

# FEDERAL FUNDS TO STATE AGENCIES FY 2017-2019

*August 2019*

ILLINOIS GENERAL ASSEMBLY  
**COMMISSION ON GOVERNMENT  
FORECASTING AND ACCOUNTABILITY**

## COMMISSION OVERVIEW

The Commission on Government Forecasting & Accountability is a bipartisan legislative support service agency responsible for advising the Illinois General Assembly on economic and fiscal policy issues and for providing objective policy research for legislators and legislative staff. The Commission's board is comprised of twelve legislators—split evenly between the House and Senate and between Democrats and Republicans. Effective December 10, 2018, pursuant to P.A. 100-1148 the former Legislative Research Unit was merged into the Commission.

The Commission has three internal units—Revenue, Pensions, and Research, each of which has a staff of analysts and researchers who analyze policy proposals, legislation, state revenues & expenditures, and benefit programs, and who provide research services to members and staff of the General Assembly. The Commission's staff fulfills the statutory obligations set forth in the Commission on Government Forecasting and Accountability Act (25 ILCS 155/), the State Debt Impact Note Act (25 ILCS 65/), the Illinois Pension Code (40 ILCS 5/), the Pension Impact Note Act (25 ILCS 55/), the State Facilities Closure Act (30 ILCS 608/), the State Employees Group Insurance Act of 1971 (5 ILCS 375/), the Public Safety Employee Benefits Act (820 ILCS 320/), the Legislative Commission Reorganization Act of 1984 (25 ILCS 130/), and the Reports to the Commission on Government Forecasting and Accountability Act (25 ILCS 110/).

- The Revenue Unit issues an annual revenue estimate, reports monthly on the state's financial and economic condition, and prepares bill analyses and debt impact notes on proposed legislation having a financial impact on the State. The Unit publishes a number of statutorily mandated reports, as well as on-demand reports, including the Monthly Briefing newsletter and annually, the Budget Summary, Capital Plan Analysis, Illinois Economic Forecast Report, Wagering in Illinois Update, and Liabilities of the State Employees' Group Insurance Program, among others. The Unit's staff also fulfills the agency's obligations set forth in the State Facilities Closure Act.
- The Pension Unit prepares pension impact notes on proposed pension legislation and publishes several statutorily mandated reports including the Financial Condition of the Illinois State Retirement Systems, the Financial Condition of Illinois Public Pension Systems and the Fiscal Analysis of the Downstate Police & Fire Pension Funds in Illinois. The Unit's staff also fulfills the statutory responsibilities set forth in the Public Safety Employee Benefits Act.
- The Research Unit primarily performs research and provides information as may be requested by members of the General Assembly or legislative staffs. Additionally, the Unit maintains a research library and, per statute, collects information concerning state government and the general welfare of the state, examines the effects of constitutional provisions and previously enacted statutes, and considers public policy issues and questions of state-wide interest. Additionally, the Unit publishes First Reading, a quarterly newsletter which includes abstracts of annual reports or special studies from other state agencies, the Illinois Tax Handbook for Legislators, Federal Funds to State Agencies, various reports detailing appointments to State Boards and Commissions, the 1970 Illinois Constitution Annotated for Legislators, the Roster of Illinois Legislators, and numerous special topic publications.

# Federal Funds to State Agencies

**FYs 2017–2019**

*Annual Report to the Illinois General Assembly*

*Publication No. 443*

**August 2019**

*Prepared by*

Kathleen M. Hazelwood, Federal Aid Coordinator

*Proofing*

Amy Barry, Research Unit Manager

Jonathan Wolff, Associate Research Unit Manager

The Commission on Government Forecasting and Accountability compiled the information in this volume from a comprehensive survey of all Illinois state agencies. The publication of *Federal Funds to State Agencies, FYs 2017-2019* would not have been possible without the cooperation and support of many program managers, budget analysts, and state agency directors. Although it is not possible to list every individual's name, we are grateful to all for their contribution.

## **Foreword**

The *Illinois Compiled Statutes* require the Commission on Government Forecasting and Accountability to compile and maintain information on federal aid programs administered by Illinois state agencies, and to report to the Illinois General Assembly on those programs. *Federal Funds to State Agencies, FYs 2017-2019*, the twenty-eighth edition of this report, is submitted by the Commission on Government Forecasting and Accountability to fulfill this responsibility.

This edition includes program descriptions and outlay information, as well as sections to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table indicates which state programs are supported and what areas and populations of Illinois are served by the federal grants.

It is the hope of the Commission on Government Forecasting and Accountability that this handbook will be a useful resource for legislators in enhancing their understanding of federal assistance.

Clayton Klenke  
Executive Director

## INTRODUCTION

The Commission on Government Forecasting and Accountability, a bipartisan support services agency of the Illinois General Assembly, has a responsibility of serving as the “. . . information center for the General Assembly in the field of federal-state relations, . . . and compiling and maintaining current information on available and pending federal aid programs.” (25 ILCS 130/4-2.1) In meeting this responsibility, the Commission on Government Forecasting and Accountability records and tracks applications for, and awards of, federal grants to state agencies. In addition, the Commission on Government Forecasting and Accountability conducts an annual survey designed to identify federal funds received by Illinois state agencies.

This *Federal Funds to State Agencies* report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that are received by state agencies. It augments the information provided in the Commission on Government Forecasting and Accountability’s weekly reports of federal fund transactions by listing federal aid awards on a state or federal fiscal year basis and including descriptive program information. Weekly reports and quarterly reports are available on the Commission on Government Forecasting and Accountability website. This report is designed to help legislators and legislative staff develop a clearer understanding of the federal programs used by Illinois state agencies, and of the levels at which those programs are funded.

