

**HB3215**

**104TH GENERAL ASSEMBLY**

**State of Illinois**

**2025 and 2026**

**HB3215**

Introduced 2/18/2025, by Rep. Marcus C. Evans, Jr.

**SYNOPSIS AS INTRODUCED:**

New Act

Creates the Illinois Kratom Consumer Protection Act. Provides for procedures for kratom product registration, with certain requirements. Provides for labeling requirements for kratom products. Provides for enforcement and criminal and other penalties. Exempts a processor for any kratom products that has been reviewed and approved by the Department for safe consumption in combination with psychoactive compounds under clearly defined conditions of use. Exempts a retailer if it is shown by a preponderance of the evidence that the retailer relied in good faith upon the representations of certain entities. Requires the Department of Financial and Professional Regulation to adopt rules, with certain requirements. Conditions rulemaking upon federal promulgation of regulations in certain circumstances. Defines terms.

LRB104 08737 BDA 18791 b

**A BILL FOR**

1           AN ACT concerning kratom.

2           **Be it enacted by the People of the State of Illinois,**  
3           **represented in the General Assembly:**

4           Section 1. Short title. This Act may be cited as the  
5           Illinois Kratom Consumer Protection Act.

6           Section 5. Definitions. As used in this Act:

7           " Attractive to children" means (i) in the shape of  
8           cartoons or animals or (ii) in a form that bears any reasonable  
9           resemblance to an existing candy product that is familiar to  
10           the public as a widely distributed, branded food product such  
11           that a product could be mistaken for the branded product,  
12           especially by children.

13           " Department" means the Department of Financial and  
14           Professional Regulation.

15           " Distributor" means a person that sells, prepares,  
16           distributes, or maintains kratom products, or advertises,  
17           represents, or holds itself out as selling, preparing, or  
18           maintaining kratom products.

19           " Independent testing laboratory" means a laboratory that  
20           is accredited by a third-party accrediting body as a competent  
21           testing laboratory pursuant to ISO/IEC 17025 of the  
22           International Organization for Standardization.

23           " Kratom" means the plant *Mitragyna speciosa* or any part of

1 that plant, including all components present in the natural  
2 plant.

3 "Kratom extract" means a substance or compound obtained by  
4 extraction of the *Mitragyna speciosa* leaf, intended for  
5 ingestion, containing more than trace amounts of *Mitragyna*  
6 *speciosa* and containing other alkaloids of the kratom plant,  
7 which does not contain any controlled substances or levels of  
8 residual solvents higher than is allowed in the U.S.  
9 Pharmacopeia 467.

10 "Kratom food service establishment" means any person who  
11 sells kratom as a beverage prepared on-site, or sells  
12 pre-packaged kratom beverages or finished kratom products, at  
13 a licensed food service establishment.

14 "Kratom product" means a food, food ingredient, dietary  
15 ingredient, dietary supplement, or beverage intended for human  
16 consumption which contains any part of the leaf of the plant  
17 *Mitragyna speciosa* or an extract of the *Mitragyna speciosa*  
18 leaf and is manufactured or served as a powder, capsule, pill,  
19 beverage, liquid, or other edible form.

20 "Registrant" means a person or processor that sells,  
21 prepares, manufactures, distributes, or maintains kratom  
22 products, or advertises, represents, or holds itself out as  
23 selling, preparing, or maintaining kratom products.

24 "Retailer" means any person that sells, distributes,  
25 advertises, represents, or holds itself out as selling kratom  
26 products.

1        "Synthesized material" means an alkaloid or alkaloid  
2 derivative that has been created by chemical synthesis or  
3 biosynthetic means, including, but not limited to,  
4 fermentation, recombinant techniques, yeast derived, or  
5 enzymatic techniques, rather than traditional food preparation  
6 techniques, such as heating or extracting that synthetically  
7 alters the composition of any kratom alkaloid or constituent.

