LRB100 05062 KTG 25290 a

1 AMENDMENT TO SENATE BILL 350

2 AMENDMENT NO. _____. Amend Senate Bill 350 by replacing
3 everything after the enacting clause with the following:

4 "Section 5. The Children's Health Insurance Program Act is
5 amended by changing Section 23 as follows:

6 (215 ILCS 106/23)

7 Sec. 23. Care coordination.

8 (a) At least 50% of recipients eligible for comprehensive
9 medical benefits in all medical assistance programs or other
10 health benefit programs administered by the Department,
11 including the Children's Health Insurance Program Act and the
12 Covering ALL KIDS Health Insurance Act, shall be enrolled in a
13 care coordination program by no later than January 1, 2015. The
14 Department shall give preference to provider-sponsored
15 integrated care organizations and shall establish procedures
16 to consider these organizations. Upon satisfying the 50%

1 threshold, there shall be no additional mandatory assignment
2 into managed care organizations until the number of Medicaid
3 recipients in provider-sponsored integrated care organizations
4 is no less than 25% of the number of Medicaid recipients in
5 managed care organizations. For purposes of this Section,
6 "coordinated care" or "care coordination" means delivery
7 systems where recipients will receive their care from providers
8 who participate under contract in integrated delivery systems
9 that are responsible for providing or arranging the majority of
10 care, including primary care physician services, referrals
11 from primary care physicians, diagnostic and treatment
12 services, behavioral health services, in-patient and
13 outpatient hospital services, dental services, and
14 rehabilitation and long-term care services. The Department
15 shall designate or contract for such integrated delivery
16 systems (i) to ensure enrollees have a choice of systems and of
17 primary care providers within such systems; (ii) to ensure that
18 enrollees receive quality care in a culturally and
19 linguistically appropriate manner; and (iii) to ensure that
20 coordinated care programs meet the diverse needs of enrollees
21 with developmental, mental health, physical, and age-related
22 disabilities.

23 (b) Payment for such coordinated care shall be based on
24 arrangements where the State pays for performance related to
25 health care outcomes, the use of evidence-based practices, the
26 use of primary care delivered through comprehensive medical

1 homes, the use of electronic medical records, and the
2 appropriate exchange of health information electronically made
3 either on a capitated basis in which a fixed monthly premium
4 per recipient is paid and full financial risk is assumed for
5 the delivery of services, or through other risk-based payment
6 arrangements.

7 (c) To qualify for compliance with this Section, the 50%
8 goal shall be achieved by enrolling medical assistance
9 enrollees from each medical assistance enrollment category,
10 including parents, children, seniors, and people with
11 disabilities to the extent that current State Medicaid payment
12 laws would not limit federal matching funds for recipients in
13 care coordination programs. In addition, services must be more
14 comprehensively defined and more risk shall be assumed than in
15 the Department's primary care case management program as of the
16 effective date of this amendatory Act of the 96th General
17 Assembly.

18 (d) The Department shall report to the General Assembly in
19 a separate part of its annual medical assistance program
20 report, beginning April, 2012 until April, 2016, on the
21 progress and implementation of the care coordination program
22 initiatives established by the provisions of this amendatory
23 Act of the 96th General Assembly. The Department shall include
24 in its April 2011 report a full analysis of federal laws or
25 regulations regarding upper payment limitations to providers
26 and the necessary revisions or adjustments in rate

1 methodologies and payments to providers under this Code that
2 would be necessary to implement coordinated care with full
3 financial risk by a party other than the Department.

4 (Source: P.A. 96-1501, eff. 1-25-11.)

5 Section 10. The Illinois Public Aid Code is amended by
6 changing Section 5-30 as follows:

7 (305 ILCS 5/5-30)

8 Sec. 5-30. Care coordination.

9 (a) At least 50% of recipients eligible for comprehensive
10 medical benefits in all medical assistance programs or other
11 health benefit programs administered by the Department,
12 including the Children's Health Insurance Program Act and the
13 Covering ALL KIDS Health Insurance Act, shall be enrolled in a
14 care coordination program by no later than January 1, 2015. The
15 Department shall give preference to provider-sponsored
16 integrated care organizations and shall establish procedures
17 to consider these organizations. Upon satisfying the 50%
18 threshold, there shall be no additional mandatory assignment
19 into managed care organizations until the number of Medicaid
20 recipients in provider-sponsored integrated care organizations
21 is no less than 25% of the number of Medicaid recipients in
22 managed care organizations. For purposes of this Section,
23 "coordinated care" or "care coordination" means delivery
24 systems where recipients will receive their care from providers

1 who participate under contract in integrated delivery systems
2 that are responsible for providing or arranging the majority of
3 care, including primary care physician services, referrals
4 from primary care physicians, diagnostic and treatment
5 services, behavioral health services, in-patient and
6 outpatient hospital services, dental services, and
7 rehabilitation and long-term care services. The Department
8 shall designate or contract for such integrated delivery
9 systems (i) to ensure enrollees have a choice of systems and of
10 primary care providers within such systems; (ii) to ensure that
11 enrollees receive quality care in a culturally and
12 linguistically appropriate manner; and (iii) to ensure that
13 coordinated care programs meet the diverse needs of enrollees
14 with developmental, mental health, physical, and age-related
15 disabilities.

