AN ACT concerning public aid.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

ARTICLE 5.

Section 5-5. The Illinois Public Aid Code is amended by changing Sections 5-5e.1, 5A-2, 5A-5, 5A-8, 5A-10, 5A-12.7, and 5A-14 as follows:

(305 ILCS 5/5-5e.1)

Sec. 5-5e.1. Safety-Net Hospitals.

(a) A Safety-Net Hospital is an Illinois hospital that:

(1) is licensed by the Department of Public Health as a general acute care or pediatric hospital; and

(2) is a disproportionate share hospital, as described in Section 1923 of the federal Social Security Act, as determined by the Department; and

(3) meets one of the following:

(A) has a MIUR of at least 40% and a charity percent of at least 4%; or

(B) has a MIUR of at least 50%.

(b) Definitions. As used in this Section:

(1) "Charity percent" means the ratio of (i) the hospital's charity charges for services provided to

individuals without health insurance or another source of third party coverage to (ii) the Illinois total hospital charges, each as reported on the hospital's OBRA form.

(2) "MIUR" means Medicaid Inpatient Utilization Rate and is defined as a fraction, the numerator of which is the number of a hospital's inpatient days provided in the hospital's fiscal year ending 3 years prior to the rate year, to patients who, for such days, were eligible for Medicaid under Title XIX of the federal Social Security Act, 42 USC 1396a et seq., excluding those persons eligible for medical assistance pursuant to 42 U.S.C. 1396a(a)(10)(A)(i)(VIII) as set forth in paragraph 18 of Section 5-2 of this Article, and the denominator of which is the total number of the hospital's inpatient days in that same period, excluding those persons eligible for medical assistance pursuant to 42 U.S.C. 1396a(a)(10)(A)(i)(VIII) as set forth in paragraph 18 of Section 5-2 of this Article.

(3) "OBRA form" means form HFS-3834, OBRA '93 data collection form, for the rate year.

(4) "Rate year" means the 12-month period beginning on October 1.

(c) Beginning July 1, 2012 and ending on December 31, 2026 ~~2022~~, a hospital that would have qualified for the rate year beginning October 1, 2011 or October 1, 2012 shall be a Safety-Net Hospital.

(c-5) Beginning July 1, 2020 and ending on December 31, 2026, a hospital that would have qualified for the rate year beginning October 1, 2020 and was designated a federal rural referral center under 42 CFR 412.96 as of October 1, 2020 shall be a Safety-Net Hospital.

(d) No later than August 15 preceding the rate year, each hospital shall submit the OBRA form to the Department. Prior to October 1, the Department shall notify each hospital whether it has qualified as a Safety-Net Hospital.

(e) The Department may promulgate rules in order to implement this Section.

(f) Nothing in this Section shall be construed as limiting the ability of the Department to include the Safety-Net Hospitals in the hospital rate reform mandated by Section 14-11 of this Code and implemented under Section 14-12 of this Code and by administrative rulemaking.

(Source: P.A. 100-581, eff. 3-12-18; 101-650, eff. 7-7-20; 101-669, eff. 4-2-21.)

(305 ILCS 5/5A-2) (from Ch. 23, par. 5A-2)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-2. Assessment.

(a)(1) Subject to Sections 5A-3 and 5A-10, for State fiscal years 2009 through 2018, or as long as continued under Section 5A-16, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to

$218.38 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided, however, that the amount of $218.38 shall be increased by a uniform percentage to generate an amount equal to 75% of the State share of the payments authorized under Section 5A-12.5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period of April through June 2015, the amount of $218.38 used to calculate the assessment under this paragraph shall, by emergency rule under subsection (s) of Section 5-45 of the Illinois Administrative Procedure Act, be increased by a uniform percentage to generate $20,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(2) In addition to any other assessments imposed under this Article, effective July 1, 2016 and semi-annually thereafter through June 2018, or as provided in Section 5A-16, in addition to any federally required State share as authorized under paragraph (1), the amount of $218.38 shall be increased by a uniform percentage to generate an amount equal to 75% of the ACA Assessment Adjustment, as defined in subsection (b-6) of this Section.

For State fiscal years 2009 through 2018, or as provided in Section 5A-16, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2005 Medicare cost report as

contained in the Healthcare Cost Report Information System file, for the quarter ending on December 31, 2006, without regard to any subsequent adjustments or changes to such data. If a hospital's 2005 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees.

(3) Subject to Sections 5A-3, 5A-10, and 5A-16, for State fiscal years 2019 and 2020, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to $197.19 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days. For State fiscal years 2019 and 2020, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed

days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Notwithstanding any other provision in this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020.

(4) Subject to Sections 5A-3 and 5A-10 and to subsection (b-8), for the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 ~~and 2022~~, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to $221.50 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided however: for the period of July 1, 2020 through December 31, 2020, (i) the assessment shall be equal to 50% of the annual amount; and (ii) the amount of $221.50 shall be retroactively adjusted by a uniform percentage to generate an amount equal to 50% of the Assessment Adjustment, as defined in subsection (b-7). For the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 ~~and 2022~~, a hospital's occupied bed days and Medicare bed days shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information

System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Should the change in the assessment methodology for fiscal years 2021 through December 31, 2022 not be approved on or before June 30, 2020, the assessment and payments under this Article in effect for fiscal year 2020 shall remain in place until the new assessment is approved. If the assessment methodology for July 1, 2020 through December 31, 2022, is approved on or after July 1, 2020, it shall be retroactive to July 1, 2020, subject to federal approval and provided that the payments authorized under Section 5A-12.7 have the same effective date as the new assessment methodology. In giving retroactive effect to the assessment approved after June 30, 2020, credit toward the new assessment shall be given for any payments of the previous assessment for periods after June 30, 2020. Notwithstanding any other provision of this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State Fiscal Year 2020 on the basis of

hypothetical data, the data that was the basis for the 2020 assessment shall be used to calculate the assessment under this paragraph until December 31, 2023. Beginning July 1, 2022 and through December 31, 2024, a safety-net hospital that had a change of ownership in calendar year 2021, and whose inpatient utilization had decreased by 90% from the prior year and prior to the change of ownership, may be eligible to pay a tax based on hypothetical data based on a determination of financial distress by the Department.

(b) (Blank).

(b-5)(1) Subject to Sections 5A-3 and 5A-10, for the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, or as provided in Section 5A-16, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .008766 multiplied by the hospital's outpatient gross revenue, provided, however, that the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the State share of the payments authorized under Section 5A-12.5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period beginning June 10, 2012 through June 30, 2012, the annual assessment on outpatient services shall be prorated by multiplying the assessment amount by a fraction, the numerator of which is 21 days and the denominator of which is 365 days.

For the period of April through June 2015, the amount of .008766 used to calculate the assessment under this paragraph shall, by emergency rule under subsection (s) of Section 5-45 of the Illinois Administrative Procedure Act, be increased by a uniform percentage to generate $6,750,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(2) In addition to any other assessments imposed under this Article, effective July 1, 2016 and semi-annually thereafter through June 2018, in addition to any federally required State share as authorized under paragraph (1), the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the ACA Assessment Adjustment, as defined in subsection (b-6) of this Section.

For the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and State fiscal years 2013 through 2018, or as provided in Section 5A-16, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2009 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on June 30, 2011, without regard to any subsequent adjustments or changes to such data. If a hospital's 2009 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited

to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees.

(3) Subject to Sections 5A-3, 5A-10, and 5A-16, for State fiscal years 2019 and 2020, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .01358 multiplied by the hospital's outpatient gross revenue. For State fiscal years 2019 and 2020, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees. Notwithstanding any other provision in this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020.

(4) Subject to Sections 5A-3 and 5A-10 and to subsection

(b-8), for the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 ~~and 2022~~, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .01525 multiplied by the hospital's outpatient gross revenue, provided however: (i) for the period of July 1, 2020 through December 31, 2020, the assessment shall be equal to 50% of the annual amount; and (ii) the amount of .01525 shall be retroactively adjusted by a uniform percentage to generate an amount equal to 50% of the Assessment Adjustment, as defined in subsection (b-7). For the period of July 1, 2020 through December 31, 2020 and calendar years 2021 through 2026 ~~and 2022~~, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2015 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on March 31, 2017, without regard to any subsequent adjustments or changes to such data. If a hospital's 2015 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's outpatient revenue data from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees. Should the change in the assessment methodology above for fiscal years 2021 through calendar year 2022 not be

approved prior to July 1, 2020, the assessment and payments under this Article in effect for fiscal year 2020 shall remain in place until the new assessment is approved. If the change in the assessment methodology above for July 1, 2020 through December 31, 2022, is approved after June 30, 2020, it shall have a retroactive effective date of July 1, 2020, subject to federal approval and provided that the payments authorized under Section 12A-7 have the same effective date as the new assessment methodology. In giving retroactive effect to the assessment approved after June 30, 2020, credit toward the new assessment shall be given for any payments of the previous assessment for periods after June 30, 2020. Notwithstanding any other provision of this Article, for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State Fiscal Year 2020 on the basis of hypothetical data, the data that was the basis for the 2020 assessment shall be used to calculate the assessment under this paragraph <u>until December 31, 2023. Beginning July 1, 2022 and through December 31, 2024, a safety-net hospital that had a change of ownership in calendar year 2021, and whose inpatient utilization had decreased by 90% from the prior year and prior to the change of ownership, may be eligible to pay a tax based on hypothetical data based on a determination of financial distress by the Department</u>.

(b-6)(1) As used in this Section, "ACA Assessment Adjustment" means:

(A) For the period of July 1, 2016 through December 31, 2016, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of April 2016 multiplied by 6.

(B) For the period of January 1, 2017 through June 30, 2017, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of October 2016 multiplied by 6, except that the amount calculated under this subparagraph (B) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period beginning July 1, 2016 through December 31, 2016 and the estimated payments due and payable in the month of April 2016 multiplied by 6 as described in subparagraph (A).

(C) For the period of July 1, 2017 through December 31, 2017, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care

organizations for hospital services due and payable in the month of April 2017 multiplied by 6, except that the amount calculated under this subparagraph (C) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period beginning January 1, 2017 through June 30, 2017 and the estimated payments due and payable in the month of October 2016 multiplied by 6 as described in subparagraph (B).

(D) For the period of January 1, 2018 through June 30, 2018, the product of .19125 multiplied by the sum of the fee-for-service payments to hospitals as authorized under Section 5A-12.5 and the adjustments authorized under subsection (t) of Section 5A-12.2 to managed care organizations for hospital services due and payable in the month of October 2017 multiplied by 6, except that:

(i) the amount calculated under this subparagraph (D) shall be adjusted, either positively or negatively, to account for the difference between the actual payments issued under Section 5A-12.5 for the period of July 1, 2017 through December 31, 2017 and the estimated payments due and payable in the month of April 2017 multiplied by 6 as described in subparagraph (C); and

(ii) the amount calculated under this subparagraph (D) shall be adjusted to include the product of .19125

multiplied by the sum of the fee-for-service payments, if any, estimated to be paid to hospitals under subsection (b) of Section 5A-12.5.

