## Drivers Education Safety Committee

## Filed: 3/7/2007

AMENDMENT TO HOUSE BILL 1786

#### Abstract

AMENDMENT NO. $\qquad$ . Amend House Bill 1786 on page 1, line 5, by replacing "Section 11-601" with "Sections 11-601 and 11-602"; and

on page 3, below line 24, by inserting the following:
"(625 ILCS 5/11-602) (from Ch. 95 1/2, par. 11-602)
Sec. 11-602. Alteration of limits by Department. Whenever the Department determines, upon the basis of an engineering and traffic investigation concerning any highway for which the Department has maintenance responsibility, that a maximum speed limit prescribed in Section 11-601 of this Chapter is greater or less than is reasonable or safe with respect to the conditions found to exist at any intersection or other place on such highway or along any part or zone thereof, the Department shall determine and declare a reasonable and safe absolute maximum speed limit applicable to such intersection or place,
or along such part or zone. However, such limit shall not exceed 65 miles per hour, or 55 miles per hour for a seend division vehicle designed or used for the earrying of a gross weight of 8,001 pounds or more (including the weight of the whicle and mimum load on highway or street which is especially designed for through traffic and to, from, or over which owners of or persons having an interest in abutting property or other persons have no right or easement, or only a limited right or easement, of access, crossing, light, air, or view, and shall not exceed 55 miles per hour on any other highway. Where a highway under the Department's jurisdiction is contiguous to school property, the Department may, at the school district's request, set a reduced maximum speed limit for student safety purposes in the portion of the highway that faces the school property and in the portions of the highway that extend one-quarter mile in each direction from the opposite ends of the school property. A limit determined and declared as provided in this Section becomes effective, and suspends the applicability of the limit prescribed in Section 11-601 of this Chapter, when appropriate signs giving notice of the limit are erected at such intersection or other place, or along such part or zone of the highway. Electronic speed-detecting devices shall not be used within 500 feet beyond any such sign in the direction of travel; if so used in violation hereof, evidence obtained thereby shall be inadmissible in any prosecution for speeding. However, nothing

1 in this Section prohibits the use of such electronic 2 speed-detecting devices within 500 feet of a sign within a
special school speed zone indicating such zone, conforming to the requirements of Section $11-605$ of this Act, nor shall evidence obtained thereby be inadmissible in any prosecution for speeding provided the use of such device shall apply only to the enforcement of the speed limit in such special school speed zone.