16 (b) Payment for such coordinated care shall be based on
17 arrangements where the State pays for performance related to
18 health care outcomes, the use of evidence-based practices, the
19 use of primary care delivered through comprehensive medical
20 homes, the use of electronic medical records, and the
21 appropriate exchange of health information electronically made
22 either on a capitated basis in which a fixed monthly premium
23 per recipient is paid and full financial risk is assumed for
24 the delivery of services, or through other risk-based payment
25 arrangements.

26 (c) To qualify for compliance with this Section, the 50%

1 goal shall be achieved by enrolling medical assistance
2 enrollees from each medical assistance enrollment category,
3 including parents, children, seniors, and people with
4 disabilities to the extent that current State Medicaid payment
5 laws would not limit federal matching funds for recipients in
6 care coordination programs. In addition, services must be more
7 comprehensively defined and more risk shall be assumed than in
8 the Department's primary care case management program as of
9 January 25, 2011 (the effective date of Public Act 96-1501).

10 (d) The Department shall report to the General Assembly in
11 a separate part of its annual medical assistance program
12 report, beginning April, 2012 until April, 2016, on the
13 progress and implementation of the care coordination program
14 initiatives established by the provisions of Public Act
15 96-1501. The Department shall include in its April 2011 report
16 a full analysis of federal laws or regulations regarding upper
17 payment limitations to providers and the necessary revisions or
18 adjustments in rate methodologies and payments to providers
19 under this Code that would be necessary to implement
20 coordinated care with full financial risk by a party other than
21 the Department.

22 (e) Integrated Care Program for individuals with chronic
23 mental health conditions.

24 (1) The Integrated Care Program shall encompass
25 services administered to recipients of medical assistance
26 under this Article to prevent exacerbations and

1 complications using cost-effective, evidence-based
2 practice guidelines and mental health management
3 strategies.

4 (2) The Department may utilize and expand upon existing
5 contractual arrangements with integrated care plans under
6 the Integrated Care Program for providing the coordinated
7 care provisions of this Section.

8 (3) Payment for such coordinated care shall be based on
9 arrangements where the State pays for performance related
10 to mental health outcomes on a capitated basis in which a
11 fixed monthly premium per recipient is paid and full
12 financial risk is assumed for the delivery of services, or
13 through other risk-based payment arrangements such as
14 provider-based care coordination.

15 (4) The Department shall examine whether chronic
16 mental health management programs and services for
17 recipients with specific chronic mental health conditions
18 do any or all of the following:

19 (A) Improve the patient's overall mental health in
20 a more expeditious and cost-effective manner.

21 (B) Lower costs in other aspects of the medical
22 assistance program, such as hospital admissions,
23 emergency room visits, or more frequent and
24 inappropriate psychotropic drug use.

25 (5) The Department shall work with the facilities and
26 any integrated care plan participating in the program to

1 identify and correct barriers to the successful
2 implementation of this subsection (e) prior to and during
3 the implementation to best facilitate the goals and
4 objectives of this subsection (e).

5 (f) A hospital that is located in a county of the State in
6 which the Department mandates some or all of the beneficiaries
7 of the Medical Assistance Program residing in the county to
8 enroll in a Care Coordination Program, as set forth in Section
9 5-30 of this Code, shall not be eligible for any non-claims
10 based payments not mandated by Article V-A of this Code for
11 which it would otherwise be qualified to receive, unless the
12 hospital is a Coordinated Care Participating Hospital no later
13 than 60 days after June 14, 2012 (the effective date of Public
14 Act 97-689) or 60 days after the first mandatory enrollment of
15 a beneficiary in a Coordinated Care program. For purposes of
16 this subsection, "Coordinated Care Participating Hospital"
17 means a hospital that meets one of the following criteria:

18 (1) The hospital has entered into a contract to provide
19 hospital services with one or more MCOs to enrollees of the
20 care coordination program.

21 (2) The hospital has not been offered a contract by a
22 care coordination plan that the Department has determined
23 to be a good faith offer and that pays at least as much as
24 the Department would pay, on a fee-for-service basis, not
25 including disproportionate share hospital adjustment
26 payments or any other supplemental adjustment or add-on

1 payment to the base fee-for-service rate, except to the
2 extent such adjustments or add-on payments are
3 incorporated into the development of the applicable MCO
4 capitated rates.

