program, to be known as the Alternative Educator Licensure Program for Teachers.

(b) The Alternative Educator Licensure Program for Teachers may be offered by a recognized institution approved to offer educator preparation programs by the State Board of Education, in consultation with the State Educator Preparation and Licensure Board.

The program shall be comprised of up to 3 phases:

(1) A course of study that at a minimum includes instructional planning; instructional strategies, including special education, reading, and English language learning; classroom management; and the assessment of students and use of data to drive instruction.

(2) A year of residency, which is a candidate's assignment to a full-time teaching position or as a co-teacher for one full school year. An individual must hold an Educator License with Stipulations with an alternative provisional educator endorsement in order to enter the residency. In residency, the candidate must be assigned an effective, fully licensed teacher by the principal or principal equivalent to act as a mentor and coach the candidate through residency, complete additional program requirements that address required State and national standards, pass the State Board's teacher performance assessment, if required under Section 21B-30, and be recommended by the principal or qualified

equivalent of a principal, as required under subsection (d) of this Section, and the program coordinator to be recommended for full licensure or to continue with a second year of the residency.

(3) (Blank).

(4) A comprehensive assessment of the candidate's teaching effectiveness, as evaluated by the principal or qualified equivalent of a principal, as required under subsection (d) of this Section, and the program coordinator, at the end of either the first or the second year of residency. If there is disagreement between the 2 evaluators about the candidate's teaching effectiveness at the end of the first year of residency, a second year of residency shall be required. If there is disagreement between the 2 evaluators at the end of the second year of residency, the candidate may complete one additional year of residency teaching under a professional development plan developed by the principal or qualified equivalent and the preparation program. At the completion of the third year, a candidate must have positive evaluations and a recommendation for full licensure from both the principal or qualified equivalent and the program coordinator or no Professional Educator License shall be issued.

The endorsement shall be issued only once to an individual who meets all of the following requirements:

(1) Has graduated from a regionally accredited college or university with a bachelor's degree or higher.

(2) (Blank).

(3) Has completed a major in the content area if seeking a middle or secondary level endorsement or, if seeking an early childhood, elementary, or special education endorsement, has completed a major in the content area of early childhood reading, English/language arts, mathematics, or one of the sciences. If the individual does not have a major in a content area for any

level of teaching, he or she must submit transcripts to the State Board of Education to be reviewed for equivalency.

(4) Has successfully completed phase (1) of subsection (b) of this Section.

(5) Has passed a content area test required for the specific endorsement, as required under Section 21B-30 of this Code.

A candidate possessing the alternative provisional educator endorsement may receive a salary, benefits, and any other terms of employment offered to teachers in the school who are members of an exclusive bargaining representative, if any, but a school is not required to provide these benefits during the years of residency if the candidate is serving only as a co-teacher. If the candidate is serving as the teacher of record, the candidate must receive a salary, benefits, and any other terms of employment. Residency experiences must not be counted towards tenure.

school in this State and in which a majority of the teachers are required to have the licensure necessary to be instructors in a public school in this State. A recognized institution that partners with a public school district administering a preschool educational program under Section 2-3.71 of this Code or Section 15-30 of the Department of Early Childhood Act must require a principal to recommend or evaluate candidates in the program. These supports must, at a minimum, provide additional contact hours with mentors during the first year of residency.

all assessments required under Section 21B-30 of this Code, an individual shall receive a Professional Educator License.

(4) The contractor may not assign an employee to perform work for a school in a position involving direct contact with children or students if the school objects to the assignment after being informed of an instance listed in paragraph (3).

(k) An applicant who has undergone an employment history review under this Section and seeks to transfer to or provide services to another school in the same school district,

diocese, or religious jurisdiction, or to another school established and supervised by the same organization is not required to obtain additional reports under this Section before transferring.

(1) Nothing in this Section shall be construed:

"Evaluator" means:

- (1) an administrator qualified under Section 24A-3; or
- (2) other individuals qualified under Section 24A-3, provided that, if such other individuals are in the bargaining unit of a district's teachers, the district and the exclusive bargaining representative of that unit must agree to those individuals evaluating other bargaining unit members.

Notwithstanding anything to the contrary in item (2) of this definition, a school district operating under Article 34 of this Code may require department chairs qualified under Section 24A-3 to evaluate teachers in their department or departments, provided that the school district shall bargain with the bargaining representative of its teachers over the

impact and effects on department chairs of such a requirement.

"Implementation date" means, unless otherwise specified and provided that the requirements set forth in subsection (d) of Section 24A-20 have been met:

(1) For school districts having 500,000 or more inhabitants, in at least 300 schools by September 1, 2012 and in the remaining schools by September 1, 2013.

(2) For school districts having less than 500,000 inhabitants and receiving a Race to the Top Grant or School Improvement Grant after January 15, 2010 (the effective date of Public Act 96-861) ~~this amendatory Act of the 96th General Assembly~~, the date specified in those grants for implementing an evaluation system for teachers and principals incorporating student growth as a significant factor.

(3) For the lowest performing 20% ~~percent~~ of remaining school districts having less than 500,000 inhabitants (with the measure of and school year or years used for school district performance to be determined by the State Superintendent of Education at a time determined by the State Superintendent), September 1, 2015.

(4) For all other school districts having less than 500,000 inhabitants, September 1, 2016.

Notwithstanding items (3) and (4) of this definition, a school district and the exclusive bargaining representative of its teachers may jointly agree in writing to an earlier

implementation date, provided that such date must not be earlier than September 1, 2013. The written agreement of the district and the exclusive bargaining representative must be transmitted to the State Board of Education.

(105 ILCS 5/24A-5) (from Ch. 122, par. 24A-5)

Sec. 24A-5. Content of evaluation plans. This Section does not apply to teachers assigned to schools identified in an agreement entered into between the board of a school district operating under Article 34 of this Code and the exclusive representative of the district's teachers in accordance with Section 34-85c of this Code.

Each school district to which this Article applies shall establish a teacher evaluation plan which ensures that each teacher in contractual continued service is evaluated at least once in the course of every 2 or 3 school years as provided in this Section.

Each school district shall establish a teacher evaluation plan that ensures that:

(1) each teacher not in contractual continued service is evaluated at least once every school year; and

(2) except as otherwise provided in this Section, each teacher in contractual continued service is evaluated at least once in the course of every 2 school years. However, any teacher in contractual continued service whose performance is rated as either "needs improvement" or "unsatisfactory" must be evaluated at least once in the school year following the receipt of such rating.

No later than September 1, 2022, each school district must establish a teacher evaluation plan that ensures that each teacher in contractual continued service whose performance is rated as either "excellent" or "proficient" is evaluated at least once in the course of the 3 school years after receipt of the rating and implement an informal teacher observation plan established by agency rule and by agreement of the joint committee established under subsection (b) of Section 24A-4 of this Code that ensures that each teacher in contractual continued service whose performance is rated as either "excellent" or "proficient" is informally observed at least once in the course of the 2 school years after receipt of the rating.

For the 2022-2023 school year only, if the Governor has declared a disaster due to a public health emergency pursuant

to Section 7 of the Illinois Emergency Management Agency Act, a school district may waive the evaluation requirement of all teachers in contractual continued service whose performances were rated as either "excellent" or "proficient" during the last school year in which the teachers were evaluated under this Section.

Notwithstanding anything to the contrary in this Section or any other Section of this Code, a principal shall not be prohibited from evaluating any teachers within a school during his or her first year as principal of such school. If a first-year principal exercises this option in a school district where the evaluation plan provides for a teacher in contractual continued service to be evaluated once in the course of every 2 or 3 school years, as applicable, then a new 2-year or 3-year evaluation plan must be established.

The evaluation plan shall comply with the requirements of this Section and of any rules adopted by the State Board of Education pursuant to this Section.

The plan shall include a description of each teacher's duties and responsibilities and of the standards to which that teacher is expected to conform, and shall include at least the following components:

- (a) personal observation of the teacher in the classroom by the evaluator, unless the teacher has no classroom duties.

- (b) consideration of the teacher's attendance,

planning, instructional methods, classroom management, where relevant, and competency in the subject matter taught.

(c) by no later than the applicable implementation date, consideration of student growth as a significant factor in the rating of the teacher's performance.

(d) prior to September 1, 2012, rating of the performance of teachers in contractual continued service as either:

(i) "excellent", "satisfactory" or "unsatisfactory"; or

(ii) "excellent", "proficient", "needs improvement" or "unsatisfactory".

(e) on and after September 1, 2012, rating of the performance of all teachers as "excellent", "proficient", "needs improvement" or "unsatisfactory".

(f) specification as to the teacher's strengths and weaknesses, with supporting reasons for the comments made.

(g) inclusion of a copy of the evaluation in the teacher's personnel file and provision of a copy to the teacher.

(h) within 30 school days after the completion of an evaluation rating a teacher in contractual continued service as "needs improvement", development by the evaluator, in consultation with the teacher, and taking into account the teacher's ongoing ~~on-going~~ professional

responsibilities including his or her regular teaching assignments, of a professional development plan directed to the areas that need improvement and any supports that the district will provide to address the areas identified as needing improvement.

(i) within 30 school days after completion of an evaluation rating a teacher in contractual continued service as "unsatisfactory", development and commencement by the district of a remediation plan designed to correct deficiencies cited, provided the deficiencies are deemed remediable. In all school districts the remediation plan for unsatisfactory, tenured teachers shall provide for 90 school days of remediation within the classroom, unless an applicable collective bargaining agreement provides for a shorter duration. In all school districts evaluations issued pursuant to this Section shall be issued within 10 days after the conclusion of the respective remediation plan. However, the school board or other governing authority of the district shall not lose jurisdiction to discharge a teacher in the event the evaluation is not issued within 10 days after the conclusion of the respective remediation plan.

(j) participation in the remediation plan by the teacher in contractual continued service rated "unsatisfactory", an evaluator and a consulting teacher selected by the evaluator of the teacher who was rated

"unsatisfactory", which consulting teacher is an educational employee as defined in the Illinois Educational Labor Relations Act, has at least 5 years' teaching experience, and a reasonable familiarity with the assignment of the teacher being evaluated, and who received an "excellent" rating on his or her most recent evaluation. Where no teachers who meet these criteria are available within the district, the district shall request and the applicable regional office of education shall supply, to participate in the remediation process, an individual who meets these criteria.

In a district having a population of less than 500,000 with an exclusive bargaining agent, the bargaining agent may, if it so chooses, supply a roster of qualified teachers from whom the consulting teacher is to be selected. That roster shall, however, contain the names of at least 5 teachers, each of whom meets the criteria for consulting teacher with regard to the teacher being evaluated, or the names of all teachers so qualified if that number is less than 5. In the event of a dispute as to qualification, the State Board shall determine qualification.

(k) a mid-point and final evaluation by an evaluator during and at the end of the remediation period, immediately following receipt of a remediation plan provided for under subsections (i) and (j) of this

Section. Each evaluation shall assess the teacher's performance during the time period since the prior evaluation; provided that the last evaluation shall also include an overall evaluation of the teacher's performance during the remediation period. A written copy of the evaluations and ratings, in which any deficiencies in performance and recommendations for correction are identified, shall be provided to and discussed with the teacher within 10 school days after the date of the evaluation, unless an applicable collective bargaining agreement provides to the contrary. These subsequent evaluations shall be conducted by an evaluator. The consulting teacher shall provide advice to the teacher rated "unsatisfactory" on how to improve teaching skills and to successfully complete the remediation plan. The consulting teacher shall participate in developing the remediation plan, but the final decision as to the evaluation shall be done solely by the evaluator, unless an applicable collective bargaining agreement provides to the contrary. Evaluations at the conclusion of the remediation process shall be separate and distinct from the required annual evaluations of teachers and shall not be subject to the guidelines and procedures relating to those annual evaluations. The evaluator may but is not required to use the forms provided for the annual evaluation of teachers in the district's evaluation plan.

(l) reinstatement to the evaluation schedule set forth in the district's evaluation plan for any teacher in contractual continued service who achieves a rating equal to or better than "satisfactory" or "proficient" in the school year following a rating of "needs improvement" or "unsatisfactory".

(m) dismissal in accordance with subsection (d) of Section 24-12 or Section 24-16.5 or 34-85 of this Code of any teacher who fails to complete any applicable remediation plan with a rating equal to or better than a "satisfactory" or "proficient" rating. Districts and teachers subject to dismissal hearings are precluded from compelling the testimony of consulting teachers at such hearings under subsection (d) of Section 24-12 or Section 24-16.5 or 34-85 of this Code, either as to the rating process or for opinions of performances by teachers under remediation.

(n) After the implementation date of an evaluation system for teachers in a district as specified in Section 24A-2.5 of this Code, if a teacher in contractual continued service successfully completes a remediation plan following a rating of "unsatisfactory" in an overall performance evaluation received after the foregoing implementation date and receives a subsequent rating of "unsatisfactory" in any of the teacher's overall performance evaluation ratings received during the

36-month period following the teacher's completion of the remediation plan, then the school district may forgo remediation and seek dismissal in accordance with subsection (d) of Section 24-12 or Section 34-85 of this Code.

(o) Teachers who are due to be evaluated in the last year before they are set to retire shall be offered the opportunity to waive their evaluation and to retain their most recent rating, unless the teacher was last rated as "needs improvement" or "unsatisfactory". The school district may still reserve the right to evaluate a teacher provided the district gives notice to the teacher at least 14 days before the evaluation and a reason for evaluating the teacher.

Nothing in this Section or Section 24A-4 shall be construed as preventing immediate dismissal of a teacher for deficiencies which are deemed irreparable or for actions which are injurious to or endanger the health or person of students in the classroom or school, or preventing the dismissal or non-renewal of teachers not in contractual continued service for any reason not prohibited by applicable employment, labor, and civil rights laws. Failure to strictly comply with the time requirements contained in Section 24A-5 shall not invalidate the results of the remediation plan.

Nothing contained in Public Act 98-648 repeals, supersedes, invalidates, or nullifies final decisions in

lawsuits pending on July 1, 2014 (the effective date of Public Act 98-648) in Illinois courts involving the interpretation of Public Act 97-8.

If the Governor has declared a disaster due to a public health emergency pursuant to Section 7 of the Illinois Emergency Management Agency Act that suspends in-person instruction, the timelines in this Section connected to the commencement and completion of any remediation plan are waived. Except if the parties mutually agree otherwise and the agreement is in writing, any remediation plan that had been in place for more than 45 days prior to the suspension of in-person instruction shall resume when in-person instruction resumes and any remediation plan that had been in place for fewer than 45 days prior to the suspension of in-person instruction shall be discontinued and a new remediation period shall begin when in-person instruction resumes. The requirements of this paragraph apply regardless of whether they are included in a school district's teacher evaluation plan.

(a) Beginning with the 2024-2025 school year, all public high schools, including charter schools, may designate and

annually observe a week known as "Workplace Readiness Week". During that week, students shall be provided information on their rights as workers. The topics covered shall include, but are not limited to, local, State, and federal laws regarding each of the following areas and shall include the labor movement's role in winning the protections and benefits described in those areas:

- (1) Prohibitions against misclassification of employees as independent contractors.

- (2) Child labor.

- (3) Wage and hour protections.

- (4) Worker safety.

- (5) Workers' compensation.

- (6) Unemployment insurance.

- (7) Paid sick leave and paid family leave.

- (8) The right to organize a union in the workplace.

- (9) Prohibitions against retaliation by employers when workers exercise their rights as workers or any other rights guaranteed by law.

During Workplace Readiness Week, students shall also be provided information introducing them to State-approved apprenticeship programs, how to access them, the variety of programs available, and how they can provide an alternative career path for those students who choose not to attend a traditional higher education program.

(b) If a school observes Workplace Readiness Week under

this Section, then, for students in grades 11 and 12, the information required to be provided in subsection (a) shall be integrated into the regular school program but may also be provided during special events after regular school hours. Integration into the regular school program is encouraged, but not required, to occur during Workplace Readiness Week.

Relaxation activities may include, but are not limited to, mindful-based movements, yoga, stretching, meditation, breathing exercises, guided relaxation techniques, quiet time, walking, in-person conversation, and other stress-relieving activities. (Text of Section before amendment by P.A. 102-466)

Sec. 27A-5. Charter school; legal entity; requirements.

(a) A charter school shall be a public, nonsectarian, nonreligious, non-home based, and non-profit school. A charter school shall be organized and operated as a nonprofit corporation or other discrete, legal, nonprofit entity authorized under the laws of the State of Illinois.

(b) A charter school may be established under this Article by creating a new school or by converting an existing public school or attendance center to charter school status. In all new applications to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. This limitation does not apply to charter schools existing or approved on or before April 16, 2003.

(b-5) (Blank).

(c) A charter school shall be administered and governed by its board of directors or other governing body in the manner provided in its charter. The governing body of a charter school shall be subject to the Freedom of Information Act and the Open Meetings Act. A charter school's board of directors or other governing body must include at least one parent or guardian of a pupil currently enrolled in the charter school who may be selected through the charter school or a charter network election, appointment by the charter school's board of

directors or other governing body, or by the charter school's Parent Teacher Organization or its equivalent.

(c-5) No later than January 1, 2021 or within the first year of his or her first term, every voting member of a charter school's board of directors or other governing body shall complete a minimum of 4 hours of professional development leadership training to ensure that each member has sufficient familiarity with the board's or governing body's role and responsibilities, including financial oversight and accountability of the school, evaluating the principal's and school's performance, adherence to the Freedom of Information Act and the Open Meetings Act, and compliance with education and labor law. In each subsequent year of his or her term, a voting member of a charter school's board of directors or other governing body shall complete a minimum of 2 hours of professional development training in these same areas. The training under this subsection may be provided or certified by a statewide charter school membership association or may be provided or certified by other qualified providers approved by the State Board.

(d) For purposes of this subsection (d), "non-curricular health and safety requirement" means any health and safety requirement created by statute or rule to provide, maintain, preserve, or safeguard safe or healthful conditions for students and school personnel or to eliminate, reduce, or prevent threats to the health and safety of students and

school personnel. "Non-curricular health and safety requirement" does not include any course of study or specialized instructional requirement for which the State Board has established goals and learning standards or which is designed primarily to impart knowledge and skills for students to master and apply as an outcome of their education.

A charter school shall comply with all non-curricular health and safety requirements applicable to public schools under the laws of the State of Illinois. The State Board shall promulgate and post on its Internet website a list of non-curricular health and safety requirements that a charter school must meet. The list shall be updated annually no later than September 1. Any charter contract between a charter school and its authorizer must contain a provision that requires the charter school to follow the list of all non-curricular health and safety requirements promulgated by the State Board and any non-curricular health and safety requirements added by the State Board to such list during the term of the charter. Nothing in this subsection (d) precludes an authorizer from including non-curricular health and safety requirements in a charter school contract that are not contained in the list promulgated by the State Board, including non-curricular health and safety requirements of the authorizing local school board.

(e) Except as otherwise provided in the School Code, a charter school shall not charge tuition; provided that a

charter school may charge reasonable fees for textbooks, instructional materials, and student activities.

(f) A charter school shall be responsible for the management and operation of its fiscal affairs, including, but not limited to, the preparation of its budget. An audit of each charter school's finances shall be conducted annually by an outside, independent contractor retained by the charter school. The contractor shall not be an employee of the charter school or affiliated with the charter school or its authorizer in any way, other than to audit the charter school's finances. To ensure financial accountability for the use of public funds, on or before December 1 of every year of operation, each charter school shall submit to its authorizer and the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service. In addition, if deemed necessary for proper financial oversight of the charter school, an authorizer may require quarterly financial statements from each charter school.

(g) A charter school shall comply with all provisions of this Article, the Illinois Educational Labor Relations Act, all federal and State laws and rules applicable to public schools that pertain to special education and the instruction of English learners, and its charter. A charter school is exempt from all other State laws and regulations in this Code governing public schools and local school board policies;

however, a charter school is not exempt from the following:

The change made by Public Act 96-104 to this subsection

(g) is declaratory of existing law.

(h) A charter school may negotiate and contract with a school district, the governing body of a State college or university or public community college, or any other public or for-profit or nonprofit private entity for: (i) the use of a school building and grounds or any other real property or facilities that the charter school desires to use or convert for use as a charter school site, (ii) the operation and maintenance thereof, and (iii) the provision of any service, activity, or undertaking that the charter school is required to perform in order to carry out the terms of its charter. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district

facilities that are used by the charter school shall be subject to negotiation between the charter school and the local school board and shall be set forth in the charter.

(j) A charter school may limit student enrollment by age or grade level.

(k) If the charter school is authorized by the State Board, then the charter school is its own local education agency.

In each subsequent year of his or her term, a voting member of a charter school's board of directors or other governing body shall complete a minimum of 2 hours of professional development training in these same areas. The training under this subsection may be provided or certified by a statewide charter school membership association or may be provided or certified by other qualified providers approved by the State Board.

(d) For purposes of this subsection (d), "non-curricular health and safety requirement" means any health and safety requirement created by statute or rule to provide, maintain, preserve, or safeguard safe or healthful conditions for students and school personnel or to eliminate, reduce, or prevent threats to the health and safety of students and school personnel. "Non-curricular health and safety requirement" does not include any course of study or specialized instructional requirement for which the State Board has established goals and learning standards or which is designed primarily to impart knowledge and skills for students to master and apply as an outcome of their education.

A charter school shall comply with all non-curricular health and safety requirements applicable to public schools under the laws of the State of Illinois. The State Board shall promulgate and post on its Internet website a list of non-curricular health and safety requirements that a charter

school must meet. The list shall be updated annually no later than September 1. Any charter contract between a charter school and its authorizer must contain a provision that requires the charter school to follow the list of all non-curricular health and safety requirements promulgated by the State Board and any non-curricular health and safety requirements added by the State Board to such list during the term of the charter. Nothing in this subsection (d) precludes an authorizer from including non-curricular health and safety requirements in a charter school contract that are not contained in the list promulgated by the State Board, including non-curricular health and safety requirements of the authorizing local school board.

(e) Except as otherwise provided in the School Code, a charter school shall not charge tuition; provided that a charter school may charge reasonable fees for textbooks, instructional materials, and student activities.

(f) A charter school shall be responsible for the management and operation of its fiscal affairs, including, but not limited to, the preparation of its budget. An audit of each charter school's finances shall be conducted annually by an outside, independent contractor retained by the charter school. The contractor shall not be an employee of the charter school or affiliated with the charter school or its authorizer in any way, other than to audit the charter school's finances. To ensure financial accountability for the use of public

funds, on or before December 1 of every year of operation, each charter school shall submit to its authorizer and the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service. In addition, if deemed necessary for proper financial oversight of the charter school, an authorizer may require quarterly financial statements from each charter school.

(g) A charter school shall comply with all provisions of this Article, the Illinois Educational Labor Relations Act, all federal and State laws and rules applicable to public schools that pertain to special education and the instruction of English learners, and its charter. A charter school is exempt from all other State laws and regulations in this Code governing public schools and local school board policies; however, a charter school is not exempt from the following:

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district facilities that are used by the charter school shall be subject to negotiation between the charter school and the local school board and shall be set forth in the charter.

1. To make suitable provision for the establishment and maintenance throughout the year or for such portion thereof as it may direct, not less than 9 months and in compliance with Section 10-19.05, of schools of all grades and kinds, including normal schools, high schools, night schools, schools for defectives and delinquents, parental and truant schools, schools for the blind, the deaf, and persons with physical disabilities, schools or classes in manual training, constructural and vocational teaching, domestic arts, and physical culture, vocation and extension schools and lecture courses, and all other educational courses and facilities, including establishing, equipping, maintaining and operating playgrounds and recreational programs, when such programs

are conducted in, adjacent to, or connected with any public school under the general supervision and jurisdiction of the board; provided that the calendar for the school term and any changes must be submitted to and approved by the State Board of Education before the calendar or changes may take effect, and provided that in allocating funds from year to year for the operation of all attendance centers within the district, the board shall ensure that supplemental general State aid or supplemental grant funds are allocated and applied in accordance with Section 18-8, 18-8.05, or 18-8.15. To admit to such schools without charge foreign exchange students who are participants in an organized exchange student program which is authorized by the board. The board shall permit all students to enroll in apprenticeship programs in trade schools operated by the board, whether those programs are union-sponsored or not. No student shall be refused admission into or be excluded from any course of instruction offered in the common schools by reason of that student's sex. No student shall be denied equal access to physical education and interscholastic athletic programs supported from school district funds or denied participation in comparable physical education and athletic programs solely by reason of the student's sex. Equal access to programs supported from school district funds and comparable programs will be

defined in rules promulgated by the State Board of Education in consultation with the Illinois High School Association. Notwithstanding any other provision of this Article, neither the board of education nor any local school council or other school official shall recommend that children with disabilities be placed into regular education classrooms unless those children with disabilities are provided with supplementary services to assist them so that they benefit from the regular classroom instruction and are included on the teacher's regular education class register;

2. To furnish lunches to pupils, to make a reasonable charge therefor, and to use school funds for the payment of such expenses as the board may determine are necessary in conducting the school lunch program;

3. To co-operate with the circuit court;

4. To make arrangements with the public or quasi-public libraries and museums for the use of their facilities by teachers and pupils of the public schools;

The board shall take into consideration the prevention of segregation and the elimination of separation of children in public schools because of color, race, sex, or nationality. Except that children may be committed to or attend parental and social adjustment schools established and maintained either for boys or girls only. All records pertaining to the creation, alteration or revision of attendance areas shall be open to the public. Nothing herein shall limit the board's authority to establish multi-area attendance centers or other student assignment systems for desegregation purposes or otherwise, and to apportion the pupils to the several schools. Furthermore, beginning in school year 1994-95, pursuant to a board plan adopted by October 1, 1993, the board shall offer, commencing on a phased-in basis, the opportunity for families within the school district to apply for enrollment of their children in any attendance center within the school district which does not have selective admission requirements approved by the board. The appropriate geographical area in which such

open enrollment may be exercised shall be determined by the board of education. Such children may be admitted to any such attendance center on a space available basis after all children residing within such attendance center's area have been accommodated. If the number of applicants from outside the attendance area exceed the space available, then successful applicants shall be selected by lottery. The board of education's open enrollment plan must include provisions that allow low-income students to have access to transportation needed to exercise school choice. Open enrollment shall be in compliance with the provisions of the Consent Decree and Desegregation Plan cited in Section 34-1.01;

The board shall prepare such reports related to minimal competency testing as may be requested by the State Board of Education and, in addition, shall monitor and approve special education and bilingual education programs and policies within the district to ensure that appropriate services are provided in accordance with applicable State and federal laws to children requiring services and education in those areas;

10. To employ non-teaching personnel or utilize volunteer personnel for: (i) non-teaching duties not requiring instructional judgment or evaluation of pupils, including library duties; and (ii) supervising study halls, long distance teaching reception areas used incident to instructional programs transmitted by electronic media such as computers, video, and audio, detention and discipline areas, and school-sponsored extracurricular activities. The board may further utilize volunteer nonlicensed personnel or employ nonlicensed personnel to assist in the instruction of pupils under the immediate supervision of a teacher holding a valid educator license, directly engaged in teaching subject matter or conducting activities; provided that the teacher shall be continuously aware of the nonlicensed persons' activities and shall be able to control or modify them.

(b) If a student or his or her parent or guardian submits a signed, written request to the high school before the end of the student's sophomore year (or if the student is a transfer student, by another time set by the high school) that indicates that the student or his or her parent or guardian does not want the student's directory information to be provided to official recruiting representatives under subsection (a) of this Section, the high school may not provide access to the student's directory information to these recruiting representatives. The high school shall notify its students and their parents or guardians of the provisions of this subsection (b).

Sec. 34-22.6. Issuance of bonds. For the purpose of erecting, purchasing, or otherwise acquiring buildings suitable for school houses, erecting temporary school structures, erecting additions to, repairing, rehabilitating, modernizing and replacing existing school buildings and temporary school structures, and furnishing and equipping school buildings and temporary school structures, and purchasing or otherwise acquiring and improving sites for such purposes, the board may incur an indebtedness and issue bonds

therefor in an amount or amounts not to exceed in the aggregate \$150,000,000 in addition to the bonds authorized under Sections 34-22.1, 34-22.2, 34-22.3, 34-22.4, 34-22.5, and 34-22.7. Bonds authorized under this Section may also be issued for the purposes of paying interest on such bonds, establishing reserves to secure such bonds and paying the costs of issuance of such bonds. In connection with the issuance of its bonds, the board may enter into arrangements to provide additional security and liquidity for the bonds. These may include, without limitation, municipal bond insurance, letters of credit, lines of credit by which the board may borrow funds to pay or redeem its bonds, and purchase or remarketing arrangements for assuring the ability of owners of the board's bonds to sell or to have redeemed their bonds. The board may enter into contracts and may agree to pay fees to persons providing such arrangements, including from bond proceeds but only under circumstances in which the total interest paid or to be paid on the bonds, together with the fees for the arrangements (being treated as if interest), would not, taken together, cause the bonds to bear interest, calculated to their absolute maturity, at a rate in excess of the maximum rate allowed by law.

The resolution of the board authorizing the issuance of its bonds may provide that interest rates may vary from time to time depending upon criteria established by the board, which may include, without limitation, a variation in interest rates

as may be necessary to cause bonds to be remarketable from time to time at a price equal to their principal amount, and may provide for appointment of a national banking association, bank, trust company, investment banker, or other financial institution to serve as a remarketing agent in that connection. The resolution of the board authorizing the issuance of its bonds may provide that alternative interest rates or provisions will apply during such times as the bonds are held by a person providing a letter of credit or other credit enhancement arrangement for those bonds. The Board may use proceeds of the sale of bonds authorized under this Section to pay the cost of obtaining such municipal bond insurance, letter of credit, or other credit facilities. Bonds may also be issued under this Section to pay the cost of refunding any bonds issued under this Section, including prior to their maturity. The bonds shall bear interest at a rate or rates not to exceed the maximum annual rate provided for in Section 2 of the Bond Authorization Act ~~"An Act to authorize public corporations to issue bonds, other evidences of indebtedness and tax anticipation warrants subject to interest rate limitations set forth therein", approved May 26, 1970, as now or hereafter amended,~~ and, if issued at such maximum annual rate, shall be sold for not less than par and accrued interest. If any of the bonds are issued to bear interest at a rate of less than such maximum annual rate the minimum price at which they may be sold shall be such that the interest cost to

the board on the proceeds of the bonds shall not exceed such maximum annual rate computed to stated maturity according to standard tables of bond values.

Whenever the board desires to issue bonds as authorized in this Section, it shall adopt a resolution designating the purpose for which the proceeds of the bonds are to be expended and fixing the amount of the bonds proposed to be issued, the maturity or maturities thereof, and optional provisions, if any, the rate of interest thereon, and the amount of taxes to be levied annually for the purpose of paying the interest upon and the principal, whether due at maturity or upon sinking fund installment dates, of such bonds.

Said bonds shall be issued in the corporate name of the school district. They shall be signed by the president and secretary of said board and countersigned by the mayor and the comptroller (or city clerk if there be no comptroller) of the city. They shall be sold by the city comptroller (or city clerk if there be no comptroller) upon such terms as may be approved by the board after advertisement for bids as ordered by and under the direction of the board, and the proceeds thereof shall be received by the city treasurer, as school treasurer, and expended by the board for the purposes provided in the bond resolution.

Before or at the time of issuing any bonds authorized in this Section, the board shall provide for the levy and collection of a direct annual tax upon all the taxable

property of such school district sufficient to pay and discharge the principal thereof at maturity, or upon sinking fund installment dates, and to pay the interest thereon as it falls due. Such tax shall be levied and collected in like manner with the other taxes of such school district and shall be in addition to and exclusive of the maximum of all other taxes which such board is now, or may hereafter be, authorized by law to levy for any and all school purposes. Upon the filing in the office of the county clerk of the county wherein such school district is located of a duly certified copy of any such ordinance, it shall be the duty of such county clerk to extend the tax therein provided for, including an amount to cover loss and cost of collecting said taxes and also deferred collections thereof and abatements in the amounts of such taxes as extended upon the collector's books. The ordinance shall be in force upon its passage.

The Board may use proceeds of the sale of bonds authorized under this Section to pay the cost of obtaining such municipal bond insurance, letter of creditu or other credit facilities. Bonds may also be issued under this Section to pay the cost of refunding any bonds issued under this Section, including prior to their maturity. The bonds shall bear interest at a rate or

rates not to exceed the maximum annual rate provided for in Section 2 of the Bond Authorization Act ~~"An Act to authorize public corporations to issue bonds, other evidences of indebtedness and tax anticipation warrants subject to interest rate limitations set forth therein", approved May 26, 1970, as now or hereafter amended,~~ and if issued at such maximum annual rate shall be sold for not less than par and accrued interest. (105 ILCS 110/3)

Sec. 3. Comprehensive Health Education Program.

(a) The program established under this Act shall include, but not be limited to, the following major educational areas as a basis for curricula in all elementary and secondary schools in this State: human ecology and health; human growth and development; the emotional, psychological, physiological,

hygienic, and social responsibilities of family life, including sexual abstinence until marriage; the prevention and control of disease, including instruction in grades 6 through 12 on the prevention, transmission, and spread of AIDS; age-appropriate sexual abuse and assault awareness and prevention education in grades pre-kindergarten through 12; public and environmental health; consumer health; safety education and disaster preparedness; mental health and illness; personal health habits; alcohol and drug use and abuse, including the use and abuse of fentanyl, and the medical and legal ramifications of alcohol, drug, and tobacco use; abuse during pregnancy; evidence-based and medically accurate information regarding sexual abstinence; tobacco and e-cigarettes and other vapor devices; nutrition; and dental health. The instruction on mental health and illness must evaluate the multiple dimensions of health by reviewing the relationship between physical and mental health to enhance student understanding, attitudes, and behaviors that promote health, well-being, and human dignity and must include how and where to find mental health resources and specialized treatment in the State. The program shall also provide course material and instruction to advise pupils of the Abandoned Newborn Infant Protection Act. The program shall include information about cancer, including, without limitation, types of cancer, signs and symptoms, risk factors, the importance of early prevention and detection, and information on where to go

for help. Notwithstanding the above educational areas, the following areas may also be included as a basis for curricula in all elementary and secondary schools in this State: basic first aid (including, but not limited to, cardiopulmonary resuscitation and the Heimlich maneuver), heart disease, diabetes, stroke, the prevention of child abuse, neglect, and suicide, and teen dating violence in grades 7 through 12. Beginning with the 2014-2015 school year, training on how to properly administer cardiopulmonary resuscitation (which training must be in accordance with standards of the American Red Cross, the American Heart Association, or another nationally recognized certifying organization) and how to use an automated external defibrillator shall be included as a basis for curricula in all secondary schools in this State.

(b) Beginning with the 2024-2025 school year in grades 9 through 12, the program shall include instruction, study, and discussion on the dangers of allergies. Information for the instruction, study, and discussion shall come from information provided by the Department of Public Health and the federal Centers for Disease Control and Prevention. This instruction, study, and discussion shall include, at a minimum:

(1) recognizing the signs and symptoms of an allergic reaction, including anaphylaxis;

(2) the steps to take to prevent exposure to allergens; and

(3) safe emergency epinephrine administration.

(c) No later than 30 days after the first day of each school year, the school board of each public elementary and secondary school in the State shall provide all teachers, administrators, and other school personnel, as determined by school officials, with information regarding emergency procedures and life-saving techniques, including, without limitation, the Heimlich maneuver, hands-only cardiopulmonary resuscitation, and use of the school district's automated external defibrillator. The information shall be in accordance with standards of the American Red Cross, the American Heart Association, or another nationally recognized certifying organization. A school board may use the services of non-governmental entities whose personnel have expertise in life-saving techniques to instruct teachers, administrators, and other school personnel in these techniques. Each school board is encouraged to have in its employ, or on its volunteer staff, at least one person who is certified, by the American Red Cross or by another qualified certifying agency, as qualified to administer first aid and cardiopulmonary resuscitation. In addition, each school board is authorized to allocate appropriate portions of its institute or inservice days to conduct training programs for teachers and other school personnel who have expressed an interest in becoming certified to administer emergency first aid or cardiopulmonary resuscitation. School boards are urged to encourage their teachers and other school personnel who coach school athletic

programs and other extracurricular school activities to acquire, develop, and maintain the knowledge and skills necessary to properly administer first aid and cardiopulmonary resuscitation in accordance with standards and requirements established by the American Red Cross or another qualified certifying agency. Subject to appropriation, the State Board of Education shall establish and administer a matching grant program to pay for half of the cost that a school district incurs in training those teachers and other school personnel who express an interest in becoming qualified to administer first aid or cardiopulmonary resuscitation (which training must be in accordance with standards of the American Red Cross, the American Heart Association, or another nationally recognized certifying organization). A school district that applies for a grant must demonstrate that it has funds to pay half of the cost of the training for which matching grant money is sought. The State Board of Education shall award the grants on a first-come, first-serve basis.

(d) No pupil shall be required to take or participate in any class or course on AIDS or family life instruction or to receive training on how to properly administer cardiopulmonary resuscitation or how to use an automated external defibrillator if his or her parent or guardian submits written objection thereto, and refusal to take or participate in the course or program or the training shall not be reason for suspension or expulsion of the pupil.

(e) Curricula developed under programs established in accordance with this Act in the major educational area of alcohol and drug use and abuse shall include classroom instruction in grades 5 through 12, shall be age and developmentally appropriate, and may include the information contained in the Substance Use Prevention and Recovery Instruction Resource Guide under Section 22-81 of the School Code, as applicable. The instruction, which shall include matters relating to both the physical and legal effects and ramifications of drug and substance abuse, shall be integrated into existing curricula; and the State Board of Education shall determine how to develop and make available to all elementary and secondary schools in this State instructional materials and guidelines that will assist the schools in incorporating the instruction into their existing curricula. In addition, school districts may offer, as part of existing curricula during the school day or as part of an after-school program, support services and instruction for pupils or pupils whose parent, parents, or guardians are chemically dependent.

Section 695. The Public Community College Act is amended by changing Sections 3-20.3.01 and 3-65 and by setting forth and renumbering multiple versions of Section 3-29.26 as follows:

(110 ILCS 805/3-20.3.01) (from Ch. 122, par. 103-20.3.01)

Sec. 3-20.3.01. Whenever, as a result of any lawful order

of any agency, other than a local community college board, having authority to enforce any law or regulation designed for the protection, health, or safety of community college students, employees, or visitors, or any law or regulation for the protection and safety of the environment, pursuant to the "Environmental Protection Act", any local community college district, including any district to which Article VII of this Act applies, is required to alter or repair any physical facilities, or whenever any district determines that it is necessary for energy conservation, health, or safety, environmental protection or accessibility purposes that any physical facilities should be altered or repaired and that such alterations or repairs will be made with funds not necessary for the completion of approved and recommended projects for fire prevention and safety, or whenever after September 11, 1984 (the effective date of Public Act 83-1366) ~~this amendatory Act of 1984~~ any district, including any district to which Article VII applies, provides for alterations or repairs determined by the local community college board to be necessary for health and safety, environmental protection, accessibility or energy conservation purposes, such district may, by proper resolution which specifically identifies the project and which is adopted pursuant to the provisions of the Open Meetings Act, levy a tax for the purpose of paying for such alterations or repairs, or survey by a licensed architect or engineer, upon the equalized

assessed value of all the taxable property of the district at a rate not to exceed .05% per year for a period sufficient to finance such alterations or repairs, upon the following conditions:

(a) When in the judgment of the local community college board of trustees there are not sufficient funds available in the operations and maintenance fund of the district to permanently pay for such alterations or repairs so ordered, determined as necessary.

(b) When a certified estimate of a licensed architect or engineer stating the estimated amount that is necessary to make the alterations or repairs so ordered or determined as necessary has been secured by the local community college district.

The filing of a certified copy of the resolution or ordinance levying the tax shall be the authority of the county clerk or clerks to extend such tax; provided, however, that in no event shall the extension for the current and preceding years, if any, under this Section be greater than the amount so approved, and interest on bonds issued pursuant to this Section and in the event such current extension and preceding extensions exceed such approval and interest, it shall be reduced proportionately.

The county clerk of each of the counties in which any community college district levying a tax under the authority of this Section is located, in reducing raised levies, shall

not consider any such tax as a part of the general levy for community college purposes and shall not include the same in the limitation of any other tax rate which may be extended. Such tax shall be levied and collected in like manner as all other taxes of community college districts.

The tax rate limit hereinabove specified in this Section may be increased to .10% upon the approval of a proposition to effect such increase by a majority of the electors voting on that proposition at a regular scheduled election. Such proposition may be initiated by resolution of the local community college board and shall be certified by the secretary of the local community college board to the proper election authorities for submission in accordance with the general election law.

Each local community college district authorized to levy any tax pursuant to this Section may also or in the alternative by proper resolution or ordinance borrow money for such specifically identified purposes not in excess of \$4,500,000 in the aggregate at any one time when in the judgment of the local community college board of trustees there are not sufficient funds available in the operations and maintenance fund of the district to permanently pay for such alterations or repairs so ordered or determined as necessary and a certified estimate of a licensed architect or engineer stating the estimated amount has been secured by the local community college district, and as evidence of such indebtedness may

issue bonds without referendum. However, Community College District No. 522 and Community College District No. 536 may or in the alternative by proper resolution or ordinance borrow money for such specifically identified purposes not in excess of \$20,000,000 in the aggregate at any one time when in the judgment of the community college board of trustees there are not sufficient funds available in the operations and maintenance fund of the district to permanently pay for such alterations or repairs so ordered or determined as necessary and a certified estimate of a licensed architect or engineer stating the estimated amount has been secured by the community college district, and as evidence of such indebtedness may issue bonds without referendum. Such bonds shall bear interest at a rate or rates authorized by the Bond Authorization Act ~~"An Act to authorize public corporations to issue bonds, other evidences of indebtedness and tax anticipation warrants subject to interest rate limitations set forth therein",~~ approved May 26, 1970, as now or hereafter amended, shall mature within 20 years from date, and shall be signed by the chairman, secretary, and treasurer of the local community college board.

In order to authorize and issue such bonds the local community college board shall adopt a resolution fixing the amount of bonds, the date thereof, the maturities thereof and rates of interest thereof, and the board by such resolution, or in a district to which Article VII applies the city council

upon demand and under the direction of the board by ordinance, shall provide for the levy and collection of a direct annual tax upon all the taxable property in the local community college district sufficient to pay the principal and interest on such bonds to maturity. Upon the filing in the office of the county clerk of each of the counties in which the community college district is located of a certified copy of such resolution or ordinance it is the duty of the county clerk or clerks to extend the tax therefor without limit as to rate or amount and in addition to and in excess of all other taxes heretofore or hereafter authorized to be levied by such community college district.

The State Board shall set through administrative rule regulations and specifications for minimum requirements for the construction, remodeling, or rehabilitation of heating, ventilating, air conditioning, lighting, seating, water supply, toilet, accessibility, fire safety, and any other matter that will conserve, preserve, or provide for the protection and the health or safety of individuals in or on community college property and will conserve the integrity of the physical facilities of the district.

This Section is cumulative and constitutes complete authority for the issuance of bonds as provided in this Section notwithstanding any other statute or law to the contrary.

Sec. 50. Minority Teachers of Illinois scholarship program.

(a) As used in this Section:

"Eligible applicant" means a minority student who has graduated from high school or has received a State of Illinois High School Diploma and has maintained a cumulative grade point average of no less than 2.5 on a 4.0 scale, and who by reason thereof is entitled to apply for scholarships to be awarded under this Section.

"Minority student" means a student who is any of the following:

(1) American Indian or Alaska Native (a person having origins in any of the original peoples of North and South America, including Central America, and who maintains tribal affiliation or community attachment).

(2) Asian (a person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, but not limited to, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam).

(3) Black or African American (a person having origins in any of the black racial groups of Africa).

(4) Hispanic or Latino (a person of Cuban, Mexican, Puerto Rican, South or Central American, or

other Spanish culture or origin, regardless of race).

(5) Native Hawaiian or Other Pacific Islander (a person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands).

"Qualified bilingual minority applicant" means a qualified student who demonstrates proficiency in a language other than English by (i) receiving a State Seal of Biliteracy from the State Board of Education or (ii) receiving a passing score on an educator licensure target language proficiency test.

"Qualified student" means a person (i) who is a resident of this State and a citizen or permanent resident of the United States; (ii) who is a minority student, as defined in this Section; (iii) who, as an eligible applicant, has made a timely application for a minority teaching scholarship under this Section; (iv) who is enrolled on at least a half-time basis at a qualified Illinois institution of higher learning; (v) who is enrolled in a course of study leading to teacher licensure, including alternative teacher licensure, or, if the student is already licensed to teach, in a course of study leading to an additional teaching endorsement or a master's degree in an academic field in which he or she is teaching or plans to teach or who has received one or more College and Career Pathway Endorsements pursuant to Section 80 of the Postsecondary and Workforce Readiness

Act and commits to enrolling in a course of study leading to teacher licensure, including alternative teacher licensure; (vi) who maintains a grade point average of no less than 2.5 on a 4.0 scale; and (vii) who continues to advance satisfactorily toward the attainment of a degree.

(b) In order to encourage academically talented Illinois minority students to pursue teaching careers at the preschool or elementary or secondary school level and to address and alleviate the teacher shortage crisis in this State described under the provisions of the Transitions in Education Act, each qualified student shall be awarded a minority teacher scholarship to any qualified Illinois institution of higher learning. However, preference may be given to qualified applicants enrolled at or above the junior level.

(c) Each minority teacher scholarship awarded under this Section shall be in an amount sufficient to pay the tuition and fees and room and board costs of the qualified Illinois institution of higher learning at which the recipient is enrolled, up to an annual maximum of \$5,000; except that in the case of a recipient who does not reside on-campus at the institution at which he or she is enrolled, the amount of the scholarship shall be sufficient to pay tuition and fee expenses and a commuter allowance, up to an annual maximum of \$5,000. However, if at least \$2,850,000 is appropriated in a given fiscal year for the Minority Teachers of Illinois scholarship program, then, in each fiscal year thereafter,

each scholarship awarded under this Section shall be in an amount sufficient to pay the tuition and fees and room and board costs of the qualified Illinois institution of higher learning at which the recipient is enrolled, up to an annual maximum of \$7,500; except that in the case of a recipient who does not reside on-campus at the institution at which he or she is enrolled, the amount of the scholarship shall be sufficient to pay tuition and fee expenses and a commuter allowance, up to an annual maximum of \$7,500.

(d) The total amount of minority teacher scholarship assistance awarded by the Commission under this Section to an individual in any given fiscal year, when added to other financial assistance awarded to that individual for that year, shall not exceed the cost of attendance at the institution at which the student is enrolled. If the amount of a minority teacher scholarship to be awarded to a qualified student as provided in subsection (c) of this Section exceeds the cost of attendance at the institution at which the student is enrolled, the minority teacher scholarship shall be reduced by an amount equal to the amount by which the combined financial assistance available to the student exceeds the cost of attendance.

(e) The maximum number of academic terms for which a qualified student can receive minority teacher scholarship assistance shall be 8 semesters or 12 quarters.

(f) In any academic year for which an eligible applicant

under this Section accepts financial assistance through the Paul Douglas Teacher Scholarship Program, as authorized by Section 551 et seq. of the Higher Education Act of 1965, the applicant shall not be eligible for scholarship assistance awarded under this Section.

(g) All applications for minority teacher scholarships to be awarded under this Section shall be made to the Commission on forms which the Commission shall provide for eligible applicants. The form of applications and the information required to be set forth therein shall be determined by the Commission, and the Commission shall require eligible applicants to submit with their applications such supporting documents or recommendations as the Commission deems necessary.

(h) Subject to a separate appropriation for such purposes, payment of any minority teacher scholarship awarded under this Section shall be determined by the Commission. All scholarship funds distributed in accordance with this subsection shall be paid to the institution and used only for payment of the tuition and fee and room and board expenses incurred by the student in connection with his or her attendance at a qualified Illinois institution of higher learning. Any minority teacher scholarship awarded under this Section shall be applicable to 2 semesters or 3 quarters of enrollment. If a qualified student withdraws from enrollment prior to completion of the first semester or quarter for which the

minority teacher scholarship is applicable, the school shall refund to the Commission the full amount of the minority teacher scholarship.

(i) The Commission shall administer the minority teacher scholarship aid program established by this Section and shall make all necessary and proper rules not inconsistent with this Section for its effective implementation.

(j) When an appropriation to the Commission for a given fiscal year is insufficient to provide scholarships to all qualified students, the Commission shall allocate the appropriation in accordance with this subsection. If funds are insufficient to provide all qualified students with a scholarship as authorized by this Section, the Commission shall allocate the available scholarship funds for that fiscal year to qualified students who submit a complete application form on or before a date specified by the Commission based on the following order of priority:

(1) To students who received a scholarship under this Section in the prior academic year and who remain eligible for a minority teacher scholarship under this Section.

(2) Except as otherwise provided in subsection (k), to students who demonstrate financial need, as determined by the Commission.

(k) Notwithstanding paragraph (2) of subsection (j), at least 35% of the funds appropriated for scholarships awarded under this Section in each fiscal year shall be reserved for

qualified male minority applicants, with priority being given to qualified Black male applicants beginning with fiscal year 2023. If the Commission does not receive enough applications from qualified male minorities on or before January 1 of each fiscal year to award 35% of the funds appropriated for these scholarships to qualified male minority applicants, then the Commission may award a portion of the reserved funds to qualified female minority applicants in accordance with subsection (j).

Beginning with fiscal year 2023, if at least \$2,850,000 but less than \$4,200,000 is appropriated in a given fiscal year for scholarships awarded under this Section, then at least 10% of the funds appropriated shall be reserved for qualified bilingual minority applicants, with priority being given to qualified bilingual minority applicants who are enrolled in an educator preparation program with a concentration in bilingual, bicultural education. Beginning with fiscal year 2023, if at least \$4,200,000 is appropriated in a given fiscal year for the Minority Teachers of Illinois scholarship program, then at least 30% of the funds appropriated shall be reserved for qualified bilingual minority applicants, with priority being given to qualified bilingual minority applicants who are enrolled in an educator preparation program with a concentration in bilingual, bicultural education. Beginning with fiscal year 2023, if at least \$2,850,000 is appropriated in a given fiscal year for

scholarships awarded under this Section but the Commission does not receive enough applications from qualified bilingual minority applicants on or before January 1 of that fiscal year to award at least 10% of the funds appropriated to qualified bilingual minority applicants, then the Commission may, in its discretion, award a portion of the reserved funds to other qualified students in accordance with subsection (j).

(1) Prior to receiving scholarship assistance for any academic year, each recipient of a minority teacher scholarship awarded under this Section shall be required by the Commission to sign an agreement under which the recipient pledges that, within the one-year period following the termination of the program for which the recipient was awarded a minority teacher scholarship, the recipient (i) shall begin teaching for a period of not less than one year for each year of scholarship assistance he or she was awarded under this Section; (ii) shall fulfill this teaching obligation at a nonprofit Illinois public, private, or parochial preschool, elementary school, or secondary school at which no less than 30% of the enrolled students are minority students in the year during which the recipient begins teaching at the school or may instead, if the recipient received a scholarship as a qualified bilingual minority applicant, fulfill this teaching obligation in a program in transitional bilingual education pursuant to Article 14C of the School Code or in a school in which 20 or more English learner students in the same language

classification are enrolled; and (iii) shall, upon request by the Commission, provide the Commission with evidence that he or she is fulfilling or has fulfilled the terms of the teaching agreement provided for in this subsection.

(m) If a recipient of a minority teacher scholarship awarded under this Section fails to fulfill the teaching obligation set forth in subsection (l) of this Section, the Commission shall require the recipient to repay the amount of the scholarships received, prorated according to the fraction of the teaching obligation not completed, at a rate of interest equal to 5%, and, if applicable, reasonable collection fees. If a recipient who enters into repayment under this subsection (m) subsequently, within 5 years of entering repayment, begins to teach at a school meeting the description under subsection (l) of this Section, the Commission may reduce the amount owed by the recipient in proportion to the amount of the teaching obligation completed. The Commission is authorized to establish rules relating to its collection activities for repayment of scholarships under this Section. All repayments collected under this Section shall be forwarded to the State Comptroller for deposit into the State's General Revenue Fund.

(n) A recipient of minority teacher scholarship shall not be considered in violation of the agreement entered into pursuant to subsection (l) if the recipient (i) enrolls on a full time basis as a graduate student in a course of study

related to the field of teaching at a qualified Illinois institution of higher learning; (ii) is serving, not in excess of 3 years, as a member of the armed services of the United States; (iii) is a person with a temporary total disability for a period of time not to exceed 3 years as established by sworn affidavit of a qualified physician; (iv) is seeking and unable to find full time employment as a teacher at an Illinois public, private, or parochial preschool or elementary or secondary school that satisfies the criteria set forth in subsection (1) of this Section and is able to provide evidence of that fact; (v) becomes a person with a permanent total disability as established by sworn affidavit of a qualified physician; (vi) is taking additional courses, on at least a half-time basis, needed to obtain licensure as a teacher in Illinois; or (vii) is fulfilling teaching requirements associated with other programs administered by the Commission and cannot concurrently fulfill them under this Section in a period of time equal to the length of the teaching obligation.

(o) Scholarship recipients under this Section who withdraw from a program of teacher education but remain enrolled in school to continue their postsecondary studies in another academic discipline shall not be required to commence repayment of their Minority Teachers of Illinois scholarship so long as they remain enrolled in school on a full-time basis or if they can document for the Commission special circumstances that warrant extension of repayment.

(p) If the Minority Teachers of Illinois scholarship program does not expend at least 90% of the amount appropriated for the program in a given fiscal year for 3 consecutive fiscal years and the Commission does not receive enough applications from the groups identified in subsection (k) on or before January 1 in each of those fiscal years to meet the percentage reserved for those groups under subsection (k), then up to 3% of amount appropriated for the program for each of next 3 fiscal years shall be allocated to increasing awareness of the program and for the recruitment of Black male applicants. The Commission shall make a recommendation to the General Assembly by January 1 of the year immediately following the end of that third fiscal year regarding whether the amount allocated to increasing awareness and recruitment should continue.

(q) Each qualified Illinois institution of higher learning that receives funds from the Minority Teachers of Illinois scholarship program shall host an annual information session at the institution about the program for teacher candidates of color in accordance with rules adopted by the Commission. Additionally, the institution shall ensure that each scholarship recipient enrolled at the institution meets with an academic advisor at least once per academic year to facilitate on-time completion of the recipient's educator preparation program.

(r) The changes made to this Section by Public Act 101-654

will first take effect with awards made for the 2022-2023 academic year.

Sec. 52. Golden Apple Scholars of Illinois Program; Golden Apple Foundation for Excellence in Teaching.

(a) In this Section, "Foundation" means the Golden Apple Foundation for Excellence in Teaching, a registered 501(c)(3) not-for-profit corporation.

(a-2) In order to encourage academically talented Illinois students, especially minority students, to pursue teaching careers, especially in teacher shortage disciplines (which shall be defined to include early childhood education) or at hard-to-staff schools (as defined by the Commission in consultation with the State Board of Education), to provide those students with the crucial mentoring, guidance, and in-service support that will significantly increase the likelihood that they will complete their full teaching commitments and elect to continue teaching in targeted disciplines and hard-to-staff schools, and to ensure that students in this State will continue to have access to a pool of highly qualified ~~highly-qualified~~ teachers, each qualified student shall be awarded a Golden Apple Scholars of Illinois Program scholarship to any Illinois institution of higher

learning. The Commission shall administer the Golden Apple Scholars of Illinois Program, which shall be managed by the Foundation pursuant to the terms of a grant agreement meeting the requirements of Section 4 of the Illinois Grant Funds Recovery Act.

(a-3) For purposes of this Section, a qualified student shall be a student who meets the following qualifications:

(1) is a resident of this State and a citizen or eligible noncitizen of the United States;

(2) is a high school graduate or a person who has received a State of Illinois High School Diploma;

(3) is enrolled or accepted, on at least a half-time basis, at an institution of higher learning;

(4) is pursuing a postsecondary course of study leading to initial certification or pursuing additional course work needed to gain State Board of Education approval to teach, including alternative teacher licensure; and

(5) is a participant in programs managed by and is approved to receive a scholarship from the Foundation.

(a-5) (Blank).

(b) (Blank).

(b-5) Funds designated for the Golden Apple Scholars of Illinois Program shall be used by the Commission for the payment of scholarship assistance under this Section or for the award of grant funds, subject to the Illinois Grant Funds

Recovery Act, to the Foundation. Subject to appropriation, awards of grant funds to the Foundation shall be made on an annual basis and following an application for grant funds by the Foundation.

(b-10) Each year, the Foundation shall include in its application to the Commission for grant funds an estimate of the amount of scholarship assistance to be provided to qualified students during the grant period. Any amount of appropriated funds exceeding the estimated amount of scholarship assistance may be awarded by the Commission to the Foundation for management expenses expected to be incurred by the Foundation in providing the mentoring, guidance, and in-service supports that will increase the likelihood that qualified students will complete their teaching commitments and elect to continue teaching in hard-to-staff schools. If the estimate of the amount of scholarship assistance described in the Foundation's application is less than the actual amount required for the award of scholarship assistance to qualified students, the Foundation shall be responsible for using awarded grant funds to ensure all qualified students receive scholarship assistance under this Section.

(b-15) All grant funds not expended or legally obligated within the time specified in a grant agreement between the Foundation and the Commission shall be returned to the Commission within 45 days. Any funds legally obligated by the end of a grant agreement shall be liquidated within 45 days or

otherwise returned to the Commission within 90 days after the end of the grant agreement that resulted in the award of grant funds.

(c) Each scholarship awarded under this Section shall be in an amount sufficient to pay the tuition and fees and room and board costs of the Illinois institution of higher learning at which the recipient is enrolled, up to an annual maximum of \$5,000; except that, in the case of a recipient who does not reside on campus at the institution of higher learning at which he or she is enrolled, the amount of the scholarship shall be sufficient to pay tuition and fee expenses and a commuter allowance, up to an annual maximum of \$5,000. All scholarship funds distributed in accordance with this Section shall be paid to the institution on behalf of recipients.

(d) The total amount of scholarship assistance awarded by the Commission under this Section to an individual in any given fiscal year, when added to other financial assistance awarded to that individual for that year, shall not exceed the cost of attendance at the institution of higher learning at which the student is enrolled. In any academic year for which a qualified student under this Section accepts financial assistance through any other teacher scholarship program administered by the Commission, a qualified student shall not be eligible for scholarship assistance awarded under this Section.

(e) A recipient may receive up to 8 semesters or 12

quarters of scholarship assistance under this Section. Scholarship funds are applicable toward 2 semesters or 3 quarters of enrollment each academic year.

(f) All applications for scholarship assistance to be awarded under this Section shall be made to the Foundation in a form determined by the Foundation. Each year, the Foundation shall notify the Commission of the individuals awarded scholarship assistance under this Section. Each year, at least 30% of the Golden Apple Scholars of Illinois Program scholarships shall be awarded to students residing in counties having a population of less than 500,000.

(g) (Blank).

(h) The Commission shall administer the payment of scholarship assistance provided through the Golden Apple Scholars of Illinois Program and shall make all necessary and proper rules not inconsistent with this Section for the effective implementation of this Section.

(i) Prior to receiving scholarship assistance for any academic year, each recipient of a scholarship awarded under this Section shall be required by the Foundation to sign an agreement under which the recipient pledges that, within the 2-year period following the termination of the academic program for which the recipient was awarded a scholarship, the recipient: (i) shall begin teaching for a period of not less than 5 years, (ii) shall fulfill this teaching obligation at a nonprofit Illinois public, private, or parochial preschool or

an Illinois public elementary or secondary school that qualifies for teacher loan cancellation under Section 465(a)(2)(A) of the federal Higher Education Act of 1965 (20 U.S.C. 1087ee(a)(2)(A)) or other Illinois schools deemed eligible for fulfilling the teaching commitment as designated by the Foundation, and (iii) shall, upon request of the Foundation, provide the Foundation with evidence that he or she is fulfilling or has fulfilled the terms of the teaching agreement provided for in this subsection. Upon request, the Foundation shall provide evidence of teacher fulfillment to the Commission.

(j) If a recipient of a scholarship awarded under this Section fails to fulfill the teaching obligation set forth in subsection (i) of this Section, the Commission shall require the recipient to repay the amount of the scholarships received, prorated according to the fraction of the teaching obligation not completed, plus interest at a rate of 5% and, if applicable, reasonable collection fees. If a recipient who enters into repayment under this subsection (j) subsequently, within 5 years of entering repayment, begins to teach at a school meeting the description under subsection (i) of this Section, the Commission may reduce the amount owed by the recipient in proportion to the amount of the teaching obligation completed. Reduction of the amount owed shall not be construed as reinstatement in the Golden Apple Scholars program. Reinstatement in the program shall be solely at the

discretion of the Golden Apple Foundation on terms determined by the Foundation. Payments received by the Commission under this subsection (j) shall be remitted to the State Comptroller for deposit into the General Revenue Fund, except that that portion of a recipient's repayment that equals the amount in expenses that the Commission has reasonably incurred in attempting collection from that recipient shall be remitted to the State Comptroller for deposit into the ISAC Accounts Receivable Fund, a special fund in the State treasury.

(k) A recipient of a scholarship awarded by the Foundation under this Section shall not be considered to have failed to fulfill the teaching obligations of the agreement entered into pursuant to subsection (i) if the recipient (i) enrolls on a full-time basis as a graduate student in a course of study related to the field of teaching at an institution of higher learning; (ii) is serving as a member of the armed services of the United States; (iii) is a person with a temporary total disability, as established by sworn affidavit of a qualified physician; (iv) is seeking and unable to find full-time employment as a teacher at a school that satisfies the criteria set forth in subsection (i) and is able to provide evidence of that fact; (v) is taking additional courses, on at least a half-time basis, needed to obtain certification as a teacher in Illinois; (vi) is fulfilling teaching requirements associated with other programs administered by the Commission and cannot concurrently fulfill them under this Section in a

period of time equal to the length of the teaching obligation; or (vii) is participating in a program established under Executive Order 10924 of the President of the United States or the federal National Community Service Act of 1990 (42 U.S.C. 12501 et seq.). Any such extension of the period during which the teaching requirement must be fulfilled shall be subject to limitations of duration as established by the Commission.

(l) A recipient who fails to fulfill the teaching obligations of the agreement entered into pursuant to subsection (i) of this Section shall repay the amount of scholarship assistance awarded to them under this Section within 10 years.

(m) Annually, at a time determined by the Commission in consultation with the Foundation, the Foundation shall submit a report to assist the Commission in monitoring the Foundation's performance of grant activities. The report shall describe the following:

(1) the Foundation's anticipated expenditures for the next fiscal year;

(2) the number of qualified students receiving scholarship assistance at each institution of higher learning where a qualified student was enrolled under this Section during the previous fiscal year;

(3) the total monetary value of scholarship funds paid to each institution of higher learning at which a qualified student was enrolled during the previous fiscal

year;

(10) the number of scholarship recipients who defaulted on their obligation to repay scholarship assistance during the previous fiscal year;

(11) the amount of scholarship assistance subject to collection in accordance with subsection (j) of this Section at the end of the previous fiscal year;

(12) the amount of collected funds to be remitted to the Comptroller in accordance with subsection (j) of this Section at the end of the previous fiscal year; and

(13) other information that the Commission may reasonably request.

(n) Nothing in this Section shall affect the rights of the Commission to collect moneys owed to it by recipients of scholarship assistance through the Illinois Future Teacher Corps Program, repealed by Public Act 98-533.

(o) The Auditor General shall prepare an annual audit of the operations and finances of the Golden Apple Scholars of Illinois Program. This audit shall be provided to the Governor, General Assembly, and the Commission.

(p) The suspension of grant making authority found in Section 4.2 of the Illinois Grant Funds Recovery Act shall not apply to grants made pursuant to this Section.

(c) To ensure alignment with Consortium goals and changing workforce needs, the Commission shall work in partnership with the Board of Higher Education and the Illinois Community College Board in program design, and the Board of Higher Education and the Illinois Community College Board shall solicit feedback from the Consortium advisory committee established under Section 25 of the Early Childhood Access Consortium for Equity Act.

(d) In awarding a scholarship under this Section, the Commission may give preference to applicants who received a scholarship under this Section during the prior academic year, to applicants with financial need, or both.

(e) Prior to receiving scholarship assistance for any academic year, each recipient of a scholarship awarded under this Section shall be required by the Commission to sign an agreement under which the recipient pledges to continue or return to teaching or direct services in the early childhood care and education field in this State after they complete their program of study.

(f) The Commission may adopt any rules necessary to implement and administer the Program.

Section 705. The Student Loan Servicing Rights Act is amended by changing Section 5-70 as follows:

(110 ILCS 992/5-70)

Sec. 5-70. Cosigner release rights.

(a) A servicer may not impose any restriction that permanently bars a borrower from qualifying for cosigner release, including restricting the number of times a borrower may apply for cosigner release.

(b) A servicer may not impose any negative consequences on a borrower or cosigner during the 60 days following the issuance of the notice required pursuant to subsection (c) of Section 5-50 of this Act or until the servicer makes a final determination about a borrower's cosigner release application, whichever occurs later. As used in this subsection (b), "negative consequences" includes the imposition of additional eligibility criteria, negative credit reporting, lost eligibility or cosigner release, late fees, interest capitalization, or other financial injury.

(c) For any private education loan issued on or after August 2, 2024 (the effective date of Public Act 103-748) ~~this amendatory Act of the 103rd General Assembly~~, a servicer may not require proof of more than 12 consecutive, on-time payments as part of the criteria for cosigner release. A borrower who has paid the equivalent of 12 months of principal

and interest payments within any 12-month period is deemed to have satisfied the consecutive, on-time payment requirement even if the borrower has not made payments monthly during the 12-month period. If a borrower or cosigner requests a change in terms that restarts the count of consecutive, on-time payments required for cosigner release, the servicer shall notify the borrower and cosigner in writing of the impact of the change and provide the borrower and cosigner with the right to withdraw or reverse the request to avoid the impact.

(d) A borrower may request an appeal of a servicer's determination to deny a request for cosigner release, and the servicer shall permit the borrower to submit additional documentation evidencing the borrower's ability, willingness, and stability to meet the payment obligations. The borrower may request that another employee of the servicer review the cosigner release determination.

(e) A servicer shall establish and maintain a comprehensive record management system reasonably designed to ensure the accuracy, integrity, and completeness of information about cosigner release applications and to ensure compliance with applicable State and federal laws. The system must include the number of cosigner release ~~cosigner release~~ applications received, the approval and denial rate, and the primary reasons for any denial.

(a) An EMS Medical Director may suspend from participation within the System any EMS personnel, EMS Lead Instructor (LI), individual, individual provider, or other participant considered not to be meeting the requirements of the Program Plan of that approved EMS System. An EMS Medical Director must submit a suspension order to the Department describing which

requirements of the Program Plan were not met and the suspension's duration. The Department shall review and confirm receipt of the suspension order, request additional information, or initiate an investigation. The Department shall incorporate the duration of that suspension into any further action taken by the Department to suspend, revoke, or refuse to issue or renew the license of the individual or entity for any violation of this Act or the Program Plan arising from the same conduct for which the suspension order was issued if the suspended party has neither requested a Department hearing on the suspension nor worked as a provider in any other System during the term of the suspension.

(b) Prior to suspending any individual or entity, an EMS Medical Director shall provide an opportunity for a hearing before the local System review board in accordance with subsection (f) and the rules promulgated by the Department.

(1) If the local System review board affirms or modifies the EMS Medical Director's suspension order, the individual or entity shall have the opportunity for a review of the local board's decision by the State EMS Disciplinary Review Board, pursuant to Section 3.45 of this Act.

(2) If the local System review board reverses or modifies the EMS Medical Director's order, the EMS Medical Director shall have the opportunity for a review of the local board's decision by the State EMS Disciplinary

Review Board, pursuant to Section 3.45 of this Act.

(3) The suspension shall commence only upon the occurrence of one of the following:

(d) An EMS Medical Director may immediately suspend an EMR, EMD, EMT, EMT-I, A-EMT, Paramedic, ECRN, PHRN, LI, PHPA, PHAPRN, or other individual or entity if he or she finds that the continuation in practice by the individual or entity would constitute an imminent danger to the public. The suspended

individual or entity shall be issued an immediate verbal notification followed by a written suspension order by the EMS Medical Director which states the length, terms, and basis for the suspension.

(1) Within 24 hours following the commencement of the suspension, the EMS Medical Director shall deliver to the Department, by messenger, telefax, or other Department-approved electronic communication, a copy of the suspension order and copies of any written materials which relate to the EMS Medical Director's decision to suspend the individual or entity. When an immediate suspension order is not stayed, the Director or the Director's designee within the Department shall identify if that suspension shall immediately apply to statewide participation only in situations when a licensee has been charged with a crime while performing the licensee's official duties as an EMR, EMD, EMT, EMT-I, A-EMT, Paramedic, ECRN, TNS, PHRN, LI, PHPA, or PHAPRN and the licensee's continuation to practice poses the possibility of imminent harm to the public based upon ~~off~~ factual evidence provided to the Department. The determination to issue an immediate statewide suspension shall not deny the right to due process to a licensee. The Director or the Director's designee shall issue this determination to the EMS Medical Director, who shall immediately notify the suspended individual or entity. The suspension shall remain in effect during this period of review by the Director or the Director's designee.

(e) Upon issuance of a suspension order for reasons

directly related to medical care, the EMS Medical Director shall also provide the individual or entity with the opportunity for a hearing before the local System review board, in accordance with subsection (f) and the rules promulgated by the Department.

(1) If the local System review board affirms or modifies the EMS Medical Director's suspension order, the individual or entity shall have the opportunity for a review of the local board's decision by the State EMS Disciplinary Review Board, pursuant to Section 3.45 of this Act.

The union representative must comply with any confidentiality requirements and requirements for the protection of any patient information presented during the proceeding. The transcript, all documents or materials received as evidence during the hearing and the local System review board's written decision shall be retained in the custody of the EMS system. The System shall implement a decision of the local System review board unless that decision has been appealed to the State Emergency Medical Services Disciplinary Review Board in accordance with this Act and the rules of the Department.

(g) The Resource Hospital shall implement a decision of the State Emergency Medical Services Disciplinary Review Board which has been rendered in accordance with this Act and the rules of the Department.

The Department shall send a designation notice to each hospital that it designates as an Acute Stroke-Ready Hospital and shall add the names of designated Acute Stroke-Ready Hospitals to the website listing immediately upon designation. The Department

shall immediately remove the name of a hospital from the website listing when a hospital loses its designation after notice and, if requested by the hospital, a hearing.

The Department shall develop an Application for Stroke Center Designation form that contains a statement that "The above named facility meets the requirements for Acute Stroke-Ready Hospital Designation as provided in Section 3.117 of the Emergency Medical Services (EMS) Systems Act" and shall instruct the applicant facility to provide: the hospital name and address; the hospital CEO or Administrator's typed name and signature; the hospital Clinical Director of Stroke Care's typed name and signature; and a contact person's typed name, email address, and phone number.

The Application for Stroke Center Designation form shall contain a statement that instructs the hospital to "Provide proof of current Acute Stroke-Ready Hospital certification from a nationally recognized certifying body approved by the Department".

(B) Designate a hospital as an Acute Stroke-Ready Hospital no more than 30 business days after receipt of an attestation that meets the requirements for attestation, unless the Department, within 30 days of receipt of the attestation, chooses to conduct an

onsite survey prior to designation. If the Department chooses to conduct an onsite survey prior to designation, then the onsite survey shall be conducted within 90 days of receipt of the attestation.

(C) Require annual written attestation, on a form developed by the Department in consultation with the State Stroke Advisory Subcommittee, by Acute Stroke-Ready Hospitals to indicate compliance with Acute Stroke-Ready Hospital criteria, as described in this Section, and automatically renew Acute Stroke-Ready Hospital designation of the hospital.

(D) Issue an Emergency Suspension of Acute Stroke-Ready Hospital designation when the Director, or his or her designee, has determined that the hospital no longer meets the Acute Stroke-Ready Hospital criteria and an immediate and serious danger to the public health, safety, and welfare exists. If the Acute Stroke-Ready Hospital fails to eliminate the violation immediately or within a fixed period of time, not exceeding 10 days, as determined by the Director, the Director may immediately revoke the Acute Stroke-Ready Hospital designation. The Acute Stroke-Ready Hospital may appeal the revocation within 15 business days after receiving the Director's revocation order, by requesting an administrative hearing.

(E) After notice and an opportunity for an administrative hearing, suspend, revoke, or refuse to renew an Acute Stroke-Ready Hospital designation, when the Department finds the hospital is not in substantial compliance with current Acute Stroke-Ready Hospital criteria.

(c) The Department shall consult with the State Stroke Advisory Subcommittee for developing the designation, re-designation, and de-designation processes for Comprehensive Stroke Centers, Thrombectomy Capable Stroke Centers, Thrombectomy Ready Stroke Centers, Primary Stroke Centers Plus, Primary Stroke Centers, and Acute Stroke-Ready Hospitals.

(d) The Department shall consult with the State Stroke Advisory Subcommittee as subject matter experts at least annually regarding stroke standards of care.

(b) The information and instructional materials described in subsection (a) may be provided electronically.

(c) Nothing in this Section prohibits a hospital from obtaining free and suitable information on voluntary milk donation from the Human Milk Banking Association of North America, its successor organization, or its accredited members.

Sec. 355. Accident and health policies; provisions.

(a) As used in this Section:

"Inadequate rate" means a rate:

(1) that is insufficient to sustain projected losses and expenses to which the rate applies; and

(2) the continued use of which endangers the solvency of an insurer using that rate.

"Large employer" has the meaning provided in the Illinois Health Insurance Portability and Accountability Act.

"Plain language" has the meaning provided in the federal Plain Writing Act of 2010 and subsequent guidance documents, including the Federal Plain Language Guidelines.

"Unreasonable rate increase" means a rate increase that the Director determines to be excessive, unjustified, or unfairly discriminatory in accordance with 45 CFR 154.205.

