SENATOR NYBO:

Thank you, Mr. President. While we're waiting for the Members to assemble and carry on with the people's business today, I just wanted to take the opportunity to introduce a very bright young man from my district who's down here shadowing me as Page for a Day. This is Brandt Siegfried. He's going to be a sophomore at Lyons Township High School. He's from Western Springs. I will note that Lyons Township is also the alma mater of Leader Radogno and it's also her hometown. So, Brandt is a really bright young man, who's very interested in government. So I hope everybody gets an opportunity to say hello. And he's very excited about everything that's going on here today. And I've asked him -- his assignment for today is to figure out a good definition of the word "compromise", Mr. President. I'd like to know what that means, "compromise".

Senate Bill 2038.

(Secretary reads title of bill)

3rd Reading of the bill.

PRESIDING OFFICER: (SENATOR LINK)

Senator Kotowski.

SENATOR KOTOWSKI:

Thank you very much, Leader and Mr. President. This bill appropriates a total of 63.3 million GRF between seventeen agencies for personal services and Social Security. The bill is for back pay owed to union employees at various agencies dating back to previous union contract. This is identical to House Bill 3763, which passed out of the Executive Committee 14 to 0. This bill addresses an issue and I know some people had hoped that it'd been addressed earlier. In previous years, it's something we've advocated here as part of our caucus and I know that's shared by the Members of the other side of the aisle. The pay raises were part of the terms of their collective -- bargaining agreement. An independent arbitrator ruled that the union contract had been violated and the circuit court subsequently ruled that the Governor's action was illegal and that the money was owed to employees. The -- judge's order was stayed pending an appeal of his decision that's been filed by the Attorney General. Attorney General has indicated that the appeal would not be pursued if the General Assembly appropriates the money that is owed. That is what we are doing today. We have been required by the courts to do as such.

PRESIDING OFFICER: (SENATOR LINK)

Is there any discussion? And can we please keep the noise

level down, please? Senator Murphy, for -- for what purpose do you rise?

SENATOR MURPHY:

To -- to the bill, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR MURPHY:

This is -- the Senator's right. This is -- this is money that's owed these employees. It's money that we filed an amendment to bills last year to try to get paid. The problem that I personally have with what's going on right now is this is being out of the 2015 budget. And just for explanation: We, on a bipartisan basis with the Governor, worked together to fix the 2015 budget and make it balance. COGFA has indicated they've never changed their recommendation formally. They intimated we might have between three and five hundred million dollars more in 2015 revenue, but they've never changed that estimate. We spent twenty-six million of that potential three hundred to five hundred on the autism money and the -- the cuts from back on April 3rd to be reinstated. Earlier this week, on a party-line vote, your side of the aisle passed a budget bill that took five hundred million of the three to five hundred in group health and are going to spend that, again in 2015 money, out of the three to five hundred million potential surplus. GOMB Director Nuding had indicated he's going to need some of that money to bring this budget year into balance. So when you add all of this up - you have twenty-six million from the April 3rd cuts, you have five hundred million in group health that you have already spent, and now you're going to add another sixty-three - you're somewhere in the neighborhood of five hundred

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

and ninety million dollars that you propose to spend in 2015 out of three to five hundred million that we might have. So we went to such lengths to balance the 2015 budget and, here we are, we're not even out of 2015 again and you're already blowing a hole in the budget again. It's the exact same mindset that you're taking with the 2016 budget, where basically you're leaving a steaming budgetary pile for Governor Rauner to handle. Well, that's not responsible. It's not the right thing to do. So, while it is the right thing to do to pay this bill, the manner in which you're doing it, yet again, is not proper. I urge a No vote.

PRESIDING OFFICER: (SENATOR LINK)

Is there any further discussion? Senator Oberweis, for what purpose do you rise?

SENATOR OBERWEIS:

Question of the sponsor.

PRESIDING OFFICER: (SENATOR LINK)

SENATOR OBERWEIS:

Thank you, Mr. President. I'd like to ask Senator Kotowski to explain the contents of the bill.

PRESIDING OFFICER: (SENATOR LINK)

Senator Kotowski.

SENATOR KOTOWSKI:

Thank you very much, Senator Manar, and thank you for all your work you've done on this issue throughout the year. So here's what's significant about this bill and it's the -- provides the investment dollars for education. For general State aid, 4.632 is appropriated for general State aid in fiscal year '16. This is an increase of two hundred and six million GRF compared to fiscal year '15 appropriation. This is also an increase of five hundred million since fiscal year '13, five hundred million - something that has been very important to Members of our caucus. We value the investment in education significantly, as I know the other side has spoken about on occasion. So, general State aid supplemental lump sum: This also includes an additional general State aid lump sum appropriation of eighty-five million GRF. The lump sum will be used by ISBE to provide financial assistance to school districts that are not -- that are most disproportionately impacted when the foundation level is not fully funded. We talked about this at length; we'll be getting at that on the Floor. We are funding the mandated categoricals in this bill, especially special education, transportation, and Illinois free and reduced lunch. Early childhood education - this is a key component, something we've talked about within our caucus. It's a value we prioritize. We share that concern that the Governor's articulated, as well as share in the concern of investing in education. 314.2 million is appropriated for early childhood education. Combined

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

with an appropriation of four and half million for early childhood administrative costs, this is an increase of 25.3 million compared to the fiscal year '15 appropriation. For bilingual education, this provides six hundred -- 61.7 million GRF is appropriated for bilingual education in fiscal year '16. This is level funding with the fiscal year '15 appropriation. Assessments is 44.6 million. It's appropriated for student assessments. This is an increase of one million. The reason why the million increase is there, it's to allow ISBE to meet federal requirements for assessing students, as well as ensure that ISBE can offer districts the opportunity to administer the ACT. So there's several items throughout the -- this budget that are introduced. Again, just to reemphasize, it focuses on a strong investment in the close to two million forty-six thousand students in the State of Illinois, make sure they get the education they need. It provides the support necessary for suburban school districts to continue to flourish, as well as helping and providing the much-needed and necessary assistance for school districts that are disproportionately and negatively impacted -- impact -- negatively impacted by the fact we're not fully funding schools at the foundation level they should be funded. So it addresses both of those fronts. More than happy to answer any questions, but I also know that I have -- Senator Manar here is going to provide an assist for anything that I may need as well.

