(a) In order to meet cash flow deficits and to maintain liquidity in general funds and the Health Insurance Reserve Fund, on and after July 1, 2017 and through June 30, 2022, the State Treasurer and the State Comptroller, in consultation with the Governor's Office of Management and Budget, shall make transfers to general funds and the Health Insurance Reserve Fund, as directed by the State Comptroller, out of special funds of the State, to the extent allowed by federal law.

No such transfer may reduce the cumulative balance of all of the special funds of the State to an amount less than the total debt service payable during the 12 months immediately following the date of the transfer on any bonded indebtedness of the State and any certificates issued under the Short Term Borrowing Act. At no time shall the outstanding total transfers made from the special funds of the State to general
funds and the Health Insurance Reserve Fund under this Section exceed $1,500,000,000; once the amount of $1,500,000,000 has been transferred from the special funds of the State to general funds and the Health Insurance Reserve Fund, additional transfers may be made from the special funds of the State to general funds and the Health Insurance Reserve Fund under this Section only to the extent that moneys have first been re-transferred from general funds and the Health Insurance Reserve Fund to those special funds of the State. Notwithstanding any other provision of this Section, no such transfer may be made from any special fund that is exclusively collected by or directly appropriated to any other constitutional officer without the written approval of that constitutional officer.

(b) If moneys have been transferred to general funds and the Health Insurance Reserve Fund pursuant to subsection (a) of this Section, Public Act 100-23 shall constitute the continuing authority for and direction to the State Treasurer and State Comptroller to reimburse the funds of origin from general funds by transferring to the funds of origin, at such times and in such amounts as directed by the Comptroller when necessary to support appropriated expenditures from the funds, an amount equal to that transferred from them plus any interest that would have accrued thereon had the transfer not occurred, except that any moneys transferred pursuant to subsection (a) of this Section shall be repaid to the fund of
origin within 60 months after the date on which they were borrowed. When any of the funds from which moneys have been transferred pursuant to subsection (a) have insufficient cash from which the State Comptroller may make expenditures properly supported by appropriations from the fund, then the State Treasurer and State Comptroller shall transfer from general funds to the fund only such amount as is immediately necessary to satisfy outstanding expenditure obligations on a timely basis.

(c) On the first day of each quarterly period in each fiscal year, until such time as a report indicates that all moneys borrowed and interest pursuant to this Section have been repaid, the Comptroller shall provide to the President and the Minority Leader of the Senate, the Speaker and the Minority Leader of the House of Representatives, and the Commission on Government Forecasting and Accountability a report on all transfers made pursuant to this Section in the prior quarterly period. The report must be provided in electronic format. The report must include all of the following:

(1) the date each transfer was made;

(2) the amount of each transfer;

(3) in the case of a transfer from general funds to a fund of origin pursuant to subsection (b) of this Section, the amount of interest being paid to the fund of origin; and
the end of day balance of the fund of origin, the general funds, and the Health Insurance Reserve Fund on the date the transfer was made. (Source: P.A. 100-23, eff. 7-6-17; 100-587, eff. 6-4-18; 101-10, eff. 6-5-19; 101-636, eff. 6-10-20.)

effectively measure and monitor natural resources and ecological conditions through investments in technology and involvement of scientific experts.

(4) To initiate strategies to enhance, use, and maintain Illinois' inland lakes through education, technical assistance, research, and financial incentives.

(30 ILCS 105/8.12) (from Ch. 127, par. 144.12)

(a) The moneys in the State Pensions Fund shall be used exclusively for the administration of the Revised Uniform Unclaimed Property Act and for the expenses incurred by the Auditor General for administering the provisions of Section 2-8.1 of the Illinois State Auditing Act and for operational expenses of the Office of the State Treasurer and for the funding of the unfunded liabilities of the designated retirement systems. For the purposes of this Section,
"operational expenses of the Office of the State Treasurer" includes the acquisition of land and buildings in State fiscal years 2019 and 2020 for use by the Office of the State Treasurer, as well as construction, reconstruction, improvement, repair, and maintenance, in accordance with the provisions of laws relating thereto, of such lands and buildings beginning in State fiscal year 2019 and thereafter.

Beginning in State fiscal year 2023, 2022, payments to the designated retirement systems under this Section shall be in addition to, and not in lieu of, any State contributions required under the Illinois Pension Code.

"Designated retirement systems" means:

1. the State Employees' Retirement System of Illinois;
2. the Teachers' Retirement System of the State of Illinois;
3. the State Universities Retirement System;
4. the Judges Retirement System of Illinois; and
5. the General Assembly Retirement System.

(b) Each year the General Assembly may make appropriations from the State Pensions Fund for the administration of the Revised Uniform Unclaimed Property Act.

(c) As soon as possible after July 30, 2004 (the effective date of Public Act 93-839), the General Assembly shall appropriate from the State Pensions Fund (1) to the State Universities Retirement System the amount certified under
Section 15-165 during the prior year, (2) to the Judges Retirement System of Illinois the amount certified under Section 18-140 during the prior year, and (3) to the General Assembly Retirement System the amount certified under Section 2-134 during the prior year as part of the required State contributions to each of those designated retirement systems.

If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least $5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years 2006 through 2022, the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below $5,000,000.

(c-6) For fiscal year 2023 and each fiscal year thereafter, as soon as may be practical after any money is deposited into the State Pensions Fund from the Unclaimed Property Trust Fund, the State Treasurer shall apportion the deposited amount among the designated retirement systems as defined in subsection (a) to reduce their actuarial reserve deficiencies. The State Comptroller and State Treasurer shall
pay the apportioned amounts to the designated retirement
systems to fund the unfunded liabilities of the designated
retirement systems. The amount apportioned to each designated
retirement system shall constitute a portion of the amount
estimated to be available for appropriation from the State
Pensions Fund that is the same as that retirement system's
portion of the total actual reserve deficiency of the systems,
as determined annually by the Governor's Office of Management
and Budget at the request of the State Treasurer. The amounts
apportioned under this subsection shall not reduce the amount
in the State Pensions Fund below $5,000,000.

(d) The Governor's Office of Management and Budget shall
determine the individual and total reserve deficiencies of the
designated retirement systems. For this purpose, the
Governor's Office of Management and Budget shall utilize the
latest available audit and actuarial reports of each of the
retirement systems and the relevant reports and statistics of
the Public Employee Pension Fund Division of the Department of
Insurance.

(d-1) (Blank).

(e) The changes to this Section made by Public Act 88-593
shall first apply to distributions from the Fund for State
fiscal year 1996.

(30 ILCS 105/13.2) (from Ch. 127, par. 149.2)

Sec. 13.2. Transfers among line item appropriations.

(a) Transfers among line item appropriations from the same treasury fund for the objects specified in this Section may be made in the manner provided in this Section when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made.
(a-1) No transfers may be made from one agency to another agency, nor may transfers be made from one institution of higher education to another institution of higher education except as provided by subsection (a-4).

(a-2) Except as otherwise provided in this Section, transfers may be made only among the objects of expenditure enumerated in this Section, except that no funds may be transferred from any appropriation for personal services, from any appropriation for State contributions to the State Employees' Retirement System, from any separate appropriation for employee retirement contributions paid by the employer, nor from any appropriation for State contribution for employee group insurance.

(a-2.5) (Blank).

(a-3) Further, if an agency receives a separate appropriation for employee retirement contributions paid by the employer, any transfer by that agency into an appropriation for personal services must be accompanied by a corresponding transfer into the appropriation for employee retirement contributions paid by the employer, in an amount sufficient to meet the employer share of the employee contributions required to be remitted to the retirement system.

(a-4) Long-Term Care Rebalancing. The Governor may designate amounts set aside for institutional services appropriated from the General Revenue Fund or any other State
fund that receives monies for long-term care services to be transferred to all State agencies responsible for the administration of community-based long-term care programs, including, but not limited to, community-based long-term care programs administered by the Department of Healthcare and Family Services, the Department of Human Services, and the Department on Aging, provided that the Director of Healthcare and Family Services first certifies that the amounts being transferred are necessary for the purpose of assisting persons in or at risk of being in institutional care to transition to community-based settings, including the financial data needed to prove the need for the transfer of funds. The total amounts transferred shall not exceed 4% in total of the amounts appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services for each fiscal year. A notice of the fund transfer must be made to the General Assembly and posted at a minimum on the Department of Healthcare and Family Services website, the Governor's Office of Management and Budget website, and any other website the Governor sees fit. These postings shall serve as notice to the General Assembly of the amounts to be transferred. Notice shall be given at least 30 days prior to transfer.

(b) In addition to the general transfer authority provided under subsection (c), the following agencies have the specific transfer authority granted in this subsection:

The Department of Healthcare and Family Services is

The State Board of Education is authorized to make
transfers from line item appropriations within the same
treasury fund for General State Aid, General State Aid - Hold

Such transfers shall be made only when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made and provided that no such transfer may be made unless the amount transferred is no longer required for the purpose for which that appropriation was made.

The Department of Healthcare and Family Services is authorized to make transfers not exceeding 4% of the aggregate amount appropriated to it, within the same treasury fund, among the various line items appropriated for Medical Assistance.

Notwithstanding the above, any amounts appropriated for
payment of workers' compensation claims to an agency to which
the authority to evaluate, administer and pay such claims has
been delegated by the Department of Central Management
Services may be transferred to any other expenditure object

Sec. 25. Fiscal year limitations.

(a) All appropriations shall be available for expenditure for the fiscal year or for a lesser period if the Act making that appropriation so specifies. A deficiency or emergency appropriation shall be available for expenditure only through June 30 of the year when the Act making that appropriation is enacted unless that Act otherwise provides.

(b) Outstanding liabilities as of June 30, payable from
appropriations which have otherwise expired, may be paid out of the expiring appropriations during the 2-month period ending at the close of business on August 31. Any service involving professional or artistic skills or any personal services by an employee whose compensation is subject to income tax withholding must be performed as of June 30 of the fiscal year in order to be considered an "outstanding liability as of June 30" that is thereby eligible for payment out of the expiring appropriation.

(b-1) However, payment of tuition reimbursement claims under Section 14-7.03 or 18-3 of the School Code may be made by the State Board of Education from its appropriations for those respective purposes for any fiscal year, even though the claims reimbursed by the payment may be claims attributable to a prior fiscal year, and payments may be made at the direction of the State Superintendent of Education from the fund from which the appropriation is made without regard to any fiscal year limitations, except as required by subsection (j) of this Section. Beginning on June 30, 2021, payment of tuition reimbursement claims under Section 14-7.03 or 18-3 of the School Code as of June 30, payable from appropriations that have otherwise expired, may be paid out of the expiring appropriation during the 4-month period ending at the close of business on October 31.

(b-2) (Blank).

(b-2.5) (Blank).
All outstanding liabilities as of June 30, 2020, payable from appropriations that would otherwise expire at the conclusion of the lapse period for fiscal year 2020, and interest penalties payable on those liabilities under the State Prompt Payment Act, may be paid out of the expiring appropriations until December 31, 2020, without regard to the fiscal year in which the payment is made, as long as vouchers for the liabilities are received by the Comptroller no later than September 30, 2020.

All outstanding liabilities as of June 30, 2021, payable from appropriations that would otherwise expire at the conclusion of the lapse period for fiscal year 2021, and interest penalties payable on those liabilities under the State Prompt Payment Act, may be paid out of the expiring appropriations until September 30, 2021, without regard to the fiscal year in which the payment is made.

For fiscal years 2012, 2013, 2014, 2018, 2019, 2020, and 2021, and 2022, interest penalties payable under the State Prompt Payment Act associated with a voucher for which payment is issued after June 30 may be paid out of the next fiscal year's appropriation. The future year appropriation must be for the same purpose and from the same fund as the
original payment. An interest penalty voucher submitted against a future year appropriation must be submitted within 60 days after the issuance of the associated voucher, except that, for fiscal year 2018 only, an interest penalty voucher submitted against a future year appropriation must be submitted within 60 days of June 5, 2019 (the effective date of Public Act 101-10). The Comptroller must issue the interest payment within 60 days after acceptance of the interest voucher.

(b-3) Medical payments may be made by the Department of Veterans' Affairs from its appropriations for those purposes for any fiscal year, without regard to the fact that the medical services being compensated for by such payment may have been rendered in a prior fiscal year, except as required by subsection (j) of this Section. Beginning on June 30, 2021, medical payments payable from appropriations that have otherwise expired may be paid out of the expiring appropriation during the 4-month period ending at the close of business on October 31.

(b-4) Medical payments and child care payments may be made by the Department of Human Services (as successor to the Department of Public Aid) from appropriations for those purposes for any fiscal year, without regard to the fact that the medical or child care services being compensated for by such payment may have been rendered in a prior fiscal year; and payments may be made at the direction of the Department of
Healthcare and Family Services (or successor agency) from the Health Insurance Reserve Fund without regard to any fiscal year limitations, except as required by subsection (j) of this Section. Beginning on June 30, 2021, medical and child care payments made by the Department of Human Services and payments made at the discretion of the Department of Healthcare and Family Services (or successor agency) from the Health Insurance Reserve Fund and payable from appropriations that have otherwise expired may be paid out of the expiring appropriation during the 4-month period ending at the close of business on October 31.

(b-5) Medical payments may be made by the Department of Human Services from its appropriations relating to substance abuse treatment services for any fiscal year, without regard to the fact that the medical services being compensated for by such payment may have been rendered in a prior fiscal year, provided the payments are made on a fee-for-service basis consistent with requirements established for Medicaid reimbursement by the Department of Healthcare and Family Services, except as required by subsection (j) of this Section. Beginning on June 30, 2021, medical payments made by the Department of Human Services relating to substance abuse treatment services payable from appropriations that have otherwise expired may be paid out of the expiring appropriation during the 4-month period ending at the close of business on October 31.
(b-6) (Blank).

(b-7) Payments may be made in accordance with a plan authorized by paragraph (11) or (12) of Section 405-105 of the Department of Central Management Services Law from appropriations for those payments without regard to fiscal year limitations.

(b-8) Reimbursements to eligible airport sponsors for the construction or upgrading of Automated Weather Observation Systems may be made by the Department of Transportation from appropriations for those purposes for any fiscal year, without regard to the fact that the qualification or obligation may have occurred in a prior fiscal year, provided that at the time the expenditure was made the project had been approved by the Department of Transportation prior to June 1, 2012 and, as a result of recent changes in federal funding formulas, can no longer receive federal reimbursement.

(b-9) (Blank).

(c) Further, payments may be made by the Department of Public Health and the Department of Human Services (acting as successor to the Department of Public Health under the Department of Human Services Act) from their respective appropriations for grants for medical care to or on behalf of premature and high-mortality risk infants and their mothers and for grants for supplemental food supplies provided under the United States Department of Agriculture Women, Infants and Children Nutrition Program, for any fiscal year without regard
to the fact that the services being compensated for by such
payment may have been rendered in a prior fiscal year, except
as required by subsection (j) of this Section. Beginning on
June 30, 2021, payments made by the Department of Public
Health and the Department of Human Services from their
respective appropriations for grants for medical care to or on
behalf of premature and high-mortality risk infants and their
mothers and for grants for supplemental food supplies provided
under the United States Department of Agriculture Women,
Infants and Children Nutrition Program payable from
appropriations that have otherwise expired may be paid out of
the expiring appropriations during the 4-month period ending
at the close of business on October 31.

(d) The Department of Public Health and the Department of
Human Services (acting as successor to the Department of
Public Health under the Department of Human Services Act)
shall each annually submit to the State Comptroller, Senate
President, Senate Minority Leader, Speaker of the House, House
Minority Leader, and the respective Chairmen and Minority
Spokesmen of the Appropriations Committees of the Senate and
the House, on or before December 31, a report of fiscal year
funds used to pay for services provided in any prior fiscal
year. This report shall document by program or service
category those expenditures from the most recently completed
fiscal year used to pay for services provided in prior fiscal
years.
(e) The Department of Healthcare and Family Services, the Department of Human Services (acting as successor to the Department of Public Aid), and the Department of Human Services making fee-for-service payments relating to substance abuse treatment services provided during a previous fiscal year shall each annually submit to the State Comptroller, Senate President, Senate Minority Leader, Speaker of the House, House Minority Leader, the respective Chairmen and Minority Spokesmen of the Appropriations Committees of the Senate and the House, on or before November 30, a report that shall document by program or service category those expenditures from the most recently completed fiscal year used to pay for (i) services provided in prior fiscal years and (ii) services for which claims were received in prior fiscal years.

(f) The Department of Human Services (as successor to the Department of Public Aid) shall annually submit to the State Comptroller, Senate President, Senate Minority Leader, Speaker of the House, House Minority Leader, and the respective Chairmen and Minority Spokesmen of the Appropriations Committees of the Senate and the House, on or before December 31, a report of fiscal year funds used to pay for services (other than medical care) provided in any prior fiscal year. This report shall document by program or service category those expenditures from the most recently completed fiscal year used to pay for services provided in prior fiscal years.

(g) In addition, each annual report required to be
submitted by the Department of Healthcare and Family Services under subsection (e) shall include the following information with respect to the State's Medicaid program:

1. Explanations of the exact causes of the variance between the previous year's estimated and actual liabilities.

2. Factors affecting the Department of Healthcare and Family Services' liabilities, including, but not limited to, numbers of aid recipients, levels of medical service utilization by aid recipients, and inflation in the cost of medical services.

3. The results of the Department's efforts to combat fraud and abuse.

(h) As provided in Section 4 of the General Assembly Compensation Act, any utility bill for service provided to a General Assembly member's district office for a period including portions of 2 consecutive fiscal years may be paid from funds appropriated for such expenditure in either fiscal year.

(i) An agency which administers a fund classified by the Comptroller as an internal service fund may issue rules for:

1. Billing user agencies in advance for payments or authorized inter-fund transfers based on estimated charges for goods or services;

2. Issuing credits, refunding through inter-fund transfers, or reducing future inter-fund transfers during
the subsequent fiscal year for all user agency payments or authorized inter-fund transfers received during the prior fiscal year which were in excess of the final amounts owed by the user agency for that period; and

(3) issuing catch-up billings to user agencies during the subsequent fiscal year for amounts remaining due when payments or authorized inter-fund transfers received from the user agency during the prior fiscal year were less than the total amount owed for that period.

User agencies are authorized to reimburse internal service funds for catch-up billings by vouchers drawn against their respective appropriations for the fiscal year in which the catch-up billing was issued or by increasing an authorized inter-fund transfer during the current fiscal year. For the purposes of this Act, "inter-fund transfers" means transfers without the use of the voucher-warrant process, as authorized by Section 9.01 of the State Comptroller Act.

(i-1) Beginning on July 1, 2021, all outstanding liabilities, not payable during the 4-month lapse period as described in subsections (b-1), (b-3), (b-4), (b-5), and (c) of this Section, that are made from appropriations for that purpose for any fiscal year, without regard to the fact that the services being compensated for by those payments may have been rendered in a prior fiscal year, are limited to only those claims that have been incurred but for which a proper bill or invoice as defined by the State Prompt Payment Act has not been
received by September 30th following the end of the fiscal year in which the service was rendered.

(j) Notwithstanding any other provision of this Act, the aggregate amount of payments to be made without regard for fiscal year limitations as contained in subsections (b-1), (b-3), (b-4), (b-5), and (c) of this Section, and determined by using Generally Accepted Accounting Principles, shall not exceed the following amounts:

For the purpose of this subsection (g), "higher education institution" means a public university, a public community college, or an independent, not-for-profit or for-profit higher education institution located in this State. Grants made under this subsection (g) shall be paid out of moneys appropriated for that purpose from the Build Illinois Bond Fund. The Illinois Emergency Management Agency shall adopt rules to implement this subsection (g). These rules may specify: (i) the manner of applying for grants; (ii) project eligibility requirements; (iii) restrictions on the use of grant moneys; (iv) the manner in which the various higher education institutions must account for the use of grant moneys; and (v) any other provision that the Illinois Emergency Management Agency determines to be necessary or useful for the administration of this subsection (g).

not-for-profit organization;

(2) indicate the symbolic or strategic value of one or
more sites that renders the site a possible target of
terrorism;

organizational preparedness with broader State and local
preparedness efforts;

(5) submit a vulnerability assessment conducted by
experienced security, law enforcement, or military
personnel, and a description of how the grant award will
be used to address the vulnerabilities identified in the
assessment; and
(6) submit any other relevant information as may be required by the Director.

The Agency is authorized to use funds appropriated for the grant program described in this subsection (g-5) to administer the program.

Section 3-46. The State Finance Act is amended by repealing Section 5.414.

Section 3-50. The State Revenue Sharing Act is amended by changing Section 12 as follows:

(30 ILCS 115/12) (from Ch. 85, par. 616)

Sec. 12. Personal Property Tax Replacement Fund. There is hereby created the Personal Property Tax Replacement Fund, a special fund in the State Treasury into which shall be paid all revenue realized:

(a) all amounts realized from the additional personal property tax replacement income tax imposed by subsections (c) and (d) of Section 201 of the Illinois Income Tax Act, except for those amounts deposited into the Income Tax Refund Fund pursuant to subsection (c) of Section 901 of the Illinois Income Tax Act; and

(b) all amounts realized from the additional personal property replacement invested capital taxes imposed by Section 2a.1 of the Messages Tax Act, Section 2a.1 of the
Gas Revenue Tax Act, Section 2a.1 of the Public Utilities Revenue Act, and Section 3 of the Water Company Invested Capital Tax Act, and amounts payable to the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act.

As soon as may be after the end of each month, the Department of Revenue shall certify to the Treasurer and the Comptroller the amount of all refunds paid out of the General Revenue Fund through the preceding month on account of overpayment of liability on taxes paid into the Personal Property Tax Replacement Fund. Upon receipt of such certification, the Treasurer and the Comptroller shall transfer the amount so certified from the Personal Property Tax Replacement Fund into the General Revenue Fund.

The payments of revenue into the Personal Property Tax Replacement Fund shall be used exclusively for distribution to taxing districts, regional offices and officials, and local officials as provided in this Section and in the School Code, payment of the ordinary and contingent expenses of the Property Tax Appeal Board, payment of the expenses of the Department of Revenue incurred in administering the collection and distribution of monies paid into the Personal Property Tax Replacement Fund and transfers due to refunds to taxpayers for overpayment of liability for taxes paid into the Personal Property Tax Replacement Fund.

In addition, moneys in the Personal Property Tax
Replacement Fund may be used to pay any of the following: (i) salary, stipends, and additional compensation as provided by law for chief election clerks, county clerks, and county recorders; (ii) costs associated with regional offices of education and educational service centers; (iii) reimbursements payable by the State Board of Elections under Section 4-25, 5-35, 6-71, 13-10, 13-10a, or 13-11 of the Election Code; (iv) expenses of the Illinois Educational Labor Relations Board; and (v) salary, personal services, and additional compensation as provided by law for court reporters under the Court Reporters Act.

As soon as may be after June 26, 1980 (the effective date of Public Act 81-1255), the Department of Revenue shall certify to the Treasurer the amount of net replacement revenue paid into the General Revenue Fund prior to that effective date from the additional tax imposed by Section 2a.1 of the Messages Tax Act; Section 2a.1 of the Gas Revenue Tax Act; Section 2a.1 of the Public Utilities Revenue Act; Section 3 of the Water Company Invested Capital Tax Act; amounts collected by the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act; and the additional personal property tax replacement income tax imposed by the Illinois Income Tax Act, as amended by Public Act 81-1st Special Session-1. Net replacement revenue shall be defined as the total amount paid into and remaining in the General Revenue Fund as a result of those Acts minus the amount
outstanding and obligated from the General Revenue Fund in
state vouchers or warrants prior to June 26, 1980 (the
effective date of Public Act 81-1255) as refunds to taxpayers
for overpayment of liability under those Acts.

All interest earned by monies accumulated in the Personal
Property Tax Replacement Fund shall be deposited in such Fund.
All amounts allocated pursuant to this Section are
appropriated on a continuing basis.

Prior to December 31, 1980, as soon as may be after the end
of each quarter beginning with the quarter ending December 31,
1979, and on and after December 31, 1980, as soon as may be
after January 1, March 1, April 1, May 1, July 1, August 1,
October 1 and December 1 of each year, the Department of
Revenue shall allocate to each taxing district as defined in
Section 1-150 of the Property Tax Code, in accordance with the
provisions of paragraph (2) of this Section the portion of the
funds held in the Personal Property Tax Replacement Fund which
is required to be distributed, as provided in paragraph (1),
for each quarter. Provided, however, under no circumstances
shall any taxing district during each of the first two years of
distribution of the taxes imposed by Public Act 81-1st Special
Session-1 be entitled to an annual allocation which is less
than the funds such taxing district collected from the 1978
personal property tax. Provided further that under no
circumstances shall any taxing district during the third year
of distribution of the taxes imposed by Public Act 81-1st
Special Session-1 receive less than 60% of the funds such taxing district collected from the 1978 personal property tax. In the event that the total of the allocations made as above provided for all taxing districts, during either of such 3 years, exceeds the amount available for distribution the allocation of each taxing district shall be proportionately reduced. Except as provided in Section 13 of this Act, the Department shall then certify, pursuant to appropriation, such allocations to the State Comptroller who shall pay over to the several taxing districts the respective amounts allocated to them.

Any township which receives an allocation based in whole or in part upon personal property taxes which it levied pursuant to Section 6-507 or 6-512 of the Illinois Highway Code and which was previously required to be paid over to a municipality shall immediately pay over to that municipality a proportionate share of the personal property replacement funds which such township receives.

Any municipality or township, other than a municipality with a population in excess of 500,000, which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Sections 3-1, 3-4 and 3-6 of the Illinois Local Library Act and which was previously required to be paid over to a public library shall immediately pay over to that library a proportionate share of the personal property tax replacement funds which such municipality or
township receives; provided that if such a public library has
converted to a library organized under the Illinois Public
Library District Act, regardless of whether such conversion
has occurred on, after or before January 1, 1988, such
proportionate share shall be immediately paid over to the
library district which maintains and operates the library.
However, any library that has converted prior to January 1,
1988, and which hitherto has not received the personal
property tax replacement funds, shall receive such funds

Any township which receives an allocation based in whole
or in part on personal property taxes which it levied pursuant
to Section 1c of the Public Graveyards Act and which taxes were
previously required to be paid over to or used for such public
cemetery or cemeteries shall immediately pay over to or use
for such public cemetery or cemeteries a proportionate share
of the personal property tax replacement funds which the
township receives.

Any taxing district which receives an allocation based in
whole or in part upon personal property taxes which it levied
for another governmental body or school district in Cook
County in 1976 or for another governmental body or school
district in the remainder of the State in 1977 shall
immediately pay over to that governmental body or school
district the amount of personal property replacement funds
which such governmental body or school district would receive
directly under the provisions of paragraph (2) of this Section, had it levied its own taxes.

(1) The portion of the Personal Property Tax Replacement Fund required to be distributed as of the time allocation is required to be made shall be the amount available in such Fund as of the time allocation is required to be made.

The amount available for distribution shall be the total amount in the fund at such time minus the necessary administrative and other authorized expenses as limited by the appropriation and the amount determined by: (a) $2.8 million for fiscal year 1981; (b) for fiscal year 1982, .54% of the funds distributed from the fund during the preceding fiscal year; (c) for fiscal year 1983 through fiscal year 1988, .54% of the funds distributed from the fund during the preceding fiscal year less .02% of such fund for fiscal year 1983 and less .02% of such funds for each fiscal year thereafter; (d) for fiscal year 1989 through fiscal year 2011 no more than 105% of the actual administrative expenses of the prior fiscal year; (e) for fiscal year 2012 and beyond, a sufficient amount to pay (i) stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for local officials as authorized or required by statute and (ii) the ordinary and contingent expenses of the Property Tax Appeal Board and the expenses of the
Department of Revenue incurred in administering the collection and distribution of moneys paid into the Fund; (f) for fiscal years 2012 and 2013 only, a sufficient amount to pay stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for regional offices and officials as authorized or required by statute; or (g) for fiscal years 2018 through 2022 only, a sufficient amount to pay amounts directed to be paid out of this Fund for public community college base operating grants and local health protection grants to certified local health departments as authorized or required by appropriation or statute. Such portion of the fund shall be determined after the transfer into the General Revenue Fund due to refunds, if any, paid from the General Revenue Fund during the preceding quarter. If at any time, for any reason, there is insufficient amount in the Personal Property Tax Replacement Fund for payments for regional offices and officials or local officials or payment of costs of administration or for transfers due to refunds at the end of any particular month, the amount of such insufficiency shall be carried over for the purposes of payments for regional offices and officials, local officials, transfers into the General Revenue Fund, and costs of administration to the following month or months. Net replacement revenue held, and defined above, shall be transferred by the
Treasurer and Comptroller to the Personal Property Tax Replacement Fund within 10 days of such certification.

(2) Each quarterly allocation shall first be apportioned in the following manner: 51.65% for taxing districts in Cook County and 48.35% for taxing districts in the remainder of the State.

The Personal Property Replacement Ratio of each taxing district outside Cook County shall be the ratio which the Tax Base of that taxing district bears to the Downstate Tax Base. The Tax Base of each taxing district outside of Cook County is the personal property tax collections for that taxing district for the 1977 tax year. The Downstate Tax Base is the personal property tax collections for all taxing districts in the State outside of Cook County for the 1977 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district outside Cook County for the 1977 tax year.

The Personal Property Replacement Ratio of each Cook County taxing district shall be the ratio which the Tax Base of that taxing district bears to the Cook County Tax Base. The Tax Base of each Cook County taxing district is the personal property tax collections for that taxing district for the 1976 tax year. The Cook County Tax Base is the personal property tax collections for all taxing districts in Cook County for the 1976 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property
tax collections for each taxing district within Cook County for the 1976 tax year.

For all purposes of this Section 12, amounts paid to a taxing district for such tax years as may be applicable by a foreign corporation under the provisions of Section 7-202 of the Public Utilities Act, as amended, shall be deemed to be personal property taxes collected by such taxing district for such tax years as may be applicable. The Director shall determine from the Illinois Commerce Commission, for any tax year as may be applicable, the amounts so paid by any such foreign corporation to any and all taxing districts. The Illinois Commerce Commission shall furnish such information to the Director. For all purposes of this Section 12, the Director shall deem such amounts to be collected personal property taxes of each such taxing district for the applicable tax year or years.

Taxing districts located both in Cook County and in one or more other counties shall receive both a Cook County allocation and a Downstate allocation determined in the same way as all other taxing districts.

If any taxing district in existence on July 1, 1979 ceases to exist, or discontinues its operations, its Tax Base shall thereafter be deemed to be zero. If the powers, duties and obligations of the discontinued taxing district are assumed by another taxing district, the Tax Base of the discontinued taxing district shall be added to the Tax Base of the taxing
district assuming such powers, duties and obligations.

If two or more taxing districts in existence on July 1, 1979, or a successor or successors thereto shall consolidate into one taxing district, the Tax Base of such consolidated taxing district shall be the sum of the Tax Bases of each of the taxing districts which have consolidated.

If a single taxing district in existence on July 1, 1979, or a successor or successors thereto shall be divided into two or more separate taxing districts, the tax base of the taxing district so divided shall be allocated to each of the resulting taxing districts in proportion to the then current equalized assessed value of each resulting taxing district.

If a portion of the territory of a taxing district is disconnected and annexed to another taxing district of the same type, the Tax Base of the taxing district from which disconnection was made shall be reduced in proportion to the then current equalized assessed value of the disconnected territory as compared with the then current equalized assessed value within the entire territory of the taxing district prior to disconnection, and the amount of such reduction shall be added to the Tax Base of the taxing district to which annexation is made.

If a community college district is created after July 1, 1979, beginning on January 1, 1996 (the effective date of Public Act 89-327), its Tax Base shall be 3.5% of the sum of the personal property tax collected for the 1977 tax year.
within the territorial jurisdiction of the district.

The amounts allocated and paid to taxing districts pursuant to the provisions of Public Act 81-1st Special Session-1 shall be deemed to be substitute revenues for the revenues derived from taxes imposed on personal property pursuant to the provisions of the "Revenue Act of 1939" or "An Act for the assessment and taxation of private car line companies", approved July 22, 1943, as amended, or Section 414 of the Illinois Insurance Code, prior to the abolition of such taxes and shall be used for the same purposes as the revenues derived from ad valorem taxes on real estate.

Monies received by any taxing districts from the Personal Property Tax Replacement Fund shall be first applied toward payment of the proportionate amount of debt service which was previously levied and collected from extensions against personal property on bonds outstanding as of December 31, 1978 and next applied toward payment of the proportionate share of the pension or retirement obligations of the taxing district which were previously levied and collected from extensions against personal property. For each such outstanding bond issue, the County Clerk shall determine the percentage of the debt service which was collected from extensions against real estate in the taxing district for 1978 taxes payable in 1979, as related to the total amount of such levies and collections from extensions against both real and personal property. For 1979 and subsequent years' taxes, the County Clerk shall levy
and extend taxes against the real estate of each taxing
district which will yield the said percentage or percentages
of the debt service on such outstanding bonds. The balance of
the amount necessary to fully pay such debt service shall
constitute a first and prior lien upon the monies received by
each such taxing district through the Personal Property Tax
Replacement Fund and shall be first applied or set aside for
such purpose. In counties having fewer than 3,000,000
inhabitants, the amendments to this paragraph as made by
Public Act 81-1255 shall be first applicable to 1980 taxes to
be collected in 1981.

Sec. 16. Refunding Bonds. The State of Illinois is
authorized to issue, sell, and provide for the retirement of

(i) the payment of any redemption premium thereon, (ii) any
reasonable expenses of such refunding, (iii) any interest
accrued or to accrue to the earliest or any subsequent date of redemption or maturity of such outstanding Bonds, (iv) for fiscal year 2019 only, any necessary payments to providers of interest rate exchange agreements in connection with the termination of such agreements by the State in connection with the refunding, and (v) any interest to accrue to the first interest payment on the refunding Bonds; provided that all non-refunding Bonds in an issue that includes refunding Bonds shall mature no later than the final maturity date of Bonds being refunded; provided that no refunding Bonds shall be offered for sale unless the net present value of debt service savings to be achieved by the issuance of the refunding Bonds is 3% or more of the principal amount of the refunding Bonds to be issued; and further provided that, except for refunding Bonds sold in fiscal year 2009, 2010, 2011, 2017, 2018, or 2019, or 2022, the maturities of the refunding Bonds shall not extend beyond the maturities of the Bonds they refund, so that for each fiscal year in the maturity schedule of a particular issue of refunding Bonds, the total amount of refunding principal maturing and redemption amounts due in that fiscal year and all prior fiscal years in that schedule shall be greater than or equal to the total amount of refunded principal and redemption amounts that had been due over that year and all prior fiscal years prior to the refunding.

The Governor shall notify the State Treasurer and Comptroller of such refunding. The proceeds received from the
sale of refunding Bonds shall be used for the retirement at
maturity or redemption of such outstanding Bonds on any
maturity or redemption date and, pending such use, shall be
placed in escrow, subject to such terms and conditions as
shall be provided for in the Bond Sale Order relating to the

account shall be deposited in the General Obligation Bond
Retirement and Interest Fund. This Act shall constitute an
irrevocable and continuing appropriation of all amounts
necessary to establish an escrow account for the purpose of
refunding outstanding general obligation Bonds and to pay the
reasonable expenses of such refunding and of the issuance and
sale of the refunding Bonds. Any such escrowed proceeds may be
invested and reinvested in direct obligations of the United
States of America, maturing at such time or times as shall be
appropriate to assure the prompt payment, when due, of the
principal of and interest and redemption premium, if any, on
the refunded Bonds. After the terms of the escrow have been
fully satisfied, any remaining balance of such proceeds and
interest, income and profits earned or realized on the
investments thereof shall be paid into the General Revenue
Fund. The liability of the State upon the Bonds shall
continue, provided that the holders thereof shall thereafter

For the imposition of the privilege tax in this subsection
(a-5), amounts paid pursuant to item (1) of subsection (b) of
Section 56 of the Illinois Horse Racing Act of 1975 shall not
be included in the determination of adjusted gross receipts.

Notwithstanding the provisions of this subsection (a-5),
for the first 10 years that the privilege tax is imposed under
this subsection (a-5), the privilege tax shall be imposed on
the modified annual adjusted gross receipts of a riverboat or
casino conducting gambling operations in the City of East St.
Louis, unless:

(1) the riverboat or casino fails to employ at least
450 people;

(2) the riverboat or casino fails to maintain
operations in a manner consistent with this Act or is not a
viable riverboat or casino subject to the approval of the
Board; or

(3) the owners licensee is not an entity in which
employees participate in an employee stock ownership plan.

As used in this subsection (a-5), "modified annual
adjusted gross receipts" means:

(A) for calendar year 2020, the annual adjusted gross
receipts for the current year minus the difference between
an amount equal to the average annual adjusted gross
receipts from a riverboat or casino conducting gambling
operations in the City of East St. Louis for 2014, 2015,
2016, 2017, and 2018 and the annual adjusted gross
receipts for 2018;

(B) for calendar year 2021, the annual adjusted gross
receipts for the current year minus the difference between
an amount equal to the average annual adjusted gross
receipts from a riverboat or casino conducting gambling
operations in the City of East St. Louis for 2014, 2015, 2016, 2017, and 2018 and the annual adjusted gross receipts for 2019; and

(C) for calendar years 2022 through 2029, the annual adjusted gross receipts for the current year minus the difference between an amount equal to the average annual adjusted gross receipts from a riverboat or casino conducting gambling operations in the City of East St. Louis for 3 years preceding the current year and the annual adjusted gross receipts for the immediately preceding year.

(a-6) From June 28, 2019 (the effective date of Public Act 101-31) until June 30, 2023, an owners licensee that conducted gambling operations prior to January 1, 2011 shall receive a dollar-for-dollar credit against the tax imposed under this Section for any renovation or construction costs paid by the owners licensee, but in no event shall the credit exceed $2,000,000.

Additionally, from June 28, 2019 (the effective date of Public Act 101-31) until December 31, 2022, an owners licensee that (i) is located within 15 miles of the Missouri border, and (ii) has at least 3 riverboats, casinos, or their equivalent within a 45-mile radius, may be authorized to relocate to a new location with the approval of both the unit of local government designated as the home dock and the Board, so long as the new location is within the same unit of local government.
and no more than 3 miles away from its original location. Such
owners licensee shall receive a credit against the tax imposed
under this Section equal to 8% of the total project costs, as
approved by the Board, for any renovation or construction
costs paid by the owners licensee for the construction of the
new facility, provided that the new facility is operational by
July 1, 2022. In determining whether or not to approve a
relocation, the Board must consider the extent to which the
relocation will diminish the gaming revenues received by other
Illinois gaming facilities.

(a-7) Beginning in the initial adjustment year and through
the final adjustment year, if the total obligation imposed
pursuant to either subsection (a-5) or (a-6) will result in an
owners licensee receiving less after-tax adjusted gross
receipts than it received in calendar year 2018, then the
total amount of privilege taxes that the owners licensee is
required to pay for that calendar year shall be reduced to the
extent necessary so that the after-tax adjusted gross receipts
in that calendar year equals the after-tax adjusted gross
receipts in calendar year 2018, but the privilege tax
reduction shall not exceed the annual adjustment cap. If
pursuant to this subsection (a-7), the total obligation
imposed pursuant to either subsection (a-5) or (a-6) shall be
reduced, then the owners licensee shall not receive a refund
from the State at the end of the subject calendar year but
instead shall be able to apply that amount as a credit against
any payments it owes to the State in the following calendar year to satisfy its total obligation under either subsection (a-5) or (a-6). The credit for the final adjustment year shall occur in the calendar year following the final adjustment year.

If an owners licensee that conducted gambling operations prior to January 1, 2019 expands its riverboat or casino, including, but not limited to, with respect to its gaming floor, additional non-gaming amenities such as restaurants, bars, and hotels and other additional facilities, and incurs construction and other costs related to such expansion from June 28, 2019 (the effective date of Public Act 101-31) until June 28, 2024 (the 5th anniversary of the effective date of Public Act 101-31), then for each $15,000,000 spent for any such construction or other costs related to expansion paid by the owners licensee, the final adjustment year shall be extended by one year and the annual adjustment cap shall increase by 0.2% of adjusted gross receipts during each calendar year until and including the final adjustment year. No further modifications to the final adjustment year or annual adjustment cap shall be made after $75,000,000 is incurred in construction or other costs related to expansion so that the final adjustment year shall not extend beyond the 9th calendar year after the initial adjustment year, not including the initial adjustment year, and the annual adjustment cap shall not exceed 4% of adjusted gross receipts.
in a particular calendar year. Construction and other costs related to expansion shall include all project related costs, including, but not limited to, all hard and soft costs, financing costs, on or off-site ground, road or utility work, cost of gaming equipment and all other personal property, initial fees assessed for each incremental gaming position, and the cost of incremental land acquired for such expansion. Soft costs shall include, but not be limited to, legal fees, architect, engineering and design costs, other consultant costs, insurance cost, permitting costs, and pre-opening costs related to the expansion, including, but not limited to, any of the following: marketing, real estate taxes, personnel, training, travel and out-of-pocket expenses, supply, inventory, and other costs, and any other project related soft costs.

To be eligible for the tax credits in subsection (a-6), all construction contracts shall include a requirement that the contractor enter into a project labor agreement with the building and construction trades council with geographic jurisdiction of the location of the proposed gaming facility.

Notwithstanding any other provision of this subsection (a-7), this subsection (a-7) does not apply to an owners licensee unless such owners licensee spends at least $15,000,000 on construction and other costs related to its expansion, excluding the initial fees assessed for each incremental gaming position.
This subsection (a-7) does not apply to owners licensees authorized pursuant to subsection (e-5) of Section 7 of this Act.

For purposes of this subsection (a-7):

"Building and construction trades council" means any organization representing multiple construction entities that are monitoring or attentive to compliance with public or workers' safety laws, wage and hour requirements, or other statutory requirements or that are making or maintaining collective bargaining agreements.

"Initial adjustment year" means the year commencing on January 1 of the calendar year immediately following the earlier of the following:

(1) the commencement of gambling operations, either in a temporary or permanent facility, with respect to the owners license authorized under paragraph (1) of subsection (e-5) of Section 7 of this Act; or

(2) June 28, 2021 (24 months after the effective date of Public Act 101-31);

provided the initial adjustment year shall not commence earlier than June 28, 2020 (12 months after the effective date of Public Act 101-31).

"Final adjustment year" means the 2nd calendar year after the initial adjustment year, not including the initial adjustment year, and as may be extended further as described in this subsection (a-7).
"Annual adjustment cap" means 3% of adjusted gross receipts in a particular calendar year, and as may be increased further as otherwise described in this subsection (a-7).

(a-8) Riverboat gambling operations conducted by a licensed manager on behalf of the State are not subject to the tax imposed under this Section.

(a-9) Beginning on January 1, 2020, the calculation of gross receipts or adjusted gross receipts, for the purposes of this Section, for a riverboat, a casino, or an organization gaming facility shall not include the dollar amount of non-cashable vouchers, coupons, and electronic promotions redeemed by wagerers upon the riverboat, in the casino, or in the organization gaming facility up to and including an amount not to exceed 20% of a riverboat's, a casino's, or an organization gaming facility's adjusted gross receipts.

The Illinois Gaming Board shall submit to the General Assembly a comprehensive report no later than March 31, 2023 detailing, at a minimum, the effect of removing non-cashable vouchers, coupons, and electronic promotions from this calculation on net gaming revenues to the State in calendar years 2020 through 2022, the increase or reduction in wagerers as a result of removing non-cashable vouchers, coupons, and electronic promotions from this calculation, the effect of the tax rates in subsection (a-5) on net gaming revenues to this State, and proposed modifications to the calculation.
(a-10) The taxes imposed by this Section shall be paid by
the licensed owner or the organization gaming licensee to the
Board not later than 5:00 o'clock p.m. of the day after the day
when the wagers were made.

(a-15) If the privilege tax imposed under subsection (a-3)
is no longer imposed pursuant to item (i) of the last paragraph
of subsection (a-3), then by June 15 of each year, each owners
licensee, other than an owners licensee that admitted
1,000,000 persons or fewer in calendar year 2004, must, in
addition to the payment of all amounts otherwise due under
this Section, pay to the Board a reconciliation payment in the
amount, if any, by which the licensed owner's base amount
exceeds the amount of net privilege tax paid by the licensed
owner to the Board in the then current State fiscal year. A
licensed owner's net privilege tax obligation due for the
balance of the State fiscal year shall be reduced up to the
total of the amount paid by the licensed owner in its June 15
reconciliation payment. The obligation imposed by this
subsection (a-15) is binding on any person, firm, corporation,
or other entity that acquires an ownership interest in any
such owners license. The obligation imposed under this
subsection (a-15) terminates on the earliest of: (i) July 1,
2007, (ii) the first day after the effective date of this
amendatory Act of the 94th General Assembly that riverboat
gambling operations are conducted pursuant to a dormant
license, (iii) the first day that riverboat gambling
operations are conducted under the authority of an owners license that is in addition to the 10 owners licenses initially authorized under this Act, or (iv) the first day that a licensee under the Illinois Horse Racing Act of 1975 conducts gaming operations with slot machines or other electronic gaming devices. The Board must reduce the obligation imposed under this subsection (a-15) by an amount the Board deems reasonable for any of the following reasons: (A) an act or acts of God, (B) an act of bioterrorism or terrorism or a bioterrorism or terrorism threat that was investigated by a law enforcement agency, or (C) a condition beyond the control of the owners licensee that does not result from any act or omission by the owners licensee or any of its agents and that poses a hazardous threat to the health and safety of patrons. If an owners licensee pays an amount in excess of its liability under this Section, the Board shall apply the overpayment to future payments required under this Section.

