1 AMENDMENT TO SENATE BILL 1828

2 AMENDMENT NO. \_\_\_\_\_. Amend Senate Bill 1828 by replacing  
3 everything after the enacting clause with the following:

4 "Section 1. Short title. This Act may be cited as the  
5 Overdose Prevention and Harm Reduction Act.

6 Section 5. Needle and hypodermic syringe access program.

7 (a) Any governmental or nongovernmental organization,  
8 including a local health department, community-based  
9 organization, or a person or entity, that promotes  
10 scientifically proven ways of mitigating health risks  
11 associated with drug use and other high-risk behaviors may  
12 establish and operate a needle and hypodermic syringe access  
13 program. The objective of the program shall be accomplishing  
14 all of the following:

15 (1) reducing the spread of HIV, AIDS, viral hepatitis,  
16 and other bloodborne diseases;

1           (2) reducing the potential for needle stick injuries  
2           from discarded contaminated equipment; and

3           (3) facilitating connections or linkages to  
4           evidence-based treatment.

5           (b) Programs established under this Act shall provide all  
6           of the following:

7           (1) Disposal of used needles and hypodermic syringes.

8           (2) Needles, hypodermic syringes, and other safer drug  
9           consumption supplies, at no cost and in quantities  
10          sufficient to ensure that needles, hypodermic syringes, or  
11          other supplies are not shared or reused.

12          (3) Educational materials or training on:

13               (A) overdose prevention and intervention; and

14               (B) the prevention of HIV, AIDS, viral hepatitis,  
15               and other common bloodborne diseases resulting from  
16               shared drug consumption equipment and supplies.

17          (4) Access to opioid antagonists approved for the  
18          reversal of an opioid overdose, or referrals to programs  
19          that provide access to opioid antagonists approved for the  
20          reversal of an opioid overdose.

21          (5) Linkages to needed services, including mental  
22          health treatment, housing programs, substance use disorder  
23          treatment, and other relevant community services.

24          (6) Individual consultations from a trained employee  
25          tailored to individual needs.

26          (7) If feasible, a hygienic, separate space for

1 individuals who need to administer a prescribed injectable  
2 medication that can also be used as a quiet space to gather  
3 composure in the event of an adverse on-site incident, such  
4 as a nonfatal overdose.

5 (8) If feasible, access to on-site drug adulterant  
6 testing supplies such as reagents, test strips, or  
7 quantification instruments that provide critical real-time  
8 information on the composition of substances obtained for  
9 consumption.

10 (c) Notwithstanding any provision of the Illinois  
11 Controlled Substances Act, the Drug Paraphernalia Control Act,  
12 or any other law, no employee or volunteer of or participant in  
13 a program established under this Act shall be charged with or  
14 prosecuted for possession of any of the following:

15 (1) Needles, hypodermic syringes, or other drug  
16 consumption paraphernalia obtained from or returned,  
17 directly or indirectly, to a program established under this  
18 Act.

19 (2) Residual amounts of a controlled substance  
20 contained in used needles, used hypodermic syringes, or  
21 other used drug consumption paraphernalia obtained from or  
22 returned, directly or indirectly, to a program established  
23 under this Act.

24 (3) Drug adulterant testing supplies such as reagents,  
25 test strips, or quantification instruments obtained from  
26 or returned, directly or indirectly, to a program

1 established under this Act.

2 (4) Any residual amounts of controlled substances used  
3 in the course of testing the controlled substance to  
4 determine the chemical composition and potential threat of  
5 the substances obtained for consumption that are obtained  
6 from or returned, directly or indirectly, to a program  
7 established under this Act.

8 In addition to any other applicable immunity or limitation  
9 on civil liability, a law enforcement officer who, acting on  
10 good faith, arrests or charges a person who is thereafter  
11 determined to be entitled to immunity from prosecution under  
12 this subsection (c) shall not be subject to civil liability for  
13 the arrest or filing of charges.

14 (d) Prior to the commencing of operations of a program  
15 established under this Act, the governmental or  
16 nongovernmental organization shall submit to the Illinois  
17 Department of Public Health all of the following information:

18 (1) the name of the organization, agency, group,  
19 person, or entity operating the program;

20 (2) the areas and populations to be served by the  
21 program; and

22 (3) the methods by which the program will meet the  
23 requirements of subsection (b) of this Section.

24 The Department of Public Health may adopt rules to  
25 implement this subsection.

1           Section 100. The Substance Use Disorder Act is amended by  
2 changing Section 5-23 as follows:

3           (20 ILCS 301/5-23)

4           Sec. 5-23. Drug Overdose Prevention Program.

5           (a) Reports ~~of drug overdose~~.

