

SB1453

96TH GENERAL ASSEMBLY

State of Illinois

2009 and 2010

SB1453

Introduced 2/18/2009, by Sen. Edward D. Maloney

SYNOPSIS AS INTRODUCED:

110 ILCS 215/4

from Ch. 111 1/2, par. 824

Amends the Health Services Education Grants Act. Provides that, in addition to grants to medical, dental, pharmacy, optometry, and nursing schools and physician assistant programs, grants may be made to psychology and other physical and mental health-related schools and programs (instead of to other health-related schools and programs). Effective immediately.

LRB096 08728 NHT 18860 b

FISCAL NOTE ACT
MAY APPLY

A BILL FOR

1 AN ACT concerning education.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 5. The Health Services Education Grants Act is
5 amended by changing Section 4 as follows:

6 (110 ILCS 215/4) (from Ch. 111 1/2, par. 824)

7 Sec. 4. Grants may be made to the following classes of
8 institutions that offer health services programs: (i) medical,
9 dental, pharmacy, optometry, and nursing schools, (ii)
10 physician assistant programs, (iii) psychology and other
11 physical and mental health-related schools and programs, and
12 (iv) hospitals and clinical facilities used in health service
13 training programs.

14 Qualification for grants shall be on the basis of either
15 the number of Illinois resident enrollees or the number of
16 degrees granted to students who are residents of this State or
17 both. The grant amount shall be determined by the Board of
18 Higher Education for each class of institution.

19 At the discretion of the Board of Higher Education grants
20 may be made for a class of institution in any or all of the
21 following forms:

22 (1) Single nonrecurring grants for planning and
23 capital expense based on the increase in the number of

1 Illinois resident enrollees;

2 (2) Annual grants based on the number of degrees
3 granted to (a) Illinois resident enrollees, or (b) Illinois
4 resident enrollees from minority racial and ethnic groups,
5 or both (a) and (b);

6 (3) Annual stabilization grants based on the number of
7 (a) Illinois residents enrolled, or (b) Illinois residents
8 enrolled from minority racial and ethnic groups, or both
9 (a) and (b); and

10 (4) Program priority grants based on State residents
11 enrolled in eligible programs that address public demand
12 for health services, workforce needs and shortages, and
13 other programmatic priorities, such as sole service
14 providers, academic needs, or industry standards. The
15 Board of Higher Education may annually dedicate a portion
16 of appropriated funds, not to exceed 10% of appropriations,
17 to support program priority grants. In determining program
18 priority areas, the Board of Higher Education shall
19 annually consult with constituent institutions.

20 In awarding grants to nursing schools and to hospital
21 schools of nursing, the Board of Higher Education may also
22 consider whether the nursing program is located in a certified
23 nurse shortage area. For purposes of this Section "certified
24 nurse shortage area" means an area certified by the Director of
25 the Department of Public Health as a nurse shortage area based
26 on the most reliable data available to the Director.