(b) No policy of insurance against loss or damage from the sickness, or from the bodily injury or death of the insured by accident shall be issued or delivered to any person in this State until a copy of the form thereof and of the classification of risks and the premium rates pertaining thereto have been filed with the Director; nor shall it be so issued or delivered until the Director shall have approved such policy pursuant to the provisions of Section 143. If the Director disapproves the policy form, he or she shall make a written decision stating the respects in which such form does not comply with the requirements of law and shall deliver a copy thereof to the company and it shall be unlawful

thereafter for any such company to issue any policy in such form. On and after January 1, 2025, any form filing submitted for large employer group accident and health insurance shall be automatically deemed approved within 90 days of the submission date unless the Director extends by not more than an additional 30 days the period within which the form shall be approved or disapproved by giving written notice to the insurer of such extension before the expiration of the 90 days. Any form in receipt of such an extension shall be automatically deemed approved within 120 days of the submission date. The Director may toll the filing due to a conflict in legal interpretation of federal or State law as long as the tolling is applied uniformly to all applicable forms, written notification is provided to the insurer prior to the tolling, the duration of the tolling is provided within the notice to the insurer, and justification for the tolling is posted to the Department's website. The Director may disapprove the filing if the insurer fails to respond to an objection or request for additional information within the timeframe identified for response. As used in this subsection, "large employer" has the meaning given in Section 5 of the federal Health Insurance Portability and Accountability Act.

(c) For plan year 2026 and thereafter, premium rates for all individual and small group accident and health insurance policies must be filed with the Department for approval. Unreasonable rate increases or inadequate rates shall be

modified or disapproved. For any plan year during which the Illinois Health Benefits Exchange operates as a full State-based exchange, the Department shall provide insurers at least 30 days' notice of the deadline to submit rate filings.

(c-5) Unless prohibited under federal law, for plan year 2026 and thereafter, each insurer proposing to offer a qualified health plan issued in the individual market through the Illinois Health Benefits Exchange must incorporate the following approach in its rate filing under this Section:

(1) The rate filing must apply a cost-sharing reduction defunding adjustment factor within a range that:

(A) is uniform across all insurers;

(B) is consistent with the total adjustment expected to be needed to cover actual cost-sharing reduction costs across all silver plans on the Illinois Health Benefits Exchange statewide, provided that such costs are calculated assuming utilization by the State's full individual-market risk pool; and

(C) assumes that the only on-Exchange silver plans that will be purchased are the 87% and 94% cost-sharing reduction variations.

(2) The rate filing must apply an induced demand factor based on the following formula: $(\text{Plan Actuarial Value})^2 - (\text{Plan Actuarial Value}) + 1.24$.

In the annual notice to insurers described in subsection (c), the Department must include the specific numerical range

calculated for the applicable plan year under paragraph (1) of this subsection (c-5) and the formula in paragraph (2) of this subsection (c-5).

(d) For plan year 2025 and thereafter, the Department shall post all insurers' rate filings and summaries on the Department's website 5 business days after the rate filing deadline set by the Department in annual guidance. The rate filings and summaries posted to the Department's website shall exclude information that is proprietary or trade secret information protected under paragraph (g) of subsection (1) of Section 7 of the Freedom of Information Act or confidential or privileged under any applicable insurance law or rule. All summaries shall include a brief justification of any rate increase or decrease requested, including the number of individual members, the medical loss ratio, medical trend, administrative costs, and any other information required by rule. The plain writing summary shall include notification of the public comment period established in subsection (e).

(e) The Department shall open a 30-day public comment period on the rate filings beginning on the date that all of the rate filings are posted on the Department's website. The Department shall post all of the comments received to the Department's website within 5 business days after the comment period ends.

(f) After the close of the public comment period described in subsection (e), the Department, beginning for plan year

2026, shall issue a decision to approve, disapprove, or modify a rate filing within 60 days. Any rate filing or any rates within a filing on which the Director does not issue a decision within 60 days shall automatically be deemed approved. The Director's decision shall take into account the actuarial justifications and public comments. The Department shall notify the insurer of the decision, make the decision available to the public by posting it on the Department's website, and include an explanation of the findings, actuarial justifications, and rationale that are the basis for the decision. Any company whose rate has been modified or disapproved shall be allowed to request a hearing within 10 days after the action taken. The action of the Director in disapproving a rate shall be subject to judicial review under the Administrative Review Law.

(g) If, following the issuance of a decision but before the effective date of the premium rates approved by the decision, an event occurs that materially affects the Director's decision to approve, deny, or modify the rates, the Director may consider supplemental facts or data reasonably related to the event.

(h) The Department shall adopt rules implementing the procedures described in subsections (d) through (g) by March 31, 2024.

(i) Subsection (a), subsections (c) through (h), and subsection (j) of this Section do not apply to grandfathered

health plans as defined in 45 CFR 147.140; excepted benefits as defined in 42 U.S.C. 300gg-91; or student health insurance coverage as defined in 45 CFR 147.145. For a filing of premium rates or classifications of risk for any of these types of coverage, the Director's initial review period shall not exceed 60 days to issue informal objections to the company that request additional clarification, explanation, substantiating documentation, or correction of concerns identified in the filing before the company implements the premium rates, classifications, or related rate-setting methodologies described in the filing, except that the Director may extend by not more than an additional 30 days the period of initial review by giving written notice to the company of such extension before the expiration of the initial 60-day period. Nothing in this subsection shall confer authority upon the Director to approve, modify, or disapprove rates where that authority is not provided by other law. Nothing in this subsection shall prohibit the Director from conducting any investigation, examination, hearing, or other formal administrative or enforcement proceeding with respect to a company's rate filing or implementation thereof under applicable law at any time, including after the period of initial review.

(j) Subsection (a) and subsections (c) through (h) do not apply to group policies issued in the large group market as defined in Section 5 of the Illinois Health Insurance

Portability and Accountability Act. For large group policies issued, delivered, amended, or renewed on or after January 1, 2026 that are not described in subsection (i), the premium rates and risk classifications, including any rate manuals and rules used to arrive at the rates, must be filed with the Department annually for approval at least 120 days before the rates are intended to take effect.

(1) A rate filing shall be modified or disapproved if the premiums are unreasonable in relation to the benefits because the rates were not calculated in accordance with sound actuarial principles.

(2) Within 60 days of receipt of the rate filing, the Director shall issue a decision to approve, disapprove, or modify the filing along with the reasons and actuarial justification for the decision. Any rate filing or rates within a filing on which the Director does not issue a decision within 60 days shall be automatically deemed approved.

(3) Any company whose rate or rate filing has been modified or disapproved shall be allowed to request a hearing within 10 days after the action taken. The action of the Director in disapproving a rate or rate filing shall be subject to judicial review under the Administrative Review Law.

(4) Nothing in this subsection requires a company to file a large group policy's final premium rates for prior

approval if the company negotiates the final rates or rate adjustments with the plan sponsor or its administrator in accordance with the rate manual and rules of the currently approved rate filing for the policy.

In this subsection, "administrator" and "plan sponsor" have the meanings ~~meaning~~ given to those terms in 29 U.S.C. 1002(16).

Sec. 356z.5. Prescription inhalers ~~inhalants~~.

(a) In this Section, "prescription inhaler" means a prescribed medical device that delivers inhaled medications used to treat breathing for persons suffering from asthma or other life-threatening bronchial ailments. "Prescription inhaler" includes metered-dose inhalers, nebulizers, and dry powder inhalers. "Prescription inhaler" does not include inhalers available over the counter without a prescription to provide temporary relief from respiratory symptoms.

(b) A group or individual policy of accident and health insurance or managed care plan amended, delivered, issued, or renewed through December 31, 2025 that provides coverage for prescription drugs may not deny or limit coverage for prescription inhalers to enable persons to breathe when

suffering from asthma or other life-threatening bronchial ailments based upon any restriction on the number of days before an inhaler refill may be obtained if, contrary to those restrictions, the inhalants have been ordered or prescribed by the treating physician and are medically appropriate.

(c) A group or individual policy of accident and health insurance or managed care plan amended, delivered, issued, or renewed on or after January 1, 2026 that provides coverage for prescription drugs may not deny or limit, except as otherwise provided in this subsection, coverage for prescription inhalers to enable persons to breathe when suffering from asthma or other life-threatening bronchial ailments based upon any restriction on the number of days before an inhaler refill may be obtained if, contrary to those restrictions, the inhalants have been ordered or prescribed by the treating physician and are medically appropriate. A group or individual policy of accident and health insurance or managed care plan subject to this subsection shall limit the total amount that a covered person is required to pay for a covered prescription inhaler to an amount not to exceed \$25 per 30-day supply.

(d) Nothing in this Section prevents a group or individual policy of accident and health insurance or managed care plan from reducing a covered person's cost sharing to an amount less than the amount specified in subsection (c).

(e) Coverage for prescription inhalers shall not be subject to any deductible; except that this provision does not

apply to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

(f) The Department may adopt rules necessary to implement and administer this Section and to align with federal requirements. The Department may use any of its enforcement powers to obtain a group or individual policy of accident and health insurance's or managed care plan's compliance with this Section.

(215 ILCS 5/356z.14)

Sec. 356z.14. Autism spectrum disorders.

(a) A group or individual policy of accident and health insurance or managed care plan amended, delivered, issued, or renewed after December 12, 2008 (the effective date of Public Act 95-1005) must provide individuals under 21 years of age coverage for the diagnosis of autism spectrum disorders and for the treatment of autism spectrum disorders to the extent that the diagnosis and treatment of autism spectrum disorders are not already covered by the policy of accident and health insurance or managed care plan.

(b) Coverage provided under this Section shall be subject to a maximum benefit of \$36,000 per year~~7~~ but shall not be subject to any limits on the number of visits to a service

provider. ~~The~~ ~~After December 30, 2009,~~ the Director of ~~the~~ ~~Division of~~ Insurance shall, on an annual basis, adjust the maximum benefit for inflation using the Medical Care Component of the United States Department of Labor Consumer Price Index for All Urban Consumers. Payments made by an insurer on behalf of a covered individual for any care, treatment, intervention, service, or item, the provision of which was for the treatment of a health condition not diagnosed as an autism spectrum disorder, shall not be applied toward any maximum benefit established under this subsection.

(c) Coverage under this Section shall be subject to copayment, deductible, and coinsurance provisions of a policy of accident and health insurance or managed care plan to the extent that other medical services covered by the policy of accident and health insurance or managed care plan are subject to these provisions.

(d) This Section shall not be construed as limiting benefits that are otherwise available to an individual under a policy of accident and health insurance or managed care plan and benefits provided under this Section may not be subject to dollar limits, deductibles, copayments, or coinsurance provisions that are less favorable to the insured than the dollar limits, deductibles, or coinsurance provisions that apply to physical illness generally.

(e) An insurer may not deny or refuse to provide otherwise covered services, or refuse to renew, refuse to reissue, or

otherwise terminate or restrict coverage under an individual contract to provide services to an individual because the individual or the individual's ~~their~~ dependent is diagnosed with an autism spectrum disorder or due to the individual utilizing benefits in this Section.

(e-5) An insurer may not deny or refuse to provide otherwise covered services under a group or individual policy of accident and health insurance or a managed care plan solely because of the location wherein the clinically appropriate services are provided.

(f) Upon request of the reimbursing insurer, a provider of treatment for autism spectrum disorders shall furnish medical records, clinical notes, or other necessary data that substantiate that initial or continued medical treatment is medically necessary and is resulting in improved clinical status. When treatment is anticipated to require continued services to achieve demonstrable progress, the insurer may request a treatment plan consisting of diagnosis, proposed treatment by type, frequency, anticipated duration of treatment, the anticipated outcomes stated as goals, and the frequency by which the treatment plan will be updated.

(g) When making a determination of medical necessity for a treatment modality for autism spectrum disorders, an insurer must make the determination in a manner that is consistent with the manner used to make that determination with respect to other diseases or illnesses covered under the policy,

including an appeals process. During the appeals process, any challenge to medical necessity must be viewed as reasonable only if the review includes a physician with expertise in the most current and effective treatment modalities for autism spectrum disorders.

(h) Coverage for medically necessary early intervention services must be delivered by certified early intervention specialists, as defined in 89 Ill. Adm. Code 500 and any subsequent amendments thereto.

(h-5) If an individual has been diagnosed as having an autism spectrum disorder, meeting the diagnostic criteria in place at the time of diagnosis, and treatment is determined medically necessary, then that individual shall remain eligible for coverage under this Section even if subsequent changes to the diagnostic criteria are adopted by the American Psychiatric Association. If no changes to the diagnostic criteria are adopted after April 1, 2012, and before December 31, 2014, then this subsection (h-5) shall be of no further force and effect.

(h-10) An insurer may not deny or refuse to provide covered services, or refuse to renew, refuse to reissue, or otherwise terminate or restrict coverage under an individual contract, for a person diagnosed with an autism spectrum disorder on the basis that the individual declined an alternative medication or covered service when the individual's health care provider has determined that such

medication or covered service may exacerbate clinical symptomatology and is medically contraindicated for the individual and the individual has requested and received a medical exception as provided for under Section 45.1 of the Managed Care Reform and Patient Rights Act. For the purposes of this subsection (h-10), "clinical symptomatology" means any indication of disorder or disease when experienced by an individual as a change from normal function, sensation, or appearance.

(h-15) If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage outlined in subsection (h-10), then subsection (h-10) is inoperative with respect to all coverage outlined in subsection (h-10) other than that authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of the coverage set forth in subsection (h-10).

(i) As used in this Section:

"Autism spectrum disorders" means pervasive developmental

disorders as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, including autism, Asperger's disorder, and pervasive developmental disorder not otherwise specified.

"Diagnosis of autism spectrum disorders" means one or more tests, evaluations, or assessments to diagnose whether an individual has autism spectrum disorder that is prescribed, performed, or ordered by (A) a physician licensed to practice medicine in all its branches or (B) a licensed clinical psychologist with expertise in diagnosing autism spectrum disorders.

"Medically necessary" means any care, treatment, intervention, service, or item which will or is reasonably expected to do any of the following: (i) prevent the onset of an illness, condition, injury, disease, or disability; (ii) reduce or ameliorate the physical, mental, or developmental effects of an illness, condition, injury, disease, or disability; or (iii) assist to achieve or maintain maximum functional activity in performing daily activities.

"Treatment for autism spectrum disorders" shall include the following care prescribed, provided, or ordered for an individual diagnosed with an autism spectrum disorder by (A) a physician licensed to practice medicine in all its branches or (B) a certified, registered, or licensed health care professional with expertise in treating effects of autism spectrum disorders when the care is determined to be medically

necessary and ordered by a physician licensed to practice medicine in all its branches:

(1) Psychiatric care, meaning direct, consultative, or diagnostic services provided by a licensed psychiatrist.

(2) Psychological care, meaning direct or consultative services provided by a licensed psychologist.

(3) Habilitative or rehabilitative care, meaning professional, counseling, and guidance services and treatment programs, including applied behavior analysis, that are intended to develop, maintain, and restore the functioning of an individual. As used in this subsection (i), "applied behavior analysis" means the design, implementation, and evaluation of environmental modifications using behavioral stimuli and consequences to produce socially significant improvement in human behavior, including the use of direct observation, measurement, and functional analysis of the relations between environment and behavior.

(4) Therapeutic care, including behavioral, speech, occupational, and physical therapies that provide treatment in the following areas: (i) self care and feeding, (ii) pragmatic, receptive, and expressive language, (iii) cognitive functioning, (iv) applied behavior analysis, intervention, and modification, (v) motor planning, and (vi) sensory processing.

(j) Rulemaking authority to implement this amendatory Act

of the 95th General Assembly, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

(215 ILCS 5/356z.25)

Sec. 356z.25. Coverage for treatment of pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome. A group or individual policy of accident and health insurance or managed care plan that is amended, delivered, issued, or renewed after July 18, 2017 (the effective date of Public Act 100-24) shall provide coverage for treatment of pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset neuropsychiatric syndrome, including, but not limited to, the use of intravenous immunoglobulin therapy.

No group or individual policy of accident and health insurance or managed care plan shall deny or delay coverage for medically necessary treatment under this Section solely because the insured, enrollee, or beneficiary previously

received any treatment, including the same or similar treatment, for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections or pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome, or because the insured, enrollee, or beneficiary has been diagnosed with or receives treatment for an otherwise diagnosed condition.

For the purposes of this Section, coverage of pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome shall adhere to the treatment recommendations developed by a medical professional consortium convened for the purposes of researching, identifying, and publishing best practice standards for diagnosis and treatment of such disorders or syndrome that are accessible for medical professionals and are based on evidence of positive patient outcomes. Coverage for any form of medically necessary treatment shall not be limited over a lifetime of an insured, enrollee, or beneficiary, unless the patient is no longer benefiting from the treatment, or by policy period. Nothing in this Section prevents insurers from requesting treatment notes and anticipated duration of treatment and outcomes.

For billing and diagnosis purposes, pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome shall be coded as autoimmune encephalitis until the American Medical Association and the

Centers for Medicare and Medicaid Services create and assign a specific code for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome. Thereafter, pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome may be coded as autoimmune encephalitis, pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections, or pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome outlined in this Section, then the requirement that an insurer cover pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric

acute-onset ~~acute-onset~~ neuropsychiatric syndrome is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset ~~acute-onset~~ neuropsychiatric syndrome.

(Text of Section before amendment by P.A. 103-701 and 103-720)

Sec. 356z.40. Pregnancy and postpartum coverage.

(a) An individual or group policy of accident and health insurance or managed care plan amended, delivered, issued, or renewed on or after October 8, 2021 (the effective date of Public Act 102-665) ~~this amendatory Act of the 102nd General Assembly~~ shall provide coverage for pregnancy and newborn care in accordance with 42 U.S.C. 18022(b) regarding essential health benefits.

(b) Benefits under this Section shall be as follows:

(1) An individual who has been identified as experiencing a high-risk pregnancy by the individual's treating provider shall have access to clinically appropriate case management programs. As used in this subsection, "case management" means a mechanism to

coordinate and assure continuity of services, including, but not limited to, health services, social services, and educational services necessary for the individual. "Case management" involves individualized assessment of needs, planning of services, referral, monitoring, and advocacy to assist an individual in gaining access to appropriate services and closure when services are no longer required. "Case management" is an active and collaborative process involving a single qualified case manager, the individual, the individual's family, the providers, and the community. This includes close coordination and involvement with all service providers in the management plan for that individual or family, including assuring that the individual receives the services. As used in this subsection, "high-risk pregnancy" means a pregnancy in which the pregnant or postpartum individual or baby is at an increased risk for poor health or complications during pregnancy or childbirth, including, but not limited to, hypertension disorders, gestational diabetes, and hemorrhage.

(2) An individual shall have access to medically necessary treatment of a mental, emotional, nervous, or substance use disorder or condition consistent with the requirements set forth in this Section and in Sections 370c and 370c.1 of this Code.

(3) The benefits provided for inpatient and outpatient

services for the treatment of a mental, emotional, nervous, or substance use disorder or condition related to pregnancy or postpartum complications shall be provided if determined to be medically necessary, consistent with the requirements of Sections 370c and 370c.1 of this Code. The facility or provider shall notify the insurer of both the admission and the initial treatment plan within 48 hours after admission or initiation of treatment. Subject to the requirements of Sections 370c and 370c.1 of this Code, nothing in this paragraph shall prevent an insurer from applying concurrent and post-service utilization review of health care services, including review of medical necessity, case management, experimental and investigational treatments, managed care provisions, and other terms and conditions of the insurance policy.

(4) The benefits for the first 48 hours of initiation of services for an inpatient admission, detoxification or withdrawal management program, or partial hospitalization admission for the treatment of a mental, emotional, nervous, or substance use disorder or condition related to pregnancy or postpartum complications shall be provided without post-service or concurrent review of medical necessity, as the medical necessity for the first 48 hours of such services shall be determined solely by the covered pregnant or postpartum individual's provider. Subject to Sections ~~Section~~ 370c and 370c.1 of this Code, nothing in

this paragraph shall prevent an insurer from applying concurrent and post-service utilization review, including the review of medical necessity, case management, experimental and investigational treatments, managed care provisions, and other terms and conditions of the insurance policy, of any inpatient admission, detoxification or withdrawal management program admission, or partial hospitalization admission services for the treatment of a mental, emotional, nervous, or substance use disorder or condition related to pregnancy or postpartum complications received 48 hours after the initiation of such services. If an insurer determines that the services are no longer medically necessary, then the covered person shall have the right to external review pursuant to the requirements of the Health Carrier External Review Act.

(5) If an insurer determines that continued inpatient care, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment in a facility is no longer medically necessary, the insurer shall, within 24 hours, provide written notice to the covered pregnant or postpartum individual and the covered pregnant or postpartum individual's provider of its decision and the right to file an expedited internal appeal of the determination. The insurer shall review and make a determination with

respect to the internal appeal within 24 hours and communicate such determination to the covered pregnant or postpartum individual and the covered pregnant or postpartum individual's provider. If the determination is to uphold the denial, the covered pregnant or postpartum individual and the covered pregnant or postpartum individual's provider have the right to file an expedited external appeal. An independent review organization shall make a determination within 72 hours. If the insurer's determination is upheld and it is determined that continued inpatient care, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment is not medically necessary, the insurer shall remain responsible for providing benefits for the inpatient care, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment through the day following the date the determination is made, and the covered pregnant or postpartum individual shall only be responsible for any applicable copayment, deductible, and coinsurance for the stay through that date as applicable under the policy. The covered pregnant or postpartum individual shall not be discharged or released from the inpatient facility, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment until all internal

appeals and independent utilization review organization appeals are exhausted. A decision to reverse an adverse determination shall comply with the Health Carrier External Review Act.

(6) Except as otherwise stated in this subsection (b), the benefits and cost-sharing shall be provided to the same extent as for any other medical condition covered under the policy.

(7) The benefits required by paragraphs (2) and (6) of this subsection (b) are to be provided to all covered pregnant or postpartum individuals with a diagnosis of a mental, emotional, nervous, or substance use disorder or condition. The presence of additional related or unrelated diagnoses shall not be a basis to reduce or deny the benefits required by this subsection (b).

Sec. 356z.40. Pregnancy and postpartum coverage.

(a) An individual or group policy of accident and health insurance or managed care plan amended, delivered, issued, or renewed on or after October 8, 2021 (the effective date of Public Act 102-665) shall provide coverage for pregnancy and newborn care in accordance with 42 U.S.C. 18022(b) regarding

The facility or provider shall notify the insurer of both the admission and the initial treatment plan within 48 hours after admission or initiation of treatment. Subject to the requirements of Sections 370c and 370c.1 of this Code, nothing in this paragraph shall prevent an insurer from applying concurrent and post-service utilization review of health care services, including review of medical necessity, case management, experimental and investigational treatments, managed care provisions, and other terms and conditions of the insurance policy.

(4) The benefits for the first 48 hours of initiation of services for an inpatient admission, detoxification or

withdrawal management program, or partial hospitalization admission for the treatment of a mental, emotional, nervous, or substance use disorder or condition related to pregnancy or postpartum complications shall be provided without post-service or concurrent review of medical necessity, as the medical necessity for the first 48 hours of such services shall be determined solely by the covered pregnant or postpartum individual's provider. Subject to Sections ~~Section~~ 370c and 370c.1 of this Code, nothing in this paragraph shall prevent an insurer from applying concurrent and post-service utilization review, including the review of medical necessity, case management, experimental and investigational treatments, managed care provisions, and other terms and conditions of the insurance policy, of any inpatient admission, detoxification or withdrawal management program admission, or partial hospitalization admission services for the treatment of a mental, emotional, nervous, or substance use disorder or condition related to pregnancy or postpartum complications received 48 hours after the initiation of such services. If an insurer determines that the services are no longer medically necessary, then the covered person shall have the right to external review pursuant to the requirements of the Health Carrier External Review Act.

(5) If an insurer determines that continued inpatient

care, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment in a facility is no longer medically necessary, the insurer shall, within 24 hours, provide written notice to the covered pregnant or postpartum individual and the covered pregnant or postpartum individual's provider of its decision and the right to file an expedited internal appeal of the determination. The insurer shall review and make a determination with respect to the internal appeal within 24 hours and communicate such determination to the covered pregnant or postpartum individual and the covered pregnant or postpartum individual's provider. If the determination is to uphold the denial, the covered pregnant or postpartum individual and the covered pregnant or postpartum individual's provider have the right to file an expedited external appeal. An independent review organization shall make a determination within 72 hours. If the insurer's determination is upheld and it is determined that continued inpatient care, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment is not medically necessary, the insurer shall remain responsible for providing benefits for the inpatient care, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment

through the day following the date the determination is made, and the covered pregnant or postpartum individual shall only be responsible for any applicable copayment, deductible, and coinsurance for the stay through that date as applicable under the policy. The covered pregnant or postpartum individual shall not be discharged or released from the inpatient facility, detoxification or withdrawal management, partial hospitalization, intensive outpatient treatment, or outpatient treatment until all internal appeals and independent utilization review organization appeals are exhausted. A decision to reverse an adverse determination shall comply with the Health Carrier External Review Act.

(6) Except as otherwise stated in this subsection (b) and subsection (c), the benefits and cost-sharing shall be provided to the same extent as for any other medical condition covered under the policy.

(7) The benefits required by paragraphs (2) and (6) of this subsection (b) are to be provided to (i) all covered pregnant or postpartum individuals with a diagnosis of a mental, emotional, nervous, or substance use disorder or condition and (ii) all individuals who have experienced a miscarriage or stillbirth. The presence of additional related or unrelated diagnoses shall not be a basis to reduce or deny the benefits required by this subsection (b).

(8) Insurers shall cover all services for pregnancy, postpartum, and newborn care that are rendered by perinatal doula or licensed certified professional midwives, including home births, home visits, and support during labor, abortion, or miscarriage. Coverage shall include the necessary equipment and medical supplies for a home birth. For home visits by a perinatal doula, not counting any home birth, the policy may limit coverage to 16 visits before and 16 visits after a birth, miscarriage, or abortion, provided that the policy shall not be required to cover more than \$8,000 for doula visits for each pregnancy and subsequent postpartum period. As used in this paragraph (8), "perinatal doula" has the meaning given in subsection (a) of Section 5-18.5 of the Illinois Public Aid Code.

(9) Coverage for pregnancy, postpartum, and newborn care shall include home visits by lactation consultants and the purchase of breast pumps and breast pump supplies, including such breast pumps, breast pump supplies, breastfeeding supplies, and feeding aids as recommended by the lactation consultant. As used in this paragraph (9), "lactation consultant" means an International Board-Certified Lactation Consultant, a certified lactation specialist with a certification from Lactation Education Consultants, or a certified lactation counselor as defined in subsection (a) of Section 5-18.10 of the

Illinois Public Aid Code.

(10) Coverage for postpartum services shall apply for all covered services rendered within the first 12 months after the end of pregnancy, subject to any policy limitation on home visits by a perinatal doula allowed under paragraph (8) of this subsection (b). Nothing in this paragraph (10) shall be construed to require a policy to cover services for an individual who is no longer insured or enrolled under the policy. If an individual becomes insured or enrolled under a new policy, the new policy shall cover the individual consistent with the time period and limitations allowed under this paragraph (10). This paragraph (10) is subject to the requirements of Section 25 of the Managed Care Reform and Patient Rights Act, Section 20 of the Network Adequacy and Transparency Act, and 42 U.S.C. 300gg-113.

(c) All coverage described in subsection (b), other than health care services for home births, shall be provided without cost-sharing, except that, for mental health services, the cost-sharing prohibition does not apply to inpatient or residential services, and, for substance use disorder services, the cost-sharing prohibition applies only to levels of treatment below and not including Level 3.1 (Clinically Managed Low-Intensity Residential), as established by the American Society for Addiction Medicine. This subsection does not apply to the extent such coverage would disqualify a

During this open enrollment period, an issuer of a Medicare supplement policy shall not deny or condition the issuance or effectiveness of Medicare supplemental coverage, nor discriminate in the pricing of coverage, because of health status, claims experience, receipt of health care, or a medical condition of the individual. An issuer shall provide notice of this annual open enrollment period for eligible Medicare supplement policyholders at the time that the application is made for a Medicare supplement policy or certificate. (b) was enrolled in the State's medical assistance program during the COVID-19 Public Health Emergency described in Section 5-1.5 of the Illinois Public Aid Code;

(10) Each Medicare supplement policy and certificate available from an insurer on and after June 16, 2023 (the effective date of Public Act 103-102) ~~this amendatory Act of the 103rd General Assembly~~ shall be made available to all applicants who qualify under subparagraph (i) of paragraph (a) of subsection (6) or Department rules implementing 42 U.S.C. 1395ss(s)(2)(A) without regard to age or applicability of a Medicare Part B late enrollment penalty.

Sec. 363. Medicare supplement policies; minimum standards.

(1) Except as otherwise specifically provided therein, this Section and Section 363a of this Code shall apply to:

(b) all certificates issued under group Medicare supplement policies or subscriber contracts, which

certificates are issued or issued for delivery in this State on and after January 1, 1989.

This Section shall not apply to "Accident Only" or "Specified Disease" types of policies. The provisions of this Section are not intended to prohibit or apply to policies or health care benefit plans, including group conversion policies, provided to Medicare eligible persons, which policies or plans are not marketed or purported or held to be Medicare supplement policies or benefit plans.

(2) For the purposes of this Section and Section 363a, the following terms have the following meanings:

(a) "Applicant" means:

(i) in the case of individual Medicare supplement policy, the person who seeks to contract for insurance benefits, and

(d) "Issuer" includes insurance companies, fraternal benefit societies, voluntary health service plans, health maintenance organizations, or any other entity providing Medicare supplement insurance, unless the context clearly indicates otherwise.

(e) "Medicare" means the Health Insurance for the Aged Act, Title XVIII of the Social Security Amendments of 1965.

No such policy, contract, or certificate shall provide lesser benefits than those required under this Section or the existing Medicare Supplement Minimum Standards Regulation, except where duplication of Medicare benefits would result.

(4) Medicare supplement policies or certificates shall

(5) A Medicare supplement policy or certificate may not deny a claim for losses incurred more than 6 months from the effective date of coverage for a preexisting condition. The policy may not define a preexisting condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within 6 months before the effective date of coverage.

(6) An issuer of a Medicare supplement policy shall:

(a) not deny coverage to an applicant under 65 years of age who meets any of the following criteria:

(iii) is insured by a Medicare Advantage plan that includes a Health Maintenance Organization, a Preferred Provider Organization, and a Private Fee-For-Service or Medicare Select plan and the applicant moves out of the plan's service area; the insurer goes out of business, withdraws from the market, or has its Medicare contract terminated; or the plan violates its contract provisions or is misrepresented in its marketing; or

(iv) is insured by a Medicare supplement policy and the insurer goes out of business, withdraws from the market, or the insurance company or agents misrepresent the plan and the applicant is without coverage;

(b) make available to persons eligible for Medicare by reason of disability each type of Medicare supplement policy the issuer makes available to persons eligible for Medicare by reason of age;

(c) not charge individuals who become eligible for Medicare by reason of disability and who are under the age of 65 premium rates for any medical supplemental insurance benefit plan offered by the issuer that exceed the issuer's highest rate on the current rate schedule filed with the Department ~~Division~~ of Insurance for that plan to individuals who are age 65 or older; and

(7) The Director shall issue reasonable rules and regulations for the following purposes:

(a) To establish specific standards for policy provisions of Medicare policies and certificates. The standards shall be in accordance with the requirements of this Code. (L) Establishing a process for approving or disapproving proposed premium increases.

(M) Establishing a policy for holding public hearings prior to approval of premium increases.

(N) Establishing standards for Medicare Select policies.

(O) Prohibited policy provisions not otherwise specifically authorized by statute that, in the opinion of the Director, are unjust, unfair, or unfairly discriminatory to any person insured or proposed for coverage under a Medicare ~~medicare~~

(c) To implement transitional requirements of Medicare supplement insurance benefits and premiums of Medicare supplement policies and certificates to conform to Medicare program revisions.

(8) If an individual is at least 65 years of age but no more than 75 years of age and has an existing Medicare supplement policy, the individual is entitled to an annual open enrollment period lasting 45 days, commencing with the individual's birthday, and the individual may purchase any Medicare supplement policy with the same issuer or any affiliate authorized to transact business in this State that offers benefits equal to or lesser than those provided by the previous coverage. During this open enrollment period, an issuer of a Medicare supplement policy shall not deny or condition the issuance or effectiveness of Medicare supplemental coverage, nor discriminate in the pricing of coverage, because of health status, claims experience, receipt of health care, or a medical condition of the individual. (215 ILCS 5/367a) (from Ch. 73, par. 979a)

Sec. 367a. Blanket accident and health insurance.

(1) Blanket accident and health insurance is the form of accident and health insurance providing excepted benefits, as defined in Section 352c, that covers special groups of persons as enumerated in one of the following paragraphs (a) to (g), inclusive:

(a) Under a policy or contract issued to any carrier for hire, which shall be deemed the policyholder, covering a group defined as all persons who may become passengers on such carrier.

(b) Under a policy or contract issued to an employer, who shall be deemed the policyholder, covering all employees or any group of employees defined by reference to exceptional hazards incident to such employment.

(c) Under a policy or contract issued to a college, school, or other institution of learning or to the head or principal thereof, who or which shall be deemed the policyholder, covering students or teachers. However, student health insurance coverage, as defined in 45 CFR 147.145, shall remain subject to the standards and requirements for individual health insurance coverage except where inconsistent with that regulation. Student health insurance coverage shall not be subject to the Short-Term, Limited-Duration Health Insurance Coverage Act. An insurer ~~issuer~~ providing student health insurance coverage or a policy or contract covering students for limited-scope dental or vision under 45 CFR 148.220 shall

require an individual application or enrollment form and shall furnish each insured individual a certificate, which shall have been approved by the Director under Section 355.

(d) Under a policy or contract issued in the name of any volunteer fire department, first aid, or other such volunteer group, which shall be deemed the policyholder, covering all of the members of such department or group.

(e) Under a policy or contract issued to a creditor, who shall be deemed the policyholder, to insure debtors of the creditors; Provided, however, that in the case of a loan which is subject to the Small Loans Act, no insurance premium or other cost shall be directly or indirectly charged or assessed against, or collected or received from the borrower.

(f) Under a policy or contract issued to a sports team or to a camp, which team or camp sponsor shall be deemed the policyholder, covering members or campers.

(g) Under a policy or contract issued to any other substantially similar group which, in the discretion of the Director, may be subject to the issuance of a blanket accident and health policy or contract.

(2) Any insurance company authorized to write accident and health insurance in this state shall have the power to issue blanket accident and health insurance. No such blanket policy may be issued or delivered in this State unless a copy of the

form thereof shall have been filed in accordance with Section 355, and it contains in substance such of those provisions contained in Sections 357.1 through 357.30 as may be applicable to blanket accident and health insurance and the following provisions:

(a) A provision that the policy and the application shall constitute the entire contract between the parties, and that all statements made by the policyholder shall, in absence of fraud, be deemed representations and not warranties, and that no such statements shall be used in defense to a claim under the policy, unless it is contained in a written application.

(b) A provision that to the group or class thereof originally insured shall be added from time to time all new persons or individuals eligible for coverage.

(3) An individual application shall not be required from a person covered under a blanket accident or health policy or contract, nor shall it be necessary for the insurer to furnish each person a certificate.

(3.5) Subsection (3) does not apply to major medical insurance, or to any excepted benefits or short-term, limited-duration health insurance coverage for which an insured individual pays premiums or contributions. In those cases, the insurer shall require an individual application or enrollment form and shall furnish each insured individual a certificate, which shall have been approved by the Director

under Section 355 of this Code.

(4) All benefits under any blanket accident and health policy shall be payable to the person insured, or to his designated beneficiary or beneficiaries, or to his or her estate, except that if the person insured be a minor or person under legal disability, such benefits may be made payable to his or her parent, guardian, or other person actually supporting him or her. Provided further, however, that the policy may provide that all or any portion of any indemnities provided by any such policy on account of hospital, nursing, medical or surgical services may, at the insurer's option, be paid directly to the hospital or person rendering such services; but the policy may not require that the service be rendered by a particular hospital or person. Payment so made shall discharge the insurer's obligation with respect to the amount of insurance so paid.

(5) Nothing contained in this Section ~~section~~ shall be deemed to affect the legal liability of policyholders for the death of or injury to, any such member of such group.

(215 ILCS 5/367f) (from Ch. 73, par. 979f)

Sec. 367f. Firefighters' continuance privilege. As used in this Section:

1. The terms "municipality", "deferred pensioner" and

"creditable service" shall have the meaning ascribed to such terms by Sections 4-103, 4-105a, and 4-108, respectively, of the Illinois Pension Code, ~~as now or hereafter amended~~.

2. "Firefighter" means a person who is a "firefighter" as defined in Section 4-106 of the Illinois Pension Code, a paramedic who is employed by a unit of local government, or an emergency medical technician, emergency medical technician-basic, emergency medical technician-intermediate, or advanced emergency medical technician who is employed by a unit of local government.

3. The "retirement or disability period" of a firefighter means the period:

a. which begins on the day the firefighter is removed from a municipality's fire department payroll because of the occurrence of any of the following events, to wit: (i) the firefighter retires as a deferred pensioner under Section 4-105a of the Illinois Pension Code, (ii) the firefighter retires from active service as a firefighter with an attained age and accumulated creditable service which together qualify the firefighter for immediate receipt of retirement pension benefits under Section 4-109 of the Illinois Pension Code, or (iii) the firefighter's disability is established under Section 4-112 of the Illinois Pension Code; and

b. which ends on the first to occur of any of the following events, to wit: (i) the firefighter's

reinstatement or reentry into active service on the municipality's fire department as provided for under Article 4 of the Illinois Pension Code, (ii) the firefighter's exercise of any refund option available under Section 4-116 of the Illinois Pension Code, (iii) the firefighter's loss pursuant to Section 4-138 of the Illinois Pension Code of any benefits provided for in Article 4 of that Code, or (iv) the firefighter's death or -- if at the time of the firefighter's death the firefighter is survived by a spouse who, in that capacity, is entitled to receive a surviving spouse's monthly pension pursuant to Article 4 of the Illinois Pension Code -- then the death or remarriage of that spouse.

No policy of group accident and health insurance under which firefighters employed by a municipality are insured for their individual benefit shall be issued or delivered in this State to any municipality unless such group policy provides for the election of continued group insurance coverage for the retirement or disability period of each firefighter who is insured under the provisions of the group policy on the day immediately preceding the day on which the retirement or disability period of such firefighter begins. So long as any required premiums for continued group insurance coverage are paid in accordance with the provisions of the group policy, an election made pursuant to this Section shall provide continued group insurance coverage for a firefighter throughout the

retirement or disability period of the firefighter and, unless the firefighter otherwise elects and subject to any other provisions of the group policy which relate either to the provision or to the termination of dependents' coverage and which are not inconsistent with this Section, for any dependents of the firefighter who are insured under the group policy on the day immediately preceding the day on which the retirement or disability period of the firefighter begins; provided, however, that when such continued group insurance coverage is in effect with respect to a firefighter on the date of the firefighter's death but the retirement or disability period of the firefighter does not end with such firefighter's death, then the deceased firefighter's surviving spouse upon whose death or remarriage such retirement or disability period will end shall be entitled, without further election and upon payment of any required premiums in accordance with the provisions of the group policy, to maintain such continued group insurance coverage in effect until the end of such retirement or disability period. Continued group insurance coverage shall be provided in accordance with this Section at the same premium rate from time to time charged for equivalent coverage provided under the group policy with respect to covered firefighters whose retirement or disability period has not begun, and no distinction or discrimination in the amount or rate of premiums or in any waiver of premium or other benefit provision shall be made between continued group

insurance coverage elected pursuant to this Section and equivalent coverage provided to firefighters under the group policy other than pursuant to the provisions of this Section; provided that no municipality shall be required by reason of any provision of this Section to pay any group insurance premium other than one that may be negotiated in a collective bargaining agreement. If a person electing continued coverage under this Section becomes eligible for medicare coverage, benefits under the group policy may continue as a supplement to the medicare coverage upon payment of any required premiums to maintain the benefits of the group policy as supplemental coverage.

Within 15 days of the beginning of the retirement or disability period of any firefighter entitled to elect continued group insurance coverage under any group policy affected by this Section, the municipality last employing such firefighter shall give written notice of such beginning by certified mail, return receipt requested to the insurance company issuing such policy. The notice shall include the firefighter's name and last known place of residence and the beginning date of the firefighter's retirement or disability period.

Within 15 days of the date of receipt of such notice from the municipality, the insurance company by certified mail, return receipt requested, shall give written notice to the firefighter at the firefighter's last known place of residence

that coverage under the group policy may be continued for the retirement or disability period of the firefighter as provided in this Section. Such notice shall set forth: (i) a statement of election to be filed by the firefighter if the firefighter wishes to continue such group insurance coverage, (ii) the amount of monthly premium, including a statement of the portion of such monthly premium attributable to any dependents' coverage which the firefighter may elect, and (iii) instructions as to the return of the election form to the insurance company issuing such policy. Election shall be made, if at all, by returning the statement of election to the insurance company by certified mail, return receipt requested within 15 days after having received it.

If the firefighter elects to continue coverage, it shall be the obligation of the firefighter to pay the monthly premium directly to the municipality, which shall forward it to the insurance company issuing the group insurance policy, or as otherwise directed by the insurance company; provided, however, that the firefighter shall be entitled to designate on the statement of election required to be filed with the insurance company that the total monthly premium, or such portion thereof as is not contributed by a municipality, be deducted by a Firefighter's Pension Fund from any monthly pension payment otherwise payable to or on behalf of the firefighter pursuant to Article 4 of the Illinois Pension Code, and be remitted by such Pension Fund to the insurance

company. The portion, if any, of the monthly premium contributed by a municipality for such continued group insurance coverage shall be paid by the municipality directly to the insurance company issuing the group insurance policy, or as otherwise directed by the insurance company. Such continued group insurance coverage shall relate back to the beginning of the firefighter's retirement or disability period.

The amendment, renewal, or extension of any group insurance policy affected by this Section shall be deemed to be the issuance of a new policy of insurance for purposes of this Section.

In the event that a municipality makes a program of accident, health, hospital, or medical benefits available to its firefighters through self-insurance, or by participation in a pool or reciprocal insurer, or by contract in a form other than a policy of group insurance with one or more medical service plans, health care service corporations, health maintenance organizations, or any other professional corporations or plans under which health care or reimbursement for the costs thereof is provided, whether the cost of such benefits is borne by the municipality or the firefighters or both, such firefighters and their surviving spouses shall have the same right to elect continued coverage under such program of benefits as they would have if such benefits were provided by a policy of group accident and health insurance. In such

cases, the notice of right to elect continued coverage shall be sent by the municipality; the statement of election shall be sent to the municipality; and references to the required premium shall refer to that portion of the cost of such benefits which is not borne by the municipality, either voluntarily or pursuant to the provisions of a collective bargaining agreement. In the case of a municipality providing such benefits through self-insurance or participation in a pool or reciprocal insurer, the right to elect continued coverage which is provided by this paragraph shall be implemented and made available to the firefighters of the municipality and qualifying surviving spouses not later than July 1, 1985.

The amendment, renewal, or extension of any such contract in a form other than a policy of group insurance policy shall be deemed the formation of a new contract for the purposes of this Section.

This Section shall not limit the exercise of any conversion privileges available under Section 367e.

Pursuant to paragraphs (h) and (i) of Section 6 of Article VII of the Illinois Constitution, this Section specifically denies and limits the exercise by a home rule unit of any power which is inconsistent with this Section and all existing laws and ordinances which are inconsistent with this Section are hereby superseded. This Section does not preempt the concurrent exercise by home rule units of powers consistent

herewith.

The ~~Division of Insurance of the~~ Department of Insurance ~~Financial and Professional Regulation~~ shall enforce the provisions of this Section, including provisions relating to municipality self-insured benefit plans.

(215 ILCS 5/370c) (from Ch. 73, par. 982c)

Sec. 370c. Mental and emotional disorders.

(a) (1) On and after January 1, 2022 (the effective date of Public Act 102-579), every insurer that amends, delivers, issues, or renews group accident and health policies providing coverage for hospital or medical treatment or services for illness on an expense-incurred basis shall provide coverage for the medically necessary treatment of mental, emotional, nervous, or substance use disorders or conditions consistent with the parity requirements of Section 370c.1 of this Code.

(2) Each insured that is covered for mental, emotional, nervous, or substance use disorders or conditions shall be free to select the physician licensed to practice medicine in all its branches, licensed clinical psychologist, licensed clinical social worker, licensed clinical professional counselor, licensed marriage and family therapist, licensed speech-language pathologist, or other licensed or certified professional at a program licensed pursuant to the Substance Use Disorder Act of his or her choice to treat such disorders,

and the insurer shall pay the covered charges of such physician licensed to practice medicine in all its branches, licensed clinical psychologist, licensed clinical social worker, licensed clinical professional counselor, licensed marriage and family therapist, licensed speech-language pathologist, or other licensed or certified professional at a program licensed pursuant to the Substance Use Disorder Act up to the limits of coverage, provided (i) the disorder or condition treated is covered by the policy, and (ii) the physician, licensed psychologist, licensed clinical social worker, licensed clinical professional counselor, licensed marriage and family therapist, licensed speech-language pathologist, or other licensed or certified professional at a program licensed pursuant to the Substance Use Disorder Act is authorized to provide said services under the statutes of this State and in accordance with accepted principles of his or her profession.

(3) Insofar as this Section applies solely to licensed clinical social workers, licensed clinical professional counselors, licensed marriage and family therapists, licensed speech-language pathologists, and other licensed or certified professionals at programs licensed pursuant to the Substance Use Disorder Act, those persons who may provide services to individuals shall do so after the licensed clinical social worker, licensed clinical professional counselor, licensed marriage and family therapist, licensed speech-language

pathologist, or other licensed or certified professional at a program licensed pursuant to the Substance Use Disorder Act has informed the patient of the desirability of the patient conferring with the patient's primary care physician.

(4) "Mental, emotional, nervous, or substance use disorder or condition" means a condition or disorder that involves a mental health condition or substance use disorder that falls under any of the diagnostic categories listed in the mental and behavioral disorders chapter of the current edition of the World Health Organization's International Classification of Disease or that is listed in the most recent version of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders. "Mental, emotional, nervous, or substance use disorder or condition" includes any mental health condition that occurs during pregnancy or during the postpartum period and includes, but is not limited to, postpartum depression.

(5) Medically necessary treatment and medical necessity determinations shall be interpreted and made in a manner that is consistent with and pursuant to subsections (h) through (t).

(b)(1) (Blank).

(2) (Blank).

(2.5) (Blank).

(3) Unless otherwise prohibited by federal law and consistent with the parity requirements of Section 370c.1 of

this Code, the reimbursing insurer that amends, delivers, issues, or renews a group or individual policy of accident and health insurance, a qualified health plan offered through the health insurance marketplace, or a provider of treatment of mental, emotional, nervous, or substance use disorders or conditions shall furnish medical records or other necessary data that substantiate that initial or continued treatment is at all times medically necessary. An insurer shall provide a mechanism for the timely review by a provider holding the same license and practicing in the same specialty as the patient's provider, who is unaffiliated with the insurer, jointly selected by the patient (or the patient's next of kin or legal representative if the patient is unable to act for himself or herself), the patient's provider, and the insurer in the event of a dispute between the insurer and patient's provider regarding the medical necessity of a treatment proposed by a patient's provider. If the reviewing provider determines the treatment to be medically necessary, the insurer shall provide reimbursement for the treatment. Future contractual or employment actions by the insurer regarding the patient's provider may not be based on the provider's participation in this procedure. Nothing prevents the insured from agreeing in writing to continue treatment at his or her expense. When making a determination of the medical necessity for a treatment modality for mental, emotional, nervous, or substance use disorders or conditions, an insurer must make

the determination in a manner that is consistent with the manner used to make that determination with respect to other diseases or illnesses covered under the policy, including an appeals process. Medical necessity determinations for substance use disorders shall be made in accordance with appropriate patient placement criteria established by the American Society of Addiction Medicine. No additional criteria may be used to make medical necessity determinations for substance use disorders.

(4) A group health benefit plan amended, delivered, issued, or renewed on or after January 1, 2019 (the effective date of Public Act 100-1024) or an individual policy of accident and health insurance or a qualified health plan offered through the health insurance marketplace amended, delivered, issued, or renewed on or after January 1, 2019 (the effective date of Public Act 100-1024):

(A) shall provide coverage based upon medical necessity for the treatment of a mental, emotional, nervous, or substance use disorder or condition consistent with the parity requirements of Section 370c.1 of this Code; provided, however, that in each calendar year coverage shall not be less than the following:

(i) 45 days of inpatient treatment; and

(ii) beginning on June 26, 2006 (the effective date of Public Act 94-921), 60 visits for outpatient treatment including group and individual outpatient

treatment; and

(iii) for plans or policies delivered, issued for delivery, renewed, or modified after January 1, 2007 (the effective date of Public Act 94-906), 20 additional outpatient visits for speech therapy for treatment of pervasive developmental disorders that will be in addition to speech therapy provided pursuant to item (ii) of this subparagraph (A); and

(B) may not include a lifetime limit on the number of days of inpatient treatment or the number of outpatient visits covered under the plan.

(C) (Blank).

(5) An issuer of a group health benefit plan or an individual policy of accident and health insurance or a qualified health plan offered through the health insurance marketplace may not count toward the number of outpatient visits required to be covered under this Section an outpatient visit for the purpose of medication management and shall cover the outpatient visits under the same terms and conditions as it covers outpatient visits for the treatment of physical illness.

(5.5) An individual or group health benefit plan amended, delivered, issued, or renewed on or after September 9, 2015 (the effective date of Public Act 99-480) shall offer coverage for medically necessary acute treatment services and medically necessary clinical stabilization services. The treating

provider shall base all treatment recommendations and the health benefit plan shall base all medical necessity determinations for substance use disorders in accordance with the most current edition of the Treatment Criteria for Addictive, Substance-Related, and Co-Occurring Conditions established by the American Society of Addiction Medicine. The treating provider shall base all treatment recommendations and the health benefit plan shall base all medical necessity determinations for medication-assisted treatment in accordance with the most current Treatment Criteria for Addictive, Substance-Related, and Co-Occurring Conditions established by the American Society of Addiction Medicine.

As used in this subsection:

"Acute treatment services" means 24-hour medically supervised addiction treatment that provides evaluation and withdrawal management and may include biopsychosocial assessment, individual and group counseling, psychoeducational groups, and discharge planning.

"Clinical stabilization services" means 24-hour treatment, usually following acute treatment services for substance abuse, which may include intensive education and counseling regarding the nature of addiction and its consequences, relapse prevention, outreach to families and significant others, and aftercare planning for individuals beginning to engage in recovery from addiction.

(6) An issuer of a group health benefit plan may provide or

offer coverage required under this Section through a managed care plan.

(6.5) An individual or group health benefit plan amended, delivered, issued, or renewed on or after January 1, 2019 (the effective date of Public Act 100-1024):

(A) shall not impose prior authorization requirements, including limitations on dosage, other than those established under the Treatment Criteria for Addictive, Substance-Related, and Co-Occurring Conditions established by the American Society of Addiction Medicine, on a prescription medication approved by the United States Food and Drug Administration that is prescribed or administered for the treatment of substance use disorders;

(B) shall not impose any step therapy requirements;

(C) shall place all prescription medications approved by the United States Food and Drug Administration prescribed or administered for the treatment of substance use disorders on, for brand medications, the lowest tier of the drug formulary developed and maintained by the individual or group health benefit plan that covers brand medications and, for generic medications, the lowest tier of the drug formulary developed and maintained by the individual or group health benefit plan that covers generic medications; and

(D) shall not exclude coverage for a prescription medication approved by the United States Food and Drug

Administration for the treatment of substance use disorders and any associated counseling or wraparound services on the grounds that such medications and services were court ordered.

(7) (Blank).

(8) (Blank).

(9) With respect to all mental, emotional, nervous, or substance use disorders or conditions, coverage for inpatient treatment shall include coverage for treatment in a residential treatment center certified or licensed by the Department of Public Health or the Department of Human Services.

(c) This Section shall not be interpreted to require coverage for speech therapy or other habilitative services for those individuals covered under Section 356z.15 of this Code.

(d) With respect to a group or individual policy of accident and health insurance or a qualified health plan offered through the health insurance marketplace, the Department and, with respect to medical assistance, the Department of Healthcare and Family Services shall each enforce the requirements of this Section and Sections 356z.23 and 370c.1 of this Code, the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008, 42 U.S.C. 18031(j), and any amendments to, and federal guidance or regulations issued under, those Acts, including, but not limited to, final regulations issued under the Paul Wellstone

and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 and final regulations applying the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 to Medicaid managed care organizations, the Children's Health Insurance Program, and alternative benefit plans. Specifically, the Department and the Department of Healthcare and Family Services shall take action:

(1) proactively ensuring compliance by individual and group policies, including by requiring that insurers submit comparative analyses, as set forth in paragraph (6) of subsection (k) of Section 370c.1, demonstrating how they design and apply nonquantitative treatment limitations, both as written and in operation, for mental, emotional, nervous, or substance use disorder or condition benefits as compared to how they design and apply nonquantitative treatment limitations, as written and in operation, for medical and surgical benefits;

(2) evaluating all consumer or provider complaints regarding mental, emotional, nervous, or substance use disorder or condition coverage for possible parity violations;

(3) performing parity compliance market conduct examinations or, in the case of the Department of Healthcare and Family Services, parity compliance audits of individual and group plans and policies, including, but not limited to, reviews of:

(A) nonquantitative treatment limitations, including, but not limited to, prior authorization requirements, concurrent review, retrospective review, step therapy, network admission standards, reimbursement rates, and geographic restrictions;

(B) denials of authorization, payment, and coverage; and

(C) other specific criteria as may be determined by the Department.

The findings and the conclusions of the parity compliance market conduct examinations and audits shall be made public.

The Director may adopt rules to effectuate any provisions of the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 that relate to the business of insurance.

(e) Availability of plan information.

(1) The criteria for medical necessity determinations made under a group health plan, an individual policy of accident and health insurance, or a qualified health plan offered through the health insurance marketplace with respect to mental health or substance use disorder benefits (or health insurance coverage offered in connection with the plan with respect to such benefits) must be made available by the plan administrator (or the health insurance issuer offering such coverage) to any current or potential participant, beneficiary, or

contracting provider upon request.

(2) The reason for any denial under a group health benefit plan, an individual policy of accident and health insurance, or a qualified health plan offered through the health insurance marketplace (or health insurance coverage offered in connection with such plan or policy) of reimbursement or payment for services with respect to mental, emotional, nervous, or substance use disorders or conditions benefits in the case of any participant or beneficiary must be made available within a reasonable time and in a reasonable manner and in readily understandable language by the plan administrator (or the health insurance issuer offering such coverage) to the participant or beneficiary upon request.

(f) As used in this Section, "group policy of accident and health insurance" and "group health benefit plan" includes (1) State-regulated employer-sponsored group health insurance plans written in Illinois or which purport to provide coverage for a resident of this State; and (2) State employee health plans.

(g) (1) As used in this subsection:

"Benefits", with respect to insurers, means the benefits provided for treatment services for inpatient and outpatient treatment of substance use disorders or conditions at American Society of Addiction Medicine levels of treatment 2.1 (Intensive Outpatient), 2.5 (Partial Hospitalization), 3.1

(Clinically Managed Low-Intensity Residential), 3.3 (Clinically Managed Population-Specific High-Intensity Residential), 3.5 (Clinically Managed High-Intensity Residential), and 3.7 (Medically Monitored Intensive Inpatient) and OMT (Opioid Maintenance Therapy) services.

"Benefits", with respect to managed care organizations, means the benefits provided for treatment services for inpatient and outpatient treatment of substance use disorders or conditions at American Society of Addiction Medicine levels of treatment 2.1 (Intensive Outpatient), 2.5 (Partial Hospitalization), 3.5 (Clinically Managed High-Intensity Residential), and 3.7 (Medically Monitored Intensive Inpatient) and OMT (Opioid Maintenance Therapy) services.

"Substance use disorder treatment provider or facility" means a licensed physician, licensed psychologist, licensed psychiatrist, licensed advanced practice registered nurse, or licensed, certified, or otherwise State-approved facility or provider of substance use disorder treatment.

(2) A group health insurance policy, an individual health benefit plan, or qualified health plan that is offered through the health insurance marketplace, small employer group health plan, and large employer group health plan that is amended, delivered, issued, executed, or renewed in this State, or approved for issuance or renewal in this State, on or after January 1, 2019 (the effective date of Public Act 100-1023) shall comply with the requirements of this Section and Section

370c.1. The services for the treatment and the ongoing assessment of the patient's progress in treatment shall follow the requirements of 77 Ill. Adm. Code 2060.

(3) Prior authorization shall not be utilized for the benefits under this subsection. The substance use disorder treatment provider or facility shall notify the insurer of the initiation of treatment. For an insurer that is not a managed care organization, the substance use disorder treatment provider or facility notification shall occur for the initiation of treatment of the covered person within 2 business days. For managed care organizations, the substance use disorder treatment provider or facility notification shall occur in accordance with the protocol set forth in the provider agreement for initiation of treatment within 24 hours. If the managed care organization is not capable of accepting the notification in accordance with the contractual protocol during the 24-hour period following admission, the substance use disorder treatment provider or facility shall have one additional business day to provide the notification to the appropriate managed care organization. Treatment plans shall be developed in accordance with the requirements and timeframes established in 77 Ill. Adm. Code 2060. If the substance use disorder treatment provider or facility fails to notify the insurer of the initiation of treatment in accordance with these provisions, the insurer may follow its normal prior authorization processes.

(4) For an insurer that is not a managed care organization, if an insurer determines that benefits are no longer medically necessary, the insurer shall notify the covered person, the covered person's authorized representative, if any, and the covered person's health care provider in writing of the covered person's right to request an external review pursuant to the Health Carrier External Review Act. The notification shall occur within 24 hours following the adverse determination.

Pursuant to the requirements of the Health Carrier External Review Act, the covered person or the covered person's authorized representative may request an expedited external review. An expedited external review may not occur if the substance use disorder treatment provider or facility determines that continued treatment is no longer medically necessary.

If an expedited external review request meets the criteria of the Health Carrier External Review Act, an independent review organization shall make a final determination of medical necessity within 72 hours. If an independent review organization upholds an adverse determination, an insurer shall remain responsible to provide coverage of benefits through the day following the determination of the independent review organization. A decision to reverse an adverse determination shall comply with the Health Carrier External Review Act.

(5) The substance use disorder treatment provider or facility shall provide the insurer with 7 business days' advance notice of the planned discharge of the patient from the substance use disorder treatment provider or facility and notice on the day that the patient is discharged from the substance use disorder treatment provider or facility.

(6) The benefits required by this subsection shall be provided to all covered persons with a diagnosis of substance use disorder or conditions. The presence of additional related or unrelated diagnoses shall not be a basis to reduce or deny the benefits required by this subsection.

(7) Nothing in this subsection shall be construed to require an insurer to provide coverage for any of the benefits in this subsection.

(h) As used in this Section:

"Generally accepted standards of mental, emotional, nervous, or substance use disorder or condition care" means standards of care and clinical practice that are generally recognized by health care providers practicing in relevant clinical specialties such as psychiatry, psychology, clinical sociology, social work, addiction medicine and counseling, and behavioral health treatment. Valid, evidence-based sources reflecting generally accepted standards of mental, emotional, nervous, or substance use disorder or condition care include peer-reviewed scientific studies and medical literature, recommendations of nonprofit health care provider professional

associations and specialty societies, including, but not limited to, patient placement criteria and clinical practice guidelines, recommendations of federal government agencies, and drug labeling approved by the United States Food and Drug Administration.

"Medically necessary treatment of mental, emotional, nervous, or substance use disorders or conditions" means a service or product addressing the specific needs of that patient, for the purpose of screening, preventing, diagnosing, managing, or treating an illness, injury, or condition or its symptoms and comorbidities, including minimizing the progression of an illness, injury, or condition or its symptoms and comorbidities in a manner that is all of the following:

- (1) in accordance with the generally accepted standards of mental, emotional, nervous, or substance use disorder or condition care;

- (2) clinically appropriate in terms of type, frequency, extent, site, and duration; and

- (3) not primarily for the economic benefit of the insurer, purchaser, or for the convenience of the patient, treating physician, or other health care provider.

"Utilization review" means either of the following:

- (1) prospectively, retrospectively, or concurrently reviewing and approving, modifying, delaying, or denying, based in whole or in part on medical necessity, requests

by health care providers, insureds, or their authorized representatives for coverage of health care services before, retrospectively, or concurrently with the provision of health care services to insureds.

(2) evaluating the medical necessity, appropriateness, level of care, service intensity, efficacy, or efficiency of health care services, benefits, procedures, or settings, under any circumstances, to determine whether a health care service or benefit subject to a medical necessity coverage requirement in an insurance policy is covered as medically necessary for an insured.

"Utilization review criteria" means patient placement criteria or any criteria, standards, protocols, or guidelines used by an insurer to conduct utilization review.

(i)(1) Every insurer that amends, delivers, issues, or renews a group or individual policy of accident and health insurance or a qualified health plan offered through the health insurance marketplace in this State and Medicaid managed care organizations providing coverage for hospital or medical treatment on or after January 1, 2023 shall, pursuant to subsections (h) through (s), provide coverage for medically necessary treatment of mental, emotional, nervous, or substance use disorders or conditions.

(2) An insurer shall not set a specific limit on the duration of benefits or coverage of medically necessary treatment of mental, emotional, nervous, or substance use

disorders or conditions or limit coverage only to alleviation of the insured's current symptoms.

(3) All utilization review conducted by the insurer concerning diagnosis, prevention, and treatment of insureds diagnosed with mental, emotional, nervous, or substance use disorders or conditions shall be conducted in accordance with the requirements of subsections (k) through (w).

(4) An insurer that authorizes a specific type of treatment by a provider pursuant to this Section shall not rescind or modify the authorization after that provider renders the health care service in good faith and pursuant to this authorization for any reason, including, but not limited to, the insurer's subsequent cancellation or modification of the insured's or policyholder's contract, or the insured's or policyholder's eligibility. Nothing in this Section shall require the insurer to cover a treatment when the authorization was granted based on a material misrepresentation by the insured, the policyholder, or the provider. Nothing in this Section shall require Medicaid managed care organizations to pay for services if the individual was not eligible for Medicaid at the time the service was rendered. Nothing in this Section shall require an insurer to pay for services if the individual was not the insurer's enrollee at the time services were rendered. As used in this paragraph, "material" means a fact or situation that is not merely technical in nature and results in or could

result in a substantial change in the situation.

(j) An insurer shall not limit benefits or coverage for medically necessary services on the basis that those services should be or could be covered by a public entitlement program, including, but not limited to, special education or an individualized education program, Medicaid, Medicare, Supplemental Security Income, or Social Security Disability Insurance, and shall not include or enforce a contract term that excludes otherwise covered benefits on the basis that those services should be or could be covered by a public entitlement program. Nothing in this subsection shall be construed to require an insurer to cover benefits that have been authorized and provided for a covered person by a public entitlement program. Medicaid managed care organizations are not subject to this subsection.

(k) An insurer shall base any medical necessity determination or the utilization review criteria that the insurer, and any entity acting on the insurer's behalf, applies to determine the medical necessity of health care services and benefits for the diagnosis, prevention, and treatment of mental, emotional, nervous, or substance use disorders or conditions on current generally accepted standards of mental, emotional, nervous, or substance use disorder or condition care. All denials and appeals shall be reviewed by a professional with experience or expertise comparable to the provider requesting the authorization.

(1) In conducting utilization review of all covered health care services for the diagnosis, prevention, and treatment of mental, emotional, and nervous disorders or conditions, an insurer shall apply the criteria and guidelines set forth in the most recent version of the treatment criteria developed by an unaffiliated nonprofit professional association for the relevant clinical specialty or, for Medicaid managed care organizations, criteria and guidelines determined by the Department of Healthcare and Family Services that are consistent with generally accepted standards of mental, emotional, nervous or substance use disorder or condition care. Pursuant to subsection (b), in conducting utilization review of all covered services and benefits for the diagnosis, prevention, and treatment of substance use disorders an insurer shall use the most recent edition of the patient placement criteria established by the American Society of Addiction Medicine.

(m) In conducting utilization review relating to level of care placement, continued stay, transfer, discharge, or any other patient care decisions that are within the scope of the sources specified in subsection (1), an insurer shall not apply different, additional, conflicting, or more restrictive utilization review criteria than the criteria set forth in those sources. For all level of care placement decisions, the insurer shall authorize placement at the level of care consistent with the assessment of the insured using the

relevant patient placement criteria as specified in subsection (l). If that level of placement is not available, the insurer shall authorize the next higher level of care. In the event of disagreement, the insurer shall provide full detail of its assessment using the relevant criteria as specified in subsection (l) to the provider of the service and the patient.

If an insurer purchases or licenses utilization review criteria pursuant to this subsection, the insurer shall verify and document before use that the criteria were developed in accordance with subsection (k).

(n) In conducting utilization review that is outside the scope of the criteria as specified in subsection (l) or relates to the advancements in technology or in the types or levels of care that are not addressed in the most recent versions of the sources specified in subsection (l), an insurer shall conduct utilization review in accordance with subsection (k).

(o) This Section does not in any way limit the rights of a patient under the Medical Patient Rights Act.

(p) This Section does not in any way limit early and periodic screening, diagnostic, and treatment benefits as defined under 42 U.S.C. 1396d(r).

(q) To ensure the proper use of the criteria described in subsection (l), every insurer shall do all of the following:

(1) Educate the insurer's staff, including any third parties contracted with the insurer to review claims,

conduct utilization reviews, or make medical necessity determinations about the utilization review criteria.

(2) Make the educational program available to other stakeholders, including the insurer's participating or contracted providers and potential participants, beneficiaries, or covered lives. The education program must be provided at least once a year, in-person or digitally, or recordings of the education program must be made available to the aforementioned stakeholders.

(3) Provide, at no cost, the utilization review criteria and any training material or resources to providers and insured patients upon request. For utilization review criteria not concerning level of care placement, continued stay, transfer, discharge, or other patient care decisions used by the insurer pursuant to subsection (m), the insurer may place the criteria on a secure, password-protected website so long as the access requirements of the website do not unreasonably restrict access to insureds or their providers. No restrictions shall be placed upon the insured's or treating provider's access right to utilization review criteria obtained under this paragraph at any point in time, including before an initial request for authorization.

(4) Track, identify, and analyze how the utilization review criteria are used to certify care, deny care, and support the appeals process.

(5) Conduct interrater reliability testing to ensure consistency in utilization review decision making that covers how medical necessity decisions are made; this assessment shall cover all aspects of utilization review as defined in subsection (h).

(6) Run interrater reliability reports about how the clinical guidelines are used in conjunction with the utilization review process and parity compliance activities.

(7) Achieve interrater reliability pass rates of at least 90% and, if this threshold is not met, immediately provide for the remediation of poor interrater reliability and interrater reliability testing for all new staff before they can conduct utilization review without supervision.

(8) Maintain documentation of interrater reliability testing and the remediation actions taken for those with pass rates lower than 90% and submit to the Department of Insurance or, in the case of Medicaid managed care organizations, the Department of Healthcare and Family Services the testing results and a summary of remedial actions as part of parity compliance reporting set forth in subsection (k) of Section 370c.1.

(r) This Section applies to all health care services and benefits for the diagnosis, prevention, and treatment of mental, emotional, nervous, or substance use disorders or

conditions covered by an insurance policy, including prescription drugs.

(s) This Section applies to an insurer that amends, delivers, issues, or renews a group or individual policy of accident and health insurance or a qualified health plan offered through the health insurance marketplace in this State providing coverage for hospital or medical treatment and conducts utilization review as defined in this Section, including Medicaid managed care organizations, and any entity or contracting provider that performs utilization review or utilization management functions on an insurer's behalf.

(t) If the Director determines that an insurer has violated this Section, the Director may, after appropriate notice and opportunity for hearing, by order, assess a civil penalty between \$1,000 and \$5,000 for each violation. Moneys collected from penalties shall be deposited into the Parity Advancement Fund established in subsection (i) of Section 370c.1.

(u) An insurer shall not adopt, impose, or enforce terms in its policies or provider agreements, in writing or in operation, that undermine, alter, or conflict with the requirements of this Section.

(v) The provisions of this Section are severable. If any provision of this Section or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid

provision or application.

(w) Beginning January 1, 2026, coverage for inpatient mental health treatment at participating hospitals shall comply with the following requirements:

(1) Subject to paragraphs (2) and (3) of this subsection, no policy shall require prior authorization for admission for such treatment at any participating hospital.

(2) Coverage provided under this subsection also shall not be subject to concurrent review for the first 72 hours, provided that the hospital must notify the insurer of both the admission and the initial treatment plan within 48 hours of admission. A discharge plan must be fully developed and continuity services prepared to meet the patient's needs and the patient's community preference upon release. Nothing in this paragraph supersedes a health maintenance organization's referral requirement for services from nonparticipating providers upon a patient's discharge from a hospital.

(3) Treatment provided under this subsection may be reviewed retrospectively. If coverage is denied retrospectively, neither the insurer nor the participating hospital shall bill, and the insured shall not be liable, for any treatment under this subsection through the date the adverse determination is issued, other than any copayment, coinsurance, or deductible for the stay through

that date as applicable under the policy. Coverage shall not be retrospectively denied for the first 72 hours of treatment at a participating hospital except:

(A) upon reasonable determination that the inpatient mental health treatment was not provided;

(B) upon determination that the patient receiving the treatment was not an insured, enrollee, or beneficiary under the policy;

(C) upon material misrepresentation by the patient or health care provider. In this item (C), "material" means a fact or situation that is not merely technical in nature and results or could result in a substantial change in the situation; or

(D) upon determination that a service was excluded under the terms of coverage. In that case, the limitation to billing for a copayment, coinsurance, or deductible shall not apply.

(4) Nothing in this subsection shall be construed to require a policy to cover any health care service excluded under the terms of coverage.

(x) Notwithstanding any provision of this Section, nothing shall require the medical assistance program under Article V of the Illinois Public Aid Code to violate any applicable federal laws, regulations, or grant requirements or any State or federal consent decrees. Nothing in subsection (w) shall prevent the Department of Healthcare and Family Services from

requiring a health care provider to use specified level of care, admission, continued stay, or discharge criteria, including, but not limited to, those under Section 5-5.23 of the Illinois Public Aid Code, as long as the Department of Healthcare and Family Services does not require a health care provider to seek prior authorization or concurrent review from the Department of Healthcare and Family Services, a Medicaid managed care organization, or a utilization review organization under the circumstances expressly prohibited by subsection (w). Nothing in this Section prohibits a health plan, including a Medicaid managed care organization, from conducting reviews for fraud, waste, or abuse and reporting suspected fraud, waste, or abuse according to State and federal requirements.

(y) Children's Mental Health. Nothing in this Section shall suspend the screening and assessment requirements for mental health services for children participating in the State's medical assistance program as required in Section 5-5.23 of the Illinois Public Aid Code.

(3)(a) The expenses incurred in any performance examination authorized by law shall be paid by the company or person being examined. The charge shall be consistent with that otherwise authorized by law and shall be reasonably related to the cost of the examination, including, but not limited to, compensation of examiners, electronic data processing costs, supervision and preparation of an examination report, and lodging and travel expenses. Sec. 416. Illinois Workers' Compensation Commission Operations Fund Surcharge.

(a) As of July 30, 2004 (the effective date of Public Act 93-840), every company licensed or authorized by the Illinois Department of Insurance and insuring employers' liabilities arising under the Workers' Compensation Act or the Workers' Occupational Diseases Act shall remit to the Director a surcharge based upon the annual direct written premium, as reported under Section 136 of this Act, of the company in the manner provided in this Section. Such proceeds shall be deposited into the Illinois Workers' Compensation Commission Operations Fund as established in the Workers' Compensation Act. If a company survives or was formed by a merger, consolidation, reorganization, or reincorporation, the direct written premiums of all companies party to the merger, consolidation, reorganization, or reincorporation shall, for

purposes of determining the amount of the fee imposed by this Section, be regarded as those of the surviving or new company.

(b) Beginning on July 30, 2004 (the effective date of Public Act 93-840) and on July 1 of each year thereafter through 2023, the Director shall charge an annual Illinois Workers' Compensation Commission Operations Fund Surcharge from every company subject to subsection (a) of this Section equal to 1.01% of its direct written premium for insuring employers' liabilities arising under the Workers' Compensation Act or Workers' Occupational Diseases Act as reported in each company's annual statement filed for the previous year as required by Section 136. Within 15 days after June 5, 2024 (the effective date of Public Act 103-590) ~~this amendatory Act of the 103rd General Assembly~~ and on July 1 of each year thereafter, the Director shall charge an annual Illinois Workers' Compensation Commission Operations Fund Surcharge from every company subject to subsection (a) of this Section equal to 1.092% of its direct written premium for insuring employers' liabilities arising under the Workers' Compensation Act or Workers' Occupational Diseases Act as reported in each company's annual statement filed for the previous year as required by Section 136. The Illinois Workers' Compensation Commission Operations Fund Surcharge shall be collected by companies subject to subsection (a) of this Section as a separately stated surcharge on insured employers at the rate of 1.092% of direct written premium for the surcharge due in

2024 and each year thereafter. The Illinois Workers' Compensation Commission Operations Fund Surcharge shall not be collected by companies subject to subsection (a) of this Section from any employer that self-insures its liabilities arising under the Workers' Compensation Act or Workers' Occupational Diseases Act, provided that the employer has paid the Illinois Workers' Compensation Commission Operations Fund Fee pursuant to Section 4d of the Workers' Compensation Act. All sums collected by the Department of Insurance under the provisions of this Section shall be paid promptly after the receipt of the same, accompanied by a detailed statement thereof, into the Illinois Workers' Compensation Commission Operations Fund in the State treasury.

~~(b) (2) (Blank).~~

(c) In addition to the authority specifically granted under Article XXV of this Code, the Director shall have such authority to adopt rules or establish forms as may be reasonably necessary for purposes of enforcing this Section. The Director shall also have authority to defer, waive, or abate the surcharge or any penalties imposed by this Section if in the Director's opinion the company's solvency and ability to meet its insured obligations would be immediately threatened by payment of the surcharge due.

