excess of \$2,000,000;

(5) amounts ordered paid by the Court of Claims; and

(6) payment of motor fuel use taxes due to member jurisdictions under the terms of the International Fuel Tax Agreement. The Department shall certify these amounts to the Comptroller by the 15th day of each month; the Comptroller shall cause orders to be drawn for such amounts, and the Treasurer shall administer those amounts on or before the last day of each month;

(e) after allocations for the purposes set forth in subsections (a), (a-1), (b), (c), and (d), the remaining amount shall be apportioned as follows:

(1) Until January 1, 2000, 58.4%, and beginning January 1, 2000, 45.6% shall be deposited as follows:

(A) 37% into the State Construction Account Fund, and

(B) 63% into the Road Fund, \$1,250,000 of which shall be reserved each month for the Department of Transportation to be used in accordance with the provisions of Sections 6-901 through 6-906 of the Illinois Highway Code;

(2) Until January 1, 2000, 41.6%, and beginning January 1, 2000, 54.4% shall be transferred to the Department of Transportation to be distributed as follows:

(A) 49.10% to the municipalities of the State,

(B) 16.74% to the counties of the State having 1,000,000 or more inhabitants,

(C) 18.27% to the counties of the State having less than 1,000,000 inhabitants,

(D) 15.89% to the road districts of the State.

If a township is dissolved under Article 24 of the Township Code, McHenry County shall receive any moneys that would have been distributed to the township under this subparagraph, except that a municipality that assumes the powers and responsibilities of a road district under paragraph (6) of Section 24-35 of the Township Code shall receive any moneys that would have been distributed to the township in a percent equal to the area of the dissolved road district or portion of the dissolved road district over which the municipality assumed the powers and responsibilities compared to the total area of the dissolved township. The moneys received under this subparagraph shall be used in the geographic area of the dissolved township. If a township is reconstituted as provided under Section 24-45 of the Township Code, McHenry County or a municipality shall no longer be distributed moneys under this subparagraph.

As soon as may be after the first day of each month, the Department of Transportation shall allot to each municipality its share of the amount apportioned to the several municipalities which shall be in proportion to the population of such municipalities as determined by the last preceding municipal census if conducted by the Federal Government or Federal census. If territory is annexed to any municipality subsequent to the time of the last preceding census the corporate authorities of such municipality may cause a census to be taken of such annexed territory and the population so ascertained for such territory shall be added to the population of the municipality as determined by the last preceding census for the purpose of determining the allotment for that municipality. If the population of any municipality was not determined by the last Federal census preceding any apportionment, the apportionment to such municipality shall be in accordance with any census taken by such municipality. Any municipal census used in accordance with this Section shall be certified to the Department of Transportation by the clerk of such municipality, and the accuracy thereof shall be subject to approval of the Department which may make such corrections as it ascertains to be necessary.

As soon as may be after the first day of each month, the Department of Transportation shall allot to each county its share of the amount apportioned to the several counties of the State as herein provided. Each allotment to the several counties having less than 1,000,000 inhabitants shall be in proportion to the amount of motor vehicle license fees received from the residents of such counties, respectively, during the preceding calendar year. The Secretary of State shall, on or before April 15 of each year, transmit to the Department of Transportation a full and complete report showing the amount of motor vehicle license fees received from the residents of each county, respectively, during the preceding calendar year. The Department of Transportation shall, each month, use for allotment purposes the last such report received from the Secretary of State.

As soon as may be after the first day of each month, the Department of Transportation shall allot to the several counties their share of the amount apportioned for the use of road districts. The allotment shall be apportioned among the several counties in the State in the proportion which the total mileage of township or district roads in the respective counties bears to the total mileage of all township and district roads in the State. Funds allotted to the respective counties for the use of road districts therein shall be allocated to the several road districts in the county in the proportion which the total mileage of such township or district roads in the respective road districts bears to the total mileage of all such township or district roads in the county. After July 1 of any year prior to 2011, no allocation shall be made for any road district unless it levied a tax for road and bridge purposes in an amount which will require the extension of such tax against the taxable property in any such road district at a rate of not less than either .08% of the value thereof, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less. Beginning July 1, 2011 and each July 1 thereafter, an allocation shall be made for any road district if it levied a tax for road and bridge purposes. In counties other than DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than 0.08% of the value thereof, based upon the assessment for the year immediately prior to the year in which the tax was levied and as equalized by the Department of Revenue, then the amount of the allocation for that road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by 0.08%. In DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than the lesser of (i) 0.08% of the value of the taxable property in the road district, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue, or (ii) a rate that will yield an amount equal to \$12,000 per mile of road under the jurisdiction of the road district, then the amount of the allocation for the road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by the lesser of (i) 0.08% or (ii) the rate that will yield an amount equal to \$12,000 per mile of road under the jurisdiction of the road district.

