Sec. 311.6. Prescriptions for substance classified in Schedule II, III, IV, or V sent electronically; exceptions
~~Opioid prescriptions.~~

(a) Notwithstanding any other provision of law, a prescription for a substance classified in Schedule II, III, IV, or V must be sent electronically, in accordance with Section 316. Prescriptions sent in accordance with this subsection (a) must be accepted by the dispenser in electronic format.

(b) Beginning on January 1, 2024 (the effective date of Public Act 103-425) ~~this amendatory Act of the 103rd General Assembly~~ until December 31, 2028, notwithstanding any other provision of this Section or any other provision of law, a prescriber shall not be required to issue prescriptions electronically if he or she certifies to the Department of Financial and Professional Regulation that he or she will not issue more than 150 prescriptions during a 12-month period.

Prescriptions in both oral and written form for controlled substances shall be included in determining whether the prescriber will reach the limit of 150 prescriptions. Beginning January 1, 2029, notwithstanding any other provision of this Section or any other provision of law, a prescriber shall not be required to issue prescriptions electronically if he or she certifies to the Department of Financial and Professional Regulation that he or she will not issue more than 50 prescriptions during a 12-month period. Prescriptions in both oral and written form for controlled substances shall be included in determining whether the prescriber will reach the limit of 50 prescriptions.

(b-5) Notwithstanding any other provision of this Section or any other provision of law, a prescriber shall not be required to issue prescriptions electronically under the following circumstances:

(2) on and after January 1, 2026, the prescriber provides proof of a waiver from the Centers for Medicare and Medicaid Services for the Electronic Prescribing for Controlled Substances Program due to demonstrated economic hardship for the previous compliance year;

(3) there is a temporary technological or electrical failure that prevents an electronic prescription from being issued;

(B) is receiving hospice or palliative care;

(C) is receiving care at an outpatient renal dialysis facility and the prescription is related to the care provided;

a public health emergency or other circumstance in which the practitioner may issue a non-patient specific prescription;

(8) the prescription is issued when the prescriber and dispenser are the same entity;

(9) the prescription is issued for a compound prescription containing 2 or more compounds; or

(e) Any pharmacist who dispenses in good faith based upon a valid prescription that is not prescribed electronically may be exempt from any disciplinary action. A pharmacist is not required to ensure or responsible for ensuring the prescriber's compliance under subsection (b), nor may any other entity or organization require a pharmacist to ensure

the prescriber's compliance with that subsection. A pharmacist may not refuse to fill a valid prescription solely because it is not prescribed electronically.

(f) It shall be a violation of this Section for any prescriber or dispenser to adopt a policy contrary to this Section.

(g) A compliance action with respect to this Section initiated by the Department of Financial and Professional Regulation prior to December 31, 2030 is limited to a non-disciplinary warning letter or citation, unless the prescriber or dispenser fails to abide by the initial non-disciplinary warning letter or citation, has acted in bad faith, or a pattern of practice in violation of this Section occurs.