The Commission on Government Forecasting and Accountability is also required to report annually to the General Assembly on the adequacy of state agency participation in programs financed by federal aid and the nature of federal aid programs in which state agencies or local governments did not participate, and to make recommendations. (25 ILCS 130/4-2.1(c))

### **Adequacy of Participation in Federal Aid Programs**

Each state agency, in its budgetary process with the General Assembly, reports evaluation and funding data as required. Through this process, the General Assembly receives information on the adequacy of programs financed by federal aid in the state. The Commission on Government Forecasting and Accountability, as requested or assigned by members of the General Assembly, produces special reports relative to federal funds.

### **Identification of New Federal Funds (Types and Nature of Programs Not Applied for)**

The Commission on Government Forecasting and Accountability works with the Illinois Federal Clearinghouse in the Governor’s office to identify and make information available on federal aid programs that may provide resources for state agencies and local governments. Extensive Clearinghouse information, including referrals to the Commission on Government Forecasting and Accountability’s publications, such as *Grant Alerts*, is available on the Commission on Government Forecasting and Accountability website. *Grant Alerts* is also published monthly and e-mailed to potential grant users throughout the state.

### **Recommendations**

The Commission on Government Forecasting and Accountability will make recommendations as deemed appropriate.

## Overview

Illinois state agencies received federal funds from 317 programs in FY 2019, 1 of which is a program supported by American Recovery and Reinvestment Act of 2009 (ARRA) funds.

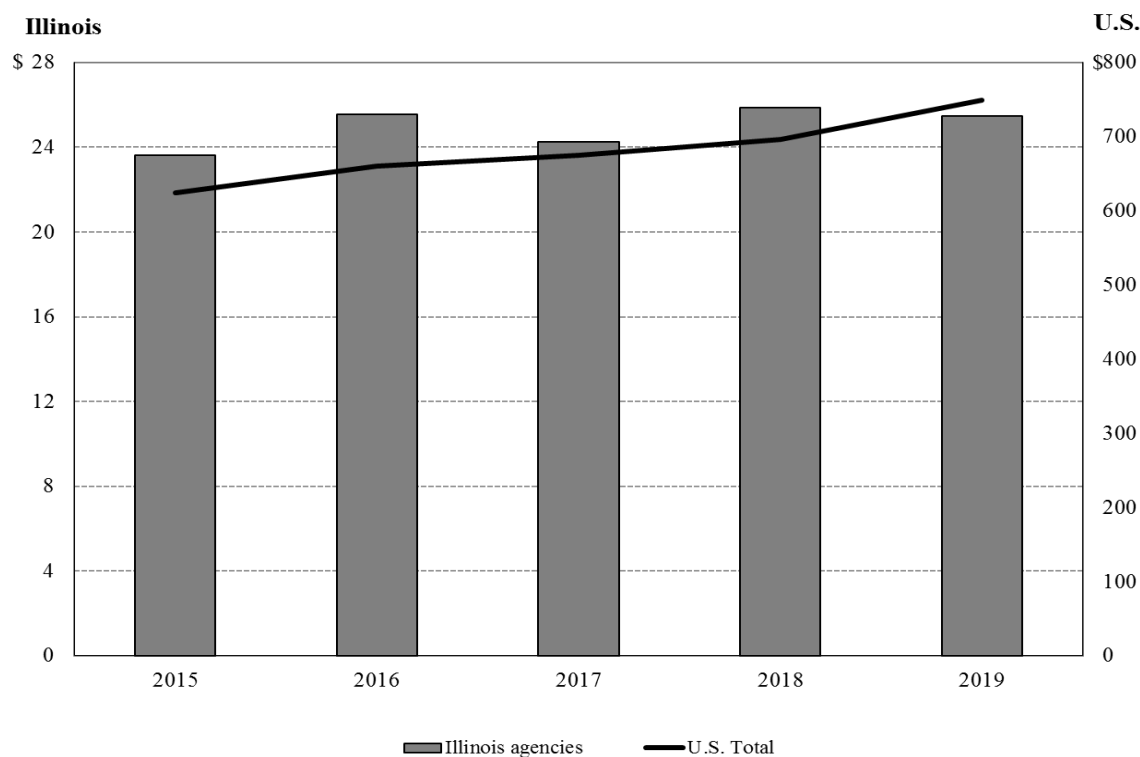

Table 1 and Figure 1 below show the total amounts of federal funds that Illinois agencies reported in each year from 2015 to 2018, and the combined estimate for 2019. They also show the total federal outlays (payments) for grants to state and local governments for the same years, as reported in the President’s federal fiscal year 2020 budget.

**Figure 1: Federal Funds Received by Illinois State Agencies and Total Federal Grants to State and Local Governments, 2015-2019 (billions)**

In FY 2019, awards received by state agencies are estimated to be about \$364 million below the FY 2018 awards. Program details are summarized in Appendix B.

Some of the major increases in federal funds from FY 2018 to FY 2019 include the Criminal Justice Information Authority’s Crime Victim Assistance, the Department of Healthcare and Family Services’ Medical Assistance Program, and the Environmental Protection Agency’s Capitalization Grants for Clean Water State Revolving Funds.

Programs with substantial reductions include the Department of Healthcare and Family Services’ Children’s Health Insurance Program, the Department of Human Services’ Special Supplemental Nutrition Program for Women, Infants, and Children, and the Department of Transportation’s Highway Planning and Construction.

**Using This Handbook**

The federal programs in this handbook were included if the federal funds were received directly from the federal government or a non-state agency (such as a consortium of states that receive federal monies for a particular project or a national study group that pays the state agency for research or services). Programs in which a state agency received funds from another state agency (subgrants) have been excluded to avoid “double counting,” or falsely inflating the dollar totals. However, Appendix C on subgrants shows the flow of federal funds from some state agencies to others.