Prior to 2011, if any road district has levied a special tax for road purposes pursuant to Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and such tax was levied in an amount which would require extension at a rate of not less than .08% of the value of the taxable property thereof, as equalized or assessed by the Department of Revenue, or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such road district for an allotment under this Section. Beginning in 2011 and thereafter, if any road district has levied a special tax for road purposes under

Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and the tax was levied in an amount that would require extension at a rate of not less than 0.08% of the value of the taxable property of that road district, as equalized or assessed by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less, that levy shall be deemed a proper compliance with this Section and shall qualify such road district for a full, rather than proportionate, allotment under this Section. If the levy for the special tax is less than 0.08% of the value of the taxable property, or, in DuPage County if the levy for the special tax is less than the lesser of (i) 0.08% or (ii) \$12,000 per mile of road under the jurisdiction of the road district, and if the levy for the special tax is more than any other levy for road and bridge purposes, then the levy for the special tax qualifies the road district for a proportionate, rather than full, allotment under this Section. If the levy for the special tax is equal to or less than any other levy for road and bridge purposes, then any allotment under this Section shall be determined by the other levy for road and bridge purposes.

Prior to 2011, if a township has transferred to the road and bridge fund money which, when added to the amount of any tax levy of the road district would be the equivalent of a tax levy requiring extension at a rate of at least .08%, or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less, such transfer, together with any such tax levy, shall be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this Section.

In counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel tax allotment or, beginning in 2011, their entitlement to a full allotment if, at the time the property tax extension limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor fuel tax allotment and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. Any road district may in all circumstances retain its entitlement to a motor fuel tax allotment or, beginning in 2011, its entitlement to a full allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the taxable property in the road district at a rate of not less than 0.08% of the assessed value of the property, based upon the assessment for the year immediately preceding the year in which the tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than \$12,000 per mile of road under the jurisdiction of the road district, whichever is less.

As used in this Section, the term "road district" means any road district, including a county unit road district, provided for by the Illinois Highway Code; and the term "township or district road" means any road in the township and district road system as defined in the Illinois Highway Code. For the purposes of this Section, "township or district road" also includes such roads as are maintained by park districts, forest preserve districts and conservation districts. The Department of Transportation shall determine the mileage of all township and district roads for the purposes of making allotments and allocations of motor fuel tax funds for use in road districts.

Payment of motor fuel tax moneys to municipalities and counties shall be made as soon as possible after the allotment is made. The treasurer of the municipality or county may invest these funds until their use is required and the interest earned by these investments shall be limited to the same uses as the principal funds.

(1) reviewing and relying on publicly available information regarding Iran-restricted companies, Sudan-restricted companies, and companies that boycott Israel, including information provided by nonprofit organizations, research firms, and government entities;

By July 1, 2022, the Illinois Investment Policy Board shall make its best efforts to identify all for-profit companies that contract to shelter migrant children and include those companies in the list of restricted companies distributed to each retirement system. These efforts shall include the following, as appropriate in the Illinois Investment Policy Board's judgment:

- (1) reviewing and relying on publicly available information regarding for-profit companies that contract to shelter migrant children, including information provided by nonprofit organizations, research firms, and government entities;
- (2) contacting asset managers contracted by the retirement systems that invest in for-profit companies that contract to shelter migrant children;

- (4) retaining an independent research firm to identify for-profit companies that contract to shelter migrant children.

(e) The Illinois Investment Policy Board shall adhere to the following procedures for companies on the list of restricted companies:

(1) For each company newly identified in subsection (d), the Illinois Investment Policy Board shall send a written notice informing the company of its status and that it may become subject to divestment or shareholder activism by the retirement systems.

