8 Sec. 5. Findings and State policy. The General Assembly
9 recognizes that agriculture is a vital sector of the Illinois
10 economy and that an important growth industry for the Illinois
11 agricultural sector is renewable fuels production. Renewable
12 fuels produced from Illinois agricultural products hold great
13 potential for growing the State's economy, reducing our
14 dependence on foreign oil supplies, and improving the
15 environment by reducing harmful emissions from vehicles.
16 Illinois is the nation's leading producer of ethanol, a clean,
17 renewable fuel with significant environmental benefits. The
18 General Assembly finds that reliable supplies of renewable
19 fuels will be integral to the long term energy security of the
20 United States. The General Assembly declares that it is the
21 public policy of the State of Illinois to promote and encourage
22 the production and use of renewable fuels as a means not only
23 to improve air quality in the State and the nation, but also to
24 increase the size of ~~grow~~ the agricultural sector of the
25 Illinois economy. To achieve these public policy objectives,
26 the General Assembly hereby authorizes the creation and
27 implementation of the Illinois Renewable Fuels Development
28 Program within the Department.
