1           AN ACT concerning State government.

2           **Be it enacted by the People of the State of Illinois,**  
3           **represented in the General Assembly:**

4           Section 5. The Illinois African-American Family Commission  
5           Act is amended by changing Sections 5, 10, 15, 20, 25, and 30  
6           as follows:

7           (20 ILCS 3903/1)

8           Sec. 1. Short title. This Act may be cited as the RISE  
9           Illinois African American Family Commission Act.

11          (20 ILCS 3903/5)

12          Sec. 5. Legislative findings. It is the policy of this  
13          State to deliver on the promise of systemic equity by moving  
14          from episodic reform to permanent investment.

15          Black communities and other historically disinvested  
16          populations in this State continue to experience stark  
17          disparities across health, education, employment, housing, and  
18          justice. These disparities are the product of deliberate  
19          policy choices, economic exclusion, and structural racism.

20          In response, the Illinois Legislative Black Caucus enacted  
21          a historic legislative agenda in 2021, structured around 4  
22          pillars:

- 1                   (1) criminal justice and police reform;
- 2                   (2) education and workforce development;
- 3                   (3) economic access and opportunity; and
- 4                   (4) health care and human services.

5                   The State recognizes that meaningful progress requires  
6                   long-term, coordinated, and transparent investment. The  
7                   Commission on Reform and Investment for Systemic Equity (RISE  
8                   Commission) is established as the permanent entity to lead  
9                   this effort.

10                  ~~It is the policy of this State to promote family preservation~~  
11                  ~~and to preserve and strengthen families.~~

12                  (a) ~~Over 12 million people live in Illinois.~~  
13                  ~~African Americans represent 15% of the population and 26% of~~  
14                  ~~the residents living in Cook County. Despite some progress~~  
15                  ~~over the last few decades, African Americans in Illinois~~  
16                  ~~continue to lag behind other racial groups relative to~~  
17                  ~~indicators of well being in education, employment, income, and~~  
18                  ~~health. According to the 2000 U.S. Census, just 26% of the~~  
19                  ~~African American population over 25 years of age in Illinois~~  
20                  ~~completed their high school education; 6% held an associate's~~  
21                  ~~degree; less than 10% (9%) held a bachelor's degree; less than~~  
22                  ~~5% (3%) held a master's degree; and less than one percent held~~  
23                  ~~either a professional (.8%) or doctoral (.4%) degree.~~

24                  These levels of education attainment reflect more  
25                  fundamental problems with retaining African Americans in  
26                  school. The Illinois State Board of Education reported that

1 for the 2001 2002 school year, 36,373, or 6%, of students  
2 enrolled in public high schools dropped out. Thirty nine  
3 percent of these students were African Americans; 38% were  
4 White; 21% were Hispanic; and 2% were classified as Other.

5 Although African Americans make up 18% of the high school  
6 population, they are disproportionately represented in the  
7 number of students who are suspended and expelled. In the  
8 2001 2002 school year, 29,068 students were suspended from  
9 school. Forty seven percent were White, 37% were  
10 African American, 14% were Hispanic, and 1% were classified as  
11 Other. In regards to expulsions Statewide, the total number of  
12 high school students expelled was 1,651. Forty three percent  
13 were African American, 41% were White, 14% were Hispanic, and  
14 2% were classified as Other. Within Chicago public schools,  
15 448 students were expelled. Seventy seven of these students  
16 were African American; 27% were White; 14% were Hispanic; and  
17 4% were classified as Other. The fact that African Americans  
18 are more likely to be suspended or expelled from school also  
19 contributes to the high dropout rate among African American  
20 high school students.

21 In addition to educational challenges, African Americans  
22 face challenges in the areas of employment and income. In the  
23 year 2000, the unemployment rate for African Americans age 16  
24 years or older was 15% compared to only 6% for the total  
25 Illinois population. Moreover, the median household income of  
26 African Americans in Illinois was \$31,699 compared to \$46,590

1 for the total Illinois population, and the percentage of  
2 African American families below the poverty level in Illinois  
3 was 26% in 1999 compared to 10.7% for the total Illinois  
4 population in that same year.