(2) If, following the Illinois Investment Policy Board's engagement pursuant to this subsection (e) with a restricted company, that company ceases activity that designates the company to be an Iran-restricted company, a Sudan-restricted company, a company that boycotts Israel, an expatriated entity, or a for-profit company that contracts to shelter migrant children, the company shall be removed from the list of restricted companies and the provisions of this Section shall cease to apply to it unless it resumes such activities.

(f) Except as provided in subsection (f-1) of this Section the retirement system shall adhere to the following procedures for companies on the list of restricted companies:

(1) The retirement system shall identify those companies on the list of restricted companies in which the retirement system owns direct holdings and indirect holdings.

(2) The retirement system shall instruct its investment advisors to sell, redeem, divest, or withdraw all direct holdings of restricted companies from the retirement system's assets under management in an orderly and fiduciarily responsible manner within 12 months after the company's most recent appearance on the list of restricted companies.

(3) The retirement system may not acquire securities of restricted companies.

(4) The provisions of this subsection (f) do not apply to the retirement system's indirect holdings or private market funds. The Illinois Investment Policy Board shall submit letters to the managers of those investment funds containing restricted companies requesting that they consider removing the companies from the fund or create a similar actively managed fund having indirect holdings devoid of the companies. If the manager creates a similar fund, the retirement system shall replace all applicable investments with investments in the similar fund in an expedited timeframe consistent with prudent investing standards.

(f-1) The retirement system shall adhere to the following procedures for restricted companies that are expatriated entities or for-profit companies that contract to shelter migrant children:

(1) To the extent that the retirement system believes that shareholder activism would be more impactful than divestment, the retirement system shall have the authority to engage with a restricted company prior to divesting.

(2) Subject to any applicable State or Federal laws, methods of shareholder activism utilized by the retirement system may include, but are not limited to, bringing shareholder resolutions and proxy voting on shareholder resolutions.

(3) The retirement system shall report on its shareholder activism and the outcome of such efforts to the Illinois Investment Policy Board by April 1 of each year.

(4) If the engagement efforts of the retirement system are unsuccessful, then it shall adhere to the procedures under subsection (f) of this Section.

(g) Upon request, and by April 1 of each year, each retirement system shall provide the Illinois Investment Policy Board with information regarding investments sold, redeemed, divested, or withdrawn in compliance with this Section.

(h) Notwithstanding any provision of this Section to the contrary, a retirement system may cease divesting from companies pursuant to subsection (f) if clear and convincing evidence shows that the value of investments in such companies becomes equal to or less than 0.5% of the market value of all assets under management by the retirement system. For any cessation of divestment authorized by this subsection (h), the retirement system shall provide a written notice to the Illinois Investment Policy Board in advance of the cessation of divestment, setting forth the reasons and justification, supported by clear and convincing evidence, for its decision to cease divestment under subsection (f).

(i) The cost associated with the activities of the Illinois Investment Policy Board shall be borne by the boards of each pension fund or investment board created under Article 15, 16, or 22A of this Code.

(j) With respect to actions taken in compliance with this Section, including all good-faith determinations regarding companies as required by this Section, the retirement system and Illinois Investment Policy Board are exempt from any conflicting statutory or common law obligations, including any fiduciary duties under this Article and any obligations with respect to choice of asset managers, investment funds, or investments for the retirement system's securities portfolios.

(k) It is not the intent of the General Assembly in enacting this amendatory Act of the 99th General Assembly to cause divestiture from any company based in the United States of America. The Illinois Investment Policy Board shall consider this intent when developing or reviewing the list of restricted companies.

(l) If any provision of this amendatory Act of the 99th General Assembly or its application to any person or circumstance is held invalid, the invalidity of that provision or application does not affect other provisions or applications of this amendatory Act of the 99th General Assembly that can be given effect without the invalid provision or application.

If any provision of Public Act 100-551 or its application to any person or circumstance is held invalid, the invalidity of that provision or application does not affect other provisions or applications of Public Act 100-551 that can be given effect without the invalid provision or application.

If any provision of this amendatory Act of the 102nd General Assembly or its application to any person or circumstance is held invalid, the invalidity of that provision or application does not affect other provisions or applications of this amendatory Act of the 102nd General Assembly that can be given effect without the invalid provision or application.