The Table of Contents lists the federal programs used by state agencies from FY 2017 through FY 2019. This table shows the location of the federal program descriptions, as well as which federal programs are used by each state agency. Tables showing federal aid award totals by state agency are appended. Each agency’s programs are listed by the numbers assigned by the U.S. Office of Management and Budget in its *Catalog of Federal Domestic Assistance* (CFDA). Descriptions of each program include the proper name, program description (objectives and services provided or supported), formula description, matching requirements, account identification number (federal), and a table illustrating the outlays to Illinois for FY 2017 and FY 2018, and estimated receipts in FY 2019.

This *Federal Funds to State Agencies* handbook contains two sections of state information to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the fund(s) used for depositing the federal grants, and tables show which state programs are supported and what areas and populations of Illinois are served by the federal grants. (See the example below.)

<b>State Programs Supported</b>	<b>Pop. Served</b>	<b>Area</b>
Empowerment Zone – Chicago	501	Distressed & poverty areas of Chicago
One-Call Enforcement Program	General	Statewide
Performance Partnership Grant	12,860,000	Statewide

Descriptions of the federal programs include their proper names, common names (where appropriate), and five-digit identifying numbers (CFDA numbers). Each CFDA number identifies a federal program and the administering federal agency. In a few instances, in which federal programs are not listed in the *Catalog of Federal Domestic Assistance*, the CGFA has assigned a unique identifying number. CFDA numbers are arranged in ascending order. The list on the following page shows the basic numbering scheme and the corresponding federal agencies. The program description and the formula descriptions come from the CFDA website which has been updated to <https://beta.sam.gov>.

## Information Sources

The basic sources for the fiscal data included in the *Federal Funds to State Agencies* report are the Commission on Government Forecasting and Accountability's annual federal aid surveys, which have examined the use of federal funds by Illinois state agencies from FY 1973 until the present. The fiscal information is supplied directly by the state agencies, and it is assumed the figures are supplied in good faith and are substantially correct. The primary source for the program descriptive information is the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*.

**16.593 RESIDENTIAL SUBSTANCE ABUSE TREATMENT FOR STATE PRISONERS**

**Program Description:** The program provides grants to assist states and local governments in the development and implementation of substance use treatment programs in state, local, and tribal correctional and detention facilities. Funds are also available to create and maintain community reintegration for individuals after they are released from incarceration. The programs must last between 6 and 12 months; be provided in residential treatment facilities set apart from the general correctional population; focus on the substance abuse problems of the inmate; and develop the inmate’s social, behavioral, vocational, and cognitive skills to solve the substance abuse and related problems. Grant funds shall not be used for construction projects or land acquisitions.

**Formula Description:** Each participating state is allocated a base amount of 0.4% of the total funds available for the program. The remaining funds are allocated to each participating state in the ratio its prison population bears to the total prison population of all participating states. The most recent National Prisoner Statistics collected by the Bureau of Justice Statistics are used for making these allocations. The federal share of a grant-funded project may not exceed 75% of the total costs of the project. The 25% matching funds must be in the form of a cash match.

### 10.560 STATE ADMINISTRATIVE EXPENSES FOR CHILD NUTRITION

**Program Description:** The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that conduct child nutrition programs. State agencies that administer the distribution of USDA-donated commodities to schools, or child- or adult-care institutions, are also eligible for funding.

**Formula Description:** For the National School Lunch Program, School Breakfast Program, and Special Milk Program, states receive 1% of the total funds used in the state during the second preceding year, based on program and fiscal data. However, no state receives less than \$200,000 or the amount received in fiscal year FY 1981, whichever is larger. For the Child and Adult Care Food Program, a sliding grant is based on program and fiscal data. (The Secretary of Agriculture may provide additional funds to states for program improvement based on program and fiscal data.) Matching requirements are not applicable to this program.

**66.605 PERFORMANCE PARTNERSHIP GRANTS**

**Program Description:** The program provides modified block grants to states and tribes to address multiple environmental priorities. Performance Partnership Grants allow states to reduce administrative costs, direct resources to the highest priority problems, and support cross-media approaches and initiatives by combining any of the 20 eligible categorical grants into a single budget. The ongoing goals of the program are strengthening partnerships; providing flexibility to states, tribes, and interstate agencies; linking activities with goals and outcomes; fostering innovative approaches; and providing savings by streamlining administrative requirements.

**Formula Description:** Allocations consist of the cumulative allocations for categorical grants included in the program. Recipients calculate a single cost-share based on the match or maintenance of effort requirements of the categorical grants included. This program has no statutory formula.

### 93.778 **MEDICAL ASSISTANCE PROGRAM**

The program (referred to as Medicaid) provides funds under two categories. Each is presented separately below to provide as much detail as possible concerning the purpose, formula, and funding for the various units of this program.

#### **(1) MEDICAID VENDOR PAYMENTS**

**Program Description:** Authorized under Title XIX of the Social Security Act, Medicaid provides financial assistance to states for the provision of medical care to low-income individuals and others who may be eligible (pregnant women, infants, children, or the elderly), as defined by age and poverty criteria. Certain services must be provided by states for the categorically needy or the medically needy. Federal funds are awarded to a designated state Medicaid agency, and recipients must meet state requirements.

**Formula Description:** Funds are awarded based on a state's Federal Medical Assistance Percentage, which ranges from 50% to 83%. The percentage is determined by a state's medical expenditures and personal income relative to the national average for the three preceding years. There is a maintenance of effort requirement.