(d) When a company fails to pay the full amount of any annual Illinois Workers' Compensation Commission Operations Fund Surcharge of \$100 or more due under this Section, there

shall be added to the amount due as a penalty an amount equal to 10% of the deficiency for each month or part of a month that the deficiency remains unpaid.

(e) The Department of Insurance may enforce the collection of any delinquent payment, penalty, or portion thereof by legal action or in any other manner by which the collection of debts due the State of Illinois may be enforced under the laws of this State.

(f) Whenever it appears to the satisfaction of the Director that a company has paid pursuant to this Act an Illinois Workers' Compensation Commission Operations Fund Surcharge in an amount in excess of the amount legally collectable from the company, the Director shall issue a credit memorandum for an amount equal to the amount of such overpayment. A credit memorandum may be applied for the 2-year period from the date of issuance, against the payment of any amount due during that period under the surcharge imposed by this Section or, subject to reasonable rule of the Department of Insurance including requirement of notification, may be assigned to any other company subject to regulation under this Act. Any application of credit memoranda after the period provided for in this Section is void.

(g) Annually, the Governor may direct a transfer of up to 2% of all moneys collected under this Section to the Insurance Financial Regulation Fund.

(Section scheduled to be repealed on January 1, 2027)

Sec. 500-35. License.

(a) Unless denied a license pursuant to Section 500-70, persons who have met the requirements of Sections 500-25 and 500-30 shall be issued a 2-year insurance producer license. An insurance producer may receive qualification for a license in one or more of the following lines of authority:

(1) Life: insurance coverage on human lives including benefits of endowment and annuities, and may include benefits in the event of death or dismemberment by accident and benefits for disability income.

(2) Variable life and variable annuity products: insurance coverage provided under variable life insurance contracts and variable annuities.

(3) Accident and health or sickness: insurance coverage for sickness, bodily injury, or accidental death and may include benefits for disability income.

(4) Property: insurance coverage for the direct or consequential loss or damage to property of every kind.

(5) Casualty: insurance coverage against legal liability, including that for death, injury, or disability or damage to real or personal property.

(6) Personal lines: property and casualty insurance

coverage sold to individuals and families for primarily noncommercial purposes.

(7) Any other line of insurance permitted under State laws or rules.

(b) An insurance producer license shall remain in effect unless revoked or suspended as long as the fee set forth in Section 500-135 is paid and education requirements for resident individual producers are met by the due date.

(1) Before each license renewal, an insurance producer must satisfactorily complete at least 24 hours of course study or participation in a professional insurance association under paragraph (3) of this subsection in accordance with rules prescribed by the Director. Three of the 24 hours of course study must consist of classroom or webinar ethics instruction. The Director may not approve a course of study unless the course provides for classroom, seminar, webinar, or self-study instruction methods. A course given in a combination instruction method of classroom, seminar, webinar, or self-study shall be deemed to be a self-study course unless the number of classroom, seminar, or webinar certified hours meets or exceeds two-thirds of total hours certified for the course. The self-study material used in the combination course must be directly related to and complement the classroom portion of the course in order to be considered for credit. An instruction method other than classroom or seminar shall

be considered as self-study methodology. Self-study credit hours require the successful completion of an examination covering the self-study material. The examination may not be self-evaluated. However, if the self-study material is completed through the use of an approved computerized interactive format whereby the computer validates the successful completion of the self-study material, no additional examination is required. The self-study credit hours contained in a certified course shall be considered classroom hours when at least two-thirds of the hours are given as classroom or seminar instruction.

(2) An insurance producer license automatically terminates when an insurance producer fails to successfully meet the requirements of paragraph item (1) of this subsection ~~(b) of this Section~~. The producer must complete the course in advance of the renewal date to allow the education provider time to report the credit to the Department.

(3) An insurance producer's active participation in a State or national professional insurance association may be approved by the Director for up to 4 hours of continuing education credit per biennial reporting period. Credit shall be provided on an hour-for-hour basis. These hours shall be verified and submitted by the association on behalf of the insurance producer and credited upon timely filing with the Director or his or her designee on a

biennial basis. Any association submitting continuing education credit hours on behalf of insurance producers must be registered as an education provider under Section 500-135. Credit granted under these provisions shall not be used to satisfy ethics education requirements. Active participation in a State or national professional insurance association is defined by one of the following methods:

(A) service on a board of directors of a State or national chapter of the association;

(B) service on a formal committee of a State or national chapter of the association; or

(C) service on a formal subcommittee or task force of a State or national chapter of the association.

(c) A provider of a pre-licensing or continuing education course required by Section 500-30 and this Section must pay a registration fee and a course certification fee for each course being certified as provided by Section 500-135.

(d) An individual insurance producer who allows his or her license to lapse may, within 12 months after the due date of the renewal fee, be issued a license without the necessity of passing a written examination. However, a penalty in the amount of double the unpaid renewal fee shall be required after the due date.

(e) A licensed insurance producer who is unable to comply with license renewal procedures due to military service may

request a waiver of those procedures.

(f) The license must contain the licensee's name, address, and personal identification number, the date of issuance, the lines of authority, the expiration date, and any other information the Director deems necessary.

(g) Licensees must inform the Director by any means acceptable to the Director of a change of address within 30 days after the change.

(h) In order to assist in the performance of the Director's duties, the Director may contract with a non-governmental entity including the National Association of Insurance Commissioners (NAIC), or any affiliates or subsidiaries that the NAIC oversees, to perform any ministerial functions, including collection of fees, related to producer licensing that the Director and the non-governmental entity may deem appropriate.

Sec. 511.109. Examination. ~~(a)~~ The Director or the Director's designee may examine any applicant for or holder of an administrator's license in accordance with Sections 132 through 132.7. If the Director or the examiners find that the administrator has violated this Article or any other insurance-related laws, rules, or regulations under the

Director's jurisdiction because of the manner in which the administrator has conducted business on behalf of an insurer or plan sponsor, then, unless the insurer or plan sponsor is included in the examination and has been afforded the same opportunity to request or participate in a hearing on the examination report, the examination report shall not allege a violation by the insurer or plan sponsor and the Director's order based on the report shall not impose any requirements, prohibitions, or penalties on the insurer or plan sponsor. Nothing in this Section shall prevent the Director from using any information obtained during the examination of an administrator to examine, investigate, or take other appropriate regulatory or legal action with respect to an insurer or plan sponsor.

Section 775. The Managed Care Reform and Patient Rights Act is amended by changing Section 10 as follows:

(215 ILCS 134/10)

Sec. 10. Definitions. In this Act:

For a health care plan under Section 45 or for a utilization review program under Section 85, "adverse determination" has the meaning given to that term in Section 10 of the Health Carrier External Review Act.

"Clinical peer" means a health care professional who is in

the same profession and the same or similar specialty as the health care provider who typically manages the medical condition, procedures, or treatment under review.

"Department" means the Department of Insurance.

"Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, regardless of the final diagnosis given, such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:

(1) placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;

(2) serious impairment to bodily functions;

(3) serious dysfunction of any bodily organ or part;

(4) inadequately controlled pain; or

(5) with respect to a pregnant woman who is having contractions:

(A) inadequate time to complete a safe transfer to another hospital before delivery; or

(B) a transfer to another hospital may pose a threat to the health or safety of the woman or unborn child.

"Emergency medical screening examination" means a medical screening examination and evaluation by a physician licensed to practice medicine in all its branches, or to the extent

permitted by applicable laws, by other appropriately licensed personnel under the supervision of or in collaboration with a physician licensed to practice medicine in all its branches to determine whether the need for emergency services exists.

"Emergency services" means, with respect to an enrollee of a health care plan, transportation services, including but not limited to ambulance services, and covered inpatient and outpatient hospital services furnished by a provider qualified to furnish those services that are needed to evaluate or stabilize an emergency medical condition. "Emergency services" does not refer to post-stabilization medical services.

"Enrollee" means any person and his or her dependents enrolled in or covered by a health care plan.

"Generally accepted standards of care" means standards of care and clinical practice that are generally recognized by health care providers practicing in relevant clinical specialties for the illness, injury, or condition or its symptoms and comorbidities. Valid, evidence-based sources reflecting generally accepted standards of care include peer-reviewed scientific studies and medical literature, recommendations of nonprofit health care provider professional associations and specialty societies, including, but not limited to, patient placement criteria and clinical practice guidelines, recommendations of federal government agencies, and drug labeling approved by the United States Food and Drug Administration.

Section 800. The Prior Authorization Reform Act is amended by changing Section 77 as follows:

(215 ILCS 200/77)

(This Section may contain text from a Public Act with a delayed effective date)

Sec. 77. Prior authorization for drug therapies for hereditary bleeding disorders. Notwithstanding any other provision of law, a health insurance issuer or a contracted utilization review organization may not require a prior authorization for drug therapies approved by the U.S. Food and Drug Administration for the treatment of hereditary bleeding disorders ~~any~~ more frequently than every 6 months or the length of time the prescription for that dosage remains valid, whichever period is shorter.

Section 805. The Public Utilities Act is amended by changing Section 16-108.18 as follows:

(220 ILCS 5/16-108.18)

Sec. 16-108.18. Performance-based ratemaking.

(a) The General Assembly finds:

(1) That improving the alignment of utility customer and company interests is critical to ensuring equity, rapid growth of distributed energy resources, electric

vehicles, and other new technologies that substantially change the makeup of the grid and protect Illinois residents and businesses from potential economic and environmental harm from the State's energy systems.

(2) There is urgency around addressing increasing threats from climate change and assisting communities that have borne disproportionate impacts from climate change, including air pollution, greenhouse gas emissions, and energy burdens. Addressing this problem requires changes to the business model under which utilities in Illinois have traditionally functioned.

(3) Providing targeted incentives to support change through a new performance-based structure to enhance ratemaking is intended to enable alignment of utility, customer, community, and environmental goals.

(4) Though Illinois has taken some measures to move utilities to performance-based ratemaking through the establishment of performance incentives and a performance-based formula rate under the Energy Infrastructure Modernization Act, these measures have not been sufficiently transformative in urgently moving electric utilities toward the State's ambitious energy policy goals: protecting a healthy environment and climate, improving public health, and creating quality jobs and economic opportunities, including wealth building, especially in economically disadvantaged

communities and communities of color.

(5) These measures were not developed through a process to understand first what performance measures and penalties would help drive the sought-after behavior by the utilities.

(6) While the General Assembly has not made a finding that the spending related to the Energy Infrastructure and Modernization Act and its performance metrics was not reasonable, it is important to address concerns that these measures may have resulted in excess utility spending and guaranteed profits without meaningful improvements in customer experience, rate affordability, or equity.

(7) Discussions of performance incentive mechanisms must always take into account the affordability of customer rates and bills for all customers, including low-income customers.

(8) The General Assembly therefore directs the Illinois Commerce Commission to complete a transition that includes a comprehensive performance-based regulation framework for electric utilities serving more than 500,000 customers. The breadth of this framework should revise existing utility regulations to position Illinois electric utilities to effectively and efficiently achieve current and anticipated future energy needs of this State, while ensuring affordability for consumers.

(b) As used in this Section:

"Commission" means the Illinois Commerce Commission.

"Demand response" means measures that decrease peak electricity demand or shift demand from peak to off-peak periods.

"Distributed energy resources" or "DER" means a wide range of technologies that are connected to the grid including those that are located on the customer side of the customer's electric meter and can provide value to the distribution system, including, but not limited to, distributed generation, energy storage, electric vehicles, and demand response technologies.

"Economically disadvantaged communities" means areas of one or more census tracts where average household income does not exceed 80% of area median income.

"Environmental justice communities" means the definition of that term as used and as may be updated in the long-term renewable resources procurement plan by the Illinois Power Agency and its Program Administrator in the Illinois Solar for All Program.

"Equity investment eligible community" means the geographic areas throughout Illinois which would most benefit from equitable investments by the State designed to combat discrimination. Specifically, the equity investment eligible communities shall be defined as the following areas:

- (1) R3 Areas as established pursuant to Section 10-40 of the Cannabis Regulation and Tax Act, where residents

have historically been excluded from economic opportunities, including opportunities in the energy sector; and

(2) Environmental justice communities, as defined by the Illinois Power Agency pursuant to the Illinois Power Agency Act, where residents have historically been subject to disproportionate burdens of pollution, including pollution from the energy sector.

"Performance incentive mechanism" means an instrument by which utility performance is incentivized, which could include a monetary performance incentive.

"Performance metric" means a manner of measurement for a particular utility activity.

(c) Through coordinated, comprehensive system planning, ratemaking, and performance incentives, the performance-based ratemaking framework should be designed to accomplish the following objectives:

(1) maintain and improve service reliability and safety, including and particularly in environmental justice, low-income, and equity investment eligible communities;

(2) decarbonize utility systems at a pace that meets or exceeds State climate goals, while also ensuring the affordability of rates for all customers, including low-income customers;

(3) direct electric utilities to make cost-effective

investments that support achievement of Illinois' clean energy policies, including, at a minimum, investments designed to integrate distributed energy resources, comply with critical infrastructure protection standards, plans, and industry best practices, and support and take advantage of potential benefits from the electric vehicle charging and other electrification, while mitigating the impacts;

(4) choose cost-effective assets and services, whether utility-supplied or through third-party contracting, considering both economic and environmental costs and the effects on utility rates, to deliver high-quality service to customers at least cost;

(5) maintain the affordability of electric delivery services for all customers, including low-income customers;

(6) maintain and grow a diverse workforce, diverse supplier procurement base and, for relevant programs, diverse approved-vendor pools, including increased opportunities for minority-owned, female-owned, veteran-owned, and disability-owned business enterprises;

(7) improve customer service performance and engagement;

(8) address the particular burdens faced by consumers in environmental justice and equity investment eligible communities, including shareholder, consumer, and publicly

funded bill payment assistance and credit and collection policies, and ensure equitable disconnections, late fees, or arrearages as a result of utility credit and collection practices, which may include consideration of impact by zip code; and

(9) implement or otherwise enhance current supplier diversity programs to increase diverse contractor participation in professional services, subcontracting, and prime contracting opportunities with programs that address barriers to access. Supplier diversity programs shall address specific barriers related to RFP and contract access, access to capital, information technology and cyber security access and costs, administrative burdens, and quality control with specific metrics, outcomes, and demographic data reported.

(d) Multi-Year Rate Plan.

(1) If an electric utility had a performance-based formula rate in effect under Section 16-108.5 as of December 31, 2020, then the utility may file a petition proposing tariffs implementing a 4-year Multi-Year Rate Plan as provided in this Section no later than, January 20, 2023, for delivery service rates to be effective for the billing periods January 1, 2024 through December 31, 2027. The Commission shall issue an order approving or approving as modified the utility's plan no later than December 20, 2023. The term "Multi-Year Rate Plan" refers

to a plan establishing the base rates the utility shall charge for each delivery year of the 4-year period to be covered by the plan, which shall be subject to modification only as expressly allowed in this Section.

(2) A utility proposing a Multi-Year Rate Plan shall provide a 4-year investment plan and a description of the utility's major planned investments, including, at a minimum, all investments of \$2,000,000 or greater over the plan period for an electric utility that serves more than 3,000,000 retail customers in the State or \$500,000 for an electric utility that serves less than 3,000,000 retail customers in the State but more than 500,000 retail customers in the State. The 4-year investment plan must be consistent with the Multi-Year Integrated Grid Plan described in Section 16-105.17 of this Act. The investment plan shall provide sufficiently detailed information, as required by the Commission, including, at a minimum, a description of each investment, the location of the investment, and an explanation of the need for and benefit of such an investment to the extent known.

(3) The Multi-Year Rate Plan shall be implemented through a tariff filed with the Commission consistent with the provisions of this paragraph (3) that shall apply to all delivery service customers. The Commission shall initiate and conduct an investigation of the tariff in a manner consistent with the provisions of this paragraph

(3) and the provisions of Article IX of this Act, to the extent they do not conflict with this paragraph (3). The Multi-Year Rate Plan approved by the Commission shall do the following:

(A) Provide for the recovery of the utility's forecasted rate base, based on the 4-year investment plan and the utility's Integrated Grid Plan. The forecasted rate base must include the utility's planned capital investments, with rates based on average annual plant investment, and investment-related costs, including income tax impacts, depreciation, and ratemaking adjustments and costs that are prudently incurred and reasonable in amount consistent with Commission practice and law. The process used to develop the forecasts must be iterative, rigorous, and lead to forecasts that reasonably represent the utility's investments during the forecasted period and ensure that the investments are projected to be used and useful during the annual investment period and least cost, consistent with the provisions of Articles VIII and IX of this Act.

(B) The cost of equity shall be approved by the Commission consistent with Commission practice and law.

(C) The revenue requirement shall reflect the utility's actual capital structure for the applicable

calendar year. A year-end capital structure that includes a common equity ratio of up to and including 50% of the total capital structure shall be deemed prudent and reasonable. A higher common equity ratio must be specifically approved by the Commission.

(D) (Blank).

(E) Provide for recovery of prudent and reasonable projected operating expenses, giving effect to ratemaking adjustments, consistent with Commission practice and law under Article IX of this Act. Operating expenses for years after the first year of the Multi-Year Rate Plan may be estimated by the use of known and measurable changes, expense reductions associated with planned capital investments as appropriate, and reasonable and appropriate escalators, indices, or other metrics.

(F) Amortize the amount of unprotected property-related excess accumulated deferred income taxes in rates as of January 1, 2023 over a period ending December 31, 2027, unless otherwise required to amortize the excess deferred income tax pursuant to Section 16-108.21 of this Act.

(G) Allow recovery of incentive compensation expense that is based on the achievement of operational metrics, including metrics related to budget controls, outage duration and frequency,

safety, customer service, efficiency and productivity, environmental compliance and attainment of affordability and environmental goals, and other goals and metrics approved by the Commission. Incentive compensation expense that is based on net income or an affiliate's earnings per share shall not be recoverable.

(H) To the maximum extent practicable, align the 4-year investment plan and annual capital budgets with the electric utility's Multi-Year Integrated Grid Plan.

(4) The Commission shall establish annual rates for each year of the Multi-Year Rate Plan that accurately reflect and are based only upon the utility's reasonable and prudent costs of service over the term of the plan, including the effect of all ratemaking adjustments consistent with Commission practice and law as determined by the Commission, provided that the costs are not being recovered elsewhere in rates. Tariff riders authorized by the Commission may continue outside of a plan authorized under this Section to the extent such costs are not recovered elsewhere in rates. For the first Multi-Year Rate Plan ~~multi-year rate plan~~, the burden of proof shall be on the electric utility to establish the prudence of investments and expenditures and to establish that such investments consistent with and reasonably necessary to

meet the requirements of the utility's first approved Multi-Year Integrated Grid Plan described in Section 16-105.17 of this Act. For subsequent Multi-Year Rate Plans, the burden of proof shall be on the electric utility to establish the prudence of investments and expenditures and to establish that such investments are consistent with and reasonably necessary to meet the requirements of the utility's most recently approved Multi-Year Integrated Grid Plan described in Section 16-105.17 of this Act. The sole fact that a cost differs from that incurred in a prior period or that an investment is different from that described in the Multi-Year Integrated Grid Plan shall not imply the imprudence or unreasonableness of that cost or investment. The sole fact that an investment is the same or similar to that described in the Multi-Year Integrated Grid Plan shall not imply prudence and reasonableness of that investment.

(5) To facilitate public transparency, all materials, data, testimony, and schedules shall be provided to the Commission in an editable, machine-readable electronic format including .doc, .docx, .xls, .xlsx, and similar file formats, but not including .pdf or .exif. Should utilities designate any materials confidential, they shall have an affirmative duty to explain why the particular information is marked confidential. In determining prudence and reasonableness of rates, the Commission shall

make its determination based upon the record, including each public comment filed or provided orally at open meetings consistent with the Commission's rules and practices.

(6) The Commission may, by order, establish terms, conditions, and procedures for submitting and approving a Multi-Year Rate Plan necessary to implement this Section and ensure that rates remain just and reasonable during the course of the plan, including terms and procedures for rate adjustment.

(7) An electric utility that files a tariff pursuant to paragraph (3) of this subsection (e) must submit a one-time \$300,000 filing fee at the time the Chief Clerk of the Commission accepts the filing, which shall be a recoverable expense.

(8) An electric utility operating under a Multi-Year Rate Plan shall file a new Multi-Year Rate Plan at least 300 days prior to the end of the initial Multi-Year Rate Plan unless it elects to file a general rate case pursuant to paragraph (9), and every 4 years thereafter, with a rate-effective date of the proposed tariffs such that, after the Commission suspension period, the rates would take effect immediately at the close of the final year of the initial Multi-Year Rate Plan. In subsequent Multi-Year Rate Plans, as in the initial plans, utilities and stakeholders may propose additional metrics that achieve

the outcomes described in paragraph (2) of subsection (f) of this Section.

(9) Election of Rate Case.

(A) On or before the date prescribed by subparagraph (B) of paragraph (9) of this Section, electric utilities that serve more than 500,000 retail customers in the State shall file either a general rate case under Section 9-201 of this Act, or a Multi-Year Rate Plan, as set forth in paragraph (1) of this subsection (d).

(B) Electric utilities described in subparagraph (A) of paragraph (9) of this Section shall file their initial general rate case or Multi-Year Rate Plan, as applicable, with the Commission no later than January 20, 2023.

(C) Notwithstanding which rate filing option an electric utility elects to file on the date prescribed by subparagraph (B) of paragraph (9) of this Section, the electric utility shall be subject to the Multi-year Integrated Plan filing requirements.

(D) Following its initial rate filing pursuant to paragraph (2), an electric utility subject to the requirements of this Section shall thereafter be permitted to elect a different rate filing option consistent with any filing intervals established for a general rate case or Multi-Year Rate Plan, as follows:

(i) An electric utility that initially elected to file a Multi-Year Rate Plan and thereafter elects to transition to a general rate case may do so upon completion of the 4-year Multi-Year Rate Plan by filing a general rate case at the same time that the utility would have filed its subsequent Multi-Year Rate Plan, as specified in paragraph (8) of this subsection (d). Notwithstanding this election, the annual adjustment of the final year of the Multi-Year Rate Plan shall proceed as specified in paragraph (6) of subsection (f).

(ii) An electric utility that initially elected to a file general rate case and thereafter elects to transition to a Multi-Year Rate Plan may do so only at the 4-year filing intervals identified by paragraph (8) of this subsection (d).

(10) The Commission shall approve tariffs establishing rate design for all delivery service customers unless the electric utility makes the election specified in Section 16-105.5, in which case the rate design shall be subject to the provisions of that Section.

(11) The Commission shall establish requirements for annual performance evaluation reports to be submitted annually for performance metrics. Such reports shall include, but not be limited to, a description of the

utility's performance under each metric and an identification of any extraordinary events that adversely affected the utility's performance.

(12) For the first Multi-Year Rate Plan, the Commission shall consolidate its investigation with the proceeding under Section 16-105.17 to establish the Multi-Year Integrated Grid Plan no later than 45 days after plan filing.

(13) Where a rate change under a Multi-Year Rate Plan will result in a rate increase, an electric utility may propose a rate phase-in plan that the Commission shall approve with or without modification or deny in its final order approving the new delivery services rates. A proposed rate phase-in plan under this paragraph (13) must allow the new delivery services rates to be implemented in no more than 2 steps, as follows: in the first step, at least 50% of the approved rate increase must be reflected in rates, and, in the second step, 100% of the rate increase must be reflected in rates. The second step's rates must take effect no later than 12 months after the first step's rates were placed into effect. The portion of the approved rate increase not implemented in the first step shall be recorded on the electric utility's books as a regulatory asset, and shall accrue carrying costs to ensure that the utility does not recover more or less than it otherwise would because of the deferral. This portion

shall be recovered, with such carrying costs at the weighted average cost of capital, through a surcharge applied to retail customer bills that (i) begins no later than 12 months after the date on which the second step's rates went into effect and (ii) is applied over a period not to exceed 24 months. Nothing in this paragraph is intended to limit the Commission's authority to mitigate the impact of rates caused by rate plans, or any other instance on a revenue-neutral basis; nor shall it mitigate a utility's ability to make proposals to mitigate the impact of rates. When a deferral, or similar method, is used to mitigate the impact of rates, the utility should be allowed to recover carrying costs.

(14) Notwithstanding the provisions of paragraph ~~Section~~ (13), the Commission may, on its own initiative, take revenue-neutral measures to relieve the impact of rate increases on customers. Such initiatives may be taken by the Commission in the first Multi-Year Rate Plan, subsequent multi-year plans, or in other instances described in this Act.

(15) Whenever during the pendency of a Multi-Year ~~Multi-year~~ Rate Plan, an electric utility subject to this Section becomes aware that, due to circumstances beyond its control, prudent operating practices will require the utility to make adjustments to the Multi-Year Rate Plan, the electric utility may file a petition with the

Commission requesting modification of the approved annual revenue requirements included in the Multi-Year Rate Plan. The electric utility must support its request with evidence demonstrating why a modification is necessary, due to circumstances beyond the utility's control, to follow prudent operating practices and must set forth the changes to each annual revenue requirement to be approved, and the basis for any changes in anticipated operating expenses or capital investment levels. The utility shall affirmatively address the impact of the changes on the Multi-Year Integrated Grid Plan and Multi-Year Rate Plan originally submitted and approved by the Commission. Any interested party may file an objection to the changes proposed, or offer alternatives to the utility's proposal, as supported by testimony and evidence. After notice and hearing, the Commission shall issue a final order regarding the electric utility's request no later than 180 days after the filing of the petition.

(e) Performance incentive mechanisms.

(1) The electric industry is undergoing rapid transformation, including fundamental changes in how electricity is generated, procured, and delivered and how customers are choosing to participate in the supply and delivery of electricity to and from the electric grid. Building upon the State's goals to increase the procurement of electricity from renewable energy

resources, including distributed generation and storage devices, the General Assembly finds that electric utilities should make cost-effective investments that support moving forward on Illinois' clean energy policies. It is therefore in the State's interest for the Commission to establish performance incentive mechanisms in order to better tie utility revenues to performance and customer benefits, accelerate progress on Illinois energy and other goals, ensure equity and affordability of rates for all customers, including low-income customers, and hold utilities publicly accountable.

(2) The Commission shall approve, based on the substantial evidence proffered in the proceeding initiated pursuant to this subsection performance metrics that, to the extent practicable and achievable by the electric utility, encourage cost-effective, equitable utility achievement of the outcomes described in this subsection (e) while ensuring no degradation in the significant performance improvement achieved through previously established performance metrics. For each electric utility, the Commission shall approve metrics designed to achieve incremental improvements over baseline performance values and targets, over a performance period of up to 10 years, and no less than 4 years.

(A) The Commission shall approve no more than 8 metrics, with at least one metric from each of the

categories below, for each electric utility, from items ~~subparagraphs~~ (i) through (vi) of this subparagraph ~~subsection~~ (A). Upon a utility request, the Commission may approve the use of a specific, measurable, and achievable tracking metric described in paragraph (3) of this subsection (e) as a performance metric pursuant to paragraph (2) of this subsection (e).

(i) Metrics designed to ensure the utility maintains and improves the high standards of both overall and locational reliability and resiliency, and makes improvements in power quality, including and particularly in environmental justice and equity investment eligible communities.

(ii) Peak load reductions attributable to demand response programs.

(iii) Supplier diversity expansion, including diverse contractor participation in professional services, subcontracting, and prime contracting opportunities, development of programs that address the barriers to access, aligning demographics of contractors to the demographics in the utility's service territory, establish long-term mentoring relationships that develop and remove barriers to access for diverse and underserved contractors. The utilities shall

provide solutions, resources, and tools to address complex barriers of entry related to costly and time-intensive cyber security requirements, increasingly complex information technology requirements, insurance barriers, service provider sign-up process barriers, administrative process barriers, and other barriers that inhibit access to RFPs and contracts. For programs with contracts over \$1,000,000, winning bidders must demonstrate a subcontractor development or mentoring relationship with at least one of their diverse subcontracting partners for a core component of the scope of the project. The mentoring time and cost shall be taken into account in the creation of RFP and shall include a structured and measured plan by the prime contractor to increase the capabilities of the subcontractor in their proposed scope. The metric shall include reporting on all supplier diversity programs by goals, program results, demographics and geography, with separate reporting by category of minority-owned, female-owned, veteran-owned, and disability-owned business enterprise metrics. The report shall include resources and expenses committed to the programs and conversion rates of new diverse utility contractors.

(iv) Achieve affordable customer delivery service costs, with particular emphasis on keeping the bills of lower-income households, households in equity investment eligible communities, and household in environmental justice communities within a manageable portion of their income and adopting credit and collection policies that reduce disconnections for these households specifically and for customers overall to ensure equitable disconnections, late fees, or arrearages as a result of utility credit and collection practices, which may include consideration of impact by zip code.

(v) Metrics designed around the utility's timeliness to customer requests for interconnection in key milestone areas, such as: initial response, supplemental review, and system feasibility study; improved average service reliability index for those customers that have interconnected a distributed renewable energy generation device to the utility's distribution system and are lawfully taking service under an applicable tariff; offering a variety of affordable rate options, including demand response, time of use rates for delivery and supply, real-time pricing rates for supply;

comprehensive and predictable net metering, and maximizing the benefits of grid modernization and clean energy for ratepayers; and improving customer access to utility system information according to consumer demand and interest.

(vi) Metrics designed to measure the utility's customer service performance, which may include the average length of time to answer a customer's call by a customer service representative, the abandoned call rate and the relative ranking of the electric utility, by a reputable third-party organization, in customer service satisfaction when compared to other similar electric utilities in the Midwest region.

(B) Performance metrics shall include a description of the metric, a calculation method, a data collection method, annual performance targets, and any incentives or penalties for the utility's achievement of, or failure to achieve, their performance targets, provided that the total amount of potential incentives and penalties shall be symmetrical. Incentives shall be rewards or penalties or both, reflected as basis points added to, or subtracted from, the utility's cost of equity. The metrics and incentives shall apply for the entire time period covered by a Multi-Year Rate Plan. The total

for all metrics shall be equal to 40 basis points, however, the Commission may adjust the basis points upward or downward by up to 20 basis points for any given Multi-Year Rate Plan, as appropriate, but in no event may the total exceed 60 basis points or fall below 20 basis points.

(C) Metrics related to reliability shall be implemented to ensure equitable benefits to environmental justice and equity investment eligible communities, as defined in this Act.

(D) The Commission shall approve performance metrics that are reasonably within control of the utility to achieve. The Commission also shall not approve a metric that is solely expected to have the effect of reducing the workforce. Performance metrics should measure outcomes and actual, rather than projected, results where possible. Nothing in this ~~subparagraph paragraph~~ is intended to require that different electric utilities must be subject to the same metrics, goals, or incentives.

(E) Increases or enhancements to an existing performance goal or target shall be considered in light of other metrics, cost-effectiveness, and other factors the Commission deems appropriate. Performance metrics shall include one year of tracking data collected in a consistent manner, verifiable by an

independent evaluator in order to establish a baseline and measure outcomes and actual results against projections where possible.

(F) For the purpose of determining reasonable performance metrics and related incentives, the Commission shall develop a methodology to calculate net benefits that includes customer and societal costs and benefits and quantifies the effect on delivery rates. In determining the appropriate level of a performance incentive, the Commission shall consider: the extent to which the amount is likely to encourage the utility to achieve the performance target in the least cost manner; the value of benefits to customers, the grid, public health and safety, and the environment from achievement of the performance target, including in particular benefits to equity investment eligible community; the affordability of customer's electric bills, including low-income customers, the utility's revenue requirement, the promotion of renewable and distributed energy, and other such factors that the Commission deems appropriate. The consideration of these factors shall result in an incentive level that ensures benefits exceed costs for customers.

(G) Achievement of performance metrics are based on the assumptions that the utility will adopt or

implement the technology and equipment, and make the investments to the extent reasonably necessary to achieve the goal. If the electric utility is unable to meet the performance metrics as a result of extraordinary circumstances outside of its control, including, but not limited to, government-declared emergencies, then the utility shall be permitted to file a petition with the Commission requesting that the utility be excused from compliance with the applicable performance goal or goals and the associated financial incentives and penalties. The burden of proof shall be on the utility, consistent with Article IX, and the utility's petition shall be supported by substantial evidence. The Commission shall, after notice and hearing, enter its order approving or denying, in whole or in part, the utility's petition based on the extent to which the utility demonstrated that its achievement of the affected metrics and performance goals was hindered by extraordinary circumstances outside of the utility's control.

(3) The Commission shall approve reasonable and appropriate tracking metrics to collect and monitor data for the purpose of measuring and reporting utility performance and for establishing future performance metrics. These additional tracking metrics shall include

at least one metric from each of the following categories of performance:

(A) Minimize emissions of greenhouse gases and other air pollutants that harm human health, particularly in environmental justice and equity investment eligible communities, through minimizing total emissions by accelerating electrification of transportation, buildings, and industries where such electrification results in net reductions, across all fuels and over the life of electrification measures, of greenhouse gases and other pollutants, taking into consideration the fuel mix used to produce electricity at the relevant hour and the effect of accelerating electrification on electricity delivery services rates, supply prices, and peak demand, provided the revenues the utility receives from accelerating electrification of transportation, buildings, and industries exceed the costs.

(B) Enhance the grid's flexibility to adapt to increased deployment of nondispatchable resources, improve the ability and performance of the grid on load balancing, and offer a variety of rate plans to match consumer consumption patterns and lower consumer bills for electricity delivery and supply.

(C) Ensure rates reflect cost savings attributable to grid modernization and utilize distributed energy

resources that allow the utility to defer or forgo traditional grid investments that would otherwise be required to provide safe and reliable service.

(D) Metrics designed to create and sustain full-time-equivalent jobs and opportunities for all segments of the population and workforce, including minority-owned businesses, women-owned businesses, veteran-owned businesses, and businesses owned by a person or persons with a disability, and that do not, consistent with State and federal law, discriminate based on race or socioeconomic status as a result of Public Act 102-662 ~~this amendatory Act of the 102nd General Assembly.~~

(E) Maximize and prioritize the allocation of grid planning benefits to environmental justice and economically disadvantaged customers and communities, such that all metrics provide equitable benefits across the utility's service territory and maintain and improve utility customers' access to uninterrupted utility services.

(4) The Commission may establish new tracking and performance metrics in future Multi-Year Rate Plans to further measure achievement of the outcomes set forth in paragraph (2) of subsection (f) of this Section and the other goals and requirements of this Section.

(5) The Commission shall also evaluate metrics that

were established in prior Multi-Year Rate Plans to determine if there has been an unanticipated material change in circumstances such that adjustments are required to improve the likelihood of the outcomes described in paragraph (2) of subsection (f). For metrics that were established in prior Multi-Year Rate Plan proceedings and that the Commission elects to continue, the design of these metrics, including the goals of tracking metrics and the targets and incentive levels and structures of performance metrics, may be adjusted pursuant to the requirements in this Section. The Commission may also change, adjust, or phase out tracking and performance metrics that were established in prior Multi-Year Rate Plan proceedings if these metrics no longer meet the requirements of this Section or if they are rendered obsolete by the changing needs and technology of an evolving grid. Additionally, performance metrics that no longer require an incentive to create improved utility performance may become tracking metrics in a Multi-Year Rate Plan proceeding.

(6) The Commission shall initiate a workshop process no later than August 1, 2021, or 15 days after September 15, 2021 (the effective date of Public Act 102-662) ~~this amendatory Act of the 102nd General Assembly~~, whichever is later, for the purpose of facilitating the development of metrics for each utility. The workshop shall be

coordinated by the staff of the Commission, or a facilitator retained by staff, and shall be organized and facilitated in a manner that encourages representation from diverse stakeholders and ensures equitable opportunities for participation, without requiring formal intervention or representation by an attorney. Working with staff of the Commission the facilitator may conduct a combination of workshops specific to a utility or applicable to multiple utilities where content and stakeholders are substantially similar. The workshop process shall conclude no later than October 31, 2021. Following the workshop, the staff of the Commission, or the facilitator retained by the Staff, shall prepare and submit a report to the Commission that identifies the participants in the process, the metrics proposed during the process, any material issues that remained unresolved at the conclusions of such process, and any recommendations for workshop process improvements. Any workshop participant may file comments and reply comments in response to the Staff report.

(A) No later than January, 20, 2022, each electric utility that intends to file a petition pursuant to subsection (b) of this Section shall file a petition with the Commission seeking approval of its performance metrics, which shall include for each metric, at a minimum, (i) a detailed description, (ii)

the calculation of the baseline, (iii) the performance period and overall performance goal, provided that the performance period shall not commence prior to January 1, 2024, (iv) each annual performance goal, (v) the performance adjustment, which shall be a symmetrical basis point increase or decrease to the utility's cost of equity based on the extent to which the utility achieved the annual performance goal, and (vi) the new or modified tariff mechanism that will apply the performance adjustments. The Commission shall issue its order approving, or approving with modification, the utility's proposed performance metrics no later than September 30, 2022.

(B) No later than August 1, 2025, the Commission shall initiate a workshop process that conforms to the workshop purpose and requirements of this paragraph (6) of this Section to the extent they do not conflict. The workshop process shall conclude no later than October 31, 2025, and the staff of the Commission, or the facilitator retained by the Staff, shall prepare and submit a report consistent with the requirements described in this paragraph (6) of this Section. No later than January 20, 2026, each electric utility subject to the requirements of this Section shall file a petition that reflects, and is consistent with, the components required in this paragraph (6) of this

Section, and the Commission shall issue its order approving, or approving with modification, the utility's proposed performance metrics no later than September 30, 2026.

(f) On May 1 of each year, following the approval of the first Multi-Year Rate Plan and its initial year, the Commission shall open an annual performance evaluation proceeding to evaluate the utilities' performance on their metric targets during the year just completed, as well as the appropriate Annual Adjustment as defined in paragraph (6). The Commission shall determine the performance and annual adjustments to be applied through a surcharge in the following calendar year.

(1) On February 15 of each year, prior to the annual performance evaluation proceeding, each utility shall file a performance evaluation report with the Commission that includes a description of and all data supporting how the utility performed under each performance metric and an identification of any extraordinary events that adversely impacted the utility's performance.

(2) The metrics approved under this Section are based on the assumptions that the utility may fully implement the technology and equipment, and make the investments, required to achieve the metrics and performance goals. If the utility is unable to meet the metrics and performance goals because it was hindered by unanticipated technology

or equipment implementation delays, government-declared emergencies, or other investment impediments, then the utility shall be permitted to file a petition with the Commission on or before the date that its report is due pursuant to paragraph (1) of this subsection (f) requesting that the utility be excused from compliance with the applicable performance goal or goals. The burden of proof shall be on the utility, consistent with Article IX, and the utility's petition shall be supported by substantial evidence. No later than 90 days after the utility files its petition, the Commission shall, after notice and hearing, enter its order approving or denying, in whole or in part, the utility's petition based on the extent to which the utility demonstrated that its achievement of the affected metrics and performance goals was hindered by unanticipated technology or equipment implementation delays, or other investment impediments, that were reasonably outside of the utility's control.

(3) The electric utility shall provide for an annual independent evaluation of its performance on metrics. The independent evaluator shall review the utility's assumptions, baselines, targets, calculation methodologies, and other relevant information, especially ensuring that the utility's data for establishing baselines matches actual performance, and shall provide a report to the Commission in each annual performance

evaluation describing the results. The independent evaluator shall present this report as evidence as a nonparty participant and shall not be represented by the utility's legal counsel. The independent evaluator shall be hired through a competitive bidding process with approval of the contract by the Commission.

The Commission shall consider the report of the independent evaluator in determining the utility's achievement of performance targets. Discrepancies between the utility's assumptions, baselines, targets, or calculations and those of the independent evaluator shall be closely scrutinized by the Commission. If the Commission finds that the utility's reported data for any metric or metrics significantly and incorrectly deviates from the data reported by the independent evaluator, then the Commission shall order the utility to revise its data collection and calculation process within 60 days, with specifications where appropriate.

(4) The Commission shall, after notice and hearing in the annual performance evaluation proceeding, enter an order approving the utility's performance adjustment based on its achievement of or failure to achieve its performance targets no later than December 20 each year. The Commission-approved penalties or incentives shall be applied beginning with the next calendar year.

(5) In order to promote the transparency of utility

investments during the effective period of a multi-year rate plan, inform the Commission's investigation and adjustment of rates in the annual adjustment process, and to facilitate the participation of stakeholders in the annual adjustment process, an electric utility with an effective Multi-Year Rate Plan shall, within 90 days of the close of each quarter during the Multi-Year Rate Plan period, submit to the Commission a report that summarizes the additions to utility plant that were placed into service during the prior quarter, which for purposes of the report shall be the most recently closed fiscal quarter. The report shall also summarize the utility plant the electric utility projects it will place into service through the end of the calendar year in which the report is filed. The projections, estimates, plans, and forward-looking information that are provided in the reports pursuant to this paragraph (5) are for planning purposes and are intended to be illustrative of the investments that the utility proposes to make as of the time of submittal. Nothing in this paragraph (5) precludes, or is intended to limit, a utility's ability to modify and update its projections, estimates, plans, and forward-looking information previously submitted in order to reflect stakeholder input or other new or updated information and analysis, including, but not limited to, changes in specific investment needs, customer electric

use patterns, customer applications and preferences, and commercially available equipment and technologies, however the utility shall explain any changes or deviations between the projected investments from the quarterly reports and actual investments in the annual report. The reports submitted pursuant to this subsection are intended to be flexible planning tools, and are expected to evolve as new information becomes available. Within 7 days of receiving a quarterly report, the Commission shall timely make such report available to the public by posting it on the Commission's website. Each quarterly report shall include the following detail:

(A) The total dollar value of the additions to utility plant placed in service during the prior quarter;

(B) A list of the major investment categories the electric utility used to manage its routine standing operational activities during the prior quarter including the total dollar amount for the work reflected in each investment category in which utility plant in service is equal to or greater than \$2,000,000 for an electric utility that serves more than 3,000,000 customers in the State or \$500,000 for an electric utility that serves less than 3,000,000 customers but more than 500,000 customers in the State as of the last day of the quarterly reporting period,

as well as a summary description of each investment category;

(C) A list of the projects which the electric utility has identified by a unique investment tracking number for utility plant placed in service during the prior quarter for utility plant placed in service with a total dollar value as of the last day of the quarterly reporting period that is equal to or greater than \$2,000,000 for an electric utility that serves more than 3,000,000 customers in the State or \$500,000 for an electric utility that serves less than 3,000,000 retail customers but more than \$500,000 retail customers in the State, as well as a summary of each project;

(D) The estimated total dollar value of the additions to utility plant projected to be placed in service through the end of the calendar year in which the report is filed;

(E) A list of the major investment categories the electric utility used to manage its routine standing operational activities with utility plant projected to be placed in service through the end of the calendar year in which the report is filed, including the total dollar amount for the work reflected in each investment category in which utility plant in service is projected to be equal to or greater than \$2,000,000

for an electric utility that serves more than 3,000,000 customers in the State or \$500,000 for an electric utility that serves less than 3,000,000 retail customers but more than 500,000 retail customers in the State, as well as a summary description of each investment category; and

(F) A list of the projects for which the electric utility has identified by a unique investment tracking number for utility plant projected to be placed in service through the end of the calendar year in which the report is filed with an estimated dollar value that is equal to or greater than \$2,000,000 for an electric utility that serves more than 3,000,000 customers in the State or \$500,000 for an electric utility that serves less than 3,000,000 retail customers but more than \$500,000 retail customers in the State, as well as a summary description of each project.

(6) As part of the Annual Performance Adjustment, the electric utility shall submit evidence sufficient to support a determination of its actual revenue requirement for the applicable calendar year, consistent with the provisions of paragraphs (d) and (f) of this subsection. The electric utility shall bear the burden of demonstrating that its costs were prudent and reasonable, subject to the provisions of paragraph (4) of this

subsection (f). The Commission's review of the electric utility's annual adjustment shall be based on the same evidentiary standards, including, but not limited to, those concerning the prudence and reasonableness of the known and measurable costs forecasted to be incurred by the utility, and the used and usefulness of the actual plant investment pursuant to Section 9-211 of this Act, that the Commission applies in a proceeding to review a filing for changes in rates pursuant to Section 9-201 of this Act. The Commission shall determine the prudence and reasonableness of the actual costs incurred by the utility during the applicable calendar year, as well as determine the original cost of plant in service as of the end of the applicable calendar year. The Commission shall then determine the Annual Adjustment, which shall mean the amount by which, the electric utility's actual revenue requirement for the applicable year of the Multi-Year Rate Plan either exceeded, or was exceeded by, the revenue requirement approved by the Commission for such calendar year, plus carrying costs calculated at the weighted average cost of capital approved for the Multi-Year Rate Plan.

The Commission's determination of the electric utility's actual revenue requirement for the applicable calendar year shall be based on:

(A) the Commission-approved used and useful,

prudent and reasonable actual costs for the applicable calendar year, which shall be determined pursuant to the following criteria:

(i) the ~~The~~ overall level of actual costs incurred during the calendar year, provided that the Commission may not allow recovery of actual costs that are more than 105% of the approved revenue requirement calculated as provided in item (ii) of this subparagraph (A), except to the extent the Commission approves a modification of the Multi-Year Rate Plan to permit such recovery;~~:-~~

(ii) the ~~The~~ calculation of 105% of the revenue requirement required by this subparagraph (A) shall exclude the revenue requirement impacts of the following volatile and fluctuating variables that occurred during the year: (i) storms and weather-related events for which the utility provides sufficient evidence to demonstrate that such expenses were not foreseeable and not in control of the utility; (ii) new business; (iii) changes in interest rates; (iv) changes in taxes; (v) facility relocations; (vi) changes in pension or post-retirement benefits costs due to fluctuations in interest rates, market returns or actuarial assumptions; (vii) amortization expenses related

to costs; and (viii) changes in the timing of when an expenditure or investment is made such that it is accelerated to occur during the applicable year or deferred to occur in a subsequent year;~~;~~

(B) the year-end rate base;

(C) the cost of equity approved in the multi-year rate plan; and

(D) the electric utility's actual year-end capital structure, provided that the common equity ratio in such capital structure may not exceed the common equity ratio that was approved by the Commission in the Multi-Year Rate Plan.

(2) The Commission's determinations of the prudence and reasonableness of the costs incurred for the applicable year, and of the original cost of plant in service as of the end of the applicable calendar year, shall be final upon entry of the Commission's order and shall not be subject to collateral attack in any other Commission proceeding, case, docket, order, rule, or regulation; however, nothing in this Section shall prohibit a party from petitioning the Commission to rehear or appeal to the courts the order pursuant to the provisions of this Act.

(g) During the period leading to approval of the first Multi-Year Integrated Grid Plan, each electric utility will necessarily continue to invest in its distribution grid. Those

investments will be subject to a determination of prudence and reasonableness consistent with Commission practice and law. Any failure to conform to the Multi-Year Integrated Grid Plan ultimately approved shall not imply imprudence or unreasonableness.

(h) After calculating the Performance Adjustment and Annual Adjustment, the Commission shall order the electric utility to collect the amount in excess of the revenue requirement from customers, or issue a refund to customers, as applicable, to be applied through a surcharge beginning with the next calendar year.

Electric utilities subject to the requirements of this Section shall be permitted to file new or revised tariffs to comply with the provisions of, and Commission orders entered pursuant to, this Section.

Section 810. The Illinois Underground Utility Facilities Damage Prevention Act is amended by changing Sections 2, 4.1, 10, and 12 as follows:

(220 ILCS 50/2) (from Ch. 111 2/3, par. 1602)

Sec. 2. Definitions. As used in this Act, unless the context clearly otherwise requires, the terms specified in this Section have the meanings ascribed to them in this Section.

"Approximate location" means the location of the marked facility that lies entirely within the tolerance zone.

Circumstances that are "beyond the reasonable control" of a party include, but are not limited to, severe weather, unforeseen mechanical issues, or site conditions. As used in Section 11, "beyond the reasonable control" also includes, but is not limited to, notice volumes or dig site notification areas that exceed historical averages, as determined by the reasonable control measurement, created as a result of underground utility facility owners or operators or their contractors or subcontractors' non-emergency requests for utility excavation work for underground utility facility owners or operators, that is not part of a large project that has provided at least 60 days' ~~days~~ notice, and only applies to the requests submitted by underground utility facility owners or operators or their contractors or subcontractors' non-emergency utility excavation work for underground utility facility owners or operators.

"Damage" means the contact or dislocation of a facility during excavation or demolition that necessitates immediate or subsequent repair by the underground utility facility owner or operator due to any partial or complete destruction of the facility, including, but not limited to, the protective coating, tracer wire, lateral support, cathodic protection, or housing for the line or device of the facility.

"Damage notification" means a notification through JULIE

to the underground utility facility owner or operator that damage to a facility has occurred in the area of the excavation or demolition.

"Day" means any day, beginning at 12:00 a.m. and ending at 11:59 p.m. "Day" does not include holidays recognized by JULIE, Saturdays, Sundays, and the day of the actual notice.

"Demolition" means the wrecking, razing, rending, moving, or removing of a structure by means of any power tool, power equipment (exclusive of transportation equipment), or explosives.

"Emergency request" means a request involving a condition (1) that constitutes an imminent danger to life, health, or property or a utility service outage (2) and that requires repair or action before the expiration of 2 days.

"Excavation" means:

(1) any operation in which earth, rock, or other material in or on the ground is moved, removed, or otherwise displaced by means of any tools, power equipment or explosives, and includes, without limitation, grading, trenching, digging, ditching, drilling, augering, boring, tunneling, scraping, cable or pipe plowing, saw cutting or roadway surface milling when penetrating into the base or subbase of a paved surface, and driving, but does not include:

(A) farm tillage operations;

(B) railroad right-of-way maintenance;

(C) coal mining operations regulated under the federal Surface Mining Control and Reclamation Act of 1977 or any State law or rules or regulations adopted under the federal statute;

(D) land surveying operations as defined in the Illinois Professional Land Surveyor Act of 1989 when not using power equipment;

(E) roadway surface milling;

(F) manually inserting, without the use of power equipment, a temporary round-tipped ground or probe rod as part of facility locating;

(G) manually inserting, without the use of power equipment, a temporary round-tipped probe rod for bar holing to determine the area of a potential leak from a facility transporting hazardous gases or liquids; or

(H) manually inserting, without the use of power equipment, a round-tipped ground rod for the purpose of grounding utility equipment when an emergency exists and no other ground source is available.

(2) An exclusion to this Section in no way prohibits a request from being made for the marking of facilities.

(3) Any exception to excavation contained within this Section is not intended to remove liability that may be imposed against an individual or entity because of damage caused to a facility.

"Excavator" means any person or legal entity, public or

private, that engages in excavation or demolition work.

"Exposed notification" means a notification through JULIE to the underground utility facility owner or operator that an unmarked facility has been exposed in the area of the excavation or demolition but has not been damaged.

"Extension" means a request made by an excavator, to extend the expiration date of a normal notice to allow additional time to continue or complete the excavation or demolition project.

(1) An extension request may be made no earlier than the 20th day from the initial normal notice request or latest extension request.

(2) An extension request shall extend the expiration of the initial normal notice request or latest extension request by 25 days.

(3) An extension request may not be made simply to keep a prior notice open without continued excavation occurring within the period of that subsequent notice.

"Geographic information system data" means data to be applied to JULIE software to facilitate a more clearly defined notification area for notices sent to the system underground utility facility owners or operators. "Geographic information system data" includes, but is not limited to:

- (1) address points with site addresses;
- (2) parcels with site addresses;
- (3) road center lines with names and address range;

- (4) city limits with names;
- (5) political townships with names;
- (6) railroads with names;
- (7) streams with names; and
- (8) water bodies with names.

"Historical averages" are used to determine benchmark notice volumes or dig site notification areas for a particular place. The notice volume is calculated for new and updated requests requiring an underground utility facility owner or operator response. It shall not include notices with a header of no show ~~no show~~, incomplete, or no re-mark ~~no remark~~. The dig site notification area is calculated using the dig site polygon on the notice. The 7-day ~~7-day~~ look back shall be calculated once daily at the conclusion of the previous calendar day. "Historic averages" shall be determined by comparing notice volumes or dig site notification areas over the immediate past 7 calendar days to the same 7 calendar day period for the past 5 years. A 5-year trimmed mean, removing the highest and lowest years, and averaging the remaining 3 years, shall be the final determinant ~~determinate~~ of this measurement. The official measurement of the notice volumes or dig site notification areas shall be provided by JULIE.

"Incomplete request" means a notice initiated by an excavator through JULIE to the underground utility facility owners or operators notified in a prior request that such underground utility facility owners or operators, as

identified by the excavator and confirmed, through the positive response system once implemented, in accordance with subsection (a) of Section 5.1, did not completely mark the entire extent or the entire segment of the proposed excavation, as identified on the prior notice or as previously documented and mutually agreed upon.

"Joint meet notification" means a notice of a meeting held prior to the excavation phase to discuss projects that cannot be adequately communicated within a normal notice request. The meeting is intended to allow the exchange of maps, plans, or schedules. It is not a locating session and shall be held at or near the excavation site, or through electronic means, if available and agreed to by all parties. "Joint meet notification" are not to be used in lieu of valid normal notice requests and are required for, but not limited to, large projects.

"JULIE, Inc." or "JULIE" means the communication system known as "JULIE, Inc." or "JULIE", utilized by excavators, designers, or any other entities covered by this Act to notify underground utility facility owners or operators of their intent to perform excavation or demolition or similar work as defined by this Act and shall include all underground utility facilities owned or operated outside the city limits of the City of Chicago.

"Large project" means a single excavation that exceeds the expiration date of a normal notice request, or involves a

series of repetitive, related-scope excavations.

"Normal notice request" means a notification made by an excavator, through JULIE, in advance of a planned excavation or demolition.

(1) The notification shall be made at least 2 days, but no more than 10 days, before beginning the planned excavation or demolition.

(2) Excavation or demolition on a normal notice request is valid for 25 days from the date of the initial request unless a subsequent extension request is made.

(3) Normal notice requests shall be limited to one quarter of a contiguous mile within a municipality and one contiguous mile within any unincorporated area, which includes townships.

(4) Normal notice requests are valid for a single right-of-way with an exception for intersecting rights-of-way of 250 feet in all directions. Any excavation continuing beyond 250 feet on a connecting right-of-way shall require an additional request.

"No show request" means a notice initiated by an excavator through JULIE to the underground utility facility owners or operators notified in the prior notice that such underground utility facility owners or operators, as identified by the excavator and confirmed, once implemented, in accordance with subsection (a) of Section 5.1, either failed to mark their facilities or to communicate their non-involvement with the

excavation prior to the dig start date and time on the notice.

"Notice" means any record transmitted to an underground utility facility owner or operator of JULIE which shall include, but not be limited to, cancel, damage, emergency, exposed, extension, incomplete, joint meet, no show, normal, planning design, or re-mark.

"Open cut utility locate" means a method of locating facilities that requires excavation by the underground utility facility owner or operator, or their contractor or subcontractor.

"Place" means any incorporated city, village or town, or unincorporated township or road district, listed within the JULIE database.

"Planning design request" means the process prior to the excavation phase of a project where information is gathered and decisions are made regarding the route or location of a proposed excavation. The use of the information that is obtainable pursuant to this Section is intended to minimize delays of future construction projects and not for imminent excavation. The underground utility facility owner or operator may indicate any portion of the information that is proprietary and require the planner or designer to protect the proprietary information.

"Positive response system" means an automated system facilitated by JULIE allowing underground utility facility owners or operators to communicate to an excavator the

presence, absence, or response status of any conflict between the existing facilities in or near the area of excavation or demolition on each notice received.

"Pre-mark" means the use of white paint, chalk, lathe, whisksers, flags, or electronic white lining using lines or polygons to delineate the work area at the site of the proposed excavation or demolition. Unless otherwise stated on the request, all pre-marks are considered a request for a 5-foot radius of an above ground fixed structure or single point pre-mark, or a 10-foot-wide path for linear work.

(1) Physical pre-marking for the area of the planned excavation or demolition shall be accomplished prior to notifying JULIE if the area of excavation cannot be clearly and adequately identified in the normal notice request.

(2) Electronic white lining may be used when available. Electronic white lining provides an alternative method where an excavator may indicate their defined dig area visually by electronic data entry, including lines or polygons, without the need for a physical site visit. The technology allows the excavator to identify for the underground utility facility owner or operator a clear delineation of their proposed excavation area.

(3) A verbal or written pre-mark is adequate when the scope requested to be marked is narrow and explicit enough to prevent marking beyond the actual area of excavation or

demolition. An existing above ground fixed structure may be referenced as a verbal or written pre-mark.

"Project owner" means the person or legal entity, public or private, that is financially responsible for the undertaking of a project that involves excavation or demolition.

"Reasonable control measurement" shall use the historical averages and add to the calculation either of the following conditions that shall be met for the place to be considered beyond the reasonable control of the underground utility facility owner or operator:

(1) the total notice volume count over the previous 7 calendar days shall increase by more than 15% of the historic average, and increase by not less than 25 additional notices over the previous 7 calendar days; or

(2) the total dig site notification area over the previous 7 calendar days shall increase by more than 15% of the historic average, and not less than 0.4 additional square miles over the previous 7 calendar days.

The official measurement shall be provided by JULIE.

"Residential property owner" means any individual or entity that owns or leases real property that is used by the individual or entity as its residence or dwelling. Residential property owner does not include any persons who own or lease residential property for the purpose of holding or developing such property or for any other business or commercial

purposes.

"Roadway surface milling" means the removal of a uniform pavement section by rotomilling, grinding, saw cutting, or other means that does not penetrate into the roadway base or subbase.

"Service lateral" means underground facilities located in a public right-of-way or utility easement that connects an end user's building or property to an underground utility facility owner's or operator's facility.

"Submerged" means any facility installed below the surface of a lake, river, or navigable waterway.

"Tolerance zone" means:

(1) if the diameter of the underground utility facility is indicated, the distance of one-half of the known diameter plus one and one-half feet on either side of the designated center line of the underground utility facility marking;

(2) if the diameter of the underground utility facility is not indicated, one and one-half feet on either side of the outside edge of the underground utility facility marking; or

(3) if submerged, a distance of 30 feet on either side of the indicated facility.

The underground utility facility markings provided shall not indicate that the width of the marked underground utility facility is any greater than the

actual width of the underground utility facility or 2 inches, whichever is greater. The tolerance zone shall also apply to visible utility structures, including, but not limited to, poles with overhead to underground transitions, pedestals, transformers, meters, hydrants, and valve boxes. There shall be a one and one-half foot tolerance zone horizontally around such facilities.

"Underground utility facility" or "facility" means and includes wires, ducts, fiber optic cable, conduits, pipes, sewers, and cables and their connected appurtenances installed or existing beneath the surface of the ground or submerged and either owned, operated, or controlled by:

(1) a public utility as defined in the Public Utilities Act;

(2) a municipally owned or mutually owned utility providing a similar utility service;

(3) a pipeline entity transporting gases, crude oil, petroleum products, or other hydrocarbon materials within the State;

(4) a telecommunications carrier as defined in the Universal Telephone Service Protection Law of 1985, or by a company described in Section 1 of the Telephone Company Act;

(5) a community antenna television system, as defined in the Illinois Municipal Code or the Counties Code;

(6) a holder or broadband service, as those terms are

defined in the Cable and Video Competition Law of 2007;

(7) any other entity owning or operating underground facilities that transport or generate electrical power to other utility owners or operators;

(8) an electric cooperative as defined in the Public Utilities Act; and

(9) any other active member of JULIE.

(d) If, upon examination of the facility and investigation of persons responsible for care of children and, in the case of a foster home, taking into account information obtained for purposes of evaluating a preliminary application, if applicable, the Department is satisfied that the facility and responsible persons reasonably meet standards prescribed for the type of facility for which application is made, it shall issue a license in proper form, designating on that license the type of child care facility and, except for a child welfare agency, the number of children to be served at any one time.

Sec. 4. License requirement; application; notice; Department of Children and Family Services.

(a) Any person, group of persons or corporation who or which receives children or arranges for care or placement of one or more children unrelated to the operator must apply for a license to operate one of the types of facilities defined in Sections 2.05 through 2.19 (other than a day care center or day care home) and in Section 2.22 of this Act. Any relative, as defined in Section 2.17 of this Act, who receives a child or children for placement by the Department on a full-time basis may apply for a license to operate a foster family home as defined in Section 2.17 of this Act.

(a-5) Any agency, person, group of persons, association, organization, corporation, institution, center, or group providing adoption services must be licensed by the Department as a child welfare agency as defined in Section 2.08 of this Act. "Providing adoption services", as used in this Act, includes facilitating or engaging in adoption services.

(b) Application for a license to operate a child care facility (other than a day care center, day care home, or group day care home) must be made to the Department in the manner and on forms prescribed by it. An application to operate a foster family home shall include, at a minimum: a completed written form; written authorization by the applicant and all adult members of the applicant's household to conduct a criminal background investigation; medical evidence in the form of a medical report, on forms prescribed by the Department, that the applicant and all members of the household are free from

communicable diseases or physical and mental conditions that affect their ability to provide care for the child or children; the names and addresses of at least 3 persons not related to the applicant who can attest to the applicant's moral character; the name and address of at least one relative who can attest to the applicant's capability to care for the child or children; and fingerprints submitted by the applicant and all adult members of the applicant's household.

(b-5) Prior to submitting an application for a foster family home license, a quality of care concerns applicant as defined in Section 2.22a of this Act must submit a preliminary application to the Department in the manner and on forms prescribed by it. The Department shall explain to the quality of care concerns applicant the grounds for requiring a preliminary application. The preliminary application shall include a list of (i) all children placed in the home by the Department who were removed by the Department for reasons other than returning to a parent and the circumstances under which they were removed and (ii) all children placed by the Department who were subsequently adopted by or placed in the private guardianship of the quality of care concerns applicant who are currently under 18 and who no longer reside in the home and the reasons why they no longer reside in the home. The preliminary application shall also include, if the quality of care concerns applicant chooses to submit, (1) a response to the quality of care concerns, including any reason the

concerns are invalid, have been addressed or ameliorated, or no longer apply and (2) affirmative documentation demonstrating that the quality of care concerns applicant's home does not pose a risk to children and that the family will be able to meet the physical and emotional needs of children. The Department shall verify the information in the preliminary application and review (i) information regarding any prior licensing complaints, (ii) information regarding any prior child abuse or neglect investigations, (iii) information regarding any involuntary foster home holds placed on the home by the Department, and (iv) information regarding all child exit interviews, as provided in Section 5.26 of the Children and Family Services Act, regarding the home. Foster home applicants with quality of care concerns are presumed unsuitable for future licensure.

Notwithstanding the provisions of this subsection (b-5), the Department may make an exception and issue a foster family license to a quality of care concerns applicant if the Department is satisfied that the foster family home does not pose a risk to children and that the foster family will be able to meet the physical and emotional needs of children. In making this determination, the Department must obtain and carefully review all relevant documents and shall obtain consultation from its Clinical Division as appropriate and as prescribed by Department rule and procedure. The Department has the authority to deny a preliminary application based on

the record of quality of care concerns of the foster family home. In the alternative, the Department may (i) approve the preliminary application, (ii) approve the preliminary application subject to obtaining additional information or assessments, or (iii) approve the preliminary application for purposes of placing a particular child or children only in the foster family home. If the Department approves a preliminary application, the foster family shall submit an application for licensure as described in subsection (b) of this Section. The Department shall notify the quality of care concerns applicant of its decision and the basis for its decision in writing.

(c) The Department shall notify the public when a child care institution, maternity center, or group home licensed by the Department undergoes a change in (i) the range of care or services offered at the facility or (ii) the type of children served. The Department shall notify the public of the change in a newspaper of general circulation in the county or municipality in which the applicant's facility is or is proposed to be located.

(c-5) When a child care institution, maternity center, or a group home licensed by the Department undergoes a change in (i) the age of children served or (ii) the area within the facility used by children, the Department shall post information regarding proposed changes on its website as required by rule.

(d) If, upon examination of the facility and investigation

of persons responsible for care of children and, in the case of a foster home, taking into account information obtained for purposes of evaluating a preliminary application, if applicable, the Department is satisfied that the facility and responsible persons reasonably meet standards prescribed for the type of facility for which application is made, it shall issue a license in proper form, designating on that license the type of child care facility and, except for a child welfare agency, the number of children to be served at any one time.

(e) The Department shall not issue or renew the license of any child welfare agency providing adoption services, unless the agency (i) is officially recognized by the United States Internal Revenue Service as a tax-exempt organization described in Section 501(c)(3) of the Internal Revenue Code of 1986 (or any successor provision of federal tax law) and (ii) is in compliance with all of the standards necessary to maintain its status as an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986 (or any successor provision of federal tax law). The Department shall grant a grace period of 24 months from August 15, 2005 (the effective date of Public Act 94-586) ~~this amendatory Act of the 94th General Assembly~~ for existing child welfare agencies providing adoption services to obtain 501(c)(3) status. The Department shall permit an existing child welfare agency that converts from its current structure in order to be recognized as a 501(c)(3) organization as required by this Section to

either retain its current license or transfer its current license to a newly formed entity, if the creation of a new entity is required in order to comply with this Section, provided that the child welfare agency demonstrates that it continues to meet all other licensing requirements and that the principal officers and directors and programs of the converted child welfare agency or newly organized child welfare agency are substantially the same as the original. The Department shall have the sole discretion to grant a one-year ~~one-year~~ extension to any agency unable to obtain 501(c)(3) status within the timeframe specified in this subsection (e), provided that such agency has filed an application for 501(c)(3) status with the Internal Revenue Service within the 2-year timeframe specified in this subsection (e).

(f) The Department shall adopt rules to implement the changes to this Section made by Public Act 103-770 ~~this amendatory Act of the 103rd General Assembly~~ no later than January 1, 2025.

(b) In respect to day care homes, applications may be filed on behalf of such homes by the Department of Early Childhood.

(c) The Department of Early Childhood shall not allow any person to examine facilities under a provision of this Act who has not passed an examination demonstrating that such person is familiar with this Act and with the appropriate standards and regulations of the Department of Early Childhood.

(d) Licenses issued for day care centers, day care homes, and group day care homes shall be valid for 3 years from the date issued, unless revoked by the Department of Early Childhood or voluntarily surrendered by the licensee. When a licensee has made timely and sufficient application for the renewal of a license or a new license with reference to any activity of a continuing nature, the existing license shall continue in full force and effect for up to 30 days until the final agency decision on the application has been made. The Department of Early Childhood may further extend the period in which such decision must be made in individual cases for up to 30 days, but such extensions shall be only upon good cause shown.

(e) The Department of Early Childhood may issue one

6-month permit to a newly established facility for child care to allow that facility reasonable time to become eligible for a full license. If the facility for child care is a day care home the Department of Early Childhood may issue one 2-month permit only.

(f) The Department of Early Childhood may issue an emergency permit to a day care center taking in children as a result of the temporary closure for more than 2 weeks of a licensed child care facility due to a natural disaster. An emergency permit under this subsection shall be issued to a facility only if the persons providing child care services at the facility were employees of the temporarily closed day care center at the time it was closed. No investigation of an employee of a child care facility receiving an emergency permit under this subsection shall be required if that employee has previously been investigated at another child care facility. No emergency permit issued under this subsection shall be valid for more than 90 days after the date of issuance.

(g) During the hours of operation of any licensed day care center, day care home, or group day care home, authorized representatives of the Department of Early Childhood may without notice visit the facility for the purpose of determining its continuing compliance with this Act or rules adopted pursuant thereto.

(h) Day care centers, day care homes, and group day care

Sec. 19. Grounds for disciplinary action.

(1) The Department may refuse to issue or renew a license, or may suspend, revoke, place on probation, reprimand, or take any other disciplinary or non-disciplinary action deemed appropriate by the Department, including the imposition of fines not to exceed \$10,000 for each violation, with regard to any license issued under the provisions of this Act for any one or a combination of the following grounds:

(j) habitual or excessive use or abuse of drugs defined in law as controlled substances, of alcohol, or of any other substances that results in the inability to practice with reasonable judgment, skill, or safety;

(k) adverse action taken by another state or jurisdiction, if at least one of the grounds for the discipline is the same or substantially equivalent to those set forth in this Section;

(l) directly or indirectly giving to or receiving from

Nothing in this paragraph (1) affects any bona fide independent contractor or employment arrangements among health care professionals, health facilities, health care providers, or other entities, except as otherwise prohibited by law. Any employment arrangements may include provisions for compensation, health insurance, pension, or other employment benefits for the provision of services within the scope of the licensee's practice under this Act. Nothing in this paragraph (1) shall be construed to require an employment arrangement to receive professional fees for services rendered;

(v) being named as an abuser in a verified report by the Department on Aging under the Adult Protective Services Act, and upon proof by clear and convincing evidence that the licensee abused, neglected, or financially exploited an eligible adult as defined in the Adult Protective Services Act.

(2) (Blank).

(3) The determination by a court that a licensee is subject to involuntary admission or judicial admission as provided in the Mental Health and Developmental Disabilities Code, will result in an automatic suspension of the licensee's license. Such suspension will end upon a finding by a court that the licensee is no longer subject to involuntary admission or judicial admission and issues an order so finding and discharging the patient, and upon the recommendation of the Board to the Secretary that the licensee be allowed to resume professional practice.

(4) The Department shall refuse to issue or renew or may suspend the license of a person who (i) fails to file a return, pay the tax, penalty, or interest shown in a filed return, or pay any final assessment of tax, penalty, or interest, as required by any tax Act administered by the Department of Revenue, until the requirements of the tax Act are satisfied or (ii) has failed to pay any court-ordered child support as determined by a court order or by referral from the Department of Healthcare and Family Services.

(4.5) The Department shall not revoke, suspend, summarily suspend, place on prohibition, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against a license or permit issued under this Act based solely upon the licensed clinical social worker authorizing, recommending, aiding, assisting, referring for, or otherwise

participating in any health care service, so long as the care was not unlawful under the laws of this State, regardless of whether the patient was a resident of this State or another state.

(4.10) The Department shall not revoke, suspend, summarily suspend, place on prohibition, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against the license or permit issued under this Act to practice as a licensed clinical social worker based upon the licensed clinical social worker's license being revoked or suspended, or the licensed clinical social worker being otherwise disciplined by any other state, if that revocation, suspension, or other form of discipline was based solely on the licensed clinical social worker violating another state's laws prohibiting the provision of, authorization of, recommendation of, aiding or assisting in, referring for, or participation in any health care service if that health care service as provided would not have been unlawful under the laws of this State and is consistent with the standards of conduct for a licensed clinical social worker practicing in Illinois.

(4.15) The conduct specified in subsection (4.5), (4.10), (4.25), or (4.30) shall not constitute grounds for suspension under Section 32.

(4.20) An applicant seeking licensure, certification, or authorization pursuant to this Act who has been subject to

disciplinary action by a duly authorized professional disciplinary agency of another jurisdiction solely on the basis of having authorized, recommended, aided, assisted, referred for, or otherwise participated in health care shall not be denied such licensure, certification, or authorization, unless the Department determines that such action would have constituted professional misconduct in this State; however, nothing in this Section shall be construed as prohibiting the Department from evaluating the conduct of such applicant and making a determination regarding the licensure, certification, or authorization to practice a profession under this Act.

(4.25) The Department may not revoke, suspend, summarily suspend, place on prohibition, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against a license or permit issued under this Act based solely upon an immigration violation by the licensed clinical social worker.

(4.30) The Department may not revoke, suspend, summarily suspend, place on prohibition, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against the license or permit issued under this Act to practice as a licensed clinical social worker based upon the licensed clinical social worker's license being revoked or suspended, or the licensed clinical social worker being otherwise disciplined by any other state, if that revocation, suspension, or other form of discipline was based solely upon

an immigration violation by the licensed clinical social worker.

(5)(a) In enforcing this Section, the Department or Board, upon a showing of a possible violation, may compel a person licensed to practice under this Act, or who has applied for licensure under this Act, to submit to a mental or physical examination, or both, which may include a substance abuse or sexual offender evaluation, as required by and at the expense of the Department.

(b) The Department shall specifically designate the examining physician licensed to practice medicine in all of its branches or, if applicable, the multidisciplinary team involved in providing the mental or physical examination or both. The multidisciplinary team shall be led by a physician licensed to practice medicine in all of its branches and may consist of one or more or a combination of physicians licensed to practice medicine in all of its branches, licensed clinical psychologists, licensed clinical social workers, licensed clinical professional counselors, and other professional and administrative staff. Any examining physician or member of the multidisciplinary team may require any person ordered to submit to an examination pursuant to this Section to submit to any additional supplemental testing deemed necessary to complete any examination or evaluation process, including, but not limited to, blood testing, urinalysis, psychological testing, or neuropsychological testing.

(c) The Board or the Department may order the examining physician or any member of the multidisciplinary team to present testimony concerning this mental or physical examination of the licensee or applicant. No information, report, record, or other documents in any way related to the examination shall be excluded by reason of any common law or statutory privilege relating to communications between the licensee or applicant and the examining physician or any member of the multidisciplinary team. No authorization is necessary from the licensee or applicant ordered to undergo an examination for the examining physician or any member of the multidisciplinary team to provide information, reports, records, or other documents or to provide any testimony regarding the examination and evaluation.

(d) The person to be examined may have, at the person's own expense, another physician of the person's choice present during all aspects of the examination. However, that physician shall be present only to observe and may not interfere in any way with the examination.

(e) Failure of any person to submit to a mental or physical examination without reasonable cause, when ordered, shall result in an automatic suspension of the person's license until the person submits to the examination.

(f) If the Department or Board finds a person unable to practice because of the reasons set forth in this Section, the Department or Board may require that person to submit to care,

counseling, or treatment by physicians approved or designated by the Department or Board, as a condition, term, or restriction for continued, reinstated, or renewed licensure to practice; or, in lieu of care, counseling or treatment, the Department may file, or the Board may recommend to the Department to file, a complaint to immediately suspend, revoke, or otherwise discipline the license of the person. Any person whose license was granted, continued, reinstated, renewed, disciplined or supervised subject to such terms, conditions or restrictions, and who fails to comply with such terms, conditions, or restrictions, shall be referred to the Secretary for a determination as to whether the person's license shall be suspended immediately, pending a hearing by the Department.