6           (1) The Department may publish annually a report on  
7 drug overdose trends statewide that reviews State death  
8 rates from available data to ascertain changes in the  
9 causes or rates of fatal and nonfatal drug overdose. The  
10 report shall also provide information on interventions  
11 that would be effective in reducing the rate of fatal or  
12 nonfatal drug overdose and on the current substance use  
13 disorder treatment capacity within the State. The report  
14 shall include an analysis of drug overdose information  
15 reported to the Department of Public Health pursuant to  
16 subsection (e) of Section 3-3013 of the Counties Code,  
17 Section 6.14g of the Hospital Licensing Act, and subsection  
18 (j) of Section 22-30 of the School Code.

19           (2) The report may include:

20           (A) Trends in drug overdose death rates.

21           (B) Trends in emergency room utilization related  
22 to drug overdose and the cost impact of emergency room  
23 utilization.

24           (C) Trends in utilization of pre-hospital and  
25 emergency services and the cost impact of emergency

1 services utilization.

2 (D) Suggested improvements in data collection.

3 (E) A description of other interventions effective  
4 in reducing the rate of fatal or nonfatal drug  
5 overdose.

6 (F) A description of efforts undertaken to educate  
7 the public about unused medication and about how to  
8 properly dispose of unused medication, including the  
9 number of registered collection receptacles in this  
10 State, mail-back programs, and drug take-back events.

11 (G) An inventory of the State's substance use  
12 disorder treatment capacity, including, but not  
13 limited to:

14 (i) The number and type of licensed treatment  
15 programs in each geographic area of the State.

16 (ii) The availability of medication-assisted  
17 treatment at each licensed program and which types  
18 of medication-assisted treatment are available.

19 (iii) The number of recovery homes that accept  
20 individuals using medication-assisted treatment in  
21 their recovery.

22 (iv) The number of medical professionals  
23 currently authorized to prescribe buprenorphine  
24 and the number of individuals who fill  
25 prescriptions for that medication at retail  
26 pharmacies as prescribed.

1                   (v) Any partnerships between programs licensed  
2                   by the Department and other providers of  
3                   medication-assisted treatment.

4                   (vi) Any challenges in providing  
5                   medication-assisted treatment reported by programs  
6                   licensed by the Department and any potential  
7                   solutions.

8           (b) Programs; drug overdose prevention.

9           (1) The Department may establish a program to provide  
10           for the production and publication, in electronic and other  
11           formats, of drug overdose prevention, recognition, and  
12           response literature. The Department may develop and  
13           disseminate curricula for use by professionals,  
14           organizations, individuals, or committees interested in  
15           the prevention of fatal and nonfatal drug overdose,  
16           including, but not limited to, drug users, jail and prison  
17           personnel, jail and prison inmates, drug treatment  
18           professionals, emergency medical personnel, hospital  
19           staff, families and associates of drug users, peace  
20           officers, firefighters, public safety officers, needle  
21           exchange program staff, and other persons. In addition to  
22           information regarding drug overdose prevention,  
23           recognition, and response, literature produced by the  
24           Department shall stress that drug use remains illegal and  
25           highly dangerous and that complete abstinence from illegal  
26           drug use is the healthiest choice. The literature shall

1 provide information and resources for substance use  
2 disorder treatment.

3 The Department may establish or authorize programs for  
4 prescribing, dispensing, or distributing opioid  
5 antagonists for the treatment of drug overdose. Such  
6 programs may include the prescribing of opioid antagonists  
7 for the treatment of drug overdose to a person who is not  
8 at risk of opioid overdose but who, in the judgment of the  
9 health care professional, may be in a position to assist  
10 another individual during an opioid-related drug overdose  
11 and who has received basic instruction on how to administer  
12 an opioid antagonist.

13 (2) The Department may provide advice to State and  
14 local officials on the growing drug overdose crisis,  
15 including the prevalence of drug overdose incidents,  
16 programs promoting the disposal of unused prescription  
17 drugs, trends in drug overdose incidents, and solutions to  
18 the drug overdose crisis.

19 (3) The Department may support drug overdose  
20 prevention, recognition, and response projects by  
21 facilitating the acquisition of opioid antagonist  
22 medication approved for opioid overdose reversal,  
23 facilitating the acquisition of opioid antagonist  
24 medication approved for opioid overdose reversal,  
25 providing trainings in overdose prevention best practices,  
26 connecting programs to medical resources, establishing a

1 statewide standing order for the acquisition of needed  
2 medication, establishing learning collaboratives between  
3 localities and programs, and assisting programs in  
4 navigating any regulatory requirements for establishing or  
5 expanding such programs.