For purposes of this subsection (a-15):

"Act of God" means an incident caused by the operation of an extraordinary force that cannot be foreseen, that cannot be avoided by the exercise of due care, and for which no person can be held liable.

"Base amount" means the following:

For a riverboat in Alton, $31,000,000.
For a riverboat in East Peoria, $43,000,000.
For the Empress riverboat in Joliet, $86,000,000.
For a riverboat in Metropolis, $45,000,000.
For the Harrah's riverboat in Joliet, $114,000,000.

For a riverboat in East St. Louis, $48,500,000.
For a riverboat in Elgin, $198,000,000.

"Dormant license" has the meaning ascribed to it in subsection (a-3).

"Net privilege tax" means all privilege taxes paid by a licensed owner to the Board under this Section, less all payments made from the State Gaming Fund pursuant to subsection (b) of this Section.

The changes made to this subsection (a-15) by Public Act 94-839 are intended to restate and clarify the intent of Public Act 94-673 with respect to the amount of the payments required to be made under this subsection by an owners licensee to the Board.

(b) From the tax revenue from riverboat or casino gambling deposited in the State Gaming Fund under this Section, an amount equal to 5% of adjusted gross receipts generated by a riverboat or a casino, other than a riverboat or casino designated in paragraph (1), (3), or (4) of subsection (e-5) of Section 7, shall be paid monthly, subject to appropriation by the General Assembly, to the unit of local government in which the casino is located or that is designated as the home dock of the riverboat. Notwithstanding anything to the

(305 ILCS 5/5-5.4) (from Ch. 23, par. 5-5.4)

Sec. 5-5.4. Standards of Payment - Department of Healthcare and Family Services. The Department of Healthcare and Family Services shall develop standards of payment of nursing facility and ICF/DD services in facilities providing such services under this Article which:

1. Provide for the determination of a facility's payment for nursing facility or ICF/DD services on a prospective basis. The amount of the payment rate for all nursing facilities certified by the Department of Public Health under the ID/DD Community Care Act or the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities, Long Term Care for Under Age 22 facilities, Skilled Nursing facilities, or Intermediate Care facilities under the medical assistance program shall be prospectively established annually on the basis of historical, financial, and statistical data reflecting actual costs from prior years, which shall be applied to the current rate year and updated for inflation, except that the capital cost element for newly constructed facilities shall be based upon projected budgets. The annually established payment rate shall take effect on July 1 in 1984.
and subsequent years. No rate increase and no update for inflation shall be provided on or after July 1, 1994, unless specifically provided for in this Section. The changes made by Public Act 93-841 extending the duration of the prohibition against a rate increase or update for inflation are effective retroactive to July 1, 2004.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 1998 shall include an increase of 3%. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1998 shall include an increase of 3% plus $1.10 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care Facilities for the Developmentally Disabled or Long Term Care for Under Age 22 facilities, the rates taking effect on January 1, 2006 shall include an increase of 3%. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care Facilities for the Developmentally Disabled or Long Term Care for Under Age 22 facilities, the rates taking effect on January 1, 2009 shall include an increase sufficient to provide a $0.50 per hour wage increase for non-executive staff. For facilities
licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities the rates taking effect within 30 days after July 6, 2017 (the effective date of Public Act 100-23) shall include an increase sufficient to provide a $0.75 per hour wage increase for non-executive staff. The Department shall adopt rules, including emergency rules under subsection (y) of Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this paragraph.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, the rates taking effect within 30 days after the effective date of this amendatory Act of the 100th General Assembly shall include an increase sufficient to provide a $0.50 per hour wage increase for non-executive front-line personnel, including, but not limited to, direct support persons, aides, front-line supervisors, qualified intellectual disabilities professionals, nurses, and non-administrative support staff. The Department shall adopt rules, including emergency rules under subsection (bb) of Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this paragraph.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1,
1999 shall include an increase of 1.6% plus $3.00 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1999 shall include an increase of 1.6% and, for services provided on or after October 1, 1999, shall be increased by $4.00 per resident-day, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 2000 shall include an increase of 2.5% per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 2000 shall include an increase of 2.5% per resident-day, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, a new payment methodology must be implemented for the nursing component of the rate effective July 1, 2003. The Department of Public Aid (now Healthcare and Family Services) shall develop the new payment methodology using the Minimum Data Set (MDS) as the instrument
to collect information concerning nursing home resident
condition necessary to compute the rate. The Department shall
develop the new payment methodology to meet the unique needs
of Illinois nursing home residents while remaining subject to
the appropriations provided by the General Assembly. A
transition period from the payment methodology in effect on
June 30, 2003 to the payment methodology in effect on July 1,
2003 shall be provided for a period not exceeding 3 years and
184 days after implementation of the new payment methodology
as follows:

    (A) For a facility that would receive a lower nursing
component rate per patient day under the new system than
the facility received effective on the date immediately
preceding the date that the Department implements the new
payment methodology, the nursing component rate per
patient day for the facility shall be held at the level in
effect on the date immediately preceding the date that the
Department implements the new payment methodology until a
higher nursing component rate of reimbursement is achieved
by that facility.

    (B) For a facility that would receive a higher nursing
component rate per patient day under the payment
methodology in effect on July 1, 2003 than the facility
received effective on the date immediately preceding the
date that the Department implements the new payment
methodology, the nursing component rate per patient day
for the facility shall be adjusted.

(C) Notwithstanding paragraphs (A) and (B), the nursing component rate per patient day for the facility shall be adjusted subject to appropriations provided by the General Assembly.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on March 1, 2001 shall include a statewide increase of 7.85%, as defined by the Department.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, except facilities participating in the Department's demonstration program pursuant to the provisions of Title 77, Part 300, Subpart T of the Illinois Administrative Code, the numerator of the ratio used by the Department of Healthcare and Family Services to compute the rate payable under this Section using the Minimum Data Set (MDS) methodology shall incorporate the following annual amounts as the additional funds appropriated to the Department specifically to pay for rates based on the MDS nursing component methodology in excess of the funding in effect on December 31, 2006:

(i) For rates taking effect January 1, 2007,
$60,000,000.

(ii) For rates taking effect January 1, 2008, $110,000,000.

(iii) For rates taking effect January 1, 2009, $194,000,000.

(iv) For rates taking effect April 1, 2011, or the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 96th General Assembly, $416,500,000 or an amount as may be necessary to complete the transition to the MDS methodology for the nursing component of the rate. Increased payments under this item (iv) are not due and payable, however, until (i) the methodologies described in this paragraph are approved by the federal government in an appropriate State Plan amendment and (ii) the assessment imposed by Section 5B-2 of this Code is determined to be a permissible tax under Title XIX of the Social Security Act.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the support component of the rates taking effect on January 1, 2008 shall be computed using the most recent cost reports on file with the Department of Healthcare and Family Services no later than April 1, 2005, updated for inflation to January 1, 2006.
For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on April 1, 2002 shall include a statewide increase of 2.0%, as defined by the Department. This increase terminates on July 1, 2002; beginning July 1, 2002 these rates are reduced to the level of the rates in effect on March 31, 2002, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the rates taking effect on July 1, 2001 shall be computed using the most recent cost reports on file with the Department of Public Aid no later than April 1, 2000, updated for inflation to January 1, 2001. For rates effective July 1, 2001 only, rates shall be the greater of the rate computed for July 1, 2001 or the rate effective on June 30, 2001.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the Illinois Department shall determine by rule the rates taking effect on July 1, 2002, which shall be 5.9% less than the rates in effect on June 30, 2002.

Notwithstanding any other provision of this Section, for
facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, if the payment methodologies required under Section 5A-12 and the waiver granted under 42 CFR 433.68 are approved by the United States Centers for Medicare and Medicaid Services, the rates taking effect on July 1, 2004 shall be 3.0% greater than the rates in effect on June 30, 2004. These rates shall take effect only upon approval and implementation of the payment methodologies required under Section 5A-12.

Notwithstanding any other provisions of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the rates taking effect on January 1, 2005 shall be 3% more than the rates in effect on December 31, 2004.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, effective January 1, 2009, the per diem support component of the rates effective on January 1, 2008, computed using the most recent cost reports on file with the Department of Healthcare and Family Services no later than April 1, 2005, updated for inflation to January 1, 2006, shall be increased to the amount that would have been derived using standard Department of Healthcare and Family Services
methods, procedures, and inflators.

Notwithstanding any other provisions of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as intermediate care facilities that are federally defined as Institutions for Mental Disease, or facilities licensed by the Department of Public Health under the Specialized Mental Health Rehabilitation Act of 2013, a socio-development component rate equal to 6.6% of the facility's nursing component rate as of January 1, 2006 shall be established and paid effective July 1, 2006. The socio-development component of the rate shall be increased by a factor of 2.53 on the first day of the month that begins at least 45 days after January 11, 2008 (the effective date of Public Act 95-707). As of August 1, 2008, the socio-development component rate shall be equal to 6.6% of the facility's nursing component rate as of January 1, 2006, multiplied by a factor of 3.53. For services provided on or after April 1, 2011, or the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 96th General Assembly, whichever is later, the Illinois Department may by rule adjust these socio-development component rates, and may use different adjustment methodologies for those facilities participating, and those not participating, in the Illinois Department's demonstration program pursuant to the provisions of Title 77, Part 300, Subpart T of the Illinois Administrative Code, but in no case
may such rates be diminished below those in effect on August 1, 2008.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or as long-term care facilities for residents under 22 years of age, the rates taking effect on July 1, 2003 shall include a statewide increase of 4%, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 95th General Assembly shall include a statewide increase of 2.5%, as defined by the Department.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, effective January 1, 2005, facility rates shall be increased by the difference between (i) a facility's per diem property, liability, and malpractice insurance costs as reported in the cost report filed with the Department of Public Aid and used to establish rates effective July 1, 2001 and (ii) those same costs as reported in the facility's 2002 cost report. These costs shall be passed
through to the facility without caps or limitations, except for adjustments required under normal auditing procedures.

Rates established effective each July 1 shall govern payment for services rendered throughout that fiscal year, except that rates established on July 1, 1996 shall be increased by 6.8% for services provided on or after January 1, 1997. Such rates will be based upon the rates calculated for the year beginning July 1, 1990, and for subsequent years thereafter until June 30, 2001 shall be based on the facility cost reports for the facility fiscal year ending at any point in time during the previous calendar year, updated to the midpoint of the rate year. The cost report shall be on file with the Department no later than April 1 of the current rate year. Should the cost report not be on file by April 1, the Department shall base the rate on the latest cost report filed by each skilled care facility and intermediate care facility, updated to the midpoint of the current rate year. In determining rates for services rendered on and after July 1, 1985, fixed time shall not be computed at less than zero. The Department shall not make any alterations of regulations which would reduce any component of the Medicaid rate to a level below what that component would have been utilizing in the rate effective on July 1, 1984.

(2) Shall take into account the actual costs incurred by facilities in providing services for recipients of skilled nursing and intermediate care services under the medical
assistance program.

(3) Shall take into account the medical and psycho-social characteristics and needs of the patients.

(4) Shall take into account the actual costs incurred by facilities in meeting licensing and certification standards imposed and prescribed by the State of Illinois, any of its political subdivisions or municipalities and by the U.S. Department of Health and Human Services pursuant to Title XIX of the Social Security Act.

The Department of Healthcare and Family Services shall develop precise standards for payments to reimburse nursing facilities for any utilization of appropriate rehabilitative personnel for the provision of rehabilitative services which is authorized by federal regulations, including reimbursement for services provided by qualified therapists or qualified assistants, and which is in accordance with accepted professional practices. Reimbursement also may be made for utilization of other supportive personnel under appropriate supervision.

The Department shall develop enhanced payments to offset the additional costs incurred by a facility serving exceptional need residents and shall allocate at least $4,000,000 of the funds collected from the assessment established by Section 5B-2 of this Code for such payments.

For the purpose of this Section, "exceptional needs" means, but need not be limited to, ventilator care and traumatic
brain injury care. The enhanced payments for exceptional need residents under this paragraph are not due and payable, however, until (i) the methodologies described in this paragraph are approved by the federal government in an appropriate State Plan amendment and (ii) the assessment imposed by Section 5B-2 of this Code is determined to be a permissible tax under Title XIX of the Social Security Act.

Beginning January 1, 2014 the methodologies for reimbursement of nursing facility services as provided under this Section 5-5.4 shall no longer be applicable for services provided on or after January 1, 2014.

No payment increase under this Section for the MDS methodology, exceptional care residents, or the socio-development component rate established by Public Act 96-1530 of the 96th General Assembly and funded by the assessment imposed under Section 5B-2 of this Code shall be due and payable until after the Department notifies the long-term care providers, in writing, that the payment methodologies to long-term care providers required under this Section have been approved by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services and the waivers under 42 CFR 433.68 for the assessment imposed by this Section, if necessary, have been granted by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services. Upon notification to the Department of approval of the payment
methodologies required under this Section and the waivers granted under 42 CFR 433.68, all increased payments otherwise due under this Section prior to the date of notification shall be due and payable within 90 days of the date federal approval is received.

On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval, the rates taking effect for services delivered on or after August 1, 2019 shall be increased by 3.5% over the rates in effect on June 30, 2019. The Department shall adopt rules, including emergency rules under subsection (ii) of Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section, including wage increases for direct care staff.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval, the rates taking effect on the latter of the approval date of the State Plan Amendment for these facilities or the Waiver Amendment for the home and community-based
services settings shall include an increase sufficient to provide a $0.26 per hour wage increase to the base wage for non-executive staff. The Department shall adopt rules, including emergency rules as authorized by Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section, including wage increases for direct care staff.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval of the State Plan Amendment and the Waiver Amendment for the home and community-based services settings, the rates taking effect for the services delivered on or after July 1, 2020 shall include an increase sufficient to provide a $1.00 per hour wage increase for non-executive staff. For services delivered on or after January 1, 2021, subject to federal approval of the State Plan Amendment and the Waiver Amendment for the home and community-based services settings, shall include an increase sufficient to provide a $0.50 per hour increase for non-executive staff. The Department shall adopt rules, including emergency rules as authorized by Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section, including wage increases for direct care staff.

For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and
under the MC/DD Act as MC/DD Facilities, subject to federal approval of the State Plan Amendment, the rates taking effect for the residential services delivered on or after July 1, 2021, shall include an increase sufficient to provide a $0.50 per hour increase for aides in the rate methodology. For facilities licensed by the Department of Public Health under the ID/DD Community Care Act as ID/DD Facilities and under the MC/DD Act as MC/DD Facilities, subject to federal approval of the State Plan Amendment, the rates taking effect for the residential services delivered on or after January 1, 2022 shall include an increase sufficient to provide a $0.50 per hour increase for aides in the rate methodology. In addition, for residential services delivered on or after January 1, 2022 such rates shall include an increase sufficient to provide wages for all residential non-executive direct care staff, excluding aides, at the federal Department of Labor, Bureau of Labor Statistics' average wage as defined in rule by the Department. The Department shall adopt rules, including emergency rules as authorized by Section 5-45 of the Illinois Administrative Procedure Act, to implement the provisions of this Section.

Section 3-130. The Environmental Protection Act is amended
by changing Sections 22.15, 22.59, and 57.11 as follows:

(415 ILCS 5/22.15) (from Ch. 111 1/2, par. 1022.15)
Sec. 22.15. Solid Waste Management Fund; fees.
(a) There is hereby created within the State Treasury a
special fund to be known as the Solid Waste Management Fund, to
be constituted from the fees collected by the State pursuant
to this Section, from repayments of loans made from the Fund
for solid waste projects, from registration fees collected
pursuant to the Consumer Electronics Recycling Act, and from
amounts transferred into the Fund pursuant to Public Act
100-433. Moneys received by the Department of Commerce and
Economic Opportunity in repayment of loans made pursuant to
the Illinois Solid Waste Management Act shall be deposited
into the General Revenue Fund.

(b) The Agency shall assess and collect a fee in the amount
set forth herein from the owner or operator of each sanitary
landfill permitted or required to be permitted by the Agency
to dispose of solid waste if the sanitary landfill is located
off the site where such waste was produced and if such sanitary
landfill is owned, controlled, and operated by a person other
than the generator of such waste. The Agency shall deposit all
fees collected into the Solid Waste Management Fund. If a site
is contiguous to one or more landfills owned or operated by the
same person, the volumes permanently disposed of by each
landfill shall be combined for purposes of determining the fee
under this subsection. Beginning on July 1, 2018, and on the
first day of each month thereafter during fiscal years 2019
through 2022, the State Comptroller shall direct and
State Treasurer shall transfer an amount equal to 1/12 of
$5,000,000 per fiscal year from the Solid Waste Management
Fund to the General Revenue Fund.

(1) If more than 150,000 cubic yards of non-hazardous
solid waste is permanently disposed of at a site in a
calendar year, the owner or operator shall either pay a
fee of 95 cents per cubic yard or, alternatively, the
owner or operator may weigh the quantity of the solid
waste permanently disposed of with a device for which
certification has been obtained under the Weights and
Measures Act and pay a fee of $2.00 per ton of solid waste
permanently disposed of. In no case shall the fee
collected or paid by the owner or operator under this
paragraph exceed $1.55 per cubic yard or $3.27 per ton.
(2) If more than 100,000 cubic yards but not more than 150,000 cubic yards of non-hazardous waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of $52,630.

(3) If more than 50,000 cubic yards but not more than 100,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of $23,790.

(4) If more than 10,000 cubic yards but not more than 50,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of $7,260.

(5) If not more than 10,000 cubic yards of non-hazardous solid waste is permanently disposed of at a site in a calendar year, the owner or operator shall pay a fee of $1050.

(c) (Blank).

(d) The Agency shall establish rules relating to the collection of the fees authorized by this Section. Such rules shall include, but not be limited to:

(1) necessary records identifying the quantities of solid waste received or disposed;

(2) the form and submission of reports to accompany the payment of fees to the Agency;

(3) the time and manner of payment of fees to the Agency, which payments shall not be more often than
quarterly; and

(4) procedures setting forth criteria establishing when an owner or operator may measure by weight or volume during any given quarter or other fee payment period.

(e) Pursuant to appropriation, all monies in the Solid Waste Management Fund shall be used by the Agency and the Department of Commerce and Economic Opportunity for the purposes set forth in this Section and in the Illinois Solid Waste Management Act, including for the costs of fee collection and administration, and for the administration of (1) the Consumer Electronics Recycling Act and (2) until January 1, 2020, the Electronic Products Recycling and Reuse Act.

(f) The Agency is authorized to enter into such agreements and to promulgate such rules as are necessary to carry out its duties under this Section and the Illinois Solid Waste Management Act.

(g) On the first day of January, April, July, and October of each year, beginning on July 1, 1996, the State Comptroller and Treasurer shall transfer $500,000 from the Solid Waste Management Fund to the Hazardous Waste Fund. Moneys transferred under this subsection (g) shall be used only for the purposes set forth in item (1) of subsection (d) of Section 22.2.

(h) The Agency is authorized to provide financial assistance to units of local government for the performance of
inspecting, investigating and enforcement activities pursuant to Section 4(r) at nonhazardous solid waste disposal sites.

(i) The Agency is authorized to conduct household waste collection and disposal programs.

(j) A unit of local government, as defined in the Local Solid Waste Disposal Act, in which a solid waste disposal facility is located may establish a fee, tax, or surcharge with regard to the permanent disposal of solid waste. All fees, taxes, and surcharges collected under this subsection shall be utilized for solid waste management purposes, including long-term monitoring and maintenance of landfills, planning, implementation, inspection, enforcement and other activities consistent with the Solid Waste Management Act and the Local Solid Waste Disposal Act, or for any other environment-related purpose, including but not limited to an environment-related public works project, but not for the construction of a new pollution control facility other than a household hazardous waste facility. However, the total fee, tax or surcharge imposed by all units of local government under this subsection (j) upon the solid waste disposal facility shall not exceed:

(1) 60¢ per cubic yard if more than 150,000 cubic yards of non-hazardous solid waste is permanently disposed of at the site in a calendar year, unless the owner or operator weighs the quantity of the solid waste received with a device for which certification has been obtained
under the Weights and Measures Act, in which case the fee shall not exceed $1.27 per ton of solid waste permanently disposed of.

(2) $33,350 if more than 100,000 cubic yards, but not more than 150,000 cubic yards, of non-hazardous waste is permanently disposed of at the site in a calendar year.

(3) $15,500 if more than 50,000 cubic yards, but not more than 100,000 cubic yards, of non-hazardous solid waste is permanently disposed of at the site in a calendar year.

(4) $4,650 if more than 10,000 cubic yards, but not more than 50,000 cubic yards, of non-hazardous solid waste is permanently disposed of at the site in a calendar year.

(5) $650 if not more than 10,000 cubic yards of non-hazardous solid waste is permanently disposed of at the site in a calendar year.

The corporate authorities of the unit of local government may use proceeds from the fee, tax, or surcharge to reimburse a highway commissioner whose road district lies wholly or partially within the corporate limits of the unit of local government for expenses incurred in the removal of nonhazardous, nonfluid municipal waste that has been dumped on public property in violation of a State law or local ordinance.

A county or Municipal Joint Action Agency that imposes a fee, tax, or surcharge under this subsection may use the
proceeds thereof to reimburse a municipality that lies wholly or partially within its boundaries for expenses incurred in the removal of nonhazardous, nonfluid municipal waste that has been dumped on public property in violation of a State law or local ordinance.

If the fees are to be used to conduct a local sanitary landfill inspection or enforcement program, the unit of local government must enter into a written delegation agreement with the Agency pursuant to subsection (r) of Section 4. The unit of local government and the Agency shall enter into such a written delegation agreement within 60 days after the establishment of such fees. At least annually, the Agency shall conduct an audit of the expenditures made by units of local government from the funds granted by the Agency to the units of local government for purposes of local sanitary landfill inspection and enforcement programs, to ensure that the funds have been expended for the prescribed purposes under the grant.

The fees, taxes or surcharges collected under this subsection (j) shall be placed by the unit of local government in a separate fund, and the interest received on the moneys in the fund shall be credited to the fund. The monies in the fund may be accumulated over a period of years to be expended in accordance with this subsection.

A unit of local government, as defined in the Local Solid Waste Disposal Act, shall prepare and distribute to the
Agency, in April of each year, a report that details spending plans for monies collected in accordance with this subsection. The report will at a minimum include the following:

(1) The total monies collected pursuant to this subsection.

(2) The most current balance of monies collected pursuant to this subsection.

(3) An itemized accounting of all monies expended for the previous year pursuant to this subsection.

(4) An estimation of monies to be collected for the following 3 years pursuant to this subsection.

(5) A narrative detailing the general direction and scope of future expenditures for one, 2 and 3 years.

The exemptions granted under Sections 22.16 and 22.16a, and under subsection (k) of this Section, shall be applicable to any fee, tax or surcharge imposed under this subsection (j); except that the fee, tax or surcharge authorized to be imposed under this subsection (j) may be made applicable by a unit of local government to the permanent disposal of solid waste after December 31, 1986, under any contract lawfully executed before June 1, 1986 under which more than 150,000 cubic yards (or 50,000 tons) of solid waste is to be permanently disposed of, even though the waste is exempt from the fee imposed by the State under subsection (b) of this Section pursuant to an exemption granted under Section 22.16.

(k) In accordance with the findings and purposes of the
Illinois Solid Waste Management Act, beginning January 1, 1989
the fee under subsection (b) and the fee, tax or surcharge
under subsection (j) shall not apply to:

(1) waste which is hazardous waste;
(2) waste which is pollution control waste;
(3) waste from recycling, reclamation or reuse
processes which have been approved by the Agency as being
designed to remove any contaminant from wastes so as to
render such wastes reusable, provided that the process
renders at least 50% of the waste reusable;
(4) non-hazardous solid waste that is received at a
sanitary landfill and composted or recycled through a
process permitted by the Agency; or
(5) any landfill which is permitted by the Agency to
receive only demolition or construction debris or
landscape waste.

(415 ILCS 5/22.59)
Sec. 22.59. CCR surface impoundments.
(a) The General Assembly finds that:

(1) the State of Illinois has a long-standing policy
to restore, protect, and enhance the environment,
including the purity of the air, land, and waters,
including groundwaters, of this State;

(2) a clean environment is essential to the growth and well-being of this State;

(3) CCR generated by the electric generating industry has caused groundwater contamination and other forms of pollution at active and inactive plants throughout this State;

(4) environmental laws should be supplemented to ensure consistent, responsible regulation of all existing CCR surface impoundments; and

(5) meaningful participation of State residents, especially vulnerable populations who may be affected by regulatory actions, is critical to ensure that environmental justice considerations are incorporated in the development of, decision-making related to, and implementation of environmental laws and rulemaking that protects and improves the well-being of communities in this State that bear disproportionate burdens imposed by environmental pollution.

Therefore, the purpose of this Section is to promote a healthful environment, including clean water, air, and land, meaningful public involvement, and the responsible disposal and storage of coal combustion residuals, so as to protect public health and to prevent pollution of the environment of this State.

The provisions of this Section shall be liberally
construed to carry out the purposes of this Section.

(b) No person shall:

(1) cause or allow the discharge of any contaminants from a CCR surface impoundment into the environment so as to cause, directly or indirectly, a violation of this Section or any regulations or standards adopted by the Board under this Section, either alone or in combination with contaminants from other sources;

(2) construct, install, modify, operate, or close any CCR surface impoundment without a permit granted by the Agency, or so as to violate any conditions imposed by such permit, any provision of this Section or any regulations or standards adopted by the Board under this Section; or

(3) cause or allow, directly or indirectly, the discharge, deposit, injection, dumping, spilling, leaking, or placing of any CCR upon the land in a place and manner so as to cause or tend to cause a violation this Section or any regulations or standards adopted by the Board under this Section.

(c) For purposes of this Section, a permit issued by the Administrator of the United States Environmental Protection Agency under Section 4005 of the federal Resource Conservation and Recovery Act, shall be deemed to be a permit under this Section and subsection (y) of Section 39.

(d) Before commencing closure of a CCR surface impoundment, in accordance with Board rules, the owner of a
CCR surface impoundment must submit to the Agency for approval a closure alternatives analysis that analyzes all closure methods being considered and that otherwise satisfies all closure requirements adopted by the Board under this Act. Complete removal of CCR, as specified by the Board's rules, from the CCR surface impoundment must be considered and analyzed. Section 3.405 does not apply to the Board's rules specifying complete removal of CCR. The selected closure method must ensure compliance with regulations adopted by the Board pursuant to this Section.

(e) Owners or operators of CCR surface impoundments who have submitted a closure plan to the Agency before May 1, 2019, and who have completed closure prior to 24 months after July 30, 2019 (the effective date of Public Act 101-171) this amendatory Act of the 101st General Assembly shall not be required to obtain a construction permit for the surface impoundment closure under this Section.

(f) Except for the State, its agencies and institutions, a unit of local government, or not-for-profit electric cooperative as defined in Section 3.4 of the Electric Supplier Act, any person who owns or operates a CCR surface impoundment in this State shall post with the Agency a performance bond or other security for the purpose of: (i) ensuring closure of the CCR surface impoundment and post-closure care in accordance with this Act and its rules; and (ii) insuring remediation of releases from the CCR surface impoundment. The only acceptable
forms of financial assurance are: a trust fund, a surety bond
guaranteeing payment, a surety bond guaranteeing performance,
or an irrevocable letter of credit.

(1) The cost estimate for the post-closure care of a
CCR surface impoundment shall be calculated using a
30-year post-closure care period or such longer period as
may be approved by the Agency under Board or federal
rules.

(2) The Agency is authorized to enter into such
contracts and agreements as it may deem necessary to carry
out the purposes of this Section. Neither the State, nor
the Director, nor any State employee shall be liable for
any damages or injuries arising out of or resulting from
any action taken under this Section.

(3) The Agency shall have the authority to approve or
disapprove any performance bond or other security posted
under this subsection. Any person whose performance bond
or other security is disapproved by the Agency may contest
the disapproval as a permit denial appeal pursuant to
Section 40.

(g) The Board shall adopt rules establishing construction
permit requirements, operating permit requirements, design
standards, reporting, financial assurance, and closure and
post-closure care requirements for CCR surface impoundments.
Not later than 8 months after July 30, 2019 (the effective date
of Public Act 101-171) this amendatory Act of the 101st
General Assembly the Agency shall propose, and not later than one year after receipt of the Agency's proposal the Board shall adopt, rules under this Section. The Board shall not be deemed not in compliance with the rulemaking deadline due to delays in the rulemaking adoption as a result of the Joint Commission on Administration Rules oversight process. The rules must, at a minimum:

1. be at least as protective and comprehensive as the federal regulations or amendments thereto promulgated by the Administrator of the United States Environmental Protection Agency in Subpart D of 40 CFR 257 governing CCR surface impoundments;

2. specify the minimum contents of CCR surface impoundment construction and operating permit applications, including the closure alternatives analysis required under subsection (d);

3. specify which types of permits include requirements for closure, post-closure, remediation and all other requirements applicable to CCR surface impoundments;

4. specify when permit applications for existing CCR surface impoundments must be submitted, taking into consideration whether the CCR surface impoundment must close under the RCRA;

5. specify standards for review and approval by the Agency of CCR surface impoundment permit applications;
(6) specify meaningful public participation procedures for the issuance of CCR surface impoundment construction and operating permits, including, but not limited to, public notice of the submission of permit applications, an opportunity for the submission of public comments, an opportunity for a public hearing prior to permit issuance, and a summary and response of the comments prepared by the Agency;

(7) prescribe the type and amount of the performance bonds or other securities required under subsection (f), and the conditions under which the State is entitled to collect moneys from such performance bonds or other securities;

(8) specify a procedure to identify areas of environmental justice concern in relation to CCR surface impoundments;

(9) specify a method to prioritize CCR surface impoundments required to close under RCRA if not otherwise specified by the United States Environmental Protection Agency, so that the CCR surface impoundments with the highest risk to public health and the environment, and areas of environmental justice concern are given first priority;

(10) define when complete removal of CCR is achieved and specify the standards for responsible removal of CCR from CCR surface impoundments, including, but not limited
to, dust controls and the protection of adjacent surface water and groundwater; and

(11) describe the process and standards for identifying a specific alternative source of groundwater pollution when the owner or operator of the CCR surface impoundment believes that groundwater contamination on the site is not from the CCR surface impoundment.

(h) Any owner of a CCR surface impoundment that generates CCR and sells or otherwise provides coal combustion byproducts pursuant to Section 3.135 shall, every 12 months, post on its publicly available website a report specifying the volume or weight of CCR, in cubic yards or tons, that it sold or provided during the past 12 months.

(i) The owner of a CCR surface impoundment shall post all closure plans, permit applications, and supporting documentation, as well as any Agency approval of the plans or applications on its publicly available website.

(j) The owner or operator of a CCR surface impoundment shall pay the following fees:

(1) An initial fee to the Agency within 6 months after
July 30, 2019 (the effective date of Public Act 101-171) this amendatory Act of the 101st General Assembly of:

$50,000 for each closed CCR surface impoundment;

and

$75,000 for each CCR surface impoundment that have not completed closure.
(2) Annual fees to the Agency, beginning on July 1, 2020, of:

$25,000 for each CCR surface impoundment that has not completed closure; and

$15,000 for each CCR surface impoundment that has completed closure, but has not completed post-closure care.

(k) All fees collected by the Agency under subsection (j) shall be deposited into the Environmental Protection Permit and Inspection Fund.

(l) The Coal Combustion Residual Surface Impoundment Financial Assurance Fund is created as a special fund in the State treasury. Any moneys forfeited to the State of Illinois from any performance bond or other security required under this Section shall be placed in the Coal Combustion Residual Surface Impoundment Financial Assurance Fund and shall, upon approval by the Governor and the Director, be used by the Agency for the purposes for which such performance bond or other security was issued. The Coal Combustion Residual Surface Impoundment Financial Assurance Fund is not subject to the provisions of subsection (c) of Section 5 of the State Finance Act.

(m) The provisions of this Section shall apply, without limitation, to all existing CCR surface impoundments and any CCR surface impoundments constructed after July 30, 2019 (the effective date of Public Act 101-171) this amendatory Act of
Sec. 57.11. Underground Storage Tank Fund; creation.

Moneys in the Underground Storage Tank
Fund, pursuant to appropriation, may be used by the Agency and the Office of the State Fire Marshal for the following purposes:

1. To take action authorized under Section 57.12 to recover costs under Section 57.12.

2. To assist in the reduction and mitigation of damage caused by leaks from underground storage tanks, including but not limited to, providing alternative water supplies to persons whose drinking water has become contaminated as a result of those leaks.

3. To be used as a matching amount towards federal assistance relative to the release of petroleum from underground storage tanks.

4. For the costs of administering activities of the Agency and the Office of the State Fire Marshal relative to the Underground Storage Tank Fund.

5. For payment of costs of corrective action incurred by and indemnification to operators of underground storage tanks as provided in this Title.

6. For a total of 2 demonstration projects in amounts in excess of a $10,000 deductible charge designed to assess the viability of corrective action projects at sites which have experienced contamination from petroleum releases. Such demonstration projects shall be conducted in accordance with the provision of this Title.

7. Subject to appropriation, moneys in the
Underground Storage Tank Fund may also be used by the Department of Revenue for the costs of administering its activities relative to the Fund and for refunds provided for in Section 13a.8 of the Motor Fuel Tax Act.

(b) Moneys in the Underground Storage Tank Fund may, pursuant to appropriation, be used by the Office of the State Fire Marshal or the Agency to take whatever emergency action is necessary or appropriate to assure that the public health or safety is not threatened whenever there is a release or substantial threat of a release of petroleum from an underground storage tank and for the costs of administering its activities relative to the Underground Storage Tank Fund.

(c) Beginning July 1, 1993, the Governor shall certify to the State Comptroller and State Treasurer the monthly amount necessary to pay debt service on State obligations issued pursuant to Section 6 of the General Obligation Bond Act. On the last day of each month, the Comptroller shall order transferred and the Treasurer shall transfer from the Underground Storage Tank Fund to the General Obligation Bond Retirement and Interest Fund the amount certified by the Governor, plus any cumulative deficiency in those transfers for prior months.

(d) Except as provided in subsection (c) of this Section, the Underground Storage Tank Fund is not subject to administrative charges authorized under Section 8h of the State Finance Act that would in any way transfer any funds from
the Underground Storage Tank Fund into any other fund of the State.

(e) Each fiscal year, subject to appropriation, the Agency may commit up to $10,000,000 of the moneys in the Underground Storage Tank Fund to the payment of corrective action costs for legacy sites that meet one or more of the following criteria as a result of the underground storage tank release:

(i) the presence of free product, (ii) contamination within a regulated recharge area, a wellhead protection area, or the setback zone of a potable water supply well, (iii) contamination extending beyond the boundaries of the site where the release occurred, or (iv) such other criteria as may be adopted in Agency rules.

(1) Fund moneys committed under this subsection (e) shall be held in the Fund for payment of the corrective action costs for which the moneys were committed.

(2) The Agency may adopt rules governing the commitment of Fund moneys under this subsection (e).

(3) This subsection (e) does not limit the use of Fund moneys at legacy sites as otherwise provided under this Title.

(4) For the purposes of this subsection (e), the term "legacy site" means a site for which (i) an underground storage tank release was reported prior to January 1, 2005, (ii) the owner or operator has been determined eligible to receive payment from the Fund for corrective
action costs, and (iii) the Agency did not receive any applications for payment prior to January 1, 2010.

(f) Beginning July 1, 2013, if the amounts deposited into the Fund from moneys received by the Office of the State Fire Marshal as fees for underground storage tanks under Sections 4 and 5 of the Gasoline Storage Act and as fees pursuant to the Motor Fuel Tax Law during a State fiscal year are sufficient to pay all claims for payment by the fund received during that State fiscal year, then the amount of any payments into the fund pursuant to the Use Tax Act, the Service Use Tax Act, the Service Occupation Tax Act, and the Retailers’ Occupation Tax Act during that State fiscal year shall be deposited as follows: 75% thereof shall be paid into the State treasury and 25% shall be reserved in a special account and used only for the transfer to the Common School Fund as part of the monthly transfer from the General Revenue Fund in accordance with Section 8a of the State Finance Act.

(730 ILCS 5/5-9-1.9)

Sec. 5-9-1.9. DUI analysis fee.

(a) "Crime laboratory" means a not-for-profit laboratory substantially funded by a single unit or combination of units of local government or the State of Illinois that regularly employs at least one person engaged in the DUI analysis of blood, other bodily substance, and urine for criminal justice agencies in criminal matters and provides testimony with respect to such examinations.

"DUI analysis" means an analysis of blood, other bodily substance, or urine for purposes of determining whether a violation of Section 11-501 of the Illinois Vehicle Code has occurred.

(b) (Blank).

(c) In addition to any other disposition made under the
provisions of the Juvenile Court Act of 1987, any minor adjudicated delinquent for an offense which if committed by an adult would constitute a violation of Section 11-501 of the Illinois Vehicle Code shall pay a crime laboratory DUI analysis assessment of $150 for each adjudication. Upon verified petition of the minor, the court may suspend payment of all or part of the assessment if it finds that the minor does not have the ability to pay the assessment. The parent, guardian, or legal custodian of the minor may pay some or all of the assessment on the minor's behalf.

(d) All crime laboratory DUI analysis assessments provided for by this Section shall be collected by the clerk of the court and forwarded to the appropriate crime laboratory DUI fund as provided in subsection (f).

(e) Crime laboratory funds shall be established as follows:

(1) A unit of local government that maintains a crime laboratory may establish a crime laboratory DUI fund within the office of the county or municipal treasurer.

(2) Any combination of units of local government that maintains a crime laboratory may establish a crime laboratory DUI fund within the office of the treasurer of the county where the crime laboratory is situated.

(3) (Blank). The State Police DUI Fund is created as a special fund in the State Treasury.

(f) The analysis assessment provided for in subsection (c)
of this Section shall be forwarded to the office of the
treasurer of the unit of local government that performed the
analysis if that unit of local government has established a
crime laboratory DUI fund, or to the State Treasurer for
deposit into the State Crime Laboratory Fund if the analysis
was performed by a laboratory operated by the Department of
State Police. If the analysis was performed by a crime
laboratory funded by a combination of units of local
government, the analysis assessment shall be forwarded to the
treasurer of the county where the crime laboratory is situated
if a crime laboratory DUI fund has been established in that
county. If the unit of local government or combination of
units of local government has not established a crime
laboratory DUI fund, then the analysis assessment shall be
forwarded to the State Treasurer for deposit into the State
Crime Laboratory Fund.

(g) Moneys deposited into a crime laboratory DUI fund
created under paragraphs (1) and (2) of subsection (e) of this
Section shall be in addition to any allocations made pursuant
to existing law and shall be designated for the exclusive use
of the crime laboratory. These uses may include, but are not
limited to, the following:

(1) Costs incurred in providing analysis for DUI
investigations conducted within this State.

(2) Purchase and maintenance of equipment for use in
performing analyses.
(3) Continuing education, training, and professional
development of forensic scientists regularly employed by
these laboratories.

(h) Moneys deposited in the State Crime Laboratory Fund
shall be used by State crime laboratories as designated by the
Director of State Police. These funds shall be in addition to
any allocations made according to existing law and shall be
designated for the exclusive use of State crime laboratories.
These uses may include those enumerated in subsection (g) of
this Section.

(i) Notwithstanding any other provision of law to the
contrary and in addition to any other transfers that may be
provided by law, on the effective date of this amendatory Act
of the 102nd General Assembly, or as soon thereafter as
practical, the State Comptroller shall direct and the State
Treasurer shall transfer the remaining balance from the State
Police DUI Fund into the State Police Operations Assistance
Fund. Upon completion of the transfer, the State Police DUI
Fund is dissolved, and any future deposits due to that Fund and
any outstanding obligations or liabilities of that Fund shall
pass to the State Police Operations Assistance Fund.

Section 3-140. The Revised Uniform Unclaimed Property Act
is amended by changing Section 15-801 as follows:
Sec. 15-801. Deposit of funds by administrator.

(a) Except as otherwise provided in this Section, the administrator shall deposit in the Unclaimed Property Trust Fund all funds received under this Act, including proceeds from the sale of property under Article 7. The administrator may deposit any amount in the Unclaimed Property Trust Fund into the State Pensions Fund during the fiscal year at his or her discretion; however, he or she shall, on April 15 and October 15 of each year, deposit any amount in the Unclaimed Property Trust Fund exceeding $2,500,000 into the State Pensions Fund. If on either April 15 or October 15, the administrator determines that a balance of $2,500,000 is insufficient for the prompt payment of unclaimed property claims authorized under this Act, the administrator may retain more than $2,500,000 in the Unclaimed Property Trust Fund in order to ensure the prompt payment of claims. Beginning in State fiscal year 2023, all amounts that are deposited into the State Pensions Fund from the Unclaimed Property Trust Fund shall be apportioned to the designated retirement systems as provided in subsection (c-6) of Section 8.12 of the State Finance Act to reduce their actuarial reserve deficiencies.

(b) The administrator shall make prompt payment of claims he or she duly allows as provided for in this Act from the Unclaimed Property Trust Fund. This shall constitute an
irrevocable and continuing appropriation of all amounts in the
Unclaimed Property Trust Fund necessary to make prompt payment
of claims duly allowed by the administrator pursuant to this
Act.

Notwithstanding any provision of the law to the contrary,
the General Assembly hereby authorizes the use of such funds
for the purposes set forth in this Section.

These provisions do not apply to funds classified by the
Comptroller as federal trust funds or State trust funds. The
Audit Expense Fund may receive transfers from those trust
funds only as directed herein, except where prohibited by the
terms of the trust fund agreement. The Auditor General shall
notify the trustees of those funds of the estimated cost of the
audit to be incurred under the Illinois State Auditing Act for
the fund. The trustees of those funds shall direct the State
Comptroller and Treasurer to transfer the estimated amount to
the Audit Expense Fund.
The Auditor General may bill entities that are not subject to the above transfer provisions, including private entities, related organizations and entities whose funds are locally-held, for the cost of audits, studies, and investigations incurred on their behalf. Any revenues received under this provision shall be deposited into the Audit Expense Fund.

In the event that moneys on deposit in any fund are unavailable, by reason of deficiency or any other reason preventing their lawful transfer, the State Comptroller shall order transferred and the State Treasurer shall transfer the amount deficient or otherwise unavailable from the General Revenue Fund for deposit into the Audit Expense Fund.

On or before December 1, 1992, and each December 1 thereafter, the Auditor General shall notify the Governor's Office of Management and Budget (formerly Bureau of the Budget) of the amount estimated to be necessary to pay for audits, studies, and investigations in accordance with the Illinois State Auditing Act during the next succeeding fiscal year for each State fund for which a transfer or reimbursement is anticipated.

Beginning with fiscal year 1994 and during each fiscal year thereafter, the Auditor General may direct the State Comptroller and Treasurer to transfer moneys from funds authorized by the General Assembly for that fund. In the event funds, including federal and State trust funds but excluding
the General Revenue Fund, are transferred, during fiscal year
1994 and during each fiscal year thereafter, in excess of the
amount to pay actual costs attributable to audits, studies,
and investigations as permitted or required by the Illinois
State Auditing Act or specific action of the General Assembly,
the Auditor General shall, on September 30, or as soon
thereafter as is practicable, direct the State Comptroller and
Treasurer to transfer the excess amount back to the fund from
which it was originally transferred.