(g) All fines imposed shall be paid within 60 days after the effective date of the order imposing the fine or in accordance with the terms set forth in the order imposing the fine.

In instances in which the Secretary immediately suspends a person's license under this Section, a hearing on that person's license must be convened by the Department within 30 days after the suspension and completed without appreciable delay. The Department and Board shall have the authority to review the subject person's record of treatment and counseling regarding the impairment, to the extent permitted by applicable federal statutes and regulations safeguarding the

confidentiality of medical records.

A person licensed under this Act and affected under this Section shall be afforded an opportunity to demonstrate to the Department or Board that the person can resume practice in compliance with acceptable and prevailing standards under the provisions of the person's license.

(h) The Department may adopt rules to implement the changes made by Public Act 102-1117 ~~this amendatory Act of the 102nd General Assembly.~~

(g) The determination by a circuit court that a licensee is subject to involuntary admission or judicial admission, as

provided in the Mental Health and Developmental Disabilities Code, operates as an automatic suspension. The suspension will end only upon a finding by a court that the patient is no longer subject to involuntary admission or judicial admission and the issuance of a court order so finding and discharging the patient.

(h) In enforcing this Act, the Department or Board, upon a showing of a possible violation, may compel an individual licensed to practice under this Act, or who has applied for licensure under this Act, to submit to a mental or physical examination, or both, as required by and at the expense of the Department. The Department or Board may order the examining physician to present testimony concerning the mental or physical examination of the licensee or applicant. No information shall be excluded by reason of any common law or statutory privilege relating to communications between the licensee or applicant and the examining physician. The examining physicians shall be specifically designated by the Board or Department. The individual to be examined may have, at his or her own expense, another physician of his or her choice present during all aspects of this examination. The examination shall be performed by a physician licensed to practice medicine in all its branches. Failure of an individual to submit to a mental or physical examination, when directed, shall result in an automatic suspension without hearing.

A person holding a license under this Act or who has applied for a license under this Act who, because of a physical or mental illness or disability, including, but not limited to, deterioration through the aging process or loss of motor skill, is unable to practice the profession with reasonable judgment, skill, or safety, may be required by the Department to submit to care, counseling, or treatment by physicians approved or designated by the Department as a condition, term, or restriction for continued, reinstated, or renewed licensure to practice. Submission to care, counseling, or treatment as required by the Department shall not be considered discipline of a license. If the licensee refuses to enter into a care, counseling, or treatment agreement or fails to abide by the terms of the agreement, the Department may file a complaint to revoke, suspend, or otherwise discipline the license of the individual. The Secretary may order the license suspended immediately, pending a hearing by the Department. Fines shall not be assessed in disciplinary actions involving physical or mental illness or impairment.

In instances in which the Secretary immediately suspends a person's license under this Section, a hearing on that person's license must be convened by the Department within 15 days after the suspension and completed without appreciable delay. The Department and Board shall have the authority to review the subject individual's record of treatment and counseling regarding the impairment to the extent permitted by

applicable federal statutes and regulations safeguarding the confidentiality of medical records.

An individual licensed under this Act and affected under this Section shall be afforded an opportunity to demonstrate to the Department or Board that he or she can resume practice in compliance with acceptable and prevailing standards under the provisions of his or her license.

Except for the grounds numbered (8), (9), (26), and (29), no action shall be commenced more than 10 years after the date of the incident or act alleged to have violated this Section. For actions involving the ground numbered (26), a pattern of practice or other behavior includes all incidents alleged to be part of the pattern of practice or other behavior that occurred, or a report pursuant to Section 23 of this Act received, within the 10-year period preceding the filing of the complaint. The time during which the holder of the license was outside the State of Illinois shall not be included within any period of time limiting the commencement of disciplinary action by the Department.

The entry of an order or judgment by any circuit court establishing that any person holding a license under this Act is a person in need of mental treatment operates as a suspension of that license. That person may resume his or her practice only upon the entry of a Departmental order based upon a finding by the Medical Board that the person has been determined to be recovered from mental illness by the court and upon the Medical Board's recommendation that the person be permitted to resume his or her practice.

The Department may refuse to issue or take disciplinary action concerning the license of any person who fails to file a return, or to pay the tax, penalty, or interest shown in a filed return, or to pay any final assessment of tax, penalty, or interest, as required by any tax Act administered by the Illinois Department of Revenue, until such time as the requirements of any such tax Act are satisfied as determined by the Illinois Department of Revenue.

The Department, upon the recommendation of the Medical

Board, shall adopt rules which set forth standards to be used in determining:

(a) when a person will be deemed sufficiently rehabilitated to warrant the public trust;

(b) what constitutes dishonorable, unethical, or unprofessional conduct of a character likely to deceive, defraud, or harm the public;

(c) what constitutes immoral conduct in the commission of any act, including, but not limited to, commission of an act of sexual misconduct related to the licensee's practice; and

(d) what constitutes gross negligence in the practice of medicine.

However, no such rule shall be admissible into evidence in any civil action except for review of a licensing or other disciplinary action under this Act.

In enforcing this Section, the Medical Board, upon a showing of a possible violation, may compel any individual who is licensed to practice under this Act or holds a permit to practice under this Act, or any individual who has applied for licensure or a permit pursuant to this Act, to submit to a mental or physical examination and evaluation, or both, which may include a substance abuse or sexual offender evaluation, as required by the Medical Board and at the expense of the Department. The Medical Board shall specifically designate the examining physician licensed to practice medicine in all of

its branches or, if applicable, the multidisciplinary team involved in providing the mental or physical examination and evaluation, or both. The multidisciplinary team shall be led by a physician licensed to practice medicine in all of its branches and may consist of one or more or a combination of physicians licensed to practice medicine in all of its branches, licensed chiropractic physicians, licensed clinical psychologists, licensed clinical social workers, licensed clinical professional counselors, and other professional and administrative staff. Any examining physician or member of the multidisciplinary team may require any person ordered to submit to an examination and evaluation pursuant to this Section to submit to any additional supplemental testing deemed necessary to complete any examination or evaluation process, including, but not limited to, blood testing, urinalysis, psychological testing, or neuropsychological testing. The Medical Board or the Department may order the examining physician or any member of the multidisciplinary team to provide to the Department or the Medical Board any and all records, including business records, that relate to the examination and evaluation, including any supplemental testing performed. The Medical Board or the Department may order the examining physician or any member of the multidisciplinary team to present testimony concerning this examination and evaluation of the licensee, permit holder, or applicant, including testimony concerning any supplemental testing or

documents relating to the examination and evaluation. No information, report, record, or other documents in any way related to the examination and evaluation shall be excluded by reason of any common law or statutory privilege relating to communication between the licensee, permit holder, or applicant and the examining physician or any member of the multidisciplinary team. No authorization is necessary from the licensee, permit holder, or applicant ordered to undergo an evaluation and examination for the examining physician or any member of the multidisciplinary team to provide information, reports, records, or other documents or to provide any testimony regarding the examination and evaluation. The individual to be examined may have, at his or her own expense, another physician of his or her choice present during all aspects of the examination. Failure of any individual to submit to mental or physical examination and evaluation, or both, when directed, shall result in an automatic suspension, without hearing, until such time as the individual submits to the examination. If the Medical Board finds a physician unable to practice following an examination and evaluation because of the reasons set forth in this Section, the Medical Board shall require such physician to submit to care, counseling, or treatment by physicians, or other health care professionals, approved or designated by the Medical Board, as a condition for issued, continued, reinstated, or renewed licensure to practice. Any physician, whose license was granted pursuant to

Section 9, 17, or 19 of this Act, or, continued, reinstated, renewed, disciplined, or supervised, subject to such terms, conditions, or restrictions who shall fail to comply with such terms, conditions, or restrictions, or to complete a required program of care, counseling, or treatment, as determined by the Chief Medical Coordinator or Deputy Medical Coordinators, shall be referred to the Secretary for a determination as to whether the licensee shall have his or her license suspended immediately, pending a hearing by the Medical Board. In instances in which the Secretary immediately suspends a license under this Section, a hearing upon such person's license must be convened by the Medical Board within 15 days after such suspension and completed without appreciable delay. The Medical Board shall have the authority to review the subject physician's record of treatment and counseling regarding the impairment, to the extent permitted by applicable federal statutes and regulations safeguarding the confidentiality of medical records.

An individual licensed under this Act, affected under this Section, shall be afforded an opportunity to demonstrate to the Medical Board that he or she can resume practice in compliance with acceptable and prevailing standards under the provisions of his or her license.

The Medical Board, in determining mental capacity of an individual licensed under this Act, shall consider the latest recommendations of the Federation of State Medical Boards.

The Department may promulgate rules for the imposition of fines in disciplinary cases, not to exceed \$10,000 for each violation of this Act. Fines may be imposed in conjunction with other forms of disciplinary action, but shall not be the exclusive disposition of any disciplinary action arising out of conduct resulting in death or injury to a patient. Any funds collected from such fines shall be deposited in the Illinois State Medical Disciplinary Fund.

All fines imposed under this Section shall be paid within 60 days after the effective date of the order imposing the fine or in accordance with the terms set forth in the order imposing the fine.

(B) The Department shall revoke the license or permit issued under this Act to practice medicine of ~~or~~ a chiropractic physician who has been convicted a second time of committing any felony under the Illinois Controlled Substances Act or the Methamphetamine Control and Community Protection Act, or who has been convicted a second time of committing a Class 1 felony under Sections 8A-3 and 8A-6 of the Illinois Public Aid Code. A person whose license or permit is revoked under this subsection (B) ~~B~~ shall be prohibited from practicing medicine or treating human ailments without the use of drugs and without operative surgery.

(C) The Department shall not revoke, suspend, place on probation, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against the

license or permit issued under this Act to practice medicine to a physician:

(1) based solely upon the recommendation of the physician to an eligible patient regarding, or prescription for, or treatment with, an investigational drug, biological product, or device;

(2) for experimental treatment for Lyme disease or other tick-borne diseases, including, but not limited to, the prescription of or treatment with long-term antibiotics;

(3) based solely upon the physician providing, authorizing, recommending, aiding, assisting, referring for, or otherwise participating in any health care service, so long as the care was not unlawful under the laws of this State, regardless of whether the patient was a resident of this State or another state; or

(4) based upon the physician's license being revoked or suspended, or the physician being otherwise disciplined by any other state, if that revocation, suspension, or other form of discipline was based solely on the physician violating another state's laws prohibiting the provision of, authorization of, recommendation of, aiding or assisting in, referring for, or participation in any health care service if that health care service as provided would not have been unlawful under the laws of this State and is consistent with the standards of conduct

for the physician if it occurred in Illinois.

(D) (Blank).

(E) The conduct specified in subsection (C) shall not trigger reporting requirements under Section 23, constitute grounds for suspension under Section 25, or be included on the physician's profile required under Section 10 of the Patients' Right to Know Act.

(F) An applicant seeking licensure, certification, or authorization pursuant to this Act and who has been subject to disciplinary action by a duly authorized professional disciplinary agency of another jurisdiction solely on the basis of having provided, authorized, recommended, aided, assisted, referred for, or otherwise participated in health care shall not be denied such licensure, certification, or authorization, unless the Department determines that the action would have constituted professional misconduct in this State; however, nothing in this Section shall be construed as prohibiting the Department from evaluating the conduct of the applicant and making a determination regarding the licensure, certification, or authorization to practice a profession under this Act.

(G) The Department may adopt rules to implement the changes made by Public Act 102-1117 ~~this amendatory Act of the 102nd General Assembly.~~

The examining physicians shall be specifically designated by the Board or Department. The individual to be examined may have, at his or her own expense, another physician of his or her choice present during all aspects of this examination. Failure of an individual to submit to a mental or physical examination, when directed, shall be grounds for suspension of his or her license until the individual submits to the examination if the Department finds, after notice and hearing, that the refusal to submit to the examination was without reasonable cause.

If the Department or Board finds an individual unable to practice because of the reasons set forth in this Section, the Department or Board may require that individual to submit to care, counseling, or treatment by physicians approved or designated by the Department or Board, as a condition, term, or restriction for continued, restored, or renewed licensure to practice; or, in lieu of care, counseling, or treatment, the Department may file, or the Board may recommend to the Department to file, a complaint to immediately suspend, revoke, or otherwise discipline the license of the individual. The Department and Board shall have the authority to review the subject individual's record of treatment and counseling regarding the impairment to the extent permitted by applicable federal statutes and regulations safeguarding the confidentiality of medical records.

An individual licensed under this Act and affected under this Section shall be afforded an opportunity to demonstrate to the Department or Board that he or she can resume practice in compliance with acceptable and prevailing standards under the provisions of his or her license.

(b-1) The Department shall not revoke, suspend, summarily suspend, place on probation, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against the license issued under this Act to practice as a registered surgical assistant or registered surgical technologist based solely upon the registered surgical assistant or registered surgical technologist providing, authorizing, recommending, aiding, assisting, referring for,

(b-2) The Department shall not revoke, suspend, summarily suspend, place on prohibition, reprimand, refuse to issue or renew, or take any other disciplinary or non-disciplinary action against the license issued under this Act to practice as a registered surgical assistant or registered surgical technologist based upon the registered surgical assistant's or registered surgical technologist's license being revoked or suspended, or the registered surgical assistant's or registered surgical technologist's being otherwise disciplined by any other state, if that revocation, suspension, or other form of discipline was based solely on the registered surgical assistant or registered surgical technologist violating another state's laws prohibiting the provision of, authorization of, recommendation of, aiding or assisting in, referring for, or participation in any health care service if that health care service as provided would not have been unlawful under the laws of this State and is consistent with the standards of conduct for the registered surgical assistant or registered surgical technologist practicing in this State.

(b-3) The conduct specified in subsection (b-1) or (b-2) shall not constitute grounds for suspension under Section 145.

(b-4) An applicant seeking licensure, certification, or

authorization pursuant to this Act who has been subject to disciplinary action by a duly authorized professional disciplinary agency of another jurisdiction solely on the basis of having provided, authorized, recommended, aided, assisted, referred for, or otherwise participated in health care shall not be denied such licensure, certification, or authorization, unless the Department determines that such action would have constituted professional misconduct in this State. (c) The determination by a circuit court that a registrant is subject to involuntary admission or judicial admission as provided in the Mental Health and Developmental Disabilities Code operates as an automatic suspension. (d) (Blank).

(e) In cases where the Department of Healthcare and Family Services has previously determined a registrant or a potential registrant is more than 30 days delinquent in the payment of

child support and has subsequently certified the delinquency to the Department, the Department may refuse to issue or renew or may revoke or suspend that person's registration or may take other disciplinary action against that person based solely upon the certification of delinquency made by the Department of Healthcare and Family Services in accordance with paragraph (5) of subsection (a) of Section 2105-15 of the Department of Professional Regulation Law of the Civil Administrative Code of Illinois.

(f) In enforcing this Section, the Department, upon a showing of a possible violation, may compel any individual registered under this Act or any individual who has applied for registration to submit to a mental or physical examination and evaluation, or both, that may include a substance abuse or sexual offender evaluation, at the expense of the Department. The Department shall specifically designate the examining physician licensed to practice medicine in all of its branches or, if applicable, the multidisciplinary team involved in providing the mental or physical examination and evaluation, or both. The multidisciplinary team shall be led by a physician licensed to practice medicine in all of its branches and may consist of one or more or a combination of physicians licensed to practice medicine in all of its branches, licensed chiropractic physicians, licensed clinical psychologists, licensed clinical social workers, licensed clinical professional counselors, and other professional and

The Department may order the examining physician or any member of the multidisciplinary team to provide to the Department any and all records, including business records, that relate to the examination and evaluation, including any supplemental testing performed. The Department may order the examining physician or any member of the multidisciplinary team to present testimony concerning this examination and evaluation of the registrant or applicant, including testimony concerning any supplemental testing or documents relating to the examination and evaluation. No information, report, record, or other documents in any way related to the examination and evaluation shall be excluded by reason of any common law or statutory privilege relating to communication between the registrant or applicant and the examining physician or any member of the multidisciplinary team. No authorization is necessary from the registrant or applicant ordered to undergo an evaluation and examination for the examining physician or any member of the multidisciplinary

team to provide information, reports, records, or other documents or to provide any testimony regarding the examination and evaluation. The individual to be examined may have, at the individual's own expense, another physician of the individual's choice present during all aspects of the examination.

Failure of any individual to submit to mental or physical examination and evaluation, or both, when directed, shall result in an automatic suspension without a hearing until such time as the individual submits to the examination. If the Department finds a registrant unable to practice because of the reasons set forth in this Section, the Department shall require such registrant to submit to care, counseling, or treatment by physicians approved or designated by the Department as a condition for continued, reinstated, or renewed registration.

When the Secretary immediately suspends a registration under this Section, a hearing upon such person's registration must be convened by the Department within 15 days after such suspension and completed without appreciable delay. The Department shall have the authority to review the registrant's record of treatment and counseling regarding the impairment to the extent permitted by applicable federal statutes and regulations safeguarding the confidentiality of medical records.

Individuals registered under this Act and affected under

this Section shall be afforded an opportunity to demonstrate to the Department that they can resume practice in compliance with acceptable and prevailing standards under the provisions of their registration.

(g) All fines imposed under this Section shall be paid within 60 days after the effective date of the order imposing the fine or in accordance with the terms set forth in the order imposing the fine.

(h) ~~(f)~~ The Department may adopt rules to implement the changes made by Public Act 102-1117.

Coverage under this paragraph shall be contingent upon federal approval.

Under any contract procured under this provision, the vendor or vendors must serve only individuals enrolled in a school within the CPS system. Claims for services provided by CPS's vendor or vendors to recipients

of benefits in the medical assistance program under this Code, the Children's Health Insurance Program, or the Covering ALL KIDS Health Insurance Program shall be submitted to the Department or the MCE in which the individual is enrolled for payment and shall be reimbursed at the Department's or the MCE's established rates or rate methodologies for eyeglasses.

On and after July 1, 2012, the Department of Healthcare and Family Services may provide the following services to persons eligible for assistance under this Article who are participating in education, training or employment programs operated by the Department of Human Services as successor to the Department of Public Aid:

As used in this paragraph, "dental services" means diagnostic, preventative, restorative, or corrective procedures, including procedures and services for the prevention and treatment of periodontal disease and dental caries disease, provided by an individual who is licensed to practice dentistry or dental surgery or who is under the

supervision of a dentist in the practice of his or her profession.

On and after July 1, 2018, targeted dental services, as set forth in Exhibit D of the Consent Decree entered by the United States District Court for the Northern District of Illinois, Eastern Division, in the matter of Memisovski v. Maram, Case No. 92 C 1982, that are provided to adults under the medical assistance program shall be established at no less than the rates set forth in the "New Rate" column in Exhibit D of the Consent Decree for targeted dental services that are provided to persons under the age of 18 under the medical assistance program.

Subject to federal approval, on and after January 1, 2025, the rates paid for sedation evaluation and the provision of deep sedation and intravenous sedation for the purpose of dental services shall be increased by 33% above the rates in effect on December 31, 2024. The rates paid for nitrous oxide sedation shall not be impacted by this paragraph and shall remain the same as the rates in effect on December 31, 2024.

Notwithstanding any other provision of this Code and subject to federal approval, the Department may adopt rules to allow a dentist who is volunteering his or her service at no cost to render dental services through an enrolled not-for-profit health clinic without the dentist personally enrolling as a participating provider in the medical assistance program. A not-for-profit health clinic shall

include a public health clinic or Federally Qualified Health Center or other enrolled provider, as determined by the Department, through which dental services covered under this Section are performed. The Department shall establish a process for payment of claims for reimbursement for covered dental services rendered under this provision.

Subject to appropriation and to federal approval, the Department shall file administrative rules updating the Handicapping Labio-Lingual Deviation orthodontic scoring tool by January 1, 2025, or as soon as practicable.

On and after January 1, 2022, the Department of Healthcare and Family Services shall administer and regulate a school-based dental program that allows for the out-of-office delivery of preventative dental services in a school setting to children under 19 years of age. The Department shall establish, by rule, guidelines for participation by providers and set requirements for follow-up referral care based on the requirements established in the Dental Office Reference Manual published by the Department that establishes the requirements for dentists participating in the All Kids Dental School Program. Every effort shall be made by the Department when developing the program requirements to consider the different geographic differences of both urban and rural areas of the State for initial treatment and necessary follow-up care. No provider shall be charged a fee by any unit of local government to participate in the school-based dental program administered

by the Department. Nothing in this paragraph shall be construed to limit or preempt a home rule unit's or school district's authority to establish, change, or administer a school-based dental program in addition to, or independent of, the school-based dental program administered by the Department.

The Illinois Department, by rule, may distinguish and classify the medical services to be provided only in accordance with the classes of persons designated in Section 5-2.

The Department of Healthcare and Family Services must provide coverage and reimbursement for amino acid-based elemental formulas, regardless of delivery method, for the diagnosis and treatment of (i) eosinophilic disorders and (ii) short bowel syndrome when the prescribing physician has issued a written order stating that the amino acid-based elemental formula is medically necessary.

The Illinois Department shall authorize the provision of, and shall authorize payment for, screening by low-dose mammography for the presence of occult breast cancer for individuals 35 years of age or older who are eligible for medical assistance under this Article, as follows:

(A) A baseline mammogram for individuals 35 to 39 years of age.

(B) An annual mammogram for individuals 40 years of age or older.

(C) A mammogram at the age and intervals considered medically necessary by the individual's health care provider for individuals under 40 years of age and having a family history of breast cancer, prior personal history of breast cancer, positive genetic testing, or other risk factors.

(D) A comprehensive ultrasound screening and MRI of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or when medically necessary as determined by a physician licensed to practice medicine in all of its branches.

(E) A screening MRI when medically necessary, as determined by a physician licensed to practice medicine in all of its branches.

(F) A diagnostic mammogram when medically necessary, as determined by a physician licensed to practice medicine in all its branches, advanced practice registered nurse, or physician assistant.

The Department shall not impose a deductible, coinsurance, copayment, or any other cost-sharing requirement on the coverage provided under this paragraph; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

All screenings shall include a physical breast exam, instruction on self-examination and information regarding the frequency of self-examination and its value as a preventative tool.

For purposes of this Section:

"Diagnostic mammogram" means a mammogram obtained using diagnostic mammography.

"Diagnostic mammography" means a method of screening that is designed to evaluate an abnormality in a breast, including an abnormality seen or suspected on a screening mammogram or a subjective or objective abnormality otherwise detected in the breast.

"Low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with an average radiation exposure delivery of less than one rad per breast for 2 views of an average size breast. The term also includes digital mammography and includes breast tomosynthesis.

"Breast tomosynthesis" means a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in

the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this paragraph, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this paragraph.

On and after January 1, 2016, the Department shall ensure that all networks of care for adult clients of the Department include access to at least one breast imaging Center of Imaging Excellence as certified by the American College of Radiology.

On and after January 1, 2012, providers participating in a quality improvement program approved by the Department shall be reimbursed for screening and diagnostic mammography at the same rate as the Medicare program's rates, including the increased reimbursement for digital mammography and, after January 1, 2023 (the effective date of Public Act 102-1018), breast tomosynthesis.

The Department shall convene an expert panel including

representatives of hospitals, free-standing mammography facilities, and doctors, including radiologists, to establish quality standards for mammography.

On and after January 1, 2017, providers participating in a breast cancer treatment quality improvement program approved by the Department shall be reimbursed for breast cancer treatment at a rate that is no lower than 95% of the Medicare program's rates for the data elements included in the breast cancer treatment quality program.

The Department shall convene an expert panel, including representatives of hospitals, free-standing breast cancer treatment centers, breast cancer quality organizations, and doctors, including breast surgeons, reconstructive breast surgeons, oncologists, and primary care providers to establish quality standards for breast cancer treatment.

Subject to federal approval, the Department shall establish a rate methodology for mammography at federally qualified health centers and other encounter-rate clinics. These clinics or centers may also collaborate with other hospital-based mammography facilities. By January 1, 2016, the Department shall report to the General Assembly on the status of the provision set forth in this paragraph.

The Department shall establish a methodology to remind individuals who are age-appropriate for screening mammography, but who have not received a mammogram within the previous 18 months, of the importance and benefit of screening

mammography. The Department shall work with experts in breast cancer outreach and patient navigation to optimize these reminders and shall establish a methodology for evaluating their effectiveness and modifying the methodology based on the evaluation.

The Department shall establish a performance goal for primary care providers with respect to their female patients over age 40 receiving an annual mammogram. This performance goal shall be used to provide additional reimbursement in the form of a quality performance bonus to primary care providers who meet that goal.

The Department shall devise a means of case-managing or patient navigation for beneficiaries diagnosed with breast cancer. This program shall initially operate as a pilot program in areas of the State with the highest incidence of mortality related to breast cancer. At least one pilot program site shall be in the metropolitan Chicago area and at least one site shall be outside the metropolitan Chicago area. On or after July 1, 2016, the pilot program shall be expanded to include one site in western Illinois, one site in southern Illinois, one site in central Illinois, and 4 sites within metropolitan Chicago. An evaluation of the pilot program shall be carried out measuring health outcomes and cost of care for those served by the pilot program compared to similarly situated patients who are not served by the pilot program.

The Department shall require all networks of care to

develop a means either internally or by contract with experts in navigation and community outreach to navigate cancer patients to comprehensive care in a timely fashion. The Department shall require all networks of care to include access for patients diagnosed with cancer to at least one academic commission on cancer-accredited cancer program as an in-network covered benefit.

The Department shall provide coverage and reimbursement for a human papillomavirus (HPV) vaccine that is approved for marketing by the federal Food and Drug Administration for all persons between the ages of 9 and 45. Subject to federal approval, the Department shall provide coverage and reimbursement for a human papillomavirus (HPV) vaccine for persons of the age of 46 and above who have been diagnosed with cervical dysplasia with a high risk of recurrence or progression. The Department shall disallow any preauthorization requirements for the administration of the human papillomavirus (HPV) vaccine.

On or after July 1, 2022, individuals who are otherwise eligible for medical assistance under this Article shall receive coverage for perinatal depression screenings for the 12-month period beginning on the last day of their pregnancy. Medical assistance coverage under this paragraph shall be conditioned on the use of a screening instrument approved by the Department.

Any medical or health care provider shall immediately

recommend, to any pregnant individual who is being provided prenatal services and is suspected of having a substance use disorder as defined in the Substance Use Disorder Act, referral to a local substance use disorder treatment program licensed by the Department of Human Services or to a licensed hospital which provides substance abuse treatment services. The Department of Healthcare and Family Services shall assure coverage for the cost of treatment of the drug abuse or addiction for pregnant recipients in accordance with the Illinois Medicaid Program in conjunction with the Department of Human Services.

All medical providers providing medical assistance to pregnant individuals under this Code shall receive information from the Department on the availability of services under any program providing case management services for addicted individuals, including information on appropriate referrals for other social services that may be needed by addicted individuals in addition to treatment for addiction.

The Illinois Department, in cooperation with the Departments of Human Services (as successor to the Department of Alcoholism and Substance Abuse) and Public Health, through a public awareness campaign, may provide information concerning treatment for alcoholism and drug abuse and addiction, prenatal health care, and other pertinent programs directed at reducing the number of drug-affected infants born to recipients of medical assistance.

Neither the Department of Healthcare and Family Services nor the Department of Human Services shall sanction the recipient solely on the basis of the recipient's substance abuse.

The Illinois Department shall establish such regulations governing the dispensing of health services under this Article as it shall deem appropriate. The Department should seek the advice of formal professional advisory committees appointed by the Director of the Illinois Department for the purpose of providing regular advice on policy and administrative matters, information dissemination and educational activities for medical and health care providers, and consistency in procedures to the Illinois Department.

The Illinois Department may develop and contract with Partnerships of medical providers to arrange medical services for persons eligible under Section 5-2 of this Code. Implementation of this Section may be by demonstration projects in certain geographic areas. The Partnership shall be represented by a sponsor organization. The Department, by rule, shall develop qualifications for sponsors of Partnerships. Nothing in this Section shall be construed to require that the sponsor organization be a medical organization.

The sponsor must negotiate formal written contracts with medical providers for physician services, inpatient and outpatient hospital care, home health services, treatment for

alcoholism and substance abuse, and other services determined necessary by the Illinois Department by rule for delivery by Partnerships. Physician services must include prenatal and obstetrical care. The Illinois Department shall reimburse medical services delivered by Partnership providers to clients in target areas according to provisions of this Article and the Illinois Health Finance Reform Act, except that:

(1) Physicians participating in a Partnership and providing certain services, which shall be determined by the Illinois Department, to persons in areas covered by the Partnership may receive an additional surcharge for such services.

(2) The Department may elect to consider and negotiate financial incentives to encourage the development of Partnerships and the efficient delivery of medical care.

(3) Persons receiving medical services through Partnerships may receive medical and case management services above the level usually offered through the medical assistance program.

Medical providers shall be required to meet certain qualifications to participate in Partnerships to ensure the delivery of high quality medical services. These qualifications shall be determined by rule of the Illinois Department and may be higher than qualifications for participation in the medical assistance program. Partnership sponsors may prescribe reasonable additional qualifications

for participation by medical providers, only with the prior written approval of the Illinois Department.

Nothing in this Section shall limit the free choice of practitioners, hospitals, and other providers of medical services by clients. In order to ensure patient freedom of choice, the Illinois Department shall immediately promulgate all rules and take all other necessary actions so that provided services may be accessed from therapeutically certified optometrists to the full extent of the Illinois Optometric Practice Act of 1987 without discriminating between service providers.

The Department shall apply for a waiver from the United States Health Care Financing Administration to allow for the implementation of Partnerships under this Section.

The Illinois Department shall require health care providers to maintain records that document the medical care and services provided to recipients of Medical Assistance under this Article. Such records must be retained for a period of not less than 6 years from the date of service or as provided by applicable State law, whichever period is longer, except that if an audit is initiated within the required retention period then the records must be retained until the audit is completed and every exception is resolved. The Illinois Department shall require health care providers to make available, when authorized by the patient, in writing, the medical records in a timely fashion to other health care

providers who are treating or serving persons eligible for Medical Assistance under this Article. All dispensers of medical services shall be required to maintain and retain business and professional records sufficient to fully and accurately document the nature, scope, details and receipt of the health care provided to persons eligible for medical assistance under this Code, in accordance with regulations promulgated by the Illinois Department. The rules and regulations shall require that proof of the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses by eligible persons under this Section accompany each claim for reimbursement submitted by the dispenser of such medical services. No such claims for reimbursement shall be approved for payment by the Illinois Department without such proof of receipt, unless the Illinois Department shall have put into effect and shall be operating a system of post-payment audit and review which shall, on a sampling basis, be deemed adequate by the Illinois Department to assure that such drugs, dentures, prosthetic devices and eyeglasses for which payment is being made are actually being received by eligible recipients. Within 90 days after September 16, 1984 (the effective date of Public Act 83-1439), the Illinois Department shall establish a current list of acquisition costs for all prosthetic devices and any other items recognized as medical equipment and supplies reimbursable under this Article and shall update such list on a quarterly basis, except that

the acquisition costs of all prescription drugs shall be updated no less frequently than every 30 days as required by Section 5-5.12.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after July 22, 2013 (the effective date of Public Act 98-104), establish procedures to permit skilled care facilities licensed under the Nursing Home Care Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall, by July 1, 2016, test the viability of the new system and implement any necessary operational or structural changes to its information technology platforms in order to allow for the direct acceptance and payment of nursing home claims.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after August 15, 2014 (the effective date of Public Act 98-963), establish procedures to permit ID/DD facilities licensed under the ID/DD Community Care Act and MC/DD facilities licensed under the MC/DD Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall have an additional 365 days to test the viability of the new system and to ensure that any necessary operational or structural changes to its information technology platforms are implemented.

The Illinois Department shall require all dispensers of

medical services, other than an individual practitioner or group of practitioners, desiring to participate in the Medical Assistance program established under this Article to disclose all financial, beneficial, ownership, equity, surety or other interests in any and all firms, corporations, partnerships, associations, business enterprises, joint ventures, agencies, institutions or other legal entities providing any form of health care services in this State under this Article.

The Illinois Department may require that all dispensers of medical services desiring to participate in the medical assistance program established under this Article disclose, under such terms and conditions as the Illinois Department may by rule establish, all inquiries from clients and attorneys regarding medical bills paid by the Illinois Department, which inquiries could indicate potential existence of claims or liens for the Illinois Department.

Enrollment of a vendor shall be subject to a provisional period and shall be conditional for one year. During the period of conditional enrollment, the Department may terminate the vendor's eligibility to participate in, or may disenroll the vendor from, the medical assistance program without cause. Unless otherwise specified, such termination of eligibility or disenrollment is not subject to the Department's hearing process. However, a disenrolled vendor may reapply without penalty.

The Department has the discretion to limit the conditional

enrollment period for vendors based upon the category of risk of the vendor.

Prior to enrollment and during the conditional enrollment period in the medical assistance program, all vendors shall be subject to enhanced oversight, screening, and review based on the risk of fraud, waste, and abuse that is posed by the category of risk of the vendor. The Illinois Department shall establish the procedures for oversight, screening, and review, which may include, but need not be limited to: criminal and financial background checks; fingerprinting; license, certification, and authorization verifications; unscheduled or unannounced site visits; database checks; prepayment audit reviews; audits; payment caps; payment suspensions; and other screening as required by federal or State law.

The Department shall define or specify the following: (i) by provider notice, the "category of risk of the vendor" for each type of vendor, which shall take into account the level of screening applicable to a particular category of vendor under federal law and regulations; (ii) by rule or provider notice, the maximum length of the conditional enrollment period for each category of risk of the vendor; and (iii) by rule, the hearing rights, if any, afforded to a vendor in each category of risk of the vendor that is terminated or disenrolled during the conditional enrollment period.

To be eligible for payment consideration, a vendor's payment claim or bill, either as an initial claim or as a

resubmitted claim following prior rejection, must be received by the Illinois Department, or its fiscal intermediary, no later than 180 days after the latest date on the claim on which medical goods or services were provided, with the following exceptions:

(1) In the case of a provider whose enrollment is in process by the Illinois Department, the 180-day period shall not begin until the date on the written notice from the Illinois Department that the provider enrollment is complete.

(2) In the case of errors attributable to the Illinois Department or any of its claims processing intermediaries which result in an inability to receive, process, or adjudicate a claim, the 180-day period shall not begin until the provider has been notified of the error.

(3) In the case of a provider for whom the Illinois Department initiates the monthly billing process.

(4) In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments.

For claims for services rendered during a period for which a recipient received retroactive eligibility, claims must be filed within 180 days after the Department determines the applicant is eligible. For claims for which the Illinois Department is not the primary payer, claims must be submitted

to the Illinois Department within 180 days after the final adjudication by the primary payer.

In the case of long term care facilities, within 120 calendar days of receipt by the facility of required prescreening information, new admissions with associated admission documents shall be submitted through the Medical Electronic Data Interchange (MEDI) or the Recipient Eligibility Verification (REV) System or shall be submitted directly to the Department of Human Services using required admission forms. Effective September 1, 2014, admission documents, including all prescreening information, must be submitted through MEDI or REV. Confirmation numbers assigned to an accepted transaction shall be retained by a facility to verify timely submittal. Once an admission transaction has been completed, all resubmitted claims following prior rejection are subject to receipt no later than 180 days after the admission transaction has been completed.

Claims that are not submitted and received in compliance with the foregoing requirements shall not be eligible for payment under the medical assistance program, and the State shall have no liability for payment of those claims.

To the extent consistent with applicable information and privacy, security, and disclosure laws, State and federal agencies and departments shall provide the Illinois Department access to confidential and other information and data necessary to perform eligibility and payment verifications and

other Illinois Department functions. This includes, but is not limited to: information pertaining to licensure; certification; earnings; immigration status; citizenship; wage reporting; unearned and earned income; pension income; employment; supplemental security income; social security numbers; National Provider Identifier (NPI) numbers; the National Practitioner Data Bank (NPDB); program and agency exclusions; taxpayer identification numbers; tax delinquency; corporate information; and death records.

The Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, under which such agencies and departments shall share data necessary for medical assistance program integrity functions and oversight. The Illinois Department shall develop, in cooperation with other State departments and agencies, and in compliance with applicable federal laws and regulations, appropriate and effective methods to share such data. At a minimum, and to the extent necessary to provide data sharing, the Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, including, but not limited to: the Secretary of State; the Department of Revenue; the Department of Public Health; the Department of Human Services; and the Department of Financial and Professional Regulation.

Beginning in fiscal year 2013, the Illinois Department shall set forth a request for information to identify the benefits of a pre-payment, post-adjudication, and post-edit claims system with the goals of streamlining claims processing and provider reimbursement, reducing the number of pending or rejected claims, and helping to ensure a more transparent adjudication process through the utilization of: (i) provider data verification and provider screening technology; and (ii) clinical code editing; and (iii) pre-pay, pre-adjudicated, or post-adjudicated predictive modeling with an integrated case management system with link analysis. Such a request for information shall not be considered as a request for proposal or as an obligation on the part of the Illinois Department to take any action or acquire any products or services.

The Illinois Department shall establish policies, procedures, standards and criteria by rule for the acquisition, repair and replacement of orthotic and prosthetic devices and durable medical equipment. Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. Subject to prior approval, such rules shall enable a recipient to temporarily acquire and use

alternative or substitute devices or equipment pending repairs or replacements of any device or equipment previously authorized for such recipient by the Department. Notwithstanding any provision of Section 5-5f to the contrary, the Department may, by rule, exempt certain replacement wheelchair parts from prior approval and, for wheelchairs, wheelchair parts, wheelchair accessories, and related seating and positioning items, determine the wholesale price by methods other than actual acquisition costs.

The Department shall require, by rule, all providers of durable medical equipment to be accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services and recognized by the Department in order to bill the Department for providing durable medical equipment to recipients. No later than 15 months after the effective date of the rule adopted pursuant to this paragraph, all providers must meet the accreditation requirement.

In order to promote environmental responsibility, meet the needs of recipients and enrollees, and achieve significant cost savings, the Department, or a managed care organization under contract with the Department, may provide recipients or managed care enrollees who have a prescription or Certificate of Medical Necessity access to refurbished durable medical equipment under this Section (excluding prosthetic and orthotic devices as defined in the Orthotics, Prosthetics, and Pedorthics Practice Act and complex rehabilitation technology

products and associated services) through the State's assistive technology program's reutilization program, using staff with the Assistive Technology Professional (ATP) Certification if the refurbished durable medical equipment: (i) is available; (ii) is less expensive, including shipping costs, than new durable medical equipment of the same type; (iii) is able to withstand at least 3 years of use; (iv) is cleaned, disinfected, sterilized, and safe in accordance with federal Food and Drug Administration regulations and guidance governing the reprocessing of medical devices in health care settings; and (v) equally meets the needs of the recipient or enrollee. The reutilization program shall confirm that the recipient or enrollee is not already in receipt of the same or similar equipment from another service provider, and that the refurbished durable medical equipment equally meets the needs of the recipient or enrollee. Nothing in this paragraph shall be construed to limit recipient or enrollee choice to obtain new durable medical equipment or place any additional prior authorization conditions on enrollees of managed care organizations.

The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department on Aging, to effect the following: (i) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (ii) the establishment and

development of non-institutional services in areas of the State where they are not currently available or are undeveloped; and (iii) notwithstanding any other provision of law, subject to federal approval, on and after July 1, 2012, an increase in the determination of need (DON) scores from 29 to 37 for applicants for institutional and home and community-based long term care; if and only if federal approval is not granted, the Department may, in conjunction with other affected agencies, implement utilization controls or changes in benefit packages to effectuate a similar savings amount for this population; and (iv) no later than July 1, 2013, minimum level of care eligibility criteria for institutional and home and community-based long term care; and (v) no later than October 1, 2013, establish procedures to permit long term care providers access to eligibility scores for individuals with an admission date who are seeking or receiving services from the long term care provider. In order to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

The Illinois Department shall develop and operate, in

The Illinois Department may, however, impose other appropriate requirements regarding laboratory test order documentation.

Upon receipt of federal approval of an amendment to the Illinois Title XIX State Plan for this purpose, the Department shall authorize the Chicago Public Schools (CPS) to procure a vendor or vendors to manufacture eyeglasses for individuals enrolled in a school within the CPS system. CPS shall ensure that its vendor or vendors are enrolled as providers in the medical assistance program and in any capitated Medicaid managed care entity (MCE) serving individuals enrolled in a school within the CPS system. Maram, Case No. 92 C 1982, that are provided to adults under the medical assistance program shall be established at no less than the rates set forth in the "New Rate" column in Exhibit D of the Consent Decree for targeted dental services that are provided to persons under the age of 18 under the medical assistance program.

Subject to federal approval, on and after January 1, 2025, the rates paid for sedation evaluation and the provision of deep sedation and intravenous sedation for the purpose of dental services shall be increased by 33% above the rates in effect on December 31, 2024. The rates paid for nitrous oxide sedation shall not be impacted by this paragraph and shall remain the same as the rates in effect on December 31, 2024.

Notwithstanding any other provision of this Code and subject to federal approval, the Department may adopt rules to allow a dentist who is volunteering his or her service at no cost to render dental services through an enrolled not-for-profit health clinic without the dentist personally enrolling as a participating provider in the medical

assistance program. A not-for-profit health clinic shall include a public health clinic or Federally Qualified Health Center or other enrolled provider, as determined by the Department, through which dental services covered under this Section are performed. The Department shall establish a process for payment of claims for reimbursement for covered dental services rendered under this provision.

On and after January 1, 2022, the Department of Healthcare and Family Services shall administer and regulate a school-based dental program that allows for the out-of-office delivery of preventative dental services in a school setting to children under 19 years of age. The Department shall establish, by rule, guidelines for participation by providers and set requirements for follow-up referral care based on the requirements established in the Dental Office Reference Manual published by the Department that establishes the requirements for dentists participating in the All Kids Dental School Program. Every effort shall be made by the Department when developing the program requirements to consider the different geographic differences of both urban and rural areas of the State for initial treatment and necessary follow-up care. No provider shall be charged a fee by any unit of local government

to participate in the school-based dental program administered by the Department. Nothing in this paragraph shall be construed to limit or preempt a home rule unit's or school district's authority to establish, change, or administer a school-based dental program in addition to, or independent of, the school-based dental program administered by the Department.

The Illinois Department, by rule, may distinguish and classify the medical services to be provided only in accordance with the classes of persons designated in Section 5-2.

The Department of Healthcare and Family Services must provide coverage and reimbursement for amino acid-based elemental formulas, regardless of delivery method, for the diagnosis and treatment of (i) eosinophilic disorders and (ii) short bowel syndrome when the prescribing physician has issued a written order stating that the amino acid-based elemental formula is medically necessary.

(F) A diagnostic mammogram when medically necessary, as determined by a physician licensed to practice medicine in all its branches, advanced practice registered nurse, or physician assistant.

(G) Molecular breast imaging (MBI) and MRI of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or when medically necessary as determined by a physician licensed to practice medicine in all of its branches, advanced practice registered nurse, or physician assistant.

The Department shall not impose a deductible, coinsurance,

copayment, or any other cost-sharing requirement on the coverage provided under this paragraph; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

All screenings shall include a physical breast exam, instruction on self-examination and information regarding the frequency of self-examination and its value as a preventative tool.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this paragraph, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this paragraph.

On and after January 1, 2016, the Department shall ensure that all networks of care for adult clients of the Department include access to at least one breast imaging Center of Imaging Excellence as certified by the American College of Radiology.

On and after January 1, 2012, providers participating in a

quality improvement program approved by the Department shall be reimbursed for screening and diagnostic mammography at the same rate as the Medicare program's rates, including the increased reimbursement for digital mammography and, after January 1, 2023 (the effective date of Public Act 102-1018), breast tomosynthesis.

The Department shall convene an expert panel including representatives of hospitals, free-standing mammography facilities, and doctors, including radiologists, to establish quality standards for mammography.

On and after January 1, 2017, providers participating in a breast cancer treatment quality improvement program approved by the Department shall be reimbursed for breast cancer treatment at a rate that is no lower than 95% of the Medicare program's rates for the data elements included in the breast cancer treatment quality program.

The Department shall convene an expert panel, including representatives of hospitals, free-standing breast cancer treatment centers, breast cancer quality organizations, and doctors, including radiologists that are trained in all forms of FDA-approved ~~FDA-approved~~ breast imaging technologies, breast surgeons, reconstructive breast surgeons, oncologists, and primary care providers to establish quality standards for breast cancer treatment.

Subject to federal approval, the Department shall establish a rate methodology for mammography at federally

qualified health centers and other encounter-rate clinics. These clinics or centers may also collaborate with other hospital-based mammography facilities. By January 1, 2016, the Department shall report to the General Assembly on the status of the provision set forth in this paragraph.

The Department shall establish a methodology to remind individuals who are age-appropriate for screening mammography, but who have not received a mammogram within the previous 18 months, of the importance and benefit of screening mammography. The Department shall work with experts in breast cancer outreach and patient navigation to optimize these reminders and shall establish a methodology for evaluating their effectiveness and modifying the methodology based on the evaluation.

The Department shall establish a performance goal for primary care providers with respect to their female patients over age 40 receiving an annual mammogram. This performance goal shall be used to provide additional reimbursement in the form of a quality performance bonus to primary care providers who meet that goal.

The Department shall devise a means of case-managing or patient navigation for beneficiaries diagnosed with breast cancer. This program shall initially operate as a pilot program in areas of the State with the highest incidence of mortality related to breast cancer. At least one pilot program site shall be in the metropolitan Chicago area and at least one

site shall be outside the metropolitan Chicago area. On or after July 1, 2016, the pilot program shall be expanded to include one site in western Illinois, one site in southern Illinois, one site in central Illinois, and 4 sites within metropolitan Chicago. An evaluation of the pilot program shall be carried out measuring health outcomes and cost of care for those served by the pilot program compared to similarly situated patients who are not served by the pilot program.

The Department shall require all networks of care to develop a means either internally or by contract with experts in navigation and community outreach to navigate cancer patients to comprehensive care in a timely fashion. The Department shall require all networks of care to include access for patients diagnosed with cancer to at least one academic commission on cancer-accredited cancer program as an in-network covered benefit.

The Department shall provide coverage and reimbursement for a human papillomavirus (HPV) vaccine that is approved for marketing by the federal Food and Drug Administration for all persons between the ages of 9 and 45. Subject to federal approval, the Department shall provide coverage and reimbursement for a human papillomavirus (HPV) vaccine for persons of the age of 46 and above who have been diagnosed with cervical dysplasia with a high risk of recurrence or progression. The Department shall disallow any preauthorization requirements for the administration of the

human papillomavirus (HPV) vaccine.

On or after July 1, 2022, individuals who are otherwise eligible for medical assistance under this Article shall receive coverage for perinatal depression screenings for the 12-month period beginning on the last day of their pregnancy. Medical assistance coverage under this paragraph shall be conditioned on the use of a screening instrument approved by the Department.

Any medical or health care provider shall immediately recommend, to any pregnant individual who is being provided prenatal services and is suspected of having a substance use disorder as defined in the Substance Use Disorder Act, referral to a local substance use disorder treatment program licensed by the Department of Human Services or to a licensed hospital which provides substance abuse treatment services. The Department of Healthcare and Family Services shall assure coverage for the cost of treatment of the drug abuse or addiction for pregnant recipients in accordance with the Illinois Medicaid Program in conjunction with the Department of Human Services.

All medical providers providing medical assistance to pregnant individuals under this Code shall receive information from the Department on the availability of services under any program providing case management services for addicted individuals, including information on appropriate referrals for other social services that may be needed by addicted

individuals in addition to treatment for addiction.

The Illinois Department, in cooperation with the Departments of Human Services (as successor to the Department of Alcoholism and Substance Abuse) and Public Health, through a public awareness campaign, may provide information concerning treatment for alcoholism and drug abuse and addiction, prenatal health care, and other pertinent programs directed at reducing the number of drug-affected infants born to recipients of medical assistance.

Neither the Department of Healthcare and Family Services nor the Department of Human Services shall sanction the recipient solely on the basis of the recipient's substance abuse.

The Illinois Department shall establish such regulations governing the dispensing of health services under this Article as it shall deem appropriate. The Department should seek the advice of formal professional advisory committees appointed by the Director of the Illinois Department for the purpose of providing regular advice on policy and administrative matters, information dissemination and educational activities for medical and health care providers, and consistency in procedures to the Illinois Department.

The Illinois Department may develop and contract with Partnerships of medical providers to arrange medical services for persons eligible under Section 5-2 of this Code. Implementation of this Section may be by demonstration

projects in certain geographic areas. The Partnership shall be represented by a sponsor organization. The Department, by rule, shall develop qualifications for sponsors of Partnerships. Nothing in this Section shall be construed to require that the sponsor organization be a medical organization.

The sponsor must negotiate formal written contracts with medical providers for physician services, inpatient and outpatient hospital care, home health services, treatment for alcoholism and substance abuse, and other services determined necessary by the Illinois Department by rule for delivery by Partnerships. Physician services must include prenatal and obstetrical care. The Illinois Department shall reimburse medical services delivered by Partnership providers to clients in target areas according to provisions of this Article and the Illinois Health Finance Reform Act, except that:

(1) Physicians participating in a Partnership and providing certain services, which shall be determined by the Illinois Department, to persons in areas covered by the Partnership may receive an additional surcharge for such services.

(2) The Department may elect to consider and negotiate financial incentives to encourage the development of Partnerships and the efficient delivery of medical care.

(3) Persons receiving medical services through Partnerships may receive medical and case management

services above the level usually offered through the medical assistance program.

Medical providers shall be required to meet certain qualifications to participate in Partnerships to ensure the delivery of high quality medical services. These qualifications shall be determined by rule of the Illinois Department and may be higher than qualifications for participation in the medical assistance program. Partnership sponsors may prescribe reasonable additional qualifications for participation by medical providers, only with the prior written approval of the Illinois Department.

Nothing in this Section shall limit the free choice of practitioners, hospitals, and other providers of medical services by clients. In order to ensure patient freedom of choice, the Illinois Department shall immediately promulgate all rules and take all other necessary actions so that provided services may be accessed from therapeutically certified optometrists to the full extent of the Illinois Optometric Practice Act of 1987 without discriminating between service providers.

The Department shall apply for a waiver from the United States Health Care Financing Administration to allow for the implementation of Partnerships under this Section.

The Illinois Department shall require health care providers to maintain records that document the medical care and services provided to recipients of Medical Assistance

under this Article. Such records must be retained for a period of not less than 6 years from the date of service or as provided by applicable State law, whichever period is longer, except that if an audit is initiated within the required retention period then the records must be retained until the audit is completed and every exception is resolved. The Illinois Department shall require health care providers to make available, when authorized by the patient, in writing, the medical records in a timely fashion to other health care providers who are treating or serving persons eligible for Medical Assistance under this Article. All dispensers of medical services shall be required to maintain and retain business and professional records sufficient to fully and accurately document the nature, scope, details and receipt of the health care provided to persons eligible for medical assistance under this Code, in accordance with regulations promulgated by the Illinois Department. The rules and regulations shall require that proof of the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses by eligible persons under this Section accompany each claim for reimbursement submitted by the dispenser of such medical services. No such claims for reimbursement shall be approved for payment by the Illinois Department without such proof of receipt, unless the Illinois Department shall have put into effect and shall be operating a system of post-payment audit and review which shall, on a sampling

basis, be deemed adequate by the Illinois Department to assure that such drugs, dentures, prosthetic devices and eyeglasses for which payment is being made are actually being received by eligible recipients. Within 90 days after September 16, 1984 (the effective date of Public Act 83-1439), the Illinois Department shall establish a current list of acquisition costs for all prosthetic devices and any other items recognized as medical equipment and supplies reimbursable under this Article and shall update such list on a quarterly basis, except that the acquisition costs of all prescription drugs shall be updated no less frequently than every 30 days as required by Section 5-5.12.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after July 22, 2013 (the effective date of Public Act 98-104), establish procedures to permit skilled care facilities licensed under the Nursing Home Care Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall, by July 1, 2016, test the viability of the new system and implement any necessary operational or structural changes to its information technology platforms in order to allow for the direct acceptance and payment of nursing home claims.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after August 15, 2014 (the effective date of Public Act 98-963), establish

procedures to permit ID/DD facilities licensed under the ID/DD Community Care Act and MC/DD facilities licensed under the MC/DD Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall have an additional 365 days to test the viability of the new system and to ensure that any necessary operational or structural changes to its information technology platforms are implemented.

The Illinois Department shall require all dispensers of medical services, other than an individual practitioner or group of practitioners, desiring to participate in the Medical Assistance program established under this Article to disclose all financial, beneficial, ownership, equity, surety or other interests in any and all firms, corporations, partnerships, associations, business enterprises, joint ventures, agencies, institutions or other legal entities providing any form of health care services in this State under this Article.

The Illinois Department may require that all dispensers of medical services desiring to participate in the medical assistance program established under this Article disclose, under such terms and conditions as the Illinois Department may by rule establish, all inquiries from clients and attorneys regarding medical bills paid by the Illinois Department, which inquiries could indicate potential existence of claims or liens for the Illinois Department.

Enrollment of a vendor shall be subject to a provisional

period and shall be conditional for one year. During the period of conditional enrollment, the Department may terminate the vendor's eligibility to participate in, or may disenroll the vendor from, the medical assistance program without cause. Unless otherwise specified, such termination of eligibility or disenrollment is not subject to the Department's hearing process. However, a disenrolled vendor may reapply without penalty.

The Department has the discretion to limit the conditional enrollment period for vendors based upon the category of risk of the vendor.

Prior to enrollment and during the conditional enrollment period in the medical assistance program, all vendors shall be subject to enhanced oversight, screening, and review based on the risk of fraud, waste, and abuse that is posed by the category of risk of the vendor. The Illinois Department shall establish the procedures for oversight, screening, and review, which may include, but need not be limited to: criminal and financial background checks; fingerprinting; license, certification, and authorization verifications; unscheduled or unannounced site visits; database checks; prepayment audit reviews; audits; payment caps; payment suspensions; and other screening as required by federal or State law.

The Department shall define or specify the following: (i) by provider notice, the "category of risk of the vendor" for each type of vendor, which shall take into account the level of

screening applicable to a particular category of vendor under federal law and regulations; (ii) by rule or provider notice, the maximum length of the conditional enrollment period for each category of risk of the vendor; and (iii) by rule, the hearing rights, if any, afforded to a vendor in each category of risk of the vendor that is terminated or disenrolled during the conditional enrollment period.

To be eligible for payment consideration, a vendor's payment claim or bill, either as an initial claim or as a resubmitted claim following prior rejection, must be received by the Illinois Department, or its fiscal intermediary, no later than 180 days after the latest date on the claim on which medical goods or services were provided, with the following exceptions:

(1) In the case of a provider whose enrollment is in process by the Illinois Department, the 180-day period shall not begin until the date on the written notice from the Illinois Department that the provider enrollment is complete.

(2) In the case of errors attributable to the Illinois Department or any of its claims processing intermediaries which result in an inability to receive, process, or adjudicate a claim, the 180-day period shall not begin until the provider has been notified of the error.

(3) In the case of a provider for whom the Illinois Department initiates the monthly billing process.

(4) In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments.

For claims for services rendered during a period for which a recipient received retroactive eligibility, claims must be filed within 180 days after the Department determines the applicant is eligible. For claims for which the Illinois Department is not the primary payer, claims must be submitted to the Illinois Department within 180 days after the final adjudication by the primary payer.

In the case of long term care facilities, within 120 calendar days of receipt by the facility of required prescreening information, new admissions with associated admission documents shall be submitted through the Medical Electronic Data Interchange (MEDI) or the Recipient Eligibility Verification (REV) System or shall be submitted directly to the Department of Human Services using required admission forms. Effective September 1, 2014, admission documents, including all prescreening information, must be submitted through MEDI or REV. Confirmation numbers assigned to an accepted transaction shall be retained by a facility to verify timely submittal. Once an admission transaction has been completed, all resubmitted claims following prior rejection are subject to receipt no later than 180 days after the admission transaction has been completed.

Claims that are not submitted and received in compliance with the foregoing requirements shall not be eligible for payment under the medical assistance program, and the State shall have no liability for payment of those claims.

To the extent consistent with applicable information and privacy, security, and disclosure laws, State and federal agencies and departments shall provide the Illinois Department access to confidential and other information and data necessary to perform eligibility and payment verifications and other Illinois Department functions. This includes, but is not limited to: information pertaining to licensure; certification; earnings; immigration status; citizenship; wage reporting; unearned and earned income; pension income; employment; supplemental security income; social security numbers; National Provider Identifier (NPI) numbers; the National Practitioner Data Bank (NPDB); program and agency exclusions; taxpayer identification numbers; tax delinquency; corporate information; and death records.

The Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, under which such agencies and departments shall share data necessary for medical assistance program integrity functions and oversight. The Illinois Department shall develop, in cooperation with other State departments and agencies, and in compliance with applicable federal laws and regulations,

appropriate and effective methods to share such data. At a minimum, and to the extent necessary to provide data sharing, the Illinois Department shall enter into agreements with State agencies and departments, and is authorized to enter into agreements with federal agencies and departments, including, but not limited to: the Secretary of State; the Department of Revenue; the Department of Public Health; the Department of Human Services; and the Department of Financial and Professional Regulation.

Beginning in fiscal year 2013, the Illinois Department shall set forth a request for information to identify the benefits of a pre-payment, post-adjudication, and post-edit claims system with the goals of streamlining claims processing and provider reimbursement, reducing the number of pending or rejected claims, and helping to ensure a more transparent adjudication process through the utilization of: (i) provider data verification and provider screening technology; and (ii) clinical code editing; and (iii) pre-pay, pre-adjudicated, or post-adjudicated predictive modeling with an integrated case management system with link analysis. Such a request for information shall not be considered as a request for proposal or as an obligation on the part of the Illinois Department to take any action or acquire any products or services.

The Illinois Department shall establish policies, procedures, standards and criteria by rule for the acquisition, repair and replacement of orthotic and prosthetic

devices and durable medical equipment. Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. Subject to prior approval, such rules shall enable a recipient to temporarily acquire and use alternative or substitute devices or equipment pending repairs or replacements of any device or equipment previously authorized for such recipient by the Department. Notwithstanding any provision of Section 5-5f to the contrary, the Department may, by rule, exempt certain replacement wheelchair parts from prior approval and, for wheelchairs, wheelchair parts, wheelchair accessories, and related seating and positioning items, determine the wholesale price by methods other than actual acquisition costs.

The Department shall require, by rule, all providers of durable medical equipment to be accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services and recognized by the Department in order to bill the Department for providing durable medical equipment to recipients. No later than 15 months after the effective date of the rule adopted pursuant to this paragraph, all providers must meet the accreditation requirement.

In order to promote environmental responsibility, meet the needs of recipients and enrollees, and achieve significant cost savings, the Department, or a managed care organization under contract with the Department, may provide recipients or managed care enrollees who have a prescription or Certificate of Medical Necessity access to refurbished durable medical equipment under this Section (excluding prosthetic and orthotic devices as defined in the Orthotics, Prosthetics, and Pedorthics Practice Act and complex rehabilitation technology products and associated services) through the State's assistive technology program's reutilization program, using staff with the Assistive Technology Professional (ATP) Certification if the refurbished durable medical equipment: (i) is available; (ii) is less expensive, including shipping costs, than new durable medical equipment of the same type; (iii) is able to withstand at least 3 years of use; (iv) is cleaned, disinfected, sterilized, and safe in accordance with federal Food and Drug Administration regulations and guidance governing the reprocessing of medical devices in health care settings; and (v) equally meets the needs of the recipient or enrollee. The reutilization program shall confirm that the recipient or enrollee is not already in receipt of the same or similar equipment from another service provider, and that the refurbished durable medical equipment equally meets the needs of the recipient or enrollee. Nothing in this paragraph shall be construed to limit recipient or enrollee choice to obtain

new durable medical equipment or place any additional prior authorization conditions on enrollees of managed care organizations.

The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department on Aging, to effect the following: (i) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (ii) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped; and (iii) notwithstanding any other provision of law, subject to federal approval, on and after July 1, 2012, an increase in the determination of need (DON) scores from 29 to 37 for applicants for institutional and home and community-based long term care; if and only if federal approval is not granted, the Department may, in conjunction with other affected agencies, implement utilization controls or changes in benefit packages to effectuate a similar savings amount for this population; and (iv) no later than July 1, 2013, minimum level of care eligibility criteria for institutional and home and community-based long term care; and (v) no later than October 1, 2013, establish procedures to permit long term care providers access to eligibility scores for individuals with an admission date who are seeking or receiving services from the long term care provider. In order

to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

The Illinois Department shall develop and operate, in cooperation with other State Departments and agencies and in compliance with applicable federal laws and regulations, appropriate and effective systems of health care evaluation and programs for monitoring of utilization of health care services and facilities, as it affects persons eligible for medical assistance under this Code.

renal disease who are not eligible for comprehensive medical benefits, who meet the residency requirements of Section 5-3 of this Code, and who would otherwise meet the financial requirements of the appropriate class of eligible persons under Section 5-2 of this Code. To qualify for coverage of kidney transplantation, such person must be receiving emergency renal dialysis services covered by the Department. Sec. 5-5.01a. Supportive living facilities program.

(a) The Department shall establish and provide oversight for a program of supportive living facilities that seek to promote resident independence, dignity, respect, and well-being in the most cost-effective manner.

A supportive living facility is (i) a free-standing facility or (ii) a distinct physical and operational entity within a mixed-use building that meets the criteria established in subsection (d). A supportive living facility integrates housing with health, personal care, and supportive services and is a designated setting that offers residents their own separate, private, and distinct living units.

Sites for the operation of the program shall be selected by the Department based upon criteria that may include the need for services in a geographic area, the availability of funding, and the site's ability to meet the standards.

(b) Beginning July 1, 2014, subject to federal approval, the Medicaid rates for supportive living facilities shall be equal to the supportive living facility Medicaid rate effective on June 30, 2014 increased by 8.85%. Once the assessment imposed at Article V-G of this Code is determined to be a permissible tax under Title XIX of the Social Security Act, the Department shall increase the Medicaid rates for supportive living facilities effective on July 1, 2014 by 9.09%. The Department shall apply this increase retroactively to coincide with the imposition of the assessment in Article V-G of this Code in accordance with the approval for federal financial participation by the Centers for Medicare and Medicaid Services.

The Medicaid rates for supportive living facilities effective on July 1, 2017 must be equal to the rates in effect for supportive living facilities on June 30, 2017 increased by 2.8%.

The Medicaid rates for supportive living facilities effective on July 1, 2018 must be equal to the rates in effect for supportive living facilities on June 30, 2018.

Subject to federal approval, the Medicaid rates for supportive living services on and after July 1, 2019 must be at least 54.3% of the average total nursing facility services per diem for the geographic areas defined by the Department while maintaining the rate differential for dementia care and must be updated whenever the total nursing facility service per

diems are updated. Beginning July 1, 2022, upon the implementation of the Patient Driven Payment Model, Medicaid rates for supportive living services must be at least 54.3% of the average total nursing services per diem rate for the geographic areas. For purposes of this provision, the average total nursing services per diem rate shall include all add-ons for nursing facilities for the geographic area provided for in Section 5-5.2. The rate differential for dementia care must be maintained in these rates and the rates shall be updated whenever nursing facility per diem rates are updated.

Subject to federal approval, beginning January 1, 2024, the dementia care rate for supportive living services must be no less than the non-dementia care supportive living services rate multiplied by 1.5.

(b-5) Subject to federal approval, beginning January 1, 2025, Medicaid rates for supportive living services must be at least 54.75% of the average total nursing services per diem rate for the geographic areas defined by the Department and shall include all add-ons for nursing facilities for the geographic area provided for in Section 5-5.2.

(c) The Department may adopt rules to implement this Section. Rules that establish or modify the services, standards, and conditions for participation in the program shall be adopted by the Department in consultation with the Department on Aging, the Department of Rehabilitation Services, and the Department of Mental Health and

Developmental Disabilities (or their successor agencies).

(d) Subject to federal approval by the Centers for Medicare and Medicaid Services, the Department shall accept for consideration of certification under the program any application for a site or building where distinct parts of the site or building are designated for purposes other than the provision of supportive living services, but only if:

(1) those distinct parts of the site or building are not designated for the purpose of providing assisted living services as required under the Assisted Living and Shared Housing Act;

(2) those distinct parts of the site or building are completely separate from the part of the building used for the provision of supportive living program services, including separate entrances;

(3) those distinct parts of the site or building do not share any common spaces with the part of the building used for the provision of supportive living program services; and

(4) those distinct parts of the site or building do not share staffing with the part of the building used for the provision of supportive living program services.

(e) Facilities or distinct parts of facilities which are selected as supportive living facilities and are in good standing with the Department's rules are exempt from the provisions of the Nursing Home Care Act and the Illinois

Health Facilities Planning Act.

Subject to federal approval, including the approval of any necessary waiver amendments or other federally required documents or assurances, for a 12-month period the Department must pay a supplemental \$26 per diem rate to all supportive living facilities with the additional federal financial participation funds that result from the enhanced federal medical assistance percentage from April 1, 2021 through March 31, 2022. The Department may issue parameters around how the supplemental payment should be spent, including quality improvement activities. The Department may alter the form, methods, or timeframes concerning the supplemental per diem rate to comply with any subsequent changes to federal law, changes made by guidance issued by the federal Centers for Medicare and Medicaid Services, or other changes necessary to receive the enhanced federal medical assistance percentage.

(g) All applications for the expansion of supportive living dementia care settings involving sites not approved by the Department by January 1, 2024 ~~(Public Act 103-102)~~ may allow new elderly non-dementia units in addition to new dementia care units. The Department may approve such applications only if the application has: (1) no more than one

non-dementia care unit for each dementia care unit and (2) the site is not located within 4 miles of an existing supportive living program site in Cook County (including the City of Chicago), not located within 12 miles of an existing supportive living program site in Alexander, Bond, Boone, Calhoun, Champaign, Clinton, DeKalb, DuPage, Fulton, Grundy, Henry, Jackson, Jersey, Johnson, Kane, Kankakee, Kendall, Lake, Macon, Macoupin, Madison, Marshall, McHenry, McLean, Menard, Mercer, Monroe, Peoria, Piatt, Rock Island, Sangamon, Stark, St. Clair, Tazewell, Vermilion, Will, Williamson, Winnebago, or Woodford counties, or not located within 25 miles of an existing supportive living program site in any other county.

(h) Beginning January 1, 2025, subject to federal approval, for a person who is a resident of a supportive living facility under this Section, the monthly personal needs allowance shall be \$120 per month.

(i) ~~(h)~~ As stated in the supportive living program home and community-based service waiver approved by the federal Centers for Medicare and Medicaid Services, and beginning July 1, 2025, the Department must maintain the rate add-on implemented on January 1, 2023 for the provision of 2 meals per day at no less than \$6.15 per day.

(j) ~~(f)~~ Subject to federal approval, the Department shall allow a certified medication aide to administer medication in a supportive living facility. For purposes of this subsection,

"certified medication aide" means a person who has met the qualifications for certification under Section 79 of the Assisted Living and Shared Housing Act and assists with medication administration while under the supervision of a registered professional nurse as authorized by Section 50-75 of the Nurse Practice Act. (b) Remote ultrasounds and remote fetal nonstress tests

are only eligible for reimbursement when the provider uses digital technology:

(1) to collect medical and other forms of health data from a patient and to electronically transmit that information securely to a health care provider in a different location for interpretation and recommendation;

For dates of service on and after January 1, 2025, the Department shall pay negotiated, agreed upon administrative fees associated with implementing telehealth services for persons with intellectual and developmental disabilities who are receiving Community Integrated Living Arrangement residential services under the Home and Community-Based Services Waiver Program for Adults with Developmental Disabilities. The implementation of telehealth

services shall not impede the choice of any individual receiving waiver-funded services through the Home and Community-Based Services Waiver Program for Adults with Developmental Disabilities to receive in-person health care services at any time. The Department shall ensure individuals enrolled in the waiver, or their guardians, request to opt in ~~opt in~~ to these services. (305 ILCS 5/5-30.1)

Sec. 5-30.1. Managed care protections.

(a) As used in this Section:

"Managed care organization" or "MCO" means any entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis.

"Emergency services" means health care items and services, including inpatient and outpatient hospital services, furnished or required to evaluate and stabilize an emergency medical condition. "Emergency services" include inpatient stabilization services furnished during the inpatient stabilization period. "Emergency services" do not include post-stabilization medical services.

"Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, regardless of the final diagnosis given, such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:

- (1) placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;

- (2) serious impairment to bodily functions;

- (3) serious dysfunction of any bodily organ or part;

- (4) inadequately controlled pain; or

- (5) with respect to a pregnant woman who is having contractions:

- (A) inadequate time to complete a safe transfer to another hospital before delivery; or

- (B) a transfer to another hospital may pose a threat to the health or safety of the woman or unborn child.

"Emergency medical screening examination" means a medical screening examination and evaluation by a physician licensed to practice medicine in all its branches or, to the extent permitted by applicable laws, by other appropriately licensed personnel under the supervision of or in collaboration with a physician licensed to practice medicine in all its branches to determine whether the need for emergency services exists.

"Health care services" mean any medical or behavioral health services covered under the medical assistance program that are subject to review under a service authorization program.

"Inpatient stabilization period" means the initial 72 hours of inpatient stabilization services, beginning from the date and time of the order for inpatient admission to the hospital.

"Inpatient stabilization services" mean emergency services furnished in the inpatient setting at a hospital pursuant to an order for inpatient admission by a physician or other qualified practitioner who has admitting privileges at the hospital, as permitted by State law, to stabilize an emergency medical condition following an emergency medical screening examination.

"Post-stabilization medical services" means health care services provided to an enrollee that are furnished in a hospital by a provider that is qualified to furnish such services and determined to be medically necessary by the provider and directly related to the emergency medical condition following stabilization.

"Provider" means a facility or individual who is actively enrolled in the medical assistance program and licensed or otherwise authorized to order, prescribe, refer, or render health care services in this State.

"Service authorization determination" means a decision

made by a service authorization program in advance of, concurrent to, or after the provision of a health care service to approve, change the level of care, partially deny, deny, or otherwise limit coverage and reimbursement for a health care service upon review of a service authorization request.

"Service authorization program" means any utilization review, utilization management, peer review, quality review, or other medical management activity conducted by an MCO, or its contracted utilization review organization, including, but not limited to, prior authorization, prior approval, pre-certification, concurrent review, retrospective review, or certification of admission, of health care services provided in the inpatient or outpatient hospital setting.

"Service authorization request" means a request by a provider to a service authorization program to determine whether a health care service meets the reimbursement eligibility requirements for medically necessary, clinically appropriate care, resulting in the issuance of a service authorization determination.

"Utilization review organization" or "URO" means an MCO's utilization review department or a peer review organization or quality improvement organization that contracts with an MCO to administer a service authorization program and make service authorization determinations.

(b) As provided by Section 5-16.12, managed care organizations are subject to the provisions of the Managed

Care Reform and Patient Rights Act.

(c) An MCO shall pay any provider of emergency services, including for inpatient stabilization services provided during the inpatient stabilization period, that does not have in effect a contract with the contracted Medicaid MCO. The default rate of reimbursement shall be the rate paid under Illinois Medicaid fee-for-service program methodology, including all policy adjusters, including but not limited to Medicaid High Volume Adjustments, Medicaid Percentage Adjustments, Outpatient High Volume Adjustments, and all outlier add-on adjustments to the extent such adjustments are incorporated in the development of the applicable MCO capitated rates.

(d) (Blank).

(e) Notwithstanding any other provision of law, the following requirements apply to MCOs in determining payment for all emergency services, including inpatient stabilization services provided during the inpatient stabilization period:

(1) The MCO shall not impose any service authorization program requirements for emergency services, including, but not limited to, prior authorization, prior approval, pre-certification, certification of admission, concurrent review, or retrospective review.

(A) Notification period: Hospitals shall notify the enrollee's Medicaid MCO within 48 hours of the date and time the order for inpatient admission is

written. Notification shall be limited to advising the MCO that the patient has been admitted to a hospital inpatient level of care.

(B) If the admitting hospital complies with the notification provisions of subparagraph (A), the Medicaid MCO may not initiate concurrent review before the end of the inpatient stabilization period. If the admitting hospital does not comply with the notification requirements in subparagraph (A), the Medicaid MCO may initiate concurrent review for the continuation of the stay beginning at the end of the 48-hour notification period.

(C) Coverage for services provided during the 48-hour notification period may not be retrospectively denied.

(2) The MCO shall cover emergency services provided to enrollees who are temporarily away from their residence and outside the contracting area to the extent that the enrollees would be entitled to the emergency services if they still were within the contracting area.

(3) The MCO shall have no obligation to cover emergency services provided on an emergency basis that are not covered services under the contract between the MCO and the Department.

(4) The MCO shall not condition coverage for emergency services on the treating provider notifying the MCO of the

enrollee's emergency medical screening examination and treatment within 10 days after presentation for emergency services.

(5) The determination of the attending emergency physician, or the practitioner responsible for the enrollee's care at the hospital, of whether an enrollee requires inpatient stabilization services, can be stabilized in the outpatient setting, or is sufficiently stabilized for discharge or transfer to another setting, shall be binding on the MCO. The MCO shall cover and reimburse providers for emergency services as billed by the provider for all enrollees whether the emergency services are provided by an affiliated or non-affiliated provider, except in cases of fraud. The MCO shall reimburse inpatient stabilization services provided during the inpatient stabilization period and billed as inpatient level of care based on the appropriate inpatient reimbursement methodology.

(6) The MCO's financial responsibility for post-stabilization medical services it has not pre-approved ends when:

(A) a plan physician with privileges at the treating hospital assumes responsibility for the enrollee's care;

(B) a plan physician assumes responsibility for the enrollee's care through transfer;

(C) a contracting entity representative and the treating physician reach an agreement concerning the enrollee's care; or

(D) the enrollee is discharged.