6 (4) In supporting best practices in drug overdose  
7 prevention programming, the Department may promote the  
8 following programmatic elements:

9 (A) Training individuals who currently use drugs  
10 in the administration of opioid antagonists approved  
11 for the reversal of an opioid overdose.

12 (B) Directly distributing opioid antagonists  
13 approved for the reversal of an opioid overdose rather  
14 than providing prescriptions to be filled at a  
15 pharmacy.

16 (C) Conducting street and community outreach to  
17 work directly with individuals who are using drugs.

18 (D) Employing community health workers or peer  
19 recovery specialists who are familiar with the  
20 communities served and can provide culturally  
21 competent services.

22 (E) Collaborating with other community-based  
23 organizations, substance use disorder treatment  
24 centers, or other health care providers engaged in  
25 treating individuals who are using drugs.

26 (F) Providing linkages for individuals to obtain

1 evidence-based substance use disorder treatment.

2 (G) Engaging individuals exiting jails or prisons  
3 who are at a high risk of overdose.

4 (H) Providing education and training to  
5 community-based organizations who work directly with  
6 individuals who are using drugs and those individuals'  
7 families and communities.

8 (I) Providing education and training on drug  
9 overdose prevention and response to emergency  
10 personnel and law enforcement.

11 (J) Informing communities of the important role  
12 emergency personnel play in responding to accidental  
13 overdose.

14 (K) Producing and distributing targeted mass media  
15 materials on drug overdose prevention and response,  
16 the potential dangers of leaving unused prescription  
17 drugs in the home, and the proper methods for disposing  
18 of unused prescription drugs.

19 (c) Grants.

20 (1) The Department may award grants, in accordance with  
21 this subsection, to create or support local drug overdose  
22 prevention, recognition, and response projects. Local  
23 health departments, correctional institutions, hospitals,  
24 universities, community-based organizations, and  
25 faith-based organizations may apply to the Department for a  
26 grant under this subsection at the time and in the manner

1 the Department prescribes.

2 (2) In awarding grants, the Department shall consider  
3 the necessity for overdose prevention projects in various  
4 settings and shall encourage all grant applicants to  
5 develop interventions that will be effective and viable in  
6 their local areas.

7 (3) (Blank). ~~The Department shall give preference for~~  
8 ~~grants to proposals that, in addition to providing~~  
9 ~~life saving interventions and responses, provide~~  
10 ~~information to drug users on how to access substance use~~  
11 ~~disorder treatment or other strategies for abstaining from~~  
12 ~~illegal drugs. The Department shall give preference to~~  
13 ~~proposals that include one or more of the following~~  
14 ~~elements:~~

15 ~~(A) Policies and projects to encourage persons,~~  
16 ~~including drug users, to call 911 when they witness a~~  
17 ~~potentially fatal drug overdose.~~

18 ~~(B) Drug overdose prevention, recognition, and~~  
19 ~~response education projects in drug treatment centers,~~  
20 ~~outreach programs, and other organizations that work~~  
21 ~~with, or have access to, drug users and their families~~  
22 ~~and communities.~~

23 ~~(C) Drug overdose recognition and response~~  
24 ~~training, including rescue breathing, in drug~~  
25 ~~treatment centers and for other organizations that~~  
26 ~~work with, or have access to, drug users and their~~

1 ~~families and communities.~~

2 ~~(D) The production and distribution of targeted or~~  
3 ~~mass media materials on drug overdose prevention and~~  
4 ~~response, the potential dangers of keeping unused~~  
5 ~~prescription drugs in the home, and methods to properly~~  
6 ~~dispose of unused prescription drugs.~~

7 ~~(E) Prescription and distribution of opioid~~  
8 ~~antagonists.~~

9 ~~(F) The institution of education and training~~  
10 ~~projects on drug overdose response and treatment for~~  
11 ~~emergency services and law enforcement personnel.~~

12 ~~(G) A system of parent, family, and survivor~~  
13 ~~education and mutual support groups.~~

14 (4) In addition to moneys appropriated by the General  
15 Assembly, the Department may seek grants from private  
16 foundations, the federal government, and other sources to  
17 fund the grants under this Section and to fund an  
18 evaluation of the programs supported by the grants.

19 (d) Health care professional prescription of opioid  
20 antagonists.