ARTICLE 5. GRADE CROSSING PROTECTION

Section 5-5. The Motor Fuel Tax Law is amended by changing
Section 8 as follows:

(35 ILCS 505/8) (from Ch. 120, par. 424)
Sec. 8. Except as provided in subsection (a-1) of this
Section, Section 8a, subdivision (h)(1) of Section 12a,
Section 13a.6, and items 13, 14, 15, and 16 of Section 15, all
money received by the Department under this Act, including
payments made to the Department by member jurisdictions
participating in the International Fuel Tax Agreement, shall
be deposited in a special fund in the State treasury, to be
known as the "Motor Fuel Tax Fund", and shall be used as
follows:

(a) 2 1/2 cents per gallon of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be transferred to the State Construction Account Fund in the State Treasury; the remainder of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be deposited into the Road Fund;

(a-1) Beginning on July 1, 2019, an amount equal to the amount of tax collected under subsection (a) of Section 2 as a result of the increase in the tax rate under Public Act 101-32 this amendatory Act of the 101st General Assembly shall be transferred each month into the Transportation Renewal Fund;

(b) $420,000 shall be transferred each month to the State Boating Act Fund to be used by the Department of Natural Resources for the purposes specified in Article X of the Boat Registration and Safety Act;

(c) $3,500,000 shall be transferred each month to the Grade Crossing Protection Fund to be used as follows: not less than $12,000,000 each fiscal year shall be used for the construction or reconstruction of rail highway grade separation structures; $2,250,000 in fiscal years 2004 through 2009 and $3,000,000 in fiscal year 2010 and each fiscal year thereafter shall be transferred to the Transportation Regulatory Fund and shall be accounted for as part of the rail carrier portion of such funds and shall be used to pay the cost of administration of the Illinois Commerce Commission's
railroad safety program in connection with its duties under subsection (3) of Section 18c-7401 of the Illinois Vehicle Code, with the remainder to be used by the Department of Transportation upon order of the Illinois Commerce Commission, to pay that part of the cost apportioned by such Commission to the State to cover the interest of the public in the use of highways, roads, streets, or pedestrian walkways in the county highway system, township and district road system, or municipal street system as defined in the Illinois Highway Code, as the same may from time to time be amended, for separation of grades, for installation, construction or reconstruction of crossing protection or reconstruction, alteration, relocation including construction or improvement of any existing highway necessary for access to property or improvement of any grade crossing and grade crossing surface including the necessary highway approaches thereto of any railroad across the highway or public road, or for the installation, construction, reconstruction, or maintenance of safety treatments to deter trespassing or a pedestrian walkway over or under a railroad right-of-way, as provided for in and in accordance with Section 18c-7401 of the Illinois Vehicle Code. The Commission may order up to $2,000,000 per year in Grade Crossing Protection Fund moneys for the improvement of grade crossing surfaces and up to $300,000 per year for the maintenance and renewal of 4-quadrant gate vehicle detection systems located at non-high speed rail grade crossings. The
Commission shall not order more than $2,000,000 per year in Grade Crossing Protection Fund moneys for pedestrian walkways. In entering orders for projects for which payments from the Grade Crossing Protection Fund will be made, the Commission shall account for expenditures authorized by the orders on a cash rather than an accrual basis. For purposes of this requirement an "accrual basis" assumes that the total cost of the project is expended in the fiscal year in which the order is entered, while a "cash basis" allocates the cost of the project among fiscal years as expenditures are actually made.

To meet the requirements of this subsection, the Illinois Commerce Commission shall develop annual and 5-year project plans of rail crossing capital improvements that will be paid for with moneys from the Grade Crossing Protection Fund. The annual project plan shall identify projects for the succeeding fiscal year and the 5-year project plan shall identify projects for the 5 directly succeeding fiscal years. The Commission shall submit the annual and 5-year project plans for this Fund to the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives on the first Wednesday in April of each year;

(d) of the amount remaining after allocations provided for in subsections (a), (a-1), (b), and (c), a sufficient amount shall be reserved to pay all of the following:

(1) the costs of the Department of Revenue in
administering this Act;

(2) the costs of the Department of Transportation in performing its duties imposed by the Illinois Highway Code for supervising the use of motor fuel tax funds apportioned to municipalities, counties and road districts;

(3) refunds provided for in Section 13, refunds for overpayment of decal fees paid under Section 13a.4 of this Act, and refunds provided for under the terms of the International Fuel Tax Agreement referenced in Section 14a;

(4) from October 1, 1985 until June 30, 1994, the administration of the Vehicle Emissions Inspection Law, which amount shall be certified monthly by the Environmental Protection Agency to the State Comptroller and shall promptly be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund to the Vehicle Inspection Fund, and for the period July 1, 1994 through June 30, 2000, one-twelfth of $25,000,000 each month, for the period July 1, 2000 through June 30, 2003, one-twelfth of $30,000,000 each month, and $15,000,000 on July 1, 2003, and $15,000,000 on January 1, 2004, and $15,000,000 on each July 1 and October 1, or as soon thereafter as may be practical, during the period July 1, 2004 through June 30, 2012, and $30,000,000 on June 1, 2013, or as soon thereafter as may be practical, and $15,000,000 on July 1
and October 1, or as soon thereafter as may be practical, during the period of July 1, 2013 through June 30, 2015, for the administration of the Vehicle Emissions Inspection Law of 2005, to be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund into the Vehicle Inspection Fund;

(4.5) beginning on July 1, 2019, the costs of the Environmental Protection Agency for the administration of the Vehicle Emissions Inspection Law of 2005 shall be paid, subject to appropriation, from the Motor Fuel Tax Fund into the Vehicle Inspection Fund; beginning in 2019, no later than December 31 of each year, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer from the Vehicle Inspection Fund to the Motor Fuel Tax Fund any balance remaining in the Vehicle Inspection Fund in excess of $2,000,000;

(5) amounts ordered paid by the Court of Claims; and

(6) payment of motor fuel use taxes due to member jurisdictions under the terms of the International Fuel Tax Agreement. The Department shall certify these amounts to the Comptroller by the 15th day of each month; the Comptroller shall cause orders to be drawn for such amounts, and the Treasurer shall administer those amounts on or before the last day of each month;

(e) after allocations for the purposes set forth in
subsections (a), (a-1), (b), (c), and (d), the remaining amount shall be apportioned as follows:

(1) Until January 1, 2000, 58.4%, and beginning January 1, 2000, 45.6% shall be deposited as follows:

(A) 37% into the State Construction Account Fund, and

(B) 63% into the Road Fund, $1,250,000 of which shall be reserved each month for the Department of Transportation to be used in accordance with the provisions of Sections 6-901 through 6-906 of the Illinois Highway Code;

(2) Until January 1, 2000, 41.6%, and beginning January 1, 2000, 54.4% shall be transferred to the Department of Transportation to be distributed as follows:

(A) 49.10% to the municipalities of the State,

(B) 16.74% to the counties of the State having 1,000,000 or more inhabitants,

(C) 18.27% to the counties of the State having less than 1,000,000 inhabitants,

(D) 15.89% to the road districts of the State.

If a township is dissolved under Article 24 of the Township Code, McHenry County shall receive any moneys that would have been distributed to the township under this subparagraph, except that a municipality that assumes the powers and responsibilities of a road district under paragraph (6) of Section 24-35 of the Township Code shall
receive any moneys that would have been distributed to the
township in a percent equal to the area of the dissolved
road district or portion of the dissolved road district
over which the municipality assumed the powers and
responsibilities compared to the total area of the
dissolved township. The moneys received under this
subparagraph shall be used in the geographic area of the
dissolved township. If a township is reconstituted as
provided under Section 24-45 of the Township Code, McHenry
County or a municipality shall no longer be distributed
moneys under this subparagraph.

As soon as may be after the first day of each month, the
Department of Transportation shall allot to each municipality
its share of the amount apportioned to the several
municipalities which shall be in proportion to the population
of such municipalities as determined by the last preceding
municipal census if conducted by the Federal Government or
Federal census. If territory is annexed to any municipality
subsequent to the time of the last preceding census the
corporate authorities of such municipality may cause a census
to be taken of such annexed territory and the population so
ascertained for such territory shall be added to the
population of the municipality as determined by the last
preceding census for the purpose of determining the allotment
for that municipality. If the population of any municipality
was not determined by the last Federal census preceding any
apportionment, the apportionment to such municipality shall be
in accordance with any census taken by such municipality. Any
municipal census used in accordance with this Section shall be
certified to the Department of Transportation by the clerk of
such municipality, and the accuracy thereof shall be subject
to approval of the Department which may make such corrections
as it ascertains to be necessary.

As soon as may be after the first day of each month, the
Department of Transportation shall allot to each county its
share of the amount apportioned to the several counties of the
State as herein provided. Each allotment to the several
counties having less than 1,000,000 inhabitants shall be in
proportion to the amount of motor vehicle license fees
received from the residents of such counties, respectively,
during the preceding calendar year. The Secretary of State
shall, on or before April 15 of each year, transmit to the
Department of Transportation a full and complete report
showing the amount of motor vehicle license fees received from
the residents of each county, respectively, during the
preceding calendar year. The Department of Transportation
shall, each month, use for allotment purposes the last such
report received from the Secretary of State.

As soon as may be after the first day of each month, the
Department of Transportation shall allot to the several
counties their share of the amount apportioned for the use of
road districts. The allotment shall be apportioned among the
several counties in the State in the proportion which the total mileage of township or district roads in the respective counties bears to the total mileage of all township and district roads in the State. Funds allotted to the respective counties for the use of road districts therein shall be allocated to the several road districts in the county in the proportion which the total mileage of such township or district roads in the respective road districts bears to the total mileage of all such township or district roads in the county. After July 1 of any year prior to 2011, no allocation shall be made for any road district unless it levied a tax for road and bridge purposes in an amount which will require the extension of such tax against the taxable property in any such road district at a rate of not less than either .08% of the value thereof, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less. Beginning July 1, 2011 and each July 1 thereafter, an allocation shall be made for any road district if it levied a tax for road and bridge purposes. In counties other than DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than 0.08% of the value thereof, based upon the assessment for the year immediately
prior to the year in which the tax was levied and as equalized
by the Department of Revenue, then the amount of the
allocation for that road district shall be a percentage of the
maximum allocation equal to the percentage obtained by
dividing the rate extended by the district by 0.08%. In DuPage
County, if the amount of the tax levy requires the extension of
the tax against the taxable property in the road district at a
rate that is less than the lesser of (i) 0.08% of the value of
the taxable property in the road district, based upon the
assessment for the year immediately prior to the year in which
such tax was levied and as equalized by the Department of
Revenue, or (ii) a rate that will yield an amount equal to
$12,000 per mile of road under the jurisdiction of the road
district, then the amount of the allocation for the road
district shall be a percentage of the maximum allocation equal
to the percentage obtained by dividing the rate extended by
the district by the lesser of (i) 0.08% or (ii) the rate that
will yield an amount equal to $12,000 per mile of road under
the jurisdiction of the road district.

Prior to 2011, if any road district has levied a special
tax for road purposes pursuant to Sections 6-601, 6-602, and
6-603 of the Illinois Highway Code, and such tax was levied in
an amount which would require extension at a rate of not less
than .08% of the value of the taxable property thereof, as
equalized or assessed by the Department of Revenue, or, in
DuPage County, an amount equal to or greater than $12,000 per
mile of road under the jurisdiction of the road district, whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such road district for an allotment under this Section. Beginning in 2011 and thereafter, if any road district has levied a special tax for road purposes under Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and the tax was levied in an amount that would require extension at a rate of not less than 0.08% of the value of the taxable property of that road district, as equalized or assessed by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, that levy shall be deemed a proper compliance with this Section and shall qualify such road district for a full, rather than proportionate, allotment under this Section. If the levy for the special tax is less than 0.08% of the value of the taxable property, or, in DuPage County if the levy for the special tax is less than the lesser of (i) 0.08% or (ii) $12,000 per mile of road under the jurisdiction of the road district, and if the levy for the special tax is more than any other levy for road and bridge purposes, then the levy for the special tax qualifies the road district for a proportionate, rather than full, allotment under this Section. If the levy for the special tax is equal to or less than any other levy for road and bridge purposes, then any allotment under this Section shall be determined by the
other levy for road and bridge purposes.

Prior to 2011, if a township has transferred to the road and bridge fund money which, when added to the amount of any tax levy of the road district would be the equivalent of a tax levy requiring extension at a rate of at least .08%, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such transfer, together with any such tax levy, shall be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this Section.

In counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel tax allotment or, beginning in 2011, their entitlement to a full allotment if, at the time the property tax extension limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor fuel tax allotment and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. Any road district may in all circumstances retain its entitlement to a motor fuel tax allotment or, beginning in 2011, its entitlement to a full allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the taxable property in the road district at a rate of not less than 0.08% of the assessed value of the
property, based upon the assessment for the year immediately
preceding the year in which the tax was levied and as equalized
by the Department of Revenue or, in DuPage County, an amount
equal to or greater than $12,000 per mile of road under the
jurisdiction of the road district, whichever is less.

As used in this Section, the term "road district" means
any road district, including a county unit road district,
provided for by the Illinois Highway Code; and the term
"township or district road" means any road in the township and
district road system as defined in the Illinois Highway Code.
For the purposes of this Section, "township or district road"
also includes such roads as are maintained by park districts,
forest preserve districts and conservation districts. The
Department of Transportation shall determine the mileage of
all township and district roads for the purposes of making
allotments and allocations of motor fuel tax funds for use in
road districts.

Payment of motor fuel tax moneys to municipalities and
counties shall be made as soon as possible after the allotment
is made. The treasurer of the municipality or county may
invest these funds until their use is required and the
interest earned by these investments shall be limited to the
same uses as the principal funds.

Section 5-10. The Illinois Vehicle Code is amended by changing Section 18c-7401 as follows:

(625 ILCS 5/18c-7401) (from Ch. 95 1/2, par. 18c-7401)

Sec. 18c-7401. Safety Requirements for Track, Facilities, and Equipment.

(1) General Requirements. Each rail carrier shall, consistent with rules, orders, and regulations of the Federal Railroad Administration, construct, maintain, and operate all of its equipment, track, and other property in this State in such a manner as to pose no undue risk to its employees or the person or property of any member of the public.

(2) Adoption of Federal Standards. The track safety standards and accident/incident standards promulgated by the Federal Railroad Administration shall be safety standards of the Commission. The Commission may, in addition, adopt by reference in its regulations other federal railroad safety standards, whether contained in federal statutes or in regulations adopted pursuant to such statutes.

(3) Railroad Crossings. No public road, highway, or street shall hereafter be constructed across the track of any rail carrier at grade, nor shall the track of any rail carrier be constructed across a public road, highway or street at grade, without having first secured the permission of the Commission; provided, that this Section shall not apply to the replacement of lawfully existing roads, highways, and tracks. No public
pedestrian bridge or subway shall be constructed across the track of any rail carrier without having first secured the permission of the Commission. The Commission shall have the right to refuse its permission or to grant it upon such terms and conditions as it may prescribe. The Commission shall have power to determine and prescribe the manner, including the particular point of crossing, and the terms of installation, operation, maintenance, use, and protection of each such crossing.

The Commission shall also have power, after a hearing, to require major alteration of or to abolish any crossing, heretofore or hereafter established, when in its opinion, the public safety requires such alteration or abolition, and, except in cities, villages, and incorporated towns of 1,000,000 or more inhabitants, to vacate and close that part of the highway on such crossing altered or abolished and cause barricades to be erected across such highway in such manner as to prevent the use of such crossing as a highway, when, in the opinion of the Commission, the public convenience served by the crossing in question is not such as to justify the further retention thereof; or to require a separation of grades, at railroad-highway grade crossings; or to require a separation of grades at any proposed crossing where a proposed public highway may cross the tracks of any rail carrier or carriers; and to prescribe, after a hearing of the parties, the terms upon which such separations shall be made and the proportion
in which the expense of the alteration or abolition of such crossings or the separation of such grades, having regard to the benefits, if any, accruing to the rail carrier or any party in interest, shall be divided between the rail carrier or carriers affected, or between such carrier or carriers and the State, county, municipality or other public authority in interest. However, a public hearing by the Commission to abolish a crossing shall not be required when the public highway authority in interest vacates the highway. In such instance the rail carrier, following notification to the Commission and the highway authority, shall remove any grade crossing warning devices and the grade crossing surface.

The Commission shall also have power by its order to require the reconstruction, minor alteration, minor relocation, or improvement of any crossing (including the necessary highway approaches thereto) of any railroad across any highway or public road, pedestrian bridge, or pedestrian subway, whether such crossing be at grade or by overhead structure or by subway, whenever the Commission finds after a hearing or without a hearing as otherwise provided in this paragraph that such reconstruction, alteration, relocation, or improvement is necessary to preserve or promote the safety or convenience of the public or of the employees or passengers of such rail carrier or carriers. By its original order or supplemental orders in such case, the Commission may direct such reconstruction, alteration, relocation, or improvement to
be made in such manner and upon such terms and conditions as
may be reasonable and necessary and may apportion the cost of
such reconstruction, alteration, relocation, or improvement
and the subsequent maintenance thereof, having regard to the
benefits, if any, accruing to the railroad or any party in
interest, between the rail carrier or carriers and public
utilities affected, or between such carrier or carriers and
public utilities and the State, county, municipality or other
public authority in interest. The cost to be so apportioned
shall include the cost of changes or alterations in the
equipment of public utilities affected as well as the cost of
the relocation, diversion or establishment of any public
highway, made necessary by such reconstruction, alteration,
relocation, or improvement of said crossing. A hearing shall
not be required in those instances when the Commission enters
an order confirming a written stipulation in which the
Commission, the public highway authority or other public
authority in interest, the rail carrier or carriers affected,
and in instances involving the use of the Grade Crossing
Protection Fund, the Illinois Department of Transportation,
agree on the reconstruction, alteration, relocation, or
improvement and the subsequent maintenance thereof and the
division of costs of such changes of any grade crossing
(including the necessary highway approaches thereto) of any
railroad across any highway, pedestrian bridge, or pedestrian
subway.
The Commission shall also have power to enter into stipulated agreements with a rail carrier or rail carriers or public authorities to fund, provide, install, and maintain safety treatments to deter trespassing on railroad property in accordance with paragraph (1) of Section 18c-7503 at locations approved by such rail carrier or rail carriers following a diagnostic evaluation between the Commission and the rail carrier or rail carriers, including any public authority in interest or the Federal Railroad Administration, and to order the allocation of the cost of those treatments and their installation and maintenance from the Grade Crossing Protection Fund. Safety treatments approved under this paragraph by the Commission shall be deemed adequate and appropriate.

Every rail carrier operating in the State of Illinois shall construct and maintain every highway crossing over its tracks within the State so that the roadway at the intersection shall be as flush with the rails as superelevated curves will allow, and, unless otherwise ordered by the Commission, shall construct and maintain the approaches thereto at a grade of not more than 5% within the right of way for a distance of not less the 6 feet on each side of the centerline of such tracks; provided, that the grades at the approaches may be maintained in excess of 5% only when authorized by the Commission.

Every rail carrier operating within this State shall
remove from its right of way at all railroad-highway grade crossings within the State, such brush, shrubbery, and trees as is reasonably practical for a distance of not less than 500 feet in either direction from each grade crossing. The Commission shall have power, upon its own motion, or upon complaint, and after having made proper investigation, to require the installation of adequate and appropriate luminous reflective warning signs, luminous flashing signals, crossing gates illuminated at night, or other protective devices in order to promote and safeguard the health and safety of the public. Luminous flashing signal or crossing gate devices installed at grade crossings, which have been approved by the Commission, shall be deemed adequate and appropriate. The Commission shall have authority to determine the number, type, and location of such signs, signals, gates, or other protective devices which, however, shall conform as near as may be with generally recognized national standards, and the Commission shall have authority to prescribe the division of the cost of the installation and subsequent maintenance of such signs, signals, gates, or other protective devices between the rail carrier or carriers, the public highway authority or other public authority in interest, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation. Except where train crews provide flagging of the crossing to road users, yield signs shall be installed at all highway intersections
with every grade crossing in this State that is not equipped
with automatic warning devices, such as luminous flashing
signals or crossing gate devices. A stop sign may be used in
lieu of the yield sign when an engineering study conducted in
cooperation with the highway authority and the Illinois
Department of Transportation has determined that a stop sign
is warranted. If the Commission has ordered the installation
of luminous flashing signal or crossing gate devices at a
grade crossing not equipped with active warning devices, the
Commission shall order the installation of temporary stop
signs at the highway intersection with the grade crossing
unless an engineering study has determined that a stop sign is
not appropriate. If a stop sign is not appropriate, the
Commission may order the installation of other appropriate
supplemental signing as determined by an engineering study.
The temporary signs shall remain in place until the luminous
flashing signal or crossing gate devices have been installed.
The rail carrier is responsible for the installation and
subsequent maintenance of any required signs. The permanent
signs shall be in place by July 1, 2011.

No railroad may change or modify the warning device system
at a railroad-highway grade crossing, including warning
systems interconnected with highway traffic control signals,
without having first received the approval of the Commission.
The Commission shall have the further power, upon application,
upon its own motion, or upon complaint and after having made
proper investigation, to require the interconnection of grade crossing warning devices with traffic control signals at highway intersections located at or near railroad crossings within the distances described by the State Manual on Uniform Traffic Control Devices adopted pursuant to Section 11-301 of this Code. In addition, State and local authorities may not install, remove, modernize, or otherwise modify traffic control signals at a highway intersection that is interconnected or proposed to be interconnected with grade crossing warning devices when the change affects the number, type, or location of traffic control devices on the track approach leg or legs of the intersection or the timing of the railroad preemption sequence of operation until the Commission has approved the installation, removal, modernization, or modification. Commission approval shall be limited to consideration of issues directly affecting the public safety at the railroad-highway grade crossing. The electrical circuit devices, alternate warning devices, and preemption sequences shall conform as nearly as possible, considering the particular characteristics of the crossing and intersection area, to the State manual adopted by the Illinois Department of Transportation pursuant to Section 11-301 of this Code and such federal standards as are made applicable by subsection (2) of this Section. In order to carry out this authority, the Commission shall have the authority to determine the number, type, and location of traffic control devices on the track
approach leg or legs of the intersection and the timing of the railroad preemption sequence of operation. The Commission shall prescribe the division of costs for installation and maintenance of all devices required by this paragraph between the railroad or railroads and the highway authority in interest and in instances involving the use of the Grade Crossing Protection Fund or a State highway, the Illinois Department of Transportation.

Any person who unlawfully or maliciously removes, throws down, damages or defaces any sign, signal, gate, or other protective device, located at or near any public grade crossing, shall be guilty of a petty offense and fined not less than $50 nor more than $200 for each offense. In addition to fines levied under the provisions of this Section a person adjudged guilty hereunder may also be directed to make restitution for the costs of repair or replacement, or both, necessitated by his misconduct.

It is the public policy of the State of Illinois to enhance public safety by establishing safe grade crossings. In order to implement this policy, the Illinois Commerce Commission is directed to conduct public hearings and to adopt specific criteria by July 1, 1994, that shall be adhered to by the Illinois Commerce Commission in determining if a grade crossing should be opened or abolished. The following factors shall be considered by the Illinois Commerce Commission in developing the specific criteria for opening and abolishing
grade crossings:

   (a) timetable speed of passenger trains;

   (b) distance to an alternate crossing;

   (c) accident history for the last 5 years;

   (d) number of vehicular traffic and posted speed limits;

   (e) number of freight trains and their timetable speeds;

   (f) the type of warning device present at the grade crossing;

   (g) alignments of the roadway and railroad, and the angle of intersection of those alignments;

   (h) use of the grade crossing by trucks carrying hazardous materials, vehicles carrying passengers for hire, and school buses; and

   (i) use of the grade crossing by emergency vehicles.

The Illinois Commerce Commission, upon petition to open or abolish a grade crossing, shall enter an order opening or abolishing the crossing if it meets the specific criteria adopted by the Commission.

Except as otherwise provided in this subsection (3), in no instance shall a grade crossing be permanently closed without public hearing first being held and notice of such hearing being published in an area newspaper of local general circulation.

(4) Freight Trains; Radio Communications. The Commission
shall after hearing and order require that every main line railroad freight train operating on main tracks outside of yard limits within this State shall be equipped with a radio communication system. The Commission after notice and hearing may grant exemptions from the requirements of this Section as to secondary and branch lines.

(5) Railroad Bridges and Trestles; Walkway and Handrail. In cases in which the Commission finds the same to be practical and necessary for safety of railroad employees, bridges and trestles, over and upon which railroad trains are operated, shall include as a part thereof, a safe and suitable walkway and handrail on one side only of such bridge or trestle, and such handrail shall be located at the outer edge of the walkway and shall provide a clearance of not less than 8 feet, 6 inches, from the center line of the nearest track, measured at right angles thereto.

(6) Packages Containing Articles for First Aid to Injured on Trains.

(a) All rail carriers shall provide a first aid kit that contains, at a minimum, those articles prescribed by the Commission, on each train or engine, for first aid to persons who may be injured in the course of the operation of such trains.

(b) A vehicle, excluding a taxi cab used in an emergency situation, operated by a contract carrier transporting railroad employees in the course of their
employment shall be equipped with a readily available first aid kit that contains, as a minimum, the same articles that are required on each train or engine.

(7) Abandoned Bridges, Crossings, and Other Rail Plant.

The Commission shall have authority, after notice and hearing, to order:

(a) the removal of any abandoned railroad tracks from roads, streets or other thoroughfares in this State; and

(b) the removal of abandoned overhead railroad structures crossing highways, waterways, or railroads.

The Commission may equitably apportion the cost of such actions between the rail carrier or carriers, public utilities, and the State, county, municipality, township, road district, or other public authority in interest.

(8) Railroad-Highway Bridge Clearance. A vertical clearance of not less than 23 feet above the top of rail shall be provided for all new or reconstructed highway bridges constructed over a railroad track. The Commission may permit a lesser clearance if it determines that the 23-foot clearance standard cannot be justified based on engineering, operational, and economic conditions.

(9) Right of Access To Railroad Property.

(a) A community antenna television company franchised by a municipality or county pursuant to the Illinois Municipal Code or the Counties Code, respectively, shall not enter upon any real estate or rights-of-way in the
possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission unless the community antenna television company first complies with the applicable provisions of subparagraph (f) of Section 11-42-11.1 of the Illinois Municipal Code or subparagraph (f) of Section 5-1096 of the Counties Code.

(b) Notwithstanding any provision of law to the contrary, this subsection (9) applies to all entries of railroad rights-of-way involving a railroad subject to the jurisdiction of the Illinois Commerce Commission by a community antenna television company and shall govern in the event of any conflict with any other provision of law.

(c) This subsection (9) applies to any entry upon any real estate or right-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission for the purpose of or in connection with the construction, or installation of a community antenna television company's system or facilities commenced or renewed on or after August 22, 2017 (the effective date of Public Act 100-251).

(d) Nothing in Public Act 100-251 shall be construed to prevent a railroad from negotiating other terms and conditions or the resolution of any dispute in relation to an entry upon or right of access as set forth in this subsection (9).

(e) For purposes of this subsection (9):
"Broadband service", "cable operator", and "holder" have the meanings given to those terms under Section 21-201 of the Public Utilities Act.

"Community antenna television company" includes, in the case of real estate or rights-of-way in possession of or in control of a railroad, a holder, cable operator, or broadband service provider.

(f) Beginning on August 22, 2017 (the effective date of Public Act 100-251), the Transportation Division of the Illinois Commerce Commission shall include in its annual Crossing Safety Improvement Program report a brief description of the number of cases decided by the Illinois Commerce Commission and the number of cases that remain pending before the Illinois Commerce Commission under this subsection (9) for the period covered by the report.

Subject to sufficient appropriation by the General Assembly, beginning with July 1, 2001, and thereafter continuing on the first day of each month during each fiscal year thereafter, the Comptroller shall order paid and the Treasurer shall pay to the Authority the amount in the Illinois Sports Facilities Fund until (x) the lesser of $10,000,000 or the amount appropriated for payment to the Authority from amounts credited to the Subsidy Account and (y) the lesser of the Advance Amount or the difference between the amount appropriated for payment to the Authority during the fiscal year and $10,000,000 has been paid from amounts credited to the Advance Account.

Section 6-10. The Hotel Operators' Occupation Tax Act is amended by changing Section 6 as follows:

(35 ILCS 145/6) (from Ch. 120, par. 481b.36)

Sec. 6. Filing of returns and distribution of proceeds.

Except as provided hereinafter in this Section, on or before the last day of each calendar month, every person engaged in the business of renting, leasing or letting rooms
in a hotel in this State during the preceding calendar month shall file a return with the Department, stating:

1. The name of the operator;
2. His residence address and the address of his principal place of business and the address of the principal place of business (if that is a different address) from which he engages in the business of renting, leasing or letting rooms in a hotel in this State;
3. Total amount of rental receipts received by him during the preceding calendar month from renting, leasing or letting rooms during such preceding calendar month;
4. Total amount of rental receipts received by him during the preceding calendar month from renting, leasing or letting rooms to permanent residents during such preceding calendar month;
5. Total amount of other exclusions from gross rental receipts allowed by this Act;
6. Gross rental receipts which were received by him during the preceding calendar month and upon the basis of which the tax is imposed;
7. The amount of tax due;
8. Such other reasonable information as the Department may require.

If the operator's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarter annual basis, with the
return for January, February and March of a given year being
due by April 30 of such year; with the return for April, May
and June of a given year being due by July 31 of such year;
with the return for July, August and September of a given year
being due by October 31 of such year, and with the return for
October, November and December of a given year being due by
January 31 of the following year.

If the operator's average monthly tax liability to the
Department does not exceed $50, the Department may authorize
his returns to be filed on an annual basis, with the return for
a given year being due by January 31 of the following year.

Such quarter annual and annual returns, as to form and
substance, shall be subject to the same requirements as
monthly returns.

Notwithstanding any other provision in this Act concerning
the time within which an operator may file his return, in the
case of any operator who ceases to engage in a kind of business
which makes him responsible for filing returns under this Act,
such operator shall file a final return under this Act with the
Department not more than 1 month after discontinuing such
business.

Where the same person has more than 1 business registered
with the Department under separate registrations under this
Act, such person shall not file each return that is due as a
single return covering all such registered businesses, but
shall file separate returns for each such registered business.
In his return, the operator shall determine the value of any consideration other than money received by him in connection with the renting, leasing or letting of rooms in the course of his business and he shall include such value in his return. Such determination shall be subject to review and revision by the Department in the manner hereinafter provided for the correction of returns.

Where the operator is a corporation, the return filed on behalf of such corporation shall be signed by the president, vice-president, secretary or treasurer or by the properly accredited agent of such corporation.

The person filing the return herein provided for shall, at the time of filing such return, pay to the Department the amount of tax herein imposed. The operator filing the return under this Section shall, at the time of filing such return, pay to the Department the amount of tax imposed by this Act less a discount of 2.1% or $25 per calendar year, whichever is greater, which is allowed to reimburse the operator for the expenses incurred in keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request.

If any payment provided for in this Section exceeds the operator's liabilities under this Act, as shown on an original return, the Department may authorize the operator to credit such excess payment against liability subsequently to be remitted to the Department under this Act, in accordance with
reasonable rules adopted by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the operator, the operator's discount shall be reduced by an amount equal to the difference between the discount as applied to the credit taken and that actually due, and that operator shall be liable for penalties and interest on such difference.

There shall be deposited in the Build Illinois Fund in the State Treasury for each State fiscal year 40% of the amount of total net proceeds from the tax imposed by subsection (a) of Section 3. Of the remaining 60%, $5,000,000 shall be deposited in the Illinois Sports Facilities Fund and credited to the Subsidy Account each fiscal year by making monthly deposits in the amount of 1/8 of $5,000,000 plus cumulative deficiencies in such deposits for prior months, and an additional $8,000,000 shall be deposited in the Illinois Sports Facilities Fund and credited to the Advance Account each fiscal year by making monthly deposits in the amount of 1/8 of $8,000,000 plus any cumulative deficiencies in such deposits for prior months; provided, that for fiscal years ending after June 30, 2001, the amount to be so deposited into the Illinois Sports Facilities Fund and credited to the Advance Account each fiscal year shall be increased from $8,000,000 to the then applicable Advance Amount and the required monthly deposits beginning with July 2001 shall be in the amount of 1/8 of the then applicable Advance Amount plus any cumulative
deficiencies in those deposits for prior months. (The deposits of the additional $8,000,000 or the then applicable Advance Amount, as applicable, during each fiscal year shall be treated as advances of funds to the Illinois Sports Facilities Authority for its corporate purposes to the extent paid to the Authority or its trustee and shall be repaid into the General Revenue Fund in the State Treasury by the State Treasurer on behalf of the Authority pursuant to Section 19 of the Illinois Sports Facilities Authority Act, as amended. If in any fiscal year the full amount of the then applicable Advance Amount is not repaid into the General Revenue Fund, then the deficiency shall be paid from the amount in the Local Government Distributive Fund that would otherwise be allocated to the City of Chicago under the State Revenue Sharing Act.)

For purposes of the foregoing paragraph, the term "Advance Amount" means, for fiscal year 2002, $22,179,000, and for subsequent fiscal years through fiscal year 2033, 105.615% of the Advance Amount for the immediately preceding fiscal year, rounded up to the nearest $1,000.

Of the remaining 60% of the amount of total net proceeds prior to August 1, 2011 from the tax imposed by subsection (a) of Section 3 after all required deposits in the Illinois Sports Facilities Fund, the amount equal to 8% of the net revenue realized from this Act plus an amount equal to 8% of the net revenue realized from any tax imposed under Section 4.05 of the Chicago World's Fair-1992 Authority Act during the
preceding month shall be deposited in the Local Tourism Fund each month for purposes authorized by Section 605-705 of the Department of Commerce and Economic Opportunity Law (20 ILCS 605/605-705). Of the remaining 60% of the amount of total net proceeds beginning on August 1, 2011 from the tax imposed by subsection (a) of Section 3 after all required deposits in the Illinois Sports Facilities Fund, an amount equal to 8% of the net revenue realized from this Act plus an amount equal to 8% of the net revenue realized from any tax imposed under Section 4.05 of the Chicago World's Fair-1992 Authority Act during the preceding month shall be deposited as follows: 18% of such amount shall be deposited into the Chicago Travel Industry Promotion Fund for the purposes described in subsection (n) of Section 5 of the Metropolitan Pier and Exposition Authority Act and the remaining 82% of such amount shall be deposited into the Local Tourism Fund each month for purposes authorized by Section 605-705 of the Department of Commerce and Economic Opportunity Law. Beginning on August 1, 1999 and ending on July 31, 2011, an amount equal to 4.5% of the net revenue realized from the Hotel Operators' Occupation Tax Act during the preceding month shall be deposited into the International Tourism Fund for the purposes authorized in Section 605-707 of the Department of Commerce and Economic Opportunity Law. Beginning on August 1, 2011, an amount equal to 4.5% of the net revenue realized from this Act during the preceding month shall be deposited as follows: 55% of such amount shall be
deposited into the Chicago Travel Industry Promotion Fund for the purposes described in subsection (n) of Section 5 of the Metropolitan Pier and Exposition Authority Act and the remaining 45% of such amount deposited into the International Tourism Fund for the purposes authorized in Section 605-707 of the Department of Commerce and Economic Opportunity Law. "Net revenue realized for a month" means the revenue collected by the State under that Act during the previous month less the amount paid out during that same month as refunds to taxpayers for overpayment of liability under that Act.

After making all these deposits, all other proceeds of the tax imposed under subsection (a) of Section 3 shall be deposited in the Tourism Promotion Fund in the State Treasury. All moneys received by the Department from the additional tax imposed under subsection (b) of Section 3 shall be deposited into the Build Illinois Fund in the State Treasury.

The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the operator's last State income tax return. If the total receipts of the business as reported in the State income tax return do not agree with the gross receipts reported to the Department for the same period, the
operator shall attach to his annual information return a
schedule showing a reconciliation of the 2 amounts and the
reasons for the difference. The operator's annual information
return to the Department shall also disclose pay roll
information of the operator's business during the year covered
by such return and any additional reasonable information which
the Department deems would be helpful in determining the
accuracy of the monthly, quarterly or annual tax returns by
such operator as hereinbefore provided for in this Section.

If the annual information return required by this Section
is not filed when and as required the taxpayer shall be liable
for a penalty in an amount determined in accordance with
Section 3-4 of the Uniform Penalty and Interest Act until such
return is filed as required, the penalty to be assessed and
collected in the same manner as any other penalty provided for
in this Act.

The chief executive officer, proprietor, owner or highest
ranking manager shall sign the annual return to certify the
accuracy of the information contained therein. Any person who
willfully signs the annual return containing false or
inaccurate information shall be guilty of perjury and punished
accordingly. The annual return form prescribed by the
Department shall include a warning that the person signing the
return may be liable for perjury.

The foregoing portion of this Section concerning the
filing of an annual information return shall not apply to an
operator who is not required to file an income tax return with
the United States Government.

(2) The revenues and receipts pledged shall immediately be subject to the lien of the pledge without any physical delivery or further act, and the lien of any pledge shall be valid and binding against any person having any claim of any kind in tort, contract or otherwise against the Authority, irrespective of whether the person has notice.

(3) No resolution, trust agreement, management agreement or assistance agreement or any financing statement, continuation statement, or other instrument adopted or entered into by the Authority need be filed or recorded in any public record other than the records of the Authority in order to perfect the lien against third persons, regardless of any contrary provision of law.

(G) At no time shall the total outstanding bonds and notes of the Authority issued under this Section 13 exceed (i) $150,000,000 in connection with facilities owned by the Authority or in connection with other authorized corporate purposes of the Authority and (ii) $399,000,000 in connection with facilities owned by a governmental owner other than the Authority; however, the limit on the total outstanding bond and notes set forth in this sentence shall not apply to any refunding or restructuring bonds issued by the Authority on and after the effective date of this amendatory Act of the 102nd General Assembly but prior to December 31, 2024. Bonds which are being paid or retired by issuance, sale or delivery of bonds or notes, and bonds or notes for which sufficient funds have been deposited with the paying agent or trustee to

redemption premium, as provided in the authorizing resolution,
shall not be considered outstanding for the purposes of this
paragraph.

(H) The bonds and notes of the Authority shall not be
indebtedness of the City of Chicago, of the State, or of any
political subdivision of the State other than the Authority.
The bonds and notes of the Authority are not general
obligations of the State of Illinois or the City of Chicago, or
of any other political subdivision of the State other than the
Authority, and are not secured by a pledge of the full faith
and credit of the State of Illinois or the City of Chicago, or
of any other political subdivision of the State other than the
Authority, and the holders of bonds and notes of the Authority
may not require the levy or imposition by the State or the City
of Chicago, or any other political subdivision of the State
other than the Authority, of any taxes or, except as provided
in this Act, the application of revenues or funds of the State
of Illinois or the City of Chicago or any other political
subdivision of the State other than the Authority to the
payment of bonds and notes of the Authority.

(I) In order to provide for the payment of debt service
requirements (including amounts for reserve funds and to pay
the costs of credit enhancements) on bonds issued pursuant to
this Act, the Authority may provide in any trust agreement
securing such bonds for a pledge and assignment of its right to

Sec. 605-415. Job Training and Economic Development Grant Program.

(a) Legislative findings. The General Assembly finds that:

(1) Despite the large number of unemployed job seekers, many employers are having difficulty matching the skills they require with the skills of workers; a similar problem exists in industries where overall employment may not be expanding but there is an acute need for skilled workers in particular occupations.

(2) The State of Illinois should foster local economic
development by linking the job training of unemployed disadvantaged citizens with the workforce needs of local business and industry.

(3) Employers often need assistance in developing training resources that will provide work opportunities for individuals that are under-represented and or have barriers to participating in the workforce disadvantaged populations.

(b) Definitions. As used in this Section:

"Eligible Entities" means employers, private nonprofit organizations (which may include a faith-based organization) federal Workforce Innovation and Opportunity Act (WIOA) administrative entities, Community Action Agencies, industry associations, and public or private educational institutions, that have demonstrated expertise and effectiveness in administering workforce development programs.

These strategies must be part of a career pathway for demand occupations that result in certification or credentials for the targeted populations.

3. Leveraging funding from a Barrier Reduction Fund to provide supportive services (e.g. transportation, child care, mental health services, substance abuse services, and income support) for targeted populations including youth participants in workforce development programs to assist with a transition to post-secondary education or full-time employment and a career.

4. Establishing policies for resource and service coordination and to provide funding for services that attempt to reduce employment barriers such as housing-related expenses (rent, utilities, etc.), child
care, digital technology needs, counseling, relief from fines and fees, education needs, and work-related supplies that are not typically covered by programmatic supportive services.

(5) Developing work-based learning and subsidized (or "transitional") employment opportunities with employers, to support the target populations including youth that require on-the-job experience to gain employability skills, work history, and a network to enter the workforce.

(6) Using funding for case management support, subsidies for employee wages, and grants to eligible entities in each region, as feasible, to administer transitional job training programs.

(c) From funds appropriated for that purpose, the Department of Commerce and Economic Opportunity shall administer a Job Training and Economic Development Grant Program. The Director shall make grants to community-based providers. The grants shall be made to support the following:

(6) Eligible Entities shall serve persons who are unemployed, under-employed, or under-represented and that have one or more barriers to employment.

(e) The Department may make available Barrier Reduction Funding to support complementary workforce development and job training efforts.

(2) The partnership employer must be an active participant in the curriculum development and train primarily disadvantaged populations.

Grants shall be awarded and performance measured based on criteria set forth in Notices of Funding Opportunity. 1998. Grants shall be based on a performance-based contracting system. Each grant shall be based on the cost of providing the training services and the goals negotiated and made a part of the contract between the Department and the training partners. The goals shall include the number of people to be trained, the number who stay in the program, the number who complete the program, the number who enter employment, their wages, and the number who retain employment. The level of success in achieving employment, wage, and retention goals shall be a primary consideration for determining contract renewals and subsequent funding levels. All sums received by the Authority shall be held in the sole custody of the secretary-treasurer of the Metropolitan Pier and Exposition Board.

(b) To accept the assignment of, assume and execute any contracts heretofore entered into by Chicago Park Fair.
(c) To acquire, own, construct, equip, lease, operate and maintain grounds, buildings and facilities to carry out its corporate purposes and duties, and to carry out or otherwise provide for the recreational, cultural, commercial or residential development of Navy Pier, and to fix and collect just, reasonable and nondiscriminatory charges for the use thereof. The charges so collected shall be made available to defray the reasonable expenses of the Authority and to pay the principal of and the interest upon any revenue bonds issued by the Authority. The Authority shall be subject to and comply with the Lake Michigan and Chicago Lakefront Protection Ordinance, the Chicago Building Code, the Chicago Zoning Ordinance, and all ordinances and regulations of the City of Chicago contained in the following Titles of the Municipal Code of Chicago: Businesses, Occupations and Consumer Protection; Health and Safety; Fire Prevention; Public Peace, Morals and Welfare; Utilities and Environmental Protection; Streets, Public Ways, Parks, Airports and Harbors; Electrical Equipment and Installation; Housing and Economic Development (only Chapter 5-4 thereof); and Revenue and Finance (only so far as such Title pertains to the Authority's duty to collect taxes on behalf of the City of Chicago).

Just compensation for property taken or acquired under this paragraph shall be paid in money or, notwithstanding any other provision of this Act and with the agreement of the owner of the property to be taken or acquired, the Authority may convey substitute property or interests in property or enter into agreements with the property owner, including leases, licenses, or concessions, with respect to any property owned by the Authority, or may provide for other lawful forms of just compensation to the owner. The Authority shall develop and implement a relocation plan for businesses displaced as a result of the Authority's acquisition of property. The relocation plan shall be substantially similar to provisions of the Uniform Relocation Assistance and Real Property Acquisition Act and regulations promulgated under that Act relating to assistance to displaced businesses. In exercising the powers authorized in this subsection (f), the Authority shall use its best efforts to relocate businesses within the area of McCormick Place or, failing
that, within the City of Chicago.

(g) To enter into contracts relating to construction projects which provide for the delivery by the contractor of a completed project, structure, improvement, or specific portion thereof, for a fixed maximum price, which contract may provide that the delivery of the project, structure, improvement, or specific portion thereof, for the fixed maximum price is insured or guaranteed by a third party capable of completing the construction.

provide for the design and construction of all or part of the Authority's Expansion Project grounds, buildings, and facilities. Any contract for design and construction of the Expansion Project shall be in the form authorized by subsection (g), shall be for a fixed maximum price not in excess of the funds that are authorized to be made available for those purposes during the term of the contract, and shall be entered into before commencement of construction.

(k) To enter into agreements, including project agreements with labor unions, that the Authority deems necessary to complete the Expansion Project or any other construction or improvement project in the most timely and efficient manner and without strikes, picketing, or other actions that might cause disruption or delay and thereby add to the cost of the project.

(l) To provide incentives to organizations and entities that agree to make use of the grounds, buildings, and facilities of the Authority for conventions, meetings, or trade shows. The incentives may take the form of discounts from regular fees charged by the Authority, subsidies for or assumption of the costs incurred with respect to the convention, meeting, or trade show, or other inducements. The Authority shall award incentives to attract or retain large conventions, meetings, and trade shows to its facilities under the terms set forth in this
subsection (l) from amounts appropriated to the Authority from the Metropolitan Pier and Exposition Authority Incentive Fund for this purpose.

No later than May 15 of each year, the Chief Executive Officer of the Metropolitan Pier and Exposition Authority shall certify to the State Comptroller and the State Treasurer the amounts of incentive grant funds used during the current fiscal year to provide incentives for conventions, meetings, or trade shows that:

(i) have been approved by the Authority, in consultation with an organization meeting the qualifications set out in Section 5.6 of this Act, provided the Authority has entered into a marketing agreement with such an organization,

(ii)(A) for fiscal years prior to 2022 and after 2024, demonstrate registered attendance in excess of 5,000 individuals or in excess of 10,000 individuals, as appropriate;

contact tracing and notification, personal protective
equipment, and other physical and organizational
costs, and

(iii) in the case of subparagraphs (A) and (B) of paragraph (ii), but for the incentive, would not have
used the facilities of the Authority for the convention, meeting, or trade show. The State
Comptroller may request that the Auditor General conduct an audit of the accuracy of the certification.
If the State Comptroller determines by this process of certification that incentive funds, in whole or in part, were disbursed by the Authority by means other than in accordance with the standards of this subsection (l), then any amount transferred to the Metropolitan Pier and Exposition Authority Incentive Fund shall be reduced during the next subsequent transfer in direct proportion to that amount determined to be in violation of the terms set forth in this subsection (l).