5 As used in this subsection (f), "MCO" means any entity
6 which contracts with the Department to provide services where
7 payment for medical services is made on a capitated basis.

8 (g) No later than August 1, 2013, the Department shall
9 issue a purchase of care solicitation for Accountable Care
10 Entities (ACE) to serve any children and parents or caretaker
11 relatives of children eligible for medical assistance under
12 this Article. An ACE may be a single corporate structure or a
13 network of providers organized through contractual
14 relationships with a single corporate entity. The solicitation
15 shall require that:

16 (1) An ACE operating in Cook County be capable of
17 serving at least 40,000 eligible individuals in that
18 county; an ACE operating in Lake, Kane, DuPage, or Will
19 Counties be capable of serving at least 20,000 eligible
20 individuals in those counties and an ACE operating in other
21 regions of the State be capable of serving at least 10,000
22 eligible individuals in the region in which it operates.
23 During initial periods of mandatory enrollment, the
24 Department shall require its enrollment services
25 contractor to use a default assignment algorithm that
26 ensures if possible an ACE reaches the minimum enrollment

1 levels set forth in this paragraph.

2 (2) An ACE must include at a minimum the following
3 types of providers: primary care, specialty care,
4 hospitals, and behavioral healthcare.

5 (3) An ACE shall have a governance structure that
6 includes the major components of the health care delivery
7 system, including one representative from each of the
8 groups listed in paragraph (2).

9 (4) An ACE must be an integrated delivery system,
10 including a network able to provide the full range of
11 services needed by Medicaid beneficiaries and system
12 capacity to securely pass clinical information across
13 participating entities and to aggregate and analyze that
14 data in order to coordinate care.

15 (5) An ACE must be capable of providing both care
16 coordination and complex case management, as necessary, to
17 beneficiaries. To be responsive to the solicitation, a
18 potential ACE must outline its care coordination and
19 complex case management model and plan to reduce the cost
20 of care.

21 (6) In the first 18 months of operation, unless the ACE
22 selects a shorter period, an ACE shall be paid care
23 coordination fees on a per member per month basis that are
24 projected to be cost neutral to the State during the term
25 of their payment and, subject to federal approval, be
26 eligible to share in additional savings generated by their

1 care coordination.

2 (7) In months 19 through 36 of operation, unless the
3 ACE selects a shorter period, an ACE shall be paid on a
4 pre-paid capitation basis for all medical assistance
5 covered services, under contract terms similar to Managed
6 Care Organizations (MCO), with the Department sharing the
7 risk through either stop-loss insurance for extremely high
8 cost individuals or corridors of shared risk based on the
9 overall cost of the total enrollment in the ACE. The ACE
10 shall be responsible for claims processing, encounter data
11 submission, utilization control, and quality assurance.

12 (8) In the fourth and subsequent years of operation, an
13 ACE shall convert to a Managed Care Community Network
14 (MCCN), as defined in this Article, or Health Maintenance
15 Organization pursuant to the Illinois Insurance Code,
16 accepting full-risk capitation payments.

17 The Department shall allow potential ACE entities 5 months
18 from the date of the posting of the solicitation to submit
19 proposals. After the solicitation is released, in addition to
20 the MCO rate development data available on the Department's
21 website, subject to federal and State confidentiality and
22 privacy laws and regulations, the Department shall provide 2
23 years of de-identified summary service data on the targeted
24 population, split between children and adults, showing the
25 historical type and volume of services received and the cost of
26 those services to those potential bidders that sign a data use

1 agreement. The Department may add up to 2 non-state government
2 employees with expertise in creating integrated delivery
3 systems to its review team for the purchase of care
4 solicitation described in this subsection. Any such
5 individuals must sign a no-conflict disclosure and
6 confidentiality agreement and agree to act in accordance with
7 all applicable State laws.

8 During the first 2 years of an ACE's operation, the
9 Department shall provide claims data to the ACE on its
10 enrollees on a periodic basis no less frequently than monthly.

11 Nothing in this subsection shall be construed to limit the
12 Department's mandate to enroll 50% of its beneficiaries into
13 care coordination systems by January 1, 2015, using all
14 available care coordination delivery systems, including Care
15 Coordination Entities (CCE), MCCNs, or MCOs, nor be construed
16 to affect the current CCEs, MCCNs, and MCOs selected to serve
17 seniors and persons with disabilities prior to that date.

18 Nothing in this subsection precludes the Department from
19 considering future proposals for new ACEs or expansion of
20 existing ACEs at the discretion of the Department.

