16 approved for sale by lottery licensees are automatically
17 approved for sale through the Internet program. The Department
18 shall maintain responsible gaming controls in its policies.

19 The Department shall authorize the private manager to
20 implement and administer the program pursuant to the
21 management agreement entered into under Section 9.1 and in a
22 manner consistent with the provisions of this Section. If a
23 private manager has not been selected pursuant to Section 9.1
24 at the time the Department is obligated to implement the
25 program, then the Department shall not proceed with the
26 program until after the selection of the private manager, at

3 Sec. 2.5. Legislative policy; conditions for use of
4 design-build. It is the intent of the General Assembly that a
5 commission be allowed to use the design-build delivery method
6 for public projects if it is shown to be in the commission's
7 best interest for that particular project.

8 It shall be the policy of the commission in the
9 procurement of design-build services to publicly announce all
10 requirements for design-build services and to procure these
11 services on the basis of demonstrated competence and
12 qualifications and with due regard for the principles of
13 competitive selection.

14 The commission shall, prior to issuing requests for
15 proposals, promulgate and publish procedures for the
16 solicitation and award of contracts pursuant to this Act.

17 The commission shall, for each public project or projects
18 permitted under this Act, make a written determination,
19 including a description as to the particular advantages of the
20 design-build procurement method, that it is in the best
21 interests of the commission to enter into a design-build
22 contract for the project or projects.

23 In making that determination, the following factors shall
24 be considered:

1 method will be in the best interests of the commission by
2 providing a material savings of time or cost over the
3 design-bid-build or other delivery system.

4 (2) The type and size of the project and its

23 (a) When the Commission elects to use the design-build
24 delivery method, it must issue a notice of intent to receive
25 proposals for the project at least 14 days before issuing the

1 request for the proposal. The Commission must publish the
2 advance notice in a daily newspaper of general circulation in
3 the county where the Commission is located. The Commission is
4 encouraged to use publication of the notice in related
5 construction industry service publications. A brief
6 description of the proposed procurement must be included in
7 the notice. The Commission must provide a copy of the request
8 for proposal to any party requesting a copy.

9 (b) The request for proposal shall be prepared for each

13 (2) A preliminary schedule for the completion of the
14 contract.

15 (3) The proposed budget for the project, the source of
16 funds, and the currently available funds at the time the

25 but not limited to, the proposed terms and conditions,
26 required performance and payment bonds, insurance, and the

7 solicitation.

8 (8) The number of entities that will be considered for
9 the technical and cost evaluation phase.

15 calendar days after the date of the issuance of the request for
16 proposal. In the event the cost of the project is estimated to
17 exceed \$12,000,000, then the proposal due date must be at
18 least 28 calendar days after the date of the issuance of the
19 request for proposal. The Commission shall include in the

5 Sec. 20.4. Development of design-build scope and
6 performance criteria.

7 (a) The Commission shall develop, with the assistance of a
8 licensed design professional, a request for proposal, which
9 shall include scope and performance criteria. The scope and
10 performance criteria must be in sufficient detail and contain
11 adequate information to reasonably apprise the qualified
12 design-build entities of the Commission's overall programmatic
13 needs and goals, including criteria and preliminary design
14 plans, general budget parameters, schedule, and delivery
15 requirements.

16 (b) Each request for proposal shall also include a
17 description of the level of design to be provided in the
18 proposals. This description must include the scope and type of
19 renderings, drawings, and specifications that, at a minimum,

21 design-build entities.

22 (c) The scope and performance criteria shall be prepared
23 by a design professional who is an employee of the Commission,
24 or the Commission may contract with an independent design
25 professional selected under the Local Government Professional

12 (50 ILCS 20/20.5)

13 (Section scheduled to be repealed on July 1, 2025)

14 Sec. 20.5. Procedures for design-build selection.

15 (a) The Commission must use a two-phase procedure for the
16 selection of the successful design-build entity. Phase I of
17 the procedure will evaluate and shortlist the design-build
18 entities based on qualifications, and Phase II will evaluate
19 the technical and cost proposals.

20 (b) The Commission shall include in the request for
21 proposal the evaluating factors to be used in Phase I. These
22 factors are in addition to any prequalification requirements
23 of design-build entities that the Commission has set forth.
24 Each request for proposal shall establish the relative
25 importance assigned to each evaluation factor and subfactor,

1 including any weighting of criteria to be employed by the
2 Commission. The Commission must maintain a record of the
3 evaluation scoring to be disclosed in event of a protest
4 regarding the solicitation.