**93.596 CHILD CARE MANDATORY AND MATCHING FUNDS OF THE CHILD CARE AND DEVELOPMENT FUND**

The program provides funds under two categories. Each of these categories is presented separately below in order to show the different funding formula for each part.

**(1) CHILD CARE MANDATORY**

**Program Description:** Along with related programs, the program makes grants to states to provide child care assistance to low-income families. It is designed to: (1) allow maximum state flexibility; (2) promote parental choice in child care; (3) encourage states to provide consumer education for parents; (4) help states provide child care to parents trying to gain independence from public assistance; (5) help states implement related programs by implementing the health, safety, licensing, training, and oversight standards; (6) improve child care and development of participating children; and (7) increase the number and percentage of low-income children in high-quality child care settings.

**Formula Description:** Mandatory funds are allocated based on the federal share of expenditures for the now-repealed Aid to Families With Dependent Children (AFDC)-linked child care programs in 1994, 1995, or the average of 1992-1994, whichever is greater.

### ***10.676 FOREST LEGACY PROGRAM***

**Program Description:** The program provides grants to protect and conserve environmentally important forest areas threatened by conversion to nonforest uses through conservation easements or fee-simple purchase. The Forest Legacy Program is a voluntary private land conservation partnership between the Forest Service, participating states, land trusts, private landowners, and others. The program works with state partners and operators on a “willing seller and willing buyer” basis and is completely non-regulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this program.

**Formula Description:** Federal contributions cannot exceed 75% of the total project costs, and at least 25% of a non-federal cost share is required. The non-federal cost share may consist of funds, donations, land or interests in land, in-kind contributions, direct costs, indirect costs, and others as determined by the Forest Service. Funds will be provided to states on a per-project basis, as determined by the annual appropriations. This program has no statutory formula.

### ***10.680 FOREST HEALTH PROTECTION***

**Program Description:** The program is designed to: (1) protect non-federal forest and tree resources from damaging forest insects, disease-causing agents, and invasive plants; (2) develop and improve forest health protection technologies; and (3) monitor the health of our nation's forests. Part of the goal is to help support a base level of professional forest health expertise for non-federal forest land managers. A variety of monitoring, research, development, recommendation, and assistance activities are supported.

**Formula Description:** Grants are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states, and other factors. Applicant matching is required and is usually about 50% of project costs, but federal funds will cover all costs if federal lands will be treated as part of a cooperative project or program. Matching rates may be adjusted in emergency or extraordinary situations.

**11.407 INTERJURISDICTIONAL FISHERIES ACT OF 1986**

**Program Description:** The program provides grants used for research and enforcement of inter-jurisdictional fishery resources, for the development of fishery management plans, and for the restoration of resources damaged by a natural resource disaster.

**Formula Description:** This program has no statutory formula. Apportionment to states is based on average value and volume of raw fish landed by domestic commercial fishers. No state that qualified for funding may receive less than ½ of 1% or more than 6% of funds appropriated in any fiscal year based on conditions of the Act. Federal funding is not to exceed 75% of approved project costs, except where a project supports an approved interstate or federal fishery management plan, in which case up to 90% federal funding may apply. The statistical factors used for fund allocation are (1) the three-year average of the value of commercial fish landed (according to “Fishery Statistics of the U.S.”), and (2) the volume of fish landed (according to “Fishery Statistics of the U.S.”). There are no matching requirements for commission grants.

### ***15.634 STATE WILDLIFE GRANTS***

**Program Description:** The program is designed to develop and implement projects that benefit wildlife and fish, and their habitats, including species that are not hunted or fished. Priority is placed on projects that benefit species of the greatest conservation concern.

**Formula Description:** Matching requirements: SWG-formula planning grants require 25% matching, with the federal share not to exceed 75% of total costs; implementation grants require 35% matching, with the federal share not to exceed 65% of total costs; SWG competitive grants require 25% matching, with the federal share not to exceed 75% of total costs. The Secretary must apportion the remaining amount in the following manner: one-third percent based on the ratio the land area of such a state bears to the total land area of all such states; and two-thirds percent based on the ratio the population of such a state bears to the total populations of all such states. The amounts apportioned under this paragraph must be adjusted equitably so that no state is apportioned a sum of less than 1% of the amount available for apportionment under this paragraph for any fiscal year, or more than 5% of such an amount.

**15.916 OUTDOOR RECREATION—ACQUISITION, DEVELOPMENT, AND PLANNING**

**Program Description:** The program provides grants to help states and local governments prepare Statewide Comprehensive Outdoor Recreation Plans (SCORPs) and acquire and develop outdoor recreation areas and facilities for the general public, to meet current and future needs. Basic, rather than elaborate, facilities are favored. Grants are also available for SCORP revisions and updates.

**Formula Description:** Each year, states and territories receive an overall allocation of funds based on a statutory formula. Depending on the amount appropriated by Congress, a certain percentage is split equally among states. The remaining percentage is apportioned on the basis of need. The Land and Water Conservation Fund Act requires that the share of federal funds not exceed 50% of the total project cost. Generally, match must be derived from state, local, or private sources, but under certain conditions all or part of the project sponsor’s matching share may be from other federal assistance programs, such as community development block grants, when such use is allowable under the other programs sponsoring legislation. Otherwise, no other federal funds may be applied to the project cost, even if all matching requirements are met.

**93.069 PUBLIC HEALTH EMERGENCY PREPAREDNESS**

**Program Description:** The program provides a critical source of funding, guidance, and technical assistance to state, local, and territorial and local public health departments. Preparedness activities funded by the program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards, including infectious disease outbreaks, natural disasters, and biological, chemical, and radiological incidents and explosions. To help public health departments with their strategic planning, the CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards.