(2) The Department shall complete and apply a final reconciliation of the ACA Assessment Adjustment prior to June 30, 2018 to account for:

(A) any differences between the actual payments issued or scheduled to be issued prior to June 30, 2018 as authorized in Section 5A-12.5 for the period of January 1, 2018 through June 30, 2018 and the estimated payments due and payable in the month of October 2017 multiplied by 6 as described in subparagraph (D); and

(B) any difference between the estimated fee-for-service payments under subsection (b) of Section 5A-12.5 and the amount of such payments that are actually scheduled to be paid.

The Department shall notify hospitals of any additional amounts owed or reduction credits to be applied to the June 2018 ACA Assessment Adjustment. This is to be considered the final reconciliation for the ACA Assessment Adjustment.

(3) Notwithstanding any other provision of this Section, if for any reason the scheduled payments under subsection (b) of Section 5A-12.5 are not issued in full by the final day of the period authorized under subsection (b) of Section 5A-12.5, funds collected from each hospital pursuant to subparagraph (D) of paragraph (1) and pursuant to paragraph (2),

attributable to the scheduled payments authorized under subsection (b) of Section 5A-12.5 that are not issued in full by the final day of the period attributable to each payment authorized under subsection (b) of Section 5A-12.5, shall be refunded.

(4) The increases authorized under paragraph (2) of subsection (a) and paragraph (2) of subsection (b-5) shall be limited to the federally required State share of the total payments authorized under Section 5A-12.5 if the sum of such payments yields an annualized amount equal to or less than $450,000,000, or if the adjustments authorized under subsection (t) of Section 5A-12.2 are found not to be actuarially sound; however, this limitation shall not apply to the fee-for-service payments described in subsection (b) of Section 5A-12.5.

(b-7)(1) As used in this Section, "Assessment Adjustment" means:

(A) For the period of July 1, 2020 through December 31, 2020, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (k) of Section 5A-12.7 attributable to the period, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the period.

(B) For each calendar quarter beginning ~~on and after~~ January 1, 2021 <u>through December 31, 2022</u>, the product of .3853 multiplied by the total of the actual payments made

under subsections (c) through (k) of Section 5A-12.7 attributable to the period, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the period.

(C) Beginning on January 1, 2023, and each subsequent July 1 and January 1, the product of .3853 multiplied by the total of the actual payments made under subsections (c) through (j) of Section 5A-12.7 attributable to the 6-month period immediately preceding the period to which the adjustment applies, less the total of the assessment imposed under subsections (a) and (b-5) of this Section for the 6-month period immediately preceding the period to which the adjustment applies.

(2) The Department shall calculate and notify each hospital of the total Assessment Adjustment and any additional assessment owed by the hospital or refund owed to the hospital on either a semi-annual or annual basis. Such notice shall be issued at least 30 days prior to any period in which the assessment will be adjusted. Any additional assessment owed by the hospital or refund owed to the hospital shall be uniformly applied to the assessment owed by the hospital in monthly installments for the subsequent semi-annual period or calendar year. If no assessment is owed in the subsequent year, any amount owed by the hospital or refund due to the hospital, shall be paid in a lump sum.

(3) The Department shall publish all details of the

Assessment Adjustment calculation performed each year on its website within 30 days of completing the calculation, and also submit the details of the Assessment Adjustment calculation as part of the Department's annual report to the General Assembly.

(b-8) Notwithstanding any other provision of this Article, the Department shall reduce the assessments imposed on each hospital under subsections (a) and (b-5) by the uniform percentage necessary to reduce the total assessment imposed on all hospitals by an aggregate amount of $240,000,000, with such reduction being applied by June 30, 2022. The assessment reduction required for each hospital under this subsection shall be forever waived, forgiven, and released by the Department.

(c) (Blank).

(d) Notwithstanding any of the other provisions of this Section, the Department is authorized to adopt rules to reduce the rate of any annual assessment imposed under this Section, as authorized by Section 5-46.2 of the Illinois Administrative Procedure Act.

(e) Notwithstanding any other provision of this Section, any plan providing for an assessment on a hospital provider as a permissible tax under Title XIX of the federal Social Security Act and Medicaid-eligible payments to hospital providers from the revenues derived from that assessment shall be reviewed by the Illinois Department of Healthcare and

Family Services, as the Single State Medicaid Agency required by federal law, to determine whether those assessments and hospital provider payments meet federal Medicaid standards. If the Department determines that the elements of the plan may meet federal Medicaid standards and a related State Medicaid Plan Amendment is prepared in a manner and form suitable for submission, that State Plan Amendment shall be submitted in a timely manner for review by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services and subject to approval by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services. No such plan shall become effective without approval by the Illinois General Assembly by the enactment into law of related legislation. Notwithstanding any other provision of this Section, the Department is authorized to adopt rules to reduce the rate of any annual assessment imposed under this Section. Any such rules may be adopted by the Department under Section 5-50 of the Illinois Administrative Procedure Act.

(305 ILCS 5/5A-5) (from Ch. 23, par. 5A-5)

Sec. 5A-5. Notice; penalty; maintenance of records.

(a) The Illinois Department shall send a notice of

assessment to every hospital provider subject to assessment under this Article. The notice of assessment shall notify the hospital of its assessment and shall be sent after receipt by the Department of notification from the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services that the payment methodologies required under this Article and, if necessary, the waiver granted under 42 CFR 433.68 have been approved. The notice shall be on a form prepared by the Illinois Department and shall state the following:

(1) The name of the hospital provider.

(2) The address of the hospital provider's principal place of business from which the provider engages in the occupation of hospital provider in this State, and the name and address of each hospital operated, conducted, or maintained by the provider in this State.

(3) The occupied bed days, occupied bed days less Medicare days, adjusted gross hospital revenue, or outpatient gross revenue of the hospital provider (whichever is applicable), the amount of assessment imposed under Section 5A-2 for the State fiscal year for which the notice is sent, and the amount of each installment to be paid during the State fiscal year.

(4) (Blank).

(5) Other reasonable information as determined by the Illinois Department.

(b) If a hospital provider conducts, operates, or maintains more than one hospital licensed by the Illinois Department of Public Health, the provider shall pay the assessment for each hospital separately.

(c) Notwithstanding any other provision in this Article, in the case of a person who ceases to conduct, operate, or maintain a hospital in respect of which the person is subject to assessment under this Article as a hospital provider, the assessment for the State fiscal year in which the cessation occurs shall be adjusted by multiplying the assessment computed under Section 5A-2 by a fraction, the numerator of which is the number of days in the year during which the provider conducts, operates, or maintains the hospital and the denominator of which is 365. Immediately upon ceasing to conduct, operate, or maintain a hospital, the person shall pay the assessment for the year as so adjusted (to the extent not previously paid).

(d) Notwithstanding any other provision in this Article, a provider who commences conducting, operating, or maintaining a hospital, upon notice by the Illinois Department, shall pay the assessment computed under Section 5A-2 and subsection (e) in installments on the due dates stated in the notice and on the regular installment due dates for the State fiscal year occurring after the due dates of the initial notice.

(e) Notwithstanding any other provision in this Article, for State fiscal years 2009 through 2018, in the case of a

hospital provider that did not conduct, operate, or maintain a hospital in 2005, the assessment for that State fiscal year shall be computed on the basis of hypothetical occupied bed days for the full calendar year as determined by the Illinois Department. Notwithstanding any other provision in this Article, for the portion of State fiscal year 2012 beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in 2009, the assessment under subsection (b-5) of Section 5A-2 for that State fiscal year shall be computed on the basis of hypothetical gross outpatient revenue for the full calendar year as determined by the Illinois Department.

Notwithstanding any other provision in this Article, beginning July 1, 2018 through December 31, 2026 ~~for State fiscal years 2019 through 2024~~, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in the year that is the basis of the calculation of the assessment under this Article, the assessment under paragraph (3) of subsection (a) of Section 5A-2 for the State fiscal year shall be computed on the basis of hypothetical occupied bed days for the full calendar year as determined by the Illinois Department, except that for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019

and 2020; however, for State fiscal year 2020, the assessment amount shall be increased by the proportion that it represents of the total annual assessment that is generated from all hospitals in order to generate $6,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

Notwithstanding any other provision in this Article, beginning July 1, 2018 through December 31, 2026 ~~for State fiscal years 2019 through 2024~~, in the case of a hospital provider that did not conduct, operate, or maintain a hospital in the year that is the basis of the calculation of the assessment under this Article, the assessment under subsection (b-5) of Section 5A-2 for that State fiscal year shall be computed on the basis of hypothetical gross outpatient revenue for the full calendar year as determined by the Illinois Department, except that for a hospital provider that did not have a 2015 Medicare cost report, but paid an assessment in State fiscal year 2018 on the basis of hypothetical data, that assessment amount shall be used for State fiscal years 2019 and 2020; however, for State fiscal year 2020, the assessment amount shall be increased by the proportion that it represents of the total annual assessment that is generated from all hospitals in order to generate $6,250,000 in the aggregate for that period from all hospitals subject to the annual assessment under this paragraph.

(f) Every hospital provider subject to assessment under

this Article shall keep sufficient records to permit the determination of adjusted gross hospital revenue for the hospital's fiscal year. All such records shall be kept in the English language and shall, at all times during regular business hours of the day, be subject to inspection by the Illinois Department or its duly authorized agents and employees.

(g) The Illinois Department may, by rule, provide a hospital provider a reasonable opportunity to request a clarification or correction of any clerical or computational errors contained in the calculation of its assessment, but such corrections shall not extend to updating the cost report information used to calculate the assessment.

(305 ILCS 5/5A-8) (from Ch. 23, par. 5A-8)

Sec. 5A-8. Hospital Provider Fund.

(a) There is created in the State Treasury the Hospital Provider Fund. Interest earned by the Fund shall be credited to the Fund. The Fund shall not be used to replace any moneys appropriated to the Medicaid program by the General Assembly.

(b) The Fund is created for the purpose of receiving moneys in accordance with Section 5A-6 and disbursing moneys only for the following purposes, notwithstanding any other provision of law:

(1) For making payments to hospitals as required under this Code, under the Children's Health Insurance Program Act, under the Covering ALL KIDS Health Insurance Act, and under the Long Term Acute Care Hospital Quality Improvement Transfer Program Act.

(2) For the reimbursement of moneys collected by the Illinois Department from hospitals or hospital providers through error or mistake in performing the activities authorized under this Code.

(3) For payment of administrative expenses incurred by the Illinois Department or its agent in performing activities under this Code, under the Children's Health Insurance Program Act, under the Covering ALL KIDS Health Insurance Act, and under the Long Term Acute Care Hospital Quality Improvement Transfer Program Act.

(4) For payments of any amounts which are reimbursable to the federal government for payments from this Fund which are required to be paid by State warrant.

(5) For making transfers, as those transfers are authorized in the proceedings authorizing debt under the Short Term Borrowing Act, but transfers made under this paragraph (5) shall not exceed the principal amount of debt issued in anticipation of the receipt by the State of moneys to be deposited into the Fund.

(6) For making transfers to any other fund in the State treasury, but transfers made under this paragraph

(6) shall not exceed the amount transferred previously from that other fund into the Hospital Provider Fund plus any interest that would have been earned by that fund on the monies that had been transferred.

(6.5) For making transfers to the Healthcare Provider Relief Fund, except that transfers made under this paragraph (6.5) shall not exceed $60,000,000 in the aggregate.

