

1 AN ACT concerning health.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 1. Short title. This Act may be cited as the
5 Outdoor Rx Program Act.

6 Section 5. Intent. Studies have shown that time outdoors
7 can be a valuable adjunct therapy in addition to more
8 traditional health care, while also reducing reliance on
9 prescription medication. The therapeutic benefits of time
10 spent outdoors is clinically proven and known to help reduce
11 stress, improve concentration, and promote overall well-being,
12 both physical and mental. Natural resource-based and
13 outdoor-based therapy programs, including adventure therapy,
14 wilderness therapy, horticultural therapy, walk-and-talk
15 therapy, and other nature-oriented programs, are currently
16 being used by mental health professionals and are shown to
17 have benefits, including, but not limited to, reduction of
18 stress, restoration of attention, and an improved sense of
19 well-being. Such outdoor programs aim to connect people with
20 nature, thereby proving to be particularly beneficial to
21 individuals undergoing a recovery process. Recognizing the
22 healing benefits of natural resource-based or outdoor-based
23 therapy programs to residents of the State, particularly

1 veterans and individuals recovering from substance abuse or a
2 physical or mental trauma, the General Assembly supports the
3 establishment of an Outdoor Rx Program.