PRESIDING OFFICER: (SENATOR LINK)

Is there any discussion? Senator Murphy, for what purpose do you rise?

I -- I -- you know, I know Hillary Clinton's campaign has not yet kicked off, but this "it takes a village to pass a spending bill" approach you guys are taking, right on theme. Beautifully done. I don't think I've ever seen this before, where, you know, we tag team the single budget bill. But this is good. This is good. The -- this investment you propose to make in K through 12 is not as large as the investment Governor Rauner proposed to make in K through 12, is it?

SENATOR MURPHY:

We had a conversation out here yesterday, Senator, about the process of what we're going to do with these bills and I had asked if you were going to put any procedural holds on bills to keep them from immediately going to the Governor. And you stated the legal options that your side has without ever actually answering what your intent was. Shortly after that, we found your intent was to put a procedural hold and hold on to the bills. Are you similarly going to put a procedural hold on this education bill to keep this from going to the Governor, since, as a House bill, it'll go straight to the Governor from here, assuming it passes?

This has to go back to the House for concurrence. Just to be clear, Senator -- to be clear, Senator, yesterday I indicated that we have thirty days to certify and its -- it sounds, at this stage, that the step was taken right now to put a hold on it, for now. But there's -- as you know, as I -- I was very clear yesterday, there's thirty days to certify on the bills that are passed before they can go to the Governor's desk. So I -- I was very clear on that yesterday - very transparent, very clear.

PRESIDING OFFICER: (SENATOR LINK)

Senator Murphy.

SENATOR MURPHY:

Well, you were clear in stating the -- the law, which, of course, everybody in the room knew when you said it. The question though is, is -- are -- is there a plan collectively, because I -- I think it was acknowledged that you negotiated this bill and the rest of the budget with Speaker Madigan and his team. Have you guys determined together that you're going to procedurally hold these bills or are you going to send them to the Governor?

SENATOR KOTOWSKI:

Senator, I was very clear yesterday. I indicated what the possibilities were. At that juncture, I did not know. There's someone here, who's the Senate President, who put a procedural hold on the bills. And I indicate at this moment that we don't know what's going to happen with this legislation. But, when you asked me the direct question, I was very clear with you; I indicated there's thirty days and -- you know, in terms of certification. Looks like a -- a procedural action was taken. I'm aware of it, as you are aware of it right now. And we'll have to see what's going to happen from there.

Senator Murphy.

SENATOR MURPHY:

Dana -- Dana Carvey as Bush 41 has nothing on you - thousand points of light, stay the course. Senator Cullermanorowski, I'm going to ask you one last time. Is it your intention to send this bill and the rest of the budget to the Governor or are we going to hold these for thirty days, as you have indicated once or twice you have the right to do?

PRESIDING OFFICER: (SENATOR LINK)

Senator Kotowski, to answer it for the last time.

SENATOR KOTOWSKI:

I don't believe my name was used. There was a hybrid. I'm responding to something that Senator Murphyweis said. Booyah!

5/29/2015

So, sir, my name's Senator Kotowski. Proud of my name. I just explained to you yesterday, very clearly, we have thirty days procedurally to certify the vote. This is enjoyable, not really, but I've answered your question several times and we're just basically going to proceed and see where we're going on this.

PRESIDING OFFICER: (SENATOR LINK)

Senator Murphy, on a different question.

SENATOR MURPHY:

To the bill, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR MURPHY:

You know, this -- this is -- I -- I do find it interesting that there was a conscious choice made. I firmly believe that from everything I've ever heard of the Senate Democratic Caucus that there was a commitment to - if I can use the word invest - invest in education at at least the level that Governor Rauner would have wanted to invest in education at. The fact that you're below where I know in your hearts you really wanted to be is a clear indication that Speaker Madigan had a -- a substantial impact on the negotiation of this bill, which, again, I don't know why you let him dictate in that regard, but it appears that that was done. More broadly, more broadly, I think the issue -- the issue we have here is, as -- you know, as Senator Barickman pointed out very eloquently, you're talking about investing money in a program, a cause - education - and you don't have the money. I mean, this is another example. This is a huge, huge piece of the over-promised budget that you guys have put forth. This is -- you know, you've got these school districts working under the assumption

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

that they're going to get paid based on the amount of money in this budget, when, in reality, everyone here knows that they aren't and they can't because the money's not there - the money's not there. It is -- it's not -- it's not public service to overpromise and under-deliver. That's not public service. That's not -- that's not stepping up. That's letting down. This is another piece of your budget that lets Illinoisans down because it doesn't balance. And I encourage a No vote.

PRESIDING OFFICER: (SENATOR LINK)

Senator Rose, for what purpose do you rise?

SENATOR ROSE:

To the bill, if I may.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR ROSE:

I appreciated the candor a moment ago that you've answered some of our questions. And I appreciated the candor earlier this morning that the three to four billion dollars that is needed to balance this has not appeared in the last forty-eight hours. You know, I got to hand it to you guys - this really does appear, at some level, reasonable. I mean, for the first time in years, it appears, in this bill, that prorations are going to go up. Okay, we lifted from eighty-seven percent, which is where they'd hovered under complete Democratic control, to ninety-two percent for most districts and in some cases maybe more. It's all so very reasonable until you realize there's no money to pay for it. And so, again, I rise, and probably for the last time, which will make you happy, Senator Kotowski, but the reality is, there is no money to pay for this. You can't extend thirty-six billion dollars'

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

worth of promises with only thirty-two billion dollars in revenue. And, sure, if you had an -- a spare three to four billion dollars that magically appears, you can do some of the things that you talk about here - but you don't, so you can't. And before anybody that listen to this back home in their school districts thinks they're going to get prorated at ninety-two percent or ninety-four percent or ninety-five percent, or whatever it is, with the formulaic changes that you make, just got to remember it's -- it's fairy dust, it's magic. I urge a No vote.

PRESIDING OFFICER: (SENATOR LINK)

Senator Manar, to close.