On July 15, 2012, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Metropolitan Pier and Exposition Authority Incentive Fund from the General Revenue Fund the sum of $7,500,000 plus an amount equal to the incentive grant funds certified by the Chief Executive Officer as having been lawfully paid under the provisions of this Section in the previous 2
fiscal years that have not otherwise been transferred into the Metropolitan Pier and Exposition Authority Incentive Fund, provided that transfers in excess of $15,000,000 shall not be made in any fiscal year.

On July 15, 2013, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Metropolitan Pier and Exposition Authority Incentive Fund from the General Revenue Fund the sum of $7,500,000 plus an amount equal to the incentive grant funds certified by the Chief Executive Officer as having been lawfully paid under the provisions of this Section in the previous fiscal year that have not otherwise been transferred into the Metropolitan Pier and Exposition Authority Incentive Fund, provided that transfers in excess of $15,000,000 shall not be made in any fiscal year.

On July 15, 2014, and every year thereafter, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Metropolitan Pier and Exposition Authority Incentive Fund from the General Revenue Fund an amount equal to the incentive grant funds certified by the Chief Executive Officer as having been lawfully paid under the provisions of this Section in the previous fiscal year that have not otherwise been transferred into the Metropolitan Pier and Exposition Authority Incentive Fund, provided that (1) no transfers with respect to any previous fiscal year shall be made after the transfer has
been made with respect to the 2017 fiscal year until the transfer that is made for the 2022 fiscal year and thereafter, and no transfers with respect to any previous fiscal year shall be made after the transfer has been made with respect to the 2026 fiscal year, and (2) transfers in excess of $15,000,000 shall not be made in any fiscal year.

After a transfer has been made under this subsection (l), the Chief Executive Officer shall file a request for payment with the Comptroller evidencing that the incentive grants have been made and the Comptroller shall thereafter order paid, and the Treasurer shall pay, the requested amounts to the Metropolitan Pier and Exposition Authority.

Excluding any amounts related to the payment of costs associated with the mitigation of COVID-19 in accordance with this subsection (l), in no case shall more than $5,000,000 be used in any one year by the Authority for incentives granted conventions, meetings, or trade shows with a registered attendance of (1) more than 5,000 and less than 10,000 prior to the 2022 fiscal year and after the 2024 fiscal year and (2) more than 3,000 and less than 5,000 for fiscal years 2022 through 2024. Amounts in the Metropolitan Pier and Exposition Authority Incentive Fund shall only be used by the Authority for incentives paid to attract or retain large conventions, meetings, and trade shows to its facilities as provided in this subsection.
(l-5) The Village of Rosemont shall provide incentives from amounts transferred into the Convention Center Support Fund to retain and attract conventions, meetings, or trade shows to the Donald E. Stephens Convention Center under the terms set forth in this subsection (l-5).

No later than May 15 of each year, the Mayor of the Village of Rosemont or his or her designee shall certify to the State Comptroller and the State Treasurer the amounts of incentive grant funds used during the previous fiscal year to provide incentives for conventions, meetings, or trade shows that (1) have been approved by the Village, (2) demonstrate registered attendance in excess of 5,000 individuals, and (3) but for the incentive, would not have used the Donald E. Stephens Convention Center facilities for the convention, meeting, or trade show. The State Comptroller may request that the Auditor General conduct an audit of the accuracy of the certification.

If the State Comptroller determines by this process of certification that incentive funds, in whole or in part, were disbursed by the Village by means other than in accordance with the standards of this subsection (l-5), then the amount transferred to the Convention Center Support Fund shall be reduced during the next subsequent transfer in direct proportion to that amount determined to
be in violation of the terms set forth in this subsection (l-5).

On July 15, 2012, and each year thereafter, the Comptroller shall order transferred, and the Treasurer shall transfer, into the Convention Center Support Fund from the General Revenue Fund the amount of $5,000,000 for (i) incentives to attract large conventions, meetings, and trade shows to the Donald E. Stephens Convention Center, and (ii) to be used by the Village of Rosemont for the repair, maintenance, and improvement of the Donald E. Stephens Convention Center and for debt service on debt instruments issued for those purposes by the village. No later than 30 days after the transfer, the Comptroller shall order paid, and the Treasurer shall pay, to the Village of Rosemont the amounts transferred.

(m) To enter into contracts with any person conveying the naming rights or other intellectual property rights with respect to the grounds, buildings, and facilities of the Authority.

(n) To enter into grant agreements with the Chicago Convention and Tourism Bureau providing for the marketing of the convention facilities to large and small conventions, meetings, and trade shows and the promotion of the travel industry in the City of Chicago, provided such agreements meet the requirements of Section 5.6 of this Act. the airport departure tax authorized by Section 13(f) of this amendatory Act of the 96th General Assembly and, subject to appropriation to the Authority, funds deposited in the Chicago Travel Industry Promotion Fund pursuant to Section 6 of the Hotel Operators' Occupation Tax Act shall be granted to the Bureau for such purposes.

Section 10-40. The University of Illinois Act is amended by changing Section 7 as follows:

(110 ILCS 305/7) (from Ch. 144, par. 28)
Sec. 7. Powers of trustees.
(a) The trustees shall have power to provide for the requisite buildings, apparatus, and conveniences; to fix the
rates for tuition; to appoint such professors and instructors, and to establish and provide for the management of such model farms, model art, and other departments and professorships, as may be required to teach, in the most thorough manner, such branches of learning as are related to agriculture and the mechanic arts, and military tactics, without excluding other scientific and classical studies. The trustees shall, upon the written request of an employee withhold from the compensation of that employee any dues, payments or contributions payable by such employee to any labor organization as defined in the Illinois Educational Labor Relations Act. Under such arrangement, an amount shall be withheld from each regular payroll period which is equal to the pro rata share of the annual dues plus any payments or contributions, and the trustees shall transmit such withholdings to the specified labor organization within 10 working days from the time of the withholding. They may accept the endowments and voluntary professorships or departments in the University, from any person or persons or corporations who may offer the same, and, at any regular meeting of the board, may prescribe rules and regulations in relation to such endowments and declare on what general principles they may be admitted: Provided, that such special voluntary endowments or professorships shall not be incompatible with the true design and scope of the act of congress, or of this Act: Provided, that no student shall at any time be allowed to remain in or about the University in
idleness, or without full mental or industrial occupation: And provided further, that the trustees, in the exercise of any of the powers conferred by this Act, shall not create any liability or indebtedness in excess of the funds in the hands of the treasurer of the University at the time of creating such liability or indebtedness, and which may be specially and properly applied to the payment of the same. Except as otherwise provided in this section, any lease to the trustees of lands, buildings or facilities which will support scientific research and development in such areas as high technology, super computing, microelectronics, biotechnology, robotics, physics and engineering shall be for a term not to exceed 18 years, and may grant to the trustees the option to purchase the lands, buildings or facilities. The lease shall recite that it is subject to termination and cancellation in any year for which the General Assembly fails to make an appropriation to pay the rent payable under the terms of the lease.

Leases for the purposes described herein exceeding 5 years shall have the approval of the Illinois Board of Higher Education.

The Board of Trustees may, directly or in cooperation with other institutions of higher education, acquire by purchase or lease or otherwise, and construct, enlarge, improve, equip, complete, operate, control and manage medical research and high technology parks, together with the necessary lands,
buildings, facilities, equipment and personal property therefor, to encourage and facilitate (a) the location and development of business and industry in the State of Illinois, and (b) the increased application and development of technology and (c) the improvement and development of the State's economy. The Board of Trustees may lease to nonprofit corporations all or any part of the land, buildings, facilities, equipment or other property included in a medical research and high technology park upon such terms and conditions as the University of Illinois may deem advisable and enter into any contract or agreement with such nonprofit corporations as may be necessary or suitable for the construction, financing, operation and maintenance and management of any such park; and may lease to any person, firm, partnership or corporation, either public or private, any part or all of the land, building, facilities, equipment or other property of such park for such purposes and upon such rentals, terms and conditions as the University may deem advisable; and may finance all or part of the cost of any such park, including the purchase, lease, construction, reconstruction, improvement, remodeling, addition to, and extension and maintenance of all or part of such high technology park, and all equipment and furnishings, by legislative appropriations, government grants, contracts, private gifts, loans, receipts from the operation of such high technology park, rentals and similar receipts; and may make its other facilities and
services available to tenants or other occupants of any such
park at rates which are reasonable and appropriate.

The Board of Trustees may, directly or in cooperation with
other members and partners of the collaborative research and
academic initiative known as the Chicago Quantum Exchange,
including, without limitation, other institutions of higher
education, hereinafter each individually referred to as a "CQE
partner", finance, design, construct, enlarge, improve, equip,
complete, operate, control, and manage a facility or
facilities for the research and development of quantum
information sciences and technologies, hereinafter referred to
as the "quantum science facilities". Notwithstanding any other
 provision of applicable law: (1) the quantum science
facilities may be located on land owned by the Board of
Trustees or a CQE partner; and (2) costs incurred in
connection with the design, construction, enlargement,
improvement, equipping, and completion of the quantum science
facilities may be paid with funds appropriated to the Capital
Development Board from the Build Illinois Bond Fund for a
grant to the Board of Trustees for the quantum science
facilities, whether the quantum science facilities are located
on land owned by the Board of Trustees or by a CQE partner;
provided, however, that if any quantum science facilities are
located on land owned by a CQE partner, the use of such grant
funds shall be subject to, and contingent upon, the lease by
the Board of Trustees, as lessee, of a portion of such quantum
science facilities for a term equal to at least the useful life of such quantum science facilities. The leased premises under any such lease shall bear a reasonable relationship to the proportional share of the costs paid by such grant funds. Any such lease shall give the Board of Trustees the right to terminate the lease before the expiration of its term if the General Assembly fails to appropriate sufficient funds to pay rent due under the lease.

The Trustees shall have power (a) to purchase real property and easements, and (b) to acquire real property and easements in the manner provided by law for the exercise of the right of eminent domain, and in the event negotiations for the acquisition of real property or easements for making any improvement which the Trustees are authorized to make shall have proven unsuccessful and the Trustees shall have by resolution adopted a schedule or plan of operation for the execution of the project and therein made a finding that it is necessary to take such property or easements immediately or at some specified later date in order to comply with the schedule, the Trustees may acquire such property or easements in the same manner provided in Article 20 of the Eminent Domain Act (quick-take procedure).

The Board of Trustees also shall have power to agree with the State's Attorney of the county in which any properties of the Board are located to pay for services rendered by the various taxing districts for the years 1944 through 1949 and
to pay annually for services rendered thereafter by such
district such sums as may be determined by the Board upon
properties used solely for income producing purposes, title to
which is held by said Board of Trustees, upon properties
leased to members of the staff of the University of Illinois,
title to which is held in trust for said Board of Trustees and
upon properties leased to for-profit entities the title to
which properties is held by the Board of Trustees. A certified
copy of any such agreement made with the State's Attorney
shall be filed with the County Clerk and such sums shall be
distributed to the respective taxing districts by the County
Collector in such proportions that each taxing district will
receive therefrom such proportion as the tax rate of such
taxing district bears to the total tax rate that would be
levied against such properties if they were not exempt from
taxation under the Property Tax Code.

The Board of Trustees of the University of Illinois,
subject to the applicable civil service law, may appoint
persons to be members of the University of Illinois Police
Department. Members of the Police Department shall be peace
officers and as such have all powers possessed by policemen in
cities, and sheriffs, including the power to make arrests on
view or warrants of violations of state statutes and city or
county ordinances, except that they may exercise such powers
only in counties wherein the University and any of its
branches or properties are located when such is required for
the protection of university properties and interests, and its
students and personnel, and otherwise, within such counties,
when requested by appropriate state or local law enforcement
officials; provided, however, that such officer shall have no
power to serve and execute civil processes.

The Board of Trustees must authorize to each member of the
University of Illinois Police Department and to any other
employee of the University of Illinois exercising the powers
of a peace officer a distinct badge that, on its face, (i)
clearly states that the badge is authorized by the University
of Illinois and (ii) contains a unique identifying number. No
other badge shall be authorized by the University of Illinois.
Nothing in this paragraph prohibits the Board of Trustees from
issuing shields or other distinctive identification to
employees not exercising the powers of a peace officer if the
Board of Trustees determines that a shield or distinctive
identification is needed by the employee to carry out his or
her responsibilities.

The Board of Trustees may own, operate, or govern, by or
through the College of Medicine at Peoria, a managed care
community network established under subsection (b) of Section

The powers of the trustees as herein designated are
subject to the provisions of "An Act creating a Board of Higher
Education, defining its powers and duties, making an
appropriation therefor, and repealing an Act herein named",
approved August 22, 1961, as amended.

The Board of Trustees shall have the authority to adopt all administrative rules which may be necessary for the effective administration, enforcement and regulation of all matters for which the Board has jurisdiction or responsibility.

(b) To assist in the provision of buildings and facilities beneficial to, useful for, or supportive of University purposes, the Board of Trustees of the University of Illinois may exercise the following powers with regard to the area located on or adjacent to the University of Illinois at Chicago campus and bounded as follows: on the West by Morgan Street; on the North by Roosevelt Road; on the East by Union Street; and on the South by 16th Street, in the City of Chicago:

(1) Acquire any interests in land, buildings, or facilities by purchase, including installments payable over a period allowed by law, by lease over a term of such duration as the Board of Trustees shall determine, or by exercise of the power of eminent domain;

(2) Sub-lease or contract to purchase through installments all or any portion of buildings or facilities for such duration and on such terms as the Board of Trustees shall determine, including a term that exceeds 5 years, provided that each such lease or purchase contract shall be and shall recite that it is subject to
termination and cancellation in any year for which the
General Assembly fails to make an appropriation to pay the
rent or purchase installments payable under the terms of
such lease or purchase contract; and
(3) Sell property without compliance with the State
Property Control Act and retain proceeds in the University
Treasury in a special, separate development fund account
which the Auditor General shall examine to assure
compliance with this Act.

Any buildings or facilities to be developed on the land shall
be buildings or facilities that, in the determination of the
Board of Trustees, in whole or in part: (i) are for use by the
University; or (ii) otherwise advance the interests of the
University, including, by way of example, residential
facilities for University staff and students and commercial
facilities which provide services needed by the University
community. Revenues from the development fund account may be
withdrawn by the University for the purpose of demolition and
the processes associated with demolition; routine land and
property acquisition; extension of utilities; streetscape
work; landscape work; surface and structure parking;
sidewalks, recreational paths, and street construction; and
lease and lease purchase arrangements and the professional
services associated with the planning and development of the
area. Moneys from the development fund account used for any
other purpose must be deposited into and appropriated from the
General Revenue Fund. Buildings or facilities leased to an entity or person other than the University shall not be subject to any limitations applicable to a State supported college or university under any law. All development on the land and all use of any buildings or facilities shall be subject to the control and approval of the Board of Trustees.

(c) The Board of Trustees shall have the power to borrow money, as necessary, from time to time in anticipation of receiving tuition, payments from the State of Illinois, or other revenues or receipts of the University, also known as anticipated moneys. The borrowing limit shall be capped at 100% of the total amount of payroll and other expense vouchers submitted and payable to the University for fiscal year 2010 expenses, but unpaid by the State Comptroller's office. Prior to borrowing any funds, the University shall request from the Comptroller's office a verification of the borrowing limit and shall include the estimated date on which such borrowing shall occur. The borrowing limit cap shall be verified by the State Comptroller's office not prior to 45 days before any estimated date for executing any promissory note or line of credit established under this subsection (c). The principal amount borrowed under a promissory note or line of credit shall not exceed 75% of the borrowing limit. Within 15 days after borrowing funds under any promissory note or line of credit established under this subsection (c), the University shall submit to the Governor's Office of Management and Budget, the
Speaker of the House of Representatives, the Minority Leader of the House of Representatives, the President of the Senate, and the Minority Leader of the Senate an Emergency Short Term Cash Management Plan. The Emergency Short Term Cash Management Plan shall outline the amount borrowed, the terms for repayment, the amount of outstanding State vouchers as verified by the State Comptroller's office, and the University's plan for expenditure of any borrowed funds, including, but not limited to, a detailed plan to meet payroll obligations to include collective bargaining employees, civil service employees, and academic, research, and health care personnel. The establishment of any promissory note or line of credit established under this subsection (c) must be finalized within 90 days after the effective date of this amendatory Act of the 96th General Assembly. The borrowed moneys shall be applied to the purposes of paying salaries and other expenses lawfully authorized in the University's State appropriation and unpaid by the State Comptroller. Any line of credit established under this subsection (c) shall be paid in full one year after creation or within 10 days after the date the University receives reimbursement from the State for all submitted fiscal year 2010 vouchers, whichever is earlier. Any promissory note established under this subsection (c) shall be repaid within one year after issuance of the note. The Chairman, Comptroller, or Treasurer of the Board shall execute a promissory note or similar debt instrument to evidence the
indebtedness incurred by the borrowing. In connection with a
borrowing, the Board may establish a line of credit with a
financial institution, investment bank, or broker/dealer. The
obligation to make the payments due under any promissory note
or line of credit established under this subsection (c) shall
be a lawful obligation of the University payable from the
anticipated moneys. Any borrowing under this subsection (c)
shall not constitute a debt, legal or moral, of the State and
shall not be enforceable against the State. The promissory
note or line of credit shall be authorized by a resolution
passed by the Board and shall be valid whether or not a
budgeted item with respect to that resolution is included in
any annual or supplemental budget adopted by the Board. The
resolution shall set forth facts demonstrating the need for
the borrowing, state an amount that the amount to be borrowed
will not exceed, and establish a maximum interest rate limit
not to exceed the maximum rate authorized by the Bond
Authorization Act or 9%, whichever is less. The resolution may
direct the Comptroller or Treasurer of the Board to make
arrangements to set apart and hold the portion of the
anticipated moneys, as received, that shall be used to repay
the borrowing, subject to any prior pledges or restrictions
with respect to the anticipated moneys. The resolution may
also authorize the Treasurer of the Board to make partial
repayments of the borrowing as the anticipated moneys become
available and may contain any other terms, restrictions, or
limitations not inconsistent with the powers of the Board.

For the purposes of this subsection (c), "financial institution" means any bank subject to the Illinois Banking Act, any savings and loan association subject to the Illinois Savings and Loan Act of 1985, and any federally chartered commercial bank or savings and loan association or government-sponsored enterprise organized and operated in this State pursuant to the laws of the United States.

Section 10-45. The Illinois Public Aid Code is amended by changing Sections 5-5.7a, 5-5e, 5A-12.7, and 5A-17 as follows:

(305 ILCS 5/5-5.7a)

Sec. 5-5.7a. Pandemic related stability payments for health care providers. Notwithstanding other provisions of law, and in accordance with the Illinois Emergency Management Agency, the Department of Healthcare and Family Services shall develop a process to distribute pandemic related stability payments, from federal sources dedicated for such purposes, to health care providers that are providing care to recipients under the Medical Assistance Program. For provider types serving residents who are recipients of medical assistance under this Code and are funded by other State agencies, the Department will coordinate the distribution process of the pandemic related stability payments. Federal sources dedicated
to pandemic related payments include, but are not limited to, funds distributed to the State of Illinois from the Coronavirus Relief Fund pursuant to the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") and from the Coronavirus State Fiscal Recovery Fund pursuant to Section 9901 of the American Rescue Plan Act of 2021, that are appropriated to the Department for such purpose during Fiscal Years 2020, 2021, and 2022 for purposes permitted by those federal laws and related federal guidance.

(1) Pandemic related stability payments for these providers shall be separate and apart from any rate methodology otherwise defined in this Code to the extent permitted in accordance with Section 5001 of the CARES Act and Section 9901 of the American Rescue Plan Act of 2021 and any related federal guidance.

(2) Payments made from moneys received from the Coronavirus Relief Fund shall be used exclusively for expenses incurred by the providers that are eligible for reimbursement from the Coronavirus Relief Fund in accordance with Section 5001 of the CARES Act and related federal guidance. Payments made from moneys received from the Coronavirus State Fiscal Recovery Fund shall be used exclusively for purposes permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance related to the pandemic associated with the 2019 Novel Coronavirus (COVID-19) Public Health Emergency.
issued by the Secretary of the U.S. Department of Health and Human Services (HHS) on January 31, 2020 and the national emergency issued by the President of the United States on March 13, 2020 between March 1, and December 30, 2020.

(3) All providers receiving pandemic related stability payments shall attest in a format to be created by the Department and be able to demonstrate that their expenses are pandemic related, were not part of their annual budgets established before March 1, 2020, and are directly associated with health care needs.

(4) Pandemic related stability payments will be distributed based on a schedule and framework to be established by the Department with recognition of the pandemic related acuity of the situation for each provider, taking into account the factors including, but not limited to, the following;

(A) the impact of the pandemic on patients served, impact on staff, and shortages of the personal protective equipment necessary for infection control efforts for all providers;

(B) providers with high incidences of COVID-19 positivity rates among staff, or patients, or both;

(C) pandemic related workforce challenges and costs associated with temporary wage increases associated with pandemic related hazard pay
programs, or costs associated with which providers do not have enough staff to adequately provide care and protection to the residents and other staff;

(D) providers with significant reductions in utilization that result in corresponding reductions in revenue as a result of the pandemic, including but not limited to the cancellation or postponement of elective procedures and visits; and

(E) pandemic related payments received directly by the providers through other federal resources;

(F) current efforts to respond to and provide services to communities disproportionately impacted by the COVID-19 public health emergency, including low-income and socially vulnerable communities that have seen the most severe health impacts and exacerbated health inequities along racial, ethnic, and socioeconomic lines; and

(G) provider needs for capital improvements to existing facilities, including upgrades to HVAC and ventilation systems and capital improvements for enhancing infection control or reducing crowding, which may include bed-buybacks.

(5) Pandemic related stability payments made from moneys received from the Coronavirus Relief Fund will be distributed to providers based on a methodology to be administered by the Department with amounts determined by
a calculation of total federal pandemic related funds appropriated by the Illinois General Assembly for this purpose. Providers receiving the pandemic related stability payments will attest to their increased costs, declining revenues, and receipt of additional pandemic related funds directly from the federal government.

(6) Of the payments provided for by this Section made from moneys received from the Coronavirus Relief Fund section, a minimum of 30% shall be allotted for health care providers that serve the ZIP codes located in the most disproportionately impacted areas of Illinois, based on positive COVID-19 cases based on data collected by the Department of Public Health and provided to the Department of Healthcare and Family Services.

(7) From funds appropriated, directly or indirectly, from moneys received by the State from the Coronavirus State Fiscal Recovery Fund for Fiscal Years 2021 and 2022, the Department shall expend such funds only for purposes permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance. Such expenditures may include, but are not limited to: payments to providers for costs incurred due to the COVID-19 public health emergency; unreimbursed costs for testing and treatment of uninsured Illinois residents; costs of COVID-19 mitigation and prevention; medical expenses related to aftercare or extended care for COVID-19 patients with longer term
symptoms and effects; costs of behavioral health care; costs of public health and safety staff; and expenditures permitted in order to address (i) disparities in public health outcomes, (ii) nursing and other essential health care workforce investments, (iii) exacerbation of pre-existing disparities, and (iv) promoting healthy childhood environments.

(8) From funds appropriated, directly or indirectly, from moneys received by the State from the Coronavirus State Fiscal Recovery Fund for Fiscal Years 2022 and 2023, the Department shall establish a program for making payments to long term care service providers and facilities, for purposes related to financial support for workers in the long term care industry, but only as permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance, including, but not limited to the following: worker retention programs for all types of workers, including certified nursing assistants through hazard, hero, bonus, or longevity payments; educational programs assisting individuals participating in the Temporary Nursing Assistant Program established by proclamation during the COVID-19 public health emergency; financial support programs for providers enhancing direct care staff recruitment efforts through the payment of education expenses; and financial support programs for providers offering enhanced and expanded
training for all levels of the long term care health care workforce to achieve better patient outcomes, such as training on infection control, proper personal protective equipment, best practices in quality of care, and culturally competent patient communications.

(9) From funds appropriated, directly or indirectly, from moneys received by the State from the Coronavirus State Fiscal Recovery Fund for Fiscal Years 2022 through 2024 the Department shall establish a program for making payments to facilities licensed under the Nursing Home Care Act and facilities licensed under the Specialized Mental Health Rehabilitation Act of 2013. To the extent permitted by Section 9901 of the American Rescue Plan Act of 2021 and related federal guidance, the program shall provide payments for making permanent improvements to resident rooms in order to improve resident outcomes and infection control. Funds may be used to reduce bed capacity and room occupancy. To be eligible for funding, a facility must submit an application to the Department as prescribed by the Department and as published on its website. A facility may need to receive approval from the Health Facilities and Services Review Board for the permanent improvements or the removal of the beds before it can receive payment under this paragraph.

Sec. 5-5e. Adjusted rates of reimbursement.

(a) Rates or payments for services in effect on June 30, 2012 shall be adjusted and services shall be affected as required by any other provision of Public Act 97-689. In addition, the Department shall do the following:

(1) Delink the per diem rate paid for supportive living facility services from the per diem rate paid for nursing facility services, effective for services provided on or after May 1, 2011 and before July 1, 2019.

(2) Cease payment for bed reserves in nursing facilities and specialized mental health rehabilitation facilities; for purposes of therapeutic home visits for individuals scoring as TBI on the MDS 3.0, beginning June 1, 2015, the Department shall approve payments for bed reserves in nursing facilities and specialized mental health rehabilitation facilities that have at least a 90% occupancy level and at least 80% of their residents are Medicaid eligible. Payment shall be at a daily rate of 75% of an individual's current Medicaid per diem and shall not exceed 10 days in a calendar month.

(2.5) Cease payment for bed reserves for purposes of inpatient hospitalizations to intermediate care facilities for persons with developmental disabilities, except in the instance of residents who are under 21 years of age.

(3) Cease payment of the $10 per day add-on payment to
nursing facilities for certain residents with
developmental disabilities.

(b) After the application of subsection (a),
notwithstanding any other provision of this Code to the
contrary and to the extent permitted by federal law, on and
after July 1, 2012, the rates of reimbursement for services
and other payments provided under this Code shall further be
reduced as follows:

   (1) Rates or payments for physician services, dental
services, or community health center services reimbursed
through an encounter rate, and services provided under the
Medicaid Rehabilitation Option of the Illinois Title XIX
State Plan shall not be further reduced, except as
provided in Section 5-5b.1.

   (2) Rates or payments, or the portion thereof, paid to
a provider that is operated by a unit of local government

by a hospital defined as a Safety-Net Hospital under
Section 5-5e.1 of this Code shall not be further reduced,
except as provided in Section 5-5b.1.

   (4) Rates or payments for hospital services delivered

(5) Rates or payments for Nursing Facility Services shall only be further adjusted pursuant to Section 5-5.2 of this Code.

(6) Rates or payments for services delivered by long term care facilities licensed under the ID/DD Community Care Act or the MC/DD Act and developmental training services shall not be further reduced.

(7) Rates or payments for services provided under capitation rates shall be adjusted taking into consideration the rates reduction and covered services required by Public Act 97-689.

(8) For hospitals not previously described in this subsection, the rates or payments for hospital services provided before July 1, 2021, shall be further reduced by 3.5%, except for payments authorized under Section 5A-12.4 of this Code. For hospital services provided on or after July 1, 2021, all rates for hospital services previously reduced pursuant to P.A. 97-689 shall be increased to reflect the discontinuation of any hospital rate reductions authorized in this paragraph (8).

(9) For all other rates or payments for services delivered by providers not specifically referenced in paragraphs (1) through (7), rates or payments shall be
further reduced by 2.7%.

(c) Any assessment imposed by this Code shall continue and nothing in this Section shall be construed to cause it to cease.

(305 ILCS 5/5A-12.7)

(Section scheduled to be repealed on December 31, 2022)

Sec. 5A-12.7. Continuation of hospital access payments on and after July 1, 2020.

(a) To preserve and improve access to hospital services, for hospital services rendered on and after July 1, 2020, the Department shall, except for hospitals described in subsection (b) of Section 5A-3, make payments to hospitals or require capitated managed care organizations to make payments as set forth in this Section. Payments under this Section are not due
and payable, however, until: (i) the methodologies described in this Section are approved by the federal government in an appropriate State Plan amendment or directed payment preprint; and (ii) the assessment imposed under this Article is determined to be a permissible tax under Title XIX of the Social Security Act. In determining the hospital access payments authorized under subsection (g) of this Section, if a hospital ceases to qualify for payments from the pool, the payments for all hospitals continuing to qualify for payments from such pool shall be uniformly adjusted to fully expend the aggregate net amount of the pool, with such adjustment being effective on the first day of the second month following the date the hospital ceases to receive payments from such pool.

(b) Amounts moved into claims-based rates and distributed in accordance with Section 14-12 shall remain in those claims-based rates.

(c) Graduate medical education.

(1) The calculation of graduate medical education payments shall be based on the hospital's Medicare cost report ending in Calendar Year 2018, as reported in the Healthcare Cost Report Information System file, release date September 30, 2019. An Illinois hospital reporting intern and resident cost on its Medicare cost report shall be eligible for graduate medical education payments.

(2) Each hospital's annualized Medicaid Intern Resident Cost is calculated using annualized intern and
resident total costs obtained from Worksheet B Part I, Columns 21 and 22 the sum of Lines 30-43, 50-76, 90-93, 96-98, and 105-112 multiplied by the percentage that the hospital's Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of the hospital's total days (Worksheet S3 Part I, Column 8, Lines 14, 16-18, and 32).

(3) An annualized Medicaid indirect medical education (IME) payment is calculated for each hospital using its IME payments (Worksheet E Part A, Line 29, Column 1) multiplied by the percentage that its Medicaid days (Worksheet S3 Part I, Column 7, Lines 2, 3, 4, 14, 16-18, and 32) comprise of its Medicare days (Worksheet S3 Part I, Column 6, Lines 2, 3, 4, 14, and 16-18).

(4) For each hospital, its annualized Medicaid Intern Resident Cost and its annualized Medicaid IME payment are summed, and, except as capped at 120% of the average cost per intern and resident for all qualifying hospitals as calculated under this paragraph, is multiplied by 22.6% to determine the hospital's final graduate medical education payment. Each hospital's average cost per intern and resident shall be calculated by summing its total annualized Medicaid Intern Resident Cost plus its annualized Medicaid IME payment and dividing that amount by the hospital's total Full Time Equivalent Residents and Interns. If the hospital's average per intern and resident
cost is greater than 120% of the same calculation for all qualifying hospitals, the hospital's per intern and resident cost shall be capped at 120% of the average cost for all qualifying hospitals.

(d) Fee-for-service supplemental payments. Each Illinois hospital shall receive an annual payment equal to the amounts below, to be paid in 12 equal installments on or before the seventh State business day of each month, except that no payment shall be due within 30 days after the later of the date of notification of federal approval of the payment methodologies required under this Section or any waiver required under 42 CFR 433.68, at which time the sum of amounts required under this Section prior to the date of notification is due and payable.

(1) For critical access hospitals, $385 per covered inpatient day contained in paid fee-for-service claims and $530 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(2) For safety-net hospitals, $960 per covered inpatient day contained in paid fee-for-service claims and $625 per paid fee-for-service outpatient claim for dates of service in Calendar Year 2019 in the Department's Enterprise Data Warehouse as of May 11, 2020.

(3) For long term acute care hospitals, $295 per covered inpatient day contained in paid fee-for-service
claims for dates of service in Calendar Year 2019 in the
Department's Enterprise Data Warehouse as of May 11, 2020.

(4) For freestanding psychiatric hospitals, $125 per
covered inpatient day contained in paid fee-for-service
claims and $130 per paid fee-for-service outpatient claim
for dates of service in Calendar Year 2019 in the
Department's Enterprise Data Warehouse as of May 11, 2020.

(5) For freestanding rehabilitation hospitals, $355
per covered inpatient day contained in paid
fee-for-service claims for dates of service in Calendar
Year 2019 in the Department's Enterprise Data Warehouse as

(6) For all general acute care hospitals and high
Medicaid hospitals as defined in subsection (f), $350 per
covered inpatient day for dates of service in Calendar
Year 2019 contained in paid fee-for-service claims and
$620 per paid fee-for-service outpatient claim in the
Department's Enterprise Data Warehouse as of May 11, 2020.

(7) Alzheimer's treatment access payment. Each
Illinois academic medical center or teaching hospital, as
defined in Section 5-5e.2 of this Code, that is identified
as the primary hospital affiliate of one of the Regional
Alzheimer's Disease Assistance Centers, as designated by
the Alzheimer's Disease Assistance Act and identified in
the Department of Public Health's Alzheimer's Disease
State Plan dated December 2016, shall be paid an
Alzheimer's treatment access payment equal to the product of the qualifying hospital's State Fiscal Year 2018 total inpatient fee-for-service days multiplied by the applicable Alzheimer's treatment rate of $226.30 for hospitals located in Cook County and $116.21 for hospitals located outside Cook County.

(e) The Department shall require managed care organizations (MCOs) to make directed payments and pass-through payments according to this Section. Each calendar year, the Department shall require MCOs to pay the maximum amount out of these funds as allowed as pass-through payments under federal regulations. The Department shall require MCOs to make such pass-through payments as specified in this Section. The Department shall require the MCOs to pay the remaining amounts as directed Payments as specified in this Section. The Department shall issue payments to the Comptroller by the seventh business day of each month for all MCOs that are sufficient for MCOs to make the directed payments and pass-through payments according to this Section. The Department shall require the MCOs to make pass-through payments and directed payments using electronic funds transfers (EFT), if the hospital provides the information necessary to process such EFTs, in accordance with directions provided monthly by the Department, within 7 business days of the date the funds are paid to the MCOs, as indicated by the "Paid Date" on the website of the Office of the Comptroller if
the funds are paid by EFT and the MCOs have received directed payment instructions. If funds are not paid through the Comptroller by EFT, payment must be made within 7 business days of the date actually received by the MCO. The MCO will be considered to have paid the pass-through payments when the payment remittance number is generated or the date the MCO sends the check to the hospital, if EFT information is not supplied. If an MCO is late in paying a pass-through payment or directed payment as required under this Section (including any extensions granted by the Department), it shall pay a penalty, unless waived by the Department for reasonable cause, to the Department equal to 5% of the amount of the pass-through payment or directed payment not paid on or before the due date plus 5% of the portion thereof remaining unpaid on the last day of each 30-day period thereafter. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this Section shall not be reduced as a consequence of payments made under this subsection. The Department shall publish and maintain on its website for a period of no less than 8 calendar quarters, the quarterly calculation of directed payments and pass-through payments owed to each hospital from each MCO. All calculations and reports shall be posted no later than the first day of the quarter for which the payments are to be issued.

(f)(1) For purposes of allocating the funds included in
capitation payments to MCOs, Illinois hospitals shall be
 divided into the following classes as defined in
 administrative rules:

 (A) Critical access hospitals.

 (B) Safety-net hospitals, except that stand-alone
 children's hospitals that are not specialty children's
 hospitals will not be included.

 (C) Long term acute care hospitals.

 (D) Freestanding psychiatric hospitals.

 (E) Freestanding rehabilitation hospitals.

 (F) High Medicaid hospitals. As used in this Section,
 "high Medicaid hospital" means a general acute care
 hospital that is not a safety-net hospital or critical
 access hospital and that has a Medicaid Inpatient
 Utilization Rate above 30% or a hospital that had over
 35,000 inpatient Medicaid days during the applicable
 period. For the period July 1, 2020 through December 31,
 2020, the applicable period for the Medicaid Inpatient
 Utilization Rate (MIUR) is the rate year 2020 MIUR and for
 the number of inpatient days it is State fiscal year 2018.
 Beginning in calendar year 2021, the Department shall use
 the most recently determined MIUR, as defined in
 subsection (h) of Section 5-5.02, and for the inpatient
 day threshold, the State fiscal year ending 18 months
 prior to the beginning of the calendar year. For purposes
 of calculating MIUR under this Section, children's
hospitals and affiliated general acute care hospitals shall be considered a single hospital.

(G) General acute care hospitals. As used under this Section, "general acute care hospitals" means all other Illinois hospitals not identified in subparagraphs (A) through (F).

(2) Hospitals' qualification for each class shall be assessed prior to the beginning of each calendar year and the new class designation shall be effective January 1 of the next year. The Department shall publish by rule the process for establishing class determination.

(g) Fixed pool directed payments. Beginning July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to qualified Illinois safety-net hospitals and critical access hospitals on a monthly basis in accordance with this subsection. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by safety-net hospitals and critical access hospitals to determine a quarterly uniform per unit add-on for each hospital class.

(1) Inpatient per unit add-on. A quarterly uniform per diem add-on shall be derived by dividing the quarterly Inpatient Directed Payments Pool amount allocated to the
applicable hospital class by the total inpatient days contained on all encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly inpatient directed payment calculated that is equal to the product of the number of inpatient days attributable to the hospital used in the calculation of the quarterly uniform class per diem add-on, multiplied by the calculated applicable quarterly uniform class per diem add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly inpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(2) Outpatient per unit add-on. A quarterly uniform per claim add-on shall be derived by dividing the quarterly Outpatient Directed Payments Pool amount allocated to the applicable hospital class by the total outpatient encounter claims received during the Determination Quarter, for all hospitals in the class.

(A) Each hospital in the class shall have a quarterly outpatient directed payment calculated that is equal to the product of the number of outpatient encounter claims attributable to the hospital used in the calculation of the quarterly uniform class per claim add-on, multiplied by the calculated applicable
quarterly uniform class per claim add-on of the hospital class.

(B) Each hospital shall be paid 1/3 of its quarterly outpatient directed payment in each of the 3 months of the Payout Quarter, in accordance with directions provided to each MCO by the Department.

(3) Each MCO shall pay each hospital the Monthly Directed Payment as identified by the Department on its quarterly determination report.

(4) Definitions. As used in this subsection:

(A) "Payout Quarter" means each 3 month calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each 3 month calendar quarter, which ends 3 months prior to the first day of each Payout Quarter.

(5) For the period July 1, 2020 through December 2020, the following amounts shall be allocated to the following hospital class directed payment pools for the quarterly development of a uniform per unit add-on:

(A) $2,894,500 for hospital inpatient services for critical access hospitals.

(B) $4,294,374 for hospital outpatient services for critical access hospitals.

(C) $29,109,330 for hospital inpatient services for safety-net hospitals.

(D) $35,041,218 for hospital outpatient services
for safety-net hospitals.

(h) Fixed rate directed payments. Effective July 1, 2020, the Department shall issue payments to MCOs which shall be used to issue directed payments to Illinois hospitals not identified in paragraph (g) on a monthly basis. Prior to the beginning of each Payout Quarter beginning July 1, 2020, the Department shall use encounter claims data from the Determination Quarter, accepted by the Department's Medicaid Management Information System for inpatient and outpatient services rendered by hospitals in each hospital class identified in paragraph (f) and not identified in paragraph (g). For the period July 1, 2020 through December 2020, the Department shall direct MCOs to make payments as follows:

(1) For general acute care hospitals an amount equal to $1,750 multiplied by the hospital's category of service 20 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 20 for the determination quarter.

(2) For general acute care hospitals an amount equal to $160 multiplied by the hospital's category of service 21 case mix index for the determination quarter multiplied by the hospital's total number of inpatient admissions for category of service 21 for the determination quarter.

(3) For general acute care hospitals an amount equal to $80 multiplied by the hospital's category of service 22 case mix index for the determination quarter multiplied by
the hospital's total number of inpatient admissions for category of service 22 for the determination quarter.

(4) For general acute care hospitals an amount equal to $375 multiplied by the hospital's category of service 24 case mix index for the determination quarter multiplied by the hospital's total number of category of service 24 paid EAPG (EAPGs) for the determination quarter.

(19) Each MCO shall pay each hospital the Monthly Directed Payment amount as identified by the Department on its quarterly determination report.

Notwithstanding any other provision of this subsection, if the Department determines that the actual total hospital utilization data that is used to calculate the fixed rate
directed payments is substantially different than anticipated when the rates in this subsection were initially determined (for unforeseeable circumstances such as the COVID-19 pandemic), the Department may adjust the rates specified in this subsection so that the total directed payments approximate the total spending amount anticipated when the rates were initially established.

Definitions. As used in this subsection:

(A) "Payout Quarter" means each calendar quarter, beginning July 1, 2020.

(B) "Determination Quarter" means each calendar quarter which ends 3 months prior to the first day of each Payout Quarter.

(C) "Case mix index" means a hospital specific calculation. For inpatient claims the case mix index is calculated each quarter by summing the relative weight of all inpatient Diagnosis-Related Group (DRG) claims for a category of service in the applicable Determination Quarter and dividing the sum by the number of sum total of all inpatient DRG admissions for the category of service for the associated claims. The case mix index for outpatient claims is calculated each quarter by summing the relative weight of all paid EAPGs in the applicable Determination Quarter and dividing the sum by the sum total of paid EAPGs for the associated claims.
(i) Beginning January 1, 2021, the rates for directed payments shall be recalculated in order to spend the additional funds for directed payments that result from reduction in the amount of pass-through payments allowed under federal regulations. The additional funds for directed payments shall be allocated proportionally to each class of hospitals based on that class' proportion of services.

(j) Pass-through payments.

(1) For the period July 1, 2020 through December 31, 2020, the Department shall assign quarterly pass-through payments to each class of hospitals equal to one-fourth of the following annual allocations:

(A) $390,487,095 to safety-net hospitals.
(B) $62,553,886 to critical access hospitals.
(C) $345,021,438 to high Medicaid hospitals.
(D) $551,429,071 to general acute care hospitals.
(E) $27,283,870 to long term acute care hospitals.
(F) $40,825,444 to freestanding psychiatric hospitals.
(G) $9,652,108 to freestanding rehabilitation hospitals.

(2) The pass-through payments shall at a minimum ensure hospitals receive a total amount of monthly payments under this Section as received in calendar year 2019 in accordance with this Article and paragraph (1) of subsection (d-5) of Section 14-12, exclusive of amounts
received through payments referenced in subsection (b).

(3) For the calendar year beginning January 1, 2021, and each calendar year thereafter, each hospital's pass-through payment amount shall be reduced proportionally to the reduction of all pass-through payments required by federal regulations.

(k) At least 30 days prior to each calendar year, the Department shall notify each hospital of changes to the payment methodologies in this Section, including, but not limited to, changes in the fixed rate directed payment rates, the aggregate pass-through payment amount for all hospitals, and the hospital's pass-through payment amount for the upcoming calendar year.

(l) Notwithstanding any other provisions of this Section, the Department may adopt rules to change the methodology for directed and pass-through payments as set forth in this Section, but only to the extent necessary to obtain federal approval of a necessary State Plan amendment or Directed Payment Preprint or to otherwise conform to federal law or federal regulation.

(m) As used in this subsection, "managed care organization" or "MCO" means an entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis, excluding contracted entities for dual eligible or Department of Children and Family Services youth populations.
(n) In order to address the escalating infant mortality rates among minority communities in Illinois, the State shall, subject to appropriation, create a pool of funding of at least $50,000,000 annually to be disbursed among safety-net hospitals that maintain perinatal designation from the Department of Public Health. The funding shall be used to preserve or enhance OB/GYN services or other specialty services at the receiving hospital, with the distribution of funding to be established by rule and with consideration to perinatal hospitals with safe birthing levels and quality metrics for healthy mothers and babies.

(o) In order to address the growing challenges of providing stable access to healthcare in rural Illinois, including perinatal services, behavioral healthcare including substance use disorder services (SUDs) and other specialty services, and to expand access to telehealth services among rural communities in Illinois, the Department of Healthcare and Family Services, subject to appropriation, shall administer a program to provide at least $10,000,000 in financial support annually to critical access hospitals for delivery of perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services and telehealth services. The funding shall be used to preserve or enhance perinatal and OB/GYN services, behavioral healthcare including SUDs, other specialty services, as well as the explanation of telehealth services by the receiving hospital,
with the distribution of funding to be established by rule.

(a) As a condition of receiving payments pursuant to subsections (d) and (k) of Section 5A-12.7 for State Fiscal Year 2021, a for-profit general acute care hospital that ceases to provide hospital services before July 1, 2021 and within 12 months of a change in the hospital's ownership status from not-for-profit to investor owned, shall be obligated to pay to the Department an amount equal to the payments received pursuant to subsections (d) and (k) of Section 5A-12.7 since the change in ownership status to the cessation of hospital services. The obligated amount shall be due immediately and must be paid to the Department within 10 days of ceasing to provide services or pursuant to a payment plan approved by the Department unless the hospital requests a hearing under paragraph (d) of this Section. The obligation under this Section shall not apply to a hospital that ceases to provide services under circumstances that include: implementation of a transformation project approved by the Department under subsection (d-5) of Section 14-12; emergencies as declared by federal, State, or local government; actions approved or required by federal, State, or local government; actions taken in compliance with the
Illinois Health Facilities Planning Act; or other circumstances beyond the control of the hospital provider or for the benefit of the community previously served by the hospital, as determined on a case-by-case basis by the Department.

