Representing: Alaysha

Supporting: HB-5574 HA 1 Emergency Rental and Homeowner Protection Act

Testimony:

I am in support of emergency renter and homeowner protection act, HB5574 because during this crisis there are hundreds of people out of work. Even with there jobs they had before they were barely getting by. We have to think about the families who would benefit from this. We are all going threw something horrible, no one should have to also worry about how they are going to keep a roof over there head.
