FISCAL NOTE ACT  
MAY APPLY

A BILL FOR

1 AN ACT concerning education.

2 **Be it enacted by the People of the State of Illinois,**  
3 **represented in the General Assembly:**

4 Section 5. The University of Illinois Act is amended by  
5 changing Section 25 as follows:

6 (110 ILCS 305/25)

7 Sec. 25. Limitation on tuition increase. This Section  
8 applies only to those students who first enroll after the  
9 2003-2004 academic year. For 4 continuous academic years  
10 following initial enrollment (or for undergraduate programs  
11 that require more than 4 years to complete, for the normal time  
12 to complete the program, as determined by the University), the  
13 tuition charged an undergraduate student who is an Illinois  
14 resident shall not exceed the amount that the student was  
15 charged at the time he or she first enrolled in the University.  
16 However, if the student changes majors during this time period,  
17 the tuition charged the student shall equal the amount the  
18 student would have been charged had he or she been admitted to  
19 the changed major when he or she first enrolled. An  
20 undergraduate student who is an Illinois resident and who has  
21 for 4 continuous academic years been charged no more than the  
22 tuition amount that he or she was charged at the time he or she  
23 first enrolled in the University shall be charged tuition not

1 to exceed the amount the University charged students who first  
2 enrolled in the University for the academic year following the  
3 academic year the student first enrolled in the University for  
4 a maximum of 2 additional continuous academic years.

5 Subject to appropriation to offset the costs, for the  
6 2015-2016, 2016-2017, and 2017-2018 academic years, the  
7 tuition charged an undergraduate student who is an Illinois  
8 resident pursuing a major in a science, technology,  
9 engineering, or mathematics field of study must not exceed the  
10 tuition amount charged an undergraduate student who is an  
11 Illinois resident for the 2014-2015 academic year. If money is  
12 not appropriated in a given fiscal year to offset the costs of  
13 this freeze on the tuition rate, then the Board of Trustees,  
14 for that particular academic year, is authorized to charge a  
15 lesser amount of tuition to students who are Illinois residents  
16 pursuing a major in a science, technology, engineering, or  
17 mathematics field of study than the tuition charged students  
18 who are Illinois residents pursuing majors in other fields of  
19 study.

21 Section 10. The Southern Illinois University Management  
22 Act is amended by changing Section 15 as follows:

23 (110 ILCS 520/15)

24 Sec. 15. Limitation on tuition increase. This Section

1 applies only to those students who first enroll after the  
2 2003-2004 academic year. For 4 continuous academic years  
3 following initial enrollment (or for undergraduate programs  
4 that require more than 4 years to complete, for the normal time  
5 to complete the program, as determined by the University), the  
6 tuition charged an undergraduate student who is an Illinois  
7 resident shall not exceed the amount that the student was  
8 charged at the time he or she first enrolled in the University.  
9 However, if the student changes majors during this time period,  
10 the tuition charged the student shall equal the amount the  
11 student would have been charged had he or she been admitted to  
12 the changed major when he or she first enrolled. An  
13 undergraduate student who is an Illinois resident and who has  
14 for 4 continuous academic years been charged no more than the  
15 tuition amount that he or she was charged at the time he or she  
16 first enrolled in the University shall be charged tuition not  
17 to exceed the amount the University charged students who first  
18 enrolled in the University for the academic year following the  
19 academic year the student first enrolled in the University for  
20 a maximum of 2 additional continuous academic years.

21 Subject to appropriation to offset the costs, for the  
22 2015-2016, 2016-2017, and 2017-2018 academic years, the  
23 tuition charged an undergraduate student who is an Illinois  
24 resident pursuing a major in a science, technology,  
25 engineering, or mathematics field of study must not exceed the  
26 tuition amount charged an undergraduate student who is an

1 Illinois resident for the 2014-2015 academic year. If money is  
2 not appropriated in a given fiscal year to offset the costs of  
3 this freeze on the tuition rate, then the Board, for that  
4 particular academic year, is authorized to charge a lesser  
5 amount of tuition to students who are Illinois residents  
6 pursuing a major in a science, technology, engineering, or  
7 mathematics field of study than the tuition charged students  
8 who are Illinois residents pursuing majors in other fields of  
9 study.

14 Sec. 5-120. Limitation on tuition increase. This Section  
15 applies only to those students who first enroll after the  
16 2003-2004 academic year. For 4 continuous academic years  
17 following initial enrollment (or for undergraduate programs  
18 that require more than 4 years to complete, for the normal time  
19 to complete the program, as determined by the University), the  
20 tuition charged an undergraduate student who is an Illinois  
21 resident shall not exceed the amount that the student was  
22 charged at the time he or she first enrolled in the University.  
23 However, if the student changes majors during this time period,  
24 the tuition charged the student shall equal the amount the

1 student would have been charged had he or she been admitted to  
2 the changed major when he or she first enrolled. An

6 first enrolled in the University shall be charged tuition not  
7 to exceed the amount the University charged students who first  
8 enrolled in the University for the academic year following the  
9 academic year the student first enrolled in the University for  
10 a maximum of 2 additional continuous academic years.

11 Subject to appropriation to offset the costs, for the  
12 2015-2016, 2016-2017, and 2017-2018 academic years, the  
13 tuition charged an undergraduate student who is an Illinois  
14 resident pursuing a major in a science, technology,  
15 engineering, or mathematics field of study must not exceed the  
16 tuition amount charged an undergraduate student who is an  
17 Illinois resident for the 2014-2015 academic year. If money is  
18 not appropriated in a given fiscal year to offset the costs of  
19 this freeze on the tuition rate, then the Board, for that  
20 particular academic year, is authorized to charge a lesser  
21 amount of tuition to students who are Illinois residents  
22 pursuing a major in a science, technology, engineering, or