(c) To acquire, own, construct, equip, lease, operate and maintain grounds, buildings and facilities to carry out its corporate purposes and duties, and to carry out or otherwise provide for the recreational, cultural, commercial or residential development of Navy Pier, and to fix and collect just, reasonable and nondiscriminatory charges for the use thereof. The charges so collected shall be made available to defray the reasonable expenses of the Authority and to pay the principal of and the interest upon any revenue bonds issued by the Authority. The Authority shall be subject to and comply with the Lake Michigan and Chicago Lakefront Protection Ordinance, the Chicago Building Code, the Chicago Zoning Ordinance, and all ordinances and regulations of the City of Chicago contained in the following Titles of the Municipal Code of Chicago: Businesses, Occupations and Consumer Protection; Health and Safety; Fire Prevention; Public Peace, Morals and Welfare; Utilities and Environmental Protection; Streets, Public Ways, Parks, Airports and Harbors; Electrical Equipment and Installation; Housing and Economic Development (only Chapter 5-4 thereof); and Revenue and Finance (only so far as such Title pertains to the Authority's duty to collect taxes on behalf of the City of Chicago).

Just compensation for property taken or acquired under this paragraph shall be paid in money or, notwithstanding any other provision of this Act and with the agreement of the owner of the property to be taken or acquired, the Authority may convey substitute property or interests in property or enter into agreements with the property owner, including leases, licenses, or concessions, with respect to any property owned by the Authority, or may provide for other lawful forms of just compensation to the owner. The Authority shall develop and implement a relocation plan for businesses displaced as a result of the Authority's acquisition of property. The relocation plan shall be substantially similar to provisions of the Uniform Relocation Assistance and Real Property Acquisition Act and regulations promulgated under that Act relating to assistance to displaced businesses. To implement the relocation plan the Authority may acquire property by purchase or gift or may exercise the powers authorized in this subsection (f), except the immediate vesting of title under Article 20 of the Eminent Domain Act, to acquire substitute private property within one mile of Site B for the benefit of displaced businesses located on property being acquired by the Authority. However, no such substitute property may be acquired by the Authority unless the mayor of the municipality in which the property is located certifies in writing that the acquisition is consistent with the municipality's land use and economic development policies and goals. In exercising the powers authorized in this subsection (f), the Authority shall use its best efforts to relocate businesses within the area of McCormick Place or, failing that, within the City of Chicago.

(g) To enter into contracts relating to construction projects which provide for the delivery by the contractor of a completed project, structure, improvement, or specific portion thereof, for a fixed maximum price, which contract may provide that the delivery of the project, structure, improvement, or specific portion thereof, for the fixed maximum price is insured or guaranteed by a third party capable of completing the construction.

Any contract for design and construction of the Expansion Project shall be in the form authorized by subsection (g), shall be for a fixed maximum price not in excess of the funds that are authorized to be made available for those purposes during the term of the contract, and shall be entered into before commencement of construction.

(k) To enter into agreements, including project agreements with labor unions, that the Authority deems necessary to complete the Expansion Project or any other construction or improvement project in the most timely and efficient manner and without strikes, picketing, or other actions that might cause disruption or delay and thereby add to the cost of the project.

(l) To provide incentives to organizations and entities that agree to make use of the grounds, buildings, and facilities of the Authority for conventions, meetings, or trade shows. The incentives may take the form of discounts from regular fees charged by the Authority, subsidies for or assumption of the costs incurred with respect to the convention, meeting, or trade show, or other inducements. The Authority shall award incentives to attract or retain conventions, meetings, and trade shows under the terms set forth in this subsection (l) from amounts appropriated to the Authority from the Metropolitan Pier and Exposition Authority Incentive Fund for this purpose.

No later than May 15 of each year, the Chief Executive Officer of the Metropolitan Pier and Exposition Authority shall certify to the State Comptroller and the State Treasurer the amounts of incentive grant funds used during the current fiscal year to provide incentives for conventions, meetings, or trade shows that:

(i) have been approved by the Authority, in consultation with an organization meeting the qualifications set out in Section 5.6 of this Act, provided the Authority has entered into a marketing agreement with such an organization,

(iii) in the case of subparagraphs (A) and (B) of paragraph (ii), but for the incentive, would not have used the facilities of the Authority for the convention, meeting, or trade show. The State Comptroller may request that the Auditor General conduct an audit of the accuracy of the certification. If the State Comptroller determines by this process of certification that incentive funds, in whole or in part, were disbursed by the Authority by means other than in accordance with the standards of this subsection (l), then any amount transferred to the Metropolitan Pier and Exposition Authority Incentive Fund shall be reduced during the next subsequent transfer in direct proportion to that amount determined to be in violation of the terms set forth in this subsection (l).