SENATOR MANAR:

Thank you, Mr. President. Appreciate the debate that we had in committee with our colleagues from the other side of the aisle. Appreciate Senator Kotowski and Senator Steans' work on this issue over the last several weeks. I want to point a couple of things out to close out this debate. We talked about this in committee extensively, comparing what's in this appropriation bill versus what the Governor introduced. And I want to be very, very clear about this point. The Governor's budget, as he introduced it in February, does not accomplish what he says it accomplishes. The Governor's budget increased spending for general State aid. And since that time, since he introduced that budget in the House and the Senate, he's gone around the State and he has said that he wants to focus resources in school districts that need those resources the most, arguably those that have the highest rates of poverty and the highest rates of taxes at the same time. Governor's budget doesn't do that. It actually does the opposite. So the previous speaker says it's not public service to overpromise

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

and under-deliver. I would agree with that. But the Governor's budget, when he introduced it in February, did just that. Matter of fact, it was worse. He says it would fix the problem, but in reality, it made the current situation we have in our State - which is arguably the worst in the country - even worse than it is today. This bill balances those things. This bill takes our system away from a path of greater inequity and in a very small but meaningful way puts it on a different path of greater equity between the many school districts in our State that have many needs ahead of them. This is not a complete fix, but it is meaningful in terms of where it will get us over time. I simply urge an Aye vote, Mr. President. Thank you.

PRESIDING OFFICER: (SENATOR LINK)

The question is, shall House Bill 3763 pass. All those in favor, vote Aye. Opposed, Nay. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Take the record. On that question, there are 34 Ayes, 20 Nays, 4 voting Present. House Bill 3763, having received the required constitutional majority, is declared passed. We will now go to Supplemental Calendar No. 1. Senate Bill 51. These are all motions to concur. Senate Bill 51. Mr. Secretary, read the motion, please.

Steans, on Senate Bill 51.

SENATOR STEANS:

Thank you, Mr. President, Members of the Senate. This is the first of the budget implementation, or BIMP, bills. Senate Bill 51, as amended in the House, makes transfers to the Professional Services Fund, Workers' Compensation Revolving Fund, Secretary of State Identification Security and Theft Prevention Fund, and Presidential Library and Museum Operating Fund. It also puts -- creates the Grant Accountability and Transparency Fund for use by GOMB's grant accountability system. This is language at their request. Sets at ten percent the share of the personal income taxes and 16.5 percent the share of corporate income taxes deposited in the Income Tax Refund, also at the Governor's recommended level. It allows intermediate service centers in Cook County to be funded through the same line as the Regional Offices of Education. This is -- they serve -- as the ROE for Cook County. It expands the YouthBuild program to the Criminal Justice Information Authority. It extends the current sunset of the Renewable Energy, Energy Efficiency, and Coal Resource {sic} (Resources) Development Law for another five years. It creates the Coal Mining Land Conservation and Reclamation Fund under the State Finance Act and within DNR to administer the Surface Coal Mining Land Conservation (and Reclamation) Act. And finally, it allows the State Attorney Appellate Prosecutor -- Prosecutor to use interline transfer authority of four percent. That's above the general two percent that they have. They thought they needed the additional flexibility given the decrease in their budget. I would urge an Aye vote.

She indicates she will yield.

SENATOR MURPHY:

Thank you. Senator, in the Renewable Energy, Energy Efficiency, and Coal Resources Development Law, I think you had indicated that gets extended for five more years. Is that correct?

PRESIDING OFFICER: (SENATOR LINK)

Senator Steans.

SENATOR STEANS:

Correct.

PRESIDING OFFICER: (SENATOR LINK)

Senator Murphy.

SENATOR MURPHY:

It's my understanding that there are various monthly fees on people's electric and natural gas bills as part of that. So will this bill extend fees that were put on natural gas and electric bills for our constituents for five more years?

PRESIDING OFFICER: (SENATOR LINK)

Senator Steans.

SENATOR STEANS:

This just extends the sunset on this fund {sic}. That didn't change that. Those fees are still in place. This bill is not impacting that though.

Well, if we extend the bills within -- the laws within in which those bills -- those fees are created, how is it that we're not extending the fees?

PRESIDING OFFICER: (SENATOR LINK)

Senator Steans.

SENATOR STEANS:

We had already extended those fees, I think, in a different -- on an underlying bill, is my understanding, but, you know -- so those fees are going to also continue on. My understanding is, too, that we had been wanting to make sure that the fees are continued to be used for their intended purposes here, so we're continuing these funds as well and making sure that they extend as well.

PRESIDING OFFICER: (SENATOR LINK)

Senator Murphy.

SENATOR MURPHY:

To -- to the bill. I -- I -- I appreciate that that is -- that that's your thought process on it. Ours is different. We're getting a different take on our analysis; that this bill expressly continues oil and natural -- or, excuse me, electric and natural gas fees on our constituents' bills for five more years. I don't believe that's a widely known fact of that being in this bill. That is our interpretation of this bill. If charging your constituents an additional fee for natural gas and electric bills for five more years is a concern to you, I'd encourage you to vote No on this bill.

Senator Kotowski, for what purpose do you rise?

SENATOR KOTOWSKI:

To the bill.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR KOTOWSKI:

Just a note, a reminder to my colleagues on the other side of the aisle: A provision in this bill provides for dollars for the Grant Accountability and Transparency Act implementation which impacts about 46.8 billion dollars in the State budget. That was a law that was passed. It was a bipartisan law; we worked on it together. The Office of Management and Budget has asked for these funds to best implement this law. This will allow for greater accountability and transparency. It's an excellent, good government provision. Please be mindful of that as you consider your vote because it allows for the effective implementation of the Grant Accountability and Transparency Act. Thank you.

Thank you. Senator, I was looking at my analysis here and could you address the YouthBuild program? It -- it -- it's showing that there's 12.5 million dollars. Is that not correct or is that correct?

PRESIDING OFFICER: (SENATOR LINK)

Senator Steans.

SENATOR STEANS:

No. That 12.5 million -- this is not an appropriation bill; this is substantive language. The 12.5 was appropriated in a different bill. This allows -- in the ICJIA budget, when we passed that budget. This -- it originally had been established under DHS. This is just allowing ICJIA to implement a grant program through that program, in addition to DHS.

