SENATE RESOLUTION

2

WHEREAS, Prescribed fire provides multiple ecological,
3 economic, and cultural benefits to the State of Illinois; and

4

WHEREAS, Prescribed fire has been practiced for thousands
5 of years and was a primary tool used by Indigenous peoples to
6 attract game, to stimulate a rich ground layer of plants for
7 harvesting, and to keep woodlands and grasslands open and easy
8 to traverse; and

9

10 WHEREAS, Prescribed fire is a traditional land management
11 practice and public safety tool that helps prevent and lessen
the severity of wildfires; and

12

13 WHEREAS, Prescribed fire is a valuable tool used by
14 forest, prairie, and wetland landowners and managers in
15 reducing hazardous fuels, reducing the risk of destructive
16 wildfires, preparing sites for both natural and artificial
17 forest regeneration, improving access to and the appearance of
18 land, and controlling detrimental insects and forest diseases;
and

19

20 WHEREAS, Prescribed fire is an effective natural tool for
controlling invasive species; and

1 WHEREAS, Prescribed fire is one of the most important land
2 management practices in maintaining and restoring healthy
3 landscapes, but only approximately six percent of conservation
4 lands in Illinois are currently being managed with prescribed
5 fire; and

6 WHEREAS, Prescribed fire is used to restore and maintain
7 fire-dependent ecosystems and to manage wildlife habitat for
8 many species; it is a vital tool to maintain economic,
9 biological, and aesthetic resources across Illinois; and

10 WHEREAS, The Illinois Prescribed Fire Council is an
11 organization of both public and private partners with a
12 mission to promote the safe and continued use of prescribed
13 fire on the Illinois landscape; and

14 WHEREAS, The Illinois General Assembly passed the Illinois
15 Prescribed Burning Act in 2007, defining prescribed fire as
16 "the planned application of fire to naturally occurring
17 vegetative fuels under specified environmental conditions and
18 following appropriate precautionary measures, which causes the
19 fire to be confined to a predetermined area and accomplish the
20 planned land management objectives."; and

21 WHEREAS, Prescribed fire helps keep Illinois grasslands
22 and forests healthy, which, in return, provides ecological

1 services such as clean air and clean water and contributes to
2 the quality of life of the State's citizens and to local
3 economies; therefore, be it

4 RESOLVED, BY THE SENATE OF THE ONE HUNDRED THIRD GENERAL
5 ASSEMBLY OF THE STATE OF ILLINOIS, that we declare April of
6 2023 as "Prescribed Burning Awareness Month" in the State of
7 Illinois; and be it further

8 RESOLVED, That we support the appropriate and continued
9 use of prescribed fire in Illinois; and be it further

10 RESOLVED, That a suitable copy of this resolution be
11 presented to the Illinois Prescribed Fire Council as a symbol
12 of our respect and esteem.