5 Indicators of child welfare and criminal justice reveal  
6 still more challenges that African American families face in  
7 Illinois. In 2000, African American children represented 18%  
8 of children 18 years of age and under, but comprised 73% of  
9 children in substitute care. African Americans are also  
10 overrepresented in the criminal justice population. Of the  
11 total Illinois adult inmate population in the year 2000, 65%  
12 were African American. During this same time period,  
13 African American youth represented 58% of the juvenile inmate  
14 population in Illinois.

15 While the leading causes of death among African Americans  
16 are the same as those for the general population in Illinois,  
17 African Americans have a higher rate of death per 100,000  
18 residents. The rate of overall deaths per 100,000 residents  
19 among African Americans in the year 2000 was 1,181; 847 for  
20 Whites; and 411 for those classified as Other. The rate of  
21 cancer related deaths per 100,000 residents by racial or  
22 ethnic groups in 2000 was: 278 African Americans; 206 Whites;  
23 and 110 of those classified as Other. The rate of  
24 diabetes related deaths per 100,000 residents among  
25 African Americans in 2000 was 41 compared to 23 for Whites and  
26 13 for those classified as Other. The rate of deaths per

1 ~~100,000 residents by heart disease among African Americans in~~  
2 ~~2000 was 352 compared to 257 for Whites and 120 for those~~  
3 ~~classified as Other. The rate of deaths per 100,000 residents~~  
4 ~~by stroke among African Americans in 2000 was 75; 60 for~~  
5 ~~Whites; and 35 for those classified as Other.~~

6 ~~African Americans had higher rates of smoking and obesity~~  
7 ~~than other racial groups in Illinois in 2001.~~  
8 ~~African Americans accounted for more of the new~~  
9 ~~adult/adolescent AIDS cases, cumulative adult/adolescent AIDS~~  
10 ~~cases, and number of people living with AIDS than other racial~~  
11 ~~groups in Illinois in the year 2002. Still, 23% of uninsured~~  
12 ~~persons in Illinois are African American.~~

13 (b) ~~The Illinois African American Family Commission~~  
14 ~~continues to be an essential key to promoting the preservation~~  
15 ~~and strengthening of families. As of January 1, 2015 (the~~  
16 ~~effective date of Public Act 98-693), just under 13 million~~  
17 ~~people live in Illinois. African Americans represent 15% of~~  
18 ~~the population and 25% of the residents living in Cook County.~~  
19 ~~Despite some progress over the last few decades,~~  
20 ~~African Americans in Illinois continue to lag behind other~~  
21 ~~racial groups relative to indicators of well-being in~~  
22 ~~education, employment, income, and health. According to the~~  
23 ~~2010 federal decennial census: just 28% of the~~  
24 ~~African American population over 25 years of age in Illinois~~  
25 ~~completed their high school education; 36% had some college or~~  
26 ~~an associate's degree; less than 12% held a bachelor's degree;~~

1 less than 8% held either a graduate or professional degree.

2 These levels of education attainment reflect more  
3 fundamental problems with retaining African Americans in  
4 school. The State Board of Education reported that for the  
5 2010-2011 school year, 18,210, or 2.77%, of students enrolled  
6 in public high schools dropped out. 39.3% of these students  
7 were African Americans; 32.6% were White; 24.2% were Hispanic;  
8 and 2% were classified as Other.

9 Although African Americans make up 20% of the high school  
10 population, they are disproportionately represented in the  
11 number of students who are suspended and expelled. In the  
12 2011-2012 school year, 29,928 students were suspended from  
13 school. 36% were White, 34% were African American, 26% were  
14 Hispanic, and 4% were classified as Other. With regard to  
15 expulsions statewide, the total number of high school students  
16 expelled was 982. 37% were African American, 41% were White,  
17 21% were Hispanic, and 2% were classified as Other. Within  
18 Chicago public schools, 294 students were expelled. 80% of  
19 these students were African American; none were White; 17%  
20 were Hispanic; and 3% were classified as Other. The fact that  
21 African Americans are more likely to be suspended or expelled  
22 from school also contributes to the high dropout rate among  
23 African American high school students.