It is 12.5. It's just not in this bill. It is 12.5 million.. I -- would you like an explanation of what the program does? I'm happy to give you that as well, if that's what you're seeking. So that -- so the YouthBuild program is a training program for low-income youth ages sixteen to twenty-four. The youth need to be getting high school diplomas and/or GEDs and they get training on

construction jobs in particular. They have sites around the State. This program, by the way, began in Harlem as the Youth Action Program back in 1978 and then the federal government authorized it nationally. It was signed into law, actually, under President Bush, and in 2006 -- originally the program was administered by the Department of Housing and Urban Development. In 2006, it was switched to the Department of Labor, which now it continues to reside. Illinois has one of the most -- the largest number of YouthBuild programs in the country. They can receive federal as well as state and private dollars. This will now enable them to get a grant for State dollars for summer youth employment programs through this well-established program.

So, thank you.

PRESIDING OFFICER: (SENATOR LINK)

Is there any further discussion? Seeing none, Senator Steans, to close.

SENATOR KOTOWSKI:

Thank you, Mr. President. House Amendment No. 1 becomes the bill. It's a budget implementation bill for fiscal year '16 that deals with pension issues. Senate Bill 842 and amendment focuses on the following: Extends through 2016 the existing practice that all GRF contributions to SERS be made through an appropriation to the State Employee {sic} (Employees') Retirement System rather

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

than through appropriations to individual agencies. It's a common practice; we've been doing this for the last several years. It's a standard practice, I should say. Requires that the Comptroller divert State funds from the employer of each local pension fund of downstate police and fire, IMRF, Cook County, Cook County Forest Preserve, Chicago Park District, and the Metropolitan Water Reclamation District if the employer does not make the full statutorily required contribution beginning in fiscal year '16. And removes the Treasurer's intermediary role in managing IMRF funds and allows the funds to be deposited directly into the IMRF investment account. Some of these questions were raised in committee about this. The reason why this language is -- Mr. President. Like to get this out here so we don't have to explain it again on the Floor, which would be a better use of everyone's time. In 2011, we gave this ability to police and fire pension funds, Chicago and downstate, to -- and beginning in fiscal year '16. So we gave it to 'em in '11 and it took effect in 2016. In 2014, this requirement was established for the Chicago municipal and laborers' pension funds. The Comptroller has stated that these statutes are unenforceable as written. This language seeks to make these current provisions enforceable and apply to all the local pension funds. I know there were some concerns raised in committee about what some of the local governing bodies and units may say. One of the reasons why they probably didn't slip in opposition is because they've already moved forward on this and have supported it. Just that we need to clarify the language to make sure it's enforceable. More than happy to answer any questions.

Board the opportunity to experiment with the use of single prime contracting rather than multiple prime contracting. They've discovered they were able to significantly reduce legal claims, change orders, thus saving the State money. On the single prime, we are meeting the goals of the Business Enterprise Program, which we do not as well as -- under multiple prime approach. It's done in forty-eight other states and the federal government, as well as the City of Chicago. Most companies use the single form primary -- prime as their primary construction delivery method. CDB continues to retain the authority to use multiple prime but they would also have expanded the opportunity to do single prime contracting. The opportunity would last for four years. And as well, as I mentioned, there was a bunch of opposition initially to the bill. The last five weeks, with the help of Senator Napoleon Harris, Senator McConnaughay - I'd like to thank them - they were very helpful in making the bill work for all parties that were -- had some concerns on the bill. Thank you, Mr. President. I wanted to thank Senator Muñoz for working with us on this bill. This started out a little complicated. The desire of this bill that we were working towards was to find -- to change the way we administer construction projects at CDB to allow greater participation by minority contractors. There is still, in -- in today's day and age, there's still a large number of small minority- and female-owned contractors who just never get a chance to get up to bat. Through lots of negotiation, and with Senator Harris as well, we were able to come up with a solution that continues to allow CDB to move the projects forward as effectively and efficiently and, certainly, cost efficiently as possible, but, at the same time, create a new opportunity so minority participation can be on the rise so that we can have more minority participation than we've been able to achieve in the past. SENATOR BISS:

Thank you, Mr. President, Members of the Senate. House Bill 217 creates the Youth Mental Health Protection Act, addressing so-called conversion therapy, which really should be called something else. It's not a therapy. It's a discredited practice wherein people make an effort to change the sexual orientation of individuals. This is something that used to happen all the time in the unfortunate days when homosexuality was viewed as a disease. Nowadays, we know that it's not and we also know that this practice doesn't work, which is why so many mental health organizations are strongly in support of this bill. Here's what it does: It affects minors only and it affects licensed professionals only, and what it says is, simply, that licensed professionals may not engage in this practice with minors. It doesn't ban therapy. It doesn't address adults. It doesn't address religious or non-licensed professionals. It simply says that licensed professionals can't engage in this practice with minors, and the reason is that the overwhelming consensus of the professions is this is not legitimate therapy; it's actually abuse. And the truth of the matter is that not everyone survives it. We had in committee yesterday one brave person who did survive it and he said something that really, really stuck with me. He said, "As I underwent this therapy" - which he underwent because he and his parents were confused and didn't realize that the person they were seeing was engaging in a practice that was not based in science - "as I underwent this, I began to feel myself disappear." It's dangerous. It's often coercive when done with minors. This bill is supported, as I said, by psychologists, psychiatrists, mental health professionals, social workers, therapists. I respectfully request your Aye votes and

PRESIDING OFFICER: (SENATOR LINK)

Is there any discussion? Senator McCarter, for what purpose do you rise?

SENATOR McCARTER:

To the bill.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR McCARTER:

Ladies and Gentlemen, this is -- it -- this is an interesting bill, and in fact, it's structured like very few others. One, it's -- it's got a, about, seven-page preamble on a nine-page bill with facts that could be -- or studies that could be disputed by others. But the problem is that it assumes that you are one way or the other. It doesn't talk about -- it doesn't deal with what might be simply thoughts, attractions. Anyone, whether small or large, could have had those. So -- so the question is, where are we -- or where is this -- you know, the person in question here, where's anyone on this, and do we assume that they're at one place on the spectrum of identity? I don't think we know that. One of the problems is it goes only one way. It makes it clear that you can't be counseled out of, but you can be counseled into, and I think that's one -- that was made clear in the -- bill. So the -- one of the biggest problems, however, is choice. You know, if -- if, on line 22, it said, "Prohibition on conversion therapy. Under no circumstances shall a health provider provide an abortion, with or without consent, on a woman under the age of eighteen", there would be outrage. We would disagree, but there would be outrage. That choice is not being provided. But in this bill, we

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

say that you don't have a choice. You don't. It's one way or the other. And so there -- there is -- there's probably a way to come to the -- together to keep from happening what happened with that young man that you referred to. 'Cause I listened. I wasn't in the committee, but I listened. And the way he was treated was not appropriate and I think there's others that testified against this bill that agree that that was not the way anyone should be treated. But this doesn't come to a compromise that makes it clear that a young person will still have a choice. And for that reason, I ask for a Present or No vote. Thank you.