(a-5) For State Fiscal Year 2022, a for-profit general acute care hospital that ceases to provide hospital services before July 1, 2022 and within 12 months of a change in the hospital's ownership status from not-for-profit to investor owned, shall be obligated to pay to the Department an amount equal to the payments received in State Fiscal Year 2022 pursuant to subsections (d) and (k) of Section 5A-12.7 since the change in ownership status to the cessation of hospital services. The obligated amount shall be due immediately and must be paid to the Department within 30 days of ceasing to provide services or pursuant to a payment plan approved by the Department unless the hospital requests a proceeding under paragraph (b) of this Section. The obligation under this Section shall not apply to a hospital that ceases to provide services under circumstances that include: implementation of a transformation project approved by the Department under subsection (d-5) of Section 14-12; emergencies as declared by federal, State, or local government; actions approved or required by federal, State, or local government; actions taken in compliance with the Illinois Health Facilities Planning Act; or other circumstances beyond the control of the hospital.
provider or for the benefit of the community previously served
by the hospital, as determined on a case-by-case basis by the
Department.

(b) The Illinois Department shall administer and enforce
this Section and collect the obligations imposed under this
Section using procedures employed in its administration of
this Code generally. The Illinois Department, its Director,
and every hospital provider subject to this Section shall have
the following powers, duties, and rights:

(1) The Illinois Department may initiate either
administrative or judicial proceedings, or both, to
enforce the provisions of this Section. Administrative
enforcement proceedings initiated hereunder shall be
governed by the Illinois Department's administrative
rules. Judicial enforcement proceedings initiated in
accordance with this Section shall be governed by the
rules of procedure applicable in the courts of this State.

(2) No proceedings for collection, refund, credit, or
other adjustment of an amount payable under this Section
shall be issued more than 3 years after the due date of the
obligation, except in the case of an extended period
agreed to in writing by the Illinois Department and the
hospital provider before the expiration of this limitation
period.

(3) Any unpaid obligation under this Section shall
become a lien upon the assets of the hospital. If any
hospital provider sells or transfers the major part of any one or more of (i) the real property and improvements, (ii) the machinery and equipment, or (iii) the furniture or fixtures of any hospital that is subject to the provisions of this Section, the seller or transferor shall pay the Illinois Department the amount of any obligation due from it under this Section up to the date of the sale or transfer. If the seller or transferor fails to pay any amount due under this Section, the purchaser or transferee of such asset shall be liable for the amount of the obligation up to the amount of the reasonable value of the property acquired by the purchaser or transferee. The purchaser or transferee shall continue to be liable until the purchaser or transferee pays the full amount of the obligation up to the amount of the reasonable value of the property acquired by the purchaser or transferee or until the purchaser or transferee receives from the Illinois Department a certificate showing that such assessment, penalty, and interest have been paid or a certificate from the Illinois Department showing that no amount is due from the seller or transferor under this Section.

(c) In addition to any other remedy provided for, the Illinois Department may collect an unpaid obligation by withholding, as payment of the amount due, reimbursements or other amounts otherwise payable by the Illinois Department to the hospital provider.
ARTICLE 11. EDGE CREDIT

Section 11-5. The Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois is amended by adding Section 605-1070 as follows:

(20 ILCS 605/605-1070 new)

Sec. 605-1070. Rulemaking authority for EDGE Credit; sunset extensions for expiring credits; disaster declaration. The Department shall adopt rules, in consultation with the Department of Revenue, to identify any and all Economic Development for a Growing Economy (EDGE) tax credits that are earned, existing, and unused by a taxpayer in any tax year where there is a statewide COVID-19 public health emergency, as evidenced by an effective disaster declaration of the Governor covering all counties in the State. The rules adopted by the Department shall allow for the extension of credits, for at least 5 years and up to 10 years after the last statewide COVID-19 related disaster declaration has ended, that are earned, existing, or set to expire during a tax year where there is a statewide COVID-19 public health emergency as evidenced by an effective disaster declaration of the Governor covering all counties. In order for a credit to be extended a taxpayer shall provide evidence, in a form prescribed by the
Department, that the taxpayer was or will be unable to utilize credits due to the COVID-19 public health emergency.

Section 11-10. The Illinois Income Tax Act is amended by changing Section 211 as follows:

(35 ILCS 5/211)

Sec. 211. Economic Development for a Growing Economy Tax Credit. For tax years beginning on or after January 1, 1999, a Taxpayer who has entered into an Agreement (including a New Construction EDGE Agreement) under the Economic Development for a Growing Economy Tax Credit Act is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of this Act in an amount to be determined in the Agreement. If the Taxpayer is a partnership or Subchapter S corporation, the credit shall be allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code. The Department, in cooperation with the Department of Commerce and Economic Opportunity, shall prescribe rules to enforce and administer the provisions of this Section. This Section is exempt from the provisions of Section 250 of this Act.

The credit shall be subject to the conditions set forth in the Agreement and the following limitations:

(1) The tax credit shall not exceed the Incremental
Income Tax (as defined in Section 5-5 of the Economic Development for a Growing Economy Tax Credit Act) with respect to the project; additionally, the New Construction EDGE Credit shall not exceed the New Construction EDGE Incremental Income Tax (as defined in Section 5-5 of the Economic Development for a Growing Economy Tax Credit Act).

(2) The amount of the credit allowed during the tax year plus the sum of all amounts allowed in prior years shall not exceed 100% of the aggregate amount expended by the Taxpayer during all prior tax years on approved costs defined by Agreement.

(3) The amount of the credit shall be determined on an annual basis. Except as applied in a carryover year pursuant to Section 211(4) of this Act, the credit may not be applied against any State income tax liability in more than 10 taxable years; provided, however, that (i) an eligible business certified by the Department of Commerce and Economic Opportunity under the Corporate Headquarters Relocation Act may not apply the credit against any of its State income tax liability in more than 15 taxable years and (ii) credits allowed to that eligible business are subject to the conditions and requirements set forth in Sections 5-35 and 5-45 of the Economic Development for a Growing Economy Tax Credit Act and Section 5-51 as applicable to New Construction EDGE Credits.
(4) The credit may not exceed the amount of taxes imposed pursuant to subsections (a) and (b) of Section 201 of this Act. Any credit that is unused in the year the credit is computed may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year, except as otherwise provided under paragraph (4.5) of this Section. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first.

(4.5) The Department of Commerce and Economic Opportunity, in consultation with the Department of Revenue, shall adopt rules to extend the sunset of any earned, existing, or unused credit as provided for in Section 605-1055 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois.

(5) No credit shall be allowed with respect to any Agreement for any taxable year ending after the Noncompliance Date. Upon receiving notification by the Department of Commerce and Economic Opportunity of the noncompliance of a Taxpayer with an Agreement, the Department shall notify the Taxpayer that no credit is allowed with respect to that Agreement for any taxable year ending after the Noncompliance Date, as stated in
such notification. If any credit has been allowed with respect to an Agreement for a taxable year ending after the Noncompliance Date for that Agreement, any refund paid to the Taxpayer for that taxable year shall, to the extent of that credit allowed, be an erroneous refund within the meaning of Section 912 of this Act.

(6) For purposes of this Section, the terms "Agreement", "Incremental Income Tax", "New Construction EDGE Agreement", "New Construction EDGE Credit", "New Construction EDGE Incremental Income Tax", and "Noncompliance Date" have the same meaning as when used in the Economic Development for a Growing Economy Tax Credit Act.

(35 ILCS 10/5-45)

Sec. 5-45. Amount and duration of the credit.

(a) The Department shall determine the amount and duration of the credit awarded under this Act. The duration of the credit may not exceed 10 taxable years. The credit may be stated as a percentage of the Incremental Income Tax attributable to the applicant's project and may include a
fixed dollar limitation.

(b) Notwithstanding subsection (a), and except as the credit may be applied in a carryover year pursuant to Section 211(4) of the Illinois Income Tax Act, the credit may be applied against the State income tax liability in more than 10 taxable years but not in more than 15 taxable years for an eligible business that (i) qualifies under this Act and the Corporate Headquarters Relocation Act and has in fact undertaken a qualifying project within the time frame specified by the Department of Commerce and Economic Opportunity under that Act, and (ii) applies against its State income tax liability, during the entire 15-year period, no more than 60% of the maximum credit per year that would otherwise be available under this Act.

(c) Nothing in this Section shall prevent the Department, in consultation with the Department of Revenue, from adopting rules to extend the sunset of any earned, existing, and unused tax credit or credits a taxpayer may be in possession of, as provided for in Section 605-1055 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois, notwithstanding the carry-forward provisions pursuant to paragraph (4) of Section 211 of the Illinois Income Tax Act.

(40 ILCS 5/1-160)

Sec. 1-160. Provisions applicable to new hires.
(a) The provisions of this Section apply to a person who, on or after January 1, 2011, first becomes a member or a participant under any reciprocal retirement system or pension fund established under this Code, other than a retirement system or pension fund established under Article 2, 3, 4, 5, 6, 15 or 18 of this Code, notwithstanding any other provision of this Code to the contrary, but do not apply to any self-managed plan established under this Code, to any person with respect to service as a sheriff's law enforcement employee under Article 7, or to any participant of the retirement plan established under Section 22-101. Notwithstanding anything to the contrary in this Section, for purposes of this Section, a person who participated in a retirement system under Article 15 prior to January 1, 2011 shall be deemed a person who first became a member or participant prior to January 1, 2011 under any retirement system or pension fund subject to this Section. The changes made to this Section by Public Act 98-596 are a clarification of existing law and are intended to be retroactive to January 1, 2011 (the effective date of Public
Act 96-889), notwithstanding the provisions of Section 1-103.1 of this Code.

This Section does not apply to a person who first becomes a noncovered employee under Article 14 on or after the implementation date of the plan created under Section 1-161 for that Article, unless that person elects under subsection (b) of Section 1-161 to instead receive the benefits provided under this Section and the applicable provisions of that Article.

This Section does not apply to a person who first becomes a member or participant under Article 16 on or after the implementation date of the plan created under Section 1-161 for that Article, unless that person elects under subsection (b) of Section 1-161 to instead receive the benefits provided under this Section and the applicable provisions of that Article.

This Section does not apply to a person who elects under subsection (c-5) of Section 1-161 to receive the benefits under Section 1-161.

This Section does not apply to a person who first becomes a member or participant of an affected pension fund on or after 6 months after the resolution or ordinance date, as defined in Section 1-162, unless that person elects under subsection (c) of Section 1-162 to receive the benefits provided under this Section and the applicable provisions of the Article under which he or she is a member or participant.
(b) "Final average salary" means, except as otherwise provided in this subsection, the average monthly (or annual) salary obtained by dividing the total salary or earnings calculated under the Article applicable to the member or participant during the 96 consecutive months (or 8 consecutive years) of service within the last 120 months (or 10 years) of service in which the total salary or earnings calculated under the applicable Article was the highest by the number of months (or years) of service in that period. For the purposes of a person who first becomes a member or participant of any retirement system or pension fund to which this Section applies on or after January 1, 2011, in this Code, "final average salary" shall be substituted for the following:

(1) In Article 7 (except for service as sheriff's law enforcement employees), "final rate of earnings".

the 2020-2021 school year is used in the calculation of the member's final average salary shall use the higher of the following for the purpose of determining the member's final average salary:

(A) the amount otherwise calculated under the first paragraph of this subsection; or

(B) an amount calculated by the Teachers' Retirement System of the State of Illinois using the average of the monthly (or annual) salary obtained by dividing the total salary or earnings calculated under Article 16 applicable to the member or participant during the 96 months (or 8 years) of service within the last 120 months (or 10 years) of service in which the total salary or earnings calculated under the Article was the highest by the number of months (or years) of service in that period.

(b-5) Beginning on January 1, 2011, for all purposes under this Code (including without limitation the calculation of benefits and employee contributions), the annual earnings, salary, or wages (based on the plan year) of a member or participant to whom this Section applies shall not exceed $106,800; however, that amount shall annually thereafter be increased by the lesser of (i) 3% of that amount, including all previous adjustments, or (ii) one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, including all previous adjustments.
For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100. The new amount resulting from each annual adjustment shall be determined by the Public Pension Division of the Department of Insurance and made available to the boards of the retirement systems and pension funds by November 1 of each year.

(c) A member or participant is entitled to a retirement annuity upon written application if he or she has attained age 67 (beginning January 1, 2015, age 65 with respect to service under Article 12 of this Code that is subject to this Section) and has at least 10 years of service credit and is otherwise eligible under the requirements of the applicable Article.

A member or participant who has attained age 62 (beginning January 1, 2015, age 60 with respect to service under Article 12 of this Code that is subject to this Section) and has at least 10 years of service credit and is otherwise eligible under the requirements of the applicable Article may elect to receive the lower retirement annuity provided in subsection (d) of this Section.

(c-5) A person who first becomes a member or a participant subject to this Section on or after July 6, 2017 (the effective date of Public Act 100-23), notwithstanding any other
provision of this Code to the contrary, is entitled to a
retirement annuity under Article 8 or Article 11 upon written
application if he or she has attained age 65 and has at least
10 years of service credit and is otherwise eligible under the
requirements of Article 8 or Article 11 of this Code, whichever is applicable.

(d) The retirement annuity of a member or participant who
is retiring after attaining age 62 (beginning January 1, 2015,
age 60 with respect to service under Article 12 of this Code
that is subject to this Section) with at least 10 years of
service credit shall be reduced by one-half of 1% for each full
month that the member's age is under age 67 (beginning January
1, 2015, age 65 with respect to service under Article 12 of
this Code that is subject to this Section).

(d-5) The retirement annuity payable under Article 8 or
Article 11 to an eligible person subject to subsection (c-5)
of this Section who is retiring at age 60 with at least 10
years of service credit shall be reduced by one-half of 1% for
each full month that the member's age is under age 65.

(d-10) Each person who first became a member or
participant under Article 8 or Article 11 of this Code on or
after January 1, 2011 and prior to the effective date of this
amendatory Act of the 100th General Assembly shall make an
irrevocable election either:

(i) to be eligible for the reduced retirement age
provided in subsections (c-5) and (d-5) of this Section,
the eligibility for which is conditioned upon the member
or participant agreeing to the increases in employee
contributions for age and service annuities provided in
subsection (a-5) of Section 8-174 of this Code (for
service under Article 8) or subsection (a-5) of Section
11-170 of this Code (for service under Article 11); or
(ii) to not agree to item (i) of this subsection
(d-10), in which case the member or participant shall
continue to be subject to the retirement age provisions in
subsections (c) and (d) of this Section and the employee
contributions for age and service annuity as provided in
subsection (a) of Section 8-174 of this Code (for service
under Article 8) or subsection (a) of Section 11-170 of
this Code (for service under Article 11).

The election provided for in this subsection shall be made
between October 1, 2017 and November 15, 2017. A person
subject to this subsection who makes the required election
shall remain bound by that election. A person subject to this
subsection who fails for any reason to make the required
election within the time specified in this subsection shall be
deemed to have made the election under item (ii).

(e) Any retirement annuity or supplemental annuity shall
be subject to annual increases on the January 1 occurring
either on or after the attainment of age 67 (beginning January
1, 2015, age 65 with respect to service under Article 12 of
this Code that is subject to this Section and beginning on the
effective date of this amendatory Act of the 100th General Assembly, age 65 with respect to service under Article 8 or Article 11 for eligible persons who: (i) are subject to subsection (c-5) of this Section; or (ii) made the election under item (i) of subsection (d-10) of this Section) or the first anniversary of the annuity start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the originally granted retirement annuity. If the annual unadjusted percentage change in the consumer price index-u for the 12 months ending with the September preceding each November 1 is zero or there is a decrease, then the annuity shall not be increased.

For the purposes of Section 1-103.1 of this Code, the changes made to this Section by this amendatory Act of the 100th General Assembly are applicable without regard to whether the employee was in active service on or after the effective date of this amendatory Act of the 100th General Assembly.

(f) The initial survivor's or widow's annuity of an otherwise eligible survivor or widow of a retired member or participant who first became a member or participant on or after January 1, 2011 shall be in the amount of 66 2/3% of the retired member's or participant's retirement annuity at the
date of death. In the case of the death of a member or participant who has not retired and who first became a member or participant on or after January 1, 2011, eligibility for a survivor's or widow's annuity shall be determined by the applicable Article of this Code. The initial benefit shall be 66 2/3% of the earned annuity without a reduction due to age. A child's annuity of an otherwise eligible child shall be in the amount prescribed under each Article if applicable. Any survivor's or widow's annuity shall be increased (1) on each January 1 occurring on or after the commencement of the annuity if the deceased member died while receiving a retirement annuity or (2) in other cases, on each January 1 occurring after the first anniversary of the commencement of the annuity. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the originally granted survivor's annuity. If the annual unadjusted percentage change in the consumer price index-u for the 12 months ending with the September preceding each November 1 is zero or there is a decrease, then the annuity shall not be increased.

(g) The benefits in Section 14-110 apply only if the person is a State policeman, a fire fighter in the fire protection service of a department, a conservation police officer, an investigator for the Secretary of State, an arson
investigator, a Commerce Commission police officer, investigator for the Department of Revenue or the Illinois Gaming Board, a security employee of the Department of Corrections or the Department of Juvenile Justice, or a security employee of the Department of Innovation and Technology, as those terms are defined in subsection (b) and subsection (c) of Section 14-110. A person who meets the requirements of this Section is entitled to an annuity calculated under the provisions of Section 14-110, in lieu of the regular or minimum retirement annuity, only if the person has withdrawn from service with not less than 20 years of eligible creditable service and has attained age 60, regardless of whether the attainment of age 60 occurs while the person is still in service.

(h) If a person who first becomes a member or a participant of a retirement system or pension fund subject to this Section on or after January 1, 2011 is receiving a retirement annuity or retirement pension under that system or fund and becomes a member or participant under any other system or fund created by this Code and is employed on a full-time basis, except for those members or participants exempted from the provisions of this Section under subsection (a) of this Section, then the person's retirement annuity or retirement pension under that system or fund shall be suspended during that employment. Upon termination of that employment, the person's retirement annuity or retirement pension payments shall resume and be
recalculated if recalculation is provided for under the applicable Article of this Code.

If a person who first becomes a member of a retirement system or pension fund subject to this Section on or after January 1, 2012 and is receiving a retirement annuity or retirement pension under that system or fund and accepts on a contractual basis a position to provide services to a governmental entity from which he or she has retired, then that person's annuity or retirement pension earned as an active employee of the employer shall be suspended during that contractual service. A person receiving an annuity or retirement pension under this Code shall notify the pension fund or retirement system from which he or she is receiving an annuity or retirement pension, as well as his or her contractual employer, of his or her retirement status before accepting contractual employment. A person who fails to submit such notification shall be guilty of a Class A misdemeanor and required to pay a fine of $1,000. Upon termination of that contractual employment, the person's retirement annuity or retirement pension payments shall resume and, if appropriate, be recalculated under the applicable provisions of this Code.

(i) (Blank).

(j) In the case of a conflict between the provisions of this Section and any other provision of this Code, the provisions of this Section shall control.

Sec. 15-155. Employer contributions.

(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).

(a-1) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the
projected unit credit actuarial cost method.

For each of State fiscal years 2018, 2019, and 2020, the State shall make an additional contribution to the System equal to 2% of the total payroll of each employee who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applies in State fiscal year 2018 or thereafter shall be implemented in equal annual amounts over a 5-year period beginning in the State fiscal year in which the actuarial change first applies to the required State contribution.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applied to the State contribution in fiscal year 2014, 2015, 2016, or 2017 shall be implemented:

(i) as already applied in State fiscal years before 2018; and

(ii) in the portion of the 5-year period beginning in the State fiscal year in which the actuarial change first applied that occurs in State fiscal year 2018 or thereafter, by calculating the change in equal annual amounts over that 5-year period and then implementing it at the resulting annual rate in each of the remaining fiscal years in that 5-year period.

For State fiscal years 1996 through 2005, the State
contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $166,641,900.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $252,064,100.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $702,514,000 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, (iii) any reduction in bond proceeds due to the issuance of
discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 15-165 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar
term does not include or apply to any amounts payable to the
System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the
required State contribution for State fiscal year 2005 and for
fiscal year 2008 and each fiscal year thereafter, as
calculated under this Section and certified under Section
15-165, shall not exceed an amount equal to (i) the amount of
the required State contribution that would have been
calculated under this Section for that fiscal year if the
System had not received any payments under subsection (d) of
Section 7.2 of the General Obligation Bond Act, minus (ii) the
portion of the State's total debt service payments for that
fiscal year on the bonds issued in fiscal year 2003 for the
purposes of that Section 7.2, as determined and certified by
the Comptroller, that is the same as the System's portion of
the total moneys distributed under subsection (d) of Section
7.2 of the General Obligation Bond Act. In determining this
maximum for State fiscal years 2008 through 2010, however, the
amount referred to in item (i) shall be increased, as a
percentage of the applicable employee payroll, in equal
increments calculated from the sum of the required State
contribution for State fiscal year 2007 plus the applicable
portion of the State's total debt service payments for fiscal
year 2007 on the bonds issued in fiscal year 2003 for the
purposes of Section 7.2 of the General Obligation Bond Act, so
that, by State fiscal year 2011, the State is contributing at
the rate otherwise required under this Section.

(a-2) Beginning in fiscal year 2018, each employer under this Article shall pay to the System a required contribution determined as a percentage of projected payroll and sufficient to produce an annual amount equal to:

(i) for each of fiscal years 2018, 2019, and 2020, the defined benefit normal cost of the defined benefit plan, less the employee contribution, for each employee of that employer who has elected or who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161; for fiscal year 2021 and each fiscal year thereafter, the defined benefit normal cost of the defined benefit plan, less the employee contribution, plus 2%, for each employee of that employer who has elected or who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161; plus

(ii) the amount required for that fiscal year to amortize any unfunded actuarial accrued liability associated with the present value of liabilities attributable to the employer's account under Section 15-155.2, determined as a level percentage of payroll over a 30-year rolling amortization period.

In determining contributions required under item (i) of this subsection, the System shall determine an aggregate rate for all employers, expressed as a percentage of projected
payroll.

In determining the contributions required under item (ii) of this subsection, the amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation.

The contributions required under this subsection (a-2) shall be paid by an employer concurrently with that employer's payroll payment period. The State, as the actual employer of an employee, shall make the required contributions under this subsection.

As used in this subsection, "academic year" means the 12-month period beginning September 1.

(b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However, universities having employees who are compensated out of local auxiliary funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article and other employers which do not receive State appropriations
are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer
contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.

(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned for service rendered by the participants during the fiscal year and expenses of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If June 4, 2018 (Public Act 100-587) the amount of a participant's earnings for any academic year used to determine the final rate of earnings, determined on a full-time equivalent basis, exceeds the amount of his or her earnings with the same employer for the previous academic year, determined on a full-time equivalent basis, by more than 6%, the participant's employer shall pay to the System, in addition to all other payments required under this Section and
in accordance with guidelines established by the System, the
present value of the increase in benefits resulting from the
portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis
of the actuarial assumptions and tables used in the most
recent actuarial valuation of the System that is available at
the time of the computation. The System may require the
employer to provide any pertinent information or
documentation.

Whenever it determines that a payment is or may be
required under this subsection (g), the System shall calculate
the amount of the payment and bill the employer for that
amount. The bill shall specify the calculations used to
determine the amount due. If the employer disputes the amount
of the bill, it may, within 30 days after receipt of the bill,
apply to the System in writing for a recalculation. The
application must specify in detail the grounds of the dispute
and, if the employer asserts that the calculation is subject
to subsection (h), (h-5), or (i) of this Section, must include
an affidavit setting forth and attesting to all facts within
the employer's knowledge that are pertinent to the
applicability of that subsection. Upon receiving a timely
application for recalculation, the System shall review the
application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection
(g) may be paid in the form of a lump sum within 90 days after
receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

When assessing payment for any amount due under this subsection (g), the System shall include earnings, to the extent not established by a participant under Section 15-113.11 or 15-113.12, that would have been paid to the participant had the participant not taken (i) periods of voluntary or involuntary furlough occurring on or after July 1, 2015 and on or before June 30, 2017 or (ii) periods of voluntary pay reduction in lieu of furlough occurring on or after July 1, 2015 and on or before June 30, 2017. Determining earnings that would have been paid to a participant had the participant not taken periods of voluntary or involuntary furlough or periods of voluntary pay reduction shall be the responsibility of the employer, and shall be reported in a manner prescribed by the System.

This subsection (g) does not apply to (1) Tier 2 hybrid plan members and (2) Tier 2 defined benefit members who first participate under this Article on or after the implementation date of the Optional Hybrid Plan.

(g-1) (Blank). June 4, 2018 (Public Act 100-587)
This subsection (h) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to a participant at a time when the participant is 10 or more years from retirement eligibility under Section 15-135.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases resulting from overload work, including a contract for summer teaching, or overtime when the employer has certified to the System, and the System has approved the certification, that: (i) in the case of overloads (A) the overload work is for the sole purpose of academic instruction in excess of the standard number of instruction hours for a full-time employee occurring during the academic year that the overload is paid and (B) the earnings increases are equal to or less than the rate of pay for academic instruction computed using the participant's current salary rate and work schedule; and (ii) in the case of
When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from (i) a promotion for which the employee moves from one classification to a higher classification under the State Universities Civil Service System, (ii) a promotion in academic rank for a tenured or tenure-track faculty position, or (iii) a promotion that the Illinois Community College Board has recommended in accordance with subsection (k) of this Section. These earnings increases shall be excluded only if the promotion is to a position that has existed and been filled by a member for no less than one complete academic year and the earnings increase as a result of the promotion is an increase that results in an amount no greater than the average salary paid for other similar positions.

(h-5) When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from overload work performed in an academic year subsequent to an academic year in which the employer was unable to offer or allow to be conducted overload work due to an emergency declaration limiting such activities.

(i) When assessing payment for any amount due under subsection (g), the System shall exclude any salary increase described in subsection (h) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or
collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (g) of this Section.

(j) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(j-5) For State fiscal years beginning on or after July 1, 2017, if the amount of a participant's earnings for any State fiscal year exceeds the amount of the salary set by law for the Governor that is in effect on July 1 of that fiscal year, the
participant's employer shall pay to the System, in addition to
all other payments required under this Section and in
accordance with guidelines established by the System, an
amount determined by the System to be equal to the employer
normal cost, as established by the System and expressed as a
total percentage of payroll, multiplied by the amount of
earnings in excess of the amount of the salary set by law for
the Governor. This amount shall be computed by the System on
the basis of the actuarial assumptions and tables used in the
most recent actuarial valuation of the System that is
available at the time of the computation. The System may
require the employer to provide any pertinent information or
documentation.

Whenever it determines that a payment is or may be
required under this subsection, the System shall calculate the
amount of the payment and bill the employer for that amount.
The bill shall specify the calculation used to determine the
amount due. If the employer disputes the amount of the bill, it
may, within 30 days after receipt of the bill, apply to the
System in writing for a recalculation. The application must
specify in detail the grounds of the dispute. Upon receiving a
timely application for recalculation, the System shall review
the application and, if appropriate, recalculate the amount
due.

The employer contributions required under this subsection
may be paid in the form of a lump sum within 90 days after
issuance of the bill. If the employer contributions are not paid within 90 days after issuance of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after issuance of the bill. All payments must be received within 3 years after issuance of the bill. If the employer fails to make complete payment, including applicable interest, within 3 years, then the System may, after giving notice to the employer, certify the delinquent amount to the State Comptroller, and the Comptroller shall thereupon deduct the certified delinquent amount from State funds payable to the employer and pay them instead to the System.

This subsection (j-5) does not apply to a participant's earnings to the extent an employer pays the employer normal cost of such earnings.

The changes made to this subsection (j-5) by Public Act 100-624 are intended to apply retroactively to July 6, 2017 (the effective date of Public Act 100-23).

(k) The Illinois Community College Board shall adopt rules for recommending lists of promotional positions submitted to the Board by community colleges and for reviewing the promotional lists on an annual basis. When recommending promotional lists, the Board shall consider the similarity of the positions submitted to those positions recognized for State universities by the State Universities Civil Service
System. The Illinois Community College Board shall file a copy of its findings with the System. The System shall consider the findings of the Illinois Community College Board when making determinations under this Section. The System shall not exclude any earnings increases resulting from a promotion when the promotion was not submitted by a community college. Nothing in this subsection (k) shall require any community college to submit any information to the Community College Board.

(l) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(m) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 15-198. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after June 1, 2005 (the effective date of Public Act 94-4). "New benefit increase", however, does not include any benefit increase resulting from the changes made to Article 1 or this Article by Public Act 100-23, Public Act 100-587, Public Act 100-769, Public Act 101-10, Public Act 101-610, or this amendatory Act of the 102nd General Assembly or this amendatory Act of the 101st General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual
increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Insurance. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied
and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including, without limitation, a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

Sec. 16-133. Retirement annuity; amount.

(a) The amount of the retirement annuity shall be (i) in the case of a person who first became a teacher under this Article before July 1, 2005, the larger of the amounts determined under paragraphs (A) and (B) below, or (ii) in the case of a person who first becomes a teacher under this Article on or after July 1, 2005, the amount determined under the applicable provisions of paragraph (B):

(A) An amount consisting of the sum of the following:

(1) An amount that can be provided on an actuarially equivalent basis by the member's accumulated contributions at the time of retirement;
and

(2) The sum of (i) the amount that can be provided on an actuarially equivalent basis by the member's accumulated contributions representing service prior to July 1, 1947, and (ii) the amount that can be provided on an actuarially equivalent basis by the amount obtained by multiplying 1.4 times the member's accumulated contributions covering service subsequent to June 30, 1947; and

(3) If there is prior service, 2 times the amount that would have been determined under subparagraph (2) of paragraph (A) above on account of contributions which would have been made during the period of prior service creditable to the member had the System been in operation and had the member made contributions at the contribution rate in effect prior to July 1, 1947.

This paragraph (A) does not apply to a person who first becomes a teacher under this Article on or after July 1, 2005.

(B) An amount consisting of the greater of the following:

(1) For creditable service earned before July 1, 1998 that has not been augmented under Section 16-129.1: 1.67% of final average salary for each of the first 10 years of creditable service, 1.90% of final average salary for each year in excess of 10 but
not exceeding 20, 2.10% of final average salary for each year in excess of 20 but not exceeding 30, and 2.30% of final average salary for each year in excess of 30; and

For creditable service earned on or after July 1, 1998 by a member who has at least 24 years of creditable service on July 1, 1998 and who does not elect to augment service under Section 16-129.1: 2.2% of final average salary for each year of creditable service earned on or after July 1, 1998 but before the member reaches a total of 30 years of creditable service and 2.3% of final average salary for each year of creditable service earned on or after July 1, 1998 and after the member reaches a total of 30 years of creditable service; and

For all other creditable service: 2.2% of final average salary for each year of creditable service; or

(2) 1.5% of final average salary for each year of creditable service plus the sum $7.50 for each of the first 20 years of creditable service.

The amount of the retirement annuity determined under this paragraph (B) shall be reduced by 1/2 of 1% for each month that the member is less than age 60 at the time the retirement annuity begins. However, this reduction shall not apply (i) if the member has at least 35 years of creditable service, or (ii) if the member retires on
account of disability under Section 16-149.2 of this Article with at least 20 years of creditable service, or
(iii) if the member (1) has earned during the period immediately preceding the last day of service at least one year of contributing creditable service as an employee of a department as defined in Section 14-103.04, (2) has earned at least 5 years of contributing creditable service as an employee of a department as defined in Section 14-103.04, (3) retires on or after January 1, 2001, and (4) retires having attained an age which, when added to the number of years of his or her total creditable service, equals at least 85. Portions of years shall be counted as decimal equivalents.

(b) For purposes of this Section, except as provided in subsection (b-5), final average salary shall be the average salary for the highest 4 consecutive years within the last 10 years of creditable service as determined under rules of the board.

The minimum final average salary shall be considered to be $2,400 per year.

In the determination of final average salary for members other than elected officials and their appointees when such appointees are allowed by statute, that part of a member's salary for any year beginning after June 30, 1979 which exceeds the member's annual full-time salary rate with the same employer for the preceding year by more than 20% shall be
excluded. The exclusion shall not apply in any year in which
the member's creditable earnings are less than 50% of the
preceding year's mean salary for downstate teachers as
determined by the survey of school district salaries provided
in Section 2-3.103 of the School Code.

(b-5) A teacher who retires on or after June 1, 2021 and
for whom the 2020-2021 school year is used in the calculation
of the member's final average salary shall use the higher of
the following for the purpose of determining the member's
final average salary:

(A) the amount otherwise calculated under subsection
(b); or

(B) an amount calculated by the System using the
average salary for the 4 highest years within the last 10
years of creditable service as determined under the rules
of the board.

(c) In determining the amount of the retirement annuity
under paragraph (B) of this Section, a fractional year shall
be granted proportional credit.

(d) The retirement annuity determined under paragraph (B)
of this Section shall be available only to members who render
teaching service after July 1, 1947 for which member
contributions are required, and to annuitants who re-enter
under the provisions of Section 16-150.

(e) The maximum retirement annuity provided under
paragraph (B) of this Section shall be 75% of final average
(f) A member retiring after the effective date of this amendatory Act of 1998 shall receive a pension equal to 75% of final average salary if the member is qualified to receive a retirement annuity equal to at least 74.6% of final average salary under this Article or as proportional annuities under Article 20 of this Code.

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15 until November 15, 2011, the Board shall certify to the Governor the amount of
the required State contribution for the coming fiscal year. The certification under this subsection (a-1) shall include a copy of the actuarial recommendations upon which it is based and shall specifically identify the System's projected State normal cost for that fiscal year.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by Public Act 94-4.

On or before April 1, 2011, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2011, applying the changes made by Public Act 96-889 to the System's assets and liabilities as of June 30, 2009 as though Public Act 96-889 was approved on that date.

(a-5) On or before November 1 of each year, beginning November 1, 2012, the Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification of the amount of the required State contribution
to the System for the next fiscal year, along with all of the actuarial assumptions, calculations, and data upon which that proposed certification is based. On or before January 1 of each year, beginning January 1, 2013, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions. On or before January 15, 2013 and each January 15 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The Board's certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(a-10) By November 1, 2017, the Board shall recalculate and recertify to the State Actuary, the Governor, and the General Assembly the amount of the State contribution to the System for State fiscal year 2018, taking into account the changes in required State contributions made by Public Act 100-23. The State Actuary shall review the assumptions and valuations underlying the Board's revised certification and issue a preliminary report concerning the proposed recertification and identifying, if necessary, recommended
changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions. The Board's final certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(a-15) On or after June 15, 2019, but no later than June 30, 2019, the Board shall recalculate and recertify to the Governor and the General Assembly the amount of the State contribution to the System for State fiscal year 2019, taking into account the changes in required State contributions made by Public Act 100-587. The recalculation shall be made using assumptions adopted by the Board for the original fiscal year 2019 certification. The monthly voucher for the 12th month of fiscal year 2019 shall be paid by the Comptroller after the recertification required pursuant to this subsection is submitted to the Governor, Comptroller, and General Assembly. The recertification submitted to the General Assembly shall be filed with the Clerk of the House of Representatives and the Secretary of the Senate in electronic form only, in the manner that the Clerk and the Secretary shall direct.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.
(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From March 5, 2004 (the effective date of Public Act 93-665) through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.
(b-3) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For each of State fiscal years 2018, 2019, and 2020, the State shall make an additional contribution to the System equal to 2% of the total payroll of each employee who is deemed to have elected the benefits under Section 1-161 or who has made the election under subsection (c) of Section 1-161.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applies in State fiscal year 2018 or thereafter shall be implemented in equal annual amounts over a 5-year period beginning in the State fiscal year in which the actuarial change first applies to the required State contribution.

A change in an actuarial or investment assumption that increases or decreases the required State contribution and first applied to the State contribution in fiscal year 2014, 2015, 2016, or 2017 shall be implemented:

(i) as already applied in State fiscal years before
(ii) in the portion of the 5-year period beginning in the State fiscal year in which the actuarial change first applied that occurs in State fiscal year 2018 or thereafter, by calculating the change in equal annual amounts over that 5-year period and then implementing it at the resulting annual rate in each of the remaining fiscal years in that 5-year period.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before May 27, 1998 (the effective date of Public Act 90-582): 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.
Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $2,089,268,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to subsection (a-1) of this Section and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act,
less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable. This amount shall include, in addition to the amount certified by the System, an amount necessary to meet employer contributions required by the State as an employer under paragraph (e) of this Section, which may also be used by the System for contributions required by paragraph (a) of Section 16-127.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.
Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(b-4) Beginning in fiscal year 2018, each employer under
this Article shall pay to the System a required contribution
determined as a percentage of projected payroll and sufficient
to produce an annual amount equal to:

   (i) for each of fiscal years 2018, 2019, and 2020, the
defined benefit normal cost of the defined benefit plan,
less the employee contribution, for each employee of that
employer who has elected or who is deemed to have elected
the benefits under Section 1-161 or who has made the
election under subsection (b) of Section 1-161; for fiscal
year 2021 and each fiscal year thereafter, the defined
benefit normal cost of the defined benefit plan, less the
employee contribution, plus 2%, for each employee of that
employer who has elected or who is deemed to have elected
the benefits under Section 1-161 or who has made the
election under subsection (b) of Section 1-161; plus

   (ii) the amount required for that fiscal year to
amortize any unfunded actuarial accrued liability
associated with the present value of liabilities
attributable to the employer's account under Section
16-158.3, determined as a level percentage of payroll over
a 30-year rolling amortization period.

In determining contributions required under item (i) of
this subsection, the System shall determine an aggregate rate
for all employers, expressed as a percentage of projected
payroll.

In determining the contributions required under item (ii)
of this subsection, the amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation.

The contributions required under this subsection (b-4) shall be paid by an employer concurrently with that employer's payroll payment period. The State, as the actual employer of an employee, shall make the required contributions under this subsection.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, which, beginning July 1, 2017, shall be at a rate, expressed as a percentage of salary, equal to the total employer's normal cost, expressed as a percentage of payroll, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the
System. Any contribution for fiscal year 2015 collected as a result of the change made by Public Act 98-674 shall be considered a State contribution under subsection (b-3) of this Section.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:
(1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from Public Act 90-582.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by Public Act 90-582 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.
If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If June 4, 2018 (Public Act 100-587) the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by the greater of more than 6% or 1.5 times the annual increase in the consumer price index-u, as established by the United States Department of Labor for the preceding September, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of the greater of 6% or 1.5 times the annual increase in the consumer price index-u, as established by the System. This present value shall be
computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of the greater of 6% or 1.5 times the annual increase in the consumer price index-u, as established by the System. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by Public Act 94-1111 apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection
(g), (g-5), (g-10), or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(f-1) (Blank). June 4, 2018 (Public Act 100-587)

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection
(f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount
stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(g-5) When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload or stipend work performed in a school year subsequent to a school year in which the employer was unable to offer or allow to be conducted overload or stipend work due to an emergency declaration limiting such activities.

(g-10) When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from increased instructional time that exceeded the instructional time required during the 2019-2020 school year.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014
shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(i-5) For school years beginning on or after July 1, 2017, if the amount of a participant's salary for any school year exceeds the amount of the salary set for the Governor, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, an amount determined by the System to be equal to the employer normal cost, as established by the System and expressed as a
total percentage of payroll, multiplied by the amount of salary in excess of the amount of the salary set for the Governor. This amount shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments
must be concluded within 3 years after the employer's receipt of the bill.

(j) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(k) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 16-203. Application and expiration of new benefit increases.
(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after June 1, 2005 (the effective date of Public Act 94-4). "New benefit increase", however, does not include any benefit increase resulting from the changes made to Article 1 or this Article by Public Act 95-910, Public Act 100-23, Public Act 100-587, Public Act 100-743, or Public Act 100-769, Public Act 101-10, Public Act 101-49, or this amendatory Act of the 102nd General Assembly or this amendatory Act of the 101st General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and
shall report its analysis to the Public Pension Division of
the Department of Insurance. A new benefit increase created by
a Public Act that does not include the additional funding
required under this subsection is null and void. If the Public
Pension Division determines that the additional funding
provided for a new benefit increase under this subsection is
or has become inadequate, it may so certify to the Governor and
the State Comptroller and, in the absence of corrective action
by the General Assembly, the new benefit increase shall expire
at the end of the fiscal year in which the certification is
made.

(d) Every new benefit increase shall expire 5 years after
its effective date or on such earlier date as may be specified
in the language enacting the new benefit increase or provided
under subsection (c). This does not prevent the General
Assembly from extending or re-creating a new benefit increase
by law.

(e) Except as otherwise provided in the language creating
the new benefit increase, a new benefit increase that expires
under this Section continues to apply to persons who applied
and qualified for the affected benefit while the new benefit
increase was in effect and to the affected beneficiaries and
alternate payees of such persons, but does not apply to any
other person, including a person who
continues in service after the expiration date and did not
apply and qualify for the affected benefit while the new
benefit increase was in effect.

ARTICLE 14. LIHEAP

Section 14-5. The Energy Assistance Act is amended by changing Sections 6 and 13 and by adding Section 20 as follows:

(305 ILCS 20/6) (from Ch. 111 2/3, par. 1406)

Sec. 6. Eligibility, Conditions of Participation, and Energy Assistance.
(a) Any person who is a resident of the State of Illinois and whose household income is not greater than an amount determined annually by the Department, in consultation with
the Policy Advisory Council, may apply for assistance pursuant to this Act in accordance with regulations promulgated by the Department. In setting the annual eligibility level, the Department shall consider the amount of available funding and may not set a limit higher than 150% of the federal nonfarm poverty level as established by the federal Office of Management and Budget or 60% of the State median income for the current State fiscal year as established by the U.S. Department of Health and Human Services; except that for the period from the effective date of this amendatory Act of the 101st General Assembly through June 30, 2021, the Department may establish limits not higher than 200% of that poverty level. The Department, in consultation with the Policy Advisory Council, may adjust the percentage of poverty level annually in accordance with federal guidelines and based on funding availability.

(b) Applicants who qualify for assistance pursuant to subsection (a) of this Section shall, subject to appropriation from the General Assembly and subject to availability of funds to the Department, receive energy assistance as provided by this Act. The Department, upon receipt of monies authorized pursuant to this Act for energy assistance, shall commit funds for each qualified applicant in an amount determined by the Department. In determining the amounts of assistance to be provided to or on behalf of a qualified applicant, the Department shall ensure that the highest amounts of assistance
go to households with the greatest energy costs in relation to household income. The Department shall include factors such as energy costs, household size, household income, and region of the State when determining individual household benefits. In setting assistance levels, the Department shall attempt to provide assistance to approximately the same number of households who participated in the 1991 Residential Energy Assistance Partnership Program. Such assistance levels shall be adjusted annually on the basis of funding availability and energy costs. In promulgating rules for the administration of this Section the Department shall assure that a minimum of 1/3 of funds available for benefits to eligible households with the lowest incomes and that elderly households, households with children under the age of 6 years old, and households with persons with disabilities are offered a priority application period.

(c) If the applicant is not a customer of record of an energy provider for energy services or an applicant for such service, such applicant shall receive a direct energy assistance payment in an amount established by the Department for all such applicants under this Act; provided, however, that such an applicant must have rental expenses for housing greater than 30% of household income.

(c-1) This subsection shall apply only in cases where: (1) the applicant is not a customer of record of an energy provider because energy services are provided by the owner of the unit
as a portion of the rent; (2) the applicant resides in housing subsidized or developed with funds provided under the Rental Housing Support Program Act or under a similar locally funded rent subsidy program, or is the voucher holder who resides in a rental unit within the State of Illinois and whose monthly rent is subsidized by the tenant-based Housing Choice Voucher Program under Section 8 of the U.S. Housing Act of 1937; and (3) the rental expenses for housing are no more than 30% of household income. In such cases, the household may apply for an energy assistance payment under this Act and the owner of the housing unit shall cooperate with the applicant by providing documentation of the energy costs for that unit. Any compensation paid to the energy provider who supplied energy services to the household shall be paid on behalf of the owner of the housing unit providing energy services to the household. The Department shall report annually to the General Assembly on the number of households receiving energy assistance under this subsection and the cost of such assistance. The provisions of this subsection (c-1), other than this sentence, are inoperative after August 31, 2012.

(d) If the applicant is a customer of an energy provider, such applicant shall receive energy assistance in an amount established by the Department for all such applicants under this Act, such amount to be paid by the Department to the energy provider supplying winter energy service to such applicant. Such applicant shall:
(i) make all reasonable efforts to apply to any other appropriate source of public energy assistance; and

(ii) sign a waiver permitting the Department to receive income information from any public or private agency providing income or energy assistance and from any employer, whether public or private.