24 In addition to educational challenges, African Americans  
25 face challenges in the areas of employment and income. In the  
26 year 2010, the unemployment rate for African Americans age 16

1 years or older was 16% compared to only 9% for the total  
2 Illinois population. Moreover, the median household income of  
3 African Americans in Illinois was \$34,874 compared to \$60,433  
4 for the total Illinois population, and the percentage of  
5 African American families below the poverty level in Illinois  
6 was 32% in 2012 compared to 15% for the total Illinois  
7 population in that same year.

8 Indicators of child welfare and criminal justice reveal  
9 still more challenges that African American families face in  
10 Illinois. In 2010, African American children represented 14%  
11 of children 18 years of age and under, but comprised 56% of  
12 children in substitute care. African Americans are also  
13 overrepresented in the criminal justice population. Of the  
14 total Illinois adult inmate population in the year 2012, 57%  
15 were African American. During this same time period,  
16 African American youth represented 66% of the juvenile inmate  
17 population in Illinois.

18 While the leading causes of death among African Americans  
19 are the same as those for the general population in Illinois,  
20 African Americans have a higher rate of death per 100,000  
21 residents. The rate of overall deaths per 100,000 residents  
22 among African Americans in the year 2010 was 898; 741 for  
23 Whites; and 458 for those classified as Other. The rate of  
24 cancer related deaths per 100,000 residents by racial or  
25 ethnic groups in 2010 was 216 for African Americans; 179 for  
26 Whites; and 124 for those classified as Other. The rate of

1 diabetes related deaths per 100,000 residents among  
2 African Americans in 2010 was 114 compared to 66 for Whites  
3 and 75 for those classified as Other. The rate of deaths per  
4 100,000 residents by heart disease among African Americans in  
5 2010 was 232 compared to 179 for Whites and 121 for those  
6 classified as Other. The rate of deaths per 100,000 residents  
7 by stroke among African Americans in 2010 was 108; 73 for  
8 Whites; and 56 for those classified as Other.

9 African Americans had higher rates of smoking and obesity  
10 than other racial groups in Illinois in 2013.  
11 African Americans accounted for more of the new  
12 adult/adolescent AIDS cases, cumulative adult/adolescent AIDS  
13 cases, and number of people living with AIDS than other racial  
14 groups in Illinois in the year 2013. Still, 24% of uninsured  
15 persons in Illinois are African American.

16 (e) These huge disparities in education, employment,  
17 income, child welfare, criminal justice, and health  
18 demonstrate the tremendous challenges facing the  
19 African American family in Illinois. These challenges are  
20 severe. There is a need for government, child and family  
21 advocates, and other key stakeholders to create and implement  
22 public policies to address the health and social crises facing  
23 African American families. The development of given solutions  
24 clearly transcends any one State agency and requires a  
25 coordinated effort. The Illinois African American Family  
26 Commission shall assist State agencies with this task.

The African American Family Commission was created in October 1994 by Executive Order to assist the Illinois Department of Children and Family Services in developing and implementing programs and public policies that affect the State's child welfare system. The Commission has a proven track record of bringing State agencies, community providers, and consumers together to address child welfare issues. The ability of the Commission to address the above mentioned health issues, community factors, and the personal well being of African American families and children has been limited due to the Executive Order's focus on child welfare. It is apparent that broader issues of health, mental health, criminal justice, education, and economic development also directly affect the health and well being of African American families and children. Accordingly, the role of the Illinois African American Family Commission is hereby expanded to encompass working relationships with every department, agency, and commission within State government if any of its activities impact African American children and families. The focus of the Commission is hereby restructured and shall exist by legislative mandate to engage State agencies in its efforts to preserve and strengthen African American families.