PRESIDING OFFICER: (SENATOR LINK)

SENATOR BIVINS:

SENATOR BISS:

The -- the most important point is that the overwhelming evidence is that it is harmful, that it is damaging, that the people who come out of it are harmed for it, and, as I said in my introductory remarks, not everyone does survive. But, let me say something specific about -- you might ask, "Hey, Daniel, if that's the case, why does this only apply to minors?" And the answer there is very important; that consent is very different when it comes to a minor - very, very different. The ability to make informed consent is different and the reality of what happens here is very often what happened exactly with the young man we met in committee. He didn't -- he wasn't forced into this; it was a legal option out there by a therapist in the community. And so he and his parents didn't know any better. They weren't -- he wasn't in a position to make truly informed consent. And so this is really a -- a consumer protection matter in the event of minors who, in many cases, wind up in this therapy simply because they were confused, frightened - their parents may well have been confused, frightened, and uncomfortable - and they wound up in a situation that we now know is harmful.

PRESIDING OFFICER: (SENATOR LINK)

Senator Bivins.

SENATOR BIVINS:

Thank you. So -- so we're in agreement that we don't want minors to be harmed in any way and have therapies or procedures that puts them in -- in jeopardy and can harm their physical or mental health. Now, would you agree with me that it's legal for a minor under the age of eighteen to have -- to terminate a pregnancy?

SENATOR BIVINS:

So this is a choice that minors we've allowed by law to make this choice - either of those options I just described - which can be exceedingly harmful and even cause death. Terminating a pregnancy is a medical procedure, can cause great harm, certainly can cause emotional distress, and studies have shown that the suicide rate is two to four times higher than the average of the rest of the country. There's a recent study with prescription birth control pills that show that they can cause blood clots, which, the last time I checked, can cause death. So, if we have given the opportunity -- afforded the opportunity legally for those things, why would we not allow a child, given they know the risks going into a therapy, the same choice?

Senator, we as a people make determinations about each individual medical practice. I am gathering from the tone of your comments that your view is that the decision we've made as a society regarding prescription birth control and regarding the termination of a pregnancy is a bad decision, an unsafe decision, an unfair decision. I understand that you view -- have that view. Some people in this Chamber share that view, others don't. If you want to introduce legislation on that topic and then bring it to this Chamber and make a scientific argument based upon the -- the studies that you just referenced, you're certainly welcome to do it. I will tell you that based on my reading of the science, I would probably come to a different conclusion than you. But what we're here to debate today is this practice of sexual orientation change efforts that the science is, I think, pretty clear on, and I would ask those who agree with my view and the overwhelming view of the practitioners that homosexuality is not a disease but a state of life and, therefore, that it cannot be cured and, therefore, that efforts to cure it can be very harmful. I think someone who shares those views should vote Yes on this bill.

Thank you, Mr. President. And thank you, Senator, for your -- for answering those questions. What I pointed out -- despite my views, I was pointing out legalities; that those things are legal. We allow by law someone who is a minor the choice to engage in practices that are potentially harmful and can cause death. I've read the bill. It doesn't say anything about causing death. It calls -- talks about emotional distress and these types of things. But, certainly, why wouldn't we not allow a minor the choice for their mental health care in therapies that they want to choose if we're going to allow them other procedures that could cause their very own death? If you are for parental rights, I would vote No on this bill. If you are for individual rights, I would vote No on this bill. Certainly, if you are for choice, I would vote No on this bill. May I answer what I believe to be the whole implied line of questioning here or do I have to answer the narrow question that was just asked?

PRESIDING OFFICER: (SENATOR LINK)

It's up to the sponsor of the bill.

SENATOR BISS:

Okay. Let me give you a -- a broad answer, and then if that's not good enough, we'll go back. Point number one - and this is also responsive to a comment made earlier by a different speaker - this bill is completely neutral about which sexual orientation is preferred or better. This bill does not say, as was suggested earlier, that counseling people into homosexuality is good and counseling them out is -- is unacceptable. On the contrary, it says very clearly that sexual orientation change efforts "means any practices or treatments that seek to change an individual's sexual orientation" - one way or any other. And what you described of counseling, talking through difficulties and challenges and helping the person accept themselves for who they are, is absolutely acceptable for any young person seeking therapy whether they are gay or straight or confused or one way or the other and that will, and should, remain the case under this bill if it were to become law. That's why the various licensed professions unanimously support the bill. Otherwise, we'd be banning them

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

from doing their job and putting them out of business. There are other states where this has become law - for example, in New Jersey where it was championed by a Republican Governor - and the sky has not fallen, the professions have not ceased, young people still seek therapy. Young people who may be feeling confusing feelings and need to talk it out and then find out that they are straight after all still seek that appropriate, sensible, important therapy and get it. And there's nothing in this bill or in the background to this bill that privileges one direction or the other in any way nor should there be.

PRESIDING OFFICER: (SENATOR LINK)

Senator Oberweis.

SENATOR OBERWEIS:

So I understand what you just said, I -- I believe you said - and correct me if I'm wrong - that if somebody has considered themselves to be gay but maybe is having some questions about that now, then it's okay for a psychologist to help them convert, switch, return to being straight. Is that what you're saying?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

It is okay in that situation for the person providing therapy to help the person talk through their questions, concerns, feelings, histories past, and find a way to becoming their true self. And that true self may well be straight, may well be gay. That's what the practice of therapy is.

PRESIDING OFFICER: (SENATOR LINK)

Senator Oberweis.