**Formula Description:** This program has a no statutory formula. Awardees must maintain expenditures for healthcare preparedness and public health security at a level that is not less than the average level of such expenditures maintained by the awardee for the preceding two-year period.

**93.354 PUBLIC HEALTH CRISIS RESPONSE AWARDS\***

**Program Description:** The program provides grants to fund state, local and territorial public health departments for secretarial declared and non-declared public health emergencies having an overwhelming impact on jurisdictional resources. These emergencies require federal support to effectively respond to, manage, and address a significant public health threat. CDC seeks to enhance the Nation’s ability to rapidly mobilize and respond to specific public health crises or emergencies. In addition to immediate response activities, this program provides a mechanism to accelerate readiness for an impending infectious disease threat or other public health crises identified on the event horizon.

**93.815 DOMESTIC EBOLA SUPPLEMENT TO THE EPIDEMIOLOGY AND LABORATORY CAPACITY FOR INFECTIOUS DISEASES (ELC)**

**Program Description:** The program provides funds to address priority domestic capacity-building around Ebola and other emerging and high-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, global migration, border interventions, and migrant health; and (2) aligns with ELC’s existing purpose, which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent, and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

**20.106 AIRPORT IMPROVEMENT PROGRAM**

**Program Description:** The program provides funds to assist sponsors, owners, or operators of public-use airports in the development of a nationwide system of airports adequate to meet the needs of civil aeronautics. The purpose of the law includes the investment in transportation, environmental protection, and airport infrastructure that will support long-term economic benefits. Grants can be made for integrated airport system planning in a specific area, and airport master planning, construction, improvement, or repair of public-use airports. Funds are available for planning, land acquisition, site preparation, construction, alteration or repair, and terminal development. Funds may also be used for operational, safety, and required security equipment.

**Formula Description:** This program has no statutory formula, but funds are allocated based on the number and type of airports in each state; additional funds are available on a discretionary basis. The local match, between 10% and 25%, is determined by a variety of factors. Select pilot studies under the program may have a local match of 50%.

### **20.219 RECREATIONAL TRAILS PROGRAM**

**Program Description:** The program provides funds to help states develop and maintain recreational trails and trail-related facilities for both motorized and non-motorized recreational trail uses.

**Formula Description:** Recreational trail program funds may be used to match other federal funds if the project also is eligible under the other program. States also may allow a programmatic match; if some project sponsors in a state provide more match funds than required, other sponsors in the state may provide less. Some may allow some pre-approval planning and environmental assessment costs toward the project match.

### **20.500 FEDERAL TRANSIT—CAPITAL INVESTMENT GRANTS**

**Program Description:** The program assists in federal government’s primary financial resource for supporting transit capital projects that are locally planned, implemented, and operated. The majority of the projects are fixed-guideway transit projects, meaning they use or occupy a separate right-of-way, such as rails, catenaries, or exclusive bus lanes. This includes rapid rail, light rail, streetcar, commuter rail, and bus rapid transit (BRT). However, ferry projects and corridor-based BRT projects that do not use an exclusive bus lane but have other characteristics similar to rail transit service are also eligible. Note that, under prior authorizations, this section also included eligibility for the Bus and Bus Facilities and Fixed Guideway Modernization Programs. Although these programs are no longer under this section (repealed), a residual amount of funding allocated under previous authorizations may be obligated in grants using that authority.

**Formula Description:** Funds for the Capital Investment Grant program are allocated on a discretionary basis. By law, a grant may be made of up to 80% of net project cost.

**20.505 METROPOLITAN TRANSPORTATION PLANNING AND STATE AND NON-METROPOLITAN PLANNING AND RESEARCH**

**Program Description:** The program provides funding to assist the development of metropolitan and state transportation improvement programs, long-range transportation plans, and other technical studies in a program for a unified and officially coordinated Statewide Transportation System and Metropolitan Transportation System(s) within the state. As a result of this coordinated effort, the former CFDA # 20.515 has been discontinued. The CFDA incorporates both the Statewide Transportation System and the Metropolitan Transportation System into one CFDA number.

**Formula Description:** The matching requirements vary. Funds obligated for state and metropolitan planning are granted an 80% percent federal, 20% percent local, ratio. In addition, funds can be transferred from the Federal Highway Administration to form Consolidated Planning Grants, which permit a higher federal match for metropolitan funds.

**20.509 FORMULA GRANTS FOR RURAL AREAS**

**Program Description:** The program provides funding to improve, initiate, or continue public transportation service in non-urbanized areas, rural areas, and small cities under 50,000 in population, as well as to provide technical assistance for rural transportation providers. The Section 5311 program supports both the maintenance of existing public transportation services and the expansion of those services through the following program goals: enhancing access in rural areas to healthcare, shopping, education, employment, public services, and recreation; assisting in the maintenance, development, improvement, and use of public transportation systems in rural areas; encouraging and facilitating the most efficient use of all transportation funds used to provide passenger transportation in rural areas through the coordination of programs and services;

providing financial assistance to help carry out national goals related to mobility for all, including seniors, individuals with disabilities, and low-income individuals; increasing availability of transportation options through investments in intercity bus services; assisting in the development and support of intercity bus transportation; encouraging mobility management, employment-related transportation alternatives, joint development practices, and transit-oriented development; and providing for the participation of private transportation providers in rural public transportation.