(e) Any qualified applicant pursuant to this Section may receive or have paid on such applicant's behalf an emergency assistance payment to enable such applicant to obtain access to winter energy services. Any such payments shall be made in accordance with regulations of the Department.

(f) The Department may, if sufficient funds are available, provide additional benefits to certain qualified applicants:

(i) for the reduction of past due amounts owed to energy providers; and

(ii) to assist the household in responding to excessively high summer temperatures or energy costs. Households containing elderly members, children, a person with a disability, or a person with a medical need for conditioned air shall receive priority for receipt of such benefits.

(305 ILCS 20/13)

(Section scheduled to be repealed on January 1, 2025)

(a) The Supplemental Low-Income Energy Assistance Fund is hereby created as a special fund in the State Treasury. Notwithstanding any other law to the contrary, the Supplemental Low-Income Energy Assistance Fund is not subject to sweeps, administrative charge-backs, or any other fiscal or budgetary maneuver that would in any way transfer any amounts from the Supplemental Low-Income Energy Assistance Fund into any other fund of the State. The Supplemental Low-Income Energy Assistance Fund is authorized to receive moneys from voluntary donations from individuals, foundations, corporations, and other sources, moneys received pursuant to Section 17, and, by statutory deposit, the moneys collected pursuant to this Section. The Fund is also authorized to receive voluntary donations from individuals, foundations, corporations, and other sources. Subject to appropriation, the Department shall use moneys from the Supplemental Low-Income Energy Assistance Fund for payments to electric or gas public utilities, municipal electric or gas utilities, and electric cooperatives on behalf of their customers who are participants in the program authorized by Sections 4 and 18 of this Act, for the provision of weatherization services and for administration of the Supplemental Low-Income Energy Assistance Fund. All other deposits outside of the Energy Assistance Charge as set forth in subsection (b) are not subject to the percentage restrictions related to administrative and weatherization expenses provided in this
subsection. The yearly expenditures for weatherization may not exceed 10% of the amount collected during the year pursuant to this Section, except when unspent funds from the Supplemental Low-Income Energy Assistance Fund are reallocated from a previous year; any unspent balance of the 10% weatherization allowance may be utilized for weatherization expenses in the year they are reallocated. The yearly administrative expenses of the Supplemental Low-Income Energy Assistance Fund may not exceed 13% 10% of the amount collected during that year pursuant to this Section, except when unspent funds from the Supplemental Low-Income Energy Assistance Fund are reallocated from a previous year; any unspent balance of the 13% 10% administrative allowance may be utilized for administrative expenses in the year they are reallocated. Of the 13% administrative allowance, no less than 8% shall be provided to Local Administrative Agencies for administrative expenses.

(b) Notwithstanding the provisions of Section 16-111 of the Public Utilities Act but subject to subsection (k) of this Section, each public utility, electric cooperative, as defined in Section 3.4 of the Electric Supplier Act, and municipal utility, as referenced in Section 3-105 of the Public Utilities Act, that is engaged in the delivery of electricity or the distribution of natural gas within the State of Illinois shall, effective January 1, 2021 effective January 1, 1998, assess each of its customer accounts a monthly Energy Assistance Charge for the Supplemental Low-Income Energy
Assistance Fund. The delivering public utility, municipal electric or gas utility, or electric or gas cooperative for a self-assessing purchaser remains subject to the collection of the fee imposed by this Section. The monthly charge shall be as follows:

1. Base Energy Assistance Charge per month on each account for residential electrical service;
2. Base Energy Assistance Charge per month on each account for residential gas service;
3. Ten times the Base Energy Assistance Charge per month on each account for non-residential electric service which had less than 10 megawatts of peak demand during the previous calendar year;
4. Ten times the Base Energy Assistance Charge per month on each account for non-residential gas service which had distributed to it less than 4,000,000 therms of gas during the previous calendar year;
5. Three hundred and seventy-five times the Base Energy Assistance Charge per month on each account for non-residential electric service which had 10 megawatts or greater of peak demand during the previous calendar year; and
6. Three hundred and seventy-five times the Base Energy Assistance Charge per month on each account for non-residential gas service which had 4,000,000 or more therms of gas distributed to it during the previous
calendar year.

The Base Energy Assistance Charge shall be $0.48 per month for the calendar year beginning January 1, 2022 and shall increase by $0.16 per month for any calendar year, provided no less than 80% of the previous State fiscal year's available Supplemental Low-Income Energy Assistance Fund funding was exhausted. The maximum Base Energy Assistance Charge shall not exceed $0.96 per month for any calendar year.

(1) $0.48 per month on each account for residential electric service;

(2) $0.48 per month on each account for residential gas service;

(3) $4.80 per month on each account for non-residential electric service which had less than 10 megawatts of peak demand during the previous calendar year;

(4) $4.80 per month on each account for non-residential gas service which had distributed to it less than 4,000,000 therms of gas during the previous calendar year;

(5) $360 per month on each account for non-residential electric service which had 10 megawatts or greater of peak demand during the previous calendar year, and

(6) $360 per month on each account for non-residential gas service which had 4,000,000 or more therms of gas distributed to it during the previous calendar year.
The incremental change to such charges imposed by Public Act 99-933 and this amendatory Act of the 102nd General Assembly shall not (i) be used for any purpose other than to directly assist customers and (ii) be applicable to utilities serving less than 25,000 customers in Illinois on January 1, 2021. The incremental change to such charges imposed by this amendatory Act of the 102nd General Assembly are intended to increase utilization of the Percentage of Income Payment Plan (PIPP or PIP Plan) and shall be applied such that PIP Plan enrollment is at least doubled, as compared to 2020 enrollment, by 2024.

In addition, electric and gas utilities have committed, and shall contribute, a one-time payment of $22 million to the Fund, within 10 days after the effective date of the tariffs established pursuant to Sections 16-111.8 and 19-145 of the Public Utilities Act to be used for the Department's cost of implementing the programs described in Section 18 of this amendatory Act of the 96th General Assembly, the Arrearage Reduction Program described in Section 18, and the programs described in Section 8-105 of the Public Utilities Act. If a utility elects not to file a rider within 90 days after the effective date of this amendatory Act of the 96th General Assembly, then the contribution from such utility shall be made no later than February 1, 2010.

(c) For purposes of this Section:
(1) "residential electric service" means electric utility service for household purposes delivered to a dwelling of 2 or fewer units which is billed under a residential rate, or electric utility service for household purposes delivered to a dwelling unit or units which is billed under a residential rate and is registered by a separate meter for each dwelling unit;

(2) "residential gas service" means gas utility service for household purposes distributed to a dwelling of 2 or fewer units which is billed under a residential rate, or gas utility service for household purposes distributed to a dwelling unit or units which is billed under a residential rate and is registered by a separate meter for each dwelling unit;

(3) "non-residential electric service" means electric utility service which is not residential electric service; and

(4) "non-residential gas service" means gas utility service which is not residential gas service.

(d) Within 30 days after the effective date of this amendatory Act of the 96th General Assembly, each public utility engaged in the delivery of electricity or the distribution of natural gas shall file with the Illinois Commerce Commission tariffs incorporating the Energy Assistance Charge in other charges stated in such tariffs, which shall become effective no later than the beginning of
the first billing cycle following such filing.

(e) The Energy Assistance Charge assessed by electric and
gas public utilities shall be considered a charge for public
utility service.

(f) By the 20th day of the month following the month in
which the charges imposed by the Section were collected, each
public utility, municipal utility, and electric cooperative
shall remit to the Department of Revenue all moneys received
as payment of the Energy Assistance Charge on a return
prescribed and furnished by the Department of Revenue showing
such information as the Department of Revenue may reasonably
require; provided, however, that a utility offering an
Arrearage Reduction Program or Supplemental Arrearage
Reduction Program pursuant to Section 18 of this Act shall be
entitled to net those amounts necessary to fund and recover
the costs of such Programs as authorized by that Section that
is no more than the incremental change in such Energy
Assistance Charge authorized by Public Act 96-33. If a
customer makes a partial payment, a public utility, municipal
utility, or electric cooperative may elect either: (i) to
apply such partial payments first to amounts owed to the
utility or cooperative for its services and then to payment
for the Energy Assistance Charge or (ii) to apply such partial
payments on a pro-rata basis between amounts owed to the
utility or cooperative for its services and to payment for the
Energy Assistance Charge.
If any payment provided for in this Section exceeds the distributor's liabilities under this Act, as shown on an original return, the Department may authorize the distributor to credit such excess payment against liability subsequently to be remitted to the Department under this Act, in accordance with reasonable rules adopted by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the distributor, the distributor's discount shall be reduced by an amount equal to the difference between the discount as applied to the credit taken and that actually due, and that distributor shall be liable for penalties and interest on such difference.

(g) The Department of Revenue shall deposit into the Supplemental Low-Income Energy Assistance Fund all moneys remitted to it in accordance with subsection (f) of this Section, provided, however, that the amounts remitted by each utility shall be used to provide assistance to that utility's customers. The utilities shall coordinate with the Department to establish an equitable and practical methodology for implementing this subsection (g) beginning with the 2010 program year.

(h) On or before December 31, 2002, the Department shall prepare a report for the General Assembly on the expenditure of funds appropriated from the Low-Income Energy Assistance Block Grant Fund for the program authorized under Section 4 of this Act.
(i) The Department of Revenue may establish such rules as it deems necessary to implement this Section.

(j) The Department of Commerce and Economic Opportunity may establish such rules as it deems necessary to implement this Section.

(k) The charges imposed by this Section shall only apply to customers of municipal electric or gas utilities and electric or gas cooperatives if the municipal electric or gas utility or electric or gas cooperative makes an affirmative decision to impose the charge. If a municipal electric or gas utility or an electric cooperative makes an affirmative decision to impose the charge provided by this Section, the municipal electric or gas utility or electric cooperative shall inform the Department of Revenue in writing of such decision when it begins to impose the charge. If a municipal electric or gas utility or electric or gas cooperative does not assess this charge, the Department may not use funds from the Supplemental Low-Income Energy Assistance Fund to provide benefits to its customers under the program authorized by Section 4 of this Act.

In its use of federal funds under this Act, the Department may not cause a disproportionate share of those federal funds to benefit customers of systems which do not assess the charge provided by this Section.

This Section is repealed on January 1, 2025 unless renewed by action of the General Assembly.
Sec. 20. Expanded eligibility. All programs pursuant to
this Act shall be available to eligible low-income Illinois
residents who qualify for assistance under Sections 6 and 18,
regardless of immigration status, using the Supplemental
Low-Income Energy Assistance Fund for customers of utilities
and vendors that collect the Energy Assistance Charge and pay
into the Supplemental Low-Income Energy Assistance Fund.

G. Approved personal flotation devices are defined as a device that is approved by the United States Coast Guard under Title 46 CFR Part 160.

H. (Blank).

H-5. An approved and appropriately sized wearable U.S. Coast Guard approved personal flotation device shall be worn by each person under the age of 13 while in tow.

I. No person may operate any watercraft under 26 feet in length unless an approved and appropriately sized wearable U.S. United States Coast Guard approved personal flotation device is being properly worn by each person under the age of 13 on the deck of a watercraft or in an open
watercraft board the watercraft at all times in which the watercraft is underway; however, this requirement shall not apply to persons who are enclosed in a cabin or below the top deck on a watercraft, on an anchored watercraft that is a platform for swimming or diving, or aboard a charter "passenger for hire" watercraft with a licensed captain, below decks or in totally enclosed cabin spaces. The provisions of this subsection shall not apply to a person operating a watercraft on an individual's private property.

J. Racing shells, rowing sculls, racing canoes, and racing kayaks are exempt from the PFD, of any type, carriage requirements under this Section provided that the racing shell, racing scull, racing canoe, or racing kayak is participating in an event sanctioned by the Department as a PFD optional event. The Department may adopt rules to implement this subsection.

(625 ILCS 45/4-2) (from Ch. 95 1/2, par. 314-2)

Sec. 4-2. Navigation lights.

A. Watercraft subject to this Section shall be divided into classes as follows: It is unlawful to operate any vessel less than 39 feet in length unless the following lights are carried and displayed when underway from sunset to sunrise:

1. Class 1: Less than 16 feet in length. A bright, white light after to show all around the horizon, visible
for a distance of 2 miles. The word "visible" as used herein means visible on a dark night with clear atmosphere.

2. Class 2: 16 feet or over and less than 26 feet in length. A combination light in the forepart of the boat lower than the white light after, showing green to starboard and red to port, so fixed as to throw a light from dead ahead to 2 points abaft the beam on their respective sides and visible for a distance of not less than 1 mile.

3. Class 3: 26 feet or over and less than 40 feet in length. Lights under International Rules may be shown as an alternative to the above requirements.

4. Class 4: 40 feet or over and less than 65 feet in length.

B. Every motorboat, underway from sunset to sunrise or underway in weather causing reduced visibility, shall carry and exhibit the following United States Coast Guard approved lights when underway and, during such time, shall not use any other lights that may be mistaken for or interfere with those prescribed as follows:

1. A Class 1 or Class 2 motorboat shall carry the following lights:

   (a) A bright white light aft to show all around the horizon; and

   (b) A combined light in the fore part of the
watercraft and lower than the white light aft, showing
green to starboard and red to port, so fixed as to
throw the light from right ahead to 2 points (22.5
degrees) abaft the beam on their respective sides.

2. A Class 3 or Class 4 motorboat shall carry the
following lights:

(a) A bright white light in the fore part of the
watercraft as near the stern as practicable, so
constructed as to show the unbroken light over an arc
of the horizon of 20 points (225 degrees) of the
compass, so fixed as to throw the light 10 points
(112.5 degrees) on each side of the watercraft,
namely, from right ahead to 2 points (22.5 degrees)
abaft the beam on either side;

(b) A bright white light aft, mounted higher than
the white light forward, to show all around the
horizon; and

(c) On the starboard side, a green light so
constructed as to show an unbroken light over an arc of
the horizon of 10 points (112.5 degrees) of the
compass, so fixed as to throw the light from right
ahead to 2 points (22.5 degrees) abaft the beam on the
starboard side. On the port side, a red light so
constructed as to show an unbroken light over an arc of
the horizon of 10 points (112.5 degrees) of the
compass, so fixed as to throw the light from right
ahead to 2 points (22.5 degrees) abaft the beam on the port side. The side lights shall be fitted with inboard screens so set as to prevent these lights from being seen across the bow.

3. A Class 1 or Class 2 motorboat propelled by sail alone shall exhibit the combined light prescribed by paragraph (1) and a 12-point (135 degrees) white light aft. A Class 3 or Class 4 motorboat, when so propelled, shall exhibit the colored side lights, suitably screened as prescribed by paragraph (2) and a 12-point (135 degrees) white light aft.

4. Every white light prescribed by this Section shall be of such character as to be visible at a distance of at least 2 miles. Every colored light prescribed by this Section shall be of such character as to be visible at a distance of at least one mile. As used in this subsection "visible", when applied to lights, means visible on a dark night with clear atmosphere.

5. If propelled by sail and machinery, a motorboat shall carry the lights required by this Section for a motorboat propelled by machinery only.

6. All other watercraft over 65 feet in length and those propelled solely by wind effect on the sail shall display lights prescribed by federal regulations. Watercraft propelled by muscular power when underway shall carry on board from sunset to sunrise, but not fixed to any
part of the boat, a lantern or flashlight capable of showing a
white light visible all around the horizon at a distance of 2
miles or more, and shall display such lantern in sufficient
time to avoid collision with another watercraft.

C. Nonpowered watercraft shall carry, ready at hand, a
lantern or flashlight showing a white light that shall be
exhibited in sufficient time to avert collision. Manually
propelled watercraft used on the waters of this State where
power-driven vessels are prohibited are exempt from the
provisions of this Section. Every vessel 39 feet or more in
length shall carry and display when underway such additional
or alternate lights as shall be required by the U. S. Coast
Guard for watercraft of equivalent length and type.

D. Any watercraft may carry and exhibit the lights
required by the international regulations in lieu of the
lights required by subsection B of this Section. Sailboats
equipped with motors and being propelled partly or solely by
such motors shall carry and display the same lights required
for motorboats of the same class. Sailboats being propelled
entirely by sail between sunset and sunrise shall have lighted
the combination running light, and a white light visible aft
only. Sailboats 26 feet or more in length, equipped with
motors but being propelled entirely by sail between sunset and
sunrise, shall have lighted the colored side lights suitably
screened, but not the white lights prescribed for motorboats.

E. All watercraft, when anchored, other than in a special
anchorage area as defined in 33 CFR 109.10, shall, from sunset to sunrise, carry and display a steady white light visible all around the horizon for a distance of no less than 2 miles. Dinghies, tenders and other watercraft, whose principal function is as an auxiliary to other larger watercraft, when so operating need carry only a flashlight visible to other craft in the area, anything in this section to the contrary notwithstanding.

F. (Blank). Vessels at anchor between the hours of sunset and sunrise, except those in a "Special Anchorage Area", shall display such anchor lights as shall be required by the U. S. Coast Guard for watercraft of equivalent length and type.

G. (Blank). Watercraft operated manually or by motor which are located on bodies of water where motors of over 7 1/2 horsepower are prohibited must be equipped during the hours between sunset and sunrise with a lantern or flashlight which is capable of showing a beam for 2 miles, anything in this Section to the contrary notwithstanding.

(625 ILCS 45/5-3) (from Ch. 95 1/2, par. 315-3)

Sec. 5-3. Interference with navigation.

(a) No person shall operate any watercraft in a manner which unreasonably or unnecessarily interferes with other watercraft or with the free and proper navigation of the waterways of the State. Anchoring under bridges or in heavily
traveled channels constitutes such interference if unreasonable under the prevailing circumstances.

(b) A vessel engaged in fishing shall not impede the passage of any other vessel navigating within a narrow channel or canal.

(c) A vessel nearing a bend or an area of a narrow channel or canal where other vessels may be obscured by an intervening obstruction shall navigate with alertness and caution and shall sound the appropriate audible signal as required by the Inland Rules as written by the United States Coast Guard and this Act.

(d) A vessel shall avoid anchoring in a narrow channel, under bridges, or in heavily traveled channels or canals, if unreasonable under the prevailing circumstances.

(Source: P.A. 82-783.)

(625 ILCS 45/5-13) (from Ch. 95 1/2, par. 315-8)

Sec. 5-13. Traffic rules.

A. The area straight ahead of a vessel to the point that is 22.5 degrees beyond the middle of the vessel on the starboard side of the watercraft shall be designated the danger zone. An operator of a watercraft shall yield the right-of-way to any other watercraft occupying or entering into the danger zone that may result in collision. Passing. When 2 boats are approaching each other "head on" or nearly so (so as to involve risk of collision), each boat must bear to the right and pass
the other boat on its left side.

A-5. Head-on situation.

(1) If 2 power-driven vessels are meeting head-on or nearly head-on courses so as to involve risk of collision, each shall alter course to starboard so that each shall pass on the port side of the other.

(2) A vessel proceeding along the course of a narrow channel or canal shall keep as near to the outer limit of the channel or canal that lies on the starboard side as is safe and practicable.

(3) A power-driven vessel operating in narrow channels and proceeding downstream shall have the right-of-way over a vessel proceeding upstream. The vessel proceeding upstream shall yield as necessary to permit safe passing.

B. Crossing. As used in this Section, "crossing" means 2 or more watercraft traveling in directions that would have the path of travel of the watercraft intersect each other. When boats approach each other obliquely or at right angles, the boat approaching on the right side has the right of way.

(1) If 2 power-driven vessels are crossing so as to involve the risk of collision, the vessel that has the other on the starboard side shall keep out of the way and shall avoid crossing ahead of the other vessel.

(2) A power-driven vessel crossing a river shall keep out of the way of a power-driven vessel ascending or descending the river.
A vessel may not cross a narrow channel or canal if the crossing impedes the passage of a vessel that can only safely navigate within the channel or canal.

C. Overtaking. One boat may overtake another on either side but must grant right of way to the overtaken boat.

   (1) A vessel overtaking any other shall give way to the vessel being overtaken.

   (2) If a vessel operator is in doubt as to whether he or she is overtaking another vessel, the operator shall assume he or she is overtaking the other vessel and shall act accordingly.

   (3) Any subsequent alteration of the bearing between the 2 vessels shall not make the overtaking vessel a crossing vessel within the meaning of this Section or relieve the overtaking operator of the duty to keep clear of the overtaken vessel until finally past and clear.

   (4) When overtaking in a narrow channel or canal, the operator of a power-driven vessel intending to overtake another power-driven vessel shall proceed to pass safety only after indicating his or her intention by sounding the horn as follows:

      (a) one short blast from the horn signifies a request to pass on the overtaken vessel's starboard side;

      (b) 2 short blasts from the horn signify a request to pass on the overtaken vessel's port side.
The operator of the power-driven vessel being overtaken shall:

(a) acknowledge the request by sounding the same signal; or

(b) sound 5 short blasts from the horn to indicate danger or to warn the overtaking vessel not to pass.

No response from the overtaken vessel shall be interpreted as an indication of danger and is the same as if 5 short blasts from the horn were sounded. In the absence of an audible signal or horn, a light signal device using the appropriate number of rapid bursts of light may be used.

D. Sailing vessels.

(1) The operator of a power-driven vessel shall yield the right-of-way to any nonpowered or sailing vessel unless the nonpowered vessel is overtaking the power-driven vessel or Sailboats and Rowboats. When a motorboat is approaching a boat propelled solely by sails or oars, the motorboat must yield the right-of-way to the sailboat or rowboat except when a large craft is navigating in a confined channel, the large craft has the right-of-way over a boat propelled solely by oars or sails.

(2) If 2 sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows:
(a) If each has the wind on a different side, the vessel that has the wind on the port side shall give way to the other vessel.

(b) If both have the wind on the same side, the vessel that is to windward shall give way to the vessel that is to leeward.

(c) If a vessel with the wind on the port side sees a vessel to windward and cannot determine with certainty whether the other vessel has the wind on the port or starboard side, the vessel shall give way to the other vessel.

ARTICLE 20. AMENDATORY PROVISIONS

Section 20-5. The Secretary of State Act is amended by changing Section 18 as follows:

(15 ILCS 305/18)

Sec. 18. Electronic Filing Supplemental Deposits into Department of Business Services Special Operations Fund. When a submission to the Secretary of State is made electronically, but does not include a request for expedited services, pursuant to the provisions of this amendatory Act of the 100th General Assembly up to $25 for each such transaction under the General Not For Profit Corporation Act of 1986 and up to $50
from each such transaction under the Business Corporation Act of 1983, the Limited Liability Company Act, or the Uniform Limited Partnership Act (2001) shall be deposited into the Department of Business Services Special Operations Fund, and the remainder of any fee deposited into the General Revenue Fund. The Secretary of State has the authority to adopt rules necessary to implement this Section, in accordance with the Illinois Administrative Procedure Act. This Section does not apply on or after July 1, 2023 2021.

Section 20-20. The Illinois Procurement Code is amended by changing Section 1-13 as follows:

(30 ILCS 500/1-13)
Sec. 1-13. Applicability to public institutions of higher education.

(a) This Code shall apply to public institutions of higher education, regardless of the source of the funds with which contracts are paid, except as provided in this Section.

(b) Except as provided in this Section, this Code shall not apply to procurements made by or on behalf of public institutions of higher education for any of the following:

(1) Memberships in professional, academic, research, or athletic organizations on behalf of a public institution of higher education, an employee of a public institution of higher education, or a student at a public institution of higher education.

(2) Procurement expenditures for events or activities paid for exclusively by revenues generated by the event or activity, gifts or donations for the event or activity, private grants, or any combination thereof.

(3) Procurement expenditures for events or activities for which the use of specific potential contractors is mandated or identified by the sponsor of the event or activity, provided that the sponsor is providing a majority of the funding for the event or activity.

(4) Procurement expenditures necessary to provide athletic, artistic or musical services, performances, events, or productions by or for a public institution of higher education.
(5) Procurement expenditures for periodicals, books, subscriptions, database licenses, and other publications procured for use by a university library or academic department, except for expenditures related to procuring textbooks for student use or materials for resale or rental.

(6) Procurement expenditures for placement of students in externships, practicums, field experiences, and for medical residencies and rotations.

(7) Contracts for programming and broadcast license rights for university-operated radio and television stations.

(8) Procurement expenditures necessary to perform sponsored research and other sponsored activities under grants and contracts funded by the sponsor or by sources other than State appropriations.

(9) Contracts with a foreign entity for research or educational activities, provided that the foreign entity either does not maintain an office in the United States or is the sole source of the service or product.

Notice of each contract entered into by a public institution of higher education that is related to the procurement of goods and services identified in items (1) through (9) of this subsection shall be published in the Procurement Bulletin within 14 calendar days after contract execution. The Chief Procurement Officer shall prescribe the form and content of
the notice. Each public institution of higher education shall provide the Chief Procurement Officer, on a monthly basis, in the form and content prescribed by the Chief Procurement Officer, a report of contracts that are related to the procurement of goods and services identified in this subsection. At a minimum, this report shall include the name of the contractor, a description of the supply or service provided, the total amount of the contract, the term of the contract, and the exception to the Code utilized. A copy of any or all of these contracts shall be made available to the Chief Procurement Officer immediately upon request. The Chief Procurement Officer shall submit a report to the Governor and General Assembly no later than November 1 of each year that shall include, at a minimum, an annual summary of the monthly information reported to the Chief Procurement Officer.

(b-5) Except as provided in this subsection, the provisions of this Code shall not apply to contracts for medical supplies, and to contracts for medical services necessary for the delivery of care and treatment at medical, dental, or veterinary teaching facilities utilized by Southern Illinois University or the University of Illinois and at any university-operated health care center or dispensary that provides care, treatment, and medications for students, faculty and staff. Other supplies and services needed for these teaching facilities shall be subject to the jurisdiction of the Chief Procurement Officer for Public Institutions of
Higher Education who may establish expedited procurement
procedures and may waive or modify certification, contract,
hearing, process and registration requirements required by the
Code. All procurements made under this subsection shall be
documented and may require publication in the Illinois
Procurement Bulletin.

(b-10) Procurements made by or on behalf of the University
of Illinois for investment services scheduled to expire June
2021 2020 may be extended through June 2022 2021 without being
subject to the requirements of this Code. Any contract
extended, renewed, or entered pursuant to this exception shall
be published on the Executive Ethics Commission's website
within 5 days of contract execution. This subsection is
inoperative on and after July 1, 2022 2021.

(c) Procurements made by or on behalf of public
institutions of higher education for the fulfillment of a
grant shall be made in accordance with the requirements of
this Code to the extent practical.

Upon the written request of a public institution of higher
education, the Chief Procurement Officer may waive contract,
registration, certification, and hearing requirements of this
Code if, based on the item to be procured or the terms of a
grant, compliance is impractical. The public institution of
higher education shall provide the Chief Procurement Officer
with specific reasons for the waiver, including the necessity
of contracting with a particular potential contractor, and
shall certify that an effort was made in good faith to comply with the provisions of this Code. The Chief Procurement Officer shall provide written justification for any waivers. By November 1 of each year, the Chief Procurement Officer shall file a report with the General Assembly identifying each contract approved with waivers and providing the justification given for any waivers for each of those contracts. Notice of each waiver made under this subsection shall be published in the Procurement Bulletin within 14 calendar days after contract execution. The Chief Procurement Officer shall prescribe the form and content of the notice.

(d) Notwithstanding this Section, a waiver of the registration requirements of Section 20-160 does not permit a business entity and any affiliated entities or affiliated persons to make campaign contributions if otherwise prohibited by Section 50-37. The total amount of contracts awarded in accordance with this Section shall be included in determining the aggregate amount of contracts or pending bids of a business entity and any affiliated entities or affiliated persons.

(e) Notwithstanding subsection (e) of Section 50-10.5 of this Code, the Chief Procurement Officer, with the approval of the Executive Ethics Commission, may permit a public institution of higher education to accept a bid or enter into a contract with a business that assisted the public institution of higher education in determining whether there is a need for
a contract or assisted in reviewing, drafting, or preparing
documents related to a bid or contract, provided that the bid
or contract is essential to research administered by the
public institution of higher education and it is in the best
interest of the public institution of higher education to
accept the bid or contract. For purposes of this subsection,
"business" includes all individuals with whom a business is
affiliated, including, but not limited to, any officer, agent,
employee, consultant, independent contractor, director,
partner, manager, or shareholder of a business. The Executive
Ethics Commission may promulgate rules and regulations for the
implementation and administration of the provisions of this
subsection (e).

(f) As used in this Section:

"Grant" means non-appropriated funding provided by a
federal or private entity to support a project or program
administered by a public institution of higher education and
any non-appropriated funding provided to a sub-recipient of
the grant.

"Public institution of higher education" means Chicago
State University, Eastern Illinois University, Governors State
University, Illinois State University, Northeastern Illinois
University, Northern Illinois University, Southern Illinois
University, University of Illinois, Western Illinois
University, and, for purposes of this Code only, the Illinois
Mathematics and Science Academy.
(g) (Blank).

(h) The General Assembly finds and declares that:

   (1) Public Act 98-1076, which took effect on January 1, 2015, changed the repeal date set for this Section from December 31, 2014 to December 31, 2016.

   (2) The Statute on Statutes sets forth general rules on the repeal of statutes and the construction of multiple amendments, but Section 1 of that Act also states that these rules will not be observed when the result would be "inconsistent with the manifest intent of the General Assembly or repugnant to the context of the statute".

   (3) This amendatory Act of the 100th General Assembly manifests the intention of the General Assembly to remove the repeal of this Section.

   (4) This Section was originally enacted to protect, promote, and preserve the general welfare. Any construction of this Section that results in the repeal of this Section on December 31, 2014 would be inconsistent with the manifest intent of the General Assembly and repugnant to the context of this Code.

It is hereby declared to have been the intent of the General Assembly that this Section not be subject to repeal on December 31, 2014.

This Section shall be deemed to have been in continuous effect since December 20, 2011 (the effective date of Public Act 97-643), and it shall continue to be in effect
henceforward until it is otherwise lawfully repealed. All previously enacted amendments to this Section taking effect on or after December 31, 2014, are hereby validated. All actions taken in reliance on or pursuant to this Section by any public institution of higher education, person, or entity are hereby validated.

In order to ensure the continuing effectiveness of this Section, it is set forth in full and re-enacted by this amendatory Act of the 100th General Assembly. This re-enactment is intended as a continuation of this Section. It is not intended to supersede any amendment to this Section that is enacted by the 100th General Assembly.

In this amendatory Act of the 100th General Assembly, the base text of the reenacted Section is set forth as amended by Public Act 98-1076. Striking and underscoring is used only to show changes being made to the base text.

This Section applies to all procurements made on or before the effective date of this amendatory Act of the 100th General Assembly.

Section 20-25. The Grant Accountability and Transparency Act is amended by changing Section 45 as follows:

(30 ILCS 708/45)

Sec. 45. Applicability.
(a) The requirements established under this Act apply to State grant-making agencies that make State and federal pass-through awards to non-federal entities. These requirements apply to all costs related to State and federal pass-through awards. The requirements established under this Act do not apply to private awards.

(a-5) Nothing in this Act shall prohibit the use of State funds for purposes of federal match or maintenance of effort.

(b) The terms and conditions of State, federal, and pass-through awards apply to subawards and subrecipients unless a particular Section of this Act or the terms and conditions of the State or federal award specifically indicate otherwise. Non-federal entities shall comply with requirements of this Act regardless of whether the non-federal entity is a recipient or subrecipient of a State or federal pass-through award. Pass-through entities shall comply with the requirements set forth under the rules adopted under subsection (a) of Section 20 of this Act, but not to any requirements in this Act directed towards State or federal awarding agencies, unless the requirements of the State or federal awards indicate otherwise.

When a non-federal entity is awarded a cost-reimbursement contract, only 2 CFR 200.330 through 200.332 are incorporated by reference into the contract. However, when the Cost Accounting Standards are applicable to the contract, they take precedence over the requirements of this Act unless they are
in conflict with Subpart F of 2 CFR 200. In addition, costs
that are made unallowable under 10 U.S.C. 2324(e) and 41
U.S.C. 4304(a), as described in the Federal Acquisition
Regulations, subpart 31.2 and subpart 31.603, are always
unallowable. For requirements other than those covered in
Subpart D of 2 CFR 200.330 through 200.332, the terms of the
contract and the Federal Acquisition Regulations apply.

With the exception of Subpart F of 2 CFR 200, which is
required by the Single Audit Act, in any circumstances where
the provisions of federal statutes or regulations differ from
the provisions of this Act, the provision of the federal
statutes or regulations govern. This includes, for agreements
with Indian tribes, the provisions of the Indian
Self-Determination and Education and Assistance Act, as

(c) State grant-making agencies may apply subparts A
through E of 2 CFR 200 to for-profit entities, foreign public
entities, or foreign organizations, except where the awarding
agency determines that the application of these subparts would
be inconsistent with the international obligations of the
United States or the statute or regulations of a foreign
government.

(d) 2 CFR 200.101 specifies how 2 CFR 200 is applicable to
different types of awards. The same applicability applies to
this Act.

(e) (Blank).

The Department shall use the quarterly payroll-based journal and the self-reported census to calculate the number of hours provided per resident per day and compare this ratio to the minimum staffing standards required under this Section, as impacted by any waivers granted under Section 3-303.1. Discrepancies between job titles contained in this Section and the payroll-based journal shall be addressed by rule. The manner in which the Department requests payroll-based journal information to be submitted shall align with the federal Centers for Medicare and Medicaid Services' requirements that allow providers to submit the quarterly data in an aggregate manner.

(g) The Department shall submit proposed rules for adoption by January 1, 2020 establishing monetary penalties for facilities not in compliance with minimum staffing standards under this Section. No monetary penalty may be issued for noncompliance during the implementation period, which shall be July 1, 2020 through December 31, 2021. September 30, 2020. Monetary penalties shall be imposed beginning no later than January 1, 2022 January 1, 2021 and quarterly thereafter and shall be based on the latest quarter for which the Department has data. Monetary penalties shall be established based on a formula that calculates on a daily basis the cost of wages and benefits for the missing staffing hours. All notices of noncompliance shall include the computations used to determine noncompliance and establishing the variance between minimum staffing ratios and the Department's computations. The penalty for the first offense shall be 125% of the cost of wages and benefits for the missing staffing hours. The penalty shall increase to 150% of the cost of wages and benefits for the missing staffing hours for the second offense and 200% the cost of wages and benefits for the missing staffing hours for the third and all subsequent offenses. The penalty shall be imposed regardless of whether the facility has committed other violations of this Act during the same period that the staffing offense occurred. The penalty may not be waived, but the Department shall have the discretion to determine the gravity of the violation in situations where there is no more than a 10% deviation from the staffing requirements and make appropriate adjustments to the penalty. The Department is granted discretion to waive the penalty when unforeseen
circumstances have occurred that resulted in call-offs of scheduled staff. This provision shall be applied no more than 6 times per quarter. Nothing in this Section diminishes a facility's right to appeal.

(740 ILCS 14/35 new)

Sec. 35. Department of Labor website. The Department of Labor shall provide on its website information for employers regarding the requirements of this Act.

Section 20-80. The Workers' Compensation Act is amended by changing Sections 5, 13, and 14 as follows:

(820 ILCS 305/5) (from Ch. 48, par. 138.5)

Sec. 5. Damages; minors; third-party liability.

(a) Except as provided in Section 1.2, no common law or statutory right to recover damages from the employer, his insurer, his broker, any service organization that is wholly owned by the employer, his insurer or his broker and that provides safety service, advice or recommendations for the employer or the agents or employees of any of them for injury or death sustained by any employee while engaged in the line of his duty as such employee, other than the compensation herein provided, is available to any employee who is covered by the
provisions of this Act, to any one wholly or partially
dependent upon him, the legal representatives of his estate,
or any one otherwise entitled to recover damages for such
injury.

However, in any action now pending or hereafter begun to
enforce a common law or statutory right to recover damages for
negligently causing the injury or death of any employee it is
not necessary to allege in the complaint that either the
employee or the employer or both were not governed by the
provisions of this Act or of any similar Act in force in this
or any other State.

Moreover, nothing in this Act limits, prevents, or
preempts a recovery by an employee under the Biometric
Information Privacy Act.

Any illegally employed minor or his legal representatives
shall, except as hereinafter provided, have the right within 6
months after the time of injury or death, or within 6 months
after the appointment of a legal representative, whichever
shall be later, to file with the Commission a rejection of his
right to the benefits under this Act, in which case such
illegally employed minor or his legal representatives shall
have the right to pursue his or their common law or statutory
remedies to recover damages for such injury or death.

No payment of compensation under this Act shall be made to
an illegally employed minor, or his legal representatives,
unless such payment and the waiver of his right to reject the
benefits of this Act has first been approved by the Commission
or any member thereof, and if such payment and the waiver of
his right of rejection has been so approved such payment is a
bar to a subsequent rejection of the provisions of this Act.

(b) Where the injury or death for which compensation is
payable under this Act was caused under circumstances creating
a legal liability for damages on the part of some person other
than his employer to pay damages, then legal proceedings may
be taken against such other person to recover damages
notwithstanding such employer's payment of or liability to pay
compensation under this Act. In such case, however, if the
action against such other person is brought by the injured
employee or his personal representative and judgment is
obtained and paid, or settlement is made with such other
person, either with or without suit, then from the amount
received by such employee or personal representative there
shall be paid to the employer the amount of compensation paid
or to be paid by him to such employee or personal
representative including amounts paid or to be paid pursuant
to paragraph (a) of Section 8 of this Act.

Out of any reimbursement received by the employer pursuant
to this Section the employer shall pay his pro rata share of
all costs and reasonably necessary expenses in connection with
such third-party claim, action or suit and where the services
of an attorney at law of the employee or dependents have
resulted in or substantially contributed to the procurement by
suit, settlement or otherwise of the proceeds out of which the
employer is reimbursed, then, in the absence of other
agreement, the employer shall pay such attorney 25% of the
gross amount of such reimbursement.

If the injured employee or his personal representative
agrees to receive compensation from the employer or accept
from the employer any payment on account of such compensation,
or to institute proceedings to recover the same, the employer
may have or claim a lien upon any award, judgment or fund out
of which such employee might be compensated from such third
party.

In such actions brought by the employee or his personal
representative, he shall forthwith notify his employer by
personal service or registered mail, of such fact and of the
name of the court in which the suit is brought, filing proof
thereof in the action. The employer may, at any time
thereafter join in the action upon his motion so that all
orders of court after hearing and judgment shall be made for
his protection. No release or settlement of claim for damages
by reason of such injury or death, and no satisfaction of
judgment in such proceedings shall be valid without the
written consent of both employer and employee or his personal
representative, except in the case of the employers, such
consent is not required where the employer has been fully
indemnified or protected by Court order.

In the event the employee or his personal representative
fails to institute a proceeding against such third person at any time prior to 3 months before such action would be barred, the employer may in his own name or in the name of the employee, or his personal representative, commence a proceeding against such other person for the recovery of damages on account of such injury or death to the employee, and out of any amount recovered the employer shall pay over to the injured employee or his personal representatives all sums collected from such other person by judgment or otherwise in excess of the amount of such compensation paid or to be paid under this Act, including amounts paid or to be paid pursuant to paragraph (a) of Section 8 of this Act, and costs, attorney's fees and reasonable expenses as may be incurred by such employer in making such collection or in enforcing such liability.

(C) An amount equal to the amount received during the taxable year as a recovery or refund of real property taxes paid with respect to the taxpayer's principal residence under the Revenue Act of 1939 and for which a deduction was previously taken under
subparagraph (L) of this paragraph (2) prior to July 1, 1991, the retrospective application date of Article 4 of Public Act 87-17. In the case of multi-unit or multi-use structures and farm dwellings, the taxes on the taxpayer's principal residence shall be that portion of the total taxes for the entire property which is attributable to such principal residence;

(D) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of adjusted gross income;

(D-5) An amount, to the extent not included in adjusted gross income, equal to the amount of money withdrawn by the taxpayer in the taxable year from a medical care savings account and the interest earned on the account in the taxable year of a withdrawal pursuant to subsection (b) of Section 20 of the Medical Care Savings Account Act or subsection (b) of Section 20 of the Medical Care Savings Account Act of 2000;

(D-10) For taxable years ending after December 31, 1997, an amount equal to any eligible remediation costs that the individual deducted in computing adjusted gross income and for which the individual claims a credit under subsection (l) of Section 201;

(D-15) For taxable years 2001 and thereafter, an
amount equal to the bonus depreciation deduction taken on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(D-16) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-15), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (Z) with respect to that property.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (Z), the taxpayer may claim a depreciation deduction for federal income tax purposes and for which the taxpayer was allowed in any taxable year to make a subtraction modification under subparagraph (Z), then an amount equal to that subtraction modification.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(D-17) An amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or
indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or
incurred, directly or indirectly, to a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance;
or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-18) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business
activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(a)(2)(D-17) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management,
ownership, sale, exchange, or any other disposition of
intangible property; (2) losses incurred, directly or
indirectly, from factoring transactions or discounting
transactions; (3) royalty, patent, technical, and
copyright fees; (4) licensing fees; and (5) other
similar expenses and costs. For purposes of this
subparagraph, "intangible property" includes patents,
patent applications, trade names, trademarks, service
marks, copyrights, mask works, trade secrets, and
similar types of intangible assets.

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs
paid, accrued, or incurred, directly or
indirectly, from a transaction with a person who
is subject in a foreign country or state, other
than a state which requires mandatory unitary
reporting, to a tax on or measured by net income
with respect to such item; or

(ii) any item of intangible expense or cost
paid, accrued, or incurred, directly or
indirectly, if the taxpayer can establish, based
on a preponderance of the evidence, both of the
following:

(a) the person during the same taxable
year paid, accrued, or incurred, the
intangible expense or cost to a person that is
not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;
For taxable years ending on or after December 31, 2008, an amount equal to the amount of insurance premium expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(a)(2)(D-17) or Section 203(a)(2)(D-18) of this
(D-20) For taxable years beginning on or after January 1, 2002 and ending on or before December 31, 2006, in the case of a distribution from a qualified tuition program under Section 529 of the Internal Revenue Code, other than (i) a distribution from a College Savings Pool created under Section 16.5 of the State Treasurer Act or (ii) a distribution from the Illinois Prepaid Tuition Trust Fund, an amount equal to the amount excluded from gross income under Section 529(c)(3)(B). This subparagraph (GG) is exempt from the provisions of Section 250; and

(HH) For taxable years beginning on or after January 1, 2018 and prior to January 1, 2023, a maximum
of $10,000 contributed in the taxable year to a qualified ABLE account under Section 16.6 of the State Treasurer Act, except that amounts excluded from gross income under Section 529(c)(3)(C)(i) or Section 529A(c)(1)(C) of the Internal Revenue Code shall not be considered moneys contributed under this subparagraph (HH). For purposes of this subparagraph (HH), contributions made by an employer on behalf of an employee, or matching contributions made by an employee, shall be treated as made by the employee.

(b) Corporations.

(1) In general. In the case of a corporation, base income means an amount equal to the taxpayer's taxable income for the taxable year as modified by paragraph (2).

(2) Modifications. The taxable income referred to in paragraph (1) shall be modified by adding thereeto the sum of the following amounts:

(A) An amount equal to all amounts paid or accrued to the taxpayer as interest and all distributions received from regulated investment companies during the taxable year to the extent excluded from gross income in the computation of taxable income;

(B) An amount equal to the amount of tax imposed by this Act to the extent deducted from gross income in the computation of taxable income for the taxable
year;

(C) In the case of a regulated investment company, an amount equal to the excess of (i) the net long-term capital gain for the taxable year, over (ii) the amount of the capital gain dividends designated as such in accordance with Section 852(b)(3)(C) of the Internal Revenue Code and any amount designated under Section 852(b)(3)(D) of the Internal Revenue Code, attributable to the taxable year (this amendatory Act of 1995 (Public Act 89-89) is declarative of existing law and is not a new enactment);

(D) The amount of any net operating loss deduction taken in arriving at taxable income, other than a net operating loss carried forward from a taxable year ending prior to December 31, 1986;

(E) For taxable years in which a net operating loss carryback or carryforward from a taxable year ending prior to December 31, 1986 is an element of taxable income under paragraph (1) of subsection (e) or subparagraph (E) of paragraph (2) of subsection (e), the amount by which addition modifications other than those provided by this subparagraph (E) exceeded subtraction modifications in such earlier taxable year, with the following limitations applied in the order that they are listed:

(i) the addition modification relating to the
net operating loss carried back or forward to the taxable year from any taxable year ending prior to December 31, 1986 shall be reduced by the amount of addition modification under this subparagraph (E) which related to that net operating loss and which was taken into account in calculating the base income of an earlier taxable year, and

(ii) the addition modification relating to the net operating loss carried back or forward to the taxable year from any taxable year ending prior to December 31, 1986 shall not exceed the amount of such carryback or carryforward;

For taxable years in which there is a net operating loss carryback or carryforward from more than one other taxable year ending prior to December 31, 1986, the addition modification provided in this subparagraph (E) shall be the sum of the amounts computed independently under the preceding provisions of this subparagraph (E) for each such taxable year;

(E-5) For taxable years ending after December 31, 1997, an amount equal to any eligible remediation costs that the corporation deducted in computing adjusted gross income and for which the corporation claims a credit under subsection (l) of Section 201;

(E-10) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction taken
on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(E-11) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (E-10), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (T) with respect to that property.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (T) which the taxpayer may claim a depreciation deduction for federal income tax purposes and for which the taxpayer was allowed in any taxable year to make a subtraction modification under subparagraph (T), then an amount equal to that subtraction modification.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(E-12) An amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after
December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact the foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a person who
is subject in a foreign country or state, other
than a state which requires mandatory unitary
reporting, to a tax on or measured by net income
with respect to such interest; or

(ii) an item of interest paid, accrued, or
incurred, directly or indirectly, to a person if
the taxpayer can establish, based on a
preponderance of the evidence, both of the
following:

(a) the person, during the same taxable
year, paid, accrued, or incurred, the interest
to a person that is not a related member, and

(b) the transaction giving rise to the
interest expense between the taxpayer and the
person did not have as a principal purpose the
avoidance of Illinois income tax, and is paid
pursuant to a contract or agreement that
reflects an arm's-length interest rate and
terms; or

(iii) the taxpayer can establish, based on
clear and convincing evidence, that the interest
paid, accrued, or incurred relates to a contract
or agreement entered into at arm's-length rates
and terms and the principal purpose for the
payment is not federal or Illinois tax avoidance; or
(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(E-13) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after
December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(b)(2)(E-12) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of
intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets.