SENATOR OBERWEIS:

STATE OF ILLINOIS
99th GENERAL ASSEMBLY

So I believe you said the answer then is it is okay for a psychologist to talk to someone who has been or who has considered themselves to be gay, to walk them through the whole process, to counsel them, to help them convert back to being heterosexual. Is that -- that -- I believe that's what you said. In any event, let me just say that probably the biggest thing that bothers me is, once again, we're kind of taking the position that we know better; parents should not be allowed to make those kinds of decisions for their children; the fifty-nine of us here sitting in this room today are smarter, are more experienced, are more knowledgeable than all those dumb parents out there and we need to make this decision to prevent them from making that type of a decision for their child. SENATOR MURPHY:

I appreciate the sponsor's intentions and concern for -- for children, you know, but we've got a regulatory structure and process in place. And it just seems like we selectively from time to time decide when we're going to tell professionals how to do their job, because somehow we from Springfield are doing ours so darn well that, you know, we have the -- we have -- we have the standing to tell them how to do theirs. And I think this is another example of this. I mean, if you set aside for a second the emotion of the underlying issue of what we're talking about

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

and the wedge that sometimes is -- appears to attempt to be driven on these issues and you just take a step back and say, "We have licensed therapists in this State, and when we give 'em a license, we're saying that we trust them to practice their craft in our State, and we're going to let them go do that." And we assume that they have their clients' or their patients' best -- best interests at heart when they take them on as a patient or a client. This to me is an unnecessary intrusion into the relationship between therapist and patient and, as some of my colleagues have mentioned frankly, between parent and -- and child. We don't need to be in the middle of this. This feels a little preachy to me. This -- this feels like -- a little holier than thou, to be candid. And maybe this is an area where we could stand to take a step back, have a little collective humility, and say, "You know what? Let's let the professionals handle this. We'll take care of some other things", because we certainly have a lot on our plate at this time. So, given that, I -- I -- I think we ought to vote with a little humility here, vote this thing down, and let the professionals take care of it. Thank you.

Senator Koehler, for what purpose do you rise?

SENATOR KOEHLER:

Thank you, Mr. President. Will the sponsor yield for question?

PRESIDING OFFICER: (SENATOR LINK)

He indicates he will.

SENATOR KOEHLER:

Senator Biss, so this bill has gotten some attention around the State and probably beyond. Are there any professional clinical

groups, counselors, professional psychologists that have opposed this bill or are all of them in support of it?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

Every mainstream professional association that I know about is in support of this bill. I have here a letter and I'll just read a few of the organizations whose heads have signed this letter: the Illinois Psychological Association, the Illinois Chapter of the American Academy of Pediatrics, the National Association of Social Workers Illinois Chapter, the American Psychoanalytic Association, the Illinois Psychiatric Society, the Illinois Public Health Association, and the Illinois Mental Health Counselors Association, the Illinois School Counselor Association, the Coalition of Illinois Counselors {sic} (Counselor Organizations). Those are just a few of the statewide mainstream professional associations that are not waiting for us to tell them how to practice their profession - they're telling us.

PRESIDING OFFICER: (SENATOR LINK)

Senator Koehler.

SENATOR KOEHLER:

Thank you for that answer. Now, I'm a member of the clergy. My training was in seminary. I did serve a -- a church for a good number of years. As a member of the clergy and not a licensed clinical professional, this bill doesn't really apply to me at all, does it?

Senator Biss.

SENATOR BISS:

That's right. This bill does not apply at all to a member of the clergy or, frankly, anyone else who is not a licensed professional.

PRESIDING OFFICER: (SENATOR LINK)

Senator Koehler.

SENATOR KOEHLER:

To the bill, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR KOEHLER:

I think this is an important bill and I think it's important to kind of put this in perspective. We're not trying to tell the professional clinical psychologists how they should do their job. We're just telling them what really the bounds of -- of crossing the line that is really inappropriate are. And I'll -- I'll just talk about my experiences a bit. My training is -- is as a person coming out of the seminary and the clergy. I did do some counseling at a -- a guidance center, a -- at a clinical center in Ohio. You know, my belief is that a good counselor is not someone that has an agenda. And really what this is talking about is that if somebody has an agenda - in other words, if the impetus is coming from the outside for the change to take place - then that's not really appropriate; that's not counseling. Counseling is when, you know, you don't provide the answers so much as you ask the right questions and you help that person explore what they're about, and that's what this bill does. It -- it helps a person. And in your answer to -- to one of the questions that was raised - I thought was also appropriate - there's -- you know, young people have problems. They have questions about what's going on.

STATE OF ILLINOIS
99th GENERAL ASSEMBLY

They can go and talk about that. If the impetus comes from within, that's a legitimate way in which a person can get help. But if the -- if the agenda is from the outside, then -- then that's really a violation of that person. I think this is an important bill and I -- I urge an Aye vote.

Senator Biss.

SENATOR BISS:

A parent can most certainly allow their child to go to counseling.

Senator, I guess that's -- that's kind of my point. We as -- as a government body have dictated in the past that an emancipated minor can make decisions on their own -- such as, in -- in my line of work, if -- if an emancipated minor gets in a car accident, they can refuse treatment if they see fit; if they're not -- if they're under eighteen and they're not emancipated, then they have to go to the hospital with us to seek further evaluation. And again, members of our military, the ones that fight for us to be here to make these decisions, according to this legislation, simply because they're under eighteen, although they can fight for us, have no say. I find this legislation a bit -- a bit confusing and -- and, sadly, a bit haunting. I urge a No vote.

Senator Righter.

SENATOR RIGHTER:

Mr. President, will the sponsor yield for a few questions, please?

PRESIDING OFFICER: (SENATOR LINK)

SENATOR RIGHTER:

Thank you. Senator Biss, I've -- I've listened carefully to the exchange, because I don't want to -- I don't want us to have to cover any ground that you've already touched on, and -- and in one of the -- one of the issues that I was going to inquire about was what I perceive to be the kind of one-way-street approach that this legislation was taking, and maybe -- maybe my thought on that was driven by the, I think what was referenced to before, the nearly seven pages or so of legislative findings, which are -- do seem to be very one-way street in their -- in their rhetoric.

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

Regardless, let's -- let's move away from that. There's two areas of inquiry I have. First, one that I'm guessing that you've probably not answered any questions about because -- and most people don't even know it's in the bill and that has to do with Section 25, what has to do with the advertisement that may be put out there by these licensed professionals, that says what individuals who are in business advertising therapy services cannot do, otherwise it'd be subject to violating the Consumer Fraud and Deceptive Business Practices Act. The question I -- first question I have is, is the language of what they're not allowed to do in terms of false promises, misrepresentation, concealment, was that lifted from somewhere else? Did that come out of the Consumer Fraud and Deceptive Business Practices Act or some other statutory language?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

Yes. It comes from that Act.

