

1 HOUSE JOINT RESOLUTION

2 WHEREAS, The number of children suffering from some type of
3 eating disorder that either results in unhealthy weight gain or
4 weight loss has increased significantly in the past 10 years
5 without discrimination as to age, sex, or race; and

6 WHEREAS, An estimated 14 million children ages 2 to 17 are
7 considered obese and an additional 8.6 million children are
8 considered at risk for obesity, a figure that has nearly
9 tripled since the 1970s; and

10 WHEREAS, Obese children often remain obese into adulthood,
11 placing them at risk for developing 4 of the 10 leading causes
12 of death in the United States: coronary heart disease, Type II
13 diabetes, stroke, and cancer; and

14 WHEREAS, The cost of treating long-term health problems
15 linked to children and adults that are overweight or obese has
16 been estimated at more than \$93 billion a year; and

17 WHEREAS, The eating habits children develop at an early age
18 can help prevent them from becoming obese or developing other
19 unhealthy eating disorders, such as anorexia nervosa or
20 bulimia; and

21 WHEREAS, The effort to improve the nutritional health and