8        Section 10. Kratom Product Limitations. No person shall  
9 prepare, distribute, sell, or expose for sale any of the  
10 following:

11            (1) A product containing a level of  
12 7-hydroxymitragynine in the alkaloid fraction that is  
13 greater than 2% of the alkaloid composition of the kratom  
14 product. Any product that contains a level of  
15 7-hydroxymitragynine greater than the 2% limit as provided  
16 in this paragraph cannot be marketed, labeled, or contain  
17 any reference on its packaging, that it is a kratom  
18 product or that it is derived from the alkaloid  
19 mitragynine.

20            (2) A kratom product that is adulterated with a  
21 dangerous non-kratom substance. A kratom product is  
22 adulterated with a dangerous non-kratom substance if it  
23 contains a poisonous or otherwise deleterious non-kratom  
24 ingredient, including, but not limited to, the substances  
25 listed as a controlled substances under State or federal

1 law.

2 (3) A kratom product that contains dangerous  
3 psychoactive compounds, which include, but are not limited  
4 to, synthetic cannabinoids, synthetic cathinones, or any  
5 other compound that significantly alters the safety  
6 profile of the kratom product. A kratom product is mixed  
7 with another compound that is known to inhibit key  
8 cytochrome P450 enzymes, including CYP3A4 or CYP2D6 or a  
9 combination of CYP3A4 and CYP2D6, shall be deemed to be  
10 adulterated unless such specific product mixtures are  
11 scientifically validated as safe under the intended  
12 conditions of use and are specifically permitted by the  
13 Department.

14 (4) A kratom product in any form that is combustible,  
15 intended to be used for vaporization, or injectable.

16 (5) A product containing kratom that does not fall  
17 into the definition of "kratom product" as defined in  
18 Section 5 is prohibited.

19 (6) A kratom product that is manufactured in a manner  
20 that is attractive to children.

21 (7) A kratom product that contains any synthesized  
22 material as defined in Section 5 or that contains  
23 alkaloids or other plant constituents that have been  
24 isolated or manipulated to artificially increase their  
25 potency, other than using the approved extraction method  
26 provided herein, unless the manufacturer has safety data

1 to support the increased potency according to the  
2 conditions for use on the label in the populations the  
3 data supports.

4 (8) A substance or compound obtained by extraction of  
5 the *Mitragyna speciosa* leaf, intended for ingestion,  
6 containing more than trace amounts of *Mitragyna speciosa*,  
7 that contains levels of residual solvents higher than in  
8 the definition of "kratom extract" in Section 5.

9 Section 15. Kratom product registration.

10 (a) The party responsible for placing a kratom product  
11 into commerce in the State shall register annually to  
12 offer for sale kratom products manufactured in an approved  
13 kratom delivery form and pay a fee, adjusted annually, to  
14 cover all administrative costs for processing and  
15 administering such registrations, including the necessary  
16 staff and the publication and maintenance of a kratom  
17 registration webpage as provided in subsection (e) of this  
18 Section.

19 (b) Parties seeking to register a product listed under  
20 Section 10 shall be required to pay a fee based on the  
21 costs the Department incurs to retain the services of  
22 qualified experts to review the safety data provided by  
23 the registrant to allow the Department to conduct a review  
24 and make a final decision.

25 (c) The registration shall include the following sworn

1                   certifications from the processor:

2                   (1)    The    kratom    product    was    manufactured,  
3                   processed,   or   held   in   a   facility   that   is   in   compliance  
4                   with   current   good   manufacturing   practices   that   meet  
5                   requirements   of   21   CFR   111.

6                   (2)    A    statement    that    the    processor    has    a  
7                   reasonable   basis    that    the    product    is    safe    for  
8                   consumption   under   the   conditions   of   use   set   forth   on  
9                   the   label.    The    registrant   assumes   responsibility   and  
10                  liability   for   any   such   products   offered   for   sale.

11                  (3)    The    submission    of    a    certificate    of    analysis  
12                  from    a    certified    independent    third-party    laboratory  
13                  showing   compliance    with    the    requirements    of    this    Act  
14                  for    residual   solvents,    7-hydroxymitragynine   content,  
15                  contaminants,    and    synthesized   materials.

