1 AN ACT concerning safety.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 1. Short title. This Act may be cited as the
5 Transparency in Frontier Artificial Intelligence Act.

6 Section 5. Definitions. As used in this Act:

7 "Affiliate" means a person controlling, controlled by, or
8 under common control with a specified person, directly or
9 indirectly, through one or more intermediaries.

10 "Artificial intelligence" has the meaning set forth in
11 Section 2-101 of the Illinois Human Rights Act.

12 "Catastrophic risk" means a foreseeable and material risk
13 that a frontier developer's development, storage, use, or
14 deployment of a frontier model will materially contribute to
15 the death of, or serious injury to, more than 50 people or more
16 than \$1,000,000,000 in damage to, or loss of, property arising
17 from a single incident involving a frontier model doing any of
18 the following:

19 (1) providing expert-level assistance in the creation
20 or release of a chemical, biological, radiological, or
21 nuclear weapon;

22 (2) engaging in conduct with no meaningful human
23 oversight, intervention, or supervision that is either a

1 cyberattack or, if the conduct had been committed by a
2 human, would constitute the crime of murder, assault,
3 extortion, or theft, including theft by false pretense; or
4 (3) evading the control of its frontier developer or
5 user.

6 "Catastrophic risk" does not include a foreseeable and
7 material risk from any of the following:

8 (1) information that a frontier model outputs if the
9 information is otherwise publicly accessible in a
10 substantially similar form from a source other than a
11 foundation model;

12 (2) lawful activity of the federal government; or

13 (3) harm caused by a frontier model in combination
14 with other software if the frontier model did not
15 materially contribute to the harm.

16 "Critical safety incident" means any of the following:

17 (1) unauthorized access to, modification of, or
18 exfiltration of, the model weights of a frontier model
19 that results in death or bodily injury;

20 (2) harm resulting from the materialization of a
21 catastrophic risk;

22 (3) loss of control of a frontier model causing death
23 or bodily injury; or

24 (4) a frontier model that uses deceptive techniques
25 against the frontier developer to subvert the controls or
26 monitoring of its frontier developer outside of the

1 context of an evaluation designed to elicit this behavior
2 and in a manner that demonstrates materially increased
3 catastrophic risk.

4 "Deploy" means to make a frontier model available to a
5 third party for use, modification, copying, or combination
6 with other software. "Deploy" does not include making a
7 frontier model available to a third party for the primary
8 purpose of developing or evaluating the frontier model.

9 "Foundation model" means an artificial intelligence model
10 that is all of the following:

- 11 (1) trained on a broad data set;
- 12 (2) designed for generality of output; and
- 13 (3) adaptable to a wide range of distinctive tasks.

14 "Frontier artificial intelligence framework" means
15 documented technical and organizational protocols to manage,
16 assess, and mitigate catastrophic risks.

17 "Frontier developer" means a person who has trained, or
18 initiated the training of, a frontier model, with respect to
19 which the person has used, or intends to use, at least as much
20 computing power to train the frontier model as would meet the
21 technical specifications found in the definition of "frontier
22 model".

23 "Frontier model" means a foundation model that was trained
24 using a quantity of computing power greater than 10^{26} integer
25 or floating-point operations. The quantity of computing power
26 described in this definition shall include computing for the

1 original training run and for any subsequent fine-tuning,
2 reinforcement learning, or other material modifications the
3 developer applies to a preceding foundation model.

4 "Large frontier developer" means a frontier developer that
5 together with its affiliates collectively had annual gross
6 revenues in excess of \$500,000,000 in the preceding calendar
7 year.

8 "Model weight" means a numerical parameter in a frontier
9 model that is adjusted through training and that helps
10 determine how inputs are transformed into outputs.

11 "Property" means tangible or intangible property.

