

HB5574 - Proponent

To the Illinois Legislature:

I would like to state for the record that as a resident of Chicago's Humboldt Park wherein many are essential workers and others have been furloughed. People all across this state find themselves in the precarious situation where paying their rent or mortgage will cause further financial hardship. As such I am submitting this statement as a PROPONENT of HB 5574. Please support the families in Illinois who need it most and help prevent them from being evicted from their homes for inability to pay during this pandemic.

Thank you,