(7) For making transfers not exceeding the following amounts, related to State fiscal years 2013 through 2018, to the following designated funds:

Health and Human Services Medicaid Trust Fund $20,000,000

Long-Term Care Provider Fund $30,000,000

General Revenue Fund ..... $80,000,000.

Transfers under this paragraph shall be made within 7 days after the payments have been received pursuant to the schedule of payments provided in subsection (a) of Section 5A-4.

(7.1) (Blank).

(7.5) (Blank).

(7.8) (Blank).

(7.9) (Blank).

(7.10) For State fiscal year 2014, for making transfers of the moneys resulting from the assessment under subsection (b-5) of Section 5A-2 and received from

hospital providers under Section 5A-4 and transferred into the Hospital Provider Fund under Section 5A-6 to the designated funds not exceeding the following amounts in that State fiscal year:

Healthcare Provider Relief Fund..... $100,000,000

Transfers under this paragraph shall be made within 7 days after the payments have been received pursuant to the schedule of payments provided in subsection (a) of Section 5A-4.

The additional amount of transfers in this paragraph (7.10), authorized by Public Act 98-651, shall be made within 10 State business days after June 16, 2014 (the effective date of Public Act 98-651). That authority shall remain in effect even if Public Act 98-651 does not become law until State fiscal year 2015.

(7.10a) For State fiscal years 2015 through 2018, for making transfers of the moneys resulting from the assessment under subsection (b-5) of Section 5A-2 and received from hospital providers under Section 5A-4 and transferred into the Hospital Provider Fund under Section 5A-6 to the designated funds not exceeding the following amounts related to each State fiscal year:

Healthcare Provider Relief Fund..... $50,000,000

Transfers under this paragraph shall be made within 7 days after the payments have been received pursuant to the schedule of payments provided in subsection (a) of Section

5A-4.

(7.11) (Blank).

(7.12) For State fiscal year 2013, for increasing by 21/365ths the transfer of the moneys resulting from the assessment under subsection (b-5) of Section 5A-2 and received from hospital providers under Section 5A-4 for the portion of State fiscal year 2012 beginning June 10, 2012 through June 30, 2012 and transferred into the Hospital Provider Fund under Section 5A-6 to the designated funds not exceeding the following amounts in that State fiscal year:

Healthcare Provider Relief Fund..... $2,870,000

Since the federal Centers for Medicare and Medicaid Services approval of the assessment authorized under subsection (b-5) of Section 5A-2, received from hospital providers under Section 5A-4 and the payment methodologies to hospitals required under Section 5A-12.4 was not received by the Department until State fiscal year 2014 and since the Department made retroactive payments during State fiscal year 2014 related to the referenced period of June 2012, the transfer authority granted in this paragraph (7.12) is extended through the date that is 10 State business days after June 16, 2014 (the effective date of Public Act 98-651).

(7.13) In addition to any other transfers authorized under this Section, for State fiscal years 2017 and 2018,

for making transfers to the Healthcare Provider Relief Fund of moneys collected from the ACA Assessment Adjustment authorized under subsections (a) and (b-5) of Section 5A-2 and paid by hospital providers under Section 5A-4 into the Hospital Provider Fund under Section 5A-6 for each State fiscal year. Timing of transfers to the Healthcare Provider Relief Fund under this paragraph shall be at the discretion of the Department, but no less frequently than quarterly.

(7.14) For making transfers not exceeding the following amounts, related to State fiscal years 2019 and 2020, to the following designated funds:

Health and Human Services Medicaid Trust Fund $20,000,000

Long-Term Care Provider Fund $30,000,000

Healthcare Provider Relief Fund.... $325,000,000.

Transfers under this paragraph shall be made within 7 days after the payments have been received pursuant to the schedule of payments provided in subsection (a) of Section 5A-4.

(7.15) For making transfers not exceeding the following amounts, related to State fiscal years 2023 through 2026 ~~2021 and 2022~~, to the following designated funds:

Health and Human Services Medicaid Trust Fund $20,000,000

Long-Term Care Provider Fund $30,000,000

Healthcare Provider Relief Fund..... $365,000,000

(7.16) For making transfers not exceeding the following amounts, related to July 1, 2026 ~~2022~~ to December 31, 2026 ~~2022~~, to the following designated funds:

Health and Human Services Medicaid Trust Fund $10,000,000

Long-Term Care Provider Fund $15,000,000

Healthcare Provider Relief Fund..... $182,500,000

(8) For making refunds to hospital providers pursuant to Section 5A-10.

(9) For making payment to capitated managed care organizations as described in subsections (s) and (t) of Section 5A-12.2, subsection (r) of Section 5A-12.6, and Section 5A-12.7 of this Code.

Disbursements from the Fund, other than transfers authorized under paragraphs (5) and (6) of this subsection, shall be by warrants drawn by the State Comptroller upon receipt of vouchers duly executed and certified by the Illinois Department.

(c) The Fund shall consist of the following:

(1) All moneys collected or received by the Illinois Department from the hospital provider assessment imposed by this Article.

(2) All federal matching funds received by the Illinois Department as a result of expenditures made by

the Illinois Department that are attributable to moneys deposited in the Fund.

(3) Any interest or penalty levied in conjunction with the administration of this Article.

(3.5) As applicable, proceeds from surety bond payments payable to the Department as referenced in subsection (s) of Section 5A-12.2 of this Code.

(4) Moneys transferred from another fund in the State treasury.

(5) All other moneys received for the Fund from any other source, including interest earned thereon.

(d) (Blank).

(Source: P.A. 100-581, eff. 3-12-18; 100-863, eff. 8-14-19; 101-650, eff. 7-7-20.)

(305 ILCS 5/5A-10) (from Ch. 23, par. 5A-10)

Sec. 5A-10. Applicability.

(a) The assessment imposed by subsection (a) of Section 5A-2 shall cease to be imposed and the Department's obligation to make payments shall immediately cease, and any moneys remaining in the Fund shall be refunded to hospital providers in proportion to the amounts paid by them, if:

(1) The payments to hospitals required under this Article are not eligible for federal matching funds under Title XIX or XXI of the Social Security Act;

(2) For State fiscal years 2009 through 2018, and as

provided in Section 5A-16, the Department of Healthcare and Family Services adopts any administrative rule change to reduce payment rates or alters any payment methodology that reduces any payment rates made to operating hospitals under the approved Title XIX or Title XXI State plan in effect January 1, 2008 except for:

(A) any changes for hospitals described in subsection (b) of Section 5A-3;

(B) any rates for payments made under this Article V-A;

(C) any changes proposed in State plan amendment transmittal numbers 08-01, 08-02, 08-04, 08-06, and 08-07;

(D) in relation to any admissions on or after January 1, 2011, a modification in the methodology for calculating outlier payments to hospitals for exceptionally costly stays, for hospitals reimbursed under the diagnosis-related grouping methodology in effect on July 1, 2011; provided that the Department shall be limited to one such modification during the 36-month period after the effective date of this amendatory Act of the 96th General Assembly;

(E) any changes affecting hospitals authorized by Public Act 97-689;

(F) any changes authorized by Section 14-12 of this Code, or for any changes authorized under Section

5A-15 of this Code; or

(G) any changes authorized under Section 5-5b.1.

(b) The assessment imposed by Section 5A-2 shall not take effect or shall cease to be imposed, and the Department's obligation to make payments shall immediately cease, if the assessment is determined to be an impermissible tax under Title XIX of the Social Security Act. Moneys in the Hospital Provider Fund derived from assessments imposed prior thereto shall be disbursed in accordance with Section 5A-8 to the extent federal financial participation is not reduced due to the impermissibility of the assessments, and any remaining moneys shall be refunded to hospital providers in proportion to the amounts paid by them.

(c) The assessments imposed by subsection (b-5) of Section 5A-2 shall not take effect or shall cease to be imposed, the Department's obligation to make payments shall immediately cease, and any moneys remaining in the Fund shall be refunded to hospital providers in proportion to the amounts paid by them, if the payments to hospitals required under Section 5A-12.4 or Section 5A-12.6 are not eligible for federal matching funds under Title XIX of the Social Security Act.

(d) The assessments imposed by Section 5A-2 shall not take effect or shall cease to be imposed, the Department's obligation to make payments shall immediately cease, and any moneys remaining in the Fund shall be refunded to hospital providers in proportion to the amounts paid by them, if:

(1) for State fiscal years 2013 through 2018, and as provided in Section 5A-16, the Department reduces any payment rates to hospitals as in effect on May 1, 2012, or alters any payment methodology as in effect on May 1, 2012, that has the effect of reducing payment rates to hospitals, except for any changes affecting hospitals authorized in Public Act 97-689 and any changes authorized by Section 14-12 of this Code, and except for any changes authorized under Section 5A-15, and except for any changes authorized under Section 5-5b.1;

(2) for State fiscal years 2013 through 2018, and as provided in Section 5A-16, the Department reduces any supplemental payments made to hospitals below the amounts paid for services provided in State fiscal year 2011 as implemented by administrative rules adopted and in effect on or prior to June 30, 2011, except for any changes affecting hospitals authorized in Public Act 97-689 and any changes authorized by Section 14-12 of this Code, and except for any changes authorized under Section 5A-15, and except for any changes authorized under Section 5-5b.1; or

(3) for State fiscal years 2015 through 2018, and as provided in Section 5A-16, the Department reduces the overall effective rate of reimbursement to hospitals below the level authorized under Section 14-12 of this Code, except for any changes under Section 14-12 or Section 5A-15 of this Code, and except for any changes authorized

under Section 5-5b.1.

(e) In State fiscal year 2019 through State fiscal year 2020, the assessments imposed under Section 5A-2 shall not take effect or shall cease to be imposed, the Department's obligation to make payments shall immediately cease, and any moneys remaining in the Fund shall be refunded to hospital providers in proportion to the amounts paid by them, if:

(1) the payments to hospitals required under Section 5A-12.6 are not eligible for federal matching funds under Title XIX of the Social Security Act; or

(2) the Department reduces the overall effective rate of reimbursement to hospitals below the level authorized under Section 14-12 of this Code, as in effect on December 31, 2017, except for any changes authorized under Sections 14-12 or Section 5A-15 of this Code, and except for any changes authorized under changes to Sections 5A-12.2, 5A-12.4, 5A-12.5, 5A-12.6, and 14-12 made by Public Act 100-581.

(f) Beginning in State Fiscal Year 2021, the assessments imposed under Section 5A-2 shall not take effect or shall cease to be imposed, the Department's obligation to make payments shall immediately cease, and any moneys remaining in the Fund shall be refunded to hospital providers in proportion to the amounts paid by them, if:

(1) the payments to hospitals required under Section 5A-12.7 are not eligible for federal matching funds under

Title XIX of the Social Security Act; or

(2) the Department reduces the overall effective rate of reimbursement to hospitals below the level authorized under Section 14-12, as in effect on December 31, 2021 ~~2019~~, except for any changes authorized under Sections 14-12 or 5A-15, and except for any changes authorized under changes to Sections 5A-12.7 and 14-12 made by this amendatory Act of the 101st General Assembly, and except for any changes to Section 5A-12.7 made by this amendatory Act of the 102nd General Assembly.

(Source: P.A. 100-581, eff. 3-12-18; 101-650, eff. 7-7-20.)

(305 ILCS 5/5A-12.7)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-12.7. Continuation of hospital access payments on and after July 1, 2020.