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and
(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(E-14) For taxable years ending on or after
December 31, 2008, an amount equal to the amount of insurance premium expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(b)(2)(E-12) or Section 203(b)(2)(E-13) of this Act;
(E-15) For taxable years beginning after December 31, 2008, any deduction for dividends paid by a captive real estate investment trust that is allowed to a real estate investment trust under Section 857(b)(2)(B) of the Internal Revenue Code for dividends paid;

To determine the portion of a loan or loans that is secured by property eligible for a Section 201(f) investment credit to the borrower, the entire principal amount of the loan or loans between the taxpayer and the borrower should be divided into the basis of the Section 201(f) investment credit property which secures the loan or loans, using for this purpose the original basis of

(C) An amount equal to the amount of tax imposed by
this Act to the extent deducted from gross income in the computation of taxable income for the taxable year;

(D) The amount of any net operating loss deduction taken in arriving at taxable income, other than a net operating loss carried forward from a taxable year ending prior to December 31, 1986;

(E) For taxable years in which a net operating loss carryback or carryforward from a taxable year ending prior to December 31, 1986 is an element of taxable income under paragraph (1) of subsection (e) or subparagraph (E) of paragraph (2) of subsection (e), the amount by which addition modifications other than those provided by this subparagraph (E) exceeded subtraction modifications in such taxable year, with the following limitations applied in the order that they are listed:

(i) the addition modification relating to the net operating loss carried back or forward to the taxable year from any taxable year ending prior to December 31, 1986 shall be reduced by the amount of addition modification under this subparagraph (E) which related to that net operating loss and which was taken into account in calculating the base income of an earlier taxable year, and

(ii) the addition modification relating to the
net operating loss carried back or forward to the taxable year from any taxable year ending prior to December 31, 1986 shall not exceed the amount of such carryback or carryforward;

For taxable years in which there is a net operating loss carryback or carryforward from more than one other taxable year ending prior to December 31, 1986, the addition modification provided in this subparagraph (E) shall be the sum of the amounts computed independently under the preceding provisions of this subparagraph (E) for each such taxable year;

(F) For taxable years ending on or after January 1, 1989, an amount equal to the tax deducted pursuant to Section 164 of the Internal Revenue Code if the trust or estate is claiming the same tax for purposes of the Illinois foreign tax credit under Section 601 of this Act;

(G) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of taxable income;

(G-5) For taxable years ending after December 31, 1997, an amount equal to any eligible remediation costs that the trust or estate deducted in computing adjusted gross income and for which the trust or estate claims a credit under subsection (l) of Section
(G-10) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction taken on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code; and

(G-11) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (G-10), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (R) with respect to that property.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (R) the taxpayer may claim a depreciation deduction for federal income tax purposes and for which the taxpayer was allowed in any taxable year to make a subtraction modification under subparagraph (R), then an amount equal to that subtraction modification.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(G-12) An amount equal to the amount otherwise
allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.
This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

   (a) the person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

   (b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates
and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(G-13) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the
foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(c)(2)(G-12) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes: (1)
expenses, losses, and costs for or related to the
direct or indirect acquisition, use, maintenance or
management, ownership, sale, exchange, or any other
disposition of intangible property; (2) losses
incurred, directly or indirectly, from factoring
transactions or discounting transactions; (3) royalty,
patent, technical, and copyright fees; (4) licensing
fees; and (5) other similar expenses and costs. For
purposes of this subparagraph, "intangible property"
includes patents, patent applications, trade names,
trademarks, service marks, copyrights, mask works,
trade secrets, and similar types of intangible assets.

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs
paid, accrued, or incurred, directly or
indirectly, from a transaction with a person who
is subject in a foreign country or state, other
than a state which requires mandatory unitary
reporting, to a tax on or measured by net income
with respect to such item; or

(ii) any item of intangible expense or cost
paid, accrued, or incurred, directly or
indirectly, if the taxpayer can establish, based
on a preponderance of the evidence, both of the
following:

(a) the person during the same taxable
year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms;

or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods
and standards by which the Department will utilize
its authority under Section 404 of this Act;

(G-14) For taxable years ending on or after
December 31, 2008, an amount equal to the amount of
insurance premium expenses and costs otherwise allowed
as a deduction in computing base income, and that were
paid, accrued, or incurred, directly or indirectly, to
a person who would be a member of the same unitary
business group but for the fact that the person is
prohibited under Section 1501(a)(27) from being
included in the unitary business group because he or
she is ordinarily required to apportion business
income under different subsections of Section 304. The
addition modification required by this subparagraph
shall be reduced to the extent that dividends were
included in base income of the unitary group for the
same taxable year and received by the taxpayer or by a
member of the taxpayer's unitary business group
(including amounts included in gross income under
Sections 951 through 964 of the Internal Revenue Code
and amounts included in gross income under Section 78
of the Internal Revenue Code) with respect to the
stock of the same person to whom the premiums and costs
were directly or indirectly paid, incurred, or
accrued. The preceding sentence does not apply to the
extent that the same dividends caused a reduction to
the addition modification required under Section 203(c)(2)(G-12) or Section 203(c)(2)(G-13) of this Act;

(G-15) An amount equal to the credit allowable to the taxpayer under Section 218(a) of this Act, determined without regard to Section 218(c) of this Act;

(G-16) For taxable years ending on or after December 31, 2017, an amount equal to the deduction allowed under Section 199 of the Internal Revenue Code for the taxable year;

and by deducting from the total so obtained the sum of the following amounts:

(H) An amount equal to all amounts included in such total pursuant to the provisions of Sections 402(a), 402(c), 403(a), 403(b), 406(a), 407(a) and 408 of the Internal Revenue Code or included in such total as distributions under the provisions of any retirement or disability plan for employees of any governmental agency or unit, or retirement payments to retired partners, which payments are excluded in computing net earnings from self employment by Section 1402 of the Internal Revenue Code and regulations adopted pursuant thereto;

(I) The valuation limitation amount;

(J) An amount equal to the amount of any tax
imposed by this Act which was refunded to the taxpayer and included in such total for the taxable year;

(K) An amount equal to all amounts included in taxable income as modified by subparagraphs (A), (B), (C), (D), (E), (F) and (G) which are exempt from taxation by this State either by reason of its statutes or Constitution or by reason of the Constitution, treaties or statutes of the United States; provided that, in the case of any statute of this State that exempts income derived from bonds or other obligations from the tax imposed under this Act, the amount exempted shall be the interest net of bond premium amortization;

(L) With the exception of any amounts subtracted under subparagraph (K), an amount equal to the sum of all amounts disallowed as deductions by (i) Sections 171(a)(2) and 265(a)(2) of the Internal Revenue Code, and all amounts of expenses allocable to interest and disallowed as deductions by Section 265(a)(1) of the Internal Revenue Code; and (ii) for taxable years ending on or after August 13, 1999, Sections 171(a)(2), 265, 280C, and 832(b)(5)(B)(i) of the Internal Revenue Code, plus, (iii) for taxable years ending on or after December 31, 2011, Section 45G(e)(3) of the Internal Revenue Code and, for taxable years ending on or after December 31, 2008,
any amount included in gross income under Section 87 of the Internal Revenue Code; the provisions of this subparagraph are exempt from the provisions of Section 250;

(M) An amount equal to those dividends included in such total which were paid by a corporation which conducts business operations in a River Edge Redevelopment Zone or zones created under the River Edge Redevelopment Zone Act and conducts substantially all of its operations in a River Edge Redevelopment Zone or zones. This subparagraph (M) is exempt from the provisions of Section 250;

(N) An amount equal to any contribution made to a job training project established pursuant to the Tax Increment Allocation Redevelopment Act;

(O) An amount equal to those dividends included in such total that were paid by a corporation that conducts business operations in a federally designated Foreign Trade Zone or Sub-Zone and that is designated a High Impact Business located in Illinois; provided that dividends eligible for the deduction provided in subparagraph (M) of paragraph (2) of this subsection shall not be eligible for the deduction provided under this subparagraph (O);

(P) An amount equal to the amount of the deduction used to compute the federal income tax credit for
restoration of substantial amounts held under claim of right for the taxable year pursuant to Section 1341 of the Internal Revenue Code;

(Q) For taxable year 1999 and thereafter, an amount equal to the amount of any (i) distributions, to the extent includible in gross income for federal income tax purposes, made to the taxpayer because of his or her status as a victim of persecution for racial or religious reasons by Nazi Germany or any other Axis regime or as an heir of the victim and (ii) items of income, to the extent includible in gross income for federal income tax purposes, attributable to, derived from or in any way related to assets stolen from, hidden from, or otherwise lost to a victim of persecution for racial or religious reasons by Nazi Germany or any other Axis regime immediately prior to, during, and immediately after World War II, including, but not limited to, interest on the proceeds receivable as insurance under policies issued to a victim of persecution for racial or religious reasons by Nazi Germany or any other Axis regime by European insurance companies immediately prior to and during World War II; provided, however, this subtraction from federal adjusted gross income does not apply to assets acquired with such assets or with the proceeds from the sale of such assets; provided, further, this
paragraph shall only apply to a taxpayer who was the first recipient of such assets after their recovery and who is a victim of persecution for racial or religious reasons by Nazi Germany or any other Axis regime or as an heir of the victim. The amount of and the eligibility for any public assistance, benefit, or similar entitlement is not affected by the inclusion of items (i) and (ii) of this paragraph in gross income for federal income tax purposes. This paragraph is exempt from the provisions of Section 250;

(R) For taxable years 2001 and thereafter, for the taxable year in which the bonus depreciation deduction is taken on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code and for each applicable taxable year thereafter, an amount equal to "x", where:

(1) "y" equals the amount of the depreciation deduction taken for the taxable year on the taxpayer's federal income tax return on property for which the bonus depreciation deduction was taken in any year under subsection (k) of Section 168 of the Internal Revenue Code, but not including the bonus depreciation deduction;

(2) for taxable years ending on or before December 31, 2005, "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by...
(3) for taxable years ending after December 31, 2005:

(i) for property on which a bonus depreciation deduction of 30% of the adjusted basis was taken, "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by 0.429); and

(ii) for property on which a bonus depreciation deduction of 50% of the adjusted basis was taken, "x" equals "y" multiplied by 1.0; .

(iii) for property on which a bonus depreciation deduction of 100% of the adjusted basis was taken in a taxable year ending on or after December 31, 2021, "x" equals the depreciation deduction that would be allowed on that property if the taxpayer had made the election under Section 168(k)(7) of the Internal Revenue Code to not claim bonus depreciation on that property; and

(iv) for property on which a bonus depreciation deduction of a percentage other than 30%, 50% or 100% of the adjusted basis was taken in a taxable year ending on or after December 31, 2021, "x" equals "y" multiplied
by 100 times the percentage bonus depreciation on the property (that is, 100(bonus%)) and then divided by 100 times 1 minus the percentage bonus depreciation on the property (that is, 100(1–bonus%)).

The aggregate amount deducted under this subparagraph in all taxable years for any one piece of property may not exceed the amount of the bonus depreciation deduction taken on that property on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code. This subparagraph (R) is exempt from the provisions of Section 250;

(S) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (G-10), then an amount equal to that addition modification.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (R) the taxpayer may claim a depreciation deduction for federal income tax purposes and for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (G-10), then an amount equal to that
addition modification.

The taxpayer is allowed to take the deduction under this subparagraph only once with respect to any one piece of property.

This subparagraph (S) is exempt from the provisions of Section 250;

(T) The amount of (i) any interest income (net of the deductions allocable thereto) taken into account for the taxable year with respect to a transaction with a taxpayer that is required to make an addition modification with respect to such transaction under Section 203(a)(2)(D-17), 203(b)(2)(E-12), 203(c)(2)(G-12), or 203(d)(2)(D-7), but not to exceed the amount of such addition modification and (ii) any income from intangible property (net of the deductions allocable thereto) taken into account for the taxable year with respect to a transaction with a taxpayer that is required to make an addition modification with respect to such transaction under Section 203(a)(2)(D-18), 203(b)(2)(E-13), 203(c)(2)(G-13), or 203(d)(2)(D-8), but not to exceed the amount of such addition modification. This subparagraph (T) is exempt from the provisions of Section 250;

(U) An amount equal to the interest income taken into account for the taxable year (net of the deductions allocable thereto) with respect to
transactions with (i) a foreign person who would be a member of the taxpayer's unitary business group but for the fact the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section 203(c)(2)(G-12) for interest paid, accrued, or incurred, directly or indirectly, to the same person. This subparagraph (U) is exempt from the provisions of Section 250;

(V) An amount equal to the income from intangible property taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with (i) a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to
a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section 203(c)(2)(G-13) for intangible expenses and costs paid, accrued, or incurred, directly or indirectly, to the same foreign person. This subparagraph (V) is exempt from the provisions of Section 250;

(W) in the case of an estate, an amount equal to all amounts included in such total pursuant to the provisions of Section 111 of the Internal Revenue Code as a recovery of items previously deducted by the decedent from adjusted gross income in the computation of taxable income. This subparagraph (W) is exempt from Section 250;

(X) an amount equal to the refund included in such total of any tax deducted for federal income tax purposes, to the extent that deduction was added back under subparagraph (F). This subparagraph (X) is exempt from the provisions of Section 250;

(Y) For taxable years ending on or after December 31, 2011, in the case of a taxpayer who was required to
add back any insurance premiums under Section 203(c)(2)(G-14), such taxpayer may elect to subtract that part of a reimbursement received from the insurance company equal to the amount of the expense or loss (including expenses incurred by the insurance company) that would have been taken into account as a deduction for federal income tax purposes if the expense or loss had been uninsured. If a taxpayer makes the election provided for by this subparagraph (Y), the insurer to which the premiums were paid must add back to income the amount subtracted by the taxpayer pursuant to this subparagraph (Y). This subparagraph (Y) is exempt from the provisions of Section 250; and

(Z) For taxable years beginning after December 31, 2018 and before January 1, 2026, the amount of excess business loss of the taxpayer disallowed as a deduction by Section 461(l)(1)(B) of the Internal Revenue Code.

(3) Limitation. The amount of any modification otherwise required under this subsection shall, under regulations prescribed by the Department, be adjusted by any amounts included therein which were properly paid, credited, or required to be distributed, or permanently set aside for charitable purposes pursuant to Internal Revenue Code Section 642(c) during the taxable year.
(d) Partnerships.

(1) In general. In the case of a partnership, base income means an amount equal to the taxpayer's taxable income for the taxable year as modified by paragraph (2).

(2) Modifications. The taxable income referred to in paragraph (1) shall be modified by adding thereto the sum of the following amounts:

(A) An amount equal to all amounts paid or accrued to the taxpayer as interest or dividends during the taxable year to the extent excluded from gross income in the computation of taxable income;

(B) An amount equal to the amount of tax imposed by this Act to the extent deducted from gross income for the taxable year;

(C) The amount of deductions allowed to the partnership pursuant to Section 707 (c) of the Internal Revenue Code in calculating its taxable income;

(D) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of taxable income;

(D-5) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction taken on the taxpayer's federal income tax return for the
taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(D-6) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-5), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (O) with respect to that property.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (O), the taxpayer may claim a depreciation deduction for federal income tax purposes and for which the taxpayer was allowed in any taxable year to make a subtraction modification under subparagraph (O), then an amount equal to that subtraction modification.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(D-7) An amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a
member of the same unitary business group but for the fact the foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a person who is subject in a foreign country or state, other
than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or
incurred, directly or indirectly, to a person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act; and

(D-8) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of
the same unitary business group but for the fact that
the person is prohibited under Section 1501(a)(27)
from being included in the unitary business group
because he or she is ordinarily required to apportion
business income under different subsections of Section
304. The addition modification required by this
subparagraph shall be reduced to the extent that
dividends were included in base income of the unitary
group for the same taxable year and received by the
taxpayer or by a member of the taxpayer's unitary
business group (including amounts included in gross
income pursuant to Sections 951 through 964 of the
Internal Revenue Code and amounts included in gross
income under Section 78 of the Internal Revenue Code)
with respect to the stock of the same person to whom
the intangible expenses and costs were directly or
indirectly paid, incurred or accrued. The preceding
sentence shall not apply to the extent that the same
dividends caused a reduction to the addition
modification required under Section 203(d)(2)(D-7) of
this Act. As used in this subparagraph, the term
"intangible expenses and costs" includes (1) expenses,
losses, and costs for, or related to, the direct or
indirect acquisition, use, maintenance or management,
ownership, sale, exchange, or any other disposition of
intangible property; (2) losses incurred, directly or
indirectly, from factoring transactions or discounting
transactions; (3) royalty, patent, technical, and
copyright fees; (4) licensing fees; and (5) other
similar expenses and costs. For purposes of this
subparagraph, "intangible property" includes patents,
patent applications, trade names, trademarks, service
marks, copyrights, mask works, trade secrets, and
similar types of intangible assets;

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs
paid, accrued, or incurred, directly or
indirectly, from a transaction with a person who
is subject in a foreign country or state, other
than a state which requires mandatory unitary
reporting, to a tax on or measured by net income
with respect to such item; or

(ii) any item of intangible expense or cost
paid, accrued, or incurred, directly or
indirectly, if the taxpayer can establish, based
on a preponderance of the evidence, both of the
following:

(a) the person during the same taxable
year paid, accrued, or incurred, the
intangible expense or cost to a person that is
not a related member, and

(b) the transaction giving rise to the
intangible expense or cost between the taxpayer and the person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-9) For taxable years ending on or after December 31, 2008, an amount equal to the amount of
insurance premium expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(d)(2)(D-7) or Section 203(d)(2)(D-8) of this Act;

(D-10) An amount equal to the credit allowable to the taxpayer under Section 218(a) of this Act,
determined without regard to Section 218(c) of this Act;

(D-11) For taxable years ending on or after December 31, 2017, an amount equal to the deduction allowed under Section 199 of the Internal Revenue Code for the taxable year;

and by deducting from the total so obtained the following amounts:

(E) The valuation limitation amount;

(F) An amount equal to the amount of any tax imposed by this Act which was refunded to the taxpayer and included in such total for the taxable year;

(G) An amount equal to all amounts included in taxable income as modified by subparagraphs (A), (B), (C) and (D) which are exempt from taxation by this State either by reason of its statutes or Constitution or by reason of the Constitution, treaties or statutes of the United States; provided that, in the case of any statute of this State that exempts income derived from bonds or other obligations from the tax imposed under this Act, the amount exempted shall be the interest net of bond premium amortization;

(H) Any income of the partnership which constitutes personal service income as defined in Section 1348(b)(1) of the Internal Revenue Code (as in effect December 31, 1981) or a reasonable allowance
for compensation paid or accrued for services rendered by partners to the partnership, whichever is greater; this subparagraph (H) is exempt from the provisions of Section 250;

(I) An amount equal to all amounts of income distributable to an entity subject to the Personal Property Tax Replacement Income Tax imposed by subsections (c) and (d) of Section 201 of this Act including amounts distributable to organizations exempt from federal income tax by reason of Section 501(a) of the Internal Revenue Code; this subparagraph (I) is exempt from the provisions of Section 250;

(J) With the exception of any amounts subtracted under subparagraph (G), an amount equal to the sum of all amounts disallowed as deductions by (i) Sections 171(a)(2), 265(a)(2) of the Internal Revenue Code, and all amounts of expenses allocable to interest and disallowed as deductions by Section 265(a)(1) of the Internal Revenue Code; and (ii) for taxable years ending on or after August 13, 1999, Sections 171(a)(2), 265, 280C, and 832(b)(5)(B)(i) of the Internal Revenue Code, plus, (iii) for taxable years ending on or after December 31, 2011, Section 45G(e)(3) of the Internal Revenue Code and, for taxable years ending on or after December 31, 2008, any amount included in gross income under Section 87
of the Internal Revenue Code; the provisions of this subparagraph are exempt from the provisions of Section 250;

(K) An amount equal to those dividends included in such total which were paid by a corporation which conducts business operations in a River Edge Redevelopment Zone or zones created under the River Edge Redevelopment Zone Act and conducts substantially all of its operations from a River Edge Redevelopment Zone or zones. This subparagraph (K) is exempt from the provisions of Section 250;

(L) An amount equal to any contribution made to a job training project established pursuant to the Real Property Tax Increment Allocation Redevelopment Act;

(M) An amount equal to those dividends included in such total that were paid by a corporation that conducts business operations in a federally designated Foreign Trade Zone or Sub-Zone and that is designated a High Impact Business located in Illinois; provided that dividends eligible for the deduction provided in subparagraph (K) of paragraph (2) of this subsection shall not be eligible for the deduction provided under this subparagraph (M);

(N) An amount equal to the amount of the deduction used to compute the federal income tax credit for restoration of substantial amounts held under claim of
right for the taxable year pursuant to Section 1341 of
the Internal Revenue Code;

(O) For taxable years 2001 and thereafter, for the
taxable year in which the bonus depreciation deduction
is taken on the taxpayer's federal income tax return
under subsection (k) of Section 168 of the Internal
Revenue Code and for each applicable taxable year
thereafter, an amount equal to "x", where:

(1) "y" equals the amount of the depreciation
deduction taken for the taxable year on the
taxpayer's federal income tax return on property
for which the bonus depreciation deduction was
taken in any year under subsection (k) of Section
168 of the Internal Revenue Code, but not
including the bonus depreciation deduction;

(2) for taxable years ending on or before
December 31, 2005, "x" equals "y" multiplied by 30
and then divided by 70 (or "y" multiplied by
0.429); and

(3) for taxable years ending after December
31, 2005:

(i) for property on which a bonus
depreciation deduction of 30% of the adjusted
basis was taken, "x" equals "y" multiplied by
30 and then divided by 70 (or "y" multiplied
by 0.429); and
(ii) for property on which a bonus depreciation deduction of 50% of the adjusted basis was taken, "x" equals "y" multiplied by 1.0;

(iii) for property on which a bonus depreciation deduction of 100% of the adjusted basis was taken in a taxable year ending on or after December 31, 2021, "x" equals the depreciation deduction that would be allowed on that property if the taxpayer had made the election under Section 168(k)(7) of the Internal Revenue Code to not claim bonus depreciation on that property; and

(iv) for property on which a bonus depreciation deduction of a percentage other than 30%, 50% or 100% of the adjusted basis was taken in a taxable year ending on or after December 31, 2021, "x" equals "y" multiplied by 100 times the percentage bonus depreciation on the property (that is, 100(bonus%)) and then divided by 100 times 1 minus the percentage bonus depreciation on the property (that is, 100(1–bonus%)).

The aggregate amount deducted under this subparagraph in all taxable years for any one piece of property may not exceed the amount of the bonus
depreciation deduction taken on that property on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code. This subparagraph (O) is exempt from the provisions of Section 250;

(P) If the taxpayer sells, transfers, abandons, or otherwise disposes of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-5), then an amount equal to that addition modification.

If the taxpayer continues to own property through the last day of the last tax year for which a subtraction is allowed with respect to that property under subparagraph (O) the taxpayer may claim a depreciation deduction for federal income tax purposes and for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-5), then an amount equal to that addition modification.

The taxpayer is allowed to take the deduction under this subparagraph only once with respect to any one piece of property.

This subparagraph (P) is exempt from the provisions of Section 250;

(Q) The amount of (i) any interest income (net of the deductions allocable thereto) taken into account
for the taxable year with respect to a transaction with a taxpayer that is required to make an addition modification with respect to such transaction under Section 203(a)(2)(D-17), 203(b)(2)(E-12), 203(c)(2)(G-12), or 203(d)(2)(D-7), but not to exceed the amount of such addition modification and (ii) any income from intangible property (net of the deductions allocable thereto) taken into account for the taxable year with respect to a transaction with a taxpayer that is required to make an addition modification with respect to such transaction under Section 203(a)(2)(D-18), 203(b)(2)(E-13), 203(c)(2)(G-13), or 203(d)(2)(D-8), but not to exceed the amount of such addition modification. This subparagraph (Q) is exempt from Section 250;

(R) An amount equal to the interest income taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with (i) a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is
prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section 203(d)(2)(D-7) for interest paid, accrued, or incurred, directly or indirectly, to the same person. This subparagraph (R) is exempt from Section 250;

(S) An amount equal to the income from intangible property taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with (i) a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section
203(d)(2)(D-8) for intangible expenses and costs paid, accrued, or incurred, directly or indirectly, to the same person. This subparagraph (S) is exempt from Section 250; and

(T) For taxable years ending on or after December 31, 2011, in the case of a taxpayer who was required to add back any insurance premiums under Section 203(d)(2)(D-9), such taxpayer may elect to subtract that part of a reimbursement received from the insurance company equal to the amount of the expense or loss (including expenses incurred by the insurance company) that would have been taken into account as a deduction for federal income tax purposes if the expense or loss had been uninsured. If a taxpayer makes the election provided for by this subparagraph (T), the insurer to which the premiums were paid must add back to income the amount subtracted by the taxpayer pursuant to this subparagraph (T). This subparagraph (T) is exempt from the provisions of Section 250.

(e) Gross income; adjusted gross income; taxable income.

(1) In general. Subject to the provisions of paragraph (2) and subsection (b)(3), for purposes of this Section and Section 803(e), a taxpayer's gross income, adjusted gross income, or taxable income for the taxable year shall
mean the amount of gross income, adjusted gross income or taxable income properly reportable for federal income tax purposes for the taxable year under the provisions of the Internal Revenue Code. Taxable income may be less than zero. However, for taxable years ending on or after December 31, 1986, net operating loss carryforwards from taxable years ending prior to December 31, 1986, may not exceed the sum of federal taxable income for the taxable year before net operating loss deduction, plus the excess of addition modifications over subtraction modifications for the taxable year. For taxable years ending prior to December 31, 1986, taxable income may never be an amount in excess of the net operating loss for the taxable year as defined in subsections (c) and (d) of Section 172 of the Internal Revenue Code, provided that when taxable income of a corporation (other than a Subchapter S corporation), trust, or estate is less than zero and addition modifications, other than those provided by subparagraph (E) of paragraph (2) of subsection (b) for corporations or subparagraph (E) of paragraph (2) of subsection (c) for trusts and estates, exceed subtraction modifications, an addition modification must be made under those subparagraphs for any other taxable year to which the taxable income less than zero (net operating loss) is applied under Section 172 of the Internal Revenue Code or under subparagraph (E) of paragraph (2) of this subsection.
(e) applied in conjunction with Section 172 of the Internal Revenue Code.

(2) Special rule. For purposes of paragraph (1) of this subsection, the taxable income properly reportable for federal income tax purposes shall mean:

(A) Certain life insurance companies. In the case of a life insurance company subject to the tax imposed by Section 801 of the Internal Revenue Code, life insurance company taxable income, plus the amount of distribution from pre-1984 policyholder surplus accounts as calculated under Section 815a of the Internal Revenue Code;

(B) Certain other insurance companies. In the case of mutual insurance companies subject to the tax imposed by Section 831 of the Internal Revenue Code, insurance company taxable income;

(C) Regulated investment companies. In the case of a regulated investment company subject to the tax imposed by Section 852 of the Internal Revenue Code, investment company taxable income;

(D) Real estate investment trusts. In the case of a real estate investment trust subject to the tax imposed by Section 857 of the Internal Revenue Code, real estate investment trust taxable income;

(E) Consolidated corporations. In the case of a corporation which is a member of an affiliated group
of corporations filing a consolidated income tax
return for the taxable year for federal income tax
purposes, taxable income determined as if such
corporation had filed a separate return for federal
income tax purposes for the taxable year and each
preceding taxable year for which it was a member of an
affiliated group. For purposes of this subparagraph,
the taxpayer's separate taxable income shall be
determined as if the election provided by Section
243(b)(2) of the Internal Revenue Code had been in
effect for all such years;

(F) Cooperatives. In the case of a cooperative
corporation or association, the taxable income of such
organization determined in accordance with the
provisions of Section 1381 through 1388 of the
Internal Revenue Code, but without regard to the
prohibition against offsetting losses from patronage
activities against income from nonpatronage
activities; except that a cooperative corporation or
association may make an election to follow its federal
income tax treatment of patronage losses and
nonpatronage losses. In the event such election is
made, such losses shall be computed and carried over
in a manner consistent with subsection (a) of Section
207 of this Act and apportioned by the apportionment
factor reported by the cooperative on its Illinois
income tax return filed for the taxable year in which
the losses are incurred. The election shall be
effective for all taxable years with original returns
due on or after the date of the election. In addition,
the cooperative may file an amended return or returns,
as allowed under this Act, to provide that the
election shall be effective for losses incurred or
carried forward for taxable years occurring prior to
the date of the election. Once made, the election may
only be revoked upon approval of the Director. The
Department shall adopt rules setting forth
requirements for documenting the elections and any
resulting Illinois net loss and the standards to be
used by the Director in evaluating requests to revoke
elections. Public Act 96-932 is declaratory of
existing law;

(G) Subchapter S corporations. In the case of: (i)
a Subchapter S corporation for which there is in
effect an election for the taxable year under Section
1362 of the Internal Revenue Code, the taxable income
of such corporation determined in accordance with
Section 1363(b) of the Internal Revenue Code, except
that taxable income shall take into account those
items which are required by Section 1363(b)(1) of the
Internal Revenue Code to be separately stated; and
(ii) a Subchapter S corporation for which there is in
effect a federal election to opt out of the provisions of the Subchapter S Revision Act of 1982 and have applied instead the prior federal Subchapter S rules as in effect on July 1, 1982, the taxable income of such corporation determined in accordance with the federal Subchapter S rules as in effect on July 1, 1982; and

(H) Partnerships. In the case of a partnership, taxable income determined in accordance with Section 703 of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 703(a)(1) to be separately stated but which would be taken into account by an individual in calculating his taxable income.

(3) Recapture of business expenses on disposition of asset or business. Notwithstanding any other law to the contrary, if in prior years income from an asset or business has been classified as business income and in a later year is demonstrated to be non-business income, then all expenses, without limitation, deducted in such later year and in the 2 immediately preceding taxable years related to that asset or business that generated the non-business income shall be added back and recaptured as business income in the year of the disposition of the asset or business. Such amount shall be apportioned to Illinois using the greater of the apportionment fraction
computed for the business under Section 304 of this Act
for the taxable year or the average of the apportionment
fractions computed for the business under Section 304 of
this Act for the taxable year and for the 2 immediately
preceding taxable years.

(f) Valuation limitation amount.

(1) In general. The valuation limitation amount
referred to in subsections (a)(2)(G), (c)(2)(I) and
(d)(2)(E) is an amount equal to:

(A) The sum of the pre-August 1, 1969 appreciation
amounts (to the extent consisting of gain reportable
under the provisions of Section 1245 or 1250 of the
Internal Revenue Code) for all property in respect of
which such gain was reported for the taxable year;
plus

(B) The lesser of (i) the sum of the pre-August 1,
1969 appreciation amounts (to the extent consisting of
capital gain) for all property in respect of which
such gain was reported for federal income tax purposes
for the taxable year, or (ii) the net capital gain for
the taxable year, reduced in either case by any amount
of such gain included in the amount determined under
subsection (a)(2)(F) or (c)(2)(H).

(2) Pre-August 1, 1969 appreciation amount.

(A) If the fair market value of property referred
to in paragraph (1) was readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is the lesser of (i) the excess of such fair market value over the taxpayer's basis (for determining gain) for such property on that date (determined under the Internal Revenue Code as in effect on that date), or (ii) the total gain realized and reportable for federal income tax purposes in respect of the sale, exchange or other disposition of such property.

(B) If the fair market value of property referred to in paragraph (1) was not readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is that amount which bears the same ratio to the total gain reported in respect of the property for federal income tax purposes for the taxable year, as the number of full calendar months in that part of the taxpayer's holding period for the property ending July 31, 1969 bears to the number of full calendar months in the taxpayer's entire holding period for the property.

(C) The Department shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.

(g) Double deductions. Unless specifically provided
otherwise, nothing in this Section shall permit the same item
to be deducted more than once.

(h) Legislative intention. Except as expressly provided by
this Section there shall be no modifications or limitations on
the amounts of income, gain, loss or deduction taken into
account in determining gross income, adjusted gross income or
taxable income for federal income tax purposes for the taxable
year, or in the amount of such items entering into the
computation of base income and net income under this Act for
such taxable year, whether in respect of property values as of
August 1, 1969 or otherwise.

Sec. 207. Net Losses.

(a) If after applying all of the (i) modifications
provided for in paragraph (2) of Section 203(b), paragraph (2)
of Section 203(c) and paragraph (2) of Section 203(d) and (ii)
the allocation and apportionment provisions of Article 3 of
this Act and subsection (c) of this Section, the taxpayer's
net income results in a loss;

(1) for any taxable year ending prior to December 31,
1999, such loss shall be allowed as a carryover or
carryback deduction in the manner allowed under Section
172 of the Internal Revenue Code;

(2) for any taxable year ending on or after December 31, 1999 and prior to December 31, 2003, such loss shall be allowed as a carryback to each of the 2 taxable years preceding the taxable year of such loss and shall be a net operating loss carryover to each of the 20 taxable years following the taxable year of such loss; and

(3) for any taxable year ending on or after December 31, 2003, such loss shall be allowed as a net operating loss carryover to each of the 12 taxable years following the taxable year of such loss, except as provided in subsection (d).

(a-5) Election to relinquish carryback and order of application of losses.

(A) For losses incurred in tax years ending prior to December 31, 2003, the taxpayer may elect to relinquish the entire carryback period with respect to such loss. Such election shall be made in the form and manner prescribed by the Department and shall be made by the due date (including extensions of time) for filing the taxpayer's return for the taxable year in which such loss is incurred, and such election, once made, shall be irrevocable.

(B) The entire amount of such loss shall be carried to the earliest taxable year to which such loss may be carried. The amount of such loss which
shall be carried to each of the other taxable years.

shall be the excess, if any, of the amount of such loss over the sum of the deductions for carryback or carryover of such loss allowable for each of the prior taxable years to which such loss may be carried.

(b) Any loss determined under subsection (a) of this Section must be carried back or carried forward in the same manner for purposes of subsections (a) and (b) of Section 201 of this Act as for purposes of subsections (c) and (d) of Section 201 of this Act.

(c) Notwithstanding any other provision of this Act, for each taxable year ending on or after December 31, 2008, for purposes of computing the loss for the taxable year under subsection (a) of this Section and the deduction taken into account for the taxable year for a net operating loss carryover under paragraphs (1), (2), and (3) of subsection (a) of this Section, the loss and net operating loss carryover shall be reduced in an amount equal to the reduction to the net operating loss and net operating loss carryover to the taxable year, respectively, required under Section 108(b)(2)(A) of the Internal Revenue Code, multiplied by a fraction, the numerator of which is the amount of discharge of indebtedness income that is excluded from gross income for the taxable year (but only if the taxable year ends on or after December 31, 2008) under Section 108(a) of the Internal Revenue Code and that would have been allocated and apportioned to this State under
Article 3 of this Act but for that exclusion, and the denominator of which is the total amount of discharge of indebtedness income excluded from gross income under Section 108(a) of the Internal Revenue Code for the taxable year. The reduction required under this subsection (c) shall be made after the determination of Illinois net income for the taxable year in which the indebtedness is discharged.

(d) In the case of a corporation (other than a Subchapter S corporation), no carryover deduction shall be allowed under this Section for any taxable year ending after December 31, 2010 and prior to December 31, 2012, and no carryover deduction shall exceed $100,000 for any taxable year ending on or after December 31, 2012 and prior to December 31, 2014 and for any taxable year ending on or after December 31, 2021 and prior to December 31, 2024; provided that, for purposes of determining the taxable years to which a net loss may be carried under subsection (a) of this Section, no taxable year for which a deduction is disallowed under this subsection, or for which the deduction would exceed $100,000 if not for this subsection, shall be counted.

(e) In the case of a residual interest holder in a real estate mortgage investment conduit subject to Section 860E of the Internal Revenue Code, the net loss in subsection (a) shall be equal to:

(1) the amount computed under subsection (a), without regard to this subsection (e), or if that amount is
(2) minus an amount equal to the amount computed under subsection (a), without regard to this subsection (e), minus the amount that would be computed under subsection (a) if the taxpayer's federal taxable income were computed without regard to Section 860E of the Internal Revenue Code and without regard to this subsection (e).

The modification in this subsection (e) is exempt from the provisions of Section 250.

Sec. 214. Tax credit for affordable housing donations.

(a) Beginning with taxable years ending on or after December 31, 2001 and until the taxable year ending on December 31, 2026, a taxpayer who makes a donation under Section 7.28 of the Illinois Housing Development Act is entitled to a credit against the tax imposed by subsections (a) and (b) of Section 201 in an amount equal to 50% of the value of the donation. Partners, shareholders of subchapter S corporations, and owners of limited liability companies (if the limited liability company is treated as a partnership for purposes of federal and State income taxation) are entitled to a credit under this Section to be determined in accordance with the determination of
income and distributive share of income under Sections 702 and
703 and subchapter S of the Internal Revenue Code. Persons or
entities not subject to the tax imposed by subsections (a) and
(b) of Section 201 and who make a donation under Section 7.28
of the Illinois Housing Development Act are entitled to a
credit as described in this subsection and may transfer that
credit as described in subsection (c).

(b) If the amount of the credit exceeds the tax liability
for the year, the excess may be carried forward and applied to
the tax liability of the 5 taxable years following the excess
credit year. The tax credit shall be applied to the earliest
year for which there is a tax liability. If there are credits
for more than one year that are available to offset a
liability, the earlier credit shall be applied first.

(c) The transfer of the tax credit allowed under this
Section may be made (i) to the purchaser of land that has been
designated solely for affordable housing projects in
accordance with the Illinois Housing Development Act or (ii)
to another donor who has also made a donation in accordance
with Section 7.28 of the Illinois Housing Development Act.

(d) A taxpayer claiming the credit provided by this
Section must maintain and record any information that the
Department may require by regulation regarding the project for
which the credit is claimed. When claiming the credit provided
by this Section, the taxpayer must provide information
regarding the taxpayer's donation to the project under the
Illinois Housing Development Act.

(4) A corporation and any party related to that corporation in a manner that would require an attribution of stock from the corporation to the party or from the party to the corporation under the attribution rules of Section 318 of the Internal Revenue Code, if the corporation and all such related parties own, in the aggregate, at least 50% of the profits, capital, stock, or other ownership interest in the qualified new business venture that is the recipient of the applicant's investment.

(5) A person to or from whom there is attribution of ownership of stock in the qualified new business venture that is the recipient of the applicant's investment in accordance with Section 1563(e) of the Internal Revenue Code, except that for purposes of determining whether a person is a related member under this paragraph, "20%" shall be substituted for "5%" whenever "5%" appears in Section 1563(e) of the Internal Revenue Code.

(b) For taxable years beginning after December 31, 2010, and ending on or before December 31, 2021, subject to the limitations provided in this Section, a claimant may claim, as a credit against the tax imposed under subsections (a) and (b) of Section 201 of this Act, an amount equal to 25% of the claimant's investment made directly in a qualified new business venture. In order for an investment in a qualified new business venture to be eligible for tax
credits, the business must have applied for and received certification under subsection (e) for the taxable year in which the investment was made prior to the date on which the investment was made. The credit under this Section may not exceed the taxpayer's Illinois income tax liability for the taxable year. If the amount of the credit exceeds the tax liability for the year, the excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, the earlier credit shall be applied first. In the case of a partnership or Subchapter S Corporation, the credit is allowed to the partners or shareholders in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code.

(c) The minimum amount an applicant must invest in any single qualified new business venture in order to be eligible for a credit under this Section is $10,000. The maximum amount of an applicant's total investment made in any single qualified new business venture that may be used as the basis for a credit under this Section is $2,000,000.

(d) The Department shall implement a program to certify an applicant for an angel investment credit. Upon satisfactory review, the Department shall issue a tax credit certificate
stating the amount of the tax credit to which the applicant is
entitled. The Department shall annually certify that: (i) each
qualified new business venture that receives an angel
investment under this Section has maintained a minimum
employment threshold, as defined by rule, in the State (and
continues to maintain a minimum employment threshold in the
State for a period of no less than 3 years from the issue date
of the last tax credit certificate issued by the Department
with respect to such business pursuant to this Section); and
(ii) the claimant's investment has been made and remains,
except in the event of a qualifying liquidity event, in the
qualified new business venture for no less than 3 years.

If an investment for which a claimant is allowed a credit
under subsection (b) is held by the claimant for less than 3
years, other than as a result of a permitted sale of the
investment to person who is not a related member, the claimant
shall pay to the Department of Revenue, in the manner
prescribed by the Department of Revenue, the aggregate amount
of the disqualified credits that the claimant received related
to the subject investment.

If the Department determines that a qualified new business
venture failed to maintain a minimum employment threshold in
the State through the date which is 3 years from the issue date
of the last tax credit certificate issued by the Department
with respect to the subject business pursuant to this Section,
the claimant or claimants shall pay to the Department of
Revenue, in the manner prescribed by the Department of Revenue, the aggregate amount of the disqualified credits that claimant or claimants received related to investments in that business.

(e) The Department shall implement a program to register qualified new business ventures for purposes of this Section. A business desiring registration under this Section shall be required to submit a full and complete application to the Department. A submitted application shall be effective only for the taxable year in which it is submitted, and a business desiring registration under this Section shall be required to submit a separate application in and for each taxable year for which the business desires registration. Further, if at any time prior to the acceptance of an application for registration under this Section by the Department one or more events occurs which makes the information provided in that application materially false or incomplete (in whole or in part), the business shall promptly notify the Department of the same. Any failure of a business to promptly provide the foregoing information to the Department may, at the discretion of the Department, result in a revocation of a previously approved application for that business, or disqualification of the business from future registration under this Section, or both. The Department may register the business only if all of the following conditions are satisfied:

(1) it has its principal place of business in this
State;
(2) at least 51% of the employees employed by the business are employed in this State;
(3) the business has the potential for increasing jobs in this State, increasing capital investment in this State, or both, as determined by the Department, and either of the following apply:
(A) it is principally engaged in innovation in any of the following: manufacturing; biotechnology; nanotechnology; communications; agricultural sciences; clean energy creation or storage technology; processing or assembling products, including medical devices, pharmaceuticals, computer software, computer hardware, semiconductors, other innovative technology products, or other products that are produced using manufacturing methods that are enabled by applying proprietary technology; or providing services that are enabled by applying proprietary technology; or
(B) it is undertaking pre-commercialization activity related to proprietary technology that includes conducting research, developing a new product or business process, or developing a service that is principally reliant on applying proprietary technology;
(4) it is not principally engaged in real estate development, insurance, banking, lending, lobbying,
political consulting, professional services provided by attorneys, accountants, business consultants, physicians, or health care consultants, wholesale or retail trade, leisure, hospitality, transportation, or construction, except construction of power production plants that derive energy from a renewable energy resource, as defined in Section 1 of the Illinois Power Agency Act;

(5) at the time it is first certified:

(A) it has fewer than 100 employees;

(B) it has been in operation in Illinois for not more than 10 consecutive years prior to the year of certification; and

(C) it has received not more than $10,000,000 in aggregate investments;

(5.1) it agrees to maintain a minimum employment threshold in the State of Illinois prior to the date which is 3 years from the issue date of the last tax credit certificate issued by the Department with respect to that business pursuant to this Section;

(6) (blank); and

(7) it has received not more than $4,000,000 in investments that qualified for tax credits under this Section.