(e-5) An MCO shall pay for all post-stabilization medical services as a covered service in any of the following situations:

(1) the MCO or its URO authorized such services;

(2) such services were administered to maintain the enrollee's stabilized condition within one hour after a request to the MCO for authorization of further post-stabilization services;

(3) the MCO or its URO did not respond to a request to authorize such services within one hour;

(4) the MCO or its URO could not be contacted; or

(5) the MCO or its URO and the treating provider, if the treating provider is a non-affiliated provider, could not reach an agreement concerning the enrollee's care and an affiliated provider was unavailable for a consultation, in which case the MCO must pay for such services rendered by the treating non-affiliated provider until an affiliated provider was reached and either concurred with the treating non-affiliated provider's plan of care or assumed responsibility for the enrollee's care. Such payment shall be made at the default rate of reimbursement paid under the State's Medicaid fee-for-service program

methodology, including all policy adjusters, including, but not limited to, Medicaid High Volume Adjustments, Medicaid Percentage Adjustments, Outpatient High Volume Adjustments, and all outlier add-on adjustments to the extent that such adjustments are incorporated in the development of the applicable MCO capitated rates.

(f) Network adequacy and transparency.

(1) The Department shall:

(A) ensure that an adequate provider network is in place, taking into consideration health professional shortage areas and medically underserved areas;

(B) publicly release an explanation of its process for analyzing network adequacy;

(C) periodically ensure that an MCO continues to have an adequate network in place;

(D) require MCOs, including Medicaid Managed Care Entities as defined in Section 5-30.2, to meet provider directory requirements under Section 5-30.3;

(E) require MCOs to ensure that any Medicaid-certified provider under contract with an MCO and previously submitted on a roster on the date of service is paid for any medically necessary, Medicaid-covered, and authorized service rendered to any of the MCO's enrollees, regardless of inclusion on the MCO's published and publicly available directory of available providers; and

(F) require MCOs, including Medicaid Managed Care Entities as defined in Section 5-30.2, to meet each of the requirements under subsection (d-5) of Section 10 of the Network Adequacy and Transparency Act; with necessary exceptions to the MCO's network to ensure that admission and treatment with a provider or at a treatment facility in accordance with the network adequacy standards in paragraph (3) of subsection (d-5) of Section 10 of the Network Adequacy and Transparency Act is limited to providers or facilities that are Medicaid certified.

(2) Each MCO shall confirm its receipt of information submitted specific to physician or dentist additions or physician or dentist deletions from the MCO's provider network within 3 days after receiving all required information from contracted physicians or dentists, and electronic physician and dental directories must be updated consistent with current rules as published by the Centers for Medicare and Medicaid Services or its successor agency.

(g) Timely payment of claims.

(1) The MCO shall pay a claim within 30 days of receiving a claim that contains all the essential information needed to adjudicate the claim.

(2) The MCO shall notify the billing party of its inability to adjudicate a claim within 30 days of

receiving that claim.

(3) The MCO shall pay a penalty that is at least equal to the timely payment interest penalty imposed under Section 368a of the Illinois Insurance Code for any claims not timely paid.

(A) When an MCO is required to pay a timely payment interest penalty to a provider, the MCO must calculate and pay the timely payment interest penalty that is due to the provider within 30 days after the payment of the claim. In no event shall a provider be required to request or apply for payment of any owed timely payment interest penalties.

(B) Such payments shall be reported separately from the claim payment for services rendered to the MCO's enrollee and clearly identified as interest payments.

(4) (A) The Department shall require MCOs to expedite payments to providers identified on the Department's expedited provider list, determined in accordance with 89 Ill. Adm. Code 140.71(b), on a schedule at least as frequently as the providers are paid under the Department's fee-for-service expedited provider schedule.

(B) Compliance with the expedited provider requirement may be satisfied by an MCO through the use of a Periodic Interim Payment (PIP) program that has been mutually agreed to and documented between the MCO and the provider,

if the PIP program ensures that any expedited provider receives regular and periodic payments based on prior period payment experience from that MCO. Total payments under the PIP program may be reconciled against future PIP payments on a schedule mutually agreed to between the MCO and the provider.

(C) The Department shall share at least monthly its expedited provider list and the frequency with which it pays providers on the expedited list.

(g-5) Recognizing that the rapid transformation of the Illinois Medicaid program may have unintended operational challenges for both payers and providers:

(1) in no instance shall a medically necessary covered service rendered in good faith, based upon eligibility information documented by the provider, be denied coverage or diminished in payment amount if the eligibility or coverage information available at the time the service was rendered is later found to be inaccurate in the assignment of coverage responsibility between MCOs or the fee-for-service system, except for instances when an individual is deemed to have not been eligible for coverage under the Illinois Medicaid program; and

(2) the Department shall, by December 31, 2016, adopt rules establishing policies that shall be included in the Medicaid managed care policy and procedures manual addressing payment resolutions in situations in which a

provider renders services based upon information obtained after verifying a patient's eligibility and coverage plan through either the Department's current enrollment system or a system operated by the coverage plan identified by the patient presenting for services:

(A) such medically necessary covered services shall be considered rendered in good faith;

(B) such policies and procedures shall be developed in consultation with industry representatives of the Medicaid managed care health plans and representatives of provider associations representing the majority of providers within the identified provider industry; and

(C) such rules shall be published for a review and comment period of no less than 30 days on the Department's website with final rules remaining available on the Department's website.

The rules on payment resolutions shall include, but not be limited to:

(A) the extension of the timely filing period;

(B) retroactive prior authorizations; and

(C) guaranteed minimum payment rate of no less than the current, as of the date of service, fee-for-service rate, plus all applicable add-ons, when the resulting service relationship is out of network.

The rules shall be applicable for both MCO coverage and fee-for-service coverage.

If the fee-for-service system is ultimately determined to have been responsible for coverage on the date of service, the Department shall provide for an extended period for claims submission outside the standard timely filing requirements.

(g-6) MCO Performance Metrics Report.

(1) The Department shall publish, on at least a quarterly basis, each MCO's operational performance, including, but not limited to, the following categories of metrics:

(A) claims payment, including timeliness and accuracy;

(B) prior authorizations;

(C) grievance and appeals;

(D) utilization statistics;

(E) provider disputes;

(F) provider credentialing; and

(G) member and provider customer service.

(2) The Department shall ensure that the metrics report is accessible to providers online by January 1, 2017.

(3) The metrics shall be developed in consultation with industry representatives of the Medicaid managed care health plans and representatives of associations representing the majority of providers within the

identified industry.

(4) Metrics shall be defined and incorporated into the applicable Managed Care Policy Manual issued by the Department.

(g-7) MCO claims processing and performance analysis. In order to monitor MCO payments to hospital providers, pursuant to Public Act 100-580, the Department shall post an analysis of MCO claims processing and payment performance on its website every 6 months. Such analysis shall include a review and evaluation of a representative sample of hospital claims that are rejected and denied for clean and unclean claims and the top 5 reasons for such actions and timeliness of claims adjudication, which identifies the percentage of claims adjudicated within 30, 60, 90, and over 90 days, and the dollar amounts associated with those claims.

(g-8) Dispute resolution process. The Department shall maintain a provider complaint portal through which a provider can submit to the Department unresolved disputes with an MCO. An unresolved dispute means an MCO's decision that denies in whole or in part a claim for reimbursement to a provider for health care services rendered by the provider to an enrollee of the MCO with which the provider disagrees. Disputes shall not be submitted to the portal until the provider has availed itself of the MCO's internal dispute resolution process. Disputes that are submitted to the MCO internal dispute resolution process may be submitted to the Department of

Healthcare and Family Services' complaint portal no sooner than 30 days after submitting to the MCO's internal process and not later than 30 days after the unsatisfactory resolution of the internal MCO process or 60 days after submitting the dispute to the MCO internal process. Multiple claim disputes involving the same MCO may be submitted in one complaint, regardless of whether the claims are for different enrollees, when the specific reason for non-payment of the claims involves a common question of fact or policy. Within 10 business days of receipt of a complaint, the Department shall present such disputes to the appropriate MCO, which shall then have 30 days to issue its written proposal to resolve the dispute. The Department may grant one 30-day extension of this time frame to one of the parties to resolve the dispute. If the dispute remains unresolved at the end of this time frame or the provider is not satisfied with the MCO's written proposal to resolve the dispute, the provider may, within 30 days, request the Department to review the dispute and make a final determination. Within 30 days of the request for Department review of the dispute, both the provider and the MCO shall present all relevant information to the Department for resolution and make individuals with knowledge of the issues available to the Department for further inquiry if needed. Within 30 days of receiving the relevant information on the dispute, or the lapse of the period for submitting such information, the Department shall issue a written decision on

the dispute based on contractual terms between the provider and the MCO, contractual terms between the MCO and the Department of Healthcare and Family Services and applicable Medicaid policy. The decision of the Department shall be final. By January 1, 2020, the Department shall establish by rule further details of this dispute resolution process. Disputes between MCOs and providers presented to the Department for resolution are not contested cases, as defined in Section 1-30 of the Illinois Administrative Procedure Act, conferring any right to an administrative hearing.

(g-9)(1) The Department shall publish annually on its website a report on the calculation of each managed care organization's medical loss ratio showing the following:

(A) Premium revenue, with appropriate adjustments.

(B) Benefit expense, setting forth the aggregate amount spent for the following:

(i) Direct paid claims.

(ii) Subcapitation payments.

(iii) Other claim payments.

(iv) Direct reserves.

(v) Gross recoveries.

(vi) Expenses for activities that improve health care quality as allowed by the Department.

(2) The medical loss ratio shall be calculated consistent with federal law and regulation following a claims runout period determined by the Department.

(g-10) (1) "Liability effective date" means the date on which an MCO becomes responsible for payment for medically necessary and covered services rendered by a provider to one of its enrollees in accordance with the contract terms between the MCO and the provider. The liability effective date shall be the later of:

(A) The execution date of a network participation contract agreement.

(B) The date the provider or its representative submits to the MCO the complete and accurate standardized roster form for the provider in the format approved by the Department.

(C) The provider effective date contained within the Department's provider enrollment subsystem within the Illinois Medicaid Program Advanced Cloud Technology (IMPACT) System.

(2) The standardized roster form may be submitted to the MCO at the same time that the provider submits an enrollment application to the Department through IMPACT.

(3) By October 1, 2019, the Department shall require all MCOs to update their provider directory with information for new practitioners of existing contracted providers within 30 days of receipt of a complete and accurate standardized roster template in the format approved by the Department provided that the provider is effective in the Department's provider enrollment subsystem within the IMPACT system. Such provider

directory shall be readily accessible for purposes of selecting an approved health care provider and comply with all other federal and State requirements.

(g-11) The Department shall work with relevant stakeholders on the development of operational guidelines to enhance and improve operational performance of Illinois' Medicaid managed care program, including, but not limited to, improving provider billing practices, reducing claim rejections and inappropriate payment denials, and standardizing processes, procedures, definitions, and response timelines, with the goal of reducing provider and MCO administrative burdens and conflict. The Department shall include a report on the progress of these program improvements and other topics in its Fiscal Year 2020 annual report to the General Assembly.

(g-12) Notwithstanding any other provision of law, if the Department or an MCO requires submission of a claim for payment in a non-electronic format, a provider shall always be afforded a period of no less than 90 business days, as a correction period, following any notification of rejection by either the Department or the MCO to correct errors or omissions in the original submission.

Under no circumstances, either by an MCO or under the State's fee-for-service system, shall a provider be denied payment for failure to comply with any timely submission requirements under this Code or under any existing contract,

unless the non-electronic format claim submission occurs after the initial 180 days following the latest date of service on the claim, or after the 90 business days correction period following notification to the provider of rejection or denial of payment.

(g-13) Utilization Review Standardization and Transparency.

(1) To ensure greater standardization and transparency related to service authorization determinations, for all individuals covered under the medical assistance program, including both the fee-for-service and managed care programs, the Department shall, in consultation with the MCOs, a statewide association representing the MCOs, a statewide association representing the majority of Illinois hospitals, a statewide association representing physicians, or any other interested parties deemed appropriate by the Department, adopt administrative rules consistent with this subsection, in accordance with the Illinois Administrative Procedure Act.

(2) Prior to July 1, 2025, the Department shall in accordance with the Illinois Administrative Procedure Act adopt rules which govern MCO practices for dates of services on and after July 1, 2025, as follows:

(A) guidelines related to the publication of MCO authorization policies;

(B) procedures that, due to medical complexity,

must be reimbursed under the applicable inpatient methodology, when provided in the inpatient setting and billed as an inpatient service;

(C) standardization of administrative forms used in the member appeal process;

(D) limitations on second or subsequent medical necessity review of a health care service already authorized by the MCO or URO under a service authorization program;

(E) standardization of peer-to-peer processes and timelines;

(F) defined criteria for urgent and standard post-acute care service authorization requests; and

(G) standardized criteria for service authorization programs for authorization of admission to a long-term acute care hospital.

(3) The Department shall expand the scope of the quality and compliance audits conducted by its contracted external quality review organization to include, but not be limited to:

(A) an analysis of the Medicaid MCO's compliance with nationally recognized clinical decision guidelines;

(B) an analysis that compares and contrasts the Medicaid MCO's service authorization determination outcomes to the outcomes of each other MCO plan and the

State's fee-for-service program model to evaluate whether service authorization determinations are being made consistently by all Medicaid MCOs to ensure that all individuals are being treated in accordance with equitable standards of care;

(C) an analysis, for each Medicaid MCO, of the number of service authorization requests, including requests for concurrent review and certification of admissions, received, initially denied, overturned through any post-denial process including, but not limited to, enrollee or provider appeal, peer-to-peer review, or the provider dispute resolution process, denied but approved for a lower or different level of care, and the number denied on final determination; and

(D) provide a written report to the General Assembly, detailing the items listed in this subsection and any other metrics deemed necessary by the Department, by the second April, following June 7, 2024 (the effective date of Public Act 103-593) ~~this amendatory Act of the 103rd General Assembly~~, and each April thereafter. The Department shall make this report available within 30 days of delivery to the General Assembly, on its public facing website.

(h) The Department shall not expand mandatory MCO enrollment into new counties beyond those counties already

designated by the Department as of June 1, 2014 for the individuals whose eligibility for medical assistance is not the seniors or people with disabilities population until the Department provides an opportunity for accountable care entities and MCOs to participate in such newly designated counties.

(h-5) Leading indicator data sharing. By January 1, 2024, the Department shall obtain input from the Department of Human Services, the Department of Juvenile Justice, the Department of Children and Family Services, the State Board of Education, managed care organizations, providers, and clinical experts to identify and analyze key indicators and data elements that can be used in an analysis of lead indicators from assessments and data sets available to the Department that can be shared with managed care organizations and similar care coordination entities contracted with the Department as leading indicators for elevated behavioral health crisis risk for children, including data sets such as the Illinois Medicaid Comprehensive Assessment of Needs and Strengths (IM-CANS), calls made to the State's Crisis and Referral Entry Services (CARES) hotline, health services information from Health and Human Services Innovators, or other data sets that may include key indicators. The workgroup shall complete its recommendations for leading indicator data elements on or before September 1, 2024. To the extent permitted by State and federal law, the identified leading indicators shall be shared

with managed care organizations and similar care coordination entities contracted with the Department on or before December 1, 2024 for the purpose of improving care coordination with the early detection of elevated risk. Leading indicators shall be reassessed annually with stakeholder input. The Department shall implement guidance to managed care organizations and similar care coordination entities contracted with the Department, so that the managed care organizations and care coordination entities respond to lead indicators with services and interventions that are designed to help stabilize the child.

(i) The requirements of this Section apply to contracts with accountable care entities and MCOs entered into, amended, or renewed after June 16, 2014 (the effective date of Public Act 98-651).

(j) Health care information released to managed care organizations. A health care provider shall release to a Medicaid managed care organization, upon request, and subject to the Health Insurance Portability and Accountability Act of 1996 and any other law applicable to the release of health information, the health care information of the MCO's enrollee, if the enrollee has completed and signed a general release form that grants to the health care provider permission to release the recipient's health care information to the recipient's insurance carrier.

(k) The Department of Healthcare and Family Services,

managed care organizations, a statewide organization representing hospitals, and a statewide organization representing safety-net hospitals shall explore ways to support billing departments in safety-net hospitals.

(l) The requirements of this Section added by Public Act 102-4 shall apply to services provided on or after the first day of the month that begins 60 days after April 27, 2021 (the effective date of Public Act 102-4).

(m) Except where otherwise expressly specified, the requirements of this Section added by Public Act 103-593 ~~this amendatory Act of the 103rd General Assembly~~ shall apply to services provided on or after July 1, 2025.

Sec. 5-57 ~~5-52~~. Genetic testing and evidence-based screenings for an inherited gene mutation.

(a) In this Section, "genetic testing for an inherited mutation" means germline multi-gene testing for an inherited mutation associated with an increased risk of cancer in accordance with evidence-based, clinical practice guidelines.

(b) Subject to federal approval, the medical assistance program, after January 1, 2026, shall provide coverage for clinical genetic testing for an inherited gene mutation for individuals with a personal or family history of cancer, as recommended by a health care professional in accordance with current evidence-based clinical practice guidelines, including, but not limited to, the current version of the National Comprehensive Cancer Network clinical practice guidelines.

(c) For individuals with a genetic test that is positive

for an inherited mutation associated with an increased risk of cancer, coverage required under this Section shall include any evidence-based screenings, as recommended by a health care professional in accordance with current evidence-based clinical practice guidelines, to the extent that the management recommendation is not already covered by the medical assistance program. Sec. 14-12. Hospital rate reform payment system. The hospital payment system pursuant to Section 14-11 of this Article shall be as follows:

(a) Inpatient hospital services. Effective for discharges on and after July 1, 2014, reimbursement for inpatient general acute care services shall utilize the All Patient Refined Diagnosis Related Grouping (APR-DRG) software, version 30, distributed by 3MTM Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. Initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 30.0 adjusted

for the Illinois experience.

(2) The Department shall establish a statewide-standardized amount to be used in the inpatient reimbursement system. The Department shall publish these amounts on its website no later than 10 calendar days prior to their effective date.

(3) In addition to the statewide-standardized amount, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid providers or services for trauma, transplantation services, perinatal care, and Graduate Medical Education (GME).

(4) The Department shall develop add-on payments to account for exceptionally costly inpatient stays, consistent with Medicare outlier principles. Outlier fixed loss thresholds may be updated to control for excessive growth in outlier payments no more frequently than on an annual basis, but at least once every 4 years. Upon updating the fixed loss thresholds, the Department shall be required to update base rates within 12 months.

(5) The Department shall define those hospitals or distinct parts of hospitals that shall be exempt from the APR-DRG reimbursement system established under this Section. The Department shall publish these hospitals' inpatient rates on its website no later than 10 calendar days prior to their effective date.

(6) Beginning July 1, 2014 and ending on December 31,

2023, in addition to the statewide-standardized amount, the Department shall develop an adjustor to adjust the rate of reimbursement for safety-net hospitals defined in Section 5-5e.1 of this Code excluding pediatric hospitals.

(7) Beginning July 1, 2014, in addition to the statewide-standardized amount, the Department shall develop an adjustor to adjust the rate of reimbursement for Illinois freestanding inpatient psychiatric hospitals that are not designated as children's hospitals by the Department but are primarily treating patients under the age of 21.

(7.5) (Blank).

(8) Beginning July 1, 2018, in addition to the statewide-standardized amount, the Department shall adjust the rate of reimbursement for hospitals designated by the Department of Public Health as a Perinatal Level II or II+ center by applying the same adjustor that is applied to Perinatal and Obstetrical care cases for Perinatal Level III centers, as of December 31, 2017.

(9) Beginning July 1, 2018, in addition to the statewide-standardized amount, the Department shall apply the same adjustor that is applied to trauma cases as of December 31, 2017 to inpatient claims to treat patients with burns, including, but not limited to, APR-DRGs 841, 842, 843, and 844.

(10) Beginning July 1, 2018, the

statewide-standardized amount for inpatient general acute care services shall be uniformly increased so that base claims projected reimbursement is increased by an amount equal to the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of this subsection and paragraphs (3) and (4) of subsection (b) multiplied by 40%.

(11) Beginning July 1, 2018, the reimbursement for inpatient rehabilitation services shall be increased by the addition of a \$96 per day add-on.

(b) Outpatient hospital services. Effective for dates of service on and after July 1, 2014, reimbursement for outpatient services shall utilize the Enhanced Ambulatory Procedure Grouping (EAPG) software, version 3.7 distributed by 3MTM Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. The initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 3.7.

(2) The Department shall establish service specific statewide-standardized amounts to be used in the reimbursement system.

(A) The initial statewide standardized amounts, with the labor portion adjusted by the Calendar Year

2013 Medicare Outpatient Prospective Payment System wage index with reclassifications, shall be published by the Department on its website no later than 10 calendar days prior to their effective date.

(B) The Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health in accordance with 42 CFR 485, Subpart F. For outpatient services provided on or before June 30, 2018, the EAPG standardized amounts are determined separately for each critical access hospital such that simulated EAPG payments using outpatient base period paid claim data plus payments under Section 5A-12.4 of this Code net of the associated tax costs are equal to the estimated costs of outpatient base period claims data with a rate year cost inflation factor applied.

(3) In addition to the statewide-standardized amounts, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid hospital outpatient providers or services, including outpatient high volume or safety-net hospitals. Beginning July 1, 2018, the outpatient high volume adjustor shall be increased to increase annual expenditures associated with this adjustor by \$79,200,000, based on the State Fiscal Year 2015 base year data and this adjustor shall apply to public hospitals, except for large public hospitals, as defined

under 89 Ill. Adm. Code 148.25(a).

(4) Beginning July 1, 2018, in addition to the statewide standardized amounts, the Department shall make an add-on payment for outpatient expensive devices and drugs. This add-on payment shall at least apply to claim lines that: (i) are assigned with one of the following EAPGs: 490, 1001 to 1020, and coded with one of the following revenue codes: 0274 to 0276, 0278; or (ii) are assigned with one of the following EAPGs: 430 to 441, 443, 444, 460 to 465, 495, 496, 1090. The add-on payment shall be calculated as follows: the claim line's covered charges multiplied by the hospital's total acute cost to charge ratio, less the claim line's EAPG payment plus \$1,000, multiplied by 0.8.

(5) Beginning July 1, 2018, the statewide-standardized amounts for outpatient services shall be increased by a uniform percentage so that base claims projected reimbursement is increased by an amount equal to no less than the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under paragraphs (8) and (9) of subsection (a) and paragraphs (3) and (4) of this subsection multiplied by 46%.

(6) Effective for dates of service on or after July 1, 2018, the Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health

in accordance with 42 CFR 485, Subpart F, such that each Critical Access Hospital's standardized amount for outpatient services shall be increased by the applicable uniform percentage determined pursuant to paragraph (5) of this subsection. It is the intent of the General Assembly that the adjustments required under this paragraph (6) by Public Act 100-1181 shall be applied retroactively to claims for dates of service provided on or after July 1, 2018.

(7) Effective for dates of service on or after March 8, 2019 (the effective date of Public Act 100-1181), the Department shall recalculate and implement an updated statewide-standardized amount for outpatient services provided by hospitals that are not Critical Access Hospitals to reflect the applicable uniform percentage determined pursuant to paragraph (5).

(1) Any recalculation to the statewide-standardized amounts for outpatient services provided by hospitals that are not Critical Access Hospitals shall be the amount necessary to achieve the increase in the statewide-standardized amounts for outpatient services increased by a uniform percentage, so that base claims projected reimbursement is increased by an amount equal to no less than the funds allocated in paragraph (1) of subsection (b) of Section 5A-12.6, less the amount allocated under

paragraphs (8) and (9) of subsection (a) and paragraphs (3) and (4) of this subsection, for all hospitals that are not Critical Access Hospitals, multiplied by 46%.

(2) It is the intent of the General Assembly that the recalculations required under this paragraph (7) by Public Act 100-1181 shall be applied prospectively to claims for dates of service provided on or after March 8, 2019 (the effective date of Public Act 100-1181) and that no recoupment or repayment by the Department or an MCO of payments attributable to recalculation under this paragraph (7), issued to the hospital for dates of service on or after July 1, 2018 and before March 8, 2019 (the effective date of Public Act 100-1181), shall be permitted.

(8) The Department shall ensure that all necessary adjustments to the managed care organization capitation base rates necessitated by the adjustments under subparagraph (6) or (7) of this subsection are completed and applied retroactively in accordance with Section 5-30.8 of this Code within 90 days of March 8, 2019 (the effective date of Public Act 100-1181).

(9) Within 60 days after federal approval of the change made to the assessment in Section 5A-2 by Public Act 101-650, the Department shall incorporate into the EAPG system for outpatient services those services

performed by hospitals currently billed through the Non-Institutional Provider billing system.

(b-5) Notwithstanding any other provision of this Section, beginning with dates of service on and after January 1, 2023, any general acute care hospital with more than 500 outpatient psychiatric Medicaid services to persons under 19 years of age in any calendar year shall be paid the outpatient add-on payment of no less than \$113.

(c) In consultation with the hospital community, the Department is authorized to replace 89 Ill. Adm. Code 152.150 as published in 38 Ill. Reg. 4980 through 4986 within 12 months of June 16, 2014 (the effective date of Public Act 98-651). If the Department does not replace these rules within 12 months of June 16, 2014 (the effective date of Public Act 98-651), the rules in effect for 152.150 as published in 38 Ill. Reg. 4980 through 4986 shall remain in effect until modified by rule by the Department. Nothing in this subsection shall be construed to mandate that the Department file a replacement rule.

(d) Transition period. There shall be a transition period to the reimbursement systems authorized under this Section that shall begin on the effective date of these systems and continue until June 30, 2018, unless extended by rule by the Department. To help provide an orderly and predictable transition to the new reimbursement systems and to preserve and enhance access to the hospital services during this transition, the Department shall allocate a transitional

hospital access pool of at least \$290,000,000 annually so that transitional hospital access payments are made to hospitals.

(1) After the transition period, the Department may begin incorporating the transitional hospital access pool into the base rate structure; however, the transitional hospital access payments in effect on June 30, 2018 shall continue to be paid, if continued under Section 5A-16.

(2) After the transition period, if the Department reduces payments from the transitional hospital access pool, it shall increase base rates, develop new adjustors, adjust current adjustors, develop new hospital access payments based on updated information, or any combination thereof by an amount equal to the decreases proposed in the transitional hospital access pool payments, ensuring that the entire transitional hospital access pool amount shall continue to be used for hospital payments.

(d-5) Hospital and health care transformation program. The Department shall develop a hospital and health care transformation program to provide financial assistance to hospitals in transforming their services and care models to better align with the needs of the communities they serve. The payments authorized in this Section shall be subject to approval by the federal government.

(1) Phase 1. In State fiscal years 2019 through 2020, the Department shall allocate funds from the transitional access hospital pool to create a hospital transformation

pool of at least \$262,906,870 annually and make hospital transformation payments to hospitals. Subject to Section 5A-16, in State fiscal years 2019 and 2020, an Illinois hospital that received either a transitional hospital access payment under subsection (d) or a supplemental payment under subsection (f) of this Section in State fiscal year 2018, shall receive a hospital transformation payment as follows:

(A) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is equal to or greater than 45%, the hospital transformation payment shall be equal to 100% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(B) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is equal to or greater than 25% but less than 45%, the hospital transformation payment shall be equal to 75% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental payment authorized under subsection (f).

(C) If the hospital's Rate Year 2017 Medicaid inpatient utilization rate is less than 25%, the hospital transformation payment shall be equal to 50% of the sum of its transitional hospital access payment authorized under subsection (d) and any supplemental

payment authorized under subsection (f).

(2) Phase 2.

(A) The funding amount from phase one shall be incorporated into directed payment and pass-through payment methodologies described in Section 5A-12.7.

(B) Because there are communities in Illinois that experience significant health care disparities due to systemic racism, as recently emphasized by the COVID-19 pandemic, aggravated by social determinants of health and a lack of sufficiently allocated health care ~~healthcare~~ resources, particularly community-based services, preventive care, obstetric care, chronic disease management, and specialty care, the Department shall establish a health care transformation program that shall be supported by the transformation funding pool. It is the intention of the General Assembly that innovative partnerships funded by the pool must be designed to establish or improve integrated health care delivery systems that will provide significant access to the Medicaid and uninsured populations in their communities, as well as improve health care equity. It is also the intention of the General Assembly that partnerships recognize and address the disparities revealed by the COVID-19 pandemic, as well as the need for post-COVID care. During State fiscal years 2021 through 2027, the

hospital and health care transformation program shall be supported by an annual transformation funding pool of up to \$150,000,000, pending federal matching funds, to be allocated during the specified fiscal years for the purpose of facilitating hospital and health care transformation. No disbursement of moneys for transformation projects from the transformation funding pool described under this Section shall be considered an award, a grant, or an expenditure of grant funds. Funding agreements made in accordance with the transformation program shall be considered purchases of care under the Illinois Procurement Code, and funds shall be expended by the Department in a manner that maximizes federal funding to expend the entire allocated amount.

The Department shall convene, within 30 days after March 12, 2021 (the effective date of Public Act 101-655), a workgroup that includes subject matter experts on health care ~~healthcare~~ disparities and stakeholders from distressed communities, which could be a subcommittee of the Medicaid Advisory Committee, to review and provide recommendations on how Department policy, including health care transformation, can improve health disparities and the impact on communities disproportionately affected by COVID-19. The workgroup shall consider and make

recommendations on the following issues: a community safety-net designation of certain hospitals, racial equity, and a regional partnership to bring additional specialty services to communities.

(C) As provided in paragraph (9) of Section 3 of the Illinois Health Facilities Planning Act, any hospital participating in the transformation program may be excluded from the requirements of the Illinois Health Facilities Planning Act for those projects related to the hospital's transformation. To be eligible, the hospital must submit to the Health Facilities and Services Review Board approval from the Department that the project is a part of the hospital's transformation.

(D) As provided in subsection (a-20) of Section 32.5 of the Emergency Medical Services (EMS) Systems Act, a hospital that received hospital transformation payments under this Section may convert to a freestanding emergency center. To be eligible for such a conversion, the hospital must submit to the Department of Public Health approval from the Department that the project is a part of the hospital's transformation.

(E) Criteria for proposals. To be eligible for funding under this Section, a transformation proposal shall meet all of the following criteria:

(i) the proposal shall be designed based on community needs assessment completed by either a University partner or other qualified entity with significant community input;

(ii) the proposal shall be a collaboration among providers across the care and community spectrum, including preventative care, primary care specialty care, hospital services, mental health and substance abuse services, as well as community-based entities that address the social determinants of health;

(iii) the proposal shall be specifically designed to improve health care ~~healthcare~~ outcomes and reduce health care ~~healthcare~~ disparities, and improve the coordination, effectiveness, and efficiency of care delivery;

(iv) the proposal shall have specific measurable metrics related to disparities that will be tracked by the Department and made public by the Department;

(v) the proposal shall include a commitment to include Business Enterprise Program certified vendors or other entities controlled and managed by minorities or women; and

(vi) the proposal shall specifically increase access to primary, preventive, or specialty care.

(F) Entities eligible to be funded.

(i) Proposals for funding should come from collaborations operating in one of the most distressed communities in Illinois as determined by the U.S. Centers for Disease Control and Prevention's Social Vulnerability Index for Illinois and areas disproportionately impacted by COVID-19 or from rural areas of Illinois.

(ii) The Department shall prioritize partnerships from distressed communities, which include Business Enterprise Program certified vendors or other entities controlled and managed by minorities or women and also include one or more of the following: safety-net hospitals, critical access hospitals, the campuses of hospitals that have closed since January 1, 2018, or other health care ~~healthcare~~ providers designed to address specific health care ~~healthcare~~ disparities, including the impact of COVID-19 on individuals and the community and the need for post-COVID care. All funded proposals must include specific measurable goals and metrics related to improved outcomes and reduced disparities which shall be tracked by the Department.

(iii) The Department should target the funding in the following ways: \$30,000,000 of

transformation funds to projects that are a collaboration between a safety-net hospital, particularly community safety-net hospitals, and other providers and designed to address specific health care ~~healthcare~~ disparities, \$20,000,000 of transformation funds to collaborations between safety-net hospitals and a larger hospital partner that increases specialty care in distressed communities, \$30,000,000 of transformation funds to projects that are a collaboration between hospitals and other providers in distressed areas of the State designed to address specific health care ~~healthcare~~ disparities, \$15,000,000 to collaborations between critical access hospitals and other providers designed to address specific health care ~~healthcare~~ disparities, and \$15,000,000 to cross-provider collaborations designed to address specific health care ~~healthcare~~ disparities, and \$5,000,000 to collaborations that focus on workforce development.

(iv) The Department may allocate up to \$5,000,000 for planning, racial equity analysis, or consulting resources for the Department or entities without the resources to develop a plan to meet the criteria of this Section. Any contract

for consulting services issued by the Department under this subparagraph shall comply with the provisions of Section 5-45 of the State Officials and Employees Ethics Act. Based on availability of federal funding, the Department may directly procure consulting services or provide funding to the collaboration. The provision of resources under this subparagraph is not a guarantee that a project will be approved.

(v) The Department shall take steps to ensure that safety-net hospitals operating in under-resourced communities receive priority access to hospital and health care ~~healthcare~~ transformation funds, including consulting funds, as provided under this Section.

(G) Process for submitting and approving projects for distressed communities. The Department shall issue a template for application. The Department shall post any proposal received on the Department's website for at least 2 weeks for public comment, and any such public comment shall also be considered in the review process. Applicants may request that proprietary financial information be redacted from publicly posted proposals and the Department in its discretion may agree. Proposals for each distressed community must include all of the following:

(i) A detailed description of how the project intends to affect the goals outlined in this subsection, describing new interventions, new technology, new structures, and other changes to the health care ~~healthcare~~ delivery system planned.

(ii) A detailed description of the racial and ethnic makeup of the entities' board and leadership positions and the salaries of the executive staff of entities in the partnership that is seeking to obtain funding under this Section.

(iii) A complete budget, including an overall timeline and a detailed pathway to sustainability within a 5-year period, specifying other sources of funding, such as in-kind, cost-sharing, or private donations, particularly for capital needs. There is an expectation that parties to the transformation project dedicate resources to the extent they are able and that these expectations are delineated separately for each entity in the proposal.

(iv) A description of any new entities formed or other legal relationships between collaborating entities and how funds will be allocated among participants.

(v) A timeline showing the evolution of sites and specific services of the project over a 5-year period, including services available to the community by site.

(vi) Clear milestones indicating progress toward the proposed goals of the proposal as checkpoints along the way to continue receiving funding. The Department is authorized to refine these milestones in agreements, and is authorized to impose reasonable penalties, including repayment of funds, for substantial lack of progress.

(vii) A clear statement of the level of commitment the project will include for minorities and women in contracting opportunities, including as equity partners where applicable, or as subcontractors and suppliers in all phases of the project.

(viii) If the community study utilized is not the study commissioned and published by the Department, the applicant must define the methodology used, including documentation of clear community participation.

(ix) A description of the process used in collaborating with all levels of government in the community served in the development of the

project, including, but not limited to, legislators and officials of other units of local government.

(x) Documentation of a community input process in the community served, including links to proposal materials on public websites.

(xi) Verifiable project milestones and quality metrics that will be impacted by transformation. These project milestones and quality metrics must be identified with improvement targets that must be met.

(xii) Data on the number of existing employees by various job categories and wage levels by the zip code of the employees' residence and benchmarks for the continued maintenance and improvement of these levels. The proposal must also describe any retraining or other workforce development planned for the new project.

(xiii) If a new entity is created by the project, a description of how the board will be reflective of the community served by the proposal.

(xiv) An explanation of how the proposal will address the existing disparities that exacerbated the impact of COVID-19 and the need for post-COVID care in the community, if applicable.

(xv) An explanation of how the proposal is designed to increase access to care, including specialty care based upon the community's needs.

(H) The Department shall evaluate proposals for compliance with the criteria listed under subparagraph (G). Proposals meeting all of the criteria may be eligible for funding with the areas of focus prioritized as described in item (ii) of subparagraph (F). Based on the funds available, the Department may negotiate funding agreements with approved applicants to maximize federal funding. Nothing in this subsection requires that an approved project be funded to the level requested. Agreements shall specify the amount of funding anticipated annually, the methodology of payments, the limit on the number of years such funding may be provided, and the milestones and quality metrics that must be met by the projects in order to continue to receive funding during each year of the program. Agreements shall specify the terms and conditions under which a health care facility that receives funds under a purchase of care agreement and closes in violation of the terms of the agreement must pay an early closure fee no greater than 50% of the funds it received under the agreement, prior to the Health Facilities and Services Review Board considering an application for closure of the

facility. Any project that is funded shall be required to provide quarterly written progress reports, in a form prescribed by the Department, and at a minimum shall include the progress made in achieving any milestones or metrics or Business Enterprise Program commitments in its plan. The Department may reduce or end payments, as set forth in transformation plans, if milestones or metrics or Business Enterprise Program commitments are not achieved. The Department shall seek to make payments from the transformation fund in a manner that is eligible for federal matching funds.

In reviewing the proposals, the Department shall take into account the needs of the community, data from the study commissioned by the Department from the University of Illinois-Chicago if applicable, feedback from public comment on the Department's website, as well as how the proposal meets the criteria listed under subparagraph (G). Alignment with the Department's overall strategic initiatives shall be an important factor. To the extent that fiscal year funding is not adequate to fund all eligible projects that apply, the Department shall prioritize applications that most comprehensively and effectively address the criteria listed under subparagraph (G).

The Chair shall have the authority to establish a meeting schedule and convene meetings of the Committee, and the Vice-Chair shall have the authority to convene meetings in the absence of the Chair. The Committee may establish its own rules with respect to meeting schedule, notice of meetings, and the disclosure of documents; however, the Committee shall not have the power to subpoena individuals or documents and any rules must be approved by 9 of the 14 members. These updates shall not preclude variations in any individual component of the system or hospital rate variations. Nothing in this Section shall prohibit the Department from increasing the rates of reimbursement or developing payments to ensure access to hospital services. Nothing in this Section shall be construed to guarantee a minimum amount of spending in the aggregate or per hospital as spending may be impacted by factors, including, but not limited to, the number of individuals in the medical assistance program and the severity of illness of the individuals.

The equivalent Board rule may serve as an alternative to the rules adopted under paragraph (1) of this subsection (b).

(c) Until the Board adopts rules pursuant to paragraph (1) of subsection (b) that prescribe procedures and standards for the management of hazardous waste paint and paint-related waste by small quantity handlers of universal waste, the following requirements shall apply to small quantity handlers of universal waste managing hazardous waste paint and

paint-related waste as a universal waste:

(2) Labeling or marking. Each container in which universal waste paint and paint-related waste is accumulated shall be labeled to identify the contents of the container.

(3) Accumulation time limits.

(A) A small quantity handler of universal waste may accumulate universal waste paint and paint-related waste for no longer than one year from the date the universal waste is generated. However, handlers may accumulate universal waste for longer than one year if the activity is solely for the purpose of accumulating quantities to facilitate proper recovery, treatment, or disposal. The handler bears the burden of proving that this activity is solely for the purpose of accumulation of the quantities of universal waste necessary to facilitate proper recovery, treatment, or disposal.

(B) A small quantity handler of universal waste who accumulates universal waste must be able to demonstrate the length of time that the universal waste has been accumulated. The handler may make this demonstration by any of the following methods:

(i) placing the universal waste paint and paint-related waste in a container and marking or labeling the container with the earliest date that universal waste paint or paint-related waste in the container became a waste or was received;

(ii) marking or labeling each individual item of universal waste paint and paint-related waste with the date the universal waste paint and paint-related waste became a waste or was

received;

(iii) maintaining an inventory system on-site that identifies the date each unit of universal waste paint and paint-related waste became a waste or was received;

(iv) placing universal waste paint and paint-related waste in a specific accumulation area and identifying the earliest date that any of the universal waste paint and paint-related waste in the area became a waste or was received; or

(v) any other method that clearly demonstrates the length of time the universal waste paint and paint-related waste have been accumulated from the date they become a waste or are received.

(4) Employee training. A small quantity handler of universal waste shall inform all employees who handle or have responsibility for managing universal waste paint and paint-related waste. The information shall describe proper handling and emergency procedures appropriate to the universal waste paint and paint-related waste.

(5) Response to releases.

(A) A small quantity handler of universal waste must immediately contain all releases of universal waste paint and paint-related waste and other residues from universal waste paint and paint-related waste.

(B) A small quantity handler of universal waste

must determine whether any material resulting from the release is hazardous waste and, if so, must manage the hazardous waste in compliance with all applicable hazardous waste requirements of this Act and rules adopted under this Act. The handler is considered the generator of the material resulting from the release and must manage the material in compliance with this Act and rules adopted under this Act.

(6) Off-site shipments.

(A) A small quantity handler of universal waste is prohibited from sending or taking universal waste paint and paint-related waste to a place other than another universal waste handler, a destination facility, or a foreign destination.

(B) If a small quantity handler of universal waste self-transport universal waste paint and paint-related waste off-site ~~offsite~~, the handler becomes a universal waste transporter for those self-transportation activities and shall comply with the Board's existing rules for universal waste transporters.

(C) If universal waste paint and paint-related waste being offered for off-site transportation meets the definition of hazardous materials under 49 CFR Parts 171 to 180, a small quantity handler of universal waste shall package, label, mark and placard

the shipment, and prepare the proper shipping papers in accordance with the applicable United States Department of Transportation regulations under 49 CFR Parts 172 to 180.

(D) Prior to sending a shipment of universal waste paint and paint-related waste to another universal waste handler, the originating handler shall ensure that the receiving handler agrees to receive the shipment.

(E) If a small quantity handler of universal waste sends a shipment of universal waste paint and paint-related waste to another handler or to a destination facility and if the shipment is rejected by the receiving handler or destination facility, the originating handler shall either:

(i) receive the universal waste paint and paint-related waste back when notified that the shipment has been rejected; or

(ii) agree with the receiving handler on a destination facility to which the shipment will be sent.

(F) A small quantity handler of universal waste may reject a shipment containing universal waste paint and paint-related waste, or a portion of a shipment containing universal waste paint and paint-related waste, received from another handler. If a handler

rejects a shipment or a portion of a shipment, the rejecting handler shall contact the originating handler to notify the originating handler of the rejection and to discuss reshipment of the load. The receiving handler shall:

(i) send the shipment back to the originating handler; or

(ii) if agreed to by both the originating and receiving handler, send the shipment to a destination facility.

(G) If a small quantity handler of universal waste receives a shipment of nonhazardous, non-universal waste, the handler may manage the waste in any way that is in compliance with applicable law.

(d) Until the Board adopts rules pursuant to subsection (b), the following additional requirements shall apply:

(1) Paints and paint-related wastes that are exempt household wastes or very small quantity generator wastes under existing Board rules remain exempt from the hazardous waste rules but may be managed as universal wastes under 35 Ill. Adm. Code 733.108.

(2) Universal waste transporters that transport paints or paint-related wastes that are universal wastes are subject to the existing Board rules for universal waste transporters.

(3) Universal waste destination facilities that manage

paints or paint-related wastes that are universal wastes are subject to the existing Board rules for universal waste destination facilities.

1.1. Exclusion From the CAAPP.

a. An owner or operator of a source which determines that the source could be excluded from the CAAPP may seek such exclusion prior to the date that the CAAPP application for the source is due but in no case later than 9 months after the effective date of the CAAPP through the imposition of federally enforceable conditions limiting the "potential to emit" of the source to a level below the major source threshold for that source as described in paragraph (c) of subsection 2 of this Section, within a State operating permit issued pursuant to subsection (a) of Section 39 of this Act. After such date, an exclusion from the CAAPP may be sought under paragraph (c) of subsection 3 of this Section.

b. An owner or operator of a source seeking exclusion from the CAAPP pursuant to paragraph (a) of this

subsection must submit a permit application consistent with the existing State permit program which specifically requests such exclusion through the imposition of such federally enforceable conditions.

c. Upon such request, if the Agency determines that the owner or operator of a source has met the requirements for exclusion pursuant to paragraph (a) of this subsection and other applicable requirements for permit issuance under subsection (a) of Section 39 of this Act, the Agency shall issue a State operating permit for such source under subsection (a) of Section 39 of this Act, as amended, and regulations promulgated thereunder with federally enforceable conditions limiting the "potential to emit" of the source to a level below the major source threshold for that source as described in paragraph (c) of subsection 2 of this Section.

d. The Agency shall provide an owner or operator of a source which may be excluded from the CAAPP pursuant to this subsection with reasonable notice that the owner or operator may seek such exclusion.

e. The Agency shall provide such sources with the necessary permit application forms.

2. Applicability.

a. Sources subject to this Section shall include:

i. Any major source as defined in paragraph (c) of

this subsection.

iii. Any affected source for acid deposition, as defined in subsection 1 of this Section.

iv. Any other source subject to this Section under the Clean Air Act or regulations promulgated thereunder, or applicable Board regulations.

All sources listed in paragraph (a) of this subsection that are not major sources, affected sources for acid deposition or solid waste incineration units required to obtain a permit pursuant to Section 129(e) of the Clean Air Act, until the source is required to obtain a CAAPP permit pursuant to the Clean Air Act or regulations promulgated thereunder.

ii. Nonmajor sources subject to a standard or other requirements subsequently promulgated by USEPA under Section 111 or 112 of the Clean Air Act that are determined by USEPA to be exempt at the time a new

standard is promulgated.

iii. All sources and source categories that would be required to obtain a permit solely because they are subject to Part 60, Subpart AAA - Standards of Performance for New Residential Wood Heaters (40 CFR Part 60).

iv. All sources and source categories that would be required to obtain a permit solely because they are subject to Part 61, Subpart M - National Emission Standard for Hazardous Air Pollutants for Asbestos, Section 61.145 (40 CFR Part 61).

v. Any other source categories exempted by USEPA regulations pursuant to Section 502(a) of the Clean Air Act.

(C) action by the President of the United

States or the President's authorized agent, including the Administrator of the USEPA, to repeal or withdraw the Greenhouse Gas Tailoring Rule (75 Fed. Reg. 31514, June 3, 2010).

If any event listed in this subparagraph (vi) occurs, CAAPP permits issued after such event shall not impose permit terms or conditions addressing greenhouse gases during the effectiveness of any event listed in subparagraph (vi). If any event listed in this subparagraph (vi) occurs, any owner or operator with a CAAPP permit that includes terms or conditions addressing greenhouse gases may elect to submit an application to the Agency to address a revision or repeal of such terms or conditions. If any owner or operator submits such an application, the Agency shall expeditiously process the permit application in accordance with applicable laws and regulations. Nothing in this subparagraph (vi) shall relieve an owner or operator of a source from the requirement to obtain a CAAPP permit for its emissions of regulated air pollutants other than greenhouse gases, as required by this Section.

a. The Agency shall issue CAAPP permits under this Section consistent with the Clean Air Act and regulations promulgated thereunder and this Act and regulations promulgated thereunder.

b. The Agency shall issue CAAPP permits for fixed terms of 5 years, except CAAPP permits issued for solid waste incineration units combusting municipal waste which shall be issued for fixed terms of 12 years and except CAAPP permits for affected sources for acid deposition which shall be issued for initial terms to expire on December 31, 1999, and for fixed terms of 5 years thereafter.

c. The Agency shall have the authority to issue a State operating permit for a source under subsection (a) of Section 39 of this Act, as amended, and regulations promulgated thereunder, which includes federally enforceable conditions limiting the "potential to emit" of the source to a level below the major source threshold for that source as described in paragraph (c) of subsection 2

of this Section, thereby excluding the source from the CAAPP, when requested by the applicant pursuant to paragraph (u) of subsection 5 of this Section. The public notice requirements of this Section applicable to CAAPP permits shall also apply to the initial issuance of permits under this paragraph.

d. For purposes of this Act, a permit issued by USEPA under Section 505 of the Clean Air Act, as now and hereafter amended, shall be deemed to be a permit issued by the Agency pursuant to this Section 39.5 ~~of this Act~~.

4. Transition.

a. An owner or operator of a CAAPP source shall not be required to renew an existing State operating permit for any emission unit at such CAAPP source once a CAAPP application timely submitted prior to expiration of the State operating permit has been deemed complete. For purposes other than permit renewal, the obligation upon the owner or operator of a CAAPP source to obtain a State operating permit is not removed upon submittal of the complete CAAPP permit application. An owner or operator of a CAAPP source seeking to make a modification to a source prior to the issuance of its CAAPP permit shall be required to obtain a construction permit, operating permit, or both as required for such modification in accordance with the State permit program under subsection

(a) of Section 39 of this Act, as amended, and regulations promulgated thereunder. The application for such construction permit, operating permit, or both shall be considered an amendment to the CAAPP application submitted for such source.

b. An owner or operator of a CAAPP source shall continue to operate in accordance with the terms and conditions of its applicable State operating permit notwithstanding the expiration of the State operating permit until the source's CAAPP permit has been issued.

c. An owner or operator of a CAAPP source shall submit its initial CAAPP application to the Agency no later than 12 months after the effective date of the CAAPP. The Agency may request submittal of initial CAAPP applications during this 12-month period according to a schedule set forth within Agency procedures, however, in no event shall the Agency require such submittal earlier than 3 months after such effective date of the CAAPP. An owner or operator may voluntarily submit its initial CAAPP application prior to the date required within this paragraph or applicable procedures, if any, subsequent to the date the Agency submits the CAAPP to USEPA for approval.

d. The Agency shall act on initial CAAPP applications in accordance with paragraph (j) of subsection 5 of this Section.

e. For purposes of this Section, the term "initial CAAPP application" shall mean the first CAAPP application submitted for a source existing as of the effective date of the CAAPP.

f. The Agency shall provide owners or operators of CAAPP sources with at least 3 months advance notice of the date on which their applications are required to be submitted. In determining which sources shall be subject to early submittal, the Agency shall include among its considerations the complexity of the permit application, and the burden that such early submittal will have on the source.

g. The CAAPP permit shall upon becoming effective supersede the State operating permit.

h. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

5. Applications and Completeness.

a. An owner or operator of a CAAPP source shall submit its complete CAAPP application consistent with the Act and applicable regulations.

b. An owner or operator of a CAAPP source shall submit a single complete CAAPP application covering all emission units at that source.

c. To be deemed complete, a CAAPP application must provide all information, as requested in Agency application forms, sufficient to evaluate the subject source and its application and to determine all applicable requirements, pursuant to the Clean Air Act, and regulations thereunder, this Act and regulations thereunder. Such Agency application forms shall be finalized and made available prior to the date on which any CAAPP application is required.

d. An owner or operator of a CAAPP source shall submit, as part of its complete CAAPP application, a compliance plan, including a schedule of compliance, describing how each emission unit will comply with all applicable requirements. Any such schedule of compliance shall be supplemental to, and shall not sanction noncompliance with, the applicable requirements on which it is based.

e. Each submitted CAAPP application shall be certified for truth, accuracy, and completeness by a responsible official in accordance with applicable regulations.

f. The Agency shall provide notice to a CAAPP applicant as to whether a submitted CAAPP application is complete. Unless the Agency notifies the applicant of incompleteness, within 60 days after receipt of the CAAPP application, the application shall be deemed complete. The Agency may request additional information as needed to

make the completeness determination. The Agency may to the extent practicable provide the applicant with a reasonable opportunity to correct deficiencies prior to a final determination of completeness.

g. If after the determination of completeness the Agency finds that additional information is necessary to evaluate or take final action on the CAAPP application, the Agency may request in writing such information from the source with a reasonable deadline for response.

h. If the owner or operator of a CAAPP source submits a timely and complete CAAPP application, the source's failure to have a CAAPP permit shall not be a violation of this Section until the Agency takes final action on the submitted CAAPP application, provided, however, where the applicant fails to submit the requested information under paragraph (g) of this subsection 5 within the time frame specified by the Agency, this protection shall cease to apply.

i. Any applicant who fails to submit any relevant facts necessary to evaluate the subject source and its CAAPP application or who has submitted incorrect information in a CAAPP application shall, upon becoming aware of such failure or incorrect submittal, submit supplementary facts or correct information to the Agency. In addition, an applicant shall provide to the Agency additional information as necessary to address any

requirements which become applicable to the source subsequent to the date the applicant submitted its complete CAAPP application but prior to release of the draft CAAPP permit.

j. The Agency shall issue or deny the CAAPP permit within 18 months after the date of receipt of the complete CAAPP application, with the following exceptions: (i) permits for affected sources for acid deposition shall be issued or denied within 6 months after receipt of a complete application in accordance with subsection 17 of this Section; (ii) the Agency shall act on initial CAAPP applications within 24 months after the date of receipt of the complete CAAPP application; (iii) the Agency shall act on complete applications containing early reduction demonstrations under Section 112(i)(5) of the Clean Air Act within 9 months of receipt of the complete CAAPP application.

Where the Agency does not take final action on the permit within the required time period, the permit shall not be deemed issued; rather, the failure to act shall be treated as a final permit action for purposes of judicial review pursuant to Sections 40.2 and 41 of this Act.

k. The submittal of a complete CAAPP application shall not affect the requirement that any source have a preconstruction permit under Title I of the Clean Air Act.

l. Unless a timely and complete renewal application

has been submitted consistent with this subsection, a CAAPP source operating upon the expiration of its CAAPP permit shall be deemed to be operating without a CAAPP permit. Such operation is prohibited under this Act.

m. Permits being renewed shall be subject to the same procedural requirements, including those for public participation and federal review and objection, that apply to original permit issuance.

n. For purposes of permit renewal, a timely application is one that is submitted no less than 9 months prior to the date of permit expiration.

o. The terms and conditions of a CAAPP permit shall remain in effect until the issuance of a CAAPP renewal permit provided a timely and complete CAAPP application has been submitted.

p. The owner or operator of a CAAPP source seeking a permit shield pursuant to paragraph (j) of subsection 7 of this Section shall request such permit shield in the CAAPP application regarding that source.

q. The Agency shall make available to the public all documents submitted by the applicant to the Agency, including each CAAPP application, compliance plan (including the schedule of compliance), and emissions or compliance monitoring report, with the exception of information entitled to confidential treatment pursuant to Section 7 of this Act.

r. The Agency shall use the standardized forms required under Title IV of the Clean Air Act and regulations promulgated thereunder for affected sources for acid deposition.

s. An owner or operator of a CAAPP source may include within its CAAPP application a request for permission to operate during a startup, malfunction, or breakdown consistent with applicable Board regulations.

t. An owner or operator of a CAAPP source, in order to utilize the operational flexibility provided under paragraph (1) of subsection 7 of this Section, must request such use and provide the necessary information within its CAAPP application.

u. An owner or operator of a CAAPP source which seeks exclusion from the CAAPP through the imposition of federally enforceable conditions, pursuant to paragraph (c) of subsection 3 of this Section, must request such exclusion within a CAAPP application submitted consistent with this subsection on or after the date that the CAAPP application for the source is due. Prior to such date, but in no case later than 9 months after the effective date of the CAAPP, such owner or operator may request the imposition of federally enforceable conditions pursuant to paragraph (b) of subsection 1.1 of this Section.

v. CAAPP applications shall contain accurate information on allowable emissions to implement the fee

provisions of subsection 18 of this Section.

w. An owner or operator of a CAAPP source shall submit within its CAAPP application emissions information regarding all regulated air pollutants emitted at that source consistent with applicable Agency procedures. Emissions information regarding insignificant activities or emission levels, as determined by the Agency pursuant to Board regulations, may be submitted as a list within the CAAPP application. The Agency shall propose regulations to the Board defining insignificant activities or emission levels, consistent with federal regulations, if any, no later than 18 months after the effective date of Public Act 87-1213 ~~this amendatory Act of 1992~~, consistent with Section 112(n)(1) of the Clean Air Act. The Board shall adopt final regulations defining insignificant activities or emission levels no later than 9 months after the date of the Agency's proposal.

x. The owner or operator of a new CAAPP source shall submit its complete CAAPP application consistent with this subsection within 12 months after commencing operation of such source. The owner or operator of an existing source that has been excluded from the provisions of this Section under subsection 1.1 or paragraph (c) of subsection 3 of this Section and that becomes subject to the CAAPP solely due to a change in operation at the source shall submit its complete CAAPP application consistent with this subsection

at least 180 days before commencing operation in accordance with the change in operation.

y. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary to implement this subsection.

6. Prohibitions.

a. It shall be unlawful for any person to violate any terms or conditions of a permit issued under this Section, to operate any CAAPP source except in compliance with a permit issued by the Agency under this Section or to violate any other applicable requirements. All terms and conditions of a permit issued under this Section are enforceable by USEPA and citizens under the Clean Air Act, except those, if any, that are specifically designated as not being federally enforceable in the permit pursuant to paragraph (m) of subsection 7 of this Section.

b. After the applicable CAAPP permit or renewal application submittal date, as specified in subsection 5 of this Section, no person shall operate a CAAPP source without a CAAPP permit unless the complete CAAPP permit or renewal application for such source has been timely submitted to the Agency.

c. No owner or operator of a CAAPP source shall cause or threaten or allow the continued operation of an

emission source during malfunction or breakdown of the emission source or related air pollution control equipment if such operation would cause a violation of the standards or limitations applicable to the source, unless the CAAPP permit granted to the source provides for such operation consistent with this Act and applicable Board regulations.

7. Permit Content.

a. All CAAPP permits shall contain emission limitations and standards and other enforceable terms and conditions, including, but not limited to, operational requirements, and schedules for achieving compliance at the earliest reasonable date, which are or will be required to accomplish the purposes and provisions of this Act and to assure compliance with all applicable requirements.

b. The Agency shall include among such conditions applicable monitoring, reporting, recordkeeping, ~~record keeping~~ and compliance certification requirements, as authorized by paragraphs (d), (e), and (f) of this subsection, that the Agency deems necessary to assure compliance with the Clean Air Act, the regulations promulgated thereunder, this Act, and applicable Board regulations. When monitoring, reporting, recordkeeping ~~record keeping~~, and compliance certification requirements are specified within the Clean Air Act, regulations

promulgated thereunder, this Act, or applicable regulations, such requirements shall be included within the CAAPP permit. The Board shall have authority to promulgate additional regulations where necessary to accomplish the purposes of the Clean Air Act, this Act, and regulations promulgated thereunder.

c. The Agency shall assure, within such conditions, the use of terms, test methods, units, averaging periods, and other statistical conventions consistent with the applicable emission limitations, standards, and other requirements contained in the permit.

d. To meet the requirements of this subsection with respect to monitoring, the permit shall:

i. Incorporate and identify all applicable emissions monitoring and analysis procedures or test methods required under the Clean Air Act, regulations promulgated thereunder, this Act, and applicable Board regulations, including any procedures and methods promulgated by USEPA pursuant to Section 504(b) or Section 114 (a) (3) of the Clean Air Act.

ii. Where the applicable requirement does not require periodic testing or instrumental or noninstrumental monitoring (which may consist of recordkeeping designed to serve as monitoring), require periodic monitoring sufficient to yield reliable data from the relevant time period that is

representative of the source's compliance with the permit, as reported pursuant to paragraph (f) of this subsection. The Agency may determine that recordkeeping requirements are sufficient to meet the requirements of this subparagraph.

iii. As necessary, specify requirements concerning the use, maintenance, and when appropriate, installation of monitoring equipment or methods.

e. To meet the requirements of this subsection with respect to recordkeeping ~~record keeping~~, the permit shall incorporate and identify all applicable recordkeeping requirements and require, where applicable, the following:

i. Records of required monitoring information that include the following:

A. The date, place and time of sampling or measurements.

B. The date(s) analyses were performed.

C. The company or entity that performed the analyses.

D. The analytical techniques or methods used.

E. The results of such analyses.

F. The operating conditions as existing at the time of sampling or measurement.

ii. Retention of records of all monitoring data and support information for a period of at least 5 years from the date of the monitoring sample,

measurement, report, or application. Support information includes all calibration and maintenance records, original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.

f. To meet the requirements of this subsection with respect to reporting, the permit shall incorporate and identify all applicable reporting requirements and require the following:

i. Submittal of reports of any required monitoring every 6 months. More frequent submittals may be requested by the Agency if such submittals are necessary to assure compliance with this Act or regulations promulgated by the Board thereunder. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by a responsible official consistent with subsection 5 of this Section.

ii. Prompt reporting of deviations from permit requirements, including those attributable to upset conditions as defined in the permit, the probable cause of such deviations, and any corrective actions or preventive measures taken.

g. Each CAAPP permit issued under subsection 10 of this Section shall include a condition prohibiting emissions exceeding any allowances that the source

lawfully holds under Title IV of the Clean Air Act or the regulations promulgated thereunder, consistent with subsection 17 of this Section and applicable regulations, if any.

h. All CAAPP permits shall state that, where another applicable requirement of the Clean Air Act is more stringent than any applicable requirement of regulations promulgated under Title IV of the Clean Air Act, both provisions shall be incorporated into the permit and shall be State and federally enforceable.

i. Each CAAPP permit issued under subsection 10 of this Section shall include a severability clause to ensure the continued validity of the various permit requirements in the event of a challenge to any portions of the permit.

j. The following shall apply with respect to owners or operators requesting a permit shield:

i. The Agency shall include in a CAAPP permit, when requested by an applicant pursuant to paragraph (p) of subsection 5 of this Section, a provision stating that compliance with the conditions of the permit shall be deemed compliance with applicable requirements which are applicable as of the date of release of the proposed permit, provided that:

A. The applicable requirement is specifically identified within the permit; or

B. The Agency in acting on the CAAPP

application or revision determines in writing that other requirements specifically identified are not applicable to the source, and the permit includes that determination or a concise summary thereof.

ii. The permit shall identify the requirements for which the source is shielded. The shield shall not extend to applicable requirements which are promulgated after the date of release of the proposed permit unless the permit has been modified to reflect such new requirements.

iii. A CAAPP permit which does not expressly indicate the existence of a permit shield shall not provide such a shield.

iv. Nothing in this paragraph or in a CAAPP permit shall alter or affect the following:

A. The provisions of Section 303 (emergency powers) of the Clean Air Act, including USEPA's authority under that section.

B. The liability of an owner or operator of a source for any violation of applicable requirements prior to or at the time of permit issuance.

C. The applicable requirements of the acid rain program consistent with Section 408(a) of the Clean Air Act.

D. The ability of USEPA to obtain information

from a source pursuant to Section 114 (inspections, monitoring, and entry) of the Clean Air Act.

k. Each CAAPP permit shall include an emergency provision providing an affirmative defense of emergency to an action brought for noncompliance with technology-based emission limitations under a CAAPP permit if the following conditions are met through properly signed, contemporaneous operating logs, or other relevant evidence:

i. An emergency occurred and the permittee can identify the cause(s) of the emergency.

ii. The permitted facility was at the time being properly operated.

iii. The permittee submitted notice of the emergency to the Agency within 2 working days after the time when emission limitations were exceeded due to the emergency. This notice must contain a detailed description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

iv. During the period of the emergency the permittee took all reasonable steps to minimize levels of emissions that exceeded the emission limitations, standards, or requirements in the permit.

For purposes of this subsection, "emergency" means any situation arising from sudden and reasonably unforeseeable

events beyond the control of the source, such as an act of God, that requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation under the permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operation error.

In any enforcement proceeding, the permittee seeking to establish the occurrence of an emergency has the burden of proof. This provision is in addition to any emergency or upset provision contained in any applicable requirement. This provision does not relieve a permittee of any reporting obligations under existing federal or state laws or regulations.

1. The Agency shall include in each permit issued under subsection 10 of this Section:

i. Terms and conditions for reasonably anticipated operating scenarios identified by the source in its application. The permit terms and conditions for each such operating scenario shall meet all applicable requirements and the requirements of this Section.

A. Under this subparagraph, the source must record in a log at the permitted facility a record of the scenario under which it is operating

contemporaneously with making a change from one operating scenario to another.

B. The permit shield described in paragraph (j) of subsection 7 of this Section shall extend to all terms and conditions under each such operating scenario.

ii. Where requested by an applicant, all terms and conditions allowing for trading of emissions increases and decreases between different emission units at the CAAPP source, to the extent that the applicable requirements provide for trading of such emissions increases and decreases without a case-by-case approval of each emissions trade. Such terms and conditions:

A. Shall include all terms required under this subsection to determine compliance;

B. Must meet all applicable requirements;

C. Shall extend the permit shield described in paragraph (j) of subsection 7 of this Section to all terms and conditions that allow such increases and decreases in emissions.

m. The Agency shall specifically designate as not being federally enforceable under the Clean Air Act any terms and conditions included in the permit that are not specifically required under the Clean Air Act or federal regulations promulgated thereunder. Terms or conditions so

designated shall be subject to all applicable State requirements, except the requirements of subsection 7 (other than this paragraph, paragraph q of subsection 7, subsections 8 through 11, and subsections 13 through 16 of this Section). The Agency shall, however, include such terms and conditions in the CAAPP permit issued to the source.

n. Each CAAPP permit issued under subsection 10 of this Section shall specify and reference the origin of and authority for each term or condition, and identify any difference in form as compared to the applicable requirement upon which the term or condition is based.

o. Each CAAPP permit issued under subsection 10 of this Section shall include provisions stating the following:

i. Duty to comply. The permittee must comply with all terms and conditions of the CAAPP permit. Any permit noncompliance constitutes a violation of the Clean Air Act and the Act, and is grounds for any or all of the following: enforcement action; permit termination, revocation and reissuance, or modification; or denial of a permit renewal application.

ii. Need to halt or reduce activity not a defense. It shall not be a defense for a permittee in an enforcement action that it would have been necessary

to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

iii. Permit actions. The permit may be modified, revoked, reopened, and reissued, or terminated for cause in accordance with the applicable subsections of this Section 39.5 ~~of this Act~~. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

iv. Property rights. The permit does not convey any property rights of any sort, or any exclusive privilege.

v. Duty to provide information. The permittee shall furnish to the Agency within a reasonable time specified by the Agency any information that the Agency may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the Agency copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to USEPA along with a claim of confidentiality.

vi. Duty to pay fees. The permittee must pay fees to the Agency consistent with the fee schedule approved pursuant to subsection 18 of this Section, and submit any information relevant thereto.

vii. Emissions trading. No permit revision shall be required for increases in emissions allowed under any approved economic incentives, marketable permits, emissions trading, and other similar programs or processes for changes that are provided for in the permit and that are authorized by the applicable requirement.

p. Each CAAPP permit issued under subsection 10 of this Section shall contain the following elements with respect to compliance:

i. Compliance certification, testing, monitoring, reporting, and recordkeeping ~~record—keeping~~ requirements sufficient to assure compliance with the terms and conditions of the permit. Any document (including reports) required by a CAAPP permit shall contain a certification by a responsible official that meets the requirements of subsection 5 of this Section and applicable regulations.

ii. Inspection and entry requirements that necessitate that, upon presentation of credentials and other documents as may be required by law and in accordance with constitutional limitations, the

permittee shall allow the Agency, or an authorized representative to perform the following:

A. Enter upon the permittee's premises where a CAAPP source is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit.

B. Have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit.

C. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under the permit.

D. Sample or monitor any substances or parameters at any location:

1. As authorized by the Clean Air Act, at reasonable times, for the purposes of assuring compliance with the CAAPP permit or applicable requirements; or

2. As otherwise authorized by this Act.

iii. A schedule of compliance consistent with subsection 5 of this Section and applicable regulations.

iv. Progress reports consistent with an applicable schedule of compliance pursuant to paragraph (d) of subsection 5 of this Section and applicable

regulations to be submitted semiannually, or more frequently if the Agency determines that such more frequent submittals are necessary for compliance with the Act or regulations promulgated by the Board thereunder. Such progress reports shall contain the following:

A. Required dates for achieving the activities, milestones, or compliance required by the schedule of compliance and dates when such activities, milestones, or compliance were achieved.

B. An explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

v. Requirements for compliance certification with terms and conditions contained in the permit, including emission limitations, standards, or work practices. Permits shall include each of the following:

A. The frequency (annually or more frequently as specified in any applicable requirement or by the Agency pursuant to written procedures) of submissions of compliance certifications.

B. A means for assessing or monitoring the compliance of the source with its emissions

limitations, standards, and work practices.

C. A requirement that the compliance certification include the following:

1. The identification of each term or condition contained in the permit that is the basis of the certification.

2. The compliance status.

3. Whether compliance was continuous or intermittent.

4. The method(s) used for determining the compliance status of the source, both currently and over the reporting period consistent with subsection 7 of this Section.

D. A requirement that all compliance certifications be submitted to the Agency.

E. Additional requirements as may be specified pursuant to Sections 114(a)(3) and 504(b) of the Clean Air Act.

F. Other provisions as the Agency may require.

q. If the owner or operator of CAAPP source can demonstrate in its CAAPP application, including an application for a significant modification, that an alternative emission limit would be equivalent to that contained in the applicable Board regulations, the Agency shall include the alternative emission limit in the CAAPP permit, which shall supersede the emission limit set forth

in the applicable Board regulations, and shall include conditions that insure that the resulting emission limit is quantifiable, accountable, enforceable, and based on replicable procedures.

8. Public Notice; Affected State Review.

a. The Agency shall provide notice to the public, including an opportunity for public comment and a hearing, on each draft CAAPP permit for issuance, renewal, or significant modification, subject to Section 7.1 and subsection (a) of Section 7 of this Act.

b. The Agency shall prepare a draft CAAPP permit and a statement that sets forth the legal and factual basis for the draft CAAPP permit conditions, including references to the applicable statutory or regulatory provisions. The Agency shall provide this statement to any person who requests it.

c. The Agency shall give notice of each draft CAAPP permit to the applicant and to any affected State on or before the time that the Agency has provided notice to the public, except as otherwise provided in this Act.

d. The Agency, as part of its submittal of a proposed permit to USEPA (or as soon as possible after the submittal for minor permit modification procedures allowed under subsection 14 of this Section), shall notify USEPA and any affected State in writing of any refusal of the

Agency to accept all of the recommendations for the proposed permit that an affected State submitted during the public or affected State review period. The notice shall include the Agency's reasons for not accepting the recommendations. The Agency is not required to accept recommendations that are not based on applicable requirements or the requirements of this Section.

e. The Agency shall make available to the public any CAAPP permit application, compliance plan (including the schedule of compliance), CAAPP permit, and emissions or compliance monitoring report. If an owner or operator of a CAAPP source is required to submit information entitled to protection from disclosure under Section 7.1 and subsection (a) of Section 7 of this Act, the owner or operator shall submit such information separately. The requirements of Section 7.1 and subsection (a) of Section 7 of this Act shall apply to such information, which shall not be included in a CAAPP permit unless required by law. The contents of a CAAPP permit shall not be entitled to protection under Section 7.1 and subsection (a) of Section 7 of this Act.

f. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

g. If requested by the permit applicant, the Agency

shall provide the permit applicant with a copy of the draft CAAPP permit prior to any public review period. If requested by the permit applicant, the Agency shall provide the permit applicant with a copy of the final CAAPP permit prior to issuance of the CAAPP permit.

9. USEPA Notice and Objection.

a. The Agency shall provide to USEPA for its review a copy of each CAAPP application (including any application for permit modification), statement of basis as provided in paragraph (b) of subsection 8 of this Section, proposed CAAPP permit, CAAPP permit, and, if the Agency does not incorporate any affected State's recommendations on a proposed CAAPP permit, a written statement of this decision and its reasons for not accepting the recommendations, except as otherwise provided in this Act or by agreement with USEPA. To the extent practicable, the preceding information shall be provided in computer readable format compatible with USEPA's national database management system.

b. The Agency shall not issue the proposed CAAPP permit if USEPA objects in writing within 45 days after receipt of the proposed CAAPP permit and all necessary supporting information.

c. If USEPA objects in writing to the issuance of the proposed CAAPP permit within the 45-day period, the Agency

shall respond in writing and may revise and resubmit the proposed CAAPP permit in response to the stated objection, to the extent supported by the record, within 90 days after the date of the objection. Prior to submitting a revised permit to USEPA, the Agency shall provide the applicant and any person who participated in the public comment process, pursuant to subsection 8 of this Section, with a 10-day period to comment on any revision which the Agency is proposing to make to the permit in response to USEPA's objection in accordance with Agency procedures.

d. Any USEPA objection under this subsection, according to the Clean Air Act, will include a statement of reasons for the objection and a description of the terms and conditions that must be in the permit, in order to adequately respond to the objections. Grounds for a USEPA objection include the failure of the Agency to: (1) submit the items and notices required under this subsection; (2) submit any other information necessary to adequately review the proposed CAAPP permit; or (3) process the permit under subsection 8 of this Section except for minor permit modifications.

e. If USEPA does not object in writing to issuance of a permit under this subsection, any person may petition USEPA within 60 days after expiration of the 45-day review period to make such objection.

f. If the permit has not yet been issued and USEPA

objects to the permit as a result of a petition, the Agency shall not issue the permit until USEPA's objection has been resolved. The Agency shall provide a 10-day comment period in accordance with paragraph c of this subsection. A petition does not, however, stay the effectiveness of a permit or its requirements if the permit was issued after expiration of the 45-day review period and prior to a USEPA objection.

g. If the Agency has issued a permit after expiration of the 45-day review period and prior to receipt of a USEPA objection under this subsection in response to a petition submitted pursuant to paragraph e of this subsection, the Agency may, upon receipt of an objection from USEPA, revise and resubmit the permit to USEPA pursuant to this subsection after providing a 10-day comment period in accordance with paragraph c of this subsection. If the Agency fails to submit a revised permit in response to the objection, USEPA shall modify, terminate, or revoke the permit. In any case, the source will not be in violation of the requirement to have submitted a timely and complete application.

h. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

10. Final Agency Action.

a. The Agency shall issue a CAAPP permit, permit modification, or permit renewal if all of the following conditions are met:

i. The applicant has submitted a complete and certified application for a permit, permit modification, or permit renewal consistent with subsections 5 and 14 of this Section, as applicable, and applicable regulations.

ii. The applicant has submitted with its complete application an approvable compliance plan, including a schedule for achieving compliance, consistent with subsection 5 of this Section and applicable regulations.

iii. The applicant has timely paid the fees required pursuant to subsection 18 of this Section and applicable regulations.

iv. The Agency has received a complete CAAPP application and, if necessary, has requested and received additional information from the applicant consistent with subsection 5 of this Section and applicable regulations.

v. The Agency has complied with all applicable provisions regarding public notice and affected State review consistent with subsection 8 of this Section and applicable regulations.

vi. The Agency has provided a copy of each CAAPP application, or summary thereof, pursuant to agreement with USEPA and proposed CAAPP permit required under subsection 9 of this Section to USEPA, and USEPA has not objected to the issuance of the permit in accordance with the Clean Air Act and 40 CFR Part 70.

b. The Agency shall have the authority to deny a CAAPP permit, permit modification, or permit renewal if the applicant has not complied with the requirements of subparagraphs (i) through (iv) of paragraph (a) of this subsection or if USEPA objects to its issuance.

c. i. Prior to denial of a CAAPP permit, permit modification, or permit renewal under this Section, the Agency shall notify the applicant of the possible denial and the reasons for the denial.

ii. Within such notice, the Agency shall specify an appropriate date by which the applicant shall adequately respond to the Agency's notice. Such date shall not exceed 15 days from the date the notification is received by the applicant. The Agency may grant a reasonable extension for good cause shown.

iii. Failure by the applicant to adequately respond by the date specified in the notification or by any granted extension date shall be grounds for denial of the permit.