21 (h) Department contracts with MCOs and other entities
22 reimbursed by risk based capitation shall have a minimum
23 medical loss ratio of 85%, shall require the entity to
24 establish an appeals and grievances process for consumers and
25 providers, and shall require the entity to provide a quality
26 assurance and utilization review program. Entities contracted

1 with the Department to coordinate healthcare regardless of risk
2 shall be measured utilizing the same quality metrics. The
3 quality metrics may be population specific. Any contracted
4 entity serving at least 5,000 seniors or people with
5 disabilities or 15,000 individuals in other populations
6 covered by the Medical Assistance Program that has been
7 receiving full-risk capitation for a year shall be accredited
8 by a national accreditation organization authorized by the
9 Department within 2 years after the date it is eligible to
10 become accredited. The requirements of this subsection shall
11 apply to contracts with MCOs entered into or renewed or
12 extended after June 1, 2013.

13 (h-5) The Department shall monitor and enforce compliance
14 by MCOs with agreements they have entered into with providers
15 on issues that include, but are not limited to, timeliness of
16 payment, payment rates, and processes for obtaining prior
17 approval. The Department may impose sanctions on MCOs for
18 violating provisions of those agreements that include, but are
19 not limited to, financial penalties, suspension of enrollment
20 of new enrollees, and termination of the MCO's contract with
21 the Department. As used in this subsection (h-5), "MCO" has the
22 meaning ascribed to that term in Section 5-30.1 of this Code.

23 (i) Unless otherwise required by federal law, Medicaid
24 Managed Care Entities and their respective business associates
25 shall not disclose, directly or indirectly, including by
26 sending a bill or explanation of benefits, information

1 concerning the sensitive health services received by enrollees
2 of the Medicaid Managed Care Entity to any person other than
3 covered entities and business associates, which may receive,
4 use, and further disclose such information solely for the
5 purposes permitted under applicable federal and State laws and
6 regulations if such use and further disclosure satisfies all
7 applicable requirements of such laws and regulations. The
8 Medicaid Managed Care Entity or its respective business
9 associates may disclose information concerning the sensitive
10 health services if the enrollee who received the sensitive
11 health services requests the information from the Medicaid
12 Managed Care Entity or its respective business associates and
13 authorized the sending of a bill or explanation of benefits.
14 Communications including, but not limited to, statements of
15 care received or appointment reminders either directly or
16 indirectly to the enrollee from the health care provider,
17 health care professional, and care coordinators, remain
18 permissible. Medicaid Managed Care Entities or their
19 respective business associates may communicate directly with
20 their enrollees regarding care coordination activities for
21 those enrollees.

22 For the purposes of this subsection, the term "Medicaid
23 Managed Care Entity" includes Care Coordination Entities,
24 Accountable Care Entities, Managed Care Organizations, and
25 Managed Care Community Networks.

26 For purposes of this subsection, the term "sensitive health

1 services" means mental health services, substance abuse
2 treatment services, reproductive health services, family
3 planning services, services for sexually transmitted
4 infections and sexually transmitted diseases, and services for
5 sexual assault or domestic abuse. Services include prevention,
6 screening, consultation, examination, treatment, or follow-up.

7 For purposes of this subsection, "business associate",
8 "covered entity", "disclosure", and "use" have the meanings
9 ascribed to those terms in 45 CFR 160.103.

10 Nothing in this subsection shall be construed to relieve a
11 Medicaid Managed Care Entity or the Department of any duty to
12 report incidents of sexually transmitted infections to the
13 Department of Public Health or to the local board of health in
14 accordance with regulations adopted under a statute or
15 ordinance or to report incidents of sexually transmitted
16 infections as necessary to comply with the requirements under
17 Section 5 of the Abused and Neglected Child Reporting Act or as
18 otherwise required by State or federal law.

19 The Department shall create policy in order to implement
20 the requirements in this subsection.

21 (j) Managed Care Entities (MCEs), including MCOs and all
22 other care coordination organizations, shall develop and
23 maintain a written language access policy that sets forth the
24 standards, guidelines, and operational plan to ensure language
25 appropriate services and that is consistent with the standard
26 of meaningful access for populations with limited English

1 proficiency. The language access policy shall describe how the
2 MCEs will provide all of the following required services:

3 (1) Translation (the written replacement of text from
4 one language into another) of all vital documents and forms
5 as identified by the Department.

6 (2) Qualified interpreter services (the oral
7 communication of a message from one language into another
8 by a qualified interpreter).

9 (3) Staff training on the language access policy,
10 including how to identify language needs, access and
11 provide language assistance services, work with
12 interpreters, request translations, and track the use of
13 language assistance services.

14 (4) Data tracking that identifies the language need.

15 (5) Notification to participants on the availability
16 of language access services and on how to access such
17 services.