(f) The Department, in consultation with the Department of Revenue, shall adopt rules to administer this Section. The aggregate amount of the tax credits that may be claimed under
this Section for investments made in qualified new business ventures shall be limited at $10,000,000 per calendar year, of which $500,000 shall be reserved for investments made in qualified new business ventures which are minority-owned businesses, women-owned businesses, or businesses owned by a person with a disability (as those terms are used and defined in the Business Enterprise for Minorities, Women, and Persons with Disabilities Act), and an additional $500,000 shall be reserved for investments made in qualified new business ventures with their principal place of business in counties with a population of not more than 250,000. The foregoing annual allowable amounts shall be allocated by the Department, on a per calendar quarter basis and prior to the commencement of each calendar year, in such proportion as determined by the Department, provided that: (i) the amount initially allocated by the Department for any one calendar quarter shall not exceed 35% of the total allowable amount; (ii) any portion of the allocated allowable amount remaining unused as of the end of any of the first 3 calendar quarters of a given calendar year shall be rolled into, and added to, the total allocated amount for the next available calendar quarter; and (iii) the reservation of tax credits for investments in minority-owned businesses, women-owned businesses, businesses owned by a person with a disability, and in businesses in counties with a population of not more than 250,000 is limited to the first 3 calendar quarters of a given calendar year, after which they
may be claimed by investors in any qualified new business venture.

(g) A claimant may not sell or otherwise transfer a credit awarded under this Section to another person.

(h) On or before March 1 of each year, the Department shall report to the Governor and to the General Assembly on the tax credit certificates awarded under this Section for the prior calendar year.

(1) This report must include, for each tax credit certificate awarded:

(A) the name of the claimant and the amount of credit awarded or allocated to that claimant;

(B) the name and address (including the county) of the qualified new business venture that received the investment giving rise to the credit, the North American Industry Classification System (NAICS) code applicable to that qualified new business venture, and the number of employees of the qualified new business venture; and

(C) the date of approval by the Department of each claimant's tax credit certificate.

(2) The report must also include:

(A) the total number of applicants and the total number of claimants, including the amount of each tax credit certificate awarded to a claimant under this Section in the prior calendar year;
(B) the total number of applications from businesses seeking registration under this Section, the total number of new qualified business ventures registered by the Department, and the aggregate amount of investment upon which tax credit certificates were issued in the prior calendar year; and

(C) the total amount of tax credit certificates sought by applicants, the amount of each tax credit certificate issued to a claimant, the aggregate amount of all tax credit certificates issued in the prior calendar year and the aggregate amount of tax credit certificates issued as authorized under this Section for all calendar years.

(i) For each business seeking registration under this Section after December 31, 2016, the Department shall require the business to include in its application the North American Industry Classification System (NAICS) code applicable to the business and the number of employees of the business at the time of application. Each business registered by the Department as a qualified new business venture that receives an investment giving rise to the issuance of a tax credit certificate pursuant to this Section shall, for each of the 3 years following the issue date of the last tax credit certificate issued by the Department with respect to such business pursuant to this Section, report to the Department the following:
(1) the number of employees and the location at which those employees are employed, both as of the end of each year;
(2) the amount of additional new capital investment raised as of the end of each year, if any; and
(3) the terms of any liquidity event occurring during such year; for the purposes of this Section, a "liquidity event" means any event that would be considered an exit for an illiquid investment, including any event that allows the equity holders of the business (or any material portion thereof) to cash out some or all of their respective equity interests.

Sec. 221. Rehabilitation costs; qualified historic properties; River Edge Redevelopment Zone.
(a) For taxable years that begin on or after January 1, 2012 and begin prior to January 1, 2018, there shall be allowed a tax credit against the tax imposed by subsections (a) and (b) of Section 201 of this Act in an amount equal to 25% of qualified expenditures incurred by a qualified taxpayer during the taxable year in the restoration and preservation of a qualified historic structure located in a River Edge Redevelopment Zone pursuant to a qualified rehabilitation
plan, provided that the total amount of such expenditures (i) must equal $5,000 or more and (ii) must exceed 50% of the purchase price of the property.

(a-1) For taxable years that begin on or after January 1, 2018 and end prior to January 1, 2027 January 1, 2022, there shall be allowed a tax credit against the tax imposed by subsections (a) and (b) of Section 201 of this Act in an aggregate amount equal to 25% of qualified expenditures incurred by a qualified taxpayer in the restoration and preservation of a qualified historic structure located in a River Edge Redevelopment Zone pursuant to a qualified rehabilitation plan, provided that the total amount of such expenditures must (i) equal $5,000 or more and (ii) exceed the adjusted basis of the qualified historic structure on the first day the qualified rehabilitation plan begins. For any rehabilitation project, regardless of duration or number of phases, the project's compliance with the foregoing provisions (i) and (ii) shall be determined based on the aggregate amount of qualified expenditures for the entire project and may include expenditures incurred under subsection (a), this subsection, or both subsection (a) and this subsection. If the qualified rehabilitation plan spans multiple years, the aggregate credit for the entire project shall be allowed in the last taxable year, except for phased rehabilitation projects, which may receive credits upon completion of each phase. Before obtaining the first phased credit: (A) the total
amount of such expenditures must meet the requirements of provisions (i) and (ii) of this subsection; (B) the rehabilitated portion of the qualified historic structure must be placed in service; and (C) the requirements of subsection (b) must be met.

(a-2) For taxable years beginning on or after January 1, 2021 and ending prior to January 1, 2027 January 1, 2022, there shall be allowed a tax credit against the tax imposed by subsections (a) and (b) of Section 201 as provided in Section 10-10.3 of the River Edge Redevelopment Zone Act. The credit allowed under this subsection (a-2) shall apply only to taxpayers that make a capital investment of at least $1,000,000 in a qualified rehabilitation plan.

The credit or credits may not reduce the taxpayer's liability to less than zero. If the amount of the credit or credits exceeds the taxpayer's liability, the excess may be carried forward and applied against the taxpayer's liability in succeeding calendar years in the manner provided under paragraph (4) of Section 211 of this Act. The credit or credits shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one taxable year that are available to offset a liability, the earlier credit shall be applied first.

For partners, shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for the purposes of
federal and State income taxation, there shall be allowed a credit under this Section to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code.

The total aggregate amount of credits awarded under the Blue Collar Jobs Act (Article 20 of this amendatory Act of the 101st General Assembly) shall not exceed $20,000,000 in any State fiscal year.

(b) To obtain a tax credit pursuant to this Section, the taxpayer must apply with the Department of Natural Resources. The Department of Natural Resources shall determine the amount of eligible rehabilitation costs and expenses in addition to the amount of the River Edge construction jobs credit within 45 days of receipt of a complete application. The taxpayer must submit a certification of costs prepared by an independent certified public accountant that certifies (i) the project expenses, (ii) whether those expenses are qualified expenditures, and (iii) that the qualified expenditures exceed the adjusted basis of the qualified historic structure on the first day the qualified rehabilitation plan commenced. The Department of Natural Resources is authorized, but not required, to accept this certification of costs to determine the amount of qualified expenditures and the amount of the credit. The Department of Natural Resources shall provide guidance as to the minimum standards to be followed in the
preparation of such certification. The Department of Natural Resources and the National Park Service shall determine whether the rehabilitation is consistent with the United States Secretary of the Interior's Standards for Rehabilitation.

(b-1) Upon completion of the project and approval of the complete application, the Department of Natural Resources shall issue a single certificate in the amount of the eligible credits equal to 25% of qualified expenditures incurred during the eligible taxable years, as defined in subsections (a) and (a-1), excepting any credits awarded under subsection (a) prior to January 1, 2019 (the effective date of Public Act 100-629) and any phased credits issued prior to the eligible taxable year under subsection (a-1). At the time the certificate is issued, an issuance fee up to the maximum amount of 2% of the amount of the credits issued by the certificate may be collected from the applicant to administer the provisions of this Section. If collected, this issuance fee shall be deposited into the Historic Property Administrative Fund, a special fund created in the State treasury. Subject to appropriation, moneys in the Historic Property Administrative Fund shall be provided to the Department of Natural Resources as reimbursement for the costs associated with administering this Section.

(c) The taxpayer must attach the certificate to the tax return on which the credits are to be claimed. The tax credit
under this Section may not reduce the taxpayer's liability to less than zero. If the amount of the credit exceeds the tax liability for the year, the excess credit may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year.

(c-1) Subject to appropriation, moneys in the Historic Property Administrative Fund shall be used, on a biennial basis beginning at the end of the second fiscal year after January 1, 2019 (the effective date of Public Act 100-629), to hire a qualified third party to prepare a biennial report to assess the overall economic impact to the State from the qualified rehabilitation projects under this Section completed in that year and in previous years. The overall economic impact shall include at least: (1) the direct and indirect or induced economic impacts of completed projects; (2) temporary, permanent, and construction jobs created; (3) sales, income, and property tax generation before, during construction, and after completion; and (4) indirect neighborhood impact after completion. The report shall be submitted to the Governor and the General Assembly. The report to the General Assembly shall be filed with the Clerk of the House of Representatives and the Secretary of the Senate in electronic form only, in the manner that the Clerk and the Secretary shall direct.

(c-2) The Department of Natural Resources may adopt rules to implement this Section in addition to the rules expressly authorized in this Section.
(d) As used in this Section, the following terms have the following meanings.

"Phased rehabilitation" means a project that is completed in phases, as defined under Section 47 of the federal Internal Revenue Code and pursuant to National Park Service regulations at 36 C.F.R. 67.

"Placed in service" means the date when the property is placed in a condition or state of readiness and availability for a specifically assigned function as defined under Section 47 of the federal Internal Revenue Code and federal Treasury Regulation Sections 1.46 and 1.48.

"Qualified expenditure" means all the costs and expenses defined as qualified rehabilitation expenditures under Section 47 of the federal Internal Revenue Code that were incurred in connection with a qualified historic structure.

"Qualified historic structure" means a certified historic structure as defined under Section 47(c)(3) of the federal Internal Revenue Code.

"Qualified rehabilitation plan" means a project that is approved by the Department of Natural Resources and the National Park Service as being consistent with the United States Secretary of the Interior's Standards for Rehabilitation.

"Qualified taxpayer" means the owner of the qualified historic structure or any other person who qualifies for the federal rehabilitation credit allowed by Section 47 of the
federal Internal Revenue Code with respect to that qualified historic structure. Partners, shareholders of subchapter S corporations, and owners of limited liability companies (if the limited liability company is treated as a partnership for purposes of federal and State income taxation) are entitled to a credit under this Section to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 703 and subchapter S of the Internal Revenue Code, provided that credits granted to a partnership, a limited liability company taxed as a partnership, or other multiple owners of property shall be passed through to the partners, members, or owners respectively on a pro rata basis or pursuant to an executed agreement among the partners, members, or owners documenting any alternate distribution method.

Sec. 222. Live theater production credit.

(a) For tax years beginning on or after January 1, 2012 and beginning prior to January 1, 2029, a taxpayer who has received a tax credit award under the Live Theater Production Tax Credit Act is entitled to a credit against the taxes imposed under subsections (a) and (b) of Section 201 of
this Act in an amount determined under that Act by the
Department of Commerce and Economic Opportunity.

(b) If the taxpayer is a partnership, limited liability
partnership, limited liability company, or Subchapter S
corporation, the tax credit award is allowed to the partners,
unit holders, or shareholders in accordance with the
determination of income and distributive share of income under
Sections 702 and 704 and Subchapter S of the Internal Revenue
Code.

c) A sale, assignment, or transfer of the tax credit
award may be made by the taxpayer earning the credit within one
year after the credit is awarded in accordance with rules
adopted by the Department of Commerce and Economic
Opportunity.

d) The Department of Revenue, in cooperation with the
Department of Commerce and Economic Opportunity, shall adopt
rules to enforce and administer the provisions of this
Section.

e) The tax credit award may not be carried back. If the
amount of the credit exceeds the tax liability for the year,
the excess may be carried forward and applied to the tax
liability of the 5 tax years following the excess credit year.
The tax credit award shall be applied to the earliest year for
which there is a tax liability. If there are credits from more
than one tax year that are available to offset liability, the
earlier credit shall be applied first. In no event may a credit
under this Section reduce the taxpayer's liability to less than zero.

Sec. 704A. Employer's return and payment of tax withheld.
(a) In general, every employer who deducts and withholds or is required to deduct and withhold tax under this Act on or after January 1, 2008 shall make those payments and returns as provided in this Section.

(b) Returns. Every employer shall, in the form and manner required by the Department, make returns with respect to taxes withheld or required to be withheld under this Article 7 for each quarter beginning on or after January 1, 2008, on or before the last day of the first month following the close of that quarter.

(c) Payments. With respect to amounts withheld or required to be withheld on or after January 1, 2008:

(1) Semi-weekly payments. For each calendar year, each employer who withheld or was required to withhold more than $12,000 during the one-year period ending on June 30 of the immediately preceding calendar year, payment must be made:

(A) on or before each Friday of the calendar year, for taxes withheld or required to be withheld on the immediately preceding Saturday, Sunday, Monday, or
Tuesday;

(B) on or before each Wednesday of the calendar year, for taxes withheld or required to be withheld on the immediately preceding Wednesday, Thursday, or Friday.

Beginning with calendar year 2011, payments made under this paragraph (1) of subsection (c) must be made by electronic funds transfer.

(2) Semi-weekly payments. Any employer who withholds or is required to withhold more than $12,000 in any quarter of a calendar year is required to make payments on the dates set forth under item (1) of this subsection (c) for each remaining quarter of that calendar year and for the subsequent calendar year.

(3) Monthly payments. Each employer, other than an employer described in items (1) or (2) of this subsection, shall pay to the Department, on or before the 15th day of each month the taxes withheld or required to be withheld during the immediately preceding month.

(4) Payments with returns. Each employer shall pay to the Department, on or before the due date for each return required to be filed under this Section, any tax withheld or required to be withheld during the period for which the return is due and not previously paid to the Department.

(d) Regulatory authority. The Department may, by rule:

(1) Permit employers, in lieu of the requirements of
subsections (b) and (c), to file annual returns due on or before January 31 of the year for taxes withheld or required to be withheld during the previous calendar year and, if the aggregate amounts required to be withheld by the employer under this Article 7 (other than amounts required to be withheld under Section 709.5) do not exceed $1,000 for the previous calendar year, to pay the taxes required to be shown on each such return no later than the due date for such return.

(2) Provide that any payment required to be made under subsection (c)(1) or (c)(2) is deemed to be timely to the extent paid by electronic funds transfer on or before the due date for deposit of federal income taxes withheld from, or federal employment taxes due with respect to, the wages from which the Illinois taxes were withheld.

(3) Designate one or more depositories to which payment of taxes required to be withheld under this Article 7 must be paid by some or all employers.

(4) Increase the threshold dollar amounts at which employers are required to make semi-weekly payments under subsection (c)(1) or (c)(2).

(e) Annual return and payment. Every employer who deducts and withholds or is required to deduct and withhold tax from a person engaged in domestic service employment, as that term is defined in Section 3510 of the Internal Revenue Code, may comply with the requirements of this Section with respect to
such employees by filing an annual return and paying the taxes
required to be deducted and withheld on or before the 15th day
of the fourth month following the close of the employer's
taxable year. The Department may allow the employer's return
to be submitted with the employer's individual income tax
return or to be submitted with a return due from the employer
under Section 1400.2 of the Unemployment Insurance Act.

(f) Magnetic media and electronic filing. With respect to
taxes withheld in calendar years prior to 2017, any W-2 Form
that, under the Internal Revenue Code and regulations
promulgated thereunder, is required to be submitted to the
Internal Revenue Service on magnetic media or electronically
must also be submitted to the Department on magnetic media or
electronically for Illinois purposes, if required by the
Department.

With respect to taxes withheld in 2017 and subsequent
calendar years, the Department may, by rule, require that any
return (including any amended return) under this Section and
any W-2 Form that is required to be submitted to the Department
must be submitted on magnetic media or electronically.

The due date for submitting W-2 Forms shall be as
prescribed by the Department by rule.

(g) For amounts deducted or withheld after December 31,
2009, a taxpayer who makes an election under subsection (f) of
Section 5-15 of the Economic Development for a Growing Economy
Tax Credit Act for a taxable year shall be allowed a credit
against payments due under this Section for amounts withheld
during the first calendar year beginning after the end of that
taxable year equal to the amount of the credit for the
incremental income tax attributable to full-time employees of
the taxpayer awarded to the taxpayer by the Department of
Commerce and Economic Opportunity under the Economic
Development for a Growing Economy Tax Credit Act for the
taxable year and credits not previously claimed and allowed to
be carried forward under Section 211(4) of this Act as
provided in subsection (f) of Section 5-15 of the Economic
Development for a Growing Economy Tax Credit Act. The credit
or credits may not reduce the taxpayer's obligation for any
payment due under this Section to less than zero. If the amount
of the credit or credits exceeds the total payments due under
this Section with respect to amounts withheld during the
calendar year, the excess may be carried forward and applied
against the taxpayer's liability under this Section in the
succeeding calendar years as allowed to be carried forward
under paragraph (4) of Section 211 of this Act. The credit or
credits shall be applied to the earliest year for which there
is a tax liability. If there are credits from more than one
taxable year that are available to offset a liability, the
earlier credit shall be applied first. Each employer who
deducts and withholds or is required to deduct and withhold
tax under this Act and who retains income tax withholdings
under subsection (f) of Section 5-15 of the Economic
Development for a Growing Economy Tax Credit Act must make a return with respect to such taxes and retained amounts in the form and manner that the Department, by rule, requires and pay to the Department or to a depositary designated by the Department those withheld taxes not retained by the taxpayer. For purposes of this subsection (g), the term taxpayer shall include taxpayer and members of the taxpayer's unitary business group as defined under paragraph (27) of subsection (a) of Section 1501 of this Act. This Section is exempt from the provisions of Section 250 of this Act. No credit awarded under the Economic Development for a Growing Economy Tax Credit Act for agreements entered into on or after January 1, 2015 may be credited against payments due under this Section.

(h) An employer may claim a credit against payments due under this Section for amounts withheld during the first calendar year ending after the date on which a tax credit certificate was issued under Section 35 of the Small Business Job Creation Tax Credit Act. The credit shall be equal to the amount shown on the certificate, but may not reduce the taxpayer's obligation for any payment due under this Section to less than zero. If the amount of the credit exceeds the total payments due under this Section with respect to amounts withheld during the calendar year, the excess may be carried forward and applied against the taxpayer's liability under this Section in the 5 succeeding calendar years. The credit shall be applied to the earliest year for which there is a tax
liability. If there are credits from more than one calendar year that are available to offset a liability, the earlier credit shall be applied first. This Section is exempt from the provisions of Section 250 of this Act.

(i) Each employer with 50 or fewer full-time equivalent employees during the reporting period may claim a credit against the payments due under this Section for each qualified employee in an amount equal to the maximum credit allowable. The credit may be taken against payments due for reporting periods that begin on or after January 1, 2020, and end on or before December 31, 2027. An employer may not claim a credit for an employee who has worked fewer than 90 consecutive days immediately preceding the reporting period; however, such credits may accrue during that 90-day period and be claimed against payments under this Section for future reporting periods after the employee has worked for the employer at least 90 consecutive days. In no event may the credit exceed the employer's liability for the reporting period. Each employer who deducts and withholds or is required to deduct and withhold tax under this Act and who retains income tax withholdings under this subsection must make a return with respect to such taxes and retained amounts in the form and manner that the Department, by rule, requires and pay to the Department or to a depositary designated by the Department those withheld taxes not retained by the employer.

For each reporting period, the employer may not claim a
credit or credits for more employees than the number of employees making less than the minimum or reduced wage for the current calendar year during the last reporting period of the preceding calendar year. Notwithstanding any other provision of this subsection, an employer shall not be eligible for credits for a reporting period unless the average wage paid by the employer per employee for all employees making less than $55,000 during the reporting period is greater than the average wage paid by the employer per employee for all employees making less than $55,000 during the same reporting period of the prior calendar year.

For purposes of this subsection (i):

"Compensation paid in Illinois" has the meaning ascribed to that term under Section 304(a)(2)(B) of this Act.

"Employer" and "employee" have the meaning ascribed to those terms in the Minimum Wage Law, except that "employee" also includes employees who work for an employer with fewer than 4 employees. Employers that operate more than one establishment pursuant to a franchise agreement or that constitute members of a unitary business group shall aggregate their employees for purposes of determining eligibility for the credit.

"Full-time equivalent employees" means the ratio of the number of paid hours during the reporting period and the number of working hours in that period.

"Maximum credit" means the percentage listed below of the
difference between the amount of compensation paid in Illinois to employees who are paid not more than the required minimum wage reduced by the amount of compensation paid in Illinois to employees who were paid less than the current required minimum wage during the reporting period prior to each increase in the required minimum wage on January 1. If an employer pays an employee more than the required minimum wage and that employee previously earned less than the required minimum wage, the employer may include the portion that does not exceed the required minimum wage as compensation paid in Illinois to employees who are paid not more than the required minimum wage.

(1) 25% for reporting periods beginning on or after January 1, 2020 and ending on or before December 31, 2020;
(2) 21% for reporting periods beginning on or after January 1, 2021 and ending on or before December 31, 2021;
(3) 17% for reporting periods beginning on or after January 1, 2022 and ending on or before December 31, 2022;
(4) 13% for reporting periods beginning on or after January 1, 2023 and ending on or before December 31, 2023;
(5) 9% for reporting periods beginning on or after January 1, 2024 and ending on or before December 31, 2024;
(6) 5% for reporting periods beginning on or after January 1, 2025 and ending on or before December 31, 2025.

The amount computed under this subsection may continue to be claimed for reporting periods beginning on or after January
1, 2026 and:

(A) ending on or before December 31, 2026 for employers with more than 5 employees; or

(B) ending on or before December 31, 2027 for employers with no more than 5 employees.

"Qualified employee" means an employee who is paid not more than the required minimum wage and has an average wage paid per hour by the employer during the reporting period equal to or greater than his or her average wage paid per hour by the employer during each reporting period for the immediately preceding 12 months. A new qualified employee is deemed to have earned the required minimum wage in the preceding reporting period.

"Reporting period" means the quarter for which a return is required to be filed under subsection (b) of this Section.

(j) For reporting periods beginning on or after January 1, 2021, if a private employer grants all of its employees the option of taking a paid leave of absence of at least 30 days for the purpose of serving as an organ donor or bone marrow donor, then the private employer may take a credit against the payments due under this Section in an amount equal to the amount withheld under this Section with respect to wages paid while the employee is on organ donation leave, not to exceed $1,000 in withholdings for each employee who takes organ donation leave. To be eligible for the credit, such a leave of absence must be taken without loss of pay, vacation time,
compensatory time, personal days, or sick time for at least
the first 30 days of the leave of absence. The private employer
shall adopt rules governing organ donation leave, including
rules that (i) establish conditions and procedures for
requesting and approving leave and (ii) require medical
documentation of the proposed organ or bone marrow donation
before leave is approved by the private employer. A private
employer must provide, in the manner required by the
Department, documentation from the employee's medical
provider, which the private employer receives from the
employee, that verifies the employee's organ donation. The
private employer must also provide, in the manner required by
the Department, documentation that shows that a qualifying
organ donor leave policy was in place and offered to all
qualifying employees at the time the leave was taken. For the
private employer to receive the tax credit, the employee
taking organ donor leave must allow for the applicable medical
records to be disclosed to the Department. If the private
employer cannot provide the required documentation to the
Department, then the private employer is ineligible for the
credit under this Section. A private employer must also
provide, in the form required by the Department, any
additional documentation or information required by the
Department to administer the credit under this Section. The
credit under this subsection (j) shall be taken within one
year after the date upon which the organ donation leave
begins. If the leave taken spans into a second tax year, the employer qualifies for the allowable credit in the later of the 2 years. If the amount of credit exceeds the tax liability for the year, the excess may be carried and applied to the tax liability for the 3 taxable years following the excess credit year. The tax credit shall be applied to the earliest year for which there is a tax liability. If there are credits for more than one year that are available to offset liability, the earlier credit shall be applied first.

Nothing in this subsection (j) prohibits a private employer from providing an unpaid leave of absence to its employees for the purpose of serving as an organ donor or bone marrow donor; however, if the employer's policy provides for fewer than 30 days of paid leave for organ or bone marrow donation, then the employer shall not be eligible for the credit under this Section.

As used in this subsection (j):

"Organ" means any biological tissue of the human body that may be donated by a living donor, including, but not limited to, the kidney, liver, lung, pancreas, intestine, bone, skin, or any subpart of those organs.

"Organ donor" means a person from whose body an organ is taken to be transferred to the body of another person.

"Private employer" means a sole proprietorship, corporation, partnership, limited liability company, or other entity with one or more employees. "Private

Data centers that would have qualified for a certificate of exemption prior to January 1, 2020 had this amendatory Act of the 101st General Assembly been in effect, may apply for and obtain an exemption for subsequent purchases of computer equipment or enabling
software purchased or leased to upgrade, supplement, or replace computer equipment or enabling software purchased or leased in the original investment that would have qualified.

(35 ILCS 115/3-10) (from Ch. 120, par. 439.103-10)

Sec. 3-10. Rate of tax. Unless otherwise provided in this Section, the tax imposed by this Act is at the rate of 6.25% of the "selling price", as defined in Section 2 of the Service Use Tax Act, of the tangible personal property. For the purpose of computing this tax, in no event shall the "selling price" be
less than the cost price to the serviceman of the tangible personal property transferred. The selling price of each item of tangible personal property transferred as an incident of a sale of service may be shown as a distinct and separate item on the serviceman's billing to the service customer. If the selling price is not so shown, the selling price of the tangible personal property is deemed to be 50% of the serviceman's entire billing to the service customer. When, however, a serviceman contracts to design, develop, and produce special order machinery or equipment, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred incident to the completion of the contract.

Beginning on July 1, 2000 and through December 31, 2000, with respect to motor fuel, as defined in Section 1.1 of the Motor Fuel Tax Law, and gasohol, as defined in Section 3-40 of the Use Tax Act, the tax is imposed at the rate of 1.25%.

With respect to gasohol, as defined in the Use Tax Act, the tax imposed by this Act shall apply to (i) 70% of the cost price of property transferred as an incident to the sale of service on or after January 1, 1990, and before July 1, 2003, (ii) 80% of the selling price of property transferred as an incident to the sale of service on or after July 1, 2003 and on or before July 1, 2017, and (iii) 100% of the cost price thereafter. If, at any time, however, the tax under this Act on sales of gasohol, as defined in the Use Tax Act, is imposed at
the rate of 1.25%, then the tax imposed by this Act applies to
100% of the proceeds of sales of gasohol made during that time.

With respect to majority blended ethanol fuel, as defined
in the Use Tax Act, the tax imposed by this Act does not apply
to the selling price of property transferred as an incident to
the sale of service on or after July 1, 2003 and on or before
December 31, 2023 but applies to 100% of the selling price
thereafter.

With respect to biodiesel blends, as defined in the Use
Tax Act, with no less than 1% and no more than 10% biodiesel,
the tax imposed by this Act applies to (i) 80% of the selling
price of property transferred as an incident to the sale of
service on or after July 1, 2003 and on or before December 31,
2018 and (ii) 100% of the proceeds of the selling price
thereafter. If, at any time, however, the tax under this Act on
sales of biodiesel blends, as defined in the Use Tax Act, with
no less than 1% and no more than 10% biodiesel is imposed at
the rate of 1.25%, then the tax imposed by this Act applies to
100% of the proceeds of sales of biodiesel blends with no less
than 1% and no more than 10% biodiesel made during that time.

With respect to 100% biodiesel, as defined in the Use Tax
Act, and biodiesel blends, as defined in the Use Tax Act, with
more than 10% but no more than 99% biodiesel material, the tax
imposed by this Act does not apply to the proceeds of the
selling price of property transferred as an incident to the
sale of service on or after July 1, 2003 and on or before
December 31, 2023 but applies to 100% of the selling price thereafter.

At the election of any registered serviceman made for each fiscal year, sales of service in which the aggregate annual cost price of tangible personal property transferred as an incident to the sales of service is less than 35%, or 75% in the case of servicemen transferring prescription drugs or servicemen engaged in graphic arts production, of the aggregate annual total gross receipts from all sales of service, the tax imposed by this Act shall be based on the serviceman's cost price of the tangible personal property transferred incident to the sale of those services.

The tax shall be imposed at the rate of 1% on food prepared for immediate consumption and transferred incident to a sale of service subject to this Act or the Service Occupation Tax Act by an entity licensed under the Hospital Licensing Act, the Nursing Home Care Act, the Assisted Living and Shared Housing Act, the ID/DD Community Care Act, the MC/DD Act, the Specialized Mental Health Rehabilitation Act of 2013, or the Child Care Act of 1969, or an entity that holds a permit issued pursuant to the Life Care Facilities Act. The tax shall also be imposed at the rate of 1% on food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, food consisting of or infused with adult use cannabis, soft drinks, and food that has been prepared for immediate consumption and is not otherwise included in this
paragraph) and prescription and nonprescription medicines, drugs, medical appliances, products classified as Class III medical devices by the United States Food and Drug Administration that are used for cancer treatment pursuant to a prescription, as well as any accessories and components related to those devices, modifications to a motor vehicle for the purpose of rendering it usable by a person with a disability, and insulin, blood sugar testing materials, syringes, and needles used by human diabetics. For the purposes of this Section, until September 1, 2009: the term "soft drinks" means any complete, finished, ready-to-use, non-alcoholic drink, whether carbonated or not, including but not limited to soda water, cola, fruit juice, vegetable juice, carbonated water, and all other preparations commonly known as soft drinks of whatever kind or description that are contained in any closed or sealed can, carton, or container, regardless of size; but "soft drinks" does not include coffee, tea, non-carbonated water, infant formula, milk or milk products as defined in the Grade A Pasteurized Milk and Milk Products Act, or drinks containing 50% or more natural fruit or vegetable juice.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "soft drinks" means non-alcoholic beverages that contain natural or artificial sweeteners. "Soft drinks" do not include beverages that contain milk or milk products, soy, rice or similar milk substitutes, or greater
than 50% of vegetable or fruit juice by volume.

Until August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine. Beginning August 1, 2009, and notwithstanding any other provisions of this Act, "food for human consumption that is to be consumed off the premises where it is sold" includes all food sold through a vending machine, except soft drinks, candy, and food products that are dispensed hot from a vending machine, regardless of the location of the vending machine.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "food for human consumption that is to be consumed off the premises where it is sold" does not include candy. For purposes of this Section, "candy" means a preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops, or pieces. "Candy" does not include any preparation that contains flour or requires refrigeration.

Notwithstanding any other provisions of this Act, beginning September 1, 2009, "nonprescription medicines and drugs" does not include grooming and hygiene products. For purposes of this Section, "grooming and hygiene products"
includes, but is not limited to, soaps and cleaning solutions, shampoo, toothpaste, mouthwash, antiperspirants, and sun tan lotions and screens, unless those products are available by prescription only, regardless of whether the products meet the definition of "over-the-counter-drugs". For the purposes of this paragraph, "over-the-counter-drug" means a drug for human use that contains a label that identifies the product as a drug as required by 21 C.F.R. § 201.66. The "over-the-counter-drug" label includes:

(A) A "Drug Facts" panel; or

(B) A statement of the "active ingredient(s)" with a list of those ingredients contained in the compound, substance or preparation.

Beginning on January 1, 2014 (the effective date of Public Act 98-122), "prescription and nonprescription medicines and drugs" includes medical cannabis purchased from a registered dispensing organization under the Compassionate Use of Medical Cannabis Program Act.

As used in this Section, "adult use cannabis" means cannabis subject to tax under the Cannabis Cultivation Privilege Tax Law and the Cannabis Purchaser Excise Tax Law and does not include cannabis subject to tax under the Compassionate Use of Medical Cannabis Program Act.

after the date of sale. The tax collected under this Act in

Section 35-1. Short title. This Act may be cited as the
Reimagine Public Safety Act.

Section 35-5. Intent; purposes. This Act creates a
comprehensive approach to ending Illinois' firearm violence
epidemic. Furthermore, the Act reduces significant gaps in
Illinois' mental health treatment system for youth, young
adults, and families that live in areas with chronic exposure
to firearm violence and exhibit mental health conditions
associated with chronic and ongoing trauma.

Section 35-10. Definitions. As used in this Act:
"Approved technical assistance and training provider"
means an organization that has experience in improving the
outcomes of local community-based organizations by providing
supportive services that address the gaps in their resources
and knowledge about content-based work or provide support and
knowledge about the administration and management of
organizations, or both. Approved technical assistance and
training providers as defined in this Act are intended to
assist community organizations with evaluating the need for
evidenced-based violence prevention services, promising
violence prevention programs, starting up programming, and
strengthening the quality of existing programming.

"Communities" means, for municipalities with a 1,000,000
or more population in Illinois, the 77 designated areas
defined by the University of Chicago Social Science Research Committee as amended in 1980.

"Concentrated firearm violence" means the 17 most violent communities in Illinois municipalities greater than one million residents and the 10 most violent municipalities with less than 1,000,000 residents and greater than 25,000 residents with the most per capita murders from January 1, 2016 through December 31, 2020.

"Criminal justice-involved" means an individual who has been arrested, indicted, convicted, adjudicated delinquent, or otherwise detained by criminal justice authorities for violation of Illinois criminal laws.

"Evidence-based high-risk youth intervention services" means programs that reduce involvement in the criminal justice system, increase school attendance, and refer high-risk teens into therapeutic programs that address trauma recovery and other mental health improvements based on best practices in the youth intervention services field.

"Evidenced-based violence prevention services" means coordinated programming and services that may include, but are not limited to, effective emotional or trauma related therapies, housing, employment training, job placement, family engagement, or wrap-around support services that are considered to be best practice for reducing violence within the field of violence intervention research and practice.

"Evidence-based youth development programs" means
after-school and summer programming that provides services to
teens to increase their school attendance, school performance,
reduce involvement in the criminal justice system, and develop
nonacademic interests that build social emotional persistence
and intelligence based on best practices in the field of youth
development services for high-risk youth.

"Options school" means a secondary school where 75% or
more of attending students have either stopped attending or
failed their secondary school courses since first attending
ninth grade.

"Qualified violence prevention organization" means an
organization that manages and employs qualified violence
prevention professionals.

"Qualified violence prevention professional" means a
community health worker who renders violence preventive
services.

"Social organization" means an organization of individuals
who form the organization for the purposes of enjoyment, work,
and other mutual interests.

Section 35-15. Findings. The Illinois General Assembly
finds that:

(1) Discreet neighborhoods in municipalities across
Illinois are experiencing concentrated and perpetual firearm
violence that is a public health epidemic.

(2) Within neighborhoods experiencing this firearm
violence epidemic, violence is concentrated among teens and young adults that have chronic exposure to the risk of violence and criminal legal system involvement and related trauma in small geographic areas where these young people live or congregate.

(3) Firearm violence victimization and perpetration is highly concentrated in particular neighborhoods, particular blocks within these neighborhoods, and among a small number of individuals living in these areas.

(4) People who are chronically exposed to the risk of firearm violence victimization are substantially more likely to be violently injured or violently injure another person. People who have been violently injured are substantially more likely to be violently reinjured. Chronic exposure to violence additionally leads individuals to engage in behavior, as part of a cycle of community violence, trauma, and retaliation that substantially increases their own risk of violent injury or reinjury.

(5) Evidence-based programs that engage individuals at the highest risk of firearm violence and provide life stabilization, case management, and culturally competent group and individual therapy reduce firearm violence victimization and perpetration and can end Illinois' firearm violence epidemic.

(6) A public health approach to ending Illinois' firearm violence epidemic requires targeted, integrated behavioral
health services and economic opportunity that promotes self-sufficiency for victims of firearm violence and those with chronic exposure to the risk of firearm violence victimization.

(7) A public health approach to ending Illinois' firearm violence epidemic further requires broader preventive investments in the census tracts and blocks that reduce risk factors for youth and families living with extreme risk of firearm violence victimization.

(8) A public health approach to ending Illinois' firearm violence epidemic requires empowering residents and community-based organizations within impacted neighborhoods to provide culturally competent care based on lived experience in these areas and long-term relationships of mutual interest that promote safety and stability.

(9) A public health approach to ending Illinois' firearm violence epidemic further requires that preventive youth development services for youth in these neighborhoods be fully integrated with a team-based model of mental health care to address trauma recovery for those young people at extreme risk of firearm violence victimization.

(10) Community revitalization can be an effective violence prevention strategy, provided that revitalization is targeted to the highest risk geographies within communities and revitalization efforts are designed and led by individuals living and working in the impacted communities.

(a) On or before September 1, 2021, an Office of Firearm Violence Prevention is established within the Department of Human Services. The Office shall have the authority to coordinate and integrate all programs and services listed in this Act and other programs and services the Governor establishes by executive order to maximize an integrated approach to reducing Illinois' firearm violence epidemic and ultimately ending this public health crisis.

(b) The Office of Firearm Violence Prevention shall have grant making authority to distribute funds to qualified violence prevention organizations, approved technical assistance and training providers, and qualified evaluation and assessment organizations to execute the functions established in this Act and other programs and services the Governor establishes by executive order for this Office.

(c) The Director of the Office of Firearm Violence Prevention shall be appointed by the Governor with the advice and consent of the Senate.

(d) For Illinois municipalities with a 1,000,000 or more population, the Office of Firearm Violence Prevention shall determine the 17 most violent neighborhoods as measured by the number of firearm-shot victims from January 1, 2016 through December 31, 2020. These 17 communities shall qualify for grants under this Act and coordination of other State services
from the Office of Firearm Violence Prevention. For Illinois
municipalities with less than 1,000,000 population and greater
than 25,000 residents, the Office of Firearm Violence
Prevention shall identify the 10 municipalities that have the
greatest concentrated firearm violence victims as measured by
the number of firearms victims from January 1, 2016 through
December 31, 2020 divided by the number of residents for each
municipality or area. These 10 municipalities and other
municipalities identified by the Office of Firearm Violence
Prevention shall qualify for grants under this Act and
coordination of other State services from the Office of
Firearm Violence Prevention. The Office of Firearm Violence
Prevention shall consider factors listed in subsection (a) of
Section 35-40 to determine additional municipalities that
qualify for grants under this Act.

(e) The Office of Firearm Violence Prevention shall issue
a report to the General Assembly no later than January 1 of
each year that identifies communities within Illinois
municipalities of 1,000,000 or more residents and
municipalities with less than 1,000,000 residents that are
experiencing concentrated firearm violence, explaining the
investments that are being made to reduce concentrated firearm
violence, and making further recommendations on how to end
Illinois' firearm violence epidemic.

The needs assessment should be the best available instrument that considers the physical and mental condition of each youth based on the youth's family ties, financial resources, past substance use, criminal justice involvement, and trauma related to chronic exposure to firearm violence behavioral health assessment to determine the participant's broader support and mental health needs. The Office of Firearm Violence Prevention shall determine best practices for referring program participants who are at the highest risk of violence and criminal justice involvement to be referred to a youth development intervention program.
established in Section 35-35.

(d) Youth development prevention program participants shall receive services designed to empower participants with the social and emotional skills necessary to forge paths of healthy development and disengagement from high-risk behaviors. Section 35-40. Services for municipalities with less than
1,000,000 residents.

(a) The Office of Firearm Violence Prevention shall identify the 10 municipalities or geographically contiguous areas in Illinois with less than 1,000,000 residents and more than 25,000 residents that have the largest concentrated firearm violence in the last 5 years. These areas shall qualify for grants under this Act. The Office of Firearm Violence Prevention shall identify additional municipalities with more than 25,000 residents and less than 1,000,000 residents that would benefit from violence prevention services. In identifying the additional municipalities that qualify for funding under this Section, the Office of Firearm Violence Prevention shall consider the following factors:

(1) the total number of firearms victims in a potential municipality in the last 5 years;

(2) the per capita rate of firearms victims in a potential municipality in the last 5 years; and

(3) the total potential firearms reduction benefit for the entire State of Illinois by serving the additional municipality compared to the total benefit of investing in all other municipalities identified for grants to municipalities with more than 25,000 residents and less than 1,000,000 residents.

(b) Resources for each of these areas shall be distributed based on maximizing the total potential reduction in firearms victimization for all municipalities receiving grants under
this Act. The Office of Firearm Violence Prevention may establish a minimum grant amount for each municipality awarded grants under this Section to ensure grants will have the potential to reduce violence in each municipality. The Office of Firearm Violence Prevention shall maximize the potential for violence reduction throughout Illinois after determining the necessary minimum grant amounts to be effective in each municipality receiving grants under this Section.

(c) The Office of Firearm Violence Prevention shall create local advisory councils for each of the 10 areas designated for the purpose of obtaining recommendations on how to distribute funds in these areas to reduce firearm violence incidents. Local advisory councils shall consist of 5 members with the following expertise or experience:

(1) a representative of a nonelected official in local government from the designated area;

(2) a representative of an elected official at the local or state level for the area;

(3) a representative with public health experience in firearm violence prevention or youth development; and

(4) two residents of the subsection of each area with the most concentrated firearm violence incidents.

(d) The Office of Firearm Violence Prevention shall provide data to each local council on the characteristics of firearm violence in the designated area and other relevant information on the physical and demographic characteristics of
the designated area. The Office of Firearm Violence Prevention shall also provide best available evidence on how to address the social determinants of health in the designated area in order to reduce firearm violence.

(e) Each local advisory council shall make recommendations on how to allocate distributed resources for its area based on information provided to them by the Office of Firearm Violence Prevention.

(f) The Office of Firearm Violence Prevention shall consider the recommendations and determine how to distribute funds through grants to community-based organizations and local governments. To the extent the Office of Firearm Violence Prevention does not follow a local advisory council's recommendation on allocation of funds, the Office of Firearm Violence Prevention shall explain in writing why a different allocation of resources is more likely to reduce firearm violence in the designated area.

(g) Subject to appropriation, the Office of Firearm Violence Prevention shall issue grants to local governmental agencies and community-based organizations to maximize firearm violence reduction each year. Grants shall be distributed on or before January 1, 2022 for Fiscal Year 2022. Grants in proceeding years shall be issued on or before July 15 of the relevant fiscal year.

Section 35-50. Medicaid trauma recovery services for
adults.

(a) On or before January 15, 2022, the Department of Healthcare and Family Services shall design, receive approval from the United States Department of Health and Human Services, and implement a team-based model of care system to address trauma recovery from chronic exposure to firearm violence for Illinois adults.

(b) The team-based model of care system shall reimburse for a minimum of the following services:

   (1) Outreach services that recruit trauma-exposed adults into the system and develop supportive relationships with them based on lived experience in their communities. Outreach services include both services to support impacted individuals and group services that reduce violence between groups that need conflict resolution.

   (2) Case management and community support services that provide stabilization to individuals recovering from chronic exposure to firearm violence, including group cognitive behavior therapy sessions and other evidence-based interventions that promote behavioral change.

   (3) Group and individual therapy that addresses underlying mental health conditions associated with post-traumatic stress disorder, depression, anxiety, substance use disorders, intermittent explosive disorder,
oppositional defiant disorder, attention deficit hyperactivity disorder, and other mental conditions as a result of chronic trauma.

(4) Services deemed necessary for the effective integration of paragraphs (1), (2), and (3).

(c) The Department of Healthcare and Family Services shall develop a reimbursement methodology.

Section 35-55. Medicaid trauma recovery services for children and youth.

(a) On or before January 15, 2022, the Department of Healthcare and Family Services shall design, receive approval from the United States Department of Health and Human Services, and implement a team-based model of care to address trauma recovery from chronic exposure to firearm violence for Illinois children and youth ages 10 to 17. Services for youth in care require additional support to maximize their effectiveness through the family systems model.

(b) The team-based model of care shall reimburse for a minimum of the following services:

(1) Outreach services that recruit trauma-exposed children and youth into the system and develop supportive relationships with them based on lived experience in their communities.

(2) Case management and school support services that decrease truancy and criminal justice system involvement.
(3) Group and individual therapy that addresses underlying mental health conditions associated with post-traumatic stress disorder, depression, anxiety, substance use disorders, intermittent explosive disorder, oppositional defiant disorder, attention deficit hyperactivity disorder, and other mental conditions as a result of chronic trauma.

(4) An evidence-based family systems intervention with proven results for reduction in anti-social behaviors.

(5) Services deemed necessary for the effective integration of paragraphs (1), (2), (3), and (4).

(c) The Department of Healthcare and Family Services shall develop a reimbursement methodology.

Section 35-60. Rulemaking authority; emergency rulemaking authority. The General Assembly finds that exposure to chronic firearm violence qualifies for emergency rulemaking under Section 5-45 of the Illinois Administrative Procedure Act because exposure to chronic firearm violence is a situation that reasonably constitutes a threat to public interest, safety, and welfare. The Department of Healthcare and Family Services and the Office of Firearm Violence Prevention shall have rulemaking authority, including emergency rulemaking authority, as is necessary to implement all elements of this Act.
Section 35-105. The Illinois Administrative Procedure Act is amended by adding Section 5-45.14 as follows:

(5 ILCS 100/5-45.14 new)

Sec. 5-45.14. Emergency rulemaking; Reimagine Public Safety Act.