For purposes of obtaining judicial review under

Sections 40.2 and 41 of this Act, the Agency shall provide to USEPA and each applicant, and, upon request, to affected States, any person who participated in the public comment process, and any other person who could obtain judicial review under Sections 40.2 and 41 of this Act, a copy of each CAAPP permit or notification of denial pertaining to that party.

d. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

11. General Permits.

a. The Agency may issue a general permit covering numerous similar sources, except for affected sources for acid deposition unless otherwise provided in regulations promulgated under Title IV of the Clean Air Act.

b. The Agency shall identify, in any general permit, criteria by which sources may qualify for the general permit.

c. CAAPP sources that would qualify for a general permit must apply for coverage under the terms of the general permit or must apply for a CAAPP permit consistent with subsection 5 of this Section and applicable regulations.

d. The Agency shall comply with the public comment and hearing provisions of this Section as well as the USEPA and affected State review procedures prior to issuance of a general permit.

e. When granting a subsequent request by a qualifying CAAPP source for coverage under the terms of a general permit, the Agency shall not be required to repeat the public notice and comment procedures. The granting of such request shall not be considered a final permit action for purposes of judicial review.

f. The Agency may not issue a general permit to cover any discrete emission unit at a CAAPP source if another CAAPP permit covers emission units at the source.

g. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

12. Operational Flexibility.

a. An owner or operator of a CAAPP source may make changes at the CAAPP source without requiring a prior permit revision, consistent with subparagraphs (i) through (iii) of paragraph (a) of this subsection, so long as the changes are not modifications under any provision of Title I of the Clean Air Act and they do not exceed the emissions allowable under the permit (whether expressed therein as a

rate of emissions or in terms of total emissions), provided that the owner or operator of the CAAPP source provides USEPA and the Agency with written notification as required below in advance of the proposed changes, which shall be a minimum of 7 days, unless otherwise provided by the Agency in applicable regulations regarding emergencies. The owner or operator of a CAAPP source and the Agency shall each attach such notice to their copy of the relevant permit.

i. An owner or operator of a CAAPP source may make Section 502 (b) (10) changes without a permit revision, if the changes are not modifications under any provision of Title I of the Clean Air Act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions).

A. For each such change, the written notification required above shall include a brief description of the change within the source, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.

B. The permit shield described in paragraph (j) of subsection 7 of this Section shall not apply to any change made pursuant to this subparagraph.

ii. An owner or operator of a CAAPP source may trade increases and decreases in emissions in the CAAPP source, where the applicable implementation plan provides for such emission trades without requiring a permit revision. This provision is available in those cases where the permit does not already provide for such emissions trading.

A. Under this subparagraph (ii) of paragraph (a) of this subsection, the written notification required above shall include such information as may be required by the provision in the applicable implementation plan authorizing the emissions trade, including, at a minimum, when the proposed changes will occur, a description of each such change, any change in emissions, the permit requirements with which the source will comply using the emissions trading provisions of the applicable implementation plan, and the pollutants emitted subject to the emissions trade. The notice shall also refer to the provisions in the applicable implementation plan with which the source will comply and provide for the emissions trade.

B. The permit shield described in paragraph (j) of subsection 7 of this Section shall not apply to any change made pursuant to subparagraph

(ii) of paragraph (a) of this subsection. Compliance with the permit requirements that the source will meet using the emissions trade shall be determined according to the requirements of the applicable implementation plan authorizing the emissions trade.

iii. If requested within a CAAPP application, the Agency shall issue a CAAPP permit which contains terms and conditions, including all terms required under subsection 7 of this Section to determine compliance, allowing for the trading of emissions increases and decreases at the CAAPP source solely for the purpose of complying with a federally enforceable ~~federally-enforceable~~ emissions cap that is established in the permit independent of otherwise applicable requirements. The owner or operator of a CAAPP source shall include in its CAAPP application proposed replicable procedures and permit terms that ensure the emissions trades are quantifiable and enforceable. The permit shall also require compliance with all applicable requirements.

A. Under this subparagraph (iii) of paragraph (a), the written notification required above shall state when the change will occur and shall describe the changes in emissions that will result and how these increases and decreases in emissions

will comply with the terms and conditions of the permit.

B. The permit shield described in paragraph (j) of subsection 7 of this Section shall extend to terms and conditions that allow such increases and decreases in emissions.

b. An owner or operator of a CAAPP source may make changes that are not addressed or prohibited by the permit, other than those which are subject to any requirements under Title IV of the Clean Air Act or are modifications under any provisions of Title I of the Clean Air Act, without a permit revision, in accordance with the following requirements:

(i) Each such change shall meet all applicable requirements and shall not violate any existing permit term or condition;

(ii) Sources must provide contemporaneous written notice to the Agency and USEPA of each such change, except for changes that qualify as insignificant under provisions adopted by the Agency or the Board. Such written notice shall describe each such change, including the date, any change in emissions, pollutants emitted, and any applicable requirement that would apply as a result of the change;

(iii) The change shall not qualify for the shield described in paragraph (j) of subsection 7 of this

Section; and

(iv) The permittee shall keep a record describing changes made at the source that result in emissions of a regulated air pollutant subject to an applicable Clean Air Act requirement, but not otherwise regulated under the permit, and the emissions resulting from those changes.

c. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary to implement this subsection.

13. Administrative Permit Amendments.

a. The Agency shall take final action on a request for an administrative permit amendment within 60 days after receipt of the request. Neither notice nor an opportunity for public and affected State comment shall be required for the Agency to incorporate such revisions, provided it designates the permit revisions as having been made pursuant to this subsection.

b. The Agency shall submit a copy of the revised permit to USEPA.

c. For purposes of this Section the term "administrative permit amendment" shall be defined as a permit revision that can accomplish one or more of the changes described below:

- i. Corrects typographical errors;
- ii. Identifies a change in the name, address, or phone number of any person identified in the permit, or provides a similar minor administrative change at the source;
- iii. Requires more frequent monitoring or reporting by the permittee;
- iv. Allows for a change in ownership or operational control of a source where the Agency determines that no other change in the permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittees has been submitted to the Agency;
- v. Incorporates into the CAAPP permit the requirements from preconstruction review permits authorized under a USEPA-approved program, provided the program meets procedural and compliance requirements substantially equivalent to those contained in this Section;
- vi. (Blank); or
- vii. Any other type of change which USEPA has determined as part of the approved CAAPP permit program to be similar to those included in this subsection.

d. The Agency shall, upon taking final action granting a request for an administrative permit amendment, allow coverage by the permit shield in paragraph (j) of subsection 7 of this Section for administrative permit amendments made pursuant to subparagraph (v) of paragraph (c) of this subsection which meet the relevant requirements for significant permit modifications.

e. Permit revisions and modifications, including administrative amendments and automatic amendments (pursuant to Sections 408(b) and 403(d) of the Clean Air Act or regulations promulgated thereunder), for purposes of the acid rain portion of the permit shall be governed by the regulations promulgated under Title IV of the Clean Air Act. Owners or operators of affected sources for acid deposition shall have the flexibility to amend their compliance plans as provided in the regulations promulgated under Title IV of the Clean Air Act.

f. The CAAPP source may implement the changes addressed in the request for an administrative permit amendment immediately upon submittal of the request.

g. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

14. Permit Modifications.

a. Minor permit modification procedures.

i. The Agency shall review a permit modification using the "minor permit" modification procedures only for those permit modifications that:

A. Do not violate any applicable requirement;

B. Do not involve significant changes to existing monitoring, reporting, or recordkeeping requirements in the permit;

C. Do not require a case-by-case determination of an emission limitation or other standard, or a source-specific determination of ambient impacts, or a visibility or increment analysis;

D. Do not seek to establish or change a permit term or condition for which there is no corresponding underlying requirement and which avoids an applicable requirement to which the source would otherwise be subject. Such terms and conditions include:

1. A federally enforceable emissions cap assumed to avoid classification as a modification under any provision of Title I of the Clean Air Act; and

2. An alternative emissions limit approved pursuant to regulations promulgated under Section 112(i)(5) of the Clean Air Act;

E. Are not modifications under any provision

of Title I of the Clean Air Act; and

F. Are not required to be processed as a significant modification.

ii. Notwithstanding subparagraph (i) of paragraph (a) and subparagraph (ii) of paragraph (b) of this subsection, minor permit modification procedures may be used for permit modifications involving the use of economic incentives, marketable permits, emissions trading, and other similar approaches, to the extent that such minor permit modification procedures are explicitly provided for in an applicable implementation plan or in applicable requirements promulgated by USEPA.

iii. An applicant requesting the use of minor permit modification procedures shall meet the requirements of subsection 5 of this Section and shall include the following in its application:

A. A description of the change, the emissions resulting from the change, and any new applicable requirements that will apply if the change occurs;

B. The source's suggested draft permit;

C. Certification by a responsible official, consistent with paragraph (e) of subsection 5 of this Section and applicable regulations, that the proposed modification meets the criteria for use of minor permit modification procedures and a

request that such procedures be used; and

D. Completed forms for the Agency to use to notify USEPA and affected States as required under subsections 8 and 9 of this Section.

iv. Within 5 working days after receipt of a complete permit modification application, the Agency shall notify USEPA and affected States of the requested permit modification in accordance with subsections 8 and 9 of this Section. The Agency promptly shall send any notice required under paragraph (d) of subsection 8 of this Section to USEPA.

v. The Agency may not issue a final permit modification until after the 45-day review period for USEPA or until USEPA has notified the Agency that USEPA will not object to the issuance of the permit modification, whichever comes first, although the Agency can approve the permit modification prior to that time. Within 90 days after the Agency's receipt of an application under the minor permit modification procedures or 15 days after the end of USEPA's 45-day review period under subsection 9 of this Section, whichever is later, the Agency shall:

- A. Issue the permit modification as proposed;
- B. Deny the permit modification application;
- C. Determine that the requested modification

does not meet the minor permit modification criteria and should be reviewed under the significant modification procedures; or

D. Revise the draft permit modification and transmit to USEPA the new proposed permit modification as required by subsection 9 of this Section.

vi. Any CAAPP source may make the change proposed in its minor permit modification application immediately after it files such application. After the CAAPP source makes the change allowed by the preceding sentence, and until the Agency takes any of the actions specified in items (A) through (C) of subparagraph (v) of paragraph (a) of this subsection, the source must comply with both the applicable requirements governing the change and the proposed permit terms and conditions. During this time period, the source need not comply with the existing permit terms and conditions it seeks to modify. If the source fails to comply with its proposed permit terms and conditions during this time period, the existing permit terms and conditions which it seeks to modify may be enforced against it.

vii. The permit shield under paragraph (j) of subsection 7 of this Section may not extend to minor permit modifications.

viii. If a construction permit is required, pursuant to subsection (a) of Section 39 of this Act and regulations thereunder, for a change for which the minor permit modification procedures are applicable, the source may request that the processing of the construction permit application be consolidated with the processing of the application for the minor permit modification. In such cases, the provisions of this Section, including those within subsections 5, 8, and 9, shall apply and the Agency shall act on such applications pursuant to subparagraph (v) of paragraph (a) of subsection 14 of this Section. The source may make the proposed change immediately after filing its application for the minor permit modification. Nothing in this subparagraph shall otherwise affect the requirements and procedures applicable to construction permits.

b. Group Processing of Minor Permit Modifications.

i. Where requested by an applicant within its application, the Agency shall process groups of a source's applications for certain modifications eligible for minor permit modification processing in accordance with the provisions of this paragraph (b).

ii. Permit modifications may be processed in accordance with the procedures for group processing, for those modifications:

A. Which meet the criteria for minor permit modification procedures under subparagraph (i) of paragraph (a) of subsection 14 of this Section; and

B. That collectively are below 10 percent of the emissions allowed by the permit for the emissions unit for which change is requested, 20 percent of the applicable definition of major source set forth in subsection 2 of this Section, or 5 tons per year, whichever is least.

iii. An applicant requesting the use of group processing procedures shall meet the requirements of subsection 5 of this Section and shall include the following in its application:

A. A description of the change, the emissions resulting from the change, and any new applicable requirements that will apply if the change occurs.

B. The source's suggested draft permit.

C. Certification by a responsible official consistent with paragraph (e) of subsection 5 of this Section, that the proposed modification meets the criteria for use of group processing procedures and a request that such procedures be used.

D. A list of the source's other pending applications awaiting group processing, and a

determination of whether the requested modification, aggregated with these other applications, equals or exceeds the threshold set under item (B) of subparagraph (ii) of paragraph (b) of this subsection.

E. Certification, consistent with paragraph (e) of subsection 5 of this Section, that the source has notified USEPA of the proposed modification. Such notification need only contain a brief description of the requested modification.

F. Completed forms for the Agency to use to notify USEPA and affected states as required under subsections 8 and 9 of this Section.

iv. On a quarterly basis or within 5 business days after receipt of an application demonstrating that the aggregate of a source's pending applications equals or exceeds the threshold level set forth within item (B) of subparagraph (ii) of paragraph (b) of this subsection, whichever is earlier, the Agency shall promptly notify USEPA and affected States of the requested permit modifications in accordance with subsections 8 and 9 of this Section. The Agency shall send any notice required under paragraph (d) of subsection 8 of this Section to USEPA.

v. The provisions of subparagraph (v) of paragraph (a) of this subsection shall apply to modifications

eligible for group processing, except that the Agency shall take one of the actions specified in items (A) through (D) of subparagraph (v) of paragraph (a) of this subsection within 180 days after receipt of the application or 15 days after the end of USEPA's 45-day review period under subsection 9 of this Section, whichever is later.

vi. The provisions of subparagraph (vi) of paragraph (a) of this subsection shall apply to modifications for group processing.

vii. The provisions of paragraph (j) of subsection 7 of this Section shall not apply to modifications eligible for group processing.

c. Significant Permit Modifications.

i. Significant modification procedures shall be used for applications requesting significant permit modifications and for those applications that do not qualify as either minor permit modifications or as administrative permit amendments.

ii. Every significant change in existing monitoring permit terms or conditions and every relaxation of reporting or recordkeeping requirements shall be considered significant. A modification shall also be considered significant if in the judgment of the Agency action on an application for modification would require decisions to be made on technically

complex issues. Nothing herein shall be construed to preclude the permittee from making changes consistent with this Section that would render existing permit compliance terms and conditions irrelevant.

iii. Significant permit modifications must meet all the requirements of this Section, including those for applications (including completeness review), public participation, review by affected States, and review by USEPA applicable to initial permit issuance and permit renewal. The Agency shall take final action on significant permit modifications within 9 months after receipt of a complete application.

d. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

15. Reopenings for Cause by the Agency.

a. Each issued CAAPP permit shall include provisions specifying the conditions under which the permit will be reopened prior to the expiration of the permit. Such revisions shall be made as expeditiously as practicable. A CAAPP permit shall be reopened and revised under any of the following circumstances, in accordance with procedures adopted by the Agency:

i. Additional requirements under the Clean Air Act

become applicable to a major CAAPP source for which 3 or more years remain on the original term of the permit. Such a reopening shall be completed not later than 18 months after the promulgation of the applicable requirement. No such revision is required if the effective date of the requirement is later than the date on which the permit is due to expire.

ii. Additional requirements (including excess emissions requirements) become applicable to an affected source for acid deposition under the acid rain program. Excess emissions offset plans shall be deemed to be incorporated into the permit upon approval by USEPA.

iii. The Agency or USEPA determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards, limitations, or other terms or conditions of the permit.

iv. The Agency or USEPA determines that the permit must be revised or revoked to assure compliance with the applicable requirements.

b. In the event that the Agency determines that there are grounds for revoking a CAAPP permit, for cause, consistent with paragraph a of this subsection, it shall file a petition before the Board setting forth the basis for such revocation. In any such proceeding, the Agency

shall have the burden of establishing that the permit should be revoked under the standards set forth in this Act and the Clean Air Act. Any such proceeding shall be conducted pursuant to the Board's procedures for adjudicatory hearings and the Board shall render its decision within 120 days of the filing of the petition. The Agency shall take final action to revoke and reissue a CAAPP permit consistent with the Board's order.

c. Proceedings regarding a reopened CAAPP permit shall follow the same procedures as apply to initial permit issuance and shall affect only those parts of the permit for which cause to reopen exists.

d. Reopenings under paragraph (a) of this subsection shall not be initiated before a notice of such intent is provided to the CAAPP source by the Agency at least 30 days in advance of the date that the permit is to be reopened, except that the Agency may provide a shorter time period in the case of an emergency.

e. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

16. Reopenings for Cause by USEPA.

a. When USEPA finds that cause exists to terminate, modify, or revoke and reissue a CAAPP permit pursuant to

subsection 15 of this Section, and thereafter notifies the Agency and the permittee of such finding in writing, the Agency shall forward to USEPA and the permittee a proposed determination of termination, modification, or revocation and reissuance as appropriate, in accordance with paragraph (b) of this subsection. The Agency's proposed determination shall be in accordance with the record, the Clean Air Act, regulations promulgated thereunder, this Act and regulations promulgated thereunder. Such proposed determination shall not affect the permit or constitute a final permit action for purposes of this Act or the Administrative Review Law. The Agency shall forward to USEPA such proposed determination within 90 days after receipt of the notification from USEPA. If additional time is necessary to submit the proposed determination, the Agency shall request a 90-day extension from USEPA and shall submit the proposed determination within 180 days after receipt of notification from USEPA.

b. i. Prior to the Agency's submittal to USEPA of a proposed determination to terminate or revoke and reissue the permit, the Agency shall file a petition before the Board setting forth USEPA's objection, the permit record, the Agency's proposed determination, and the justification for its proposed determination. The Board shall conduct a hearing pursuant to the rules prescribed by Section 32 of this Act, and the

burden of proof shall be on the Agency.

ii. After due consideration of the written and oral statements, the testimony and arguments that shall be submitted at hearing, the Board shall issue and enter an interim order for the proposed determination, which shall set forth all changes, if any, required in the Agency's proposed determination. The interim order shall comply with the requirements for final orders as set forth in Section 33 of this Act. Issuance of an interim order by the Board under this paragraph, however, shall not affect the permit status and does not constitute a final action for purposes of this Act or the Administrative Review Law.

iii. The Board shall cause a copy of its interim order to be served upon all parties to the proceeding as well as upon USEPA. The Agency shall submit the proposed determination to USEPA in accordance with the Board's Interim Order within 180 days after receipt of the notification from USEPA.

c. USEPA shall review the proposed determination to terminate, modify, or revoke and reissue the permit within 90 days after receipt.

i. When USEPA reviews the proposed determination to terminate or revoke and reissue and does not object, the Board shall, within 7 days after receipt of USEPA's final approval, enter the interim order as

a final order. The final order may be appealed as provided by Title XI of this Act. The Agency shall take final action in accordance with the Board's final order.

ii. When USEPA reviews such proposed determination to terminate or revoke and reissue and objects, the Agency shall submit USEPA's objection and the Agency's comments and recommendation on the objection to the Board and permittee. The Board shall review its interim order in response to USEPA's objection and the Agency's comments and recommendation and issue a final order in accordance with Sections 32 and 33 of this Act. The Agency shall, within 90 days after receipt of such objection, respond to USEPA's objection in accordance with the Board's final order.

iii. When USEPA reviews such proposed determination to modify and objects, the Agency shall, within 90 days after receipt of the objection, resolve the objection and modify the permit in accordance with USEPA's objection, based upon the record, the Clean Air Act, regulations promulgated thereunder, this Act, and regulations promulgated thereunder.

d. If the Agency fails to submit the proposed determination pursuant to paragraph a of this subsection or fails to resolve any USEPA objection pursuant to paragraph c of this subsection, USEPA will terminate,

modify, or revoke and reissue the permit.

e. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

17. Title IV; Acid Rain Provisions.

a. The Agency shall act on initial CAAPP applications for affected sources for acid deposition in accordance with this Section and Title V of the Clean Air Act and regulations promulgated thereunder, except as modified by Title IV of the Clean Air Act and regulations promulgated thereunder. The Agency shall issue initial CAAPP permits to the affected sources for acid deposition which shall become effective no earlier than January 1, 1995, and which shall terminate on December 31, 1999, in accordance with this Section. Subsequent CAAPP permits issued to affected sources for acid deposition shall be issued for a fixed term of 5 years. Title IV of the Clean Air Act and regulations promulgated thereunder, including, but not limited to, 40 CFR ~~C.F.R.~~ Part 72, as now or hereafter amended, are applicable to and enforceable under this Act.

b. A designated representative of an affected source for acid deposition shall submit a timely and complete Phase II acid rain permit application and compliance plan to the Agency, not later than January 1, 1996, that meets

the requirements of Titles IV and V of the Clean Air Act and regulations. The Agency shall act on the Phase II acid rain permit application and compliance plan in accordance with this Section and Title V of the Clean Air Act and regulations promulgated thereunder, except as modified by Title IV of the Clean Air Act and regulations promulgated thereunder. The Agency shall issue the Phase II acid rain permit to an affected source for acid deposition no later than December 31, 1997, which shall become effective on January 1, 2000, in accordance with this Section, except as modified by Title IV and regulations promulgated thereunder; provided that the designated representative of the source submitted a timely and complete Phase II permit application and compliance plan to the Agency that meets the requirements of Title IV and V of the Clean Air Act and regulations.

c. Each Phase II acid rain permit issued in accordance with this subsection shall have a fixed term of 5 years. Except as provided in paragraph b above, the Agency shall issue or deny a Phase II acid rain permit within 18 months of receiving a complete Phase II permit application and compliance plan.

d. A designated representative of a new unit, as defined in Section 402 of the Clean Air Act, shall submit a timely and complete Phase II acid rain permit application and compliance plan that meets the requirements of Titles

IV and V of the Clean Air Act and its regulations. The Agency shall act on the new unit's Phase II acid rain permit application and compliance plan in accordance with this Section and Title V of the Clean Air Act and its regulations, except as modified by Title IV of the Clean Air Act and its regulations. The Agency shall reopen the new unit's CAAPP permit for cause to incorporate the approved Phase II acid rain permit in accordance with this Section. The Phase II acid rain permit for the new unit shall become effective no later than the date required under Title IV of the Clean Air Act and its regulations.

e. A designated representative of an affected source for acid deposition shall submit a timely and complete Title IV NOx permit application to the Agency, not later than January 1, 1998, that meets the requirements of Titles IV and V of the Clean Air Act and its regulations. The Agency shall reopen the Phase II acid rain permit for cause and incorporate the approved NOx provisions into the Phase II acid rain permit not later than January 1, 1999, in accordance with this Section, except as modified by Title IV of the Clean Air Act and regulations promulgated thereunder. Such reopening shall not affect the term of the Phase II acid rain permit.

f. The designated representative of the affected source for acid deposition shall renew the initial CAAPP permit and Phase II acid rain permit in accordance with

this Section and Title V of the Clean Air Act and regulations promulgated thereunder, except as modified by Title IV of the Clean Air Act and regulations promulgated thereunder.

g. In the case of an affected source for acid deposition for which a complete Phase II acid rain permit application and compliance plan are timely received under this subsection, the complete permit application and compliance plan, including amendments thereto, shall be binding on the owner, operator and designated representative, all affected units for acid deposition at the affected source, and any other unit, as defined in Section 402 of the Clean Air Act, governed by the Phase II acid rain permit application and shall be enforceable as an acid rain permit for purposes of Titles IV and V of the Clean Air Act, from the date of submission of the acid rain permit application until a Phase II acid rain permit is issued or denied by the Agency.

h. The Agency shall not include or implement any measure which would interfere with or modify the requirements of Title IV of the Clean Air Act or regulations promulgated thereunder.

i. Nothing in this Section shall be construed as affecting allowances or USEPA's decision regarding an excess emissions offset plan, as set forth in Title IV of the Clean Air Act or regulations promulgated thereunder.

i. No permit revision shall be required for increases in emissions that are authorized by allowances acquired pursuant to the acid rain program, provided that such increases do not require a permit revision under any other applicable requirement.

ii. No limit shall be placed on the number of allowances held by the source. The source may not, however, use allowances as a defense to noncompliance with any other applicable requirement.

iii. Any such allowance shall be accounted for according to the procedures established in regulations promulgated under Title IV of the Clean Air Act.

j. To the extent that the federal regulations promulgated under Title IV, including, but not limited to, 40 CFR ~~C.F.R.~~ Part 72, as now or hereafter amended, are inconsistent with the federal regulations promulgated under Title V, the federal regulations promulgated under Title IV shall take precedence.

k. The USEPA may intervene as a matter of right in any permit appeal involving a Phase II acid rain permit provision or denial of a Phase II acid rain permit.

l. It is unlawful for any owner or operator to violate any terms or conditions of a Phase II acid rain permit issued under this subsection, to operate any affected source for acid deposition except in compliance with a Phase II acid rain permit issued by the Agency under this

subsection, or to violate any other applicable requirements.

m. The designated representative of an affected source for acid deposition shall submit to the Agency the data and information submitted quarterly to USEPA, pursuant to 40 CFR 75.64, concurrently with the submission to USEPA. The submission shall be in the same electronic format as specified by USEPA.

n. The Agency shall act on any petition for exemption of a new unit or retired unit, as those terms are defined in Section 402 of the Clean Air Act, from the requirements of the acid rain program in accordance with Title IV of the Clean Air Act and its regulations.

o. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary to implement this subsection.

18. Fee Provisions.

a. A source subject to this Section or excluded under subsection 1.1 or paragraph (c) of subsection 3 of this Section, shall pay a fee as provided in this paragraph (a) of subsection 18. However, a source that has been excluded from the provisions of this Section under subsection 1.1 or under paragraph (c) of subsection 3 of this Section because the source emits less than 25 tons per year of any

combination of regulated air pollutants, except greenhouse gases, shall pay fees in accordance with paragraph (1) of subsection (b) of Section 9.6.

i. The fee for a source allowed to emit less than 100 tons per year of any combination of regulated air pollutants, except greenhouse gases, shall be \$1,800 per year, and that fee shall increase, beginning January 1, 2012, to \$2,150 per year.

ii. The fee for a source allowed to emit 100 tons or more per year of any combination of regulated air pollutants, except greenhouse gases and those regulated air pollutants excluded in paragraph (f) of this subsection 18, shall be as follows:

A. The Agency shall assess a fee of \$18 per ton, per year for the allowable emissions of regulated air pollutants subject to this subparagraph (ii) of paragraph (a) of subsection 18, and that fee shall increase, beginning January 1, 2012, to \$21.50 per ton, per year. These fees shall be used by the Agency and the Board to fund the activities required by Title V of the Clean Air Act including such activities as may be carried out by other State or local agencies pursuant to paragraph (d) of this subsection. The amount of such fee shall be based on the information supplied by the applicant in its

complete CAAPP permit application or in the CAAPP permit if the permit has been granted and shall be determined by the amount of emissions that the source is allowed to emit annually, provided however, that the maximum fee for a CAAPP permit under this subparagraph (ii) of paragraph (a) of subsection 18 is \$250,000, and increases, beginning January 1, 2012, to \$294,000. Beginning January 1, 2012, the maximum fee under this subparagraph (ii) of paragraph (a) of subsection 18 for a source that has been excluded under subsection 1.1 of this Section or under paragraph (c) of subsection 3 of this Section is \$4,112. The Agency shall provide as part of the permit application form required under subsection 5 of this Section a separate fee calculation form which will allow the applicant to identify the allowable emissions and calculate the fee. In no event shall the Agency raise the amount of allowable emissions requested by the applicant unless such increases are required to demonstrate compliance with terms of a CAAPP permit.

Notwithstanding the above, any applicant may seek a change in its permit which would result in increases in allowable emissions due to an increase in the hours of operation or production

rates of an emission unit or units and such a change shall be consistent with the construction permit requirements of the existing State permit program, under subsection (a) of Section 39 of this Act and applicable provisions of this Section. Where a construction permit is required, the Agency shall expeditiously grant such construction permit and shall, if necessary, modify the CAAPP permit based on the same application.

B. The applicant or permittee may pay the fee annually or semiannually for those fees greater than \$5,000. However, any applicant paying a fee equal to or greater than \$100,000 shall pay the full amount on July 1, for the subsequent fiscal year, or pay 50% of the fee on July 1 and the remaining 50% by the next January 1. The Agency may change any annual billing date upon reasonable notice, but shall prorate the new bill so that the permittee or applicant does not pay more than its required fees for the fee period for which payment is made.

b. (Blank).

c. (Blank).

d. There is hereby created in the State Treasury a special fund to be known as the Clean Air Act Permit Fund

(formerly known as the CAA Permit Fund). All Funds collected by the Agency pursuant to this subsection shall be deposited into the Fund. The General Assembly shall appropriate monies from this Fund to the Agency and to the Board to carry out their obligations under this Section. The General Assembly may also authorize monies to be granted by the Agency from this Fund to other State and local agencies which perform duties related to the CAAPP. Interest generated on the monies deposited in this Fund shall be returned to the Fund.

e. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary to implement this subsection.

f. For purposes of this subsection, the term "regulated air pollutant" shall have the meaning given to it under subsection 1 of this Section but shall exclude the following:

i. carbon monoxide;

ii. any Class I or II substance which is a regulated air pollutant solely because it is listed pursuant to Section 602 of the Clean Air Act; and

iii. any pollutant that is a regulated air pollutant solely because it is subject to a standard or regulation under Section 112(r) of the Clean Air Act based on the emissions allowed in the permit

effective in that calendar year, at the time the applicable bill is generated.

19. Air Toxics Provisions.

a. In the event that the USEPA fails to promulgate in a timely manner a standard pursuant to Section 112(d) of the Clean Air Act, the Agency shall have the authority to issue permits, pursuant to Section 112(j) of the Clean Air Act and regulations promulgated thereunder, which contain emission limitations which are equivalent to the emission limitations that would apply to a source if an emission standard had been promulgated in a timely manner by USEPA pursuant to Section 112(d). Provided, however, that the owner or operator of a source shall have the opportunity to submit to the Agency a proposed emission limitation which it determines to be equivalent to the emission limitations that would apply to such source if an emission standard had been promulgated in a timely manner by USEPA. If the Agency refuses to include the emission limitation proposed by the owner or operator in a CAAPP permit, the owner or operator may petition the Board to establish whether the emission limitation proposal submitted by the owner or operator provides for emission limitations which are equivalent to the emission limitations that would apply to the source if the emission standard had been promulgated by USEPA in a timely manner. The Board shall

determine whether the emission limitation proposed by the owner or operator or an alternative emission limitation proposed by the Agency provides for the level of control required under Section 112 of the Clean Air Act, or shall otherwise establish an appropriate emission limitation, pursuant to Section 112 of the Clean Air Act.

b. Any Board proceeding brought under paragraph (a) or (e) of this subsection shall be conducted according to the Board's procedures for adjudicatory hearings and the Board shall render its decision within 120 days of the filing of the petition. Any such decision shall be subject to review pursuant to Section 41 of this Act. Where USEPA promulgates an applicable emission standard prior to the issuance of the CAAPP permit, the Agency shall include in the permit the promulgated standard, provided that the source shall have the compliance period provided under Section 112(i) of the Clean Air Act. Where USEPA promulgates an applicable standard subsequent to the issuance of the CAAPP permit, the Agency shall revise such permit upon the next renewal to reflect the promulgated standard, providing a reasonable time for the applicable source to comply with the standard, but no longer than 8 years after the date on which the source is first required to comply with the emissions limitation established under this subsection.

c. The Agency shall have the authority to implement

and enforce complete or partial emission standards promulgated by USEPA pursuant to Section 112(d), and standards promulgated by USEPA pursuant to Sections 112(f), 112(h), 112(m), and 112(n), and may accept delegation of authority from USEPA to implement and enforce Section 112(l) and requirements for the prevention and detection of accidental releases pursuant to Section 112(r) of the Clean Air Act.

d. The Agency shall have the authority to issue permits pursuant to Section 112(i)(5) of the Clean Air Act.

e. The Agency has the authority to implement Section 112(g) of the Clean Air Act consistent with the Clean Air Act and federal regulations promulgated thereunder. If the Agency refuses to include the emission limitations proposed in an application submitted by an owner or operator for a case-by-case maximum achievable control technology (MACT) determination, the owner or operator may petition the Board to determine whether the emission limitation proposed by the owner or operator or an alternative emission limitation proposed by the Agency provides for a level of control required by Section 112 of the Clean Air Act, or to otherwise establish an appropriate emission limitation under Section 112 of the Clean Air Act.

20. Small Business.

a. For purposes of this subsection:

"Program" is the Small Business Stationary Source Technical and Environmental Compliance Assistance Program created within this State pursuant to Section 507 of the Clean Air Act and guidance promulgated thereunder, to provide technical assistance and compliance information to small business stationary sources;

"Small Business Assistance Program" is a component of the Program responsible for providing sufficient communications with small businesses through the collection and dissemination of information to small business stationary sources; and

"Small Business Stationary Source" means a stationary source that:

1. is owned or operated by a person that employs 100 or fewer individuals;
2. is a small business concern as defined in the "Small Business Act";
3. is not a major source as that term is defined in subsection 2 of this Section;
4. does not emit 50 tons or more per year of any regulated air pollutant, except greenhouse gases; and
5. emits less than 75 tons per year of all regulated pollutants, except greenhouse gases.

b. The Agency shall adopt and submit to USEPA, after

reasonable notice and opportunity for public comment, as a revision to the Illinois state implementation plan, plans for establishing the Program.

c. The Agency shall have the authority to enter into such contracts and agreements as the Agency deems necessary to carry out the purposes of this subsection.

d. The Agency may establish such procedures as it may deem necessary for the purposes of implementing and executing its responsibilities under this subsection.

e. There shall be appointed a Small Business Ombudsman (hereinafter in this subsection referred to as "Ombudsman") to monitor the Small Business Assistance Program. The Ombudsman shall be a nonpartisan designated official, with the ability to independently assess whether the goals of the Program are being met.

f. The State Ombudsman Office shall be located in an existing Ombudsman office within the State or in any State Department.

g. There is hereby created a State Compliance Advisory Panel (hereinafter in this subsection referred to as "Panel") for determining the overall effectiveness of the Small Business Assistance Program within this State.

h. The selection of Panel members shall be by the following method:

1. The Governor shall select two members who are not owners or representatives of owners of small

business stationary sources to represent the general public;

2. The Director of the Agency shall select one member to represent the Agency; and

3. The State Legislature shall select four members who are owners or representatives of owners of small business stationary sources. Both the majority and minority leadership in both Houses of the Legislature shall appoint one member of the panel.

i. Panel members should serve without compensation but will receive full reimbursement for expenses including travel and per diem as authorized within this State.

j. The Panel shall select its own Chair by a majority vote. The Chair may meet and consult with the Ombudsman and the head of the Small Business Assistance Program in planning the activities for the Panel.

21. Temporary Sources.

a. The Agency may issue a single permit authorizing emissions from similar operations by the same source owner or operator at multiple temporary locations, except for sources which are affected sources for acid deposition under Title IV of the Clean Air Act.

b. The applicant must demonstrate that the operation is temporary and will involve at least one change of location during the term of the permit.

c. Any such permit shall meet all applicable requirements of this Section and applicable regulations, and include conditions assuring compliance with all applicable requirements at all authorized locations and requirements that the owner or operator notify the Agency at least 10 days in advance of each change in location.

22. Solid Waste Incineration Units.

a. A CAAPP permit for a solid waste incineration unit combusting municipal waste subject to standards promulgated under Section 129(e) of the Clean Air Act shall be issued for a period of 12 years and shall be reviewed every 5 years, unless the Agency requires more frequent review through Agency procedures.

b. During the review in paragraph (a) of this subsection, the Agency shall fully review the previously submitted CAAPP permit application and corresponding reports subsequently submitted to determine whether the source is in compliance with all applicable requirements.

c. If the Agency determines that the source is not in compliance with all applicable requirements it shall revise the CAAPP permit as appropriate.

d. The Agency shall have the authority to adopt procedural rules, in accordance with the Illinois Administrative Procedure Act, as the Agency deems necessary, to implement this subsection.

Sec. 57.4. State agencies ~~Agencies~~. The Office of the State Fire Marshal and the Illinois Environmental Protection Agency shall administer the Leaking Underground Storage Tank Program in accordance with the terms of this Title.

(Source: P.A. 88-496; revised 7-29-24.)

(415 ILCS 5/57.5)

Sec. 57.5. Underground Storage Tanks; removal; repair; abandonment.

(a) Notwithstanding the eligibility or the level of deductibility of an owner or operator under the Underground Storage Tank Fund, any owner or operator of an Underground Storage Tank may seek to remove or abandon such tank under the provisions of this Title. In order to be reimbursed under Section 57.8, the owner or operator must comply with the provisions of this Title. In no event will an owner or operator be reimbursed for any costs which exceed the minimum requirements necessary to comply with this Title.

(b) Removal or abandonment of an Underground Storage Tank must be carried out in accordance with regulations adopted by the Office of the State Fire Marshal.

(c) The Office of the State Fire Marshal or a designated

agent shall have an inspector on site at the time of removal, abandonment, or such other times the Office of State Fire Marshal deems appropriate. At such time, the inspector shall, upon preliminary excavation of the tank site, render an opinion as to whether a release of petroleum has occurred and, if so, the owner or operator shall report the known or suspected release to the Illinois Emergency Management Agency. The owner or operator shall determine whether or not a release has occurred in conformance with the regulations adopted by the Board and the Office of the State Fire Marshal. Except that if the opinion of the Office of the State Fire Marshal inspector is that a release of petroleum has occurred and the owner or operator has reported the release to the Illinois Emergency Management Agency within 24 hours of removal of the tank, no such determination is required under this subsection. In the event the owner or operator confirms the presence of a release of petroleum, the owner or operator shall comply with Section 57.6. The inspector shall provide the owner or operator, or a designated agent, with an "Eligibility and Deductibility Determination" form. The Office of the State Fire Marshal shall provide on-site assistance to the owner or operator or a designated agent with regard to the eligibility and deductibility procedures as provided in Section 57.9. If the Office of the State Fire Marshal is not on site, the Office of the State Fire Marshal shall provide the owner or operator with an "Eligibility and Deductibility Determination" form

within 15 days after receiving notice that the confirmed release was reported by the owner or operator.

(d) In the event that a release of petroleum is confirmed under subsection (c) of this Section, the owner or operator may elect to backfill the preliminary excavation and proceed under Section 57.6.

(e) In the event that an Underground Storage Tank is found to be ineligible for payment from the Underground Storage Tank Fund, the owner or operator shall proceed under Sections 57.6 and 57.7.

(f) In the event that no release of petroleum is confirmed, the owner or operator shall proceed to complete the removal of the underground storage tank, and when appropriate, dispose of the tank and backfill the excavation or, in the alternate, abandon the underground storage tank in place. Either option shall be in accordance with regulations adopted by the Office of the State Fire Marshal. The owner or operator shall certify to the Office of the State Fire Marshal that the tank removal or abandonment was conducted in accordance with all applicable rules and regulations, and the Office of the State Fire Marshal shall then issue a certificate of removal or abandonment to the owner or operator. If the Office of the State Fire Marshal fails to issue a certificate of removal or abandonment within 30 days of receipt of the certification, the certification shall be considered rejected by operation of law and a final action appealable to the Board. Nothing in this

Title shall prohibit the Office of the State Fire Marshal from making an independent inspection of the site and challenging the veracity of the owner or operator certification.

(g) The owner or operator of an underground storage tank taken out of operation before January 2, 1974, or an underground storage tank used exclusively to store heating oil for consumptive use on the premises where stored and which serves other than a farm or residential unit shall not be required to remove or abandon in place such underground storage tank except in the case in which the Office of the State Fire Marshal has determined that a release from the underground storage tank poses a current or potential threat to human health and the environment. In that case, and upon receipt of an order from the Office of the State Fire Marshal, the owner or operator of such underground storage tank shall conduct removal and, if necessary, site investigation and corrective action in accordance with this Title and regulations promulgated by the Office of the State Fire Marshal and the Board.

(h) In the event that a release of petroleum occurred between September 13, 1993, and August 1, 1994, for which the Office of the State Fire Marshal issued a certificate of removal or abandonment based on its determination of "no release" or "minor release," and the Office of the State Fire Marshal subsequently has rescinded that determination and required a report of a confirmed release to the Illinois

Emergency Management Agency, the owner or operator may be eligible for reimbursement for the costs of site investigation and corrective action incurred on or after the date of the release but prior to the notification of the Illinois Emergency Management Agency. The date of the release shall be the date of the initial inspection by the Office of the State Fire Marshal as recorded in its inspection log. Eligibility and deductibility shall be determined in accordance with this Title, the owner or operator must comply with the provisions of this Act and its rules, and in no case shall the owner or operator be reimbursed for costs exceeding the minimum requirements of this Act and its rules.

(415 ILCS 5/57.8)

Sec. 57.8. Underground Storage Tank Fund; payment; options for State payment; deferred correction election to commence corrective action upon availability of funds. If an owner or operator is eligible to access the Underground Storage Tank Fund pursuant to an Office of the State Fire Marshal eligibility/deductible final determination letter issued in accordance with Section 57.9, the owner or operator may submit a complete application for final or partial payment to the Agency for activities taken in response to a confirmed release. An owner or operator may submit a request for partial or final payment regarding a site no more frequently than once

every 90 days.

(a) Payment after completion of corrective action measures. The owner or operator may submit an application for payment for activities performed at a site after completion of the requirements of Sections 57.6 and 57.7, or after completion of any other required activities at the underground storage tank site.

(1) In the case of any approved plan and budget for which payment is being sought, the Agency shall make a payment determination within 120 days of receipt of the application. Such determination shall be considered a final decision. The Agency's review shall be limited to generally accepted auditing and accounting practices. In no case shall the Agency conduct additional review of any plan which was completed within the budget, beyond auditing for adherence to the corrective action measures in the proposal. If the Agency fails to approve the payment application within 120 days, such application shall be deemed approved by operation of law and the Agency shall proceed to reimburse the owner or operator the amount requested in the payment application. However, in no event shall the Agency reimburse the owner or operator an amount greater than the amount approved in the plan.

(2) If sufficient funds are available in the Underground Storage Tank Fund, the Agency shall, within 60

days, forward to the Office of the State Comptroller a voucher in the amount approved under the payment application.

(3) In the case of insufficient funds, the Agency shall form a priority list for payment and shall notify persons in such priority list monthly of the availability of funds and when payment shall be made. Payment shall be made to the owner or operator at such time as sufficient funds become available for the costs associated with site investigation and corrective action and costs expended for activities performed where no proposal is required, if applicable. Such priority list shall be available to any owner or operator upon request. Priority for payment shall be determined by the date the Agency receives a complete request for partial or final payment. Upon receipt of notification from the Agency that the requirements of this Title have been met, the Comptroller shall make payment to the owner or operator of the amount approved by the Agency, if sufficient money exists in the Fund. If there is insufficient money in the Fund, then payment shall not be made. If the owner or operator appeals a final Agency payment determination and it is determined that the owner or operator is eligible for payment or additional payment, the priority date for the payment or additional payment shall be the same as the priority date assigned to the original request for partial or final payment.

(4) Any deductible, as determined pursuant to the Office of the State Fire Marshal's eligibility and deductibility final determination in accordance with Section 57.9, shall be subtracted from any payment invoice paid to an eligible owner or operator. Only one deductible shall apply per underground storage tank site.

(5) In the event that costs are or will be incurred in addition to those approved by the Agency, or after payment, the owner or operator may submit successive plans containing amended budgets. The requirements of Section 57.7 shall apply to any amended plans.

(6) For purposes of this Section, a complete application shall consist of:

(A) A certification from a Licensed Professional Engineer or Licensed Professional Geologist as required under this Title and acknowledged by the owner or operator.

(B) A statement of the amounts approved in the budget and the amounts actually sought for payment along with a certified statement by the owner or operator that the amounts so sought were expended in conformance with the approved budget.

(C) A copy of the Office of the State Fire Marshal's eligibility and deductibility determination.

(D) Proof that approval of the payment requested will not result in the limitations set forth in

subsection (g) of this Section being exceeded.

(E) A federal taxpayer identification number and legal status disclosure certification on a form prescribed and provided by the Agency.

(F) If the Agency determined under subsection (c) (3) of Section 57.7 of this Act that corrective action must include a project labor agreement, a certification from the owner or operator that the corrective action was (i) performed under a project labor agreement that meets the requirements of Section 25 of the Project Labor Agreements Act and (ii) implemented in a manner consistent with the terms and conditions of the Project Labor Agreements Act and in full compliance with all statutes, regulations, and Executive Orders as required under that Act and the Prevailing Wage Act.

(b) Commencement of site investigation or corrective action upon availability of funds. The Board shall adopt regulations setting forth procedures based on risk to human health or the environment under which the owner or operator who has received approval for any budget plan submitted pursuant to Section 57.7, and who is eligible for payment from the Underground Storage Tank Fund pursuant to an Office of the State Fire Marshal eligibility and deductibility determination, may elect to defer site investigation or corrective action activities until funds are available in an

amount equal to the amount approved in the budget. The regulations shall establish criteria based on risk to human health or the environment to be used for determining on a site-by-site basis whether deferral is appropriate. The regulations also shall establish the minimum investigatory requirements for determining whether the risk based criteria are present at a site considering deferral and procedures for the notification of owners or operators of insufficient funds, Agency review of request for deferral, notification of Agency final decisions, returning deferred sites to active status, and earmarking of funds for payment.

(c) When the owner or operator requests indemnification for payment of costs incurred as a result of a release of petroleum from an underground storage tank, if the owner or operator has satisfied the requirements of subsection (a) of this Section, the Agency shall forward a copy of the request to the Attorney General. The Attorney General shall review and approve the request for indemnification if:

(1) there is a legally enforceable judgment entered against the owner or operator and such judgment was entered due to harm caused by a release of petroleum from an underground storage tank and such judgment was not entered as a result of fraud; or

(2) a settlement with a third party due to a release of petroleum from an underground storage tank is reasonable.

(d) (1) Notwithstanding any other provision of this Title,

the Agency shall not approve payment to an owner or operator from the Fund for costs of corrective action or indemnification incurred during a calendar year in excess of the following aggregate amounts based on the number of petroleum underground storage tanks owned or operated by such owner or operator in Illinois.

Amount	Number of Tanks
\$2,000,000	fewer than 101
\$3,000,000	101 or more

(2) ~~(1)~~ Costs incurred in excess of the aggregate amounts set forth in paragraph (1) of this subsection shall not be eligible for payment in subsequent years.

(3) ~~(2)~~ For purposes of this subsection, requests submitted by any of the agencies, departments, boards, committees, or commissions of the State of Illinois shall be acted upon as claims from a single owner or operator.

(4) ~~(3)~~ For purposes of this subsection, owner or operator includes (i) any subsidiary, parent, or joint stock company of the owner or operator and (ii) any company owned by any parent, subsidiary, or joint stock company of the owner or operator.

(e) Costs of corrective action or indemnification incurred by an owner or operator which have been paid to an owner or operator under a policy of insurance, another written agreement, or a court order are not eligible for payment under this Section. An owner or operator who receives payment under a policy of insurance, another written agreement, or a court

order shall reimburse the State to the extent such payment covers costs for which payment was received from the Fund. Any monies received by the State under this subsection (e) shall be deposited into the Fund.

(f) (Blank~~ed~~).

(g) The Agency shall not approve any payment from the Fund to pay an owner or operator:

(1) for costs of corrective action incurred by such owner or operator in an amount in excess of \$1,500,000 per occurrence; and

(2) for costs of indemnification of such owner or operator in an amount in excess of \$1,500,000 per occurrence.

(h) Payment of any amount from the Fund for corrective action or indemnification shall be subject to the State acquiring by subrogation the rights of any owner, operator, or other person to recover the costs of corrective action or indemnification for which the Fund has compensated such owner, operator, or person from the person responsible or liable for the release.

(i) If the Agency refuses to pay or authorizes only a partial payment, the affected owner or operator may petition the Board for a hearing in the manner provided for the review of permit decisions in Section 40 of this Act.

(j) Costs of corrective action or indemnification incurred by an owner or operator prior to July 28, 1989, shall not be

eligible for payment or reimbursement under this Section.

(k) The Agency shall not pay costs of corrective action or indemnification incurred before providing notification of the release of petroleum in accordance with the provisions of this Title.

(l) Corrective action does not include legal defense costs. Legal defense costs include legal costs for seeking payment under this Title unless the owner or operator prevails before the Board in which case the Board may authorize payment of legal fees.

(m) The Agency may apportion payment of costs for plans submitted under Section 57.7 if:

(1) the owner or operator was deemed eligible to access the Fund for payment of corrective action costs for some, but not all, of the underground storage tanks at the site; and

(2) the owner or operator failed to justify all costs attributable to each underground storage tank at the site.

(n) The Agency shall not pay costs associated with a corrective action plan incurred after the Agency provides notification to the owner or operator pursuant to item (7) of subsection (b) of Section 57.7 that a revised corrective action plan is required. Costs associated with any subsequently approved corrective action plan shall be eligible for reimbursement if they meet the requirements of this Title.

(415 ILCS 5/57.9)

Sec. 57.9. Underground Storage Tank Fund; eligibility and deductibility.

(a) The Underground Storage Tank Fund shall be accessible by owners and operators who have a confirmed release from an underground storage tank or related tank system of a substance listed in this Section. The owner or operator is eligible to access the Underground Storage Tank Fund if the eligibility requirements of this Title are satisfied and:

(1) Neither the owner nor the operator is the United States Government.

(2) The tank does not contain fuel which is exempt from the Motor Fuel Tax Law.

(3) The costs were incurred as a result of a confirmed release of any of the following substances:

(A) "Fuel", as defined in Section 1.19 of the Motor Fuel Tax Law.

(B) Aviation fuel.

(C) Heating oil.

(D) Kerosene.

(E) Used oil which has been refined from crude oil used in a motor vehicle, as defined in Section 1.3 of the Motor Fuel Tax Law.

(4) The owner or operator registered the tank and paid all fees in accordance with the statutory and regulatory

requirements of the Gasoline Storage Act.

(5) The owner or operator notified the Illinois Emergency Management Agency of a confirmed release, the costs were incurred after the notification and the costs were a result of a release of a substance listed in this Section. Costs of corrective action or indemnification incurred before providing that notification shall not be eligible for payment.

(6) The costs have not already been paid to the owner or operator under a private insurance policy, other written agreement, or court order.

(7) The costs were associated with "corrective action" of this Act.

If the underground storage tank which experienced a release of a substance listed in this Section was installed after July 28, 1989, the owner or operator is eligible to access the Underground Storage Tank Fund if it is demonstrated to the Office of the State Fire Marshal the tank was installed and operated in accordance with Office of the State Fire Marshal regulatory requirements. Office of the State Fire Marshal certification is prima facie evidence the tank was installed pursuant to the Office of the State Fire Marshal regulatory requirements.

(b) For releases reported prior to June 8, 2010 (the effective date of Public Act 96-908) ~~this amendatory Act of the 96th General Assembly~~, an owner or operator may access the

Underground Storage Tank Fund for costs associated with an Agency approved plan and the Agency shall approve the payment of costs associated with corrective action after the application of a \$10,000 deductible, except in the following situations:

(1) A deductible of \$100,000 shall apply when none of the underground storage tanks were registered prior to July 28, 1989, except in the case of underground storage tanks used exclusively to store heating oil for consumptive use on the premises where stored and which serve other than farms or residential units, a deductible of \$100,000 shall apply when none of these tanks were registered prior to July 1, 1992.

(2) A deductible of \$50,000 shall apply if any of the underground storage tanks were registered prior to July 28, 1989, and the State received notice of the confirmed release prior to July 28, 1989.

(3) A deductible of \$15,000 shall apply when one or more, but not all, of the underground storage tanks were registered prior to July 28, 1989, and the State received notice of the confirmed release on or after July 28, 1989.

For releases reported on or after June 8, 2010 (the effective date of Public Act 96-908) ~~this amendatory Act of the 96th General Assembly~~, an owner or operator may access the Underground Storage Tank Fund for costs associated with an Agency approved plan, and the Agency shall approve the payment

of costs associated with corrective action after the application of a \$5,000 deductible.

A deductible shall apply annually for each site at which costs were incurred under a claim submitted pursuant to this Title, except that if corrective action in response to an occurrence takes place over a period of more than one year, in subsequent years, no deductible shall apply for costs incurred in response to such occurrence.

(c) Eligibility and deductibility determinations shall be made by the Office of the State Fire Marshal.

(1) When an owner or operator reports a confirmed release of a regulated substance, the Office of the State Fire Marshal shall provide the owner or operator with an "Eligibility and Deductibility Determination" form. The form shall either be provided on-site or within 15 days of the Office of the State Fire Marshal receipt of notice indicating a confirmed release. The form shall request sufficient information to enable the Office of the State Fire Marshal to make a final determination as to owner or operator eligibility to access the Underground Storage Tank Fund pursuant to this Title and the appropriate deductible. The form shall be promulgated as a rule or regulation pursuant to the Illinois Administrative Procedure Act by the Office of the State Fire Marshal. Until such form is promulgated, the Office of the State Fire Marshal shall use a form which generally conforms

with this Act.

(2) Within 60 days of receipt of the "Eligibility and Deductibility Determination" form, the Office of the State Fire Marshal shall issue one letter enunciating the final eligibility and deductibility determination, and such determination or failure to act within the time prescribed shall be a final decision appealable to the Illinois Pollution Control Board.

(415 ILCS 5/59.1)

Sec. 59.1. Carbon capture permit requirements. For air construction permit applications for carbon dioxide capture projects at existing sources submitted on or after July 18, 2024 (the effective date of Public Act 103-651) ~~this amendatory Act of the 103rd General Assembly~~, no permit may be issued unless all of the following requirements are met:

(1) The permit applicant demonstrates that there will be no net increase in the individual allowable potential annual criteria pollutant emissions at the source. If the Agency determines that it is technically infeasible for an applicant to demonstrate that there will be no net increase in the individual allowable potential annual criteria pollutant emissions at the source, the Agency shall allow an alternative demonstration.

(2) The Agency has complied with the public

participation requirements under 35 Ill. Adm. Code 252.

(3) The permit applicant submits to the Agency in its permit application, a Greenhouse Gas Inventory Analysis, as set forth in guidance from the United States Environmental Protection Agency, that includes all emissions at the stack or emissions source from which carbon dioxide is captured and a demonstration that the total greenhouse gas emissions associated with capture, including, but not limited to, (i) the emissions at the stack or emissions source from which the carbon dioxide is captured, (ii) the additional emissions associated with additional electricity generated, whether on-site or off-site, used to power any capture equipment, and (iii) any increased emissions necessary for the operation of the capture facility as compared to before the installation and operation of the capture equipment at the facility, do not exceed the total amount of greenhouse gas emissions captured. This comparison shall be made on an annual basis, projected across the proposed life span of the capture project.

(4) The permit applicant provides a water impact assessment report. The report must have been submitted to the Department of Natural Resources and to the Soil and Water Conservation District in the county in which the project will be constructed. The report shall identify the following:

- (A) each water source to be used by the project;
- (B) the pumping method to be used by the project;
- (C) the maximum and expected average daily pumping rates for the pumps used by the project;
- (D) the impacts to each water source used by the project, such as aquifer drawdown or river reductions; and
- (E) a detailed assessment of the impact on water users near the area of impact.

The water impact assessment shall consider the water impacts (i) immediately following the project's initial operations, (ii) at the end of the project's expected operational life, and (iii) during a drought or other similar event.

Sec. 59.9. Closure. The owner or operator of a carbon

sequestration activity permitted in accordance with this Act shall monitor the site during the post-injection site care period, which shall be no less than 30 years after the last date of injection, as well as following certification of closure by United States Environmental Protection Agency ~~Act~~ to show the position of the carbon dioxide and pressure front to ensure it does not pose an endangerment to groundwater, as specified in 35 Ill. Adm. Code 620, or to human health or the environment, unless and until the Agency certifies that a carbon sequestration facility is closed. Air and soil gas monitoring required by a carbon sequestration activity permit issued by the Agency must continue until the Agency certifies the carbon sequestration facility as closed. The Agency shall certify a carbon sequestration facility as closed if:

(1) the owner or operator submits to the Agency a copy of a closure certification issued for the carbon sequestration facility in accordance with 40 CFR 146.93; and

(Source: P.A. 85-293; revised 8-13-24.)

(605 ILCS 5/6-513) (from Ch. 121, par. 6-513)

Sec. 6-513. The county board, in any county having the commission form of government in which a county unit road district is established, may issue bonds of the county in an amount not exceeding 2.875% of the value, as equalized and assessed by the Department of Revenue, of the property in such county or, until January 1, 1983, if greater, the sum that is produced by multiplying the county's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, for the purpose of constructing county unit district roads. However, the question of issuing such county bonds shall first be submitted to the legal voters of such county at an election. The county board shall adopt a resolution to submit the question of issuing such bonds to a vote, specifying therein the particular roads or bridges to be constructed, the type of construction to be made on each section of such roads or on such bridges, and the proposed widths of the roadway, together with an estimate of the cost of such construction. The county board shall certify the resolution to the proper election officials, who shall submit at an election such proposition in accordance with the general election law. Notice of the referendum shall be given and the referendum shall be held in accordance with the general election law of the State. The proposition shall be in substantially the following form:

If a majority of the voters voting on such question vote in favor of the proposition, the county board may at once issue the bonds and take the necessary steps to construct the roads provided for. Such bonds shall be issued to mature within 20 years from the date of issue, shall be upon such terms and conditions and shall bear such rate of interest not in excess of the amount permitted pursuant to the Bond Authorization Act ~~"An Act to authorize public corporations to issue bonds, other evidences of indebtedness and tax anticipation warrants subject to interest rate limitations set forth therein",~~ approved May 26, 1970, as amended, as shall be fixed by the county board. A register of all bonds so issued shall be kept in the office of the county clerk, and it shall be the duty of the county clerk to annually extend a tax upon all the

However, if it has been certified to the county clerk that funds from other sources have been allocated and set aside for the purpose of paying the principal or interest, or both, of such bonds, the county clerk shall, in extending the tax and fixing the rate of tax under this Section make proper allowance and reduction in such extension of tax and tax rate to the extent of the funds so certified to be available for the payment of such principal or interest, or both.

Annually, the General Assembly shall appropriate to the Department of Transportation from the Road Fund, the General Revenue Fund, or any other State funds, or a combination of those funds, \$60,000,000 for apportionment to counties for the use of road districts for the construction of bridges 20 feet or more in length, as provided in Sections 6-902 through 6-907.

The Department of Transportation shall apportion among the several counties of this State for the use of road districts the amounts appropriated under this Section. The amount apportioned to a county shall be in the proportion which the total mileage of township or district roads in the county

bears to the total mileage of all township and district roads in the State. Each county shall allocate to the several road districts in the county the funds so apportioned to the county. The allocation to road districts shall be made in the same manner and be subject to the same conditions and qualifications as are provided by Section 8 of the Motor Fuel Tax Law with respect to the allocation to road districts of the amount allotted from the Motor Fuel Tax Fund for apportionment to counties for the use of road districts, but no allocation shall be made to any road district that has not levied taxes for road and bridge purposes in such a manner that is eligible for allotment of Motor Fuel Tax funding pursuant to Section 8 of the Motor Fuel Tax Law. 7 "Road district" and "township or district road" have the meanings ascribed to those terms in this Act.

Road districts in counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law that are made ineligible for receipt of this appropriation due to the imposition of a property tax extension limitation may become eligible if, at the time the property tax extension limitation was imposed, the road district was levying at the required rate and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. The road district also becomes eligible if it levies at or above the rate required for eligibility by Section 8 of the Motor Fuel Tax Law.

The amounts apportioned under this Section for allocation to road districts may be used only for bridge construction as provided in this Division. So much of those amounts as are not obligated under Sections 6-902 through 6-904 and for which local funds have not been committed under Section 6-905 within 48 months of the date when such apportionment is made lapses and shall not be paid to the county treasurer for distribution to road districts.

Sec. 6-907. Lapsed funds; use. Lapsed funds under Section 6-906 shall be used to provide additional monetary assistance to townships and road districts that have insufficient funding for construction of bridges that are 20 feet or more in length under 6-901 of this Code. (605 ILCS 5/10-303) (from Ch. 121, par. 10-303)

Sec. 10-303. For the purpose of acquiring by purchase or otherwise or the constructing of any such bridge, the county board of each such county is authorized to borrow money and in evidence thereof to issue the bonds of such county, and to refund the same from time to time, payable solely from the

revenues derived from the operation of such bridge. Such bonds may be issued as serial or term bonds, shall mature in not to exceed 40 years from the date thereof, and may be made redeemable, prior to maturity, with or without premium. Such bonds may be issued in such amounts as may be necessary to provide sufficient funds to pay the cost of acquiring or constructing such bridge and the approaches thereto, including all property real or personal, necessary or incidental in the acquisition or construction of such bridge and its approaches, including reasonable legal and engineering, traffic survey, and architectural fees, costs of financing, and interest during construction and for not less than 12 months thereafter. Such bonds shall bear interest at a rate not to exceed that permitted in the Bond Authorization Act ~~"An Act to authorize public corporations to issue bonds, other evidences of indebtedness and tax anticipation warrants subject to interest rate limitations set forth therein", approved May 26, 1970, as amended,~~ payable semi-annually. Bonds issued under the provisions of this Division of this Article have the qualities and incidents of negotiable instruments under the laws of the State of Illinois, shall be executed in the name of the county by the chairman of the county board and the county clerk of such county, and shall be sealed with the corporate seal of the county, and the interest coupons attached to such bonds shall be executed by the facsimile signatures of such chairman and county clerk, and such officials by the execution

of such bonds shall adopt as and for their own proper signatures their respective facsimile signatures appearing on such coupons. In case any officer whose signature appears on any such bonds or coupons ceases to be such officer before delivery of such bonds, such signatures shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until such delivery.

Such bonds may be registered as to principal at any time prior to maturity in the name of the holder on the books of the county in the office of the county treasurer, such registration to be noted on the reverse side of the bonds by the county treasurer, and thereafter the principal of such registered bonds shall be payable only to the registered holder, his legal representatives or assigns. Such registered bonds shall be transferable to another registered holder, or back to bearer, only upon presentation to the county treasurer with the legal assignment duly acknowledged or approved. Registration of any such bonds shall not affect negotiability of the coupons thereto attached, but such coupons shall be transferable by delivery merely.

All such bonds issued by any such county shall be sold in such manner and at such time as the governing body shall determine. Whenever the governing body of any such county determines to issue bonds as provided for in this Division of this Article, it shall adopt an ordinance describing in a general way the bridge to be acquired or constructed and its

general location. Such ordinance shall set out the aggregate amount of the estimated cost of the acquisition or construction of such bridge, as prepared by the engineers employed for that purpose, determine the period of usefulness thereof and fix the amount of revenue bonds to be issued, the maturity or maturities, redemption privileges, the interest rate, sinking fund, and all other details in connection with such bonds, including such reserve accounts as the county board of such county may deem necessary. Such ordinance may contain such covenants and restrictions upon the issuance of additional revenue bonds thereafter as may be deemed necessary or advisable for the assurance of the payment of the bonds thereby authorized. Revenue bonds issued under the provisions of this Division of this Article shall be payable solely from the revenue derived from such bridge, and such bonds shall not, in any event constitute or be deemed an indebtedness of such county within the meaning of any constitutional provisions or statutory limitation as to debt, and it shall be plainly stated on the face of each bond that it does not constitute an indebtedness within any constitutional or statutory limitation. Such ordinance shall be published within 30 days after its passage in a newspaper, published and having a general circulation in such county, and shall not become effective until 10 days after its publication.

It is the policy of the State of Illinois to promote and encourage the fullest use of its highways and to enhance the flow of commerce thus contributing to the economic, agricultural, industrial and social growth and development of this State, by authorizing the Secretary of State to negotiate and enter

B. Reciprocity. Any motor vehicle, trailer, semitrailer or pole trailer need not be registered under this Code provided

(1) A nonresident owner, except as otherwise provided in this Section, owning any foreign registered vehicle of a type otherwise subject to registration hereunder, may operate or permit the operation of such vehicle within this State in interstate commerce without registering such vehicle in, or paying any fees to, this State subject to the condition that such vehicle at all times when operated in this State is operated pursuant to a reciprocity agreement, arrangement or declaration by this State, and further subject to the condition that such vehicle at all times when operated in this State is duly registered in, and displays upon it, a valid registration card and registration plate or plates or digital registration plate or plates issued for such vehicle in the place of residence of such owner and is issued and maintains in such vehicle a valid Illinois reciprocity permit as required by the Secretary of State, and provided like privileges are afforded to residents of this State by the State of residence of such owner.

Every nonresident including any foreign corporation carrying on business within this State and owning and regularly operating in such business any motor vehicle, trailer or semitrailer within this State in intrastate

commerce, shall be required to register each such vehicle and pay the same fees therefor as is required with reference to like vehicles owned by residents of this State.

(2) Any motor vehicle, trailer, semitrailer and pole trailer operated interstate need not be registered in this State, provided:

(a) that the vehicle is properly registered in another State pursuant to law or to a reciprocity agreement, arrangement or declaration; or

(b) that such vehicle is part of a fleet of vehicles owned or operated by the same person who registers such fleet of vehicles pro rata among the various States in which such fleet operates; or

(c) that such vehicle is part of a fleet of vehicles, a portion of which are registered with the Secretary of State of Illinois in accordance with an agreement or arrangement concurred in by the Secretary of State of Illinois based on one or more of the following factors: ratio of miles in Illinois as against total miles in all jurisdictions; situs or base of a vehicle, or where it is principally garaged, or from whence it is principally dispatched or where the movements of such vehicle usually originate; situs of the residence of the owner or operator thereof, or of his principal office or offices, or of his places of

business; the routes traversed and whether regular or irregular routes are traversed, and the jurisdictions traversed and served; and such other factors as may be deemed material by the Secretary and the motor vehicle administrators of the other jurisdictions involved in such apportionment. Such vehicles shall maintain therein any reciprocity permit which may be required by the Secretary of State pursuant to rules and regulations which the Secretary of State may promulgate in the administration of this Code, in the public interest.

(3)(a) In order to effectuate the purposes of this Code, the Secretary of State of Illinois is empowered to negotiate and execute written reciprocal agreements or arrangements with the duly authorized representatives of other jurisdictions, including States, districts, territories and possessions of the United States, and foreign states, provinces, or countries, granting to owners or operators of vehicles duly registered or licensed in such other jurisdictions and for which evidence of compliance is supplied, benefits, privileges and exemption from the payment, wholly or partially, of any taxes, fees or other charges imposed with respect to the ownership or operation of such vehicles by the laws of this State except the tax imposed by the Motor Fuel Tax Law, approved March 25, 1929, as amended, and the tax

imposed by the Use Tax Act, approved July 14, 1955, as amended.

The Secretary of State may negotiate agreements or arrangements as are in the best interests of this State and the residents of this State pursuant to the policies expressed in this Section taking into consideration the reciprocal exemptions, benefits and privileges available and accruing to residents of this State and vehicles registered in this State.

(b) Such reciprocal agreements or arrangements shall provide that vehicles duly registered or licensed in this State when operated upon the highways of such other jurisdictions, shall receive exemptions, benefits and privileges of a similar kind or to a similar degree as extended to vehicles from such jurisdictions in this State.

(c) Such agreements or arrangements may also authorize the apportionment of registration or licensing of fleets of vehicles operated interstate, based on any or all of the following factors: ratio of miles in Illinois as against total miles in all jurisdictions; situs or base of a vehicle, or where it is principally garaged or from whence it is principally dispatched or where the movements of such vehicle usually originate; situs of the residence of the owner or operator thereof, or of his principal office or offices, or of his places of business; the

routes traversed and whether regular or irregular routes are traversed, and the jurisdictions traversed and served; and such other factors as may be deemed material by the Secretary and the motor vehicle administrators of the other jurisdictions involved in such apportionment, and such vehicles shall likewise be entitled to reciprocal exemptions, benefits and privileges.

(d) Such agreements or arrangements shall also provide that vehicles being operated in intrastate commerce in Illinois shall comply with the registration and licensing laws of this State, except that vehicles which are part of an apportioned fleet may conduct an intrastate operation incidental to their interstate operations. Any motor vehicle properly registered and qualified under any reciprocal agreement or arrangement under this Code and not having a situs or base within Illinois may complete the inbound movement of a trailer or semitrailer to an Illinois destination that was brought into Illinois by a motor vehicle also properly registered and qualified under this Code and not having a situs or base within Illinois, or may complete an outbound movement of a trailer or semitrailer to an out-of-state destination that was originated in Illinois by a motor vehicle also properly registered and qualified under this Code and not having a situs or base in Illinois, only if the operator thereof did not break bulk of the cargo laden in such inbound or

outbound trailer or semitrailer. Adding or unloading intrastate cargo on such inbound or outbound trailer or semitrailer shall be deemed as breaking bulk.

(e) Such agreements or arrangements may also provide for the determination of the proper State in which leased vehicles shall be registered based on the factors set out in subsection (c) above and for apportionment of registration of fleets of leased vehicles by the lessee or by the lessor who leases such vehicles to persons who are not fleet operators.

(f) Such agreements or arrangements may also include reciprocal exemptions, benefits or privileges accruing under The Illinois Driver Licensing Law or The Driver License Compact.

(4) The Secretary of State is further authorized to examine the laws and requirements of other jurisdictions, and, in the absence of a written agreement or arrangement, to issue a written declaration of the extent and nature of the exemptions, benefits and privileges accorded to vehicles of this State by such other jurisdictions, and the extent and nature of reciprocal exemptions, benefits and privileges thereby accorded by this State to the vehicles of such other jurisdictions. A declaration by the Secretary of State may include any, part or all reciprocal exemptions, benefits and privileges or provisions as may be included within an agreement or arrangement.

(5) All agreements, arrangements, declarations and amendments thereto, shall be in writing and become effective when signed by the Secretary of State, and copies of all such documents shall be available to the public upon request.

(6) The Secretary of State is further authorized to require the display by foreign registered trucks, truck-tractors and buses, entitled to reciprocal benefits, exemptions or privileges hereunder, a reciprocity permit for external display before any such reciprocal benefits, exemptions or privileges are granted. The Secretary of State shall provide suitable application forms for such permit and shall promulgate and publish reasonable rules and regulations for the administration and enforcement of the provisions of this Code including a provision for revocation of such permit as to any vehicle operated wilfully in violation of the terms of any reciprocal agreement, arrangement or declaration or in violation of the Illinois Motor Carrier of Property Law, as amended.

(7) (a) Upon the suspension, revocation or denial of one or more of all reciprocal benefits, privileges and exemptions existing pursuant to the terms and provisions of this Code or by virtue of a reciprocal agreement or arrangement or declaration thereunder; or, upon the suspension, revocation or denial of a reciprocity permit; or, upon any action or inaction of the Secretary in the

administration and enforcement of the provisions of this Code, any person, resident or nonresident, so aggrieved, may serve upon the Secretary, a petition in writing and under oath, setting forth the grievance of the petitioner, the grounds and basis for the relief sought, and all necessary facts and particulars, and request an administrative hearing thereon. Within 20 days, the Secretary shall set a hearing date as early as practical. The Secretary may, in his discretion, supply forms for such a petition. The Secretary may require the payment of a fee of not more than \$50 for the filing of any petition, motion, or request for hearing conducted pursuant to this Section. These fees must be deposited into the Secretary of State DUI Administration Fund, a special fund that is hereby created in the State treasury, and, subject to appropriation and as directed by the Secretary of State, shall be used to fund the operation of the hearings department of the Office of the Secretary of State and for no other purpose. The Secretary shall establish by rule the amount and the procedures, terms, and conditions relating to these fees.

(b) The Secretary may likewise, in his discretion and upon his own petition, order a hearing, when in his best judgment, any person is not entitled to the reciprocal benefits, privileges and exemptions existing pursuant to the terms and provisions of this Code or under a

reciprocal agreement or arrangement or declaration thereunder or that a vehicle owned or operated by such person is improperly registered or licensed, or that an Illinois resident has improperly registered or licensed a vehicle in another jurisdiction for the purposes of violating or avoiding the registration laws of this State.

(c) The Secretary shall notify a petitioner or any other person involved of such a hearing, by giving at least 10 days notice, in writing, by U.S. Mail, Registered or Certified, or by personal service, at the last known address of such petitioner or person, specifying the time and place of such hearing. Such hearing shall be held before the Secretary, or any person as he may designate, and unless the parties mutually agree to some other county in Illinois, the hearing shall be held in the County of Sangamon or the County of Cook. Appropriate records of the hearing shall be kept, and the Secretary shall issue or cause to be issued, his decision on the case, within 30 days after the close of such hearing or within 30 days after receipt of the transcript thereof, and a copy shall likewise be served or mailed to the petitioner or person involved.

(d) The actions or inactions or determinations, or findings and decisions upon an administrative hearing, of the Secretary, shall be subject to judicial review in the Circuit Court of the County of Sangamon or the County of

Cook, and the provisions of the Administrative Review Law, and all amendments and modifications thereof and rules adopted pursuant thereto, apply to and govern all such reviewable matters.