5 The Commission shall include the following criteria in
6 every Phase I evaluation of design-build entities: (1)
7 experience of personnel; (2) successful experience with
8 similar project types; (3) financial capability; (4)
9 timeliness of past performance; (5) experience with similarly
10 sized projects; (6) successful reference checks of the firm;
11 (7) commitment to assign personnel for the duration of the
12 project and qualifications of the entity's consultants; and
13 (8) ability or past performance in meeting or exhausting good
14 faith efforts to meet the utilization goals for minority and
15 women business enterprises established by the corporate
16 authorities of the Commission and in complying with Section
17 2-105 of the Illinois Human Rights Act. The Commission may
18 include any additional relevant criteria in Phase I that it
19 deems necessary for a proper qualification review.

20 The Commission may not consider any design-build entity
21 for evaluation or award if the entity has any pecuniary
22 interest in the project or has other relationships or
23 circumstances, including but not limited to, long-term
24 leasehold, mutual performance, or development contracts with
25 the Commission, that may give the design-build entity a
26 financial or tangible advantage over other design-build

1 entities in the preparation, evaluation, or performance of the
2 design-build contract or that create the appearance of
3 impropriety. No design-build proposal shall be considered that
4 does not include an entity's plan to comply with the
5 requirements established in the minority and women business
6 enterprises and economically disadvantaged firms established
7 by the corporate authorities of the Commission and with
8 Section 2-105 of the Illinois Human Rights Act.

9 Upon completion of the qualifications evaluation, the
10 Commission shall create a shortlist of the most highly
11 qualified design-build entities. The Commission, in its
12 discretion, is not required to shortlist the maximum number of
13 entities as identified for Phase II evaluation, provided
14 however, no less than 2 design-build entities nor more than 6
15 are selected to submit Phase II proposals.

16 The Commission shall notify the entities selected for the
17 shortlist in writing. This notification shall commence the
18 period for the preparation of the Phase II technical and cost
19 evaluations. The Commission must allow sufficient time for the
20 shortlist entities to prepare their Phase II submittals
21 considering the scope and detail requested by the Commission.

22 (c) The Commission shall include in the request for
23 proposal the evaluating factors to be used in the technical
24 and cost submission components of Phase II. Each request for
25 proposal shall establish, for both the technical and cost
26 submission components of Phase II, the relative importance

1 assigned to each evaluation factor and subfactor, including
2 any weighting of criteria to be employed by the Commission.
3 The Commission must maintain a record of the evaluation
4 scoring to be disclosed in event of a protest regarding the
5 solicitation.

6 The Commission shall include the following criteria in
7 every Phase II technical evaluation of design-build entities:
8 (1) compliance with objectives of the project; (2) compliance
9 of proposed services to the request for proposal requirements;
10 (3) quality of products or materials proposed; (4) quality of
11 design parameters; (5) design concepts; (6) innovation in
12 meeting the scope and performance criteria; and (7)
13 constructability of the proposed project. The Commission may
14 include any additional relevant technical evaluation factors
15 it deems necessary for proper selection.

16 The Commission shall include the following criteria in
17 every Phase II cost evaluation: the guaranteed maximum project
18 cost and the time of completion. The Commission may include
19 any additional relevant technical evaluation factors it deems
20 necessary for proper selection. The guaranteed maximum project
21 cost criteria weighing factor shall not exceed 30%.

22 The Commission shall directly employ or retain a licensed
23 design professional to evaluate the technical and cost
24 submissions to determine if the technical submissions are in
25 accordance with generally accepted industry standards.

26 Upon completion of the technical submissions and cost

1 submissions evaluation, the Commission may award the
2 design-build contract to the highest overall ranked entity.

3 (d) This Section is repealed on July 1, 2027 ~~2025~~;

5 such date or any procurement of a project under this Act
6 commenced before such date, and the contracts resulting from

14 two-phase procedure for design-build selection described in
15 Section 20.5 into one combined step, provided that all the
16 requirements of evaluation are performed in accordance with
17 Section 20.5.

5 submission has passed as set forth in the request for
6 proposals. All design-build entities submitting proposals
7 shall be disclosed after the deadline for submission, and all
8 design-build entities who are selected for Phase II evaluation
9 shall also be disclosed at the time of that determination.

10 Phase II design-build proposals shall include a bid bond
11 in the form and security as designated in the request for
12 proposals. Proposals shall also contain a separate sealed
13 envelope with the cost information within the overall proposal
14 submission. Proposals shall include a list of all design
15 professionals and other entities to which any work identified
16 in Section 30-30 of the Illinois Procurement Code as a
17 subdivision of construction work may be subcontracted during
18 the performance of the contract.

19 Proposals must meet all material requirements of the
20 request for proposal or they may be rejected as
21 non-responsive. The Commission shall have the right to reject
22 any and all proposals.

23 The drawings and specifications of any unsuccessful
24 design-build proposal shall remain the property of the
25 design-build entity.

26 The Commission shall review the proposals for compliance

19 proposals. The Commission may negotiate with the selected
20 design-build entity after award but prior to contract
21 execution for the purpose of securing better terms than
22 originally proposed, provided that the salient features of the
23 request for proposal are not diminished.