PRESIDING OFFICER: (SENATOR LINK)

Senator Righter.

SENATOR RIGHTER:

And so, to be clear, the -- in order to be violative of this Section, they would not only need to engage in one of those acts but also -- and you've got -- the language - I'm going to read out -- out of the bill - you've put in here is -- has to do with characterizing homosexuality in certain ways. So they would not only need to make a false promise or a false representation but also refer to a certain gender orientation in those manners. Is that -- they'd have to do both of those, is that right?

STATE OF ILLINOIS

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

Yes.

PRESIDING OFFICER: (SENATOR LINK)

Senator Righter.

SENATOR RIGHTER:

Thank -- thank you. Now, going back to the therapy issue that's been touched on here, the language in your bill would make it -- make -- put your license at risk, I should say, if you engage in a practice or a treatment that seeks to change - and those are the words that you've got in the bill - seeks to change the gender preference. And I understand, I think, the approach that you've talked about here, that -- that you've labeled as a certain kind of therapy, where the professional, the medical provider, takes what I think your expert in Executive Committee characterized as a linear approach, which was "I think the patient needs to be here, I see them as being here right now, and so I -- I am going to drive them one way or another to the point that I think that they need to be." But that's -- I mean, I -- and I think that's relatively obvious to - it ought to be - to most Members. Here's -- here's the scenario that raises a concern for me, and that is, the therapist who sits and visits with the minor and, over the course of several counseling sessions, listens to the minor, listens to the minor's discomfort, their expressions of depression, or perhaps suicidal tendencies, begins to get a feel that those -- those issues that that minor is experiencing relate to gender orientation, and because of his or her years of experience as a medical professional, arrives at the conclusion that this person

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

is intensely uncomfortable, to the degree of showing those symptoms, with their gender orientation or what they believe it to be, and so concludes in their mind that perhaps this person will not be depressed, will not be suicidal, if they -- they get to a certain point. At what point does, under your bill, that professional cross the line from just exploring or, as Senator Koehler said, asking good questions to actually moving the person in the direction that they, in their experience, really believe is the best place for that patient to be? Where's that line?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

Well, I would say that that line rests on the question of whether the purpose of the therapy was to, as you said, land the young person in a particular place or whether the purpose of the therapy is to help the young person understand where the young person in him- or herself is and is most comfortable naturally resting. Now, it seems to me that you're implying that, gosh, that's -- that's a fuzzy line. I -- I personally don't think so, but there's an important amendment that was made in the House that, in fact, that risk of losing your license became a "may" and the -- the -- there's broad -- broad latitude given to how much discipline is enacted if there were to be some kind of confusion or gray area entered into. But I have to say that this -- the -- the core language of this -- of this bill is taken from other states that have enacted laws and have laws on the books and there is not a rash of lawsuits about, gosh, was that or was that not. In -- in -- in practical experience, that gray area doesn't seem to be one that's inhabited.

PRESIDING OFFICER: (SENATOR LINK)

Senator Righter.

SENATOR RIGHTER:

Well, Senator, I -- I appreciate that. A couple points: One, I wouldn't expect there to be any rash of lawsuits because this isn't a -- this is not what -- this bill doesn't create a cause of action to my knowledge. But the -- on the issue of the amendment in the House, I guess I'll leave it up to the practitioner themselves to decide if they really gain any considerable degree of comfort from the fact that the Department will have wide latitude in deciding what the repercussions will be. Now, going back to that line though, you -- you said that you want to prohibit -- that the -- the -- the purpose of the therapy would be conversion. What I'm asking, is it -- is it -- is that determination made when the counseling sessions start, as opposed to part way through, toward the end? I mean, again, I'm looking for that line of when the -- when is it okay for the therapist to have, because of their experience, arrived at the conclusion that this maybe may be where the patient needs to get. Is it okay to open the doors to allow them to walk in that direction in their mind or in -- conversationally?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

In my view, the line is not a line that is -- is -- is measured at a particular time. It's the line between saying I think you should be straight or I think you should be gay and I'm going to make you that, or, on the other hand, saying I'm here to help you figure out who you are.

PRESIDING OFFICER: (SENATOR LINK)

Senator Righter.

SENATOR RIGHTER:

Is -- do you have in your mind -- is there something, based perhaps on the experience in other states, because you've referenced that, that the -- if this becomes law, the professional who will be affected by this should do on the front end of the counseling session to make clear for the regulators, for the patient themselves, that that's not what they're going to do? Some kind of declaratory statement at the beginning of the counseling sessions: "It's not my goal to convert you in -- in terms of gender preference from A to B." I mean, is there something like that that can provide the people who will be living under this some comfort so they know that, okay, I've kind of cleared that hurdle and now I can do my work without worrying about at what point I cross that line?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

That comfort I think is most appropriately given by the internal codes of ethics of the professions and their associations. And I think that's an important point in light of the fact that each of those associations supports this bill.

SENATOR RIGHTER:

Based -- based solely on your urging there, Mr. President. Thank you. Ladies and Gentlemen of the Senate, this is an extraordinarily difficult issue and I do credit the sponsor for taking on the issue. I'm -- I -- I'm not sure that I agree with the conclusion that he's drawn, but it is a -- very difficult and complicated issue. The concern that I have is that there is no real line for the therapist here to know that they need to be behind. There's -- as the sponsor himself said, there's no timeline. It's not about what's going on at the beginning of the session, as opposed to halfway through the session or toward the very end of the session. As a -- an experienced therapist is talking through a young person who's suffering from depression, who may be suffering from suicidal tendencies, and the therapist during the counseling session earnestly comes to believe that this is driven by a perceived gender preference and that those issues can be relieved by -- by walking this person through questions and conversation down a road so that they themselves can -- can reach a different conclusion about gender identity, at what point do they bump up against the provisions of House Bill 217 because they think, okay, am I now seeking to change - because those are the words in the bill - am I now seeking to change this person's conclusion about what their -- their -- their gender preference is, even if I've not told them? I'm not leading them by the nose, but I'm asking the questions to open the doors during the conversation to get them to that conclusion because that's what I sincerely believe is in their best interest. And, Ladies and Gentlemen, let's not lose sight of that. This isn't about how many associations are for this or not. This is about what's in

STATE OF ILLINOIS
99th GENERAL ASSEMBLY

the best interest of that child and whether or not the professional at stake, living under the provisions of House Bill 217 were it to become law, is going to be chilled, is going to be a little bit hesitant to walk them down the path that they truly believe that the minor needs, that is in the best interests of the minor because they do not want to put their license at jeopardy. Let's not take that step over that line. Thank you, Mr. President.