Any reciprocal agreements or arrangements entered into by the Secretary of State or any declarations issued by the Secretary of State pursuant to any law in effect prior to the effective date of this Code are not hereby abrogated, and such shall continue in force and effect until amended pursuant to the provisions of this Code or expire pursuant to the terms or provisions thereof.

C. Vehicles purchased out-of-state. A resident of this State who purchases a vehicle in another state and transports the vehicle to Illinois shall apply for registration and certificate of title as soon as practicable, but in no event more than 45 days after the purchase of the vehicle. If an Illinois motorist who purchased a vehicle from an out-of-state licensed dealer is unable to meet the 45-day deadline due to a delay in paperwork from the seller, that motorist may obtain an Illinois temporary registration plate with: (i) proof of purchase; (ii) proof of meeting the Illinois driver's license or identification card requirement; and (iii) proof that Illinois title and registration fees have been paid. If fees have not been paid, the motorist may pay the fees in order to obtain the temporary registration plate. The owner of such a vehicle shall display any temporary permit or registration

issued in accordance with Section 3-407.

When necessary, the authorizing language shall create a special fund in the State treasury into which fees may be deposited for an authorized Universal special license plate.

Additional fees may only be charged if the fee is to be paid over to a State agency or to a charitable entity that is in compliance with the registration and reporting requirements of the Charitable Trust Act and the Solicitation for Charity Act. (e) Whenever a peace officer reasonably believes that a

person under arrest for a violation of Section 11-501 of this Code or a similar provision of a local ordinance is likely, upon release, to commit a subsequent violation of Section 11-501, or a similar provision of a local ordinance, the arresting officer shall have the vehicle which the person was operating at the time of the arrest impounded for a period of 12 hours after the time of arrest. However, such vehicle may be released by the arresting law enforcement agency prior to the end of the impoundment period if:

(1) the vehicle was not owned by the person under arrest, and the lawful owner requesting such release possesses a valid operator's license, proof of ownership, and would not, as determined by the arresting law enforcement agency, indicate a lack of ability to operate a motor vehicle in a safe manner, or who would otherwise, by operating such motor vehicle, be in violation of this Code; or

(2) the vehicle is owned by the person under arrest, and the person under arrest gives permission to another person to operate such vehicle, provided however, that the other person possesses a valid operator's license and would not, as determined by the arresting law enforcement agency, indicate a lack of ability to operate a motor vehicle in a safe manner or who would otherwise, by operating such motor vehicle, be in violation of this Code.

(e-5) Whenever a registered owner of a vehicle is taken into custody for operating the vehicle in violation of Section 11-501 of this Code or a similar provision of a local ordinance or Section 6-303 of this Code, a law enforcement officer may have the vehicle immediately impounded for a period not less than:

(2) 48 hours for a third violation of Section 11-501 of this Code or a similar provision of a local ordinance or Section 6-303 of this Code or a combination of these offenses.

The vehicle may be released sooner if the vehicle is owned by the person under arrest and the person under arrest gives permission to another person to operate the vehicle and that other person possesses a valid operator's license and would not, as determined by the arresting law enforcement agency, indicate a lack of ability to operate a motor vehicle in a safe manner or would otherwise, by operating the motor vehicle, be in violation of this Code.

(f) Except as provided in Chapter 18a of this Code, the owner or lessor of privately owned real property within this State, or any person authorized by such owner or lessor, or any law enforcement agency in the case of publicly owned real

property may cause any motor vehicle abandoned or left unattended upon such property without permission to be removed by a towing service without liability for the costs of removal, transportation, ~~or~~ storage, or damage caused by such removal, transportation, or storage. The towing or removal of any vehicle from private property without the consent of the registered owner or other legally authorized person in control of the vehicle is subject to compliance with the following conditions and restrictions:

1. Any towed or removed vehicle must be stored at the site of the towing service's place of business. The site must be open during business hours, and for the purpose of redemption of vehicles, during the time that the person or firm towing such vehicle is open for towing purposes.

2. The towing service shall within 30 minutes of completion of such towing or removal, notify the law enforcement agency having jurisdiction of such towing or removal, and the make, model, color, and license plate number of the vehicle, and shall obtain and record the name of the person at the law enforcement agency to whom such information was reported.

3. If the registered owner or legally authorized person entitled to possession of the vehicle shall arrive at the scene prior to actual removal or towing of the vehicle, the vehicle shall be disconnected from the tow truck and that person shall be allowed to remove the

vehicle without interference, upon the payment of a reasonable service fee of not more than one-half the posted rate of the towing service as provided in paragraph 6 of this subsection, for which a receipt shall be given.

4. The rebate or payment of money or any other valuable consideration from the towing service or its owners, managers, or employees to the owners or operators of the premises from which the vehicles are towed or removed, for the privilege of removing or towing those vehicles, is prohibited. Any individual who violates this paragraph shall be guilty of a Class A misdemeanor.

5. Except for property appurtenant to and obviously a part of a single family residence, and except for instances where notice is personally given to the owner or other legally authorized person in control of the vehicle that the area in which that vehicle is parked is reserved or otherwise unavailable to unauthorized vehicles and they are subject to being removed at the owner or operator's expense, any property owner or lessor, prior to towing or removing any vehicle from private property without the consent of the owner or other legally authorized person in control of that vehicle, must post a notice meeting the following requirements:

a. Except as otherwise provided in subparagraph a.1 of this paragraph 5 of this subsection ~~subdivision~~ ~~(f)~~ 5, the notice must be prominently placed at each

driveway access or curb cut allowing vehicular access to the property within 5 feet from the public right-of-way line. If there are no curbs or access barriers, the sign must be posted not less than one sign each 100 feet of lot frontage.

a.1. In a municipality with a population of less than 250,000, as an alternative to the requirement of subparagraph a of this paragraph 5 of this subsection ~~subdivision (f)5~~, the notice for a parking lot contained within property used solely for a 2-family, 3-family, or 4-family residence may be prominently placed at the perimeter of the parking lot, in a position where the notice is visible to the occupants of vehicles entering the lot.

b. The notice must indicate clearly, in not less than 2 inch high light-reflective letters on a contrasting background, that unauthorized vehicles will be towed away at the owner's expense.

c. The notice must also provide the name and current telephone number of the towing service towing or removing the vehicle.

d. The sign structure containing the required notices must be permanently installed with the bottom of the sign not less than 4 feet above ground level, and must be continuously maintained on the property for not less than 24 hours prior to the towing or

removing of any vehicle.

6. Any towing service that tows or removes vehicles and proposes to require the owner, operator, or person in control of the vehicle to pay the costs of towing and storage prior to redemption of the vehicle must file and keep on record with the local law enforcement agency a complete copy of the current rates to be charged for such services, and post at the storage site an identical rate schedule and any written contracts with property owners, lessors, or persons in control of property which authorize them to remove vehicles as provided in this Section. The towing and storage charges, however, shall not exceed the maximum allowed by the Illinois Commerce Commission under Section 18a-200.

7. No person shall engage in the removal of vehicles from private property as described in this Section without filing a notice of intent in each community where he intends to do such removal, and such notice shall be filed at least 7 days before commencing such towing.

8. No removal of a vehicle from private property shall be done except upon express written instructions of the owners or persons in charge of the private property upon which the vehicle is said to be trespassing.

9. Vehicle entry for the purpose of removal shall be allowed with reasonable care on the part of the person or firm towing the vehicle. Such person or firm shall be

liable for any damages occasioned to the vehicle if such entry is not in accordance with the standards of reasonable care.

9.5. Except as authorized by a law enforcement officer, no towing service shall engage in the removal of a commercial motor vehicle that requires a commercial driver's license to operate by operating the vehicle under its own power on a highway.

10. When a vehicle has been towed or removed pursuant to this Section, it must be released to its owner, custodian, agent, or lienholder within one-half hour after requested, if such request is made during business hours. Any vehicle owner, custodian, agent, or lienholder shall have the right to inspect the vehicle before accepting its return, and no release or waiver of any kind which would release the towing service from liability for damages incurred during the towing and storage may be required from any vehicle owner or other legally authorized person as a condition of release of the vehicle. A detailed, signed receipt showing the legal name of the towing service must be given to the person paying towing or storage charges at the time of payment, whether requested or not.

This Section shall not apply to law enforcement, firefighting, rescue, ambulance, or other emergency vehicles which are marked as such or to property owned by

any governmental entity.

When an authorized person improperly causes a motor vehicle to be removed, such person shall be liable to the owner or lessee of the vehicle for the cost of removal, transportation and storage, any damages resulting from the removal, transportation and storage, attorney's fee, and court costs.

Any towing or storage charges accrued shall be payable in cash or by cashier's check, certified check, debit card, credit card, or wire transfer, at the option of the party taking possession of the vehicle.

11. Towing companies shall also provide insurance coverage for areas where vehicles towed under the provisions of this Chapter will be impounded or otherwise stored, and shall adequately cover loss by fire, theft, or other risks.

Any person who fails to comply with the conditions and restrictions of this subsection shall be guilty of a Class C misdemeanor and shall be fined not less than \$100 nor more than \$500.

(g)(1) When a vehicle is determined to be a hazardous dilapidated motor vehicle pursuant to Section 11-40-3.1 of the Illinois Municipal Code or Section 5-12002.1 of the Counties Code, its removal and impoundment by a towing service may be authorized by a law enforcement agency with appropriate jurisdiction.

(2) When a vehicle removal from either public or private property is authorized by a law enforcement agency, the owner of the vehicle shall be responsible for all towing and storage charges.

(3) Vehicles removed from public or private property and stored by a commercial vehicle relocater or any other towing service authorized by a law enforcement agency in compliance with this Section and Sections 4-201 and 4-202 of this Code, or at the request of the vehicle owner or operator, shall be subject to a possessor lien for services pursuant to the Labor and Storage Lien (Small Amount) Act. The provisions of Section 1 of that Act relating to notice and implied consent shall be deemed satisfied by compliance with Section 18a-302 and subsection (6) of Section 18a-300. In no event shall such lien be greater than the rate or rates established in accordance with subsection (6) of Section 18a-200 of this Code. In no event shall such lien be increased or altered to reflect any charge for services or materials rendered in addition to those authorized by this Code. Every such lien shall be payable in cash or by cashier's check, certified check, debit card, credit card, or wire transfer, at the option of the party taking possession of the vehicle.

(4) Any personal property belonging to the vehicle owner in a vehicle subject to a lien under this subsection (g) shall likewise be subject to that lien, excepting only: child restraint systems as defined in Section 4 of the Child

Passenger Protection Act and other child booster seats; eyeglasses; food; medicine; personal medical and health care devices, including hearing instruments; perishable property; any operator's licenses; any cash, credit cards, or checks or checkbooks; any wallet, purse, or other property containing any operator's licenses, social security cards, or other identifying documents or materials, cash, credit cards, checks, checkbooks, or passbooks; higher education textbooks and study materials; and any personal property belonging to a person other than the vehicle owner if that person provides adequate proof that the personal property belongs to that person. The spouse, child, mother, father, brother, or sister of the vehicle owner may claim personal property excepted under this paragraph (4) if the person claiming the personal property provides the commercial vehicle relocater or towing service with the authorization of the vehicle owner.

(5) This paragraph (5) applies only in the case of a vehicle that is towed as a result of being involved in a crash. In addition to the personal property excepted under paragraph (4), all other personal property in a vehicle subject to a lien under this subsection (g) is exempt from that lien and may be claimed by the vehicle owner if the vehicle owner provides the commercial vehicle relocater or towing service with proof that the vehicle owner has an insurance policy covering towing and storage fees. The spouse, child, mother, father, brother, or sister of the vehicle owner may claim personal property in a

vehicle subject to a lien under this subsection (g) if the person claiming the personal property provides the commercial vehicle relocater or towing service with the authorization of the vehicle owner and proof that the vehicle owner has an insurance policy covering towing and storage fees. The regulation of liens on personal property and exceptions to those liens in the case of vehicles towed as a result of being involved in a crash are exclusive powers and functions of the State. A home rule unit may not regulate liens on personal property and exceptions to those liens in the case of vehicles towed as a result of being involved in a crash. This paragraph (5) is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

(6) No lien under this subsection (g) shall: exceed \$2,000 in its total amount; or be increased or altered to reflect any charge for services or materials rendered in addition to those authorized by this Code.

(h) Whenever a peace officer issues a citation to a driver for a violation of subsection (a), (a-5), or (b-5) of Section 11-506 of this Code or for a violation of paragraph (1) of subsection (a) of Section 11-503 of this Code, the arresting officer may have the vehicle which the person was operating at the time of the arrest impounded for a period of 5 days after the time of arrest. An impounding agency shall release a motor vehicle impounded under this subsection (h) to the registered

owner of the vehicle under any of the following circumstances:

- (1) if the vehicle is a stolen vehicle; or
- (2) if the person ticketed for a violation of subsection (a), (a-5), or (b-5) of Section 11-506 or paragraph (1) of subsection (a) of Section 11-503 of this Code was not authorized by the registered owner of the vehicle to operate the vehicle at the time of the violation; or
- (3) if the registered owner of the vehicle was neither the driver nor a passenger in the vehicle at the time of the violation or was unaware that the driver was using the vehicle to engage in street racing, street sideshow, or reckless driving; or
- (4) if the legal owner or registered owner of the vehicle is a rental car agency; or
- (5) if, prior to the expiration of the impoundment period specified above, the citation is dismissed or the defendant is found not guilty of the offense.

(i) Except for vehicles exempted under subsection (b) of Section 7-601 of this Code, whenever a law enforcement officer issues a citation to a driver for a violation of Section 3-707 of this Code, and the driver has a prior conviction for a violation of Section 3-707 of this Code in the past 12 months, the arresting officer shall authorize the removal and impoundment of the vehicle by a towing service.

(j) Notwithstanding any other provision of law, if a

person has indicated in a timely filed report to the appropriate law enforcement agency that a vehicle towed pursuant to this Section has been stolen or hijacked then:

(1) the person shall not be liable for any governmentally imposed fees, fines, or penalties; and

(2) if a vehicle towed pursuant to this Section is registered in Illinois and the name and address of the registered owner of the vehicle is provided or made available to the towing service at the time of the tow, then the towing service must provide written notice of the tow to the registered owner within 2 business days after the vehicle is towed by certified mail, return receipt requested. No storage charges shall accrue if the vehicle is reclaimed by paying recovery and towing charges at the posted rates of the towing service as provided by paragraph 6 of subsection (f) within 7 days after such notice is mailed. If the vehicle is registered in a state other than Illinois, then no storage charges shall accrue if the vehicle is reclaimed by paying recovery and towing charges at the posted rates of the towing service as provided by paragraph 6 of subsection (f) within 7 days after a request for registered owner information is mailed by the towing service, certified mail, return receipt requested, to the applicable administrative agency or office in that state.

The towing service shall enjoy a lien to secure payment of

charges accrued in compliance with this subsection.

(a) No person, other than a licensed new vehicle dealer, shall engage in the business of selling or dealing in, on consignment or otherwise, 5 or more used vehicles of any make during the year (except house trailers as authorized by paragraph (j) of this Section and rebuilt salvage vehicles sold by their rebuilders to persons licensed under this Chapter), or act as an intermediary, agent, or broker for any licensed dealer or vehicle purchaser (other than as a salesperson) or represent or advertise that he is so engaged or intends to so engage in such business unless licensed to do so by the Secretary of State under the provisions of this Section.

(b) An application for a used vehicle dealer's license shall be filed with the Secretary of State, duly verified by oath, in such form as the Secretary of State may by rule or regulation prescribe and shall contain:

1. The name and type of business organization established and additional places of business, if any, in this State.

2. If the applicant is a corporation, a list of its

officers, directors, and shareholders having a 10% ~~ten percent~~ or greater ownership interest in the corporation, setting forth the residence address of each; if the applicant is a sole proprietorship, a partnership, an unincorporated association, a trust, or any similar form of business organization, the names and residence address of the proprietor or of each partner, member, officer, director, trustee, or manager.

3. A statement that the applicant has been approved for registration under the Retailers' Occupation Tax Act by the Department of Revenue. However, this requirement does not apply to a dealer who is already licensed hereunder with the Secretary of State, and who is merely applying for a renewal of his license. As evidence of this fact, the application shall be accompanied by a certification from the Department of Revenue showing that the Department has approved the applicant for registration under the Retailers' Occupation Tax Act.

4. A statement that the applicant has complied with the appropriate liability insurance requirement. A Certificate of Insurance in a solvent company authorized to do business in the State of Illinois shall be included with each application covering each location at which he proposes to act as a used vehicle dealer. The policy must provide liability coverage in the minimum amounts of \$100,000 for bodily injury to, or death of, any person,

\$300,000 for bodily injury to, or death of, 2 ~~two~~ or more persons in any one crash, and \$50,000 for damage to property. Such policy shall expire not sooner than December 31 of the year for which the license was issued or renewed. The expiration of the insurance policy shall not terminate the liability under the policy arising during the period for which the policy was filed. Trailer and mobile home dealers are exempt from this requirement.

If the permitted user has a liability insurance policy that provides automobile liability insurance coverage of at least \$100,000 for bodily injury to or the death of any person, \$300,000 for bodily injury to or the death of any 2 or more persons in any one crash, and \$50,000 for damage to property, then the permitted user's insurer shall be the primary insurer and the dealer's insurer shall be the secondary insurer. If the permitted user does not have a liability insurance policy that provides automobile liability insurance coverage of at least \$100,000 for bodily injury to or the death of any person, \$300,000 for bodily injury to or the death of any 2 or more persons in any one crash, and \$50,000 for damage to property, or does not have any insurance at all, then the dealer's insurer shall be the primary insurer and the permitted user's insurer shall be the secondary insurer.

When a permitted user is "test driving" a used vehicle dealer's automobile, the used vehicle dealer's insurance

shall be primary and the permitted user's insurance shall be secondary.

As used in this paragraph 4, a "permitted user" is a person who, with the permission of the used vehicle dealer or an employee of the used vehicle dealer, drives a vehicle owned and held for sale or lease by the used vehicle dealer which the person is considering to purchase or lease, in order to evaluate the performance, reliability, or condition of the vehicle. The term "permitted user" also includes a person who, with the permission of the used vehicle dealer, drives a vehicle owned or held for sale or lease by the used vehicle dealer for loaner purposes while the user's vehicle is being repaired or evaluated.

As used in this paragraph 4, "test driving" occurs when a permitted user who, with the permission of the used vehicle dealer or an employee of the used vehicle dealer, drives a vehicle owned and held for sale or lease by a used vehicle dealer that the person is considering to purchase or lease, in order to evaluate the performance, reliability, or condition of the vehicle.

As used in this paragraph 4, "loaner purposes" means when a person who, with the permission of the used vehicle dealer, drives a vehicle owned or held for sale or lease by the used vehicle dealer while the user's vehicle is being repaired or evaluated.

5. An application for a used vehicle dealer's license shall be accompanied by the following license fees:

(A) \$1,000 for applicant's established place of business, and \$50 for each additional place of business, if any, to which the application pertains; however, if the application is made after June 15 of any year, the license fee shall be \$500 for applicant's established place of business plus \$25 for each additional place of business, if any, to which the application pertains. License fees shall be returnable only in the event that the application is denied by the Secretary of State. Of the money received by the Secretary of State as license fees under this subparagraph (A) for the 2004 licensing year and thereafter, 95% shall be deposited into the General Revenue Fund.

(B) Except for dealers selling 25 or fewer automobiles or as provided in subsection (h) of Section 5-102.7 of this Code, an Annual Dealer Recovery Fund Fee in the amount of \$500 for the applicant's established place of business, and \$50 for each additional place of business, if any, to which the application pertains; but if the application is made after June 15 of any year, the fee shall be \$250 for the applicant's established place of business plus \$25 for each additional place of business, if any, to

which the application pertains. For a license renewal application, the fee shall be based on the amount of automobiles sold in the past year according to the following formula:

(1) \$0 for dealers selling 25 or fewer ~~less~~ automobiles;

(2) \$150 for dealers selling more than 25 but fewer ~~less~~ than 200 automobiles;

(3) \$300 for dealers selling 200 or more automobiles but fewer ~~less~~ than 300 automobiles; and

(4) \$500 for dealers selling 300 or more automobiles.

License fees shall be returnable only in the event that the application is denied by the Secretary of State. Moneys received under this subparagraph (B) shall be deposited into the Dealer Recovery Trust Fund.

6. A statement that the applicant's officers, directors, shareholders having a 10% or greater ownership interest therein, proprietor, partner, member, officer, director, trustee, manager, or other principals in the business have not committed in the past 3 years any one violation as determined in any civil, criminal, or administrative proceedings of any one of the following ~~Acts~~:

(A) Article I of Chapter 4 of this Code ~~The Anti-Theft Laws of the Illinois Vehicle Code;~~

(B) Article I of Chapter 3 of this Code ~~The Certificate of Title Laws of the Illinois Vehicle Code;~~

(C) Article VII of Chapter 3 of this Code ~~The Offenses against Registration and Certificates of Title Laws of the Illinois Vehicle Code;~~

(E) Section 21-2 of the Criminal Code of 1961 or the Criminal Code of 2012, Criminal Trespass to Vehicles; or

(F) The Retailers' Occupation Tax Act.

7. A statement that the applicant's officers, directors, shareholders having a 10% or greater ownership interest therein, proprietor, partner, member, officer, director, trustee, manager, or other principals in the business have not committed in any calendar year 3 or more violations, as determined in any civil, criminal, or administrative proceedings, of any one or more of the following Acts:

(A) The Consumer Finance Act;

(B) The Consumer Installment Loan Act;

(C) The Retail Installment Sales Act;

(D) The Motor Vehicle Retail Installment Sales Act;

(E) The Interest Act;

(F) The Illinois Wage Assignment Act;

(G) Part 8 of Article XII of the Code of Civil Procedure; or

(H) The Consumer Fraud and Deceptive Business Practices Act.

7.5. A statement that, within 10 years of application, each officer, director, shareholder having a 10% or greater ownership interest therein, proprietor, partner, member, officer, director, trustee, manager, or other principal in the business of the applicant has not committed, as determined in any civil, criminal, or administrative proceeding, in any calendar year one or more forcible felonies under the Criminal Code of 1961 or the Criminal Code of 2012, or a violation of either or both Article 16 or 17 of the Criminal Code of 1961 or a violation of either or both Article 16 or 17 of the Criminal Code of 2012, Article 29B of the Criminal Code of 1961 or the Criminal Code of 2012, or a similar out-of-state offense. For the purposes of this paragraph, "forcible felony" has the meaning provided in Section 2-8 of the Criminal Code of 2012.

8. A bond or Certificate of Deposit in the amount of \$50,000 for each location at which the applicant intends

to act as a used vehicle dealer. The bond shall be for the term of the license, or its renewal, for which application is made, and shall expire not sooner than December 31 of the year for which the license was issued or renewed. The bond shall run to the People of the State of Illinois, with surety by a bonding or insurance company authorized to do business in this State. It shall be conditioned upon the proper transmittal of all title and registration fees and taxes (excluding taxes under the Retailers' Occupation Tax Act) accepted by the applicant as a used vehicle dealer.

9. Such other information concerning the business of the applicant as the Secretary of State may by rule or regulation prescribe.

10. A statement that the applicant understands Chapter 1 through Chapter 5 of this Code.

11. A copy of the certification from the prelicensing education program.

12. The full name, address, and contact information of each of the dealer's agents or legal representatives who is an Illinois resident and liable for the performance of the dealership.

(c) Any change which renders no longer accurate any information contained in any application for a used vehicle dealer's license shall be amended within 30 days after the occurrence of each change on such form as the Secretary of State may prescribe by rule or regulation, accompanied by an

amendatory fee of \$2.

(d) Anything in this Chapter to the contrary notwithstanding, no person shall be licensed as a used vehicle dealer unless such person maintains an established place of business as defined in this Chapter.

(e) The Secretary of State shall, within a reasonable time after receipt, examine an application submitted to him under this Section. Unless the Secretary makes a determination that the application submitted to him does not conform to this Section or that grounds exist for a denial of the application under Section 5-501 of this Chapter, he must grant the applicant an original used vehicle dealer's license in writing for his established place of business and a supplemental license in writing for each additional place of business in such form as he may prescribe by rule or regulation which shall include the following:

1. The name of the person licensed;

established place of business of the licensee and the additional place of business to which such supplemental license pertains;

5. The full name, address, and contact information of each of the dealer's agents or legal representatives who is an Illinois resident and liable for the performance of the dealership.

(f) The appropriate instrument evidencing the license or a certified copy thereof, provided by the Secretary of State shall be kept posted, conspicuously, in the established place of business of the licensee and in each additional place of business, if any, maintained by such licensee.

(g) Except as provided in subsection (h) of this Section, all used vehicle dealer's licenses granted under this Section expire by operation of law on December 31 of the calendar year for which they are granted unless sooner revoked or cancelled under Section 5-501 of this Chapter.

(h) A used vehicle dealer's license may be renewed upon application and payment of the fee required herein, and submission of proof of coverage by an approved bond under the Retailers' Occupation Tax Act or proof that applicant is not subject to such bonding requirements, as in the case of an original license, but in case an application for the renewal of an effective license is made during the month of December, the effective license shall remain in force until the application for renewal is granted or denied by the Secretary

of State.

(i) All persons licensed as a used vehicle dealer are required to furnish each purchaser of a motor vehicle:

1. A certificate of title properly assigned to the purchaser;

2. A statement verified under oath that all identifying numbers on the vehicle agree with those on the certificate of title;

3. A bill of sale properly executed on behalf of such person;

6. In the case of a vehicle for which the warranty has been reinstated, a copy of the warranty.

(j) A real estate broker holding a valid certificate of registration issued pursuant to "The Real Estate Brokers and Salesmen License Act" may engage in the business of selling or dealing in house trailers not his own without being licensed as a used vehicle dealer under this Section; however such broker shall maintain a record of the transaction including the following:

(1) the name and address of the buyer and seller,

(2) the date of sale,

(3) a description of the mobile home, including the

vehicle identification number, make, model, and year, and

(4) the Illinois certificate of title number.

The foregoing records shall be available for inspection by any officer of the Secretary of State's Office at any reasonable hour.

(k) Except at the time of sale or repossession of the vehicle, no person licensed as a used vehicle dealer may issue any other person a newly created key to a vehicle unless the used vehicle dealer makes a color photocopy or electronic scan of the driver's license or State identification card of the person requesting or obtaining the newly created key. The used vehicle dealer must retain the photocopy or scan for 30 days.

A used vehicle dealer who violates this subsection (k) is guilty of a petty offense. Violation of this subsection (k) is not cause to suspend, revoke, cancel, or deny renewal of the used vehicle dealer's license.

(1) Used vehicle dealers licensed under this Section shall provide the Secretary of State a register for the sale at auction of each salvage or junk certificate vehicle. Each register shall include the following information:

1. The year, make, model, style, and color of the vehicle;

The register shall be submitted to the Secretary of State via written or electronic means within 10 calendar days from the date of the auction.

(m) If a licensee under this Section voluntarily surrenders a license to the Illinois Secretary of State Police or a representative of the Secretary of State Vehicle Services Department due to the licensee's inability to adhere to recordkeeping provisions, or the inability to properly issue certificates of title or registrations under this Code, or the Secretary revokes a license under this Section, then the licensee and the licensee's agent, designee, or legal representative, if applicable, may not be named on a new application for a licensee under this Section or under this Chapter, nor is the licensee or the licensee's agent, designee, or legal representative permitted to work for another licensee under this Chapter in a recordkeeping, management, or financial position or as an employee who handles certificate of title and registration documents and

Sec. 6-110. Licenses issued to drivers.

(a) The Secretary of State shall issue to every qualifying applicant a driver's license as applied for, which license shall bear a distinguishing number assigned to the licensee, the legal name, signature, zip code, date of birth, residence address, and a brief description of the licensee.

Licenses issued shall also indicate the classification and the restrictions under Section 6-104 of this Code. The Secretary may adopt rules to establish informational restrictions that can be placed on the driver's license regarding specific conditions of the licensee.

A driver's license issued may, in the discretion of the Secretary, include a suitable photograph of a type prescribed by the Secretary.

(a-1) If the licensee is less than 18 years of age, unless one of the exceptions in subsection (a-2) apply, the license shall, as a matter of law, be invalid for the operation of any motor vehicle during the following times:

(A) Between 11:00 p.m. Friday and 6:00 a.m. Saturday;

(B) Between 11:00 p.m. Saturday and 6:00 a.m. on

Sunday; and

(C) Between 10:00 p.m. on Sunday to Thursday, inclusive, and 6:00 a.m. on the following day.

(a-2) The driver's license of a person under the age of 18 shall not be invalid as described in subsection (a-1) of this Section if the licensee under the age of 18 was:

(1) accompanied by the licensee's parent or guardian or other person in custody or control of the minor;

(2) on an errand at the direction of the minor's parent or guardian, without any detour or stop;

(3) in a motor vehicle involved in interstate travel;

(4) going to or returning home from an employment activity, without any detour or stop;

(5) involved in an emergency;

(6) going to or returning home from, without any detour or stop, an official school, religious, or other recreational activity supervised by adults and sponsored by a government or governmental agency, a civic organization, or another similar entity that takes responsibility for the licensee, without any detour or stop;

(7) exercising First Amendment rights protected by the United States Constitution, such as the free exercise of religion, freedom of speech, and the right of assembly; or

(8) married or had been married or is an emancipated minor under the Emancipation of Minors Act.

(a-2.5) The driver's license of a person who is 17 years of age and has been licensed for at least 12 months is not invalid as described in subsection (a-1) of this Section while the licensee is participating as an assigned driver in a Safe Rides program that meets the following criteria:

(1) the program is sponsored by the Boy Scouts of America or another national public service organization; and

(2) the sponsoring organization carries liability insurance covering the program.

(a-3) If a graduated driver's license holder over the age of 18 committed an offense against traffic regulations governing the movement of vehicles or any violation of Section 6-107 or Section 12-603.1 of this Code in the 6 months prior to the graduated driver's license holder's 18th birthday, and was subsequently convicted of the offense, the provisions of subsection (a-1) shall continue to apply until such time as a period of 6 consecutive months has elapsed without an additional violation and subsequent conviction of an offense against traffic regulations governing the movement of vehicles or Section 6-107 or Section 12-603.1 of this Code.

(a-4) If an applicant for a driver's license or instruction permit has a current identification card issued by the Secretary of State, the Secretary may require the applicant to utilize the same residence address and name on the identification card, driver's license, and instruction

permit records maintained by the Secretary. The Secretary may promulgate rules to implement this provision.

(a-5) If an applicant for a driver's license is an employee of the Department of Children and Family Services with a job title of "Child Protection Specialist Trainee", "Child Protection Specialist", "Child Protection Advanced Specialist", "Child Welfare Specialist Trainee", "Child Welfare Specialist", or "Child Welfare Advanced Specialist" or a judicial officer or a peace officer, the applicant may elect to have his or her office or work address listed on the license instead of the applicant's residence or mailing address. The Secretary of State shall adopt rules to implement this subsection (a-5). For the purposes of this subsection (a-5), "peace officer" means any person who by virtue of his or her office or public employment is vested by law with a duty to maintain public order or to make arrests for a violation of any penal statute of this State, whether that duty extends to all violations or is limited to specific violations.

(b) Until the Secretary of State establishes a First Person Consent organ and tissue donor registry under Section 6-117 of this Code, the Secretary of State shall provide a format on the reverse of each driver's license issued which the licensee may use to execute a document of gift conforming to the provisions of the Illinois Anatomical Gift Act. The format shall allow the licensee to indicate the gift intended, whether specific organs, any organ, or the entire body, and

shall accommodate the signatures of the donor and 2 witnesses. The Secretary shall also inform each applicant or licensee of this format, describe the procedure for its execution, and may offer the necessary witnesses; provided that in so doing, the Secretary shall advise the applicant or licensee that he or she is under no compulsion to execute a document of gift. A brochure explaining this method of executing an anatomical gift document shall be given to each applicant or licensee. The brochure shall advise the applicant or licensee that he or she is under no compulsion to execute a document of gift, and that he or she may wish to consult with family, friends, or clergy before doing so. The Secretary of State may undertake additional efforts, including education and awareness activities, to promote organ and tissue donation.

(c) The Secretary of State shall designate on each driver's license issued a space where the licensee may place a sticker or decal of the uniform size as the Secretary may specify, which sticker or decal may indicate in appropriate language that the owner of the license carries an Emergency Medical Information Card.

The sticker may be provided by any person, hospital, school, medical group, or association interested in assisting in implementing the Emergency Medical Information Card, but shall meet the specifications as the Secretary may by rule or regulation require.

(d) The Secretary of State shall designate on each

driver's license issued a space where the licensee may indicate his blood type and RH factor.

(e) The Secretary of State shall provide that each original or renewal driver's license issued to a licensee under 21 years of age shall be of a distinct nature from those driver's licenses issued to individuals 21 years of age and older. The color designated for driver's licenses for licensees under 21 years of age shall be at the discretion of the Secretary of State.

(e-1) The Secretary shall provide that each driver's license issued to a person under the age of 21 displays the date upon which the person becomes 18 years of age and the date upon which the person becomes 21 years of age.

(e-3) The General Assembly recognizes the need to identify military veterans living in this State for the purpose of ensuring that they receive all of the services and benefits to which they are legally entitled, including health care ~~healthcare~~, education assistance, and job placement. To assist the State in identifying these veterans and delivering these vital services and benefits, the Secretary of State is authorized to issue drivers' licenses with the word "veteran" appearing on the face of the licenses. This authorization is predicated on the unique status of veterans. The Secretary may not issue any other driver's license which identifies an occupation, status, affiliation, hobby, or other unique characteristics of the license holder which is unrelated to

the purpose of the driver's license.

(e-5) Beginning on or before July 1, 2015, the Secretary of State shall designate a space on each original or renewal driver's license where, at the request of the applicant, the word "veteran" shall be placed. The veteran designation shall be available to a person identified as a veteran under subsection (e) of Section 6-106 of this Code who was discharged or separated under honorable conditions.

(e-7) Upon providing the required documentation, at the request of the applicant, the driver's license may reflect Gold Star Family designation. The Secretary shall designate a space on each original or renewal driver's license for such designation. This designation shall be available to a person eligible for Gold Star license plates under subsection (f) of Section 6-106 of this Code.

(f) The Secretary of State shall inform all Illinois licensed commercial motor vehicle operators of the requirements of the Uniform Commercial Driver License Act, Article V of this Chapter, and shall make provisions to insure that all drivers, seeking to obtain a commercial driver's license, be afforded an opportunity prior to April 1, 1992, to obtain the license. The Secretary is authorized to extend driver's license expiration dates, and assign specific times, dates and locations where these commercial driver's tests shall be conducted. Any applicant, regardless of the current expiration date of the applicant's driver's license, may be

subject to any assignment by the Secretary. Failure to comply with the Secretary's assignment may result in the applicant's forfeiture of an opportunity to receive a commercial driver's license prior to April 1, 1992.

(g) The Secretary of State shall designate on a driver's license issued, a space where the licensee may indicate that he or she has drafted a living will in accordance with the Illinois Living Will Act or a durable power of attorney for health care in accordance with the Illinois Power of Attorney Act.

(g-1) The Secretary of State, in his or her discretion, may designate on each driver's license issued a space where the licensee may place a sticker or decal, issued by the Secretary of State, of uniform size as the Secretary may specify, that shall indicate in appropriate language that the owner of the license has renewed his or her driver's license.

(h) A person who acts in good faith in accordance with the terms of this Section is not liable for damages in any civil action or subject to prosecution in any criminal proceeding for his or her act.

(i) The Secretary shall designate a space on each original or renewal of a driver's license, at the request of the applicant, for a designation as a Gold Star Family. This designation shall be available to a person eligible for Gold Star license plates under subsection (f) of Section 6-106 of this Code.

(705 ILCS 405/5-915)

Sec. 5-915. Expungement of juvenile law enforcement and juvenile court records.

(0.05) (Blank).

(0.1) (a) The Illinois State Police and all law enforcement

agencies within the State shall automatically expunge, on or before January 1 of each year, except as described in paragraph (c) of this subsection (0.1), all juvenile law enforcement records relating to events occurring before an individual's 18th birthday if:

(1) one year or more has elapsed since the date of the arrest or law enforcement interaction documented in the records;

(2) no petition for delinquency or criminal charges were filed with the clerk of the circuit court relating to the arrest or law enforcement interaction documented in the records; and

(3) 6 months have elapsed since the date of the arrest without an additional subsequent arrest or filing of a petition for delinquency or criminal charges whether related or not to the arrest or law enforcement interaction documented in the records.

(b) If the law enforcement agency is unable to verify satisfaction of conditions (2) and (3) of this subsection (0.1), records that satisfy condition (1) of this subsection (0.1) shall be automatically expunged if the records relate to an offense that if committed by an adult would not be an offense classified as a Class 2 felony or higher, an offense under Article 11 of the Criminal Code of 1961 or Criminal Code of 2012, or an offense under Section 12-13, 12-14, 12-14.1, 12-15, or 12-16 of the Criminal Code of 1961.

(c) If the juvenile law enforcement record was received through a public submission to a statewide student confidential reporting system administered by the Illinois State Police, the record will be maintained for a period of 5 years according to all other provisions in this subsection (0.1).

(0.15) If a juvenile law enforcement record meets paragraph (a) of subsection (0.1) of this Section, a juvenile law enforcement record created:

(1) prior to January 1, 2018, but on or after January 1, 2013 shall be automatically expunged prior to January 1, 2020;

(2) prior to January 1, 2013, but on or after January 1, 2000, shall be automatically expunged prior to January 1, 2023; and

(3) prior to January 1, 2000 shall not be subject to the automatic expungement provisions of this Act.

Nothing in this subsection (0.15) shall be construed to restrict or modify an individual's right to have the person's juvenile law enforcement records expunged except as otherwise may be provided in this Act.

(0.2) (a) Upon dismissal of a petition alleging delinquency or upon a finding of not delinquent, the successful termination of an order of supervision, or the successful termination of an adjudication for an offense which would be a Class B misdemeanor, Class C misdemeanor, or a petty or

business offense if committed by an adult, the court shall automatically order the expungement of the juvenile court records and juvenile law enforcement records. The clerk shall deliver a certified copy of the expungement order to the Illinois State Police and the arresting agency. Upon request, the State's Attorney shall furnish the name of the arresting agency. The expungement shall be completed within 60 business days after the receipt of the expungement order.

(b) If the chief law enforcement officer of the agency, or the chief law enforcement officer's designee, certifies in writing that certain information is needed for a pending investigation involving the commission of a felony, that information, and information identifying the juvenile, may be retained until the statute of limitations for the felony has run. If the chief law enforcement officer of the agency, or the chief law enforcement officer's designee, certifies in writing that certain information is needed with respect to an internal investigation of any law enforcement office, that information and information identifying the juvenile may be retained within an intelligence file until the investigation is terminated or the disciplinary action, including appeals, has been completed, whichever is later. Retention of a portion of a juvenile's law enforcement record does not disqualify the remainder of a juvenile's record from immediate automatic expungement.

(0.3) (a) Upon an adjudication of delinquency based on any

offense except a disqualified offense, the juvenile court shall automatically order the expungement of the juvenile court and law enforcement records 2 years after the juvenile's case was closed if no delinquency or criminal proceeding is pending and the person has had no subsequent delinquency adjudication or criminal conviction. On the date that the minor's sentence ends or the date that the court enters an order committing the minor to the Department of Juvenile Justice, the juvenile court judge shall schedule a date to enter the automatic expungement order. The minor must be notified but shall not be required to be present for the scheduled court date when automatic expungement is to be ordered. If the minor is not yet eligible on the originally scheduled date, the court shall schedule a subsequent date to enter the automatic expungement order. The clerk shall deliver a certified copy of the expungement order to the Illinois State Police and the arresting agency. Upon request, the State's Attorney shall furnish the name of the arresting agency. The expungement shall be completed within 60 business days after the receipt of the expungement order. In this subsection (0.3), "disqualified offense" means any of the following offenses: Section 8-1.2, 9-1, 9-1.2, 9-2, 9-2.1, 9-3, 9-3.2, 10-1, 10-2, 10-3, 10-3.1, 10-4, 10-5, 10-9, 11-1.20, 11-1.30, 11-1.40, 11-1.50, 11-1.60, 11-6, 11-6.5, 12-2, 12-3.05, 12-3.3, 12-4.4a, 12-5.02, 12-6.2, 12-6.5, 12-7.1, 12-7.5, 12-20.5, 12-32, 12-33, 12-34, 12-34.5, 18-1,

18-2, 18-3, 18-4, 18-6, 19-3, 19-6, 20-1, 20-1.1, 24-1.2, 24-1.2-5, 24-1.5, 24-3A, 24-3B, 24-3.2, 24-3.8, 24-3.9, 29D-14.9, 29D-20, 30-1, 31-1a, 32-4a, or 33A-2 of the Criminal Code of 2012, or subsection (b) of Section 8-1, paragraph (4) of subsection (a) of Section 11-14.4, subsection (a-5) of Section 12-3.1, paragraph (1), (2), or (3) of subsection (a) of Section 12-6, subsection (a-3) or (a-5) of Section 12-7.3, paragraph (1) or (2) of subsection (a) of Section 12-7.4, subparagraph (i) of paragraph (1) of subsection (a) of Section 12-9, subparagraph (H) of paragraph (3) of subsection (a) of Section 24-1.6, paragraph (1) of subsection (a) of Section 25-1, or subsection (a-7) of Section 31-1 of the Criminal Code of 2012.

(b) If the chief law enforcement officer of the agency, or the chief law enforcement officer's designee, certifies in writing that certain information is needed for a pending investigation involving the commission of a felony, that information, and information identifying the juvenile, may be retained in an intelligence file until the investigation is terminated or for one additional year, whichever is sooner. Retention of a portion of a juvenile's juvenile law enforcement record does not disqualify the remainder of a juvenile's record from immediate automatic expungement.

(0.4) Automatic expungement for the purposes of this Section shall not require law enforcement agencies to obliterate or otherwise destroy juvenile law enforcement

records that would otherwise need to be automatically expunged under this Act, except after 2 years following the subject arrest for purposes of use in civil litigation against a governmental entity or its law enforcement agency or personnel which created, maintained, or used the records. However, these juvenile law enforcement records shall be considered expunged for all other purposes during this period and the offense, which the records or files concern, shall be treated as if it never occurred as required under Section 5-923.

(0.5) Subsection (0.1) or (0.2) of this Section does not apply to violations of traffic, boating, fish and game laws, or county or municipal ordinances.

(0.6) Juvenile law enforcement records of a plaintiff who has filed civil litigation against the governmental entity or its law enforcement agency or personnel that created, maintained, or used the records, or juvenile law enforcement records that contain information related to the allegations set forth in the civil litigation may not be expunged until after 2 years have elapsed after the conclusion of the lawsuit, including any appeal.

(0.7) Officer-worn body camera recordings shall not be automatically expunged except as otherwise authorized by the Law Enforcement Officer-Worn Body Camera Act.

(1) Whenever a person has been arrested, charged, or adjudicated delinquent for an incident occurring before a person's 18th birthday that if committed by an adult would be

an offense, and that person's juvenile law enforcement and juvenile court records are not eligible for automatic expungement under subsection (0.1), (0.2), or (0.3), the person may petition the court at any time at no cost to the person for expungement of juvenile law enforcement records and juvenile court records relating to the incident and, upon termination of all juvenile court proceedings relating to that incident, the court shall order the expungement of all records in the possession of the Illinois State Police, the clerk of the circuit court, and law enforcement agencies relating to the incident, but only in any of the following circumstances:

(a) the minor was arrested and no petition for delinquency was filed with the clerk of the circuit court;

(a-5) the minor was charged with an offense and the petition or petitions were dismissed without a finding of delinquency;

(b) the minor was charged with an offense and was found not delinquent of that offense;

(c) the minor was placed under supervision under Section 5-615, and the order of supervision has since been successfully terminated; or

(d) the minor was adjudicated for an offense which would be a Class B misdemeanor, Class C misdemeanor, or a petty or business offense if committed by an adult.

(1.5) At no cost to the person, the Illinois State Police shall allow a person to use the Access and Review process,

established in the Illinois State Police, for verifying that the person's juvenile law enforcement records relating to incidents occurring before the person's 18th birthday eligible under this Act have been expunged.

(1.6) (Blank).

(1.7) (Blank).

(1.8) (Blank).

(2) Any person whose delinquency adjudications are not eligible for automatic expungement under subsection (0.3) of this Section may petition the court at no cost to the person to expunge all juvenile law enforcement records relating to any incidents occurring before the person's 18th birthday which did not result in proceedings in criminal court and all juvenile court records with respect to any adjudications except those based upon first degree murder or an offense under Article 11 of the Criminal Code of 2012 if the person is required to register under the Sex Offender Registration Act at the time the person petitions the court for expungement; provided that 2 years have elapsed since all juvenile court proceedings relating to the person have been terminated and the person's commitment to the Department of Juvenile Justice under this Act has been terminated.

(2.5) If a minor is arrested and no petition for delinquency is filed with the clerk of the circuit court at the time the minor is released from custody, the youth officer, if applicable, or other designated person from the arresting

agency, shall notify verbally and in writing to the minor or the minor's parents or guardians that the minor shall have an arrest record and shall provide the minor and the minor's parents or guardians with an expungement information packet, information regarding this State's expungement laws including a petition to expunge juvenile law enforcement and juvenile court records obtained from the clerk of the circuit court.

(2.6) If a minor is referred to court, then, at the time of sentencing, dismissal of the case, or successful completion of supervision, the judge shall inform the delinquent minor of the minor's rights regarding expungement and the clerk of the circuit court shall provide an expungement information packet to the minor, written in plain language, including information regarding this State's expungement laws and a petition for expungement, a sample of a completed petition, expungement instructions that shall include information informing the minor that (i) once the case is expunged, it shall be treated as if it never occurred, (ii) the minor shall not be charged a fee to petition for expungement, (iii) once the minor obtains an expungement, the minor may not be required to disclose that the minor had a juvenile law enforcement or juvenile court record, and (iv) if petitioning the minor may file the petition on the minor's own or with the assistance of an attorney. The failure of the judge to inform the delinquent minor of the minor's right to petition for expungement as provided by law does not create a substantive right, nor is

that failure grounds for: (i) a reversal of an adjudication of delinquency; (ii) a new trial; or (iii) an appeal.

(2.6-1) A trafficking victim, as defined by paragraph (10) of subsection (a) of Section 10-9 of the Criminal Code of 2012, may petition for vacation and expungement or immediate sealing of his or her juvenile court records and juvenile law enforcement records relating to events that resulted in the victim's adjudication of delinquency for an offense if committed by an adult would be a violation of the criminal laws occurring before the victim's 18th birthday upon the completion of his or her juvenile court sentence if his or her participation in the underlying offense was a result of human trafficking under Section 10-9 of the Criminal Code of 2012 or a severe form of trafficking under the federal Trafficking Victims Protection Act.

to the records.

(6) (Blank).

(6.5) The Illinois State Police or any employee of the Illinois State Police shall be immune from civil or criminal liability for failure to expunge any records of arrest that are subject to expungement under this Section because of inability to verify a record. (D) Subdivision (d)(1)(D) of Section 11-501 of the

Illinois Vehicle Code (aggravated driving under the influence after a previous reckless homicide conviction);

(E) Subdivision (d) (1) (F) of Section 11-501 of the Illinois Vehicle Code (aggravated driving under the influence leading to death); or

(F) Subdivision (d) (1) (J) of Section 11-501 of the Illinois Vehicle Code (aggravated driving under the influence that resulted in bodily harm to a child under the age of 16);

(7) the defendant is charged with an attempt to commit any charge listed in paragraphs (1) through (6.5), and it is alleged that the defendant's pretrial release poses a real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case; or

(8) the person has a high likelihood of willful flight to avoid prosecution and is charged with:

(A) Any felony described in subdivisions (a) (1) through (a) (7) of this Section; or

(B) A felony offense other than a Class 4 offense.

(b) If the charged offense is a felony, as part of the detention hearing, the court shall determine whether there is probable cause the defendant has committed an offense, unless a hearing pursuant to Section 109-3 of this Code has already been held or a grand jury has returned a true bill of

indictment against the defendant. If there is a finding of no probable cause, the defendant shall be released. No such finding is necessary if the defendant is charged with a misdemeanor.

(c) Timing of petition.

(1) A petition may be filed without prior notice to the defendant at the first appearance before a judge, or within the 21 calendar days, except as provided in Section 110-6, after arrest and release of the defendant upon reasonable notice to defendant; provided that while such petition is pending before the court, the defendant if previously released shall not be detained.

(2) Upon filing, the court shall immediately hold a hearing on the petition unless a continuance is requested. If a continuance is requested and granted, the hearing shall be held within 48 hours of the defendant's first appearance if the defendant is charged with first degree murder or a Class X, Class 1, Class 2, or Class 3 felony, and within 24 hours if the defendant is charged with a Class 4 or misdemeanor offense. The Court may deny or grant the request for continuance. If the court decides to grant the continuance, the Court retains the discretion to detain or release the defendant in the time between the filing of the petition and the hearing.

(d) Contents of petition.

(1) The petition shall be verified by the State and

shall state the grounds upon which it contends the defendant should be denied pretrial release, including the real and present threat to the safety of any person or persons or the community, based on the specific articulable facts or flight risk, as appropriate.

(2) If the State seeks to file a second or subsequent petition under this Section, the State shall be required to present a verified application setting forth in detail any new facts not known or obtainable at the time of the filing of the previous petition.

(e) Eligibility: All defendants shall be presumed eligible for pretrial release, and the State shall bear the burden of proving by clear and convincing evidence that:

(1) the proof is evident or the presumption great that the defendant has committed an offense listed in subsection (a), and

(2) for offenses listed in paragraphs (1) through (7) of subsection (a), the defendant poses a real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case, by conduct which may include, but is not limited to, a forcible felony, the obstruction of justice, intimidation, injury, or abuse as defined by paragraph (1) of Section 103 of the Illinois Domestic Violence Act of 1986, and

(3) no condition or combination of conditions set

forth in subsection (b) of Section 110-10 of this Article can mitigate (i) the real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case, for offenses listed in paragraphs (1) through (7) of subsection (a), or (ii) the defendant's willful flight for offenses listed in paragraph (8) of subsection (a), and

(4) for offenses under subsection (b) of Section 407 of the Illinois Controlled Substances Act that are subject to paragraph (1) of subsection (a), no condition or combination of conditions set forth in subsection (b) of Section 110-10 of this Article can mitigate the real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case, and the defendant poses a serious risk to not appear in court as required.

(f) Conduct of the hearings.

(1) Prior to the hearing, the State shall tender to the defendant copies of the defendant's criminal history available, any written or recorded statements, and the substance of any oral statements made by any person, if relied upon by the State in its petition, and any police reports in the prosecutor's possession at the time of the hearing.

(2) The State or defendant may present evidence at the hearing by way of proffer based upon reliable information.

(3) The defendant has the right to be represented by counsel, and if he or she is indigent, to have counsel appointed for him or her. The defendant shall have the opportunity to testify, to present witnesses on his or her own behalf, and to cross-examine any witnesses that are called by the State. Defense counsel shall be given adequate opportunity to confer with the defendant before any hearing at which conditions of release or the detention of the defendant are to be considered, with an accommodation for a physical condition made to facilitate attorney/client consultation. If defense counsel needs to confer or consult with the defendant during any hearing conducted via a 2-way ~~two-way~~ audio-visual communication system, such consultation shall not be recorded and shall be undertaken consistent with constitutional protections.

(3.5) A hearing at which pretrial release may be denied must be conducted in person (and not by way of 2-way ~~two-way~~ audio visual communication) unless the accused waives the right to be present physically in court, the court determines that the physical health and safety of any person necessary to the proceedings would be endangered by appearing in court, or the chief judge of the circuit orders use of that system due to operational challenges in conducting the hearing in person. Such operational challenges must be documented and approved by the chief judge of the circuit, and a plan to address the

challenges through reasonable efforts must be presented and approved by the Administrative Office of the Illinois Courts every 6 months.

(4) If the defense seeks to compel the complaining witness to testify as a witness in its favor, it shall petition the court for permission. When the ends of justice so require, the court may exercise its discretion and compel the appearance of a complaining witness. The court shall state on the record reasons for granting a defense request to compel the presence of a complaining witness only on the issue of the defendant's pretrial detention. In making a determination under this Section, the court shall state on the record the reason for granting a defense request to compel the presence of a complaining witness, and only grant the request if the court finds by clear and convincing evidence that the defendant will be materially prejudiced if the complaining witness does not appear. Cross-examination of a complaining witness at the pretrial detention hearing for the purpose of impeaching the witness' credibility is insufficient reason to compel the presence of the witness. In deciding whether to compel the appearance of a complaining witness, the court shall be considerate of the emotional and physical well-being of the witness. The pre-trial detention hearing is not to be used for purposes of discovery, and the post arraignment rules of discovery

do not apply. The State shall tender to the defendant, prior to the hearing, copies, if any, of the defendant's criminal history, if available, and any written or recorded statements and the substance of any oral statements made by any person, if in the State's Attorney's possession at the time of the hearing.

(5) The rules concerning the admissibility of evidence in criminal trials do not apply to the presentation and consideration of information at the hearing. At the trial concerning the offense for which the hearing was conducted neither the finding of the court nor any transcript or other record of the hearing shall be admissible in the State's case-in-chief, but shall be admissible for impeachment, or as provided in Section 115-10.1 of this Code, or in a perjury proceeding.

(6) The defendant may not move to suppress evidence or a confession, however, evidence that proof of the charged crime may have been the result of an unlawful search or seizure, or both, or through improper interrogation, is relevant in assessing the weight of the evidence against the defendant.

(7) Decisions regarding release, conditions of release, and detention prior to trial must be individualized, and no single factor or standard may be used exclusively to order detention. Risk assessment tools may not be used as the sole basis to deny pretrial release.

(g) Factors to be considered in making a determination of dangerousness. The court may, in determining whether the defendant poses a real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case, consider, but shall not be limited to, evidence or testimony concerning:

(1) The nature and circumstances of any offense charged, including whether the offense is a crime of violence, involving a weapon, or a sex offense.

(2) The history and characteristics of the defendant including:

(A) Any evidence of the defendant's prior criminal history indicative of violent, abusive, or assaultive behavior, or lack of such behavior. Such evidence may include testimony or documents received in juvenile proceedings, criminal, quasi-criminal, civil commitment, domestic relations, or other proceedings.

(B) Any evidence of the defendant's psychological, psychiatric or other similar social history which tends to indicate a violent, abusive, or assaultive nature, or lack of any such history.

(3) The identity of any person or persons to whose safety the defendant is believed to pose a threat, and the nature of the threat.

(4) Any statements made by, or attributed to the defendant, together with the circumstances surrounding

them.

(5) The age and physical condition of the defendant.

(6) The age and physical condition of any victim or complaining witness.

(7) Whether the defendant is known to possess or have access to any weapon or weapons.

(8) Whether, at the time of the current offense or any other offense or arrest, the defendant was on probation, parole, aftercare release, mandatory supervised release, or other release from custody pending trial, sentencing, appeal, or completion of sentence for an offense under federal or State ~~state~~ law.

(9) Any other factors, including those listed in Section 110-5 of this Article deemed by the court to have a reasonable bearing upon the defendant's propensity or reputation for violent, abusive, or assaultive behavior, or lack of such behavior.

(h) Detention order. The court shall, in any order for detention:

(1) make a written finding summarizing the court's reasons for concluding that the defendant should be denied pretrial release, including why less restrictive conditions would not avoid a real and present threat to the safety of any person or persons or the community, based on the specific articulable facts of the case, or prevent the defendant's willful flight from prosecution;

(2) direct that the defendant be committed to the custody of the sheriff for confinement in the county jail pending trial;

(3) direct that the defendant be given a reasonable opportunity for private consultation with counsel, and for communication with others of his or her choice by visitation, mail and telephone; and

(4) direct that the sheriff deliver the defendant as required for appearances in connection with court proceedings.

(i) Detention. If the court enters an order for the detention of the defendant pursuant to subsection (e) of this Section, the defendant shall be brought to trial on the offense for which he is detained within 90 days after the date on which the order for detention was entered. If the defendant is not brought to trial within the 90-day period required by the preceding sentence, he shall not be denied pretrial release. In computing the 90-day period, the court shall omit any period of delay resulting from a continuance granted at the request of the defendant and any period of delay resulting from a continuance granted at the request of the State with good cause shown pursuant to Section 103-5.

(i-5) At each subsequent appearance of the defendant before the court, the judge must find that continued detention is necessary to avoid a real and present threat to the safety of any person or persons or the community, based on the

specific articulable facts of the case, or to prevent the defendant's willful flight from prosecution.

(j) Rights of the defendant. The defendant shall be entitled to appeal any order entered under this Section denying his or her pretrial release.

(k) Appeal. The State may appeal any order entered under this Section denying any motion for denial of pretrial release.

(l) Presumption of innocence. Nothing in this Section shall be construed as modifying or limiting in any way the defendant's presumption of innocence in further criminal proceedings.

(m) Interest of victims.

(1) Crime victims shall be given notice by the State's Attorney's office of this hearing as required in paragraph (1) of subsection (b) of Section 4.5 of the Rights of Crime Victims and Witnesses Act and shall be informed of their opportunity at this hearing to obtain a protective order.

(2) If the defendant is denied pretrial release, the court may impose a no contact provision with the victim or other interested party that shall be enforced while the defendant remains in custody.

Sec. 5-6-3.6. First Time Weapon Offense Program.

(a) The General Assembly has sought to promote public safety, reduce recidivism, and conserve valuable resources of the criminal justice system through the creation of diversion programs for non-violent offenders. Public Act 103-370 ~~This amendatory Act of the 103rd General Assembly~~ establishes a program for first-time, non-violent offenders charged with certain weapons possession offenses. The General Assembly recognizes some persons, particularly in areas of high crime or poverty, may have experienced trauma that contributes to poor decision making skills, and the creation of a diversionary program poses a greater benefit to the community and the person than incarceration. Under this program, a court, with the consent of the defendant and the State's Attorney, may sentence a defendant charged with an unlawful possession of weapons offense under Section 24-1 of the Criminal Code of 2012 or aggravated unlawful possession of a weapon offense under Section 24-1.6 of the Criminal Code of 2012, if punishable as a Class 4 felony or lower, to a First Time Weapon Offense Program.

(b) A defendant is not eligible for this Program if:

(1) the offense was committed during the commission of a violent offense as defined in subsection (h) of this Section;

(2) he or she has previously been convicted or placed on probation or conditional discharge for any violent

offense under the laws of this State, the laws of any other state, or the laws of the United States;

(3) he or she had a prior successful completion of the First Time Weapon Offense Program under this Section;

(4) he or she has previously been adjudicated a delinquent minor for the commission of a violent offense;

(5) (blank); or

(6) he or she has an existing order of protection issued against him or her.

(b-5) In considering whether a defendant shall be sentenced to the First Time Weapon Offense Program, the court shall consider the following:

(1) the age, immaturity, or limited mental capacity of the defendant;

(2) the nature and circumstances of the offense;

(3) whether participation in the Program is in the interest of the defendant's rehabilitation, including any employment or involvement in community, educational, training, or vocational programs;

(4) whether the defendant suffers from trauma, as supported by documentation or evaluation by a licensed professional; and

(5) the potential risk to public safety.

(c) For an offense committed on or after January 1, 2018 (the effective date of Public Act 100-3) whenever an eligible person pleads guilty to an unlawful possession of weapons

offense under Section 24-1 of the Criminal Code of 2012 or aggravated unlawful possession of a weapon offense under Section 24-1.6 of the Criminal Code of 2012, which is punishable as a Class 4 felony or lower, the court, with the consent of the defendant and the State's Attorney, may, without entering a judgment, sentence the defendant to complete the First Time Weapon Offense Program. When a defendant is placed in the Program, the court shall defer further proceedings in the case until the conclusion of the period or until the filing of a petition alleging violation of a term or condition of the Program. A disposition of probation is considered to be a conviction for the purposes of imposing the conditions of probation and for appeal;¹⁷ however, a sentence under this Section is not a conviction for purposes of this Act or for purposes of disqualifications or disabilities imposed by law upon conviction of a crime unless and until judgment is entered. Upon violation of a term or condition of the Program, the court may enter a judgment on its original finding of guilt and proceed as otherwise provided by law. Upon fulfillment of the terms and conditions of the Program, the court shall discharge the person and dismiss the proceedings against the person.

(d) The Program shall be at least 6 months and not to exceed 24 months, as determined by the court at the recommendation of the Program administrator and the State's Attorney. The Program administrator may be appointed by the

Chief Judge of each Judicial Circuit.

(e) The conditions of the Program shall be that the defendant:

(1) not violate any criminal statute of this State or any other jurisdiction;

(2) refrain from possessing a firearm or other dangerous weapon;

(3) (blank);

(4) (blank);

(5) (blank);

(6) (blank);

(7) attend and participate in any Program activities deemed required by the Program administrator, such as: counseling sessions, in-person and over the phone check-ins, and educational classes; and

(8) (blank).

(f) The Program may, in addition to other conditions, require that the defendant:

(1) obtain or attempt to obtain employment;

(2) attend educational courses designed to prepare the defendant for obtaining a high school diploma or to work toward passing high school equivalency testing or to work toward completing a vocational training program;

(3) refrain from having in his or her body the presence of any illicit drug prohibited by the Methamphetamine Control and Community Protection Act or

the Illinois Controlled Substances Act, unless prescribed by a physician, and submit samples of his or her blood or urine or both for tests to determine the presence of any illicit drug;

(4) perform community service;

(5) pay all fines, assessments, fees, and costs; and

(6) comply with such other reasonable conditions as the court may impose.

(g) There may be only one discharge and dismissal under this Section. If a person is convicted of any offense which occurred within 5 years subsequent to a discharge and dismissal under this Section, the discharge and dismissal under this Section shall be admissible in the sentencing proceeding for that conviction as evidence in aggravation.

(h) For purposes of this Section, "violent offense" means any offense in which bodily harm was inflicted or force was used against any person or threatened against any person; any offense involving the possession of a firearm or dangerous weapon; any offense involving sexual conduct, sexual penetration, or sexual exploitation; violation of an order of protection, stalking, hate crime, domestic battery, or any offense of domestic violence.

Section 1090. The Probation and Probation Officers Act is amended by changing Section 16.1 as follows:

(730 ILCS 110/16.1)

Sec. 16.1. Redeploy Illinois Program.

(a) The purpose of this Section is to encourage the deinstitutionalization of juvenile offenders by establishing projects in counties or groups of counties that reallocate State funds from juvenile correctional confinement to local jurisdictions, which will establish a continuum of local, community-based sanctions and treatment alternatives for juvenile offenders who would be incarcerated if those local services and sanctions did not exist. It is also intended to offer alternatives, when appropriate, to avoid commitment to the Department of Juvenile Justice, to direct child welfare services for minors charged with a criminal offense or adjudicated delinquent under Section 5 of the Children and Family Services Act. The allotment of funds will be based on a formula that rewards local jurisdictions for the establishment

or expansion of local alternatives to incarceration, and requires them to pay for utilization of incarceration as a sanction. In addition, there shall be an allocation of resources (amount to be determined annually by the Redeploy Illinois Oversight Board) set aside at the beginning of each fiscal year to be made available for any county or groups of counties which need resources only occasionally for services to avoid commitment to the Department of Juvenile Justice for a limited number of youth. This redeployment of funds shall be made in a manner consistent with the Juvenile Court Act of 1987 and the following purposes and policies:

(1) The juvenile justice system should protect the community, impose accountability to victims and communities for violations of law, and equip juvenile offenders with competencies to live responsibly and productively.

(2) Juveniles should be treated in the least restrictive manner possible while maintaining the safety of the community.

(3) A continuum of services and sanctions from least restrictive to most restrictive should be available in every community.

(4) There should be local responsibility and authority for planning, organizing, and coordinating service resources in the community. People in the community can best choose a range of services which reflect community

values and meet the needs of their own youth.

(5) Juveniles who pose a threat to the community or themselves need special care, including secure settings. Such services as detention, long-term incarceration, or residential treatment are too costly to provide in each community and should be coordinated and provided on a regional or Statewide basis.

(6) The roles of State and local government in creating and maintaining services to youth in the juvenile justice system should be clearly defined. The role of the State is to fund services, set standards of care, train service providers, and monitor the integration and coordination of services. The role of local government should be to oversee the provision of services.

(b) Each county or circuit participating in the Redeploy Illinois program must create a local plan demonstrating how it will reduce the county or circuit's utilization of secure confinement of juvenile offenders in the Illinois Department of Juvenile Justice or county detention centers by the creation or expansion of individualized services or programs that may include but are not limited to the following:

(1) Assessment and evaluation services to provide the juvenile justice system with accurate individualized case information on each juvenile offender, including mental health, substance abuse, educational, and family information;

(2) Direct services to individual juvenile offenders, including educational, vocational, mental health, substance abuse, supervision, and service coordination; and

(3) Programs that seek to restore the offender to the community, such as victim offender panels, teen courts, competency building, enhanced accountability measures, restitution, and community service. The local plan must be directed in such a manner as to emphasize an individualized approach to providing services to juvenile offenders in an integrated community based system including probation as the broker of services. The plan must also detail the reduction in utilization of secure confinement. The local plan shall be limited to services and shall not include costs for:

- (i) capital expenditures;
- (ii) renovations or remodeling;
- (iii) personnel costs for probation.

The local plan shall be submitted to the Department of Human Services.

(c) A county or group of counties may develop an agreement with the Department of Human Services to reduce their number of commitments of juvenile offenders, excluding minors sentenced based upon a finding of guilt of first degree murder or an offense which is a Class X forcible felony as defined in the Criminal Code of 2012, to the Department of Juvenile

Justice, and then use the savings to develop local programming for youth who would otherwise have been committed to the Department of Juvenile Justice. A county or group of counties shall agree to limit their commitments to 75% of the level of commitments from the average number of juvenile commitments for the past 3 years, and will receive the savings to redeploy for local programming for juveniles who would otherwise be held in confinement. For any county or group of counties with a decrease of juvenile commitments of at least 25%, based on the average reductions of the prior 3 years, which are chosen to participate or continue as sites, the Redeploy Illinois Oversight Board has the authority to reduce the required percentage of future commitments to achieve the purpose of this Section. The agreement shall set forth the following:

(1) a statement ~~Statement~~ of the number and type of juvenile offenders from the county who were held in secure confinement by the Illinois Department of Juvenile Justice or in county detention the previous year, and an explanation of which, and how many, of these offenders might be served through the proposed Redeploy Illinois Program for which the funds shall be used;

(2) a statement ~~Statement~~ of the service needs of currently confined juveniles;

(3) a statement ~~Statement~~ of the type of services and programs to provide for the individual needs of the juvenile offenders, and the research or evidence base that

qualifies those services and programs as proven or promising practices;

(4) a budget indicating the costs of each service or program to be funded under the plan;

(5) a summary of contracts and service agreements indicating the treatment goals and number of juvenile offenders to be served by each service provider; and

(6) a statement ~~Statement~~ indicating that the Redeploy Illinois Program will not duplicate existing services and programs. Funds for this plan shall not supplant existing county funded programs.

In a county with a population exceeding 2,000,000, the Redeploy Illinois Oversight Board may authorize the Department of Human Services to enter into an agreement with that county to reduce the number of commitments by the same percentage as is required by this Section of other counties, and with all of the same requirements of this Act, including reporting and evaluation, except that the agreement may encompass a clearly identifiable geographical subdivision of that county. The geographical subdivision may include, but is not limited to, a police district or group of police districts, a geographical area making up a court calendar or group of court calendars, a municipal district or group of municipal districts, or a municipality or group of municipalities.

(d) (Blank).

(d-5) A county or group of counties that does not have an

approved Redeploy Illinois program, as described in subsection (b), and that has committed fewer than 10 Redeploy eligible youth to the Department of Juvenile Justice on average over the previous 3 years, may develop an individualized agreement with the Department of Human Services through the Redeploy Illinois program to provide services to youth to avoid commitment to the Department of Juvenile Justice. The agreement shall set forth the following:

- (1) a statement of the number and type of juvenile offenders from the county who were at risk under any of the categories listed above during the 3 previous years, and an explanation of which of these offenders would be served through the proposed Redeploy Illinois program for which the funds shall be used, or through individualized contracts with existing Redeploy programs in neighboring counties;

- (2) a statement of the service needs;

- (3) a statement of the type of services and programs to provide for the individual needs of the juvenile offenders, and the research or evidence that qualifies those services and programs as proven or promising practices;

- (4) a budget indicating the costs of each service or program to be funded under the plan;

- (5) a summary of contracts and service agreements indicating the treatment goals and number of juvenile

offenders to be served by each service provider; and

(6) a statement indicating that the Redeploy Illinois program will not duplicate existing services and programs. Funds for this plan shall not supplant existing county funded programs.

(e) The Department of Human Services shall be responsible for the following:

(1) Reviewing each Redeploy Illinois Program plan for compliance with standards established for such plans. A plan may be approved as submitted, approved with modifications, or rejected. No plan shall be considered for approval if the circuit or county is not in full compliance with all regulations, standards, and guidelines pertaining to the delivery of basic probation services as established by the Supreme Court.

(2) Monitoring on a continual basis and evaluating annually both the program and its fiscal activities in all counties receiving an allocation under the Redeploy Illinois Program. Any program or service that has not met the goals and objectives of its contract or service agreement shall be subject to denial for funding in subsequent years. The Department of Human Services shall evaluate the effectiveness of the Redeploy Illinois Program in each circuit or county. In determining the future funding for the Redeploy Illinois Program under this Act, the evaluation shall include, as a primary

indicator of success, a decreased number of confinement days for the county's juvenile offenders.

(f) Any Redeploy Illinois Program allocations not applied for and approved by the Department of Human Services shall be available for redistribution to approved plans for the remainder of that fiscal year. Any county that invests local moneys in the Redeploy Illinois Program shall be given first consideration for any redistribution of allocations. Jurisdictions participating in Redeploy Illinois that exceed their agreed upon level of commitments to the Department of Juvenile Justice shall reimburse the Department of Corrections for each commitment above the agreed upon level.

(g) Implementation of Redeploy Illinois.

(1) Oversight of Redeploy Illinois.

(i) Redeploy Illinois Oversight Board. The Department of Human Services shall convene an oversight board to oversee the Redeploy Illinois Program. The Board shall include, but not be limited to, designees from the Department of Juvenile Justice, the Administrative Office of the Illinois Courts, the Illinois Juvenile Justice Commission, the Illinois Criminal Justice Information Authority, the Department of Children and Family Services, the State Board of Education, the Cook County State's Attorney, and a State's Attorney selected by the President of the Illinois State's Attorney's Association, the Cook

(4) During the third quarter, assess the amount of remaining funds available and necessary to complete the fiscal year so that any unused funds may be distributed as defined in subsection (f).

(5) Ensure that the number of youth from any applicant county receiving individualized resources will not exceed the previous 3-year ~~three-year~~ average of Redeploy eligible recipients and that counties are in conformity with all other elements of this law.

(i) Implementation of this Section is subject to appropriation.

(j) Rulemaking authority to implement this amendatory Act of the 95th General Assembly, if any, is conditioned on the rules being adopted in accordance with all provisions of and procedures and rules implementing the Illinois Administrative Procedure Act; any purported rule not so adopted, for whatever reason, is unauthorized.

Section 1110. The Code of Civil Procedure is amended by renumbering and changing Section 804.5 and by changing Section 15-1603 as follows:

(735 ILCS 5/8-804.5)

Sec. 8-804.5 ~~804.5~~. Parties to a restorative justice practice.

(a) This Section is intended to encourage the use of restorative justice practices by providing a privilege for participation in such practices and ensuring that anything said or done during the practice, or in anticipation of or as a follow-up to the practice, is privileged and may not be used in any future proceeding unless the privilege is waived by the informed consent of the party or parties covered by the privilege. The General Assembly affords this privilege in recognition of restorative justice as a powerful tool in addressing the needs of victims, offenders, and the larger community in the process of repairing the fabric of community

peace. The General Assembly encourages residents of this State to employ restorative justice practices, not only in justiciable matters, but in all aspects of life and law.

(b) As used in this Section:

"Circle" means a versatile restorative practice that can be used proactively, to develop relationships and build community, or reactively, to respond to wrongdoing, conflicts, and problems.

"Conference" means a structured meeting between offenders, victims, and both parties' family and friends, in which they deal with the consequences of a crime or wrongdoing and decide how best to repair the harm.

"Facilitator" means a person who is trained to facilitate a restorative justice practice.

"Party" means a person, including a facilitator, an individual who has caused harm, an individual who has been harmed, a community member, and any other participant, who voluntarily consents to participate with others who have agreed to participate in a restorative justice practice.

"Proceeding" means any legal action subject to this Code, including, but not limited to, civil, criminal, juvenile, or administrative hearings.

"Restorative justice practice" or "practice" means a gathering, such as a conference or circle, in which parties who have caused harm or who have been harmed and community stakeholders collectively gather to identify and repair harm

to the extent possible, address trauma, reduce the likelihood of further harm, and strengthen community ties by focusing on the needs and obligations of all parties involved through a participatory process.

(c) Anything said or done during or in preparation for a restorative justice practice or as a follow-up to that practice, or the fact that the practice has been planned or convened, is privileged and cannot be referred to, used, or admitted in any civil, criminal, juvenile, or administrative proceeding unless the privilege is waived, during the proceeding or in writing, by the party or parties protected by the privilege. Privileged information is not subject to discovery or disclosure in any judicial or extrajudicial proceedings.

Any waiver of privilege is limited to the participation and communication of the waiving party only, and the participation or communications of any other participant remain privileged unless waived by the other participant.

(d) Evidence that is otherwise admissible or subject to discovery does not become inadmissible or protected from discovery solely because it was discussed or used in a restorative justice practice.

(e) The legitimacy of a restorative justice practice, if challenged in any civil, juvenile, criminal, or administrative proceeding, shall be determined by a judge. In a hearing conducted pursuant to this subsection, the judge may consider

information that would otherwise be privileged to the extent that the information is probative of the issue.