12 Section 10. Frontier artificial intelligence framework.

13 (a) A large frontier developer shall write, implement,
14 comply with, and clearly and conspicuously publish on its
15 website a frontier artificial intelligence framework that
16 applies to the large frontier developer's frontier models and
17 describes how the large frontier developer approaches all of
18 the following:

19 (1) incorporating national standards, international
20 standards, and industry-consensus best practices into its
21 frontier artificial intelligence framework;

22 (2) defining and assessing thresholds used by the
23 large frontier developer to identify and assess whether a
24 frontier model has capabilities that could pose a
25 catastrophic risk, which may include multiple-tiered

1 thresholds;

2 (3) applying mitigations to address the potential for
3 catastrophic risks based on the results of assessments
4 undertaken under paragraph (2);

5 (4) reviewing assessments and adequacy of mitigations
6 as part of the decision to deploy a frontier model or use
7 it extensively internally;

8 (5) using third parties to assess the potential for
9 catastrophic risks and the effectiveness of mitigations of
10 catastrophic risks;

11 (6) revisiting and updating the frontier artificial
12 intelligence framework, including any criteria that
13 trigger updates and how the large frontier developer
14 determines when its frontier models are substantially
15 modified enough to require disclosures under subsection
16 (c);

17 (7) cybersecurity practices to secure unreleased model
18 weights from unauthorized modification or transfer by
19 internal or external parties;

20 (8) identifying and responding to critical safety
21 incidents;

22 (9) instituting internal governance practices to
23 ensure implementation of these processes; and

24 (10) assessing and managing catastrophic risk
25 resulting from the internal use of its frontier models,
26 including risks resulting from a frontier model

1 circumventing oversight mechanisms.

2 (b)(1) A large frontier developer shall review and, as
3 appropriate, update its frontier artificial intelligence
4 framework at least once per year.

5 (2) If a large frontier developer makes a material
6 modification to its frontier artificial intelligence
7 framework, the large frontier developer shall clearly and
8 conspicuously publish the modified frontier artificial
9 intelligence framework and a justification for that
10 modification within 30 days.

11 (c)(1) Before, or concurrently with, deploying a new
12 frontier model or a substantially modified version of an
13 existing frontier model, a frontier developer shall clearly
14 and conspicuously publish on its website a transparency report
15 containing all of the following:

16 (A) the website of the frontier developer;

17 (B) a mechanism that enables a natural person to
18 communicate with the frontier developer;

19 (C) the release date of the frontier model;

20 (D) the languages supported by the frontier model;

21 (E) the modalities of output supported by the
22 frontier model;

23 (F) the intended uses of the frontier model; and

24 (G) any generally applicable restrictions or
25 conditions on uses of the frontier model.

26 (2) Before, or concurrently with, deploying a new frontier

1 model or a substantially modified version of an existing
2 frontier model, a large frontier developer shall include in
3 the transparency report required by paragraph (1) of
4 subsection (c) summaries of all of the following:

5 (A) assessments of catastrophic risks from the
6 frontier model conducted under the large frontier
7 developer's frontier artificial intelligence
8 framework;

9 (B) the results of the assessments under
10 subparagraph (A);

11 (C) the extent to which third-party evaluators
12 were involved; and

13 (D) other steps taken to fulfill the requirements
14 of the frontier artificial intelligence framework with
15 respect to the frontier model.

16 (3) A frontier developer that publishes the information
17 described in paragraph (1) or (2) as part of a larger document,
18 including a system card or model card, shall be deemed in
19 compliance with the applicable paragraph.

20 (4) A frontier developer is encouraged, but not required,
21 to make disclosures described in this subsection that are
22 consistent with, or superior to, industry best practices.

23 (d) A large frontier developer shall transmit to the
24 Attorney General a summary of any assessment of catastrophic
25 risk resulting from internal use of its frontier models every
26 3 months or under another reasonable schedule specified by the

1 large frontier developer and communicated in writing to the
2 Attorney General with written updates, as appropriate.

3 (e)(1) A frontier developer shall not make a materially
4 false or misleading statement about catastrophic risk from its
5 frontier models or its management of catastrophic risk.

6 A large frontier developer shall not make a materially
7 false or misleading statement about its implementation of, or
8 compliance with, its frontier artificial intelligence
9 framework.

10 (2) This subsection does not apply to a statement that was
11 made in good faith and was reasonable under the circumstances.

12 (f)(1) When a frontier developer publishes documents to
13 comply with this Section, the frontier developer may make
14 redactions to those documents that are necessary to protect
15 the frontier developer's trade secrets, the frontier
16 developer's cybersecurity, public safety, or the national
17 security of the United States or to comply with any federal or
18 State law.