21 (1) A health care professional who, acting in good  
22 faith, directly or by standing order, prescribes or  
23 dispenses an opioid antagonist to: (a) a patient who, in  
24 the judgment of the health care professional, is capable of  
25 administering the drug in an emergency, or (b) a person who  
26 is not at risk of opioid overdose but who, in the judgment

1 of the health care professional, may be in a position to  
2 assist another individual during an opioid-related drug  
3 overdose and who has received basic instruction on how to  
4 administer an opioid antagonist shall not, as a result of  
5 his or her acts or omissions, be subject to: (i) any  
6 disciplinary or other adverse action under the Medical  
7 Practice Act of 1987, the Physician Assistant Practice Act  
8 of 1987, the Nurse Practice Act, the Pharmacy Practice Act,  
9 or any other professional licensing statute or (ii) any  
10 criminal liability, except for willful and wanton  
11 misconduct.

12 (2) A person who is not otherwise licensed to  
13 administer an opioid antagonist may in an emergency  
14 administer without fee an opioid antagonist if the person  
15 has received the patient information specified in  
16 paragraph (4) of this subsection and believes in good faith  
17 that another person is experiencing a drug overdose. The  
18 person shall not, as a result of his or her acts or  
19 omissions, be (i) liable for any violation of the Medical  
20 Practice Act of 1987, the Physician Assistant Practice Act  
21 of 1987, the Nurse Practice Act, the Pharmacy Practice Act,  
22 or any other professional licensing statute, or (ii)  
23 subject to any criminal prosecution or civil liability,  
24 except for willful and wanton misconduct.

25 (3) A health care professional prescribing an opioid  
26 antagonist to a patient shall ensure that the patient

1 receives the patient information specified in paragraph  
2 (4) of this subsection. Patient information may be provided  
3 by the health care professional or a community-based  
4 organization, substance use disorder program, or other  
5 organization with which the health care professional  
6 establishes a written agreement that includes a  
7 description of how the organization will provide patient  
8 information, how employees or volunteers providing  
9 information will be trained, and standards for documenting  
10 the provision of patient information to patients.  
11 Provision of patient information shall be documented in the  
12 patient's medical record or through similar means as  
13 determined by agreement between the health care  
14 professional and the organization. The Department, in  
15 consultation with statewide organizations representing  
16 physicians, pharmacists, advanced practice registered  
17 nurses, physician assistants, substance use disorder  
18 programs, and other interested groups, shall develop and  
19 disseminate to health care professionals, community-based  
20 organizations, substance use disorder programs, and other  
21 organizations training materials in video, electronic, or  
22 other formats to facilitate the provision of such patient  
23 information.

24 (4) For the purposes of this subsection:

25 "Opioid antagonist" means a drug that binds to opioid  
26 receptors and blocks or inhibits the effect of opioids

1 acting on those receptors, including, but not limited to,  
2 naloxone hydrochloride or any other similarly acting drug  
3 approved by the U.S. Food and Drug Administration.

4 "Health care professional" means a physician licensed  
5 to practice medicine in all its branches, a licensed  
6 physician assistant with prescriptive authority, a  
7 licensed advanced practice registered nurse with  
8 prescriptive authority, an advanced practice registered  
9 nurse or physician assistant who practices in a hospital,  
10 hospital affiliate, or ambulatory surgical treatment  
11 center and possesses appropriate clinical privileges in  
12 accordance with the Nurse Practice Act, or a pharmacist  
13 licensed to practice pharmacy under the Pharmacy Practice  
14 Act.

15 "Patient" includes a person who is not at risk of  
16 opioid overdose but who, in the judgment of the physician,  
17 advanced practice registered nurse, or physician  
18 assistant, may be in a position to assist another  
19 individual during an overdose and who has received patient  
20 information as required in paragraph (2) of this subsection  
21 on the indications for and administration of an opioid  
22 antagonist.

23 "Patient information" includes information provided to  
24 the patient on drug overdose prevention and recognition;  
25 how to perform rescue breathing and resuscitation; opioid  
26 antagonist dosage and administration; the importance of

1 calling 911; care for the overdose victim after  
2 administration of the overdose antagonist; and other  
3 issues as necessary.

4 (e) Drug overdose response policy.

5 (1) Every State and local government agency that  
6 employs a law enforcement officer or fireman as those terms  
7 are defined in the Line of Duty Compensation Act must  
8 possess opioid antagonists and must establish a policy to  
9 control the acquisition, storage, transportation, and  
10 administration of such opioid antagonists and to provide  
11 training in the administration of opioid antagonists. A  
12 State or local government agency that employs a fireman as  
13 defined in the Line of Duty Compensation Act but does not  
14 respond to emergency medical calls or provide medical  
15 services shall be exempt from this subsection.