(f) The privilege afforded by this Section does not apply if:

(1) disclosure is necessary to prevent death, great bodily harm, or the commission of a crime;

(2) necessary to comply with another law; or

(735 ILCS 5/15-1603) (from Ch. 110, par. 15-1603)

Sec. 15-1603. Redemption.

(a) Owner of Redemption. Except as provided in subsection (b) of Section 15-1402, only an owner of redemption may redeem from the foreclosure, and such owner of redemption may redeem only during the redemption period specified in subsection (b) of this Section 15-1603 and only if the right of redemption has

not been validly waived.

(b) Redemption Period.

(1) In the foreclosure of a mortgage of real estate which is residential real estate at the time the foreclosure is commenced, the redemption period shall end on the later of (i) the date 7 months from the date the mortgagor or, if more than one, all the mortgagors (A) have been served with summons or by publication or (B) have otherwise submitted to the jurisdiction of the court, or (ii) the date 3 months from the date of entry of a judgment of foreclosure.

(2) In all other foreclosures, the redemption period shall end on the later of (i) the date 6 months from the date the mortgagor or, if more than one, all the mortgagors (A) have been served with summons or by publication or (B) have otherwise submitted to the jurisdiction of the court, or (ii) the date 3 months from the date of entry of a judgment of foreclosure.

(3) Notwithstanding paragraphs (1) and (2), the redemption period shall end at the later of the expiration of any reinstatement period provided for in Section 15-1602 or the date 60 days after the date the judgment of foreclosure is entered, if the court finds that (i) the value of the mortgaged real estate as of the date of the judgment is less than 90% of the amount specified pursuant to subsection (d) of this Section 15-1603 and (ii) the

mortgagee waives any and all rights to a personal judgment for a deficiency against the mortgagor and against all other persons liable for the indebtedness or other obligations secured by the mortgage.

(4) Notwithstanding paragraphs (1) and (2), the redemption period shall end on the date 30 days after the date the judgment of foreclosure is entered if the court finds that the mortgaged real estate has been abandoned. In cases where the redemption period is shortened on account of abandonment, the reinstatement period shall not extend beyond the redemption period as shortened.

(c) Extension of Redemption Period.

(1) Once expired, the right of redemption provided for in this Section ~~Sections~~ 15-1603 or Section 15-1604 shall not be revived. The period within which the right of redemption provided for in this Section ~~Sections~~ 15-1603 or Section 15-1604 may be exercised runs independently of any action by any person to enforce the judgment of foreclosure or effect a sale pursuant thereto. Neither the initiation of any legal proceeding nor the order of any court staying the enforcement of a judgment of foreclosure or the sale pursuant to a judgment or the confirmation of the sale, shall have the effect of tolling the running of the redemption period.

(2) If a court has the authority to stay, and does stay, the running of the redemption period, or if the

redemption period is extended by any statute of the United States, the redemption period shall be extended until the expiration of the same number of days after the expiration of the stay order as the number of days remaining in the redemption period at the time the stay order became effective, or, if later, until the expiration of 30 days after the stay order terminates. If the stay order terminates more than 30 days prior to the expiration of the redemption period, the redemption period shall not be extended.

(d) Amount Required to Redeem. The amount required to redeem shall be the sum of:

(1) The amount specified in the judgment of foreclosure, which shall consist of (i) all principal and accrued interest secured by the mortgage and due as of the date of the judgment, (ii) all costs allowed by law, (iii) costs and expenses approved by the court, (iv) to the extent provided for in the mortgage and approved by the court, additional costs, expenses, and reasonable attorney's ~~attorneys'~~ fees incurred by the mortgagee, (v) all amounts paid pursuant to Section 15-1505, and (vi) per diem interest from the date of judgment to the date of redemption calculated at the mortgage rate of interest applicable as if no default had occurred; and

(2) The amount of other expenses authorized by the court which the mortgagee reasonably incurs between the

date of judgment and the date of redemption, which shall be the amount certified by the mortgagee in accordance with subsection (e) of this Section 15-1603.

(e) Notice of Intent to Redeem. An owner of redemption who intends to redeem shall give written notice of such intent to redeem to the mortgagee's attorney of record specifying the date designated for redemption and the current address of the owner of redemption for purposes of receiving notice. Such owner of redemption shall file with the clerk of the court a certification of the giving of such notice. The notice of intent to redeem must be received by the mortgagee's attorney at least 15 days (other than Saturday, Sunday, or court holiday) prior to the date designated for redemption. The mortgagee shall thereupon file with the clerk of the court and shall give written notice to the owner of redemption at least three days (other than Saturday, Sunday, or court holiday) before the date designated for redemption a certification, accompanied by copies of paid receipts or appropriate affidavits, of any expenses authorized in paragraph (2) of subsection (d) of this Section 15-1603. If the mortgagee fails to serve such certification within the time specified herein, then the owner of redemption intending to redeem may redeem on the date designated for redemption in the notice of intent to redeem, and the mortgagee shall not be entitled to payment of any expenses authorized in paragraph (2) of subsection (d) of this Section 15-1603.

(f) Procedure for Redemption.

(1) An owner of redemption may redeem the real estate from the foreclosure by paying the amount specified in subsection (d) of this Section 15-1603 to the mortgagee or the mortgagee's attorney of record on or before the date designated for redemption pursuant to subsection (e) of this Section 15-1603.

(2) If the mortgagee refuses to accept payment or if the owner of redemption redeeming from the foreclosure objects to the reasonableness of the additional expenses authorized in paragraph (2) of subsection (d) of this Section 15-1603 and certified in accordance with subsection (e) of this Section 15-1603, the owner of redemption shall pay the certified amount to the clerk of the court on or before the date designated for redemption, together with a written statement specifying the expenses to which objection is made. In such case the clerk shall pay to the mortgagee the amount tendered minus the amount to which the objection pertains.

(3) Upon payment to the clerk, whether or not the owner of redemption files an objection at the time of payment, the clerk shall give a receipt of payment to the person redeeming from the foreclosure, and shall file a copy of that receipt in the foreclosure record. Upon receipt of the amounts specified to be paid to the mortgagee pursuant to this Section, the mortgagee shall

promptly furnish the mortgagor with a release of the mortgage or satisfaction of the judgment, as appropriate, and the evidence of all indebtedness secured by the mortgage shall be cancelled.

(g) Procedure Upon Objection. If an objection is filed by an owner of redemption in accordance with paragraph (2) of subsection (f) of this Section 15-1603, the clerk shall hold the amount to which the objection pertains until the court orders distribution of those funds. The court shall hold a hearing promptly to determine the distribution of any funds held by the clerk pursuant to such objection. Each party shall pay its own costs and expenses in connection with any objection, including attorney's ~~attorneys'~~ fees, ~~subject to Section 2-611 of the Code of Civil Procedure.~~

(h) Failure to Redeem. Unless the real estate being foreclosed is redeemed from the foreclosure, it shall be sold as provided in this Article.

Section 1125. The Illinois Antitrust Act is amended by changing Section 7.2 as follows:

(740 ILCS 10/7.2) (from Ch. 38, par. 60-7.2)

Sec. 7.2. (1) Whenever it appears to the Attorney General that any person has engaged in, is engaging in, or is about to engage in any act or practice prohibited by this Act, or that any person has assisted or participated in any agreement or combination of the nature described herein, he may, in his discretion, conduct an investigation as he deems necessary in connection with the matter and has the authority prior to the commencement of any civil or criminal action as provided for in the Act to subpoena witnesses, and pursuant to a subpoena (i) compel their attendance for the purpose of examining them under oath, (ii) require the production of any books, documents, records, writings, or tangible things hereafter referred to as "documentary material" which the Attorney General deems relevant or material to his investigation, for inspection, reproducing, or copying under such terms and conditions as hereafter set forth, (iii) require written answers under oath to written interrogatories, or (iv) require compliance with a combination of the foregoing. Any subpoena

(2) The production of documentary material in response to a subpoena served pursuant to this Section shall be made under a sworn certificate, in such form as the subpoena designates, by the person, if a natural person, to whom the demand is directed or, if not a natural person, by a person or persons having knowledge of the facts and circumstances relating to such production, to the effect that all of the documentary material required by the demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the custodian. Answers to interrogatories shall be accompanied by a statement under oath attesting to the accuracy of the answers.

While in the possession of the Attorney General and under such reasonable terms and conditions as the Attorney General shall prescribe: (A) documentary material shall be available for examination by the person who produced such material or by any duly authorized representative of such person, (B) transcript of oral testimony shall be available for examination by the person who produced such testimony, or his or her counsel, and (C) answers to interrogatories shall be

Section 1130. The Mental Health and Developmental Disabilities Confidentiality Act is amended by changing Section 9.6 as follows:

(740 ILCS 110/9.6)

Sec. 9.6. Participants of any HIE, as defined under Section 2, shall allow each recipient whose record is accessible through the health information exchange the reasonable opportunity to expressly decline the further disclosure of the record by the health information exchange to third parties, except to the extent permitted by law such as for purposes of public health reporting. The HIE participants

shall permit a recipient to revoke a prior decision to opt out ~~opt-out~~ or a decision not to opt out ~~opt-out~~. These rules, standards, or contractual obligations shall provide for written notice of a recipient's right to opt out ~~opt-out~~ which directs the recipient to a health information exchange website containing (i) an explanation of the purposes of the health information exchange; and (ii) audio, visual, and written instructions on how to opt out ~~opt-out~~ of participation in whole or in part to the extent possible. The process for effectuating an opt-out shall be reviewed by the HIE participants annually and updated as the technical options develop. The recipient shall be provided meaningful disclosure regarding the health information exchange, and the recipient's decision whether to opt out ~~opt-out~~ should be obtained without undue inducement or any element of force, fraud, deceit, duress, or other form of constraint or coercion. To the extent that HIPAA, as specified in 45 CFR 164.508(b)(4), prohibits a covered entity from conditioning the provision of its services upon an individual's provision of an authorization, an HIE participant shall not condition the provision of its services upon a recipient's decision to opt out ~~opt-out~~ of further disclosure of the record by an HIE to third parties. The HIE participants shall also give annual consideration to enable a recipient to expressly decline the further disclosure by an HIE to third parties of selected portions of the recipient's record while permitting disclosure of the recipient's

remaining patient health information. In giving effect to recipient disclosure preferences, the HIE participants may consider the extent to which relevant health information technologies reasonably available to therapists and HIEs in this State reasonably enable the effective segmentation of specific information within a recipient's electronic medical record and reasonably enable the effective exclusion of specific information from disclosure by an HIE to third parties, as well as the availability of sufficient authoritative clinical guidance to enable the practical application of such technologies to effect recipient disclosure preferences. The provisions of this Section 9.6 shall not apply to the secure electronic transmission of data which is point-to-point communication directed by the data custodian.

There is a rebuttable presumption that a parent is depraved if the parent has been criminally convicted of at least 3 felonies under the laws of this State or any other state, or under federal law, or the criminal laws of any

United States territory; and at least one of these convictions took place within 5 years of the filing of the petition or motion seeking termination of parental rights.

There is a rebuttable presumption that a parent is depraved if that parent has been criminally convicted of either first or second degree murder of any person as defined in the Criminal Code of 1961 or the Criminal Code of 2012 within 10 years of the filing date of the petition or motion to terminate parental rights.

No conviction or finding of delinquency pursuant to Article 5 of the Juvenile Court Act of 1987 shall be considered a criminal conviction for the purpose of applying any presumption under this paragraph ~~item~~ (i).

minor under Section 2-3 of the Juvenile Court Act of 1987 or dependent minor under Section 2-4 of that Act, or (ii) to make reasonable progress toward the return of the child to the parent during any 9-month period following the adjudication of neglected or abused minor under Section 2-3 of the Juvenile Court Act of 1987 or dependent minor under Section 2-4 of that Act. If a service plan has been established as required under Section 8.2 of the Abused and Neglected Child Reporting Act to correct the conditions that were the basis for the removal of the child from the parent and if those services were available, then, for purposes of this Act, "failure to make reasonable progress toward the return of the child to the parent" includes the parent's failure to substantially fulfill his or her obligations under the service plan and correct the conditions that brought the child into care during any 9-month period following the adjudication under Section 2-3 or 2-4 of the Juvenile Court Act of 1987. Notwithstanding any other provision, when a petition or motion seeks to terminate parental rights on the basis of subparagraph ~~item~~ (ii) of this paragraph ~~subsection~~ (m), the petitioner shall file with the court and serve on the parties a pleading that specifies the 9-month period or periods relied on. The pleading shall be filed and served on the parties no later than 3 weeks before the date set by the court for closure of discovery, and the allegations in

the pleading shall be treated as incorporated into the petition or motion. Failure of a respondent to file a written denial of the allegations in the pleading shall not be treated as an admission that the allegations are true.

(m-1) (Blank).

(n) Evidence of intent to forgo his or her parental rights, whether or not the child is a ward of the court, (1) as manifested by his or her failure for a period of 12 months: (i) to visit the child, (ii) to communicate with the child or agency, although able to do so and not prevented from doing so by an agency or by court order, or (iii) to maintain contact with or plan for the future of the child, although physically able to do so, or (2) as manifested by the father's failure, where he and the mother of the child were unmarried to each other at the time of the child's birth, (i) to commence legal proceedings to establish his paternity under the Illinois Parentage Act of 1984, the Illinois Parentage Act of 2015, or the law of the jurisdiction of the child's birth within 30 days of being informed, pursuant to Section 12a of this Act, that he is the father or the likely father of the child or, after being so informed where the child is not yet born, within 30 days of the child's birth, or (ii) to make a good faith effort to pay a reasonable amount of the expenses related to the birth of the child and to provide a

reasonable amount for the financial support of the child, the court to consider in its determination all relevant circumstances, including the financial condition of both parents; provided that the ground for termination provided in this item (ii) of subparagraph (2) of this paragraph (n) ~~subparagraph (n) (2) (ii)~~ shall only be available where the petition is brought by the mother or the husband of the mother.

Contact or communication by a parent with his or her child that does not demonstrate affection and concern does not constitute reasonable contact and planning under this paragraph ~~subdivision~~ (n). In the absence of evidence to the contrary, the ability to visit, communicate, maintain contact, pay expenses, and plan for the future shall be presumed. The subjective intent of the parent, whether expressed or otherwise, unsupported by evidence of the foregoing parental acts manifesting that intent, shall not preclude a determination that the parent has intended to forgo his or her parental rights. In making this determination, the court may consider but shall not require a showing of diligent efforts by an authorized agency to encourage the parent to perform the acts specified in this paragraph ~~subdivision~~ (n).

It shall be an affirmative defense to any allegation under subparagraph ~~paragraph~~ (2) of this paragraph (n) ~~subsection~~ that the father's failure was due to

circumstances beyond his control or to impediments created by the mother or any other person having legal custody. Proof of that fact need only be by a preponderance of the evidence.

(o) Repeated or continuous failure by the parents, although physically and financially able, to provide the child with adequate food, clothing, or shelter.

(p) Inability to discharge parental responsibilities supported by competent evidence from a psychiatrist, licensed clinical social worker, or clinical psychologist of mental impairment, mental illness, or an intellectual disability as defined in Section 1-116 of the Mental Health and Developmental Disabilities Code, or developmental disability as defined in Section 1-106 of that Code, and there is sufficient justification to believe that the inability to discharge parental responsibilities shall extend beyond a reasonable time period. However, this paragraph ~~subdivision~~ (p) shall not be construed so as to permit a licensed clinical social worker to conduct any medical diagnosis to determine mental illness or mental impairment.

(q) (Blank).

(r) The child is in the temporary custody or guardianship of the Department of Children and Family Services, the parent is incarcerated as a result of criminal conviction at the time the petition or motion for

termination of parental rights is filed, prior to incarceration the parent had little or no contact with the child or provided little or no support for the child, and the parent's incarceration will prevent the parent from discharging his or her parental responsibilities for the child for a period in excess of 2 years after the filing of the petition or motion for termination of parental rights.

(s) The child is in the temporary custody or guardianship of the Department of Children and Family Services, the parent is incarcerated at the time the petition or motion for termination of parental rights is filed, the parent has been repeatedly incarcerated as a result of criminal convictions, and the parent's repeated incarceration has prevented the parent from discharging his or her parental responsibilities for the child.

Section 1155. The Health Care Surrogate Act is amended by changing Section 10 as follows:

(755 ILCS 40/10) (from Ch. 110 1/2, par. 851-10)

Sec. 10. Definitions. As used in this Act:

"Adult" means a person who is (i) 18 years of age or older

or (ii) an emancipated minor under the Emancipation of Minors Act.

"Artificial nutrition and hydration" means supplying food and water through a conduit, such as a tube or intravenous line, where the recipient is not required to chew or swallow voluntarily, including, but not limited to, nasogastric tubes, gastrostomies, jejunostomies, and intravenous infusions. "Artificial nutrition and hydration" does not include assisted feeding, such as spoon or bottle feeding.

"Available" means that a person is not "unavailable". A person is unavailable if (i) the person's existence is not known, (ii) the person has not been able to be contacted by telephone or mail, or (iii) the person lacks decisional capacity, refuses to accept the office of surrogate, or is unwilling to respond in a manner that indicates a choice among the treatment matters at issue.

"Attending physician" means the physician selected by or assigned to the patient who has primary responsibility for treatment and care of the patient and who is a licensed physician in Illinois or a physician licensed in the state where the patient is being treated. If more than one physician shares that responsibility, any of those physicians may act as the attending physician under this Act.

"Close friend" means any person 18 years of age or older who has exhibited special care and concern for the patient and who presents an affidavit to the attending physician stating

that he or she (i) is a close friend of the patient, (ii) is willing and able to become involved in the patient's health care, and (iii) has maintained such regular contact with the patient as to be familiar with the patient's activities, health, and religious and moral beliefs. The affidavit must also state facts and circumstances that demonstrate that familiarity.

"Death" means when, according to accepted medical standards, there is (i) an irreversible cessation of circulatory and respiratory functions or (ii) an irreversible cessation of all functions of the entire brain, including the brain stem.

"Decisional capacity" means the ability to understand and appreciate the nature and consequences of a decision regarding medical treatment or forgoing life-sustaining treatment and the ability to reach and communicate an informed decision in the matter as determined by the attending physician.

"Forgo life-sustaining treatment" means to withhold, withdraw, or terminate all or any portion of life-sustaining treatment with knowledge that the patient's death is likely to result.

"Guardian" means a court appointed guardian of the person who serves as a representative of a minor or as a representative of a person under legal disability.

"Health care facility" means a type of health care provider commonly known by a wide variety of titles,

including, but not limited to, hospitals, medical centers, nursing homes, rehabilitation centers, long term or tertiary care facilities, and other facilities established to administer health care and provide overnight stays in their ordinary course of business or practice.

"Health care provider" means a person that is licensed, certified, or otherwise authorized or permitted by the law of this State or licensed in the state where the patient is being treated to administer health care in the ordinary course of business or practice of a profession, including, but not limited to, physicians, nurses, health care facilities, and any employee, officer, director, agent, or person under contract with such a person.

"Imminent" (as in "death is imminent") means a determination made by the attending physician according to accepted medical standards that death will occur in a relatively short period of time, even if life-sustaining treatment is initiated or continued.

"Life-sustaining treatment" means any medical treatment, procedure, or intervention that, in the judgment of the attending physician, when applied to a patient with a qualifying condition, would not be effective to remove the qualifying condition or would serve only to prolong the dying process. Those procedures can include, but are not limited to, assisted ventilation, renal dialysis, surgical procedures, blood transfusions, and the administration of drugs,

antibiotics, and artificial nutrition and hydration.

"Minor" means an individual who is not an adult as defined in this Act.

"Parent" means a person who is the natural or adoptive mother or father of the child and whose parental rights have not been terminated by a court of law.

"Patient" means an adult or minor individual, unless otherwise specified, under the care or treatment of a licensed physician or other health care provider.

"Person" means an individual, a corporation, a business trust, a trust, a partnership, an association, a government, a governmental subdivision or agency, or any other legal entity.

"Qualifying condition" means the existence of one or more of the following conditions in a patient certified in writing in the patient's medical record by the attending physician and by at least one other qualified health care practitioner:

(1) "Terminal condition" means an illness or injury for which there is no reasonable prospect of cure or recovery, death is imminent, and the application of life-sustaining treatment would only prolong the dying process.

(2) "Permanent unconsciousness" means a condition that, to a high degree of medical certainty, (i) will last permanently, without improvement, (ii) in which thought, sensation, purposeful action, social interaction, and awareness of self and environment are absent, and (iii)

for which initiating or continuing life-sustaining treatment, in light of the patient's medical condition, provides only minimal medical benefit.

(3) "Incurable or irreversible condition" means an illness or injury (i) for which there is no reasonable prospect of cure or recovery, (ii) that ultimately will cause the patient's death even if life-sustaining treatment is initiated or continued, (iii) that imposes severe pain or otherwise imposes an inhumane burden on the patient, and (iv) for which initiating or continuing life-sustaining treatment, in light of the patient's medical condition, provides only minimal medical benefit.

The determination that a patient has a qualifying condition creates no presumption regarding the application or non-application of life-sustaining treatment. It is only after a determination by the attending physician that the patient has a qualifying condition that the surrogate decision maker may consider whether or not to forgo life-sustaining treatment. In making this decision, the surrogate shall weigh the burdens on the patient of initiating or continuing life-sustaining treatment against the benefits of that treatment.

"Qualified health care practitioner" means an individual who has personally examined the patient and who is licensed in Illinois or in the state where the patient is being treated and who is a physician, advanced practice registered nurse,

physician assistant, or resident with at least one year of graduate or specialty training who holds a temporary license to practice medicine and is enrolled in a residency program accredited by the Liaison Committee on Graduate Medical Education or the Bureau of Professional Education of the American Osteopathic Association.

"Physician" means a physician licensed to practice medicine in all its branches in this State or in the state where the patient is being treated.

"Surrogate decision maker" means an adult individual or individuals who (i) have decisional capacity, (ii) are available upon reasonable inquiry, (iii) are willing to make medical treatment decisions on behalf of a patient who lacks decisional capacity, and (iv) are identified by the attending physician in accordance with the provisions of this Act as the person or persons who are to make those decisions in accordance with the provisions of this Act.

Section 1160. The Landlord and Tenant Act is amended by setting forth and renumbering multiple versions of Section 25 as follows:

(765 ILCS 705/25)

Sec. 25. Disclosure of potential flooding in rental and

lease agreements.

(a) As used in this Section:

"Flood" and "flooding" mean a general or temporary condition of partial or complete inundation of a dwelling or property caused by:

(1) the overflow of inland or tidal waves;

(2) the unusual and rapid accumulation of runoff or surface waters from any established water source such as a river, stream, or drainage ditch; or

(3) rainfall.

"Lower-level unit" means any garden level unit, basement level unit, or first floor level unit.

(b) Every landlord shall clearly disclose to each of the landlord's tenants in writing prior to signing the lease for the rental property that a rental property is located in the Federal Emergency Management Agency (FEMA) Special Flood Hazard Area ("100-year floodplain") and if the landlord has actual knowledge that the rental property or any portion of the parking areas of the real property containing the rental property has been subjected to flooding and the frequency of such flooding. Such disclosure shall also be included in the written lease or the written renewal lease and shall be signed by both parties.

(c) Every landlord who leases a lower-level unit shall clearly disclose to each of the landlord's lower-level unit tenants in writing prior to the signing of the lease for the

lower-level unit if the lower-level unit or any portion of the real property containing the lower-level unit has experienced flooding in the last 10 years and shall disclose the frequency of such flooding. Such disclosure shall also be included in the written lease or the written renewal lease and shall be signed by both parties.

(d) The written disclosure shall look substantially similar to the following:

"(Landlord) [] is or [] is not aware that the rental property is located in a FEMA Special Flood Hazard Area ("100-year floodplain"). The property has experienced flooding [] times in the last 10 years. Even if the rental property is not in a Special Flood Hazard Area ("100-year floodplain"), the dwelling may still be susceptible to flooding. The Federal Emergency Management Agency (FEMA) maintains a flood map on its Internet website that is searchable by address, at no cost, to determine if a dwelling is located in a flood hazard area.

(Landlord) [] is or [] is not aware that the rental property you are renting has flooded at least once in the last 10 years. The rental property has flooded [] times in the last 10 years. Even if the dwelling has not flooded in the last 10 years, the dwelling may still be susceptible to flooding.

Most tenant insurance policies do not cover damage or loss incurred in a flood. You are encouraged to examine your policy to determine whether you are covered. If you are not, flood

insurance may be available through FEMA's National Flood Insurance Program to cover your personal property in the event of a flood. Information regarding flood risks can be found at the dnr.illinois.gov (Illinois Department of Natural Resources), fema.gov (FEMA), and ready.gov/flood (U.S. National public service).

Landlords are required to disclose the above information pursuant to Section 25 of the Landlord and Tenant Act. A landlord's failure to comply with Section 25 of the Landlord and Tenant Act shall entitle the tenant to remedies as defined in that Section.

(Tenant Signature) (Date)

.....

(Landlord Signature) (Date)"

(e) If a landlord fails to comply with subsection (b), and the tenant subsequently becomes aware that the property is located in the FEMA Special Flood Hazard Area ("100-year floodplain") the tenant may terminate the lease by giving written notice of termination to the landlord no later than the 30th day after a tenant becomes aware of the landlord's failure to comply with subsection (b), and the landlord shall return all rent and fees paid in advance no later than the 15th day after the tenant gave notice.

If a landlord fails to comply with subsection (b) or subsection (c) and flooding occurs that results in damage to

the tenant's personal property, affects the habitability of the leased property, or affects the tenant's access to the leased property, the tenant may:

(1) terminate the lease by giving written notice to the landlord no later than the 30th day after the flood occurred and the landlord shall return all rent and fees paid in advance no later than the 15th day after the tenant gave notice; and

(2) bring an action against the landlord of the property to recover damages for personal property lost or damaged as a result of flooding.

(e) Exemptions. This Section does not apply to farm leases, concession leases, and rental properties owned or managed by the Department of Natural Resources.

(f) This Section may not be interpreted to permit the renting, leasing, or subleasing of lower-level units in a municipality if the municipality does not permit the renting, leasing, or subleasing of such units.

the impact otherwise of the accommodation upon the operation of the facility; (iii) the overall financial resources of the employer, the overall size of the business of the employer with respect to the number of its employees, and the number, type, and location of its facilities; and (iv) the type of operation or operations of the employer, including the composition, structure, and functions of the workforce of the employer, the geographic separateness, administrative, or fiscal relationship of the facility or facilities in question to the employer. The employer has the burden of proving undue hardship. The fact that the employer provides or would be required to provide a similar accommodation to similarly situated employees creates a rebuttable presumption that the accommodation does not impose an undue hardship on the employer.

No employer is required by this subdivision (J) to create additional employment that the employer would not otherwise have created, unless the employer does so or would do so for other classes of employees who need accommodation. The employer is not required to discharge any employee, transfer any employee with more seniority, or promote any employee who is not qualified to perform the job, unless the employer does so or would do so to accommodate other classes of employees who need it.

(K) Notice.

(1) For an employer to fail to post or keep posted in a conspicuous location on the premises of the employer where notices to employees are customarily posted, or fail to include in any employee handbook information concerning an employee's rights under this Article, a notice, to be prepared or approved by the Department, summarizing the requirements of this Article and information pertaining to the filing of a charge, including the right to be free from unlawful discrimination, the right to be free from sexual harassment, and the right to certain reasonable accommodations. The Department shall make the documents required under this paragraph available for retrieval from the Department's website.

(2) Upon notification of a violation of paragraph (1) of this subdivision (K), the Department may launch a preliminary investigation. If the Department finds a violation, the Department may issue a notice to show cause giving the employer 30 days to correct the violation. If the violation is not corrected, the Department may initiate a charge of a civil rights violation.

(A-10) Harassment of nonemployees. For any employer, employment agency, or labor organization to engage in harassment of nonemployees in the workplace. An employer

is responsible for harassment of nonemployees by the employer's nonmanagerial and nonsupervisory employees only if the employer becomes aware of the conduct and fails to take reasonable corrective measures. For the purposes of this subdivision (A-10), "nonemployee" means a person who is not otherwise an employee of the employer and is directly performing services for the employer pursuant to a contract with that employer. "Nonemployee" includes contractors and consultants. (B) Employment agency. For any employment agency to fail or refuse to classify properly, accept applications and register for employment referral or apprenticeship referral, refer for employment, or refer for apprenticeship on the basis of unlawful discrimination, citizenship status, work authorization status, or family responsibilities or to accept from any person any job order, requisition or request for referral of applicants for employment or apprenticeship which makes or has the effect of making unlawful discrimination or discrimination on the basis of citizenship status, work authorization status, or family responsibilities a condition of referral.

(C) Labor organization. For any labor organization to

limit, segregate or classify its membership, or to limit employment opportunities, selection and training for apprenticeship in any trade or craft, or otherwise to take, or fail to take, any action which affects adversely any person's status as an employee or as an applicant for employment or as an apprentice, or as an applicant for apprenticeships, or wages, tenure, hours of employment or apprenticeship conditions on the basis of unlawful discrimination, citizenship status, work authorization status, or family responsibilities.

(D) Sexual harassment. For the

purposes of this subdivision (D-5), "nonemployee" means a person who is not otherwise an employee of the employer and is directly performing services for the employer pursuant to a contract with that employer. "Nonemployee" includes contractors and consultants. This subdivision applies to sexual harassment occurring on or after January 1, 2020 (the effective date of Public Act 101-221) ~~this amendatory Act of the 101st General Assembly.~~

(E) Public employers. For any public employer to refuse to permit a public employee under its jurisdiction who takes time off from work in order to practice his or her religious beliefs to engage in work, during hours other than such employee's regular working hours, consistent with the operational needs of the employer and in order to compensate for work time lost for such religious reasons. Any employee who elects such deferred work shall be compensated at the wage rate which he or she would have earned during the originally scheduled work period. The employer may require that an employee who plans to take time off from work in order to practice his or her religious beliefs provide the employer with a notice of his or her intention to be absent from work not exceeding 5 days prior to the date of absence.

(E-5) Religious discrimination. For any employer to impose upon a person as a condition of obtaining or retaining employment, including opportunities for

promotion, advancement, or transfer, any terms or conditions that would require such person to violate or forgo a sincerely held practice of his or her religion including, but not limited to, the wearing of any attire, clothing, or facial hair in accordance with the requirements of his or her religion, unless, after engaging in a bona fide effort, the employer demonstrates that it is unable to reasonably accommodate the employee's or prospective employee's sincerely held religious belief, practice, or observance without undue hardship on the conduct of the employer's business.

Nothing in this Section prohibits an employer from enacting a dress code or grooming policy that may include restrictions on attire, clothing, or facial hair to maintain workplace safety or food sanitation.

(F) Training and apprenticeship programs. For any employer, employment agency or labor organization to discriminate against a person on the basis of age in the selection, referral for or conduct of apprenticeship or training programs.

(G) Immigration-related practices.

(1) for an employer to request for purposes of satisfying the requirements of Section 1324a(b) of Title 8 of the United States Code, as now or hereafter amended, more or different documents than are required under such Section or to refuse to honor documents

(2) for an employer participating in the E-Verify Program, as authorized by 8 U.S.C. 1324a, Notes, Pilot Programs for Employment Eligibility Confirmation (enacted by PL 104-208, div. C title IV, subtitle A) to refuse to hire, to segregate, or to act with respect to recruitment, hiring, promotion, renewal of employment, selection for training or apprenticeship, discharge, discipline, tenure or terms, privileges or conditions of employment without following the procedures under the E-Verify Program.

(H) (Blank).

(I) Pregnancy. For an employer to refuse to hire, to segregate, or to act with respect to recruitment, hiring, promotion, renewal of employment, selection for training or apprenticeship, discharge, discipline, tenure or terms, privileges or conditions of employment on the basis of pregnancy, childbirth, or medical or common conditions related to pregnancy or childbirth. Women affected by pregnancy, childbirth, or medical or common conditions related to pregnancy or childbirth shall be treated the same for all employment-related purposes, including receipt of benefits under fringe benefit programs, as

other persons not so affected but similar in their ability or inability to work, regardless of the source of the inability to work or employment classification or status.

(J) Pregnancy; reasonable accommodations.

(1) If after a job applicant or employee, including a part-time, full-time, or probationary employee, requests a reasonable accommodation, for an employer to not make reasonable accommodations for any medical or common condition of a job applicant or employee related to pregnancy or childbirth, unless the employer can demonstrate that the accommodation would impose an undue hardship on the ordinary operation of the business of the employer. The employer may request documentation from the employee's health care provider concerning the need for the requested reasonable accommodation or accommodations to the same extent documentation is requested for conditions related to disability if the employer's request for documentation is job-related and consistent with business necessity. The employer may require only the medical justification for the requested accommodation or accommodations, a description of the reasonable accommodation or accommodations medically advisable, the date the reasonable accommodation or accommodations became medically advisable, and the probable duration of the

reasonable accommodation or accommodations. It is the duty of the individual seeking a reasonable accommodation or accommodations to submit to the employer any documentation that is requested in accordance with this paragraph. Notwithstanding the provisions of this paragraph, the employer may require documentation by the employee's health care provider to determine compliance with other laws. The employee and employer shall engage in a timely, good faith, and meaningful exchange to determine effective reasonable accommodations.

(2) For an employer to deny employment opportunities or benefits to or take adverse action against an otherwise qualified job applicant or employee, including a part-time, full-time, or probationary employee, if the denial or adverse action is based on the need of the employer to make reasonable accommodations to the known medical or common conditions related to the pregnancy or childbirth of the applicant or employee.

(3) For an employer to require a job applicant or employee, including a part-time, full-time, or probationary employee, affected by pregnancy, childbirth, or medical or common conditions related to pregnancy or childbirth to accept an accommodation when the applicant or employee did not request an

accommodation and the applicant or employee chooses not to accept the employer's accommodation.

(4) For an employer to require an employee, including a part-time, full-time, or probationary employee, to take leave under any leave law or policy of the employer if another reasonable accommodation can be provided to the known medical or common conditions related to the pregnancy or childbirth of an employee. No employer shall fail or refuse to reinstate the employee affected by pregnancy, childbirth, or medical or common conditions related to pregnancy or childbirth to her original job or to an equivalent position with equivalent pay and accumulated seniority, retirement, fringe benefits, and other applicable service credits upon her signifying her intent to return or when her need for reasonable accommodation ceases, unless the employer can demonstrate that the accommodation would impose an undue hardship on the ordinary operation of the business of the employer.

For the purposes of this subdivision (J), "reasonable accommodations" means reasonable modifications or adjustments to the job application process or work environment, or to the manner or circumstances under which the position desired or held is customarily performed, that enable an applicant or employee affected by

pregnancy, childbirth, or medical or common conditions related to pregnancy or childbirth to be considered for the position the applicant desires or to perform the essential functions of that position, and may include, but is not limited to: more frequent or longer bathroom breaks, breaks for increased water intake, and breaks for periodic rest; private non-bathroom space for expressing breast milk and breastfeeding; seating; assistance with manual labor; light duty; temporary transfer to a less strenuous or hazardous position; the provision of an accessible worksite; acquisition or modification of equipment; job restructuring; a part-time or modified work schedule; appropriate adjustment or modifications of examinations, training materials, or policies; reassignment to a vacant position; time off to recover from conditions related to childbirth; and leave necessitated by pregnancy, childbirth, or medical or common conditions resulting from pregnancy or childbirth.

For the purposes of this subdivision (J), "undue hardship" means an action that is prohibitively expensive or disruptive when considered in light of the following factors: (i) the nature and cost of the accommodation needed; (ii) the overall financial resources of the facility or facilities involved in the provision of the reasonable accommodation, the number of persons employed at the facility, the effect on expenses and resources, or

the impact otherwise of the accommodation upon the operation of the facility; (iii) the overall financial resources of the employer, the overall size of the business of the employer with respect to the number of its employees, and the number, type, and location of its facilities; and (iv) the type of operation or operations of the employer, including the composition, structure, and functions of the workforce of the employer, the geographic separateness, administrative, or fiscal relationship of the facility or facilities in question to the employer. The employer has the burden of proving undue hardship. The fact that the employer provides or would be required to provide a similar accommodation to similarly situated employees creates a rebuttable presumption that the accommodation does not impose an undue hardship on the employer.

No employer is required by this subdivision (J) to create additional employment that the employer would not otherwise have created, unless the employer does so or would do so for other classes of employees who need accommodation. The employer is not required to discharge any employee, transfer any employee with more seniority, or promote any employee who is not qualified to perform the job, unless the employer does so or would do so to accommodate other classes of employees who need it.

(K) Notice.

(1) For an employer to fail to post or keep posted in a conspicuous location on the premises of the employer where notices to employees are customarily posted, or fail to include in any employee handbook information concerning an employee's rights under this Article, a notice, to be prepared or approved by the Department, summarizing the requirements of this Article and information pertaining to the filing of a charge, including the right to be free from unlawful discrimination, the right to be free from sexual harassment, and the right to certain reasonable accommodations. The Department shall make the documents required under this paragraph available for retrieval from the Department's website.

(2) Upon notification of a violation of paragraph (1) of this subdivision (K), the Department may launch a preliminary investigation. If the Department finds a violation, the Department may issue a notice to show cause giving the employer 30 days to correct the violation. If the violation is not corrected, the Department may initiate a charge of a civil rights violation.

(L) Use of artificial intelligence.

(1) With respect to recruitment, hiring, promotion, renewal of employment, selection for training or apprenticeship, discharge, discipline,

tenure, or the terms, privileges, or conditions of employment, for an employer to use artificial intelligence that has the effect of subjecting employees to discrimination on the basis of protected classes under this Article or to use zip codes as a proxy for protected classes under this Article.

(2) For an employer to fail to provide notice to an employee that the employer is using artificial intelligence for the purposes described in paragraph (1).

The Department shall adopt any rules necessary for the implementation and enforcement of this subdivision, including, but not limited to, rules on the circumstances and conditions that require notice, the time period for providing notice, and the means for providing notice.

(a) No employer shall enter into a covenant not to compete with any employee unless the employee's actual or expected annualized rate of earnings exceeds \$75,000 per year. This amount shall increase to \$80,000 per year beginning on January 1, 2027, \$85,000 per year beginning on January 1, 2032, and

\$90,000 per year beginning on January 1, 2037. A covenant not to compete entered into in violation of this subsection is void and unenforceable.

(b) No employer shall enter into a covenant not to solicit with any employee unless the employee's actual or expected annualized rate of earnings exceeds \$45,000 per year. This amount shall increase to \$47,500 per year beginning on January 1, 2027, \$50,000 per year beginning on January 1, 2032, and \$52,500 per year beginning on January 1, 2037. (c) No employer shall enter into a covenant not to compete or a covenant not to solicit with any employee who an employer terminates or furloughs or lays off as the result of business circumstances or governmental orders related to the COVID-19 pandemic or under circumstances that are similar to the COVID-19 pandemic, unless enforcement of the covenant not to compete includes compensation equivalent to the employee's base salary at the time of termination for the period of enforcement minus compensation earned through subsequent employment during the period of enforcement. A covenant not to compete or a covenant not to solicit entered into in violation of this subsection is void and unenforceable.

(d) A covenant not to compete is void and illegal with respect to individuals covered by a collective bargaining agreement under the Illinois Public Labor Relations Act or the

Section 1215. The Victims' Economic Security and Safety Act is amended by changing Section 35 as follows:

(820 ILCS 180/35)

Sec. 35. Enforcement.

(a) Department of Labor.

(1) The Director or his or her authorized representative shall administer and enforce the provisions of this Act. Any employee or a representative of employees who believes his or her rights under this Act have been violated may, within 3 years after the alleged violation occurs, file a complaint with the Department requesting a review of the alleged violation. A copy of the complaint shall be sent to the person who allegedly committed the violation, who shall be the respondent. Upon receipt of a complaint, the Director shall cause such investigation to be made as he or she deems appropriate. The investigation shall provide an opportunity for a public hearing at the request of any party to the review to enable the parties to present information relating to the alleged violation

~~allegation.~~ The parties shall be given written notice of the time and place of the hearing at least 7 days before the hearing. Upon receiving the report of the investigation, the Director shall make findings of fact. If the Director finds that a violation did occur, he or she shall issue a decision incorporating his or her findings and requiring the party committing the violation to take such affirmative action to abate the violation as the Director deems appropriate, including:

(A) damages equal to the amount of wages, salary, employment benefits, public assistance, or other compensation denied or lost to such individual by reason of the violation, and the interest on that amount calculated at the prevailing rate;

(B) such equitable relief as may be appropriate, including, but not limited to, hiring, reinstatement, promotion, and reasonable accommodations; and

(C) reasonable attorney's fees, reasonable expert witness fees, and other costs of the action to be paid by the respondent to a prevailing employee.

If the Director finds that there was no violation, he or she shall issue an order denying the complaint. An order issued by the Director under this Section shall be final and subject to judicial review under the Administrative Review Law.

(2) The Director shall adopt rules necessary to

administer and enforce this Act in accordance with the Illinois Administrative Procedure Act. The Director shall have the powers and the parties shall have the rights provided in the Illinois Administrative Procedure Act for contested cases, including, but not limited to, provisions for depositions, subpoena power and procedures, and discovery and protective order procedures.

(3) Intervention. The Attorney General of Illinois may intervene on behalf of the Department if the Department certifies that the case is of general public importance. Upon such intervention the court may award such relief as is authorized to be granted to an employee who has filed a complaint or whose representative has filed a complaint under this Section.

(b) Refusal to pay damages. Any employer who has been ordered by the Director of Labor or the court to pay damages under this Section and who fails to do so within 30 days after the order is entered is liable to pay a penalty of 1% per calendar day to the employee for each day of delay in paying the damages to the employee.

Section 1220. The Paid Leave for All Workers Act is amended by changing Section 15 as follows:

(820 ILCS 192/15)

Sec. 15. Provision of paid leave.

(a) An employee who works in Illinois is entitled to earn and use up to a minimum of 40 hours of paid leave during a 12-month period or a pro rata number of hours of paid leave under the provisions of subsection (b). The paid leave may be used by the employee for any purpose as long as the paid leave is taken in accordance with the provisions of this Act.

(b) Paid leave under this Act shall accrue at the rate of one hour of paid leave for every 40 hours worked up to a minimum of 40 hours of paid leave or such greater amount if the employer provides more than 40 hours. Employees who are exempt from the overtime requirements of the federal Fair Labor Standards Act (29 U.S.C. 213(a)(1)) shall be deemed to work 40 hours in each workweek for purposes of paid leave accrual unless their regular workweek is less than 40 hours, in which case paid leave accrues based on that regular workweek. Employees shall determine how much paid leave they need to use; ~~it~~ however, ~~the~~ employers may set a reasonable minimum increment for the use of paid leave not to exceed 2 hours per day. If an employee's scheduled workday is less than 2 hours per day, the employee's scheduled workday shall be used to determine the amount of paid leave.

(c) An employer may make available the minimum number of hours of paid leave, subject to pro rata requirements provided in subsection (b), to an employee on the first day of employment or the first day of the 12-month period. Employers

that provide the minimum number of hours of paid leave to an employee on the first day of employment or the first day of the 12-month period are not required to carry over ~~carryover~~ paid leave from 12-month period to 12-month period and may require employees to use all paid leave prior to the end of the benefit period or forfeit the unused paid leave. However, under no circumstances shall an employee be credited with paid leave that is less than what the employee would have accrued under subsections (a) and (g) of this Section.

(d) The 12-month period may be any consecutive 12-month period designated by the employer in writing at the time of hire. Changes to the 12-month period may be made by the employer if notice is given to employees in writing prior to the change and the change does not reduce the eligible accrual rate and paid leave available to the employee. If the employer changes the designated 12-month period, the employer shall provide the employee with documentation of the balance of hours worked, paid leave accrued and taken, and the remaining paid leave balance.

(e) Paid leave under this Act may be taken by an employee for any reason of the employee's choosing. An employee is not required to provide an employer a reason for the leave and may not be required to provide documentation or certification as proof or in support of the leave. An employee may choose whether to use paid leave provided under this Act prior to using any other leave provided by the employer or State law.

(f) Employees shall be paid their hourly rate of pay for paid leave. However, employees engaged in an occupation in which gratuities or commissions have customarily and usually constituted and have been recognized as part of the remuneration for hire purposes shall be paid by their employer at least the full minimum wage in the jurisdiction in which they are employed when paid leave is taken. This wage shall be treated as the employee's regular rate of pay for purposes of this Act.

(g) Paid leave under this Act shall begin to accrue at the commencement of employment or on the effective date of this Act, whichever is later. Employees shall be entitled to begin using paid leave 90 days following commencement of their employment or 90 days following the effective date of this Act, whichever is later.

(h) Paid leave under this Act shall be provided upon the oral or written request of an employee in accordance with the employer's reasonable paid leave policy notification requirements which may include the following:

(1) If use of paid leave under this Act is foreseeable, the employer may require the employee to provide 7 calendar days' notice before the date the leave is to begin.

(2) If paid leave under this Act is not foreseeable, the employee shall provide such notice as soon as is practicable after the employee is aware of the necessity

of the leave. An employer that requires notice of paid leave under this Act when the leave is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice.

(3) Employers shall provide employees with written notice of the paid leave policy notification requirements in this Section in the manner provided in Section 20 for notice and posting and within 5 calendar days of any change to the employer's reasonable paid leave policy notification requirements.

(4) An employer may not require, as a condition of providing paid leave under this Act, that the employee search for or find a replacement worker to cover the hours during which the employee takes paid leave.

(i) Except as provided in subsection (c), paid leave under this Act shall carry over annually to the extent not used by the employee, provided that nothing in this Act shall be construed to require an employer to provide more than 40 hours of paid leave for an employee in the 12-month period unless the employer agrees to do so.

(j) Nothing in this Section or any other Illinois law or rule shall be construed as requiring financial or other payment to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for paid leave accrued under this Act that has not been used. Nothing in this Section or any other Illinois law or

rule shall be construed as requiring financial or other reimbursements to an employee from an employer for unused paid leave under this Act at the end of the benefit year or any other time.

(k) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all paid leave accrued at the prior division, entity, or location and is entitled to use all paid leave as provided in this Section. If there is a separation from employment and the employee is rehired within 12 months of separation by the same employer, previously accrued paid leave that had not been used by the employee shall be reinstated. The employee shall be entitled to use accrued paid leave at the commencement of employment following a separation from employment of 12 months or less.

(l) Paid leave under this Act shall not be charged or otherwise credited to an employee's paid time off bank or employee account unless the employer's policy permits such a credit. If the paid leave under this Act is credited to an employee's paid time off bank or employee vacation account then any unused paid leave shall be paid to the employee upon the employee's termination, resignation, retirement, or other separation to the same extent as vacation time under existing Illinois law or rule. Nothing in this Act shall be construed to waive or otherwise limit an employee's right to final compensation for promised and earned, but unpaid vacation time

or paid time off, as provided under the Illinois Wage Payment and Collection Act and rules. Employers shall provide employees with written notice of changes to the employer's vacation time, paid time off, or other paid leave policies that affect an employee's right to final compensation for such leave.

(m) During any period an employee takes leave under this Act, the employer shall maintain coverage for the employee and any family member under any group health plan for the duration of such leave at no less than the level and conditions of coverage that would have been provided if the employee had not taken the leave. The employer shall notify the employee that the employee is still responsible for paying the employee's share of the cost of the health care coverage, if any.

(n) Nothing in this Act shall be deemed to interfere with, impede, or in any way diminish the right of employees to bargain collectively with their employers through representatives of their own choosing in order to establish wages or other conditions of work in excess of the applicable minimum standards established in this Act. The paid leave requirements of this Act may be waived in a bona fide collective bargaining agreement, but only if the waiver is set forth explicitly in such agreement in clear and unambiguous terms.

Nothing in this Act shall be deemed to affect the validity or change the terms of bona fide collective bargaining

agreements in effect on January 1, 2024. After that date, requirements of this Act may be waived in a bona fide collective bargaining agreement, but only if the waiver is set forth explicitly in such agreement in clear and unambiguous terms.

In no event shall this Act apply to any employee working in the construction industry who is covered by a bona fide collective bargaining agreement, nor shall this Act apply to any employee who is covered by a bona fide collective bargaining agreement with an employer that provides services nationally and internationally of delivery, pickup, and transportation of parcels, documents, and freight.

Notwithstanding the provisions of this subsection, nothing in this Act shall be deemed to affect the validity or change the terms of a bona fide collective bargaining agreement applying to an employee who is employed by a State agency that is in effect on July 1, 2024. After that date, requirements of this Act may be waived in a bona fide collective bargaining agreement, but only if the waiver is set forth explicitly in such agreement in clear and unambiguous terms. As used in this subsection, "State agency" has the same meaning as set forth in Section 4 of the Forms Notice Act.

(o) An agreement by an employee to waive his or her rights under this Act is void as against public policy.

(p) The provisions of this Act shall not apply to any employer that is covered by a municipal or county ordinance

that is in effect on the effective date of this Act that requires employers to give any form of paid leave to their employees, including paid sick leave or paid leave. Notwithstanding the provisions of this subsection, any employer that is not required to provide paid leave to its employees, including paid sick leave or paid leave, under a municipal or county ordinance that is in effect on the effective date of this Act shall be subject to the provisions of this Act if the employer would be required to provide paid leave under this Act to its employees.

Any local ordinance that provides paid leave, including paid sick leave or paid leave, enacted or amended after the effective date of this Act must comply with the requirements of this Act or provide benefits, rights, and remedies that are greater than or equal to the benefits, rights, and remedies afforded under this Act.

An employer in a municipality or county that enacts or amends a local ordinance that provides paid leave, including paid sick leave or paid leave, after the effective date of this Act shall only comply with the local ordinance or ordinances so long as the benefits, rights, and remedies are greater than or equal to the benefits, rights, and remedies afforded under this Act.

Section 1225. The Child Labor Law of 2024 is amended by changing Sections 35 and 55 as follows:

(820 ILCS 206/35)

Sec. 35. Employer requirements.

(a) It shall be unlawful for any person to employ, allow, or permit any minor to work unless the minor obtains an employment certificate authorizing the minor to work for that person. Any person seeking to employ, allow, or permit any minor to work shall provide that minor with a notice of intention to employ to be submitted by the minor to the minor's school issuing officer with the minor's application for an employment certificate.

(b) Every employer of one or more minors shall maintain, on the premises where the work is being done, records that include the name, date of birth, and place of residence of every minor who works for that employer, notice of intention to employ the minor, and the minor's employment certificate. Authorized officers and employees of the Department, truant officers, and other school officials charged with the enforcement of school attendance requirements described in Section 26-1 of the School Code may inspect the records without notice at any time.

(c) Every employer of minors shall ensure that all minors are supervised by an adult 21 years of age or older, on site, at all times while the minor is working.

(d) No person shall employ, allow, or permit any minor to work for more than 5 hours continuously without an interval of at least 30 minutes for a meal period. No period of less than 30 minutes shall be deemed to interrupt a continuous period of work.

(e) Every employer who employs one or more minors shall post in a conspicuous place where minors are employed, allowed, or permitted to work, a notice summarizing the requirements of this Act, including a list of the occupations prohibited to minors and the Department's toll free telephone number described in Section 85. An employer with employees who do not regularly report to a physical workplace, such as employees who work remotely or travel for work, shall also provide the summary and notice by email to its employees or conspicuous posting on the employer's website or intranet site, if the site is regularly used by the employer to communicate work-related information to employees and is able to be regularly accessed by all employees, freely and without interference. The notice shall be furnished by the Department.

(f) Every employer, during the period of employment of a minor and for 3 years thereafter, shall keep on file, at the place of employment, a copy of the employment certificate issued for the minor. An employment certificate shall be valid only for the employer for whom it was issued and a new certificate shall not be issued for the employment of a minor except on the presentation of a new statement of intention to

employ the minor. The failure of any employer to produce for inspection the employment certificate for each minor in the employer's establishment shall be a violation of this Act. The Department may specify any other record keeping requirements by rule.

(g) In the event of the work-related death of a minor engaged in work subject to this Act, the employer shall, within 24 hours, report the death to the Department and to the school official who issued the minor's work certificate for that employer. In the event of a work-related injury or illness of a minor that requires the employer to file a report with the Illinois Workers' Compensation Commission under Section 6 of the Workers' Compensation Act or Section 6 of the Workers' Occupational Diseases Act, the employer shall submit a copy of the report to the Department and to the school official who issued the minor's work certificate for that employer within 72 hours of the deadline by which the employer must file the report to the Illinois Workers' Compensation Commission. The report shall be subject to the confidentiality provisions of Section 6 of the Workers' Compensation Act or Section 6 of the Workers' Occupational Diseases Act.

(820 ILCS 206/55)

Sec. 55. Employment certificates.

(a) Any employer who employs, allows, or permits a minor

to work shall ensure that the minor holds a valid employment certificate issued by a school issuing officer.

(b) An application for an employment certificate must be submitted by the minor and the minor's parent or legal guardian to the minor's school issuing officer as follows.

(1) The application shall be signed by the applicant's parent or legal guardian.

(2) The application shall be submitted in person by the minor desiring employment, unless the school issuing officer determines that the minor may utilize a remote application process.

(3) The minor shall be accompanied by his or her parent, guardian, or custodian, whether applying in person or remotely.

(4) The following papers shall be submitted with the application:

(A) A statement of intention to employ signed by the prospective employer, or by someone duly authorized by the prospective employer, setting forth the specific nature of the occupation in which the prospective employer intends to employ the minor and the exact hours of the day and number of hours per day and days per week during which the minor shall be employed.

(B) Evidence of age showing that the minor is of the age required by this Act, which evidence shall be

documentary, and shall be required in the order designated, as follows:

(i) a birth certificate; or

(ii) if a birth certificate is unavailable, the parent or legal guardian may present other reliable proof of the minor's identity and age that is supported by a sworn statement explaining why the birth certificate is not available. Other reliable proof of the minor's identity and age includes a passport, visa, or other governmental documentation of the minor's identity. If the student was not born in the United States, the school issuing officer must accept birth certificates or other reliable proof from a foreign government.

(C) A statement on a form approved by the Department and signed by the school issuing officer, showing the minor's name, address, grade last completed, the hours the minor's school is in session, and other relevant information, as determined by the school issuing officer, about the minor's school schedule, and the names of the minor's parent or legal guardian. If any of the information required to be on the work permit changes, the issuing officer must update the work permit and provide an updated copy to the Department, the minor's employer, and the minor's

parent or legal guardian. If the minor does not have a permanent home address or is otherwise eligible for services under the federal McKinney-Vento Homeless Assistance Act, the lack of a birth certificate or permanent home address alone shall not be a barrier to receiving an employment certificate.

(D) A statement of physical fitness signed by a health care professional who has examined the minor, certifying that the minor is physically fit to be employed in all legal occupations or to be employed in legal occupations under limitations specified, or, at the discretion of the school issuing officer, the minor's most recent school physical. If the statement of physical fitness is limited, the employment certificate issued thereon shall state clearly the limitations upon its use, and shall be valid only when used under the limitations so stated. In any case where the health care professional deems it advisable that he or she may issue a certificate of physical fitness for a specified period of time, at the expiration of which the person for whom it was issued shall appear and be re-examined before being permitted to continue work. Examinations shall be made in accordance with the standards and procedures prescribed by the Director, in consultation with the Director of the Department of Public Health and the

State Superintendent of Education, and shall be recorded on a form furnished by the Department. When made by public health or public school physicians, the examination shall be made without charge to the minor. If a public health or public school health care professional is not available, a statement from a private health care professional who has examined the minor may be accepted, provided that the examination is made in accordance with the standards and procedures established by the Department. For purposes of this paragraph, "health care professional" means a physician licensed to practice medicine in all its branches, a licensed advanced practice registered nurse, or a licensed physician assistant.

(5) The school issuing officer shall have authority to verify the representations provided in the employment certificate application as required by Section 55. A school issuing officer shall not charge a fee for the consideration of an employment certificate application.

(6) It shall be the duty of the school board or local school authority to designate a place or places where certificates shall be issued and recorded, and physical examinations made without fee, and to establish and maintain the necessary records and clerical services for carrying out the provisions of this Act.

(c) Upon receipt of an application for an employment

certificate, a school issuing officer shall issue an employment certificate only after examining and approving the written application and other papers required under this Section, and determining that the employment shall not be detrimental to the minor's health, welfare, and education. The school issuing officer shall consider any report of death, injury, or illness of a minor at that workplace, received under the requirements of Section 35, in the prior 2 years in determining whether the employment shall be detrimental to the minor's health, welfare, and education. Upon issuing an employment certificate to a minor, the school issuing officer shall notify the principal of the school attended by the minor, and provide copies to the Department, the minor's employer, and the minor's parent or legal guardian. The employment certificate shall be valid for a period of one year from the date of issuance, unless suspended or revoked.

(d) If the school issuing officer refuses to issue a certificate to a minor, the school issuing officer shall send to the principal of the school attended by the minor a notice of the refusal, including the name and address of the minor and of the minor's parent or legal guardian, and the reason for the refusal to issue the certificate.

(e) If a minor from another state seeks to obtain an Illinois employment certificate, the Department shall work with the State Superintendent of Education, or his or her duly authorized agents, to issue the certificate if the State

Superintendent of Education deems that all requirements for issuance have been met.

(f) Upon request, the school issuing officer shall issue a certificate of age to any person between 16 and 20 years of age upon presentation of the same proof of age as is required for the issuance of employment certificates under this Act.

(g) Any certificate duly issued in accordance with this Act shall be prima facie evidence of the age of the minor for whom it was issued in any proceeding involving the employment of the minor under this Act, as to any act occurring subsequent to its issuance, or until revoked.

(h) The Department may suspend any certificate as an emergency action imperatively required for the health, safety, welfare, or education of the minor if:

(1) the parent or legal guardian of a minor, the school issuing officer, or the principal of the school attended by the minor for whom an employment certificate has been issued has asked for the revocation of the certificate by petition to the Department in writing, stating the reasons he or she believes that the employment is interfering with the health, safety, welfare, or education of the minor; or

(2) in the judgment of the Director, the employment certificate was improperly issued or if the minor is illegally employed.

If the certificate is suspended, the Department shall

notify the employer of the minor, the parent or guardian of the minor, the minor's school principal, and the school issuing officer of the suspension in writing and shall schedule an administrative hearing to take place within 21 days after the date of any suspension. The minor shall not thereafter be employed, allowed, or permitted to work unless and until his or her employment certificate has been reinstated. After the hearing, an administrative law judge shall issue a final order either reinstating or revoking the employment certificate. If the certificate is revoked, the employer shall not thereafter employ, permit, or allow the minor to work until the minor has obtained a new employment certificate authorizing the minor's employment by that employer.

Section 1235. The Workers' Compensation Act is amended by changing Section 7 as follows:

(820 ILCS 305/7)

Sec. 7. The amount of compensation which shall be paid for an accidental injury to the employee resulting in death is:

(a) If the employee leaves surviving a widow, widower, child or children, the applicable weekly compensation rate computed in accordance with subparagraph 2 of paragraph (b) of Section 8, shall be payable during the life of the widow or widower and if any surviving child or children shall not be physically or mentally incapacitated then until the death of the widow or widower or until the youngest child shall reach the age of 18, whichever shall come later; provided that if such child or children shall be enrolled as a full-time ~~full-time~~ student in any accredited educational institution, the payments shall continue until such child has attained the age

of 25. In the event any surviving child or children shall be physically or mentally incapacitated, the payments shall continue for the duration of such incapacity.

The term "child" means a child whom the deceased employee left surviving, including a posthumous child, a child legally adopted, a child whom the deceased employee was legally obligated to support or a child to whom the deceased employee stood in loco parentis. The term "children" means the plural of "child".

The term "physically or mentally incapacitated child or children" means a child or children incapable of engaging in regular and substantial gainful employment.

In the event of the remarriage of a widow or widower, where the decedent did not leave surviving any child or children who, at the time of such remarriage, are entitled to compensation benefits under this Act, the surviving spouse shall be paid a lump sum equal to 2 years compensation benefits and all further rights of such widow or widower shall be extinguished.

If the employee leaves surviving any child or children under 18 years of age who at the time of death shall be entitled to compensation under this paragraph (a) of this Section, the weekly compensation payments herein provided for such child or children shall in any event continue for a period of not less than 6 years.

Any beneficiary entitled to compensation under this

paragraph (a) of this Section shall receive from the special fund provided in paragraph (f) of this Section, in addition to the compensation herein provided, supplemental benefits in accordance with paragraph (g) of Section 8.

(b) If no compensation is payable under paragraph (a) of this Section and the employee leaves surviving a parent or parents who at the time of the accident were totally dependent upon the earnings of the employee then weekly payments equal to the compensation rate payable in the case where the employee leaves surviving a widow or widower, shall be paid to such parent or parents for the duration of their lives, and in the event of the death of either, for the life of the survivor.

(c) If no compensation is payable under paragraph ~~paragraphs~~ (a) or (b) of this Section and the employee leaves surviving any child or children who are not entitled to compensation under the foregoing paragraph (a) but who at the time of the accident were nevertheless in any manner dependent upon the earnings of the employee, or leaves surviving a parent or parents who at the time of the accident were partially dependent upon the earnings of the employee, then there shall be paid to such dependent or dependents for a period of 8 years weekly compensation payments at such proportion of the applicable rate if the employee had left surviving a widow or widower as such dependency bears to total dependency. In the event of the death of any such beneficiary the share of such beneficiary shall be divided equally among

the surviving beneficiaries and in the event of the death of the last such beneficiary all the rights under this paragraph shall be extinguished.

(d) If no compensation is payable under paragraph ~~paragraphs~~ (a), (b), or (c) of this Section and the employee leaves surviving any grandparent, grandparents, grandchild or grandchildren or collateral heirs dependent upon the employee's earnings to the extent of 50% or more of total dependency, then there shall be paid to such dependent or dependents for a period of 5 years weekly compensation payments at such proportion of the applicable rate if the employee had left surviving a widow or widower as such dependency bears to total dependency. In the event of the death of any such beneficiary the share of such beneficiary shall be divided equally among the surviving beneficiaries and in the event of the death of the last such beneficiary all rights hereunder shall be extinguished.

(e) The compensation to be paid for accidental injury which results in death, as provided in this Section, shall be paid to the persons who form the basis for determining the amount of compensation to be paid by the employer, the respective shares to be in the proportion of their respective dependency at the time of the accident on the earnings of the deceased. The Commission or an Arbitrator thereof may, in its or his discretion, order or award the payment to the parent or grandparent of a child for the latter's support the amount of

compensation which but for such order or award would have been paid to such child as its share of the compensation payable, which order or award may be modified from time to time by the Commission in its discretion with respect to the person to whom shall be paid the amount of the order or award remaining unpaid at the time of the modification.

The payments of compensation by the employer in accordance with the order or award of the Commission discharges such employer from all further obligation as to such compensation.

(f) The sum of \$8,000 for burial expenses shall be paid by the employer to the widow or widower, other dependent, next of kin or to the person or persons incurring the expense of burial.

In the event the employer failed to provide necessary first aid, medical, surgical or hospital service, he shall pay the cost thereof to the person or persons entitled to compensation under paragraphs (a), (b), (c), or (d) of this Section, or to the person or persons incurring the obligation therefore, or providing the same.

On January 15 and July 15, 1981, and on January 15 and July 15 of each year thereafter the employer shall within 60 days pay a sum equal to $\frac{1}{8}$ of 1% of all compensation payments made by him after July 1, 1980, either under this Act or the Workers' Occupational Diseases Act, whether by lump sum settlement or weekly compensation payments, but not including hospital, surgical or rehabilitation payments, made during the

first 6 months and during the second 6 months respectively of the fiscal year next preceding the date of the payments, into a special fund which shall be designated the "Second Injury Fund", of which the State Treasurer is ex officio ~~ex officio~~ custodian, such special fund to be held and disbursed for the purposes hereinafter stated in paragraphs (f) and (g) of Section 8, either upon the order of the Commission or of a competent court. Said special fund shall be deposited the same as are State funds and any interest accruing thereon shall be added thereto every 6 months. It is subject to audit the same as State funds and accounts and is protected by the General bond given by the State Treasurer. It is considered always appropriated for the purposes of disbursements as provided in paragraph (f) of Section 8, ~~paragraph (f)~~, of this Act, and shall be paid out and disbursed as therein provided and shall not at any time be appropriated or diverted to any other use or purpose.

On January 15, 1991, the employer shall further pay a sum equal to one half of 1% of all compensation payments made by him from January 1, 1990 through June 30, 1990 either under this Act or under the Workers' Occupational Diseases Act, whether by lump sum settlement or weekly compensation payments, but not including hospital, surgical or rehabilitation payments, into an additional Special Fund which shall be designated as the "Rate Adjustment Fund". On March 15, 1991, the employer shall pay into the Rate Adjustment Fund

a sum equal to one half of 1% of all such compensation payments made from July 1, 1990 through December 31, 1990. Within 60 days after July 15, 1991, the employer shall pay into the Rate Adjustment Fund a sum equal to one half of 1% of all such compensation payments made from January 1, 1991 through June 30, 1991. Within 60 days after January 15 of 1992 and each subsequent year through 1996, the employer shall pay into the Rate Adjustment Fund a sum equal to one half of 1% of all such compensation payments made in the last 6 months of the preceding calendar year. Within 60 days after July 15 of 1992 and each subsequent year through 1995, the employer shall pay into the Rate Adjustment Fund a sum equal to one half of 1% of all such compensation payments made in the first 6 months of the same calendar year. Within 60 days after January 15 of 1997 and each subsequent year through 2005, the employer shall pay into the Rate Adjustment Fund a sum equal to three-fourths of 1% of all such compensation payments made in the last 6 months of the preceding calendar year. Within 60 days after July 15 of 1996 and each subsequent year through 2004, the employer shall pay into the Rate Adjustment Fund a sum equal to three-fourths of 1% of all such compensation payments made in the first 6 months of the same calendar year. Within 60 days after July 15 of 2005, the employer shall pay into the Rate Adjustment Fund a sum equal to 1% of such compensation payments made in the first 6 months of the same calendar year. Within 60 days after January 15 of 2006 and each subsequent year through 2024, the

employer shall pay into the Rate Adjustment Fund a sum equal to 1.25% of such compensation payments made in the last 6 months of the preceding calendar year. Within 60 days after July 15 of 2006 and each subsequent year through 2023, the employer shall pay into the Rate Adjustment Fund a sum equal to 1.25% of such compensation payments made in the first 6 months of the same calendar year. Within 60 days after July 15 of 2024 and each subsequent year thereafter, the employer shall pay into the Rate Adjustment Fund a sum equal to 1.375% of such compensation payments made in the first 6 months of the same calendar year. Within 60 days after January 15 of 2025 and each subsequent year thereafter, the employer shall pay into the Rate Adjustment Fund a sum equal to 1.375% of such compensation payments made in the last 6 months of the preceding calendar year. The administrative costs of collecting assessments from employers for the Rate Adjustment Fund shall be paid from the Rate Adjustment Fund. The cost of an actuarial audit of the Fund shall be paid from the Rate Adjustment Fund. The State Treasurer is ex officio custodian of such Special Fund and the same shall be held and disbursed for the purposes hereinafter stated in paragraphs (f) and (g) of Section 8 upon the order of the Commission or of a competent court. The Rate Adjustment Fund shall be deposited the same as are State funds and any interest accruing thereon shall be added thereto every 6 months. It shall be subject to audit the same as State funds and accounts and shall be protected by the

general bond given by the State Treasurer. It is considered always appropriated for the purposes of disbursements as provided in paragraphs (f) and (g) of Section 8 of this Act and shall be paid out and disbursed as therein provided and shall not at any time be appropriated or diverted to any other use or purpose. Within 5 days after December 7, 1990 (the effective date of Public Act 86-1448) ~~this amendatory Act of 1990~~, the Comptroller and the State Treasurer shall transfer \$1,000,000 from the General Revenue Fund to the Rate Adjustment Fund. By February 15, 1991, the Comptroller and the State Treasurer shall transfer \$1,000,000 from the Rate Adjustment Fund to the General Revenue Fund. The Comptroller and Treasurer are authorized to make transfers at the request of the Chairman up to a total of \$19,000,000 from the Second Injury Fund, the General Revenue Fund, and the Workers' Compensation Benefit Trust Fund to the Rate Adjustment Fund to the extent that there is insufficient money in the Rate Adjustment Fund to pay claims and obligations. Amounts may be transferred from the General Revenue Fund only if the funds in the Second Injury Fund or the Workers' Compensation Benefit Trust Fund are insufficient to pay claims and obligations of the Rate Adjustment Fund. All amounts transferred from the Second Injury Fund, the General Revenue Fund, and the Workers' Compensation Benefit Trust Fund shall be repaid from the Rate Adjustment Fund within 270 days of a transfer, together with interest at the rate earned by moneys on deposit in the Fund or

Funds from which the moneys were transferred.

Upon a finding by the Commission, after reasonable notice and hearing, that any employer has willfully and knowingly failed to pay the proper amounts into the Second Injury Fund or the Rate Adjustment Fund required by this Section or if such payments are not made within the time periods prescribed by this Section, the employer shall, in addition to such payments, pay a penalty of 20% of the amount required to be paid or \$2,500, whichever is greater, for each year or part thereof of such failure to pay. This penalty shall only apply to obligations of an employer to the Second Injury Fund or the Rate Adjustment Fund accruing after December 18, 1989 (the effective date of Public Act 86-998) ~~this amendatory Act of 1989~~. All or part of such a penalty may be waived by the Commission for good cause shown.

Any obligations of an employer to the Second Injury Fund and Rate Adjustment Fund accruing prior to December 18, 1989 (the effective date of Public Act 86-998) ~~this amendatory Act of 1989~~ shall be paid in full by such employer within 5 years of December 18, 1989 (the effective date of Public Act 86-998) ~~this amendatory Act of 1989~~, with at least one-fifth of such obligation to be paid during each year following December 18, 1989 (the effective date of Public Act 86-998) ~~this amendatory Act of 1989~~. If the Commission finds, following reasonable notice and hearing, that an employer has failed to make timely payment of any obligation accruing under the preceding

sentence, the employer shall, in addition to all other payments required by this Section, be liable for a penalty equal to 20% of the overdue obligation or \$2,500, whichever is greater, for each year or part thereof that obligation is overdue. All or part of such a penalty may be waived by the Commission for good cause shown.

The Chairman of the Illinois Workers' Compensation Commission shall, annually, furnish to the Director of the Department of Insurance a list of the amounts paid into the Second Injury Fund and the Rate Adjustment Fund by each insurance company on behalf of their insured employers. The Director shall verify to the Chairman that the amounts paid by each insurance company are accurate as best as the Director can determine from the records available to the Director. The Chairman shall verify that the amounts paid by each self-insurer are accurate as best as the Chairman can determine from records available to the Chairman. The Chairman may require each self-insurer to provide information concerning the total compensation payments made upon which contributions to the Second Injury Fund and the Rate Adjustment Fund are predicated and any additional information establishing that such payments have been made into these funds. Any deficiencies in payments noted by the Director or Chairman shall be subject to the penalty provisions of this Act.

The State Treasurer, or his duly authorized

representative, shall be named as a party to all proceedings in all cases involving claim for the loss of, or the permanent and complete loss of the use of one eye, one foot, one leg, one arm or one hand.

The State Treasurer or his duly authorized agent shall have the same rights as any other party to the proceeding, including the right to petition for review of any award. The reasonable expenses of litigation, such as medical examinations, testimony, and transcript of evidence, incurred by the State Treasurer or his duly authorized representative, shall be borne by the Second Injury Fund.

If the award is not paid within 30 days after the date the award has become final, the Commission shall proceed to take judgment thereon in its own name as is provided for other awards by paragraph (g) of Section 19 of this Act and take the necessary steps to collect the award.

Any person, corporation or organization who has paid or become liable for the payment of burial expenses of the deceased employee may in his or its own name institute proceedings before the Commission for the collection thereof.

For the purpose of administration, receipts and disbursements, the Special Fund provided for in paragraph (f) of this Section shall be administered jointly with the Special Fund provided for in paragraph (f) of Section 7, ~~paragraph (f)~~ of the Workers' Occupational Diseases Act.

(g) All compensation, except for burial expenses provided

in this Section to be paid in case accident results in death, shall be paid in installments equal to the percentage of the average earnings as provided for in paragraph (b) of Section 8, ~~paragraph (b)~~ of this Act, at the same intervals at which the wages or earnings of the employees were paid. If this is not feasible, then the installments shall be paid weekly. Such compensation may be paid in a lump sum upon petition as provided in Section 9 of this Act. However, in addition to the benefits provided by Section 9 of this Act where compensation for death is payable to the deceased's widow, widower or to the deceased's widow, widower and one or more children, and where a partial lump sum is applied for by such beneficiary or beneficiaries within 18 months after the deceased's death, the Commission may, in its discretion, grant a partial lump sum of not to exceed 100 weeks of the compensation capitalized at their present value upon the basis of interest calculated at 3% per annum with annual rests, upon a showing that such partial lump sum is for the best interest of such beneficiary or beneficiaries.

(h) In case the injured employee is under 16 years of age at the time of the accident and is illegally employed, the amount of compensation payable under paragraphs (a), (b), (c), (d), and (f) of this Section shall be increased 50%.

Nothing herein contained repeals or amends the provisions of the Child Labor Law of 2024 relating to the employment of minors under the age of 16 years.

However, where an employer has on file an employment certificate issued pursuant to the Child Labor Law of 2024 or work permit issued pursuant to the Federal Fair Labor Standards Act, as amended, or a birth certificate properly and duly issued, such certificate, permit or birth certificate is conclusive evidence as to the age of the injured minor employee for the purposes of this Section only.

(i) Whenever the dependents of a deceased employee are noncitizens not residing in the United States, Mexico or Canada, the amount of compensation payable is limited to the beneficiaries described in paragraphs (a), (b)1 and (c) of this Section and is 50% of the compensation provided in paragraphs (a), (b)1 and (c) of this Section, except as otherwise provided by treaty.

In a case where any of the persons who would be entitled to compensation is living at any place outside of the United States, then payment shall be made to the personal representative of the deceased employee. The distribution by such personal representative to the persons entitled shall be made to such persons and in such manner as the Commission orders.
