HB0342 Engrossed - 6 - LRB103 03869 RJT 48875 b

1	(b) In this subsection (b):
2	"Trauma" is defined according to an event, an experience,
3	and effects. Individual trauma results from an event, series
4	of events, or set of circumstances that is experienced by an
5	individual as physically or emotionally harmful or life
6	threatening and that has lasting adverse effects on the
7	individual's functioning and mental, physical, social, or
8	emotional well-being. Collective trauma is a psychological
9	reaction to a traumatic event shared by any group of people.
10	This may include, but is not limited to, community violence,
11	experiencing racism and discrimination, and the lack of the
12	essential supports for well-being, such as educational or
13	economic opportunities, food, health care, housing, and
14	community cohesion. Trauma can be experienced by anyone,
15	though it is disproportionately experienced by members of
16	marginalized groups. Systemic and historical oppression, such
17	as racism, is often at the root of this inequity. Symptoms may
18	vary at different developmental stages and across different
19	cultural groups and different communities.
20	"Trauma-responsive learning environments" means learning
21	environments developed during an ongoing, multiyear-long
22	process that typically progresses across the following 3
23	stages:
24	(1) A school or district is "trauma aware" when it:
25	(A) has personnel that demonstrate a foundational
26	understanding of a broad definition of trauma that is

HB0342 Engrossed - 7 - LRB103 03869 RJT 48875 b

developmentally and culturally based; includes 1 students, personnel, and communities; and recognizes 2 3 the potential effect on biological, cognitive, academic, and social-emotional functioning; and 4 5 (B) recognizes that traumatic exposure can impact behavior and learning and should be acknowledged in 6 policies, strategies, and systems of support for 7 students, families, and personnel. 8 9 (2) A school or district is "trauma responsive" when 10 it progresses from awareness to action in the areas of 11 policy, practice, and structural changes within a 12 multi-tiered system of support to promote safety, positive relationships, and self-regulation while underscoring the 13 14 importance of personal well-being and cultural 15 responsiveness. Such progress may: 16 (A) be aligned with the Illinois Quality Framework and integrated into a school or district's continuous 17 improvement process as evidence to support allocation 18 19 of financial resources; 20 (B) be assessed and monitored bv a 21 multidisciplinary leadership team on an ongoing basis; 22 and 23 (C) involve the engagement and capacity building 24 of personnel at all levels to ensure that adults in the 25 learning environment are prepared to recognize and 26 respond to those impacted by trauma.

HB0342 Engrossed - 8 - LRB103 03869 RJT 48875 b

1	(3) A school or district is healing centered when it
2	acknowledges its role and responsibility to the community,
3	fully responds to trauma, and promotes resilience and
4	healing through genuine, trusting, and creative
5	relationships. Such schools or districts may:
6	(A) promote holistic and collaborative approaches
7	that are grounded in culture, spirituality, civic
8	engagement, and equity; and
9	(B) support agency within individuals, families,
10	and communities while engaging people in collective
11	action that moves from transactional to
12	transformational.
13	"Whole child" means using a child-centered, holistic,
14	equitable lens across all systems that prioritizes physical,
15	mental, and social-emotional health to ensure that every child
16	is healthy, safe, supported, challenged, engaged, and
17	protected.
18	Starting with the 2024-2025 school year, the teachers
19	institutes shall provide instruction on trauma-informed
20	practices and include the definitions of trauma,
21	trauma-responsive learning environments, and whole child set
22	forth in this subsection (b) before the first student
23	attendance day of each school year.