(a) To preserve and improve access to hospital services, for hospital services rendered on and after July 1, 2020, the Department shall, except for hospitals described in subsection (b) of Section 5A-3, make payments to hospitals or require capitated managed care organizations to make payments as set forth in this Section. Payments under this Section are not due and payable, however, until: (i) the methodologies described in this Section are approved by the federal government in an appropriate State Plan amendment or directed payment preprint; and (ii) the assessment imposed under this Article is

determined to be a permissible tax under Title XIX of the Social Security Act. In determining the hospital access payments authorized under subsection (g) of this Section, if a hospital ceases to qualify for payments from the pool, the payments for all hospitals continuing to qualify for payments from such pool shall be uniformly adjusted to fully expend the aggregate net amount of the pool, with such adjustment being effective on the first day of the second month following the date the hospital ceases to receive payments from such pool.

(b) Amounts moved into claims-based rates and distributed in accordance with Section 14-12 shall remain in those claims-based rates.

(c) Graduate medical education.

(1) The calculation of graduate medical education payments shall be based on the hospital's Medicare cost report ending in Calendar Year 2018, as reported in the Healthcare Cost Report Information System file, release date September 30, 2019. An Illinois hospital reporting intern and resident cost on its Medicare cost report shall be eligible for graduate medical education payments.

(2) Each hospital's annualized Medicaid Intern Resident Cost is calculated using annualized intern and resident total costs obtained from Worksheet B Part I, Columns 21 and 22 the sum of Lines 30-43, 50-76, 90-93, 96-98, and 105-112 multiplied by the percentage that the hospital's Medicaid days (Worksheet S3 Part I, Column 7,

Lines 2, 3, 4, 14, 16-18, and 32) comprise of the hospital's total days (Worksheet S3 Part I, Column 8, Lines 14, 16-18, and 32).

(3) An annualized Medicaid indirect medical education (IME) payment is calculated for each hospital using its IME payments (Worksheet E Part A, Line 29, Column 1) multiplied by the percentage that its Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of its Medicare days (Worksheet S3 Part I, Column 6, Lines 2, 3, 4, 14, and 16-18).

(4) For each hospital, its annualized Medicaid Intern Resident Cost and its annualized Medicaid IME payment are summed, and, except as capped at 120% of the average cost per intern and resident for all qualifying hospitals as calculated under this paragraph, is multiplied by the applicable reimbursement factor as described in this paragraph, ~~22.6%~~ to determine the hospital's final graduate medical education payment. Each hospital's average cost per intern and resident shall be calculated by summing its total annualized Medicaid Intern Resident Cost plus its annualized Medicaid IME payment and dividing that amount by the hospital's total Full Time Equivalent Residents and Interns. If the hospital's average per intern and resident cost is greater than 120% of the same calculation for all qualifying hospitals, the hospital's per intern and resident cost shall be capped at 120% of the

average cost for all qualifying hospitals.

(A) For the period of July 1, 2020 through December 31, 2022, the applicable reimbursement factor shall be 22.6%.

(B) For the period of January 1, 2023 through December 31, 2026, the applicable reimbursement factor shall be 35% for all qualified safety-net hospitals, as defined in Section 5-5e.1 of this Code, and all hospitals with 100 or more Full Time Equivalent Residents and Interns, as reported on the hospital's Medicare cost report ending in Calendar Year 2018, and for all other qualified hospitals the applicable reimbursement factor shall be 30%.

(d) Fee-for-service supplemental payments. For the period of July 1, 2020 through December 31, 2022, each ~~Each~~ Illinois hospital shall receive an annual payment equal to the amounts below, to be paid in 12 equal installments on or before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable.

(1) For critical access hospitals, $385 per covered inpatient day contained in paid fee-for-service claims and

$530 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(2) For safety-net hospitals, $960 per covered inpatient day contained in paid fee-for-service claims and $625 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(3) For long term acute care hospitals, $295 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(4) For freestanding psychiatric hospitals, $125 per covered inpatient day contained in paid fee-for-service claims and $130 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(5) For freestanding rehabilitation hospitals, $355 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(6) For all general acute care hospitals and high Medicaid hospitals as defined in subsection (f), $350 per covered inpatient day for dates of service in Calendar Year 2019 contained in paid fee-for-service claims and

$620 per paid fee-for-service outpatient claim in the Department's Enterprise Data Warehouse as of May 11, 2020.

(7) Alzheimer's treatment access payment. Each Illinois academic medical center or teaching hospital, as defined in Section 5-5e.2 of this Code, that is identified as the primary hospital affiliate of one of the Regional Alzheimer's Disease Assistance Centers, as designated by the Alzheimer's Disease Assistance Act and identified in the Department of Public Health's Alzheimer's Disease State Plan dated December 2016, shall be paid an Alzheimer's treatment access payment equal to the product of the qualifying hospital's State Fiscal Year 2018 total inpatient fee-for-service days multiplied by the applicable Alzheimer's treatment rate of $226.30 for hospitals located in Cook County and $116.21 for hospitals located outside Cook County.

(d-2) Fee-for-service supplemental payments. Beginning January 1, 2023, each Illinois hospital shall receive an annual payment equal to the amounts listed below, to be paid in 12 equal installments on or before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable. The Department

may adjust the rates in paragraphs (1) through (7) to comply with the federal upper payment limits, with such adjustments being determined so that the total estimated spending by hospital class, under such adjusted rates, remains substantially similar to the total estimated spending under the original rates set forth in this subsection.

(1) For critical access hospitals, as defined in subsection (f), $750 per covered inpatient day contained in paid fee-for-service claims and $750 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(2) For safety-net hospitals, as described in subsection (f), $1,350 per inpatient day contained in paid fee-for-service claims and $1,350 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(3) For long term acute care hospitals, $550 per covered inpatient day contained in paid fee-for-service claims for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(4) For freestanding psychiatric hospitals, $200 per covered inpatient day contained in paid fee-for-service claims and $200 per paid fee-for-service outpatient claim

for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(5) For freestanding rehabilitation hospitals, $550 per covered inpatient day contained in paid fee-for-service claims and $125 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(6) For all general acute care hospitals and high Medicaid hospitals as defined in subsection (f), $500 per covered inpatient day for dates of service in Calendar Year 2019 contained in paid fee-for-service claims and $500 per paid fee-for-service outpatient claim in the Department's Enterprise Data Warehouse as of August 6, 2021.

(7) For public hospitals, as defined in subsection (f), $275 per covered inpatient day contained in paid fee-for-service claims and $275 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of August 6, 2021.

(8) Alzheimer's treatment access payment. Each Illinois academic medical center or teaching hospital, as defined in Section 5-5e.2 of this Code, that is identified as the primary hospital affiliate of one of the Regional

Alzheimer's Disease Assistance Centers, as designated by the Alzheimer's Disease Assistance Act and identified in the Department of Public Health's Alzheimer's Disease State Plan dated December 2016, shall be paid an Alzheimer's treatment access payment equal to the product of the qualifying hospital's Calendar Year 2019 total inpatient fee-for-service days, in the Department's Enterprise Data Warehouse as of August 6, 2021, multiplied by the applicable Alzheimer's treatment rate of $244.37 for hospitals located in Cook County and $312.03 for hospitals located outside Cook County.

(e) The Department shall require managed care organizations (MCOs) to make directed payments and pass-through payments according to this Section. Each calendar year, the Department shall require MCOs to pay the maximum amount out of these funds as allowed as pass-through payments under federal regulations. The Department shall require MCOs to make such pass-through payments as specified in this Section. The Department shall require the MCOs to pay the remaining amounts as directed Payments as specified in this Section. The Department shall issue payments to the Comptroller by the seventh business day of each month for all MCOs that are sufficient for MCOs to make the directed payments and pass-through payments according to this Section. The Department shall require the MCOs to make pass-through payments and directed payments using electronic funds

transfers (EFT), if the hospital provides the information necessary to process such EFTs, in accordance with directions provided monthly by the Department, within 7 business days of the date the funds are paid to the MCOs, as indicated by the "Paid Date" on the website of the Office of the Comptroller if the funds are paid by EFT and the MCOs have received directed payment instructions. If funds are not paid through the Comptroller by EFT, payment must be made within 7 business days of the date actually received by the MCO. The MCO will be considered to have paid the pass-through payments when the payment remittance number is generated or the date the MCO sends the check to the hospital, if EFT information is not supplied. If an MCO is late in paying a pass-through payment or directed payment as required under this Section (including any extensions granted by the Department), it shall pay a penalty, unless waived by the Department for reasonable cause, to the Department equal to 5% of the amount of the pass-through payment or directed payment not paid on or before the due date plus 5% of the portion thereof remaining unpaid on the last day of each 30-day period thereafter. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this Section shall not be reduced as a consequence of payments made under this subsection. The Department shall publish and maintain on its website for a period of no less than 8 calendar quarters, the quarterly calculation of directed payments and

pass-through payments owed to each hospital from each MCO. All calculations and reports shall be posted no later than the first day of the quarter for which the payments are to be issued.

(f)(1) For purposes of allocating the funds included in capitation payments to MCOs, Illinois hospitals shall be divided into the following classes as defined in administrative rules:

(A) Beginning July 1, 2020 through December 31, 2022, critical ~~Critical~~ access hospitals. Beginning January 1, 2023, "critical access hospital" means a hospital designated by the Department of Public Health as a critical access hospital, excluding any hospital meeting the definition of a public hospital in subparagraph (F).

(B) Safety-net hospitals, except that stand-alone children's hospitals that are not specialty children's hospitals will not be included. For the calendar year beginning January 1, 2023, and each calendar year thereafter, assignment to the safety-net class shall be based on the annual safety-net rate year beginning 15 months before the beginning of the first Payout Quarter of the calendar year.

(C) Long term acute care hospitals.

(D) Freestanding psychiatric hospitals.

(E) Freestanding rehabilitation hospitals.

(F) Beginning January 1, 2023, "public hospital" means

a hospital that is owned or operated by an Illinois Government body or municipality, excluding a hospital provider that is a State agency, a State university, or a county with a population of 3,000,000 or more.

(G) ~~(F)~~ High Medicaid hospitals.

(i) As used in this Section, "high Medicaid hospital" means a general acute care hospital that:

(I) For the payout periods July 1, 2020 through December 31, 2022, is not a safety-net hospital or critical access hospital and that has a Medicaid Inpatient Utilization Rate above 30% or a hospital that had over 35,000 inpatient Medicaid days during the applicable period. For the period July 1, 2020 through December 31, 2020, the applicable period for the Medicaid Inpatient Utilization Rate (MIUR) is the rate year 2020 MIUR and for the number of inpatient days it is State fiscal year 2018. Beginning in calendar year 2021, the Department shall use the most recently determined MIUR, as defined in subsection (h) of Section 5-5.02, and for the inpatient day threshold, the State fiscal year ending 18 months prior to the beginning of the calendar year. For purposes of calculating MIUR under this Section, children's hospitals and affiliated general acute care hospitals shall be considered a single

hospital.