PRESIDING OFFICER: (SENATOR LINK)

Senator Hutchinson.

SENATOR HUTCHINSON:

Thank you, Mr. President. Will the sponsor yield? Could you walk me through exactly which associations...

PRESIDING OFFICER: (SENATOR LINK)

He indicates he will yield.

SENATOR HUTCHINSON:

...associations support this?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

I will, and -- and I -- I think, in light of what -- the comment that was just made, it's important to say, the association's primary job is to represent their members, which I think is a strong, strong indication that those members do not feel chilled by the language in House Bill 217. I'll give you a list of who signed this particular letter, is the Illinois Psychological Association's Acting President; Lurie Children's Hospital - it's Division Head of Adolescent Medicine; the President of the Illinois Chapter of the American Academy of Pediatrics; the Director of the Chicago Institute for Psychoanalysis; the

Executive Director of NASW, the Association of Social Workers Illinois Chapter; President of the American Psychoanalytic Association - I'm sorry this is taking a long time - the President of the Illinois Psychiatric Society; the Vice President for Policy and Advocacy of the AIDS Foundation of Chicago; the President of Adler University; the Executive Director of the Illinois Public Health Association; President and Dean of The Institute for Clinical Social Work; and the Executive Director for the Illinois Mental Health Counselors Association, School Counselor Association, and Coalition of Illinois Counselors.

PRESIDING OFFICER: (SENATOR LINK)

Senator Hutchinson.

SENATOR HUTCHINSON:

So, would it be fair to say that professionals that are in this industry, scientific therapists, professionals that are actually governed by and guided by these associations, have come to a determination that gay conversion therapy is harmful to children who are gay?

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

Yes.

PRESIDING OFFICER: (SENATOR LINK)

Senator Hutchinson.

SENATOR HUTCHINSON:

In any of your previous conversations, had you ever been made aware of some of the older kinds of therapies that were deployed on people through the decades in terms of -- you know, with the stated goal to cure them away from where they naturally were? Just

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

the history of that.

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss.

SENATOR BISS:

I'm -- so, for instance, in committee yesterday, the young man, Mr. Galloway, talked about being forced to masturbate looking at certain images. There was talk about unwanted physical contact with people of the same or opposite sex. I've read about instances of people being -- given medication that forces them to vomit as an effort to create a physical revulsion that is in fact not innate. Quite frankly, some of these practices are physically and sexually abusive and I think, while maybe not all of them are, the fact that so many of them are in that category is an indication of the wrongheadedness of this practice.

PRESIDING OFFICER: (SENATOR LINK)

Senator Hutchinson.

SENATOR HUTCHINSON:

Thank you, Senator Biss. To the bill.

PRESIDING OFFICER: (SENATOR LINK)

To the bill.

SENATOR HUTCHINSON:

I think it was important to actually talk about that if we're going to have conversations on the Floor that skirt around the edges on what it is we're actually talking about and what goes into gay conversion therapy. It's striking to me, largely because I understand that there are people who do not believe and who we will never be able to convince that homosexuality is an immutable characteristic, like race or anything like that. We know that there are people who just do not believe that. They do not believe

STATE OF ILLINOIS
99th GENERAL ASSEMBLY
REGULAR SESSION
SENATE TRANSCRIPT

51st Legislative Day

5/29/2015

that you were either born this way or you were not. Even people who know that they've never ever had a homosexual thought in their head, they don't -- they can't really articulate when they realized they were heterosexual, but they expect that gay people could do the exact same thing. So it's striking to me in 2015, when I also understand the history of the way women's medicine used to be treated. Part of the reason why a hysterectomy is called a hysterectomy is because anytime there was a problem with a woman psychologically, we were deemed to be hysterical. We've come a long way since then and those practices are now no longer available or could be licensed. I do know that over the course of decades, as science evolves and we understand more about the biological and psychological connection as to sexual identity or gender identity - and, no, they are not always the same thing - and we also get that our conversation is evolving on that point as well because of that. And you have so many -- so many different organizations that are in this business, specifically saying these practices are harmful, and we need to know what some of those practices are. This is not always just talk therapy. Some of these practices are downright cruel and you would never ever subject a child to do that or to be in the presence of anybody that would do that to them if you really understood how harmful it was coming out. So, to those people who are listening and those children who need to know at some point this gets better; that there are adults in the State, across this country, who understand that there's nothing wrong with you; and that you will be allowed to grow up a healthy and normal loving human being, able to participate in every thread of society that God says you can; that there is nothing wrong with you - you can be depressed, you can have other issues that you

need to work through, and some of that comes on top of all of the confusion that happens when you're discovering who you are and we understand that. So, I just wanted to say, in this moment, that I commend the sponsor for bringing this bill. I commend the work that Representative Cassidy did in the House. I commend all of those who understand that every child, every child, deserves a chance to be loved wholly as they are - as they are. I would urge an Aye vote.

PRESIDING OFFICER: (SENATOR LINK)

Senator Biss, to close.

SENATOR BISS:

Thank you, Mr. President. Thank you, Members. We had a long, robust discussion. I think we've covered most of the issues. I just want to say one last think in closing. There was a moment in the committee hearing we had yesterday when the opponents made a really, really astonishing analogy. They said, "Hey, this is just like being an alcoholic. Once you're ready to accept that you need to be cured, then you can go in for treatment and begin to stop drinking and get your life back together." It's probably the best argument that I've heard made for this bill. If you agree with that point of view, that homosexuality is a disease and we need to find a way to cure it, you should vote No. But if you believe the opposite, if you believe that people are who they are, people are born the way they're born and our responsibility as a society is to affirm them and help them live whole lives as who they are, then I respectfully ask that you would join me this afternoon in voting Aye.