19 (2) If a frontier developer redacts information in a
20 document in accordance with this subsection, the frontier
21 developer shall describe the character and justification of
22 the redaction in any published version of the document to the
23 extent permitted by the concerns that justify redaction and
24 shall retain the unredacted information for 5 years.

25 Section 15. Reporting critical safety incidents.

1 (a) The Attorney General shall establish a mechanism to be
2 used by a frontier developer or a member of the public to
3 report a critical safety incident that includes all of the
4 following:

5 (1) the date of the critical safety incident;

6 (2) the reasons the incident qualifies as a critical
7 safety incident;

8 (3) a short and plain statement describing the
9 critical safety incident; and

10 (4) whether the incident was associated with internal
11 use of a frontier model.

12 (b) (1) The Attorney General shall establish a mechanism
13 to be used by a large frontier developer to confidentially
14 submit summaries of any assessments of the potential for
15 catastrophic risk resulting from internal use of its frontier
16 models.

17 (2) The Attorney General shall take all necessary
18 precautions to limit access to any reports related to internal
19 use of frontier models to only personnel with a specific need
20 to know the information and to protect the reports from
21 unauthorized access.

22 (c) A frontier developer shall report any critical safety
23 incident pertaining to one or more of its frontier models to
24 the Attorney General within 15 days of discovering the
25 critical safety incident. If a frontier developer discovers
26 that a critical safety incident poses an imminent risk of

1 death or serious physical injury, the frontier developer shall
2 disclose that incident within 24 hours to an authority,
3 including any law enforcement agency or public safety agency
4 with jurisdiction, that is appropriate based on the nature of
5 that incident and as required by law. A frontier developer
6 that discovers information about a critical safety incident
7 after filing the initial report required by this subsection
8 may file an amended report. A frontier developer is
9 encouraged, but not required, to report critical safety
10 incidents pertaining to foundation models that are not
11 frontier models.

12 (d) The Attorney General shall review critical safety
13 incident reports submitted by frontier developers and may
14 review reports submitted by members of the public.

15 (e) The Attorney General may transmit reports of critical
16 safety incidents to the General Assembly, the Governor, the
17 federal government, or appropriate State agencies. The
18 Attorney General shall strongly consider any risks related to
19 trade secrets, public safety, cybersecurity of a frontier
20 developer, or national security when transmitting reports.

21 (f) A report of a critical safety incident submitted to
22 the Attorney General under this Section and a report of
23 assessments of catastrophic risk from internal use in
24 subsection (d) of Section 10 shall be exempt from disclosure
25 under the Illinois Freedom of Information Act.

26 (g) (1) Beginning January 1, 2028, and annually thereafter,

1 the Attorney General shall produce a report with anonymized
2 and aggregated information about critical safety incidents
3 that have been reviewed by the Attorney General since the
4 preceding report.

5 (2) The Attorney General shall not include information in
6 a report that would compromise the trade secrets or
7 cybersecurity of a frontier developer, public safety, or the
8 national security of the United States or that would be
9 prohibited by any federal or State law.

10 (3) The Attorney General shall transmit a report under
11 this subsection to the General Assembly and to the Governor.

12 (h) The Attorney General may adopt rules designating one
13 or more federal laws, regulations, or guidance documents that
14 meet all of the following conditions for the purposes of
15 subsection (i):

16 (1) the law, regulation, or guidance document imposes
17 or states standards or requirements for critical safety
18 incident reporting that are substantially equivalent to,
19 or stricter than, those required by this Section;

20 (2) the law, regulation, or guidance document
21 described in paragraph (1) does not need to require
22 critical safety incident reporting to the State of
23 California; and

24 (3) the law, regulation, or guidance document is
25 intended to assess, detect, or mitigate the catastrophic
26 risk.

1 (i) (1) A frontier developer that intends to comply with
2 this Section by complying with the requirements of, or meeting
3 the standards stated by, a federal law, regulation, or
4 guidance document designated in subsection (h) shall declare
5 its intent to do so to the Attorney General.

6 (2) After a frontier developer has declared its intent
7 under paragraph (1), both of the following apply:

8 (A) the frontier developer shall be deemed in
9 compliance with this Section to the extent that the
10 frontier developer meets the standards of, or complies
11 with the requirements imposed or stated by, the designated
12 federal law, regulation, or guidance document until the
13 frontier developer declares the revocation of that intent
14 to the Attorney General or the Attorney General repeals a
15 relevant rule under subsection (j); and

16 (B) the failure by a frontier developer to meet the
17 standards of, or comply with the requirements stated by,
18 the federal law, regulation, or guidance document
19 designated under subsection (h) shall constitute a
20 violation of this Act.