On July 15, 2012, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Metropolitan Pier and Exposition Authority Incentive Fund from the General Revenue Fund the sum of \$7,500,000 plus an amount equal to the incentive grant funds certified by the Chief Executive Officer as having been lawfully paid under the provisions of this Section in the previous 2 fiscal years that have not otherwise been transferred into the Metropolitan Pier and Exposition Authority Incentive Fund, provided that transfers in excess of \$15,000,000 shall not be made in any fiscal year.

On July 15, 2013, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Metropolitan Pier and Exposition Authority Incentive Fund from the General Revenue Fund the

sum of \$7,500,000 plus an amount equal to the incentive grant funds certified by the Chief Executive Officer as having been lawfully paid under the provisions of this Section in the previous fiscal year that have not otherwise been transferred into the Metropolitan Pier and Exposition Authority Incentive Fund, provided that transfers in excess of \$15,000,000 shall not be made in any fiscal year.

On July 15, 2014, and every year thereafter, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Metropolitan Pier and Exposition Authority Incentive Fund from the General Revenue Fund an amount equal to the incentive grant funds certified by the Chief Executive Officer as having been lawfully paid under the provisions of this Section in the previous fiscal year that have not otherwise been transferred into the Metropolitan Pier and Exposition Authority Incentive Fund, provided that (1) no transfers with respect to any previous fiscal year shall be made after the transfer has been made with respect to the 2017 fiscal year until the transfer that is made for the 2022 fiscal year and thereafter, and no transfers with respect to any previous fiscal year shall be made after the transfer has been made with respect to the 2026 fiscal year, and (2) transfers in excess of \$15,000,000 shall not be made in any fiscal year.

After a transfer has been made under this subsection (l), the Chief Executive Officer shall file a request for payment with the Comptroller evidencing that the incentive grants have been made and the Comptroller shall thereafter order paid, and the Treasurer shall pay, the requested amounts to the Metropolitan Pier and Exposition Authority.

Excluding any amounts related to the payment of costs associated with the mitigation of COVID-19 in accordance with this subsection (l), in no case shall more than \$5,000,000 be used in any one year by the Authority for incentives granted conventions, meetings, or trade shows with a registered attendance of (1) more than 5,000 and less than 10,000 prior to the 2022 fiscal year and after the 2024 fiscal year and (2) more than 3,000 and less than 5,000 for fiscal years 2022 through 2024. Amounts in the Metropolitan Pier and Exposition Authority Incentive Fund shall only be used by the Authority for incentives paid to attract or retain conventions, meetings, and trade shows as provided in this subsection (l).

(l-5) The Village of Rosemont shall provide incentives from amounts transferred into the Convention Center Support Fund to retain and attract conventions, meetings, or trade shows to the Donald E. Stephens Convention Center under the terms set forth in this subsection (l-5).

No later than May 15 of each year, the Mayor of the Village of Rosemont or his or her designee shall certify to the State Comptroller and the State Treasurer the amounts of incentive grant funds used during the previous fiscal year to provide incentives for conventions, meetings, or trade shows that (1) have been approved by the Village, (2) demonstrate registered attendance in excess of 5,000 individuals, and (3) but for the incentive, would not have used the Donald E. Stephens Convention Center facilities for the convention, meeting, or trade show. The State Comptroller may request that the Auditor General conduct an audit of the accuracy of the certification.

If the State Comptroller determines by this process of certification that incentive funds, in whole or in part, were disbursed by the Village by means other than in accordance with the standards of this subsection (l-5), then the amount transferred to the Convention Center Support Fund shall be reduced during the next subsequent transfer in direct proportion to that amount determined to be in violation of the terms set forth in this subsection (l-5).