23	(105 ILCS 5/22-95 new)
24	Sec. 22-95. Whole Child Task Force.
25	(a) The General Assembly makes all of the following

1 <u>findings:</u>

2	(1) The COVID-19 pandemic has exposed systemic
3	inequities in American society. Students, educators, and
4	families throughout this State have been deeply affected
5	by the pandemic, and the impact of the pandemic will be
6	felt for years to come. The negative consequences of the
7	pandemic have impacted students and communities
8	differently along the lines of race, income, language, and
9	special needs. However, students in this State faced
10	significant unmet physical health, mental health, and
11	social and emotional needs even prior to the pandemic.
12	(2) The path to recovery requires a commitment from
13	adults in this State to address our students cultural,
14	physical, emotional, and mental health needs and to
15	provide them with stronger and increased systemic support
16	and intervention.
17	(3) It is well documented that trauma and toxic stress
18	diminish a child's ability to thrive. Forms of childhood
19	trauma and toxic stress include adverse childhood
20	experiences, systemic racism, poverty, food and housing
21	insecurity, and gender-based violence. The COVID-19
22	pandemic has exacerbated these issues and brought them
23	into focus.
24	(4) It is estimated that, overall, approximately 40%
25	of children in this State have experienced at least one
26	adverse childhood experience and approximately 10% have

HB0342 Engrossed - 28 - LRB103 03869 RJT 48875 b

1	experienced 3 or more adverse childhood experiences.
2	However, the number of adverse childhood experiences is
3	higher for Black and Hispanic children who are growing up
4	in poverty. The COVID-19 pandemic has amplified the number
5	of students who have experienced childhood trauma. Also,
6	the COVID-19 pandemic has highlighted preexisting
7	inequities in school disciplinary practices that
8	disproportionately impact Black and Brown students.
9	Research shows, for example, that girls of color are
10	disproportionately impacted by trauma, adversity, and
11	abuse, and instead of receiving the care and
12	trauma-informed support they may need, many Black girls in
13	particular face disproportionately harsh disciplinary
14	measures.
15	(5) The cumulative effects of trauma and toxic stress

16 adversely impact the physical health of students, as well 17 as the students' ability to learn, form relationships, and self-regulate. If left unaddressed, these effects increase 18 a student's risk for depression, alcoholism, anxiety, 19 20 asthma, smoking, and suicide, all of which are risks that disproportionately affect Black youth and may lead to a 21 22 host of medical diseases as an adult. Access to infant and early childhood mental health services is critical to 23 24 ensure the social and emotional well-being of this State's 25 youngest children, particularly those children who have 26 experienced trauma.

HB0342 Engrossed - 29 - LRB103 03869 RJT 48875 b

1	(6) Although this State enacted measures through
2	Public Act 100-105 to address the high rate of early care
3	and preschool expulsions of infants, toddlers, and
4	preschoolers and the disproportionately higher rate of
5	expulsion for Black and Hispanic children, a recent study
6	found a wide variation in the awareness, understanding,
7	and compliance with the law by providers of early
8	childhood care. Further work is needed to implement the
9	law, which includes providing training to early childhood
10	care providers to increase the providers' understanding of
11	the law, increasing the availability and access to infant
12	and early childhood mental health services, and building
13	aligned data collection systems to better understand
14	expulsion rates and to allow for accurate reporting as
15	required by the law.
16	(7) Many educators and schools in this State have
17	embraced and implemented evidence-based restorative
18	justice and trauma-responsive and culturally relevant
19	practices and interventions. However, the use of these
20	interventions on students is often isolated or is
21	implemented occasionally and only if the school has the
22	appropriate leadership, resources, and partners available

22 appropriate leadership, resources, and partners available
23 to engage seriously in this work. It would be malpractice
24 to deny our students access to these practices and
25 interventions, especially in the aftermath of a
26 once-in-a-century pandemic.

The data collected must include 5 information relating to the availability of trauma 6 7 responsive support structures in schools, as well as 8 disciplinary practices employed on students in person or 9 through other means, including during remote or blended 10 learning. It should also include information on the use of 11 and funding for school resource officers and other similar 12 police personnel in school programs.

13 (5) To recommend an implementation timeline, including 14 the key roles, responsibilities, and resources to advance 15 this State toward a system in which every school, 16 district, and community is progressing toward becoming 17 trauma-responsive.

18 (6) To seek input and feedback from stakeholders,
 19 including parents, students, and educators, who reflect
 20 the diversity of this State.