**Formula Description:** The program operates under the statutory formula prescribed in 49 U.S.C. 5335. The federal share is not to exceed 80% of the net project cost for capital projects. The federal share may be 90% for the cost of vehicle-related equipment attributable to compliance with the Americans with Disabilities Act and the Clean Air Act, or 85% for the cost of a vehicle that complies with these requirements. The federal share may also be 90% for projects or portions of projects related to bicycle facilities. The federal share may not exceed 50% of the net cost for operating assistance. Recipients may use up to 20% of the amounts apportioned under Section 5311 for ADA complementary paratransit at an 80% federal share if certain conditions are met. Under the Tribal Transit Program, there is no match for formula grants. Under the Tribal Transit Discretionary Program, there is a 10% match requirement.

### ***20.513 ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS WITH DISABILITIES***

**Program Description:** The program provides financial assistance in meeting the transportation needs of seniors and individuals with disabilities where public transportation services are unavailable, insufficient, or inappropriate. The Section 5310 program is designated to supplement the FTA’s other capital assistance programs by funding transportation projects for seniors and individuals with disabilities in all areas—urbanized, small urban, and rural. While the New Freedom Program was repealed, the goals of the New Freedom Program have been incorporated into the Section 5310 program, which funds alternative forms of transportation where traditional services are unavailable, inappropriate, or insufficient. Funds can be used for capital, planning, and operations.

**Formula Description:** This program has no statutory formula. Matching requirements are 80%, and Section 5310 funds may be used to finance capital and operating expenses. The federal share of eligible capital costs may not exceed 80% of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50% of the net operating costs of the activity. Recipients may use up to 10% of their apportionment to support program administrative costs, including administration, planning, and technical assistance, which may be funded at 100% federal share. Funds for the program are allocated among the states and large urbanized areas by a formula based on the population of elderly persons and persons with disabilities in each state according to the latest U.S. Census population figures.

### **20.521 NEW FREEDOM PROGRAM**

**Program Description:** The program provides grants for the New Freedom Program (Section 5317) for new capital and operating projects aimed at reducing, beyond the requirements of the Americans with Disabilities Act of 1990, transportation barriers faced by individuals with disabilities to expand mobility through transportation, including transportation to and from jobs and employment support services.

**Formula Description:** This program has no statutory formula. New Freedom funds may be used to finance capital and operating expenses. The federal share of eligible capital and planning costs may not exceed 80% of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50% of the net operating costs of the activity. Recipients may use up to 10% of their apportionment to support program administrative costs, including administration, planning, and technical assistance, which may be funded at 100% federal share. The local share of eligible capital and planning costs shall be no less than 20% of the net cost of the activity, and the local share for eligible operating costs shall be no less than 50% of the net operating costs.

**20.528 RAIL FIXED GUIDEWAY PUBLIC TRANSPORTATION SYSTEM STATE SAFETY OVERSIGHT FORMULA GRANT PROGRAM**

**Program Description:** The program provides improvement to public transportation safety by assisting states with the financing of safety oversight of rail fixed guideway public transportation systems in the jurisdiction of the state not regulated by the Federal Railroad Administration. A final rule was published on March 16, 2016 that will enhance the State Safety Oversight Program. The final rule will replace the current State Safety Oversight (SSO) rule, which will be rescinded no later than three years following the effective date of this rule.

**Formula Description:** Matching funds shall include in-kind contributions by an eligible state. The non-federal share may not be met by any federal funds, any funds received from a public transportation agency, or any revenues earned by a public transportation agency. Matching requirements are 80% federal and 20% state.

**14.235 SUPPORTIVE HOUSING PROGRAM**

**Program Description:** The program provides funds to promote the development of supportive housing and services that help homeless persons and families in the transition from homelessness and allow them to live as independently as possible. Funds may be used for transitional, supportive, or permanent housing; safe havens for homeless individuals with serious mental illness; and other support services. Specific uses are listed, including buying, rehabilitating, or building businesses; operating programs; or implementing a management information system.

**Formula Description:** This program has no statutory formula. Recipients must match grants for acquisition, rehabilitation, and new construction, with an equal amount of funds from other sources. Recipients must also provide a cash match for support services and operations. The Supportive Housing Program will pay no more than 80% of total support service costs, 75% of total operating costs, or 80% of total HMIS costs. Recipients have the responsibility to ensure that the funds that the recipient used to satisfy HUD's match requirements are not prohibited to be used for this purpose under any statute that may govern the matching funds.

### **97.067 HOMELAND SECURITY GRANT PROGRAM**

**Program Description:** The program provides FY 2017 funds to support state, local, and tribal efforts to prevent terrorism and other catastrophic events, and to prepare the nation for the threats and hazards that pose the greatest risk to the security of the United States. It has three interconnected grant programs: (1) State Homeland Security Program, to support the implementation of state strategies; (2) Urban Areas Security Initiative, to help address the unique needs of high-threat, high-density urban areas; and (3) Operation Stonegarden. Together these grant programs fund a range of activities, including planning, organization, equipment purchase, training, exercises, and management and administration across all core capabilities and mission areas.

**Formula Description:** Funds are awarded based on three factors: minimum amounts as legislatively mandated; Department of Homeland Security’s risk methodology; and anticipated effectiveness based on the strength of the investment justification. This program has no matching requirements.

### **66.034 SURVEYS, STUDIES, RESEARCH, INVESTIGATIONS, DEMONSTRATIONS, AND SPECIAL PURPOSE ACTIVITIES RELATING TO THE CLEAN AIR ACT**

**Program Description:** The program provides grants to support research, surveys, investigations, demonstrations, and special purpose assistance relating to the causes; effects, including health and welfare effects; extent; prevention; and control of air pollution to include such topics as air quality, acid deposition, global programs, indoor environments, radiation mobile source technology, and community-driven approaches to transportation and emissions reduction. Projects should also focus on addressing environmental justice concerns in communities, and include the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

**Formula Description:** This program has no statutory formula or regulatory cost-sharing requirement; however, as a matter of policy, the agency may impose a cost-sharing requirement in specific competitions.