On July 15, 2012, and each year thereafter, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Convention Center Support Fund from the General Revenue Fund the amount of \$5,000,000 for (i) incentives to attract large conventions, meetings, and trade shows to the Donald E. Stephens Convention Center, and (ii) to be used by the Village of Rosemont for the repair, maintenance, and improvement of the Donald E. Stephens Convention Center and for debt service on debt instruments issued for those purposes by the village. No later than 30 days after the transfer, the Comptroller shall order paid, and the Treasurer shall pay, to the Village of Rosemont the amounts transferred.

(m) To enter into contracts with any person conveying the naming rights or other intellectual property rights with respect to the grounds, buildings, and facilities of the Authority.

(n) To enter into grant agreements with the Chicago Convention and Tourism Bureau providing for the marketing of the convention facilities to large and small conventions, meetings, and trade shows and the promotion of the travel industry in the City of Chicago, provided such agreements meet the requirements of Section 5.6 of this Act. ~~13(f) of this amendatory Act of the 96th General Assembly~~ and, subject to appropriation to the Authority, funds deposited in the Chicago Travel Industry Promotion Fund pursuant to Section 6 of the Hotel Operators' Occupation Tax Act shall be granted to the Bureau for such purposes.

For Fiscal Year 2023 only, the Department of Commerce and Economic Opportunity shall enter into the grant agreements described in this subsection in place of the Authority. The grant agreements entered into by the Department and the Bureau under this subsection are not subject to the matching funds requirements or the other terms and conditions of Section 605-705 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois. Subject to appropriation, funds transferred into the Chicago Travel Industry Promotion Fund pursuant to subsection (f) of Section 6z-121 of the State Finance Act shall be granted to the Bureau for the purposes described in this subsection. Section 5-75. The School Code is amended by changing Sections 2-3.33, 2-3.192, and 18-8.15 as follows:

(105 ILCS 5/2-3.33) (from Ch. 122, par. 2-3.33)

Sec. 2-3.33. Recomputation of claims. To recompute within 3 years from the final date for filing of a claim any claim for general State aid reimbursement to any school district and one year from the final date for filing of a claim for evidence based funding if the claim has been found to be incorrect and to adjust subsequent claims accordingly, and to recompute and adjust any such claims within 6 years from the final date for filing when there has been an adverse court or administrative agency decision on the merits affecting the tax revenues of the school district. However, no such adjustment shall be made regarding equalized assessed valuation unless the district's equalized assessed valuation is changed by greater than \$250,000 or 2%. Any adjustments for claims recomputed for the 2016-2017 school year and prior school years shall be applied to the apportionment of evidence-based funding in Section 18-8.15 of this Code beginning in the 2017-2018 school year and thereafter. However, the recomputation of a claim for evidence-based funding for a school district shall not require the recomputation of claims for all districts, and the State Board of Education shall only make recomputations of evidence-based funding for those districts where an adjustment is required. The State Board is authorized to and shall apply corrections to data used in evidence-based funding calculations that may result in current year adjustments and shall recover funds previously scheduled to be distributed or previously distributed to an Organizational Unit or specially funded unit during a fiscal year in accordance with Section 18-8.15 of this Code.

Except in the case of an adverse court or administrative agency decision, no recomputation of a State aid claim shall be made pursuant to this Section as a result of a reduction in the assessed valuation of a school district from the assessed valuation of the district reported to the State Board of Education by the Department of Revenue under Section 18-8.05 or 18-8.15 of this Code unless the requirements of Section 16-15 of the Property Tax Code and Section 2-3.84 of this Code are complied with in all respects.

This paragraph applies to all requests for recomputation of a general State aid or evidence-based funding claim received after June 30, 2003. In recomputing a general State aid or evidence-based funding claim that was originally calculated using an extension limitation equalized assessed valuation under paragraph (3) of subsection (G) of Section 18-8.05 of this Code or Section 18-8.15 of this Code, a qualifying reduction in equalized assessed valuation shall be deducted from the extension limitation equalized assessed valuation that was used in calculating the original claim.

From the total amount of general State aid or evidence-based funding to be provided to districts, adjustments as a result of recomputation under this Section together with adjustments under Section 2-3.84 must not exceed \$25 million, in the aggregate for all districts under both Sections combined, of the general State aid or evidence-based funding appropriation in any fiscal year; if necessary, amounts shall be prorated among districts. If it is necessary to prorate claims under this paragraph, then that portion of each prorated claim that is approved but not paid in the current fiscal year may be resubmitted as a valid claim in the following fiscal year.