16                  (d)    A    product    that    contains    the    same    kratom  
17                  ingredients    in    the    same    kratom    delivery    form,    but    a  
18                  different   container,    package,    or   volume,    shall    be    included  
19                  in    a    single    registration.

20                  (e)    The    Department    shall    publish    and    maintain    a    kratom  
21                  registration    page    on    its    official    website    listing    all  
22                  currently    registered    kratom    products    for    sale    by    retailers  
23                  that    allows    retailers    to    verify    registered    kratom    products  
24                  they    are    permitted    to    sell    to    consumers.

25                  Section 20. Labeling.

1       A kratom product produced, manufactured, distributed,  
2 offered, sold, or offered for sale shall have a label that  
3 clearly and conspicuously provides all of the following  
4 information on each retail package:

5           (1) A statement against the use by individuals who are  
6 under 21 years of age, who are pregnant, or who are  
7 breastfeeding.

8           (2) A recommendation to consult a health care  
9 professional prior to use.

10           (3) A statement that kratom may be habit forming.

11           (4) The following statement: "These statements have  
12 not been evaluated by the United States Food and Drug  
13 Administration. This product is not intended to diagnose,  
14 treat, cure, or prevent any disease."

15           (5) The name and the address for the place of business  
16 of the registrant.

17           (6) Directions for use that include the following:

18               (A) A recommended amount of the kratom product per  
19 serving that is (i) clearly described on the label for  
20 product forms such as capsules, gummies, prepackaged  
21 single serving units, and similar product forms; or  
22 (ii) for beverages, liquids, or loose powders, a clear  
23 instruction or a mark on the package or container that  
24 clearly informs the consumer on the recommended  
25 serving size.

26               (B) A recommended number of servings that can be

1                   safely consumed in a 24-hour period.

2                   (C) A listing of the servings per container.

3                   (D) A listing of kratom alkaloids and other  
4                   ingredients in the product, including quantitative  
5                   data not to exceed declarations of the amount per  
6                   serving of each of the following: (i) Mitragynine and  
7                   (ii) 7-hydroxymitragynine.

8                   (E) A kratom food service establishment who sells  
9                   kratom as a beverage prepared on-site shall provide an  
10                   equivalent label in card form or prominently display  
11                   the required language in a location next to the  
12                   point-of-sale device to the customer at the time the  
13                   beverage is purchased by the consumer.

14                   (F) Any kratom product that contains psychoactive  
15                   compounds otherwise permitted must be clearly labeled  
16                   with a full disclosure of all active ingredients, the  
17                   exact concentration of each compound, and adequate  
18                   warning statements about the potential interactions  
19                   and risks associated with the combined use of these  
20                   substances.

21                   Section 25. Enforcement.

22                   (a) A registrant is prohibited from selling any kratom  
23                   product that does not have a current registration with the  
24                   Department, a distributor is prohibited from distributing any  
25                   kratom product that does not have a current registration with

1 the Department, and a retailer is prohibited from selling any  
2 kratom product that does not have a current registration with  
3 the Department. Any kratom product not registered shall be  
4 seized and destroyed, and the costs associated with such  
5 enforcement shall be assessed to the party responsible for its  
6 availability for sale in the State.

7 (b) Kratom products that are intended for human ingestion  
8 may not be sold in this State to a person who is under 21 years  
9 of age. A person who knowingly and willfully violates this  
10 subsection commits a Class B misdemeanor. A person who  
11 knowingly and willfully commits a second or subsequent  
12 violation of this subsection within one year after the initial  
13 violation commits a Class A misdemeanor.

14 (c) A registrant that knowingly and willfully  
15 manufactures, delivers, holds, offers for sale, distributes or  
16 sells a kratom product that contains any controlled substance  
17 listed in State or federal law shall be guilty of a Class 4  
18 felony.

