If the State Superintendent of Education determines that the failure to provide the minimum school term was due to a school being closed on or after September 11, 2001 for more than one-half day of attendance due to a bioterrorism or terrorism threat that was investigated by a law enforcement agency, the State aid claim shall not be reduced.

If, during any school day, (i) a school district has provided at least one clock hour of instruction but must close the schools due to adverse weather conditions or due to a condition beyond the control of the school district that poses a hazardous threat to the health and safety of pupils prior to providing the minimum hours of instruction required for a full day of attendance, or (ii) the school district must delay the start of the school day due to adverse weather conditions and this delay prevents the district providing the minimum hours of instruction required for a full day of attendance, the partial day of attendance may be counted as a full day of attendance. The partial day of attendance and the reasons therefor shall be certified in writing within a month of the closing or delayed start by the local school district superintendent to the Regional Superintendent of Schools for forwarding to the Superintendent of Education for approval.

If a school building is ordered to be closed by the school board, in consultation with a local emergency response agency, due to a condition that poses a hazardous threat to the health and safety of pupils, then the school district

school term may be approved by the State Superintendent of

Education pursuant to this Section unless a school district

A district may operate all attendance centers on this revised schedule, or may apply the schedule to selected attendance centers, taking into consideration such factors as pupil transportation schedules and patterns and sources of energy for individual attendance centers.