(1) The district has been affected by a recent substantial loss of contributions from a single taxpayer that resulted in either a significant loss of the overall district Equalized Assessed Value or a significant loss in property tax revenue from January 1, 2018 through the effective date of this amendatory Act of the 102nd General Assembly.

(2) The district's total equalized assessed value is significantly derived from a single taxpayer.

(105 ILCS 5/18-8.15)

Sec. 18-8.15. Evidence-Based Funding for student success for the 2017-2018 and subsequent school years.

(a) General provisions.

(1) The purpose of this Section is to ensure that, by June 30, 2027 and beyond, this State has a kindergarten through grade 12 public education system with the capacity to ensure the educational development of all persons to the limits of their capacities in accordance with Section 1 of Article X of the Constitution of the State of Illinois. To accomplish that objective, this Section creates a method of funding public education that is evidence-based; is sufficient to ensure every student receives a meaningful opportunity to learn irrespective of race, ethnicity, sexual orientation, gender, or community-income level; and is sustainable and predictable. When fully funded under this Section, every school shall have the resources, based on what the evidence indicates is needed, to:

(A) provide all students with a high quality education that offers the academic, enrichment, social and emotional support, technical, and career-focused programs that will allow them to become competitive workers, responsible parents, productive citizens of this State, and active members of our national democracy;

(B) ensure all students receive the education they need to graduate from high school with the skills required to pursue post-secondary education and training for a rewarding career;

(C) reduce, with a goal of eliminating, the achievement gap between at-risk and non-at-risk students by raising the performance of at-risk students and not by reducing standards; and

(D) ensure this State satisfies its obligation to assume the primary responsibility to fund public education and simultaneously relieve the disproportionate burden placed on local property taxes to fund schools.

(2) The Evidence-Based Funding formula under this Section shall be applied to all Organizational Units in this State. The Evidence-Based Funding formula outlined in this Act is based on the formula outlined in Senate Bill 1 of the 100th General Assembly, as passed by both legislative chambers. As further defined and described in this Section, there are 4 major components of the Evidence-Based Funding model:

(A) First, the model calculates a unique Adequacy Target for each Organizational Unit in this State that considers the costs to implement research-based activities, the unit's student demographics, and regional wage differences.

(B) Second, the model calculates each Organizational Unit's Local Capacity, or the amount each Organizational Unit is assumed to contribute toward its Adequacy Target from local resources.

(C) Third, the model calculates how much funding the State currently contributes to the Organizational Unit and adds that to the unit's Local Capacity to determine the unit's overall current adequacy of funding.

(D) Finally, the model's distribution method allocates new State funding to those Organizational Units that are least well-funded, considering both Local Capacity and State funding, in relation to their Adequacy Target.

(3) An Organizational Unit receiving any funding under this Section may apply those funds to any fund so received for which that Organizational Unit is authorized to make expenditures by law.

(4) As used in this Section, the following terms shall have the meanings ascribed in this paragraph (4):

"Adequacy Target" is defined in paragraph (1) of subsection (b) of this Section.

"Adjusted EAV" is defined in paragraph (4) of subsection (d) of this Section.

"Adjusted Local Capacity Target" is defined in paragraph (3) of subsection (c) of this Section.

"Adjusted Operating Tax Rate" means a tax rate for all Organizational Units, for which the State Superintendent shall calculate and subtract for the Operating Tax Rate a transportation rate based on total expenses for transportation services under this Code, as reported on the most recent Annual Financial Report in Pupil Transportation Services, function 2550 in both the Education and Transportation funds and functions 4110 and 4120 in the Transportation fund, less any corresponding fiscal year State of Illinois scheduled payments excluding net adjustments for prior years for regular, vocational, or special education transportation reimbursement pursuant to Section 29-5 or subsection (b) of Section 14-13.01 of this Code divided by the Adjusted EAV. If an Organizational Unit's corresponding fiscal year State of Illinois scheduled payments excluding net adjustments for prior years for regular, vocational, or special education transportation reimbursement pursuant to Section 29-5 or subsection (b) of Section 14-13.01 of this Code exceed the total transportation expenses, as defined in this paragraph, no transportation rate shall be subtracted from the Operating Tax Rate.