19 (d) A registrant that knowingly and willfully  
20 manufactures, delivers, holds, offers for sale, distributes or  
21 sells a kratom product that contains synthetic mitragynine,  
22 synthetic 7-hydroxymitragynine, or any other synthetically  
23 derived compound of the plant *Mitragyna speciosa* commits a  
24 Class B misdemeanor. Any violation of this subsection shall  
25 result in the immediate seizure and destruction of the  
26 adulterated kratom products and may result in civil or

1       criminal penalties as provided in State law. Repeat offenders  
2       shall be subject to enhanced penalties, including permanent  
3       revocation of licenses to sell or distribute kratom products.

4               (e) Upon receipt of a violation report on any kratom  
5       product offered for sale, the Department shall require the  
6       registrant to produce an updated and current certificate of  
7       analysis in a reasonable time frame from a certified  
8       independent third-party laboratory showing compliance with the  
9       requirements of this Act for safe kratom products. If the  
10      registrant does not provide the certificate of analysis in the  
11      specified time frame, the registration for that product shall  
12      be revoked and a stop sales order will be issued for products  
13      covered by this registration.

14               (f) If the Department has a reasonable basis to require an  
15       independent third-party test of a registered kratom product by  
16       a laboratory of the Department's choice, the registrant shall  
17       be required to submit payment for the test within a reasonable  
18       time frame. If the registrant does not tender payment to the  
19       Department within 30 days of receipt of the invoice for the  
20       testing, the Department shall revoke the registration for that  
21       product and a stop sales order will be issued for products  
22       covered by this registration.

23               (g) A processor does not violate this Section for any  
24       kratom product that has been reviewed and approved by the  
25       Department for safe consumption in combination with  
26       psychoactive compounds under clearly defined conditions of

1 use.

2 (h) A retailer does not violate this Section if it is shown  
3 by a preponderance of the evidence that the retailer relied in  
4 good faith upon the representations of a manufacturer,  
5 processor, packer, or distributor of food represented to be a  
6 kratom product.

7 Section 30. Rules.

8 (a) The Department shall adopt rules to implement this  
9 Act. The rules must provide for:

10 (1) The process for a registration of a kratom product  
11 by a processor, distributor, or a retailer.

12 (2) The requirements for enforcing the restriction on  
13 the sale of any kratom product to a person under the age of  
14 21.

15 (3) Proof of appropriate quality testing from an ISO  
16 17025 laboratory in the form of a Certificate of Analysis  
17 representing the product does not contain levels of  
18 residual solvents, biological contaminants or heavy metal  
19 contaminants that meet the standard for dietary supplement  
20 products.

21 (b) If at any time on or after the effective date of this  
22 Act, the federal government or any department or agency  
23 thereof, including but not limited to the federal Drug  
24 Enforcement Agency or Food and Drug Administration, regulates  
25 7-hydroxymitragynine, 7-hydroxymitragynine extracts,

1       7-hydroxymitragynine products, any other derivative of the  
2       plant *Mitragyna speciosa*, 7-hydroxymitragynine processors, or  
3       7-hydroxymitragynine retailers, including the acceptance by  
4       the Food and Drug Administration of a new dietary ingredient  
5       notification, the Department of Financial and Professional  
6       Regulation may adopt rules not inconsistent with such federal  
7       regulations.

8           Section 35. Federal preemption. If at any time on or after  
9       the effective date of this Act, the federal government or any  
10       department or agency thereof, including but not limited to the  
11       federal Drug Enforcement Agency or Food and Drug  
12       Administration, regulates                           7-hydroxymitragynine,  
13       7-hydroxymitragynine extracts, 7-hydroxymitragynine products,  
14       any other derivative of the plant *Mitragyna speciosa*,  
15       7-hydroxymitragynine processors, or 7-hydroxymitragynine  
16       retailers, including the acceptance by the Food and Drug  
17       Administration of a new dietary ingredient notification, those  
18       federal regulations shall supersede and take precedence over  
19       any provision of this Act and any rule adopted thereunder to  
20       the contrary that is addressed by the federal action.