16 (2) Every publicly or privately owned ambulance,  
17 special emergency medical services vehicle, non-transport  
18 vehicle, or ambulance assist vehicle, as described in the  
19 Emergency Medical Services (EMS) Systems Act, that  
20 responds to requests for emergency services or transports  
21 patients between hospitals in emergency situations must  
22 possess opioid antagonists.

23 (3) Entities that are required under paragraphs (1) and  
24 (2) to possess opioid antagonists may also apply to the  
25 Department for a grant to fund the acquisition of opioid  
26 antagonists and training programs on the administration of

1           opioid antagonists.

3           99-581, eff. 1-1-17; 99-642, eff. 7-28-16; 100-201, eff.  
4           8-18-17; 100-513, eff. 1-1-18; 100-759, eff. 1-1-19.)

5           Section 200. The Hypodermic Syringes and Needles Act is  
6           amended by changing Sections 1 and 2 as follows:

7           (720 ILCS 635/1) (from Ch. 38, par. 22-50)

8           Sec. 1. Possession of hypodermic syringes and needles.

9           (a) Except as provided in subsection (b), no person, not  
10          being a physician, dentist, chiropodist or veterinarian  
11          licensed under the laws of this State or of the state where he  
12          resides, or a registered professional nurse, or a registered  
13          embalmer, manufacturer or dealer in embalming supplies,  
14          wholesale druggist, manufacturing pharmacist, registered  
15          pharmacist, manufacturer of surgical instruments, industrial  
16          user, official of any government having possession of the  
17          articles hereinafter mentioned by reason of his or her official  
18          duties, nurse or a medical laboratory technician acting under  
19          the direction of a physician or dentist, employee of an  
20          incorporated hospital acting under the direction of its  
21          superintendent or officer in immediate charge, or a carrier or  
22          messenger engaged in the transportation of the articles, or the  
23          holder of a permit issued under Section 5 of this Act, or a  
24          farmer engaged in the use of the instruments on livestock, or a

1 person engaged in chemical, clinical, pharmaceutical or other  
2 scientific research, or a staff person, volunteer, or  
3 participant in a needle or hypodermic syringe access program,  
4 shall have in his or her possession a hypodermic syringe,  
5 hypodermic needle, or any instrument adapted for the use of  
6 controlled substances or cannabis by subcutaneous injection.

7 (b) A person who is at least 18 years of age may purchase  
8 from a pharmacy and have in his or her possession up to 100  
9 hypodermic syringes or needles.

10 (Source: P.A. 100-326, eff. 1-1-18.)

11 (720 ILCS 635/2) (from Ch. 38, par. 22-51)

12 Sec. 2. Sale of hypodermic syringes and needles.

13 (a) Except as provided in subsection (b), no syringe,  
14 needle or instrument shall be delivered or sold to, or  
15 exchanged with, any person except a registered pharmacist,  
16 physician, dentist, veterinarian, registered embalmer,  
17 manufacturer or dealer in embalming supplies, wholesale  
18 druggist, manufacturing pharmacist, industrial user, a nurse  
19 upon the written order of a physician or dentist, the holder of  
20 a permit issued under Section 5 of this Act, a registered  
21 chiropodist, or an employee of an incorporated hospital upon  
22 the written order of its superintendent or officer in immediate  
23 charge; provided that the provisions of this Act shall not  
24 prohibit the sale, possession or use of hypodermic syringes or  
25 hypodermic needles for treatment of livestock or poultry by the

1 owner or keeper thereof or a person engaged in chemical,  
2 clinical, pharmaceutical or other scientific research, or a  
3 staff person, volunteer, or participant in a needle or  
4 hypodermic syringe access program.

5 (b) A pharmacist may sell up to 100 sterile hypodermic  
6 syringes or needles to a person who is at least 18 years of  
7 age. A syringe or needle sold under this subsection (b) must be  
8 stored at a pharmacy and in a manner that limits access to the  
9 syringes or needles to pharmacists employed at the pharmacy and  
10 any persons designated by the pharmacists. A syringe or needle  
11 sold at a pharmacy under this subsection (b) may be sold only  
12 from the pharmacy department of the pharmacy.

13 (Source: P.A. 100-326, eff. 1-1-18.)

14 Section 999. Effective date. This Act takes effect upon  
15 becoming law.".