(II) For the calendar year beginning January 1, 2023, and each calendar year thereafter, is not a public hospital, safety-net hospital, or critical access hospital and that qualifies as a regional high volume hospital or is a hospital that has a Medicaid Inpatient Utilization Rate (MIUR) above 30%. As used in this item, "regional high volume hospital" means a hospital which ranks in the top 2 quartiles based on total hospital services volume, of all eligible general acute care hospitals, when ranked in descending order based on total hospital services volume, within the same Medicaid managed care region, as designated by the Department, as of January 1, 2022. As used in this item, "total hospital services volume" means the total of all Medical Assistance hospital inpatient admissions plus all Medical Assistance hospital outpatient visits. For purposes of determining regional high volume hospital inpatient admissions and outpatient visits, the Department shall use dates of service provided during State Fiscal Year 2020 for the Payout Quarter beginning January 1, 2023. The Department shall use dates of service from the State fiscal year ending 18 month before the

beginning of the first Payout Quarter of the subsequent annual determination period.

(ii) For the calendar year beginning January 1, 2023, the Department shall use the Rate Year 2022 Medicaid inpatient utilization rate (MIUR), as defined in subsection (h) of Section 5-5.02. For each subsequent annual determination, the Department shall use the MIUR applicable to the rate year ending September 30 of the year preceding the beginning of the calendar year.

(H) ~~(G)~~ General acute care hospitals. As used under this Section, "general acute care hospitals" means all other Illinois hospitals not identified in subparagraphs (A) through (G) ~~(F)~~.

(2) Hospitals' qualification for each class shall be assessed prior to the beginning of each calendar year and the new class designation shall be effective January 1 of the next year. The Department shall publish by rule the process for establishing class determination.

(g) Fixed pool directed payments. Beginning July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to qualified Illinois safety-net hospitals and critical access hospitals on a monthly basis in accordance with this subsection. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the

Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by safety-net hospitals and critical access hospitals to determine a quarterly uniform per unit add-on for each hospital class.

(1) Inpatient per unit add-on. A quarterly uniform per diem add-on shall be derived by dividing the quarterly Inpatient Directed Payments Pool amount allocated to the applicable hospital class by the total inpatient days contained on all encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly inpatient directed payment calculated that is equal to the product of the number of inpatient days attributable to the hospital used in the calculation of the quarterly uniform class per diem add-on, multiplied by the calculated applicable quarterly uniform class per diem add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly inpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(2) Outpatient per unit add-on. A quarterly uniform per claim add-on shall be derived by dividing the quarterly Outpatient Directed Payments Pool amount allocated to the applicable hospital class by the total

outpatient encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly outpatient directed payment calculated that is equal to the product of the number of outpatient encounter claims attributable to the hospital used in the calculation of the quarterly uniform class per claim add-on, multiplied by the calculated applicable quarterly uniform class per claim add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(3) Each MCO shall pay each hospital the Monthly Directed Payment as identified by the Department on its quarterly determination report.

(4) Definitions. As used in this subsection:

(A) "Payout Quarter" means each 3 month calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each 3 month calendar quarter, which ends 3 months prior to the first day of each Payout Quarter.

(5) For the period July 1, 2020 through December 2020, the following amounts shall be allocated to the following hospital class directed payment pools for the quarterly

development of a uniform per unit add-on:

(A) $2,894,500 for hospital inpatient services for critical access hospitals.

(B) $4,294,374 for hospital outpatient services for critical access hospitals.

(C) $29,109,330 for hospital inpatient services for safety-net hospitals.

(D) $35,041,218 for hospital outpatient services for safety-net hospitals.

(6) For the period January 1, 2023 through December 31, 2023, the Department shall establish the amounts that shall be allocated to the hospital class directed payment fixed pools identified in this paragraph for the quarterly development of a uniform per unit add-on. The Department shall establish such amounts so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the directed payment fixed pool amounts to be established under this paragraph on its website by November 15, 2022.

(A) Hospital inpatient services for critical

access hospitals.

(B) Hospital outpatient services for critical access hospitals.

(C) Hospital inpatient services for public hospitals.

(D) Hospital outpatient services for public hospitals.

(E) Hospital inpatient services for safety-net hospitals.

(F) Hospital outpatient services for safety-net hospitals.

(7) Semi-annual rate maintenance review. The Department shall ensure that hospitals assigned to the fixed pools in paragraph (6) are paid no less than 95% of the annual initial rate for each 6-month period of each annual payout period. For each calendar year, the Department shall calculate the annual initial rate per day and per visit for each fixed pool hospital class listed in paragraph (6), by dividing the total of all applicable inpatient or outpatient directed payments issued in the preceding calendar year to the hospitals in each fixed pool class for the calendar year, plus any increase resulting from the annual adjustments described in subsection (i), by the actual applicable total service units for the preceding calendar year which were the basis of the total applicable inpatient or outpatient directed

payments issued to the hospitals in each fixed pool class in the calendar year, except that for calendar year 2023, the service units from calendar year 2021 shall be used.

(A) The Department shall calculate the effective rate, per day and per visit, for the payout periods of January to June and July to December of each year, for each fixed pool listed in paragraph (6), by dividing 50% of the annual pool by the total applicable reported service units for the 2 applicable determination quarters.

(B) If the effective rate calculated in subparagraph (A) is less than 95% of the annual initial rate assigned to the class for each pool under paragraph (6), the Department shall adjust the payment for each hospital to a level equal to no less than 95% of the annual initial rate, by issuing a retroactive adjustment payment for the 6-month period under review as identified in subparagraph (A).

(h) Fixed rate directed payments. Effective July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to Illinois hospitals not identified in paragraph (g) on a monthly basis. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient

services rendered by hospitals in each hospital class identified in paragraph (f) and not identified in paragraph (g). For the period July 1, 2020 through December 2020, the Department shall direct MCOs to make payments as follows:

(1) For general acute care hospitals an amount equal to $1,750 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(2) For general acute care hospitals an amount equal to $160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(3) For general acute care hospitals an amount equal to $80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(4) For general acute care hospitals an amount equal to $375 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG (EAPGs) for the determination quarter.

(5) For general acute care hospitals an amount equal to $240 multiplied by the hospital's category of service

27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(6) For general acute care hospitals an amount equal to $290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(7) For high Medicaid hospitals an amount equal to $1,800 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(8) For high Medicaid hospitals an amount equal to $160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(9) For high Medicaid hospitals an amount equal to $80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(10) For high Medicaid hospitals an amount equal to $400 multiplied by the hospital's category of service 24

case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG outpatient claims for the determination quarter.

(11) For high Medicaid hospitals an amount equal to $240 multiplied by the hospital's category of service 27 and 28 case mix index for the determination quarter multiplied by the hospital's total number of category of service 27 and 28 paid EAPGs for the determination quarter.

(12) For high Medicaid hospitals an amount equal to $290 multiplied by the hospital's category of service 29 case mix index for the determination quarter multiplied by the hospital's total number of category of service 29 paid EAPGs for the determination quarter.

(13) For long term acute care hospitals the amount of $495 multiplied by the hospital's total number of inpatient days for the determination quarter.

(14) For psychiatric hospitals the amount of $210 multiplied by the hospital's total number of inpatient days for category of service 21 for the determination quarter.

(15) For psychiatric hospitals the amount of $250 multiplied by the hospital's total number of outpatient claims for category of service 27 and 28 for the determination quarter.

(16) For rehabilitation hospitals the amount of $410

multiplied by the hospital's total number of inpatient days for category of service 22 for the determination quarter.

(17) For rehabilitation hospitals the amount of $100 multiplied by the hospital's total number of outpatient claims for category of service 29 for the determination quarter.

(18) Effective for the Payout Quarter beginning January 1, 2023, for the directed payments to hospitals required under this subsection, the Department shall establish the amounts that shall be used to calculate such directed payments using the methodologies specified in this paragraph. The Department shall use a single, uniform rate, adjusted for acuity as specified in paragraphs (1) through (12), for all categories of inpatient services provided by each class of hospitals and a single uniform rate, adjusted for acuity as specified in paragraphs (1) through (12), for all categories of outpatient services provided by each class of hospitals. The Department shall establish such amounts so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022,

assuming that the volume and acuity of claims are held constant. The Department shall publish the directed payment amounts to be established under this subsection on its website by November 15, 2022.

(19) ~~(18)~~ Each hospital shall be paid 1/3 of their quarterly inpatient and outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

20 ~~(19)~~ Each MCO shall pay each hospital the Monthly Directed Payment amount as identified by the Department on its quarterly determination report.

Notwithstanding any other provision of this subsection, if the Department determines that the actual total hospital utilization data that is used to calculate the fixed rate directed payments is substantially different than anticipated when the rates in this subsection were initially determined ~~(~~for unforeseeable circumstances (such as the COVID-19 pandemic or some other public health emergency), the Department may adjust the rates specified in this subsection so that the total directed payments approximate the total spending amount anticipated when the rates were initially established.

Definitions. As used in this subsection:

(A) "Payout Quarter" means each calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each calendar

quarter which ends 3 months prior to the first day of each Payout Quarter.

(C) "Case mix index" means a hospital specific calculation. For inpatient claims the case mix index is calculated each quarter by summing the relative weight of all inpatient Diagnosis-Related Group (DRG) claims for a category of service in the applicable Determination Quarter and dividing the sum by the number of sum total of all inpatient DRG admissions for the category of service for the associated claims. The case mix index for outpatient claims is calculated each quarter by summing the relative weight of all paid EAPGs in the applicable Determination Quarter and dividing the sum by the sum total of paid EAPGs for the associated claims.

(i) Beginning January 1, 2021, the rates for directed payments shall be recalculated in order to spend the additional funds for directed payments that result from reduction in the amount of pass-through payments allowed under federal regulations. The additional funds for directed payments shall be allocated proportionally to each class of hospitals based on that class' proportion of services.

(1) Beginning January 1, 2024, the fixed pool directed payment amounts and the associated annual initial rates referenced in paragraph (6) of subsection (f) for each hospital class shall be uniformly increased by a ratio of

not less than, the ratio of the total pass-through reduction amount pursuant to paragraph (4) of subsection (j), for the hospitals comprising the hospital fixed pool directed payment class for the next calendar year, to the total inpatient and outpatient directed payments for the hospitals comprising the hospital fixed pool directed payment class paid during the preceding calendar year.

(2) Beginning January 1, 2024, the fixed rates for the directed payments referenced in paragraph (18) of subsection (h) for each hospital class shall be uniformly increased by a ratio of not less than, the ratio of the total pass-through reduction amount pursuant to paragraph (4) of subsection (j), for the hospitals comprising the hospital directed payment class for the next calendar year, to the total inpatient and outpatient directed payments for the hospitals comprising the hospital fixed rate directed payment class paid during the preceding calendar year.

(j) Pass-through payments.

(1) For the period July 1, 2020 through December 31, 2020, the Department shall assign quarterly pass-through payments to each class of hospitals equal to one-fourth of the following annual allocations:

(A) $390,487,095 to safety-net hospitals.

(B) $62,553,886 to critical access hospitals.

(C) $345,021,438 to high Medicaid hospitals.

(D) $551,429,071 to general acute care hospitals.

(E) $27,283,870 to long term acute care hospitals.

(F) $40,825,444 to freestanding psychiatric hospitals.

(G) $9,652,108 to freestanding rehabilitation hospitals.

(2) For the period of July 1, 2020 through December 31, 2020, the ~~The~~ pass-through payments shall at a minimum ensure hospitals receive a total amount of monthly payments under this Section as received in calendar year 2019 in accordance with this Article and paragraph (1) of subsection (d-5) of Section 14-12, exclusive of amounts received through payments referenced in subsection (b).