21 (j) The Attorney General shall repeal a rule adopted under
22 subsection (h) if the requirements of subsection (h) are no
23 longer met.

24 Section 20. Department of Innovation and Technology
25 recommendations.

1 (a) On or before January 1, 2028, and annually thereafter,
2 the Department of Innovation and Technology shall assess
3 recent evidence and developments relevant to the purposes of
4 this Act and shall make recommendations about whether and how
5 to update any of the following definitions for the purposes of
6 this Act to ensure that they accurately reflect technological
7 developments, scientific literature, and widely accepted
8 national and international standards:

9 (1) "frontier model", so that it applies to foundation
10 models at the frontier of artificial intelligence
11 development;

12 (2) "frontier developer", so that it applies to
13 developers of frontier models who are themselves at the
14 frontier of artificial intelligence development; and

15 (3) "large frontier developer", so that it applies to
16 well-resourced frontier developers.

17 (b) In making recommendations under this Section, the
18 Department of Innovation and Technology shall take into
19 account all of the following:

20 (1) similar thresholds used in international standards
21 or federal law, guidance, or regulations for the
22 management of catastrophic risk and shall align with a
23 definition adopted in a federal law or regulation to the
24 extent that it is consistent with the purposes of this
25 Act;

26 (2) input from stakeholders, including academics,

1 industry, the open-source community, and governmental
2 entities;

3 (3) the extent to which a person will be able to
4 determine, before beginning to train or deploy a
5 foundation model, whether that person will be subject to
6 the definition as a frontier developer or as a large
7 frontier developer with an aim toward allowing earlier
8 determinations if possible;

9 (4) the complexity of determining whether a person or
10 foundation model is covered, with an aim toward allowing
11 simpler determinations if possible; and

12 (5) the external verifiability of determining whether
13 a person or foundation model is covered, with an aim
14 toward definitions that are verifiable by parties other
15 than the frontier developer.

16 (c) Upon developing recommendations under this Section,
17 the Department of Innovation and Technology shall submit a
18 report to the General Assembly and to the Governor.

19 Section 25. Civil penalty.

20 (a) A large frontier developer that fails to publish or
21 transmit a compliant document required to be published or
22 transmitted under this Act, makes a statement in violation of
23 subsection (e) of Section 10, fails to report an incident as
24 required by Section 15, or fails to comply with its own
25 frontier artificial intelligence framework shall be subject to

1 a civil penalty in an amount dependent upon the severity of the
2 violation that does not exceed \$1,000,000 per violation.

3 (b) A civil penalty described in this Section shall be
4 recovered in a civil action brought only by the Attorney
5 General.

6 (c) The loss of value of equity does not count as damage to
7 or loss of property for the purposes of this Act.

8 Section 30. Consortium for ILCompute.

10 Innovation and Technology a consortium that shall develop,
11 under this Section, a framework for the creation of a public
12 cloud computing cluster to be known as ILCompute.

13 (b) The consortium shall develop a framework for the
14 creation of ILCompute that advances the development and
15 deployment of artificial intelligence that is safe, ethical,
16 equitable, and sustainable by doing, at a minimum, both of the
17 following:

18 (1) fostering research and innovation that benefits
19 the public; and

20 (2) enabling equitable innovation by expanding access
21 to computational resources.

22 (c) The consortium shall make reasonable efforts to ensure
23 that ILCompute is established within the University of
24 Illinois to the extent possible.

20 and maintain ILCompute and recommendations for
21 potential funding sources;

22 (C) recommendations for the governance structure
23 and ongoing operation of ILCompute;

7 partnerships, contracts, or licensing agreements with
8 nongovernmental entities; and

9 (G) recommendations regarding how the creation and
10 ongoing management of ILCompute can prioritize the use
11 of the current public sector workforce.

12 (g) The consortium shall consist of the following members:

11 (i) The consortium shall be dissolved upon submission of
12 the report required under subsection (f) to the General
13 Assembly.
