

1 AN ACT concerning local government.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 5. The Children's Advocacy Center Act is amended by
5 changing Sections 2, 3, and 4 and by adding Section 2.5 as
6 follows:

7 (55 ILCS 80/2) (from Ch. 23, par. 1802)

8 Sec. 2. Legislative findings.

9 (a) The General Assembly finds that the creation
10 ~~establishment~~ of accredited Children's Advocacy Centers
11 ("CACs") accredited throughout the State of Illinois is
12 essential to providing a formal, comprehensive, integrated,
13 and multidisciplinary response to the investigation and
14 disposition of reports of child maltreatment; by expediting and
15 improving the validation or invalidation of such allegations
16 for the benefit of children, their families and accused
17 perpetrators; by requiring the use of collaborative decision
18 making and case management, thereby reducing the number of
19 times children are questioned and examined, thus preventing
20 further trauma of children; by coordinating therapeutic
21 intervention and services thereby providing safety and
22 treatment for child victims and their families; by developing
23 communication, case coordination, and information sharing

1 policies and protocols among allied professionals and agencies
2 who play a role in child protection in a given jurisdiction; by
3 collecting data to report to partner agencies, the community,
4 and the General Assembly, and to use in continually improving
5 collaborative multidisciplinary investigations; and, by
6 maintaining the confidentiality of client records and records
7 from partner agencies, to ensure the protection of the privacy
8 of children, their families and accused perpetrators. A CAC
9 organized and operating under this Act may accept, receive and
10 disburse in furtherance of its duties and functions any funds,
11 grants and services made available by the State of Illinois and
12 its agencies, the federal government and its agencies, a unit
13 of local government, or private or civic sources. To the extent
14 permitted by applicable law, participating entities shall
15 maintain the confidentiality of case-related information which
16 includes, but is not limited to, case review discussions, case
17 review notes, written reports and records, and verbal exchanges
18 ~~is desirable to coordinate the investigation, prosecution and~~
19 ~~treatment referral of child sexual abuse.~~

20 ~~Further, the General Assembly finds that the creation of an~~
21 ~~advisory board is desirable to develop a coordinated protocol~~
22 ~~for the handling of child sexual abuse cases among various~~
23 ~~agencies responsible for investigation, prosecution and~~
24 ~~treatment referral and that such agencies should be encouraged~~
25 ~~to adopt such a coordinated protocol.~~

26 (b) The General Assembly further finds that the most

1 precious resource in the State of Illinois is our children. The
2 protection of children from physical abuse, sexual abuse and
3 exploitation, and neglect, hereinafter "child maltreatment",
4 is at the core of the duties and fundamental responsibilities
5 of the General Assembly and provides the highest compelling
6 interest to create and maintain a system to effectively respond
7 to reports of child maltreatment and protect children from
8 harm.

11 Sec. 2.5. Definitions. As used in this Section:

12 "Accreditation" means the process in which certification
13 of competency, authority, or credibility is presented by
14 standards set by the National Children's Alliance to ensure
15 effective, efficient and consistent delivery of services by a
16 CAC.

17 "Child maltreatment" includes any act or occurrence, as
18 defined in Section 5 of the Criminal Code of 2012, under the
19 Children and Family Services Act or the Juvenile Court Act
20 involving either a child victim or child witness.

21 "Children's Advocacy Center" or "CAC" is a child-focused,
22 trauma-informed, facility-based program in which
23 representatives from law enforcement, child protection,
24 prosecution, mental health, forensic interviewing, medical,
25 and victim advocacy disciplines collaborate to interview

1 children, meet with a child's parent or parents, caregivers,
2 and family members, and make team decisions about the
3 investigation, prosecution, safety, treatment, and support
4 services for child maltreatment cases.

5 "Children's Advocacy Centers of Illinois" or "CACI" is a

8 of Illinois. It defines membership and engages member CACs in
9 the NCA accreditation process and collecting and sharing of
10 data, and provides training, leadership, and technical
11 assistance to existing and emerging CACs in the State.

12 "Forensic interview" means an interview between a trained
13 forensic interviewer, as defined by NCA standards, and a child
14 in which the interviewer obtains information from children in
15 an unbiased and fact finding manner that is developmentally

16 reports of child maltreatment. NCA is the national organization
17 that provides the standards for CAC accreditation.

18 "Protocol" means a written methodology defining the
19 responsibilities of each of the MDT members in the
20 investigation and prosecution of child maltreatment within a
21 defined jurisdiction. Written protocols are signed documents