(3) For the calendar year beginning January 1, 2023, the Department shall establish the annual pass-through allocation to each class of hospitals and the pass-through payments to each hospital so that the total amount of payments to each hospital under this Section in calendar year 2023 is projected to be substantially similar to the total amount of such payments received by the hospital under this Section in calendar year 2021, adjusted for increased funding provided for fixed pool directed payments under subsection (g) in calendar year 2022, assuming that the volume and acuity of claims are held constant. The Department shall publish the pass-through allocation to each class and the pass-through payments to

each hospital to be established under this subsection on its website by November 15, 2022.

(4) ~~(3)~~ For the calendar years ~~year~~ beginning January 1, 2021, January 1, 2022, and January 1, 2024, and each calendar year thereafter, each hospital's pass-through payment amount shall be reduced proportionally to the reduction of all pass-through payments required by federal regulations.

(k) At least 30 days prior to each calendar year, the Department shall notify each hospital of changes to the payment methodologies in this Section, including, but not limited to, changes in the fixed rate directed payment rates, the aggregate pass-through payment amount for all hospitals, and the hospital's pass-through payment amount for the upcoming calendar year.

(l) Notwithstanding any other provisions of this Section, the Department may adopt rules to change the methodology for directed and pass-through payments as set forth in this Section, but only to the extent necessary to obtain federal approval of a necessary State Plan amendment or Directed Payment Preprint or to otherwise conform to federal law or federal regulation.

(m) As used in this subsection, "managed care organization" or "MCO" means an entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis, excluding contracted

entities for dual eligible or Department of Children and Family Services youth populations.

(n) In order to address the escalating infant mortality rates among minority communities in Illinois, the State shall, subject to appropriation, create a pool of funding of at least $50,000,000 annually to be disbursed among safety-net hospitals that maintain perinatal designation from the Department of Public Health. The funding shall be used to preserve or enhance OB/GYN services or other specialty services at the receiving hospital, with the distribution of funding to be established by rule and with consideration to perinatal hospitals with safe birthing levels and quality metrics for healthy mothers and babies.

(o) In order to address the growing challenges of providing stable access to healthcare in rural Illinois, including perinatal services, behavioral healthcare including substance use disorder services (SUDs) and other specialty services, and to expand access to telehealth services among rural communities in Illinois, the Department of Healthcare and Family Services, subject to appropriation, shall administer a program to provide at least $10,000,000 in financial support annually to critical access hospitals for delivery of perinatal and OB/GYN services, behavioral healthcare including SUDS, other specialty services and telehealth services. The funding shall be used to preserve or enhance perinatal and OB/GYN services, behavioral healthcare

including SUDS, other specialty services, as well as the explanation of telehealth services by the receiving hospital, with the distribution of funding to be established by rule.

(p) For calendar year 2023, the final amounts, rates, and payments under subsections (c), (d-2), (g), (h), and (j) shall be established by the Department, so that the sum of the total estimated annual payments under subsections (c), (d-2), (g), (h), and (j) for each hospital class for calendar year 2023, is no less than:

(1) $858,260,000 to safety-net hospitals.

(2) $86,200,000 to critical access hospitals.

(3) $1,765,000,000 to high Medicaid hospitals.

(4) $673,860,000 to general acute care hospitals.

(5) $48,330,000 to long term acute care hospitals.

(6) $89,110,000 to freestanding psychiatric hospitals.

(7) $24,300,000 to freestanding rehabilitation hospitals.

(8) $32,570,000 to public hospitals.

Sec. 5A-14. Repeal of assessments and disbursements.

(a) Section 5A-2 is repealed on December 31, 2026 ~~2022~~.

(b) Section 5A-12 is repealed on July 1, 2005.

(c) Section 5A-12.1 is repealed on July 1, 2008.

(d) Section 5A-12.2 and Section 5A-12.4 are repealed on July 1, 2018, subject to Section 5A-16.

(e) Section 5A-12.3 is repealed on July 1, 2011.

(f) Section 5A-12.6 is repealed on July 1, 2020.

(g) Section 5A-12.7 is repealed on December 31, 2026 ~~2022~~.

Section 10-5. The Illinois Public Aid Code is amended by adding Section 5-45 as follows:

(305 ILCS 5/5-45 new)

Sec. 5-45. General acute care hospitals. A general acute care hospital is authorized to file a notice with the Department of Public Health and the Health Facilities and Services Review Board to establish an acute mental illness category of service in accordance with the Illinois Health Facilities Planning Act and add authorized acute mental illness beds if the following conditions are met:

(1) the general acute care hospital qualifies as a safety-net hospital, as defined in Section 5-5e.1, as determined by the Department of Healthcare and Family Services at the time of filing the notice or for the year immediately prior to the date of filing the notice;

(2) the notice seeks to establish no more than 24

authorized acute mental illness beds; and

(3) the notice seeks to reduce the number of authorized beds in another category of service to offset the number of authorized acute mental illness beds.

ARTICLE 15.

Section 15-5. The Illinois Public Aid Code is amended by changing Section 12-4.105 as follows:

(305 ILCS 5/12-4.105)

Sec. 12-4.105. Human poison control center; payment program. Subject to funding availability resulting from transfers made from the Hospital Provider Fund to the Healthcare Provider Relief Fund as authorized under this Code, for State fiscal year 2017 and State fiscal year 2018, and for each State fiscal year thereafter in which the assessment under Section 5A-2 is imposed, the Department of Healthcare and Family Services shall pay to the human poison control center designated under the Poison Control System Act an amount of not less than $3,000,000 for each of State fiscal years 2017 through 2020, and for State fiscal years ~~year~~ 2021 through 2026 ~~and 2022~~ an amount of not less than $3,750,000 and for the period July 1, 2026 ~~2022~~ through December 31, 2026 ~~2022~~ an amount of not less than $1,875,000, if the human poison control center is in operation.

ARTICLE 20.

Section 20-5. The Department of Public Health Powers and Duties Law is amended by adding Section 2310-710 as follows:

(20 ILCS 2310/2310-710 new)

Sec. 2310-710. Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program.

(a) Findings. The General Assembly finds that there are communities in Illinois that experience significant health care disparities, as recently emphasized by the COVID-19 pandemic, aggravated by social determinants of health and a lack of sufficient access to high quality healthcare resources, particularly community-based services, preventive care, obstetric care, chronic disease management, and specialty care. Safety-net hospitals, as defined under the Illinois Public Aid Code, serve as the anchors of the health care system for many of these communities. Safety-net hospitals not only care for their patients, they also are rooted in their communities by providing jobs and partnering with local organizations to help address the social determinants of health, such as food, housing, and transportation needs.

However, safety-net hospitals serve a significant number

of Medicare, Medicaid, and uninsured patients, and therefore, are heavily dependent on underfunded government payers, and are heavily burdened by uncompensated care. At the same time, the overall cost of providing care has increased substantially in recent years, driven by increasing costs for staffing, prescription drugs, technology, and infrastructure.

For all of these reasons, the General Assembly finds that the long term sustainability of safety-net hospitals is threatened. While the General Assembly is providing funding to the Department to be paid to support the expenses of specific safety-net hospitals in State Fiscal Year 2023, such annual, ad hoc funding is not a reliable and stable source of funding that will enable safety-net hospitals to develop strategies to achieve long term sustainability. Such annual, ad hoc funding also does not provide the State with transparency and accountability to ensure that such funding is being used effectively and efficiently to maximize the benefit to members of the community.

Therefore, it is the intent of the General Assembly that the Department of Public Health and the Department of Healthcare and Family Services jointly provide options and recommendations to the General Assembly by February 1, 2023, for the establishment of a permanent Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program, in accordance with this Section. It is the intention of the General Assembly that during State fiscal years 2024 through

2029, the Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program shall be supported by an annual funding pool of up to $100,000,000, subject to appropriation.

(b) By February 1, 2023, the Department of Public Health and the Department of Healthcare and Family Services shall provide a joint report to the General Assembly on options and recommendations for the establishment of a permanent Safety-Net Hospital Health Equity and Access Leadership (HEAL) Grant Program to be administered by the State. For this report, "safety-net hospital" means a hospital identified by the Department of Healthcare and Family Services under Section 5-5e.1 of the Illinois Public Aid Code. The Departments of Public Health and Healthcare and Family Services may consult with the statewide association representing a majority of hospitals and safety-net hospitals on the report. The report may include, but need not be limited to:

(1) Criteria for a safety-net hospital to be eligible for the program, such as:

(A) The hospital is a participating provider in at least one Medicaid managed care plan.

(B) The hospital is located in a medically underserved area.

(C) The hospital's Medicaid utilization rate (for both inpatient and outpatient services).

(D) The hospital's Medicare utilization rate (for

both inpatient and outpatient services).

(E) The hospital's uncompensated care percentage.

(F) The hospital's role in providing access to services, reducing health disparities, and improving health equity in its service area.

(G) The hospital's performance on quality indicators.

(2) Potential projects eligible for grant funds which may include projects to reduce health disparities, advance health equity, or improve access to or the quality of healthcare services.

(3) Potential policies, standards, and procedures to ensure accountability for the use of grant funds.

(4) Potential strategies to generate federal Medicaid matching funds for expenditures under the program.

(5) Potential policies, processes, and procedures for the administration of the program.

ARTICLE 25.

Section 25-5. The Illinois Public Aid Code is amended by changing Section 5-5.02 as follows:

(305 ILCS 5/5-5.02) (from Ch. 23, par. 5-5.02)

Sec. 5-5.02. Hospital reimbursements.

(a) Reimbursement to hospitals; July 1, 1992 through

September 30, 1992. Notwithstanding any other provisions of this Code or the Illinois Department's Rules promulgated under the Illinois Administrative Procedure Act, reimbursement to hospitals for services provided during the period July 1, 1992 through September 30, 1992, shall be as follows:

(1) For inpatient hospital services rendered, or if applicable, for inpatient hospital discharges occurring, on or after July 1, 1992 and on or before September 30, 1992, the Illinois Department shall reimburse hospitals for inpatient services under the reimbursement methodologies in effect for each hospital, and at the inpatient payment rate calculated for each hospital, as of June 30, 1992. For purposes of this paragraph, "reimbursement methodologies" means all reimbursement methodologies that pertain to the provision of inpatient hospital services, including, but not limited to, any adjustments for disproportionate share, targeted access, critical care access and uncompensated care, as defined by the Illinois Department on June 30, 1992.

(2) For the purpose of calculating the inpatient payment rate for each hospital eligible to receive quarterly adjustment payments for targeted access and critical care, as defined by the Illinois Department on June 30, 1992, the adjustment payment for the period July 1, 1992 through September 30, 1992, shall be 25% of the annual adjustment payments calculated for each eligible

hospital, as of June 30, 1992. The Illinois Department shall determine by rule the adjustment payments for targeted access and critical care beginning October 1, 1992.

(3) For the purpose of calculating the inpatient payment rate for each hospital eligible to receive quarterly adjustment payments for uncompensated care, as defined by the Illinois Department on June 30, 1992, the adjustment payment for the period August 1, 1992 through September 30, 1992, shall be one-sixth of the total uncompensated care adjustment payments calculated for each eligible hospital for the uncompensated care rate year, as defined by the Illinois Department, ending on July 31, 1992. The Illinois Department shall determine by rule the adjustment payments for uncompensated care beginning October 1, 1992.