"Allocation Rate" is defined in paragraph (3) of subsection (g) of this Section.

"Alternative School" means a public school that is created and operated by a regional superintendent of schools and approved by the State Board.

"Applicable Tax Rate" is defined in paragraph (1) of subsection (d) of this Section.

"Assessment" means any of those benchmark, progress monitoring, formative, diagnostic, and other assessments, in addition to the State accountability assessment, that assist teachers' needs in understanding the skills and meeting the needs of the students they serve.

"Assistant principal" means a school administrator duly endorsed to be employed as an assistant principal in this State.

"At-risk student" means a student who is at risk of not meeting the Illinois Learning Standards or not graduating from elementary or high school and who demonstrates a need for vocational support or social services beyond that provided by the regular school program. All students included in an Organizational Unit's Low-Income Count, as well as all English learner and disabled students attending the Organizational Unit, shall be considered at-risk students under this Section.

"Average Student Enrollment" or "ASE" for fiscal year 2018 means, for an Organizational Unit, the greater of the average number of students (grades K through 12) reported to the State Board as enrolled in the Organizational Unit on October 1 in the immediately preceding school year, plus the pre-kindergarten students who receive special education services of 2 or more hours a day as reported to the State Board on December 1 in the immediately preceding school year, or the average number of students (grades K through 12) reported to the State Board as enrolled in the Organizational Unit on October 1, plus the pre-kindergarten students who receive special education services of 2 or more hours a day as reported to the State Board on December 1, for each of the immediately preceding 3 school years. For fiscal year 2019 and each subsequent fiscal year, "Average Student Enrollment" or "ASE" means, for an Organizational Unit, the greater of the average number of students (grades K through 12) reported to the State Board as enrolled in the Organizational Unit on October 1 and March 1 in the immediately preceding school year, plus the pre-kindergarten students who receive special education services as reported to the State Board on October 1 and March 1 in the immediately preceding school year, or the average number of students (grades K through 12) reported to the State Board as enrolled in the Organizational Unit on October 1 and March 1, plus the pre-kindergarten students who receive special education services as reported to the State Board on October 1 and March 1, for each of the immediately preceding 3 school years. For the purposes of this definition, "enrolled in the Organizational Unit" means the number of students reported to the State Board who are enrolled in schools within the Organizational Unit that the student attends or would attend if not placed or transferred to another school or program to receive needed services. For the purposes of calculating "ASE", all students, grades K through 12, excluding those attending kindergarten for a half day and students attending an alternative education program operated by a regional office of education or intermediate service center, shall be counted as 1.0. All students attending kindergarten for a half day shall be counted as 0.5, unless in 2017 by June 15 or by March 1 in subsequent years, the school district reports to the State Board of Education the intent to implement full-day kindergarten district-wide for all students, then all students attending kindergarten shall be counted as 1.0. Special education pre-kindergarten students shall be counted as 0.5 each. If the State Board does not collect or has not collected both an October 1 and March 1 enrollment count by grade or a December 1 collection of special education pre-kindergarten students as of August 31, 2017 (the effective date of Public Act 100-465), it shall establish such collection for all future years. For any year in which a count by grade level was collected only once, that count shall be used as the single count available for computing a 3-year average ASE. Funding for programs operated by a regional office of education or an intermediate service center must be calculated using the Evidence-Based Funding formula under this Section for the 2019-2020 school year and each subsequent school year until separate adequacy formulas are developed and adopted for each type of program. Beginning with the 2021-2022 school year, the ASE must be the greater of the current-year ASE or the 3-year average ASE. School districts shall

submit the data for the ASE calculation to the State Board within 45 days of the dates required in this Section for submission of enrollment data in order for it to be included in the ASE calculation. For fiscal year 2018 only, the ASE calculation shall include only enrollment taken on October 1. In recognition of the impact of COVID-19, the definition of "Average Student Enrollment" or "ASE" shall be adjusted for calculations under this Section for fiscal years 2022 through 2024. For fiscal years 2022 through 2024, the enrollment used in the calculation of ASE representing the 2020-2021 school year shall be the greater of the enrollment for the 2020-2021 school year or the 2019-2020 school year.