### **66.040 STATE CLEAN DIESEL GRANT PROGRAM**

**Program Description:** The program provides funds for states to develop and implement grant and low-cost revolving loan programs in the state as are appropriate to meet state needs and goals relating to the reduction of diesel emissions. Projects should focus on promoting environmental justice. Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

**Formula Description:** This program has a statutory allocation formula. There is no statutory match requirement for this program. Program guidance may restrict the eligibility and amount of grant funds that may be used for certain types of projects. FY 2018 programmatic policy guidance requires a mandatory match for certain type of projects (engine upgrades, idle reduction technologies, engine replacements, vehicle/equipment replacements, and alternative fuel conversions).

#### **66.419 WATER POLLUTION CONTROL STATE, INTERSTATE, AND TRIBAL PROGRAM SUPPORT**

**Program Description:** The program helps states and interstate agencies establish and maintain adequate measures for the prevention and control of surface and groundwater pollution from both point and nonpoint sources. In FY 2018, states and tribes will continue to focus on fulfilling their basic responsibilities under the Clean Water Act based upon a shared understanding with the EPA of the environmental progress expected, and will identify program activities that will best support attaining targeted environmental improvements.

**Formula Description:** Funds are allocated based on the extent of pollution problems in states, using at least 6 components. Surface water areas, groundwater use, water quality impairment, point sources, nonpoint sources, and population of urbanized areas. The set-aside for Interstate Water Pollution Control Agencies is 2.6% of the total state monies appropriated under Section 106. The interstate allotment formula consists of a funding floor and a variable portion.

**Program Description:** The program provides grants for the creation of state revolving funds to provide financing for wastewater treatment facilities and other water quality management activities. Up to 4% of the grant may be used for administration. The maximum percentage that may be provided as an additional subsidy will range from 0% to 30% based on the amount of the total appropriation. Specific priorities may vary from year to year.

**Formula Description:** Funds are awarded based on a table of decimal fractions in Section 205(c)(3) of the federal Clean Water Act. The required state match is 20% of the amount of each federal grant payment. For Recovery Act funds, the required state match is 20% of the amount of each federal grant payment is waived.

**66.468 CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS**

**Program Description:** The program provides grants to capitalize states' drinking water revolving funds, which will provide a long-term source of financing for the costs of drinking water infrastructure. In FY 2017, the funding priorities established by the SDWA are requirements to protect public health and assist systems with economic need. A state may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. The program supports the agency's strategic goal of ensuring clean and safe water.

**Formula Description:** State allotments are based on the proportional share of total eligible needs reported for the most recent drinking water infrastructure needs survey. The minimum proportional share that each state can receive is 1% of total funds available to states.

**66.605 PERFORMANCE PARTNERSHIP GRANTS**

**Program Description:** The program provides modified block grants to states and tribes to address multiple environmental priorities. Performance Partnership Grants allow states to reduce administrative costs, direct resources to the highest priority problems, and support cross-media approaches and initiatives by combining any of the 20 eligible categorical grants into a single budget. The ongoing goals of the program are strengthening partnerships; providing flexibility to states, tribes, and interstate agencies; linking activities with goals and outcomes; fostering innovative approaches; and providing savings by streamlining administrative requirements.

**Formula Description:** Allocations consist of the cumulative allocations for categorical grants included in the program. Recipients calculate a single cost-share based on the match or maintenance of effort requirements of the categorical grants included. This program has no statutory formula.

**45.310 GRANTS TO STATES**

**Program Description:** The Institute of Museum and Library Services Program consolidates federal library services programs designed to improve services, facilitate access to resources, and encourage resource sharing among all types of libraries. Grants are available to state library administrative agencies, which may spend the funds themselves or make them available to other agencies. Subgrants may be made available for cooperative agreements to public, academic, research, school, and special libraries in the state.

**Formula Description:** Grants to states are based on the minimum allotment set by Congress, plus an additional amount based on the most current published population estimates available the first day of the federal fiscal year from the Bureau of the Census. The federal share is 66% and the state matching requirement is 34%.

**84.010 TITLE I GRANTS TO LOCAL EDUCATIONAL AGENCIES**

**Program Description:** The program provides funds to help schools and local educational agencies meet the needs of children failing or most at risk of failing. Specific programs that may be supported depend on the types of programs schools offer. Federal funds must supplement, not supplant, local funds.

**Formula Description:** Basic grants are allocated based on each state's per-pupil expenditure for education and the number of school-aged children from low-income families. Concentration grants are allocated for agencies having at least 6,500 children from low-income families or a poverty rate of at least 15%. In addition, funds appropriated in excess of the fiscal year 2001 level are to be allocated as targeted grants, which make higher payments to LEAs with higher percentages of poor children. The law also includes a separately authorized Education Finance Incentive Grants formula, which incorporates factors designed to measure a state's commitment to provide sufficient education funding, as well as how equitably that funding is distributed across districts. Allocations from all four formulas are combined into a single award to eligible LEAs. Within LEAs, funds are targeted to schools with the greatest percentages of poor children. This program has no matching requirements.

**84.011 MIGRANT EDUCATION—STATE GRANT PROGRAM**

**Program Description:** The program is designed to help establish and improve programs that help migratory children meet the state’s performance standards that all children are expected to meet.

**Formula Description:** Starting in fiscal year 2018, funds will be allocated through a statutory formula based on each state’s per-pupil expenditure for education, its average number of eligible migratory children aged 3 through 21 residing within the state in the preceding 3 years, and the number of eligible migrant children ages 3 to 12 who received services in summer or intersession programs provided by the state during the previous year. Under a hold-harmless provision, states are assured at least 90% of their previous allocations for fiscal years 2017 through 2019. This program has no matching requirements.