(b) Inpatient payments. For inpatient services provided on or after October 1, 1993, in addition to rates paid for hospital inpatient services pursuant to the Illinois Health Finance Reform Act, as now or hereafter amended, or the Illinois Department's prospective reimbursement methodology, or any other methodology used by the Illinois Department for inpatient services, the Illinois Department shall make adjustment payments, in an amount calculated pursuant to the methodology described in paragraph (c) of this Section, to hospitals that the Illinois Department determines satisfy any

one of the following requirements:

(1) Hospitals that are described in Section 1923 of the federal Social Security Act, as now or hereafter amended, except that for rate year 2015 and after a hospital described in Section 1923(b)(1)(B) of the federal Social Security Act and qualified for the payments described in subsection (c) of this Section for rate year 2014 provided the hospital continues to meet the description in Section 1923(b)(1)(B) in the current determination year; or

(2) Illinois hospitals that have a Medicaid inpatient utilization rate which is at least one-half a standard deviation above the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Illinois Department; or

(3) Illinois hospitals that on July 1, 1991 had a Medicaid inpatient utilization rate, as defined in paragraph (h) of this Section, that was at least the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Illinois Department and which were located in a planning area with one-third or fewer excess beds as determined by the Health Facilities and Services Review Board, and that, as of June 30, 1992, were located in a federally designated Health Manpower Shortage Area; or

(4) Illinois hospitals that:

(A) have a Medicaid inpatient utilization rate that is at least equal to the mean Medicaid inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Department; and

(B) also have a Medicaid obstetrical inpatient utilization rate that is at least one standard deviation above the mean Medicaid obstetrical inpatient utilization rate for all hospitals in Illinois receiving Medicaid payments from the Department for obstetrical services; or

(5) Any children's hospital, which means a hospital devoted exclusively to caring for children. A hospital which includes a facility devoted exclusively to caring for children shall be considered a children's hospital to the degree that the hospital's Medicaid care is provided to children if either (i) the facility devoted exclusively to caring for children is separately licensed as a hospital by a municipality prior to February 28, 2013; (ii) the hospital has been designated by the State as a Level III perinatal care facility, has a Medicaid Inpatient Utilization rate greater than 55% for the rate year 2003 disproportionate share determination, and has more than 10,000 qualified children days as defined by the Department in rulemaking; (iii) the hospital has been designated as a Perinatal Level III center by the State as of December 1, 2017, is a Pediatric Critical Care Center

designated by the State as of December 1, 2017 and has a 2017 Medicaid inpatient utilization rate equal to or greater than 45%; or (iv) the hospital has been designated as a Perinatal Level II center by the State as of December 1, 2017, has a 2017 Medicaid Inpatient Utilization Rate greater than 70%, and has at least 10 pediatric beds as listed on the IDPH 2015 calendar year hospital profile; or

(6) A hospital that reopens a previously closed hospital facility within 4 ~~3~~ calendar years of the hospital facility's closure, if the previously closed hospital facility qualified for payments under paragraph (c) at the time of closure, until utilization data for the new facility is available for the Medicaid inpatient utilization rate calculation. For purposes of this clause, a "closed hospital facility" shall include hospitals that have been terminated from participation in the medical assistance program in accordance with Section 12-4.25 of this Code.

(c) Inpatient adjustment payments. The adjustment payments required by paragraph (b) shall be calculated based upon the hospital's Medicaid inpatient utilization rate as follows:

(1) hospitals with a Medicaid inpatient utilization rate below the mean shall receive a per day adjustment payment equal to $25;

(2) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than the mean Medicaid

inpatient utilization rate but less than one standard deviation above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of $25 plus $1 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds the mean Medicaid inpatient utilization rate;

(3) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than one standard deviation above the mean Medicaid inpatient utilization rate but less than 1.5 standard deviations above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of $40 plus $7 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds one standard deviation above the mean Medicaid inpatient utilization rate;

(4) hospitals with a Medicaid inpatient utilization rate that is equal to or greater than 1.5 standard deviations above the mean Medicaid inpatient utilization rate shall receive a per day adjustment payment equal to the sum of $90 plus $2 for each one percent that the hospital's Medicaid inpatient utilization rate exceeds 1.5 standard deviations above the mean Medicaid inpatient utilization rate; and

(5) hospitals qualifying under clause (6) of paragraph (b) shall have the rate assigned to the previously closed hospital facility at the date of closure, until

utilization data for the new facility is available for the Medicaid inpatient utilization rate calculation.

(d) Supplemental adjustment payments. In addition to the adjustment payments described in paragraph (c), hospitals as defined in clauses (1) through (6) of paragraph (b), excluding county hospitals (as defined in subsection (c) of Section 15-1 of this Code) and a hospital organized under the University of Illinois Hospital Act, shall be paid supplemental inpatient adjustment payments of $60 per day. For purposes of Title XIX of the federal Social Security Act, these supplemental adjustment payments shall not be classified as adjustment payments to disproportionate share hospitals.

(e) The inpatient adjustment payments described in paragraphs (c) and (d) shall be increased on October 1, 1993 and annually thereafter by a percentage equal to the lesser of (i) the increase in the DRI hospital cost index for the most recent 12 month period for which data are available, or (ii) the percentage increase in the statewide average hospital payment rate over the previous year's statewide average hospital payment rate. The sum of the inpatient adjustment payments under paragraphs (c) and (d) to a hospital, other than a county hospital (as defined in subsection (c) of Section 15-1 of this Code) or a hospital organized under the University of Illinois Hospital Act, however, shall not exceed $275 per day; that limit shall be increased on October 1, 1993 and annually thereafter by a percentage equal to the lesser of

(i) the increase in the DRI hospital cost index for the most recent 12-month period for which data are available or (ii) the percentage increase in the statewide average hospital payment rate over the previous year's statewide average hospital payment rate.

(f) Children's hospital inpatient adjustment payments. For children's hospitals, as defined in clause (5) of paragraph (b), the adjustment payments required pursuant to paragraphs (c) and (d) shall be multiplied by 2.0.

(g) County hospital inpatient adjustment payments. For county hospitals, as defined in subsection (c) of Section 15-1 of this Code, there shall be an adjustment payment as determined by rules issued by the Illinois Department.

(h) For the purposes of this Section the following terms shall be defined as follows:

(1) "Medicaid inpatient utilization rate" means a fraction, the numerator of which is the number of a hospital's inpatient days provided in a given 12-month period to patients who, for such days, were eligible for Medicaid under Title XIX of the federal Social Security Act, and the denominator of which is the total number of the hospital's inpatient days in that same period.

(2) "Mean Medicaid inpatient utilization rate" means the total number of Medicaid inpatient days provided by all Illinois Medicaid-participating hospitals divided by the total number of inpatient days provided by those same

hospitals.

(3) "Medicaid obstetrical inpatient utilization rate" means the ratio of Medicaid obstetrical inpatient days to total Medicaid inpatient days for all Illinois hospitals receiving Medicaid payments from the Illinois Department.

(i) Inpatient adjustment payment limit. In order to meet the limits of Public Law 102-234 and Public Law 103-66, the Illinois Department shall by rule adjust disproportionate share adjustment payments.

(j) University of Illinois Hospital inpatient adjustment payments. For hospitals organized under the University of Illinois Hospital Act, there shall be an adjustment payment as determined by rules adopted by the Illinois Department.

(k) The Illinois Department may by rule establish criteria for and develop methodologies for adjustment payments to hospitals participating under this Article.

(l) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(m) The Department shall establish a cost-based reimbursement methodology for determining payments to hospitals for approved graduate medical education (GME) programs for dates of service on and after July 1, 2018.

(1) As used in this subsection, "hospitals" means the

University of Illinois Hospital as defined in the University of Illinois Hospital Act and a county hospital in a county of over 3,000,000 inhabitants.

(2) An amendment to the Illinois Title XIX State Plan defining GME shall maximize reimbursement, shall not be limited to the education programs or special patient care payments allowed under Medicare, and shall include:

(A) inpatient days;

(B) outpatient days;

(C) direct costs;

(D) indirect costs;

(E) managed care days;

(F) all stages of medical training and education including students, interns, residents, and fellows with no caps on the number of persons who may qualify; and

(G) patient care payments related to the complexities of treating Medicaid enrollees including clinical and social determinants of health.

(3) The Department shall make all GME payments directly to hospitals including such costs in support of clients enrolled in Medicaid managed care entities.

(4) The Department shall promptly take all actions necessary for reimbursement to be effective for dates of service on and after July 1, 2018 including publishing all appropriate public notices, amendments to the Illinois

Title XIX State Plan, and adoption of administrative rules if necessary.

(5) As used in this subsection, "managed care days" means costs associated with services rendered to enrollees of Medicaid managed care entities. "Medicaid managed care entities" means any entity which contracts with the Department to provide services paid for on a capitated basis. "Medicaid managed care entities" includes a managed care organization and a managed care community network.

(6) All payments under this Section are contingent upon federal approval of changes to the Illinois Title XIX State Plan, if that approval is required.

(7) The Department may adopt rules necessary to implement Public Act 100-581 through the use of emergency rulemaking in accordance with subsection (aa) of Section 5-45 of the Illinois Administrative Procedure Act. For purposes of that Act, the General Assembly finds that the adoption of rules to implement Public Act 100-581 is deemed an emergency and necessary for the public interest, safety, and welfare.

ARTICLE 30.

Section 30-5. The Illinois Income Tax Act is amended by changing Section 223 as follows:

(35 ILCS 5/223)

Sec. 223. Hospital credit.

(a) For tax years ending on or after December 31, 2012 and ending on or before December 31, 2027 ~~December 31, 2022~~, a taxpayer that is the owner of a hospital licensed under the Hospital Licensing Act, but not including an organization that is exempt from federal income taxes under the Internal Revenue Code, is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of this Act in an amount equal to the lesser of the amount of real property taxes paid during the tax year on real property used for hospital purposes during the prior tax year or the cost of free or discounted services provided during the tax year pursuant to the hospital's charitable financial assistance policy, measured at cost.

(b) If the taxpayer is a partnership or Subchapter S corporation, the credit is allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. A transfer of this credit may be made by the taxpayer earning the credit within one year after the credit is earned in accordance with rules adopted by the Department. The Department shall prescribe rules to enforce and administer provisions of this Section. If the amount of the credit exceeds the tax liability

for the year, then the excess credit may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first. In no event shall a credit under this Section reduce the taxpayer's liability to less than zero.

(Source: P.A. 100-587, eff. 6-4-18.)

Section 30-10. The Use Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 105/3-8)

Sec. 3-8. Hospital exemption.

(a) Until July 1, 2027 ~~2022~~, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the

relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount

Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital

applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purpose of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested

government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation

for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with

respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any

appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly

controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the

calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

(Source: P.A. 99-143, eff. 7-27-15; 100-1181, eff. 3-8-19.)

Section 30-15. The Service Use Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 110/3-8)

Sec. 3-8. Hospital exemption.

(a) Until July 1, 2027 ~~2022~~, tangible personal property

sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and

activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or

services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local

government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related

to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or

underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The

estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with

subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a

remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility

located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an

exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the

effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

(Source: P.A. 99-143, eff. 7-27-15; 100-1181, eff. 3-8-19.)

