

Caitlin Brady
Chicago, IL

Hello,

I would like to go on record in support of HB5574, The Emergency Renters and Homeowners Protection Act. I have been organizing the Mutual Aid Network in our neighborhood and I can tell you that the needs are far out weighing the resources we have to offer.

Working people of Illinois need help, they cannot pay their rent and my neighbors are choosing between eating and filling their prescriptions. Enough is enough. Stop catering to the interests of the real estate lobby and start fighting for the working people of this state.