#### 84.027 SPECIAL EDUCATION—GRANTS TO STATES

**Program Description:** The program provides grants to assist states in providing special education and related services to all children with disabilities.

**Formula Description:** States receive a base amount equal to allocations in 1999. If the total program appropriation increases over the prior year, 85% of the remaining funds are allocated based on the number of children in the general population, between the ages of 3 through 21, in the age range for which the states guarantee a free appropriate public education (FAPE) to children with disabilities. Fifteen percent of the remaining funds are allocated based on the number of children living in poverty. This program has no matching requirements, but a maintenance of effort is required.

#### 84.048 CAREER AND TECHNICAL EDUCATION—BASIC GRANTS TO STATES

**Program Description:** The program provides grants to develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education programs.

**Formula Description:** The funding formula is based on state per-capita income and population in three age groups (15-19, 20-24, and 25-65). The formula provides for a minimum state allocation, and a hold-harmless provision in the formula ensures that no state's share of the appropriation is less than its share of the fiscal year 1998 appropriation.

**84.144 MIGRANT EDUCATION—COORDINATION PROGRAM**

**Program Description:** The program provides financial incentives to State Educational Agencies (SEAs) to participate in consortia that provide high-quality project designs and services to improve the interstate or intrastate coordination of migrant education programs by addressing key needs of migratory children who have their education interrupted.

**Formula Description:** Consortium incentive grant awards are calculated on the basis of a two-tiered formula. SEAs whose MEP allocations are \$1 million or less will, in general, receive a grant award that is twice the amount of the award provided to SEAs whose MEP allocations are greater than \$1 million. Within each tier, awards will be of equal size. However, no SEA will receive an incentive grant award that exceeds the amount of its Title I, Part C, MEP program grant or \$250,000, whichever is less. This program has no matching requirements.

**84.173 SPECIAL EDUCATION—PRESCHOOL GRANTS**

**Program Description:** The program provides funding to help states provide special education and related services to children with disabilities aged 3 to 5, and at a state’s discretion, to 2-year-old children with disabilities who will reach age 3 during the school year.

**Formula Description:** In general, funds are distributed to eligible entities through a formula based on general population and poverty. Under the formula, each state is first allocated an amount equal to its fiscal year 1997 allocation. For any year in which the appropriation is greater than the prior year level, 85% of the funds above the fiscal year 1997 level are distributed based on each state’s relative percentage of the total number of kids aged 3 to 5 in the general population. The other 15% is distributed based on the relative percentage of children aged 3 to 5 who live in poverty. The statute also includes several minimum and maximum requirements when the amount available for distribution to states increases. This program has no matching requirements; however, there are non-supplant and excess cost requirements, and a maintenance of effort is required.

**84.323 SPECIAL EDUCATION—STATE PERSONNEL DEVELOPMENT**

**Program Description:** The program is designed to help states’ educational agencies in reforming and improving their systems for personnel preparation and professional development in early intervention, educational, and transition services; and to improve results for children with disabilities. As used in this program, “personnel” means special education teachers, regular education teachers, principals, administrators, related services personnel, paraprofessionals, and early intervention personnel serving infants, toddlers, preschoolers, or children with disabilities, except where a particular category of personnel, such as related services personnel, is identified. Not less than 90% of the grant funds for any fiscal year must be used for professional development; activities described in Section 654(a) of IDEA, including improving results for children with disabilities through the delivery of high-quality instruction; and the recruitment, hiring, and retention of highly qualified special education teachers. Not more than 10% of grant funds for any fiscal year can be spent on the other activities described in Section 654(b) of IDEA, such as reforming special education and regular education teacher certification or licensing requirements; and carrying out programs that establish, expand, or improve alternative routes for state certification of special education teachers.

### 84.367 SUPPORTING EFFECTIVE INSTRUCTION STATE GRANTS

**Program Description:** The program provides grants to state educational agencies through local educational agencies in order to increase student academic achievement consistent with challenging state academic standards; improve the quality and effectiveness of teachers, principals, and other school leaders; and increase the number of leaders who are effective in improving and providing low-income and minority students greater access to effective leaders. This may be done through effective recruiting and retention techniques, and providing opportunities for professional development. State agencies for higher education are also eligible grantees.

**Formula Description:** In FY 2017, each state educational agency received 85.71% of the amount of funds that it received under the antecedent Eisenhower Professional Development State Grants and Class Size Reduction Programs in fiscal year 2001, totaling around \$2.1 billion. Remaining funds are then allocated to SEAs by formula, with 35% of remaining allocations based on states' relative shares of the population aged 5 to 17, and 65% based on states' relative shares of children from low-income families aged 5 to 17. This program has no matching requirements.

## **SUPREME COURT**

---

### **93.586 STATE COURT IMPROVEMENT PROGRAM**

**Program Description:** The program provides formula grants to assist state courts in carrying out their role in the continuum of care provided for families and children at risk. It offers support for the implementation of alternatives and improvements to, as well as the expansion of, successful court systems. It enables state courts to design assessments that identify barriers to timely and effective decision-making, highlight practices that are not fully successful, examine areas in need of correction or added attention, and implement reforms that address the state court's specific needs.

**Formula Description:** Each state court with an approved application is allotted \$85,000. The remainder of the amount appropriated for all state courts will be divided among those courts with approved applications, according to each state's proportionate share of children under the age of 21. Twenty-five percent of the total budget cost is required by non-federal share or match. The same formula and match requirements apply to each of the three Court Improvement Program (CIP) grants.