Section 30-20. The Service Occupation Tax Act is amended by changing Section 3-8 as follows:

(35 ILCS 115/3-8)

Sec. 3-8. Hospital exemption.

(a) Until July 1, 2027 ~~2022~~, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital

owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or

underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant

hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in

the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most

recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for

consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the

applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days

before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more

other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which

the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.

(Source: P.A. 99-143, eff. 7-27-15; 100-1181, eff. 3-8-19.)

Section 30-25. The Retailers' Occupation Tax Act is amended by changing Section 2-9 as follows:

(35 ILCS 120/2-9)

Sec. 2-9. Hospital exemption.

(a) Until July 1, 2027 ~~2022~~, tangible personal property sold to or used by a hospital owner that owns one or more hospitals licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, or a hospital affiliate that is not already exempt under another provision of this Act and meets the criteria for an exemption under this Section, is exempt from taxation under this Act.

(b) A hospital owner or hospital affiliate satisfies the conditions for an exemption under this Section if the value of qualified services or activities listed in subsection (c) of this Section for the hospital year equals or exceeds the relevant hospital entity's estimated property tax liability, without regard to any property tax exemption granted under Section 15-86 of the Property Tax Code, for the calendar year in which exemption or renewal of exemption is sought. For purposes of making the calculations required by this subsection (b), if the relevant hospital entity is a hospital owner that owns more than one hospital, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities relating to the hospital that includes the subject property, and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to the properties comprising that hospital. In the case of a multi-state hospital system or hospital affiliate, the value of the services or activities listed in subsection (c) shall be calculated on the basis of only those services and activities that occur in Illinois and the relevant hospital entity's estimated property tax liability shall be calculated only with respect to its property located in Illinois.

(c) The following services and activities shall be considered for purposes of making the calculations required by subsection (b):

(1) Charity care. Free or discounted services provided pursuant to the relevant hospital entity's financial assistance policy, measured at cost, including discounts provided under the Hospital Uninsured Patient Discount Act.

(2) Health services to low-income and underserved individuals. Other unreimbursed costs of the relevant hospital entity for providing without charge, paying for, or subsidizing goods, activities, or services for the purpose of addressing the health of low-income or underserved individuals. Those activities or services may include, but are not limited to: financial or in-kind support to affiliated or unaffiliated hospitals, hospital affiliates, community clinics, or programs that treat low-income or underserved individuals; paying for or subsidizing health care professionals who care for low-income or underserved individuals; providing or subsidizing outreach or educational services to low-income or underserved individuals for disease management and prevention; free or subsidized goods, supplies, or services needed by low-income or underserved individuals because of their medical condition; and prenatal or childbirth outreach to low-income or underserved persons.

(3) Subsidy of State or local governments. Direct or indirect financial or in-kind subsidies of State or local governments by the relevant hospital entity that pay for

or subsidize activities or programs related to health care for low-income or underserved individuals.

(4) Support for State health care programs for low-income individuals. At the election of the hospital applicant for each applicable year, either (A) 10% of payments to the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) under Medicaid or other means-tested programs, including, but not limited to, General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program or (B) the amount of subsidy provided by the relevant hospital entity and any hospital affiliate designated by the relevant hospital entity (provided that such hospital affiliate's operations provide financial or operational support for or receive financial or operational support from the relevant hospital entity) to State or local government in treating Medicaid recipients and recipients of means-tested programs, including but not limited to General Assistance, the Covering ALL KIDS Health Insurance Act, and the State Children's Health Insurance Program. The amount of subsidy for purposes of this item (4) is calculated in the same manner as unreimbursed costs are

calculated for Medicaid and other means-tested government programs in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly.

(5) Dual-eligible subsidy. The amount of subsidy provided to government by treating dual-eligible Medicare/Medicaid patients. The amount of subsidy for purposes of this item (5) is calculated by multiplying the relevant hospital entity's unreimbursed costs for Medicare, calculated in the same manner as determined in the Schedule H of IRS Form 990 in effect on the effective date of this amendatory Act of the 97th General Assembly, by the relevant hospital entity's ratio of dual-eligible patients to total Medicare patients.

(6) Relief of the burden of government related to health care. Except to the extent otherwise taken into account in this subsection, the portion of unreimbursed costs of the relevant hospital entity attributable to providing, paying for, or subsidizing goods, activities, or services that relieve the burden of government related to health care for low-income individuals. Such activities or services shall include, but are not limited to, providing emergency, trauma, burn, neonatal, psychiatric, rehabilitation, or other special services; providing medical education; and conducting medical research or training of health care professionals. The portion of

those unreimbursed costs attributable to benefiting low-income individuals shall be determined using the ratio calculated by adding the relevant hospital entity's costs attributable to charity care, Medicaid, other means-tested government programs, Medicare patients with disabilities under age 65, and dual-eligible Medicare/Medicaid patients and dividing that total by the relevant hospital entity's total costs. Such costs for the numerator and denominator shall be determined by multiplying gross charges by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I). In the case of emergency services, the ratio shall be calculated using costs (gross charges multiplied by the cost to charge ratio taken from the hospital's most recently filed Medicare cost report (CMS 2252-10 Worksheet, Part I)) of patients treated in the relevant hospital entity's emergency department.

(7) Any other activity by the relevant hospital entity that the Department determines relieves the burden of government or addresses the health of low-income or underserved individuals.

(d) The hospital applicant shall include information in its exemption application establishing that it satisfies the requirements of subsection (b). For purposes of making the calculations required by subsection (b), the hospital applicant may for each year elect to use either (1) the value

of the services or activities listed in subsection (e) for the hospital year or (2) the average value of those services or activities for the 3 fiscal years ending with the hospital year. If the relevant hospital entity has been in operation for less than 3 completed fiscal years, then the latter calculation, if elected, shall be performed on a pro rata basis.

(e) For purposes of making the calculations required by this Section:

(1) particular services or activities eligible for consideration under any of the paragraphs (1) through (7) of subsection (c) may not be counted under more than one of those paragraphs; and

(2) the amount of unreimbursed costs and the amount of subsidy shall not be reduced by restricted or unrestricted payments received by the relevant hospital entity as contributions deductible under Section 170(a) of the Internal Revenue Code.

(f) (Blank).

(g) Estimation of Exempt Property Tax Liability. The estimated property tax liability used for the determination in subsection (b) shall be calculated as follows:

(1) "Estimated property tax liability" means the estimated dollar amount of property tax that would be owed, with respect to the exempt portion of each of the relevant hospital entity's properties that are already

fully or partially exempt, or for which an exemption in whole or in part is currently being sought, and then aggregated as applicable, as if the exempt portion of those properties were subject to tax, calculated with respect to each such property by multiplying:

(A) the lesser of (i) the actual assessed value, if any, of the portion of the property for which an exemption is sought or (ii) an estimated assessed value of the exempt portion of such property as determined in item (2) of this subsection (g), by

(B) the applicable State equalization rate (yielding the equalized assessed value), by

(C) the applicable tax rate.

(2) The estimated assessed value of the exempt portion of the property equals the sum of (i) the estimated fair market value of buildings on the property, as determined in accordance with subparagraphs (A) and (B) of this item (2), multiplied by the applicable assessment factor, and (ii) the estimated assessed value of the land portion of the property, as determined in accordance with subparagraph (C).

(A) The "estimated fair market value of buildings on the property" means the replacement value of any exempt portion of buildings on the property, minus depreciation, determined utilizing the cost replacement method whereby the exempt square footage

of all such buildings is multiplied by the replacement cost per square foot for Class A Average building found in the most recent edition of the Marshall & Swift Valuation Services Manual, adjusted by any appropriate current cost and local multipliers.

(B) Depreciation, for purposes of calculating the estimated fair market value of buildings on the property, is applied by utilizing a weighted mean life for the buildings based on original construction and assuming a 40-year life for hospital buildings and the applicable life for other types of buildings as specified in the American Hospital Association publication "Estimated Useful Lives of Depreciable Hospital Assets". In the case of hospital buildings, the remaining life is divided by 40 and this ratio is multiplied by the replacement cost of the buildings to obtain an estimated fair market value of buildings. If a hospital building is older than 35 years, a remaining life of 5 years for residual value is assumed; and if a building is less than 8 years old, a remaining life of 32 years is assumed.

(C) The estimated assessed value of the land portion of the property shall be determined by multiplying (i) the per square foot average of the assessed values of three parcels of land (not including farm land, and excluding the assessed value

of the improvements thereon) reasonably comparable to the property, by (ii) the number of square feet comprising the exempt portion of the property's land square footage.

(3) The assessment factor, State equalization rate, and tax rate (including any special factors such as Enterprise Zones) used in calculating the estimated property tax liability shall be for the most recent year that is publicly available from the applicable chief county assessment officer or officers at least 90 days before the end of the hospital year.

(4) The method utilized to calculate estimated property tax liability for purposes of this Section 15-86 shall not be utilized for the actual valuation, assessment, or taxation of property pursuant to the Property Tax Code.

(h) For the purpose of this Section, the following terms shall have the meanings set forth below:

(1) "Hospital" means any institution, place, building, buildings on a campus, or other health care facility located in Illinois that is licensed under the Hospital Licensing Act and has a hospital owner.

(2) "Hospital owner" means a not-for-profit corporation that is the titleholder of a hospital, or the owner of the beneficial interest in an Illinois land trust that is the titleholder of a hospital.

(3) "Hospital affiliate" means any corporation, partnership, limited partnership, joint venture, limited liability company, association or other organization, other than a hospital owner, that directly or indirectly controls, is controlled by, or is under common control with one or more hospital owners and that supports, is supported by, or acts in furtherance of the exempt health care purposes of at least one of those hospital owners' hospitals.

(4) "Hospital system" means a hospital and one or more other hospitals or hospital affiliates related by common control or ownership.

(5) "Control" relating to hospital owners, hospital affiliates, or hospital systems means possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the entity, whether through ownership of assets, membership interest, other voting or governance rights, by contract or otherwise.

(6) "Hospital applicant" means a hospital owner or hospital affiliate that files an application for an exemption or renewal of exemption under this Section.

(7) "Relevant hospital entity" means (A) the hospital owner, in the case of a hospital applicant that is a hospital owner, and (B) at the election of a hospital applicant that is a hospital affiliate, either (i) the hospital affiliate or (ii) the hospital system to which

the hospital applicant belongs, including any hospitals or hospital affiliates that are related by common control or ownership.

(8) "Subject property" means property used for the calculation under subsection (b) of this Section.

(9) "Hospital year" means the fiscal year of the relevant hospital entity, or the fiscal year of one of the hospital owners in the hospital system if the relevant hospital entity is a hospital system with members with different fiscal years, that ends in the year for which the exemption is sought.

(i) It is the intent of the General Assembly that any exemptions taken, granted, or renewed under this Section prior to the effective date of this amendatory Act of the 100th General Assembly are hereby validated.

(j) It is the intent of the General Assembly that the exemption under this Section applies on a continuous basis. If this amendatory Act of the 102nd General Assembly takes effect after July 1, 2022, any exemptions taken, granted, or renewed under this Section on or after July 1, 2022 and prior to the effective date of this amendatory Act of the 102nd General Assembly are hereby validated.
